

## THE MOST GENEROUS MASTER EVER Chapter 56

[Do you want to learn?]

“Yes...”

Suddenly, a scripture entered Ye Qiu’s mind. Ye Qiu quickly comprehended it and tried to figure out the profundity of the Asura Slash.

On the other hand, Lin Qingzhu was still happy that she had just learned a powerful sword technique. She was practicing non-stop and was extremely happy.

Although she didn’t achieve the same power as Ye Qiu when she tried the Swift Slash, she could still easily defeat her opponents whose cultivation realm was higher than hers with her current strength.

“Master, I like this sword technique very much! I will definitely cultivate it well and not let you down.” Lin Qingzhu said with an imposing manner. She was about to practice again when Ye Qiu said, “Disciple, although this sword technique is strong, it’s not the strongest.”

Lin Qingzhu: “???”

What does that mean? Could it be that her master had a stronger sword technique to impart to her?

Lin Qingzhu’s eyes lit up as she looked at Ye Qiu expectantly.

He slowly said, “The Martial Meeting is approaching. You represent our Violet Cloud Peak this time. Your junior sister has just entered the sect and her cultivation level is not deep. She is just going to see the world this time.

“Violet Cloud Peak’s honor and disgrace can only depend on you alone. After much consideration, I’ve prepared to teach you another ruthless move for your safety.”

Lin Qingzhu was very touched. She did not expect her master to care so much about her. She immediately said, “Don’t worry, Master! I won’t disappoint you. Our Violet Cloud Peak will definitely not lose to the Hidden Sword Peak.”

Her eyes were filled with determination. Lin Qingzhu walked in front of Ye Qiu and saw his right hand pressing on the top of her head.

In an instant, a scripture fused into her mind. When she practiced according to the scripture, she was stunned.

“This...”

“Heaven-grade sword technique, Asura Slash?”

“Hiss...”

Lin Qingzhu instantly sucked in a breath of cold air. This name sounded extremely domineering.

It was even more astonishing after she carefully tested it.

This sword technique was unprecedentedly powerful, stronger than any sword technique she had learned before. Moreover, the power of this sword technique would be even more terrifying with the help of the Nine Nether Frost Technique.

Not to mention challenging opponents who are a level higher than her, even if she were to challenge opponents who are five levels higher than her, she would be fine.

“Thank you for your guidance, Master.” Lin Qingzhu was so touched that she immediately knelt down and bowed, not knowing how to express her current feelings.

Perhaps in this world, only her master was willing to teach her everything and never hide anything.

For her, he even took out his secret technique.

Ye Qiu nodded and said indifferently, “Disciple, this sword technique is a Heaven-grade secret technique. It’s incomparably profound. However, you only need to learn it to the beginner level. It should be enough to deal with this Martial Meeting.”

Ye Qiu was about to go back after that.

[Ding...]

[Congratulations, host. The cultivation imparting cooldown has passed. You can impart your cultivation again and trigger a critical hit.]

“Hmm?” He retracted his foot which had already taken a step.

Ye Qiu looked back at his eldest disciple and smiled evilly. It seemed that the wool had to be fleeced on the sheep.

The upper limit of the impartation of cultivation was increased to a thousand years.

Ye Qiu had already imparted it to Lin Qingzhu once before. He wanted to impart it to Zhao Wan'er this time. However, she had so much cultivation power from the precious bone, which was like an endless stream of spring water for her to absorb, that she could not use it all now.

She did not lack cultivation at all. What she lacked was time.

It was different for Lin Qingzhu. She no longer had any supplementary treasures and was relying on her talent to cultivate.

After thinking about it, Ye Qiu decided to use his eldest disciple.

Hehe...

Lin Qingzhu's heart trembled and her face turned red when she saw Ye Qiu's strange gaze.

She thought to herself,?What's wrong with Master?

Ye Qiu calmed down and said seriously, "Disciple, I've carefully considered it again. There are many experts in this Martial Meeting.

"Although your current cultivation level has already reached level two of Celestial realm, you entered the sect relatively late. Compared to the disciples of the other factions, you have suffered a loss in time.

"Therefore, I've decided to impart you... a thousand years of cultivation."

Lin Qingzhu was shocked and sucked in a breath of cold air.

“This... A thousand years of cultivation?” She calculated in her heart. How many levels were this thousand years of cultivation equivalent to?

She was shocked. Completely shocked.

“Master, I... I didn’t hear wrongly, right? You want to impart a thousand years of cultivation to me?”

Seeing Ye Qiu nod, Lin Qingzhu hurriedly shook her head and said, “Master, you must not! My current cultivation is already enough. You must not waste your cultivation on me anymore.”

She was no longer a newbie who had just entered the sect. How could she not know that cultivation was not easy to obtain?

Although she really wanted this cultivation, it would also mean that her most respected master would lose a thousand years of cultivation.

How could she accept it with ease? Her master treated her like family. He was the person who treated her the best after her parents. How could she let her master hurt his foundation again because of her?

Ye Qiu’s heart warmed when he saw her resistance.

This disciple was very filial. Even in the face of such temptation, she could still think for her master and not be moved.

However, would resistance work?

Wouldn't I lose a chance to fleece if you don't want this cultivation? That would not do.

He said earnestly, "Don't worry, I know what I'm doing. This thousand years of cultivation is nothing to me. It's not worth mentioning. As long as all of you are fine, anything I do will be worth it."

After hearing Ye Qiu's words, Lin Qingzhu's eyes were filled with tears. She was extremely touched. It turned out that their safety was so important to their master. He even sacrificed his cultivation to impart his cultivation to her.

She had no regrets in her life with such a master.

Lin Qingzhu cried silently. "Master..."

For a moment, she did not know what to say. Her body trembled as tears streamed down her face. It was really heartbreaking.

Ye Qiu shook his head and comforted, "Alright! Disciple, quickly get up. If you really want to repay me, then obtain a good result in this Martial Meeting for our Violet Cloud Peak. However, don't force yourself too much. I don't have any requirements for you. Just do as you wish and try your best."

He couldn't even bear to watch himself say those words. He couldn't bear to lie to her like this. However, in order to get more returns, he still braced himself and continued acting.

What a touching scene of filial piety.

"Come, sit properly. Today, I'll impart to you a thousand years of cultivation. How much you can absorb and what realm you can break through will depend on your luck."

In case anything happened again, Ye Qiu didn't give Lin Qingzhu a chance to resist and told her to sit properly. Then, he walked behind her and slowly stretched out his hands to press against her back.

In an instant, that endless energy surged into Lin Qingzhu's body. It was as if a calm lake had exploded in an instant.

Lin Qingzhu's expression was pained. Sweat kept flowing down her forehead as she absorbed Ye Qiu's cultivation.

She had some experience since it was not her first time receiving cultivation, and knew how to absorb this power and not let it leak out.
