

Forgive My Ex-husband Chapter 293

When Jonas and Queena were about to say something, there was a knock at the door again. The one being talked about stood outside the door, looking at them innocently.

Queena looked at Alston and hummed coldly, "You'd better think about it yourself."

She looked into Jerry's eyes as if she was looking at her enemy. Jerry smiled at her and said casually, "Dad, what do you want to talk about the company with me?"

Jerry asked and let Queena hear this sentence on purpose to stimulate her. Sure enough, Queena stopped her steps, and was even more unhappy with Alston.

Jonas was the one who always did things for the company. But Alston had something to discuss with Jerry, as if he was telling them that not only would Jerry enter the Gu family, but also would sooner or later come to Soaring Group.

"Come and sit here." In fact, Alston didn't have a good attitude towards Jonas and Queena, but when he was faced with Jerry, he was rarely gentle. Such a comparison made Queena feel sick, as if her throat was stuck by a bug.

She left the study, but Jonas was still standing there, looking at his father, and said with a faint smile, "Dad, since it is a company matter, does it mean that I have the right to know?"

"I'll leave this matter to Jerry. You just need to do your own things. If there's nothing else, you can go back,"

Alston said, with a direct verification. Jonas's conjecture was right that Jerry was really ready to enter the company.

He smiled and said nothing more. After Queena, he left the study.

There were only two people left in the study. After a moment of silence, Alston handed a file over to Jerry.

"How to deal with it?" Although Alston stubbornly brought Jerry back and let him get in touch with the matters of the Soaring Group, he was not stupid. He still had to try on Jerry's own ability.

Jerry had expected this and didn't rush to take over the case, analyzing it carefully.

His thoughts were not meticulous, and sometimes they were unrestrained, but his ideas were very sensitive, which could be said to be a solution with a good degree of tolerance.

Just like his usual way of treating others, he left himself with numerous choices. He was like a cunning hare who had three holes in his home for escaping.

However, those documents were all far sighted when it came to the affairs of the company. After listening to them, Alston admired Jerry very much and thought that he had the ability to get in touch with the affairs of the company.

Maybe his joining would have an unexpected result.

The two people had a long conversation in the study. Although Queena returned to her bedroom, she was also concerned about the situation here. She had a bad feeling when she saw Jerry leave with a smile.
