

Ghost Doctor 2181

Chapter 2181: Unsuccessful Poison Attack

Upon seeing this, the middle-aged man was overjoyed: "Yes! Thank you Sect Master, subordinate wishes Sect Master success!"

Myriad Poison Hand was one of the world's rarest poison, it was the Five Poison Sect Master's cultivation technique. If the cultivation was successful, no antidote would have any effect!

Even if that person was the Ghost Doctor Feng Jiu, he wouldn't be able to find a way to detoxify it! He would put up with him for the time being, until the Sect Master had finished cultivating, by then, it would be their death date!

On the other side, Hundred Rivers City Nalan Clan.

"I heard that the Heavenly Pill Tower has made many enemies? This time they've offended someone from the Five Poison Sect?" Nalan Patriarch looked at his eldest son who was sitting in the hall and asked. However, he just sat there drinking tea and didn't even say a single word.

Nalan Mo Chen brushed over the tea with the lid of the teacup as if he hadn't heard anything. It was a mystery as to what he was thinking of.

Nalan Ziyan who was sitting next to him, had an absent-minded expression, neither brother had been listening to a word he had said. Upon seeing this, Nalan Patriarch's face sank, he slapped his hand on the table and stared at them, then he asked loudly: "What's the matter with the two of you? Did you not hear me ask you a question? Why do the both of you seem so absent-minded?"

Upon hearing this, Nalan Mo Chen and Nalan Ziyan both looked up and saw their father smiling at Nalan Ziyan. However, Nalan Ziyan sighed after glancing at the two of them: "Father, don't worry yourself about this matter. Even if the Heavenly Pill Tower offended someone, it's not like you can help can you? It's useless to inquire so much and talk about it."

He paused with a sad look on his face and glanced at his elder brother beside him: "If I had such strong strength like Elder Brother, I wouldn't be sitting here worrying."

Nalan Patriarch was taken aback for a moment when he heard this: "What are you saying? What are you worrying about? I haven't told you off yet! You have been going to Feng Manor every few days during this period of time, tell me honestly, what have you been doing?"

Upon hearing this, Mo Chen's eyes narrowed and he glanced at Nalan Ziyan: "Going to Feng Manor every few days? So you're really smitten with Leng Shuang? It seems, you haven't listened to a word I have said."

"Elder Brother, you can't say that. I..." Nalan Ziyan was interrupted before he could finish speaking.

"Boom!"

“What’s going on? What do you mean he’s smitten with Leng Shuang? You little brat like Feng Jiu’s girl, Leng Shuang? Do you think your life is too long? You dare to like her subordinate? I think that you’ve been living too well recently and you are looking for some hardship aren’t you?”

Patriarch Nalan’s hand slammed heavily on the table and he stood up angrily and pointed his finger at his son as he scolded him.

“Elder Brother...” Nalan Ziyang looked at Mo Chen, hoping that he would intervene.

“Don’t look at me, I can’t help you.”

After he took a sip of tea, he stood up and raised his hand and flicked his robe, then he said coldly: “I had only been in seclusion for a while and there are so many problems, especially when nothing happened when I wasn’t in seclusion, but once I went into seclusion, I broke my promise to Feng Jiu.”

When he spoke of this, Mo Chen shook his head and smiled. He glanced at Nalan Ziyang and said slowly: “Take care of your own matters! However, let me give you a word of advice, you should give up on Leng Shuang, it is impossible between the two of you..” As soon as he had spoken, he turned and left.

Chapter 2182: Seventh Grade Antidote Pill

Nalan Ziyang was left a little startled as he looked after his departing Elder Brother. He took a deep breath and exhaled, then slowly lowered his eyes and suppressed the complex look in his eyes. After a long time, he stood up and said to his father: “Father, I am going back first. I am going to the back mountain to practice in seclusion, you don’t have to look for me in the coming days.”

Nalan Patriarch watched his two sons leave one after another and couldn’t help but shake his head and sighed: “Forget it, I don’t care anymore. You can deal with your own matters. I can’t get involved even if I wanted to.” He flicked his sleeves and walked off.

In Feng Jiu’s space, she sat quietly with her eyes closed, next to the spirit spring. The steps and method of the seventh grade antidote pill went through her mind over and over again. After a long time, her eyes opened and a light flashed across them.

She got up and gathered the spirit herbs that were needed to refine the seventh grade antidote pill, then she took out the Divine Reaper Cauldron and called upon the Fire of Heaven. Once everything was ready, her originally worried and restless heart calmed down.

There was only one main plant, therefore, there was only one chance at success or failure. Although she had gone through the steps and method in her mind countless times, if she did fail in the end, she had done her best.

It was not easy to find all the spirit herbs required to refine the seventh grade antidote pill, not to mention the other medicinal pills, it was hard enough to find the five hundred year old Seven Star Spirit Grass alone.

In addition to that, the poison in the Black Market Master and Gu Mo were forced into a corner, if they weren't removed as soon as possible, the poisons would break out once again.

If they really wanted till the poison broke out again, even a celestial immortal wouldn't be able to save them.

The flame under the pill furnace ignited with a whirr. She controlled the heat and placed the prepared spirit herbs into it. The steps and method were familiar, as if she had practiced it millions of times.

As time passed, all the spirit herbs were put into the pill furnace. Due to the use of her spirit energy and concentration, a layer of sweat oozed out from her forehead, and her face a little pale. When her palms turned continuously to control the spirit energy and Fire of Heaven, she felt that her mind had a lot to bear, as if a string was tightly taut and she was unable to have even a moment's slack.

As more time passed, a strong scent of medicine filled the air, and once she had smelt this, she began to condense the pills. Knowing that this was the final step, she didn't dare to be careless.

At this moment, the clouds in space surged in the sky and dark clouds that condensed from out of nowhere covered Feng Jiu and the top of the pill furnace tightly.

She raised her head and glanced up, her palms flipped quickly to condense the pills. At this point, the first pill tribulation flashed through the sky and down past her head into the pill furnace below with a loud bang.

"Boom!"

Just like thunder hitting the ground, the ground shook. Immediately afterwards, the second pill tribulation shot down, followed by the third. Three lightning tribulations struck the pill furnace one after another, then the clouds above her head dissipated.

At this time, Feng Jiu's body shook. She exhaled softly and looked at the pill furnace, but didn't step forward.. Instead, her wobbly legs gave way and she sat on the ground and looked up at the clouds in the sky.

Chapter 2183: Antidote

In a corner in space, the little white tiger who was playing by itself leaped towards her when it saw her lying down. It leapt onto her body and howled.

Her hands ruffled its soft fur as its small body lay on top of hers and it stuck its tongue out to lick her face. This made her chuckle: "Alright alright, I will take you out later and let you play outside."

She touched the little white tiger's soft fur and said. She lay on the ground quietly for a while longer until she felt the spirit energy in her body gradually recover, then she sat up and put the little white tiger down and walked over to the pill furnace herself.

Upon looking inside, she saw three seventh grade antidote pills lying quietly inside. The spirit energy breath formed a pattern that entwined on the pills and the strong scent of the medicine spread. She

smiled and took out three delicate vials. She patted the pill furnace with her hand and the three pills flew up in the air and she caught them in the vials.

After she left space, she walked out of her room and released the little white tiger to play, then she called out: "Leng Shuang."

A voice that contained a hint of spirit energy spread through the manor. Upon hearing Feng Jiu's voice, Leng Shuang came to her courtyard quickly. When she saw her Mistress standing in the courtyard, she stepped forward and bowed.

"Mistress."

"Prepare water for me, I want to take a bath. And find some food for the little white tiger."

"Yes." Leng Shuang replied. She glanced at the little white tiger, then turned and left.

An hour later, Feng Jiu walked out of her room wearing a red silk dress and her silky black hair fell naturally down her back with only a red ribbon holding it together. Though the dazzling red dress was simple in design, when she wore it, she brought out an enchanting effect to it.

When they heard that she was back, Guan Xilin, Leng Hua and the others came to the manor. Everyone's eyes shone when they saw her walk out in the dazzling red dress.

Although they had seen their Mistress in girl's clothing before, every time they saw it, they were always amazed. She seemed to be the only person that had ever come across who could carry off red clothes with this disposition.

The wantonness of the red dress and her self-confidence combined to form a unique disposition. Her beautiful face was set off by the dazzling red clothes and appeared even more elegant and unparalleled.

When she wore azure clothes, she would gather her breath and sharpness, and appeared like an inexperienced noble's son, without a hint of fierceness.

However, when she wore red, her strength was in full momentum and she was dazzling to the eye. Combined with her self-confidence, wantonness and her evil hint of smile on her lips, this was the kind of aura and demeanor that the legendary Ghost Doctor Feng Jiu possessed.

"Greetings Mistress."

Leng Hua and the others stepped forward and bowed respectfully.

"Little Jiu." Guan Xilin smiled and looked at his younger sister in front of him.

Feng Jiu nodded at everyone and said: "I have refined the seventh grade antidote pill. Bring this pill to Gu Mo and have him take it. I will go and see Uncle Black.

As she spoke, she took out a medicine bottle from her space and handed it to Guan Xilin: "Elder Brother, please will you make the trip?"

"No problem." Guan Xilin said. He took the medicine bottle and looked at Leng Hua and the others behind him.

“Mistress, we will go and see Gu Mo first then.”

“After he takes the antidote, he will vomit the poisonous blood in his body.. Once the poison has been detoxified, give him another healing pill.”

Chapter 2184: One Thing

“I will go over later on to check on his condition. Until then, you look after him carefully.” She said to everyone.

“Yes.” They replied in unison. After they bowed, they retreated.

After they had left, Feng Jiu brought Leng Shuang to the Ling Manor next door. As soon as they had entered, Fire Phoenix, who had transformed into a little bird, flew down from the tree branch it was perched on and landed gently on her shoulder.

“Fire Phoenix, Little White Tiger is in the Manor. Go and play with it.” Feng Jiu tilted her head slightly and said to Fire Phoenix on her shoulder with a smile.

“Alright.” Fire Phoenix replied. It knew that she was busy, so it didn’t bother her and flew off towards Feng Manor instead.

“Ghost Doctor.” A middle-aged man greeted her and bowed respectfully.

Feng Jiu nodded slightly and the middle-aged man led her to an inner courtyard that was protected by many layers. Upon entering the room, she saw the Elder who was standing by the bedside.

“The Ghost Doctor is here? Has the seventh order antidote pill been refined?” When the Elder saw Feng Jiu, there was joy in his eyes, and he walked forward quickly.

“Yes, that’s right. The seventh order antidote pill has been refined.” She nodded and looked at the man lying on the bed, then she walked forward slowly and sat down on the chair beside the bed.

“That’s great! I just knew it, I knew the Ghost Doctor would definitely find a way to save my Family Patriarch.” The Elder’s eyes were red and the excitement in them obvious.

Feng Jiu felt his pulse and checked it. Finally, she took out the medicine bottle that contained the antidote pill: “Pour a glass of water.” She said to the Elder beside her.

“Yes, yes.” The Elder hurried over to the table and poured a glass of water, then handed it forward. He looked at the pill in Feng Jiu’s hand. He couldn’t help but get excited when he saw the seven pill patterns.

This was a seventh order antidote pill! This thing was capable of saving his Family Patriarch’s life!

Feng Jiu personally fed the pill and water to the Black Market Master, who swallowed it: “Bring a basin over.” As she spoke, she lifted his body with one hand and used her palm to circulate her spiritual energy carefully inside the Black Market Master.

“Puff!”

The Black Market Master vomited a mouthful of poisonous blood from his mouth. The blood had formed into clots as toxins had accumulated in his body for a long time. When the blood clot was spat out along with the blood, the Elder's heart rate raced slightly.

He stood by the side and watched as he was unable to do anything to help. He watched the Ghost Doctor as she pierced silver needles into his Master's body and then took out another pill to feed him.

Although he wasn't able to help, he breathed a sigh of relief when he saw that his Master's condition had stabilised. He was about to take the basin of poisonous blood away when he heard her voice.

"Wait."

Feng Jiu summoned him, and after she had pulled the silver needle out, she turned to the Elder and said: "Keep the poisonous blood clot for me to use."

"This, you want this?" The Elder was startled.

"Well, this poison is extraordinary, and only the seventh order antidote pill can detoxify it. However, the main ingredient of the seventh order antidote pill is not easy to find. So I plan to distinguish the poison ingredients contained in the poisonous clot and find another way to detoxify the poison."

As she spoke, she placed her silver needles into space: "The poison in your Master's body has been detoxified, and I also gave him an inner alchemy pill. He should regain consciousness tomorrow, but his body has been under a lot of stress, so it will take him about a month to fully recover.

Upon hearing this, the Elder was deep in thought.. He glanced at Feng Jiu and said: "Ghost Doctor, I have something to tell you first."

Chapter 2185: Do You Like It

Feng Jiu looked at him: "What's the matter?"

He hesitated, then asked: "Ghost Doctor, do you have an understanding of the Five Poison Sect?"

"I only know that the Five Poison Sect are good at using poison. The Five Poison Sect Master has twelve poison envoys under his command, and their strength are mostly Immortal Sacred level. As for the others, I only know a little, I can't say I know them very well."

Upon hearing her words, the Elder was overcome with emotion. Though she didn't have a good understanding of the Sect, she was still willing to protect their Master and become enemies with the Five Poison Sect. He had to admit that his Master had good foresight.

If it had been anyone else, the matter at hand would probably have been ignored.

"Ghost Doctor, the Sect Master of the Five Poison Sect is also known as the Five Poison Sovereign Lord, his strength is above the Immortal Sacred level. What makes us jealous is not the twelve poison envoys under his command but their renowned poison formula that uses the body to nourish and refine. While the poison is being cultivated, all the poisons in the body will accumulate in the left hand, and it has been named the Myriad Poison Hand. If the Myriad Poison Hand is cultivated and coupled together with spirit energy, it will be so powerful that very few would be able to withstand it."

The Elder said in a low, calm voice, and looked at her solemnly and said: "Only the Sect Master can cultivate the Myriad Poison Hand. When my Master duelled against the Five Poison Sect Master the last time, he said that his Myriad Poison Hand is about seventy percent cultivated, so I am afraid..."

Upon hearing this, Feng Jiu nodded: "Alright, I will be careful." She stood up and said: "Take care of your Master, send someone to inform me when he wakes up tomorrow."

"Yes." The Elder replied. He put away the poison blood clots and then handed them to her, then he saw her out.

After Feng Jiu returned to Feng Manor, she checked on Gu Mo's condition. Once she had confirmed that Gu Mo had vomited the poisonous blood and the poison in his body had been detoxified, she gave Leng Hua and the others some orders, then she returned to her room and closed the door. No one knew what she was busy with inside, and she didn't walk out of her room until it had become dark, and her face looked tired.

"Little Jiu, are you finished?" Guan Xilin who was sitting in the courtyard saw her coming out and gestured for her to sit down. He poured her a cup of tea: "Have a break! Look how busy you've been the past few days."

"It's not been too bad!"

Feng Jiu smiled and sat down. She drank the cup of tea then said: "I have studied the ingredients of the poison and found the separate conflicting ingredients. In the future, if anyone has been poisoned with this poison again, the seventh order antidote pill might not be the only thing that can detoxify the poison."

"I don't understand what you're saying. I've been waiting here for you because I have something for you." He smiled and took out some treasures he had obtained from outside.

Feng Jiu couldn't help but stare blankly at the rare and exotic items on the table. There was a mountain of things on the table, what treasures, shiny beads the size of a baby's fist, all stacked up, the little mountain in front of her was just dazzling. The light that was shining caught the attention of Fire Phoenix and Little White Tiger who were playing in the courtyard, and even Old White who had been sleeping on the tree, who all came over and surrounded the table or treasures.

"Elder Brother, where did you get so many things? Don't tell me you robbed all this?" She looked at the table of treasures in astonishment and couldn't help but tut.

"Good stuff! Why are there so many treasures? Why don't I see all this when I go out?"

Upon hearing this, Guan Xilin laughed, he looked at her with a smile on his face: "So what do you think? Do you like it? Elder brother saved these especially for you."

Chapter 2186: Gift

"They're all for me?" She was slightly surprised: "So many treasures?"

“Yes! They’re all for you, and there’s more, wait a minute.” He smiled and said, then he took out a big fiery red stone from his space ring. Because the red Volcanic Flare Stone was too big, and there were too many treasures on the table, hence, the priceless and precious red flint stone was placed on the ground.

“Look at this stone. I moved this out from the crater in the Volcanic Forest. I thought that the colour of the stone was so beautiful like flames, so I wanted to bring it back for you.”

He smiled and said: “I had originally thought of finding a carver to carve this stone into something for you, but I didn’t know what you like so I decided to just give it to you like this! You can send it to the carver when you have time and when it’s done, you can place the sculpture in Heavenly Pill Tower and admire it.”

Feng Jiu was dumbfounded from the moment he took out the top grade fiery red Volcanic Flare Stone. The colour was dazzling and it was such a large piece of stone, this was the best amongst the best!

What did her Elder Brother say earlier? Take it to be carved? When she thought of this, she asked: “Elder brother, do you know what this is?”

“Yes, it’s some top grade Volcanic Flare Stone and it’s worth quite a bit of money.” Guan Xilin said.

Upon hearing this, the corners of her mouth twitched: “Worth a bit of money? It’s such a large piece of stone and the colour is fiery like a flame, it’s a priceless treasure. Fortunately you didn’t take it to get carved, or my heart would ache.” She didn’t even find a piece of this thing but her elder brother had brought back such a large piece, and a top grade piece!

Guan Xilin smiled and said: “I knew you would like this thing. At the time, quite a few people tried to snatch it, but in the end, they weren’t able to snatch it from me.”

Feng Jiu chuckled upon hearing this: “I know, I was also at the Volcanic Forest at that time. Which mercenary team did you go with? We should have met each other on the road, but we didn’t see each other in the end. It was only later on when I saw you leaving the Volcanic Forest and I saw those people chasing after you, so I stopped them.”

She smiled slyly when she said this: “I took everything those people had on them.”

Guan Xilin was slightly surprised when he heard this: “You were there? I wondered why those people stopped chasing me, so you helped me.” It had come as a surprise to him when he heard her words.

Feng Jiu squinted and picked up the treasure on the table and played with it. It was precisely because she saw his back view, that was why she stepped out and stopped those people, otherwise, she wouldn’t have been so nosy.

“Mistress, you have so many treasures that you can’t even count them all.” Fire Phoenix next to her looked at the pile of treasures on the table and glanced at Guan Xilin: “It’s good to have an older brother!” Guan Xilin this big block was very good to its Mistress.

They laughed when they heard this.

“Alright Little Jiu, put everything away! Keep what you like and if you don’t like anything you can give it away as a gift, Elder Brother won’t mind.” He said with a smile and motioned for her to put everything away.

“Elder Brother, every time you go out you bring me so many treasures. Do you ever leave anything for yourself? You’ll need betrothal gifts in the future when you get married. And what about Ye Jing? She is still in the lower reaches of the mainland now, why don’t you marry her quickly?” She winked at him.

“I’m not anxious to get married.. However, I do want to make a trip to Ye Jing’s family home, but...” He paused and his eyes lowered.

Chapter 2187: Don’t Climb Over The Walls

When she saw the look on his face, Feng Jiu knew what he was thinking, so she said: “Elder Brother, how about this? Now that you’re back, don’t go out yet for the time being, stay here. Wait till I have settled matters here and I will accompany you on the trip. Even if the both of you don’t plan to get married yet, you can still propose a marriage first lest Ye Jing’s family make other arrangements for her.”

Guan Xilin smiled when he heard this: “Alright, we will go together.” Upon saying that, he asked: “But should we tell Godfather about this matter first?”

Although he didn’t have a family, Little Jiu’s family was like his own family. If he were to arrange a marriage, shouldn’t he speak to his Godfather and the rest of the family first?

“When the time comes, I will send someone to bring the news to them. When you marry Ye Jing, then naturally my father will have to meet with her family.” She said with a smile and looked at the treasures on the table: “I will keep these things first, when you get married, I will prepare your betrothal gift for you.”

The brother and sister chatted in the courtyard for a while. As it was already dark and the lights were lit, the both of them sat in the courtyard chatting, eating and drinking until a shadow appeared quietly.

The three beasts in the courtyard glanced at the person who had arrived and left the courtyard, as if it hadn’t seen that person. After all, as long as they weren’t enemies, they didn’t have to get involved.

“You two brother and sister seem to be in good spirits.” Mo Chen, dressed in white, who was sitting on the wall, looked at the two people in the courtyard and said.

“Why didn’t you use the front door but climb over the wall instead?” Feng Jiu looked at him and couldn’t help smiling. This banished immortal character preferred to climb over walls instead, his hobby was really strange.

Mo Chen sat on the wall and sighed slightly: “It’s not that I like to climb over walls and not use the front door, it’s just that I’ve been a few times now and have always been turned away. Out of desperation, I’ve had no choice but to climb over the wall to take a look.”

“Oh?”

Feng Jiu was surprised when she heard this: “Why have you been turned away? I’ve never given that order!” She thought about it and smiled suddenly: “Hehe, oh yes, I was quite busy the past few days and they were probably worried about disturbing me so they wouldn’t let you in!”

Having said that, she raised her eyebrows and smiled: “Are you coming down for a couple of drinks?”

Mo Chen's eyes flickered when he heard this and a smile flashed across his eyes. He leapt down lightly and at this point, Feng Jiu summoned Leng Shuang who was outside to fetch another wine glass.

After Leng Shuang brought the wine glass, she retreated. Feng Jiu poured him a glass of wine. When Mo Chen saw this, he smiled and took a sip from the wine glass.

"Young Master Mo Chen, this is my younger sister's courtyard after all, and you are a man. It's better not to climb over the walls again in the future." Guan Xilin said with a serious face.

"Ahem!"

Mo Chen had only just taken a sip of wine when he heard Guan Xilin's words, and he couldn't help but choke. He put his wine glass down and looked at Guan Xilin with an expression like a baby calf. He couldn't help but shake his head and sighed: "You think too much, your younger sister doesn't treat me like a man at all."

Feng Jiu's mouth twitched when she heard this, and she glanced at Mo Chen.

Guan Xilin frowned and stared at him.

With the two of them staring at him like this, he said: "Alright, as long as I don't get turned away next time, I won't climb over the walls again."

Chapter 2188: Get To The Bottom Of It

He looked at Feng Jiu and said: "I came here tonight to see if you have returned, what happened before..."

"I know what happened before, you don't have to talk about it anymore." Feng Jiu interrupted him and said with a smile: "Since you're here tonight, let's drink wine and chat!"

Upon seeing this, he smiled freely and said: "Alright."

The three of them sat in the courtyard chatting and drinking until late into the night before Guan Xilin and Mo Chen left...

Early the next morning, someone from the Ling Manor came and informed her that their Master had woken up and wanted to see her. Therefore, after she had finished washing up, she went over to Ling Manor.

"Ghost Doctor, my Master has really woken up." The Elder rushed forward and greeted her with joy when he saw her come in.

"Mmm" Feng Jiu nodded slightly and stepped inside. She saw that the old man was sitting upright against the back of his bed with his eyes closed.

"Uncle Black, how do you feel?"

Feng Jiu sat down on the chair next to the bed casually with a smile on her face. Her demeanor was relaxed and when she called the man Uncle Black, the Black Market Master opened his eyes a little stunned and then he laughed.

“Why do you call me Uncle Black? Do you think that I am the Master of the Black Market, that’s why you’ve called me Uncle Black?” He looked at the dazzling and stunning woman in red in front of him, and his eyes flickered slightly.

This was the Ghost Doctor in person. In the past, all he had seen were portraits, today was the first time he had met her in person, and she was a hundred times more dazzling than the portraits.

Feng Jiu smiled and said: “Although I have dealt with the Black Market many times, I don’t know your name, hence, the name Uncle Black! Anyway, you are the Master of the Black Market, I think these three words Black Market Master are quite suitable for you...”

“Hahaha...”

Upon hearing this, he laughed softly, and the laughter shook from his chest, as if the injuries on his body were affected by his laughter. His face paled and sweat oozed from his forehead, but there was a happy smile on his face, which showed that he was in a good mood.

“Well then Uncle Black it is then! Besides, I think that it will only be you who will call me that.”

“Actually, I’ve had a question I’ve wanted to ask for a long time but I never had the chance. Now that Uncle Black is awake, why don’t you answer me?” Her eyes narrowed and she had a smile on her face.

Upon hearing this, the Black Market Master looked at her with a smile on his face and asked: “You want to ask me why I’ve been so good to you over the years?”

Feng Jiu nodded: “Well, although our relationship is that of a cooperation, it is true that the Black Market has helped me a lot. I also know that there have been many things that the Black Market has secretly resolved for me in secret. Therefore, I am a little curious as to why.”

She looked at him and placed her chin on one hand and thought for a while, then she said: “As far as I know, I have never met you before now. So Uncle Black, let’s not talk about me saving you first, why have you helped me like this?”

Although they had a business relationship, the Black Market could have stood by and watched many times. However, they stood up and resolved her problems instead. Moreover, the black token was just given to her like that. Even though the Black Market people hadn’t said anything, she knew that there was probably something she didn’t know about. Now that she had the opportunity to ask him face to face, naturally, she would have questions.

The Black Market Master smiled and said: “Since you’ve asked, then I might as well tell you.”

Chapter 2189: You Don’t Know How Powerful I Am

Upon hearing this, Feng Jiu’s eyes fell on him.

“Someone gave me your portrait and asked me to take care of you. You don’t have to ask me who this person is, because I don’t know who he is either. A few years ago, he saved my life and I gave him a token in return. So back then, he sent someone to deliver your portrait together with the token to me.”

Feng Jiu was slightly surprised when she heard this. Everyone she knew flashed through her mind, and she asked: “Back then, was it a man or a woman who saved you? Old or young?”

Uncle Black thought for a while, then he replied with a smile: "He should be an old man to you."

Old man?

Feng Jiu's heart moved, and she thought of the old man who had given her the blue lotus. Back then, after he had given her the blue lotus, there had been no more news of him. Could it be him that had entrusted the Black Market Master to take care of her? She couldn't think of anyone else other than him.

"I have to thank you for saving me this time." He looked at Feng Jiu and said: "In the past, we looked out for you because I had to return the favour. However, later on, you didn't really need our help much anyway. But now that you have saved my life, I have to repay your kindness."

Feng Jiu smiled when she heard this: "How would Uncle Black like to repay me?" She looked at him and smiled: "Saving your life is not something money can pay off! Besides, I am not short of money either."

"Of course." He nodded. His face was serious as he spoke: "How about this, I will give you the Black Market!"

Feng Jiu was stunned: "What?" Did she hear him correctly?

"I said I will give you the Black Market, in the future, you will be the Master of the Black Market. What do you think?" He looked at her with a smile as he thought it was a good idea.

"You built the Black Market with your own hands, and now you want to give it to me? You can't do that." She waved her hand: "Besides, I don't have the energy to manage such a large Black Market. I don't want it."

When he saw her disdain, his mouth couldn't help but twitch: "So many people would love to own my Black Market, but you have a look of disgust. Do you know how powerful the Black Market is?"

Upon hearing that, Feng Jiu smiled: "Uncle Black, don't boast. The Black Market's power is quite large, I know that. But after you were poisoned by the Five Poison Sect's poison, which of the Black Market branches had remained open? If I had to guess, I would say that someone inside the Black Market is causing trouble!"

She spoke idly, with her chin resting on one hand. She smiled and said: "The Black Market is a mess right now, I don't want to take over. I have enough problems myself. Besides, you've been cooperating with me for so long now, you know that the forces under me are comparable to the Black Market forces."

Uncle Black shook his head and smiled: "Alright, it's fine if you don't want this mess. Why don't you be my goddaughter then!"

"I don't want to do such a disadvantageous thing." Her lips curled, she glanced at him and said: "I save you but you want me to be your goddaughter? I have to call you Godfather? You're taking advantage of me."

"That's only because you don't know my real identity, you don't know the strength and power of my family clan." He smiled and shook his head. He looked at her and said: "I can tell you truthfully that you won't be at a disadvantage becoming my goddaughter. In fact, it will be very good for you."

Feng Jiu said disapprovingly: "What are the benefits? Your strong family clan has nothing to do with me! Even if there are any advantages, your children will reap them. I'm not doing it."

Chapter 2190: Yin Family Corpse Poison

When he heard this, his expression seemed a bit lonely for a moment. Then he hid his expression and smiled: "You don't have to worry about that. I've never even been married, where would I have children? If you become my daughter, everything I possess naturally will belong to you, and your status will not be low either. Even if anyone in my family sees you, they will have to be courteous to you."

Feng Jiu was slightly surprised, and she looked at the man on the bed: "You're not married? That's not possible! You're not bad looking, and there should be many women who like you with your mighty disposition!" She couldn't help but be nosy, and she asked with a smile: "Are you too picky? Or is the woman you love married to someone else?"

"Ahem!" The Elder at the side coughed lightly.

Feng Jiu glanced at the Elder, then back at Uncle Black who seemed to be reminiscing and couldn't help but apologise: "I'm sorry, I'm too nosy. Sometimes when I am curious, I just can't stop myself from being nosy."

"It's alright." Uncle Black smiled: "Let's talk about serious business! Since I don't have any children, will you be my daughter?" When he saw that Feng Jiu didn't speak, he said: "I haven't told you my family clan's name, actually..."

"There's no hurry, I need to think about it." Feng Jiu stood up. She looked at him and said: "Uncle Black, stay here and recuperate first! I still have some matters to take care of, so I will go back first." Having said that, she left before he had a chance to speak.

After he watched Feng Jiu leave, the Elder who had been waiting at the side said: "Master, do you really want to accept the Ghost Doctor as your daughter? I think that if you really do that, someone in the family clan will object."

"Hmph!"

He snorted and said: "When do they get to dictate my affairs? As long as this girl will recognise me as her Godfather, I won't have to worry about my share of things falling into the hands of other people in the future."

"Yes, the Ghost Doctor's character is very good, if she really can become Young Master, it will be a good thing for you, Master." The Elder smiled and said. He then glanced at his Master on the bed and hesitated a little, then said: "However, subordinate thinks that it won't be an easy task to have the Ghost Doctor recognise Master as her Godfather."

"It's alright. If she will do so, of course it is a good thing. Even if she doesn't, I will do something else to pay for her saving my life!" He closed his eyes and said: "Help me lie down."

"Yes." The Elder stepped forward and carefully helped his master lie down on the bed to rest.

By the time Feng Jiu had returned to Feng Manor, Mo Chen, who was dressed in white, was already sitting in her courtyard. She was slightly surprised when she saw him: "You were only here last night, why are you here again so early this morning? Is something the matter?"

"Last night I got carried away chatting and drinking wine and I forgot about the important matters, so I have some this morning to tell you." He poured some tea and motioned for Feng Jiu to sit down: "The person from the Yin Family who had come to seek treatment a while ago has died. He was transported back home a few days ago. I thought you might not have an understanding of the Yin Family, so I have come to caution you."

Feng Jiu's eyebrows raised when she heard this: "This is the person Leng Hua said when he had an episode of his illness, he mutated?"

"That's right, he didn't mutate, he was poisoned by a corpse."

"Corpse poison?" Feng Jiu looked at him in surprise: "What do you mean?"

"The Yin Family is a family that raises corpses. Their family clan are not strong in combat, however, the fighting corpses they cultivate are very powerful. It's just that their family had retreated from the world decades ago, and now that they have resurfaced, they have come to seek medical treatment from you."

Chapter 2191: I Know Where

He paused and glanced at her. Then he said slowly: "The person who died is the oldest son by the official wife. You have to be extra careful in the coming days. I think you will have problems coming at you one after another soon."

Feng Jiu sighed softly upon hearing this, she placed one cheek in her hand and said: "I haven't provoked anyone lately. Why do these troublesome things come at me one after another all the time?"

She looked at him and asked: "Didn't you say that if you follow me you will be able to help me out? Can you take care of these things?"

Upon hearing this, Mo Chen chuckled: "The family clans that you provoke aren't just any ordinary families. First, it's the Shadow Night Palace, then the Five Poison Sect next. Now it's the corpse raising Yin Family Clan. I won't talk about the others. Just these three alone aren't forces that ordinary people can handle."

"Shadow Night Palace hasn't caused any problems for me recently. I guess after I destroyed their place, they have been busy rebuilding it! I heard that the Five Poison Sect Master's poison skills are quite daunting. However, as we've never fought against each other, I don't know the depth of his skills. I can't guard against them even if I want to. As for the Yin Family..."

She paused, then she smiled: "If they want to cause me any problems because of this matter, I won't make things easy for them either." Saying that, she smiled: "The Black Market Master's poison has been detoxified. If they can handle the matters concerning the Five Poison Sect themselves, that will be best, at least I can relax. I plan to accompany my Elder Brother to the lower reaches of the mainland in the next few days."

“You’ve refined the seventh order antidote pill?” Mo Chen’s eyes moved slightly. He hadn’t expected her to have been successful in refining the seventh order antidote pill.

“Well, they have all taken the seventh order antidote pill and the poison in their bodies have been detoxified. They just have to recuperate from their internal injuries now.” She frowned and said: “I just don’t know if the people from the Five Poison Sect will come looking for trouble again. The people I have sent out to gather information haven’t found their whereabouts after so long. They can’t even infiltrate into the Five Poison Sect to obtain information.”

Upon hearing this, Mo Chen’s expression changed slightly, and he asked: “You want to infiltrate the Five Poison Sect?”

“Yes.” She nodded: “Although I want to let the Black Market deal with this matter themselves, Uncle Black’s poison has only just been detoxified and it will take about a month for his body to recover. If they make a move again, I’m afraid there will be problems. So I thought that if I can obtain some information, I can make the arrangements beforehand.”

“I will go with you.”

“What?” She looked at him startled.

He looked at her and said: “I know where it is, I will accompany you.”

“Where? I am coming too.”

A voice drifted over, and the two of them looked in the direction where it had come from. They saw Guan Xilin walking in. He walked to the table where the two of them were and sat down. He poured a cup of tea and asked: “Where did you say you are going? Count me in, I will come with you.”

Upon hearing this, Feng Jiu and Mo Chen smiled at each other. She looked at Mo Chen and said: “In that case, shall we leave now?”

“Sure.” Mo Chen nodded.

“You haven’t told me where we are going.” Guan Xilin who was beside them asked. He found it a little strange as he looked at their smiling faces. What were these two people talking about? Why didn’t he understand any of it?

“We are going to an outpost of the Five Poison Sect.” Mo Chen said with a smile: “I just don’t know if the Five Sect Poison Sect Master will be there.”

Feng Jiu stood up and said: “We will find out once we are there. If he is there, that’s even better.. If he is not, we can still destroy that place anyway.”

Chapter 2192: Sneak In Late At Night

The Five Sect Poison had injured so many of her people in Heavenly Pill Tower, even if she had only annihilated a small outpost, it wouldn’t make up for one Feng Guard’s death.

“Alright, let’s go then!” Mo Chen also stood up and flicked his robes. He asked: “Do you need to leave any instructions here before we leave? Our journey there and back might take a day or two.”

“The little beasts will stay behind and we can leave after we tell Leng Hua, Du Fan and the others.” Feng Jiu walked out. The two men behind her glanced at each other and left.

After she had spoken to Leng Hua and the others, Feng Jiu left quietly with Mo Chen and Guan Xilin. They travelled on flying swords the whole journey and followed Mo Chen till they arrived in a valley in the evening.

“This is...” Feng Jiu looked at the valley in surprise. The valley was very steep and remote. Had it not been for Mo Chen leading the way, she would never have found it.

“The Five Poison Sect is a hidden force. I don’t know the exact location of their outpost, but this is the place where they will gather when they are outside. I learned it by chance once. Even if the Five Sect Poison Sect Master doesn’t appear here, his twelve poison enjoys will. However, they are very good at using poison, so you must be very careful.”

As he spoke, he took out a black coat and draped it over his conspicuous white robes before he left them outside.

“There is an array here.” Guan Xilin followed them and noticed that this place was guarded by an array.

“There’s not only an array, there is also poisonous mist.” Mo Chen, who was in front of them, said without turning back. After he led them out of the formation, they saw a fog.

At this time, the sky was getting darker, and it was so dark everywhere that it was hard to see clearly. The three of them stopped and Feng Jiu handed out an antidote pill for them to take before they continued to move forward.

After about the time it took to burn an incense, they came to the edge of a cliff and looked down. They saw faint lights flashing and Feng Jiu and Guan Xilin couldn’t help but be surprised. They hadn’t expected to encounter such a scene here.

“So they are hiding at the bottom of the valley. No wonder I have been unable to find their whereabouts.” Feng Jiu said suddenly: “This place is surrounded by mountains and fog, it is indeed a very good place to hide. But how are we going to get down there? If we go down on our flying swords we will be discovered by them.”

“There are some stairs over there.” Mo Chen said to the two of them: “Condense your breath and follow me.”

The two of them nodded and condensed their breath. They followed him quietly behind down the stairs to the bottom of the valley and saw two teams of people on patrol.

“Avoid them, we will go around from the back.” Mo Chen said in a low voice and led them round to the other side.

When they came to a courtyard, they saw a middle-aged man who was missing an arm talking to several others.

"I won't let the people from Heavenly Pill Tower get away with it! That Guan Xilin who cut off my arm! I will definitely break his body into a million pieces!" As he spoke, he clenched his fist tightly and thumped it heavily on the table.

"Don't worry, hasn't Master said? In a few days, he will have finished cultivating his Myriad Poison Hand. By that time, not only the Ghost Doctor and Guan Xilin from the Heavenly Pill Tower, but the people from the Black Market will also be sent to hell by Master.." It was another middle-aged man who spoke. He poured some wine and gestured: "Come, drink! Drink to our big slaughter! The Five Poison Sect shall rise again!"

Chapter 2193: Discovered

The few men raised their bowls of wine together and shouted: "Cheers!" Then they downed their wine.

After they had drunk their wine, they put their bowls down. Some of them ate the little dishes of food while others poured more wine. Some of them spoke: "Master's Myriad Poison Hand is at its final critical stage, we must make sure there are no mishaps over the next few days."

"What are you worried about? This place is so hidden, and besides, there are eight poison envoys here, what can happen?" One of them said as he picked up some food to eat.

"That's right, with the combined strength of the eight of us, plus so many other people guarding this place, even a mosquito won't be able to fly in!"

The four people inside chatted while Feng Jiu and the others, who were lurking in the shadows, retreated quietly after they signaled to each other. Once they had come to a safe place, Feng Jiu's eyes flashed and she spoke in a low voice: "I didn't expect the Five Poison Sect Master to be here, and his Myriad Poison Hand has nearly finished cultivating."

"Those four men said that there are eight poison envoys. That means other than the four of them drinking wine, there are four more guarding the place where the Five Poison Sect Master is cultivating." Guan Xilin said in a low voice.

"It seems that we have come at the right time." Mo Chen said with a smile and looked at the two of them: "Let's not alert them. The most important thing is to look for the place where the Five Poison Sect Master is cultivating in secret first."

"What if we capture one person to interrogate?" Guan Xilin suggested.

"It's useless."

Feng Jiu and Mo Chen said in unison. They looked at each other, then said to Guan Xilin: "All the Five Poison Sect disciples have taken poison, they are the equivalent to death envoys. It will be very difficult to obtain any information from them. If we capture one of them, we also run the risk of being discovered earlier. It will be better if we investigate in secret."

"Yes." Mo Chen nodded: "This place is not that big, if the three of us split up, it shouldn't be too difficult to find the whereabouts of the Five Poison Sect Master. However, we cannot act alone if we find him, we have to discuss a plan of action first."

“Alright.” The other two responded. After they had agreed where they would meet up again after a certain period of time, they each picked a direction and headed off in search.

At this time, the night was deep, and though there were people patrolling the valley, no one had realised that three people had quietly sneaked in. Even the four people who were drinking never expected that the person they were talking about would have found this place and had already sneaked in without them knowing...

Though the strength of the three of them were strong, they had condensed their breath. Hence, not only did the four poison envoys drinking wine not feel their presence, even the poison envoys who were patrolling didn't feel their presence either.

However, it was not easy trying to find the Five Poison Sect Master's whereabouts in the courtyard built within this valley. They had walked half the way around and hadn't found him. Finally, when it was close to midnight, Guan Xilin came to the back of the courtyard that was backed onto the mountain to relieve himself. When he did so, he inadvertently glimpsed and caught sight of a cave dwelling.

After he had finished his business, he walked closer to take a look. Although it was pitch black ahead of him, it was not lit up. However, there was a cave dwelling at the foot of the mountain, and there were two middle-aged men in black robes sitting crossed-legged outside the cave dwelling quietly.

He didn't go closer but retreated quietly to inform Mo Chen and his younger sister.. There were not only those two middle-aged men who were guarding this place, but also an array about fifty metres in front of him.

Chapter 2194: Act Separately

Luckily, the cave dwelling was about one hundred metres away from the array, otherwise, he would probably have been discovered.

There weren't any other arrays anywhere else other than here, plus there were people guarding this area, and they didn't even light a single light. The Five Poison Sect Master was most definitely inside!

He retreated quietly and returned to the place they had arranged to meet up at. Not long after, he saw Mo Chen and Feng Jiu arriving one after another. He beckoned to the two of them, and when they got closer, he said in a low voice: “I have found the hiding place of the Five Poison Sect Master.”

Upon hearing this, Feng Jiu's eyes moved: “Where?”

Guan Xilin pointed forward and said: “In a cave dwelling up ahead. But it is protected by an array, and I saw two poison envoys guarding outside the cave dwelling. I didn't see the other two poison envoys. If we break through the array and enter, we will surely alert everyone. What shall we do?”

“Two hands are no match against four punches, aren't you also an expert in poison? Why don't we poison them?” Mo Chen said and looked at Feng Jiu.

Feng Jiu's mouth twitched when she heard this and glanced at him. Though this person has an appearance like an immortal, he is more scheming and ruthless than her. He suggested poison before anything else.

“No, poison might not have any effect on these people.” She said slowly: “The people from the Poison Sects are naturally more sensitive to medicines and poisons than ordinary people, it is not appropriate to use poison on them.”

She pondered, then said: “I have an idea.”

“What idea?” The two of them asked her.

“Feint in the east but attack in the west.” Feng Jiu said: “We will distract their attention to the east.”

She looked at the two of them and said: “The three of us will split up into two teams. One team will draw their attention while the other team attacks. The death of the other people is secondary, but we need to take this opportunity to kill the Five Poison Sect Master, otherwise, once he finishes cultivating his Myriad Poison Hand, it will cause serious casualties.”

After hearing this, Guan Xilin said: “Tell you what Little Jiu! I will draw their attention while you and Mo Chen go and deal with the Five Poison Sect Master. I think that if I try to draw their attention, at the very most, only one or two poison envoys will come after me. They are more likely to guard the Five Poison Sect Master in the cave dwelling, so you must be extremely careful.”

“I think what he said sounds reasonable, we will face more danger as the attacking team, so we have to be prepared.” Mo Chen said and nodded. He looked at Guan Xilin: “However, you can’t afford to be careless either. The people in her are adept at using poison so don’t get poisoned by them.”

“I know. Little Jiu has given me an antidote pill to take, so most poisons won’t be able to affect me. As for the others, I will pay more attention.” He said and nodded.

“Alright, it’s decided then.” Feng Jiu said. She looked at Guan Xilin: “Elder Brother, you have to be careful. If you can’t beat them, run.”

Upon hearing this, Guan Xilin smiled: “Alright, I know. Let’s go, I will take you over first, then we will act accordingly.”

He took the two of them to where he had chanced upon the cave dwelling earlier. When they arrived, they discussed their plan in low voices, then split up.

After the time it took to burn half an incense, Guan Xilin lit fires everywhere in the valley. The raging fire burned through the valley as if it were daytime. In an instant, the quiet valley was filled with cries of exclamation and anger everywhere.

“There’s a fire! Put it out!”

Chapter 2195: Your Grandfather is Here

“Damn it! Why is there a fire? Put it out quickly!”

Amidst the exclamations and shouts of anger, the four men who were drinking wine in the courtyard also hurried over to see what was going on. When they saw the raging fires all over the valley, they were surprised.

“Why is there a fire all of a sudden? Could someone have sneaked in?”

The four of them were shocked, and one of them grabbed a poison guard who was running past and asked: “What’s the matter? Why is there a fire? Did someone sneak in?”

Poison envoy, we didn’t discover any sign of anyone breaking in, but as fire has broken out everywhere, someone has gone to investigate...” As the man was talking, he was interrupted suddenly by a voice.

“Hahahaha! So this is your lair! This fire burning is making me, your grandfather, so happy!”

The loud voice spread through the night suddenly and gave everyone a shock, especially the middle-aged man whose arm had been chopped off. When he heard the voice, he stared towards the voice with an incredulous look.

He saw a figure standing on a protruding stone in the valley holding a long sword. The figure raised his head and laughed. His words of provocation and ear-splitting laughter made the middle-aged man with the broken arm surge with anger.

“It’s you! Guan Xilin! You dare to come here? Are you here to seek death?” The middle-aged man shouted angrily. His voice contained spiritual energy and spread through the night.

“He is the one who chopped off your arm? Guan Xilin?” The three men beside him asked and looked at the figure standing high in the valley in amazement. Amidst the blazing fire, his figure looked very conspicuous. He looked no more than twenty years old, yet such a person had already reached the level of Martial Divine?

“That’s him!” The poison envoy with the broken arm gritted his teeth and said.

“Since he dares to come here, then we will capture him and use him to try out new poison!” One of the men said sinisterly as he stared at Guan Xilin’s figure.

One of the poison envoys hadn’t spoken. He looked around at the fire and suddenly had a bad feeling. He said: “How does this person know of this place? Surely he didn’t come here alone, could he have accomplices?”

Upon hearing this, the other three were shocked.

“Tell you what! The two of you go and take care of Guan Xilin while us two will go and take a look at the situation on Master’s side. If there is nothing happening there, we will come back to help.”

“Alright.”

They had no objection to this, and after responding, the poison envoy with the broken arm and one other poison envoy flew up towards Guan Xilin, while the other two went behind towards the cave dwelling.

“Guan Xilin, how dare you come here! Today, I will make sure you cannot return!”

The poison envoy with the broken arm flicked his sleeve and several concealed weapons shot out towards Guan Xilin in front of him. At the same time, he stretched out his hand and a long sword

emerged in his hand. Spiritual energy surged and the sword potent struck out. Cold, killing intent shrouded the area in an instant.

“Hahaha!”

Guan Xilin raised his head and laughed. His laughter stopped abruptly and his gaze fell on him sharply: “I let you escape last time, but today your grandfather I will take your life!” Saying that, a breath of profound energy surged and he swung the broadsword in his hand to form a protective cover in front of him.

“Clang!”

“Clang!”

The concealed weapons collided with his broadsword and made crisp, clanging noises.. At the same time the concealed weapons fell, the profound energy that had enveloped him was also defused by him.

Chapter 2196: Off with a single blow

The other poison envoy who followed him from behind squinted viciously. “Martial Divine rank? I can’t tell if you have some real skills!” He stared at Guan Xilin. “I will face you!” He stretched out both hands and two scimitars appeared in his hands. As his spirit energy burst forth, his figure swept over like a ghost, chopping at Guan Xilin at lightning speed.

“Whoosh!”

“Clang!”

“Whoosh, whoosh!”

Two figures were fighting each other, their movements were extremely fast. One was at the Martial Divine rank and the other was at the level of Immortal Sacred. They were well matched in strength, but Guan Xilin seemed to be slightly better in terms of combat strength. After all, his battle strength improved steadily while getting experience outside whereas his opponent was just a poison envoy who relied on using poison. Although his opponent’s spirit energy cultivation had reached the Immortal Sacred rank, naturally it couldn’t match him in combat strength.

“Clang!”

The swords clanged as they clashed. Powerful air burst from their bodies, blowing their robes with a whizzing sound. Guan Xilin imbued a steady increase of power on his sword so that the poison envoy couldn’t endure it and his scimitars were gradually pushed back. As perspiration started trickling down his forehead and with gritted teeth, the poison envoy tried to release a hand but he couldn’t resist the opponent’s pressure.

At this moment, the one-armed poison envoy attacked from behind. As he was about to mount a sneak attack, at this very moment, Guan Xilin pressed down with his broadsword, kicked out, and swung his sword out as he kicked his opponent flying.

“Ugh!”

The man let out a low shout. When the broadsword swung out, the fierce sword potent attacked and was met by the poison envoy’s double scimitars. However, that sword potent still left a deep gash wound with bones visible on his body.

“Hiss, aah!”

He gasped, recoiled violently and fell from the air. While half-kneeling on the ground, using the sword to prop up his body, he looked down at the gash on his chest and felt a paralyzing pain.

He quickly took out the wound medicine and sprinkled it on his wound. In mid-air, after brandishing his sword, Guan Xilin turned around and attacked the one-armed poison envoy. The other party only had one hand plus the old wound was still not yet healed, so he was not Guan Xilin’s opponent.

“Chasing Soul Split!”

Guan Xilin shouted grimly. He waved his broadsword and the sword intent rushed out with a whooshing sound, slashing towards the one-armed poison envoy at lightning speed.

“Damn it! You...”

Seeing this, the poison envoy was startled, but it was too late for him to retreat. He avoided two sword attacks, but he could not dodge the last one. When he felt a chill in his neck and a whooshing sound whipped past his ears, his head had already decapitated and flew out.

On the ground, the poison envoy who applied hemostatic medicine was shocked upon seeing this situation. The medicine bottle in his hand dropped to the ground and he couldn’t pick it up. He immediately shouted to the surrounding poison guards. “Go! Everyone go and kill him!”

He stepped back to withdraw and ran to the cave-dwelling where his master cultivated in seclusion.

Too terrible! That damn Guan Xilin was too terrible! With that kind of astonishing combat strength, it’s very likely that even if three or four people cooperated, they were still not his opponent! Damn it! He did not know that a Mystical Martial Divine cultivator could have such a terrifying combat strength!

The thought of that head being decapitated so suddenly, without even the chance to cry out or scream, without even the chance to escape and just die like that, he couldn’t help but feel a chill at his back.

He hadn’t felt this fear when he was dealing with the Black Market, but now he felt a fear that made him want to run away....

Chapter 2197: Ghost Doctor Feng Jiu

He went to the cave-dwelling in fear and trepidation. But, before getting closer to the place, he froze and stared at the scene in front of him with shock...

The protective boundary barrier surrounding the cave-dwelling was broken. In front, a handsome man in white that looked like a banished immortal was dealing with three poison envoys.

He was jolted by the fact that the man was able to handle three poison envoys with ease. What's more, there was already a poison envoy lying dead on the ground. Those three poison envoys together could not even touch the man's sleeve, but after a few moves, another poison envoy met violent death by a blow of his sword!

After seeing the poison envoy collapse as well as the two remaining poison envoys stepped back with fear, he hesitated a bit.

Should he go? In this situation, going there would mean death. So, it would be better to put it off until later based on the situation.

Thus, after making up his mind, the wounded poison envoy watched from the shadows.

"Who are you! What grudges do you have with our Five Poison Sect? You even meddle in our business with the Heavenly Pill Tower!" One of the poison envoys shouted harshly and glared viciously at that banished-immortal-like man.

Mo Chen rested a hand behind his back and used the other to point with his sword. He looked at the two men calmly and answered with a gentle voice. "I have no grudge against you, but you've provoked the person you shouldn't offend."

"The person we shouldn't offend? Do you mean the Heavenly Pill Tower's Ghost Doctor Feng Jiu? Or the Black Market's Master?" That poison envoy asked with a frown.

Mo Chen's lips curved up slightly. "You are all going to die. What's the use of asking so much?" With this answer, the white figure swept out instantly. A mighty pressure suddenly pervaded and the two poison envoys were struck by this sudden pressure. Their bodies stiffened and were unable to budge. It was in this short moment that they lost their lives.

"Bang!"

The two figures stared wide in horror and fell straight down. They were the great Immortal Sacred Strong Exponents. Unexpectedly, they would be petrified by their opponent's pressure. It only showed that this person's strength was much greater than them!

The poison envoy who watched surreptitiously from a few hundred meters away watched the two figures fall and couldn't help cover his mouth and looked at that banished-immortal-like man in horror. When that man in white glanced towards him, he could only shudder and then ran for his life quickly while enduring the wounds on his body forcibly.

How terrible! How terrifying! With that kind of strength, who would dare to fight?

Mo Chen saw that fleeing poison envoy but didn't chase the man. In his opinion, those few were nothing to be afraid of. It didn't matter if they escaped. Now, he'd better go in and see if Feng Jiu needed his help.

So, in order to prevent the poison guards from coming in, he stretched out his hand to set up the boundary barrier and then walked inside. When he went in, unexpectedly there were two corpses on the ground.

He looked inside and there was no sign of Feng Jiu, so he continued to walk farther inside. He knew that her strength was enough to deal with these people but he was a little worried about her dealing with the Five Poison Sect's master.

Inside, Feng Jiu pushed open the last door and saw a figure sitting cross-legged inside the cave. That man also opened his hostile-filled eyes as soon as Feng Jiu opened the door and swept his gaze over her.

"Ghost Doctor Feng Jiu!"

With certainty in his vicious voice, he stared at her cruelly.

Chapter 2198: Immortal Venerable Rank

The person who arrived was dressed in red with her aura restrained, but still exuded an air of indolence and elegance. Her stunning look exactly matched the portrait of Ghost Doctor Feng Jiu that his subordinate showed him!

This person was indeed Ghost Doctor Feng Jiu! Even he didn't expect that she would dare to sneak in here!

With a stretch of her hand, Blue Edge suddenly materialized with its tip pointing to the ground. She stared at the Five Poison Sect's master whose whole body was enveloped with swarming black air and then smiled. "It seems that I came at the right time."

As soon as she said this, her red figure swept forward. With a flourish of her sleeves, she thrust the Blue Edge sword at a lightning speed towards the man sitting crossed-legged. Before the tip of the sword touched the Five Poison Sect's master, the sword potent had attacked first. The stream of air was visible to naked eyes, very terrifying and filled with killing intent. However, the sword intent was blocked by the black air. The blue and the black airflows entangled together. When a loud bang was heard, the airflows dissolved and vanished into thin air.

As the two airflows dispersed and vanished, Feng Jiu thrust Blue Edge forward. The sitting cross-legged Five Poison Sect's master raised his hands and a black whirlwind twisted on his hands. He quickly clamped the tip of Feng Jiu's sword with both hands and blocked Blue Edge forcibly.

Feng Jiu wanted to thrust Blue Edge an inch forward but it couldn't budge even a little. On the contrary, two forces repelling each other from Feng Jiu's strength and the Five Poison Sect's master's obstruction made Blue Edge bend.

Her hand that held the sword shook. It was such a powerful strength that she had no way to pull the sword back. She had both the Immortal Sacred's strength as well as the Mystical Martial Divine cultivation that she obtained long ago, but the opponent's strength was superior to her. He was an Immortal Venerable!

What's more, he was an Immortal Venerable at the peak stage. It was a difference of one full stage with her. He won her in both strength and power so she couldn't get the upper hand at all.

Then, his hands that were enveloped by the swirling whirlwind slowly moved in circles. In the next moment, the whirlwind turned even more powerful and came to strike her with a loud bang.

"Ugh!"

She groaned and fell back a few meters before steadying herself. She felt blood rush up her chest as the next moment, she tasted some blood vomited a mouthful of blood

She wiped the blood from the corners of her mouth and stared at the Five Poison Sect's Master with a slight frown. Sure enough, she shouldn't underestimate Immortal Venerable Peak strength!

Just a blow could make her internal blood and vital breath surge. No wonder that Black Uncle would suffer in the hands of the Five Poison Sect's master and end up nearly losing his life.

This man was not only powerful but also had poison from his head to toe. It seemed that she didn't get rid of him today, he would become a great disaster in the future!

"A mere Immortal Sacred wants to fight hand to hand with me? Huh! Feng Jiu, you have no small courage!"

The Five Poison Sect's master who still sat cross-legged stared at Feng Jiu with vicious eyes. As he spoke, he flicked his sleeves and then stood up. At the beginning of the fight, he had the upper hand without any loss. However, his cultivation was interrupted in the middle, turning the evil aura to surge and the toxic air around his body boiled over.

The black whirlwind gushed out of his body along with his breath and filled the cave-dwelling. Had it not been for Feng Jiu's body that was immune from all kinds of poisons, she wouldn't even have the chance to fight.

However, seeing the breath surrounding his body, his poison skill cultivation must have failed. If not, with his strength, he could have slapped her to death!

Chapter 2199: A formidable opponent

Feng Jiu immediately mobilized the flow of vital energy inside her body, changed her pace and took Blue Edge to attack again. The Five Poison Sect's master flicked his sleeves and faced her directly. He didn't have a weapon in his hand and used his sleeves and palm as the blade. As soon as he flicked his sleeves, a strong airflow blocked Feng Jiu's sword and then he struck her with his palm.

"Whoosh!"

A gust of air came out with a whoosh, followed by the black gas that suddenly attacked Feng Jiu. She quickly turned sideways and saw that the air swept past her, hit the wall behind her and melted the stone wall into a cavern.

Seeing this scene, her heart sank and her face turned grim as she stared at him. What a powerful poison skill! Not only was he covered with poison gas, but the airflow also carried poison. If she was struck, she might lose her life.

"Feng Jiu, you have a good life, but now you're taking risks to do something harmful! Let's see how you can keep your life today!" His gloomy voice rang out. With hostile eyes, he stared at the dazzling and beautiful woman dressed in red in front of her and suddenly smiled strangely.

"No, it's a pity to kill you. Such a beautiful woman like you, if you entertain me in bed, how fascinating it is."

Feng Jiu's eyes were cold when she heard this. With a chill in her eyes, she stared at the Five Poison Sect's master with a sneer. "In your dreams!"

Her speed accelerated in an instant. Her footwork was ethereal and strange. She turned Blue Edge in her hand and transferred her spirit energy from her palm. With a whoosh, a flame scuttled from the blade. The scarlet flame and the blue sword intent fused into one.

"Whoosh!"

The sword, together with the sword intent swept out with the flames. A fierce airflow, shaped like a fire dragon, surged up violently. It pounced directly forward like a ferocious tiger and rushed towards the Five Poison Sect's master at lightning speed.

"Hiss!"

That strike came too fast. It broke through his defense and directly attacked the fatal point of his body. At that moment, in order to avoid the fatal point, he roused the airflow in both hands, trying to clamp the attacking sword. But, unexpectedly, before getting closer, the Blue Edge's sword intent made his hands shake and the flame on the tip of the sword scorched them. When he staggered back, the sword stabbed into his shoulder. The cold sword intent as well as the blistering flame spread from the wound to his whole body in an instant. The pain made him gasp.

"Aah!"

Enduring the sharp pain from the ice and fire, he struck his palm forward and shot out a blast of poison gas. In order to avoid that hand, Feng Jiu rotated the sword to dig a hole in his shoulder and then pulled it out.

"Damn it!"

He cursed. The warm and moist sensation in his shoulder made him realize without even looking that his blood gushed out. He immediately raised his hand and touched the surrounding acupoints to stop bleeding. Due to his injury, his evil aura scattered out, and the black figure turned into black smoke and rushed up to Feng Jiu.

She only sensed the black smoke in front of her, but the figure of the Five Poison Sect's master was nowhere to be found. It was at this moment that she suddenly felt a cold and sinister killing intent enveloping her, but at that moment, she could not even tell where the killing intent came from.

"Look out!"

A voice cautioned her. It was Mo Chen's voice that came into her ears. Immediately after that, someone grabbed her waist. After a brief moment, her body moved away from that spot. When she regained her feet and had a look, a black figure inside the black smoke darted towards the exterior and the white-dressed Mo Chen was hugging her.

"Are you alright?" Mo Chen let go of the arm holding her waist. He swept a glance at her to check if she had any injuries.

Chapter 2200: Fury

"I'm fine." She shook her head. "That Five Poison Sect's master escaped. Let's chase him!" With this, she rushed out quickly.

After seeing that she was alright, Mo Chen took a look inside the cave-dwelling and then he also went out to give chase.

On the way out, the Five Poison Sect's master saw that those poison envoys guarding the cave were all killed one after another. When he came out of the cave, he even saw fire soaring up to the sky burning, burning most of the valley. Far away, he also heard the sound of battle.

Seeing this scene, the blood and vital energy inside his body boiled over. He clenched his hands into tight fists, raised his head and roared furiously. "Feng Jiu!"

An insignificant woman dared to be his enemy! An insignificant woman! She destroyed his Poison Valley and killed so many of his poison envoys! With hatred brewing in his heart, he didn't flee again. Instead, he turned around and stared at the entrance of the cave.

How dare she kill his poison envoys! How dare she destroy his Poison Valley! He must make her life a living hell!

When Feng Jiu and Mo Chen came out, they saw him standing there staring at them sullenly. Mo Chen's eyes moved at the sight and examined him secretly. Seeing this man's body was full of strong evil aura and bursting with killing intent, he couldn't help pulling Feng Jiu back.

"Don't be impulsive, you're not his match."

While speaking slowly, he pulled her back. "His strength is at the Immortal Venerable Peak and unlike his underlings, he has rich combat experience. You must not be careless."

"If this person is not eliminated, he will become a great disaster!"

Feng Jiu frowned, staring at the Five Poison Sect's master in front of her. She told Mo Chen, "It's really difficult for me to win against him. His poison skill is very powerful. Even the stone wall can dissolve and rot away. If we get hit, the consequences will be unimaginable. To kill him on the spot, the only way is to work together to have a chance to win."

When the two of them were whispering, the Five Poison Sect's master glanced over Feng Jiu and his gaze fell on the white-dressed and immortal-like Mo Chen. He squinted and asked, "Who are you?"

"I am Sage Tianji's disciple, Mo Chen." He answered, looking at the sect master calmly.

The Five Poison Sect's master sneered when he heard this reply. "I never have any grudges with Sage Tianji. As his disciple, what business do you have meddling in my affairs? Did you see that Feng Jiu's face is so beautiful that you wanted to win the beauty's smile?"

Mo Chen smiled and walked over at an unhurried pace. "I have heard that Five Poison Sect's master had an unequalled poison skill. Today, I would like to see if you're really as powerful as the hearsay." As he spoke, his figure moved in a flash towards the sect master.

Feng Jiu stood by and watched. Seeing the aura around Mo Chen's body was that of the Immortal Venerable Peak, she was astonished. He always concealed his strength so that she thought him not very powerful. But, who would have thought that his strength was already at the Immortal Venerable Peak?

Many cultivators only reached this level after they had cultivated for over 100 years or even several hundred years. Yet, such a young man as him had already possessed the strength that defied nature.

Saying that her strength was already an anomaly, she thought instead that the people close to her were the ones who possessed this nature-defying strength. After all, she had the strength she had today, not only thanks to her mystical spirit body but also the assistance of medicinal pills. They, however, proceeded steadily step by step until they advanced in strength.

While she was still in shock, two figures, one black and the other in white were fighting fiercely.. Because of their battle, the Five Poison Sect's master's poisonous energy pervaded the air and the surrounding weeds quickly withered.
