C10 Grandson and Grandson Conspire Together

"The Alien Flame descends, Sure enough, the people of Huo family are not ordinary people. The heavens have bestowed such a grandson to me, Huo Ye. This is also a great opportunity for me!" Huo Ye's face was full of excitement. He looked at Huo Ming, unable to suppress the excitement in his heart.

The descendants of the Huo family have always focused on cultivating the Fire God Art, but they all cultivate the Fire God Art. However, none of them knew that the Fire God Art is also cultivated in the fire. Yes, it is cultivated in the fire that makes one stronger. Once one cultivates the Heavenly Flame, one's combat strength will increase exponentially in battle. This is the best place for the descendants of the Huo family! "

"Fire God Art. Unfortunately, even now, a portion of it is missing. Once there is a lower portion, one can finally become an immortal, cultivate the Immortal Flame, and become an immortal in fire!"

"Although your grandfather and I have lived in Baizhu Country for the rest of our lives, I'm still an Immortal! I'm afraid I won't be able to make it to the end of my life. " However, I'm not blind or deaf. That's why I know your path, Ming. You won't just stay in Baizhu Country. I hope that you can find the Fire God Art and become an immortal. It's the Huo family's honor to let the ancestors of our Huo family have glory. I, Huo Ye, do not have much expectations. Your life is extraordinary. It is enough for me, the Huo family, to have Ming. Therefore, the reason why my grandfather gave you all this power was because he wanted you to grow stronger. The important task of protecting the Huo family is not yours. And because of your father, but because of him... All of his heart was for the Huo family, but he was always a blockhead. In the end, he's still a notch off! "

"Fire God Technique, upper part. I can cultivate it to the Spiritual Infant Stage realm, while grandpa is at the peak of the Spirit Lake Stage realm. " With grandfather's potential, I can only stay here. As for the lower part... Grandpa wants to find it in your lifetime, Bring it home, grandfather is also very young. I really don't know how much longer I can live when I'm really old. So what if he went crazy with Ming for a while?

"When I was young, I was brave. In the name of battle, there were always more victories and fewer losses on the battlefield. " Even in the Battle of Beichuan, my grandfather never failed. On the contrary, he had defeated Lin Tian, who had an extremely high cultivation base. Therefore, Ming, you must remember this. No matter how strong your opponent is, you should never lose to yourself. Therefore, failure wasn't scary. What was scary was losing to one's own heart. No matter what, you must always

remember this sentence. So, in your heart, your own heart... Then, you will do what you do! "

Huo Ye sighed. Huo Ming could tell what was going on. Huo Ye was old. He did not know what to do. However, while Huo Ming was pondering, he had other thoughts. Since he couldn't break through, he had to find a way to find the other part. His Godly Fire Spell came from the Divine World. Therefore, to the people of Huo family, it was impossible to cultivate it. The only consequence was that his body would explode and he would die. Huo Ming had a great compatibility with the Godly Fire Spell because he was a divine soul.

There was also this divine flame. Even if he had a divine flame in the God Realm, after the collapse of the God Realm, his divine flame had become like this. It was likely because this place couldn't contain that kind of thing. As a result, only this spark remained.

Thinking about this, Huo Ming could only smile bitterly. In the past ten years, the spark was still the spark. Huo Ming simply called it the spark. It wasn't called any flame, much less divine flame.

As a result, Huo Ming suddenly had an idea. Since it was not Divine Fire or Fire, it was still Mars. He might as well divide it.

The Godly Fire Spell itself didn't have a description, so it might as well be called the Fire Star Realm. The next step would be the Fire Star Realm, and the last step would be called the Divine Fire Stage Realm.

If one were to talk about the realm, the Fire Star realm was almost the same as the first three realms. As for the Fire Star realm, was it necessary to find a place with flames and absorb them?

It was this thought that made Huo Ming think of something. With just the Godly Fire Spell, there was only one spark, so it naturally wouldn't cause any big waves. However, absorbing the flames would be extraordinary.

Thinking of this, Huo Ming suddenly raised his head. Even Old Master Huo Ye was shocked, "Grandpa, I wonder what kind of strange flame or earth fire is there?"

"Strange flame? Earth fire?" Old Master Huo Ye asked suspiciously.

"Ming, do you want to use earth fire or fire to cultivate?" Old Master Huo Ye asked seriously.

"Yes, that's it! I wonder if there is such a place?" Huo Ming asked.

"There really is such a place. Back in Baizhu Country, when my grandfather was fighting a war, I've seen places like this before. I remember it on my map. It seemed to be called Flame Valley. It's always hot, and when the snow falls, it melts. There was no water at all. I was here all those years ago. I only left after I broke through a lot, but so many years have passed. I've never been there, and I don't know what exactly happened here. Come, let me show you the region of Flame Valley!" Old Master Huo Ye immediately removed the map from the side and unfolded it. He pointed at the specific location to Huo Ming.

"This place is in the mountains and rivers of Baizhu Country, millions of miles away. At the very edge of this place, there is a broken volcano. " There is a sinkhole there, although it hasn't erupted all year round. However, it was too far away. And here, which was also the distance from the West Prefecture. There's a broken mountain range 30,000 kilometers away, and that's Flame Valley. Due to the broken mountain range, earth fire gushed out. That place became uninhabited, but those places were also extremely dangerous. Occasionally, some fierce beasts or barbarians would appear. Therefore, if you want to go, "I will send someone to escort you there!" Old Master Huo Ye said seriously.

"It's fine. If I go there, I will go. I will come to my grandfather's place and tell him that I will bring Old Master Lin Tian with me. " As for my grandfather, he will be in charge here. This is the beginning. Therefore, everything is difficult, but for my grandfather, What kind of trouble has he not experienced? To lead an army is your specialty. I hope that when my grandson comes again, he will see an iron army fighting against a hundred men. But I think if I go back, there will be a conflict with my father. At this moment, my grandfather doesn't need to interfere. My grandson knows what to do. Since you are acting, then the more realistic the better. During this period of time, I haven't been gone for long. "I reckon that many people also think that something has happened to me..."

"Then do I need grandpa to escort you back?" Old Master Huo Ye looked at Huo Ming and asked.

"No, I just need grandpa to help me." Huo Ming looked at Old Master Huo Ye and nodded.

In the next moment, Old Master Huo Ye endured the pain and thrust his palm at Huo Ming. With the strength of a peak Spirit Lake Stage warrior, even Huo Ming, who was at the Spirit Core realm, would not be able to withstand it easily.

Cough, cough, Huo Ming coughed up a mouthful of blood, "Grandpa, you really did do it! Just act like you are doing it, there is a need to do this..."

"Grandpa, are you trying to make it look real? However, seeing that you are fine, grandpa can rest assured. " However, you still need to cover it up. I'll send someone to

hire strangers to hunt you down. After you return to Huo City, Just say someone's after you, As for who that person is, Ming, I think you know... "

"Alright, grandpa. I'm leaving now." Huo Ming looked at Huo Ye and realized that the old man was still very experienced. Huo Ming understood what was going on with this palm strike.

After Huo Ming left, Old Master Huo Ye smiled and said, "Ming, I'll see how capable you are. I'll send some experts to hunt you down. This is the true way!"

Huo Ming, who was already far away, knew that Old Master Huo Ye actually had such an idea in order to test his potential. Huo Ming probably wanted to beat the old man up after he found out.

When he walked out of the Boundless Sea, Huo Ming was curious, but when he turned his head, he was shocked. "Old man, you're not playing with me! "Send a Spirit Lake Stage! There are also three people at the Spirit Core realm chasing after me!"

"Hurry up and run..." Huo Ming didn't wait for too long. The injuries on his body weren't serious to begin with. Along the way, he was chased by four powerful warriors. He chased them for three days, and by the afternoon of this day, he had been chased by four powerful experts. Huo Ming's face was full of fatigue, and his body was pitch black. This was what Huo Ming had done on purpose. The injuries on his body gradually worsened under the pursuit of the four men. Outside of Huo City.

After Huo Ming was struck by a palm, he was cut by a blade. He spat out a mouthful of blood and fell outside the Huo City. Before he fainted, he pulled away his son and screamed for help. Immediately, someone stopped the four assassins, but one of them was accidentally cut off. However, the four assassins still managed to kill a few soldiers of the Huo City before escaping...

The soldiers of the Huo City's city guards all approached Huo Ming. Because Huo Ming's body was too dark, after looking for a long time, they realized that the one who fainted was actually the young master of the Huo family, Huo Ming.

As for the sign, it was picked up by the soldiers of Huo family. Just like that, the carefully arranged scene became real.

In the fire prefecture, Huo Tian was fuming with anger. He was reading a book. Who would have thought that someone would rush in? Even Huo Tian was furious. Do you still think this is the fire prefecture?"

"Reporting to the patriarch, the young master is back..." The servant looked at Huo Tian with fear and said slowly.

"This unfilial son still knows to return? I will not beat him to death, but he still knows to come back..." Lan Ling'er, who was walking in, heard these words and immediately had tears streaming down her face, "Where is Ming?"

"Madam, the young master is seriously injured and is now in a coma..." The servant's body went limp and directly knelt down.

"What?" Lan Ling'er was already thinking about her son. When she heard that she was seriously injured, she immediately fainted, "Quickly go and find someone and bring Madam to the room to rest. Quickly take me to see that unfilial son..."

After Huo Tian settled Lan Ling'er down, he immediately called the old doctor in the residence and headed towards Huo Ming's direction.

The small courtyard by the lake was actually where Huo Ming had lived for ten years. When Huo Tian rushed over and saw the knife wound on Huo Ming's body and the blood at the corner of his mouth, his heart suddenly trembled. His heart was extremely moved.

"Is the old doctor here? Hurry up and save my son. If you can't save him, don't live anymore." Huo Tian roared. His face was full of worry. He could not hide it.
