### Fortune Chapter 311

“The Ruan and Ba families have an underground drug factory outside of Tengchong, but it’s heavily guarded, not only are the private armies of the Ruan and Ba families there, the Ma Gang has likewise sent a group of men to guard it, our men have tried to get inside several times to no avail, if we can get inside and find evidence of these violations of law and order from them, then the Ruan and Ba families will be unbreakable, and by then Even the horse gang will be the target of a strict state crackdown.” Kun Xian said.

Upon hearing this, Ye Han said; “Uncle Kun, I’ll do the matter of collecting evidence, once we find all the evidence, we must control the Ruan and Ba families, so that they don’t have a chance to escape, drug trafficking, human trafficking, I’ll see how many heads they have enough to kill.”

Kunsang nodded and said; “Hanzi, enter inside and look for evidence, you are probably the only one who has the ability to do that, but you must worry yourself, I heard that there are experts from the horse gang in there.”

“Don’t worry, with Silly Ben following me there shouldn’t be any accidents.”

After knowing the location of the underground factory, that night, Kunsang took Ye Han and Foolish Ben to a factory on the outskirts of Tengchong, which was ostensibly a chemical factory during the day, but in fact it was all just a front.

Ye Han looked at the factory that towered under the darkness and said to Kunsang; “Brother Kunsang, you just wait for us here, it’s enough for me and Silly Ben to go in, be safe.”

“You guys too.” Kunsang nodded, with his strength entering inside would only give a drag, it would be better to wait for Ye Han and the others outside in peace and quiet, taking advantage of the night, Ye Han and Silly Ben’s two figures appeared like two black lights outside the high walls of the factory.

After arriving here, Ye Han opened his Yin Yang Dharma Eye and penetrated inside the factory. As his strength continued to prompt, the distance that Ye Han’s Yin Yang Dharma Eye could penetrate was getting farther and farther.

With Ye Han’s penetration, he found that apart from a few military-like security guards at the gate, there were a group of men in camouflage uniforms playing cards and having fun in several empty rooms inside the factory, and the walls of the rooms were covered with all kinds of guns and ammunition.

These people are the private army of the Ruan and Ba families, and there are more than thirty of them here. In the event of any unexpected situation, all these people can organise an effective fire attack at the first opportunity. Moreover, there were two men with firearms guarding a place that resembled an underground entrance, which should be the entrance to the underground factory

In addition, there were cameras installed in every corner of the factory, so even a bird flying in would be detected.

Ye Han used his yin and yang magic eye to observe for a while and then found a dead corner of the camera, then the two of them entered the dead corner of the factory where the camera could not

shoot, the whole process did not make a single sound, entered the factory, the two of them avoided some cameras and arrived at the underground entrance.

There were two gunmen guarding the entrance, but it was not easy for Ye Han. He shot two golden needles into the bodies of the two men, who then stood motionless, a technique similar to acupuncture points.

After passing through the underground entrance, Ye Han took a look inside and found that there were some people with gas masks fiddling with some apparatus, various apparatus containing liquids of different colours, while at the side, some women and children with masks were filling some white powder.

Seven or eight men with fierce looks were supervising them in their work, and these men should be members of the horse gang.

“Hurry up, still want to eat or not.” At that moment, a man with tattoos kicked a woman and said in a fierce voice. Hearing his words, the women and children who were packing the drugs were so frightened that they hurried to do their work, even though they felt that their bodies could no longer support them.

Drugs!

These two words flashed through Ye Han’s mind, and his eyes were filled with a murderous spirit, without any protection, letting these children and women pack drugs, in time, these people overdosed on those residual drugs in the air, it would definitely kill them.

However, Ye Han knew that now was not the time for him to be impulsive, only by recording what these people had done could he really get rid of them all. Ye Han informed Foolish Ben to record the situation here with his mobile phone, while he himself entered the underground factory.

The underground factory was very big, apart from the area where the drugs were made, there were also many closed rooms, Ye Han took a look into some of these rooms and immediately found that there were many children and women, and even some pregnant women, a dozen people were crammed into a small room and the stench was overwhelming.

After Ye Han continued to walk forward, he suddenly felt an aura locking towards him, after feeling this, Ye Han didn’t have time to think about it and directly dodged into a room next to him. But there was nothing strange inside the underground factory.

After looking around for a while, the old man went back to his room. Ye Han noticed this scene in another room using his Yin Yang Dharma Eye, and he let out a sigh of relief, this old man was a late stage Pei Yuan realm expert, he should be from the horse gang, if he found himself, he would definitely alert the snake.

However, after he was relieved, Ye Han found that the room he was in was different from the other rooms, it was clean and tidy, there was a workbench, a computer, a sofa, and even a wine cabinet with some expensive foreign wine on it, after Ye Han looked inside this room, a safe caught his attention.

Ye Han opened the safe and saw that there was a row of numbers for entering the password, and he had to enter the password to open the safe. He was afraid that he could not avoid being injured by the explosion.

If the tight protection measures made Ye Han curious about the contents of the safe, he continued to see through it and found that there was nothing else inside the safe but a notebook. The amount of money obtained from illegal transactions.

### **Fortune Chapter 312**

The discovery of this ledger could be said to have made Ye Han overjoyed, with this ledger, even if the Ruan family, the Ba family and the Ma gang's crimes were not recorded, it would still be enough for them to eat a bullet.

In fact, it was also Ye Han's luck that this ledger was quietly recorded by the Ruan family in private to cooperate with the Ba family and the Ma gang, and the Ruan family was not without a heart, recording everything so that if the Ba family and the Ma gang dared to play dirty behind their backs, they could use this ledger as a threat. It is because of the existence of this ledger that the Ruan family, the Ba family and the Ma gang have maintained a cooperative relationship over the years and are still in peace.

As for why it is not stored in the computer, nowadays the internet is so advanced, if some powerful hacker steals this account book and makes it public, then they will not even have a chance to cry.

Moreover, if this ledger is kept here, if what happened here is discovered, when the time comes, the place will be directly razed to the ground and any evidence will disappear, anyway, this is a chemical plant and it is reasonable for an accidental explosion to occur.

However, although the discovery of the ledgers made Ye Han very happy, he was stumped on how to open the safe. If he forced it open and detonated the bomb inside, not to mention that he would be discovered, the ledgers inside would also go up in smoke.

But just as Ye Han was thinking about how to open the safe, footsteps came from outside the room, and there was more than one person listening to this voice. After noticing this, Ye Han immediately closed the safe and flew to the ceiling as light as a feather, leaning his back against the ceiling and holding his limbs in place so that he would not fall.

In the next second, the room was opened from outside and two men came in, and both of them Ye Han knew, one was Ruan Hong, the son of the Ruan family head, and the other middle-aged man was the Ruan family head's own brother, whom Ye Han had seen at the gambling game that day.

"Second uncle, the Irving family over in Europe needs two hundred kilos this time, with the amount of drugs we have now we are still a few dozen kilos short, we have to ask the people below to speed up, the Irving family is a big customer for us." Ruan Hong said as he entered the room and sat down on the sofa while pouring red wine.

At that, the middle-aged man responded; "Don't worry, there will be no delay, by the way, a new batch of goods arrived from Burma recently, tomorrow you have someone take charge of receiving it, remember, you don't show yourself, just let the people below do it."

"I know, second uncle, on the bright side, our Ruan family is a jade family." Ruan Hong smiled lightly and began to sip the wine, while the middle-aged man walked to the safe and squatted down at that moment, opened it and then entered a tampering password and took the account book out from inside.

"Second Uncle, is it safe to keep this here?" Ruan Hong asked.

The middle-aged man said; "Don't worry, it's definitely safer here than inside your home, I've placed the most advanced liquid bombs inside the safe, and I've also placed dozens of kilograms of explosives around this factory, if the news leaks out, this place will definitely be razed to the ground in the first place."

"Second Uncle, it's still you who thinks ahead." Ruan Hong gave a thumbs up and continued; "Working with this group of guys from the Ma Gang is really a quick way to make money, this place can bring us nearly US\$500 million in net profit every year, if we can snatch the Kun Family's raw stone veins, then our Ruan Family can definitely become the number one family in Yunnan."

"This won't take long." The middle-aged man said; "Recently your father is planning a decapitation operation with the Ma Gang's leader, if all the Kun Family's principals are dead, then naturally everything they have will belong to us."

Ruan Hong smiled sinisterly; "After devouring the Kun Family, it will be the Yan Family's turn, and next, it will be our ally, the Ba Family."

The middle-aged man's face was also filled with a sinister smile, and then, after the middle-aged man recorded something in the ledger, he put the ledger back into the safe and the two of them left the place, the two of them not knowing from the beginning that there was a third person present inside this room.

After Ruan Hong and the middle-aged man left, Ye Han reappeared in the room. He sneered, opened the safe again and entered the password, and when the middle-aged man entered the password just now, Ye Han was watching it clearly from the ceiling.

From the conversation between Ruan Hong and the middle-aged man, Ye Han knew that there were dozens of kilograms of bombs planted around this factory, this was a big danger, Ye Han had to get rid of these bombs, otherwise, in case the Ruan family's people knew that things had been compromised and blew this place up at the first opportunity, not only would all his efforts be in vain, those women and children inside would not have a chance to live.

Afterwards, Ye Han found Foolish Ben and the two of them found a dozen bombs around the factory, destroying those devices one by one before the two of them left the factory silently and returned to Kunsang's car.

"What about it, Hanzi, did you get anything?" Seeing Ye Han and Silly Ben return, Kunsang immediately asked.

Ye Han waved the ledger inside his hand at Kun Sang and smiled; "Got it, with this, it's enough for the Ruan family and the Ba family and the Ma gang to die ten times over."

Kun Sang took the ledger over and looked at it, then he sneered and said; "They are asking for death, to think that they have recorded illegal transactions between them, come on, let's go back and ask Father to hand these over to the law enforcement department."

Back at the Kun family, after Kun Xian saw the ledger, he was equally delighted, and then went to the city hall compound overnight. In the officialdom, the Kun family also had its own network of contacts,

and after getting this evidence, the officialdom was outraged, and that night, an action surrounding the Ruan and Ba families and the horse gangs was launched in a huge way.

The drug factory was also wiped out, with the exception of the late stage Peiyuan expert of the Ma Gang who escaped, all the others were caught.

Of course, as the mastermind, the Ruan family head and the Ba family head, as well as a number of important members of the family were asleep in bed when they were confusedly imprisoned. By the time they understood that what they had done had been exposed, it was already too late and what awaited them was either a bullet or a life in the dark.

In short, overnight, the Ruan and Ba families were finished, their properties were sealed and investigated, and their bank accounts frozen.

The Ma Gang, the number one gang in Yunnan, except for a few key figures who fled, the people under them were either wiped out in the process of resisting or arrested. In the face of the state apparatus, even the most powerful gangs who dare to resist are just hitting a rock with an egg.

### **Fortune Chapter 313**

In just one night, the Ruan family, the Ba family and the Ma gang, three wealthy and powerful families in Yunnan, were uprooted overnight, and basically all of them were caught except for a few fugitives. Whoever dares to stand up for them will have to bear the serious consequences.

From this, we can also see how powerful the state apparatus is. Even powerful families and underground forces have no ability to resist in the face of the state apparatus.

The Ruan and Ba families' properties were sealed and their bank accounts were frozen, but this was only temporary. After the Ruan and Ba families confessed their guilt, their properties would be put up for auction.

In this way, two days passed slowly, and that severe crackdown also passed. Ye Han stayed at the Kun Family for these two days, as some people had escaped, Ye Han could not leave the Kun Family for the time being, in case those who escaped jumped to revenge on the Kun Family, it would be a rather dangerous thing for the Kun Family.

"Little Han, come on, uncle, let's drink to you, it's all because of you that we were able to get rid of the Ruan and Ba families and the Horse Gang so easily this time." Kun Xian said with a smile at Ye Han during the meal at the Kun Family, the Ruan Family, the Ba Family and the Horse Gang had been solved, so that the stone in his heart had fallen.

Ye Han said; "Uncle Kun, we are the closest of allies, to say this is out of place, come on, let's all drink a toast!"

Kun Xian said; "Now that the Ruan and Ba families are finished and the horse gang is history, the next step is to acquire their properties.

"Then, thanks a lot Uncle Kun." A ninety percent share, compared to the previous seventy percent share, was not a star and a half more, the three families' raw stone veins together, ninety percent, was an unimaginable amount of wealth.

But just as the three of them were eating and chatting, a sudden burst of gunfire rang out from inside the Kun family's manor alerting Ye Han and the others.

"What's going on? Who's shooting?" Kun Xian's brow furrowed, he had a private army guarding inside his house, but inside the manor unless it was an emergency, it was not allowed to fire at will, at this moment, only to see a camouflage uniformed man running in with a gun and said; "House Master, it's not good, a group of experts have killed in outside the manor, the brothers can barely hold them off."

"Experts? Who is it that is so bold to dare to kill in my Kun family's main camp." As soon as Kun Sang heard this, he grabbed the submachine gun from the camouflage clad man's hand and ran out, Ye Han was afraid that he would have an accident, so he said; "Uncle Kun, you take shelter first, I'll go out and take a look."

"Good, Little Han, please keep an eye on this kid Kun Sang." After saying that, Kun Xian went to the backyard under the escort of the camouflage clad man, when Ye Han arrived at the front yard he realised that the people who had come were really a group of experts, the one leading the group was the old man Ye Han had seen inside the underground factory, at the late stage of Pei Yuan realm, besides him, there were two other martial artists at the middle stage of Pei Yuan as well as more than ten people at the peak of Qi Sense.

This force killed the Kun family, with the armed forces of the Kun family, naturally they could not stop them, this was all a group of highly skilled cold weapons experts.

"Silly Ben, leave one alive, leave none of the rest."

Silly Ben had already arrived behind Ye Han, after he heard these words, he charged in as if he was a wolf into a flock of sheep, his unarmed strength blasted out with a single punch, directly exploding a man's body, this was the beginning, every next strike by Silly Ben would take away a life, seeing this scene, Kunsang simply asked the private army inside the family to stop their hands and watched Silly Ben killing there alone.

In less than a minute, all the people who had attacked the Kun family's manor, except for that old man, had all died at Silly Ben's hands, and this old man would have been killed with one direct punch if Ye Han had not told him to leave one alive.

"The remnants of the Horse Gang." Ye Han looked at the old man who had been injured by Silly Ben and said; "If you have all escaped, why do you appear at this juncture, are you not seeking death?"

"Who are you guys? How did the Kun Clan come to have experts like you?"

The old man's face was ashen, the Kun Clan actually had an expert like Silly Ben, who was only stronger than even their gang leader, if he had known that such people existed in the Kun Clan at the beginning, he would never have dared to attack the Kun Clan.

"You don't need to know this." Kun Sang looked at the old man with a cold snort and said; "Now I want to know why you want to attack my Kun Clan? Tell me can let you die without pain, or I will hang you up as a sandbag and break all the bones in your body."

"Hmph, little brat of the Kun family, I admit that our horse gang has fallen this time, but don't be complacent, it won't be long before our gang master will make a comeback and then your Kun family

will be destroyed just the same, you can't escape this bad luck." The old man looked at Kun Sang with a fierce face and said.

"Old thing, it seems you have hard bones." Kunsang was furious and directly ordered for the old man to be helped up and was about to be severely tortured, when Ye Han stopped him and said; "Brother Kunsang, let me do it."

"Cheng, beating this old man I'm really afraid that one punch will kill him."

Ye Han walked up to the old man and said; "So old, why do you need to find a sin, if you tell me the reason, I can let you leave without pain, if you don't tell me, I have a set of acupuncture techniques here, which can seal the vital Qi and blood rushes and make the power in your body work backwards, do you want to feel the feeling of exploding and dying?"

"Hmph, little beast, you're scaring me, if you have the guts, do it and let me see."

"Fine, as you wish."

Since this old man had such a request, Ye Han of course had to satisfy him, then he only saw him take out a few golden needles and inserted them into the old man's body amidst his cloudy eyes, after Ye Han applied the needles, the old man's face changed violently because he felt that the power in his body had actually flowed backwards, rushing uncontrollably across his body, causing his face to suddenly become as red as blood, and the veins on his body surface were clearly visible. The blood vessels on the surface of his body were clearly visible, splitting his clothes, and his body was gradually becoming inflated as if he was a balloon being blown up, his face was hideous and terrifying.

"Bastard, stop it, stop it, I'm telling you ....." feeling that death oppression, the old man finally did not hold back, his voice trembling as he roared out. Ye Han pulled out the golden needles inserted in his body and said; "Wouldn't it have been over if you had told me earlier? Why do you need to have this kind of consciousness only after walking around the ghost gate."

#### **Fortune Chapter 314**

"Tell me, why do you want to attack the Kun family? Right now at this time, you should flee as far away as possible, attacking the Kun Family is undoubtedly exposing your own whereabouts, and the danger is too high for you." Ye Han looked at the old man and said.

The old man said with a reluctant face; "Our Horse Gang was ruined because of the Kun Family, and right now we have become wanted criminals by the state, it was our gang master who wanted to take revenge on the Kun Family before he asked us people to kill the Kun Family and exterminate them."

"Risking so much to do this, it seems that your Ma Gang leader is really disappointing, but I think he just let you guys come to die, and destroy the Kun family by the way, to relieve his hatred, to put it bluntly, you guys are just discards in his hands, let you play the last role of discards." Ye coldly smiled and said.

At these words, the old man's face turned pale.

"Tell me, where is the Horse Gang Leader now?" Ye Han looked at the old man and asked.

"The Chen family in Chuan Province."

“Which Chen family in Sichuan Province?” Kunsang’s brow furrowed as he thought of a family that was both respected and feared in the southwest.

The old man sneered; “Which other Chen family is there in Sichuan Province, of course it is the family of Tai Gong Chen.”

At those words, Kunsang’s face changed, the Ma Gang leader had actually run away to the Chen Tai Gong family in Chuan Province, who would dare to go and look for trouble with him? If the horse gang leader made a comeback in the future, their Kun family would definitely face a huge crisis.

“The Chen Family of Sichuan Province, Chen Taigong.” Ye Han had heard of this person, he heard that this Chen family had not gained a foothold in the southwest for a few years, back then, after the fall of Zhao Hengtian, this Chuan Province Chen family had only moved from elsewhere to live in the southwest, but it was these few years that the Chen family had become a family that people respected and feared in the southwest, although they did not intervene in the underground world battles, as long as they stood out and said a word, no one in the underground world would not be convinced, Yun, Gui, Chuan and Tibetan These four regions belong to the southwest and no one has dared to claim this region over the years, the main reason being because there is a Chen Tai Gong in the southwest.

The influence of Chen Taigong in Southwest China today is the same as Zhao Hengtian’s influence in Southwest China back then, but both Chen Taigong and Zhao Hengtian have done the same thing, that is, they have not put their hands inside the underground world, they don’t care how the underground world fights, as long as everyone in Southwest China knows that the Chen family cannot be messed with anyway.

“What is the relationship between the Ma Gang leader and the Chen family? Why would he go to the Chen family?” Ye Han looked at the old man and asked.

The old man said; “In fact, no outsider knows, our gang master is the god grandson that Tai Gong Chen recognized a few years ago, now that our Horse Gang is in ruins, he naturally has to go to the Chen family to take shelter in order to rise again in the future.”

“The god grandson of Tai Gong Chen, this Ma Gang leader is really calm, he has not exposed this identity all these years, probably to leave a way out for himself.” Kun Sang said.

Ye Han nodded and said; “This Ma Gang Gang Master cannot be kept, he is very city-minded and has a deep heart.”

This could be seen from the fact that the Ma Gang leader treated these people as outcasts as well as his failure to expose Chen Taigong’s god grandson, but of course, to be able to sit as the leader of the number one gang in Yunnan, it was evident that this person was already very extraordinary.

Kun Sang frowned and said; “But this Ma Gang leader has gone to the Chen family in Sichuan Province right now, it is already difficult to deal with him.”

Ye Han said; “As far as I know, the Chen Tai Gong of Chuan Province is an upright man who is cynical by nature, he may not necessarily step in to protect the Ma Gang leader.”

“Hanzi, so what do you mean?” Kunsang looked at Ye Han.

“Go to Sichuan Province.” Ye Han said; “It just so happens that I also want to meet the Chen family’s Chen Tai Gong, this old man is respected and feared by the people in the underground world, but in the shopping malls and in the official circles, he is very respected, he doesn’t necessarily do anything to us if we go, but before we go to meet Chen Tai Gong, we still have to meet another person first.”

Kun-Sang nodded and said; “Okay, I’ll do as you say.”

Without delay, after discussing with Kun Xian, Ye Han took Silly Ben and Kun Sang on a plane to Chuan Province.

Sichuan Province, Leshan, was also known as a famous cultural city with a long history in the history of China. Leshan, known as Jiashou in ancient times, was a prefecture-level city under the jurisdiction of Sichuan Province, covering an area of wide wo, and Sichuan Province was considered the most populous province in China.

After landing at Leshan Airport, Ye Han and the three of them rented a car and drove towards a county-level city below Leshan City.

Leng Wufei of the Hundred Steps and One Sword, the Fast Sword of Wufei!

Leng Wufei also had a high prestige in Sichuan Province, but he lived in seclusion in the mountains all year round, practising his sword and rarely entered the world, so his prestige in Sichuan Province was not as high as that of Chen Taigong.

This time, Ye Han wanted to see if he could invite Leng Wufei out of the mountain, as he would be more certain if he was there.

The place where Leng Wufei lived was called Qing Mei Mountain, located in Emeishan City, a county-level city below Leshan City, and it was worth mentioning that the famous Emeishan Scenic Area was located in this county-level city, and Qing Mei Mountain, where Leng Wufei lived, happened to be near Emeishan.

When they arrived at the foot of Mount Emei in Emei City, Ye Han got out of the car and bought a map, next they had to climb a mountain that was a thousand meters high, and the road to Mount Emei was extremely difficult to walk on, there was no main road up the mountain at all, they could only go up from some remote paths, Ye Han was a bit confused why Leng Wufei lived in this place to practice his sword, although this place had a kind of isolated feeling, but it was too difficult to go up the mountain once it was too difficult to walk.

It took three or four hours before Ye Han and the three of them arrived at the top of Qing Mei Mountain, although it was said to be the top of a mountain, this was all rocky jungle lined with rocks, and a glance at the peaks linked to the peaks gave a feeling of returning to a primitive forest.

“Hanzi, who have you come to meet in this shitty place?” Kunsang had followed him all the way up and even his stamina was a bit overwhelmed, Ye Han laughed; “I’ll know when I see you later, to say the least, you’ve seen it before.”

“Really, then I’d like to see just what kind of hobby that guy has, choosing to live on top of this mountain.” Kunzang looked around, the clouds were particularly heavy here and it all felt like they were almost touching the clouds.

“Huh, Hanzi, listen, there’s the sound of a zither ..... Who’s playing the zither in this place?”

Ye Han also heard it, around the top of this mountain, there was a faint crisp sound of the zither, but the sound of the zither was not coming from this mountain, there was a feeling that it was coming from the clouds, Ye Han listened carefully, the sound of the zither was wonderful, lilting, clear and gentle, the wonderful sound of the zither seemed very far away, unusable, and yet it seemed very close, dazzling the ears, lingering, making people naturally let go of all their worries and indulge in the The sound of the zither.

“What a wonderful piece of music!” After listening for a while, Ye Han couldn’t help but open his eyes and look towards the mountain peak opposite him, the top of the opposite peak was already covered by clouds and mist, so he couldn’t see the situation above, but the sound of the zither was coming from within the clouds and mist of that mountain.

### **Fortune Chapter 315**

“I’m afraid that this person’s qin playing has already reached the level of a great master, it’s hard to see it in the city, I didn’t expect that there would be such a high level of qin daoist within this mountain and wilderness!” Ye Han looked at the mountain opposite which was covered by clouds, if he could, he would like to meet this person playing the zither, listen to him properly, return to nature and relax his mind.

“Hanzi, that mountain across the road seems to be Mount Emei, right?” Kunsang took out his map and looked at it, the mountain they were currently on was Qing Mei Mountain and the one marked on the map across the road was Emei Mountain.

“Mount Emei.” Ye Han took the map and looked at it, it was true, but the two peaks were at least a few hundred meters apart, I wonder if one of the ten sects, the Emei Sect, was on the opposite side of Mount Emei?

“Hey .....

Just as Ye Han was checking the map, to the spoilers, this fellow Kunsang wailed at the opposite mountain peak, the echo echoed longingly in the clouds and mist of the mountain peak, passing out far away, just after Kunsang wailed, the sound of the zither on the opposite mountain peak suddenly came to an abrupt end, probably because the person playing the zither on the opposite side also found someone on the mountain peak opposite him, just that through the clouds and mist, everyone could not see each other.

“How dare you, who is being reckless here?”

Suddenly, a white light suddenly came sprinting through the woods, unimaginably fast, like a white bolt of lightning, upon seeing this scene, Silly Ben immediately blocked in front of Ye Han and Kunsang, he felt that the person coming was very powerful.

Ye Han raised his eyes and looked, the person coming was dressed in white, holding an ancient long sword, handsome and extraordinary looking, a rare and handsome middle-aged and beautiful man.

“Roar!”

Sensing the power of this man, Foolish Ben ran out with his Crescent Moon Sword, like a running thunderbolt, very appalling, cutting down across the sky with his sword qi and infinite strength.

Seeing this, Leng Wufei drew his sword, a sword flying in the air, as fast as lightning, not even giving people time to react, Leng Wufeng was known as a sword at a hundred paces, within a hundred paces, if he shot his sword, few people would be able to resist.

Ye Han did not stop Foolish Ben, this was the first time he had seen Leng Wufei strike his sword, this sword was fast, so fast that Ye Han sighed to himself, as if within those hundred paces was Leng Wufei's world, in his world, his sword could kill whoever he wanted, it was the fastest sword in this world.

However, the Crescent Moon Blade in Foolish Ben's hand still blocked Leng Wufei's sword, although it looked a little woeful, and Leng Wufei was quite surprised when his sword was blocked, so his second sword came right after him, again that fast and accurate, and a merciless sword dao aura enveloped Foolish Ben, so sharp that it seemed to be able to cut the surrounding air into pieces.

After a series of clashes between the two, Foolish Ben was forced back ten metres, his eyes like a tiger staring at Leng Wufei, his fierce aura in his eyes, his battle intent rolling.

Leng Wufei's strength was stronger than even the Heavenly Dignity Society's Angry Buddha Vajra, but it didn't surprise Ye Han that he possessed such strength, although Leng Wufei was currently ranked 13th on the Tiger Ranking, but this was the ranking of the last Tiger Ranking, now that so many years had passed, Leng Wufei's strength would have long surpassed the ranking back then.

Ye Han walked over and patted Silly Ben's shoulder, then looked at Leng Wufei and smiled; "Mr. Wufei, this place has beautiful mountains and clear water, the people are excellent, you have chosen a good place to live in seclusion and practice your sword."

"A good place, but too many distractions!" Leng Wufei looked at the mountain peak hidden in the clouds opposite him and let out a deep sigh before saying; "Ye Han, why did you remember to come to this place of mine today?"

Ye Han said; "Naturally, I came to meet you, sir, and wanted to ask you to come out to the mountain to do me a favour."

Upon hearing this, Leng Wufei said after a moment of silence; "Go, go and have a seat at my place first, we will talk about the rest later."

After that, Leng Wufei led Ye Han and the others towards the inside of the forest, halfway, he said to Ye Han; "Ye Han, this friend you brought is very good, I think it won't be long before even I can't suppress him."

Ye Han knew that Leng Wufei was talking about Silly Ben, in fact, a strength type genius like Silly Ben was progressing very quickly, since he had left the Huang family village and come to this prosperous metropolis, he was already so much stronger than before that Ye Han could not even catch up with him somewhat.

"Sir even said that, it seems that this brother of mine will only really surpass Sir in the future." Ye Han smiled and added; "Mister Wufei, is that mountain opposite Emei?"

“Not bad.” Leng Wufei nodded and said; “What you have just seen is the Emei Inner Sect, which is always hidden in the clouds and fog, so it is difficult for ordinary people looking for a long to find them.”

“The Inner Sect? Is there an outer and inner sect of Emei?” Ye Han asked in confusion.

Leng Wufei said; “Of course, no matter which sect is actually divided into outer and inner sects, the outer sect presides over the daily affairs, the inner sect just needs to concentrate on cultivation, just like the two sects of Wudang and Shaolin today, it is only the outer sect that people go to on weekdays, the real inner sect is not accessible to ordinary people at all, the same goes for Emei.”

Saying that, Leng Wufei’s gaze glanced at the opposite mountain peak with a lost expression.

“Sir, living here in seclusion, I suppose it’s not just as simple as avoiding the world and coming here to practice your sword, right?” Noticing Leng Wufei’s downcast look, Ye Han smiled slightly and guessed a few things in his heart, it seemed that even a strange man like Leng Wufei could not escape the word ‘love’!

Leng Wufei said; “In life, you always have to have some attachments and regrets in order to be considered a real life, I’m not outside of that, but next time you guys don’t shout at that mountain, if you annoy those women, they won’t reason with you.”

Not long after, under the leadership of Leng Wufei, several people came to the front of a wooden house, which was elegantly built, the whole wooden house was supported by wooden piles, more than a meter high from the ground, being in the middle of the mountain, the house was built in such a way that it could also prevent some snakes, insects and rats from running into the house.

There was a vegetable patch around the house, so you could see that, apart from practising his sword, Leng Wufei usually lived like a mortal, but this was also a kind of cultivation, cultivating his body and nurturing his nature.

After entering the wooden house, Leng Wufei invited Ye Han to sit down and poured a pot of tea for them. The tea was very fragrant, with an overflowing aroma that made people want to taste it before they even entered.

He looked at Leng Wufei and said, “Mr. Wufei, you have lived in Sichuan Province for a long time, have you ever heard of Chen Taigong?”

“Chen Taigong, did you offend him?” Leng Wufei looked at Ye Han with some surprise.

### **Fortune Chapter 316**

The name of Chen Taigong, Leng Wufei had lived in Sichuan Province for a long time, so he naturally knew of him. Although Chen Taigong had only been stationed in the southwest for a few years, no one did not recognize his prestige in the southwest.

Ye Han said; “It’s not really an offense, it’s just that there’s a rival who is currently in Tai Gong Chen’s house, I just want to get rid of him.”

“Tell me.”

After hearing Ye Han's words, Leng Wufei said; "If this person is really as evil as you say, I don't think that Tai Gong Chen will be biased towards this person after explaining clearly what happened before and after. He was so angry that he wiped out this underground force, not even the Japanese, and he once said that anyone who dared to sell drugs in the southwest would have to bear his wrath. "

Ye Han laughed; "In that case, as long as we put the evidence of the Ma Gang leader's drug trafficking in front of Tai Gong Chen, his time of death will come without our help."

"You could say that." Leng Wufei nodded and said; "How about this, tomorrow I will accompany you down the mountain and pay a visit to Tai Gong Chen."

"Many thanks, sir!"

Leng Wufei waved his hand and said; "You and I are considered to have met at first sight, no need to be so polite, by the way, since you have come to Sichuan Province, I do have one thing I would like to ask you for help, you are incredibly skilled in medicine, I wonder if you might be able to renew your meridians? Although I also know it's a bit of a pipe dream."

If a martial artist's meridian is broken, it is basically impossible to renew it, it is like a person's dantian being shattered and he can only be reduced to a wastrel in the future.

"Renewing meridians?" Ye Han looked at Leng Wufei and said; "Sir, could it be that you have such a patient around you?"

"Not bad, because of this matter I have been living here in seclusion for over twenty years, guilty for over twenty years and remorseful for over twenty years!" A touch of guilt and tenderness flashed across Leng Wufei's eyes, Ye Han was a little surprised that Leng Wufei was living here because of this reason, and then he asked; "I wonder what kind of condition the patient you are talking about has reached? If I can see it, I can give it a try, but I don't dare to guarantee that it can be cured."

Hearing this, Leng Wufei smiled lightly and said; "Actually, I don't have much hope myself, because her meridians are all broken, and the possibility of a cure is basically nil. He was unable to do anything about it.

"Even the divine doctor Liu Buyi is helpless ..... " Ye Han became interested and said; "Sir, where is your patient at the moment? Why don't I go with you to have a look, if it's not to the point of no return, maybe I can really help."

At these words, Leng Wufei's face, which was always unchanged, suddenly flashed with joy as he looked at Ye Han and said; "Good, I will take you there now, Ye Han, if you can cure her, I, Leng Wufei, will be at your disposal in the future."

"Sir is serious, I respect you as a person, so don't say these words, however, could it be that the patient you are talking about is in this mountain?" Ye Han asked curiously, Leng Wufei's gaze looked outside the wooden hut, all the way to the clouds and said with tenderness in his eyes; "She is on the opposite side of that mountain, for twenty years, I don't know how she is doing!"

"Emei." Ye Han's gaze followed Leng Wufei as he looked over, the direction they were now looking at was Mount Emei.

“Good, she is on Mount Emei, there is a path from this side to get there, I will take you there later to see .....

“Leng Wufei, come out!”

Just as Leng Wufei and Ye Han were talking, outside the wooden hut, a mellow voice suddenly rang out, hearing this, Leng Wufei’s brow furrowed as he stood up and walked out, Ye Han and the others also wondered that there was someone else on this mountain other than Leng Wufei, so they followed suit and walked out.

“So it’s Master Wu Hui who has arrived, I wonder what I am looking for?”

When they came outside, they saw that outside the wooden house, there were three women dressed as Daoist nuns, one of them was about forty years old, her face was rosy, her charm was still there, and she was holding a duster in her hand, the other two looked a little younger, only about twenty years old, each holding a sword, an ancient costume, which made Ye Han and the others open their eyes, in this day and age, it was rare to see such people who were retro.

Master Wu Xu, the beautiful woman with the duster, said with a cold snort; “Leng Wufei, we allow you to live here, but we don’t allow you to disturb my Emei disciples in their clear practice, who was shouting at my Emei just now?”

At these words, Leng Wufei and Ye Han both understood, they felt that this beautiful woman had come here actually for that voice of Kunsang Ow just now, Leng Wufei said; “Master Wu Desire, the juniors just don’t understand things, why are you so calculating, if they have offended you, I will take them to apologize to you.”

“Humph, an apology is not necessary, I cannot afford your apology from Leng Wufei.” Master Wu Desire snorted coldly and continued; “This place is within the boundaries of my Emei Sect, letting you live here is already being magnanimous to you, now, you are restricted to send these people down to Qing Mei Mountain immediately, and in future, Qing Mei Mountain shall not allow outsiders to step in and disturb my Emei disciples’ clear practice.”

“Master Desireless, you are asking a little too much, aren’t you?” Leng Wufei frowned and said.

“Excessive?” Master Wu Desire’s face showed full coldness as she said; “Back then, if it wasn’t for you, could Senior Sister Wu Xie have ended up in this situation today? From now on, no one will be allowed to enter Mount Qing Mei, including you, Leng Wufei, and whoever dares to live here, don’t blame my Emei Sect for not showing mercy.”

At these words, not only Leng Wufei’s face sank, so did Ye Han’s and the others, this Desireless Masteress was really overbearing, this Qing Mei Mountain did not allow any to step in, she really thought this was their Emei Mountain, on a smaller scale, this mountain was originally a masterless thing, anyone could come here, on a larger scale, this belonged to the country, even if Emei was one of the ten sects, it did not have such a right to decide.

“This senior lady, you are being a little too overbearing with your words, aren’t you?” Ye Han took a step forward and stood beside Leng Wufei, looking calmly at Master Wu Desiree.

**Fortune Chapter 317**

“Overbearing? Hmph, what do you know, you hairy boy, if it wasn’t for the sake of Senior Sister Wuyou, Leng Wufei would still be here at large.” Master Wu Desire’s face was cold as she said; “It’s been more than twenty years, Leng Wufei, Senior Sister Wuyou doesn’t want to see you, I think you should leave this place, even if you keep watch here for the rest of your life, it’s not possible.”

“That’s enough, Wu Desire, I have repeatedly given you courtesy on account of you being Senior Sister Wuyou, you had better not get ahead of yourself, now I am going to Emei to see Wuyou, I advise you not to stop me, otherwise my sword Leng Wufei will not recognise anyone.”

“Today, I’m going to learn from you, Leng Wufei’s swordsmanship, and take a good breath of anger, Wuyou was the most gifted genius in Emei, but because of you, she ended up as an invalid.

With that, he saw the duster in his hand waving, as if it was a dense silver needle sweeping over, the incomparably sharp aura made it hard to believe that the soft and feeble duster had such a powerful attack.

The dust and the sword collided, only to see that the dust in the hand of Master Wu Hui seemed to have a life force, as if it was a poisonous snake wrapped around Leng Wu Hui’s sword.

“Break!” With a low shout, a powerful sword dao aura blossomed out from Leng Wufei’s body, and the sword in his hand shook, directly breaking free from the duster.

“A hundred steps to kill!”

The moment the sword in his hand broke free from the duster, a desperate and severe aura filled the entire void, Leng Wufei’s sword was too fast, too fierce, even faster and more fierce than when he fought with Silly Ben, it was like a shocking wave, this was the real Leng Wufei, a hundred paces and one kill, within a hundred paces, if you couldn’t block his sword, there was only one way to die.

“Bring the sword!” The moment the sword arrived in her hand, a relentless sword light was drawn up in the hands of Master Wu Xu, and it spread all over the void.

With a clink, a terrifying sound of gold and iron rang out in the void, Leng Wufei’s Hundred Steps One Kill was blocked by Master Wu Desire, the two of them were half equal, then I only saw Leng Wufei coldly snort and said; “This place is too small, Wu Desire, come with me if you dare.”

“Humph, am I still afraid of you.” Master Wu Desire followed closely, and the two of them disappeared around the wooden house after a few ups and downs.

Seeing this, Ye Han said; “Come, let’s go and have a look too, it’s hard to see an expert clash like this.”

After saying that, Ye Han led Silly Ben and Kun Sang towards the place where Leng Wufei and Master Desireless had disappeared to chase after them.

“Stand still!” A delicate shout, but it was two female Emei disciples who stepped in, the two of them blocked in front of Ye Han and the three of them, saying; “You are not welcome here, get off the mountain quickly, or don’t blame the two of us for being unkind to you.”

“Hey, little girl, I’m just afraid that you two girl dolls can’t stop the three of us.” Kunsang grinned, then Foolish Ben’s strong body stood forward and a terrifying fierce aura filled out, immediately causing the two female Emei disciples to turn pale.

“Alright, don’t scare people, they don’t mean any harm, let’s go.” After Ye Han finished speaking, he had already shot out first, with Silly Ben and Kunsang following closely behind him.

“Hmph, three stinky men, senior sister, let’s go, let’s go and take a look too.”

Not long after, Ye Han and the three of them, as well as the two female Emei disciples, arrived at a wide area where Leng Wufei and Master Desireless were exchanging blows, their figures sometimes soaring into the air, sometimes landing, constantly changing their positions, within a hundred metres radius was the area where they were exchanging blows, sword qi was spreading, swords clashing with swords, dazzling people’s eyes, streaks of residual shadows, this was a true battle of masters.

“Hanzi, these people are so strong!” Kun Sang said in shock when he saw such a wonderful scene, originally he thought that Silly Ben and Ye Han and the others were already strong enough, but now when he saw them, there were people in this world who were even stronger than them.

“I’m afraid that the two of them are already masters of the middle Ren Du realm!” Ye Han sighed with emotion, the Realm of Ren Du actually had three other realms of division, those who had just broken through to the Realm of Ren Du were those in the Small Realm of Ren Du, Sun Bu Dui and Zhou Lie were in this range, further up was the Middle Realm of Ren Du, and finally the Great Realm of Ren Du.

“Desireless, stop .....

Suddenly, just as Leng Wufei and Master Wu Desire were fighting furiously, a grey figure came with a lightning flash and appeared, the visitor was also dressed in ancient costume and had his hair tied up like the ancients, holding a duster in his hand with a stern face.

Seeing this person who appeared, both Leng Wufei and Master Desireless stopped one after another.

“Senior sister.” Master Desireless called out respectfully as she looked at the Daoist nun who had arrived, and Leng Wufei also called out to the Daoist nun with an arching hand; “Master Emotionless.”

The Taoist nun nodded indifferently, then she looked at Master Desireless and said sternly; “Desireless, when will this fiery temper of yours change? Speak up, what is going on?”

Before Master Wu Desire could say anything, Leng Wufei said; “Master Wu Emotionless, it’s actually not the fault of Master Wu Desire, it was my need to go to Emei Mountain that angered Master Wu Desire.”

“You are going to Emei Mountain.” When Master Wu Ying heard this, she said indifferently; “You should know that this is simply impossible, my Emei hates you to the bone, if it wasn’t for Wu Xiu, my Emei would have been unable to allow you to exist.”

Leng Wufei said calmly; “I know you all hate me, hate me for causing Wuyou’s meridians to be broken and reduced to a cripple, but this time, I must go, no one can stop me, and for this reason, even if blood is spilled on the Emei, I will not hesitate.”

“Leng Wufei, how dare you, splashing blood on Emei, today I want you to splash blood on this Qing Mei Mountain.” After Master Wu Desire heard these arrogant words of Leng Wufei, her sword was sheathed again and she looked at Leng Wufei with an ice-cold expression.

“Desireless, stand down.” Master Wu Ying’s eyes were cold as she looked at Leng Wu Fei and said; “Spilling blood on Emei, with you Leng Wu Fei is not qualified for that, but I am curious, for more than

twenty years you never mentioned stepping into my Emei Mountain, why are you so determined today?"

"Because Wuyou has a hope." Leng Wufei's eyes rolled with strong fluctuations as he said; "Master Emotionless, let me go to Emei, I can promise you that I won't see Wuyou, but you can't kill Wuyou's hope of getting back on her feet."

At those words, Master Emotionless and Master Desireless' eyes shook, could there be hope for Senior Sister Wuyou to get back on her feet again?

"Who is this hope you speak of?" Master Emotionless' gaze was tightly fixed on Leng Wufei.

Hearing these words from Master Emotionless, Leng Wufei looked towards Ye Han, Master Emotionless and Master Desiree followed Leng Wufei's gaze and a burst of cold light flickered in their eyes; "Leng Wufei, are you cracking a king smile? With just him?"

### **Fortune Chapter 318**

"Not bad, just with him." Leng Wufei said calmly; "Although I also know that there is little hope of curing Wuyou, but at least this is a hope, even if it is only one percent I have to give it a try, so I implore you, Master Dowager, to promise me to go up to Mount Emei, and afterwards, I will do whatever you want, whether you want to kill or not."

Emotionless Master said indifferently; "Leng Wufei, why are you so sure that he has a hope of curing Wuyou? You know, even the divine doctor Liu Buyi was unable to do anything, is he more powerful than Liu Buyi?"

"I don't know if he is more powerful than Liu Buyi, but I know that another divine doctor today lost to him in the art of healing."

"Oh, there is still such a rare thing." Master Emotionless looked at Ye Han's young face and said; "Young man, who did you study under? Leng Wufei said that your medical skills are stronger than another divine doctor in the world today, could it be that old man, the Northwest Medical King?"

"Madam, I don't have a master above medical skills, but in terms of medical skills, the Northwest Medical King is indeed nothing." Ye Han said calmly.

"Arrogant brat, can't you still be self-taught?" Master Speechless snorted coldly and said.

"You're really right." Ye Han smiled faintly.

"Leng Wufei, is this what you call hope?" Master Wufei's face was cold to the core as she said; "Even if you want to fool me, you should find an older one, this hairy boy won't convince me."

"Master Dowager, I didn't expect you to be a senior member of Emei, but you are also a person who judges people by their appearance, throughout the ages, there are an unknown number of geniuses and heroes that have appeared in history, just because you haven't seen something, it doesn't mean it doesn't exist." Ye Han looked at Master Emotionless and said; "If I'm not wrong, Master should have been charging through the gates recently, but instead of succeeding, she even injured her internal organs, I wonder if I, a hairy boy, am right?"

“Hmph, what are you talking nonsense you brat, how could Senior Sister fail in her charge, if you are talking nonsense be careful I will personally throw you down from Qing Mei Mountain.”

Ye Han gave Desireless Master who said this a glance and added; “I think Desireless Master knows best whether she is talking nonsense or not, if I am not mistaken, there is a sword wound on your belly, this sword wound once injured your dantian, although it is now clear, but because of this dark wound, every time you break through a realm, your dantian will This pain causes you to have a more difficult time than others when you break through, dare I ask if I am right?”

Ye Han only needed to open his Yin Yang Dharma Eye to see what was wrong with the two of them, but of course, he did not use his Yin Yang Dharma Eye to look around, he only looked at the places he should.

When Master Emotionless and Master Desireless heard Ye Han’s words, both of their gazes changed completely, these things were their own hidden secrets, no one else knew about them yet except for their sisters, how did Ye Han know about them? Had he really reached the point where he could tell the disease by looking at a person?

“It seems that this hairy boy of mine has guessed what is wrong with the two Master Sisters’ bodies.” Ye Han looked at the shocked expressions of Master Emotionless and Master Desireless at this moment, and continued; “I wonder if the two masters still maintain a skeptical attitude towards my medical skills now?”

“Young man, what is your name?” The gaze of Master Mrs. Heartless had changed at this point when she looked at Ye Han, and her tone had also become a little more easygoing.

“My name is Ye Han, I have met Master Emotionless.” Ye Han said with an arch of his hand.

Master Emotionless nodded, then she looked at Leng Wufei and said; “I can promise you to go to Mount Emei, but only you and him, moreover, once you go to Emei, you must break through the Jade Maiden Sword Formation, if you promise, I can take the two of you to Mount Emei now.”

“I promise.” Leng Wufei agreed without any hesitation, although he knew that the Jade Maiden Sword Formation of the Emei Sect was powerful and extraordinary.

“Good, let’s go.” Master Emotionless said and turned to float away, followed by the three Desireless Masters, Leng Wufei walked over and said; “Ye Han, this time it’s all up to you to go to Emei.”

“Please don’t worry sir, I will do my best.” After saying that, Ye Han said to Silly Ben and Kunsang; “You two go to the wooden house first and wait for me, I’ll come back after going to Emei to have a look.”

“I’ll accompany you.” Silly Ben said with a giggle as he rapped his head around.

“Do you guy still want to go to Emei Mountain to see the beautiful women.” Ye Han laughed and said; “It’s alright, don’t worry, I have Mister with me, and the Emei School is the righteous school in the world, they won’t do anything to me.”

After explaining to Silly Ben and Kunsang, under the leadership of Leng Wufei, the two of them went together towards the other side of the mountain top, ten minutes later, the two of them arrived in front

of a high cliff, looking down, this cliff did not know how deep it was, and the mid-air of the cliff was covered with thick fog.

At the edge of the cliff, there was a thick chain linking two peaks, and the distance between the two peaks was initially estimated to be about two hundred metres.

After arriving here, Leng Wufei directly swept onto the chain and shot past, standing on the opposite peak in less than five seconds. Seeing this, Ye Han also shot past the chain and then stood on Mount Emei, from where he could see all the scenery of the outer gate of Mount Emei.

Behind them was the inner gate of the Emei Sect, which was built against a convex cliff wall. Underneath this cliff wall, ancient buildings stood, temples were numerous, filled with a constant and ancient historical atmosphere, and many Daoist nuns were quietly meditating in it.

However, if one were to look towards this place from a distance, one would definitely not be able to see anything here clearly, because if one were to look towards this place from a distance, one could only see a thick cloud of mist, and, to enter the inner gate from the outer gate, one would have to pass through a long cave to reach this place, so the average person, let alone entering, would not even know about this place.

“This Emei Sect’s inner gate is really secretive, relying on the terrain and the weather conditions here all year round, making this place look like a fairyland, a rare paradise!” Ye Han looked at the scenery around Mount Emei, and he said with such emotion.

“Emei Inner Sect, the scenery is unique, this is notorious among the ten sects, Shaolin’s Shaomuro Mountain behind Shaolin and Wudang’s Zhenwu Peak behind Wudang are not as good as this place.” After saying this, Leng Wufei led Ye Han towards the main hall of the inner gate of the Emei Sect.

At this moment, in the square below the main hall, many female disciples of Emei were holding their swords and waiting in strict formation for Leng Wufei to come and break into the Emei Jade Lady Sword Formation.

### **Fortune Chapter 319**

On the steps beneath the square, Leng Wufei and Ye Han slowly walked up to the ancient martial arts sect, this was Ye Han’s first time here, so he was looking around during the source path.

If someone was suddenly brought here, they would think they had travelled to ancient times. The Emei Sect only recruited female disciples, so there were quite a few warblers in here, and there were even some seven or eight year old Taoist nuns in here, very cute.

When they saw Leng Wufei and Ye Han arrive, the female disciples of the Emei Sect, who rarely went to the metropolis, felt particularly novel, standing everywhere and looking at them incessantly, looking as if they wanted to distinguish what difference there was between Leng Wufei and Ye Han and them.

“Senior Sister, is this the source of evil that Master and the others are talking about? It doesn’t look like they are bad.”

“Nonsense, just because the master and the girls say that men are the source of sin, they must be, and we who cultivate must stay away from them.”

“But ..... they really don’t look bad.”

“They don’t look bad on the surface, but they are all bad in their hearts, I heard that it was because of men that Master Wuyou ended up where he is now, so we should never go curious about them, Master said that when you are curious, it is the time for you to fall.”

They were born and raised in the Emei Inner Sect, so they were not sure what the opposite sex looked like. The Emei Sword Canon preaches no desire, no want, a heart for the Way, and the purest heart of the martial arts to prove the Way, so they often think that men are the most desirable source of desire in this world, disturbing their heart of the Way, and are quite radical in their teaching. They are quite radical in their teaching.

Ye Han was struck by the sight of the Emei disciples standing in three rows. From the bodies of these female disciples he could feel a moving aura of grandeur, a solid human heart that was not frightened by the collapse of the sky.

Of course, to put it bluntly, this is a group of women who have not experienced love and affection and all kinds of human emotions, a blank sheet of paper, in their world, there is only martial arts and swordsmanship, nothing else.

There were a total of seventy-seven or forty-nine female disciples in these three rows, and the aura from each one of them was so powerful that if combined together, the power of this group of women was unimaginable.

“Sir, it seems that this line-up is a bit powerful!” Looking at the forty-nine Emei female disciples, Ye Han rubbed his nose and said, in all fairness, facing this group of women, Ye Han he knew he would never be able to defeat them.

“The Emei Jade Lady Sword Formation, with forty-nine people, is a very magical and powerful combined attack sword formation, this sword formation can be ranked in the top three among the many martial arts of the Emei.” When Leng Wufei finished, his gaze looked at the Emei hall, with endless thoughts being released in the depths of his eyes, was the woman he missed, at this moment, also present?

“Leng Wufei, have you thought it through, do you really want to break into the Jade Maiden Sword Formation?” In front of the Emei Hall, Master Emotionless and Master Desireless appeared at the same time, looking at Leng Wufei and Ye Han above the square.

“Since I have promised, I will not back out.”

Master Emotionless nodded and said; “Good, if you can break through the Jade Maiden Sword Formation, the Sect Leader has said that you will be allowed to see Wuyou, but under this premise, is that you can break through the Jade Maiden Sword Formation alive, otherwise, today the Jade Maiden Sword Formation is the end of you.”

“Hahahahaha, thank Master Wu I for me, today this Jade Maiden Sword Formation I, Leng Wufei, am determined to break through, even if I die in this sword formation, I, Leng Wufei, will not regret .....”

After saying that, Leng Wufei strolled forward, his eyes cold and indifferent, his battle spirit overwhelming, his sword intent endless, his sword, already out of its sheath.

Seeing this, Master Emotionless waved her whisk, and immediately, the forty-nine female Emei disciples standing in three rows let out a chant and strolled and danced in the air, only to see the female disciples in the front row firing their swords, and the female disciples in the back row flicking on their swords, the whole person took to the air like a flying bird, and their sharp swords pressed straight into Leng Wufei's position.

Leng Wufei's eyes remained unchanged as he looked at the female disciples of Emei, and with a leap of his body, he rushed into them as a white light.

As the saying goes, two fists cannot defeat four hands. Unless Leng Wufei's sword technique is so powerful that he can kill everyone in the Jade Maiden Sword Formation with one sword, it would be very difficult for him to break through the Jade Maiden Sword Formation unharmed.

Under the watchful eyes of the Emei Sect and Ye Han, one could only see human shadows flying in the square, a chanting sound resounding above the square, and at the same time, a cold light streaked across the heavens and the earth, as if intertwining into a great net of heaven and earth, completely enveloping Leng Wufei.

Under such an attack, at first Leng Wufei was able to maintain his fierce and dashing stance, but after only half a quarter of an hour, Leng Wufei's disadvantage was revealed.

In the middle of the sword formation, Leng Wufei's figure danced wildly, killing in all directions, with biting sword qi following him around. They were constantly changing their positions, throwing swords from all directions at different speeds, but in a seamless manner, making it impossible to defend against them.

Soon, under the attacks of the female Emei disciples, wounds appeared on Leng Wufei's body, but his eyes were still cold, his gaze straight ahead, as long as he could break through the combined attacks of the female Emei disciples, he would be considered to have broken through the Jade Maiden Sword Formation.

But while the thought was good, the reality was cruel.

The swords in their hands were already stained with blood, spilling onto the square, looking very blinding. Every time he took a step, a bloodstain would be left under his feet, which was shocking to the eyes.

However, his eyes were still as cold and lonely as ever, without any retreating heart, he walked forward step by step, even if his blood was dried up and his sword was broken, he would not stop until he really fell!

### **Fortune Chapter 320**

“Wuyou, your heart is in turmoil!”

Inside a pavilion of the Emei Inner Sect, a woman in her forties watched the battle on the square, her eyes were devoid of sorrow and joy.

Next to her, a woman not too far behind her in years is very beautiful, although her face has some wrinkles, but she cannot stop her unique charm.

Behind this beautiful woman is a young Daoist nun, this Daoist nun is only about twenty, with a dusty temperament, like a fairy who does not eat the fire and smoke of the world, but her beauty, if placed in the metropolis, would definitely cause a car accident, her beauty is a stunning, sinking beauty, only afraid that no one in this world can stop her charm.

With such a stunning face and a dusty, fairy-like temperament, in the red-dust metropolis, only Nangong Zixun can compete with her in terms of looks, but in terms of this dusty temperament, Nangong Zixun is not even as good as her in this respect.

To sum up, this woman seemed to combine the best of all women, unable to find a single flaw, perfect to the extreme.

“After twenty years, it seems you still haven’t really let go.” Master Wu I sighed and said; “If he breaks through the Jade Maiden Sword Formation, I will let you meet, but what I hope most is that you can forget him, although it is difficult for you, but the love affairs in the human world should not be in the body of our Emei disciples.”

“I know, Senior Sister.” The man could have died in the Jade Maiden Sword Formation, but he had no regrets and never backed down, such love and affection was so touching that it moved the world, and there was no woman in the world who would not be moved by such a man.

I heard Emotionless say that Leng Wufei has found a young man with great medical skills to treat you.

“It doesn’t matter if he can be cured or not, I’ve been used to it for over twenty years, for the sake of his sincere treatment of me, I only beg senior sister to let him live, with his strength, he simply can’t break through the Jade Maiden Sword Formation, count me as senior sister as begging you .....

A tear slowly fell, Wuyou had love for Leng Wufei, and this love had not dissipated after more than twenty years, seeing that man fighting for his life, how could she be indifferent.

“Ugh!” Master Wu I let out a deep sigh and said; “How could I not know of his love for you, silently watching over you on Qing Mei Mountain for more than twenty years, this kind of loneliness is something that ordinary people cannot endure, if there are still good men in this world, then, he, Leng Wufei, counts as one, I am not a heartless and heartless person, his life, Leng Wufei, will not stay here.”

“Many thanks, Senior Sister.” Wuyou smiled miserably.

Looking at the man in the square who was still trying to charge through the Jade Maiden Sword Formation without risking serious injury, Master Wu I said; “Xian’er, go and tell your Senior Uncle Wu Ying to stop, send him back to Qing Mei Mountain.”

“Yes, Master.” The young Daoist nun who had been standing behind the two men without speaking answered and strolled away, her posture exquisite.

On the square, looking at Leng Wufei whose whole body white clothes were already red with blood at this moment, Ye Han let out a deep sigh, at this moment Leng Wufei was already fighting for his life, even though he was knocked down again and again, he still got up again and again, there was a beginning but not an end, but breaking through the Jade Maiden Sword Formation, he would never give up, it was the first time that Ye Han had seen a man like Leng Wufeng who regarded his love higher than the sky, his actions were enough to make the world move.

“The Jade Maiden Sword Formation, is it really going to drive him to the brink of extinction, not giving a single ray of hope?” Looking at this kind of sword formation, a cold light flashed in Ye Han’s eyes and a surge of anger rose in his heart, this kind of sword formation was like the river in the sky that prevented the meeting between the female and the weaver, making people hate it, why should two people who are in love with each other be stopped?

“There is no infallible sword formation in the world, there must be a way to break this Jade Maiden sword formation .....” This thought flashed through his mind, Ye Han began to focus on the Jade Maiden sword formation, these Emei female disciples worked together in a tacit understanding, as if they could connect their minds and complement each other’s strengths and weaknesses. When they were in the middle of the sword formation, the movement of the sword formation changed around the person who broke into the sword formation, and when the person who broke into the sword formation used a move, they would make a corresponding change, and then strike together without a flaw.

Change!

Suddenly, a light flashed in Ye Han’s mind, as if he had caught something, but after carefully perceiving it, he could not catch anything.

This time, Ye Han used the Yin Yang Dharma Eye. The Yin Yang Dharma Eye could see the flaws in the stances, so what about the sword formation? Could it also be possible?

As Ye Han began to use the Yin Yang Dharma Eye, suddenly, he smiled.

At first, Ye Han thought that the Jade Maiden Sword Formation changed around the changes of the person who broke into the formation, but it was not true. In a word, as soon as you enter the sword formation, you will be unconsciously led by the sword formation.

The people who break into the sword formation are also difficult to find out, such a clever sword formation has opened Ye Han’s eyes at the same time, his heart already has a way to crack, as the saying goes, with no need to change to respond to all changes, the enemy does not move, I do not move, if the enemy moves first, it will be the time to leak a crack.

“At this time, only to hear the front of the main hall, the whisk in the hand of the Emotionless Master waved, a majestic voice passed out in the square, then, see the square of the forty-nine Emei female disciples have retreated, re-standing in three rows, eyes coldly looking at Leng Wufei, who was half-kneeling on the ground with his sword at the moment.

“Leng Wufei, go back, you won’t be able to break through the Jade Maiden Sword Formation.” In front of the main hall, Master Emotionless said indifferently.

At those words, Leng Wufei stood up with a cold expression, although his body was already red with blood, and blood was flowing down his body in streams, but his eyes were not half afraid; “Today, I am here, if I don’t break through the barrier, there will only be a Leng Wufei who dies in battle, there is no Leng Wufei who retreats, Master Emotionless, please continue.”

“Do you really want to seek death?” Master Emotionless’ face was cold.

Leng Wufei said; “For the sake of Wuyou, what’s the harm in dying, dying here, at least, my soul can continue to watch over her, today, unless I die, don’t even think about making me give up.”

“Hmph, I don’t know what’s good for me, drive him back to Qing Mei Mountain.” Emotionless Master ordered, so those forty-nine female Emei disciples moved again in droves.

“Wait, this level, I will break through for him, I wonder if it can be counted?”

Seeing this scene that was about to erupt, Ye Han took a step forward as he looked up at Master Emotionless above him.
