

THE MOST GENEROUS MASTER EVER Chapter 52

Ye Qiu was amused. He had never thought that epiphany could trigger a return. This really surprised him.

[Host, the reason why Liu Qingfeng was able to have an epiphany is because of the host's karma.

According to the system's judgment, Liu Qingfeng's epiphany this time was instigated by the host. It meets the conditions for return.]

I see...

Ye Qiu nodded and came to a realization. Then, he looked at Qi Wuhui and narrowed his eyes. "Senior Brother Qi is right. Epiphany is a gift from the heavens. Even a Martial Monarch can't obtain it."

Qi Wuhui sneered. "It's good that you know your limits. I'm just reminding you not to be too arrogant. Conceit and complacency will ultimately harm you."

"Alright, thank you for your reminder, Senior Brother. I'll remember it." Ye Qiu smiled and suddenly said, "What if I can get it?"

As soon as these words were spoken, the entire place fell silent, and the atmosphere instantly froze.

Everyone knew that Violet Cloud Peak and Hidden Sword Peak were at odds. The conflict between the two peak masters was the most intense.

Seeing that they had met again, everyone immediately watched the show.

Qi Wuhui's face darkened. "Junior Brother Ye, aren't you being too arrogant?"

“Epiphany on the spot is the lifelong dream of all cultivators. How can you ask for it just because you want to?”

“Who do you think you are? An immortal from heaven?” Qi Wuhui said bluntly. Ye Qiu’s words made him laugh.

Everyone present had gone through many years of bitter training and various hardships to reach this stage. How could it be so easy to reach the heavens in a single step? If that was the case, the current world would already be filled with Martial Monarchs.

These words not only amused Qi Wuhui, but the other masters present also shook their heads and looked at Ye Qiu. They all felt that Ye Qiu was bragging.

Seeing this scene, the corners of Ye Qiu’s mouth curled up slightly.

Yes, this was the atmosphere he wanted.

Everyone, pay attention. Wait for me to stretch and act cool.

He said silently in his heart.

“System, activate Return.”

[Ding...]

[Congratulations, you have triggered a hundredfold critical strike and obtained a chance to gain an epiphany.]

[Note: This Critical Hit of Epiphany is calculated by a hundred times the benefits Liu Qingfeng obtained.]

“Very good...”

Ye Qiu smiled and slowly walked out of the training hall. Under everyone’s gaze, he stretched. Suddenly, a terrifying force circled above Ye Qiu’s head. In an instant, a violent wind blew.

“What’s going on?”

“This is...”

At this moment, everyone was shocked and looked at the sky in disbelief.

Above Violet Cloud Peak, a huge vortex was slowly forming. It was a hundred times more terrifying than the vortex created by Liu Qingfeng.

“Heaven and Earth Nourishment? Epiphany on the spot...”

Meng Tianzheng was shocked. He looked at the sky in disbelief and then looked at Ye Qiu, who was already sitting cross-legged on the ground.

Everyone was shocked...

Qi Wuhui's expression was even uglier. He said with a livid expression, "No, this is impossible..."

"Heaven and Earth Nourishment, enlightenment on the spot is a heaven-sent opportunity. Only a true heaven-sent son can have such treatment, and the triggering conditions are very harsh. How can he have an epiphany just like that?"

No one believed it, let alone Qi Wuhui.

However, the matter was right in front of them. The vortex in the sky was getting larger and larger.

Suddenly...

A bolt of lightning tore through the sky. Dark clouds covered the sky and rolled over. In the violent wind, lightning flickered continuously, and strange phenomena appeared frequently.

This was the phenomenon caused by Heaven and Earth Nourishment. Everyone was shocked.

Ming Yue muttered, "How did he do it?"

She felt that it was unbelievable and could not understand this youngest peak master of the Heaven Mending Sect.

"Martial Uncle Ye really has the appearance of a celestial. Such a heavenly opportunity can come just like that for him." Liu Ruyan's face was pale as she muttered as she looked at the strange scene in the sky.

"Unbelievable, simply unbelievable..."

Meng Tianzheng's body trembled slightly. He originally thought that Ye Qiu was just joking with Qi Wuhui. He didn't expect him to be serious.

At this moment, Qi Wuhui had completely fallen off his feet and began to doubt life.

"No, I don't believe... This kid must be pretending. His goal is to humiliate me in front of everyone. Hmph... Let's see how I see through his scheme."

Qi Wuhui was just about to confirm when... another bolt of lightning struck. A terrifying power suddenly erupted. It was the might of a Cardinal, causing him to unconsciously take a few steps back.

"What a terrifying aura! Is this the Cardinal's pressure?"

Everyone was shocked. This pressure was not something Liu Qingfeng could compare to.

One had to know that Ye Qiu was an early-stage Cardinal expert. The Heaven and Earth Nourishment he could trigger would definitely be even more terrifying.

"Oh my god, are the people of Violet Cloud Peak all so terrifying? They have an epiphany just like that. They don't make any sense at all."

"Our Martial Uncle Ye is too terrifying."

"How domineering. I thought he just wanted to brag. I didn't expect him to be so overboard and bragged directly."

"F*ck, I can't take this."

Everyone was scared silly and was in a mess.

In an instant, under the violent winds and lightning, the spiritual energy within a radius of a hundred miles continuously gathered, forming a huge vortex.

The cyclone was at the top. In the violent wind, Ye Qiu was as steady as a mountain. He slowly closed his eyes and entered a state of epiphany.

Suddenly, a Great Dao Flower slowly revealed its true appearance.

When he saw this Dao Flower, even Meng Tianzheng couldn't hold it in anymore. "Flower of Great Dao! Innate Dao Body..."

The masters present looked at each other and saw the shock in each other's eyes. No one knew better than them what that flower meant. Even Qi Wuhui completely despaired after seeing that Dao Flower.

"It's actually the strongest physique in history, the innate Dao Body that is said to be closest to the Great Dao."

"How is this possible? He actually has a natural Dao Body. Why didn't Martial Uncle Xuantian say anything?"

For a moment, everyone was dumbfounded.

"I suddenly understand! No wonder Martial Uncle Xuantian didn't take in any disciples in his life. Before he passed away, he specially went down the mountain to take him in as a disciple."

“At first, we thought that he was really just a piece of trash. Martial Uncle Xuantian’s lifespan was coming to an end and he couldn’t bear to see the inheritance of the Violet Cloud Peak end, so he had no choice but to take him in as a disciple.”

“I didn’t expect that Martial Uncle Xuantian knew from the beginning that he had the strongest physique in history.”

Everyone discussed with solemn expressions. No one expected that they would be lucky enough to see the strongest physique in history today.

What was even more unexpected was that this person was from their Heaven Mending Sect, and he was even the peak master.

“No wonder he could easily enter a state of epiphany. Such a physique is close to the Great Dao, so it’s reasonable for him to be able to comprehend it on the spot.”

In the sky, the huge cyclone suddenly rushed towards Ye Qiu. That shocking spiritual energy instantly surged into Ye Qiu’s body.

Ye Qiu frowned. He endured the pain and forcefully suppressed it with the power of a Cardinal.

His cultivation had always been stuck at the early-stage of the Cardinal realm. Because he had been tempering his Dao heart during this period of time, his cultivation had not improved much.

However, after this power surged in, Ye Qiu’s cultivation showed signs of loosening.
