

Forgive My Ex-husband Chapter 383

Most of the comments from the outside were handled by the people from the announcing department, and all Melinda needed to do was to deal with the work in the crew.

The people in the crew were not idiots, and they were all smart people. Many people had seen what had happened between Felix and Jessica, but no one dared to ask.

Some experienced supporting roles would tease Felix, but it was also a test. If Felix and Jessica really got together, they should pay attention to their attitude towards Felix in the future.

They did know about it, and they still wanted to tell their friends. That was why the crew was closed and the gossip would still be known.

However, something happened in the end.

Colson really doted on Alice. No matter how many things happened in the company, he would spare time to accompany her, which made the whole crew nervous every time he came.

Colson was gentle only to Alice, so he was cruel to others, which made people feel horrible.

The only people in the crew who could talk to him were Melinda and Victor.

Victor didn't have so many scruples. He didn't think that his friendship with Colson was for benefits and didn't care what others said.

"Cut." With the assistant director's somewhat angry voice, the scene fell into silence, because this kind of anger that could not be vented was aimed at Alice.

Alice was in a good state before, but she was a little strange these two days. She often said wrong lines, and today it was even worse. She was completely talking nonsense.

So even if Colson was here, the assistant director couldn't help but get a little angry. Looking at her, Melinda felt worried and didn't know what was going on.

"Let's take the next scene first and let Miss Zhang have a rest," Melinda said to the assistant director. She saw the assistant director's face darkened.

"There are only two scenes here. Both of them belong to Alice," the assistant director said. Hearing this, Melinda felt a little embarrassed. She took a look at Colson, whose eyes were full of pity. At this time, Colson had already stepped forward and hugged Alice to comfort her.

Everyone in the crew was silent. No one dared to speak, but everyone wanted to go back to rest early after the shooting.

"It's okay. Relax. You are always the best." Colson hugged Alice and comforted her. Alice looked at him as if he was a stranger.

She frowned with distress, as if she was thinking about who was holding her. The dazed look in her eyes made people feel sorry for her.

Holding her waist, Melinda walked to the side of the two people. She felt something was wrong when she saw Alice behave like this. In fact, it was not the first time that Alice had behaved like this.

the past, everyone thought that she wanted to play this role well, but now no one would think so. Everyone could see that this was not the pressure caused by

Miss Zhang?" Melinda asked anxiously. She was too heavy to do many things, so she had to
