

God Of Medicine 171

The God Of Medicine Son-in-law Chapter 171

“Can you still disappear? Are you an ordinary person now?” Nangong Lengshan was surprised.

“Well, it can be said that except for my medical cultivation, my body is not much different from ordinary people, but it may be a little tough.” Xiao Chen nodded.

After hearing Xiao Chen’s description, Nangong Lengshan had a slight sense of urgency.

Nangong Lengshan thought and asked:

“Where is the desert God of war you’re talking about now?”

“It’s in the East China Sea now. The specific location is unknown, but I know he probably came after me.” Xiao Chen replied.

“Why did it come for you?” Nangong Lengshan asked again.

“I almost killed him once.” Xiao Chen whispered.

“What?” Nangong Lengshan was slightly shocked.

“You mean. You almost killed a man you call invincible?”

“Invincible is just invincible in the sense of ordinary people. Now the most technologically developed places in the world may have developed weapons against the constitution of the God of war, and it is possible for the God of war to be killed.” Xiao Chen explained.

Hearing Xiao Chen’s description. Nangong Lengshan suddenly took a breath.

It seems that Xiao Chen is much stronger than he thought.

“Of course, I didn’t succeed in killing him in the end, or maybe he was saved. I didn’t leave until I remembered that his vital signs had disappeared.”

In fact, Xiao Chen also had some doubts. At the beginning, he decided to kill the desert God of war before he left.

But I didn’t expect him to come back to life, but now he can’t go to the desert God of war to ask why. After all, now the other party is looking for revenge.

In addition, he was originally a very insidious and cruel God of war. Xiao Chen now saw that he had no time to hide. How could he be reluctant to find him.

After the two finished talking, Nangong Lengshan said that he would first go back to his room to tidy up his thoughts.

Xiao Chen agreed, and then while practicing, he was thinking about how to solve Shen Hongtu’s problems first.

Although he may not pose a great threat, it’s really uncomfortable for someone to always point at himself behind his back.

The other side. Meng songran and others returned to their mountain gate.

They are the disciples of hualongmen. They see Meng songran coming back.

Mo Nian, the head of Hualong sect, and Jin gudu, the elder, welcomed them.

This time, they sent out the four most proud disciples of their own sect. They are not old enough, and their accomplishments have reached the level of medical emperor.

Moreover, the four usually practice quite tacit understanding, and almost no one can match them.

But seeing Meng songran return empty handed, Mo Nian immediately frowned.

“What about Xiao Chen’s head?” Mo Nian asked.

“The sect leader, the elder. He was guilty and failed to cut off Xiao Chen’s head.” Meng songran knelt down when he met.

The three people behind him also knelt down.

“Needless to say, you know our door rules. Since the task has not been completed, take the punishment yourself.” Mo Nian said, and with a wave of his big sleeve, he was ready to leave.

Jingu hurriedly held him: “sect leader, you’d better ask about the situation before making a decision. The five poisons are planted in the boy’s hands. In fact, it’s not easy for them to come back safely.”

When Jin Gu knew that he would send his disciples to assassinate Xiao Chen, he actually refused.

Although he didn’t know who Xiao Chen was, he knew that the five poisons were all killed in his hands. The other party must have some great means.

But Mo Nian wants to cultivate resources for a little. The industries promised by the Shen family are still moving.

In recent years, most medical schools have begun to decline. The most important thing is that many areas have begun to develop, and their practice areas have been forcibly occupied.

Most medical schools are not good at fighting, and many medical schools have to compromise under the threat of modern advanced weapons.

So now what Mo Nian thinks is to let them have their own industry in the outside world.

At that time, if someone dares to seize the cultivation place of their sect, they will directly force the other party back with external forces.

This is also the situation. A move to have to bow your head.

Although Jin Gu knew that Mo Nian was considering the long-term development of the sect, they did not know much about Xiao Chen.

We can't make a final conclusion just by relying on the words of Shen Hongtu's family. Let your disciples take risks.

He still advocates that everything should be done steadily.

But Mo Nian had another idea. He knew that the five poisons and two elders were powerful. However, if the other party is a highly trained doctor, he may not be afraid of these two people.

Because what medical practitioners are most afraid of is poison, and the five poisons and two elders feel a little superfluous when they use poison for medical practitioners.

He knew that the means of Meng songran and others were far above the five poisons and two elders. He was very sure that this action would succeed.

Because Mo Nian especially taught his "Xu Long Jue" to these four people.

He didn't believe the four would fail.

But now I still see four people fail and return, which is really slapping him.

So there's no reason why he shouldn't get angry.

Meng songran will be punished immediately.

But Kingu persuaded him.

The reason why Meng songran dared to answer Mo Nian so righteously is that he saw Jin Gu aside.

Their accomplishments are the highest of hualongmen, and they have reached the Ninth Section of Yihuang.

And their views on many things are just the opposite. So every time there is something important to decide, they will quarrel for a long time and finally make a decision.

Now Meng songran is to let Jin Gu know Xiao Chen's personality, and then look at their attitude.

He has always been opposed to assassinating Xiao Chen. At that time, say it yourself. It is estimated that he will support making friends with Xiao Chen immediately.

At that time, if they quarrel, they will be free from punishment, and then he will find a way to contact Xiao Chen and catch Shen Hongtu at that time. This will kill two birds with one stone.

As a disciple of the sect, he naturally knows Mo Nian's idea.

Of course, he won't do anything harmful to the interests of the sect, but he knew from an early age that many things have more than one solution.

Although the Shen family is respectful to Longmen, he can see that Shen Hongtu is quite crafty.

So he was unwilling to cooperate with Shen Hongtu in his heart. On the contrary, Xiao Chen conquered him with his magnanimity and vision.

Of course, Xiao Chen also didn't expect to say a few words casually.

The God Of Medicine Son-in-law Chapter 172

Meng songran was given a few more healing pills to get such an effect.

Sure enough, the two above began to quarrel now.

Seeing their disagreement, Meng songran hurriedly went up and said:

"Tell the sect leader, elder, I don't know if I should say one thing."

"Say!" Mo Nian was quarrelling with Jin Gu just now. She was already bored. With a big hand, he said it directly.

"Yes." Hearing the order, Meng songran knelt in front of them and said:

"First of all, as the leader of this assassination, I didn't finish the task. I think I should be punished. The three younger martial brothers just follow me. They don't need to be punished."

After hearing this, the three disciples of Hualong sect immediately came up and knelt down together and said:

"We are willing to be punished with elder martial brother!"

"All right. Don't use any more bitter meat tricks. If you have anything to say, you will naturally be punished." Mo Nian said with a straight face.

"Well, they all want to do a good job in this task, but they may encounter some difficulties. Don't you have any ideas to say? Let me hear them." Jin Gu looked at Meng songran.

“Yes!” Meng songran nodded, then bowed his hands and said, “sect leader, elder, this time, in the confrontation with Xiao Chen, we found that Xiao Chen is not a man of great evil as Shen Hongtu said. On the contrary, we feel that he is more like a decent son.”

“What are you talking about? I asked you to assassinate. After a long time, did you still make a friend with each other?” Mo Nian found that Meng songran’s tone was wrong.

“Yes, we made a friend of brother Xiao Chen, but we really think he is a person worthy of deep friendship. Instead, he is Shen Hongtu, just taking advantage of us.” Meng songran said everything when he saw it. So he simply admitted his relationship with Xiao Chen.

Several disciples behind him said to him, “yes, sect leader, that Xiao Chen is really worth paying.”

“You’re really going to turn around. Come on! Pull it down and serve it with a stick!”

After hearing this, Mo Nian was furious and directly punished the four people.

Meng songran heard this. There was no change in his face, and the faces of the three disciples behind him immediately became a little ugly.

But Jin Gu immediately stood up and said, “wait, I think what songran said is very reasonable. I don’t think we should get too close to the Shen family.”

“You!” Mo Nian’s face turned red. It’s obviously angry.

“Great elder, it’s a shame to say friendship and loyalty to your children here!”

Jin Gu was not angry when Mo Nian said this, but looked at Meng songran and said, “songran, what else have you left to say? Go on.”

After hearing this, Meng songran quickly nodded and said, “yes, I want to. Join hands with brother Xiao Chen and bring the Shen family. In this way, we can not only gain a good friend like brother Xiao Chen, but also get the greatest benefits.”

“Impossible! Meng songran, you are shameful. Do you know what your behavior is? We Hualong sect will be ridiculed by all medical schools. We will never have a chance to be human again.” Mo Nian immediately objected.

“Sect leader, you also know that the times are changing and the future of our medical repair is worrying. I think this time should be a time to constantly find reliable partners, rather than pay attention to these so-called face and dignity.”

Meng songran immediately connected with Mo Nian’s words.

“It’s the opposite! It’s the opposite! It seems that I’ll teach you a lesson myself today!” Mo read out his anger. I can’t bear it anymore. I don’t know when I have an extra bamboo stick in my hand. I’ll beat Meng songran when I come up.

But just after taking two steps, Jingu stopped him and said, “I think what songran said is very reasonable. We really shouldn’t be bound by those old rules now. Since we want to keep up with the times, we should do it thoroughly.”

Mo Nian was so angry that he didn’t bother to argue with them. He threw the bamboo stick and said, “well, if more than half of the people agree with you, I don’t care. Let’s go with you!”

Then he left angrily.

Meng songran saw Mo Nian so that the corners of his mouth immediately bent an arc.

It seems that his plan has been successful.

Jin Gu also hurriedly came up and began to discuss Xiao Chen with him.

On Xiao Chen's side, Nangong Lengshan thought about it for a long time and made a relatively feasible plan for the time being.

It is mainly to let a Ling and Wu Yaqing reduce the number of times they go out during this period.

And he will find a way to eliminate any records related to them.

On the other hand, Xiao Chen still needs to find a way to see if he can contact Xiao Qingyuan. After all, Xiao Qingyuan will give advice to them every time he encounters a crisis.

When I was a child, now they also believe in Xiao Qingyuan.

Xiao Chen didn't refute this point, but he didn't know how to find Xiao Qingyuan.

In particular, now there is only a Ling left in the extermination organization, and most of the advanced equipment is estimated to have been left in Africa or destroyed.

So don't say that we are looking for Xiao Qingyuan now. Even if we want to find Shen Hongtu, we have some trouble.

Nangong Lengshan suggested that he had been wandering outside for some years, but he also knew some people and companies specializing in investigation. He can try here.

Xiao Chen didn't have much hope for this, but now he didn't have many ways, so he asked Nangong Lengshan to try.

The next is about Xiao Chen's cultivation plan.

Now it seems that Xiao Chen's cultivation of disease pulse has reached a bottleneck period. After getting the guidance of the mysterious old man earlier.

His disease pulse has made a great breakthrough, but it has been stuck in the Ninth Section of the medical emperor. Now it doesn't have much effect to go outside to absorb the disease Qi of ordinary patients.

We must think of a way to improve quickly.

Just when they were silent, Xiao Chen's mobile phone suddenly rang.

Xiao Chen picked it up and saw that it was the strange number again.

Every time that strange number calls, there will be something for Xiao Chen to do, and almost everything will be harvested after each completion.

So Xiao Chen answered the phone again.

There was still a voice that looked like Xiao Qingyuan, and Nangong Lengshan heard it sitting aside.

So they silently listened to each other's instructions.

"This may be a serious matter. You need to go to Tianyang Lake in the middle. Then you will know what it is. There are some dangers. Pay more attention." Then he hung up at the other end.

The God Of Medicine Son-in-law Chapter 173

"What's wrong with Tianyang lake?" Nangong Lengshan asked after listening.

Every time something happened, Xiao Chen didn't know it in advance, so he could only shake his head and said he didn't know it.

So Nangong Lengshan took out his mobile phone and began to watch the news about Yanghu in recent days.

But there's nothing on it.

"It's better for us to check on the spot. Generally, these news may not be known. Last time I went to Huining, I finally found it by myself." Xiao Chen explained.

Nangong Lengshan said that he was ready to start, but Xiao Chen was not in a hurry.

Now if he goes out rashly. It is likely to attract some people's attention, so be careful. Do more preparatory work and so on.

Although Nangong Lengshan felt a little troublesome, he also knew that the situation was still dangerous. Xiao Chen was cautious and had no problem.

While Xiao Chen was thinking about how to go out quietly, Liu Nianxin suddenly called him.

Pick up the phone. A trembling voice came from the other end:

"Little Lord Xiao Chen... Come... Come and save me!"

"Where are you? Who's next to you?" Xiao Chen immediately became vigilant.

"I'm in the group... Yes..."

The other end was hung up before he finished.

Xiao Chen immediately had some doubts. Who dares to arrest Liu Nianxin's group with such a high profile?

"Who called?" Nangong Lengshan asked.

“Liu Nianxin, now we must go and save him.” Xiao Chen didn’t hesitate too much this time.

Liu Nianxin has too many prescription secrets on his hands, and he is also a former subordinate of Xiao Qingyuan.

Xiao Chen can’t let him fall into a group of unknown hands so easily.

On Liu Nianxin’s side, a man in a golden round collar stood in his office.

“Have you been notified?” The man asked.

“Yes, I have been informed. Brother Meng, what else do you have to tell me?” Liu Nianxin quickly complimented.

Meng songran waved his hand. This time he came out to discuss with Xiao Chen about the Shen family.

After looking for it for a long time, Liu Nianxin accidentally heard the word Xiao Chen in his mouth, so he followed him to the group and took him directly. Ask the whereabouts of Xiao Chen.

After a while, Xiao Chen and Nangong Lengshan arrived. Some employees outside saw that Xiao Chen was always running here these two days, and thought there was something important wrong with the group.

I’ve been speculating, but it’s actually some private things. It just happened to Liu Nianxin all the time.

Come to the chairman’s office. Xiao Chen saw Meng songran sitting and waiting.

Liu Nianxin was unharmed.

“OK, your boy seems to like to be in the limelight recently.” Xiao Chen picked him up directly when he came up.

Liu Nianxin hurriedly begged for mercy and said, “young Lord Xiao Chen, I really can’t help it. Brother Meng is too strong, and he came to cooperate with us, so I did it. You should forgive me.”

Xiao Chen threw him away and then looked at Meng songran with a smile.

At this time, Meng songran was also looking at him with a smile.

“Brother Xiao Chen, I’ve been looking for you for a long time. I’m lucky to hear this man talking about you on the way.” Meng songran said.

Xiao Chen nodded. So it was. Xiao Chen thought his news was so easy to leak.

If everyone is like this, they will know their own situation.

Then isn’t it that people all over the street can easily find out their position.

Fortunately, it is only heard occasionally. This possibility is not absent, but it is almost impossible.

Xiao Chen then turned to Liu Nianxin and said, “at any time in the future, you are not allowed to mention my name outside, you know?”

Liu Nianxin quickly said that he would not mention his name in any place outside the group in the future.

He wouldn’t say it even at home.

“What’s the matter with brother Meng’s coming this time?” Xiao Chen saw Meng songran coming alone and thought it might be some private affairs. So the voice was a little lower.

Nangong Lengshan didn't have much interest, so he was idle and bored and went to chat with some female employees outside.

Liu Nianxin knows that he is not suitable to stay inside now. He also quietly ran outside.

Seeing Nangong Lengshan, it seems that he is interested in several female employees of the company. He asks if he wants to arrange it for him.

Nangong kicked him when he went up the cold mountain.

In his opinion. Such behavior is very disrespectful to women. He never oppresses others with his own power.

He has always been a person who pursues true love, so even if he has been out for so long, there is still no woman around him.

The reason is that he looks at people not only on the outside, but also on the heart.

Seeing that Nangong Lengshan was so presumptuous to Liu nianxindu, several female staff immediately flattered him.

However, he just hit the muzzle of the gun and was directly rejected by Nangong Lengshan.

However, a very cold and gorgeous woman attracted Nangong Lengshan's attention.

Here, Xiao Chen and Meng songran continue to talk about the Shen family.

"Brother Xiao Chen. Well, last time I went back and proposed to solve the Shen family's affairs with our sect leader and the elder, but our sect leader and the elder had completely opposite opinions. Finally, we discussed. The opinions of both sides were equal."

At this point, Meng songran paused and continued:

“The sect hasn’t made a decision yet, but I want to work with you to bring the Shen family directly. I’ll report it later. That’s why I came here today.”

Xiao Chen nodded after listening. He fully understood Meng songran’s meaning.

So he asked, “I don’t know if brother Meng knows the specific address of the Shen family and what forces are behind them?”

Meng songran listened and thought a little:

“Of course I know the address, otherwise I wouldn’t ask brother Xiao Chen to discuss this matter today. As for the forces behind them, I’m not sure for the time being, but their biggest backer is the five poisons sect. Now the forces should not be afraid.”

“Well, brother Meng, why don’t you just stay in the East China Sea for a few days and I’ll investigate first and then make a decision?” Xiao Chen said.

“Of course. I came here to take away the Shen family. I don’t care about anything else. Now I just wait for brother Xiao Chen to say a word.” Meng songran believed Xiao Chen very much.

He readily agreed to his request.

“OK, let me invite brother Meng to the hotel first.” Xiao Chen said and stood up.

Meng songran followed him out of the office.

The God Of Medicine Son-in-law Chapter 174

Nangong Lengshan is having a hot fight with the cold and gorgeous female staff at the moment.

Xiao Chen cried for a long time, but he didn't respond until Xiao Chen and Meng songran came to him.

He smiled awkwardly: "did you come out so soon? I thought you wanted to talk again."

"I don't know your name." Meng songran was defeated by Nangong Lengshan last time.

So I am still very afraid of him. Of course, now I have formed an alliance with Xiao Chen, which is equivalent to the relationship with him.

Everyone is a friend. He wants to know something about Nangong Lengshan.

"Nangong Lengshan." Nangong Lengshan didn't say much, so he answered directly.

"Oh. It's brother Lengshan. Your accomplishments were really amazing in the last war." Meng songran quickly smiled and said respectfully.

"Yes, I've only practiced martial arts for a few years." Nangong Lengshan said faintly.

"Well, this is not the place to talk. Let's go back first." Xiao Chen said and turned away.

Meng songran followed him. Nangong Lengshan motioned to the cold woman with his mobile phone.

It seems that the two should be ready for long-term contact.

After Nangong Lengshan left, a group of female staff surrounded him.

"Wow, that's the bodyguard around President Xiao. You can catch up with him."

“You’re lucky. I winked at him for a long time and he didn’t even look at me.”

“Now you’ve made it. From now on, turn over and be the master!”

.....

Just when other female staff are envious of this cold and gorgeous female staff.

Liu Nianxin saw Xiao Chen and they left, and immediately came out from one side.

“What are you doing? You don’t have to go to work, do you? Turn over and be the master? Wait until you turn over!”

The people were immediately frightened and didn’t dare to make a sound.

Liu Nianxin has just been angry with Xiao Chen. Now he sees a group of employees not working. Of course, he immediately finds reasons to get angry.

Then he walked out with his head held high and looked like a big boss.

Some employees immediately whispered when they saw him leave.

Of course, it’s still about some bad things about Liu Nianxin.

Xiao Chen came to the hotel with Meng songran. The three first arrived in Nangong Lengshan’s room.

Now he doesn’t know how Wu Yaqing and a Ling are, so he doesn’t want to disturb them for the time being.

Anyway, Nangong Lengshan said there was nothing in his room. Just go in.

When he came to the hotel, Meng songran was not used to it.

He has been practicing in the Mountain Gate of Hualong gate since he was a child. He takes a bucket down the mountain to carry water every day, and then practice. Various physical exercises and medical training.

Every day was a bitter day, but he still felt that such a day was real.

Compared with those who live in the city outside, many people never pay attention to cultivating their physical body every day.

So the body is quite fragile.

In his opinion, this is wasting his life and doing something useless.

Xiao Chen didn't express any views on these things.

Everyone has his own ideas. Living should be free.

of course. Meng songran didn't know about some poor families.

Just came to live in a seven-star hotel directly with Xiao Chen.

After a brief chat, Xiao Chen first asked whether the so-called investigation companies in Nangong Lengshan were reliable.

Nangong Lengshan patted his chest and said that he knew that one family was quite reliable, as long as it was something that could be found. It's right to give that company a guarantee.

Xiao Chen is skeptical, but now he doesn't have many ways. He can only pay Nangong Lengshan to contact the company he said.

Help investigate the strength of the Shen family.

So Nangong Lengshan took the card given by Xiao Chen and set out.

Xiao Chen talked with Meng songran about Cultivation in the room.

He found that there was a gap between the cultivation of Hualong mountain and the medicine immortal gate.

They don't start to practice medicine since childhood, but first practice their body and exercise to a certain extent. Only when the elders in the door teach them certain medical practice methods.

But even so. In fact, the speed of their cultivation is still very fast. For example, Meng songran's cultivation has reached the fifth section of the medical emperor. I'm not too old. I'm only in my twenties.

In fact, this kind of cultivation method is much better than that of the medicine immortal sect.

But then Xiao Chen found the defect. Although their medical accomplishments are relatively high, in fact, the treatment methods such as seeing a doctor are not good.

Even some disciples of the medical immortal sect with low medical accomplishments can't compare. Relatively speaking, they are better at how to fight and fight.

That is, their sect actually has some deviation in the thinking direction of medical cultivation, but it is closer to the cultivation method of Nangong Lengshan.

However, Xiao Chen certainly wouldn't say that the other side was bad, but was constantly praising their cultivation methods. The speed was very fast.

Meng songran is also very interested in Xiao Chen's disease pulse. He also heard for the first time that someone can absorb some disease Qi from others for cultivation.

Of course, Xiao Chen's constitution is very special. In addition, only when the Dantian is broken can he practice.

These conditions add up. It is estimated that there is no second person in the world who can cultivate the disease pulse.

Therefore, it is completely understandable that the way of cultivation is slightly different.

After chatting for a while, they both began to practice.

Although there is nothing special happening around Xiao Chen now.

But he always had a feeling in his heart.

The future will be full of storms. Now he is eager to improve his cultivation.

In addition to the Shen family, he hopes that the news provided by the mysterious man this time can bring him some improvement in cultivation.

Nangong Lengshan came back after finishing his work. The other party said that it was difficult to check the Shen family. The lion asked for 10 million directly.

Nangong Lengshan knew that Xiao Chen didn't care about the money and readily agreed.

As soon as the other party saw Nangong Lengshan so refreshing, he immediately said that he could get the result within one day.

The next step is to wait.

Sure enough, before one day, the other end had called Nangong Lengshan.

Roughly analyzed the current power composition of the Shen family.

In addition to several assassination teams, there are two mysterious forces.

These are not found, but they can roughly guess what power it is.

One is definitely the five poisons gate. As for the other, Hualong gate is only the rescue they temporarily invited. The specific strength of the other one remains to be discussed.

The other side also asked Nangong Lengshan if he wanted to take a look at the detailed information.

The God Of Medicine Son-in-law Chapter 175

Xiao Chen meant to take it, so Nangong Lengshan went out and brought back all the investigation materials.

After reading it, Xiao Chen probably felt that this action was still dangerous.

Although the two pillars of the five poisons sect were killed last time when he became the God of war.

But there are other elders' disciples in the five poisons sect.

And ambushed in the Shen family.

As long as they find trouble with the Shen family, the other party will rise up and resist.

There are only three people on their side. Even a sneak attack can't withstand the large number of people on the other side.

At that time, there will be a war in the Shen family.

The specific situation of another mysterious force is unknown, the number of people. Combat effectiveness and location are not clear.

The three of them are more likely to be attacked.

The rest is Shen Hongtu, an old fox. He is unusually cunning.

If Xiao Chen knew that they had found the door and saw that the momentum was wrong, he would find a way to escape. At that time, the situation would be difficult to deal with.

After all, the core purpose of their action is to catch Shen Hongtu. Control him or get rid of him directly.

In this way, their manpower is quite insufficient.

Meng songran realized that he was indeed a little reckless this time.

No wonder the elder Jin Gu always told him to think twice before acting.

Seeing Xiao Chen's analysis in front of him, he immediately felt that the gap between himself and Xiao Chen was too big.

With his mind, it is estimated that he can directly unify the medical schools all over the world.

Of course, he didn't know that when Xiao Chen first established the extermination organization, he was fighting with the top strategists in the world almost every day.

Now dealing with the Shen family is Pediatrics compared with the original.

Seeing Xiao Chen's words, Nangong Lengshan thought that the affairs of the Shen family should be put away first, and said, "why don't we go out and deal with the affairs of Tianyang lake first."

But Xiao Chen shook his head and said, "although the situation of the Shen family is a little complicated, now our focus is to get rid of the Shen family."

"Ah? Didn't you just say that it's very difficult for the Shen family to get rid of and catch Shen Hongtu? And there are really too few of us." Nangong Lengshan was confused by Xiao Chen.

Meng songran didn't speak. He wanted to see what Xiao Chen thought.

Xiao Che smiled faintly and said, "Lengshan, I ask you, if there are 100000 troops in front of you, let you solve them all. How do you start now?"

Nangong Lengshan doesn't know why Xiao Chen suddenly asked about it.

But without refutation, he thought for a moment and said, "kill one by one. What else can I do?"

"We should pay attention to the ways and methods of killing one by one. It's impossible to kill indiscriminately, isn't it?" Asked Xiao Chen.

"How? That is, first use my" green wood evergreen formula "to condense into a green wood sword, and then use..."

Nangong Lengshan began to talk about how to use his own skills to kill each other's 100000 troops one by one.

Xiao Chen immediately interrupted him and said, "OK, now I'll talk."

Nangong Lengshan stopped his description.

Meng songran also looked at Xiao Chen.

"First of all, the number of 100000 troops is extremely terrible, isn't it?"

Xiao Chen said and looked at them.

Both nodded.

"So first, how can we face 100000 troops alone? Then we must first find a safe place to hide and not be easily found by the enemy."

Hear Xiao Chen say so. Nangong Lengshan patted his thigh and said:

"Yes, why didn't I think of it first!"

Xiao Chen smiled and continued: "secondly, we need to do what we can. First, we need to solve the nearest army and the least threat to ourselves."

Meng songran continued to nod.

"So now our situation is very similar to that of 100000 troops in front of us. What is the nearest force that poses the least threat to us now?"

Xiao Chen asked Nangong Lengshan.

“The nearest. The least threatening...” Nangong Lengshan frowned and thought for a moment:

“Shen family, it’s Shen family!”

After hearing this, Xiao Chen nodded slightly: “so. Although the Shen family is complex, it is also a problem that we must solve. Because it is the nearest army to us, but it is also the least threatening army.”

“Wonderful, wonderful!” Meng songran heard Xiao Chen’s statement and had a feeling of sudden enlightenment. He clapped his hands and cheered.

“What should we do now?” Nangong Lengshan asked.

“In fact, it’s not difficult. We just need to sneak into the Shen family first and catch the king first.” Xiao Chen said faintly.

“But in our current situation, we can’t sneak into Shen’s house.” Nangong Lengshan is still confused.

“Yes. We can’t help it, but the Shen family do. Look at this.” Xiao Chen took out the materials of the Shen family and opened a page. It says about yuan Qiaoxiu.

Now she is the chairman of a decoration company under the Shen family. It is specially noted that she is Shen Hongtu’s wife.

“You mean...” Nangong Lengshan frowned slightly.

Then Xiao Chen pointed to yuan Xiuqiao’s hobby: collecting antique jade.

They understood in an instant.

“It’s not too late. I’ll ask Liu Nianxin to prepare something for us. I have something here. You two can just dress up.” Xiao Chen said and stood up.

Nangong Lengshan and Meng songran also stood up.

Followed Xiao Chen out of the door.

Xiao Chen just went out and saw Wu Yaqing coming out of the room. Wu Yaqing also saw the three people.

Nangong Lengshan immediately asked Meng songran to walk away first.

“Where are you going?” Xiao Chen asked.

“Go home.” Wu Yaqing replied.

Then she turned and left.

“It’s dangerous outside now. You’d better stay in the hotel first.” Xiao Chen went up and pulled her.

“You are very busy now, and I can’t help you here, but I still want to go back and see my parents. My identity is not so important. I think they should be more willing to look for the one inside you.”

Wu Yaqing said, his eyes also looked a little gloomy.

Obviously, in the past two days, Xiao Chen has been busy dealing with things outside and didn’t pay attention to her at all, so she still has some thoughts in her heart.

“As you can see, I’ve been very busy these two days. I know you have some thoughts in your heart, but now it’s really for your safety. Just bear with it a little and it’ll be fine in a few days.” Xiao Chen said softly.

Wu Yaqing lowered her head and seemed to be thinking. Xiao Chen couldn't see her look now.

Can only wait for her to make a decision.

Just when Wu Yaqing looked up and wanted to say something, ah Ling suddenly came out of the room.

The God Of Medicine Son-in-law Chapter 176

The meeting of the three was somewhat embarrassing.

Xiao Chen didn't think so, but Wu Yaqing couldn't accept the appearance of three people talking at the same time, so he found a reason and said:

"I'm a little uncomfortable now. You'd better let me go first."

Xiao Chen pulled her back and hugged her in his arms.

A Ling thought Xiao Chen was telling her, anyway. He loves Wu Yaqing.

So she looked a little bleak, turned and was ready to go back to the room.

And Xiao Chen pulled again. She was also held in Xiao Chen's arms.

The two women immediately looked at each other in Xiao Chen's arms.

Xiao Chen said softly, "you two are the most important women in my life now. I won't give up anyone. Now the situation outside is too dangerous, so I hope you don't joke about your own life, okay?"

At first, Wu Yaqing and a Ling struggled more or less. Although they both love Xiao Chen deeply.

But now his behavior is clearly two boats, and it is still aboveboard.

Some rich people only love one lover. Those who play with their feelings will keep many lovers, and Xiao Chen should be a very devoted man in their mind.

But in fact, Xiao Chen himself is the victim. He has no way now. He is more willing to face it than escape. As for what the two women think now, he can't control so much.

After struggling for a while, the two women calmed down. Xiao Chen was not sure what they thought in their hearts, but now it was a very critical period, so he still had to make sure that they didn't run out and do stupid things.

Then he slowly released the two women. Although the two women felt more or less strange, Xiao Chen's practice still made their hearts more or less balanced.

Whether what he said is true or not, at least his behavior shows that he attaches great importance to both of them.

"Will you stay in your room for a few days now?" Xiao Chen gently touched Wu Yaqing's head, and her hand slid down her hair to her shoulder.

Wu Yaqing didn't speak. Although some light was shining in her beautiful eyes, she still nodded.

Ling said, "I'm not going out. I see you guys seem to be discussing something important, so I want to help."

After hearing this, Xiao Chen quickly smiled and said, "it's not necessary. It's too dangerous for you to go out now. You'd better stay in the hotel first. We'll deal with these things."

Ah Ling didn't say anything after hearing this, so she went straight into the room.

Wu Yaqing didn't say anything after seeing it. Followed into the room.

"Tut tut! Master, Xiao Chen, I have an impulse to worship you as a teacher." Nangong Lengshan suddenly shook his head and came out.

"What are you talking about?" Xiao Chen suddenly changed his face. He thought they were gone just now.

Otherwise, it would be a shame to be seen just now.

Meng songran also came out from one side and said, "brother Xiao Chen is really wise. Even if I can handle emotional problems so well, I really want to learn more from brother Xiao Chen."

After hearing this, Xiao Chen almost gushed out his old blood.

Nangong Lengshan has enough strange words. Now Meng songran has come to join the fun.

"Well, that's it. Now let's get down to business." Xiao Chen straightened his face and said.

With that, he turned and walked towards the elevator.

"Oh, master Xiao Chen. Teach me, your performance just now is a model among men!" Nangong Lengshan put his hand on Xiao Chen's shoulder.

"I said it all. It was just an accident. If you want to pick up girls, don't I give you enough money?" Xiao Chen slightly showed a trace of anger.

Meng songran also followed up with a smile.

Compared with the more serious atmosphere in the door, he prefers to feel very soothing and harmonious with Xiao Chen and them.

Liu Nianxin stands in the building of “huaniu” Pharmaceutical Group, holding several document bags in his hand.

At this time, Nangong Lengshan and Meng songran have put on high-end suits.

Meng songran asked a professional makeup artist to put on a little makeup. Originally, he had a good foundation.

Now a make-up is a little sunny and beautiful.

And Xiao Chen is completely changed. If someone who knows Xiao Chen suddenly comes over now, he may not recognize him as Xiao Chen.

Nangong Lengshan strongly demands that he also make up, but his idea is too weird. Xiao Chen simply cancelled it for him.

Anyway, people of the Shen family haven't seen him before, so he doesn't have any need to change his face.

Nangong Lengshan was very unconvinced. Seeing Meng songran's appearance of a sunny young man, he became jealous.

“I'm not going!” He even lost his temper.

Xiao Chen couldn't help but sweat. But he didn't persuade Nangong Lengshan, but followed his meaning: “OK, you can't go. Brother Meng and I can still handle it.”

Meng songran smiled and said, “brother Lengshan, we agreed at the beginning. Let's stay together.”

Look at his smile like a warm spring day.

Several female staff nearby were a little crazy.

Knowing that Liu Nianxin shouted at one side, "don't go to work, do you?"

The female staff reacted.

Nangong Lengshan was even more jealous. When he came yesterday, he was still the focus of discussion among these female staff. Now Meng songran is just a little better looking.

Almost all the female staff's eyes focused on Meng songran, while he seemed so dim.

The more you think about it, the more angry you get.

However, just when he was determined not to do it, the cold and gorgeous woman came over yesterday and said to him, "brother Lengshan, you must refuel."

Nangong Lengshan instantly felt that his world was full of colors.

Yes, why should so many people pay attention to themselves? As long as the people they like always support themselves.

He quickly and softly replied, "OK, I will!"

Then he ran to Xiao Chen with enthusiasm and said, "well, Ben Xiaoshuai has no requirements. All the makeup is the behavior of Niang gun. I just want to face the sky. That's the real beauty!"

The corners of Xiao Chen's mouth rose slightly.

Liu Nianxin, on the other side, put away his wallet with great pain.

It was Xiao Chen who ordered him to find yesterday's beautiful woman to say that.

The God Of Medicine Son-in-law Chapter 177

He went up for a long time, but it was useless. Finally, he had to use the trick of "money technique".

Sure enough, money can make the devil push the mill. It's easy to spend money.

The performance of the cold and gorgeous woman just now can be compared with the heroines of those movie Oscars.

But the price is that Liu Nian xinningbai lost 100000 yuan for no reason.

Although it's not much money for him, it's just that his wife is in strict control at home. He only has a little private money. Now it's less than half.

He didn't know how to live his life in the next half month.

But he can't ask Xiao Chen for money. After all, it's Xiao Chen who has a bite to eat.

If Xiao Chen no longer authorizes this prescription to him. Then his group is expected to collapse soon.

And he will become a billionaire from a billionaire.

With a slight sigh, Liu Nianxin showed a very professional smile.

He has practiced this smile for ten years, and even the most professional expression master can't see any defects when he comes.

“Master Xiao Chen, everything is ready now. I have an appointment with Yuan Xiuqiao at 10 a.m. do you think you can start?” Liu Nianxin looked at Xiao Chen.

After checking again, Xiao Chen nodded and said, “there’s basically no problem. Now there’s enough time. I’ll let them practice again.”

“OK.” Liu Nianxin stepped down with a smile.

Xiao Chen looked at Nangong Lengshan, who was full of energy, and said, “how’s it going? Have you finished reading the information I gave you last night?”

Nangong Lengshan immediately replied, “after reading it, now I can almost recite it.”

“Let’s talk about the characteristics of our jade pendant.” Xiao Chen immediately asked.

“Our jade pendant is specially made of superior natural Hotan jade. It is not only perfect, but also warm and healthy. It is very suitable for women like you. It is elegant and can warm the body. Now we do promotion. The special price is as long as...”

Nangong Lengshan said the information about the jade pendant like an endorsement on one side.

Xiao Chen told him to stop when he heard it.

“How can you do this? Are you going to sell things or endorse people? How can you do business like this?” Xiao Chen frowned slightly.

“Don’t be so demanding. It’s not easy for me to recite all of them. What else do you want?” Nangong Lengshan’s face showed a trace of displeasure.

So for the next half an hour, Xiao Chen constantly taught Nangong Lengshan how to be an excellent salesman, the way and tone of speaking, the ups and downs of emotion and the sincerity of emotion.

Although Nangong Lengshan resisted at first, he saw Xiao Chen working so hard. He also tried to learn.

Finally, Xiao Chen can only reluctantly give Nangong Lengshan a qualified one.

Then came Meng songran. Meng songran had great admiration for Xiao Chen, and now he wants to learn everything from Xiao Chen.

So I was practicing hard last night. As soon as I opened my mouth, I was fully recognized by Xiao Chen.

Then Xiao Chen did not forget to deliberately say: "look, this is the result of efforts."

Nangong Lengshan was a little angry, but he knew that Xiao Chen was deliberately provoking him.

Then he kept practicing those words in his heart.

Seeing Nangong Lengshan's face, he suddenly had a serious expression. Xiao Chen knew that his goal had been achieved.

He is to let Nangong Lengshan really pay attention to this meeting.

The first meeting is very important. Only when they leave an impression of integrity and cooperation for the first time, the next action will be carried out smoothly.

After several people practiced defecation again, Xiao Chen let them both get on the bus and get ready to go.

Liu Nianxin also came to see him off on the occasion of departure.

"Young master Xiao Chen. And Nangong eldest brother, brother songran, have a good trip!"

Originally just to perform the task, but now Liu Nianxin is making trouble. Many people in the company think it's Xiao Chen. They want to go away, or go abroad.

Of course, Xiao Chen doesn't know these things, and he doesn't need to know. Now they have only one goal. Win yuan Xiuqiao's trust and invite her people to their company at that time.

Things will be much easier after that.

They pretended to be kidnapers first. Let Shen Hongtu find a way to redeem people with money.

At that time, it is time for them to carry out their plan.

In Shen's building, a middle-aged man kept pacing back and forth in the chairman's office.

A young looking man also sat on the sofa.

"Dad. What do you mean the people in hualongmen haven't replied to us?" Shen Wuhua took the lead in saying.

"Don't worry, this Xiao Chen is really not simple. It's estimated that it's not so easy to deal with."

Although Shen Hongtu said so, the anxious expression on his face has actually betrayed him.

It has been nearly a week since he bought Xiao Chen's head with Mo Nian.

Even if Xiao Chen is hard to deal with, it can't be so long without any news.

According to the speed of hualongmen action in the past, there will be news long ago.

For better or worse, this idea will not hide from his old employer.

But what he doesn't know is that the whole Hualongmen mountain has been in chaos.

Mo Nian and a group of elders who support continuing the task are already catching people everywhere. We should catch all the disciples and elders who follow Jin Gu and support Xiao Chen.

Of course they would not be caught in such a way. Now Meng Meng Ran has disappeared. Things have not been decided. So they do not admit that Mo has the final say.

So hundreds of Chinese disciples and elders began to resist.

If someone goes to the foot of the mountain where Hualong gate is located, you can hear the sky shaking cry above.

A sect can get to this point, which shows that the lack of concentration of power will lead to such consequences.

At the beginning of the creation of Hualong gate. Jingu put forward the idea of deciding to clarify the Lord.

At that time, Mo Nian agreed to this statement in order to go to the position of the Lord.

In retrospect, it was really the biggest failure of his life.

But it's no use regretting now.

Jin Gu's side has become a climate. The key is that Meng Songran is also closer to him.

Meng Songran, the eldest disciple, still has considerable prestige, because he has been recognized by most of his disciples whether in cultivation or in person.

If he had not been supported by many elders in the sect, he would have been ignored by Jingu.

But now the momentum is almost the same.

The God Of Medicine Son-in-law Chapter 178

Compared with the current situation of Hualong gate, Xiao Chen is quite silent on their side.

The hearts of the three are constantly rehearsing all kinds of situations they will encounter at that time.

Xiao Chen gave a dead order. This action can only succeed at one time, not fail!

If they fail, it will be quite troublesome for them to get close to the Shen family again.

At that time, Shen Hongtu, an old fox, became alert. Even if Xiao Chen calculated it deeply, it was estimated that the Shen family could not be settled for a while and a half.

The most important thing is that we can't catch Shen Hongtu.

The driver drives fairly fast. In addition, the road of yuan Xiuqiao's company is unobstructed.

In less than an hour, the three came to the downstairs of meinian decoration company.

As the second largest decoration company in the East China Sea.

The company building of meinian decoration company really looks more elegant. Not only the decoration style is the fresh and refined style of the Qing Dynasty.

And there are sightseeing elevators and all kinds of exquisite sculptures on the building with less than seven floors.

Some can be seen from the outside. Others are seen only after entering the building.

The interior decoration is also antique, which makes people really feel like returning to the ancient times after entering.

Of course, the employees still wear business clothes, and only the service personnel and reception personnel wear the clothes of the Qing Dynasty as required.

I saw Xiao Chen coming. Immediately, a pretty girl came up.

“Do you have a house to be decorated or are you here to handle other affairs?”

“Oh, we have an appointment with Miss yuan Xiuqiao to talk about some private things.” Xiao Chen replied.

“What time is your appointment? The chairman is still in a meeting.” The woman asked again.

Xiao Chen looked at the time and said, “there’s about half an hour left. We’ll make an appointment at 11 o’clock.”

After hearing this, the woman made a “please” gesture and said, “three, please come here and simply register.”

The three went up and filled in some very simple information.

“OK, three gentlemen, there are still 28 minutes left from the time you agreed. Our company has a special rest area to wait. Please follow me.”

The woman turned and walked slowly to the front.

“Hey, Xiao Chen, it feels good. Why don’t you show your hands later?” Nangong Lengshan whispered to Xiao Chen.

Xiao Chen immediately despised her face. It’s really easy to change her nature. Nangong Lengshan couldn’t help talking to beautiful women wherever he went.

“I’m not going. I’m going. Go yourself.” Xiao Chen is not angry.

“Cut, what’s high? There are two now, and you’re afraid of three, four or five in the future? Anyway, you have money. People are not romantic and waste their youth!” Nangong Lengshan gave Xiao Chen a white look.

Xiao Chen stopped talking, and Nangong Lengshan quickly stepped up to chat up with the woman.

Meng songran is quite honest, smiling and walking behind Xiao Chen. He still prefers to be more disciplined.

After all, he was taught this way since he was a child.

Many female receptionists and female staff around can’t open their eyes when they see Meng songran.

After all, that face is so beautiful after makeup that women are jealous.

In addition, he has been practicing on the mountain, and his skin can drip water smoothly.

Don’t say it’s a woman. It’s estimated that men can’t help but want to come up and rub it.

Xiao Chen was helpless. He didn’t want to make such a high profile.

Who knows that the makeup artist saw that Meng songran had such a good foundation, so he gave him a complete set for a moment.

Finally, because Meng songran is so beautiful, he doesn't even charge much money. Said it was free.

Directly asked Meng songre for a group photo.

Meng songran doesn't know much, but he feels it's a good thing to be noticed, because he keeps trying to cultivate because he wants to be noticed in the sect.

Today's achievements.

However, he did not know that this "concern" was not that "concern".

Although the influence is not too great, Xiao Chen always feels a little uncomfortable, but he can't say what he feels.

Then he reacted. Too handsome to be a kidnapper.

After the three sat down in the rest area, the receptionist was also based on the principle of getting the month first. When I came up, I asked Meng songran for a group photo.

Nangong Lengshan on one side is directly petrified. I just talked for so long. The other party didn't even leave a contact information.

To Meng songran, he was surprisingly active.

He couldn't help asking: what's the matter with the world? Can you really do whatever you want if you are handsome?

Xiao Chen was too lazy to make complaints about the cold mountain in Nangong. He just closed his eyes and ponder over all the changes that will happen next.

Meng songran saw that Xiao Chen was so calm and liked thinking, and immediately began to learn.

So he also closed his eyes and began to think. Although he didn't know what to think about, he still followed suit. After all, he couldn't let Xiao Chen say everything.

But it doesn't matter if he doesn't study. When he closes his eyes, several female staff members will be dazed by him in an instant.

This is simply the feeling of those super high-profile male stars on TV in front of their own eyes.

Many female staff members turn pink to passers-by in an instant. One after another came to ask for Meng songran's contact information and various signature photos.

Meng songran never got these things, and immediately cast his eyes on Xiao Chen.

Xiao Chen immediately felt that the eyes of the women around him also flew to him.

Seems to be waiting for Xiao Chen to answer.

Now he knows how difficult it is to be handsome to work out. This group of women surround him. Later, what they want to do is expected to be paid attention to all the time.

Xiao Chen's thoughts were interrupted. We have to deal with things here first.

Nangong Lengshan is jealous. It's impossible for him to help. It's a good thing if he doesn't make trouble.

Xiao Chen didn't expect that before she began to fight with Shen Hongtu, she had to fight with these female staff members who were crazy about flowers.

It took a long time to explain Meng songran's identity.

He is not a star, nor does he take any high-profile signature photos, and his personal information is completely confidential.

Many female staff are unwilling. How can such a beautiful man be ruined.

Meng songran must go to some talent show.

Even some people began to introduce agents.

Xiao Chen smiled helplessly and persuaded everyone away.

After a while, the previous female receptionist came and said that the meeting was finished in advance, so yuan Xiuqiao also had some time, so they could go up in advance.

After the meeting, some leaders came back, and the staff were more honest.

The God Of Medicine Son-in-law Chapter 179

Following the female receptionist to the seventh floor, Xiao Chen explained to them that he must be very professional when he goes in later.

Both nodded and prepared for so long that it was time to test their results.

"Three, there's our chairman's office ahead. I won't follow you. Good luck." The receptionist bowed respectfully.

Of course, I can get this treatment because of the presence of Meng songran, a beautiful man.

“Thank you.” Xiao Chen also responded politely.

The three came to the door of the chairman’s room.

The words “Ci Ning Palace” are also engraved directly above the door.

It seems that yuan Xiuqiao should have some different feelings for the Qing Dynasty.

Xiao Chen gently buttoned the door.

“Please come in.” The voice of a middle-aged woman came from the door.

Xiao Chen and the other three pushed the door in.

As soon as I went in, I saw all kinds of vases everywhere. There are also some ancient trinkets.

The whole room is filled with a sense of classical elegance.

It can be seen that the owner of the office should worship ancient things to the extreme.

Xiao Chen looked up and saw that there was a copper abacus and a jade rabbit on the mahogany desk. The carving process was quite high.

It should also be the work of a master.

So he was not in a hurry to talk to yuan Xiuqiao, but came to the center of the office. Close your eyes and feel it carefully.

He didn't pretend it, but really felt it. Of course, he also wanted yuan Xiuqiao to remember them better.

Nangong Lengshan and Meng songran don't know what Xiao Chen is doing, but they are also very honest. They stay behind and wait for Xiao Chen's action.

"This gentleman..." yuan Xiuqiao saw Xiao Chen come to the office and stood in the middle and closed her eyes.

Before she spoke for a long time, she opened her mouth first.

Xiao Chen waited for this moment. Hearing yuan Xiuqiao's voice, he felt as if his soul had just been pulled back.

"Wonderful! Wonderful! I didn't expect that there are such tasteful experts like Ms. yuan in this prosperous city. It's my blessing to come to your company!" Xiao Chen's face showed an intoxicated expression.

"Do you see anything, sir?" Yuan Xiuqiao immediately became curious.

"Of course, the design of your whole office is actually dealing with the design of the whole building, isn't it?" Xiao Chen nodded slightly.

Yuan Xiuqiao was surprised. A master of ancient architecture who visited her last time also observed it for a long time to discover this mystery. Unexpectedly, Xiao Chen looks young, but in such a short time, she can see her elaborate design. It's shocking.

"Come on, give these three gentlemen a seat!" Yuan Xiuqiao immediately ordered.

After a while, several female employees dressed in Qing Dynasty clothes came to the three with three wooden chairs similar to those used by aristocrats in the Qing Dynasty.

"Please sit down!" All three female staff members bowed.

Nangong Lengshan looked at the beautiful female clerk in front of him. There was another malicious smile on his face.

Until he found that Xiao Chen was staring at himself, he stopped smiling.

The female clerk who brought Meng songran a chair couldn't help looking at him more.

"These chairs are all good goods!" Xiao Chen felt it as soon as he sat up.

Yuan Xiuqiao quickly waved his hand and said, "Sir, you are really joking. This is just an ordinary chair."

"No, it's not an ordinary chair. It's just a high imitation of the noble chair of the Qing Dynasty. There are rosefinch totems on the back and green dragon totems on both sides. When I sat down, I immediately felt a momentum rush out of me."

Xiao Chen is serious.

Nangong Lengshan saw Xiao Chen's performance on the side and immediately felt that it was a pity that he didn't become a divine stick. That's the level. To deceive people, it is estimated that those who can deceive can't find north.

He may still be counting his money after being sold.

No wonder this boy can win two beauties alone for a reason.

After hearing this, yuan Xiuqiao couldn't close her mouth.

Looking at Xiao Chen, his eyes were full of love.

“Oh, you three are here today to recommend me a piece of jade? I’ve been looking for this jade for a long time. I didn’t expect you to have it here. Can you show it to me?” Yuan Xiuqiao was just told by Xiao Chen that she almost forgot her business. Keep busy.

“OK.” Xiao Chen smiled proudly and then motioned Nangong Lengshan to take out the jade pendant.

Took the jade pendant. Yuan Xiuqiao took it in her hand and kept observing it. After a while, she asked, “can I have a look with a magnifying glass?”

“Of course. It’s your right.” Xiao Chen immediately nodded and answered.

Then he kept winking at Nangong Lengshan. Nangong Lengshan stood up and began to explain:

“Ms. yuan, our jade pendant is made of superior natural Hotan jade. It is not only perfect, but also warm and healthy...”

Nangong Lengshan is much better than before this time, and the grasp of speed, language and emotion is quite in place.

Xiao Chen nodded and listened to him with considerable satisfaction.

After listening to Nangong Lengshan’s introduction, yuan Xiuqiao thought he was still very professional and nodded. He said he was quite satisfied with the jade pendant.

Seeing that Meng songran hasn’t spoken since he came in, he opened his mouth and asked, “I don’t know if this very handsome gentleman is here...”

Hearing yuan Xiuqiao say so, Meng songran immediately spoke.

“Ms. yuan, congratulations on finally finding me. First of all, let me introduce myself. I am...”

Then, Meng songran completely took out his beautiful man's temperament and said yuan Xiuqiao with a blush on his face.

Nangong Lengshan on one side almost couldn't help laughing. He didn't expect Meng songran to dare to attack such an old woman.

"So, Ms. yuan, as long as you are willing to buy our jade pendant, I am willing to be your personal bodyguard for one day!" Meng songran also winked at yuan Xiuqiao.

Yuan Xiuqiao suddenly felt that she was going to fall.

The key is that a beautiful man like Meng songran is difficult for any woman to control. It's not easy for her to behave naturally.

Xiao Chen saw the expression on yuan Xiuqiao's face, and the corners of his mouth immediately rose. Meng songran actually came up with this paragraph temporarily.

Compared with ordinary business negotiations and business activities, the effect of such negotiations and sending people to be bodyguards for one day is obviously more novel and full of vitality.

At the beginning, he won yuan Xiuqiao's favor just for this final sprint.

Because if yuan Xiuqiao was on guard against them, Meng songran would be plotting against them again.

Now it's just to sell jade pendant, which is just the right incentive.

The God Of Medicine Son-in-law Chapter 180

Yuan Xiuqiao was just said by Meng songran that her heart beat a little faster.

Straightening his face, he coughed softly and said, “Mr. Xiao Yu (Xiao Chen pseudonym), I’m very satisfied with your jade pendant. When do you think we’ll fix it, let’s find a suitable place to trade.”

“Don’t worry about this. We have some other products here. Why don’t you take a look?” Xiao Chen made a pair of merchant’s mouth.

Of course, yuan Xiuqiao knew that this was something every business would try to do. She quickly politely declined. Just this jade pendant.

After all, the price of this jade pendant is one million, which is not a small number.

After hearing this, Xiao Chen nodded and said, “well, let’s make an appointment to trade at Starbucks near here tomorrow morning. What do you think?”

Yuan Xiuqiao looked at her schedule, nodded and said, “OK, see you tomorrow!”

Then she reached out and shook hands with Xiao Chen.

Xiao Chen quickly wiped his hand, went up and gently held her hand.

Then it was Meng songran’s turn. He smiled and shook her hand tightly.

That feeling is somewhat intriguing, but yuan Xiuqiao can feel that the hormone is rising at the moment when he is held by him.

It’s like falling in love again.

Then Nangong Lengshan also gently shook her hand, and the three left.

The three female staff members observed on one side were quite disappointed. Of course, they were not quite disappointed with Xiao Chen’s jade pendant, but with Meng songran.

“Little white face! You look so good that you come out to seduce an old woman!”

“What can you do to buy the jade pendant for a million?”

“Be realistic. Those who look good can’t be relied on.”

.....

Several female staff members talked one after another and became more and more angry. In the final analysis, it was because Meng songran’s performance was too cheap.

After Xiao Chen and others left, the matter spread among the female staff of the whole decoration company.

There are some people who like gossip. A female employee took a picture of Meng songran and sent it directly to the Internet for criticism.

The title is: what’s the matter with young people now? Can eat on your face. But I eat soft food directly!

The number of hits exceeded one million overnight, because most people went for Meng songran’s appearance.

After reading it, most people were filled with emotion, what “men saw silence, women saw tears”, and what “such people deserve to be fooled to death!”, Others say “beauty is justice. Support handsome men!”

As a result, the next day, Xiao Chen and Yuan Xiuqiao had planned to make a deal, but yuan Xiuqiao also saw so many negative news. In the morning, someone called to reschedule the time and place of the transaction.

Xiao Chen didn't expect the matter to be so big. Now almost the whole residents of the East China Sea know it.

Many crazy netizens all followed offline and almost found out Xiao Chen's current address.

After Meng songran took off his makeup, he didn't feel the same as before. After the matter was dug out, someone began to say that Meng songran was deliberately building momentum in order to attract the attention of many people. Then drive the flow.

Then you can sign a contract with the brokerage company with your own traffic.

Xiao Chen did not expect such a situation to happen this time. Had to terminate the plan first.

According to the situation at that time, he decided that the plan was estimated to be in vain. They'd better go to Tianyang lake.

Although Meng songran is a doctor, he can't stand so many fanatical people. Now he can't go back to his own mountain gate. It's impossible to go out with Xiao Chen.

I can only practice in the hotel room every day.

Although the plan is bankrupt, Nangong Lengshan feels inexplicably happy.

"Being handsome is a good thing, but being evil is not a good thing. You see, this is a living example. We should remember Meng songran's lesson." Nangong Lengshan Yuehe tunnel.

Xiao Chen was already a little upset. Seeing him say so, he immediately sank his face and said, "this month's salary will be deducted by 20%."

Nangong Lengshan immediately softened and said, "no, my boss. Just kidding, don't take it seriously!"

Xiao Chen doesn't care about him. People like Nangong Lengshan just can't get used to it. Once you treat him a little better, he will immediately kick his nose and face.

Although 20% is deducted, there are still 24 million, which is a very high price anyway.

After Nangong Lengshan failed to intercede, he didn't emphasize this matter too much.

Now he knows what it means: "a man with money is difficult to be a man without money."

The reason that people have to bow their heads under the eaves is completely consistent with his use.

After all, Xiao Chen still didn't give him a penny. At the beginning, Xiao Chen asked several times whether to sign the contract, but he didn't care.

Looking back now, I really regret 10000 in my heart!

Just when they were ready to go to Tianyang lake first, yuan Xiuqiao suddenly called Xiao Chen, showing that she was still very worried about the jade and wanted them to trade.

Xiao Chen felt something strange, but she temporarily promised yuan Xiuqiao.

"Is this a trap?"

Nangong Lengshan's first reaction was that the other party was designing them.

Xiao Chen is thinking about the probability that the other party will find their identity.

Liu Nianxin has nothing to say, unless he wants his group to go bankrupt. As for their performance on that day and the black material dug up by Meng songran at that time.

These are not his real identity. Even if he is dug out, someone is hyping it.

The most important thing is that he doesn't believe in such things. Yuan Xiuqiao will go back and tell Shen Hongtu.

After all, this matter is not very glorious in essence. Even yuan Xiuqiao and Shen Hongtu will not doubt it.

Why should she make herself uncomfortable?

Therefore, after a period of analysis, Xiao Chen's conclusion is: yuan Xiuqiao either really can't put down the jade pendant, or she is lonely and can't put down Meng songran.

Hearing this, Nangong Lengshan hurriedly ran to Meng songran and said, "brother, you are blessed. Aunt yuan has a crush on you."

Meng songran didn't care, smiled and said, "it seems that brother Xiao Chen's strategy is still quite clever, pointing directly at the heart of the people!"

Although this thing is a little unexpected, it is still under your control.

So Xiao Chen asked Liu Nianxin to contact the makeup artist over there again.

Who knows, Liu Nianxin said that the makeup artist looked down on people like Meng songran and would not come.
