

Fortune 611

Fortune Chapter 611

Looking at the appearance of these three people, Shadowless crossed her arms and made a strange gesture, this gesture was similar to some kind of joint code, seeing this, those three people came over and one of them asked; "May I ask if this is Miss Shadowless from the Abnormal Energy Association?"

Shadowless nodded and said; "It is me, he is Ye Han, I think you should not be unfamiliar with him."

The three men's eyes fell on Ye Han, they were from the Security Bureau, they were naturally no strangers to Ye Han, one of them extended his hand and said; "Ye Han, I am Team Leader 1, Bai Bai, these two are Team Leader 3, Tan Xiaoxiao and Team Leader 4, Dai Chao, thank you for rushing to Los Angeles, we have a better chance of rescuing Team Leader Fire Phoenix with you on board."

Ye Han nodded and said; "I want to go to District 9 now, I wonder which of the several team leaders can lead the way?"

Bai Tian said; "This is not the place to talk, Ye Han, Miss Shadowless, let's go to the stronghold first, we'll discuss exactly how we're going to act when we get there."

"Good." Shadowless nodded.

The three of them drove a nondescript car to pick them up, after they got into the car, Ye Han asked; "Chief Bai Bai, how is the deployment going on your side? When are you going to start the rescue operation?"

"I'm afraid we'll have to wait a little longer." Bai Tian sat on the passenger side and inclined his head; "Our cyber personnel are hacking into District 9's network system, this is the first hurdle we have to overcome, once we break District 9's network security system, the danger of us infiltrating inside will be much lower."

"How much longer will it take?" Ye Han frowned and asked, the others could afford to wait, but he couldn't afford to wait, it had been several days since Fire Phoenix was captured to District 9, no one knew how she was doing inside, one more day of delay would be a dangerous day for Fire Phoenix inside.

"This may depend on the speed of the technicians on our side." Bai Tian sighed, as fellow officers who were born into death together, Fire Phoenix was captured, in fact they were also anxious, but it was no use being anxious at all, there had to be a well thought out plan before they could go ahead and implement it.

Hearing this, Ye Han's brow furrowed and he sat in the back seat in silence.

Not long after, the car drove into an alleyway, at the end of which there was a space like an underground garage, after entering this, White walked to a corner and pressed his fingerprints on an instrument like a card punching machine, on one wall, a clicking sound rang out, and the last entrance appeared in Ye Han's sight.

"Ye Han, Miss Shadowless, this is one of our hidden strongholds, it's very safe, please."

After following Bai Bai and the others into the entrance, what appeared in front of Ye Han was a bright space, at the moment, quite a few people were busy inside this space, seeing the three of them return, some of them took the initiative to stand up and greet them.

When he saw the three of them return, some of them stood up to greet them. Bai Tian waved at them and then walked behind a teenager who looked 17 or 18 years old and was busy in front of the computer and said, "Xiao Yu, how did it go? Did it work out?"

The teenager named Xiaoyu had obviously not rested for several days, and with two panda eyes, he said; "Team Bai, I am still cracking it, the defence system of District 9 is too complicated, and I am afraid it will take some time with my own strength. time know where we are."

Bai Tian nodded, pondered and said; "Xiaoyu, how many more days will you need to crack the District 9's defence system?"

"Three days."

At those words, Bai Tian's brow furrowed, this time was a little too long.

The teenager called Xiaoyu said; "Team Bai, three days is already considered the fastest, unless there are other hacking experts who help me hack into District 9's network system together."

"If someone helps you, can you crack District 9's defence system in a day?" Ye Han then looked at Xiao Yu and asked, three days, he couldn't afford to wait, in his opinion it was best to act tomorrow.

Upon hearing this, Xiao Yu gritted his teeth and said; "If the other party is also an expert hacker, I am willing to try it in one day."

Ye Han said; "Good, I'll have someone help you."

Hearing Ye Han's words, Bai Bai and the others were a little surprised, could it be that Ye Han also knew a certain top hacker?

"You can really find someone to help?" Shadowless gave Ye Han a strange look.

"Try it."

Saying that, Ye Han walked to a corner and started dialing the phone, John B. Searson was crisscrossing the stock market, he naturally had a group of hackers who were very good at the internet behind him to help him, so this call from Ye Han was to Old John.

"Team Bai, who is this guy?" Xiao Yu glanced at Ye Han and turned his head to White Sky and asked.

Bai Tian said; "He's Ye Han, forget it, I'll tell you later when I have time, Xiao Yu, if Ye Han can really find an expert to help you, you must crack the defenses of District 9 as fast as possible, we can't delay this matter any longer."

"So he's the Ye Han that Sister Fire Phoenix always talks about." Xiao Yu gave Ye Han a thoughtful look before saying; "Team Bai, I will do my best."

"Daylight, we can't delay the matter of the Godly Disc Fragment any longer, if it is too difficult to rescue Fire Phoenix, we will have to give up, right now the Godly Disc Fragment is being fought over by several

other countries, if we delay too long on this matter of Fire Phoenix, our previous sacrifices and efforts will become worthless.” Dai Chao, the leader of the fourth group, said in a deep voice.

At those words, Bai Bai sighed in his heart before nodding silently, in order to obtain the God Disc Fragment, they had fought in the Western World for most of the year in blood, during which several members of the Security Bureau had lost their lives.

At this time, Ye Han had already made contact with Old John’s side, and he walked over to Xiao Yu and said; “You can do it now, someone will naturally help you when the time comes.”

Hearing Ye Han’s words, although Xiao Yu was a little puzzled, he nodded under the gesture of the day, and those slender hands began to fly above the keyboard, a series of codes flashed above the display, dazzling to the eyes.

“There, there’s more than one, man, thanks, with their help, I can definitely hack into District 9’s network system in a day’s time.” Xiao Yu turned his head to Ye Han and said excitedly before continuing to focus on the display, with the help of the experts, it was much easier to operate on his side.

“It seems that this matter of rescuing Fire Phoenix still has to be done by you.” Bai Tian gave a thumbs up to Ye Han and smiled.

“Hopefully, we can head to District 9 tomorrow and rescue Fire Phoenix.” Ye Han said calmly.

Fortune Chapter 612

“I can’t see that you have quite a wide range of connections, the top hackers know each other too.” Shadowless glanced at Ye Han and said this.

Ye Han said; “If we head to District 9 tomorrow, I hope the two of us can work together like we did in the Golden Triangle, if we save the person I owe you a favour, whatever you want me to do with this favour I will promise you.”

At that, Shadowless said; “Good, that’s what you said, I didn’t force you, it seems that for this favour I will have to do my best when the time comes.”

At this time, Bai Bai came over and said; “Ye Han, the location of District 9 is located inside a large desert outside of Los Angeles, there are still a few hundred kilometres to go, let’s take a look at the satellite overlook map first.”

After a few operations, an overhead view of District 9 appeared on the display. Looking down from above, District 9 stood in the middle of the yellow sand, but the base of District 9 was not above the yellow sand, but under the ground. These red dots represented the number of people, and from the distribution on the overhead view, it seemed that the number of troops guarding the entrance to the ninth district was at least one company.

As for how to enter this entrance, our plan is to intercept the logistic troops that are bringing supplies to the ninth district on the way to the ninth district. As for how to enter this entrance, our plan is to intercept the logistic troops that are transporting supplies to District 9 on our way to District 9, and then we disguise ourselves as Coal Country soldiers to enter the entrance to District 9, we have disguise masters here that can help us.”

Upon hearing this, Ye Han said; "Leader of the daylight group, how many days do the logistic troops conveying supplies to the Ninth District go to the Ninth District?"

"Three days." Bai Tian said; "The day after tomorrow is when this logistics unit delivers supplies to District 9, once Xiao Yu's side succeeds, the day after tomorrow is when we will make our move."

"That's too slow." Ye Han shook his head and said; "If the ninth district's network system can be successfully hacked into tomorrow, I'm prepared to act tomorrow."

Upon hearing this, the leader of the third group, Tan Xiaoxiao, frowned and said; "If we act tomorrow, how will we enter the entrance of the ninth district? A strong attack is simply impossible, there is no other way to get inside District 9 except with the help of the logistic troops that are transporting supplies."

Ye Han looked at the overhead view of District 9 on the display screen and said; "A feint attack will suffice, not too many people are needed to enter District 9, Shadowless and I will be enough, too many people entering will not be able to move well, my idea is to feint the entrance of District 9, it is best to create chaos, Shadowless and I can take advantage of this opportunity to enter inside District 9."

"The two of you?" Bai Tian frowned and said; "No, it's too dangerous for the two of you to go in, that's the ninth district which is full of genetic warriors, bestial and alien people, there's not a single normal person inside, I don't agree for the two of you to enter the ninth district."

"Good." Tan smiled and said; "If even the two of you are trapped inside District 9, it will definitely cause District 9 to be alerted, and then our rescue operation may have to be postponed."

"This is the fastest and the only way at the moment." Ye Han said; "Although District 9 is terrifying, it may not necessarily be a dragon's den, several team leaders, I have already made up my mind, I hope you won't stop me, I won't joke with my life, let alone gamble with Fire Phoenix's life."

"Ye Han, the two of you want to break into District 9 alone, this is too big a mouthful, isn't it?" Dai Chao said with a cold smile.

"Too big-mouthed?" Ye coldly laughed, and immediately, an extremely terrifying aura was released from his body, like a tidal wave, and then, this aura enveloped everyone inside the base, including the three team leaders, Bai Bai, Tan Xiaoxiao and Dai Chao.

However, when they sensed that the aura was released from Ye Han's body, they looked slightly more relaxed, if it was a western super expert coming to attack their base, then they would be in big trouble.

The faces of the three group leaders, Bai Tian, Tan Xiao and Dai Chao, were flooded with a huge change, Ye Han's strength was so powerful, surpassing them by far too much, this kind of power, I'm afraid only a few confessors inside the Martial Hall could be compared.

Shadowless stood beside Ye Han was also a little surprised, although she knew that Ye Han was very powerful, having killed Huo Tianzun and Murong Hetu, but how powerful Ye Han was she was not sure, but now she knew, Ye Han's strength could definitely be compared to some old monsters.

“What a powerful fellow!” The three of them trembled in their hearts, their understanding of Ye Han was still at the time when Situ Zhentian recruited him, but they had never thought that in just half a year’s time, Ye Han’s strength had already reached a level that was beyond their reach.

In fact, Bai Bai and the others had been in the western world for most of the year and had no time to pay attention to the domestic affairs, otherwise, they would have known that the Ye Han of today had long been different from the Ye Han of the past.

“How are the three group leaders?” Looking at the three of them whose faces had changed drastically, Ye Han asked calmly, if he didn’t show a little bit of strength, these people would only not believe him.

Upon hearing this, Bai Bai let out a bitter smile and said; “It was our eyes that were clumsy, we didn’t see that your strength was so strong, fine, I agree that you and Shadowless girl can enter District 9, but only if our side can break the District 9 network system, otherwise, even if you go in it will be difficult to move an inch inside.”

“Good.” Ye Han nodded and continued; “On the Coal Country side, how many people do you have? Once we have rescued the Fire Phoenix camp, we will inevitably be hunted down.”

Bai Tian pondered and said; “On the Coal Country side we have a total of six groups, there are more than ten experts who have broken through the Ren Du and the rest are all at the Peip Yuan realm, there are more than fifty people, most of these people are out on missions.”

“Not enough.” Ye Han shook his head and said; “This is the base camp of the Coal Country, the experts they have can be imagined, after rescuing Fire Phoenix, I need to bring her back to the country immediately, it’s too dangerous to stay over here.”

“Bringing Fire Phoenix back to the country, Ye Han, won’t you help us carry out the mission?” Dai Chao asked with a frown, with Ye Han, an expert in the field, their chances of fighting for the divine disc fragment would definitely improve a lot.

“Want me to help you guys snatch the divine Disc Fragment?” Ye Han gave a cold smile, took out the documents he had on him and placed them on the table, saying; “Sorry, I’m no longer a member of the Security Bureau, coming to the Western World, I’m here for Fire Phoenix.”

Fortune Chapter 613

Looking at Ye Han as he placed his documents on the table, their brows furrowed during the day and they said; “Ye Han, what do you mean by that?”

“What does it mean? Shadowless, you tell them, yes, help me return this document to Situ Zhentian, from now on I have no more involvement with the Security Bureau.” Saying that, Ye Han walked alone to a corner and slowly closed his eyes, he didn’t bother to explain anything, ever since Situ Zhentian had struck out at him, Ye Han had not considered himself to be a member of the Security Bureau anymore.

Looking at Ye Han’s back, Shadowless, who knew the reason, sighed and told what had happened here, although Ye Han wanted to leave the Security Bureau, he needed to get the approval of Situ Zhentian, the head of the Security Bureau, but, at this time, only Situ Zhentian had no face to keep Ye Han in the Security Bureau anymore, the relationship between them had broken down.

After hearing Shadowless finish, Bai Bai sighed and said; “Forget it, let’s not talk about that, right now rescuing Fire Phoenix is important, as for this document it’s better for him to return it to the director himself, I don’t have that right.”

Shadowless nodded, put the document away and walked to Ye Han’s side and sat down, returned the document to him and said; “This is a matter between you and Chief Situ, it is better for you to give it to him yourself, the daytime team leader and the others will not do it for you.”

Ye Han put the documents in his pocket and said; “Shadowless, I want to ask you a question, what exactly is the Divine Disc Fragment? Many forces at home, and abroad are involved, all for this God Disc Fragment, I think there must be a big secret in it that I don’t know about, right?”

Upon hearing this, Shadowless said; “Actually, I’m not very clear about the divine disc fragment, but I heard my grandfather talk about it, if the four divine disc fragments once reunited together, it would lead those who got it to the land of eternal life.”

“The Land of Eternal Life, could it be the Everlasting Life?” Ye Han asked with a frown.

“It should be like that.” Shadowless said; “This secret has been under investigation by the first great generation since the founding of the country, but there has been little progress, and legend has it that the divine Disc Fragment is one of the clues that can lead to this secret, so it is imperative that we get the other two pieces of the divine Disc Fragment.”

“In that case, there are already two divine disc fragments in the country at the moment?” Ye Han asked.

Shadowless nodded and said; “In fact, the divine Disc Fragment was originally something of our country, I heard that it was a clue left by Ancestor Peng to his descendants to find the secret of eternal life, however, back then, the invasion of China by the Eight-Nation Alliance, in addition to the Little Japan’s East Asian War, caused what belonged to our country to be snatched away by these robbers, back then, the reason why the people of our country were living in deep water and suffering was actually because of this secret, whether it was the fragment of the divine disc, or the Four Sacred Beasts, or other clues to finding the mystery of eternal life, they were all patronised by other countries who entered our territory under the banner of shared prosperity, the real reason being their greedy hearts that wanted to find clues from us.”

“Back then, foreign forces invaded the land of China because of this secret?” Ye Han looked at Shadowless with some incredulity, this made him feel a little too absurd, to start a war of invasion just for this nebulous secret.

“Does it feel absurd?” Shadowless looked at Ye Han and said; “At first I also thought so, after all, this secret has always belonged to the legend, in this present era no one has been able to confirm the truth of this secret, but there is a hidden department in our country that has been pursuing this clue, I think, this secret is not empty, it’s just that we can’t get to the deeper answer And it has.”

“Everlasting life!” This was already the first time Ye Han had heard these two words, the first time was in the cave inside the Teng Chong Forest, the words left behind by the real Tong Wei Manifestation, then the Ghost Master, who also seemed to be pursuing this clue, and the various sects grabbing the Sacred Beast, they only had one goal, longevity.

However, Ye Han's heart still didn't quite recognize the truth of this secret, in this world, was there really such a thing as longevity?

If there was, from ancient times to the present, who had truly lived forever? Those who could live forever were just mythical figures, they did not really exist.

After a sleepless night of network invasion battles, the network system of District 9 was finally breached under the joint efforts of Xiao Yu, the Security Bureau hacker, and the hackers around Old John.

After Ye Han, who was in the middle of his meditation, was woken up by the cheers from inside the base, he walked over to Bai Bai and the others and asked; "How was it, did it work?"

Bai Tian nodded and said; "Yes, Xiao Yu has successfully implanted a virus into the Region 9 network system, and has also added two fake identities into the other party's network library, gaining certain permissions. After half an hour, the network system of District 9 will detect the abnormality and automatically alert the police, so once you have entered District 9 you only have half an hour to rescue Fire Phoenix."

At those words, a cold light flashed in Ye Han's eyes as he said; "Half an hour is enough, let's act now."

Bai Tian and the others looked at each other and nodded one after another, then the entire Security Bureau moved and started to evacuate this base, during the network invasion battle just now, although the network system of District 9 had not discovered that their network had been implanted with a virus, someone had invaded the District 9 network system and they still discovered it and knew the location of the invasion, therefore, this stronghold could no longer stay So the stronghold could no longer be used.

The Security Bureau people acted swiftly, and in just a few minutes they had packed everything up and evacuated the entire team. Ye Han had already left for District 9 together with the three team leaders, namely Bai Bai, Tan Xiaoxiao and Dai Chao, accompanied by more than ten experts, and moreover, Bai Bai had already informed the Security Bureau members who were on assignment outside to go to District 9.

After leaving the city of Los Angeles, everyone started to walk into the vast desert, which was basically under the surveillance of the Ninth District. Not only were there drones scouting, but there were even satellites in the sky to monitor the area firmly, so as long as there were outsiders entering the desert or approaching the Ninth District, they would be discovered by the Ninth District.

However, with Xiao Yu, a master hacker, behind the scenes, these were not problems, the main thing was to enter District 9. An hour or so later, Ye Han and his team arrived at a small yellow sand depression two miles away from District 9.

"Team Bai, we're all here, can we start now?" After Ye Han and the others arrived here, two middle-aged men immediately came to their side, these two were the leader of the second team and the leader of the fifth team respectively.

Fortune Chapter 614

Looking at the entrance to District 9, a cold light flashed in Bai Bai's eyes as he said; "There are radar sensors within two miles of District 9, as long as there is life activity in this area it will be detected, Ye

Han, we will feint to attack District 9 later, but you and Shadowless girl should be fast, it is best to take advantage of the chaos to cross this area.”

Upon hearing this, Ye Han nodded and said; “With my speed, this distance is not difficult for me, but you guys can just feint, you must not get attached to the battle, once you get caught up with the experts inside the ninth district, it might be difficult for you guys to pull out, once we enter the ninth district, you guys can evacuate this place, be careful with everything.”

“You guys should also be careful.” Bai Tian handed a card to Ye Han and said; “This is the key to enter the gates of the ninth district, once inside, you have partial access to some areas, if you can’t enter the places you must not force your way in, the experts guarding the ninth district are in the thousands.”

“I understand.” Ye Han put the magnetic card away.

At this time, Bai Bai bellowed into his headset; “All members, prepare to move.”

At the same time, the members of the Security Bureau that were already in place around the sand dunes also swept towards the entrance of District 9.

In an instant, when the Security Bureau entered the radar range of Zone 9, a buzzing alarm sounded at the entrance of Zone 9, just like a police car alarm.

When the alarm sounded, a company of Coal Country soldiers at the entrance of District 9 fired wildly at the Security Bureau. These Coal Country soldiers were not ordinary soldiers, but genetic warriors, and the guns in their hands were very powerful, all of them were specially-made armour-piercing bullets that could pierce even tanks.

A tall-nosed foreigner in military uniform looked as cold as ice, with a straight figure. I want them all to leave their lives here, and no one who dares to attack District 9 will leave alive.”

“Yes, General.” After hearing these words from the tall-nosed gaijin, a short man with wolf-like ears stood up at once and headed outside.

“Reinforce the vigilance within the base, ordinary people wouldn’t dare to hit our 9th district, I’m just afraid that these people have other intentions.” The general said to those under his command.

Several other generals nodded solemnly when they heard this.

Outside the base of District 9, Ye Han and Shadowless had already moved at this time, with Shadowless’ stealth powers, in addition to Ye Han’s own speed, amidst that rain of bullets, invisible to the naked eye, Ye Han and Shadowless took less than two seconds to reach the entrance to the gates of District 9, at this time the alarm sounded everywhere, the group of Coal Country soldiers had no idea that someone had already arrived at their side and was preparing to enter the gates Inside.

Even if she was standing beside the soldiers, they would not be able to detect her.

Looking at the electronic sensor above the gate, just as Ye Han was about to take out his magnetic card to open the gate, inside the gate, a group of Coal Country soldiers wearing military uniforms, but with different looks appeared one after another, some of these people looked like tigers, some looked like wolves, and some even had legs and feet like animals, this was simply a group of non-humans.

“Bestialized people!” Looking at these Coal Country soldiers who had appeared, Shadowless whispered in Ye Han’s ear.

“It looks like someone will help us open this gate.” Ye Han gave up on the move of taking out his magnetic card to open the gate, as the group of bestialised men had already opened the gate from the inside and swarmed out to join inside the battle.

At this time, a short man with wolf-like ears suddenly stopped as he reached Ye Han and his unhuman nose sniffed the air, as if his nose had picked up a different smell in the air.

Ye Han’s eyes flashed. If this beast man had found them, then their operation would be a complete failure.

However, to the relief of the two, the beastly man did not find Ye Han and left after sniffing in the air for about half a minute.

“That was close!” Shadowless patted his small chest.

“Let’s go, there’s not much time left for us.”

After entering inside the gate, there was a long passage, but at this time there was no human handle on top of this passage at all, only some cameras were installed, soon, Ye Han and Shadowless both arrived at the end of the passage, at the end of this was a lift, entering the lift required fingerprints to activate it.

Seeing this, Ye Han waved a palm across the air, shaking the camera monitoring to this corner and deflecting its trajectory.

The reason why District 9 was called District 9 was because there were nine areas inside, one for genetic warriors, one for bestial humans, one for psychics, one for researchers researching biochemical weapons, one for cells holding felons of all levels, and one for officer residences of all levels, as well as classified documents and other areas.

When the lift landed at the bottom and the door just opened, Ye Han flew out with Shadowless like an invisible wind. The two Coal Country soldiers who were in charge of guarding the lift took a look at the empty lift and a look of doubt flashed in both of their eyes, but since nothing happened, the two Coal Country soldiers didn’t think much of it.

Gradually, Ye Han and Shadowless had dived into an open area, in front of them were Coal Country GI’s at three steps and two posts, all of these people were releasing a fierce aura, they were not normal people at all.

“Ye Han, District 9 is so big, how are we going to find the Fire Phoenix group leader?” Shadowless asked in a low voice in Ye Han’s ear, the severalth district covered an area that only reached four or five miles in width, in this area, it would be a waste of time if they searched aimlessly, and there was only half an hour left for Ye Han and the others.

After his strength had increased, Ye Han’s Yin Yang Dharma Eye had reached a terrifying 2,000 metres from the previous 1,000 metres.

Under Ye Han's penetrating vision, the structure inside District 9 appeared in his mind like a floor plan, no matter if it was a person or an object, it could not escape his penetrating vision.

Fortune Chapter 615

Within this range, all the beastmen, genetic warriors, psychics and scientific researchers in District 9 were seen by Ye Han, but there was no shortage of true experts, and when Ye Han projected his attention on them, these people would more or less be alerted.

Whether they were bestialised people, genetic warriors, or supernaturals, they were all a group of non-humans whose body potential had been boosted to the extreme by biochemical drugs, and they all had an innate keen sense of smell for unknown dangers, and for potential prying eyes.

After sensing these people's movements, Ye Han became more careful in using his Yin Yang Dharma Eye, these people still only had some sense of touch, if he met a more powerful expert, he would only be discovered if he used his Yin Yang Dharma Eye in such a reckless manner.

"Go this way."

At this time, Ye Han pulled the puzzled Shadowless in towards a passage on the left, under Ye Han's penetrating vision just now, the area on the left was even more heavily guarded, if such a place was either a key place in District 9 or a place where serious criminals were held, no matter which it was, Ye Han had to give it a try.

Not long after entering this passage, an electronic door blocked Ye Han and Wu Ying's way, but what made Ye Han and Wu Ying frown at the same time was that there were a dozen of genetic warriors guarding the front of this electronic door, if they opened the electronic door to enter, they would definitely be discovered by these guards.

"No matter, break in hard!"

The next moment, Ye Han's hands moved in unison, flashing like a fierce wind beside these genetic warriors, ending the lives of these genetic warriors in less than two seconds.

After all this, Ye Han let these genetic warriors stand against the wall on both sides, if you don't look carefully, from a distance, these genetic warriors are still holding their positions, while Ye Han did it, Shadowless also shot to distort the camera that was pointing at this place, even if someone found something wrong with the camera here, it would take some time to come and check.

The two of them worked well together, and after pressing their fingerprints, they passed through the electronic door without any problems.

However, after passing through the electronic door, Ye Han found that in front of them was a glass apparatus, and inside the glass apparatus were many soldiers of the coal country lying quietly, and a white tube was inserted into their bodies, and some red and white drugs were constantly flowing into their bodies.

"Looks like we've arrived at the Region 9 Genetic Warrior Production Base, no wonder there are more than ten Genetic Warriors guarding the outside." Shadowless looked at this scene that appeared in front of them, his eyes were cold and he was about to destroy everything here, there were only hundreds of

genetic warriors inside this production base, once all of these people were produced, it would be a terrifying force, it was likely that the army of the Coal Country would all develop towards this in the future.

“Don’t be reckless.” Ye Han stopped Shadowless and said; “We came here to save people, not to cause havoc, in case we alert the people of District 9, it will be difficult for us to get out.”

Shadowless also understood this and said; “Look how nervous you are, don’t worry, I’ll just take a look, I won’t mess around.”

However, just as Shadowless walked in next to those apparatus, a burst of alarm suddenly sounded inside here, at which point the electronic doors automatically closed towards the two sides.

“Not good, run!”

It was only then that Ye Han discovered that there were actually infrared sensors inside this production base, once he entered inside, the sensors would trigger an automatic alarm and the electronic doors would automatically close, locking the intruder inside, so the moment the electronic doors were about to close all the way, Ye Han exerted an amazing speed pulling Shadowless out in a close and dangerous burst.

When she came outside, an afterimage flashed across Shadowless’s face as she gave Ye Han a grateful glance.

“Alright, let’s talk about it after thanking me for leaving this place, right now we have set off the alarm of this place, I’m only afraid that it won’t be long before someone comes here, we must leave as soon as possible.” Saying that, Ye Han pulled Shadowless’s hand and ran in the direction the passage came from, when they reappeared in that open place, here, many genetic warriors were on the move.

“Bastards, are you using your strength on women’s bellies? Hurry up for me, you go to the recidivism room, you go to the laboratory, there must be no accidents in these two places, once you find the intruders, kill them all!” At that moment, a series of English words came out from the mouth of a genetic warrior, and it could be seen that he was a big officer of no small rank within the genetic warriors.

“What are they saying?” Ye Han and Shadowless were hidden in a corner, listening to that genetic warrior gibbering a whole lot, Ye Han looked at Shadowless with some confusion, as for foreign languages, Ye Han was not proficient at all.

At this time, Shadowless gave Ye Han a smug look and said; “It seems that learning an extra language can still come in handy at critical times, perhaps, I already know where the recidivism room is, follow me.”

After saying this, Shadowless led Ye Han out quietly, this group of genetic warriors’ sense of smell was not as powerful as the beastly ones, Ye Han and Shadowless moved right under their noses without even noticing, leaving this open place, Shadowless led Ye Han to follow closely behind a group of genetic warriors that were heading in the direction of the recidivist room.

With this group of genetic warriors leading the way, there was no need for Ye Han and the others to open the barrier and pass straight through many difficult levels that were difficult to pass. Eventually, Ye

Han and the others arrived inside a space that appeared somewhat dark, and at the entrance of this space, dozens of genetic warriors were guarding the place, and behind them was a metal gate.

Ye Han found that he could not use his fingerprints to open this metal gate at all, as there was not even a place to input fingerprints on it.

“A special key is needed.” Shadowless frowned as she had seen that there was a groove on top of the metal gate, which was where the key was inserted.

Ye Han narrowed his eyes and said in a low voice; “If it really doesn’t work, we’ll have to break the door to get in.”

Upon hearing this, Shadowless’ expression trembled and said; “You’re crazy, breaking into this place hard, I’m afraid that in just one minute this outside will be filled with hundreds of genetic warriors and beast transformers.”

“Other than that, do you have any other way?” Ye Han glanced at Shadowless and said; “Don’t you forget that we only have half an hour, and now fifteen minutes have passed since half an hour, leaving us with little time.”

Hearing this, Wu Ying fell silent, although she did not agree with Ye Han breaking in hard, but if she went to look for the key, let alone if she could find it, even if she did, she was afraid that there would not be enough time.

Fortune Chapter 616

“General, there is a situation in the lab, most likely outsiders have infiltrated the base and a dozen of our genetic warriors have been killed.”

At this time, inside the room belonging to the supreme leader of the Ninth Region, a genetic warrior with the rank of Major walked in and said.

At these words, an incomparable stern light flashed across the face of General Jason, the supreme leader of the Ninth Region, and his leather-covered palm slapped on the desktop, making little movement, but a deep palm print had already appeared on the desktop.

The fact that he could control his own power to such a degree that his hand was silent showed that this General Jason was a very terrifying master.

General Jason said incomparably coldly; “Find me the intruder, that group of Chinese outside attacking the base must be trying to take advantage of the opportunity for their people to mix in while there is chaos, and this infiltrator dares to enter District 9, it is definitely not simple, go to the recidivist room, that is where the Chinese want to go.”

“General, but over at the lab”

“I said go to the recidivism room, Mr. Major, don’t you understand my words?” General Jason gazed coldly at the major and said; “Some time ago we captured a senior Chinese agent, this group of Chinese attacked the base at this time and had someone infiltrate in definitely for that senior agent.”

“General is brilliant, I’ll go to the recidivism room now.”

After saying this, that Major saluted and then turned to leave.

“General, do you want me to go over there and take a look? Anyone who dares to infiltrate our Ninth District must be a very powerful and daring master.” After the major left, the officer who commanded the genetic warriors in District 9 stood up and said.

“William, you are one of the three great masters under me, don’t let me down, the recidivism room is one of the places I value the most, if the God-making project succeeds, this group of people will be my first experimental subjects.” General Jason said indifferently.

“Please rest assured, General.” Major General William nodded heavily and headed for the recidivism room.

In front of the entrance leading to the recidivist room, Ye Han was currently using his Yin Yang Dharma Eye to see through everything inside the recidivist room. Behind this metal door, what appeared in Ye Han’s mind under his perspective was one iron cage occupying the entire recidivist room, these iron cages were made of some hard material, some were hanging in the air, some were standing on the ground, adding up to a hundred of them.

Through observation, Ye Han found that although these people had normal vital breath, their strength was very weak, and there seemed to be a powerful drug inside their bodies that had imprisoned their strength.

Ye Han’s eyes moved and scanned from one iron cage to another, and soon, he saw a woman he was very familiar with inside one of the iron cages, Fire Phoenix, her figure was still as hot and sexy as ever, and it was hard to forget just by looking at her, however, at this moment, although Fire Phoenix was meditating, the aura on her body was just as weak as the others inside the iron cages, and she probably couldn’t even beat an ordinary person.

Seeing this, Ye Han’s face flashed with a trace of relief, as long as Fire Phoenix was alright, now that he had seen her, the worry he had been hiding in his heart could finally be put aside, right now, what he had to do was to save this woman from her suffering.

Perhaps it was as if she felt something, just as Ye Han was staring closely at the fire phoenix, inside the iron cage, the fire phoenix also opened her eyes, her gaze looked outside the metal door, she felt that behind this door, there was an aura that she was very familiar with, although it was only a nebulous feeling.

“Little one, is that you coming?” Looking at the metal gate, Fire Phoenix lightly bit her shell teeth, at this time, she naturally thought of Ye Han, the teenager she hadn’t seen for most of the year, when she left him, Fire Phoenix never thought that one day she would end up in a situation where she didn’t even have the chance to see Ye Han once.

“Wait for me!” Ye Han let out a deep breath, time, no longer allowed him to continue waiting, one more second of delay might have irreversible consequences.

However, just when Ye Han had such a thought, that Major and Major General William arrived, the two of them walked as if they were dragons and tigers, that powerful aura was filled with a cold and terrifying aura, just by looking at them, one could tell that these two people were definitely experts,

especially that Major General William, he could only be comparable to an expert at the early stage of the Great Renminbi realm.

Looking at the Major General William, Ye Han's aura slowly collected, hiding in the corner with Shadowless, facing such an expert, Ye Han did not dare to release the slightest aura.

However, just as this Major General William walked to the position where Ye Han and the others were hidden, he suddenly stopped, he just stood calmly for a few seconds, and then, with a cold smile on the corner of his mouth that was hard for people to detect, he walked straight towards the location of the metal gate.

"Open." A key appeared in Major General William's hand, and after a genetic warrior took the key, he immediately opened the metal gate, and after a thick clicking sound, the metal gate opened, and Major General William walked in with his men.

Seeing this, Ye Han of course would not let go of this good opportunity, after glancing at each other with Shadowless, the two of them entered the metal gate as fast as lightning, the genetic warriors guarding the entrance did not notice them at all.

Inside the recidivism room, Major General William strolled around as if on a routine inspection, then walked out of the room and had the metal doors closed again.

At this moment, Ye Han and Wu Ying, who were already inside the felony cell, breathed a sigh of relief at the same time, and immediately, Ye Han walked over towards the location where Fire Phoenix was being held.

The two met each other with four eyes, and in addition to dismay and surprise, there was a strong look of worry on Fire Phoenix's face.

"Fool, what brings you here? Don't you know that this is the ninth district, a place where there is no entry but no exit?" Fire Phoenix got up and came to the front of the iron cage, her hand, touching the side of Ye Han's face, compared to before, this little man's face was obviously much more resolute, the vicissitudes in those eyes made him was transforming into a mature direction.

Looking at Ye Han, there was also a touch of inseparable tenderness and emotion in Fire Phoenix's eyes, this little man was willing to go into this dangerous place in District 9 for her, she felt that this life had been worth it, but Ye Han really shouldn't have come!

"If I don't come, who will I ask for the promise you made in the first place." Ye Han held Fire Phoenix's hand with a faint smile.

But what Ye Han didn't know was that at this time, outside the metal gate, Major General William was looking at the recidivist room with a cold smile on his face, and then he beckoned a genetic warrior and said; "Go and inform the general that the intruder has become a turtle in a jar, he can't escape."

Fortune Chapter 617

Major General William was not an ordinary genetic warrior, he was particularly sensitive to the scent of strangers, especially in this genetic warrior everywhere, once a strange scent entered the place, he

would be the first to find out, the reason why Major General William opened the metal gate was to deliberately create an opportunity for Ye Han to walk in and throw himself into the net.

This metal gate is made of the hardest material in the world, even Major General William himself is not sure to force open this metal gate, Ye Han entered, there is absolutely no possibility to escape, only to become a turtle in a jar.

At this point, Ye Han did not know that his actions were already under the surveillance of others.

Inside the recidivism room, when Shadowless watched Ye Han and Fire Phoenix making eyes at each other, he couldn't take it anymore and said; "I say, you two, can you change the place for your lovemaking? This is District 9, do you still want to leave?"

Upon hearing this, Ye Han glared at Shadowless, then he looked at the iron cage that was locked by chains, took out his Dragon Scale Dagger and chopped it down, with the sharpness of the Dragon Scale Dagger, plus the great strength Ye Han possessed, this mere iron chain naturally could not be difficult for Ye Han.

Looking at the iron cage that was opened by Ye Han, Fire Phoenix gave Ye Han a wintry glance and said; "Little fellow, my sister can't walk anymore, these bastards have injected genetic drugs inside my body, imprisoning my power, I'm afraid that if I go out like this, I will only drag you guys back."

As soon as Ye Han carried Fire Phoenix out from inside the iron cage, he said; "With me here, you are not a drag, we can definitely walk out from here as well."

At these words, Fire Phoenix hung her two hands around Ye Han's neck, she nodded with a red face, although she had tried hard to seduce Ye Han in the past, and had even slept in the same bed with him, both sides were honest, Fire Phoenix had never been held in Ye Han's arms so boldly, she felt that at this moment, she was a little woman who needed to be cared for and loved, the sense of security brought by Ye Han's arms was almost intoxicating to her She had forgotten that this was still the dangerous District 9.

"Chinese people, you can't get out of here." At this moment, just as Ye Han was carrying Fire Phoenix towards the metal door, a cold voice suddenly sounded. In fact, Ye Han and Shadowless had entered the heavy prisoner room, and the prisoners inside had seen them.

It was easy to get in, but difficult to get out.

"Humph, that's not necessarily true, if we can get in, we can naturally get out too." Shadowless snorted softly.

"He's right, we're only afraid that it will be difficult for us to get out indeed!" At this time, a gloomy voice came out from Ye Han's mouth, because under the perspective, Ye Han could already see the situation on the other side of the metal gate, on the other side of the wall, there were dense genetic warriors standing all over, and there were several very powerful experts among these, one of them, Ye Han felt that he didn't even have absolute certainty that he could defeat.

Having been discovered, thinking of this, Ye Han's brow furrowed even more.

Hearing Ye Han's words, Shadowless' brow furrowed as he said; "You can see outside?"

“Feelings.” Ye Han only replied with two words, then he put the fire phoenix down, looked at those prisoners inside the heavy prisoner room and said; “You should have been held by the people of the ninth district for a long time, right?”

Hearing Ye Han’s words, no one inside the iron cage responded to him at all; the longest they had been held in District 9 was over thirty years, and the shortest, apart from Fire Phoenix, was four or five years old.

“Now I would like to ask you all if you want to go out?” For these people’s silence, Ye Han didn’t mind, these people could be imprisoned in District 9, they were definitely a group of people with super high strength, it was normal to have a temper, and being imprisoned in District 9 for years, their personalities had only become silent.

“Hmph, get out? Young man, I’m afraid you are easier said than done, will those who have entered District 9 ever have the chance to get out again?” Inside a metal cage, an old foreign man with messy hair said with a couple of grunts at Ye Han.

Ye Han said; “As long as we work together to get out of District 9, I think it is not impossible.”

“Young man, don’t waste your breath trying to get us to be cannon fodder for you, have you ever thought that our bodies have been implanted with biochemical drugs inside and we simply don’t have the strength to do anything unless you can help us find the antidote.”

Upon hearing this, Ye Han said; “The biochemical drug inside your bodies, perhaps I can give it a try, if I can help you solve the biochemical drug, are you willing to accompany me to kill out together?”

Hearing Ye Han’s words, a series of chains ringing sounded out inside the heavy prisoner room, at this moment, almost all the prisoners inside the heavy prisoner room were moved, the fundamental reason why they gave up on themselves and thought that they could never escape from here was because of the biochemical drug inside them, if they didn’t have this biochemical drug, with their strength they would have wanted to kill their way out of District 9 and go see the light of day again.

“Kid, can you really do it?” A sharp gaze looked at Ye Han, although they had lost their great strength, their gazes were intimidating, that aura of a strong man could not be lost.

Ye Han said; “For the sake of survival, I am willing to give it a try.”

“Then you must be quick, I’m afraid it won’t be long before the people of District 9 find out about the abnormality here.”

Ye Han nodded, then he turned to Fire Phoenix and said; “Fire Phoenix, sit down first, let me see if there is a solution to the biochemical drug in your body.”

Fire Phoenix did not refuse, she knew that Ye Han was a divine doctor with great medical skills, if Ye Han could solve the biochemical drug in her body, they would have a better chance of leaving District 9.

Under Ye Han’s penetrating vision, inside Fire Phoenix’s dantian, there was a black force that was containing the original power in her body, it was because of this black force that Fire Phoenix’s own power could not be released, this black force was like a door that completely closed the passage, if the door could not be opened, the person trapped inside could only be trapped inside forever.

After finding the cause, Ye Han began to use his aura to expel the black power. To Ye Han's surprise, the black power turned into a frightened wild horse under the aura's expulsion and began to flee in all directions, that look was clearly in fear of the aura.

Seeing this, Ye Han immediately increased his strength, and the spiritual qi in his body was frantically channeled into the body of the fire phoenix. In less than a minute, this black power was forced out by Ye Han's spiritual qi, and a stream of black blood slowly flowed out from the fingertips of the fire phoenix.

Fortune Chapter 618

In fact, the biochemical drug in the Fire Phoenix's body was not very clever, but it was just a kind of power that was mutually exclusive, this kind of power could just restrain the power within the cultivator's dantian, once the power within the cultivator's dantian was restrained, then, basically, it would be no different from an ordinary person.

Therefore, when Ye Han used his aura to force this power, he succeeded easily. After all, the aura that Ye Han cultivated was the top power in this world, and all Eastern cultivators could only dream of this.

Of course, although Ye Han was able to force this power out, the Fire Phoenix could only recover half of its strength for the time being, and if it wanted to return to its peak, I was afraid that it would still need a few days of rest and recuperation.

After Ye Han forced that black power out of Fire Phoenix's body, a joyous look flashed across Fire Phoenix's face and she immediately stood up and kissed Ye Han; "Little fellow, as expected of a divine doctor, I feel that my strength has been restored by half."

"Hehehe, you'll have to thank me properly when we get out." Ye Han winked at Fire Phoenix, causing the former to blush, but the fiery Fire Phoenix had no intention of refusing, and gave Ye Han a very demonic look; "That depends on whether you can withstand the temptation of your sister."

Seeing that the power had indeed returned to Fire Phoenix's body, at this time, there was no small commotion from inside one of the iron cages.

"Little brother, terrific, we are willing to barge in with you, are you also helping us out, with the help of those of us, your chances of leaving the ninth district are definitely high."

"Not bad, this damn District 9, I don't want to stay for a moment."

.....

Ye Han looked at these experts inside the recidivist room and said; "I can help you all, but I hope you can listen to me, at least in District 9."

"No problem."

Ye Han nodded, and then, he was seen flying out, his figure flickering, jumping between the various prison cages like a terrifying lightning bolt, using the Dragon Scale Dagger to open them, and in a minute's time, Ye Han had opened all the cages.

Hundreds of experts were gathered together, their bodies were emitting a terrifying will to live, trapped in the ninth district for many years, now that they had a chance to get out, they would not let it go, even if the chance was very slim they would still try.

After opening all the iron cages, Ye Han began to help these people to solve the biochemical drugs in their bodies, which was not a problem for Ye Han and did not consume much spiritual energy.

Right now, outside the prisoner room, there were already a lot of genetic warriors standing around, so maybe they would rush in next minute, so Ye Han had to hurry up and solve the biochemical drugs in these people's bodies, once the people outside rushed in, he would not have time to do these things, it was most important to escape.

At this time, outside the recidivist room, General Jason arrived.

"General." Seeing General Jason arrive, Major General William immediately called out respectfully, General Jason was not only the supreme ruler of District 9, but also the number one expert of District 9, the most perfect biochemical warrior, the only person who survived the God Making Project back then.

"Well, are you sure the intruders have been locked up inside?" General Jason said indifferently, his face expressionless.

"Yes, General." Major General William said; "Although this man is very powerful, he is being held in the felony room, he has absolutely no way to escape, we just have to go in and catch him."

"William, you've done well." General Jason nodded in satisfaction, he looked at the closed metal door and said; "Open it, I want to see what kind of expert dares to break into my District 9?"

Major General William nodded and then personally walked to the front of the metal gate and used the key to open it.

When the heavy sound of the door opening rang out, at this moment, the hearts of those who were inside the recidivism room were startled, because at this time, Ye Han had only finished resolving the biochemical drugs in the bodies of half of the experts.

"Hold them off, give me five more minutes." Seeing this, Ye Han gave a low shout.

Upon hearing this, the eyes of those whose biochemical drugs had been resolved in their bodies were cold and sharp as they walked to the front of the metal gate, whether or not they could get out of District 9 alive depended on this time, of course, the more experts that went out together the better, there was strength in numbers, the more people that went out, the more cannon fodder there would be, and the better their chances of surviving.

When the metal door was fully opened, outside the felon room, General Jason as well as Major General William's eyes looked inside the felon room, however, when they saw one of the felons that should have been held appeared at the back of the metal door, their faces changed at the same time.

"Damn it, William, you've made a big mistake." Looking at the prisoners that appeared behind the metal gate, an endless fierce light flashed across General Jason's face; "Catch them, and send anyone who dares to resist to hell."

At this time, Major General William also realised that he had made a grave mistake, letting that intruder into the recidivist room was simply leading the wolf into the room.

Roar!

Major General William roared wildly and charged towards the one inside the felony room like a tiger and wolf.

“After all these years of imprisonment, it’s time to make you pay, kill!” Seeing the Ninth District experts rushing in in groups, the men in the prisoner cell also rushed towards them. They had been imprisoned in the cage of the Ninth District for a long time, and whoever stood in their way would have to die now, not to mention their hatred for the Ninth District.

General Jason’s fists were clenched, and there was a fierce light in his eyes. The prisoners in the prison cell came from all over the world, and all of them were masters, experiments he had specially captured to prepare for the God-making project.

If these prisoners escape, District 9 will face the most terrifying crisis in its history, because many of the prisoners here have terrorist forces behind them, such as the Japanese ninja school masters, the western wolf clan, and members of the vampire race, etc. The forces behind these people are intricate and complex, and if they all turn against District 9 for this reason, the consequences will be too horrible!

At the entrance of the recidivism room, prisoners from all over the world were guarding the entrance to death, and there was a fierce exchange of blows in this small place. Although there were countless genetic warriors in District 9, the venue was not large, and even if there were more genetic warriors, they could not rush inside the recidivism room for a while.

Inside the recidivism room, Ye Han was also making good use of his time to expel the biochemical drugs from the remaining prisoners’ bodies.

However, at this time, General Jason, the supreme ruler of District 9, had made his move. If Major General William could not break through the entrance, he had to personally take care of the group of people, no matter if they were killed or captured alive, he could not let them escape.

Fortune Chapter 619

Buzz!

In the air, it was as if a fierce wind had flattened the ground, General Jason was so powerful and extraordinary that his body ran wildly directly from inside the pile of genetic warriors, the genetic warriors that were blocking the path in front of him were instantly swept away, to General Jason, useless people did not deserve to appear in front of him, even if they were genetic warriors that he himself had created.

“Jason!”

At the entrance of the recidivism room, the prisoners’ faces shook as they looked at General Jason, who was rushing towards them, but then they showed their fierce light and greeted General Jason with their fiercest killing moves.

Rumble!

A fierce exchange of blows unfolded at the entrance of the felony cell, General Jason fought off the group with the strength of one man, the power of that terrifying fist knew no bounds, knocking back all the felony cell masters who were in his way.

“Hmph, if I can imprison you once, I can imprison you twice, if you bind your hands, you can live for a few more years, otherwise, this General will send you to hell today.” General Jason’s face flashed with incomparable venom, he was the most perfect biochemical warrior and a reputable expert in the western world, if these prisoners were in their heyday, he might not dare to boast about it, but now these prisoners were only half recovered, would they be his match.

“Damn Jason, you are dreaming, when I get out, my noble vampire race will definitely destroy you District 9.” A very handsome looking gentleman with baby-like skin had a hostile face and, shockingly, a pair of black wings on his back.

“My Wolf Clan will not spare you District 9 either.” A fierce light pervaded the body of a Wolf Clan expert who had transformed.

“Very well, then this general will send you to hell to meet Satan.” General Jason’s fists slowly clenched together, and the next moment, the leather cover he wore on his hands broke, and a pair of palms covered with white hair looked like the palms of a monster, and on top of that, there was a sharp tooth.

Suddenly, General Jason made his move, his terrifying palms tore through the void and appeared in front of the vampire expert and the wolf expert in a flash, his palms as if they could tear the bodies of the vampire expert and the wolf expert apart.

Seeing this scene, a tall oriental man also joined the circle of battle, this oriental man came from the Japanese Koga Ninja School, and the three of them joined forces to deal with General Jason.

However, these three experts had not yet recovered their strength to its peak, and even with their combined strength, they could barely outmaneuver General Jason, and in less than a few moments, they were all covered in colour.

“Disobey this General’s orders, and you will all go to hell and repent!” A burst of madness was released from General Jason’s eyes, the power he controlled was powerful to the extreme.

“Chop!”

At this time, Ye Han, who had already freed his hands, darted in, his Dragon Spring Sword cutting down from mid-air with a horizontal slash, with the Sumeru Ring, it was much easier for Ye Han to carry his weapons, the Dragon Scale Dagger and the Dragon Spring Sword were both inside the Sumeru Ring, so it was easy to use them when he wanted.

General Jason, who was attacking frantically, felt the power of this sword, his expression shook, and before he had time to see who was attacking him, he instantly blasted his fist towards the Dragon Spring Sword.

Boom!

The clash of fist and weapon, the powerful force radiated in all directions, Ye Han's body drifted backwards in mid-air, although General Jason did not move at all, but a closer observation would have revealed that there was also a subtle look of shock on his face.

Ye Han landed on the ground and stood with the vampire master, the wolf master and the Koga ninja master, the four of them looking at General Jason with indifferent gazes.

"Oriental, you are the intruder, right?" General Jason's gaze landed on Ye Han's body, his murderous intent gushing out crazily, District 9 had turned into the current situation because of this magical Oriental, who had released these prisoners from the Serious Prisoners' Room.

"So what if it was me?" Ye Han said indifferently; "Unless you can leave us behind today, otherwise, your District 9, which is known to have no entry or exit, will be trampled under our feet."

"Arrogant orientalist, just because you want to leave District 9, don't dream." General Jason sneered and said; "I have more than a thousand genetic warriors, more than a thousand bestial humans and more than a thousand psychics here, even if we consume you, we can kill you here, unless you have wings and can fly out of here."

"That can't be said." Ye coldly laughed as he looked at the three experts around him and said; "Three, is District 9 really as godly as the legends say, I have never experienced it, since no one has been able to break the myth of this place, it seems that we as the previous people have to be the first to set an example."

"In that case, what are we waiting for, kill this damned Jason and the myth of District 9 will naturally be broken by us." A bloodthirsty light flashed in the eyes of the vampire race's expert as he said; "The blood of the supreme leader of District 9, I'm sure it will be delicious."

"That depends on whether you have the ability to do so."

After saying that, General Jason's arms shook, the white hair covered arms sprang up with veins, the arms that were as thick as a normal human suddenly grew twice as big, the terrifying power spread out, the next moment, General Jason stormed out like a humanoid demonic beast, the terrifying arms swept wildly across.

Ye Han's four men did not dare to slow down and met General Jason at the same time.

Boom, boom, boom, boom!

General Jason was surrounded by Ye Han's four men, his arm was like an indestructible vajra, even Ye Han's Dragon Spring Sword could hardly leave a mark on his hand, the fierce power, the crazy attack speed, so that Ye Han's four men could only match him.

He looked at General Jason, who had fallen into a frenzy, like an invincible god of war, and his expression was cold to the core.

"These three guys have done their best to stay alive, it seems I have to show some real skill as well." Ye Han stood outside the circle and swept his gaze over the vampire, werewolf and Japanese ninja, these three became as crazy as General Jason in order to stay alive, every move was a hard fight.

Bear!

Suddenly, terrifying flames were released from Ye Han's hand, the moment the Vermilion Bird Sacred Fire appeared, the temperature inside the felony room rose to a terrifying figure!

Fortune Chapter 620

The terrifying flame appeared, causing the temperature around the inside of the felony room to rise a lot, becoming abnormally hot, some of the genetic warriors who were closer to Ye Han and the experts inside the felony room retreated some distance away in fear, their eyes looking at the terrifying flame that appeared in Ye Han's hand with great scorn, if they were touched by this flame, they were only afraid that they would be burnt without even bones left.

"What a terrifying flame, such a high temperature, is this guy still human?" A look of scorn flashed from the eyes of the surrounding experts, Ye Han was in control of a flame of such a temperature, yet he himself was not in the least bit unharmed, this made people a little appalled.

The next moment, his body was like the wind, and he shot towards General Jason, and Ye Han's hands fiercely slammed down towards General Jason.

Bear!

As the flames filled the air, the vampire, the werewolf and the Japanese ninja burst back like the wind and left General Jason's surroundings. At this moment, General Jason was about to take advantage of the situation and kill the three, but unexpectedly, just as he was about to do so, his surroundings had turned into a terrifying sea of fire, and he, right in the middle of it.

"Fucking Orientals, bastard!" General Jason cursed angrily, the terror of the Vermilion Bird Sacred Fire had burnt the white hairs on top of his arms in an instant, making both of his arms turn into a bare patch, very ugly, not only that, just as General Jason tried to get out of the sea of fire, a flaming spear blasted towards him frantically, like ten thousand arrows.

"Chop!"

At this moment, Ye Han used two things at once, the Dragon Scale Dagger automatically came out of its sheath and turned into a terrifying blade light to kill General Jason, the flying and rotating strangling power was extremely strong, at this moment, General Jason, who was frantically dealing with the Vermilion Bird Holy Fire, had a blood mark slashed on his arm, purple-black blood instantly spilled out from his skin, biochemical warriors, they already belonged to non-human, even the blood did not look like normal human.

Seeing this, a gloomy look flashed across the faces of the vampire, the werewolf and the Japanese ninja, this young man from the East was very powerful, his methods were endless, unless they were at their peak, none of them were Ye Han's opponent.

Seeing that General Jason had been trapped by Ye Han, the three vampires did not remain idle and attacked General Jason from beyond the sea of fire.

Under the powerful attacks of the four, although General Jason was powerful, he was trapped by the Vermilion Bird Sacred Fire, and it was not bad if he could use 70% of his strength. Therefore, in less than five minutes, General Jason's entire body was covered with hideous wounds as terrifying as a poisonous snake, and his thunderous actions indicated that he was at the end of his rope.

However, General Jason was definitely powerful once he got out of his trap, so although Ye Han and the others were able to seriously injure General Jason, they were still a bit short of fire to kill him.

“Everyone, it’s time to retreat!”

At this moment, only Ye Han violently withdrew the Vermillion Bird Sacred Flame, since General Jason had been seriously injured, he could not stay any longer, after all, this was the ninth district, there were countless genetic warriors and beast transformers, if they wanted to kill a way out of this, they should not stay too long, the longer they delayed, the greater the consumption, the more variables.

The terrifying flames slaughtered in all directions, but this time, Ye Han faced the genetic warriors swarming inside the passageway, the Vermilion Bird Holy Flame was killing in front of him, plus the vampires, werewolves, Japanese ninjas and other experts inside the recidivist room, although more and more genetic warriors appeared, however, they could not stop Ye Han and this group of recidivists who had a super strong will to live.

The horrific killings were staged in District 9, a scene that no one in the Western world had ever imagined that someone would dare to go on a killing spree in District 9, vowing to kill his way out of this military base where there were so many experts.

Half an hour had already arrived, and outside Area 9, the Security Bureau experts such as Daylight had fought and retreated after Ye Han and Shadowless had entered Area 9, and were now hiding in an unknown location in this desert.

The buzzing of the alarms inside and outside Area 9 had never stopped, in an inconspicuous corner outside Area 9, Madman stood alone and proud, his gaze fixed on the entrance to Area 9, he had actually been here since Ye Han entered Area 9, but although half an hour had passed, Madman did not make any sudden moves, the alarms in Area 9 had never stopped ringing, which proved that the matter had not been resolved, since it was not resolved, it meant that Ye Han was safe for the time being.

“Bunny, for the sake of a woman, you really dare to do anything but I like it.” The corners of Madman’s mouth grinned, his right hand slowly rested on top of the Xuan Yuan sword, once Ye Han appeared to be in danger, he would personally kill to bring Ye Han out of District 9, District 9 which was heavily guarded in the eyes of outsiders and had no entry or exit, for him, Madman, it might not really mean that there was no entry or exit.

“Damn Orientals, damned bastards transfer out all the bestialized people and aliens, I want them to die in District 9.” Inside the military office belonging to General Jason, he had a grimace on his face as he inserted a syringe into his arm, the injuries he had sustained could only be cured with biochemical drugs.

Hearing this, Major General William, who was also badly injured, said; “General, Wolf Tai and Zu Lei have mobilised the bestial and alien people to intercept that orientalist, but”

“But what, I want that Oriental to die here, I want them all to die here!” General Jason thundered furiously, hearing this, Major General William slowly lowered his head, the flames controlled by that orientalist were too powerful to kill, and although they were outnumbered inside the base, they simply could not exert themselves, they could not block them, at most they would consume Ye Han and the others.

But this was not something Major General William would dare to say in front of the angry General Jason.

The scene was spectacular, but Ye Han and the others were like a sharp knife from which they killed like mad, and everywhere they passed, blood stained the ground, and corpses were all over the place, and a thick smell of blood filled the whole district.

With less than a hundred people, facing thousands of experts, this kind of killing was exhausting, but Ye Han and the others finally killed their way out from inside District 9 and arrived outside the District 9 base, behind them were the genetic warriors and the bestialized people as well as the supernaturals who were frantically chasing after them.

“Haha, finally seeing the light of day again, guys, see you later!” After the vampire arrived outside District 9, he arched his hand at Ye Han and the others, and with a flap of those black wings, he violently flew off into the sky.
