

## Forgive My Ex-husband Chapter 375

"Can you let us have a talk alone, Mr. Zhang?" Melinda smiled at Colson and said innocently. Colson looked at Melinda's belly and Alice, and finally felt that Melinda was no threat to Alice.

"Okay, you can talk about it by yourselves," Colson said and left the meeting room directly. There were only Melinda and Alice left in the empty room.

In the past, Melinda was afraid of being alone with her, but now she was not afraid at all.

"He came here today for you to act the leading role." According to Colson's status, it was rare for him to come to such a small place and meet Melinda voluntarily.

Hearing this, Alice didn't change her expression. Obviously, she knew it.

Melinda couldn't help but sigh in her heart. It seemed that Alice didn't feel Colson's kindness to her at all, or rather, she chose to ignore it.

What she wanted was only profit.

"He is a good man," Melinda said again. Hearing this, Alice felt a little uncomfortable. She looked at Melinda with a straight face and said in an unfriendly tone, "Is that all you want to say to ask me to come here?"

"Of course not."

Seeing that Alice didn't want to talk more, Melinda didn't force her to continue the topic. She shook her head and told Alice the general conversation between the two. She wanted Alice to know how good Colson was to her.

"I don't oppose you to act in this play, but I think you are not suitable for the role of the heroine. On the contrary, you are more suitable for the supporting role."

"Supporting role, are you kidding?" Alice said. She acted the supporting role? It was totally unacceptable to her.

Melinda was not surprised at all. In other words, Alice was that proud of herself.

"Don't think it's a bad idea to act the supporting role. Now many main female and male supporting roles have more fans. And you can read the content of the novel in detail. The main female supporting role is just a little bad in the former part, but the plot of this role is very pleasing."

At that time, Melinda had spent a lot of time and energy on this role.

She felt that everyone had his or her own shortcomings, but in other aspects, she could also make a character become very cute.

Hearing this, Alice fell silent. She had to admit that she only wanted to get the protagonist, but did not pay attention to the story itself.

heroines and heroes were not popular now, but the
