

Forgive My Ex-husband Chapter 261

The director felt confused, but he could only bear it. More and more people came to inquire about the news of the TV series after Jonas spread the news.

Smart people all knew that it was a good chance, and Emily was not willing to let it go.

That day, she was so focused on Melinda and Jonas that she didn't know which director was their partner.

However, Emily was not afraid of that. Her only purpose was to be the heroine, no matter what price she had to pay. She felt happy as long as she could make Melinda feel sick

It was an exciting event in the entertainment circle. A lot of wine parties were held there.

Emily sneaked into these parties. In this party, the vice director who had been cooperating with Elmer for a long time who could talk to Elmer or let people make friends with Elmer.

He was likely to be the target of many people of tonight's party.

And Emily was the same. Today she was not as high-profile as before, but she was not bad. She was a woman who wanted to show her beauty all the time.

There were a lot of flattery around that person, and Emily couldn't squeeze in. She looked around, and many people said that Elmer would also come to the party tonight, but different from them.

Elmer was in a private room with several partners, so she couldn't see him outside.

However, Emily did not give up. She looked around from time to time. People came and went at the party. Everyone began to develop their social network with a smile.

There were too many people in the party. Whether they could get a role depended on their luck. They might as well take an opportunity to seek the future.

"Director Liu, long time no see." Emily finally found a chance and walked up to the director. Director Liu looked at Emily and knew everything clearly.

Many people came to see him tonight just to cotton up with him like Emily.

However, there was a slight difference between Emily and others' politeness. Even though this woman was so abject, the arrogance that did not suit her still existed.

Emily was wearing a black tight strapless long dress, showing her perfect body. Her makeup was retro, and her red lips seemed to be seductive.

No one would deny that Emily was a stunner.
