

Forgive My Ex-husband Chapter 326

It didn't seem to work but they found it was a strange number.

However, since the number was strange, it was different from what Melinda said that she was going to meet a friend.

From that, Jonas could think of no one else except Jerry. He seemed to be calm to wait for the news, but in his heart, he was restless.

If there was something wrong with Melinda, he would never forgive the people who hurt her. Thinking of Melinda's desperate tone on the phone, Jonas felt his heart was hung in the balance again.

He had no idea what had happened to her.

Ted had not found anyone yet. Even though the police station had offered assistance, there was little they could do about it.

Jonas thought that it must be Jerry who would do this, so she immediately found Jerry's phone number and dialed.

"Hello." Jerry answered with a lazy voice and an impolite attitude. He was shocked when he got a call from Jonas.

"Jerry, you'd better let her go, or you will not only lose your status in Gu's mansion, but also in A City. Don't you want to try the taste of crossing the street like a mouse again?"

Jonas threaten him because he was very worried.

Hearing this, Jerry's face turned dark. He felt angry as he was told about his past.

"Jonas, don't think that you can do whatever you want as you are the eldest son of family Gu. You should know that there are things you can't control now."

Jerry said this just to save his face, but in the presence of Jonas, he heard another threat. Now, the only one thing that he can't control was about Linda.

And now, it seemed that it was obviously Linda in the hands of Jerry.

"As long as you let her go, I will give you whatever you want."

Jonas made a concession. He thought there was nothing in his life that he couldn't lose. He didn't care about these family property at all, but he didn't allow anyone to take Melinda away from him. He only wanted to have a try.

Hearing this, Jerry was very excited. He knew that Melinda was very important to him. He guessed that it must be Emily who had done it successfully.

It turned out that he had to make some concessions.
