

## Forgive My Ex-husband Chapter 274

Melinda's situation was beyond everyone's expectation. Jonas was distressed and regretful for Melinda when holding her in his arms.

She had suffered a lot because of him.

Looking at them, Queena was also distressed. She advised his son, "Don't blame yourself too much. It's my fault for Linda's injury."

She took on the responsibility. She had promised that she would take good care of Melinda, but she didn't even notice that the depression.

Jonas didn't care at all. Her depressive symptoms actually showed up from the beginning. He himself as her husband did not realize, how could his mother find out that there was something wrong with Linda?

The doctor had just said that a repeated nightmare was the omen.

Looking at the two people, Melinda tightly frowned, wondering why they looked so serious. She was still immersed in her own world after the psychological test just now.

So Melinda did not notice the doctor's diagnosis.

The medicine was sent directly to the doctor's office by a nurse in the hospital. Holding Melinda in his arms, Jonas asked the doctor about many points that needed to be taken care of, and finally took her home.

Nelson had been waiting for her anxiously. He was so sad and remorseful when he learned that Melinda suffered from miscarriage depression.

The whole family seemed to be shrouded in a haze. Except for Yulia, everyone was in a heavy mood. Jonas handed over the company's affairs to William, and generally there was no major matter.

Aron started to be active, but Jonas didn't care about it at all. After all, the only thing he wanted to do was to spend more time with Melinda.

Recently, it was easy for Melinda to fall into a trance. The soothing medicine prescribed by the doctor had some side effects, which made people more likely to be sleepy.

She began to fall asleep more often.

The Soaring Group was a big company on business field. Even though Jonas had to avoid a lot of things, he was still busy every day.

Queena began to pay attention to Melinda's behavior. The whole family was immersed in tension.

Jonas had coaxed Melinda to take this pills and said it was good for her health.

However, in such an atmosphere, it was even harder for Melinda to recover. She was unwilling to speak. Sometimes, she could maintain a posture for a long time and be in a daze all day.
