The God Of Medicine Son-in-law Chapter 241

Now the weather here in Wuling belongs to autumn. Generally, it will be a little cold sooner or later. It will be very hot at noon, so yimengruo still wears more clothes.

However, it's only relatively speaking. Whether it's the snow-white twin peaks or the white thighs, they are still exposed outside. As long as Xiao Chen is willing, he can take a look at Yi mengruo. You can feast your eyes.

In order to avoid embarrassment, Xiao Chen tries to avoid letting her go to see Yi mengruo, but Yi mengruo seems to know what Xiao Chen is thinking. Even if Xiao Chen didn't want to see it, he saw it.

The smiles and smiles of such a beautiful and charming beauty are enough to make any man's legs soft after watching it, and Xiao Chen is a medical practitioner. His heart is very firm. He didn't spend too much jade gas all night last night. He won't care about the current situation.

But the problem is here. Now he has felt that he can't control himself a little. The fragrance and charming and crisp voice of yimengruo are like a devil, eroding Xiao Chen's brain and sinking him completely.

During the chat, Xiao Chen has come to a room with Yi mengruo. This room seems to be her usual rest room. All kinds of furniture are available, and the most important thing is that there is a bed.

Xiao Chen immediately jumped his eyelids and felt that things might not be simple. In all kinds of helplessness, he could only take out a silver needle and stick it on his body, which made him wake up a lot.

"Mr. Xiao Chen, in fact, I know you are an expert in the world. So I have an unkind request, little woman. I don't know whether you are willing to agree." Yi mengruo said, and sent autumn eyes to Xiao Chen.

Xiao Chen did not change her face and said, "if Miss mengruo asks for something, she can say it outside. You don't have to invite Xiao to your boudoir."

Hearing Xiao Chen's boudoir, Yi Meng giggled and said, "Mr. Xiao Chen can really talk and laugh. This is not my boudoir. This is just the place where our sisters usually rest. If Mr. Xiao Chen really wants to see my boudoir, it's not impossible."

Say. He threw a wink at Xiao Chen again.

Xiao Chen quickly pinched his thigh secretly, and then woke up. This woman is really a poison in the world. If she hadn't been able to stick to her heart, she might have been tempted to rush up now.

Xiao Chen secretly recited the pure heart mantra several times, which made him feel much more comfortable.

Then he opened his mouth and said, "that's Xiao's recklessness. Since this is not miss mengruo's boudoir, please tell me something. Xiao must do his best."

"Mr. Xiao Chen really makes me feel a little strange. Why do we just meet by chance? In fact, I don't have a close relationship with President Gu, but you don't refuse what I said?"

If Yi Meng said that, he came to Xiao Chen with lotus steps. It seemed that he was going to be next to him. His mouth was close to Xiao Chen's ear and said:

"Can it be said that Mr. Xiao Chen, like men all over the world, has reverie about my body?"

Feel the breath of Yimeng Ruolan. At such a close distance, Xiao Chen has found that evil fire has sprung up in his belly. This damn woman is really killing people!

Xiao Chen pulled out a silver needle again and stuck it in the pain point of his thigh. Only then did he wake up a lot.

"Miss mengruo, I think you should have misunderstood. I Xiao Gang never look at any interests, but look at a word of fate. Fate comes. Naturally, I can't hide. When fate runs out, I can't meet it. This is also the principle I've always adhered to." Xiao Chen said in a deep voice.

“It turns out that Mr. Xiao Chen still believes in Buddhism. That’s my faux pas.” Yimengruo only stepped back a few steps, and then called behind him, “peony. White lotus, bring the rose out.”

Suddenly, an inconspicuous wall opened, and three women came out. Although they were not as beautiful as yimengruo, they were also superior, and their clothes were very exposed. All the places that should be exposed were exposed.

And just right, attracting people’s infinite reverie.

“Sister mengruo, can you believe the man you said?” Wearing a white cheongsam, Bai Lian looked at Xiao Chen with some hostile eyes.

“Yes, sister Meng Ruo, we have all suffered losses from men several times. Don’t be careless.” Wearing a cheongsam with a peony pattern, the peony also stood up and said.

Only the rose in the middle wearing a fiery red cheongsam didn’t speak, but Xiao Chen could see that her thigh seemed to be hurt. Although the blood stopped, there was still some residue on it.

“Don’t worry, Mr. Xiao Chen is not an ordinary person. He won’t have indiscriminate thoughts about women like us like those men. Do you think so, Mr. Xiao Chen?” Yi mengruo said and looked at Xiao Chen with a smile.

Isn’t that a well-known question? Since you believe in yourself, you don’t have to ask more. Isn’t this question just to get the answer from your mouth?

However, Xiao Chen was quite calm, nodded and said, “I’m not a gentleman, but I’m not going to take advantage of the danger of others. If I do anything sorry to ladies, you can deal with me on the spot. Xiao will never have any resistance.”

“Miss? Mr. Xiao Chen, your name is not very good. You should call us: Madam.” Bai Lian said and came to Xiao Chen.

Xiao Chen can smell the light lotus fragrance on her body, but he doesn't show any performance. Bai Lian seems to be confirming whether Xiao Chen is really indifferent to any woman as Yi mengruo said.

When he came near, he found that Xiao Chen was like an old monk in peace, and didn't look at her. Only then did he slightly believe it, and the hostility in his eyes seemed to be less.

"Mr. Xiao Chen, it's not too late. You'd better show us the rose quickly. He was hit by a poison dart. I know what President Gu came to you yesterday. Since your medical skills are so good, it should be very simple to save my sister?"

Yi mengruo was a little anxious.

"Well, of course, let's start now?" Xiao Chen asked.

"Let's go." Yi mengruo nodded.

"But this..." Xiao Chen felt strange when she saw so many women here.

"Don't worry, these are my closest sisters. We made a poison oath together. They won't tell anyone what happened today." Yi mengruo promised.

"All right." Xiao Chen nodded.

The God Of Medicine Son-in-law Chapter 242

Rose was helped to one side of the bed. Xiao Chen touched her nose. She always felt that the current situation was not quite right.

So many beauties surround themselves and have to detoxify the rose. It's hard to do this on any man.

But Xiao Chen still sank down and adjusted her breathing.

“There is no gender in front of the doctor.” Xiao Chen silently recited in her heart, and then walked to the rose.

Peony and white lotus still hesitated. After looking at Yi mengruo, Yi mengruo nodded.

They slowly rolled up the rose’s cheongsam. Up to the root of the thigh, but still ensured that the spring there would not leak out, while Xiao Chen didn’t see the process. Close your eyes and concentrate.

Until yimengruo said in his ear, “Mr. Xiao Chen, please start.”

Xiao Chen opened her eyes and drew out several silver needles. Peony and white lotus retreated very cooperatively, leaving only Xiao Chen to treat these roses.

After a while, Xiao Chen pulled out the silver needle and took back his jade Qi. Rose’s whole face also changed from the previous pale to the present slightly ruddy. But I don’t know whether it’s shyness or recovery.

But she immediately put down her cheongsam and said to Yi mengruo, “sister mengruo, I seem to be really well now. Mr. Xiao Chen’s medical skills are really good.”

As soon as peony and Bailian heard this, they hurriedly came up and asked.

“Really? That’s highly toxic!”

“Yes, is there such a God?”

Both women were a little stunned and couldn’t help looking at Xiao Chen with new eyes.

Bai Lian leaned close to Rose’s ear and said, “didn’t this boy eat your tofu just now?”

“No, Mr. Xiao Chen just pricked my thigh with a needle. It’s a little itchy.” Said the rose, her face reddening again.

Seeing that Xiao Chen’s technique was so fast, Yi mengruo was also a little surprised, and then said to Xiao Chen, “thank you very much, Mr. Xiao Chen. You saved my good sister. You can ask for anything.”

Xiao Chen was already a little unable to hold his budding spring heart. Although the whole treatment process was very rapid, he didn’t touch Rose’s thigh, but he still looked at it.

It’s such a temptation for men. And still in this place, in this atmosphere.

“Yes, Mr. Xiao Chen, you saved my life. If you have any needs, you can mention them.” Rose also came to Xiao Chen and said.

Now their eyes on Xiao Chen have changed. After all, the man who can resist not eating rose tofu in such an environment is estimated to be the only one in the world.

Just now, if Xiao Chen touched Rose’s thigh by practicing medicine, it can be explained, but he still adhered to his original heart, which is quite not easy.

Bai Lian said. Even directly stretched out his right hand, put it on Xiao Chen’s shoulder, took him and said, “it was my sister before. I saw the wrong person. Now if Mr. Xiao Chen needs it, we can’t do it.”

Xiao Chen immediately felt that the softness of the other party was close to her side, so she hurriedly pushed her away and said, “guys, I Xiao came to detoxify Ms. rose today, just for peace of mind and didn’t want any reward. If there’s nothing, I’ll leave.”

Seeing that Xiao Chen has not been moved at all, Bai Lian immediately smiled and bowed to Xiao Chen:

“Well, Mr. Xiao Chen, you have passed our test. In fact, what we just said is lying to you. If you really have such a mind, we will not let you go.”

Xiao Chen was speechless at once. He didn't know what medicine the women sold in the gourd, but he didn't think too much. After all, he was just invited to see a doctor. Since the matter was done, he was really ready to leave.

"Mr. Xiao Chen, I know what you want, so I'll take this as your reward for treating my rose today." If Yimeng didn't know when she had another jade bead in her hand.

Xiao Chen saw the strong smell above, and the jade pulse in her body was also very excited.

However, he still made up his mind and said, "this jade bead should be very valuable. Miss mengruo might as well make a price. I paid for it."

Yimeng Ruo listened and smiled gently. Then he walked to Xiao Chen, took his hand, and put the bead on his hand.

The finger also deliberately scratched and pulled twice in the palm of his hand. Then he said, "didn't I say, Mr. Xiao Chen, this is your visit fee today. If you still talk about money with us, you look down on our sisters."

Xiao Chen felt an itch in the palm of his hand, and immediately his state of mind was disturbed. He quickly put the beads away, and then said, "then I'd better obey my orders and leave first."

With that, he immediately withdrew from the room.

Just now, the fingers of yimengruo were the most deadly in his palm. He almost didn't suppress his evil thoughts.

Seeing Xiao Chen escape, he also walked out of the room. These charming women in the room giggled.

"Sister Meng Ruo, I think you really mean something to Mr. Xiao Chen. Otherwise, I haven't seen you take the initiative for so many years." Rose came up.

“Xiao Chen is not as simple as we look on the surface. He gives me a familiar feeling. I don’t know if I’ve seen him somewhere.” If Yi Meng looked at the direction Xiao Chen left, his eyes twinkled with the light of deep thinking.

“Come on, sister mengruo. You haven’t found a man for so many years. I think Mr. Xiao Chen is really good. Why don’t we invite him one day and do everything we should do?” Peony also joked aside.

“Go, go, go, go! What lies are you talking about? Have you forgotten our oath? If I’d never find another man in my life.” Yimeng pretended to be angry.

“We’re just kidding. Don’t take it seriously, sister mengruo.” Bai Lian came up and took Yi mengruo’s hand.

Xiao Chen left Shixiang Pavilion and felt the power surging in the jade bead on his hand. He could feel the power of the jade bead this time. He would definitely be able to absorb it. At that time, his cultivation would improve again, and maybe he could break through the Ninth Section of medical sage.

It’s only one step away from the medical school.

In this way, his combat effectiveness and medical skills will be qualitatively improved.

After returning to the hotel, Xiao Chen put the jade bead directly in front of him, and then ran the jade pulse to inject the jade gas directly into it. He immediately felt that all the power in it poured into his body.

The God Of Medicine Son-in-law Chapter 243

At the moment of the influx of power, Xiao Chen felt that his jade vein had undergone earth shaking changes. If the previous Ming Wang Yu had repaired his Dantian.

The jade bead is the key to bring higher-level changes to his jade vein. Originally, it was like a tightly lying jade cicada, but now it was slowly transformed into a small spherical object, which looked like the jade bead just absorbed.

After absorbing all the power of Yuzhu, Xiao Chen felt that his medical cultivation realm stopped at the peak of the Ninth Section of medical saint. As long as a little power seemed to be able to break through the realm of medical school.

Now he felt that his combat power had far exceeded Nangong Lengshan, and his jade Qi was condensed. It can be used not only against the enemy, but also to protect itself, forming a colorless and invisible film with protective effect on the body.

I probably felt the usage of jade vein. Xiao Chen found that although it was not as violent as the disease pulse, it had a little more flexibility. The so-called overcoming hardness with softness, he felt that if he matched the two elders of the five poison sect who had come to trouble now.

Or the Meng songran can easily take them all down.

However, it is still far from the level of his original God of war. After all, he has reached that level. It can take things from space and mobilize various elements in the whole air to fight.

Xiao Chen didn't know what kind of state he needed to reach in order to achieve this state.

But now he doesn't have so much leisure to think about so much. First, he should cultivate his jade pulse to the extreme.

He took out the jade trigger again. Xiao Chen was no longer in a hurry to probe into it with jade Qi this time, but first took it in his hand and felt the trend of power.

Soon after, he suddenly found that the breath in the jade trigger was mysterious. In fact, they were not avoiding after contacting the external forces, but they formed a general model similar to the self-protection mechanism.

As long as there is any external breath invasion, their form will change, which will lead to the situation that no matter how Xiao Chen probes into it with jade gas, he can't absorb the power.

After learning this information, Xiao Chen began to try to find the law of power self-protection. Soon he found a flaw and directly took advantage of the moment when the breath was turning, a trace of jade gas entered it.

Sure enough, this breath did not “escape” like last time, but followed the guidance of Yuqi. Into Xiao Chen’s body.

Xiao Chen felt that the newly formed ball in his Dantian increased by another point.

After the jade wrench is absorbed, then the Pearl, and then the necklace.

After all absorption, Xiao Chen felt that there was a feeling of fullness in his Dantian.

It seems that his cultivation is about to break through, but it seems that there is something to understand from the sage of medicine to the Pope of medicine. Therefore, although the strength is enough now, Xiao Chen still can’t break through, so he can only accumulate his strength in his Dantian temporarily.

Just finished the cultivation, and it’s already three o’clock in the afternoon.

Two days have passed. Xiao Chen also picked up the phone and called Jianshi.

“Mr. Xiao Chen, I’ve heard about your stay at Chu’s house. I’ve been a little busy these two days, so I haven’t had time to call you. I’m really sorry.” Apologize as soon as you answer the phone.

“It’s all small things. How’s things going at the factory?” Xiao Chen asked.

“This...” Jian Shi hesitated.

“What difficulties have you encountered?” Xiao Chen asked again.

“It’s really bad for me this time. Mr. Xiao Chen, why don’t you come to the municipal government? I need to tell you in detail about things here. You can punish me if you are dissatisfied.” Jianshi is very calm and authentic.

Hearing this, Xiao Chen knew that he had encountered some difficulties, so he said, “I’ll come first.”

When he came to the municipal government building, Jianshi was already waiting for Xiao Chen at the door. Seeing him coming, he greeted him immediately.

“Mr. Xiao Chen, you’re here. I’ve really encountered some difficulties these two days. Let’s go up and talk about it.” Jane Stone said and took Xiao Chen upstairs.

After sitting down, it was still the two very beautiful secrets that poured tea for Xiao Chen, and then retreated to one side.

“Tell me, what happened.” Xiao Chen came straight to the point.

“The thing is, after I came back that day, I issued the order of factory rectification the next day, and wrote down the plan you put forward clearly. But it was still opposed by a large number of people.”

Jian Shi said and put a document in front of Xiao Chen.

Xiao Chen opened it and found that what was written on it was indeed the rectification plan put forward by herself, word for word.

“Why are the people still opposed?” Xiao Chen asked.

“I think Mr. Xiao Chen, you may not know the saying of Feng Shui. The local residents of Wuling are very superstitious, so they believe that the attribute in the upper reaches of the river is gold and is not suitable for farming. Even planting the kind of medicinal materials mentioned by Mr. Xiao Chen has no harvest, so they object.”

Jane stone explained.

“Feng Shui?” Xiao Chen’s eyelids suddenly jumped. He really didn’t pay attention to this matter. After all, what he wanted was to close the factories in the upstream, so as to alleviate the pollution in the downstream.

But I didn’t expect that there was a saying of Feng Shui. In fact, it can be said that if you believe it, there will be something, and if you don’t believe it, there will be nothing.

However, there have been real cases. It happened on the other side of the East China Sea. When a bridge was built, it was suggested that the bridge pressed the dragon vein of the Empire. At first, some people didn’t believe it.

So start directly. Who knows that the fixed point of one pier can’t be hit in any way. No matter how advanced technology is used, it can’t be excavated. It’s fruitless for scholars and experts from all walks of life to come and study it.

Finally, I had no choice but to invite a feng shui master. When feng shui master came, he saw that the bridge was indeed pressed on the dragon vein, and the dragon vein must be removed.

So he used his magic power all his life. Moved the direction of the dragon vein.

Sure enough, the next day the pier was hit successfully, and the construction of the bridge was also very smooth.

However, the feng shui master has disappeared since then. Many people are saying that the master will be damned by heaven because he moved the dragon vein and returned to the mountains for refuge.

At that time, Xiao Chen also heard Xiao Qingyuan say that a master moved the dragon vein and was finally killed by thunder in the mountain.

Although I don’t know whether it’s true or not, Feng Shui’s statement is still somewhat credible.

The God Of Medicine Son-in-law Chapter 244

Also because of this matter, Xiao Chen was quite interested in Feng Shui at that time, so he went down the mountain and bought a lot of books to study.

However, the results of the research are not ideal, because Feng Shui is too dependent on the right time and place, which can not be controlled by people. People can only follow the trend. It's quite difficult to force what kind of purpose you want to achieve.

Therefore, Xiao Chen's research on Feng Shui is not too much, so it is invalid.

However, the general is not particularly complex Feng Shui. He can still understand it.

"Brother Jian, please give me a map of Wuling. If you have a detailed one, it's best." Xiao Chen said to Jian Shi.

"Of course there is a map. This way, Mr. Xiao Chen, please." Jian Shi said and took Xiao Chen to a room. All kinds of maps were hung in the whole room. All the places, enterprises and roads have been marked out in great detail.

"Brother Jian seems to have worked hard for Wuling." Xiao Chen couldn't help sighing slightly.

"It's all right, but now there are still many problems in Wuling. As mayor, I'm in a state of semi failure." Jane is slightly guilty.

"The whole Wuling is so big. If brother Jian can do everything well, it would be strange. If there are problems, it shows that the whole government has the value of existence. Otherwise, there will be no problems in the whole society, and the role of the government will be lost." Xiao Chen smiled.

"Mr. Xiao Chen can see clearly. Let's first look at the situation in Huanghai village. It's this map." Jane Stone said and pointed to the map in the upper left corner on the wall on Xiao Chen's right hand.

Xiao Chen found a clue at a glance. Although his research on Feng Shui is not profound, people who have read several Feng Shui books can see that Huang Hai village is in a dead position.

It can be said to be a rather poor position in Feng Shui, but why do so many centenarians appear in such a position?

Then he looked at the location of the factories above. Sure enough, he found that this location really belongs to gold, which is not conducive to planting all kinds of crops. Xiao Chen remembered why the economy of Huanghai village was so poor.

This whole area is not suitable for planting, and they are obviously doing the opposite.

Suddenly, Xiao Chen found a small hole in the mountain and suddenly understood why there were so many centenarians in Huanghai village. This is a acupoint of longevity, and Huanghai village is located just below that acupoint.

It's the so-called survival from death. Life is more prosperous, and the life vitality of the whole Huanghai village will be so strong.

But now the factories on the upstream side are the culprit leading to the decline of their vitality.

Apart from this factory, the vitality of Huanghai village will naturally come back.

But how to resettle the people upstream has become a big problem.

"Mr. Xiao Chen, do you see any clues?" Jian Shi saw Xiao Chen not talking for a long time. So he came up and asked.

"Well, I know everything. We still need to make a field investigation." Xiao Chen nodded.

"Mr. Xiao Chen, if you want to go, I may not be able to go with you for the time being. There are more important things here." Jianshi was a little guilty.

“Important things?” Xiao Chen looked at Jian Shi.

Jianshi immediately turned a little white. Then he explained: “recently, our whole cangbei province has been reviewing its political achievements. My political achievements may be a little worse than that of Xu Da. It is likely that I will be replaced.”

“Why are you worse than a deputy mayor as mayor?” Xiao Chen is a little strange.

“Xu Da was originally from Wuling. He has worked here for nearly ten years. He has a high reputation among the people, so I have no choice. Originally, Wuling was more exclusive and a lot of things here were more troublesome.”

Jane stone answered truthfully.

After listening to Jian Shi’s words, Xiao Chen can feel the pressure on him. However, considering that he can be arranged by Kyoto to be mayor here, he still has some background and means, and his age doesn’t look very old. In his thirties.

It’s a bit of skill to sit in this position at such an age.

Xiao Chen didn’t intend to intervene in these things. He came to Jianshi only because the problem of Huanghai village was related to the factory. Now his purpose is to solve the problem of Huanghai village.

So he nodded and said, “then you can stay here and deal with the problem. I’ll go up there and have a look by myself. By the way, do you have the contact information of Fang Yuchun? I want to talk to him.”

“Of course, he is a famous entrepreneur in Wuling City, but if you want to see him, Mr. Xiao Chen, you should be more careful. It’s hard to guess the person’s mind. After outsiders contacted him, they died inexplicably.”

Jane stone warned.

“What else? Didn’t you send someone to investigate?” Xiao Chen was a little stunned.

“The water is deep here, not one of us has the final say,” he said. “You are very skilled, but I have to remind you to avoid being counted by some villains.” “two.” Simple stone sink channel.

While they were talking, suddenly Xu Da’s voice came from outside:

“Mayor Jane, are you there? I have something to discuss with you.”

Jianshi immediately went out, while Xiao Chen was listening to their conversation in the room.

“Mayor Jane, these are some plans I put forward for the modification of the underground pipeline in Dongcheng, and these are some opinions I collected with the people. They all agree with this plan, so I asked you to sign.” Xu Dadao.

“Shouldn’t I be solely responsible for the affairs here in the east city?” Jane stone frowned slightly.

“Oh, of course. Mayor Jane, you are very decisive and precise. I admire it very much. But my subordinate is not sensible. There happens to be a classmate in this area, so you can bring up this proposal directly. Of course, if you feel it is inappropriate, you can call back and have a look at it yourself.”

Xu Da said with a very kind smile on his face.

But Jian Shi is not a fool. Naturally, he knows his implication. If he doesn’t sign, he has to do another investigation himself, which will not only waste human and material resources, but also re investigate with the people.

This is a very unwise decision for him. Someone will speak ill of him behind his back.

The God Of Medicine Son-in-law Chapter 245

“Well, that’s it. If this happens next time, at least say hello to me in advance.” Jianshi’s tone was slightly dignified.

“That’s it. I’ll report to captain Jian next time. It’s really an accident this time.” Xu Da quickly flattered him and said:

“I’ve discussed this matter with my man. After all, this is captain Jian’s area, so it can be regarded as your political achievement. Do you think it’s ok?”

As soon as Jian Shi heard this, a trace of displeasure flashed across his face. Didn’t he make it clear that he wanted to hit himself in the face? Although this area is under his control. But he didn’t do it.

Now that things are done, if I have the cheek to take over this political achievement, I will really become a person who gets something for nothing.

This is not a good reputation in any urban area, so he waved his hand and said, “Deputy guard Xu Da doesn’t have to be so generous. We’ve always been on the case. Since Deputy guard Xu Da has done things well here, how can I take your political achievements?”

As soon as Xu Da heard what Jian Shi said, he quickly continued to compliment:

“I know that Captain Jane can’t pull down this face. I promise I won’t say anything about it. Isn’t it that the top is checking political achievements recently? Our whole team is one, so I think I’m helping my family. What do you think?”

Of course, Jian Shi knows that Xu Da said this on purpose. What he said grandly is to help his family. In fact, he wants to satirize his poor ability in handling affairs from another aspect. With Xu Da’s help, his political achievements are not as good as him.

At that time, the people above will find out that Xu Dake has a lot to say.

Jianshi immediately sternly refused: “well, deputy director Xu Da, that’s it. There’s nothing else to say. We pay attention to one and two. Since you did it, it should be yours. Just go back and give me a report.”

As soon as Xu Da saw Jian Shi’s words, he said it for his own sake. Naturally, he knew that there was no need to go on. If he went on, he would really have a bad intention.

So he nodded and said, “well, then I respect captain Jian’s idea. I’ll send a report right away when I go back.”

Shortly after Xu Da left, Jian Shi returned to the room.

“It’s really not easy for Xu Da. It seems that brother Jian, you should be in trouble recently.” Xiao Chen smiled and said.

Jian Shi smiled bitterly:

“Xu Da has been robbing my territory for political achievements for various reasons. His territory division is not as big as mine, but he has a wide range of contacts in Wuling. Therefore, he has been able to successfully rob a lot of political achievements from me. This is what I am very distressed about recently.”

“Captain Jian, you must stay. If you leave, we will fall into the clutches of Xu Da again. That day is really not for people.”

Suddenly, the voices of two female secretaries came from outside. It was Ziyun and Xueer.

Previously, they showed that they had nothing to do with Jianshi. Now it seems that they have put down their vigilance against Xiao Chen, so they also showed their real attitude in front of Jianshi.

It’s not as charming as before. Now Xiao Chen feels very normal to see them both, at least like a normal secretary.

Jian Shi was obviously a little sad when he heard the words of the two women. He had been with the two women for more than a year. Even if it was a normal relationship, his relationship with the two women was good.

What's more, Xiao Chen saw early that the relationship between Jian Shi and the two women was not general. I think we should often get in touch with each other after work.

Although Jianshi is not the kind of handsome man, he is still very calm and mature, so he can attract this kind of young and beautiful woman.

These things are beyond reproach. Of course, Xiao Chen doesn't want to say anything.

Jianshi came forward and comforted: "don't worry, even if I really want to transfer, I will find a way to take you away."

The two women nodded quickly and were very sure of what Jian Shi said.

"Let Mr. Xiao Chen laugh. Last time they were like this. I didn't know Mr. Xiao Chen's true identity at that time, so please forgive Mr. Xiao Chen." Jian Shi said and then turned back to apologize to Xiao Chen.

"Never mind, I said everything. Let him go of the past." Xiao Chen said calmly.

"Mr. Xiao Chen, we know your means are unusual. Why don't you help captain Jian? Help us, too." Xueer suddenly begged Xiao Chen again.

Xiao Chen was immediately stunned, while Jian Shi quickly scolded, "what are you talking about? Mr. Xiao Chen is our guest! How can we ask the guest to help?"

Xueer was so frightened that she turned pale. She quickly apologized to Xiao Chen and said, "I'm sorry, Mr. Xiao Chen, I was rash for a moment. If you're not satisfied with anything, just come to me."

Xiao Chen is a little helpless. He looks like Jian Shi is letting two secretaries play a bitter meat trick.

So he said, "I'll think about this more. Now I'll go to the upstream of Huanghai village to investigate the situation, and we'll talk in detail when we come back. There's no need to punish anything. I'm not a big man. I'm just an idle person who travels all over the world."

"Mr. Xiao Chen, you are too modest. I know your means, but I also know that this matter needs to be solved by my own efforts. I'm sure I won't trouble Mr. Xiao Chen." Jianshi hurriedly said to Xiao Chen.

"Well, I'm going to start now. Try your best to stabilize your situation first. If I'm still free back, I might as well try." Xiao Chen said and went outside the room.

"Mr. Xiao Chen, why don't I arrange ah Qiang to send you there? It's a long way." Xiao Chen followed Jane.

"This is not necessary. You'd better do your own thing and I'll go by myself." Xiao Chen said and hurried downstairs.

Not long after Xiao Chen left, Xueer and Ziyun came to Jianshi. Jianshi hugged them directly, and they both immediately gave a Jiao hum.

"Will Mr. Xiao Chen really help? I'm afraid you'll be transferred without his help this time." Purple rhyme way.

"What can I do? The common people in Wuling still have a serious xenophobia. I can only take one step at a time." Jianshi is a little helpless.

"Is what you just said true? Will you really take us away? Otherwise, we will be really miserable when we fall into the hands of that old fellow Xu Da." Xueer asked.

"I will do what I say. You two have performed so well this year. How can I be willing to leave you two to such a shameless old guy?" Jane Stone said and kissed Xueer on the cheek.

Seeing this, the purple rhyme on one side also came up and said, "I want it too."

Jianshi kissed Ziyun's face again.

It was nearly five o'clock in the afternoon when Xiao Chen left the municipal government building. According to this time, he rushed to the industrial zone upstream of Huanghai village, at least after six o'clock. It will be dark by then.

Most of the factories over there are almost closed, so it's not suitable to go now. So Xiao Chen simply planned to go back to practice for one night and find inspiration for breakthrough.

So he went back to the hotel. Just back to the hotel, the person arranged by the Chu family came again. This time I sent him some precious antique jade and so on.

Xiao Chen probably guessed who was doing all this, so he said to the main pipeline of the hotel: "these people you tell me clearly. If I have that ability one day, I will naturally go to him. I Xiao Chen keep my word. In the future, I don't need these things to cover me. It doesn't work."

After hearing this, the supervisor had to put everything away. Seeing Xiao Chen's lack of oil and salt, he naturally understood that Xiao Chen should have seen through the people behind him.

So he had to nod his head and report the situation afterwards.

When Master Chu heard Xiao Chen's statement, he was worried for a moment, although Xiao Chen said he would think of him. But he didn't give anything to the other party. Why should the other party continue his life?

And looking at Xiao Chen, it seems that he is not interested in what ordinary people want, which makes him a difficult old businessman who has been doing business for decades.

In fact, he made a mistake in understanding. Xiao Chen's various performances have proved that he is not an ordinary person, since he is not an ordinary person. It must be useless to deal with Xiao Chen by means of dealing with ordinary people.

Now the whole Chu family is nothing to Xiao Chen. The reason why Xiao Chen wants to make peace with the Chu family first is that he just wants to avoid any interference and reduce his trouble when he investigates the things in Huanghai village.

Because since he came out of the auction that night, there has been a steady stream of trouble, which Xiao Chen doesn't want to see. Now he just wants to investigate the situation of Huanghai village. Wait until all the things explained by the mysterious man are finished.

He may be able to get some more promotion, and then he can solve some bigger problems.

Xiao Chen returned to his room and began to practice. He tried to touch the key part of the breakthrough. But there is almost no feeling. It seems that his understanding of that layer has not begun, and now he has no clue.

After Xiao Chen practiced for a while, the doorbell was suddenly rang.

Xiao Chen opened the door and found a middle-aged man standing at the door. He was impressed by this man. I looked at it and remembered that I had seen it at the previous auction.

"Hello, Mr. Xiao Chen. I wonder if you still remember me?" The horseshoe cabinet smiled.

"I remember seeing you at the auction. Are you the one who sells paintings?" Xiao Chen whirled his chin.

"Yes. Mr. Xiao Chen's memory is really good. In fact, I came here today with an unkind invitation." Ma Changwei still kept his smile.

"Oh? Let's be frank. I'm still busy." Xiao Chen didn't want to talk to him for a long time.

“Well, Mr. Xiao Chen is really a busy man. I have received another painting recently. I want to invite Mr. Xiao Chen to make an appraisal for me. The appraisal fee is absolutely generous. What do you think?” Shopkeeper Ma asked.

“Identification painting?” Xiao Chen slightly raised her eyebrows. Then he waved his hand and said, “I’m sorry. I only went to the auction when I had nothing to do. I’m not particularly interested in this kind of thing. You’d better hire someone else.”

Xiao Chen said she was going to close the door. The horseshoe cabinet hurried up and said, “Hey, Mr. Xiao Chen, don’t worry. My painting is different this time. It must be the kind of thing you want. This baby is not an ordinary painting.”

As soon as Xiao Chen heard that it was not an ordinary painting, he immediately thought of whether it was a painting recording some cultivation secrets and so on, so he asked, “what kind of painting is that?”

“The painting is too difficult to describe. The most important thing is that the painting has no reaction whether it is washed or burned. It can be seen that there are traces of painting on it, but we just can’t get it out. That’s why we thought of Mr. Xiao Chen.” Horseshoe cabinet road.

It’s said that Xiao Chen will be interested in some of his secret skills, or he will be interested in some of them.

Shopkeeper Ma also seems to be a person who likes collecting paintings, so Xiao Chen thinks that he can’t make a breakthrough for the time being. He might as well go outside to find some opportunities for breakthrough.

And just when I couldn’t break through, shopkeeper Ma came to the door. Maybe this is a kind of fate. I may really get some different paintings from him.

However, Xiao Chen still has a heart. After all, the previous painting of shopkeeper Ma has been exposed by himself. It is inevitable that the other party will still have some other ideas in his heart.

After all, I'm not familiar with each other and I don't know each other's specific personality.

Xiao Chen nodded and replied, "OK, I'll go with you to see the painting."

Seeing that Xiao Chen was finally fooled, the horseshoe cabinet was immediately overjoyed and quickly said respectfully: "then I'll wait for Mr. Xiao Chen outside the door. Do you have anything to prepare?"

Xiao Chen shook his head and said, "I have nothing to prepare. Let's go now."

Seeing what Xiao Chen had as like as two peas, he was even happier. He was exactly the same as he thought. Xiao Chen would not have had much suspicion because he saw a small role. Actually, the so-called painting was just made by him.

How could there be such paintings in this world? If there were, they would not have been collected by him. They would have been taken away by those experts long ago.

However, he knows that Xiao Chen must be a curious person, because Xiao Chen's performance at the auction is like this, always doing something unexpected.

Now that he describes a painting like this, Xiao Chen will naturally be moved.

But what he didn't know was that Xiao Chen had found something wrong from the first time he saw him.

The God Of Medicine Son-in-law Chapter 247

Normal people who come to find themselves to identify paintings in the evening, not to mention why they don't bring them directly since they are identifying paintings, but they should let go of the near and seek the far and bring their own people.

However, it doesn't rule out the possibility that the painting can't be taken away everywhere, but Xiao Chen is still very vigilant about the view of shopkeeper ma.

At least there is no way to judge whether the other party is an enemy or a friend.

Xiao Chen followed the horseshoe cabinet to the downstairs. Shopkeeper Ma drove a car by himself, so Xiao Chen didn't have to drive by himself. Just go there in his car, and then come back and send Xiao Chen back.

Xiao Chen thought there was nothing wrong with it, so he agreed.

On the bus, shopkeeper Ma has been chatting with Xiao Chen all the time. Seemingly casual, in fact, Xiao Chen already knew that he was deliberately distracting himself.

The car drove faster and faster. It soon left the city and drove to the suburbs.

"Didn't you go to see the paintings? Isn't the place where you collect the paintings in the city?" Xiao Chen asked in some doubt.

"Yes, didn't I say, Mr. Xiao Chen, this painting is not an ordinary painting. It was found in a cave and is still in the cave. We don't dare to take it out by force, so please go and identify it before making a decision."

The horseshoe cabinet lied without blushing and jumping.

Xiao Chen didn't ask any more when he heard him say so. It's the so-called art expert's courage. Now Xiao Chen is not afraid that someone is calculating himself. The worst result of this trip is that he didn't encounter any special paintings.

There's nothing to lose for him.

Shopkeeper Ma soon drove to the foot of a mountain that looked very desolate. There were all kinds of mountains everywhere. Xiao Chen felt that it was like coming to some deep mountain and old forest.

It also means that there are some places to buy treasures.

“Mr. Xiao Chen, the cave is right ahead. It’s coming soon.” Shopkeeper Ma walked ahead with a flashlight.

His flashlight was specially made. Although it looks very bright, in fact, as long as he slightly adjusts his angle, the people behind can’t see the road ahead.

The most important thing is that the wattage of this flashlight is very high. If it is suddenly illuminated, it may lead to temporary blindness for ordinary people.

This is their plan. At this time, shopkeeper Chen and shopkeeper Zhu have been ambushed in the cave.

Wait until the moment Xiao Chen comes in. Shopkeeper Ma looked at Xiao Chen with his flashlight.

Shopkeeper Chen and shopkeeper Zhu, who were holding sledgehammers and sharp knives on both sides, immediately started to chop and hammer Xiao Chen to death.

Then they can get the treasure on Xiao Chen, especially the black card. They will try to contact Chu you at that time. Then get the money out of the card, and then you can take the money and fly away and have fun abroad.

However, what they don’t know is that what they met is Xiao Chen. Xiao Chen can get out of the heavy siege of the Chu family. It must not be what they can do.

“How far is it?” Xiao Chen asked in the back.

“It’s not far. It’s just ahead.” Shopkeeper Ma said, holding a flashlight and pointing to the cave in front of him.

At this time, Xiao Chen had felt the breath of someone in front of him. It was obvious that someone was guarding the door.

Shopkeeper Ma is also a little nervous at this time. In fact, it is the first time for him to do such an activity in so many years.

But who makes Xiao Chen rich and unkind. If you cheat his money and make a big show at the auction, such a person will die!

He was cruel under the horseshoe cabinet, so he strode towards the front.

“Coming!” Shopkeeper Chen whispered in the cave.

Shopkeeper Zhu over there also held the sharp knife in his hand tightly. He had to hand it when shopkeeper Ma turned around.

Shopkeeper Ma took the lead in entering the cave. He didn't look at them and pretended that he didn't know anything. Generally, he took two steps forward.

Feeling that Xiao Chen was at the door, he immediately turned around and took a flashlight to directly shine on Xiao Chen's face.

Shopkeeper Chen and shopkeeper Zhu also roared.

“Go to hell!”

So a man held a sledgehammer. Another man rushed out with a sharp knife.

However, what shocked them was that Xiao Chen was gone.

“What's the matter? He has been following me.” The horseshoe cabinet was a little flustered.

“Yes, I also felt his footsteps. Why did he suddenly disappear?” Shopkeeper Chen also looked puzzled.

Suddenly, a dark wind blew. All three felt chilly behind their backs.

A few pairs of blood red eyes suddenly appeared from somewhere.

Shopkeeper Zhu was the first to notice it. He was immediately frightened and lost his color. The sharp knife in his hand also fell to the ground. Pointing to those pairs of blood red eyes, he stammered and said, "there... There... There are ghosts!"

When he said this, shopkeeper Ma and shopkeeper Chen also felt their hair stand up.

It's night in the wild mountains. It's terrible to be quiet around. If they really encounter anything unclean, they really can't run away.

"Don't talk nonsense. Haven't we investigated during the day? The cave isn't very deep. Where are the ghosts? They scare themselves." Shopkeeper Chen quickly calmed down.

"Yes, where's the ghost? Hurry to find out where Xiao Chen has gone." Shopkeeper Ma also slowed down and said.

Shopkeeper Zhu then turned to look at shopkeeper Ma. Suddenly, he was frozen, pointed to the back of shopkeeper Ma and said, "you... Behind you... Behind you!"

"Behind? What's behind?" Shopkeeper Ma turned his head and took a flashlight.

Suddenly he saw a dead gray face appear in front of his eyes. He was scared to shout on the spot, and then fainted.

When shopkeeper Chen heard what he said, he quickly turned his head and saw the dead gray face. However, he was a person who didn't believe in evil. He swung a sledgehammer and hammered it at the face.

Seeing this, Xiao Chen quickly took out several silver needles and flew out. Shopkeeper Chen immediately felt that his body could not move, and the whole person was frozen on the spot.

“You... What did you do to me?” Shopkeeper Chen looked at Xiao Chen.

Xiao Chen changed his dead gray face back to the original. This is just a cover up he used. If the light is good, it is estimated that he can't achieve such an effect, but now the light is very poor, so the situation just happened.

Shopkeeper Zhu was scared out of his wits at this time and ran out directly.

But just after running a few steps, he suddenly found a group of wolves in front of him. It turned out that what he had just seen was not an illusion, but a group of wolves stayed at the door of the cave.

This cave is actually a wolf's nest. The three of them didn't know they were hiding in the wolf's nest before. Now they find that it's too late to repent.

The God Of Medicine Son-in-law Chapter 248

The wolves kept howling. Shopkeeper Zhu found that he had no way out. His legs fell soft and sat on the ground.

The first wolf came up directly with heavy steps. Shopkeeper Zhu had seen clearly at this time. There was a scar on the wolf's eye, which was obviously hurt by someone.

So he hated people very much. He opened his mouth and bit it. Then shopkeeper Zhu screamed like a pig.

Shopkeeper Chen inside is now hit by Xiao Chen's silver needle, and the whole person can't move. Holding a sledgehammer, he stood upright on the opening of the cave.

Xiao Chen looked at him coldly, and then looked at shopkeeper Ma who fell to the ground. In fact, he was thinking whether to let the two people die here.

Or teach them a lesson. So that they can survive in the end.

Shopkeeper Zhu outside is dying from being bitten, and his body is full of scars.

After thinking for a while, Xiao Chen still decided not to save the three people. If he wasn't a doctor today and had superhuman ability, he might die today. Not these three.

For this kind of ruthless people, Xiao Chen doesn't have much favor. If he dies, he will be dead, which will be regarded as the elimination of several scum in the whole society.

"You... Don't go! Help me! Please, brother Xiao Chen, uncle Xiao Chen!" Shopkeeper Chen sees Xiao Chen walking outside. The wolves on one side will take care of shopkeeper Zhu. It is estimated that they will take care of them soon.

He is now given by Xiao Chen's silver needle. After a while, he can only watch himself be bitten to death, and there is no way to make any resistance.

"If you knew today, why did you have to start? From the moment you began to calculate me, your destiny has been doomed. I will burn incense for you. Three people will accompany you. You are not alone on the yellow spring road."

Xiao Chen has left far away, and his voice is floating in the whole barren mountain, constantly echoing in the ears of shopkeeper Chen.

Now shopkeeper Chen really regrets that he shouldn't have proposed to calculate Xiao Chen. Regretting that they didn't find out the details of Xiao Chen, they even regretted that they wanted to kill and get money.

Now, all this regret has lost its meaning, because there is only one way in front of him, that is, waiting for the trial of the wolves.

Xiao Chen returned to shopkeeper Ma's car and drove back to the hotel.

He suddenly felt that some people in the world seem to be controlled by desire and want to get what they want at all costs, but in fact, it is in vain.

What if you get it? There is still no peace in my heart. It's just a slave to desire.

The real strong man must be able to override his desires and control his thoughts well, so as to continuously strengthen himself. Until everyone sees his strength, he will naturally gather together with him.

Thinking of this, Xiao Chen suddenly felt a burst of transparency. Combined with his initial heart of practicing medicine, he immediately found that his mind was particularly clear, and the small jade ball in the Dantian also reacted.

It seems to break through the general. As a person who is busy in the world and understands the true meaning of life, as a person who is busy in the world.

In this way, the jade beads in Xiaochen's Dantian suddenly began to appear inch by inch cracks, and something similar to a new bud of a tree grew out of it.

Xiao Chen immediately felt that his strength seemed to be a little stronger, and his perception of the things around him was more sensitive. Obviously, this is a breakthrough to the changes caused by medical school.

As soon as Xiao Chen turned the jade pulse a little, he found that the new bud on the ball seemed to produce a strange force. Xiao Chen turned the jade Qi, and in an instant, something similar to a lotus appeared on his palm.

He could feel the great energy contained in the lotus, and he also felt that the lotus seemed to be used to save people and cure diseases. If used well, it could even bring back the dead.

Of course, the premise is that the other party is not completely dead.

This made Xiao Chen feel quite shocked. I didn't expect that the jade bead would have such a big change.

If this lotus is thrown out now, I'm afraid that monks at the level of Nangong Lengshan will be seriously injured in an instant. And this only needs to consume less than one tenth of Xiao Chen's jade Qi.

This is a bomb that can be thrown at any time. No, it should be said that it is much more terrible than a bomb. After all, it is not so easy for ordinary bombs to hurt Nangong Lengshan.

After all, he has qi to protect his body, and the explosion of the jade lotus seems to be able to directly break through the opponent's Qi defense and cause damage to his body.

Even Xiao Chen can feel the horror of the jade lotus.

As soon as the jade Qi was collected, the jade lotus immediately dissipated in the air.

Xiao Chen thinks it can be used as his last resort now. If he encounters a critical situation, it may produce unexpected results.

But now his strength, speed and insight have also improved a lot. Normally, ordinary martial artists or some powerful medical practitioners may not be his opponents.

Feeling that he is getting stronger, Xiao Chen's heart is also a burst of joy.

I was speechless all night.

Xiao Chen set out early the next day and rushed to Huanghai village. First, he checked the situation of the villagers inside and found that their life was cut off and the situation had not improved.

When he came, he happened to meet an old man who died because his life was cut off. He was exactly 101 years old.

Xiao Chen immediately felt that it was urgent to solve the pollution in the upstream.

However, he also knew that this matter could not be handled too hastily. He could only do it step by step. Since it was a Feng Shui problem, Xiao Chen went to see if there could be another industry to replace the one he had thought.

Before coming, he still made an appointment with Fang Yuchun. After all, Fang Yuchun is the boss here. Maybe you can find out something by talking to him.

After a trip to Huanghai village, Xiao Chen immediately drove to the upstream industrial zone, where the sounds of various machines were still mixed together, and many workers worked on the assembly line.

After observing back and forth, Xiao Chen didn't find anything special, and the most important thing was that he didn't find out where the sewage was discharged.

Those workers were just farmers who came to work and didn't know these technical problems. Xiao Chen had to wait for Fang Yuchun to come.

Now it's summer and close to autumn. The whole outdoor is relatively cool. Although there is still sunshine, it's still nothing for Xiao Chen.

The God Of Medicine Son-in-law Chapter 249

Before long, Fang Yuchun called.

"Mr. Xiao Chen, where are you now?" Asked the other end.

"On the side of your factory." Xiao Chen answered.

“Ah? Why did you run there? I’ll send someone to pick you up right away!” The other end seemed surprised.

Xiao Chen suddenly felt a little strange. He made it clear on the phone last night that he met at the factory. But Fang Yuchun seems to have forgotten that he should take him back to the city.

Jianshi once said that Fang Yuchun is not simple. Xiao Chen drove back to Wuling city with the mentality of meeting this not simple character for a while.

Because Xiao Chen had his own car, he told him that he didn’t have to come again, according to the address given by Fang Yuchun. Xiao Chen soon found Fang Yuchun’s current location: the polar building.

This is the location of Fang Yuchun’s group. As an excellent entrepreneur. He had already owned his own group building before he was 40 years old. Xiao Chen could see that this man was really not simple.

As for the degree of support, there are people who don’t want to get it. Of course, there are people who don’t want to get it.

Seeing Xiao Chen coming, a man in a gray suit immediately came out of the building, bowed and said to Xiao Chen, “is that Mr. Xiao Chen?”

“Yes.” Xiao Chen nodded.

“We are always waiting for you on the 17th floor. Please follow me. Your car will be parked for you.” After the man finished, another man appeared behind him, wearing a black suit.

It seems that I came here to park for myself. I went to so many places. Xiao Chen saw the service for parking for the first time, so she waved her hand and said, “no, I’d better come by myself. Just tell me the location of the parking lot.”

Seeing this, the two men had to nod, and then pointed out a parking position for Xiao Chen.

What surprised Xiao Chen was that the parking place was on the second floor. It seems that Fang Yuchun is very particular about the design of the parking lot.

After driving the car to the parking lot on the second floor, Xiao Chen went down in the elevator. The previous man in gray suit was still waiting for him.

“Mr. Xiao Chen, when you go downstairs later, you can directly take the elevator here and drive directly. In this way, you can save some time.” The man in gray suit pointed to the elevator.

Xiao Chen found that the elevator he had just taken was connected with the whole building, and it was seven floors high. You can walk into the building from here.

Such architectural design. Xiao Chen really felt special and wonderful, as if he had known a new idea.

So he nodded and said, “your design is very special. It’s the first time I’ve seen someone build a parking lot upstairs.”

The man in gray suit smiled and said, “Mr. Xiao Chen should not have been in Wuling for long. If you turn around the buildings around here, you will find that they are all of this architectural style.”

“Really? Why is this building built here? Is there any reason or something?” Xiao Chen immediately asked with some curiosity.

“I’m sorry, Mr. Xiao Chen. Although I’m a native of Wuling, I’m not sure. It may have something to do with Feng Shui.” The man in gray suit is still smiling.

Xiao Chen found that the man in the gray suit was also special. It’s not that he is a martial artist or has practiced some skills, but that he can give people a sense of intimacy when he comes.

Xiao Chen usually goes out and seldom chats with people and says so much. Although I am curious about this architectural style, I usually think more and talk less.

Today, after seeing this man, I feel that I seem to have a special desire to talk, and when the man smiles, the kind feeling is like talking to his old friends.

Such a feeling made Xiao Chen have a dangerous sign in his heart.

The more this looks like a place without killing opportunities, the more unexpected things are likely to happen.

Because now Xiao Chen's cultivation has been raised to the realm of medical school, and all aspects of his body have undergone some qualitative changes, which can make Xiao Chen more keenly aware of some people's intentions.

Like this horse shopkeeper. If you come to him after Xiao Chen breaks through, you may be seen through by Xiao Chen on the spot, and Xiao Chen won't believe his words.

Now, although the man in the gray suit was smiling, he always gave Xiao Chen an inexplicable feeling of uneasiness. It's like the man seems to be calculating something.

However, he will not be in a hurry to expose it. Art experts are brave. Now Xiao Chen can't think of anyone who can pose a fatal threat to him.

As long as it wasn't some peerless strong man, Xiao Chen at least had the ability to escape.

Following the man to the 17th floor, the decoration here is not much different from that downstairs. It may be that Fang Yuchun also wants to show that as the boss of a listed group, he actually has no difference from ordinary people.

"Mr. Xiao Chen, just go straight. Our boss is waiting for you in front. Have a nice chat!" The man in gray suit stood directly in the elevator and said to Xiao Chen.

"OK, thanks a lot." Xiao Chen also smiled.

However, Xiao Chen seemed to see that the man in the gray suit was full of yin and ruthless color when the elevator door was closed.

It seems that the smile just showed in the face of Xiao Chen is false. If this thing is put on ordinary people, it is likely that some people will feel extremely terrible and even fear what will happen next.

But Xiao Chen did the opposite, and took a big step forward.

Not far away, Xiao Chen saw that the door of an office in front was open, which should be the door left by Fang Yuchun.

A few steps stepped out to the door. Xiao Chen gently knocked on the door twice. There was a middle-aged man's voice, which sounded crisp.

"Is that Mr. Xiao Chen? Please come in!"

Xiao Chen could hear that this was Fang Yuchun's voice. Although there were some echoes in the office, Xiao Chen called him not long ago, so he could not admit his mistake.

Push the door and enter. First of all, what Xiao Chen sees is not a middle-aged man, but two figures. They are all sitting on a chair with a back. Xiao Chen can also feel some strange breath on one of them. He is not an ordinary man, but at least a martial artist.

The God Of Medicine Son-in-law Chapter 250

Then Xiao Chen looked forward and found a man in a simple white shirt. He looked in his early thirties, with a flat head and short hair. His eyes glittered with brilliance and seemed very capable.

"Mr. Xiao Chen, you are here!" Fang Yuchun quickly stood up.

The two men opposite him also stood up one after another.

Xiao Chen quickly waved her hand and said with a smile, "don't be so polite. I'll just come in by myself."

"That's OK. Mr. Xiao Chen is now a great celebrity in Wuling!" Fang Yuchun's face showed a very kind smile.

This smile is more flawless than the previous man in a gray suit. It's like growing up on Fang Yuchun's face, which makes people feel particularly kind.

But the more so, the more alert Xiao Chen was.

At this time, the two men who came had turned around. The appearance of one of them gave Xiao Chen a sense of familiarity. It seemed that he had seen it somewhere.

"Hello, Mr. Xiao Chen. My name is Yuan Feng. I'm the eldest son of the yuan family. I've heard your name for a long time. It's really extraordinary when I see you today!" Yuan Feng said and held out his hand to Xiao Chen very respectfully.

Naturally, Xiao Chen didn't put on airs. He shook hands with him directly, and then looked at the long and fierce man.

"This is my bodyguard, mantis. Just meet him." Yuan Feng said.

"Hello." Xiao Chen still shook hands with the mantis without changing her face.

Fang Yuchun saw all this, and his originally kind smile became deeper, but he also quickly stretched out his hand and said, "Mr. Xiao Chen, I'm really sorry, please hurry back from the factory."

"It's just a small matter. President Fang has something delayed today, so he can't go to the factory?" Xiao Chen asked.

“Oh, you said it was a coincidence that our group was selected today and had to carry out a financial inspection. As the chairman of the board, I couldn’t leave. I’m sorry I didn’t have time to inform you.” Fang Yuchun apologized.

“Fang doesn’t have to. You are a famous entrepreneur in Wuling. I really admire Xiao for having such an industry at your age.” Xiao Chen hurried.

“Where, whether you are young or promising depends on Mr. Xiao Chen. Now almost half of Wuling knows about your 500 million purchase of Mingwang jade that day. You are really hidden!” Fang Yuchun seems to be talking about Xiao Chen’s deeds.

In fact, he is just flattering Xiao Chen. Xiao Chen noticed that he said this, as if to cover up something and turn the main attention to him.

“Mr. Xiao Chen, I also heard that you were not only received by President Gu that night, but also went to the Chu family. Finally, the old man of Chu regarded you as a guest of honor. It’s amazing!” Yuan Feng seems to admire the tunnel.

“Both of you are exaggerating. I, Xiao Chen, am just an ordinary person. After contacting old man Chu, old man Chu thought we were a little destined, so we made a friend.” Xiao Chen is very modest.

“Mr. Xiao Chen, you are too modest. Others don’t know, but I know. Your medical skills are very good, right? These news can spread quickly among our upper class families.” Yuan Feng immediately smiled.

Hearing Yuan Feng say so, Xiao Chen always feels that he seems to be some bad comers.

So Xiao Chen quickly shifted the topic back and said, “president Fang, do you still have any business to talk with the eldest son of the yuan family? Or?”

“Oh, I almost forgot my business. Look at my memory. May, hurry to serve Mr. Xiao Chen tea! And ask someone to add a chair here!” Fang Yuchun suddenly shouted to the outside.

“OK!” A woman’s voice sounded like a younger woman.

As like as two peas, a man came in with a chair that was exactly the same as Yuan Feng and Mantis.

Xiao Chen quickly thanked him. Then he took the chair.

Then, a young woman in professional dress came in and came to Xiao Chen with tea. He smiled at Xiao Chen and said, "Mr. Xiao Chen, please have tea."

The voice is very gentle, but I can't hear any compliment. It seems as if you are treating your family casually.

Xiao Chen now doubts that Fang Yuchun has undergone some special training to train everyone in his group like this?

When May was serving tea, Yuan Feng couldn't help glancing at her exposed chest with a touch of snow-white.

May's figure still doesn't have to be selected. It's convex and tilted back. Moreover, because it's a professional dress, her lower body is a short skirt with black silk stockings. It looks a little charming.

In addition, she looks gentle with glasses, which makes men have infinite reverie, just like the feeling of first love.

Yuan Feng's expression Fang Yuchun has a panoramic view, but he cares more about Xiao Chen's expression and eyes from beginning to end. Xiao Chen didn't even look at May.

Although she is not a stunning beauty, but such a close distance, and he deliberately let May take the initiative. Xiao Chen can see what all men want to see as long as she wants to move her eyes a little.

But even so, Xiao Chen is still like an old monk. He didn't have any interest in May.

This makes Fang Yuchun doubt whether Xiao Chen is a normal man.

In fact, this is too Pediatrics for Xiao Chen. Even if Yi Meng can survive that pass, it was when he was a little tired and had some problems in his mood.

Now Xiao Chen, if he doesn't want to be moved, even if the real immortal comes down to earth and flirts in front of him, he won't have any idea.

Because his cultivation has broken through, and his thinking and understanding in all aspects are more transparent. He can control these things at will.

"Mr. Xiao Chen is really young and promising!" Fang Yuchun couldn't help praising Xiao Chen again.

"Let's get down to business." Xiao Chen is not ready to continue to fight guerrillas with Fang Yuchun.

"Yes, I've always felt guilty about the factory you mentioned, but it's about the livelihood of people in nearly four towns in that area. I'm really embarrassed."

Fang Yuchun's face showed an ugly tunnel.

"Mr. Xiao Chen, the yuan family also has a certain share in the factory you mentioned. In fact, we fully support the demolition. After all, it does have a certain impact on the environment, but the government has always suppressed the problem of workers' unemployment."

Yuan Feng also added.
