## Chapter 2661: Fainted

Also, if there was no teleportation array, they wouldn't have been teleported here from the teleportation array in the Ruan Manor. They just didn't know where the location of the Ruan Family's teleportation array was in here. Could it be the place where they had been teleported to?

When she thought of this, she shook her head secretly. It was probably not possible, there was no array in that place. Or perhaps, when she heard Xie Shisi's exclamation, she didn't check out the place. Maybe the Ruan Family's teleportation array was hidden there.

However, now that they had come so far away from there, naturally it was impossible to go back there to find a teleportation array that they didn't know existed.

She sighed deeply in her heart, it seemed that they could only leave this place with the Guo Family.

Although this night was not peaceful, the second half of the night was peaceful. Although those people who were injured hadn't dared to sleep too soundly, in the end, they were unable to resist their tiredness and fell into a deep sleep.

When they woke up, they found that the early morning sun had already seeped through the woods. The night was gone and a new day had greeted them.

"It's dawn! No beasts attacked us last night, that's great!"

Cheers came from everyone. Naturally, they couldn't have known that the reason they were able to sleep so peacefully and weren't attacked by beasts was because someone had warded off the danger for them. That's how they were able to pass through the night safely.

The middle-aged man stood up and coughed in a deep voice. He glanced at everyone and said: "The whole team will set off together!"

"Yes." Everyone responded with a smile on their faces.

The Xie siblings watched Feng Jiu walking back and asked: "Feng Jiu, are you tired?"

Feng Jiu shook her head: "I'm not tired."

"There is another fruit here, you can eat it!" Xie Shisi took out a fruit and handed it to her.

Feng Jiu smiled: "It's alright, I have some." She took out three fruits from her sleeve and handed one to each of them: "Taste it." After she spoke, she took a bite.

The Xie siblings looked at the red fruit and couldn't help but be slightly surprised. The two of them also took a bite of the fruit, and they felt different immediately. This was a spirit fruit!

The fresh, sweet, juices contained spirit energy. After having taken only a bite, they felt that their throats had been moistened by the juice. A trace of spirit energy from the fruit spread out through their body and made them feel full of energy

After they had eaten the fruit, they continued on the road with the Guo Family. Along the way, they occasionally encountered beasts. However, they no longer appeared in groups, therefore, they weren't too difficult for the Guo Family to deal with.

However, at noon, there was an exclamation from someone at the front of the group.

"First Elder!"

"First Elder!"

They had been walking at the back, and they saw that the old man at the front seemed to have fainted. Everyone had surrounded him and called out in a panic.

"What happened to First Elder? Why did he suddenly faint?"

"First Elder's face is pale and he has broken out in cold sweat."

Upon hearing everyone's words, Feng Jiu and the others also stepped forward. However, he was surrounded by the Guo Family, and they were unable to squeeze through. They only vaguely saw that the old man had fainted through the gaps between the people, and Guo Xinning was taking off his coat.

"Maybe his injuries have worsened." The middle aged man said with worry in his eyes.

Through the gap, Feng Jiu saw the wound on the old man's shoulder after Guo Xinning had removed the old man's clothes...

### **Chapter 2662: Worry**

The piece of white cloth that was covering the wound was soaked in blood, there was also yellow-white puss and a faint stench. When Guo Xinning untied the cloth from his wound and saw the red, swollen, infected wound, he couldn't help but gasped for breath.

"Sss!"

"Why is the wound so serious?"

Everyone's expressions changed. They looked at the deep wound that reached that bone on the shoulder of the old man. That wound was scratched by the Wolf King, the deep claw marks were shocking, especially with the deterioration of the wound now, it was even more frightening.

"I didn't expect the wound to be like this in just one night." The middle aged man looked solemn.

Guo Xinning looked at the middle aged man and asked: "Uncle Sun, can't you do anything about it?" His medical skills were among the best in the clan. He had come along with the team this time not only because of his fighting ability, but also because of his medical skills.

"The situation is not good." The middle aged man said, "His wound has worsened overnight. In addition to the fire poison in his body, we have to clear the infection from his wound. But the medicine we have brought with us this time is too little, the anti-inflammatory medicine is gone, the medicine for healing injuries is gone."

“With First Elder’s condition, I’m afraid we won’t be able to make it back to the teleportation array.” Guo Xinning said, and fell silent for a while.

“Well, wouldn’t it be better to remove the infected flesh?”

The sudden sound stunned everyone. They all turned their heads and looked back. When their eyes fell on Xie Yutang, their eyes were filled with displeasure and contempt: “That’s easy for you to say. That’s flesh removal, how can we just do it?”

Xie Yutang touched his nose a little embarrassedly and said: “My original wound was also infected, it was Feng Jiu who helped me heal it, so I thought...”

Before he finished speaking, he saw everyone looking at him again and he waved his hands immediately and said: “Forget it, if you think this method won’t work then just don’t take me seriously.”

Feng Jiu glanced at him speechlessly, was this guy’s brain hit by a furnace again? How could he get himself involved with anything?

Sure enough, as soon as he had spoken, she saw Guo Xinning looking over: “Feng Jiu, you know medical skills?”

Feng Jiu paused for a while, then she looked at him and said: “I know a little bit!”

Upon hearing this, everyone who had hopes in their hearts couldn’t help but felt disappointed again: “He’s just a kid, how can he know any medical skills? Uncle Sun has already said the situation is not good, what can he do?”

“That’s right, this kid has been hiding behind everyone, he doesn’t say much to anyone and treats us as if we are transparent, how can he know any medical skills?”

Feng Jiu smiled as she listened to everyone’s words, her eyes narrowed slightly and swept across the faces of everyone, then she said leisurely: “Although I only know a thing or two, it’s more than enough to treat this injury.”

Upon hearing this, Guo Xinning’s eyes lit up: “Really?”

“Of course.” She stood still and responded.

“Hey! This young son’s tone is quite brazen.”

“That’s right, is he not afraid of being shown up?”

Feng Jiu glanced at them with a smile: “Tell you what! I will treat your First Elder, and if he is really cured...” Her voice dragged on for a bit, then she paused and squinted at them.

“Well? How much is your consultation fee?” The disciples of the Guo Family looked at her with contempt.

Feng Jiu smiled: “I don’t need money, I just want each one of you to call me Ancestor when you see me next time.”

Everyone was stunned. Then they raised their heads and laughed. When their laughter stopped, they said coldly: "Kid, I'm afraid you won't be able to bear it!"

### **Chapter 2663: Driven Away**

The middle aged man listened to Feng Jiu's words, his face became cold at this time. He looked at Feng Jiu with his hands behind his back and said in a deep voice: "Your tone is very brazen for someone of such a young age. Have you forgotten that you've had our protection along the way? Without us, would you still be alive today?"

Upon hearing this, the Xie siblings couldn't help but were a little worried. They had indeed been under the protection of the Guo Family along the way. They would otherwise have been in danger had they been alone. Would Feng Jiu offend them with her attitude now?

Xie Yutang felt a little guilty, and blamed himself for speaking indiscriminately. Although he had good intentions, they didn't trust Feng Jiu. Instead, they looked at Feng Jiu with contempt, which naturally annoyed Feng Jiu.

He knew that Feng Jiu usually had a mild temper, but when her temper blew up, he feared her.

When Feng Jiu heard the middle aged man's words, the corners of her mouth twitched and revealed a smile: "You don't even know who has been protecting whom!"

"What an ignorant boy!" The middle aged man's face sank, and his coercion attacked Feng Jiu. However, at this moment, Guo Xinning hurried forward and blocked it: "Uncle Sun, don't get angry."

Guo Xinning stood in front of Feng Jiu and looked at the middle aged man and said: "Uncle Sun, the most important thing right now is First Elder's injuries."

Feng Jiu looked at the man standing in front of her and her eyes flashed slightly. Guo Xinning was a good-natured person, she was surprised by his repeated words of protection.

"You, leave us immediately! Our Guo Family wants nothing to do with you!"

A child of the Guo Family pointed at Feng Jiu and said. He had disliked these three people from the start, their strength was low and they needed their protection when they were in danger. In the end, they were all injured, but the three outsiders were not injured at all. This really annoyed him.

"Yes! Leave now! Get out of our sight!" Another Guo Family disciple also shouted and faced Feng Jiu and the others with a solemn face.

"Hmph! Let's see how the three of you survive without our protection!"

"Leave now! Don't follow our team!"

"Go, go away now!"

The harsh reprimands made the Xie siblings feel a little embarrassed. However, they didn't say anything and stood quietly beside Feng Jiu.

They were also children of a noble family. This was the first time they had been reprimanded in this manner. They had experienced life and death together for a day. In their opinion, they had gotten close to these people, yet they had changed their tune now and they were chasing them away.

They hadn't done anything heinous, but yet they were looked down upon and been despised. Feng Jiu's words were the fuse that had ignited their fire. Now they were no longer able to endure them and had spoken out to drive them away.

"Everyone calm down."

Guo Xinning tried to calm everyone down so that they didn't act impulsively. However, because everyone was injured, and now that their First Elder was in a serious coma, their tempers flared and he was unable to suppress their anger even if he had wanted to.

"Xinning, you don't have to stop them, let them go, our Guo Family can't keep such people in our team!" The middle aged man said with his hands behind his back, he had obviously wanted the three of them to leave.

Perhaps, Feng Jiu's words, in their opinion, had offended them and challenged their authority. It would be one thing if Feng Jiu's strength was strong. But at that moment, Feng Jiu was in their opinion, weak, naturally they wouldn't allow a weak person to say such words to them.

#### **Chapter 2664: Beast Roar**

"Uncle Sun!"

Guo Xinning had a bad feeling in his heart. His intuition told him that Feng Jiu and the others couldn't be allowed to leave their team, otherwise things would only get worse.

The middle aged man had turned his back with his hands behind his back and stopped looking at them.

Upon seeing this, the other disciples shouted: "Go away! Go away!"

"Don't bully us!"

Xie Yutang was annoyed at being yelled at by them over and over again. Why were those people being so unreasonable? They had only followed them for a day, they had picked their own branches and ate their own roast meat. Feng Jiu had even helped them roast their meat! Moreover, he had also helped them bandage their wounds last night and gave them his own medicine for their use. Now they just changed their tune and wouldn't even acknowledge them.

Xie Shisi had never been told to go away before. When he heard those words, he couldn't help but shrunk his shoulders and said softly: "When the wolf beast came, Feng Jiu was protecting us, you didn't protect us."

She was only telling the truth, but it became words of provocation in the ears of the Guo children. One of them sneered: "Oh! If it weren't for us, do you think you can still live till this day? If we hadn't fought so hard against the wolf beast do you think you would have been unhurt?"

Feng Jiu curled her lips and smiled but said nothing. She turned around and said to the Xie siblings: "Let's go!" As soon as she had spoken, she turned around and walked back the way they had come.

“Feng Jiu!” Guo Xinning stepped forward quickly and stood in front of her, he looked at her with complicated eyes: “Do you really want to do this?”

Upon hearing this, Feng Jiu chuckled lightly: “Shouldn’t I be the one asking you this?” She chuckled lightly and turned her head slightly to look at the Guo disciples and said: “Tell me, which of these people has seen us for who we are? Since you look down on us, why should we continue to follow you and cause more resentment?”

She paused, her words were unrestrained, and her expression had lost the simple and honest look they normally saw. It had been replaced with confidence and indifference: “Without you, we will just make a few more laps around here. Since your Guo Family has a teleportation array, naturally we have one too.”

Guo Xinning listened to this, his eyes were slightly stunned as he watched them walk past him. He couldn’t say a word and didn’t know how to keep them.

“Brother Guo, take care.” Xie Yutang walked past him and clasped his fists.

“Goodbye Brother Guo.” Xie Shisi also said, and quickly followed Feng Jiu. She was startled, and looked down at her feet as she ran forward: “Elder Brother, Little Jiu, look, look at my foot, it’s healed!”

“Oh? Is it really healed? When did that happen?” Xie Yutang said in surprise as he followed Feng Jiu and looked at his younger sister’s foot.

“I don’t know either! I only just realised that my foot is healed. Hehe, if I had known that my foot was healed, Elder Brother wouldn’t have needed to carry me all the time.”

In front, Feng Jiu smiled and said: “It’s fine to let your elder brother carry you on his back. His physical strength is poor so he should practice more.”

“Ah? Little Jiu, are you saying that I am heavy? I’m not heavy, I’m not heavy at all!” Xie Shisi pouted as she held her brother’s hand and walked by Feng Jiu’s side.

As he watched the three of them walk away, Guo Xinning’s heart felt inexplicably heavy for some reason.

“Alright, let’s get ready, we...”

The middle aged man didn’t finish his words. Suddenly, there was a roar of a fierce beast in front of them. Upon hearing the sound, his face changed suddenly.

### **Chapter 2665: Disbelief**

“Fierce beasts! Be alert!” The middle aged man shouted immediately, and told everyone to be alert and prepare for battle.

Then, his heart sank when he heard the roars of beasts at different heights coming from the surroundings. Why were there so many roars of beasts? It sounded like at least a dozen fierce beasts.

“Fierce beasts! Hurry! Be alert!”

The children of the Guo Family panicked suddenly as they were all injured. When they heard so many roars coming from the surroundings, they knew that it must be another herd. For a moment, last night's struggle reappeared in their minds.

It was no problem to deal with a few of them, but if it was another herd of beasts, they were afraid that they would really become the meal of the beasts this time!

Guo Xinning listened to the sounds of the beasts coming from the surroundings and his heart suddenly trembled, as if something had exploded in his mind in an instant. There were things that he didn't understand at first, things that he had felt uneasy about but became clear at this moment.

He turned his head suddenly and looked in the direction where Feng Jiu and the others had gone, but saw that the three of them had long disappeared. Instead, fierce beasts appeared around them grinning and showing their sharp fangs as they walked towards them...

He stood in a daze with incredible shock in his eyes. He didn't react when he saw the scene in front of him.

Upon seeing the beast about to pounce, Guo Xinning stood still as if he had lost his soul. The middle aged man stepped forward immediately: "Xinning! What are you doing? Get ready to fight!"

The middle aged man shouted loudly which brought him out of his shock. He looked at him and smiled bitterly: "Uncle Sun, I finally understand."

Yes, he finally understood why the wolves had attacked last night but Feng Jiu and the others weren't injured at all. He finally understood why after the bloody scene last night, it hadn't attracted more beasts...

It turned out it was because of him, because he was in their team.

When he thought of his half-smile and his last sentence: Who is protecting whom? He felt a burning sensation on his face.

It turned out that he was really protecting them, but they didn't know it. Instead, they spoke contemptuously and scolded them, and even drove them away...

He felt bitter when he thought of this. If this was the end of the Guo Family, who could they blame but themselves?

When he saw his bitter expression, the middle aged man was startled and asked: "What do you know?"

"Uncle Sun, why do you think the scent of blood last night didn't attract any beasts to attack us? Did Uncle Sun think of protecting Feng Jiu and the Xie siblings when the Guo Family's children were overwhelmed? Why did this group of beasts appear as soon as the three of them left?"

Although the middle aged man didn't share the same surname, he was considered an authoritative figure in the Guo Family. When he mentioned it at this time, naturally he knew what he meant.

He looked at Guo Xinning in astonishment and shock: "You mean it's because of the three of them?"

"It's not the three of them, it's because of Feng Jiu." Guo Xinning sighed: "Unfortunately, our Guo Family has utterly offended him."

Upon hearing those words, the middle aged man swayed. His steps were a little unsteady, and his face paled as he saw the beasts surrounding him and the fearful expressions of the Guo Family's children who were retreating in fear. His lips moved, still disbelief in his heart, that that young man had such ability.

"Xinning, you think too highly of him, he is just a teenager."

### **Chapter 2666: Deeply Grieved**

"Roar!"

A sound of a beast's roar came and the air trembled slightly. Then, a lion with four feet on flames rushed forward and roared as it rushed towards the Guo Family disciples.

"Sa...Sacred! Sacred Beast!"

The Guo Family disciples had turned pale with fright and fought against the Sacred Beast with all their strength. Even if they weren't injured at this time, they still weren't a match against the Sacred Beast!

"Aooow!"

Suddenly, a wolf howl sounded. After they saw the Sacred Beast and heard the wolf howling, everyone's heart trembled and they had the urge to flee.

"It's the Wolf King!"

"It's the Wolf King!"

"Sss! The Wolf King is here for revenge!"

"What should we do? What should we do?"

For a moment, everyone panicked. Their reactions slowed down due to their extreme fear and shock in their hearts. In just a few short breaths, one of the Guo Family disciples was killed by the lion beast with flames on its feet. Several more were scratched by the lion beast, screams and exclamations were heard from time to time, the scene was very chaotic...

"Calm down! Calm down, don't panic! Don't panic! Sss!" The middle aged man tried to calm everyone down in order to fight. However, he wasn't paying attention and was bitten on his calf by a fierce beast that had rushed forward. Blood flowed immediately.

"Ah!"

He screamed and raised his foot in an attempt to shake the beast off. However, the beast had bitten his flesh on his calf and refused to let go.

"Swish!"

A cold piercing light swept across and a fierce sword qi instantly chopped off the beast's head in one strike. Blood splashed out and the middle aged man fell down as a result of that.

“Uncle Sun!”

Guo Xinning stepped forward hurriedly with a sword in his hand and helped him up while he blocked the beast that was rushing forward. He retreated in a daze towards the unconscious man.

The few disciples who were protecting the old man were covered in blood at this time. They didn’t know whether the blood on their faces belonged to them or to the beasts, but they still protected him with their lives.

“Uggh!”

In an attempt to block the fatal blow to the old man, Guo Xinning had been knocked out by the snow-white Wolf King that had jumped out from nowhere. The powerful impact struck him and caused him to lose his balance and he fell. Blood in his body surged and a mouthful of blood spurted out.

“Xinning!”

The middle aged man stood up using the tree as a support. But when he saw the Wolf King approaching him step by step with a ferocious gaze, he couldn’t help but shiver...

At the other side.

When they heard the sounds of the beasts, the Xie siblings looked at each other and hesitated for a while. Xie Yutang asked cautiously: “Little Jiu, why are there sounds of beasts behind us?”

Feng Jiu’s lips curled into a smile: “What else could be going on? The Wolf King must have come back for revenge. There are probably other beasts as well! After all, those beasts have followed us along the way.”

“Ah? They’ve been following us all the way? Why didn’t we know this?” The Xie siblings asked in unison.

“If the people in the Guo Family don’t know, how would you know?” She chuckled lightly, then she took a piece of fruit out and ate it.

“Then will the Guo Family survive?” Xie Yutang asked hesitantly.

Upon hearing this, Xie Shisi couldn’t help but was worried. She looked at Feng Jiu, who was eating the fruit with a relaxed expression: “Will Brother Guo survive?”

Feng Jiu tilted her head when she heard this and thought for a while: “It’ll probably be difficult.”

### **Chapter 2667: Help**

As soon as she had spoken, she saw the both of them staring at her. She smiled and asked: “Why are you looking at me?”

“Little Jiu, aren’t you very powerful?” Earlier, when some of the fierce beasts saw them, they turned around and ran away. It must be because Feng Jiu was very powerful, that’s why the beasts didn’t dare to approach them.

Feng Jiu narrowed her eyes and said with a smile: “Of course, I’ve always been powerful.”

“Then save Brother Guo! He is a good man.” Xie Shisi looked at her expectantly, hoping that she would agree.

Beside her, Xie Yutang thought for a while, then said: “Although the Guo Family looked down on us and drove us away, Brother Guo has always treated us well. If you can, Little Jiu, let’s help him!”

Feng Jiu ate the fruit with a nonchalant expression: “But maybe they don’t need us to meddle in their business! Besides, I don’t like being around people. Since they told us to get lost, why should we go back? Well, no no, I won’t do this.” She shook her head and continued walking forward.

“Little Jiu.”

“Little Jiu.”

The two of them called in unison and stepped forward to stop her: “Why don’t we just go back and take a look? Didn’t you say you wanted to bring some contract beasts back? Let’s go there and take a look!”

Upon hearing this, Feng Jiu glanced at the two of them and said: “Fine!” As soon as she had spoken, she turned around and walked back.

The Xie siblings couldn’t help but be overjoyed when they saw this, and quickly followed.

Feng Jiu led them back. When they got closer, she lifted the two of them and brought them up to a big tree. They stood there holding onto a branch while she found a place and sat down. She took another fruit out and ate it, as if she was indifferent to the bloody and tragic scene ahead.

When the Xie siblings saw what was in front of them, they couldn’t help but cry out in a low voice. Xie Shisi even covered her mouth and looked ahead with wide open eyes.

Up ahead, dozens of beasts were attacking the Guo Family. Some of them were the wolves that had escaped last night, and there were also other fierce beasts. But the one that shocked them the most was the lion with flames on its feet and the snow-white Wolf King.

Those two beasts had already reached the level of Sacred Beast!

Everyone in the Guo Family was already injured to begin with, and at this time, their injuries were even more severe. Amongst them, many were bitten to death by the fierce beasts. As for those who were still alive, they were even more bloody than before, as if they had just climbed up a pile of dead people. They shuddered when they saw this.

Their exclamations were concealed by the screams and roars. No one had noticed that the three of them were there watching. However, the two Sacred Beasts looked in Feng Jiu’s direction, as if they could sense her.

At that moment, Guo Xinning, who was fighting against the Sacred Beast, looked instinctively in the direction of the two Sacred Beasts and in the next moment, his eyes contracted.

He saw, on a big tree fifty metres away, Feng Jiu sitting on the tree eating a piece of fruit. As for the Xie siblings, they stood on either side of her. When he saw her, it was like he had seen his saviour, and he shouted: “Feng Jiu, help!”

When he saw all the people who had died in the battle, each and every one of them bloody, people that he would never see again, he felt a will to survive in his heart. So without thinking, he asked for help.

### **Chapter 2668: Observing From The Sidelines**

However, as soon as he had cried for help, he was knocked down by the Wolf King. At the same time his body fell, another wolf beast rushed forward and was about to bite his neck.

Upon seeing that scene, the Xie siblings exclaimed. Xie Yutang looked at Feng Jiu while Xie Shisi covered her eyes, not daring to watch the bloody scene. She was afraid that if she opened her eyes, she would see Guo Xinning's neck being bitten off.

The wounds on his body had not stopped bleeding, and the battle had consumed a lot of physical strength. When he was knocked down this time, he saw a wolf beast pounce on him towards his neck before he could take a breath.

The breath of death was so close that despair enveloped him in an instant. Was he going to die? Was he going to die here?

For a split second, thousands of thoughts flashed through his head, and finally stopped at the moment when Feng Jiu and the others turned their backs and left. If he had known it earlier, if he had known it earlier, he would have begged and asked them to stay. If they had stayed, would this scene wouldn't not have happened?

Even if he was unwilling, even if he was unwilling to die, it seemed that there was nothing he could do at this point in time. He raised his head and stared in anger and unwillingness at the wolf beast that was coming at him. Even if he were to die, he had to take this wolf beast down with him!

However, just as he was determined to die, he heard a sharp sound that came across the air. It hit the wolf beast's head with a thud at unheard speed.

"Boom!"

With a bang, the entire wolf's head had exploded right in front of him. Blood and brain splashed out and covered him. He stared blankly at the fallen wolf beast, and amongst the smashed brain, a blood-stained fruit core had fallen on the ground...

Smashed a wolf's head with a single fruit core? She was fifty metres away and she had managed to accurately strike the head of the wolf beast? Feng Jiu, how powerful was she?

He struggled to calm the shock in his heart, which was like a raging wave. He turned his head slowly and looked at the big tree where Feng Jiu was, and saw a young man in azure sitting there leisurely looking at him. That cold and indifferent voice entered his ears.

"Actually, you shouldn't ask me to save your life. After all, I'm just an ignorant child who is too conceited. People like me still need your protection! How can I have the ability to save you?"

Guo Xinning smiled bitterly when he heard this, he was indeed angry.

As the rest of the Guo Family were fighting for their lives, they heard Feng Jiu's voice. Their eyes swept towards her voice, and when they saw the three of them, their eyes widened.

“You’re still not dead?”

Yes, they thought that they would have been bitten to death before the group of beasts had attacked them. They hadn’t expected them to be still alive, and came here to watch the fun.

When they thought of the sorry state they were in, some were dead, and those who were wounded were besieged by the beasts as they fell into despair. The scene of the three of them intact on the tree shocked and stunned them.

“We are alive and well, unlike you, who are being besieged by beasts.” Feng Jiu said leisurely as she leant on the branches to watch the fun.

The middle aged man who was injured and unable to stand up was shocked when he heard Guo Xinning begging Feng Jiu for help. He looked at the young man on the tree in disbelief, a violent storm rose in his heart and he was unable to calm down...

### **Chapter 2669: Touch The Neck**

Feng Jiu? He came back?

And he was just there, the beasts hadn’t attacked him and avoided him consciously instead. If what Guo Xinning had said was true but he refused to admit it, his perseverance finally collapsed when he saw this scene.

Did he harm the Guo Family? It was him who had put them in such a dangerous situation, it was him...

He struggled, but finally stood up, and looked at Feng Jiu, who was sitting on the tree. He held the sword in his hand and said: “I offended you, I will make it up to you with my death. I beg you, please be magnanimous and help us!”

As soon as he had spoken, he put the sword in his hand across his neck and was about to slash his throat.

“Uncle Sun!”

“Uncle Sun!”

Everyone exclaimed. They were however fighting the beasts and were unable to come forward to stop him. When they saw that he was about to slit his throat with his sword and kill himself, a stream of air swept across and knocked his hand down.

“Clang!”

The sword in the middle aged man’s hand fell to the ground. He stared at Feng Jiu in a daze and only felt his hand that had been holding the sword trembling slightly.

Upon seeing this scene, Guo Xinning breathed a sigh of relief. The other Guo Family disciples were also able to relax, but their hearts were filled with shock and complexity.

Why was it Feng Jiu? A young man whom they had looked down on was someone who could save them in the end? Why was it him? When they thought about driving him away earlier and their harsh words, they were unable to open their mouths to ask for help at this point in time.

Feng Jiu glanced at the middle aged man, then she said to the Xie siblings: "Aren't you looking for contract beasts? Go down! The wolf and lion look quite good."

"What?"

The both of them exclaimed with a look of astonishment: "They're Sacred Beasts! We can't defeat it!"

Feng Jiu turned her head slightly and revealed a smile: "They are Sacred Beasts! If you want a contract beast, naturally you have to contract a Sacred Beast." As soon as she had spoken, she sent the both of them down in front of the Sacred Beasts with a flick of her hand.

The Xie siblings exclaimed as their bodies fell to the ground. When they saw the beasts in front of them, their faces turned pale with fright. In particular, Xie Shisi's legs couldn't stop shaking when she saw the Wolf King who was half a head taller than her and grinning with its sharp fangs showing.

"Fight!"

As soon as Feng Jiu's voice came out, the fear that they had originally felt was dissipated by Feng Jiu's words. Their hands were twisted tightly into fists as they rushed towards the beasts that were in front of them with a low growl.

"Ah!"

Xie Yutang shouted in a low voice and slammed forward with spirit energy in his hands, but was avoided lightly by the flame lion in front of him. The lion raised its head and chin slightly, and looked at Xie Yutang with contempt. However, it didn't take any action against Xie Yutang, not because it was afraid of him, but because it was afraid of the human on the tree.

Xie Yutang approached step by step, and the lion dodged. After it had avoided more than a dozen moves, it got a little annoyed. The Sacred Beast glared at Xie Yutang and attacked him, only to see the human that had rushed towards it had fallen to the ground under its coercion and was unable to stand up.

It turned back angrily and stared at the young man sitting on the tree eating fruit and shouted in a low and majestic voice: "Human, what are you doing?"

Did she really underestimate it so much by sending such a lowly ant to fight against it?

### **Chapter 2670: Lowered Its Head**

"Finding you a Master."

As Feng Jiu spoke, she put her hand on the branch, then her figure lifted up and she swept out forwards. The azure figure fluttered to the ground, and at the same time, the ancient pressure from her body was released. At this moment, all the beasts that were attacking the Guo Family let out a howl and fell down in terror, afraid to fight again.

"Ancient pressure!"

The middle aged man's eyes widened in shock and his heart trembled. Under the pervading pressure, he was unable to stand, his legs were weak and he fell down.

It was actually ancient pressure! It was ancient pressure! He he...

When the coercion spread, not only the beasts were unable to stand firm, but even everyone in the Guo Family were the same. When the coercion was finally withdrawn, they were still in shock.

Was this ancient pressure? If Uncle Sun hadn't said it was ancient pressure, they wouldn't even have known what this powerful coercion was...

However, how could such a young man possess the coercion of the ancient pressure?

Even if they hadn't wanted to admit it, at this moment, they had to admit that Feng Jiu had saved their lives, and it was the coercion that had made the group of beasts kneel down.

Guo Xinning looked at Feng Jiu with complex and shocked eyes. He had guessed that her strength was very strong, but he hadn't expected it to be so powerful, ancient pressure? No wonder, no wonder when he had faintly felt the breath last night, he was unable to tell what it was. It turned out it was the coercion of ancient pressure!

When the Wolf King and the Flame Lion saw that the situation was not ideal, they prepared to leave. Her coercion attacked instantly and shook the two strong fierce beasts under her strong coercion so much so that the two Sacred Beasts had to lie down on the ground and tremble at this point.

"I'm just finding a Master for you, why are you running away?" Feng Jiu stepped forward and touched the snow-white Wolf King, then she looked back at the stunned Xie siblings.

"Which one do you like? Pick it yourself."

"These two Sacred Beasts?"

The siblings stared at each other, their hearts pounding. That was a Sacred Beast! A beast with extraordinary combat power! A contract beast for them?

"Yes, these two." Feng Jiu touched the Wolf King's head and caused the Wolf King to narrow its eyes and look up at her.

"I want the lion, the lion is so majestic and it has flames on all four of its feet. I like it." Xie Yutang rushed forward. But when he saw the lion staring at him, he was startled.

Feng Jiu squinted and glanced at the lion, and the lion's stare faded suddenly, then said in dissatisfaction: "You want to find this King a Master, why don't you find someone stronger? Is his strength even worthy of being a Master to this King? It's so humiliating."

When Xie Yutang heard this, he smiled embarrassedly. His strength was indeed weak.

"His strength will improve, look how young he is. The days are long." Feng Jiu said, and motioned for Xie Yutang to step forward.

Upon seeing this, Xie Yutang stepped forward boldly and looked at the lion and said: "I will definitely become stronger in the future!"

When the lion heard this, he glanced at Xie Yutang in surprise, then thought for a while. It looked at Feng Jiu again, and finally lowered its head. Even if he didn't lower its head, it was afraid that it would be

forced to lower its head by this terrifying human being. The ancient pressure on this human being was too overwhelming and made it impossible to resist.

When Xie Yutang saw this, he couldn't help but be overjoyed and quickly stretched out his hand...

### **Chapter 2671: Acknowledge The Master**

When everyone watched Xie Yutang as he stretched out his hand and formed a contract with the Sacred Beast, everyone envied him for having such good luck. Because he knew Feng Jiu, he had help to contract such a powerful Sacred Beast.

When Xie Shisi stepped forward excitedly, the silver wolf who was so feeling so comfortable from Feng Jiu's stroking that it had closed its eyes stood up abruptly and opened its eyes, then opened its mouth revealing its sharp fangs and let out a low growl and stared at Xie Shisi with a ferocious look. That look was as if it would pounce on her and tear her to pieces if she dared to take another step forward.

"Ah!"

Xie Shisi was startled, she took a few steps backwards and fell to the ground as she looked at the Wolf King staring at her with a look of fear on her face.

"It's scary, it's so scary, I don't want it, I don't want it." Xie Shisi shook her head and got up, then hid behind her elder brother.

Upon hearing this, the Guo Family members gasped. They looked at Feng Jiu and the Wolf King with bright eyes. If she didn't want it, they wanted it.

However, they only thought about it, no one dared to open their mouth.

"Little Shi, you're so silly! That's a Sacred Beast!" No matter how indifferent Xie Yutang was usually, he knew that Sacred Beasts were hard to come by, especially with Feng Jiu here to help them make the contract. Based on their strength, they wouldn't be able to contract a Sacred Beast at all.

"I don't want it, it's so fierce, and so scary, I'm afraid of it." Xie Shisi was a girl after all, and preferred little pets. This Sacred Beast gave her such a powerful feeling that it was scary at just a glance. Hence, she didn't dare to contract it at all.

Upon hearing Xie Shisi's words, the Wolf King squinted and opened its mouth humanely. It bared its wolf teeth and glanced at Feng Jiu saying: "I want to be your contract beast."

The lion next to Xie Yutang couldn't help but widen its eyes when it heard this: "You dare to open your mouth? That's not right, even this Lion King didn't dare to ask!"

Of course it knew that the strength of the young man in azure was the most powerful. It would definitely be the best to acknowledge him as its Master, but it didn't dare to open its mouth to ask, and the wolf actually dared to recommend itself!

Feng Jiu was also slightly surprised. She looked at the Wolf King who was rubbing the palm of her hand and couldn't help but laugh: "Acknowledge me as your Master?"

“Yes, Master, accept me!” The Wolf King immediately put away his bloodthirsty and brutal side, then squatted on the ground and bowed down with its paws in front of it, and looked at her like a puppy.

Upon seeing this scene, Xie Shisi’s eyes widened, unable to believe that the Wolf King would have such a side.

Feng Jiu smiled lightly when she saw this: “But I have too many contract beasts!”

“Master, I don’t eat much and I will be very obedient.” The Wolf King said humbly and stretched out its paw gently on Feng Jiu’s hand as it tried its best to please her.

“Roar! You’re shameless!” The lion was angry when he saw this. How did it not know the wolf would be so shameless?

“Master...” The Wolf King squatted there and looked at Feng Jiu.

Upon seeing this, Feng Jiu thought for a while, then she said: “Fine! Follow me first. Shrink a little, your size is too big!” As soon as she had spoken, the Wolf King was overjoyed. It turned around and in a flash, it pounced at her like a little puppy, its front paws hugged her feety tightly.

When the lion saw this, it regretted it! But he could only watch the Wolf King wag its tail proudly.

#### **Chapter 2672: Admission of Mistake**

At this time, Guo Xinning had helped the middle aged man stand up who limped forward and came to Feng Jiu. He pushed Guo Xinning away and knelt down with a plop.

“Thank you for saving our lives.” His voice was deep, and he choked up as he spoke. If it weren’t for her appearance, if it weren’t for her actions, they would not be alive right now. His kneeling was an admission of his mistake and also a thank you.

When they saw the middle aged man kneeling down, the Guo Family members looked at each other and also knelt down while supporting each other: “Thank you for saving our lives. We are sorry.” Their voices came out in unison, a little weak, from the loss of blood.

This was not an easy battle to survive, and they were all injured.

Feng Jiu didn’t look at them, but said to the Xie siblings: “Let’s go!” As soon as she had spoken, she turned and left.

The Xie siblings hesitated, and looked at Guo Xinning. Guo Xinning stepped forward immediately: “Feng Jiu.”

He walked quickly over to Feng Jiu and looked at the cold young man in front of him. His lips moved and his voice was a little hoarse: “Can you stay and escort us to the array? If you leave, I’m afraid that we won’t make it to the teleportation array.”

As soon as he had spoken, his robe fluttered and he knelt down: “Please escort us!”

Feng Jiu frowned when she saw this. She looked at Guo Xinning, who was kneeling on the ground in front of her. She was silent for a long time, finally, she said: “Get up!”

Guo Xinning raised his head when he heard this: "Have you agreed?"

"After we go out, I don't want to hear any rumours regarding me being spread." Her voice drifted out lightly as she looked at Guo Xinning.

Upon hearing this, Guo Xinning was stunned for a moment, then he said: "I know what to do. The things that happened inside here will not be mentioned again outside." He looked at the other members of the Guo Family.

Everyone understood and promised immediately.

Upon seeing this, Feng Jiu said: "Get up! Treat your wounds first." She looked at the Wolf King by her feet and said: "Tell the wolves to disperse."

"Yes, Master." The Wolf King responded, then raised its head and howled. The wolves ran away one after another. As for the other fierce beasts, they also fled quickly, not daring to stay for long.

Everyone in the Guo Family could finally breathe a sigh of relief. They supported each other and went to the side to treat their wounds. However, they didn't have any more medicine. Now that they were injured once again, all they could do was bandage their wounds with pieces of cloth without applying any medicine.

Feng Jiu glanced at them and said: "Those whose injuries are not serious and can still walk, come with me." After she had spoken, she told Xie Yutang and the lion to stay behind and protect them.

Everyone didn't know the reason, but they didn't dare to ask. Four or five people got up and followed her into the forest.

Xie Shisi and Guo Xinning were walking beside Feng Jiu. Xie Shisi couldn't help but asked curiously: "Where are we going?"

"To pick herbs." Feng Jiu said. Her eyes flicked around as she walked along the way. From time to time, she bent down and picked up a few inconspicuous herbs. Finally, she handed it to them: "Pick these herbs."

Only did everyone realise that she had brought them with her to pick herbs. But as they looked at the inconspicuous herbs, they had some doubts in their hearts. Did it really work?

"Pick these herbs! Just look around, don't go too far." Guo Xinning said to the few people behind him.

"Yes." They responded, then dispersed.

"You know medicine?" Guo Xinning looked at Feng Jiu and asked.

### **Chapter 2673: Awaken**

"I know a little." Feng Jiu said. She glanced at him: "Haven't I already said this?"

Guo Xinning's eyes moved slightly. She had indeed told them, but no one had believed her. Now, he couldn't help but had a little hope.

"Can you heal First Elder's injuries?"

The corners of Feng Jiu's mouth twitched: "It's not a matter of whether I can heal him or not, it's a matter of whether I want to heal him or not."

Upon hearing this, Guo Xinning pondered inwardly: "So are you willing to heal him?"

"Your First Elder is already a dying man, he was to begin with! It depends on my mood. If you want me to heal him now, you will have to give me something just as valuable in return." She looked at Guo Xinning, her eyes narrowed: "Is the life of your First Elder precious?"

Upon hearing this, Guo Xinning nodded: "Precious, he is a core figure within our family clan. If he dies, it will be a huge loss for our family clan." After a slight pause, he said: "Don't worry, as long as you can save him, I assure you that once we return to our family, we will give you a lot of money as your reward."

"Do I look like someone who lacks money?" Feng Jiu raised her eyebrows.

Guo Xinning was startled and asked: "Then what do you want?"

"Let me think about it, then I'll let you know!" She stepped forward and looked around, then she shouted: "Little Shi, come here, pick this one too."

After the time it took to burn an incense stick, they returned to where everyone else was holding a lot of herbs in their arms. The others didn't know those herbs and couldn't help but be a little surprised when they saw that they had picked those herbs and come back.

"Some of you know medicine don't you? Do you know how to deal with these?" Feng Jiu asked, her eyes passed over the Guo Family members.

"I know." The middle aged man hid his surprise and said to the disciples of the Guo Family: "Mash the herbs and apply them to the wounds. These herbs are to stop bleeding and infection."

When they heard what the middle aged man had said, everyone moved immediately.

"Feng Jiu, take a look at First Elder first!" Guo Xinning said.

Feng Jiu walked over to where the unconscious old man was. Though many of them had died and many were injured, the old man was very well protected by them. The disciples of the Guo Family obviously knew of the importance of the old man.

"Yutang, come and help." Feng Jiu called out. She told Guo Xinning to remove the old man's shirt while she took a dagger out from space.

The middle aged man limped to the side and watched. He watched Feng Jiu burn the sharp dagger and sliced out the infected flesh little by little. Then, she took out some medicine and sprinkled it on the wound. Finally, she took out an elixir and stuffed it into the old man's mouth.

What he found unbelievable was that after a while, the unconscious old man woke up slowly. He found it incredible.

"First Elder!"

"First Elder!"

“First Elder!”

They all gathered round when they saw him waking up and smiled pleasantly.

When he saw the bloodstains on everyone else, the old man frowned slightly and said: “What happened? Why are you all injured?” The old man’s voice was weak, but his words were clear.

“It’s a long story, First Elder. All that matters is that you’re fine.” Guo Xinning finally breathed a sigh of relief and ordered someone to look after the First Elder while he went over to Feng Jiu, who was playing with the Wolf King.

“Feng Jiu, thank you very much.” He thanked her sincerely. If it weren’t for her, he really didn’t know how things would have turned out.

### **Chapter 2674: Fainted From Shock**

He looked at her a little hesitantly.

Feng Jiu raised her eyes and glanced at him, then said: “If you have something to say, say it.”

“I want to ask if you will take a look at Uncle Sun’s leg and see if it can be treated.” He said, and looked back at the middle aged man who was sitting under the tree, enduring the pain.

“Uncle Sun is actually a good person. Although he is an outsider, he has always been very loyal to our Guo Family. He didn’t mean to offend you before. He didn’t know and didn’t dare to believe that it was you who protected us.”

He tried his best to speak kind words about the middle aged man in hopes that Feng Jiu would take a look at the wound on his calf. After all, the bite from the wolf was so deep that it had reached his bone. He had held on till now, he wondered if his leg would still be usable.

Feng Jiu glanced at him and followed his gaze towards the middle aged man sitting under the tree. After she thought about it, she stood up and walked over. She stood in front of him and said: “Cut off the lower part of his trousers.”

Guo Xinning, who had followed her, stepped forward hurriedly and cut open his trousers and revealed a deep wound with the bone showing and blood oozing out. The rows of wolf teeth marks made him shiver.

The bite was so deep...

“My leg is useless, it can’t be cured...” Before he finished speaking, he saw Feng Jiu spraying a sip of wine from her mouth onto his calf. The wine on the wound caused him to scream out in pain and he nearly fainted.

Guo Xinning’s heart raced. He was already in so much pain from his wound, let alone being sprayed with wine. That kind of pain was probably worse than death?

“It’s a bite from a wolf, it’s impossible to disinfect without alcohol.” She said lightly, then put the wine away and muttered: “What a waste of my good wine.”

The middle aged man couldn't help but laugh when he heard it, but didn't say anything. He just looked at the young man squatting beside him.

"Little Jiu, do you need my help?" Xie Yutang leaned forward and asked.

"Yes, clean up the wound." Feng Jiu said while she prepared some items.

"Fine." Xie Yutang had become quite skilled at helping to clean up wounds and bandaging wounds over the past two days.

He stepped forward immediately and cleaned the middle aged man's wound, but the blood kept flowing. He couldn't help but look back at Feng Jiu: "The wound is still bleeding, what should I do?"

"It's fine, it will be fine after a while." She said, then turned around with thread and a needle in her hand. She looked at the middle aged man and said: "The flesh from your leg was nearly bitten off, I have to sew it up. It will hurt a little, so bear with it."

"Branch, bite it!" Xie Yutang picked up a branch on the side and handed it to him to bite.

The middle aged man looked at the needle and thread in Feng Jiu's hand and his heart skipped a beat: "This is a needle? You're sewing? Will this work?"

Feng Jiu glanced at him: "Of course."

Upon hearing this, the middle aged man had no choice but to bite on the branch and endure it.

"Just wipe that blood that flows out, don't get in the way of my sewing." She instructed Xie Yutang.

"Yes, I understand." He replied. He was also a little curious how she could sew flesh.

His heart trembled when he saw Feng Jiu holding the needle and thread and sewed the flesh together. It turned out that the method of sewing clothes could be used this way.

The middle aged man watched the needle and thread as it pierced his own flesh. The severe pain and the visual impact caused him to faint in the end...

### **Chapter 2675: Leave**

Guo Xinning watched in shock as Feng Jiu closed the skin with the needle and thread. When he saw her finally tying the thread with a knot and the blood had stopped oozing from the wound, he breathed a sigh of relief, and felt incredulous.

"I never knew that an embroidery needle had such a use."

"This is not an embroidery needle."

Feng Jiu pursed her lips and smiled: "This is my special suture needle that I had made." She put the things away and said to Guo Xinning: "The thread on his calf can be cut away in seven days. Don't let him walk during this time, or the wound will worsen."

"Yes, I understand." Guo Xinning nodded. He took turns looking after the middle aged man and the old man.

Feng Jiu went to rest under a tree, and she looked at the injured members of the Guo Family sitting on the ground. Her eyes flashed slightly, then she closed them to rest.

Xie Yutang came over. When he saw her eyes closed, he knew that she wasn't asleep. So he said: "Little Jiu, actually you have a good heart."

Upon hearing this, Feng Jiu opened her eyes and glanced at him with a small smile: "I have a good heart?"

"Yes." Xie Yutang nodded seriously and said: "You are so powerful, but if it were someone else as powerful as you, and the Guo Family offended them, they would definitely not save them like you did. You are different, you saved them after your anger subsided."

This set her apart from other strong exponents. His Grandfather and Father often told him that the more powerful a person was, the less likely they were to care about the lives of the weak. A verbal offence could kill a person.

However, after having spent time with Feng Jiu, he felt that although she was unfathomable, she wouldn't obliterate other people's lives at will. This point alone made her much better than the others.

Upon hearing this, Feng Jiu's lips curled and she looked at the members of the Guo Family who were resting: "That's because they didn't have any intention of killing me." If they did, it would be different.

After they had rested, the wounded people set off again. This time, no one dared to express any dissatisfaction or contempt towards Feng Jiu and the others. They walked with Feng Jiu and passed through the forest and a big mountain. They didn't arrive at the Guo Family's teleportation array until noon the next day.

"We're here."

The old man said and pointed to a place in front of them. He looked at Feng Jiu: "This is our Guo Family teleportation array." Although his face was still pale, he was much better than yesterday. Perhaps it was because he knew about Feng Jiu's methods, so even though he was the Elder of the Guo Family, he was very respectful to Feng Jiu along the way.

"Let's travel in two groups!" Guo Xinning said, then he said to Feng Jiu: "As long as the teleportation array is activated, we can reach the back mountain of the Guo Manor."

Feng Jiu nodded and glanced at Xie Yutang: "Put your contract lion into space."

"Oh, yes." Xie Yutang responded and put the lion away.

She looked at the little wolf who was following at her feet. It was snow white in colour and squatting like a puppy, grinning and sticking its tongue out. She smiled and said nothing.

The First Elder instructed Guo Xinning to open the teleportation array and sent a group of people into it. With a flash of light, that group of people and the middle aged man disappeared into the teleportation array.

"Let's go too!" Guo Xinning looked at Feng Jiu and the others.

“Sure.” Feng Jiu responded and walked into the array with them.

### **Chapter 2676: Wailing**

In the Guo family’s compound.

The entire manor shook as the Guo family’s disciples, covered in blood, carried the pale-faced middle-aged man back to the Guo house’s front courtyard. Several stewards rushed over one after another.

“Hiss! Elder Sun, how could you be so badly hurt?” An elderly man who got along well with the middle-aged man approached. He gasped when he saw the bite marks on the elder’s calf.

“I thought I’d never see you again.” The middle-aged man smiled, the corners of his mouth drawn up. After they arrived home, his constantly troubled heart was finally put to rest.

They were finally home, safe and sound.

“Quick, carry him to the rear courtyard. I’ll examine the wound for you.” The elderly man said while motioning for the guards to replace the two injured disciples carrying Elder Sun.

“Don’t be so anxious. Since I did not die out there, I’m not going to die.” Elder Sun smiled. He looked pale and frail. This injury made this man, who was in his sixties but appeared to be in his forties, seem so much older.

It went without saying that those who understood medicine would prioritise their own self-care, especially since he was regarded as the most proficient in medicine among the Guo clan. However, after this incident, his exhaustion was palpable.

“Did you come across a beast pack? This wound looks like...” The elderly man was baffled. The bite mark of a ferocious beast was obvious from the circular pattern, but what surprised him was that such a large area of the wound was sewn up with thread.

“What happened? Have the Great Elder and others all returned?” A middle-aged man, the Guo clan’s patriarch, strode in. He rushed over after learning that the people who had entered the Poison Forest had returned, covered in blood.

“Patriarch.” Elder Sun called out weakly when he saw Patriarch Guo walking quickly toward him.

“Elder Sun, how, how did you get so badly hurt?” Patriarch Guo was taken aback. He assumed the injured were disciples, not expecting Elder Sun to be seriously injured.

“Patriarch, it’s not just me. The Great Elder has also been seriously injured. Fortunately this time...” He came to a halt when he noticed many people around him and changed the subject. “The Great Elder and the others are following close behind. Please wait for the Great Elder to inform you of this.”

“All right, then return to the courtyard first. Your injuries will need to be treated again.” Patriarch Guo told the elderly man next to him. “Examine him. Elder Sun must be cured with the best medicine.”

“You can rest assured, Patriarch.” The elderly man said, motioning for the two guards to carry the man into the rear courtyard.

“We greet the Patriarch.”

At this time, the Guo family disciples, who were standing and propping each other up, bowed respectfully. Their clothes were torn and the original colour was no longer visible, dried blood was all over their bodies. Their faces were dirty and bloodstained, their eyes were flushed, and their expressions were filled with excitement.

They returned alive! They returned alive! They thought they would never be able to return to the Guo family or see their parents or relatives again...

"My son! How did you get hurt like that? How did you get hurt like that?" A woman ran over hurriedly and threw herself on a wounded disciple, crying and shouting. She stepped back, as if in a daze, not daring to touch him for fear of hitting his wounds. She was tense and worried, but she didn't know what to do.

"Mother! Mother! Mother..."

When the young disciple saw his mother, he could no longer hold back his tears and wailed like a kid.

### **Chapter 2677: The Guo Family**

Another woman pushed the guard out of the way and rushed inside. She pulled the injured Guo family disciples to get a better look, searching for her son. "Where is my son? Where is my son? Where's my Xin Jie? Have you seen Xin Jie? Where is Xin Jie?"

The woman asked anxiously, tugging at the wounds of some of the disciples, causing them to gasp in pain.

"Xin Jie is dead." A Guo family disciple said. "He's dead."

The woman took a step back upon hearing this and widened her eyes in disbelief. "Dead? That's impossible! My Xin Jie is such an outstanding child; how can he die? I don't believe it!"

"He is dead. He is, indeed, no longer alive." Another disciple confirmed. Immediately after he spoke, the woman rushed forward and grabbed his lapel. "Dead? He's indeed no longer alive? Why are you all still alive? Why didn't you save him? Boohoo. I don't believe it. I don't believe it."

She hit the disciple over and over, making him scream because his wounds started hurting again.

"That's enough! Separate them!" Patriarch Guo gave an order with a frown, followed by an angry roar. "Do you not see the wounds on his body? What a shame!"

As she was dragged away, the woman broke down crying and slumped on the ground. A middle-aged man rushed in from the back. After inquiring, he learned that his son had died and his face turned pale.

Instead of crying and screaming like the woman, he asked, "How did he die?" His gaze swept over the surviving disciples and his heart sank as he saw how badly each of them had been injured.

"We were attacked first by a pack of wolves, then by two Sacred Beasts and dozens of ferocious beasts. We had already been injured. Under such conditions, we were forced to battle to the death. Consequently, a number of people died, and those who survived were severely wounded and dying."

An older man reported dejectedly. He turned to look at Patriarch Guo and the middle-aged man. "Not only that, but the wolf badly mangled Uncle Sun's calf, nearly biting off his entire leg. Besides that, the injuries to his body are numerous. In order to repel the wolf king, the Great Elder was seriously injured and his internal organs were damaged. The traumatic infection nearly took his life."

Those who had not witnessed this scene were taken aback when they heard this. What kind of bitter fight resulted in so many people being badly injured? What kind of bitter fight put the lives of the team leaders, the Great Elder and Uncle Sun, in danger?

"Quick! Send people to the back mountain's teleportation array to bring the Great Elder and others." The Patriarch reacted and sent rescuers right away.

After a moment of silence, the middle-aged man asked, "How did you all manage to survive when two Sacred Beasts and dozens of ferocious beasts attacked?"

When the older man heard this, his heart was stirred and he silently sighed, "Truly worthy of becoming the clan's figure. As soon as he began speaking, he got right to the point." It's just that they couldn't talk about it casually, even though they all knew about it.

So he paused for a moment before saying, "The Great Elder will discuss this matter in detail with the Patriarch." He abruptly stopped speaking after saying this.

The middle-aged man's eyes flashed as he heard this. It's difficult to say? Was there another reason? He pondered for a while. The rescuers finally came while assisting the injured Guo family disciples. The Great Elder was among those who needed assistance while coming back to the mansion. Additionally, there were three unfamiliar people they had never met before.

### **Chapter 2678: A Name**

"Patriarch." The Great Elder called out. When he was about to salute, Patriarch Guo had already strode over to help him up.

"Great Elder, you are injured. There's no need for you to stand on ceremony." As he spoke, Patriarch Guo glanced at the Guo family disciples as they walked in while supporting each other. "It's fine as long as you're back. You should all rest and treat your injuries!"

Everyone did what they were told and helped each other leave. Only the Great Elder, Feng Jiu, and the Xie siblings stayed behind. The middle-aged man had the weeping woman brought back to the courtyard. When he looked at the three Feng Jiu and the others, the Patriarch asked, "May I know who you are?"

"Ahem, ahem!" The Great Elder coughed softly.

Seeing this, Patriarch Guo told him, "Great Elder, please return to the courtyard and rest. I'll have someone look at your injury. We'll talk about the rest later."

"Alright." The Great Elder gave a nod. "Please look after these three."

Patriarch Guo's thoughts were roused. "Great Elder, rest assured," he said as he looked at Feng Jiu and the others.

The Great Elder nodded before being helped by two guards back to his courtyard.

Guo Xinning, who stood by him, said, "Father, I'll take them to rest first."

"Alright, you may leave now." Patriarch Guo replied. With a smile, he faced Feng Jiu and the Xie siblings. "Please stay here for a while, rest well, and let my subordinates know if you need anything."

"Thank you very much, Patriarch Guo." As the three of them responded, they followed Guo Xinning out the door.

Seeing this, the middle-aged man was prompted to ask the patriarch with a slight frown. "Patriarch, why did you let these three go without knowing who they are?"

Patriarch Guo threw him a glance and replied, "The Great Elder gave the instruction to treat them with courtesy. Certainly, there is a reason. Let's wait until Great Elder and Elder Sun have had a chance to rest before we try to figure out why."

The middle-aged man clenched his fist and finally nodded before turning away.

Patriarch Guo sighed inwardly as he looked at him. Who would have guessed that they would lose several Guo disciples along the way? The world, however, was changeable, the great path was ruthless, and the path of immortal cultivation was difficult to follow. Who knows what tomorrow will bring?

Guo Xinning led the three of them to a courtyard. "Stay in this courtyard first. There are several rooms here, and by staying together, you can take care of each other. If there is anything else you can tell my subordinates. I will come and see you later."

"Mm-hmm." Feng Jiu answered and gave him a nod. Then he turned around and left.

Xie Shisi opened the door to the rooms and asked, "Little Jiu, are we going to stay here? For how long?"

Feng Jiu looked at Xie Yutang. "Ask around how far away this place is from the city where your family lives. Also, please have someone prepare water for me. I'd like to take a bath."

"Sure." Xie Yutang responded, told his sister, and exited the courtyard.

Because Feng Jiu had protected them throughout the journey, and he also got his contract beast with Feng Jiu's help, in his heart, Feng Jiu's position had long been different. He didn't feel anything was wrong when she ordered him around, but he accepted it as normal.

"Come here, little one." Feng Jiu sat at the stone table in the courtyard and drew the attention of the wandering silver wolf.

"Master, you still haven't given me a name." The silver wolf ran up to her and fawned at her.

### **Chapter 2679: Inquiry**

"Hmm, the name..." She pondered while holding her chin. Old White and Little White are already taken, so you..." She suddenly grinned while stroking its snowy white fur with one hand. "Since you are a silver wolf, I'll call you Silver Ingot."

"Silver, Silver Ingot?"

The silver wolf was still thinking about what kind of domineering name its master would give it, but who knew she'd give it such a tacky name. How short was its master on Silver Ingots?

"Pfft!"

The name made Xie Shisi, who was nearby, laugh. "Silver Ingot? Hee hee, that's a good name. Silver Ingot, Silver Ingot. It sounds nice! What a pity that this Silver Ingot cannot be spent."

The silver wolf lay down and pulled the corners of Feng Jiu's clothes with its claws.

"Your name is Silver Ingot, and you must stay quiet so as not to scare people." Feng Jiu ordered him. When she saw the maid carrying water not far away, she stood up and said to Xie Shisi, "I'll return to my room first. Don't run around."

"Mm hmm, I know." Xie Shisi replied. She entered the room while stretching her waist. "I'm going to lie down as well. I haven't had a good night's sleep in two days. I'm exhausted."

Feng Jiu went inside after the maid prepared the bath water. The silver wolf was ready to follow but the door was shut. "Keep an eye on the door. No one is permitted to enter without permission."

The silver wolf looked at her, whimpered in response, and sat by the door. It had not yet been contracted by its master! It'd be on its best behaviour and try to get a contract with its master as soon as possible!

Feng Jiu squinted her eyes with pleasure as she soaked in the bath bucket. She closed her eyes and submerged herself in the hot water. As soon as she began to relax, she fell asleep unconsciously.

After an unknown amount of time, Xie Yutang's voice could be heard outside.

"Feng Jiu, Feng Jiu."

She opened her eyes while in the bath bucket. She stood up, dried the water stains on her body, changed into a set of azure clothes, dried her jet black hair, simply tied it up, and then opened the door and left.

"Little Jiu, I know where this is." Xie Yutang trotted forward when he saw her walk out. "This place is neither far nor near my home. We should be able to get home in a day if we ride on the flying swords."

Feng Jiu nodded in response. "In that case, let's get some rest today and leave tomorrow."

"Alright!" Xie Yutang replied. "Then, I'm going to take a shower, too."

Feng Jiu nodded. She returned to the room again and the silver wolf remained outside the door.

Feng Jiu did not take a rest after entering the room, but instead flashed into the space to cultivate...

Guo Xinning, who had bathed and dressed his wounds, was just leaving the room when he noticed his father seated in the courtyard. He paused briefly and then approached.

"Father."

"Xinning, what about your wounds? Are they serious?" Patriarch Guo asked, observing his second son. He noticed that his son had become much more composed since returning from the trip.

"I'm fine, Father, don't worry." Guo Xinning sat down at the courtyard table and asked, "Father, do you have anything to ask me?"

"Mm." Patriarch Guo nodded.

Guo Xinning motioned to the people in the courtyard to leave. Patriarch Guo looked at him, his mind racing, and inquired, "What in the world have you all encountered on this experience trip? Why are the fatalities and injuries so severe?"

### **Chapter 2680: Wrong**

Guo Xinning paused for a moment as if contemplating how to say it. It took him a while before he spoke. "Father, two of the three people present today are the Xie's siblings and the other one is Feng Jiu. We met them in the forest. They claimed to have become separated from their family and had lost their way."

Patriarch Guo was taken aback when he heard this. "Oh? The Xie clan? Which Xie clan? Their cultivation strength seemed to be in the Foundation Formation stage. What kind of family would allow their juniors into that place to gain experience?"

Guo Xinning let out a wry smile as he heard his father's remark. It seemed that even his father could not see through Feng Jiu's strength. How powerful was Feng Jiu?

"I'm not sure which Xie clan they are because we haven't asked where they're from."

"So, they pleaded with you to bring them out?" Patriarch Guo looked at his son. "Did this incident have anything to do with them?" He noticed that all of the Guo family disciples were injured, but the three looked seemed to be in good spirits and uninjured.

Guo Xinning shook his head. "It is somewhat complicated. Initially, they only asked us how to leave the forest." Xie Yutang only asked how to get out of the forest at first, but he then invited them to join him.

"They travelled alongside us. The journey was relatively uneventful. Even though we occasionally encountered ferocious beasts, they were few. Several ferocious beasts were no match for us until a pack of wolves attacked us."

He seemed entangled as he said this. "There were dozens of wolves in the pack, and the wolf king was not only at the level of Saint Beast, but had also attained the level of Sacred Beast. To repel the wolves, the Great Elder and Uncle Sun went to fight the wolf king. In the end, both of them were hurt, particularly the Great Elder."

"Everyone was injured in this battle and the wounds were severe. However, neither Feng Jiu nor the Xie siblings were hurt during the fight."

Upon hearing this, Patriarch Guo's grim expression changed to one of amazement. "If even you are injured, why aren't the three of them hurt? What is the reason?"

"Indeed! Who will believe that the three of them were not injured when we ourselves were injured?" He murmured with a wry smile. "I also asked at the time, and they said it was because of the protection of our Guo disciples that they didn't get hurt."

Patriarch Guo twisted his brows and spoke without hesitation. "Would the Guo family disciples, who couldn't even defend themselves, also protect them? Impossible."

"Father sees the situation thoroughly." He looked at his father and replied, "I suppose nothing would have happened afterwards if I had seen that clearly at the time."

"What happened afterwards?" Patriarch Guo's heart started to palpitate, but even he was unable to guess what had happened to them.

Guo Xinning didn't tell him what happened next, only saying, "Father, we were seriously wounded and it was late at night, so we didn't leave after being attacked by the wolves and just rested there."

"What?"

Patriarch Guo was surprised. "There was a heavy stench of blood after the battle, but you stayed? The smell of blood must have tempted the beast to attack you once again as the night became darker. That's why your team members were killed and injured so heavily, right?"

"No." Guo Xinning looked at him while shaking his head. "You're wrong."
