

## Forgive My Ex-husband Chapter 354

"I just want to win over Jerry and David's family. You should know how powerful the Wang family is in A City,"

Alston said. His eyes were full of ambition. As an entrepreneur, what he wanted to see most was the expansion of his company's territory.

And the Wang family was his goal.

"Take advantage of Jerry? David doesn't accept him at all," Queena said angrily. She remembered that Jonas had told him that David didn't want Stacy to be with Jerry.

"That was before,"

Alston said firmly. Both of them were ambitious people. He naturally knew what David was thinking. How could he let his daughter be with such a person when Jerry had nothing?

But now, Jerry had a position in the Soaring Group, and he had real power. As long as he worked hard, he could achieve higher achievements.

As a businessman and a master of the stock market in A City, David was good at analyzing the value of a person.

"If you really want to make friends with the Wang family, you can just be friends with David, right?" Queena really didn't understand what was going on.

Hearing this, Alston was a little impatient, and then said directly, "I told you that you didn't understand and you still wanted to ask. Anyway, you just need to know that what I did was reasonable.

All I do now is for the Gu family and the Soaring Group," Alston said righteously, but in Queena's eyes, he was so disappointing.

"That's all you'll ever say," said Queena. She also felt tired after such a quarrel, so she ignored Alston and went back to her bedroom.

The two of them didn't look like a couple at all. Even if they were in the same house, they didn't live in one bedroom. In the living room, there was only a somewhat desolate figure of Alston.

He knew that many people in his family didn't agree with him, but when he thought of the benefits he could bring, he felt that it was worth it.

The Wang family was also very lively these days. Stacy kept making trouble every day, especially when she knew that David was going to send her abroad. She even began to say that she will commit suicide.

No matter how cruel David was, he couldn't help but soften his heart. But his daughter forced him by dying for another man, which inevitably made him feel a little sad.

"Sir, it may not be safe for Miss Wang to go abroad in this way." Seeing what Stacy had done recently, the assistant couldn't help reminding David.
