

Ghost Doctor 2694

Chapter 2694: Sigh

Patriarch Li narrowed his eyes and stared at the young man in azure clothes who had come out from inside the Manor. He glanced at him and saw that the strength of the other party was only low, his face darkened immediately and he snorted heavily.

“Hmph!”

The cold snort shrouded Feng Jiu with the coercion of an Immortal Sacred cultivator. The expressions of the surrounding people changed under the powerful aura and coercion.

After all, they saw the strength of the youth in azure clothes was only that of a Foundation Formation Stage cultivator. How could such a cultivation base withstand the coercion of an Immortal Sacred cultivator?

Of course, Patriarch Guo who was standing at the side saw this but he had a sneer in his eyes. He took a step back and stretched out his hand and whisked the Xie siblings who were walking behind her, behind him so that they wouldn't be hurt by the coercion. Feng Jiu on the other hand was still standing there, her figure was straight, her expression was indifferent and her posture was casual.

She stood there quietly as if she didn't feel the coercion that was looming over her. Her pair of clear eyes fell on Patriarch Li. She didn't hear him speak, so she asked again.

“Haven't you come to me to be held accountable? What kind of explanation do you want?” Her eyes turned and landed on Young Master Li: “I didn't know that you can hold someone accountable for yourself getting drunk and falling down the stairs while trying to molest a girl.”

Patriarch Li frowned and stared at Feng Jiu with a ghastly expression. He couldn't figure out the person in front of him. His coercion had been released but he didn't react at all? Something was not right.

However, no matter how much he thought about it, he would never have thought that this young man would be stronger than him. So, he stared at him coldly and said in a sinister voice: “A weak person doesn't have the right to speak!”

“Weak person?”

Feng Jiu raised her eyebrows slightly and murmured softly, as if recalling the meaning of those two words. After a while, she chuckled lightly. She looked at Patriarch Li on front of her, who had hidden murderous intentions, and said: “Believe it or not, this weak person can make you sprawl down and unable to stand up.”

“Hahahahaha! You ignorant child! Even if people say that I am bullying the young, I will teach you a lesson today! I'll let you know the fate of the defiant!”

The wanton and arrogant laughter fell and Patriarch Li's powerful spirit energy surged from his body. As soon as he moved, he swept forward in a lunge and reached out to strike Feng Jiu's neck.

“Sss!”

“This Patriarch Li actually made a move against this young man. There is such a big disparity of strength between the both of them, it’s like an adult bullying a child.”

“This is an adult bullying a child. How old is Patriarch Li and how old is the young man in azure clothes? Probably not even as old as his son! His strike is to take his life, there’s not many people who will resort to this.”

“Isn’t the young man in azure clothes a guest of the Guo Family? Why is Patriarch Guo watching from the sidelines?”

“He probably doesn’t want to bring trouble upon himself. After all, the status of the Li Family is the same as the Guo Family in the city.”

The people around discussed what was happening. Some of them looked at the young man in azure clothes with sympathy. As soon as Patriarch Li made a move, it was fatal. It seemed that the young man in azure clothes was fated to die here today.

The Xie siblings and Guo Xinning watched from the back and couldn’t help but think, though Feng Jiu’s strength was not weak, the other party was a Patriarch after all, would she be able to avoid that fatal move?

Only Patriarch Guo’s eyes moved slightly and he shook his head and sighed secretly. Other than himself, probably no one else knew what he was sighing about!

Chapter 2695: Humiliation

Just when Patriarch Li sneered, the hand that was reaching for Feng Jiu’s neck had nearly reached his target when the situation changed suddenly. The sudden change startled him and his face turned pale.

Feng Jiu watched quietly as Patriarch Li’s hand, which was filled with strong spirit energy, reached for his own neck. Maybe in the eyes of others, his speed was extremely fast, however, in her eyes of the peak level Immortal Emperor, his Immortal Sacred level speed was extremely slow, so slow she couldn’t bear to watch.

She took a small step with her left foot to the side when the big hand reached towards her and shifted her body slightly so that she avoided his hand easily. At the same time, she raised her hand and her four fingers touched the top of the opponent’s wrist while her thumb was placed under the wrist. Just like that, his wrist was flipped over without much effort, and she saw the shocked face of Patriarch Li as he let out a scream with a pale face.

“Hiss... arghhh!”

The voice was shrill and sharp, and it came out of Patriarch Li’s mouth so suddenly that it frightened everyone, who also had a look of shock on their faces as they thought that they had heard it wrong. When the people around looked, they saw that Patriarch Li’s hand was clasped by the young man in azure clothes. His hand was twisted outward and Patriarch Li’s posture was strange.

The young man in azure clothes moved again, and kicked his foot up. Patriarch Li bent his knees and his whole body thumped and fell down. With a few easy moves, Patriarch Li was subdued, and the eyes of the people around them widened in disbelief.

“Did I see this right? No, I must be wrong!”

“Hey! Oh my God! Where did this perversion come from? Could it be that the young man in azure clothes isn’t a teenager at all but a rejuvenated old monster?”

“How is that possible? The boy’s bone age is there, his strength can be hidden, but bone age can’t be hidden can it?”

“Who knows? Maybe there is some secret method or treasure, otherwise, how can Patriarch Li be forced onto the ground?”

“It seems that Patriarch Guo has known about it for a long time, you can see that there isn’t even the slightest bit of shock on his face. He has long known about the perversion of the strength of the young man in azure clothes.”

“No wonder Patriarch Guo was persuading Patriarch Li not to make a big deal and go back. So that was the reason!”

Everyone suddenly realised why Patriarch Guo had been trying to dissuade him earlier, it was just that Patriarch Li didn’t appreciate his good intentions.

“Patriarch!”

“Father!”

“Patriarch!”

When everyone from the Li Family had recovered from their shock caused by the scene in front of them, they ran forward and exclaimed.

The coercion of the strong was released and everyone stopped, they all stared in front with widened eyes in disbelief.

“Let go of my Father!”

“Let go of our Patriarch!”

The Xie siblings looked at Feng Jiu with their mouths wide open and incredulous. Now that they had seen her take action with their own eyes, they finally knew that she was really strong! Even Patriarch Li was not her opponent.

Amongst everyone there, the person who was most shocked and embarrassed at this time was undoubtedly Patriarch Li.

His face was pale and his forehead was dripping with cold sweat as his hand was twisted and buckled behind his back by Feng Jiu. The kick to his knee made his entire leg feel sore and weak, he couldn’t stand up, let alone resist.

To be humiliated in front of so many people by a young man like this, and having so many eyes staring around him, he was so embarrassed that he couldn't even raise his head.

Chapter 2696: Show Mercy

"Young Master, please show mercy."

An aged voice came from the sky with a sigh. As soon as the voice had spoken, the expression of Patriarch Li, who was still being held by Feng Jiu, changed. Startled and panicked, he raised his head and towards the sky, but as he was being held down, he was unable to turn his head to look up in the sky. Though the familiar voice was enough to make him panic.

When the people of the Li Family heard the voice, they were also stunned. When they looked back, they saw an old man in grey clothes sitting on a flying contract beast coming towards them. There were 5 people behind him, and when they saw the old man and five people, the people of the Li Family were overjoyed.

"It's Old Patriarch, the Second Master and a few Elders."

"Grandfather is here!"

"Grandfather must have come to get justice for me!" Young Master Li said in joy. He waved his uninjured hand in the air: "Grandfather! Grandfather!"

One or two people were surprised: Why did the Old Patriarch come out of seclusion? The Old Patriarch should be in seclusion at this time! Moreover, why did the Second Master and few Elders come as well?

Those two people were a little older and tended to think more deeply about things. Though they saw that the Old Patriarch had come, they didn't think that he was here to get justice for the Patriarch. After all, if he had been here to get justice, he would have shouted when he was coming forward.

For a while, the two of them looked at each other, then they took a few steps quietly.

The contract beast crouched down on the ground and lowered its body so that Old Patriarch Li could get down. As soon as the old man got down, Young Master Li ran forward.

"Grandfather, Grand..."

Before he could finish speaking, he saw his Grandfather's majestic and stern gaze that swept towards him. The stern look in his eyes made him shudder and he was unable to say the next words.

After Old Patriarch Li stared at him coldly, he walked past him without saying a word and walked to the place where Feng Jiu was.

He watched the young man in azure clothes who had pinned his son to the ground half-kneeling. He saw his son's pale face as he was powerless to resist and the look of panic and helplessness on his face when he saw him.

"Father, why are you here?" Patriarch Li asked in a trembling voice. He hadn't expected his Father would come here, and to see this scene. At this moment, he inexplicably panicked.

However, Old Patriarch Li stared coldly at him. When he opened his mouth to reply, the aura of his superior strength made everyone around them scared to speak. They all quietened down and didn't dare to be impudent.

Old Patriarch Li looked at Feng Jiu with his wise eyes. With just one glance, he retracted his gaze and eased his expression, then he folded his hands and bowed: "Young Master, please be merciful and allow my unworthy son to live. I will make sure I give Young Master a satisfactory explanation for offending Young Master."

Upon hearing this, the surrounding crowd didn't say anything but they gasped and looked at Feng Jiu in astonishment and shock. They thought that Old Patriarch Li had come to get justice for his descendants, they hadn't expected Old Patriarch Li to come and make an apology.

What did this young man in azure clothes do to deserve this treatment? That the ancestor of the Li Family would act like so? For a time, everyone's eyes fell on the young man in azure clothes.

Feng Jiu's heart moved slightly when she heard those words. She glanced at the old man and saw that his expression was magnanimous and apologetic. He hadn't put on an act for her. So she pondered for a while, then she released the hand that was holding down Patriarch Li and took a step back at the same time.

Chapter 2697: Reputation

"Patriarch!"

Those who had come with Patriarch Li stepped forward quickly and helped him up. Patriarch Li pushed away those who were supporting him and looked at his Father. His lips moved, and he was about to speak when he heard his Father's dignified and indifferent voice.

"From this moment, the Patriarch of the Li Family will be abolished. He will also move out of the Li Family and establish his own household."

As soon as Old Patriarch Li said this, everyone around couldn't help but look at him in shock. Even the expressions of Patriarch Li and his son were of shock. On the contrary, those who had come with Old Patriarch Li looked indifferent, as if they had already known about it.

"The Patriarch's position of the Li Family will be succeeded by my second son, Li Qingcheng."

As soon as Old Patriarch Li had spoken, everyone's eyes couldn't help but fall onto the calm middle aged man who had come with Old Patriarch Li. In the future, the Li Family would be headed by this Second Master Li? How the tides had turned!

"Father, Father, I know I'm in the wrong, Father, please give me another chance!" Patriarch Li quickly recovered from his shock and stepped forward and knelt down with a plop.

Old Patriarch Li didn't look at him, but looked at Feng Jiu and asked: "I wonder if Young Master is satisfied with the way I've dealt with the matter?"

However, before Feng Jiu could speak, she saw that Young Master Li had also recovered from his astonishment and screamed: "Impossible! How can this be?"

He quickly came to Old Patriarch Li: "Grandfather, this kid kicked me and injured my Father. How can Grandfather help him and not protect us? We are the children and grandchildren of Grandfather!"

Old Patriarch Li frowned and shouted in a deep voice: "Kneel down!" His coercion was released and Young Master Li who was shouting fell to his knee suddenly with a plop. His body trembled uncontrollably and he couldn't stand up even if he had wanted to.

"Apologise to this Young Master!" Old Patriarch Li bellowed in a deep voice and stared at the two of them who were kneeling in front of him.

"I, I don't..." Young Master Li was about to refuse when his Father dragged his head and lowered it: "We will apologise."

Patriarch Li turned to Feng Jiu and said: "We are sorry, we were in the wrong, Young Master, please be magnanimous and don't take offence to us."

Although he was embarrassed, he had to say this. It wasn't only because of his Father's coercion, but also because after he had fought against this young man in azure clothes, he knew that his opponent's strength was very strong, and definitely above him.

"Apologise!"

Patriarch Li stared at his son with sharp eyes, a fire burned in his heart. If it hadn't been for his son, why would he have thought that this kid would be easy to bully? He had wanted to take the opportunity to suppress the Guo Family and boost their Li Family's status. But who knew that things would turn out like this?

Having been glared at by his Father, Young Master Li was taken aback. When he saw his Grandfather staring at him again, he couldn't help but glance at Feng Jiu and lowered his head: "I'm sorry, I was wrong."

Old Patriarch Li looked at Feng Jiu, and when he saw that she was silent and didn't speak, his heart lifted slightly.

"Young Master Feng."

The old voice had come from inside the Guo Manor. When everyone looked back, they saw Old Patriarch Guo walking out. He came to Feng Jiu's side, then he glanced at Old Patriarch Li and said to Feng Jiu: "Actually, I asked Old Patriarch Li to come over. We have a friendship after all, and I don't want the Li Family's reputation to be ruined by his eldest son. I hope Young Master Feng can not pursue the matter further on my account."

Chapter 2698: Favour

Feng Jiu glanced at Old Patriarch Guo. After hearing his words did she know why Old Patriarch Li had come to deal with this matter. He had apologised as soon as he came, and it was because of him.

When she realised this, she nodded: "Fine! Since Old Patriarch Guo asked, then I'll forget about it."

Upon hearing this, Old Patriarch Li breathed a sigh of relief and stepped forward to thank him: "Thank you Young Master Feng, and thank you too, Old Man Guo." He smiled and nodded to Old Patriarch Guo.

“Your eldest son is out of line, if you were to stay in seclusion for a few more years, your Li Family will probably be ruined by him.” Old Patriarch Guo shook his head and said.

“Alas, it’s the family’s misfortune.” Old Patriarch Li sighed and said to the two of them who were kneeling on the ground: “Go back and pack your things!”

Only then did the father and son stand up and follow the others and leave first. Those that remained were the Elders and the middle aged man, who were standing behind the old man.

“Old Man Li, I am going on a trip and won’t be home in the following days. I will catch up with you when I return!” Old Patriarch Guo said, then he said to Feng Jiu: “Young Master Feng, we can proceed on our journey.”

Upon hearing this, Feng Jiu responded and glanced at the Xie siblings. The two of them walked quickly to her side, and Guo Xinning who was behind, followed as well, as well as several cultivators who were accompanying them on their trip.

Old Patriarch Guo raised his hand in the air and an airship appeared in midair. He gestured to Feng Jiu, and saw her stretch out her hand to the side. The little silver wolf who had been squatting by her feet jumped up into her arms. She then raised herself on her toes and leaped lightly into the airship.

The Xie siblings also got onto the airship one after another. Old Patriarch Guo was at the back, and he looked at Old Patriarch Li and smiled, the words he said next were unexpected.

“So? I didn’t deceive you, did I?”

Old Patriarch Li clasped his hands together: “My Li Family will remember this favour forever. When you return, I will invite you over for a drink.”

“Hahaha!” Old Patriarch Guo laughed and patted his shoulder before he jumped on the airship and left.

After Old Patriarch Li exchanged some words with Patriarch Guo, he also left with the few people behind him and went home. After they left, a middle aged man who had been standing behind the Patriarch asked with some doubts: “Patriarch, what did Old Patriarch’s words mean?”

Patriarch Guo smiled, he walked back and said: “It can be said that Father has helped the Li Family avert a catastrophe.”

“Where would the catastrophe come from? Could it be because of Young Master Feng?” That person was confused. No matter how powerful Young Master Feng was, would a century old family really be afraid of him?

“At that time, Feng Jiu had murderous intentions. If Old Patriarch Li had come a bit later, he would have probably seen Patriarch Li’s corpse instead. If Patriarch Li dies, the Li Family won’t give up. But if they fight against Feng Jiu, even if the Li Family doesn’t get wiped out, the foundation of their century old status will still be shaken.”

Patriarch Guo smiled and continued: “So, my Father’s move can be said to have helped the Li Family avoid a catastrophe. If it weren’t for my Father informing Old Patriarch Li on the account of their friendship, I think that no one would have told him the news.”

The man next to him was startled: "What news?" Why was he becoming more confused as he listened?

Patriarch Guo paused and glanced sideways at him: "It seems that you're still lacking practice, tell you what! Tomorrow, you will pack up your things and go to one of the Guo Properties to be a steward."

As soon as he had spoken, he stepped inside and left the middle aged man standing there...

Chapter 2699: Explain

The steward walked past the young man slowly. The young man came out of his reverie and he stepped forward quickly to hold on to the steward and hurriedly asked: "What did the Patriarch mean by what he said earlier? I only asked a few questions, why does the Patriarch want to transfer me out?"

The steward raised his lowered eyelids and glanced at him, then said: "Before Young Master Feng came out, Old Patriarch had already sent someone to the Li Family to find Old Patriarch Li, who was in seclusion. Although I don't know what Old Patriarch told the dark guard to tell Old Patriarch Li, but what I am certain of is that the Old Patriarch must have told the dark guard to tell Old Patriarch Li that his son has provoked someone who cannot be provoked, and if it wasn't handled properly, it will bring disaster to the Li Family."

The steward spoke in a leisurely manner, he had a godlike calm appearance: "Young Master Feng is no ordinary person. If Old Patriarch Li had come a step later, Patriarch Li would probably have been dead. If Patriarch Li had really died, then the matter would become serious. At that point, even if Old Patriarch Li doesn't want to fight Young Master Feng, the death of his son must be avenged, and it will become troublesome. After all, Young Master Feng's strength is unfathomable, and we don't know his background. Who knows whether he has some big family backing him or not?"

The young man listened dumbfoundedly, why hadn't he thought about all those implications?

"Even if the Li Family are able to kill Young Master Feng, there will be consequences. I am afraid the forces behind Young Master Feng and his family will not spare the Li Family. And if they cannot beat Young Master Feng, then the Li Family will be killed and a big family will crumble. So our Old Patriarch helped the Li Family avoid a catastrophe."

The steward glanced at him standing there and continued speaking: "So, when you asked what news, this is the news. You are part of a big family clan and yet you are unable to see the intricacies of the matter, and don't understand it. How can you be qualified to stay by the Patriarch's side? It makes sense for the Patriarch to transfer you to gain more experience. After all, the Patriarch is not blind like Patriarch Li, otherwise, why am I the steward and not you?"

The young man stared at him in astonishment. As he watched the steward step away, he couldn't help but take a deep breath and let it out slowly.

Indeed, he didn't think about matters as deeply, and sometimes his brain seemed to work at half a beat slower. After he had been told this, he knew where the problem was. Even so, he still held back a choke in his heart.

Had he known, had he known he wouldn't have asked so many questions.

At this time, Feng Jiu had entered the wing-room in the airship to cultivate, while the Xie siblings also went to their own room to practice when they saw this. At the bow of the airship, there were only a few members of the Guo Family there.

Guo Xinning poured a cup of tea for his Grandfather, and was unable to suppress asking the question: "Grandfather, Old Patriarch Li was in seclusion, how did you get him to come out of seclusion?"

"Hehe, Old Man Li is in seclusion all year round, how can the dark guard go to the place where he has retreated? I only instructed the dark guard to go to Old Man Li's second son first. His second son isn't as ambitious and after a few words, he knew exactly what he had to do."

The Old Patriarch took a sip of tea and said with a smile: "So he took the dark guard to see Old Man Li, and I told the dark guard to tell Old Man Li that his son had provoked someone that can't be provoked. If he didn't want a catastrophe to befall his whole family, then he had to deal with it quickly."

Guo Xinning was slightly startled: "So he believed Grandfather's words and rushed over?"

Chapter 2700: Distance

"No, he just believed half of it." Old Patriarch Guo smiled and said: "Didn't you see him riding on his contract beast and arrived with a few Elders?"

"Guo Xinning was stunned: "Was he thinking about making a move?"

"I know what he's like. He was disturbed during his seclusion and he probably thought that if the other party was some unknown junior, he would just kill him and it can also bring about a shocking effect. That's why he brought a few Elders with him. However, I don't think he ever expected his son would be restrained by Feng Jiu and didn't even have the strength to resist. That's why the latter happened."

The Old Patriarch looked at Guo Xinning and said: "As the Head of the Clan and the Head of the Family, there are many things to consider. Many things can't just be looked at on the surface. It is necessary to analyse the pros and cons and make the decision that is most beneficial to oneself. For example, Old Man Li made the right decision at that moment, he not only saved his son's life, but he also saved his family. In order to minimise the damage, he had already made the best decision he could."

Upon hearing this, Guo Xinning nodded, his heart shook. He wasn't being trained as the person to take over as the next Patriarch, so he had little contact with these kinds of matters as such. Very few people had also told him, until this moment, that being a leader was not so easy.

Although he didn't understand some things and didn't see matters as clearly back then in the forest, when he went home and told his Father, his Father had already guessed his words before he had finished speaking.

When he thought about Feng Jiu having entered the wing-room and not came out after they had entered the airship, his heart moved and he asked: "Grandfather told Old Patriarch Li the news, and thus having them owe us Guo Family a favour. Is Feng Jiu keeping his distance from us because Grandfather disclosed the news?"

Old Patriarch Guo smiled and drank his tea without speaking.

As for Feng Jiu, she was indeed cultivating in the wing-room, but Guo Xinning was right, she didn't really want to have too much contact with the Guo Family. Old Patriarch Guo asked her to spare them on his account and she did. After all, the matter wasn't handled to her liking, but after this incident, the relationship between the Guo Family and the Li Family would definitely be greatly improved. They had used her, and perhaps she didn't like how calculating the Guo Family were, so she didn't want to have too much contact with them.

After going back this time, if she were able to obtain more information about the Immortal Ascension Ladder, she planned to leave early and go to that place first.

In the other wing-room, the Xie siblings were supposedly cultivating, but in actual fact, they were whispering to each other.

"Elder Brother, does Little Jiu dislike Brother Guo and the others?" Although Xie Shisi was simple-minded, she was sensitive to the situation.

"You see that too?" Xie Yutang said. He thought for a while, then said: "He doesn't seem to like them very much, he doesn't seem to want to have too much involvement with them. Otherwise, why would he say he wants to cultivate after the airship left?"

.....

"Why? I think Brother Guo is pretty good!" She didn't understand.

When Xie Yutang heard this, he stared into her eyes immediately: "Let me tell you, don't have any thoughts about him. He comes from a big family, they have many people and a lot of problems, it's better to keep a distance."

Xie Shisi blinked and said strangely: "But I remember that Elder Brother seemed quite happy when he heard that Old Patriarch Guo wanted to visit our family! He even invited him to stay at our Manor."

Upon hearing this, Xie Yutang suddenly felt very uncomfortable.
