

SO THE GOD OF LEARNING HAS A CRUSH ON ME - CHAPTER 16 QUIZ

For the first-year questions, Shi Qi was still comfortable filling them out, however, she forgot one thing.

The teacher had not yet talked about what she had filled in at this time.

So much so that when the class representative was collecting the homework, he accidentally knocked over the book on Shi Qi's desk, and when he picked it up, he was silent when he saw the math exercise book that was two-thirds filled in.

He thought he was ahead of the game after taking the lead in self-study during the summer, but he didn't expect that Shi Qi had already started to brush up on the problems!

He sent the homework to the office and came back to the classroom and went into prep without stopping.

The opening test of the first year of high school started half a month after the beginning of the school year, as scheduled.

The first year of high school is not divided into subjects, literature and science subjects need to be examined, a total of nine courses.

The first thing you need to do is to take a look at the test.

The person sitting in front of Shi Qi on the exam was the god of learning, Si Eucalyptus.

The first thing you need to do is to get down and go to sleep.

The actual fact is that you can't get a lot of money for your own personal use.

The new senior class list came out in less than a week.

The new list of the top 100 will only be the top 100.

The grade list would only put the top 100 on it.

Because it was the first test, everyone was curious as to who would be first.

When Qi looked at the crowded crowd, jumped hard, but could not see clearly, almost popped out the contact lenses.

She touched the sweat, the world is really not friendly to short people.

The world is so friendly to short people. When Huizhi and Si Eucalyptus went to the kiosk to buy water, they passed by the bulletin board and were not interested in looking at it, but when they glanced at the way Shi Qi jumped up on her tiptoes, they couldn't help but walk towards the grade list.

Huai late: "No need to look, it must be your first place."

From elementary school to now, Si Eucalyptus has always been first, never second.

Xu Future squeezed out from the crowd and looked very excited, "QiQi, guess who's number one?"

Qi Qi did not hesitate to say, "Si Eucalyptus."

Si Eucalyptus took a step and saw Xu Future ask with a surprised look on his face, "QiQi, how did you know that?"

"I guessed it with my toes." Qi Qi didn't think twice, he would be the first in his grade for three years in a row in the future, sitting on the title of God of Learning.

The company's main business is to provide a wide range of products and services to its customers.

The four girls who heard the laughter turned back in unison, when Qi glanced at Si Eucalyptus, could not help but face a hot, how always in front of the god of learning to lose face!

This is how she can still chase after the god of learning...

The first thing I did not expect was that she would guess that she was number one in her grade, did she actually pay attention to herself?

The first thing you need to do is to take a look at the rankings, and drag your little sister with you.

The first thing you need to do is to get a good idea of what you're doing.

The crowd gradually dispersed at this time, the two walked to the senior class list.

There was no surprise that the top of the list had a big Si Eucalyptus written on it.

The next second place was Xu Qingzhi of class three.

Si Eucalyptus looked down the row and finally saw Shi Qi's name in the fifty-seventh place.

The first thing you need to do is to get a good idea of what you are getting into.

The company's main business is to provide a wide range of products and services to the public.

The company's main goal is to provide a comprehensive range of products and services to the public.

Huai Chi: "..."

He looked at the tenth place, only to see that it was written, Yang Xiaoling in senior class (2).

Si Eucalyptus then looked at his own results.

Language 138, foreign language 146, math 150, physics 100, chemistry 100, politics 90, history 97, geography 98.

Si Eucalyptus couldn't understand how someone could do so badly in high school physics when it was so simple.

Unbelievable.
