C13 The Prime Minister's Estate Denies This

Huo Tian left and headed out of the Minister of War Residence. He stopped in a dark corner. "This Li Yang is stuttering. It's obvious that he has some reservations. I don't know what's going on yet. I have to find out more about this matter..."

Right after Huo Tian left the Shang Shu Residence, Li Yang secretly sent people to chase after the place where Huo Tian left...

Outside the Imperial City, ten miles away, a large group of assassins surrounded Huo Tian.

"Who are you guys? You even dare to kill me, Huo Tian... Are you people from the Shang Shu Estate?" Huo Tian was on his horse, glaring at all the assassins.

The leader of the assassins stood out, "Sect Master of Huo family, you just didn't pick the right time. After chasing your child, you followed closely behind. Moreover, you didn't even bring a single soldier with you. Just how strong are you? That's right, you're just a puny little Spirit Core warrior, and you still think you're some formidable figure? "

"How dare you! I, Huo Tian, am someone you can slander as you please! You're all courting death!" The blade on his body was unsheathed. Huo Tian jumped off his horse and charged at the man.

However, that man was sent by Li Yang, so he naturally wasn't too strong. All the assassins attacked him in an instant. Even Huo Tian was injured, so he had no choice but to flee towards the Imperial City.

"Alright, brothers, let's withdraw!" The leader of the assassins looked at where Huo Tian left and laughed.

After these people left, Huo Tian suddenly returned to the dark and found the people he had killed. He also found a few tokens.

With a glance, these tokens were no different from the ones in Prime Minister's Mansion. The injured Huo Tian was already furious. This time, he was even more furious. He rode his horse and headed towards Prime Minister's Mansion.

After running for a long time, Huo Tian arrived in front of Prime Minister's Mansion. Looking at the few big words in Prime Minister's Mansion, Huo Tian suddenly thrust his blade into the middle of the three words, "Prime Minister's Mansion." Immediately, the few servants guarding the gate were shocked.

"Master of Huo family, this..." The few servants naturally knew Huo Tian.

"Ask your Prime Minister to come out. I have something to discuss with him..." Huo Tian said angrily.

"Reporting to Sect Master of Huo family, Prime Minister. I received the order today and went to the morning court..."

"Morning court? Alright, I will wait in Prime Minister's Mansion and wait for Prime Minister to come back..." Huo Tian's face was full of anger. He had nowhere to vent his anger, which made the few servants tremble in their hearts.

"This..."

"Don't tell me the Prime Minister's Mansion doesn't welcome me?" Huo Wo Ma looked at the servants and asked.

"So it's the Huo Tian Family's Master. Brother Huo Tian, why are you so angry? You didn't even protect the plaque of Prime Minister's Mansion?" The person who came out was the son of the Prime Minister, Wang Yueming.

Wang Yueming's words were light and flexible, and he wanted to blame Wang Yueming, "I don't care if I ask you about this! What is this thing?"

When Huo Tian said that, the tokens were given to Wang Yueming one after another, which made Wang Yueming frown.

"This isn't the token of all the guards in Prime Minister's Mansion... Why is it in brother Huo Tian's hands?" Wang Yueming frowned.

"What do you think? "My son, Huo Ming, was hunted down first. I brought the weapon to Minister of War Residence's Minister of War Residence's Residence of Lord Li Yang to verify it. Lord Li Yang said that even the saber and token came from your Prime Minister's Mansion..."

"After that, I left the Residence of Minister of War and prepared to leave. However, I was never chased. Over twenty assassins surrounded me and tried to kill me. Their words were extremely arrogant. I killed a few people and obtained these things..."

Huo Tian's words caused Wang Yueming to frown even more. There were no assassins in Prime Minister's Mansion. These things belonged to Prime Minister's Mansion. There was no doubt about it, and there were three tokens attached to them. All of them belonged to Prime Minister's Mansion. However, no one from his Prime Minister's Mansion had moved out!

"Brother Huo Tian, you must be careful. I will bring you to check the records of Prime Minister's Mansion. This is an important matter. Otherwise, even some military officials would not be able to see it."

Wang Yueming was naturally very clear about this. He had also seen Huo Tian's injuries. All the evidence proved that Huo Tian had been hunted by others not long ago. However, these people might not be from Prime Minister's Mansion.

Early in the morning, an imperial decree was sent from the Imperial City. It was said that it was an early morning assembly. Wang Yueming was even more cautious when he saw that the prison had been robbed in less than a day or two.

Once the matter was involved, the Prime Minister's Mansion would not be able to escape its punishment. He was afraid that the Prime Minister's Mansion would not be the only one to be killed.

Minister of War Li Yang was an expert in scheming. Wang Yueming knew this very well. Huo Tian had always been a hot-tempered man. He was a man of courage and no schemes. Perhaps, he was angered by Li Yang's sneak attack and came to the Prime Minister's Mansion to denounce him.

The plaque was gone. There could be more. If there was a battle in Prime Minister's Mansion, everything would grow bigger and bigger.

The case of the prison robbery had a hunting case in front of it. If Huo Ming wasn't enough, he would be Huo Tian. Clearly, there was someone who wanted to attack the Huo family in secret. No one knew what Old Master Huo Tian would do to this matter...

Huo Tian naturally didn't know about Wang Yueming's analysis, but at this moment, he also felt that something was strange. Someone was chasing after him right after he left. Clearly, these people knew where he was going.

Wang Yueming's words would depend on the organization. It did not matter if they looked at it. If they really thought that something was wrong at this critical moment, everything would become a problem.

After looking at all the grading, Wang Yueming's expression changed, and Huo Tian's expression also changed. This was because none of the grading had been vacant or missed out. Even some of the recent grading hadn't changed at all!

"Brother Wang, it seems like there is a reason for this. Someone must be trying to frame us in secret..."

Just as Huo Tian was about to continue, the butler suddenly ran up and whispered something into Wang Yueming's ear.

When Wang Yueming heard this, he was also shocked, "There are changes to the weapon personnel in the prefecture, and there are also changes to the command token. There are also losses..."

Judging from the time they joined forces, it just happened to coincide with the fact that Huo Ming was being hunted down. The other news was also about the change in the personnel in the prefecture not long ago. It just happened to coincide with the time Huo Tian spent in Prime Minister's Mansion.

This caused Wang Yueming's expression to change again and again. Naturally, Huo Tian was also very curious about this matter. Therefore, he asked, "Brother Wang, what happened?"

"It's nothing. It's just some trivial matters. It doesn't matter. These matters should be dealt with afterwards. Brother Huo Tian, please speak in secret." Wang Yueming's eyes flickered as he walked towards a certain place.

After arriving at a dark place, Wang Yueming whispered, "Brother Huo Tian, I believe you know about these things now. Someone must have set up Prime Minister's Mansion in secret. That's why we have to investigate this matter. I will send someone to treat Brother Huo Tian's injuries right away. We will deal with him when he returns. What do you think? "

"Forget it. Since it is like this, it is not convenient for me to stay here. In the future, I, Huo Tian, will come to visit you again to apologize. Please apologize to the Prime Minister on my behalf! " I'll leave first... " Huo Tian naturally could not stay any longer. Once something went wrong, it would naturally go to the Monarch. The current Huo family was no longer the Huo family of the past..."
