

Forgive My Ex-husband Chapter 258

There were many guests in the main villa of the Gu's mansion today. The few villas nearby were the rest area, while the villa where Melinda and Jonas lived before was a restricted area.

Without the consent of Jonas, no one was allowed to come in except for Melinda, even if Nelson and Queena gave the same treatment to her.

The driver sent Melinda to the villa and went to help. After some discussion with several cooperative partners, Jonas also ran to the back side.

All the clothes on him were customized in private. Today's suit was made of sapphire blue, bringing a sense of dignity. The watch on his wrist and the simple cuffs showed this man's identity.

He looked at Melinda with a faint smile in his obsidian eyes, and his hair was arranged meticulously.

In comparison to Jonas's clothes, Melinda looked too casual.

She pulled her clothes awkwardly. The smile at the corners of her mouth went down to a straight line.

"I knew you would forget," Jonas said reluctantly. Just now the driver told him that the young lady looked very nervous.

"I'm sorry," Melinda said guiltily, cursing herself for being so embarrassed on such an important occasion.

It was an important place for her arranged by Jonas, but she ignored it.

Noticing the remorseful look on her face, Jonas realized that Melinda was sensitive and he'd better not hide his true feelings in front of her, or she would make blind and disorderly conjectures again.

"You don't have to say sorry. I've told you I'll take care of everything. You don't need to worry about it. It's the same with the dress and style."

Jonas gently stretched out his hand and led Melinda into the room.

It was a bright red evening dress, shining with charm. It was the same elaborate design as Jonas's.

The words 'couple suit' flashed through her mind. Melinda looked at Jonas and asked him in silence.

"Do you like it?" Jonas asked openly, not feeling embarrassed at all. This evening dress was specially designed by him for Linda.

The main hue of royal red was quite complicated with complicated patterns. It could be seen only in the light. Design with waisted design, the design of the part of her belly was particular and must be in a

variety of materials. In this way, the design could skillfully cover her belly, without making her feel uncomfortable.

"Yes, I do." Melinda nodded without hesitation, with a liking to the dress in her eyes. Touching the dress, she felt that the cloth was more exquisite.

The clothes looked heavy, but when she wore it, she found it very light and comfortable.

"You will be the leading lady tonight, will you be too popular?"
