

THE MOST GENEROUS MASTER EVER Chapter 278

[Do you want to start upgrading?]

Ye Qiu was delighted when he heard the system's cold voice again. He remained silent on the surface. But he was secretly making a fortune.

“Upgrade!”

[Ding... congratulations, the Cursive Sword Art has successfully advanced to the immortal technique grade. You have obtained a supreme immortal technique: Nine Leaves Slash The Stars.]

“Oh... F*ck.”

Hearing this, Ye Qiu sucked in a breath of cold air. It took him a long time to gradually recover. He calmed down and carefully comprehended the power of the new sword technique. He was so frightened that he broke out in cold sweat.

At this moment, the Cursive Sword Art had already undergone a tremendous change. It was no longer the three swords techniques from before. Instead, after completing the incomplete secret technique, it evolved into nine sword techniques, and the power also underwent a tremendous change.

It had truly reached the level of a supreme immortal technique.

“Nine sword techniques in total?”

The more Ye Qiu checked, the more shocked he became. A stalk of grass had nine leaves, and each leaf represented a sword technique. The three leaves in front were the three sword techniques that he had cultivated before. The remaining six leaves were still in a chaotic state.

...

Ye Qiu had yet to truly master it, so he could only truly unleash the shocking power of that leaf after he comprehended its profundities.

According to the description of the Nine Leaves Slash The Stars, this last leaf was a sword that could destroy the world. A terrifying existence that was enough to destroy a star.

“Oh my god, if I really cultivate it successfully, I can destroy a small world with a wave of my hand?” Ye Qiu said with lingering fear. He didn’t expect such a terrifying sword technique in this world.

After pondering for a long time, Ye Qiu understood what this so-called Dao meant.

The Great Desolate World was filled with the boundless Heavenly Dao. Devas stood above all living beings and could dominate the life and death of the world with a flick of their fingers.

What was dignity in such a world where the strong preyed on the weak?

Dignity was only above the edge of the sword. The truth was only within the range of the sword.

With this sword technique, Ye Qiu was the truth! The sword in his hand was the principle.

At this point, Ye Qiu suddenly thought of something. “Hmm, I’m not fond of fighting. However, everyone thinks that I love to fight fiercely, but I don’t care. My motto has always been to convince people with virtue. That’s right. The sword in my hand is called Virtue.”

The more he thought about it, the more excited he became. Ye Qiu immediately understood. Master, I understand. I will definitely convince others with virtue in the future.

“Haha... Awesome.”

Ye Qiu was very happy. With this sword technique, he was invincible in the world. He had the aura of someone who dared to ask if the immortals in the sky dared to come to this world.

Ye Qiu could feel that this sword technique was really terrifying. If he cultivated it to perfection, his strength would definitely soar. He would even have the strength to fight a true Deva.

Especially that last strike. In the true sense, it cut through the stars. Not to mention a Martial Monarch, even an immortal from the heavens would not be able to withstand that power. That was a sword that could truly cut through everything in the world. It was even more terrifying than the third technique of Cursive Sword Art that could sever time. If it really reached that point, not to mention time, Ye Qiu could even slash through the years. This was the power of the Supreme Sword, surpassing all order and laws.

Ye Qiu looked forward to what kind of earth-shattering changes would happen after he successfully grasped this sword technique in the future.

[Ding...]

[Congratulations, you have successfully upgraded the Godfiend Body Tempering Technique and advanced it to the immortal technique grade. You have obtained a supreme immortal technique: Immortal Demon Record.]

Ye Qiu hurriedly came back to his senses and was shocked again.

“Gasp... Another immortal technique!”

Coupled with this, he already had three immortal techniques. Two of them were mental cultivation techniques, one was the Eternal Evergreen Record, a Qi Refinement cultivation technique. One was the Immortal Demon Record, a body tempering mental cultivation technique. He cultivated two paths at the same time. His potential was unimaginable.

After calming down, Ye Qiu began to study the mysteries of the Immortal Demon Record. He only took a hurried look, but his heart was shocked.

“Oh my god, I’ve profited greatly. This is really awesome.”

The Immortal Demon Record was the strongest body refinement technique since ancient times. When cultivated to the highest realm, it could be undying. Coupled with the Eternal Evergreen Record, it was a complete bug. He would become an existence that even the Heavenly Dao could not kill.

After the two restorations, Ye Qiu’s bicycle became a motorcycle and he instantly became rich.

With these two mental cultivation techniques, his strength would definitely increase greatly. Not to mention being invincible in the world, even in the heavens, Ye Qiu was still invincible. At the very least, he was invincible in the same realm.

This could be considered to have resolved Ye Qiu’s greatest problem. It saved him many steps and made it much easier for him to break through. When he mastered the divine technique, he could consider breaking through to the Supreme Immortal realm.

Moreover, with the invincible Nine Leaves Slash The Stars sword technique, Ye Qiu could come and go freely in the world.

“Master, Master!”

While Ye Qiu was still in an excited state, he heard a soft call.

Ye Qiu hurriedly reacted and was stunned when he realized that the person calling him was Zhao Wan'er.

"What's wrong?"

"No..." Zhao Wan'er heaved a long sigh of relief and said, "I saw you in a daze for so long just now and I kept calling you but you didn't reply. I thought something had happened to you."

Hearing this, Ye Qiu knocked her little head and said, "Damn girl, are you cursing your master?"

"I didn't," Zhao Wan'er rubbed her head that Ye Qiu had knocked on and said gloomily. She was just worried. She really had no intention of cursing her master.

After coming back to her senses, Zhao Wan'er said, "Master, will Martial Uncle Qian Yi be fine?"

The Novel will be updated first **on**  novelnext.com

Zhao Wan'er was a little worried when she saw Qian Yi's tightly furrowed brows and painful expression. If this guy died on Violet Cloud Peak, they would be implicated. At that time, the Heaven Mending Sect in the Heaven Domain would definitely not let the matter rest. The relationship between the two sects that were originally on good terms might also break down because of this matter.

Ye Qiu also looked at Daoist Qian Yi when he heard this. He spread out his divine sense and checked his body. He quickly saw it clearly and explained, "It's fine. His foundation has been repaired and he's in the process of exerting strength. When he reconstructs his Dao Body, he will be able to soar into the sky."

“Oh...”

Zhao Wan'er touched her chest with a look of relief.

“Alright, his matter is resolved. Now, let's resolve your problem.” Ye Qiu said to her and walked back to his seat. He casually picked up the Kuding tea that Lin Qingzhu had brewed for him and slowly took a sip.

“My problem?”

Zhao Wan'er was a little confused when she heard her master's words. What was the problem? She looked at Ye Qiu in his seat and was puzzled. She said, “Master, is there a problem?”
