

## Forgive My Ex-husband Chapter 380

After hearing what had happened from Melinda, Jessica thought that maybe Felix had a problem with her and was thinking about whether she had seen him before.

Would there be any misunderstanding when they got along with each other? Or did he just not like her for no reason.

If it was the former reason, it would be fine, but if it was the latter, Jessica really felt powerless.

She was quite famous in the entertainment circle, of course Felix was not as popular as her. So when Jessica asked her agent for his phone number, the agent was shocked.

"Do you know him?" the agent asked curiously. She was quite familiar with Jessica's circle of friends, but she didn't know Felix.

"He might be the hero of Linda's play," Jessica explained. She decided not to tell her agent about it. Otherwise, it would be troublesome.

"Your boyfriend in the play? Wait for me to ask his phone number for you," said the agent. She knew quite a lot of people in the circle. She didn't ask for Felix's phone number directly, but found the number of Felix's agent.

At this time, Felix's agent was telling him that what he did in Victor's company today would have a bad impact, and she also told him that he was just on the rise and needed to maintain his good image.

She didn't want him to do something that would turn into a scandal.

Felix listened to her words, but he couldn't get over it. It could be said that Jessica was the first one who hit him in this circle.

At that time, he just thought that as long as he worked hard, he would definitely be famous.

"I'm afraid Jessica can't follow my acting. She's a singer, not an actress." Felix found an excuse for himself. If the two main characters were not good at acting, it could be said that Jessica was a singer or something.

After all, she had many fans, but he was different. He would definitely be scolded.

The agent thought it made sense, but she also thought it was a rare opportunity. It was a pity to lose it.

It could be said that Jessica and Melinda were the stunts of this play, and as long as Felix performed well, he could definitely get a lot of fans.

But sometimes, opportunities and risks coexist.

She was still regretting that this was a good opportunity. Her mobile phone rang at an inappropriate time. When she knew the identity and purpose of the other party, the agent immediately felt that she didn't need to regret.
