The God Of Medicine Son-in-law Chapter 441

“How is this possible?” Wan Li was shocked when he saw the scene in front of him. He clearly knew that Xiao Chen was drugged by him. Now, even if he still had a certain strength, he was not so strong.

Just now so many experts, even if he saw such a situation, he could escape, and Xiao Chen just used one move. Just solve all the experts. What kind of concept is this?

“Do you feel very confused now? Why do I still have such strong ability after taking the poison you put down?” Xiao Chen looked at Wanli with a joking face.

“You knew early in the morning that the wine was poisonous?” Wan Li was slightly surprised again. He didn’t expect Xiao Chen to know this. At the beginning, they only drugged Xiao Chen’s wine for the sake of insurance.

And his poison doesn’t have any taste. It can be said that it is colorless and tasteless. If this poison is put in anyone’s hand, he will not notice it. Even the first expert in Kyoto can’t know the existence of this poison.

But Xiao Chen seemed to see through everything and didn’t seem to have any reaction to the poison.

“You... What kind of person are you? No, you shouldn’t be human. You don’t belong to the category of human beings now. How can a person be so strong?” Wan Li widened his eyes and said.

Now he can’t think of any adjectives to describe Xiao Chen in front of him. Even if the real immortal or devil comes, it’s not as terrible as Xiao Chen now.

Because he killed a hundred martial artists in a flash. Although all of them were stunned, Wanli would not doubt it at all. If Xiao Chen really started, he could really kill all these people at one time.

Now these people are not dead, just because Xiao Chen left his hand.

“You don’t need to know who I am. You have helped these villains in the Cang family and harmed good people for so many years. You should also pay off your debts for so many years. Although I don’t know what you are for, I won’t have any understanding for people like you!”

Xiao Chen said and ran his own extreme way and divine formula again. Now Xiao Chen has reached the foundation period mentioned by Xiao Qingyuan after the last disaster.

He also found that he could run the divine formula of heaven more smoothly, and he could create more moves according to his own thoughts.

Like now. He kept running the vitality in his body, constantly gathered on his right hand, and then a violent force erupted directly from his right hand.

“Fist of rage!” Xiao Chen drank loudly.

The violent vitality in his hand shot out in an instant and hit Wanli directly. The speed is so fast that even if Wanli is a dragon level master, it is too late to respond, so he can only take this move.

“Poof!” Wanli vomited a mouthful of blood, and his face turned pale. The whole person fell directly to the ground like a vented ball, and was dying.

Xiao Chen stepped in front of Wanli. It was like looking at a dead man. There was no expression on his face.

Once again, he began to use the formula of the extreme Tao. This time he is really ready to send the culprit of Cang chestnut on the road for so many years.

“Spare your life... Spare your life.” Wan Li begged in a very weak voice.

It’s a pity that now Xiao Chen has no pity in his heart, so he punched again.

Wanli lost his movement. A dragon level master was killed by Xiao Chen.

If it had been in the past, Xiao Chen might have a heart of kindness, but since the emergence of Hua Wenfeng, Xiao Chen will not have any affection for those who should be punished.

Because he realized a truth through Hua Wenfeng's affairs, that is, the quality of a person is determined by his own behavior. If a person has embarked on an evil road from the beginning. Then you can't change him in a proper way.

Since there is no way to change and do not want such evil to continue, we can only end this evil, and the way to end it. Is to let the people who created evil disappear completely.

So Xiao Chen killed Wanli without hesitation.

After all this, Xiao Chen will take Wanli's body to the interior of Cang family villa. At this time, Cang Gaoshan and Canghai Chengcai have just sat down, and the stool hasn't been hot yet. Then he hears a loud noise.

The door inside their villa was kicked open by Xiao Chen.

Both of them were startled and almost fell off their chairs to the ground.

"Xiao... Mr. Xiao Chen..." when Cang Gaoshan saw Xiao Chen, his face became very ugly. After all, they had just torn their faces. Now the two sides are in a state of hostility.

And Xiao Chen suddenly rushed in now. Naturally, they were very flustered.

Xiao Chen didn't speak, but directly threw Wanli's body in front of them.

They trembled again. When they looked carefully, they found that it was Wanli's body who was just outside.

“This...” when Cang Gaoshan and Cang Hai were finished, they didn’t know what to say. Now they have been shocked beyond measure.

This is not a simple master. This is a dragon level master. What is the concept of dragon level master? That was beyond the existence of Tian level masters, but now they are lying in front of them.

And they just came in. It hasn’t been three minutes. There are so many other martial arts experts lying in ambush outside. Has Xiao Chen solved all of them.

They looked at Xiao Chen as if they had seen a ghost.

“You really don’t have to doubt anything, just what you think.” Xiao Chen said coldly.

Hearing this, they immediately knelt down on the ground: “Mr. Xiao Chen, we know we are wrong! We really know we are wrong! From now on, we will listen to you in everything, and you are our master!”

Cang Gaoshan kowtowed to Xiao Chen and said.

“Yes, yes, Mr. Xiao Chen, we’ll do whatever you say in the future. Don’t kill us.” Cang Haicheng is constantly kowtowing.

Seeing that the two old guys were greedy for life and afraid of death, Xiao Chen couldn’t help but despise them for a while. He didn’t want to say too much. He just said to the two humanitarians: “in this case, you can give the position of the house owner to Cang chestnut tomorrow. If the action is slow, don’t blame me for being ruthless.”

“Yes! Yes!” Both men nodded as if they had been pardoned.

The God Of Medicine Son-in-law Chapter 442

“Well, now you can get out and get ready early.” Xiao Chen said and left the room and flew towards Washington.

Things here are over. Next, he still has to investigate the things about Hua Wenfeng. Although it is difficult for Hua Wenfeng to wake up now, Xiao Chen still has to do what should be done. At least for the sake of the Empire, “until everything outside has been completely arranged, my father’s situation can be announced.” Hua Qiye said and took another deep breath of smoke.

After hearing this, Xiao Chen could not help but clench his fist. Now he wanted to tell Hua Qiye that Hua Wenfeng could not be saved. It was not only the current medical technology that could not be saved, but even he did not have the ability to save him. The injury he suffered this time was actually fatal.

But the hospital must be trying to hide something. That’s why I deliberately said that Hua Wenfeng had become a vegetable.

But Xiao Chen still can’t say it now. There’s no other reason. If this matter is said, it will be more cruel to Hua Qiye and Hua xuwan.

But Xiao Chen is still quite angry. As a person like Hua Wenfeng. I dare not even die casually. Even if I want to die, I have to be deliberately concealed, all for the interests of the Empire.

All the time, Xiao Chen suddenly found that his grandfather seemed to be running around for the affairs of the Empire all the time. So what kind of thing is it worth so many people to go one after another without asking for any return?

Xiao Chen suddenly wants to find her grandfather Xiao Qingyuan. Ask this question face-to-face. It’s a pity that now he doesn’t have any means to contact Xiao Qingyuan. He has to wait for Xiao Qingyuan to come to him.

And even if Xiao Qingyuan came to him. He may not be able to ask this question, because Xiao Qingyuan usually appears only when there are other things. After finishing the work or handing it over to Xiao Chen, he will leave soon.

It seems that he has always been quite busy. Xiao Chen really doesn’t know what he is busy about now.

Seeing that Xiao Chen was silent for a long time, Hua Qiye suddenly came up and patted Xiao Chen on the shoulder and said, "Xiao Chen, don't have too much psychological burden. I know you may feel that all this in front of you is quite unfair to us."

"Yes, it can be said that all our families are making contributions to the Empire, but in the end, we got such a result. It's really unfair, but think about it from another angle. Why do we do this?"

Hua Qiye paused and looked at Xiao Chen.

After Xiao Chen stopped, his face was full of doubts. He shook his head. Obviously, he didn't understand why they had to sacrifice like this and stick to such a post.

"Because we are for the faith in our hearts, we also know that there may be some people in the whole Empire who are not worth saving. But there are still many people in the Empire who need us to save."

"Moreover, if we do not change this situation, there may be fewer people who will inherit our will, but if we insist on changing this situation, there will be more people who will inherit our will."

"If one day, most people can know this, then I think the Empire will be really strong, and the tragedies that happened to our ancestors will not be staged again among our future generations. That's why we can insist."

Hua Qiye said and smiled again.

On his haggard face, his smile now looks very miserable, and people also feel a burst of sadness from their hearts.

After listening to Hua Qiye's words, Xiao Chen has some feelings, but he still hasn't completely untied the knot in his heart. Xiao Chen himself is not a person who is good at saying hope or faith.

What he pursues more is to be able to protect the people around him and do what he can. He firmly believes that the greater the ability, the greater the responsibility.

But these do not mean that he needs to forgive those evil people or understand the existence of evil. He doesn't want to forgive, let alone understand. What he wants to do is just do what he can. This is enough.

As for the wide and big things Hua Qiye said, he has no mind to understand now, and he won't even understand in the future.

The God Of Medicine Son-in-law Chapter 443

"I can pay to save Hua Lao. You'd better not sell Washington. After all, he has lived there for so many years and has feelings. Moreover, if Hua Lao wakes up and knows about it, he won't be happy." Xiao Chen said after being silent for a while.

"Xiao Chen, in fact, there are some things I don't know. I just pretend I don't know. In order not to make Xu Wan sad, she hasn't had maternal love since she was a child. I owe her too much in my life. Now I let her suffer such a blow at such an age."

"I really don't know what to do." Hua Qiye said, and the smile on his face suddenly disappeared.

This man, who has always been very strong, can't help but seem to want to cry under the current situation.

Xiao Chen was also very sad when she saw this scene. The great Chinese family have been loyal to the Empire for generations, but now they have come to such an end. Looking at the big families in Kyoto, they may not have done anything to benefit the whole empire.

But they have wealth that many people can't have in their lives, and they can make so many friends. In times of crisis, someone may help them.

Now Hua Wenfeng is in danger. For the benefit of the whole country, the Empire should choose to let him sacrifice himself. The usual actions of the Hua family have offended many people. Now even a person who can lend a helping hand does not exist.

No matter who looks at this situation, he will be angry, but Hua Qiye still bears it alone. Now he only shows his relatively weak side in front of Xiao Chen.

However, after saying these words, Hua Qiye recovered his expression, patted Xiao Chen on the shoulder and said, "it doesn't matter. I know you're coming to perform a secret task this time. Our family still has this economic strength to maintain my father's treatment. You still don't have to worry about our side. Go and finish what you're going to do."

Hua Qiye then walked to the room where Hua Wenfeng and Hua xuwan were located.

Seeing his lonely figure, Xiao Chen secretly made a decision in his heart and will help the current Hua family. Even if he exposes his identity, Xiao Chen can turn a blind eye to such things and make no change.

Then he also felt that he didn't need to continue his task, because he didn't deserve it.

Think so. Xiao Chen took out the mobile phone he hadn't used for a long time.

The phone keeps the phone numbers of all his acquaintances in the East China Sea, including, of course, the number of yimengruo.

After turning on his mobile phone, he contacted Liu Nianxin directly.

At this time, some changes have taken place in the East China Sea. Since Xiao Chen's identity was exposed, many people also know the connection between Xiao Chen and Liu Nianxin, so countless investors have invested all their money in Liu Nianxin's group.

All this is not what Liu Nianxin wants, but those people outside are really crazy. Even now, Liu Nianxin still follows Xiao Chen's previous instructions. It has not improved the profit margin of any drug, but because the funds are too huge.

One production base after another has been established. Now the profit of the whole Liu Nianxin group has exceeded 10 billion yuan every month, and the wealth accumulated under Xiao Chen's name is even more incalculable, but in their view, Xiao Chen is dead.

So now all the money goes to a research foundation established by Xiao Chen. A small part of it is used for research purposes, while most of it is saved.

Because Xiao Chen didn't leave any children, Liu Nianxin is ready to use these funds for charity, which is similar to Xiao Chen's wish before his death.

At this time, Liu Nianxin just got off work and came out of his office.

As soon as he came out, he found his mobile phone ringing, but it was his own private mobile phone, not his work mobile phone.

When he heard the phone ring, he knew that there was a high probability that it was his wife. It's possible that Lengshan came to Nangong.

Although he told Wu Yaqing and a ling the mobile phone number, since the news of Xiao Chen's death came out, there was no news about the two women. Nangong Lengshan just said that they were still safe. As for where they went, we don't know.

But when Liu Nianxin picked up his cell phone and was ready to answer the phone. His hand suddenly trembled, because the name displayed on the mobile phone was not someone else's, but Xiao Chen's!

This time, Liu Nianxin was frightened. Didn't Xiao Chen die with the enemy in the last battle? How can you call yourself now? Did someone pick up his cell phone?

However, this is unlikely, because Xiao Chen has always been quite secure in keeping things, and he also went in with his mobile phone when he entered the mysterious space.

So his cell phone can't be found.

Or is his mobile phone number registered by another person? But if it is registered by another person, it is impossible for the other party to know their own number, and there can be no such coincidence, right?

Liu Nianxin thought about it, but he still didn't think of a reason. However, he still had the courage to answer the phone.

"Hello." His voice trembled slightly.

"Liu Nianxin. It's me, Xiao Chen." The voice at the other end came from Xiao Chen.

After hearing Xiao Chen's voice, Liu Nianxin immediately felt that all his hair stood up.

What's going on? Did Xiao Chen really come back from the dead? Or is he dead? Is it his soul talking to himself?

No matter what he thinks, Liu Nianxin prefers the idea behind him.

He swallowed a mouthful of water. Slowly opened his mouth and said, "Xiao... Mr. Xiao Chen, do you... Do you have any difficulties below? Do you need paper money or something, women or something?"

"What a mess. I'm not dead yet." Xiao Chen couldn't help feeling a little unhappy.

"Not dead?" Liu Nianxin was stunned again, and then asked, "Mr. Xiao Chen, if you have any unfinished wishes, I can finish them for you. Just tell me."

Xiao Chen didn't want to explain so much to him. He said directly, "I'll tell you a bank card number and transfer me some money first."

The God Of Medicine Son-in-law Chapter 444

“Oh, OK, OK, you say, I’ll transfer it to you right away.” Liu Nianxin said, wiping the cold sweat on his forehead.

“What I want is cash, not paper money!” Xiao Chen suddenly stressed.

“Yes! Yes!” Liu Nianxin quickly answered.

“Well, listen, the bank card number is...” Xiao Chen reported one of his two existing bank cards.

These two cards. One of them is a card specially issued by the Empire to him, while the other is a card given to him by Xiao Qingyuan. It’s the card he usually uses when he wants to use money. This card is not subject to any surveillance.

So Xiao Chen asked Liu Nianxin to transfer money on another card he gave himself.

“Remember?” Xiao Chen asked after reporting the card number.

“Remember, let’s see if it’s this...” Liu Nianxin said and reported the bank card number again.

“Yes.” Xiao Chen replied.

“How much do you want?” Liu Nianxin asked again.

“Give me \$50 million first.” Xiao Chen casually reported a number.

“OK.” Liu Nianxin replied.

“Also, you must keep this secret. Don’t tell anyone, you know?” Xiao Chen told again.

“I see.” Liu Nianxin replied again.

After hearing Liu Nianxin's answer. Xiao Chen hung up the phone.

After Liu Nianxin hung up the phone, he immediately ran to the bank and made a sum of money directly to Xiao Chen's card number.

He never dreamed that Xiao Chen was still alive and seemed to be short of money, so he simply called Xiao Chen for the past five billion at one time.

Although some of them had to be delayed for several days because of the trouble of bank transfer, hundreds of millions still arrived on Xiao Chen's card first.

In this way, Xiao Chen has now changed from a poor boy to a billionaire.

But Xiao Chen doesn't know now. He just asks Liu Nianxin to call him 50 million.

After Liu Nianxin finished typing the money, Xiao Chen's mobile phone received a prompt, so Xiao Chen secretly came to the charging Office of the hospital.

At this time, there was no one waiting in line. Xiao Chen walked up directly.

"Hello, I want to help huawenfeng patient pay." Came to the window, Xiao Chen took out his card.

"Hua Wenfeng, isn't it?" The female staff member who collected fees looked at Xiao Chen and asked.

"Yes." Xiao Chen nodded.

The female staff member then input some things on the computer, and then her face showed a more disgusting expression. However, after seeing Xiao Chen take out the card, her face became more beautiful.

But the changes of her expression were all seen by Xiao Chen, so Xiao Chen asked strangely, “what’s the matter? The situation of Hua Wenfeng’s patient is very bad?”

“Not really. It’s just that you have to pay or come early. There are millions of arrears here. In fact, our hospital can’t afford it now.” Said the female employee who collected the money.

“What? Millions?” Xiao Chen was slightly stunned, not because he couldn’t afford the money, but because he didn’t expect that Hua Wenfeng was just going to be hospitalized here and charged such a high fee.

“Yes, this Hua Lao is the first famous doctor in Kyoto specially invited by us. Huang Linfeng came to see him. His one-time visit costs \$1 million. This does not include the medicine he prescribed for Hua Lao, so now Hua Lao owes millions.” The female employee explained.

Xiao Chen almost blew up when he heard this. Hua Lao is already dead. Although his body has been saved by Xiao Chen with the Qi of yin and Yang, after all, his brain has been damaged in his eyes and it is impossible to wake up.

Even if the hospital needs treatment, it is simple nursing. The so-called No. 1 doctor in Kyoto has to charge such an expensive visit fee. Now, Huaqi night is going to sell Washington.

Seeing that Xiao Chen’s face was very ugly, the female employee asked carefully, “so... Sir, do you still have to pay?”

“First.” Xiao Chen replied decisively.

“OK.” The female employee nodded and brushed Xiao Chen’s card. Originally, she thought Xiao Chen’s card wouldn’t have much money left by such a brush, but she didn’t expect. With one brush, hundreds of millions of people were shown inside.

So many zeros, she felt she couldn’t count them.

Seeing the female employee staying there for a long time, Xiao Chen asked, "Hello, is there something wrong with my card or your machine?"

The female employee responded and said, "no, none, none!"

Then she handed the card to Xiao Chen. Then he gave the receipt to Xiao Chen.

After getting these things, Xiao Chen took another look in the direction of huawenfeng ward, and then left the hospital with a slight sigh.

After leaving the hospital. He immediately began to inquire about the whereabouts of Huang Linfeng. Because he was also a celebrity, it was very easy to inquire about his position. Xiao Chen immediately asked about it. He opened a clinic in Yuanbei District of Kyoto. It is said to be quite famous.

It's just that he doesn't often work there. Sometimes his disciples work there and ask him to go out for a visit. One million is the least. If he prescribes any more in-depth prescriptions, he has to add a lot of money.

Although his fees are indeed very high, many people are willing to invite him to see a doctor, because he will soon see a bright hall and be cured of some common diseases or stubborn diseases.

Because of this effect. That's why many people think it's worth spending such money.

But Xiao Chen felt that this person had some problems. Apart from others, he had at least heard of Hua Wenfeng's name. Xiao Chen didn't care how much he paid for his visit, but as a doctor, he knew that the patient was in a state of poor treatment. Why charge money?

Xiao Chen not only despises such behavior, but also he must find this person and see how he is a doctor. The more he thinks about it, the more he feels annoyed.

After arriving at Huang Linfeng's clinic, Xiao Chen saw a long line outside. Obviously, these people came to see a doctor.

After getting out of the car, Xiao Chen went straight to the clinic. When he came near, Xiao Chen found out where the clinic was. It was clearly a hospital. Now it was full of people.

It seems that many people come to see a doctor, but Xiao Chen feels a little wrong when he comes.

The God Of Medicine Son-in-law Chapter 445

Generally speaking, a famous doctor, even if he is a doctor or knows some other unique methods, it doesn't matter, but Xiao Chen felt that there were practitioners in it.

Huang Linfeng still has a cultivator, which may cause a lot of trouble. First, Xiao Chen is not sure whether he is Huang Linfeng's opponent, and second, since he is a cultivator. So it's inevitable to know some powerful forces in Kyoto.

Thinking of this, Xiao Chen hesitated a little, but he still worked hard. Into the hospital.

After entering, Xiao Chen found that the target character, which was crowded with people to see a doctor, was not a cultivator. On the contrary, he was an ordinary person and looked like an old traditional Chinese medicine.

And the one who made Xiao Chen feel the existence of cultivation atmosphere. At this time, it was on the second floor.

So Xiao Chen didn't hesitate. He went directly to the second floor. Following the breath, Xiao Chen immediately came to a room.

At this time, a middle-aged flat headed man who looked at the mountain was sitting in the room. After discovering the smell of Xiao Chen, the man slowly picked up a cup of tea and said faintly: "this fellow practitioner, I don't know what's important to come to Huang now?"

"There are really some important things. I want to talk to you about the old man Hua Wenfeng." Xiao Chen also replied blandly.

“Hua Wenfeng?” After hearing the name, Huang Linfeng immediately raised his head and looked in the direction of Xiao Chen. After discovering that it was Xiao Chen, a trace of smile appeared on his face.

“Do you think it’s funny?” Xiao Chen’s face suddenly became cold.

“It’s not funny, but I’ve been waiting for you for a long time. I heard you came to Kyoto, but we haven’t had a chance to meet. I finally saw you today.” Huang Linfeng said and laughed again.

“What do you mean? Do you already know my name?” Xiao Chen suddenly felt a little uneasy.

“Of course I know. I know not only you, but also your grandfather. Over the years, your grandfather has done a lot of unexpected things in Kyoto.” Huang Linfeng smiled rather than smiled.

“What on earth do you want?” Xiao Chen was alert at this time.

“I don’t want to do anything. I just want to learn your medicine.” Huang Linfeng stood up, and his breath was suddenly released.

Xiao Chen immediately felt a slight shock in his heart, because he found that the other party’s breath was not weaker than himself, and even slightly stronger than his own feeling.

“You are so young that you have such accomplishments. You can really be said to be a genius among thousands, and you also got Tianchan Baolu in Wuling. This is also the treasure pursued by our medical people, so now that you have found the door, give it out!”

While talking, Huang Linfeng moved his hand. His speed was very fast. In an instant, he moved in front of Xiao Chen, directly punched Xiao Chen in the stomach.

This was the first time that Xiao Chen met a cultivator who could match him after he had made a breakthrough in his cultivation. So he didn’t dare to neglect, and immediately stopped the punch.

But I also felt the power of the other party passed to my arm, and then passed to my body.

This force is extremely powerful. Even Xiao Chen feels that it is difficult to slow down.

“Unexpectedly caught, then come again!” Huang Linfeng said and punched again. The strength of this punch was a little stronger than the previous one. He directly beat Xiao Chen out and hit one side of the wall, making a big hole.

Xiao Chen fell from the big hole and held his chest with his hand.

Obviously, he seems to have been hurt just now.

“Come again!” Huang Linfeng moved again when he spoke. The speed seemed to be a little faster than just now, and he punched out again.

Xiao Chen quickly stretched out her hand to parry, but she was still beaten and flew out. The wall was directly pierced and poured into a pile of debris.

“Although you have reached the goal of building a foundation, your strength is still too unsophisticated. I just used three punches, and you were beaten like this. Then I have six punches left. You must ensure that you don’t die so easily, otherwise, I will despise you!”

Huang Linfeng said, moving again and punching again.

But as soon as he came to Xiao Chen’s side, he felt that a powerful force broke out in Xiao Chen, which was a destructive force. Even he felt very terrible.

At this time, Xiao Chen’s eyes were burning with fire. He raised his hand directly and blocked his fist.

“How could it be? The power has increased so much!” Huang Linfeng was also surprised at this time. He didn’t expect Xiao Chen to burst out suddenly.

In fact, this is also the reason why he didn't understand Xiao Chen. There was the power of the Oriental God of war in Xiao Chen's body. This is beyond human beings and the divine power of ordinary practitioners. Therefore, it is impossible for Huang Linfeng to be the present Xiao Chen of the God of war only in terms of power.

After one hand was caught by Xiao Chen, Huang Linfeng was not particularly flustered. He immediately raised his other hand and continued to fight against Xiao Chen.

But he was still caught by Xiao Chen.

"Drink! Eat my foot!" Huang Linfeng roared. He directly raised his foot and kicked Xiao Chen.

He kicked Xiao Chen directly, but Xiao Chen didn't respond. Instead, he grabbed his hands and directly smashed Huang Linfeng towards the wall. In an instant, he smashed the wall, and then pulled Huang Linfeng out of a human line along the wall.

In this way, Huang Linfeng was completely knocked unconscious by Xiao Chen, stuck in the crack of the wall and stopped moving.

Seeing this, Xiao Chen withdrew his God of war power, and then pulled Huang Linfeng out of the crack in the wall.

After a while, Huang Linfeng woke up and saw Xiao Chen sitting next to him. He suddenly laughed.

Seeing him smile again, Xiao Chen felt very strange, but ignored it. He just asked, "I can understand that you, as a practitioner and a doctor, are still making money in the secular world, but don't you know the situation of the Chinese family? You see a person who can't be cured, and you have to charge a million visits. Won't your conscience hurt?"

Hearing Xiao Chen's question, Huang Linfeng is still laughing.

The God Of Medicine Son-in-law Chapter 446

Seeing Huang Linfeng laughing all the time, Xiao Chen was puzzled, but also very angry, because he felt that there was nothing funny about it, and the questions he asked were real. Therefore, the more Huang Linfeng laughed, the more difficult Xiao Chen was to control his emotions.

If he hadn't been in Huang Linfeng's own clinic now, he didn't want to make things big. He estimated that he might have to do it now. Kill this unscrupulous Kyoto doctor.

Soon after, Huang Linfeng stopped laughing, although I don't know why he stopped. But at least he stopped.

Seeing that he no longer continued to laugh, Xiao Chen slowly turned his eyes to him.

"Why? Don't you like to laugh? I'll make you laugh enough!" Xiao Chen said that he was going to come up and point the smile hole of Huang Linfeng.

However, this time, Huang Linfeng reacted. He suddenly stood up, and the expression on his face became very serious. Looking at Xiao Chen, it seems that he is ready to start with Xiao Chen again.

Xiao Chen didn't expect that this guy was still ready to do it with himself, so he began to take him seriously.

However, just as Xiao Chen was running his strength and ready to continue to fight, Huang Linfeng opened his mouth.

"Well, well, indeed, he is worthy of being the grandson of my master. Indeed, he has some skills."

Xiao Chen was stunned when she heard this. How could Huang Linfeng become his grandfather's Apprentice? What's going on? This guy was still so arrogant before, but now how can he become serious again?

It seems that seeing that Xiao Chen's face is full of doubts, Huang Linfeng began to explain: "as early as more than ten years ago, I met your grandfather. At that time, I was already a dying man, but he saw my talent, gave me a skill, and then taught me my vitality. Finally, he can help me cultivate to this level."

More than a decade ago? At that time, wasn't your grandfather still in the medical immortal gate? When did he take another disciple outside?

"I believed you when you said you were my grandfather's disciple? At least you have to show evidence." Xiao Chen asked faintly. Although he doesn't particularly believe it, he is still ready to find out the situation first.

"Evidence? This is the best evidence." As Huang Linfeng said this, he gathered a group of vitality in his hand. The cyclone formed in it was somewhat similar to the Jidao divine formula that Xiao Chen was practicing now.

Is it true that as the boy said, he was saved by his grandfather?

Xiao Chen continued to ask with this full of doubt: "then you say, what are you doing now? Is it my grandfather who asked you to do this? What's your purpose?"

"Boy, it seems that there is still too little communication between you and your grandfather over the years. You don't even know what your grandfather wants?" Huang Linfeng frowned slightly at this time.

Hearing this, Xiao Chen couldn't help feeling a little unhappy. Although it is true that he does not have much communication with his grandfather, what can he do even if he is always around? If their goals are not the same, what is the need for him to ask about his grandfather?

Xiao Qingyuan always acted secretly, so Xiao Chen didn't know what he wanted. He just knew that he should be doing a very important thing, either for the whole empire or for something higher and more important.

But now Xiao Chen is also involved. Although he is still doing things according to his grandfather's will, after all, he also has his own thoughts. We will not blindly follow Xiao Qingyuan's tips to do all things. After all, some things can be done, but some things cannot be done.

Now Xiao Chen's inner thoughts have also changed. It turned out that he always thought it was enough as long as he did well what he could do. Now it seems. Things are not so simple. If he does things

without thinking, he is likely to embark on a road he doesn't know. At that time, if the final result is a completely unacceptable result, he probably won't forgive himself.

"I don't know what my grandfather is doing. Even now, I don't know whether what I'm doing is meaningful, but I know what my grandfather is doing. There must be his reason, and I firmly believe that he has always been on the right path."

Xiao Chen replied. Although these words seem to have little confidence, in fact, they also represent Xiao Chen's inner will and the will to believe that he will not do bad things.

"Hahaha!" Huang Linfeng laughed again. Then he looked contemptuously at Xiao Chen and said, "I see, you really don't know the direction. Now you've made a big mistake, you know? Do you think your grandfather has always adhered to the so-called justice? Your grandfather is just planning a huge conspiracy!"

After saying that, Huang Linfeng's eyes became sharp.

"It's impossible. I don't think you're my grandfather's disciple at all. It's just a reason you made up. Your purpose is to disturb my mind. Who are you? What's your purpose in doing these things?" Xiao Chen said, and his vitality worked again.

But Huang Linfeng didn't have the slightest fear, but said with a faint smile: "if you don't want to believe, you can go to see something with me, and you will understand, of course. If you don't want to go, I won't embarrass you. If you don't want to believe me, you can continue to deceive yourself."

The words have all been said for this reason. If Xiao Chen recognizes counseling here, even he may look down on himself, so he nodded and promised, "OK. I'll go with you. I want to see what tricks you can play."

"Then go!" Huang Linfeng said and flew in the direction of a window.

Xiao Chen also followed him and took off from the second floor of the clinic.

Previously, there was a roar from above. Now I see that they flew out directly from the second floor. Many patients who went to see a doctor below suspected that they were crazy and fled Huang Linfeng's clinic one after another.

But Huang Linfeng naturally doesn't care much about these things, because he has found the person he needs to find now. Maybe he deliberately appeared and went to see Hua Wenfeng. In fact, he had expected it long ago. What he waited for was Xiao Chen to find himself. After Xiao Chen came, he made his own plan.

The God Of Medicine Son-in-law Chapter 447

In this way, they had been flying for a long time and came to a flat land on the outskirts of Kyoto. There was no vegetation for ten miles, but an extremely desolate area.

"There's nothing here. Why did you bring me here?" Xiao Chen was very confused at this time and asked Huang Linfeng in front.

"Wait a minute, you'll know." Huang Linfeng carried his hands on his back and didn't turn his head to see Xiao Chen. Just looking at the desolate land in front of me, it was like in a daze.

Xiao Chen waited a little while and felt a little impatient, so he said again, "Hey. You brought me to this ghost place. There's nothing. If there's nothing wrong, I'll go."

With that, he made a gesture to leave.

But Huang Linfeng suddenly took a hand and slapped Xiao Chen directly.

Xiao Chen was slightly stunned, so he hurried to pick it up. So they got into a struggle.

Facing the sudden changes, Xiao Chen was very confused, but he was not ready to die. He just fought with Huang Linfeng all the time. He wanted to see what Huang Linfeng wanted. They just fought like this.

After playing for a long time, Xiao Chen's vitality is still very vigorous, and he doesn't even have much consumption, because he suddenly finds that he can continuously gather vitality as long as he runs his Taichu treasure dew in this desert.

So Huang Linfeng is now running out of oil and the lamp is dry. He is still vigorous and fierce, and there is no sign of weakness. In this way, the two continued to fight for a while. Xiao Chen suddenly kicked out and kicked Huang Linfeng out directly.

And Huang Linfeng also fell to the ground, as if he had fainted. Stop moving.

Xiao Chen didn't know what the purpose of Huang Linfeng was, but he saw that Huang Linfeng fainted, so he was ready to leave here, but just took two steps, suddenly he felt that the desert under his feet was flowing.

After a while, Huang Linfeng, who was originally lying on the desert over there, was swallowed directly by the desert. The whole human body had disappeared. I saw this scene. Although Xiao Chen was not afraid, he wondered why Huang Linfeng chose to fight with himself here.

Finally, he was swallowed up by the quicksand here. If no one came to save him, he might have confessed his life here.

Just when Xiao Chen felt a little strange, several dark shadows suddenly flew out of the quicksand. Then Xiao Chen saw the faces of these people, all of whom were people he had never seen, and they were all wearing uniform yellow clothes. It is obviously a person in a sect or sect.

At the moment when several people flew out, a flywheel similar to sawtooth in their hands flew out directly from their hands and came straight to Xiao Chen. Xiao Chen didn't feel any panic at all. He ran the vitality in his body and clapped it out directly, so he clapped these flywheels out.

So the men flew over again and killed them. Xiao Chen didn't look at it. He slapped them directly on the heads of these men. Several men were immediately beaten and bleeding. It seemed that some of them were going to die.

But then something strange happened. The men who were going to fall suddenly stood up again. Just now their injuries had been completely repaired, and they flew towards Xiao Chen again. But this time, Xiao Chen could obviously feel that the speed of these men was much faster.

It's obviously stronger than just now. However, Xiao Chen was still not flustered. He took a few more moves and shot the men out. Several men once again showed a look of impending death, but they were still the same as before. They suddenly seemed to be resurrected. The whole man stood up from the ground and attacked Xiao Chen again.

Xiao Chen also took the move again, but this time, Xiao Chen found that his vitality seemed to have no effect on these men. No matter how strong he used the moves to hit these men, they didn't respond, but hit themselves in a more powerful way.

So next, it became Xiao Chen who was constantly avoiding the attack of these men and hit the back. Xiao Chen found that his vitality suddenly began to weaken. No matter how he supplemented it with his yin-yang Qi, he couldn't recover his vitality.

So Xiao Chen decisively chose to escape. At the moment when Xiao Chen was ready to escape, suddenly a silk thread that couldn't see any trace flew out and wound directly around Xiao Chen.

The men behind also caught up at this time. There was a burst of punching and kicking at Xiao Chen. Although there was no rules, their strength was quite large, so it was very painful to hit Xiao Chen. Xiao Chen soon felt that his consciousness began to blur.

At this time, in Xiao Chen's body, the power belonging to the God of war was stimulated again. In an instant, Xiao Chen directly broke free from the silk thread that wrapped around him, and pulled it directly.

Suddenly, more than a dozen people flew out of the desolate land. They were holding several silk threads in their hands. At this time, these men also showed the appearance of silk threads. At a glance, they knew that these people below were not only controlling the men above.

These men may not be killed by Xiao Chen because of their special physique or taking some special drugs. Instead, they will come back to life and become more powerful after being fatally injured.

At the moment when these people were caught by Xiao Chen, Xiao Chen suddenly burst into a strong vitality and directly broke the silk thread in these people's hands. After the silk thread was broken, all the men lost control and limped to the ground like a deflated ball.

The people who control the men here are also uncomfortable. Xiao Chen's shock almost seriously injured them. Now they also fell to the ground, and many people began to vomit blood.

"Ha ha! Well, it's really the physique of the God of war. It's just different. However, I want to see how many people you can defeat today!" Suddenly, a loud voice came out, and dozens of people flew out from under the whole desert, and their hands were all wrapped with silk thread.

In front of them, there are dozens of men.

The God Of Medicine Son-in-law Chapter 448

Compared with the previous ones, these dozens of men are much more frightening, because their skin looks black and their muscles are high and uplifted, which is obviously after special training.

"Go!" The loud voice roared. In an instant, dozens of people who controlled the silk thread kept dancing the silk thread in their hands, and those men who looked very strong started one after another, all of them rushed to kill Xiao Chen.

At this time, Xiao Chen awakened the power of the God of war in his body. Naturally, he would not fear these people and roared wildly. Welcome up, instantly came to a man in front, a punch out. Directly beat the man and those who manipulated him behind him out and vomited blood.

Other people who controlled the man on one side quickly controlled the man in their hands to attack Xiao Chen, but Xiao Chen still punched one person and more than ten punches. All these people were seriously injured and fell to the ground. No more moving.

At the moment when these people all fell, Huang Linfeng, who had just been swallowed by quicksand, appeared again, but at this time, he seemed completely different from before. His eyes were full of bloodthirsty killing intention. At the moment of seeing Xiao Chen, he flew out quickly.

A direct blow hit Xiao Chen in the stomach. Even though Xiao Chen was in the state of God of war awakening, he was beaten by this blow for several meters before he stood firm. He didn't expect that Huang Linfeng would be so powerful.

However, after being hit by him, Xiao Chen didn't hesitate. He flashed directly to Huang Linfeng, and a powerful blow hit him directly on the head.

But Huang Linfeng didn't flash or hide. He took Xiao Chen's fist directly with his head.

Xiao Chen's angry fist, he fully believes that even if there is a hill in front of him, his fist can directly pierce it. However, what makes Xiao Chen completely unexpected is. This punch hit Huang Linfeng on the head, as if he had touched something very hard.

It didn't produce any effect on Huang Linfeng. Even Huang Linfeng's face showed a cold smile. Obviously, he didn't pay attention to Xiao Chen's fist.

Then, Huang Linfeng punched Xiao Chen again in the chest. Xiao Chen instantly felt a dull pain in his chest, and then felt a fishy sweet smell in his throat.

I was hurt under this punch!

And still in the state of God of war awakening, you know. Xiao Chen's God of war state, even characters of the same God of war level as him can't hurt him, but now, he was hurt by Huang Linfeng.

This made Xiao Chen's heart quite shocked, but the shock came back to shock. Xiao Chen quickly operated the Qi of yin and Yang in his body to repair his injury. He knew that it was impossible to defeat Huang Linfeng by the power of the God of war alone now. He needed stronger power.

And this stronger power. It is to combine the vitality of the Jidao divine formula in your body with the power of the God of war to produce new power.

Xiao Chen thought like this, so the vitality in his body also began to run wildly. As long as he can successfully integrate his Jidao divine formula with the power of the God of war, his combat effectiveness will be greatly improved, which is an unimaginable power.

After running for a while. Xiao Chen began to try his first attack. He attacked quickly. He felt that his speed this time was at least twice as fast as before, and one punch hit Huang Linfeng's head again.

This time it produced some effects, because Huang Linfeng's face changed slightly.

But the effect was still not particularly obvious. Huang Linfeng showed no weakness at this time and hit Xiao Chen in the stomach with a stronger blow.

Xiao Chen also felt that he had been hurt more deeply again, but there was yin-yang Qi in his body. As long as no one could destroy him in an instant. Then he has a chance to continue fighting.

The Qi of yin and Yang kept running and repaired his injury again. Then, the Jue of the extreme Tao and the power of the God of war continued to combine.

That's it. They fought back and forth for hundreds of rounds, from dawn to dark, and then to dawn the next day.

Finally. At the moment of dawn, Xiao Chen realized a trace of essence. He directly integrated his God of war power with Jidao divine formula, and hit Huang Linfeng directly.

After this punch, Xiao Chen felt that his physical strength seemed to have been exhausted, so he had no strength to continue the next battle. He fell directly to the ground, and the whole person had no consciousness.

When she woke up again, Xiao Chen found herself lying in a hotel room. She left a letter by her bed and opened it. It was left to him by his grandfather.

“Xiao Chen, your strength is far from enough now. Next, we are facing not only the battle between our empires, but also many battles from other worlds or planets. You should be ready at any time, which is related to the fate of all mankind.”

After reading the letter, Xiao Chen immediately felt very confused. Why has the level of battle risen to the level of other planets and even other worlds? Can't there be foreign creatures where you are now.

After thinking about it, Xiao Chen recalled the mysterious creature he had seen in the East China Sea. There were too many magical things in his own world that he had not found. If there were other species from outside, it would really cause great trouble.

But now Xiao Chen's top priority is to find out the ghosts in the whole empire. After a while of confusion, Xiao Chen has understood the significance of his current task.

If we don't solve this problem first, more things will be difficult to solve later.

Thinking like this, Xiao Chen just got ready to leave the hotel when he received a call from Canglizi.

“Hello, Miss Cang chestnut? What's the matter? Are those two old guys doing it to you again?” Xiao Chen answered the phone and asked.

“No, Mr. Xiao Chen, I recently took over the affairs of the Cang family. I found some important things. Can you come to my house now?” Cang Chestnut's tone seemed a little anxious.

“OK, I see. I'll come right away.” Xiao Chen said and hung up the phone.

The God Of Medicine Son-in-law Chapter 449

Because Xiao Chen is still close to the center of the whole Beijing City, he didn't choose to fly directly to Cang's house, but came down and took the bus.

After all, so many people are watching. If they are photographed at that time, it will have some bad influence. Now most people in Xiao Chen's world are still ordinary people, and there are very few like him, so if someone sees that he can fly out of thin air without the help of any external force.

It is estimated that there will be great doubt in my heart. Even some people may find it hard to accept this fact, so Xiao Chen chose to take the bus in order to avoid causing some unnecessary trouble.

Although the bus is relatively slow. But what Cang Lizi just said is that she found some secrets. Obviously, this is not a particularly urgent thing. Maybe this thing will be very important, but at least this thing is not a particularly important thing. Xiao Chen doesn't need to catch up with it as soon as possible.

So he took a car to Cang's house, but Xiao Chen still underestimated the degree of congestion in the whole Kyoto. When he just went out, he was in the rush hour of work. He had to walk less than half an hour, but he walked for more than an hour.

After arriving, Xiao Chen quickly rushed outside the gate of Cang's house. At this time, the previous uncles and aunts had disappeared, and a new security guard had been replaced at the door. After seeing Xiao Chen, he didn't know him, so the security guard stopped him.

Until Xiao Chen took out his bodyguard card, the security guard realized that he was blocking the current owner of the Cang family, miss canglizi's former bodyguard, and quickly released him.

Entering Cang's house, Xiao Chen soon saw a maid who seemed to be waiting for his arrival. After seeing him, he immediately greeted him and said, "Xiao Chen, you are here first. Our Miss has been waiting for you for a long time. Please come here."

The maid said and took Xiao Chen to the largest villa of the Cang family. Seeing this situation, Xiao Chen was quite satisfied. At least his previous words did have a certain effect. The people of the Cang family honestly made Cang chestnuts the owner of the family.

Now the largest villa has been handed over to canglizi. It looks very good.

Thinking like this, Xiao Chen followed the maid to go in and came to the villa. Xiao Chen found that the decoration inside also changed slightly, but the change was not particularly big. It is estimated that the two old guys of Cang family want to change the pattern of their home, but they are stopped by Cang chestnut, so this is the case now.

After walking in, Xiao Chen smelled a fragrance, which was very similar to when he lived on the first floor of Canglizi's residence. It was obviously the evidence that Canglizi had moved in.

Walking inside again, Xiao Chen could see many servants standing on both sides to welcome themselves. Finally, he came to a room. Canglizi was looking at a document at this time. The maid stepped forward two steps and said to Cang chestnut, "Miss, Mr. Xiao Chen has brought it."

Hearing Xiao Chen's name, Cang chestnut immediately raised his head and looked at the door. Then he quickly waved and said, "Mr. Xiao Chen, come in quickly. Look at these things."

Without hesitation, Xiao Chen went in directly and came to Cang Lizi. He saw that the documents in Cang Lizi's hand were all about some contract information.

"Isn't this some business contracts of your family? This is also your business secret. Why do you let me see it?" Xiao Chen was suddenly a little stunned, because he found that none of these things could be seen by an outsider.

"No, look carefully." Cang chestnut said, pointing to the fragments drawn on these documents.

Xiao Chen looked at it carefully. He didn't know. He found it when he looked at Xiao Chen. A lot of things and materials written on it are relatively secret materials, which are banned by some high-level officials of the Empire. Materials that cannot be sold.

"Can it be said that the Cang family has been selling these materials for so many years?" Xiao Chen looked a little dignified at this time.

"I really didn't expect that my uncle and third uncle would do such a thing. Originally, the current industry of our Cang family is enough to support everyone in the Cang family. It can be said that there is

still a lot of surplus every year. Why do they do this?" Cang Chestnut's face was also very ugly at this time, and his eyebrows were locked. It was obvious that he was annoyed by the current things.

"People's hearts are not enough. Snakes swallow elephants. These guys probably see more interests. No wonder they will be so happy. I told them about it now, and they immediately gave up the position of the owner. If I guessed well, they should have escaped now." Xiao Chen is also a little unhappy.

Sure enough, after a while, suddenly a servant hurried in: "miss. No, they... They all ran away!"

"What?" Cang chestnut immediately stood up from his chair.

Then she looked at Xiao Chen, her eyes full of despair.

"Mr. Xiao Chen, you'd better leave quickly. I think someone will come to the door soon."

Cang chestnut said that he would ask Xiao Chen to leave.

"Don't be afraid. We've come through so many difficulties before. Are you still afraid of this door now? Just do what I say now. You're the master of the Cang family now. You have so much power. Even if someone wants to move you, you have to pay a price." Xiao Chen patted Cang chestnut on the shoulder.

"Then... What should I do?" Cang chestnut is still a little confused at this time.

"As I said, call your lawyer now and ask him to come and sort out all the evidence. Then you go directly to the court to sue your uncle and third uncle, and then let the people of the law enforcement team catch them back."

Xiao Chen said faintly.

"But won't they start first? I think they should be ready to go." Cang chestnut asked. At this time, her mind has been activated a lot, without those damn curses.

She is a lot sober, so she is much more considerate, and some powerful genes in herself are highlighted.

Although she hasn't participated in the struggle in the family for so many years, she has a high consciousness as soon as she comes up.

The God Of Medicine Son-in-law Chapter 450

After all, the whole Cang family was actually revitalized by Cang Lizi's parents, and Cang Gaoshan and Cang Haicheng were just two malignant tumors that killed her parents. Now that the two malignant tumors have left the Cang family, the Cang family will only be more and more revitalized.

"You can rest assured that I know they must be ready to escape, but what I want is to make them ready. Only when they are ready can we do things. If they are not ready, we may not be able to call them back now." Xiao Chen has a confident face.

"Really?" Cang chestnut is obviously still worried.

"Trust me. It's true. I'll prepare it now, and you should have something ready. We'll appeal in two days." Xiao Chen smiled.

Just as Xiao Chen's voice fell, a servant hurried over and reported: "Miss, it's not good. Now people from the Kyoto court came and said that someone had sued us."

When Xiao Chen heard this, the smile on his face became stronger. Cang Gaoshan and Cang Haicheng really couldn't hold their breath. Just sue the Cang chestnuts.

The reason why they are so honest and let the owner out is to throw all their sins on Cang Chestnut's head at this moment.

Canglizi was a little flustered at this time. Although Xiao Chen had said so, after all, this was the first time she had experienced such a thing. In the past, she didn't even think that such a thing would happen to her one day.

In all these years of fighting against the curse, Cang chestnut has also lost something.

However, Xiao Chen gave her a firm look, which gave Cang chestnut courage, so he boldly walked outside the room.

Xiao Chen also followed her and came to the villa hall on the first floor. He saw a man in a suit with a document in his hand. It was obvious that Cang Gaoshan and Cang Haicheng appealed the crime of Cang chestnut.

“Miss Cang, I hope you can be there at that time, otherwise, we will have to take a very broken hand.” The man’s voice is very dignified, even with a hint of threat.

After receiving this letter, Cang Lizi nodded calmly and said, “I will go. I will face everything, but I won’t accept what doesn’t belong to me. I only accept what belongs to me.”

“These are not within the scope of my management. I just hope that in the end, I won’t see our Miss Cang in prison.” The man said, put the hat in his hand on his head, and then took the two men behind him and left.

Seeing the man leave, the expression on Cang Chestnut’s face relaxed. Then he looked at Xiao Chen with great concern and said, “Mr. Xiao Chen, now I have been framed by them. Do we really have a chance to turn over?”

“Don’t worry, this is just the beginning. Just do as I say. I’ll do something these two days.” Xiao Chen said and walked out the door.

“Then you must come that day.” Cang chestnut shouted to Xiao Chen’s back.

“I’m sure I’ll come.” Xiao Chen waved back to Cang chestnut.

After a while, his whole figure disappeared.

At this time, in a mysterious room of a hotel, Canggaoshan, Cang Haicheng, Canghui, Cangbei and a man Xiao Chen had never seen before sat together. They seemed to be discussing something.

“Lord Chang, we have bet the whole Cang family this time. We believe your words. Now we have taken Cang chestnuts to court. After that, you must ensure that Cang chestnuts go in, but those things of our Cang family still stay. They can’t be sealed up. If they are sealed up, we will suffer.” Canggaoshan was worried about the tunnel.

“Well, Cang Gaoshan, you can rest assured. When did I cheat you? Just this time, I have said hello to the judge, and everything is going according to our plan. As long as you get out the materials, all these things will be over, and the rest will have nothing to do with your Cang family.”

The man, who was called the permanent year, seemed to be fully prepared.

Hearing this saying, Cangshan Mountain and Canghai Chengdu are relieved. Cang Haicheng was also very happy and said, “that’s good. The judges have been bought by us. We still need to worry about what. Our lawsuit will win this time.”

“Yes, now Cang chestnuts can be called” every day should not be “and” the earth is not working.” Cang Hui also laughed on one side.

“Yes, I also heard that Xiao Chen seems to be running around for the affairs of the Hua family recently. Now I don’t know where he has gone. Cang chestnut is now alone and can only wait to be judged by us.” Cangbei also smiled treacherously at this time.

“But don’t be happy too early. Xiao Chen is haunted. I don’t know if he will appear suddenly. If he does, it will be difficult.” At this time, the pale smile stopped.

Hearing his words, other people in Cang family stopped laughing. Xiao Chen was a nightmare for them. Seeing him is like seeing a ghost.

So now the Cang family really don’t want to know any news about Xiao Chen. I wish he died.

“What kind of character is Xiao Chen you said? Why don’t I seem to have heard of it?” The permanent Nian on one side asked. He was really not familiar with the name of Xiao Chen. He didn’t know what kind of person he was.

In fact, this permanent year is also a member of a big family in Kyoto. However, due to the poor development in recent years, the ranking of the family fell out of the top ten, but their family is still much stronger than the Cang family.

At least from his ability to buy off Kyoto judges, we can see that the power of their family is absolutely extraordinary.

After hearing the permanent representative’s inquiry, Canggaoshan began to explain: “Xiao Chen, I don’t know what kind of freak he is. He has deep skills at a young age and is quite proficient in Feng Shui. The curse we have arranged for so many years to seize the luck of Cang chestnuts is about to come true, but it’s really annoying because of the emergence of this boy!”
