

## Forgive My Ex-husband Chapter 364

Sitting quietly on the bed and thinking for a long time, Melinda even had the idea of believing in Alice for once again, but in the end, it was quickly denied by her.

Alice can't be believe!

Holding the phone tightly with her fingers, she loosened her grip for a moment and then clenched it tightly. At last, she bit her lips and dialed the number of Jonas.

The beep sound of the phone annoyed her a lot. After a long time, when she was about to hang up, Jonas finally answered the phone.

"Sorry, Linda, I just went to my father's office." Jonas apologized as soon as he picked up the phone, because he had promised that he would answer the phone as soon as it was from Melinda.

He thought for a while. If he were Melinda at this time, his heart would probably be lifted.

"Nothing." She blamed him for not answering her phone before she heard that.

But when she heard his voice and heard his anxious tone, all these disappeared.

"What's wrong?" At the thought that there must be something wrong with the phone call from Melinda, Jonas was even more worried when he heard that she was fine.

Melinda hesitated again. She pursed her lips tightly, like a lock that could not be opened. The only thing that could be unlocked was the key in her heart.

Finally, it was opened by Jonas.

"Alice called me just now." However, when he heard that, he frowned. Why did Emily call her! What does she want to do?

"Did she say anything?" He asked worriedly, worrying that her mood would be affected.

Ted was supposed to send some documents here, but when he saw the boss's expression, he left silently. He thought that the boss must be in a low mood now, so he'd better go out first. William would suffer from the boss.

"It's just that she said she didn't care about the past and now she just wanted to take revenge on Jerry. But I don't believe what she said at all." After briefly introducing the conversation between Alice and her, she finally expressed her doubt.

Perhaps Alice's current goal was indeed to deal with Jerry, but it was hard to say whether she aimed at Melinda in her long-term goal.

"Don't be influenced by this matter. You just need to remember that now, you just need to stay at home to take good care of the baby. As for other things, I can handle them." Said Jonas. His voice was deep and powerful, making people feel at ease.
