Chapter 4 - Conspiracy and Conspiracy -

C4 Conspiracy and Conspiracy

"Xiao Ming, it seems like my grandfather's plan is not as deep as yours!" Old Master Huo Ye sighed. He was very happy when he heard the person's report.

Ever since he grew older, the Huo family had gradually become more dangerous. Old Master Huo Ye could not tell this. The grandson that he had always doted on seemed to have no interest in cultivation. This made Old Master Huo Ye very anxious.

Looking at the smile on Old Master Huo Ye's face, Huo Ming's heart was filled with bitterness. Only now did he know that he had been born a long time ago. The old man did a marriage for him. Only now did he know that the person of the marriage was... It was actually the princess of King Jing Xi's Royal Highness, Princess Yunyue. This made Huo Ming anxious. All he wanted to do was to get rid of this marriage. However, this old man didn't seem to want to agree.

"Grandpa, Ming has a favor to ask. I wonder if grandpa will agree?" Huo Ming tried to ask.

"What is it?" Old Master Huo Ye became interested when he heard this. He looked at Huo Ming and asked.

"That's right. Grandpa, can you help me withdraw the marriage..." Huo Ming knew that this was a little difficult, but there was nothing he could do. Right now, he had yet to figure out what exactly was going on with his Godly Fire Spell, and his cultivation seemed to have just started. This marriage was something he absolutely could not allow.

Old Master Huo Ye blew on his beard and glared at him. "Boy, I really thought that grandpa was old and muddle-headed. This little princess Yun Yue's face can be said to be extremely delicate and pretty. " Even if she is only in her embryonic form now, she will definitely be a beauty when she grows up in the future. Kid, you don't know how to appreciate good fortune... "

"Grandfather, Ming is someone who has great vengeance. What does a mere Princess Yunyue count as? Huo Ming's expression changed and said.

Is that so? Then tell grandpa, what kind of revenge do you have? Old Master Huo Ye lowered his head and looked at Huo Ming.

"Well, Grandpa, you promise not to tell anyone. Otherwise, from now on, Ming won't talk to you anymore..."

Huo Ming could only smile bitterly in his heart. He naturally knew that he couldn't tell anyone about his secrets. Therefore, he only told him what he could tell Old Master Huo Ye. Otherwise, this marriage would definitely not be rejected. He would be in big trouble in the future.

"That's right, grandpa. I have already cultivated to the Spirit Dan stage." Huo Ming's words made Old Master Huo Ye spit out the tea he was drinking.

"What? Say it again! Old Master Huo Ye opened his eyes wide and asked.

"I said, I have reached the Spirit Dan stage..." Huo Ming's voice was very soft, but Old Master Huo Ye still heard it.

Old Master Huo Ye could even hear the sound of swallowing his saliva. "Ming, are you sure you are telling the truth?"

"Of course not! Huo Ming said with certainty.

"Good, good, good..." the old man said loudly.

"The Huo family has an heir. At such a young age, you are already at the Spirit Core realm. If there are a few more years, you will not be able to enter the Spirit Lake Stage realm." Even if it's the old man, I'm afraid that he won't be able to match up to me! Sure enough, the Huo family has a talent... "Old Master Huo Ye was extremely happy. His face was full of excitement, and it was hard to hide it.

For the past ten years, he had always thought that Huo Ming couldn't cultivate, or that he didn't like cultivation. He had thought that Huo Ming had hidden himself very well. He should have thought about it a long time ago. When he thought of this plan, Huo Ming had hidden his cultivation base.

"To be honest, how many years have you been hiding it from Grandpa? The old man looked at Huo Ming and wanted to ask more questions.

"Only in the future..." Huo Ming said naively. However, he was secretly delighted. He would not tell Huo Ye that he had started cultivating since he was young. It was just because of the Godly Fire Spell that it was too difficult to cultivate here. He didn't even have any god spiritual energy. So far, it was just a spark. It was just that its power was a little stronger.

He was annoyed because this spark was extremely powerful, but it couldn't be strengthened. This was the pain in Huo Ming's heart. If this spark was a little bigger, even if it was a flame, it would still be good!

In the beginning, in order to protect Lan Ling'er and himself, he used the power of the spark to burn that maid and the dagger to nothing. The maid turned into ashes, and the dagger turned into a pool of molten iron.

"I see!" But it was also like this that made the old man even more excited. "Ming, you are indeed worthy of being my grandson. You have the demeanor of me, Huo Ye!"

"You have reached the Spirit Core realm at such a young age. If you were to wait a few more years, I'm afraid you would not be able to surpass your grandfather, but..." Old Master Huo Ye's face darkened. "However, you have to hide all of this. Otherwise, this will bring you danger..."

"Grandfather, about Princess Yunyue..." Even now, Huo Ming had not forgotten about this matter.

"We will talk about it in the future. Now, it is you who must protect these secrets. Your life is above all. Yun Yue..." It's fine if you don't want it. The young master of Huo family shouldn't lose his life for a woman, but in the future... "Old Master Huo Ye's face was solemn. Just as he was about to continue, he heard Huo Ming yell.

"Come on, come on! Grandpa, let's not talk anymore. That's good, you can promise me. You have to keep your word that you won't force me to marry again. Otherwise, Ming will really run away from home and never return to the Huo family..."

"Good, good, good, my good grandson. Grandpa will promise you. However, this matter must be known by the two of us. We cannot let a third person know about it. Even your mother, Lan Ling'er, is the same. Even your useless father is the same. As for his grandfather, he doesn't dare to do anything to you..."

"However, the bigger this matter is, the greater the benefits it will bring to the Huo family. During this period of time, you will temporarily stay in Marshal's Mansion. This place is extremely hidden. They are all the guards of Huo Ye. There are no outsiders. You can stay here and cultivate. You don't have to go anywhere..."

Old Master Huo Ye, at this moment, he was in charge of so many things. He really cared about this precious thing. He didn't even exchange Yun Yue for it.

However, after Huo Ming left, Old Master Huo Ye smiled bitterly, "How can I tell King Jing Xi about this matter? This brat actually schemed against me as well. His true schemes are endless..."

Huo Ming, on the other hand, was secretly laughing at Old Master Huo Ye's plot. Your open plot will depend on who is powerful.

In the room, Huo Ming finally calmed down. With regards to the Godly Fire Spell, with his current soul power, He had only seen a few realms. For the past ten years, he had

always wanted to break open the Godly Fire Spell. However, it wasn't satisfactory. This Godly Fire Spell... When he was reborn, He had no idea why this Godly Fire Spell had appeared in his mind. He only remembered that day. He was standing on the land of the God Realm, looking at the sky of the God Realm. But in the next moment, with a bang, The whole realm collapsed, and he... Because of this, he came here because of the collapse of the God Realm.

The collapse of the God Realm left him at a loss. Even now, ten years had passed. He didn't seem to be used to everything here. In the God Realm, he was just an ordinary deity. However, he didn't know who his parents were. He didn't know who he was either. He only knew that his name was Huo Ming. With the Godly Fire Spell, everything else... He didn't know anything else.

Perhaps, he would have to wait until he opened the Godly Fire Spell before he could truly find out what was going on.

He had been gone for an entire month. On this day, Old Master Huo Ye came to Huo Ming's place and asked, "Ming, how is your cultivation?"

"Grandpa, are you alright? But how is the Huo family now?" Huo Ming asked worriedly.

"I'm fine. You're missing now. The entire Huo City has turned upside down. In the end, not even your shadow has been found. It was precisely because of this that it gradually calmed down. Ling'er used her tears to wash her face all day long and blamed your father, Huo Tian, on the ground. She said that he never liked you since he was young. He only had one child. He was gone just like that. He wanted to see someone. He wanted to see a corpse if he died, but he didn't even die. If you want to live, you have to be certain... "

"Oh, that's good. Let's go and explain to Mother in the future. As for Grandpa, should we analyze the situation of the entire Huo family? "And the situation in the Oceanic Lands..." Huo Ming's... A single sentence caused Old Master Huo Ye to suddenly remember something.

"Alright, follow me to the army camp. I will bring you to see the current situation of the Huo family and everything here..." Old Master Huo Ye felt that he needed to make some preparations.

In the army camp, Huo Ming stood there and looked at the map hanging there. Then, he carefully looked at what the two of them had analyzed. "The Prime Minister, Ruyan Liu, all the civil and military officials, as well as the land of the two prefectures, as well as some forces around Huo City. " The princes and the old officials... "

After analyzing all of this, Huo Ming nodded, "Grandpa, it seems that we need to use some of our power..."

"Ming, are you planning to rebel? Old Master Huo Ye's expression changed when he heard Huo Ming's words.

"Grandpa, what are you thinking about? Conspiracy? This is a crime of treason. In Baizhu Country, you will be executed! Huo Ming naturally knew what Old Master Huo Ye was talking about.

"Then you..." At this moment, Old Master Huo Ye was also stunned. He had no idea what Huo Ming was trying to do.

In fact, it was different. Although Huo Ming was just an ordinary deity in the God Realm, he had lived for a long time. The time in the God Realm was relatively still. It was completely different from the mortal world. A day in the God Realm was equivalent to a hundred years in this world.

For some reason, Huo Ming didn't cultivate in the God Realm. He just quietly waited until the God Realm collapsed...
