

Ghost Doctor 2301

Chapter 2301: Who Are You?

Therefore, under the Devilry Immortal Venerable Cultivator's order, the cultivators in the city dispersed quickly. Some went and opened the Great City Defence Formation, some of them had gone to close the city gate, while others had gone up to the tower to see what the situation was.

Those who had gone up to the tower only saw a sandstorm blowing from a distance, but they weren't able to see what was in the sandstorm clearly. All they knew for certain was that there was something blowing straight to Black Mountain City, and it had gathered a cloud of dust from the ground with it.

At the same time, there was another similar cloud of dust and sand that rolled towards them, and on the other side, the roar of beasts could be heard.

The Devilry Immortal Venerable Cultivator who had also come to the top of the tower stared sullenly at the clouds of dust and sand that rolled towards them. His Immortal Venerable spirit intent swept outwards and his voice couldn't help but was somber: "Is it human?"

He swept to the other side and his spirit intent swept out. He saw a middle-aged man's figure in the middle of the cloud of sandstorm, then his gaze swept behind the two people, and his face changed slightly involuntarily.

"Damn it!"

The sinister breath radiated from him in an instant and his hand that was originally behind his back held the stone pillar of the tower. He stared sullenly at the large cloud of dust that surged behind him and saw that within each cloud of dust were a hundred beasts running at great speed. What was incredible was that those beasts were all higher grade beasts, and amongst them were actually two sacred ferocious beasts!

The Great City Defence Formation opened up at this moment and a powerful spirit energy that was visible to the naked eye protected the entire Black City Mountain in an instant. When he saw that the formation had been activated, the Immortal Venerable breathed a sigh of relief secretly and stared surly at the two people who were coming over.

"Hmph! Ignorant things!"

He wanted to see how those two people would be torn into pieces by the hundreds of beasts when there was no way forward!

"Master!"

Gu Xiang sped up and caught up with Feng Jiu and shouted: "Master, the Black City Mountain has activated their Great City Defence Formation. What shall we do?"

Feng Jiu squinted at the Immortal Venerable at the top of the tower and revealed a strange smile: "I can break through the formations and barriers set up by the Four Immortal Emperors, why wouldn't I be able to break through this small mountain defence formation?"

Upon hearing this, Gu Xiang was overjoyed and asked hurriedly: "Master, do you need me to transfer my spirit energy?"

"No need."

Her body swept and her breath converged, she stopped just before she reached the city gate. She raised her eyes and looked at the devilry cultivator on the top of the tower and revealed a strange all knowing smile.

When he saw the strange smile on the lips of the youth in azure robes down below, the brows of the Devilry Immortal Venerable Cultivator wrinkled and his heart felt uneasy. Hence, his voice that contained the coercion of his Immortal Venerable strength with a trace of sinister murderous intent spread from the tower to Feng Jiu down below.

"Who are you? Why are you here?"

He had used the pressure of his Immortal Venerable coercion. Had it been an ordinary cultivator, he wouldn't have been able to stand still under his coercion. However, he couldn't help but was startled when he saw that the youth in azure robes didn't fear his coercion. What was this person's cultivation? Why was he not afraid of his Immortal Venerable coercion?

Feng Jiu ignored the devilry cultivator on top of the tower and stared at the Great City Defence Formation instead.. A complicated signet was formed in her hands, and when her hands turned, a breath of profound energy surged between her hands.

Chapter 2302: Destroyed

"Master, Master, this person wants to break our Great City Defence Formation!" A devilry cultivator saw through Feng Jiu's intentions below and was startled, even his voice stuttered.

"Break the formation? Hmph! That would depend if he can actually break it!" The Immortal Venerable snorted coldly. Although his mouth was pursed disapprovingly, his sinister gaze was staring closely at Feng Jiu down below.

This person was strange, did he really think that he could break the formation? This person really didn't know his limits.

At that moment, a loud bang was heard, followed by cries of exclamations from the surrounding area. The expressions on the cultivators' faces changed drastically: "No! He, he broke the Great City Defence Formation!"

The people on the tower were in chaos. They saw a burst of flame that surged suddenly from below and had burst out and covered the spirit energy that was visible to the naked eye. They didn't know what had happened, all they heard was a loud bang, and the Great City Defence Formation was broken just like that...

"Gu Xiang!"

“Yes!” Gu Xiang’s eyes were filled with excitement as he stepped forward quickly.

“Break open the city gate!” Feng Jiu commanded in a calm voice.

“Yes!” Gu Xiang’s body surged with spirit energy immediately, and a sharp sword appeared in his hand. His spirit energy permeated upwards and whistled loudly as it became much bigger. He screamed and rushed forward with his sharp sword in his hand. The city gate made a loud noise and the entire city gate was destroyed instantly...

Feng Jiu looked back at the fierce beasts who were about a hundred metres away from her, and then at the terrified devilry cultivators on top of the tower. In the next instant, she flew through the city gate and uttered in a low voice: “Go according to the plan!”

The people on top of the tower were stunned and didn’t react for a long time. When they saw more than two hundred beasts approaching the city below, they came out of their daze one by one: “Quick! Stop it!”

“Those two people! Kill them!”

Angry voices sounded in the city, and immediately afterwards, two hundred beasts rushed through the city gate. As the fierce beasts rushed through the city gate, they bit anyone they saw. The roar of the beasts, the cries of exclamations, the sounds of fighting, sounded messily within the city...

At this moment, Feng Jiu rose in the air and sprinkled liquid medicine at the devilry cultivators down below. At the same time, she sprinkled medicated powder into the breeze with her fingers.

“Damn it!”

When he saw Feng Jiu’s actions, the Devilry Immortal Venerable Cultivator formed a protective barrier around himself. His bloodthirsty eyes stared at Feng Jiu tightly: “How dare you destroy my tower! I want you to die without a burial place!”

The coercion of the Immortal Venerable spread out with bloodthirsty murderous aura at this moment. Upon seeing the chaos below, he no longer cared whether his subordinates below were able to withstand his coercion. At this moment, there was only one thought in his head, that was to bring down the youth in azure robes who had come from god knows where!

Feng Jiu threw the medicine bottle down and sprinkled something on her body at the same time. As soon as her hand had moved, the Red Armillary Sash appeared in her hand entwined with the profound energy aura and formed a sharp knife.

“It is time for your tower to change ownership!”

The cold arrogant voice came out of her mouth and the profound energy in her body permeated through the air as she readied to fight the Devilry Immortal Venerable Cultivator. At the same time, she took the opportunity to see if she was able to break through the seal on her spirit energy.

“Hahahaha! Arrogant child! Overconfident!”

A sinister voice came out and in the next moment, the figure of the Devilry Immortal Venerable Cultivator glided out light lightning towards Feng Jiu at an extremely fast speed with a force of destruction...

Chapter 2303: Tired Of Living

The overwhelming killing intent came with an aura of destruction, the coercion and airflow of the Immortal Venerable was as fierce and powerful as a knife. She was unable to see the movement of his figure and only saw the sudden moment when the airflow struck. In an instant, the black shadow appeared in front of her.

Both hands were stretched out suddenly and clasped around her throat. She tied the hands with the Red Armillary Sash in her hand immediately, and the figure retreated at the same time. However, her opponent's legs kicked towards her with the sword wind. The speed it came at was so fast that she was almost unable to handle it.

"Boom!"

"Swish!"

The two of them fought in midair while below, the fierce beasts fought against the devilry cultivators. The sounds of roars and battles continued. Screams and shrill cries could be heard from time to time, and the entire Black Mountain City was in chaos.

Outside of Black Mountain City, some cultivators who had followed the beasts in flying swords to investigate gasped involuntarily when they saw the scene at Black Mountain City in midair.

"Hiss! That youth is really tired of living!"

A cultivator exclaimed when he recognised the youth in azure robes as the one who they were unable to figure out. At this moment, when they saw from a distance that he was actually fighting against the Black Mountain City Master, they were even more shocked.

The Black Mountain City Master was an Immortal Venerable strong exponent, it seemed that the youth's strength was really strong if he was actually able to fight against him. It was no wonder that when those two devilry cultivators had asked him to go into the Fierce Beast Forest with them back then, he was the only one who had returned in the end.

When they saw the youth fighting against the Immortal Venerable stage Black City Mountain Master, they finally knew why he was able to kill four or five devilry cultivators by himself.

In the city, several devilry cultivators chased after Gu Xiang. Gu Xiang fought them and used the fierce beasts to avoid their joint attack against him. Even so, he also suffered many injuries.

However, just when a cultivator was about to attack him from behind, it was dragged down by a fierce beast that had rushed up suddenly and tore him to pieces.

The strong smell of blood permeated through the city, broken limbs were scattered all over the place, some belonged to fierce beasts while some belonged to devilry cultivators. All that could be seen was a dazzling red scene.

In midair, after a long battle but having failed to kill the youth in azure robes, the Devilry Immortal Venerable Cultivator couldn't help but look at him. A puzzled sinister voice came out of his mouth: "You are just a Mystical Power cultivator, how can you be undefeated in a long battle?"

Feng Jiu's hand was wrapped around her Red Armillary Sash. She stared at him and said: "Aren't you only using fifty percent of your strength against me? You want to kill me with only fifty percent of your strength? You think too little of me." As soon as she had spoken, the Red Armillary Sash in her hand flew out and swished through the air. This time she turned the tables on him and attacked instead of defending.

Upon hearing this, the devilry cultivator squinted his eyes: "Very well! Then I shall see what you're made of!" The spirit energy in his body burst out in an instant, his five fingers formed claws in the air. An airflow surged from his claws as it flew out in an instant with a whistling sound.

Feng Jiu blocked his attack with her Red Armillary Sash but saw that the profound energy from the Red Armillary Sash had been knocked away. The Red Armillary Sash which had originally been fierce and sharp as a sword had softened instantly and returned to her hand limply.

At this moment, the other party's figure flashed past and slammed into her ruthlessly. She was unable to retreat in time and was knocked by the powerful airflow that surged from the devilry cultivator's body. The impact was so great that she wasn't able to stabilise her body even though she had wanted to.

Chapter 2304: Outwitted

"Boom!"

"Ughh!"

With a loud bang, she was knocked away and she let out a muffled groan. The blood in her body had rushed straight up to her throat and a trace of blood oozed out of her mouth as she tasted the saltiness of blood in her mouth.

Her body was in pain from being knocked, and the wounds that were inflicted on her body from the airflow made her eyebrows twist slightly. After she had stabilised her body, she raised her hand to wipe the blood from the corner of her mouth, then she heard the voice of the devilry cultivator.

"Kid, I shall show you how powerful I am!"

As soon as the devilry cultivator had spoken, his figure dispersed instantly and turned into two figures. They surrounded Feng Jiu and attacked at the same time.

They had the same moves and same breath, each had the strength of one person, it was impossible to differentiate which one was the fake. Which one of them was real? Feng Jiu was caught by surprise and struck with a palm of one of them and she spurted out a mouthful of blood.

Down below, when Gu Xiang saw this, he couldn't help but exclaim: "Master!"

Feng Jiu glanced down below and when she saw his injuries, she said: "Take care of yourself!"

As soon as she had spoken, she felt the strike of a powerful airflow once again. The overwhelming murderous intent surged and the airflow from the other party turned into a rope at an unpredictable speed and bound her tightly so she was unable to move.

“Hahahaha! How about that kid?”

His arrogant laughter sounded and the devilry cultivator squinted at Feng Jiu and asked. Upon seeing that he had been bound by his spiritual rope, he wasn't in a rush to make another move. Instead, he stopped and looked at the youth like he was a lamb about to be slaughtered.

Feng Jiu's eyes flickered and she glanced at her surroundings. Her whole body had been enveloped by the Devilry Immortal Venerable Cultivator's coercion and an airflow that was visible to the naked eye.

She lowered her head and saw a halo-like spiritual rope that had been formed by spiritual energy. It was tightening as if it was about to crush her bones.

She tried, but she was unable to break free. She was able to avoid his attacks earlier, but yet she was now outwitted and tied up. When she thought of what could happen next, she sighed inexplicably in her heart.

She had been constantly looking for an opportunity to break through the seal on her spirit energy in her body, and yet, when she was faced with a life and death situation, she was not able to break through the seal.

The opportunity at the moment was perfect, but it wasn't up to her whether she could stimulate her potential. Instead, in the face of the threat of death, her body's function could explode at any moment.

It seemed that she had to suffer a little.

“How about it kid? Aren't you very capable? How did you get caught so easily?” The devilry cultivator raised his hand and blade slashed towards Feng Jiu. A blood stain appeared on her abdomen after the knife had slashed her.

Sss! It hurts!

She caught a breath in her heart. Although the cut was not deep, it had really hurt. How long had it been since she had suffered an injury? She was really suffering.

“Relax, I won't take your life with one cut. You ruined my city and caused heavy losses to my subordinates. I will make sure you suffer under my methods!”

As he spoke, his hand raised and several ariflows flew out. In a short while, Feng Jiu had wounds all over her body.

“Sss! Ah!”

She was unable to stop crying out in pain.. The profound energy aura in her body was also gradually fading. The blood that oozed from her body made her face turn pale...

Chapter 2305: Break Through The Seal

She felt the surging of the dantian in her body and her eyes flashed.

The airflow of her profound energy seemed to be fading, but an airflow was forming gradually in the dantian in her body. It was the airflow formed by profound energy and had entered the primal chaos blue lotus which was gradually expanding. It was creeping slowly towards the seal that had sealed her spirit energy and was trying to break through the seal slowly a little by little.

“Can you feel the pain now? This is not enough. You have angered me and I want you to taste the pain of being skinned alive!”

The devilry cultivator’s sinister voice came out, and with a move of his hands, he merged with the surrounding airflow that was enveloped around Feng Jiu. The airflow roared and flung across Feng Jiu’s body as sharp as a knife.

“Ah!”

Feng Jiu’s head raised and she yelled. As she suffered the intense pain of countless blades that struck her body, she suddenly felt the strength of her whole body rushing towards the seal. Her spirit energy that had been sealed gushed out suddenly at this moment like a bank that had been flooded.

“Boom! Bang!”

A powerful airflow swayed in the air suddenly and the coercion of the Ancient Sacred Beast was released at this moment. The airflow that was visible to the naked eye surged like a sea’s waves and slapped at the surroundings. The powerful impact broke free of the devilry cultivator’s breath that had bound her body instantly and her body flew up in the air as a result of breaking free.

Her azure robe was stained with blood and her body was covered in wounds. However, at this moment, her peak stage Immortal Sacred strength merged with the coercion of the Ancient Sacred Beast and formed a powerful and intriguing aura.

Feng Jiu lowered her head and glanced at her azure robe that had been slashed by the wind blade and her eyes moved slightly. She tore off her azure robe and threw it down. At the same time, she took out a dazzling red dress from space and put it on and concealed the wounds and blood on her whole body.

However, that dazzling red dress made her look even more outstanding, especially the strong aura that exuded from her eyebrows. It was fierce and tough, confident and wanton.

“Thanks to you, otherwise, I really don’t know when this seal will be broken.” Her lips opened lightly and she spoke unhurriedly, however, her voice drifted into the devilry cultivator’s ear clearly.

The Devilry Immortal Venerable Cultivator felt his heart shake when he watched the youth who seemed to have changed. He looked at him with his eyes widened. The opponent’s Ancient Sacred Beast aura was so clear and powerful, his contract beast must be an Ancient Sacred Beast!

In their previous fight, he felt that the youth was arrogant and wanton. However, now, his aura had suddenly changed and he suddenly became extremely aggressive. His domineering arrogance diffused from him down from the sky and he couldn’t help but was shocked in his heart.

A mere youth had such an aura. Who was this person? Why had he come to such a place?

Needless to say, the sudden change in the youth in front of him had an extremely powerful impact on him. He had thought that the other party was bound to die, but who knew that he possessed a Mystical Spirit-Gathering Body!

Previously he had only used profound energy to fight against him, but now that his spirit energy had been released, the dominating boldness in him had inexplicably shocked him...

“Mystical Spirit-Gathering Body!”

He stared at him, the excitement in his eyes was like that of finding a prey: “I didn’t expect that I would encounter a Mystical Spirit-Gathering Body in such a place. You are fortunate that I didn’t kill you with a single knife earlier, otherwise it would be such a pity.”

Feng Jiu curled her lips and smiled: “I think you will regret very soon for not killing me just now!”

Chapter 2306: Death In A Beast’s Mouth

When he saw a smile had appeared on the youth’s mouth, the Devilry Immortal Venerable Cultivator was slightly surprised. The youth actually looked a little undistinguishable after he put on the red clothes. Though he was a man, his eyes had an evil charm, it was very strange.

However, just as he was momentarily in thought, the other party appeared in front of him in an instant. Though he had dodged aside quickly, he was still cut by the red silk that contained swift airflow.

“Sss!”

He breathed a sigh of relief and blocked quickly only to discover that the youth’s attacking style had changed. It had become more swift and fierce than before, and more difficult to deal with.

“Ah!”

When the red silk cut him, it was like a sharp blade that had cut a hole in his shoulder. Blood rushed out and caused his figure to sway. However, before he was able to steady his feet, the youth inched over relentlessly step by step. Each move was a killer move, moreover, the opponent’s coercion and imposing manner overwhelmed him so much that in a few breaths, his body was covered in wounds and his breath was unstable.

The red silk in her hand struck out again and wrapped around the devilry cultivator’s feet and pulled him. At the same time his whole body fell backwards, a flame condensed in her other hand and rushed out at the devilry cultivator with a whirr.

“Ah...”

A cry of exclamation sounded as the flames engulfed his body quickly. He tried to get out of the Red Armillary Sash’s grip, and at the same time, he also tried to extinguish the flames on his body. However, Feng Jiu didn’t give him that chance to breathe and attacked again. The dagger in her hand reflected a piercing cold light from the sun, and in the next instant, that sharp dagger pierced towards the devilry cultivator.

“Umph!”

The flames that burned on his body had him confused, so when Feng Jiu had leaned in with her dagger to stab him, he hadn't reacted in time to avoid it.

He watched Feng Jiu stab his dantian from behind, and at the same time, a flame rushed into the wound and burned the wound instantly...

“Sss! Ah...”

The sounds of his gasp as he tried to stifle his scream sounded. His body struggled in midair as he tried to pounce onto Feng Jiu. However, his body was surrounded by flames, and his dantian was destroyed, hence he was unable to get close to Feng Jiu at all.

Feng Jiu glanced at the devilry cultivator, and with the Red Armillary Sash in her hand, she threw it around his neck and flung him towards one of the Sacred Beasts.

“Reward for you!”

She shouted in a clear voice as she threw the devilry cultivator's body down. One of the Sacred Beasts down below who was in the midst of fighting roared immediately and leaped up at once with its mouth wide open and bit into the devilry cultivator with its sharp teeth who was trying to escape. With a crunch, it had swallowed his inner alchemy into his stomach.

“Ah...”

In an instant, the screams in midair had spread out, the voice went from high to low, until at the end when it gradually disappeared into the disarray of noise...

As for the devilry cultivators who were fighting with the ferocious beasts down below, when they saw this scene, they were so frightened that their legs weakened and they exclaimed: “ My Lord!”

Their Lord! The Immortal Venerable strong exponent, was actually killed like this? How, how was this possible?

Even though they didn't want to believe it, the scene that had just happened in front of them was bloody and horrified them. Their fear took hold of their whole body and mind, and they were no longer able to fight the ferocious beasts that were all over the city...

Chapter 2307: Change Of Ownership

In the next moment, some of the people in the city who still had the energy to flee for their lives fled outside the city gate, and some who were too weak were devoured and torn to death by the ferocious beasts...

If one looked down at Black Mountain City from a high place, it was a field of blood. Feng Jiu looked down and when she saw that there were no living cultivators left and the ferocious beasts were still violent, she took out the medicine that she had prepared earlier and sprinkled it down. At the same time, Gu Xiang had also recovered and took out the medicine and sprinkled it down from the air...

The people who had travelled to the city on flying swords outside the city watched the scene unfold and were dumbfounded. Had they not seen it with their own eyes, they wouldn't have believed it. That youth had actually destroyed the Black Mountain City Lord just like that, the devilry cultivator who had reached the level of Immortal Venerable was actually defeated by a youth who had a Mystical Spirit-Gathering Body!

The Mystical Spirit-Gathering Body was a Mystical Energy Cultivator, no matter where he was, it would always be one of the best. How did such a character come to such a place?

They were shocked and didn't dare stay in this area for much longer, so they turned and left quickly on their flying swords.

It was too dangerous. Who knew whether they would be silenced if they had carried on watching?

In midair, Feng Jiu caught a glimpse of the cultivators leaving and her eyes moved slightly. It seemed that she had to reorganise Black Mountain City and rearrange the arrays and boundary barriers to prevent others from attacking the city.

The ferocious beasts down below who had been in constant excitement for the past two days and one night lay down in exhaustion at this moment. It was as if their bodies had been emptied of their strength and they didn't even have any strength to stand up.

Feng Jiu looked at Gu Xiang and said: "Check on the ferocious beasts and count how many are still alive, I will rearrange the formation of Black Mountain City first."

"Yes!" Gu Xiang responded and headed down to count up the ferocious beasts.

In the evening, under the new arrangement of Feng Jiu, Black Mountain City's boundary barrier and arrays were mutually integrated and protected the whole of Black Mountain City.

Two Sacred Beasts were chained up by Gu Xiang with black iron shackles, they were each tied to the left and right of the city gate. They were the beasts that were to guard the city gate.

He drove the other ferocious beasts out and collected the dead ferocious beasts, then he piled up the corpses of the dead devilry cultivators and burned them. By the time he had finished cleaning up, it was already the next morning.

Near noon, the Old Clan Leader brought the rest of the people and finally arrived at the front of Black Mountain City. Some people who were hiding had originally wanted to attack them, however, when they saw that there were women and children in their group, and they were protected by Immortal Sacred strong exponents, no one made a move.

"Clan Leader, you are all here!"

Gu Xiang came out and greeted him happily. When he saw that all of them had arrived, he grinned and said: "Master was just talking about all of you this morning. I hadn't expected you all to arrive so soon. We thought it would be at least the evening before you arrived."

"It was very quiet the whole journey here. We didn't encounter any danger or obstructions, that's why we arrived earlier." The Old Clan Leader said. When he saw that the Black City Mountain didn't even have a city gate, he asked: "Is Master alright?"

Back then when Gu Xiang had rushed back and given them some instructions and asked them to hurry over, they were hesitant . On their way here, they had found out that the Black Mountain City had a change of ownership.

“Master is very well! Let’s talk more inside, come!”

As Gu Xiang spoke, he opened up the boundary barrier and led them inside and said: “The city gate was destroyed by me, it hasn’t been replaced yet!”

Chapter 2308: Appearance

Everyone smiled and said: “It’s fine, we will go to the forest later and cut down some trees to make a new gate.”

“Clan Leader Grandpa, will we live here from now on?”

“Clan Leader Grandpa, this place is really big, it’s even bigger than the place we were living at before.”

“Clan Leader Grandpa, this place is so good, can we live here in the future?”

When the children saw their new home, they tugged the sleeves of the Old Clan Leader in joy and looked around curiously. However, as soon as they had entered the city gate, they were shocked by the two Sacred Beasts that appeared suddenly and roared twice.

“Ah!”

The children exclaimed and hid behind the Old Clan Leader.

The other people were also taken aback. However, when they saw that the two ferocious beasts were chained up with black iron shackles, they breathed a sigh of relief. They looked at Gu Xiang surprised and asked: “Why are there two Sacred Beasts chained up here? How did you catch these two beasts?”

“Hahaha, don’t be afraid, they won’t bite you, they are still some distance away from you. Besides, they won’t dare to bite you.” Gu Xiang laughed and said to them: “You don’t know this, Master is an expert at taming beasts. The other ferocious beasts are too low grade for Master to take any interest in them. These two ferocious beasts are Sacred level?Beasts and have been kept by Master to guard the city.”

“I’m telling you, these two ferocious beasts have been tamed by Master. Without Master’s order, they won’t dare to hurt you.” Gu Xiang swaggered in and led them into the city and said to the two Sacred level beasts at the same time: “These are our own people, look clearly and remember them, and don’t hurt them.”

Everyone was shocked when they saw this. Ferocious beasts were generally difficult to tame, let alone Sacred level ferocious beasts? However, when they saw the two ferocious beasts staring at them as they walked past, then walked back and lay on their stomachs, they were speechless.

“It’s incredible...”

When the Old Clan Leader saw this, he smiled gratified: "I knew that it was the right choice to acknowledge Master. With Master around, even if we are not around in the future, our clansmen will definitely live well."

The group of people went inside. After they entered, they saw that it was very spacious inside and there were already well-built houses in the city. However, they saw no one else besides them.

They entered the largest courtyard and came to an inner hall. They saw a youth in red clothes sitting on the main seat, however, his appearance seemed a little different from the person they had seen originally.

"He is..."

The Old Clan Leader looked at Feng Jiu dumbfounded and asked Gu Xiang at the side.

"Oh! Clan Leader, I forgot to tell you all this. Master was originally in disguise, this is his original appearance." Gu Xiang slapped his head as he remembered that he had forgotten to tell them about their Master's appearance.

"I see." The Clan Leader nodded and looked at the youth in red clothes on the main seat carefully. He couldn't help but be startled: "Mystical Spirit-Gathering Body?"

He remembered that their Master was only a Mystical Cultivator, how had he become a Mystical Spirit-Gathering Body?

Feng Jiu smiled when she saw this and said: "That's right. I was originally a Mystical Spirit-Gathering Body, it's just that my spirit energy cultivation base was sealed until now when I broke through the seal and restored my cultivation base.

Upon hearing the familiar voice, the Old Clan Leader came out of his daze quickly and led everyone to bow to Feng Jiu respectfully: "Greetings Master."

"Sit down!" She gestured.

Chapter 2309: Renamed Phoenix City

Everyone sat down in the hall, and the younger ones stared at Feng Jiu who was sitting in the main seat in curiosity. They thought that his face was very good-looking, and even the best looking one amongst them couldn't compare to him.,

"Has everything been fine on your journey here?" Feng Jiu asked, her eyes glanced across everyone.

"We were fine Master, everything was calm along the way and nothing happened."

"That's good." She nodded then said: "Now that you are here, you can all live here from now on! You don't have to live in an underground cave anymore. It's better for your body."

Upon hearing this, everyone smiled cheerfully: "We are so fortunate to have Master, otherwise, we wouldn't even dare imagine that we would be able to live in Black City Mountain with integrity one day."

In the past, it was a problem for them to even survive, they had to hide to protect their clansmen. Now, they had a place like this we can call home, their hearts were filled with joy.

“Master, there are only our people in the Black City Mountain now, I’m afraid that other forces are bound to find out and they will come to seize Black City Mountain.” The Old Clan Leader voiced his concerns.

Feng Jiu who was sitting on the main seat smiled and said: “Black City Mountain will be renamed Phoenix City tomorrow. The plaque has been written and already handed over to Gu Xiang. Later on you just need to hang the plaque above the city gate. Also, stick recruitment announcements on the outside of the city, devilry cultivators and evil cultivators are not welcome, other cultivators will be selected before they can be accepted.”

She paused and then said: “The city is protected by boundary barriers and arrays, I’m not afraid that they will try to break in. However, make arrangements later for two men to stand guard above the city gate to keep track of any movements.”

“Yes, I will make the arrangements later.” The Old Clan Leader said respectfully.

“There is nothing else that needs doing here at the moment. I will be going into seclusion to practice soon, I will leave you to guard this place. If there is any major issue then come to me. If you can handle the situation yourselves, then handle it yourselves. As for the other things, if you have any questions, ask Gu Xiang.”

She stood up and patted her dress, then she said to them: “The houses outside are all empty, you can all pick your house and then have a rest!” As soon as she had spoken, she turned and walked inside.

Everyone responded. After he left, they asked Gu Xiang about the details of the situation. Finally, the Clan Leader and the Elder arranged the settlement of their clansmen.

Two people went to stand guard at the city gate, a small team formed a patrol around the city, a team prepared to go out of the city to chop some wood to make the new city gate, a few women also formed a team and dealt with the ferocious beasts that were still piled up...

Although thirty nine people wasn’t a large number, the division of labour and the cooperation of everyone’s efforts made this empty Phoenix City gradually come together...

On the other side, after Feng Jiu had left instructions, she went into a courtyard at the back. After she entered the bedroom, she closed the door, and in an instant, she entered space and began to practice.

Now that the seal on her spirit energy had been broken, her profound energy was also faintly breaking through. She had also felt that during this period of time when her spirit energy had been sealed, there was a family feeling of a breakthrough. Now that the matters in the city had been resolved, the best thing to do was practice in seclusion.

If she could make a breakthrough in one move, it was definitely a good thing for her. At least, it would be much easier for her to deal with the remaining seven forces in the future.

What's more, she needed to break the boundary barriers and arrays in this place in the future too. It was bound to alarm the Four Immortal Emperors.. If her strength could break through to the level of Immortal Emperor while she was in here, she would have more confidence.

Chapter 2310: News Received

She sat cross-legged and mobilized the profound energy breath and aroused all of the profound energy in her body then returned it to her dantian. She guided the profound energy breath through the veins in her body and expanded every vein gradually...

Outside, the Clan Leader and Elder stood outside the city and looked at the two men who were hanging up the Phoenix City plaque. They nodded to themselves: "Master's words are written very well, the tip of the writing brush is sharp and each character is written in one stroke. It's not like something a twenty something year old would be able to write."

Upon hearing that, the Elder stroked his beard and smiled: "Master is no ordinary person, naturally he cannot be measured against ordinary people."

The Clan Leader nodded: "That's true." He glanced at the recruitment announcement and said: "Let's go in!"

As they walked back inside the city, a few cultivators who were not far away looked at each other then headed towards the city gate in unison. They were very curious as to what they had been busy with for such a long time outside the city.

When they got closer, they saw that the name of the city had been changed to Phoenix City, and pasted on one of the city walls at the side was a recruitment announcement.

As soon as they had read the contents, the expressions of the surrounding cultivators were all different. The devilry and evil cultivators looked sullen and evil spirits rolled in their eyes. Some cultivators revealed happy expressions and their eyes were gleaming.

"It's a recruitment announcement! It seems that what he said the other day was the truth. He really wants to recruit people to form a strong team." A cultivator said excitedly.

The person next to him glanced at him and said: "That person is too unfathomable, we don't even know what his plans are. Who would dare to join his team and become one of his subordinates?"

"No matter what, this is good news. Especially given his strong strength, that's enough."

As that cultivator spoke, the light in his eyes pulsed: "He was able to destroy the original Black Mountain City's Lord and take over his land and become the new City Master. It can be seen that his strength is powerful. Not to mention the scene we witnessed the other day, this person has the Mystical Spirit-Gathering Body!"

"So what if he has the Mystical Spirit-Gathering Body? He won't be able to advance in such a place. How many years has our strength not changed?" A cultivator muttered.

Everyone was silent and said nothing. Indeed, in such a place where advancement was not possible, in this abandoned place, the only thing they could do was wait for death. They were unable to advance further, when their end of life approached, all that would happen was that they would end up dead.

"I don't know about anything else, but if we join them, food will definitely be more than enough." A cultivator licked his lips and said. The light in his eyes pulsed as he looked at the city gate, then a voice that contained spirit energy came out of his mouth with eagerness.

"I want to join Phoenix City and become a member of Phoenix City, let me come in!"

When the two people above the city gate heard the words from below, they looked at each other. One of them shouted down: "If you want to join, wait down there. Master has a rule, once a certain number of people wanting to join has been reached, he will personally select the people who can join. Until then, no one can enter."

Upon hearing this, the people under the city gate were surprised, they hadn't expected it to be this way. As a result, some people left in frustration while others waited below. Those who had decided to wait found a place and sat down cross-legged.

As the days passed, there were many cultivators who came out of curiosity, and there were also cultivators who had rushed here especially. Gradually, a large group of people had gathered outside the Phoenix City gate...

Chapter 2311: Advanced To Bai Xuan

About half a month later, Feng Jiu who was in space opened her eyes and let out a gentle breath.

The profound energy aura on her body had improved in the past half a month, she had finally advanced from a Mystical Power Cultivator to Profound Mystical strong exponent. Even the peak-stage Immortal Sacred level cultivation base that she had reached before had finally advanced again. She had successfully ascended in space and reached Immortal Venerable level.

The breath of the primal chaos blue lotus in her body surged faintly at this time and spread all over her body. She condensed the breath and suppressed the level of Immortal Sacred before she came out of seclusion and out of space.

She pushed open the bedroom door and came out to the courtyard. When she saw no one around, she walked outside.

"Master? Master is out of seclusion?" When a few women saw Feng Jiu had come out, they bowed respectfully and looked at her with a smile.

"Mmm." She responded, then asked: "Has everything in the city been alright during this time?"

"Rest assured Master, everything is fine. It's just that a lot of cultivators have gathered outside the city gate. They have been waiting there ever since the recruitment announcement has been put up. Now that Master is out of seclusion, you can go and take a look." One of the women said.

Upon hearing this, Feng Jiu smiled: "Prepare water for my bath in my bedroom. In addition, prepare some food for me."

"Yes, please sit down and wait for a while Master. We will go and get them ready right away." The few women said and stepped back after they bowed.

As there were wells inside the city, it made things like bathing much easier. Now that they had been living here for half a month, they were familiar with everything here. Once they heard that Master wanted to take a bath, some of them went to fetch water while some went to prepare food...

In front of a stall, when the people heard that Feng Jiu had come out of seclusion, they couldn't help but smile with joy.

"That's great, Master is finally out of seclusion. There will gradually be more people here soon."

"That's right, and our combat strength will also be stronger. Originally I was afraid that other forces would attack us, but I didn't expect that after half a month, things have still been quiet. It seems that they are a little afraid."

"Well, who wouldn't fear Master's powerful strength?"

"There are over a hundred people who have gathered outside the city gate over the past half a month. I wonder how many will be selected by Master?"

"I estimate that there would be at least eighty if not a hundred? The strengths of the cultivators are quite good."

While they discussed, Feng Jiu had her bath and then ate before she came to the city gate. She was wearing a red dress and her face was beautiful and she had an extraordinary aura and respectable bearing. Though she had a beautiful face, no one thought that she was a girl.

No one would have believed that such a person wouldn't be a man. After all, the scene of him killing the Immortal Venerable strong exponent was still vividly clear in their minds. No one would have believed that the imposing manner and fierce breath would have belonged to a girl.

"Master is here!"

The seven and eight year old children shouted with joy and the people above the city gate turned around. When they turned around, they saw a red figure standing between the two Sacred Beasts underneath the city gate.

At that moment, he was patting the head of the ferocious beast as if she was saying something to it.

Except for the two men who were standing guard above the city gate, everyone else came down and bowed respectfully to him: "Master!"

Chapter 2312: Eliminated

"Mmm."

Feng Jiu responded and touched the fur of the beast beside her with one hand. Ferocious beasts of Sacred Beast level didn't dare reveal a trace of its brutal nature under the pressure of her Ancient Beast coercion. Instead, it lay obediently on the ground like a gentle pet beast.

"Bring me a chair, and tell the people outside to come inside in groups of ten." She said to them.

“Yes.” Everyone responded. Some went to move a chair, while others stood guard on both sides, and others went outside the city gate...

When the people who were waiting outside saw someone coming, they surrounded them immediately: “Can we go in now?”

“Is the selection going to start?”

Everyone asked questions all at once and their eyes fell on Gu Xiang’s body in front of them.

Gu Xiang walked through the crowd and saw a man had stood up. It was the person that his Master had wanted to accept the other day. Perhaps he had heard the news and decided to join them after all.

“The first ten people will come in with me, the others will wait here.” Gu Xiang said to the ten people in front of him then led them inside.

The ten people who went inside first couldn’t help but felt a little nervous as they didn’t know what the selection requirements were and how many of them would be left in the end.

“Master, they’re here.” Gu Xiang bowed respectfully then stepped aside and made way for the ten people to step forward.

When the ten people saw the figure in red sitting on the chair and his beautiful face, they couldn’t help but be stunned, some of them even blurted out: “You, aren’t you a woman?”

“What audacity!”

The Old Clan Leader at the side shouted in a deep voice. His gaze fell sharply on the cultivator, his Immortal Sacred coercion covered him and the cultivator’s face paled suddenly. He only felt a pressure on the top of his head that caused his legs to soften and he knelt down on the ground with a plop.

Feng Jiu smiled. She rested her chin on one hand and said: “Raise your head and look at me. Tell me, why do you want to join Phoenix City and become my subordinate?”

When he saw that his Master had spoken, the Old Clan Leader collected his coercion and allowed the man to breathe.

“Because you are very strong, and I know that there aren’t many people in Phoenix City. That’s why I want to join.” He raised his head and looked at the person sitting on the chair and spoke truthfully. However, when he looked at her face and saw that she was clearly dressed in men’s clothing, he wasn’t sure whether this person was a man or a woman.

“Everyone else tell me your reasons too! When you are talking, look at me.” She looked at the remaining nine people idly.

The other nine people didn’t know what she wanted to hear, therefore, there was a wide variety of answers. Gu Xiang was in charge of bringing in the people from outside, group after group...

Amongst the last group of people, there was a man that Feng Jiu had taken a liking to at the beginning. Therefore, she looked at him in interest and asked: “Why do you want to join Phoenix City? Why do you want to become my subordinate?”

“Because yours is the only place that is recruiting cultivators, and there are also women and children here.” The man looked at Feng Jiu and said truthfully.

Feng Jiu nodded and finally stood up. One hundred and sixty five people were split into two groups and they stood on each side of her. There were seventy five people on the left and ninety people on the right.

“The people on the left stay behind, the people on the right can go out!” Feng Jiu motioned for them to be taken out.

However, the ninety people on the right were startled, and some were unwilling to leave: “Why have we been eliminated? I obviously said the same thing as that person!”

Chapter 2313: Just Be Loyal

“Very simple, because you are not agreeable to my eyes, that’s why you’ve been eliminated.” Feng Jiu replied unhurriedly.

Upon hearing this, the cultivators were extremely angry: “That’s it? That’s why you’ve eliminated us? That’s not fair! Some of our strength is even stronger than some of them, so why have you only accepted them and not us?”

They had waited under the city gate for over half a month, and this was the result? They refused to accept it!

Feng Jiu glanced at them when she heard that: “So that means you don’t want to leave?” Her voice was faint and cool, but it inexplicably put a chill in everyone’s heart and they felt a little uneasy.

“If you don’t want to go, that’s fine. You can stay here as practice for them. I want to see their combat effectiveness anyway!” She said unhurriedly and watched the changes in expressions on their faces.

“Hmph! If you don’t want me to stay, there will be somewhere that will accept me! Who wants to stay in your city anyway?” One of the cultivators snorted coldly and walked away after shaking his sleeves.

“That’s right! Let’s go!”

Some people also followed one after another and left, though the expressions on their faces were full of unwillingness and anger.

Gu Xiang followed them till they had gone out of the city gate then he closed the boundary barrier. He went back inside and looked at those people who had remained after they had been selected by his Master.

Actually, Gu Xiang and the others also didn’t understand either. Just as the cultivators had said earlier, some people had answered the same replies, yet some of those who had left were stronger than those who remained.

Even they couldn't figure out why their Master had chosen those people to stay and let so many other people leave. If it had been them, naturally, they would have kept those people behind as well. Those extra fighting power could help compete against other forces.

As she looked at the seventy five people, she stepped forward and came to them. Her voice contained spirit energy with a trace of coercion as it came out of her mouth.

"My requirements for you are very simple. First, you must be loyal. From the moment you entered Phoenix City, you are my people. You have to remember who you are at all times. Don't do anything to betray me, otherwise, I will make your life worse than death."

Her voice paused and her gaze passed over the crowd. She said slowly: "Second, unite as one. I don't want to see any internal conflict. Third, I don't care what you did in the past in order to survive, but from this moment on, if you kill innocent people without my order, you will be punished severely!"

"You have to abide by my rules and act according to my rules if you become my subordinates. I can tell you with certainty that as long as you are loyal to me, I, Feng Jiu will never treat you badly!"

Upon hearing this, everyone was silent for a while, then they knelt on one knee respectfully: "Subordinate pay respects to Master! From this moment on, we will be loyal to Master in this life and never betray! If we violate today's words, we will accept Master's punishment!"

In here, they were unable to make an oath of Heaven and Earth due to the boundary barriers and array. Therefore, everyone could only express their loyalty in this way.

If they were to violate today's words, they would accept their Master's punishment. It also meant that they had handed their lives over to him.

"All get up!"

Feng Jiu waved her hand and watched the seventy five cultivators standing side by side in front of her. They were all standing straight and strong evil permeated their bodies.. Her eyes moved slightly.

Chapter 2314: Codename

Out of the people who had been exiled on this piece of floating land, there were Nascent Soul cultivators and also people whose combat power was by no means comparable to those of the same level on the outside. She was thinking about the uproar she would cause when she eventually broke through the boundary barriers and arrays of this place and brought such a large group of people with strengths above peak-stage Nascent Soul level.

What's more, out of the people who were in front of her now, there were only a few peak-stage Nascent Soul cultivators. There were even more Celestial Strong Exponents and Immortal Sacred Strong Exponents. Those people would definitely be one of the best no matter where they were. Now, they were all her subordinates.

Speaking of which, it was a blessing in disguise that she had come in here. She had gained such a strong team for no reason, and this team didn't stop her. She believed that it wouldn't be long before more people would come to join her team.

“Seventy five of you plus...” She paused and looked at the Gu Family then motioned: “You will also join the team. I will reorganise the team and in the future there will be ten per team.”

“Yes.” Everyone from the Gu Family responded and walked forward one by one and lined up. When the Clan Leader and Elder were about to walk over, they were summoned by Feng Jiu.

“Elder Gu, Elder, you both don’t have to join the team. I will arrange something else for you later.”

“Yes.” The two of them responded and went and stood beside Feng Jiu.

Not counting the women and young children, as well as the youths in the Gu Family, the newly organised group of people was one hundred. Feng Jiu divided them into ten teams of ten.

“You, you, and the few of you, step forward.” Feng Jiu selected one person from each team.

The selected cultivators stepped forward and then stood still.

Feng Jiu glanced at them and then said: “The ten of you will be the Captains of your team and will be responsible for your own team. You will be responsible for the actions and words, as well as the day to day management and rules. I don’t want to know what your name was before. Later on I will ask Elder Gu to issue a number plate to each of you. Once you receive your number plate, that will be your codename in the future.”

“Yes.”

Everyone’s eyes flickered and they responded. They were fine with using codenames, in that way, they didn’t need to mention anything about their past.

“The first team will take the rest around to familiarise them with the place.” Feng Jiu’s gaze fell on the members of the first team, they were all members of the Gu Family.

“Yes.” They responded and then led the others away to get acquainted with the place.

“Elder, go and tell the kitchen to prepare some food. If they are too busy then tell them to go over to help out.” She then turned to the Old Clan Leader beside her and said: “Elder Gu, come with me.”

Everyone left. The newly recruited cultivators couldn’t help but get excited when they looked at their surroundings inside. From now on, this was their home! There was not a single devilry cultivator in here nor did they have to guard against other people in here.

At this moment, no one knew what Feng Jiu’s next step would be. Nor did they know that their newly acknowledged Master would break through the boundary barriers and arrays of this place in the not so distant future and open a new window of opportunities for them...

At the same time, on the other side, on the other mountain peaks in other cities.

A Immortal Venerable devilry cultivator squinted and stared at the devilry cultivator below: “What? Black Mountain City has changed its name to Phoenix City in half a month? He has also recruited a lot of people?”

Chapter 2315: Interested

“Yes Master. However, subordinate heard that the new City Lord of Phoenix City has a strange temper. Some of the people that he had picked are not strong. There’s another matter that has spread among those people.” The devilry cultivator below reported.

“Oh? What is it?” The devilry cultivator sitting in the main seat’s voice raised a pitch higher as he asked.

“I heard from the cultivators who had been eliminated after they went in that Phoenix City’s current City Lord was the beautiful woman in the red dress who appeared some time ago. However, at that time, they saw the woman in men’s clothes so they were a little confused as to whether it was a man or a woman.”

“There is such a thing?”

The light in the devilry cultivator’s eyes flickered like he had just found a prey that piqued his interest: “The beautiful woman in the red dress had only appeared once and then she disappeared. It is possible that she was disguising herself in men’s clothes and concealed herself. It seems that it is most likely her.”

“A woman who can do this is quite impressive.” He touched his chin as if he had thought of something.

When the devilry cultivator below saw this, he fawned: “Master, that woman was born with such a beautiful appearance, and she is so capable. She is a perfect match for someone like Master. If Master makes this woman submit and takes over Phoenix City and her subordinates as well, the power of our Devilry City will be even greater.”

“Hahaha! That’s right! Such a stunning and capable woman would be a great match for myself. It’s just as well that my Devilry City is lacking a mistress!”

The devilry cultivator below had said the words that his Master was thinking. The cheerful and joyful laughter revealed his mood at that moment. With an idea in his head, he waved his hand at his left and right side and said: “Go, get ready! Pick some good treasures for me to send to Phoenix City’s City Lord and tell her my intentions.”

The devilry cultivators who stood on his right and left side responded immediately and stepped back respectfully.

The devilry cultivator on the main seat revealed a look of excitement on his face along with anticipation at this time. He seemed to think that the other party would definitely accept the gifts he had sent to show his intentions.

On the other side, there was another force located at another mountain peak. A middle-aged man was practising martial arts in a field when he saw an old man rushing over in a hurry. Hence, he stopped and let out a breath, then he looked at the person who was walking over quickly.

“Master.” The old man bowed and greeted him.

“Why are you in such a hurry? What happened?” The middle-aged man asked and his gaze containing sensational power fell on the old man.

“Master, there are rumours outside that Black Mountain City has become Phoenix City now and the City Lord is referred to as Phoenix City Lord. He has already recruited one hundred subordinates. The number of people who go to Phoenix City everyday is also increasing. Phoenix City’s power is expanding too quickly and is already a threat to the major forces here. As we are relatively close to Phoenix City, I am afraid that Phoenix City will target us.”

Upon hearing this, the middle-aged man’s eyes flickered and spoke in a deep voice with an imposing manner: “Phoenix City’s City Lord is a strange person. He is apparently only in his twenties but yet has immense capabilities. He is indeed not one to be overlooked.”

His voice paused and he revealed a smile of interest: “Furthermore, his Phoenix City only recruits cultivators, devilry cultivators and evil cultivators cannot enter the city gate.. How interesting.”

Chapter 2316: Everyone’s thoughts

Hearing this, the old man could not help but wipe his sweat and answered, “Master, this isn’t about a boring or interesting thing, because there’s still one thing I haven’t told you about!”

“What else? Tell me everything!” He waved his hand and walked to the table set up on the side of the field.

“Master, weren’t you looking for a beautiful woman in red some time ago? According to those eliminated cultivators, that woman in red is the City Lord of Phoenix City, but she is now disguised as a man.” The old man said hurriedly.

“A woman?”

The middle-aged man was stunned after he heard this report and then laughed. “If it’s a man, he may still be able to accomplish something. But if it’s a woman, the other forces will surely come after learning of this news. That woman won’t be able to keep Phoenix City.”

“Exactly.”

The old man said further. “Reportedly, when that woman fought with the former Black Mountain City’s Lord, she was a cultivator at the Immortal Sacred rank. Although a mystical spirit body, when fighting hand in hand with the Immortal Venerable Strong Exponent, it was difficult to gain the upper hand. What’s more, the leaders of the other forces are at the Immortal Venerable mid-stage, while the former Black Mountain City Lord was only at the Immortal Venerable early stage. This one rank difference is a lot.”

“Plus, she still handpicked people and won’t accept devilry cultivators. Even we don’t pick and choose the way she does. In that way, she not only provoked those forces but also incurred those eliminated cultivators’ grudges. If anyone left Phoenix City, those people would certainly take advantage of the opportunity to vent their anger. ”

“And if so, what’s it to us?” The middle-aged man spoke as he poured some water. “That’s their business. As long as they don’t come to us, we’ll ignore it.”

Since his Master said this, the old man made a salute and withdrew.

The other forces had also found out the news that Phoenix City was now ruled by a woman and started scheming. While paying attention to the movements of other forces, they were looking for an opportunity to explore the real situation of Phoenix City.

That day, Feng Jiu had been looking at the information on several other forces that Elder Gu's subordinates had obtained. After getting a rough idea, she had a solution in her heart. Then, she heard Elder Gu's voice outside.

"Master."

"Come in!" Feng Jiu put the information aside and looked at Elder Gu who came in from outside. Seeing his expression a little strange, she asked, "Is there something?"

"Master, Devilry City sent their people and gave gifts, saying that, saying that..." He didn't know what to say.

"What did they say?" Feng Jiu raised her eyebrows. What kind of thing made him unable to speak?

Elder Gu summoned up his courage and then said, "They said that their Master wanted to be immortal companions with you and become a family."

Hearing this, Feng Jiu's lips curved into a sneer. "They are thick-skinned enough."

Elder Gu hung his head and didn't dare to answer. It took him two days to know that his Master was really a woman. Although he was surprised, since they recognized her as their Master, they would not change their decision again.

What's more, he felt that even if the Master was a woman, she would not be inferior to a man.

"This Devilry City's power is considered rather strong among the remaining seven forces, right? What kind of things are sent here? Have the things been brought in?"

Feng Jiu's mind started moving and thought about these treasures. She was somewhat curious. What kind of treasure can those people take out in a place like this?

After a brief surprise, Elder Gu answered. "Not yet.. They're still waiting outside the city."

Chapter 2317: Saying is one thing, doing is another

Those men were from the Devilry City and they had come up with such a scheme. How could he let them in without his Master's command?

Hearing this, a light flashed in Feng Jiu's eyes. With her lips curved into a smile, she motioned to Elder Gu. "Come over, incline your ear."

Elder Gu went over immediately, bent his body forward and listened to her speaking in a hushed tone. His face was startled to hear her words.

"Is that clear?" Feng Jiu asked with her eyebrows raised.

“Yes, I’ll get ready right away.” Elder Gu answered in a daze. After giving Feng Jiu a glance with a complicated look on his face, he left quickly.

Feng Jiu smiled at Elder Gu’s dumbstruck look, then with a flip of her hand, she took out the wine from the space and had a drink...

Meanwhile, in front of the city gate, Elder Gu arrived at the city gate tower, looked down, and addressed the group of about thirty people outside the gate. “My Master heard that your Lord has sent you here with gifts, so she ordered you to enter the city. You’ve had a tiring journey, so please take a rest and eat some meat inside.”

As he spoke, he raised his hand as a gesture for the boundary barrier and the city gate to be opened. Gu Xiang with his people came to welcome them below. “Please come in, everyone!”

The devilry cultivators who came sending gifts didn’t even think of this scene before. They didn’t expect it to go so smoothly. It seemed that Phoenix City’s City Lord was also interested in their master.

Their master’s strength was one of the best here. Since she was smart, she would naturally know what choice was the best for her. After all, how could she defend Phoenix City as a woman? Could she even protect herself?

Their moods soared instantly. At first, they thought it was a difficult mission, but now it seemed there were still some benefits. As a result, with arrogant smirks on their faces, they strode inside with their heads held high.

But, when they were just stepping inside, two ferocious sacred beasts suddenly appeared and scared them.

“They are the ferocious beasts guarding the gate. Don’t be afraid. Come in with me!” Gu Xiang said, taking them inside.

As soon as they entered, the boundary barrier behind them closed and so did the city gate.

The devilry cultivators didn’t think much of it as only a few cultivators, including an old man, came to meet them. After all, they didn’t even think that the people of Phoenix City would dare to attack them.

It should be known that attacking them would mean slapping their Master in the face and declaring war on their Devilry City!

With their Devilry City’s people numbering several hundred, plus their Master’s Immortal Venerable strength, it would be foolish to attack them.

“These are the treasures our Master asked us to send.” With a wave of his hand, a devilry cultivator in front took out four large chests in the space ring, put them at the front, and he then came over to open them one by one.

Elder Gu took a glance and saw treasures inside, so he waved to his subordinates to carry them away. As soon as the things were taken away, Elder Gu withdrew and yelled at the same time. “People, come! Give them a good greeting!”

A hundred people appeared in an instant, surrounded and attacked the thirty people. With a hundred cultivators against the thirty people, it ended an overwhelming victory without having to wage a battle.

There were screams and exclamations, among the commotion, a devilry cultivator shouted, "How dare you attack us! You're declaring war on our Devilry City! You want to die... Aah..."

Chapter 2318: Killing the chicken to warn the monkey

A figure in red appeared not far behind them without anyone knowing when. She was leaning against a pillar with a wine gourd in her hand, looking nonchalant and somewhat indifferent.

She watched quietly and heard those screams gradually fade away. When the crowd around her dispersed, she saw thirty corpses on the ground.

"Hang them on the city wall, so that those people see it."

Her unhurried voice came from the back. Everyone turned their heads and saw their Master leaning on the pillar drinking some wine. Seeing their Master's indifferent, languid and nonchalant appearance, as well as the chill in her eyes, everyone snapped out of their moods, answered respectfully, and hung the thirty corpses on the city wall.

They have also heard that their master was a woman. However, besides the gorgeous face, they didn't see a woman's frailty and weakness. Instead, her method was even more drastic and fiercer than a man's.

This made it difficult for them to associate their Master with a woman.

"Master, those four chests were already taken to your courtyard."

Elder Gu came and reported. In fact, those treasures were of little use here. They were trapped here and could not leave this place so that many treasures were worthless. To be honest, those chests of treasures were not as useful as the meat of a few ferocious beasts.

"Tell them to be on guard these days in case there's a sneak attack and pay attention when going out." Feng Jiu left after giving this instruction.

In less than two days, the news spread that thirty corpses of devilry cultivators were hung on the wall of Phoenix City. As soon as the news spread, it immediately caused a huge stir.

"How dare the Phoenix City Lord kill the people of Devilry City? She's got a lot of nerve!" The middle-aged man was astonished. It was the first time he ever had this surprise.

"She's got a lot of nerve? It's simply arrogant and reckless."

An old man told the middle-aged man, "Master, Phoenix City's move was really unexpected. I suppose no one thought she dared to kill the people who gave gifts and hang them on the wall as a show of force."

"Hehe, it's more than a show of force. She made an example of them, killing the chicken to warn the monkey." The middle-aged man said with a smile. "The news spread that she is a woman and many

people are eyeing her. It's a declaration to those who have designs on her that it's best to weigh their weight before making her idea."The middle-aged man said with a smile: "the news came that she was a woman, and many people stared at her. Her skill is to tell those who have different ideas about her. It's best to weigh their power before scheming against her."

After a brief pause, a wise and farsighted look flashed in his eyes. "As soon as the news spread, those who have designs on her would probably not dare to act rashly again. I have to say that Phoenix City Lord has some skills."

"That's right, but once Devilry City gets the news, they will attack Phoenix City. The number of people in Devilry City is the highest among several forces. For the team of about a hundred people in Phoenix City, they are simply no match to the Devilry City at all."

"Not necessarily."

The middle-aged man walked slowly with his hands clasped behind his back. "Since she dared to kill those people, she is naturally unafraid of those people in Devilry City. Just watch! We'll know the result soon."

Since his Master said so, the old man didn't say anything. After giving a salute, the old man retreated.

Meanwhile, in Devilry City, the devilry cultivator who was looking forward to the good news was teasing the woman in his arms.. Suddenly, a devilry cultivator hurried in with anger on his face.

Chapter 2319: Attack on Phoenix City

"Master, Master, something's wrong!"

The devilry cultivator shouted. He quickly ran into the hall, knelt down and gave the report. "Master, something grave has occurred. The people of Phoenix City

killed the team we sent and hung them on the wall as a show of force!"

"What!"

The Devil Lord pushed the woman in his arms away and stood up fiercely. With killing intent surging all over his body, he asked in a gloomy voice. "What did you say! Say it again!"

"Master, Phoenix City's Lord killed our people and hung them on Phoenix City's city gate as a show of force. Now, outsiders are laughing at our Devilry City!" That devilry cultivator summoned all his courage and repeated his report.

"How dare she!"

He slapped the table heavily with one hand and the table was smashed into pieces. At this moment, the devilry aura in his body became extremely strong and his killing intent burst out, making the woman who retreated to the side and the devilry cultivator's vital energy and blood were churning and blood spurt from their mouths.

"Master, Master, please spare our lives..."

The mighty pressure and the killing intent made them unable to breathe. The vital energy and blood in their bodies seemed to burst out, so that they had to beg for mercy, trying to calm their Master who flew into a rage.

Seeing that they could not bear his anger and pressure, vomiting out blood, the Devil Lord calmed down and restrained his pressure. But, his killing intent still had not dispersed.

“How dare she kill my people? She’s challenging me openly! Good! I’m going to know if this Phoenix City’s Lord has the confidence to be so arrogant!” His gloomy voice full of killing intent disseminated. With a wave of his hand, he shouted in a deep voice. “Summon everyone for me! I want to destroy Phoenix City and avenge the dead brothers!”

“Yes!” The devilry cultivator withdrew in a hurry, beat the summoning drum and gathered all the people in the city.

As the drum sounded, after a brief surprise, the cultivators throughout the city quickly rushed to the front of the field. When they arrived there, a lot of people had already gathered and the Devil Lord had also stood in front of all the people.

Three to four hundred people quickly lined up. Each one of them looked at the master in front, waiting for his command.

After everyone gathered, the Devil Lord’s voice that contained pressure spread out. “The people in Phoenix City are too arrogant! They killed our devilry cultivators and hung them on the city gate as a show of force. Today, we will avenge our dead brothers! We will wipe them out!”

“Wipe them out!”

“Wipe them out!”

Everyone pointed to the sky with a knife or a sword in hand while shouting loudly. Their fierce battle intent and boldness were soaring.

Seeing this, the Devil Lord showed a satisfied smile, raised his hand and motioned for the people to calm down. “Phoenix City was just established and now it is only a hundred people. Today, only two hundred people need to go with me and the others will guard the city so that other forces won’t know about the attack.”

“Yes!” The crowd of devilry cultivators responded. They all felt that a battle of two hundred people against one hundred would absolutely result in a crushing victory. They would be able to win without having to fight at all.

As a result, the Devil Lord left his left and right assistants with the remaining one hundred people guarding the city. He took two hundred devilry cultivators and headed towards Phoenix City mightily...

The other forces were soon informed of what was happening in the city and all regarded it like watching a good show.

In Phoenix City, Feng Jiu and others made preparations early. They were waiting for the people of the Devilry City to come...

Chapter 2320: What smells so nice?

One night two days later, a troop of devilry cultivators approached Phoenix City quietly. As they gathered in front of the city gate, they saw the corpses hung on the gate and their expressions changed.

The Devil Lord who came out from behind them, especially, clenched his fists tightly and stared at Phoenix City gloomily. He commanded the people around him. "Release the bodies!"

"Yes!" Two teams of devilry cultivators came forward, took down the bodies, put them on a pile on the side, and then burned them down.

"Break the city gate for me! Kill them in one fell swoop!" The Devil Lord commanded them loudly. A team of devilry cultivators soon rushed forward, however, when they came to the city gate, they were bounced back by the boundary barrier.

"Bang bang thump!"

They were tossed to the ground with blood oozing from their mouths. One of them looked at the Devil Lord and said, "Master, there is a boundary barrier here. We can't break in."

"Trying to block my way just by using a trifling boundary barrier? How naive!" The Devil Lord's gloomy voice came out unhurriedly. He stepped forward and condensed a strong breath with both hands. With a whoosh, a mark shot out together with the breath.

As a loud bang resounded, the boundary barrier was broken. In the air, spirit energy breath spread outward like ripples of water and disappeared mid-air...

"The boundary is open! Charge! Wipe them out!"

The devilry cultivators around him roared with excitement and rushed into the city with their swords drawn. The Devil Lord, who just broke the boundary down, narrowed his ruthless eyes and laughed grimly. "Declaring war on me with just this strength? How reckless!"

With his hands clasped behind his back, he got in last. After entering the city gate, he suddenly stopped and turned around. He was startled to see a boundary barrier emerge in the air and close the city gate. He couldn't help but be astonished.

"She actually set up two boundary barriers?"

The Devil Lord was startled seeing the boundary barrier that sealed and cut off their path of retreat like ripples of water. As he watched the barrier go from the city gate to mid-air, surrounding the whole Phoenix City, he immediately realized that the one he had broken earlier was not the barrier protecting Phoenix City.

It's very likely to be the little trick that Phoenix City's Lord used to confuse them. And the present boundary barrier that blocked off their way out was the real boundary protecting the city!

As he thought of this, he condensed a strong breath in his hands again and a mark formed between his hands to attack the barrier. "Get destroyed!"

There was a low roar, but it was not like the previous rumbling blast. The powerful airflow that came out was like a stone thrown into the sea so deep that it could not even make any waves...

He had a faint foreboding in his heart. The escape route was already blocked before they even fought, perhaps...

"How strange, why is there no one here?" After the devilry cultivators entered, they couldn't find anyone.

"Mm, what's this scent? Did you smell something nice?" A devilry cultivator spoke, taking a deep breath and smelling the fragrance in the air.

"Does it smell like meat?"

"No, no, it's like the smell of heated wine."

"No way, it smells like medicine."

"Is that so? Why don't I smell anything?"

"I don't smell it either."

The voices started to talk chaotically, they were all filled with amazement.
