

God Of Medicine 361

The God Of Medicine Son-in-law Chapter 361

“Brother, I failed to fulfill your wish. After going down, you can take revenge on me!”

Nangong Lengshan’s words also came into Xiao Chen’s mind.

Suddenly, Xiao Chen felt that all the information began to enter his mind and first came to the East China Sea. Then to the various with Wu Yaqing, go with Nangong Lengshan to assassinate the Shen family. To Kyoto, to Wuling, and finally back to the East China Sea.

Boom! All the memories exploded in Xiao Chen’s mind at this moment.

“Live! I want to live!” Xiao Chen suddenly shouted desperately.

At the same time, the chaotic Qi in his body was constantly changing after contacting the venom.

Originally, it was just mixed together without any difference. At this time, it suddenly began to change into bursts of black and white breath.

As the saying goes: Tao gives birth to one, gives birth to two, gives birth to three, and gives birth to all things.

It seems that the two kinds of poison gas in the body have been transformed into chaos. Now it seems that the two kinds of poison gas in the body have become quite difficult to change.

After a while, Xiao Chen felt that the warm current in his body seemed to overflow.

For a moment, he felt his body burning in the fire. For a moment, he felt his body falling into the ice cellar.

In this way, I don’t know how many times I have changed. It seems that after reaching an extreme number, Xiao Chen feels that the two forces in Dantian are integrated again.

This time, it is not a simple chaotic gas, but the gas of yin and Yang that can be converted at will.

In this way, Xiao Chen suddenly sat up. Having experienced life and death once, he seemed to feel that he had a quite thorough understanding of life and death.

“I’m awake at last. Now that you’re awake, I’ve finished my task. Goodbye!” The old man on the side saw this scene and turned into a mass of pure air in an instant. Disappeared directly into the cave.

“Wait, Grandpa, who are you?” Xiao Chen just reacted and wanted to ask the old man’s name.

But the old man has disappeared, as if he had gone with the wind.

“Cold mountain!” Xiao Chen found Nangong Lengshan on the edge.

Just as he understood the power of yin and Yang, he immediately started to work, and the two breath directly injected into Nangong Lengshan’s body.

The part that was originally infected by the venom of Bai Yu was directly decomposed with the power of yin and Yang.

“Cough, cough, cough!” Nangong Lengshan woke up.

By this time, his body had fully recovered. Even because of the moistening of the power of yin and Yang, his power is a little stronger than before.

Moreover, there are faint signs of breakthrough in cultivation.

“Where is this?” He didn’t seem to react. Then he looked at his chest for the first time and found that the blood hole in his chest had completely disappeared.

Looked around. He found himself in a cave, and it seemed like a waterfall outside.

At this time, the sound of the waterfall is just right. It doesn't sound noisy, but gives people a relaxed and refreshing feeling.

Nangong Lengshan rushed out of the cave without hesitation.

Below, Xiao Chen just caught a few pheasants on the mountain roasting.

See Nangong Lengshan coming out. He smiled and said, "wake up, brother."

"We. Is this in heaven?" Nangong Lengshan looked at the surrounding environment, close to mountains and rivers. With green grass everywhere, flowers constantly and birds whispering softly, it looks like a pretty good place.

"You'll know when you come down." Xiao Chen smiled mysteriously.

Nangong Lengshan heard that the speech flew down and fell to Xiao Chen's side.

Xiao Chen suddenly knocked on his head.

"Oh! Why did you hit me?" Nangong Lengshan felt a little pain on his head in an instant.

"Do you feel like you're in heaven?" Xiao Chen still said with a smile.

"Oh, yes, why does it hurt when you hit me?" Nangong Lengshan reacted, and then suddenly pinched himself: "lying in the trough. It hurts!"

Seeing his appearance, Xiao Chen couldn't help laughing more happily over there.

“Come on, eat. We’re on our way.” Xiao Chen said and handed a roast chicken to Nangong Lengshan.

“On the road? On what road? Are we going to hell now?” Nangong Lengshan still looked at a loss.

“You’re on earth now. Can’t you think of something good, you silly boy?” Xiao Chen couldn’t help rolling her eyes.

“The world? How could it be? I just cut myself, and my heart was crushed by myself. How could I still be alive?” Nangong Lengshan looked incredulous.

“Oh, then I’ll have to go back alone. When my sister-in-law asks, I can only say that you died miserably in your own hands and I’ll take care of her for the rest of her life.” Xiao Chen pretended to be helpless and said.

“What are you talking about? It’s impossible. Qianqian is mine! I want to go back! Even if I die, I want to go back!” Nangong Lengshan was a little angry in an instant.

Xiao Chen had no way to come up with such a move. After hearing that Nangong Lengshan had to go back anyway, Xiao Chen was relieved.

So they quietly ate the pheasant.

“Ah, I’m so full. Although it tastes average, it’s really full.” Nangong Lengshan touched his slightly swollen stomach.

“You can’t stop your mouth when you’re full!” Xiao Chen said angrily.

After cleaning up for a while, Xiao Chen said, “go back and find Bai Qianqian first.”

At this time, no matter Liu Nianxin, Bai Qianqian or several other informed employees in the building of Liu Nianxin company, their faces are quite heavy, because the news of the death of Xiao Chen and Nangong Lengshan has been spread.

Although the bodies of the two people were not found, the regiment has determined that the two people did have an accident, because the blood stains of the two people can be found on the spot.

“Mrs. white, what should we do now?” Liu Nianxin was still worried about his position. Now Xiao Chen and Nangong Lengshan are dead, which makes him feel a little uncomfortable.

It’s like something’s missing in my heart.

“I believe they haven’t died yet. They can’t die so easily. Since there’s no body, there’s hope!”

Bai Qianqian was quite firm at this time.

“Well... Do we have to continue to investigate this matter? If the monster finds the door, don’t we...” Liu Nianxin is still afraid of the power of the desert God of war at this time.

After all, those monsters still look terrible. It’s hard for ordinary people to imagine such monsters appearing around them.

The God Of Medicine Son-in-law Chapter 362

“President Liu, do you think we have any way back now? I can’t think of a better way to find them except to continue the investigation.” Bai Qianqian said as she entered various instructions on the computer.

“But now both adults have disappeared. Even if we continue to investigate, it doesn’t make much sense.” Liu Nianxin wiped the sweat path on his forehead.

“If you have to quit, you and I won’t stop you. If you want to go, you can go.” Bai Qianqian saw Liu Nianxin’s true face clearly at this time.

She even began to wonder why Xiao Chen chose to believe such a cowardly person as the controller of such a large group at the beginning.

Although Liu Nianxin is really better controlled, at the same time. When encountering some important things, he seems to be a little timid. He doesn't look like a group boss at all.

Bai Qianqian's words are quite decisive, but Liu Nianxin hasn't figured out what to do at this time. Now he was really afraid that the desert God of war would retaliate on his head.

Bai Qianqian insisted because almost no one knew about her in the East China Sea. As a figure who often appeared in public, if the desert God of war really wanted to start looking for him.

It is estimated that we will know everything about him in a few days.

Liu Nianxin also regretted it at this time. I shouldn't be so high-profile at ordinary times. Now the world almost knows my name. Although I do have some assets, these are not really capital to show off.

However, even if he regretted now, he didn't regret taking medicine. In fact, when Xiao Qingyuan took this road at the beginning, Liu Nianxin should know that his future will not be smooth sailing.

After thinking about it, Liu Nianxin still sat down in his own position. What's the use of running now? I still have a lot of things I can't take away. My family, my friends and all my contacts are here in the East China Sea.

Where are you going? After escaping, you can only choose to go into exile. At that time, it may be difficult for your family and lover to see that last side.

At this time, on the bustling streets of the East China Sea, several strange insects were suddenly drilled out of the small jungle on the edge. It's nearly half a meter tall. When you meet someone, you bite it directly.

People who don't bite will spit on the ground in an instant.

There was a sudden scream in the crowd, and people fled everywhere, regardless of the situation of others.

For a time, many old people, children and even some middle-aged people were knocked down on the ground.

Seeing people being bitten by the bug, people became more and more frightened. All of them have drilled into some hotels or office buildings around.

But soon, strange insects appeared in some buildings, similar to locusts, but much larger, and fell directly on the high floors of some office buildings.

Soon, office buildings and buildings were no longer safe places, and people fled everywhere again.

“Captain Lin, I don’t know what’s going on now. There are a lot of strange insects in the city center. We must find a way to control this situation!” Zeng Guanglin was reporting the situation in the city guard building at this time, and his face was full of anxiety.

Lin Shihao looked at the documents in front of him. Now his head hurts. Although some ordinary military guards were urgently sent to protect the people there, the effect was quite poor.

Now the special corps is carrying out other tasks. We can only rely on the existing military guards in the city. But it’s obvious that those monsters are more capable than they are like.

“Can you contact that guy now? Does he want to start with our empire?” Lin Shihao said and picked up the phone in his hand.

“I tried to get in touch early this morning, but the other party didn’t pay attention to me.” Zeng Guanglin replied.

Lin Shihao pressed a number while listening.

After a while, there seemed to pick up his phone.

“Hey, it’s me, Lin Shihao. What exactly do you want to do? Are you bullying our empire? There are no experts?”

“Captain Lin, don’t worry. I’m just doing an experiment. If you must say I’m premeditated, I can’t help it.” The voice at the other end was full of evil spirit.

“Wait for me, you have reached our empire. You should abide by our rules. If you break the rules like this, I’ll tell you. You will be punished soon!”

Lin Shihao angrily hung up the phone.

At this time, in the desert God of war’s base, the desert God of war who had just hung up the phone looked calm, as if his phone had nothing to do with him.

“God of war, Lin Shihao is so arrogant. Why don’t we give him some color to see?” The next Alice spoke again.

“No, it’s just a clown picking a beam. I’m doing it now. Someone over there should understand what I mean. Next, the whole country of China will encounter unprecedented invasion, ha ha!”

The desert God of war laughed wildly. It seems that everything is under his control.

Meanwhile, on the other side, in a huge military base in Kyoto.

“General, the situation on the East China Sea this time is obviously that the desert boy has started. We should attack and give them some color to see!” The speaker is full of flesh. At first glance, they are powerful soldiers who often carry out various trainings.

“We can’t move yet. The head of state didn’t give any instructions, indicating that other teams should rush there this time. Our biggest opponent hasn’t come yet. Now we should be on guard at any time. If we should come, we should still come.”

Hua Wenfeng said, looking up at the distant sky, his eyes full of complexity.

“Captain, let’s evacuate first! The people here have been evacuated. Our weapons are not advanced enough and have no effect on these insects!”

In the central area of the East China Sea, several ordinary Wuwei are shooting at some insects with pistols.

But obviously, their attack did little harm to these insects with thick shells.

Her strong clothes outline mu Tianxue’s perfect figure. She is the captain of the military guard of this operation and the first time she has performed such an important task since she entered the East China Sea military guard.

“We can’t go yet. We need to leave these guys here.” Mu Tianxue is very determined.

The God Of Medicine Son-in-law Chapter 363

Looking at the decisive color on the exquisite face of his captain, the Wu Wei on the side had to squat down again and fight with her.

This Wuwei is named Zhang Lang, who joined the Wuwei team with mu Tianxue. He is also the person with the highest combat ability in the same period.

However, he did not act as the captain of Wuwei according to the above appointment. But gave up this position to his beloved woman, the woman who is fighting with him.

In fact, there is another relationship between them that no one knows. They are actually students who graduated from the same police academy.

It's just Zhang Lang's great admiration for Tianxue.

When Zhang Lang thought he would never see the schoolgirl who lit up his world again, he didn't expect to meet her again here in the East China Sea.

In order to thank God, he decided not to go to any diversion, as long as he was with her.

Mu Tianxue is really good enough. But in front of Zhang Lang, there is still a certain gap. She also knows that her position is deliberately given by Zhang Lang.

Although nothing much happened between the two, they actually had a secret feeling.

"Captain, I don't think it's a way to go on like this. There are more and more insects in it. We'll run out of ammunition and food if we insist. We'd better withdraw for a distance!" Zhang Lang found something strange ahead. It seemed that the bug began to grow explosively.

At this time, mu Tianxue also saw more and more insects pouring out, so she nodded.

They immediately got up from behind the bunker and withdrew backward.

In fact, it's not that they don't want to retreat, but now many areas in the rear are surrounded by all kinds of strange insects. So even if they want to withdraw, they can only withdraw to a temporary assembly camp over there.

Just as the two evacuated, three motorcycles suddenly appeared, which seemed to be of the type of sports car, while the men above looked crazy.

"Ha ha! I've finally waited for this day! Now let me blow it up!" Several men said and threw out several grenades in their hands.

“Boom! Boom!”

In an instant, there was a huge explosion behind, and the strong impact made mu Tianxue and Zhang Lang crawl on the ground.

“You dare to break into it. Don’t you know how dangerous it is?” Mu Tianxue couldn’t help but teach these three grenade throwing guys a lesson, and they even took the current disaster as a playground.

“Wu Wei? It’s actually Wu Wei? Ha ha! You two... Hey, that beautiful sister looks good!” After seeing mu Tianxue, one of the motorcyclists suddenly became evil.

Hearing his words, the other two also drove motorcycles around.

“Sister beauty, don’t fight against monsters here. Go with your brother. Your brother will take you to a fun place. You don’t want to come back after you go!” The Yellow haired man in the middle smiled.

“Shameless!” Mu Tianxue didn’t expect that these three people could think of such a thing at this time.

“Since you three are capable, why don’t you save more unfortunate people?” Zhang Lang also came up and asked.

“Yo? You want to be a leading bird, don’t you? We have status, status, equipment and money. We only do what we want to do. You’re not qualified to order us!” The face of the man with blue hair on his back suddenly appeared dissatisfied.

However, as soon as his voice fell, mu Tianxue and Zhang Lang shouted, “be careful!”

Suddenly, a locust like insect with wings appeared behind him.

Directly jumped down and bit the blue headed man’s head off.

“Ah!” Although mu Tianxue was a policeman, he couldn’t help crying out when he saw such a terrible and bloody scene.

The two men saw that their partner was killed, which was also a burst of panic. But after the panic, there was full anger.

“Madder, f*ck you!” The Yellow haired man threw the front of the car. Directly came to a place, turned around in an instant, and then waved the explosives in his hand and rushed to the strange group in the distance.

But on his way. I don’t know where an insect appeared on the side and directly crashed into his car. Suddenly, the car was destroyed and people died. The insect quickly climbed over and wanted to eat him directly.

The man opened the pull ring of a grenade at the last minute.

Boom! With another loud noise, the man and the strange insect disappeared into the world.

“Go!” Zhang Lang could keep calm at this time and ran towards the assembly camp with mu Tianxue’s hand.

And the man left behind saw that his partners were dead. It’s so dangerous here. I woke up in an instant and started the vehicle to escape quickly.

Just as he started the vehicle and didn’t run a few steps, the locust monster in the air rushed down again.

Although the man was afraid this time. But he also prepared a grenade. Just as he was about to throw it, the locust stepped first and took one of his arms away.

The huge pain made the man lose his balance in an instant, and the fast-moving motorcycle hit a stone pillar not far away.

In an instant, flesh and blood flew, and the motorcycle was scrapped.

After mu Tianxue saw such a situation, the whole person was already in a state of absence.

Because all this is too shocking. Although she graduated from the military school, she has also worked as a military guard here for more than two years.

But it's the first time I've seen such a scene. It's hardly acceptable to a normal person.

Everything was like a dream, which broke out in an instant.

"Bow your head!" Seeing another locust monster flying over, Zhang Lang immediately pressed mu Tianxue's head down.

"Ah!" Zhang Lang suddenly screamed. It turned out that he had just stretched out his hand to press mu Tianxue's head, and his right hand was scratched by the locust.

Now a large area of blood on his right arm is left with some yellow pus.

Zhang Lang knows that he is poisoned. He may not have much time.

"Snow, let's go! I'll cover you!" Zhang Lang said and took out his pistol.

And the grenade that mu Tianxue kept on his body was also robbed by him.

"Zhang Lang!" Mu Tianxue finally came back to God and found that his favorite man was about to face the choice of life and death.

"Go!" Zhang Lang said as he aimed his trembling hand at a locust that was not about to fall.

“Bang!” One shot directly hit the eye of the locust. The locust lost its balance and knocked down on the ground not far away, struggling constantly.

The God Of Medicine Son-in-law Chapter 364

“Go!” Zhang Lang kept roaring.

“No! Let’s go together!” Mu Tianxue’s eyes were full of tears at this time.

“I can’t go. Hurry up! I’ll help you in the back!” Zhang Lang’s face at this time was not as calm as before, full of determination and hysteria.

“Zhang Lang!” Mu Tianxue wants to come up and pull him.

But Zhang Lang pointed the gun directly at his head: “will you go? If you don’t go, I’ll die and show you now!”

Mu Tianxue was frightened by his move. He could only cover his mouth and shake his head, and the tears in his eyes kept falling down.

“Go!” Zhang Lang shouted.

Suddenly. A sharp thorn directly pierced Zhang Lang’s body.

Zhang Lang suddenly stagnated and found that his chest was directly penetrated by the sharp thorn from the locust’s mouth.

“Zhang Lang!” Mu Tianxue was almost desperate when she saw this scene.

“Go...” Zhang Lang was still waving at her. Then he pulled the grenade away and threw it at the locust monster not far away.

At this time, even if Mu Tianxue wanted to go, her strength seemed to be evacuated and fell directly to the ground.

Behind. All the time, the beetle monster quickly approached her.

Zhang Lang saw mu Tianxue’s back and his eyes were full of unwilling color. He didn’t understand why he sacrificed his life for the opportunity. Mu Tianxue didn’t cherish it at all.

Seeing that mu Tianxue is about to be bitten, Zhang Lang wants to open his mouth, but his body seems to be disobedient.

“Boom!”

There was a loud explosion and it seemed that everything was over.

“The heart rate is normal, the blood pressure is normal, and all aspects are normal. Start detoxification!” In the second people’s Hospital of Donghai City, a man who was injured all over and had extensive burns on his back was being rescued.

An unknown person just sent a man and a woman. Someone familiar with the hospital immediately recognized that this was the person from the Donghai Military Health Bureau, who was probably sent to the city center to protect the evacuation of the masses.

Although they don’t know who saved them, they know that these people must be helping the East China Sea.

“Elder martial brother Meng, this time there is such a crisis in the East China Sea. It’s time for us to take action.”

A man in a pale yellow robe followed Meng songran behind.

There was an accident in the East China Sea this time. Naturally, they would not stand idly by. After discussing with the sect leader, several elders asked Meng songran to take several teams down the mountain.

Just now he met mu Tianxue and Zhang Lang, so he saved them.

“Brother Xiao Chen, such a big thing happened in the East China Sea this time. I don’t know where you are now?” Meng songran thought and looked at the sky.

“Senior brother, there seems to be a lot of strange rushes over there. Let’s go and have a good time!” It seems that the Hualong sect disciple in the light yellow robe behind him can’t wait.

“OK, let’s go and have a good time!” Meng songran also picked up the fan in his hand at this time.

Two months later, his cultivation improved slightly. However, his mind has grown greatly.

After walking out with Xiao Chen last time, Meng songran also realized that his thought was too simple. He needed to think more and finish better when doing something.

They flew out their fan weapons one after another and cut off several strange insects in an instant.

These insects may be quite difficult for some ordinary martial guards, but it’s quite easy for them to kill.

After all, they use real Qi. However, no matter how hard the shell is, it is impossible for ordinary insects to escape the attack of true Qi. After all, Zhenqi can directly break their internal organs.

Even if no one can break through their shells, it can kill them.

And now Meng songran's weapons have been improved by the elders of the sect. Designed to deal with these strange insects this time.

Even people without true Qi can cause certain damage to these strange insects when using them.

While they were killing these strange insects, a strange looking man appeared behind them. He seemed to be under the God of war in the desert. He had a very strange horn on his head, which was somewhat similar to the unicorn fairy among the insects.

Meng songran, who was in the middle of the killing, also noticed the man here. Without looking, he directly recruited the jade fan and flew over.

"Picking leaves and flying flowers!"

The jade fan drew a very strange track in the air. Fly straight towards the freak.

"Dang!"

As if it had knocked on some hard steel, the jade fan flew back to Meng songran's hand again.

Meng songran saw that there was a very small crack on his jade fan.

It's obvious that the other party's body is wearing some pretty hard armor or something.

Meng songran beat him, and the man laughed strangely. Just break your clothes.

He showed his whole body, which was full of beetle like armor.

"Boy, I admire your courage. With your strength, you dare to come to our trouble!" The man's voice is quite unpleasant, like grinding metal.

“Not only do I dare, but I will kill you now!” Meng songran worked his Qi, and the jade fan in his hand rotated at a high speed.

“Go!” The jade fan flew out again.

The attack launched by Meng songran has an effect called killing potential that he recently realized.

Who will compete when the killing power comes out?

The man seemed to realize that Meng songran’s attack was not simple. He didn’t shake his body again, but the horn on his head suddenly elongated a lot, revealing a huge thing similar to pliers in an instant.

Unexpectedly, Meng songran’s jade fan was caught when he came up.

The jade fan was clamped when it was rotating at high speed, and the killing power on it was transmitted from the huge angle.

In an instant, the man felt a burst of dizziness, the pliers like angle on his head also lost control, and the jade fan returned to Meng songran’s hand again.

The man ejected a mouthful of green liquid, his eyes were red and looked at Meng songran.

“Good boy, it seems that I despise the enemy, but just now is your only chance to kill me. From now on, you can’t hurt me any more!” The man said and screamed.

Disgusting pieces of armor kept growing on his body. Even his ears were covered with crustaceans. The horn stone on his head seemed to have been injured in the battle just now, so he took it back first.

“Go to hell!” The man jumped up with a strange roar.

The God Of Medicine Son-in-law Chapter 365

Meng songran didn't see the man using any weapons this time, but when he saw the man coming, he felt a sense of crisis. Sure enough, when he was less than ten meters away from Meng songran, the monster man suddenly grew a very sharp spike on his body.

Almost the front of the whole body is such a sharp thorn. It's so dense that people are more or less scared after watching it.

However, Meng songran is still calm. His mind has long been infinitely close to Xiao Chen. In the face of various crises, he has quite fast reaction and response ability.

The Qi was immediately turned on, and the whole body was covered with Qi. Stand where you are, motionless.

"Ha ha, you are such a fool! You dare to take my thousand spikes. Then get ready to go to hell! Eech!" The man screamed again, opened his arms and killed him directly.

"Move the shape and change the shadow, jade fan, kill!" Meng songran's body changed slightly at the moment when the man jumped on it. His body went to one side, and then the jade fan originally put away in his hand broke out again with killing potential at this moment.

"Zizizi!" The jade fan made a harsh sound on the strange man's body again.

So they collided again.

At last, the strange man bumped into the ground, while Meng songran took back his jade fan, looking calm.

The strange man in the distance never stood up after hitting the ground. If you look closer, you will find that his mouth is constantly overflowing with liquid of quite strange color.

The whole person also has dilated pupils. It seems that he has died.

This battle ended with Meng songran's victory, but Meng songran didn't show his satisfaction. At this time. He felt a stronger enemy in the distance.

"Good, good! Your boy still has some skills." A man in black appeared in the place invaded by strange insects.

"I just solved two people with similar clothes over there. It seems that they should be your classmates!" The man said, suddenly two more heads appeared in his hands and threw them directly on the ground.

Meng songran glanced and then frowned. His eyes were also full of killing intention: "dare to kill my Hualong sect disciple. I think you are impatient!"

Before the words fell, the jade fan had flown out and killed again. This attack was more violent than the previous attack against the strange man.

"Ding!" The man in black opposite just stretched out his right hand, which looked like only skin and bone. Unexpectedly, he caught the jade fan, and then saw that with a little force, the jade fan was broken in an instant.

"How can you use such fancy things to fight? You'd better look at mine!" The man in Black said with a wave of his big sleeve. In an instant, a large knife more than ten feet appeared in front of Meng songran.

The man waved it twice at will, and Meng songran felt bursts of knife wind flying towards him.

Although he now saw his fellow disciples killed, he was extremely angry. But now the man's strength also calmed him down.

This person is definitely beyond his ability to fight, or even the elders and leaders of the sect have come. Joint efforts may only be able to suppress this person.

Because he is really too strong, what Meng songran thinks now is how to save his life first.

“I know what you’re thinking. You want to save your life and go back to your sect to tell the news, don’t you? Then I can tell you that your sect should be destroyed now.” The man in black smiled coldly.

“What are you talking about!” Meng songran was shocked, and then he didn’t believe what the man said: “it’s impossible. There is such a powerful mountain protection array in our mountain gate. How can it be broken by you curfews!”

“Hum, believe it or not. I’ll send you to hell to meet your classmates now!” The man in black didn’t seem to want to explain too much. He waved his big knife and chopped straight at Meng songran.

Seeing the man in black waving his big knife, Meng songran immediately wanted to escape from the scene. But somehow, there seems to be some magic on the broadsword, that is, it forcibly pulls him here, and there is no chance to escape.

Meng songran remembered that the wind of the knife waved by the man at the moment when he took out the big knife was not aimless, that is, there seemed to be a strange power in the wind, and now he was calculated by the other party.

It can only be a hard move to shake each other.

“Die!” The man suddenly raised his big knife and cut it down, which was like a mortal killing God, which made people feel afraid.

Meng songran’s mind at this time played a role. Under the huge pressure, he still kept his calm. At the moment when the knife was approved, he used his body method again.

“Shape shifting and shadow changing!”

“Boom!” The huge explosion exploded in front of Meng songran. It was obvious that the air was cut by the black robed man’s big knife. You can imagine the power of his knife. If Meng songran took this move.

Then it will be directly cut in half without any suspense.

Seeing that Meng songran escaped his long planned blow at the last minute, the man in black robe was surprised: “your boy is very good. He is a little better than your fellow disciples. He can even let me make a second knife.”

“You can’t kill me today!” After Meng songran escaped his fatal knife, his confidence suddenly increased. At this time, he also felt that the pressure all over him disappeared. It was obvious that the man in black robe with long knife had used his secret means just when he waved his first knife.

Now Meng songran is very relaxed, and he seems to have found the weakness of the other party’s attack.

Although the black robed man’s attack is powerful and lethal, each attack should take some time to prepare.

Just like now, the man in black didn’t immediately wave his big knife again and chop at himself.

Because he knew that the power of such splitting was not obvious, and there was no deterrent effect.

“Hehe, it seems that you have touched the way of this sabre, but it doesn’t mean that you can really take over this Sabre!” When the man spoke, it seemed that his energy had been stored for the second time, and he waved his big knife again.

Meng songran didn’t feel any pressure this time, but he found some changes in the path of the other party waving the knife, which made people feel unpredictable.

The God Of Medicine Son-in-law Chapter 366

Seeing the broadsword cut again, Meng songran tried his best to avoid it, and the broadsword rubbed away from him again.

Just when Meng songran thought he had escaped the other party's second knife, suddenly, a full sense of crisis surged into his heart again, and an invisible knife spirit flew from behind him.

He found a strange angle just the moment the man waved his knife. It turned out that the position cut by the broadsword was just a means to deceive the enemy, a real attack. That's it.

But as soon as he stopped, he couldn't hide.

"Aoki sword technique!"

"Qiang!" A sword spirit flew by and directly stopped the black robed man's sword spirit.

"Brother Lengshan!" Meng songran saw the man in white in front of him, and his face suddenly showed a happy look.

"Brother songran. Long time no see!" Nangong Lengshan also laughed.

"At first, when I saw the news, I really thought you brother Xiao Chen had an accident. By the way, brother Xiao Chen?" Meng songran said and looked around.

"He went to do something and should be back soon." Nangong Lengshan said, waved his green wood sword, sent out several sword Qi again, and went straight to the man in black robe.

"Didn't you die in the hands of black scorpions last time?" The man in black looked surprised.

"I'm dead? Your whole family is dead, and I won't die! Give me your life!" Nangong Lengshan was too lazy to talk nonsense with this man at this time, because he was embarrassed by these monsters last time. He had fire in his heart. Now he sees this man so arrogant.

To kill his spirit, of course.

The two immediately tangled and fought together, and Meng songran was not idle. A small box suddenly appeared in his hand. After opening it, a little sword flew out. He kept saying a spell in his mouth, and then the little sword grew up.

It turned into a long sword of regular size.

Finding the gap between Nangong Lengshan and the black robed man, Meng songran also joined the battle.

After all, Nangong Lengshan and Meng songran have a certain degree of cultivation. So the two men worked together to completely suppress the man in black.

Now there is no time to accumulate strength for him, and the man in black can't use the amazing knife. He can only constantly parry the attack of the two people.

"Die!" Nangong Lengshan suddenly found an unprotected gap of a man in black robe, and a sword spirit crossed and directly pierced his whole body.

But after the sword Qi penetrated his body, he didn't see any blood. Nangong Lengshan and Meng songran were at a strange time. Suddenly, not far away, another woman in black flew in their direction.

In the process of flying, all kinds of darts and concealed weapons kept flying out of her hands. Meng songran and Nangong Lengshan could only keep avoiding.

"Ha ha, Mengmei, you're here at last. Have you solved all the waste of that sect?" The man in black laughed when he saw the woman in black.

"Hurry!" Mengmei didn't seem to want to answer his question, but flew away straight away.

"What?" The black robed man was stunned, but he couldn't help thinking more, so a pair of strange wings suddenly appeared on his back, even trying to escape.

“Stay with me!” Not far away, Xiao Chen’s roar came. One blue and one gold, two small swords flew directly to kill. The speed is quite amazing.

“So fast!” Meng songran was not surprised by the speed of the killing move. If it is cut on him, it is estimated that he has no resistance at all.

As Meng songran thought, the two small swords flew out in an instant and directly penetrated the black robed man and the black robed woman not far away. They quickly fell from the sky and then smashed a huge stone hole on the ground.

“Brother Xiao Chen! I can’t imagine that you have improved your cultivation to such a level after you haven’t seen him for a few months. I’m really envious!” Meng songran saw Xiao Chen coming. Hurried forward to say hello.

“Brother songran, I’ll catch up with you later. Now I’ll deal with the two people over there first!” Xiao Chen said loudly and flew directly in the direction of the two people.

After the smoke and dust dispersed, their figures disappeared as expected. Not far away again, the man in black was running away with the woman in black.

At this time, the robe on his body had been cut by Xiao Chen’s sword, and half of his body had been exposed.

However, his body is not human flesh and blood, nor those strange bodies with strange hair or shells, but very pure bones.

Yes, it’s just bones. There’s nothing else.

But he is still moving at a fairly fast speed.

“Mengmei, what’s going on? How did Xiao Chen come back to life? He was poisoned by the black scorpion and could not be saved?” The white bone man asked as he ran.

But the black robed woman was badly hurt at this time. Suddenly, she directly struggled to turn over from the white bone man's hand and fell to the ground.

"Go back and tell the God of war that Xiao Chen's strength is infinitely close to his peak. Let the God of war come early and kill him himself, otherwise there will be endless trouble!" Mengmei said that a small black ball suddenly appeared on her hand.

"Dream charm, what are you doing!" The white skinned man was stunned.

"Come on, or we'll all tell you here!" Mengmei said and swallowed the black ball directly into her body.

Suddenly, her whole person began to change. Her eyes suddenly became black as if she had lost her eyeballs, and her whole body seemed to be full of killing intention.

"Go!" Dream charm's voice has changed at this time.

The white bone man had no choice but to escape quickly.

And Xiao Chen's two little swords had been killed at this time.

Seeing Meng Mei go up, he caught Xiao Chen's two swords with his bare hands.

But even so, blood was flowing on her hands.

"You dare to grasp my Yin Yang limitless sword with both hands. I admire you very much!" Xiao Chen said and commanded his two swords to cut off Mengmei's hands directly.

Mengmei roared, but it was to kill Xiao Chen himself.

But before she could meet Xiao Chen, the two swords had penetrated her body again.

“Ah!” Mengmei made a sad cry, but she couldn’t go any further.

Xiao Chen suddenly had a trace of respect for her.

The God Of Medicine Son-in-law Chapter 367

For such a woman, the spirit of sacrificing herself in order to give her teammates time to escape on the battlefield is quite great. At least the charm of the dream is not dirty.

Behind the back, Nangong Lengshan and Meng songran caught up and saw the dream charm who died under Xiao Chen’s sword.

“Did the man in black run away?” After searching around Nangong Lengshan, I didn’t find the body of the white bone man.

“Let’s bury her first. Then there may be another bitter battle to begin.” Xiao Chen said, holding the body of Mengmei on her body.

Although he did not know why the desert God of war launched such a war. But he is still an absolute opponent of the war.

Whether it is the enemy or one’s own compatriots, a war will come down. There are no winners, only the continuous occurrence of Cang tragedy.

“Bury her?” Nangong Lengshan was surprised.

“Leave it to me, brother Xiao Chen.” Meng songran seemed to understand Xiao Chen’s meaning.

“OK.” Xiao Chen smiled and nodded, but felt that talking to Meng songran really didn’t need to be so tired.

Nangong Lengshan can only stand aside and watch Meng songran take Mengmei’s body from Xiao Chen.

“Brother, I’ll give you two choices. Now go back and take Bai Qianqian to Kyoto for a while, or you can say goodbye to her and let her go to Kyoto. You can’t stay here anymore. It may become a huge battlefield.”

After giving Meng songran the charm of the dream, Xiao Chen turned back and said to Nangong Lengshan.

After listening to Xiao Chen’s words, Nangong Lengshan also knows what the current situation is like. Indeed, as Xiao Chen said, this time it is estimated that there will be a big war in the East China Sea. The whole East China Sea can be said to be a very unsafe area now.

“I’ll be right there and I’ll be right back.” Nangong Lengshan said and flew to Liu Nianxin’s building.

Came to the building. Bai Qianqian, Liu Nianxin and others are outside the door. It seems that they have been waiting for a long time.

“I knew, I knew you wouldn’t die, you wouldn’t just leave me!” When Bai Qianqian saw Nangong Lengshan coming back, she immediately jumped on it.

Nangong Lengshan also felt his lover’s missing and affection. After gently hugging her, Nangong Lengshan said in her ear, “it’s not safe here in the East China Sea now. You all go to Kyoto First.”

“No. I won’t go. I want to be with you, whether it’s dangerous or safe...” Bai Qianqian kept shaking her head.

But Nangong Lengshan seemed to have known she would say so, so he quietly ran a trace of Qi and knocked her unconscious.

“Leave it to you. Take her away as soon as possible!” Nangong Lengshan slowly put Bai Qianqian in Liu Nianxin’s hand.

“The plane is ready. You must come back alive, young master Nangong and doctor Xiao Chen!” Liu Nianxin also expressed his feelings for them at this time.

“Well, don’t talk too much nonsense. I’m still needed over there.” Nangong Lengshan disappeared again.

At this time, most of the strange insects in the center of the East China Sea were almost cleaned up by all kinds of people.

But the atmosphere is still very dignified, because many people know that a bigger crisis is brewing and may appear soon.

“Captain, what does it mean now? Let’s wait in place. We still need to find a chance to explore the enemy’s situation.” In a Wuwei team, a Wuwei with two hexagons on his shoulder is asking his captain.

He is the core of the whole team. Although not as strong as the special Wuwei team, his performance in this strange insect invasion is also quite excellent. A six pointed star was acquired in this battle.

“Don’t move. We’d better stand by. There’s a special corps in front of us.” The captain seems to be older and older.

“Good!” After nodding, Wu Wei retreated to his post.

Just as they finished speaking, a huge explosion suddenly came from the downtown square not far away.

The aftershock of the explosion made these Wuwei teams behind feel a lot of impact.

“Hagaga!” A man wearing machine armour suddenly appeared on the square, and his hands kept firing light explosive bombs similar to explosives.

“No, I didn’t expect that country m was so cruel this time. As soon as it came up, it directly sent their A-class machine armor!” At the front of Xiufeng, he realized that the combat power of the other party was completely beyond their resistance.

So a flag of retreat was quickly raised. There was also a whistle for retreat.

After hearing the whistle, the teams behind kept retreating.

“Are you leaving before you fight?” The previous man who got two hexagons seemed unwilling.

“Iron egg, don’t be hard. Since the special team in front let us retreat, it shows that we can’t deal with the enemy!”

His captain warned.

“I don’t believe it! It’s all human. Why can’t I deal with him!” The iron egg directly picked up the gun and turned over a few times to a place not far from the A-class mecha.

The A-class mecha seemed to feel the threat from the iron egg at this time.

I’m ready to launch a huge bomb again.

“Now!” Iron egg instantly pulled the trigger in his hand and directly hit the attack gun of class a machine armor.

“Boom!” A loud noise was heard, and the evacuees of the military guards rushed to the ground one after another.

Just as everyone was ready to continue to retreat, I didn't know who shouted; "The mecha fell!"

In an instant, all Wuwei looked at the past.

It was found that the A-class mecha in the middle seemed to have been destroyed in the sound of the huge explosion.

"This boy is really good at it!" Seeing this scene in Nangong Lengshan not far away, I couldn't help praising it.

Because the dog egg's strategy just now was indeed successful. It directly detonated the A-class mecha bomb before the other party fired, and successfully destroyed itself with its own weapons.

"Hum! No one is so smart about these waste products in country m!" Iron egg also sneered at this time.

Just then, a whirlwind suddenly blew in his ear. It seemed that something was about to pass quickly around his neck.

Rao Shi has quite rich combat experience, but he is still helpless in the face of such an attack. After all, he is just an ordinary man.

"Qiang!" A metal crash.

"Brother, are you okay?" Nangong Lengshan held a green wood sword in front of the iron egg.

"Nothing!" Iron egg's reaction was also quite rapid, and then quickly retreated to one side.

The God Of Medicine Son-in-law Chapter 368

“Do you have to use such indiscriminate means to deal with an ordinary military guard? I’m really ashamed of you!” Nangong Lengshan turned back and said to the figure in front of him after confirming that iron egg was all right.

After a while, the shadow flew out again. At the same time, there were three black lights. It was obvious that the other party used some flying weapons.

“Qiang! Qiang! Qiang!” Nangong Lengshan moved again and directly caught all the darts from the other party.

“Be careful!” The iron egg behind suddenly shouted.

Nangong Lengshan noticed that there seemed to be a small round object tied to the three darts.

It’s a miniature explosive!

Boom!

A huge explosion came from the direction of Nangong Lengshan. The figure finally appeared. It turned out to be a human in machine armor.

You can see it now. The other party is a blonde woman, obviously from country M.

After the smoke dispersed, Nangong Lengshan stood intact.

“Chick, it seems that your bomb is not very powerful!” Nangong Lengshan stood laughing.

See this scene. Iron egg was also slightly stunned. Just now he clearly saw that the three micro explosives were blown directly on the sword of Nangong Lengshan. At such a close distance, normal people were directly blown to pieces, but Nangong Lengshan was like a nobody.

You can even ridicule in place.

This is really puzzling.

The blonde woman over there was also full of doubts in her eyes, but she did not hesitate. The armor on her head appeared again and continued to kill Nangong Lengshan.

At the moment she just started, the bullet of iron egg suddenly flew over and hit her head directly.

Although she was armor, she was not affected, but at this moment. The woman seemed to feel very unhappy and immediately turned the attack target to iron egg.

“Your opponent is me!” Nangong Lengshan went up with a sword and stopped in front of the woman in an instant.

One person and one mecha began to struggle in the air.

“Brother, you can’t deal with the battlefield here anymore. You’ve done a good job. Hurry to join the big army!” Nangong Lengshan said to the iron egg behind him.

“Good!” Tiedan also knows that it’s not time to show off his strength at this time. The other party’s armor can’t be broken by the gun in his hand, which shows that he really can’t help too much here.

Watching iron egg leave quickly, Nangong Lengshan’s heart gradually relaxed.

But he just ran out less than 100 meters. Suddenly, he didn’t know where he was, and a huge energy bomb flew out directly. Obviously it was for the iron egg.

“No!” Nangong Lengshan’s heart was half cold when he saw this scene.

Is this meritorious Wu Wei going to die under such an energy bomb?

Now they are entangled by this woman and can't get away for a moment. Xiao Chen and they are also facing a strong enemy at this time. They don't know how the situation is now.

Nangong Lengshan is helpless. He can only try his best to knock down the woman in front of him first.

"Ah!" Nangong Lengshan suddenly burst out and wanted to quickly solve the battle here.

But the woman seems to know that Nangong Lengshan's sword is a great threat to her, so she has been avoiding it and has never had a direct confrontation with him.

Iron egg also found his energy bomb not far away. At this distance, he is just an ordinary person. Anyway, I can't react.

But he still didn't give up and tried to escape in the other direction of the energy bomb.

Because it was an energy bomb that exploded. So it didn't make any noise, but centered on it. There was a light ball like a small sun. Even in Nangong Lengshan not far away and the woman in mecha, she was completely unable to see the things in front of her by the light.

This is much better than a flash bomb.

Even hundreds of meters away, Nangong Lengshan can feel the power of such an energy bomb.

Almost everything within 50 meters was destroyed after this.

Although Nangong Lengshan still had a glimmer of hope in his heart, he knew that the iron egg should be dead this time. Under such an explosion, even he could not guarantee his life.

But things are always unexpected. At this time, iron egg also thought he was destined to go to hell, but a light appeared from somewhere and shone on him. At this time, he was unscathed.

Then he flew into the sky for no reason.

I saw the sky over the East China Sea at this time. There was a huge spaceship like object.

And the light fell from the ship.

“Sleeping through, our empire still has this kind of thing?” Nangong Lengshan was also quite surprised to see this scene.

The woman of the M country saw this scene and wanted to run away immediately.

But I don't know when a net has flown out of the spaceship. Even Nangong Lengshan hasn't had time to respond, and the net has caught the woman.

After being caught by the net, the woman's mecha seemed to lose any function and fell straight to the ground.

“This thing is invincible!” Nangong Lengshan couldn't help sighing in situ.

After a while, the woman was taken away by the spaceship like an iron egg.

Then the spacecraft disappeared over the city in an instant, as if it had never appeared.

On the other side, in front of Xiao Chen and Meng songran stood a pretty enchanting woman with eight spider like feet on her back, smiling at them.

“Xiao Chen, I didn't expect that you could survive under such severe poison. You are the most difficult man I've ever seen so far.” Elise is very charming.

“Hum, how can I be willing to die before driving you out of our territory?” Xiao Chen smiled faintly.

“Are you the initiator of this war?” Meng songran looked up and down at Elise.

“No, she’s just a man. The real guy hasn’t arrived yet.” Xiao Chen whispered to Meng songran.

“So it is.” Meng songran realized this.

“This is not a war. If it is a war, I’m afraid the city will be destroyed. We only need our God of war to move his fingers.” Elise was still smiling.

“It’s unreasonable for you to do this. Don’t you feel the slightest guilt? So many innocent people have encountered accidents because of your appearance and selfish desires!” Meng songran was quite angry at this time.

The God Of Medicine Son-in-law Chapter 369

“Hehe.” Elise laughed over there as if she had heard some funny jokes: “I say you are a man of cultivation. In this way, you can tell that the things you cultivate do not belong to the category of human beings.”

“Maybe one day, you will suddenly become possessed and go down the mountain to massacre. What’s the difference with us? Besides, how do you know why we launched such a battle?”

“Don’t confuse right and wrong here. What we practice is the way of helping people. And you have such a great impact on the whole East China Sea since you came. Aren’t you wrong? Should these dead people die?”

Meng songran became more and more angry, and his voice gradually became a lot louder.

“Yes, that’s right. Damn it, you Xia people all deserve it! And the most damn thing is the self righteous guy standing next to you!” Elise said, and also looked at Xiao Chen with rather resentful eyes.

“Xiao Chen is a miracle doctor in the world. He doesn’t know how many lives he has saved. You just deliberately add a charge to him for your own interests. It’s unreasonable for you to do so!” Meng songran made a direct and bold move.

Seeing this, Elise was not afraid and directly opposed Meng songran.

But it is obvious that Meng songran is not Alice’s opponent at all. After two rounds, there are signs of collapse.

Fortunately, Xiao Chen saved him in the back, so that he didn’t get hurt.

“Brother Xiao Chen. Thanks a lot! Unfortunately, I’m not the enemy of this guy.” Meng songran’s eyes were full of unwilling color.

“It doesn’t matter. I’ll deal with her. Go to Nangong first and join him to help other war zones. Just have me here.” At this time, Xiao Chen has understood the way of yin and Yang, so he even wants to really face the desert God of war. There are no waves in my heart.

Because now the strength of the two people can be said to be between Bozhong.

“Elise, I know you hate me and you all hate me, but you can come at me and deal with me. Why hurt those innocent people?” After Meng songran left. Xiao Chen asked Elise some questions.

“Hum, don’t you know what you’ve done? Have you forgotten the sins you committed in our country many years ago? If your Xia country didn’t have many experts, now let alone a small East China Sea, even the whole Xia country. Our God of war will destroy it!”

“Let you also taste the pain of national ruin, and let you know what it feels like to live for more than ten years in an environment that is completely impossible to survive!”

Elise said, all the eight claws behind her waved and moved towards Xiao Chen at a very fast speed.

It seems that he wants to work hard with Xiao Chen.

But Xiao Chen's face was light and light, and now Elise could not pose any threat to him.

He just used the Qi of yin and yang to form a small barrier around his body.

In this way, two machetes appeared in Elise's hand and cut hundreds of times around him.

But it didn't cause any harm to Xiao Chen.

Suddenly, Xiao Chen directly reached out and grabbed Elise's neck.

And Elise was also wrapped by the power of yin and Yang of Xiao Chen. I can't move at all.

"I didn't see what you said when I was in your country. I just killed your desert God of war. I haven't touched any plants and trees in your country. Why are you spitting blood?"

Xiao Chen questioned her, and her eyes were full of dignity.

"Hum, will scum like you admit your mistakes? Do you know how many cities in our country were burned down by your fire in those years? You think you didn't make mistakes, but in fact you have made huge mistakes!"

At this time, Elise still has infinite killing intention for Xiao Chen.

Seeing her so stubborn, Xiao Chen had to pinch her first and fainted.

Think back to my life in the desert country five years ago. Xiao Chen was still very puzzled. He had clearly fought with the desert God of war in a huge desert.

And in the process, he didn't use those moves with a large range. Moreover, the two gods of war can almost play a space beyond the dimension of the world. It won't do any harm to this country at all.

But why did Elise say those words to herself as if she had experienced them all herself?

And only through personal experience can he say it so true, and he can also see that the anger in Elise's eyes is not pretended, but the feeling that she will have when she really sees her enemy.

Although very puzzled, Xiao Chen still rushed to the main battlefield.

At this time, there were three people standing in front of the desert God of war. One of them knew it was from state M,

Because his hair is brown and his eyes are blue.

He looks very strong and stands in the air, and his breath seems to be no different from the desert God of war.

The other two are Xia people. They look like twins, and their breath is like the desert God of war.

Three more gods of war came.

"Gemini God of war, I haven't seen you for a long time. You still don't seem to grow much taller now!"
The God of war of state m over there spoke first.

"Western God of war, although there are some frictions between Xia and m, on the whole, we are still relatively peaceful. Aren't you afraid to arouse the dissatisfaction of the whole world when you launch such a blatant and direct attack?"

One of the Gemini gods of war also spoke.

“Hum! China will rule the whole world sooner or later. Besides, your Xia country is now determined to build a fair and reasonable world. This kind of story will only appear in fairy tales. How many people in the world do you think will believe it?”

The Western God of war sneered and said.

“We didn’t say we wanted to establish it, but just to promote the peace of the whole world. Now there are constant crises outside the whole planet, and you are still thinking about your immediate interests. What can you do even if you occupy our country? Can you resist the invasion of the outside world alone?”

“Don’t you even realize this?”

Another twin God of war was also drinking and scolding severely at this time.

The God Of Medicine Son-in-law Chapter 370

“Well, don’t talk. In fact, your Xia kingdom is just a big liar with one set of words, but in fact you are a big liar with another set. When I fought with the Oriental God of war, I agreed that it would not have any impact on my country.”

“But what’s the result? During the time I left, how many outrageous things did your country do? What have you done to our country? Now, I want you to taste the pain of losing your country. Losing your close relatives!”

When the desert God of war spoke, his black robe was directly blown to pieces by power, revealing his body.

The twin God of war was stunned when he saw the body of the desert God of war, because half of his body was made of machines.

It is obvious that someone has used advanced technology to revive him.

Five years later, Xiao Chen once again entered a space with the desert God of war, but his strength was not as strong as it was five years ago. It has absolute explosive power.

Instead, I want to be more familiar with those who have been here.

And now he has no advantages against the desert God of war, or even some disadvantages.

Because the body of the desert God of war has been transformed, his ability has also become stronger.

Xiao Chen's ability has become much weaker than before.

The two men collided with the God in the desert.

Soon. Xiao Chen was defeated and fell out of the high-rise space.

At this time, the other two gods of war were still fighting fiercely in their space.

"Hahaha! Xiao Chen, the Revenge of our country five years ago has finally been avenged. You have no way out this time!" The desert God of war said, his hands not only Condensed Black gravel.

It seems that he is going to give Xiao Chen a fatal blow under the next blow.

At this time, they also came out from the twin God of war. At this time, the whole man of the Western God of war was almost broken by the twin God of war, and there were very eye injuries all over his body.

"Desert God of war, now listen to this guy! I still hope you can rein in at the precipice!" The Gemini God of war said that he released what the Western God of war had just said in the high-rise space.

“Ha ha! Whether you Xia people or desert countries are stepping stones for our country to become the master of the whole world. It doesn't hurt to tell you that this desert country is actually our country. Then we changed their memory.”

“So now if you want to change the view of the desert God of war, it is completely impossible. He is now a sword in our hands! He is our most loyal slave, and your Xia country is not far from extinction! Hahaha!”

In the image, the Western God of war is laughing wildly, as if all this is about to end.

As for how the twin God of war defeated him later, Xiao Chen is also unknown.

But now the Western God of war looked very ugly after seeing this image.

Now he would rather die first than let such an image be released in front of the desert God of war.

“All this is true!” The desert God of war's eyes were full of confusion at this time. He also took back the fist that was supposed to kill Xiao Chen directly.

“This guy said it himself. We don't have to lie.” The eyes of the twin God of war are full of indifference at this time.

“Damn! You m people are so despicable and shameless!” In the eyes of the desert God of war, there was a raging anger.

“So what? We gave you your life. You deserve to work for us. Now that you know the truth, you lose your value. Let you help us go to the West with these two war gods!”

After the Western God of war finished, the body of the half of the desert God of war suddenly began to twitch.

“Not good!” The Gemini God of war reacted at this time, but it was too late.

At this time, the desert God of war has completely become a huge energy explosive. Just after the Western God of war finished, it seems that some force detonated him.

It was too late to transfer the desert God of war.

“Er... Ah!” At this time, the desert God of war found that his body was completely out of control.

“Gemini God of war, you leave first and I’ll take him up!” Xiao Chen rushed up again and hugged the desert God of war directly. They entered the higher space again.

Seeing that they disappeared again, the twin God of war was a little relieved, but he also knew that Xiao Chen might never come back this time.

At the moment when the twin God of war relaxed a little, a light beam suddenly came down from the air.

“Bad!” The Gemini God of war noticed the bad again, but the speed of the light beam was so fast that he saved the Western God of war in his hand in an instant.

“I said, in those days, I just defeated you. Now you should believe what I said?” At this time, Xiao Chen smiled in the high-dimensional space.

“It’s a pity that I still failed to avenge my subjects.” The desert God of war sighed softly.
