

Ghost Doctor 2013

Chapter 2013: Damn Bastard

Together, the people from the Chai Family, the people from Nebula Immortal Sect and the accompanying mercenaries attacked the Scorpion Mercenary Group in an instant. At the same time, Fan Yixiu from the Nebula Immortal Sect shouted to his three junior sisters behind him: “You leave with the Chai Family first!”

“Eldest Senior Brother...”

Although the three of them had gone through experiences before, they hadn’t encountered a situation like this. Their faces were pale with fright and they were at a loss. Their only option was to retreat with the Chai Family. However, the people from the Scorpion Mercenary Group had surrounded them and there was nowhere to escape to even if they had wanted to escape.

Feng Jiu had also helped. She had calculated the time from when those people had inhaled the medicine to when they gathered the spiritual energy from their bodies. The effects of the medicine were about to appear.

Sure enough, just as the situation was about to become precarious, the members of the Scorpion Mercenary Group started to sway. Although they had tried to conceal their shock internally, their minute expressions couldn’t escape Feng Jiu, who had been observing them.

At this time, some of the members of the Chai Family who had also inhaled the medicine had started to suffer the side effects. Some of them were supported by the people around them when they started to sway, and some of them had retreated to a tree and gasped for air.

“Retreat!”

The leader of the Scorpion Mercenary Group cried violently all of a sudden and ordered his mercenaries to retreat quickly. The members of the Scorpion Mercenary Group retreated quickly upon receiving the order because they could feel that something was wrong with their bodies. However, they didn’t want to show their vulnerability in front of those people and forcibly endured it.

Everyone on the other side was astonished, they didn’t know what tricks the Scorpion Mercenary Group were up to.

Chai Second Master took a deep breath and stared at the members of the Scorpion Mercenary Group. He could tell that something was wrong with them, but he was puzzled as he didn’t know what the reason could be.

“Leave half your belongings behind! We will let you leave here alive!” The leader of the Scorpion Mercenary Group said in a solemn voice. As soon as those words had been spoken, everyone in the Chai Family and the Nebula Immortal Sect were dumbfounded.

“What tricks are you up to?” Chai Second Master frowned. He refused to believe that they would let them go so easily.

“Hmph! We don’t feel like killing anyone today so we will let you live. Why? Don’t you want to live?” The leader of the Scorpion Mercenary Group said in a solemn voice. However, upon listening carefully, there was discontent and killing intent in his voice.

“Second Uncle, don’t listen to them! They’ve been drugged, kill them!”

Chai Feng, who was behind him, shouted loudly at this moment. He struggled and said to the two people who were restraining him: “Let go of me, I’m not afraid, I’ve just drugged them!”

The Chai Family were surprised upon hearing this. However, before they could react, they heard the angry cry of uproar from the members of the Scorpion Mercenary Group.

“Damn bastard! You dare to use backhand methods on us!”

They cursed loudly with undisguised anger and murderous intent. They were skeptical before, but upon hearing the young man’s words, they were infuriated. The reason why they were unable to gather their spiritual energy and were gradually losing their strength was because of this young man’s tricks!

Chai Second Master stared at Feng Chai in shock: “What did you say? You drugged them? Just, just now?” He turned his head back abruptly and looked at the ashen faces of the members of the Scorpion Mercenary Group. At this moment, he finally understood why they had suddenly retreated.

Chapter 2014: Unbelievable

He could feel that their combative effectiveness was worse the further back they went. He also noticed that some of their footsteps were unsteady. This was because they had been drugged?

“Yes, that’s what I was going earlier. They have inhaled colourless and odourless medicine, their combat power is now lost. Second uncle, we should join forces right now and kill them to eliminate a great evil! If we let them recover, we will no doubt die!”

While he was speaking, Chai Feng had already struggled free and rushed forward with his long sword in his hand. He hadn’t been drugged and his skills were good to begin with. At this point, he had already killed one of the members of the Scorpion Mercenary Group at an unpredictable speed.

“Sss ah!”

A shrill cry sounded and blood splattered all across the ground. That sharp scream brought everyone back to their senses instantly.

Upon seeing this scene, Chai Second Master was motivated and he shouted immediately: “Kill them! Eliminate evil from the Volcanic Forest!” As soon as he had spoken, he rushed forwards and slashed at the pale-faced Scorpion Mercenary Group members with his sword.

Previously, the Scorpion Mercenary Group had been eager to take the lives of their opponents. However, the situation of life and death had been reversed now and everyone's mood had changed, there was excitement in the air.

At this moment, they didn't feel fear, there was only killing intent, all they wanted to do was kill every single member of the Scorpion Mercenary Group in front of them! Only by killing them would they be safe!

As Feng Jiu watched on, her lips curled slightly and there was a glimmer of light in her eyes as she watched the killing in front of her. The sounds of swords colliding and blood splashing, as well as the screams and shrill cries spread through the forest.

In front of her and around her, she saw shadows and glints of lights from the swords flashing past. The Chai Family and Nebula Immortal Sect had taken advantage of the reversal of the life and death situation and taken the lives of the Scorpion Mercenary group mercenaries one by one until no one survived...

After the Scorpion Mercenary Group members had been slaughtered and they saw the ground was covered in blood and corpses, they stood there covered in blood with their swords and sabres pointing down to the ground, dripping blood, they came out of their daze.

"They're, they're all dead!"

"Yes, everyone from the Scorpion Mercenary Group is dead, everyone from the Scorpion Mercenary Group is dead! We actually killed them? We actually killed them!"

"Unbelievable... it's unimaginable... we are still alive..."

Every one of them muttered as they held their sabres and swords. Only moments before they were facing impending death, but in the next moment the situation had reversed, and all this..."

Suddenly, everyone's eyes fell on Chai Feng. Chai Feng who was standing in a daze however, was staring at the figure in azure with disbelief, shock and astonishment in his eyes.

He hadn't expected it to work! He also hadn't expected the outcome to be as he had said, he had really turned the situation around. He hadn't expected that they would still be alive in the end and that it would be the members of the Scorpion Mercenary Group who died...

At this moment, no one knew how much shock and astonishment arose in his heart. It was just an idea, one bag of medicine, and it was able to destroy the brutal mercenary group that ran rampant in the Volcanic Forest...

It was just unbelievable, and if he hadn't experienced it personally and seen it with his own eyes, he wouldn't have believed that it was true...
