

G E D 1341

Chapter 1341: Repeated Defeats

Feng Wu knew perfectly well that she was fast and good at cultivation and formation techniques, but strength wasn't her forte.

Right at that moment!

The robot clenched its fists and, without warning, it struck at Feng Wu.

Thump!

There was a loud sound!

Luckily, Feng Wu dodged in time. She quickly hid behind a pillar, and the robot's fist smashed into it.

Crack —

The pillar made a loud cracking sound.

The robot drew back its fist and immediately struck at Feng Wu again.

Once more, Feng Wu narrowly escaped the attack.

The robot moved faster and faster, and with each strike, it exerted more power.

Its movements created gusts of wind.

Feng Wu raised her speed as well. She was moving so fast that other people couldn't follow her with their eyes.

Each time the robot almost hit her, she would somehow brush past its fist.

While the others watched in fear, Feng Wu was filled with apprehension as well.

She couldn't keep doing this. She had to find a solution, since it would only be a matter of time before she got hit; she didn't have time to keep stalling.

Just then, there was a loud thump.

The fist smashed into Feng Wu.

She wasn't so lucky this time and was hit in the nose.

Thump!

The others watched as Feng Wu flew backward. The next second, she fell to the ground with a bleeding nose.

All the onlookers were speechless.

"Seriously? Feng Wu got hit just like that?!"

“Wasn’t she so impressive during the normal level? We were all shocked! She’s only on the fourth floor now. How can she...”

“I knew it. She’s only a new Year 1 student. How capable can she be?”

“Forget the insane level, even the difficult level is a struggle for her, not to mention that she’s only on the first trial of that level.”

“Feng Wu has bitten off more than she can chew. She’s doomed...”

Almost no one had any faith in Feng Wu.

Even Feng Xun was frowning and looked concerned now, to say nothing of those Year 2 students who barely knew her.

If the fourth floor was already so tough for her, how was she supposed to handle the trials after this one? Feng Xun clenched his fists nervously.

Involuntarily, he looked at Jun Linyuan.

As expected, Boss Jun looked concerned as well.

Feng Xun had nothing to say.

Judging by the power Feng Wu had exerted so far, she probably wouldn’t make it beyond the fifth floor.

Inside the Dragon’s Gate.

Feng Wu had no idea how the people outside were evaluating her, since all she could think of now was the robot.

The robot didn’t stop attacking Feng Wu after she fell down. Instead, it only moved faster.

Thump!

It punched her hard again.

Poor Feng Wu. She was smashed again.

The robot was the size of a three-story building, and its arms were unbelievably strong!

Thump!

Feng Wu crashed to the ground once more.

This time, the ground cracked when she smashed into it.

That was how incredible the impact was.

“OMG!”

“Oh my god!”

“Feng Wu... Feng Wu is...”

“I thought she could at least make it to the fifth floor. By the looks of it, she won’t even be able to get through the fourth floor!”

Chapter 1342: Finally Figured It Out

Many people were talking and crying out at the same time.

Standing in the crowd, Qiao Yi gloated.

Heh!

Doesn’t Feng Wu always think so highly of herself? I bet she never saw this coming! She’s so ridiculous! thought Qiao Yi.

She smirked and said, “There I was, thinking how incredible she is. I see that she’s not that much better than the rest of us!”

Clenching her fists, Chaoge glared at Qiao Yi. “Xiao Wu can go much further than this. You people are underestimating her!”

“Heh.” Qiao Yi smirked. “In that case, I can’t wait to see her performance.”

Meanwhile, Feng Wu had smashed into the ground again.

The impact sent an excruciating pain up her spine.

She drew in her breath, worried that the fall might have hurt her spine.

The robot didn’t stop just because Feng Wu was injured. Instead, a murderous look flickered in its eyes, and it charged at Feng Wu.

It wanted to finish this battle as soon as possible!

No —

Despite the pain in her back, Feng Wu jumped to her feet and rushed out.

The Phoenix Dance was such a skillful move that the robot wasn’t able to keep up with her for the moment.

However, the space was limited here, and no matter how fast Feng Wu could run, the robot would still be able to catch up with her.

Once she figured that out, she looked over her shoulder to observe the robot. As expected, it was smirking, and its eyes were filled with confidence.

So, it was running after her like a cat teasing a rat. Damn it!

Feng Wu clenched her fists.

“You’ve spent 7 minutes here already.” Just then, the fairy spoke in Feng Wu’s head.

“No —” Feng Wu’s stomach lurched.

She had only reached the fourth floor, but it had already cost her 10 precious minutes. At this rate, she was going to fail!

No, she had to figure something out!

As Feng Wu ran, she recalled the robot's movements in her head as if she was replaying a movie. She studied each frame.

Where was the problem?

Outside, many people saw what Feng Wu was doing and snorted.

"Is she seriously thinking about how to defeat a robot? Does she think that there's some sort of technique?"

"That's just ridiculous! She's so going to lose!"

"She's such a braggart! What's she doing now? Hahaha!"

Many Year 2 students smirked.

And most of them were girls.

They hadn't been so hostile toward Feng Wu before, but ever since the crown prince got here, Feng Wu had become an eyesore.

One of the Year 2 students, however, was looking at Feng Wu with unblinking eyes.

And that person was Shu Yunruo, whom Feng Wu had only met once before.

However, everyone was either looking at Feng Wu or Jun Linyuan, so no one noticed the look on Shu Yunruo's face.

Inside the Dragon's Gate —

Feng Wu's eyes grew brighter as she studied the robot.

She finally found the problem!

Its paces and strikes were too accurate!

The length of each of its steps was exactly the same, as if someone had measured it with a ruler!

And each strike it made was the optimal outcome of complicated calculations!

It was a machine!

Chapter 1343: Turn Things Around

Once Feng Wu figured that out, she smiled a little.

Since the robot was designed to make the optimal choice, doing the exact opposite would definitely disrupt its rhythm. Once that happened...

Feng Wu's eyes became brighter and brighter.

She finally figured out a way to handle the robot!

After she had the right idea, all she needed to do now was find the best way to tackle the robot through trial and error.

By then, the robot was already very close to her!

If she wasn't careful enough, it could grab her with its hand!

To everyone's astonishment, Feng Wu suddenly stopped moving forward. Instead, she began to back away with strange movements.

Even the robot itself was baffled, let alone the onlookers.

It only took a second for Feng Wu to run around it.

The robot bellowed and spun around to chase her.

However!

With the robot's enormous size, it wasn't very easy for it to turn around.

Feng Wu was as nimble as a little mouse. She kept running around the robot, making it disoriented.

Outside, everyone was dumbfounded.

Chaoge was very pleased, and she smirked at Qiao Yi. "Did you just say that Xiao Wu was going to fail? Look at how she's playing the robot now."

Qiao Yi snorted. "Are you sure she's going to win?"

Chaoge raised her chin. "Of course. Anyone with eyes can see that once Xiao Wu gets the chance to climb up that robot, she can cut its throat in no time."

Qiao Yi grunted, but she had to admit that Chaoge was right.

Everyone else agreed with Chaoge as well.

But —

To everyone's surprise, Feng Wu didn't do it!

She had indeed climbed onto the robot, but she only jumped from one spot to another like a nimble monkey.

She didn't climb onto its shoulder to cut its throat.

"What's she doing?" asked someone in confusion.

"Who knows. She's hopping around like she's having fun."

"Why is she still in the mood to play? Does she not know what her priority is?"

"This Feng Wu is so vain. How can she be so careless? Is she showing off now?"

—

After Feng Wu turned things around, many had changed their attitude toward her. However, their opinion of her changed again almost immediately.

Crossing her arms, Qiao Yi gave Chaoge a contemptuous look and clicked her tongue. “Gosh, I didn’t know she was the complacent type. She’s going to get herself killed.”

Chaoge clenched her fists in frustration.

She snorted. “Xiao Wu knows what she’s doing! Just shut up and don’t say things you don’t understand!”

Qiao Yi chuckled. “You’re chopping logic.”

Inside the Dragon’s Gate —

Chaoge was right. Feng Wu indeed had her own reasons.

Inspired by the trials for the normal level, she guessed that she would encounter robots on the next two floors, but they would be larger in number and more powerful.

Chapter 1344: Untitled

If that was the case, why not figure out the robot’s structure while she was still on the fourth floor?

That was why Feng Wu had let go of the victory within her reach and climbed onto the robot to explore its structure instead.

If this was half a month ago, when Feng Wu knew nothing about forging, she wouldn’t have been able to figure out how the robot was put together.

However, it was only the other day that she and Master Rong Yang had built her Fallen Star Sword together.

During the forging of the Fallen Star Sword, she had been in charge of controlling the fire while Master Rong Yang talked to her about the principles of smith forging.

Thus, Feng Wu was able to find the robot’s Achilles’ heel shortly after she started exploring.

Meanwhile, the robot seemed to have detected Feng Wu’s purpose. It bellowed and shook its body violently.

The movement shook Feng Wu off its body like an autumn tree shedding its leaves.

“Die!”

The robot raised a foot to stomp on Feng Wu.

She wouldn’t survive if that foot landed on her.

But Feng Wu rolled and dodged in time.

However, the robot still chased after her, and she barely escaped it several times.

In fact, Feng Wu could have ended this fight a long time ago, but she had her own plan.

She needed to figure out the pattern of its movements.

However, a red light started flashing at that moment, and a warning sounded.

“Oh, Feng Wu really is going to fail.” Many of the Year 2 students gloated.

“What’s that noise?” Chaoge was confused.

Qiao Yi explained to her, “That’s the warning for the 60-second countdown. If Feng Wu can’t make it to the next floor within the next 60 seconds, she’ll be considered to have failed the challenge.”

That was to say, there was a time limit for each trial.

Chaoge clenched her fists.

“Xiao Wu, come on!”

On the fourth floor inside the Dragon’s Gate.

Feng Wu didn’t know exactly what that warning sound meant, but she could more or less guess.

Thump!

The robot tried to stomp on her again.

Feng Wu evaded it at the last second. By then, she had learned the pattern to all the robot’s movements.

Click –

She looked up in passing after she dodged the attack and saw that the door to the fifth floor was slowly closing.

She finally knew what that warning sound meant.

Without hesitation, Feng Wu pushed off of the robot with her feet and dashed toward the door at her fastest speed.

“No, she won’t make it.”

“She can’t beat that closing door.”

“There goes the end of this Dragon’s Gate challenge. Guys, it’s time to go to bed.”

Many students yawned and were ready to go back to bed when –

Whoosh –

There was a flash of white light.

When they looked again, they saw that Feng Wu was on the fifth floor.

Three bigger and stronger robots surrounded her like three small mountains.

“Gosh! Feng Wu made it!”

“She was able to make it to the fifth floor at the last moment!”

“That’s incredible!”

“Don’t celebrate just yet. Haven’t you noticed? There are more robots on this floor, and they’re even stronger!”

Chapter 1345: Untitled

Translator: Henyee Translations **Editor:** Henyee Translations

“That’s right. She was already struggling on the fourth floor. Can she manage this time?”

—

Because of Feng Wu’s performance on the previous floor, no one had any hope in her now.

Meanwhile, Feng Wu was slowly getting to her feet. She then looked up at the three giant robots, who were all sneering at her.

Compared with them, Feng Wu was even tinier than an ant.

“Little girl, it’s not too late to surrender. Otherwise, we’ll stomp you to a pulp.” The smallest of the three spoke in a complacent voice.

Feng Wu was busy coming up with a plan.

She had learned everything about the robot’s structure on the fourth floor, but she had only learned about half of its stances.

Therefore —

Feng Wu smiled at them. “Why are you so sure that I’m going to lose? Come and get me!”

After that, Feng Wu started running around the robots in circles again.

“There she goes. She’s doing it again!”

“Does she think she can run away from the robots just like that?”

“How naive!”

“She’s so dead!”

—

Outside, the students still didn’t think she would succeed, and many of them made contemptuous remarks.

But back inside the Dragon’s Gate —

Feng Wu looked so tiny compared with the three giants.

Before they realized what was going on, Feng Wu started running around them so fast that it made their heads spin.

All of a sudden!

Feng Wu dashed forward like a gust of wind.

Everyone was convinced that Feng Wu was doomed.

With three robots at her heels, even if she could survive, she would still be badly injured.

To everyone's surprise, only one of the three robots chased Feng Wu, while the other two simply remained where they were.

What was going on here?!

Everyone was shocked.

They then turned to look at Feng Wu.

Right now, the weakest robot of the three was running after Feng Wu with heavy footsteps.

Feng Wu stumbled forward as the robot threw punches at her.

Despite her struggle, she still made time to look over her shoulder to study the robot's movements.

Several times, the robot almost caught her.

Luckily, Feng Wu was nimble enough to dodge its strikes every single time.

"Feng Wu is so going to lose!"

That was what all the students were thinking. However, things started changing a moment later.

Because Feng Wu stopped running.

She stopped and turned around with a faint smile on her face.

The robot was confused.

It couldn't understand why this human girl had a meaningful yet malicious smirk on her face.

All of a sudden —

Feng Wu pushed off of the floor with her toes, and the next second, she charged out.

Right before the robot struck down again, Feng Wu followed its momentum and blocked its way.

She was able to move first every single time before the robot could take action.

That was to say, Feng Wu had figured out the robot's pattern of movements.

As everyone watched —

Crack!

Feng Wu snapped off one of the robot's hands.

Immediately after that, there was another crack!

Chapter 1346: Untitled

Feng Wu removed one of the robot's arms!

The students outside went insane!

"What's going on?"

"Why does Feng Wu seem enlightened all of a sudden?"

"What's happening here? I don't understand!"

Many people stared at Feng Wu in astonishment when they realized what was going on.

To their further surprise, after taking off the robot's arms, Feng Wu shifted her body, and the next second, she was behind the robot.

Thump!

No one knew where Feng Wu had struck the giant robot, but it shrieked.

The next second!

Its enormous body convulsed violently.

Right after that —

Crack —

Things started falling from its body.

The sound of spare parts hitting the floor continued.

At first, they fell one by one, but by the end, they were falling like metallic raindrops.

Rumble!

The robot disintegrated like a landslide.

It turned into a pile of spare parts on the floor.

Everyone outside watched with their mouths agape. They couldn't believe their eyes!

"That's impossible..."

"No way!"

"How is that possible?"

—

That was so unexpected!

Qiao Yi stared at Feng Wu in disbelief, and her hands clenched into fists in her sleeves.

“No! That’s impossible!”

In fact, many other people also hoped that it wasn’t real.

But —

They couldn’t deny the reality!

As soon as Feng Wu took care of the robot, she walked away from it.

The other two robots were still standing there.

They looked as though they were frozen to the spot.

At first, many students tried to persuade themselves that the robots had malfunctioned. However —

Feng Wu unhurriedly walked up to them and casually patted both of them.

Thump —

The giant robots collapsed into two piles of spare parts!

Both of them!

That immediately shocked the students all over again.

How was that even possible?!

“It took Feng Wu so much time to defeat one robot on the fourth floor, so how did she manage to...”

Qiao Yi stared at Feng Wu with wide open eyes.

She had thought that the fifth floor would be as far as Feng Wu could go. As it turned out, she had passed the trial with much less effort this time.

“Is this Feng Wu even human?!”

“How could she pass the fifth trial more easily than the fourth one?”

“It was barely any effort at all!”

“I can’t wait to see what she’s going to do on the sixth floor!”

—

By then, the onlookers were split into several groups.

Some found Feng Wu exceptionally bright.

And some couldn’t wait to see her fail.

Meanwhile, Feng Wu was running toward the sixth floor at top speed.

Like everyone had expected, a group of robots was waiting for her there.

They were enormous in size and there were so many of them. Just by standing there, they already looked very intimidating.

When Feng Wu walked onto the sixth floor, they all stared at her with ferocious looks on their faces.

The students outside felt their stomachs lurch when they saw the roomful of robots.

Chapter 1347: Untitled

Even Feng Xun was frowning now.

“There are so many of them! Even I would need a little bit of work to go through them.”

Because of those words, many people doubted whether Feng Wu could pass this trial.

There were twenty gigantic robots in total, each as tall and strong as the next. They didn’t even have to raise an arm; they could easily squash Feng Wu to a pulp with one big thumb.

To them, Feng Wu was no more than a flea.

To their surprise, instead of running away, Feng Wu jumped onto one of the robots at an unbelievable speed.

She had to!

There were too many robots here. If she stayed on the ground, she would either be caught or stepped on.

Feng Wu was smarter than that. Knowing how dangerous it was to stay on the ground, she ran toward the robots and jumped onto one of them the first chance she got.

The color of her clothes was very similar to that of the robots, and they couldn’t find her once she was on the back of one of them.

To make it worse for them, Feng Wu had found out everything about them from the previous two trials. She was able to take them apart without any difficulty!

Thump! Thump! Thump!

One of the robots fell to pieces.

Thump! Thump! Thump!

Another one fell apart as well.

The students outside watched with open mouths and didn’t know what to say.

“This Feng Wu is so scary!”

“Is she even human?”

“How does she know this sort of thing?!”

—

Feng Wu didn't know that she was being watched by thousands of people, but even if she did, she probably wouldn't care.

She was moving so fast that watching her made the others dizzy.

Thud, thud, thud —

With her swift movements, ten robots soon turned into spare parts.

Moreover, as they fell apart, the spare parts covered the floor.

The rest of the robots chased after Feng Wu.

But the spare parts were now piled up to their calves, hindering their movements.

They weren't able to run after Feng Wu.

On the other hand, Feng Wu had figured out the robots' structure and their stances. She could attack them or dodge their attacks as she wished.

There were nine robots left.

Eight.

Seven.

—

In a matter of seconds, Feng Wu had taken apart five more robots.

"OMG!"

"She's incredible..."

"Where did she learn all that?"

—

The students opened their eyes wide in excitement and clenched their fists.

Many Year 2 students had changed their opinion of Feng Wu.

Even the members of Tiger Head couldn't help but secretly admire her.

"She's insane!" Leng Hu snorted.

Tao Hu clenched his fists with bloodshot eyes.

This opponent was even more terrifying than he had expected!

—

"That girl is amazing!" Feng Xun wasn't stingy with his compliments.

"She's making very rapid progress!" He looked to Xuan Yi as he spoke.

Xuan Yi nodded.

One could say that they were the ones who had been with Feng Wu every step of the way as she worked to improve herself, but the speed of her achievements was beyond their imagination!

Chapter 1348: Feng Wu's Current Ranking

"Actually... cultivation level-wise, at least a small proportion of Year 2 students are more advanced than Feng Wu." Xuan Yi paused for a while after those words, before he went on, "But, they may not be able to pass the sixth floor."

Feng Xun nodded. "I see that now. Little Feng Wu could have defeated the robot much sooner on the fourth floor, but she prolonged the fight to study its structure!"

Xuan Yi nodded. "Because the robot on the fourth floor is the smallest and the weakest one."

Feng Xun said, "That was why she seized the opportunity to explore the robot and figure out its pattern of movements."

Xuan Yi said, "Indeed. And she was still doing it on the fifth floor."

Feng Xun said, "Without the experience from the previous two floors, she would never have been able to succeed on the sixth floor, because it's several times more difficult than the previous floors put together."

Xuan Yi said, "It's so rare to find a person with her mentality. She's simply so calm – much calmer than anyone I've ever met."

Feng Xun said, "And she's smart, too. She's able to think five or six steps ahead of her."

Xuan Yi said, "She's so scary..."

Feng Xun looked pleased. "That scary girl is my sister!"

Xuan Yi wanted to retort, but all words failed him.

–

Feng Xun and Xuan Yi didn't exactly try to lower their voices, so the others heard their every word.

They were already amazed by Feng Wu's performance, and when they heard the conversation –

Many people immediately changed their opinion of Feng Wu.

Some of the Year 2 students had no choice but to admit that this new student was indeed better than them.

"Hey, what do you think Feng Wu's ranking is?" someone asked.

Many people fell silent when they heard the question.

Feng Wu wasn't a Year 2 student yet, and her name wasn't on the Year 2 billboard. That was why many people didn't know what her real level was.

“Around 900th, I think?”

“I think she should be higher. Lu Yuntao is 900th now, but can he pass the sixth floor?”

Lu Yuntao was in the crowd as well. Immediately, all eyes were on him, the usually ignored teenager.

“I – I...” The stalwart teenager had always had a problem with his stutter, and he could barely form a sentence with everyone looking at him. “I – I – I can’t...”

The others agreed. That was to say, Feng Wu was at least as good as the 900th student of Year 2.

“So, what do you think her ranking is?” Everyone was curious.

Just then, Feng Wu finally took apart the last robot and finished the sixth trial. She then moved toward the seventh floor.

The members of Tiger Head exchanged awkward looks.

They all looked at Leng Hu, because she was the weakest member in the group.

Leng Hu said, “I’m 950th. I can’t pass the 6th floor.”

Gu Honglang said, “I’m 850th, and I can’t either.”

Another member scratched his head and said, “I’m 750th, and I passed the fifth floor last time. I might be able to manage the sixth floor...”

Chapter 1349: She Won’t Make It

But what this teenager called Xu Hong failed to mention was that he wouldn’t be able to take apart a bunch of robots the way Feng Wu had, even after he watched her do it.

“Does that mean that Feng Wu should be around 750th if she’s included on our billboard?”

Tao Hu, who had remained silent the whole time, clenched his fists and said, “She can’t be higher than 700th!”

Leng Hu darted a suspicious look at their group leader and wondered if Feng Wu would really only be ranked in the 700s.

“The elite level starts from the seventh floor.” Tao Hu snorted. “I’d like to see her try to get through this one.”

Immediately, many people grew excited.

Even if Feng Wu was only 700th, that was still an amazing achievement, because that was already much better than many existing Year 2 students, and Feng Wu hadn’t even gotten into Year 2 yet.

For the Year 2 students, it was very difficult to move up the billboard.

Therefore, under normal circumstances, Feng Wu wouldn’t be able to go further than the sixth floor.

“The elite level starts from the seventh floor, and it’s no longer all about fighting. One has to think about their moves, and that’s not something Feng Wu can manage.”

“Have we ever had a student in Initial who skipped a grade and made it all the way to the seventh floor?”

“No, we haven’t, and Feng Wu won’t be that person either.”

—

“If I remember correctly, there’s a magma beast on the seventh floor, isn’t there?” Feng Xun murmured as he rubbed his chin.

“Yes, indeed.” Various emotions flashed in Chief Qiao’s eyes as he studied Feng Wu, and he was lost in thought.

He had believed what Qiao Yi told him at first, that Feng Wu only got into Imperial College because of her pretty face and that she had become the top student of Year 1 because of her glib tongue. But as it turned out...

Feng Wu wasn’t just a pretty face. She was an incredible cultivator.

“Chief Qiao, are you suggesting that this magma beast is different from what we had before?” Feng Xun’s eyes flickered.

Chief Qiao nodded at Feng Xun with a smile. “The students have been getting better, so it’s the same with the beast. It’s much more powerful than when you were here.”

Feng Xun raised an eyebrow. “So, are you saying that Xiao Wu won’t be able to pass the elite level?”

Instantly, all eyes were on Chief Qiao.

Almost all the Year 2 students had placed a bet, and most of them had bet on Feng Wu’s defeat. Of the latter, most had bet that Feng Wu wouldn’t pass the elite level.

Right now, Feng Wu was right at the entrance to the elite level.

“She’s not going to pass.” Chief Qiao shook his head and sounded very sure. “The magma beast was only a baby when you fought it, but it’s a teenager now.”

Rubbing his chin, Feng Xun pondered. “Are you sure she won’t make it? Why do I feel that the elite level won’t be a problem for her?”

Chief Qiao smiled wryly. He didn’t want to argue with Feng Xun, but it didn’t mean that he agreed with him.

“I see that Chief Qiao doesn’t believe me.” Feng Xun smiled.

Chief Qiao shook his head. “My lord, you may not know this, but less than 200 students of Initial have actually passed the elite level.”

Everyone drew in their breaths.

Chapter 1350: Magma Beast

If only 200 students of Initial had passed the elite level, that meant —

If Feng Wu passed the elite level, she would be one of the top 200 students of Year 2!

She hadn't even been admitted into Year 2 yet, but she could now become one of the top 200? Dream on!

"The ability Feng Wu has shown so far only puts her in the 700s. How can she belong to the top 200?"

"That's right. I admit that she's a very talented student, but even a genius needs time to grow. There's no way she'll defeat the magma beast."

"She's not going to pass the seventh floor!"

"Excuse me, can I raise my stake?"

"That's right. Count me in. Can I raise my stake as well?"

—

A moment ago, when Feng Wu passed the sixth floor, many people were surprised and amazed, but all of a sudden, they lost faith in her all over again.

Feng Xun sneered at these idiotic people. What they didn't know was that Feng Wu hadn't even used her Fallen Star Sword yet.

"Do you all want to raise your stakes? Great!" Feng Xun glanced at Chaoge. "Give them what they want!"

Chaoge had always been a dauntless girl. With Feng Xun's consent, she let the other people raise their stakes. In a matter of minutes, the total number of points increased significantly again.

On the seventh floor inside the Dragon's Gate.

Feng Wu had no idea how many points she was responsible for. Right now, she was staring at the magma beast with a serious look on her face.

The magma beast was the size of a volcano and was covered in flames. Even the tips of its fur were burning, which gave it a ferocious look.

Thump!

The beast raised one foot, revealing a giant paw print on the ground.

It was about the size of a bed, and more than big enough for Feng Wu to fit inside.

Everywhere the beast stepped, flames shot up like erupting magma; it was a very scary scene.

What a terrifying beast!

How was Feng Wu supposed to fight that thing?

Just then, the giant magma charged at Feng Wu at a tremendous speed.

But Feng Wu only remained where she was and stood her ground.

What was she doing?

“Run! Xiao Wu, run!” Chaoge urged as she stared at Feng Wu and clenched her fists.

Scarlet flames came out of the beast’s nostrils, mouth, and enormous ears!

The ground shook as it ran, sending sparks flying everywhere. How terrifying!

100 meters!

50 meters!

10 meters!

Just as the beast raised a paw to smack down on Feng Wu —

Whoosh!

Feng Wu disappeared from sight.

The momentum made the beast stumble forward, and at that moment, Feng Wu reappeared behind its back.

Thump!

Feng Wu gave it a kick.

She put all her strength in her leg, and the impact was incredible.

Thump!

Everyone watched in disbelief.

Because they saw the enormous beast stumble forward from Feng Wu’s kick!

Thump!

Its forehead hit the ground, and it rolled forward.

Everyone sucked in their breaths.

That was...

So...

All in all, the beast had underestimated Feng Wu, which made her first strike possible. It wasn’t a good start for the beast at all.
