

Forgive My Ex-husband Chapter 300

What Jerry hated most was that Jonas acted like this. He was not afraid, as if Jerry would be kicked out by the Wang family.

'Maybe he doesn't know the chips in my hand.' Thinking of this, Jerry smiled complacently.

"If you don't have anything else, please leave. This is the CEO office." Jonas slowly knocked at the table with his hands, and his slow tone irritated Jerry.

It was as if saying that he, Jerry, didn't deserve to stand here at all.

"Let's wait and see." As soon as Jerry finished speaking, he turned around and left.

William had been keeping an eye on what was going on inside. When he saw Jerry leave and he had a faint anger on his face, it seemed that they had a quarrel. He didn't know how boss felt now.

William's mood was complicated as he stared at the document in his hand.

"William, why are you standing here?"

Ted asked with curiosity, holding a document in his hands. William couldn't help but wear a forced smile at the corners of his mouth. Then something occurred to him. "Ted, are you going to send boss the document? I have something to deal with. Hand this over to boss, please."

Before Ted could react, a pile of documents fell into his arms, followed by the disappearance of William.

Ted was too innocent to realize he was used. It was not until he went into the office and was scolded by Jonas that he realized what was wrong.

Silently, he made up his mind to revenge William.

When Jonas went back home in the evening, he told this matter to Melinda. Hearing this, Melinda was very worried about him.

In order to help Jonas, she investigated Wang family's background and found that David Wang was well connected in A City, which might have something to do with his ability.

All in all, it might do Jonas no good if Jonas was against him.

"I have a strong feeling that there must be some reasons behind Jerry's provocation. Maybe he has set a trap and is waiting for you to take the bait,"

Melinda said worriedly. She had always been wary of Jerry because she had suffered too much because of him.

"Linda, believe me, I can solve it." Seeing that Melinda was worried about him, Jonas felt happy, but in order to have more trust from her, he pulled a long face.

"I've been working in the company for so many years. I have seen all sorts of schemes. If we can find a proper way to respond, perhaps we can play it through. Don't worry," Jonas comforted Melinda.
