

Forgive My Ex-husband Chapter 309

As Jerry threatened Melinda with the baby, her face turned a little pale. She went to the kitchen and poured herself a glass of warm water as usual.

After drinking a glass of warm water, Melinda's nervous nerves were gradually relieved.

She looked at Jerry coldly. Although she didn't say anything, the momentum on her body had changed a little. Jerry thought that she was no longer afraid of him, until he saw the hand on her lower abdomen, which was slightly trembling.

"Melinda, remember what I said, or else your unborn baby will be the same as the first two." Jerry threatened her again with an arrogant smile on his face. Melinda's eyes narrowed sharply.

She gripped the cup with more strength, as if it would break at any time.

Standing upstairs, Nelson had seen everything. When he heard the sound of Melinda going downstairs just now, he felt a little worried, but he didn't expect to see that.

"Mellie, go upstairs and have a rest." Hearing Nelson's words, Jerry was stunned and stood still. Melinda secretly breathed a sigh of relief.

Looking at the arrogant Jerry, she ruthlessly put the cup back on the table, and then turned around to go upstairs.

Jerry was still immersed in the fear that his grandfather saw what happened just now. Recently, Nelson didn't get involved in this matter. Did he suddenly get involved in it because of this matter?

'Will my situation become more troublesome then? '.

She walked upstairs. Seeing Nelson's soothing smile, she couldn't help smiling and said sweetly, "Grandpa."

"My silly girl." Nelson touched her head, and Melinda found that she was a little embarrassed. These people liked to touch her head too much. It was not a good habit.

She thought in her mind, 'I had thought I can grow taller, but now I can't.'

"Go to my study and I have something to talk with you."

Said Nelson. In fact, he had wanted to have a talk with Melinda for a long time, but since Jonas held her so tightly, he couldn't find a chance.

He was greatly touched by Melinda and Jonas's passing time.

"Okay." Melinda responded and began to support him out of habit. His study was next to the bedroom, which was quaint, old-fashioned and fragrant, making people gradually relaxed.

Melinda helped him to sit down on the sofa, and then stood beside him obediently. Although Nelson was a soldier at a young age, he was very considerate. Thinking that the reason why she went downstairs just now was to drink water, he poured a cup of tea for her.
