The God Of Medicine Son-in-law Chapter 461

“Come on, extra large fried sauce noodles!” The store manager came to Xiao Chen with the largest fried sauce noodles in the store.

This noodle really has a considerable weight. Xiao Chen was very satisfied after reading it, and immediately paid the money to the boss.

“It is our greatest mission that you are full!” The boss took the money and was very happy, but now he still cares whether Xiao Chen can eat such a piece of noodles.

After all, this is close to the weight of five people. Generally speaking, it’s good for one person to eat two people, and Xiao Chen had eaten so many things before. Now eat for five more people. If you still don’t feel full.

Then he will doubt whether there is something wrong with Xiao Chen. The most important thing is. Xiao Chen ate so many things and didn’t see too many changes in his stomach. If he was a different person, his stomach would be bulging now. I don’t know how big it is.

At this time, Xiao Chen didn’t care about the boss’s eyes or the eyes others looked at him. He just buried himself in eating. But while eating noodles, he also kept staring at the masked man in that corner.

When eating wonton, the masked man also pulled down his mask a little when he wanted to eat, but when eating, he pulled up his mask to eat. Obviously, he was very vigilant.

It seems that he is afraid that someone will recognize him when he sees his true face.

Xiao Chen can’t directly observe with his eyes now. He can only feel the breath of the masked man, and then wait while eating. When the masked man is finished, he will quickly finish the bowl of noodles in front of him.

Everything seemed to be very calm. Everyone was eating their own breakfast. After observing Xiao Chen for a while, the boss didn’t think or say more and was busy with his own affairs.

Xiao Chen ate his noodles slowly. Soon, he felt that the masked man stood up. It was obvious that he had finished eating.

So he quickly ran the vitality in his body, swallowed all the big bowl of noodles in front of him at once, and then completely digested them, transformed them into some vitality and left them in his body.

Most of the other impurities were directly excluded from the body by him.

The boss just took back his eyes. Looking back, he found that the noodles in Xiao Chen's bowl had disappeared, and Xiao Chen also stood up and walked out of the breakfast shop. The boss was shocked. He didn't know how Xiao Chen ate such a big bowl of noodles.

Normally speaking, according to Xiao Chen's previous speed, it may take at least half an hour to finish the bowl of noodles, but now Xiao Chen has solved the noodles in an instant. The key is that he hasn't seen Xiao Chen's action.

So he came to Xiao Chen's position and checked it. It was amazing to find that the noodles had not been disposed of by Xiao Chen in other ways. They were indeed eaten.

However, at this time, Xiao Chen has left the breakfast shop with the masked man for a long time. The masked man seems to be quite vigilant at any time, so he will pay special attention to his surroundings every step.

However, Xiao Chen can now hide some of his own breath. Even some practitioners may not be able to feel his existence.

So this masked hot naturally didn't know that there was an expert like Xiao Chen behind him.

The masked man walked away from the crowd and walked towards some remote places. In order to avoid exposure, Xiao Chen directly hid his breath. Follow the masked man across some streets.

Because his breath is much stronger than that of the masked man, he can feel the breath of the masked man a few blocks away.

Just after Xiao Chen followed him all the way, suddenly, he found a strong breath appeared in front of the masked man. Xiao Chen quickly converged his breath back.

But he still jumped a few times. Came near the masked man.

“Are you sure no one is following you?” Asked a voice over there, very dignified.

“Sure not, my Lord.” This is the masked man’s voice, some sharp.

“Well, take this thing. There are things you want to complete this time. Remember, you must move quickly. After you finish this task, you can leave the organization. Someone will give you what you want.” Said the dignified voice.

It seems that he is going to give something to the masked man.

“OK, my Lord, thank you!” There was a little excitement in the masked man’s voice. It seems that the salary mentioned in the population called adults is quite generous for him.

“Well, you go. This matter must be decided quickly. Remember?” The man called an adult emphasized it again.

“Remember, my Lord, I will never expose this matter. You can rest assured.” The masked man was very respectful.

“OK.” The whole person’s breath disappeared in an instant when the adult spoke.

This breath is quite strong. Even Xiao Chen doesn’t dare to have any idea of competing with each other. It’s a character at the same level as his grandfather Xiao Qingyuan. Why does such a character appear here? What on earth does he want to do?

What is the task of the masked man? A series of problems in Xiao Chen's heart, but these will be solved one by one, because now he has followed the masked man.

The masked man seems to have opened something. It seems that it is just an item given to him by the man with extraordinary breath. After opening it. The masked man's hand was suddenly hot, burning a raging fire, and the things in his hand were completely burned in an instant.

When the things in his hand were burned, the masked man suddenly shook his breath and flew directly. Obviously, he was not an ordinary person. But his accomplishments should still be lower than Xiao Chen.

Because now Xiao Chen can feel the existence of his breath, but the other party can't feel the existence of Xiao Chen. This is a big gap. It seems insignificant, but in fact, it's enough for Xiao Chen to do a lot of things.

Feeling that the masked man had flown away, Xiao Chen quickly turned his vitality in his body and followed the masked man. He soon came to a courtyard. Xiao Chen looked at it and found that the courtyard was not another courtyard, but the Chen family in Kyoto.

This is also a high-level family of the Empire.

The God Of Medicine Son-in-law Chapter 462

In the Chen family, as one of the elders of the Empire, Chen Tiankui is practicing. Recently, he has also been enlightened by a strong man. When he practices a very powerful Qigong, once he succeeds, his ability can surpass many fighters.

It can even be said that they have the strength to fight when they meet Tianji fighters.

The reason why Chen Tiankui wants to constantly cultivate and strengthen himself is that he knows that there is no peace in the Empire recently. Although he doesn't know the truth, he is one of the elders of the Empire. Of course, it's quite clear what's going on at the top of the Empire recently.

One of the biggest things is the recent incident of Huajia huawenfeng. After he had a problem, many people in the top of the Empire woke up. Everyone was in danger and began to find ways to protect themselves.

At this time, there are several dragon level fighters guarding Chen Tiankui's courtyard in order to prevent being attacked secretly.

Suddenly, a strong breath appeared in Chen's house.

"Who!" Several dragon level fighters were shocked, and the power of the people was quite great. It can be said that they had surpassed them too much. It is likely to be a master of God level or even higher.

It is precisely because of such masters that those dragon level fighters feel nervous.

Generally speaking, if a Tianji fighter appears, it won't be a problem for him to defeat Five Dragon fighters alone, but it also takes some effort and can't be defeated at once.

If a god level fighter appears, it's different. It can kill dragon level fighters like them in an instant. Just because of this, those dragon level fighters will be very flustered.

"Protect old Chen!" Several people are also quite loyal. Even if they know that a strong enemy is coming, they still want to do their own work and protect Chen Tiandi, the elder and senior of the Empire.

"No, I'll meet him!" At this time, Chen Tiandi's breath suddenly shook, and a trace of vitality also came out of his body. It is obvious that he has also achieved certain cultivation results.

Just now, his cultivation reached the level of the second level of the cultivation body in the immortal world, which is equivalent to the level of the general fighter. Even a few points higher, because he can now use his strength to fight.

Once the vitality is played out, it can produce ten times the power of fighting Qi in the body of an ordinary fighter in an instant.

Therefore, facing the threat of the masked man and the strong, Chen Tiandi has no fear at all. He even wants to fight with the other party to see which is stronger and which is weaker. He wants to know the result.

“It’s just a second layer of body refining. Dare you be presumptuous with me? Die for me!” The masked man seemed to be very angry. He felt that his Majesty was despised, and a strong breath broke out in an instant.

After this breath poured into the Chen family, Chen Tiandi realized how stupid he had been before, because the other party’s cultivation was at least on the fifth floor of the body. When one move came down, he almost didn’t even have the chance to fight, so he would be directly shocked to death.

At this critical moment, suddenly. Another huge force appeared in front of Chen Tiandi and directly blocked the huge pressure back.

At the same time, he beat the masked man seriously.

“Poof!” A mouthful of blood spewed out, and the masked man looked at the young man in front of him in disbelief.

It was Xiao Chen who didn’t come. Xiao Chen stood on the spot with his hands down, with a sneer on his face.

“You... How are you!” The masked man recognized Xiao Chen. It immediately occurred to me that this was the young man he had seen in the breakfast shop.

“Why can’t it be me?” Xiao Chen smiled.

“Hello, you dare to break the good deeds of our organization. I tell you, you will regret if you have no good results!” The masked man can’t do anything else at this time. He can only curse Xiao Chen constantly.

“I don’t have a good result, do I?” Xiao Chen smiled faintly: “well, I’ll see if you have any good results!”

While talking, Xiao Chen was ready to do it again. The flame on his body was suddenly found to be destructive.

Even now Xiao Chen dare not approach. I don't know what happened.

"Ah!" The masked man kept screaming, but he was soon burned into a pile of waste residue, leaving nothing left.

"What the hell is going on?" Chen Tiandi is also very confused about the scene in front of him.

"Dad! Are you okay?" Behind. The people of the Chen family came one after another. They all looked at Chen Tiandi, but they also saw Xiao Chen standing next to him.

"I'm fine. This little hero saved me." Chen Tiandi smiled.

At this time, Xiao Chen also returned to his mind, looked back at Chen Tiandi and said, "old Chen, I'm not a little hero, but I'm just following the masked man. I don't know if you know why this man wants to kill you?"

"This is not the place to talk. Let's go inside!" Chen Tiandi said and made a "please" gesture to Xiao Chen.

Xiao Chen didn't talk nonsense. He followed Chen Tiandi and a group of Chen family into the house.

When she came to the house, Xiao Chen still continued the question: "does old Chen know why this man assassinated you?"

"I don't know yet. But there are still some things we can share with the little hero. Fengxia, bring that." Chen Tiandi said to a middle-aged woman.

Obviously, this should be one of his daughters.

“Yes!” Chen Fengxia nodded immediately, then hurried out and came in again. There was a secret document in her hand.

“Hero. Please have a look.” Chen Fengxia said and put the secret document in Xiao Chen’s hand.

As soon as Xiao Chen saw such a precious document, he showed it directly to him. He immediately felt something wrong, so he waved his hand and said, “old Chen, this is too precious. I’m afraid it’s inappropriate to show it to me.”

“There’s nothing inappropriate. I think the little hero’s ability is extraordinary. He must be able to deal with the enemy we’re going to face this time. He may help you. You see, it doesn’t matter. Don’t care if it’s a secret document.”

Chen Tiandi is very casual and doesn’t seem to care that Xiao Chen shows his secret documents.

The God Of Medicine Son-in-law Chapter 463

“Then deference is better than obedience.” Xiao Chen only opened the secret file with a smile. After opening it, Xiao Chen found that this was a document similar to the document in Hua Qiye’s hand, which recorded many high-level officials of the Empire who had been secretly attacked during this period of time.

Among them, the name of Hua Wenfeng is impressively listed. It is obvious that many senior imperial officials have known that Hua Wenfeng was secretly attacked.

After putting away the document without saying a word, Xiao Chen fell into a brief silence. If the document is put outside, it can be said that it is indeed a very confidential document, but if it is in his hand, it is not so important.

After all, he already knows something about the secret document. Now I just know more, but it doesn’t play a big role. The key problem now is that Xiao Chen wants to find out who the real murderer behind this is.

Why do these powerful figures appear one after another in Kyoto now. What do they want to clear the top of these empires for? Is there someone from another world who wants to invade their summer country.

If this is true, Xiao Qingyuan should come out to stop it anyway. But is it too strange that Xiao Qingyuan still asks himself to investigate the matter of spies in the Empire?

Combined with all these signs, Xiao Chen now began to doubt the true identity of his grandfather. If the strong man is now controlled by others. The whole empire has actually fallen into a huge crisis.

In such a crisis, no one can be spared, and the other party did not choose to occupy the whole empire, but chose such a means, which may also imply something.

“Little hero, I don’t know what you think?” Chen Tiandi on one side saw that Xiao Chen had not spoken, so he asked.

“I can’t talk about my opinion. In fact, I’ve just begun to contact this matter. There may be many things I need to know in the future, so I don’t have any conclusion now. I can only know more by continuing my investigation.” Xiao Chen lightly replied.

“Little hero, if you want to investigate this matter, in fact, we can introduce you to someone who may be able to help you with many things, but this person may not be so easy to be invited out.” Next, a child of the Chen family spoke.

“Oh? Who?” Xiao Chen was stunned. He didn’t expect that he still had a chance to find someone who could cooperate.

“This man’s name is Zhuge Qing. He is a genius born in the Zhuge family in the past 100 years. He once made many war achievements on the battlefield. But he suddenly disappeared. Many people don’t know where he went.”

“But we recently received news that he seems to be out of the mountain again and is now in the Hu family. If the hero has such a spirit, you might as well go to the Hu family and maybe you can get his advice. That’s also good.” The son of the Chen family said.

“ZHUGE Qing?” Xiao Chen carefully searched the man’s name in his mind, but it was obvious. He hasn’t seen him. He just heard the Chen family’s son describe this person like this, which means that this person must have some excellence.

Thinking of this, Xiao Chen nodded and said, “OK, I’ll go to find Zhuge Wen and see what kind of ability he has and whether he can solve the key of this matter!”

With that, Xiao Chen disappeared directly into the courtyard of the whole Chen family like a gust of wind.

“Father. The hero knows at a glance that he is a very great existence. Do you mean that his appearance can change the pattern of this event?” See Xiao Chen leave.

The son of the Chen family immediately stood up, looked at the direction of Xiao Chen’s departure and sighed.

“Maybe he can, or maybe he can’t. although he is strong, he is not strong enough to be invincible. The organization that took action this time is no small matter. It has escaped this time, and there may be the next time. If there is really no way to stop, then you don’t stop again.”

Chen Tiandi seems to have figured out something.

At this time, on the other side, there is another big family, the Hu family.

This family is not a particularly famous family in Kyoto, nor is it particularly strong. But now there are several experts in the foundation period gathered here.

It seems that he is discussing something. Generally, a man in the middle has no cultivation. With a feather fan and a Lun scarf, he looks weak.

But in his eyes, there were all kinds of fine light flashing. You can tell at a glance that he is an extraordinary person.

“Master zhugeqing, we can only slow down this time by relying on your strategy. It’s just that the offensive against you is quite fierce. With our current strength, it’s not enough to fight. We still need to find stronger people to join our team.”

On the side, a man’s road that looks like building the second floor of the foundation.

“Yes, our current strength is indeed quite poor. In the face of those golden elixirs and even Yuanying, we have almost no way.” Another friar who built the fifth floor of the foundation also said.

“Don’t worry, the master we need will arrive soon.” Zhuge Qing gently fanned his feather fan, looking confident.

“Oh? Is there a master?” Several friars on the side were stunned.

Then he found a strong breath and came to the door of Hu’s house.

After Xiao Chen came to the door of the Hu family, he didn’t intend to enter by force. But came to the door very politely.

“Don’t you know our master zhugeqing is inside?” Xiao Chen shouted at the door of the Hu family courtyard.

“Brother, please come in and talk!” The door suddenly opened, and a voice came from it, which seemed to be quite powerful.

Without hesitation, Xiao Chen stepped directly into the door and soon came to the position of the monks and Zhuge Qing.

Because Xiao Chen just came to the Hu family, he also felt that there were several strong smells in it, and even two smells were a little stronger than himself, so he could probably be sure that Zhuge Qing was indeed here.

When I came to the door, I found Zhuge Qing and several other experts sitting cross legged inside.

“I’ve seen master Zhuge Qing under Xiao Chen.” Xiao Chen arched his hand at Zhuge Qing.

“Our happiness is that you can come!” Zhuge Qing smiled and said

The God Of Medicine Son-in-law Chapter 464

Hearing Zhuge Qing say this, Xiao Chen is a little strange. Have they been waiting for their arrival, but now is not the time to say these words, so Xiao Chen went directly into the room and sat down cross legged.

After he sat down, he found that the position was just right, and there was room for him alone. It seemed that it was specially prepared for him.

“Mr. Xiao Chen, if you can come here, it means that you have broken some shackles. In fact, I know what you have been doing. It’s because of your grandfather, isn’t it?”

Zhuce Qing slowly shook the feather fan in his hand at this time, and the expression on his face was quite indifferent. It seems to be talking about a very insignificant thing.

But Xiao Chen was quite shocked when he heard this, because almost no one knew about him and his grandfather, and Zhuge Qing was able to break some secrets between him and his grandfather in one word.

This is quite a wonderful thing.

“Don’t be too surprised, Mr. Xiao Chen. I’ll introduce you to two people now, and you’ll understand some things. First of all, it’s the one next to me. His name is Wang Lang. It’s the bodyguard next to your grandfather. I think he’s betrayed now.”

Zhuge Qing then pointed to the man beside him with a feather fan. His appearance looked a little beautiful, but his eyes were bright, and his cultivation was quite deep. One of the experts who Xiao Chen felt was more advanced than himself at the beginning.

“Hello, I’m Wang Lang. Nice to meet you today, Xiao Chen.” Wang Lang arched his hand at Xiao Chen.

“Hello.” Xiao Chen also responded with an arched hand.

“There is another person who is still by your grandfather’s side. That is the elder Ning Wangshu.” Zhuge Qing said again.

“Grandpa Ning?” Xiao Chen was stunned. Unexpectedly, Ning Wangshu was also around his grandfather. Why did Ning Wangshu deceive himself and say that he didn’t know his grandfather’s whereabouts? What other secret is there?

But now Xiao Chen knew that it was meaningless to think so much. He still focused on Zhuge Qing and waited for him to make some reasonable explanations.

“Now let brother Wang Lang tell you something about it.” Zhuge Qing did not intend to go on at this time, but looked at Wang Lang.

“OK. Brother Xiao Chen, what I want to say next is all about what I have seen. Although you may not want to believe it, these are really what I have seen with my own eyes, so please keep calm and don’t get excited. If you have any questions, you can ask later.”

Wang Lang nodded at this time, as if ready to start saying something more important.

Several others around. The faces of people including Zhuge Qing became very dignified. Xiao Chen knew he couldn’t neglect it, so after sorting out his mind, he also looked at Wang Lang and nodded:

“Brother Wang Lang, just say it. I won’t take any drastic actions.”

After getting Xiao Chen’s answer, Wang Lang was relieved, so he slowly said, “things should start from the beginning when you were still on the other side of the East China Sea. That’s a very strange thing.”

Next, Wang Lang spent nearly half an hour telling a story. The main content of the story is as follows:

When Xiao Chen had just returned to the East China Sea, a great change took place in the whole world. I don’t know where a thing similar to a pagoda came from. I don’t know what it contains.

At that time, many countries began to send their own teams to investigate. But the situation found out is not clear, and the incoming team is missing.

But later, some countries sent experts into it, but they succeeded in coming out of it, and got a general adventure. The whole person’s ability has made a qualitative leap.

For now, their cultivation has been greatly improved. At that time, the Xia state was very anxious because it could not find an expert to enter the pagoda, so there were many senior leaders of the imperial head of state.

At that time. Xiao Qingyuan stood out as a master hiding in the world. He walked into the pagoda and came out. His accomplishments also soared to an unimaginable level.

But after that, he was recruited by the Empire. Every day, we have to take relevant actions for many things of the Empire. Because other countries have experts, they are ready to move and want to threaten the whole Xia country.

The empire can only send Xiao Qingyuan to confront. In the process of confrontation, Xiao Qingyuan destroyed all the experts in the eight countries, so now there is only Xiao Qingyuan who came out of the pagoda.

The pagoda had disappeared when Xiao Qingyuan came out. Now it's equivalent that there is the only mystery in the pagoda in Xiao Qingyuan. As long as the mystery of Xiao Qingyuan is solved, everything will be revealed.

What is hidden in the pagoda will also be answered.

But that's the point. Xiao Qingyuan has long been strong enough to be uncontrollable. No one in the whole empire knows what his situation is, and no one can control him.

It can almost be said that he can do whatever he wants, and no one can stop him. Many rumors say that Xiao Qingyuan is now the leader of the Empire.

But just when these rumors came out, Xiao Qingyuan did a lot of things that were beneficial to the Empire and the people, so these rumors were suppressed, and a lot of rumors were destroyed.

This was originally seen as a good thing by some people, but in fact it was not. For a long time to come, the life of some senior leaders of the whole empire was cast a shadow. This shadow was not caused by others. It was Xiao Qingyuan, who seemed to be a figure for the people and the country.

He secretly controlled all the actions of the Empire, and he was not only controlling the whole empire, but also controlling what happened in the current world.

Everything is under his control. The reason why Xiao Chen is asked to do those things, whether he gets some treasures or teaches skills, seems to be for the greatest purpose. As for what the purpose is, we don't know now.

The God Of Medicine Son-in-law Chapter 465

The only thing we can know now is that Xiao Qingyuan is no longer the original Xiao Qingyuan. Many people have even found out that Xiao Qingyuan has changed into another creature, and he is no longer human.

But another object from another world. His ability has far exceeded all human beings, but he wants to do something. No one knows what kind of plan to launch for the whole world.

Xiao Chen is one of the objects of Xiao Qingyuan's utilization. He has been helping him do all kinds of things that seem very ordinary and legitimate, but in fact, it is not the case. Many things Xiao Chen may do are premeditated.

From what happened when Xiao Chen was in the East China Sea, he met the desert God of war. After that, there were various other events. Of course, some of them had nothing to do with Xiao Qingyuan, but as long as they had a certain relationship with Xiao Qingyuan, there was his arrangement.

Now let Xiao Chen find out some possible spies in the Empire, which is just a part of his plan. The biggest purpose seems to be to stimulate some power in Xiao Chen. What to do after stimulating these power is still unknown, but it must not be a good thing, because Xiao Qingyuan is no longer a person in this world.

After listening to these words. Xiao Chen couldn't help taking a deep breath. He didn't know how to describe his current mood. Although he had some doubts about his grandfather for a while, he still didn't reach such a level.

After listening to Wang Lang's words, he immediately felt that something in his heart seemed to collapse. It's hard to say that feeling. After all, people who have trusted for so long are now said to be not people in the world.

No one knows the secret of the pagoda. No one knows what kind of situation Xiao Qingyuan is now. The only thing that can be determined is that Xiao Chen's so-called task is actually meaningless. This is just a trap set by Xiao Qingyuan to activate some power in Xiao Chen's body.

As for what it will be, no one can say it clearly or not.

Thinking of these things, Xiao Chen felt very headache. He is even reluctant to face the current situation. His grandfather has been completely changed and become a person he doesn't know at all.

However, after struggling for a long time, Xiao Chen stabilized.

Zhuge Qing and Wang Lang over there are also waiting for Xiao Chen's decision. They seem to be people who don't have any opinions, and they don't have much ideas about all this in front of them. Perhaps the only idea is to wait for Xiao Chen to make a decision.

"What's your plan now? Are you going to investigate my grandfather?" Xiao Chen looked at the crowd and then looked at Zhuge Qing's face.

"Mr. Xiao Chen. Now that you're here, I'll say something directly to your face. Now everyone here has a very important task, that is to destroy our current planet." Zhuge Qing was very calm.

"Destroy our planet? Why?" Xiao Chen was shocked.

"Don't worry. I'll explain to you slowly why I want to destroy." Zhuge Qing's face is very calm. It seems that anything he says now can be viewed with an absolutely rational mind.

"OK." Xiao Chen nodded and waited for Zhuge Qing's statement.

"In fact, most of the world we live in has been set up with a thing called 'seal', which we call a changer." Zhuge Qing said slowly.

"Changer?" A trace of doubt appeared on Xiao Chen's face.

"If Mr. Xiao Chen doesn't believe this, you can go to some higher mountains or feel it in the deep lake and sea water, and you can find the clue." Zhuge Qing seems to be explaining to Xiao Chen.

"OK, I'll verify this later. Go on." Xiao Chen nodded.

"The most important effect of these changers is to change the composition of our organisms, which will produce many new species. These new species will replace our original species, and even humans will be replaced." Zhuge Qing continued.

“New species, do you mean we’ll see something we’ve never seen before?” Xiao Chen asked.

“It’s not all true. The nature of a new species will change dramatically, but its shape will not change too much. At that time, Mr. Xiao Chen, if you know what the changer looks like, you may be able to find some human beings around us. Now they have changed into other species.”

Zhuge Qing replied.

“I see.” Xiao Chen still nodded.

“The role of these changers is to change the structure of our species, and their ultimate goal is to rule our planet. Now too many people around us have been affected by the changers, and many dead people have been revived by the changers in another way. The life and death of our whole planet and various other systems have been in chaos It’s too late. “

“But now the situation is not particularly obvious, but after less than three years of development, we will see such changes, which is difficult for us to accept and do not want to see, so after careful consideration, I decided to let people completely destroy the whole world.”

Zhuge Qing said faintly, his face was still very calm, but Xiao Chen was used to his way of speaking and attitude now.

In front of such a person, Xiao Chen can really feel that the other party’s intelligence has completely exceeded himself. He may have predicted some things he can’t imagine in his mind.

“Is it too cruel to destroy the world?” Xiao Chen still didn’t agree with this idea at this time.

“I know what you think now, Mr. Xiao Chen. I thought the same as you before, but if you went outside to see the current situation in the world, you wouldn’t say so.” Wang Lang made an appearance of understanding Xiao Chen very much.

“Now I’ll go out and have a look. Please wait.” Xiao Chen said and turned into a streamer and flew outside. He soon came to a high mountain in Kyoto.

Just after coming over, Xiao Chen felt a strange smell spreading on the mountain.

The God Of Medicine Son-in-law Chapter 466

After careful observation, Xiao Chen suddenly found a fact that all the plants on the whole mountain are alive. Yes, it's not the original so-called living meaning, but that they seem to be able to move flexibly like ordinary animals.

But this kind of movement can't be found by ordinary people. Some people don't know where they are when they stand nearby. Those trees and flowers will move.

Then Xiao Chen found a large lake and dived into it. Suddenly, he found that many fish, shrimp and crabs had strange changes. Some fish had feet similar to human beings. And shrimps and crabs began to lose their hard shells.

Even Xiao Chen can see that some big lobsters grow real meat, which doesn't belong to them.

All these changes made Xiao Chen a little difficult to accept, but the fishermen above still fished these fish and shrimps and crabs.

But they didn't seem to be aware of it. Or they can't see these changes. These changes are hidden and ordinary people can't see them.

Xiao Chen came to a fishing uncle and asked, "uncle, do you see any problems with these fish or shrimps and crabs?"

Hearing what Xiao Chen said, the old man immediately checked his face solemnly.

Xiao Chen thought that the uncle would really see something under his hint, but who knew. He just shook his head and said, "Oh, now it's very difficult for us to fish for a living. The harvest is getting worse day by day."

Hearing this, Xiao Chen gave up his original inner hope and began to think about Zhuge Qing's words. Now these things are flooding, and no one has noticed it. But in the future, if all people have been changed by such a changer, can such a world still live normally?

Thinking of this, Xiao Chen quickly flew up and flew in the direction of Washington.

After flying in, Xiao Chen was shocked. Not for anything else, but Hua Wenfeng sat in the courtyard of Washington with a smile on his face.

Xiao Chen fell down and looked at Hua Wenfeng in front of him. Earth shaking changes had taken place in his whole interior. As like as two peas Zhuge Qing said, he is no longer his, and now he is sitting here, looking like the same one he was.

"Hua Lao?" Xiao Chen forced his inner shock and shouted.

Hua Wenfeng looked at Xiao Chen and said with a faint smile, "what's the matter? Xiao Chen, is things going well recently?"

"Smooth." Xiao Chen replied.

"That's good." Hua Wenfeng nodded.

At this time, Hua xuwan and Hua Qiye came out. They haven't changed yet, because they are still alive. It has not "died" in a certain sense. If it is attacked secretly or killed by some special means.

These two people are likely to become a situation like Hua Wenfeng.

Seeing that Xiao Chen's face was very strange, Hua xuwan asked, "what's the matter, Xiao Chen? Is it incredible that you saw my Grandpa coming back? In fact, I'm also very surprised, but now grandpa is back, which is a good thing."

“Yes.” Xiao Chen nodded a little stiff.

“Xiao Chen, I know what you’re thinking. In fact, we don’t understand it, but now it’s like this. We should be happy and celebrate.” Hua Qiye also said with a smile at this time.

After seeing their smiles, Xiao Chen’s heart was more tangled. In fact, all these things in front of him did not belong to the real thing, but came from another creature who changed a lot of things through another means.

Although their happiness can indeed be counted as happiness, it can even be said that they can really face the things in front of them happily.

But Xiao Chen, who knew the truth, was not happy. He felt that this could not be regarded as a real thing. It was also a kind of deception, and there were other deceptions in this deception. Maybe these changers will change huaxuwan and huaqiye in the future.

Thinking of this, Xiao Chen had to say goodbye to the Chinese family first, and then went back to zhugeqing and them.

“Mr. Zhuge, is there no way to stop what you said?” Xiao Chen asked as soon as she entered the door.

“We have all used the methods we should use. But the other party is too powerful and has exceeded the limit we can reach now, so we can only take the way of self destruction. In order not to be defiled by such strange creatures.” Zhuge Qing said faintly.

“Do you really want to go to such an extreme?” Xiao Chen still had some difficulty accepting such a thing at this time.

“Mr. Xiao Chen, we all know how you feel now, but that’s the truth. Either destroy or I will be ruled by them. It’s hard for us to guess what will happen after the rule.” Wang Lang was also a little helpless at this time.

“Everyone, I still don’t want to see such a thing happen. Please give me a certain time and I’ll go to my grandfather to ask about the situation.” Xiao Chen suddenly made up his mind.

“Don’t go. If you go now, you may fall into his clutches and be bewitched by him. If you are willing to believe us, join us now. With your participation, our plan will succeed.” Zhuge Qing seemed to be persuading Xiao Chen at this time.

“No, when something like this happens, I have to ask my grandpa. I don’t want to believe that he has really changed, and isn’t there another grandpa Ning Wangshu who hasn’t arrived yet? I’ll ask him now!” Xiao Chen said and flew up again.

Flying in the direction of the imperial palace. Although he doesn’t know where his grandfather is now, his intuition tells him that Xiao Qingyuan is likely to be in the palace. As long as he goes to the palace to find him, he will be able to see him.

Thinking like this, Xiao Chen flew into the palace at the fastest speed. At this time, the whole palace was no different from normal, and everything seemed to be working normally,

But Xiao Chen found something wrong just after landing. Most people in the whole palace were changed by the changer.

This can only show that the other party’s claws have long gone deep into the palace.

Although the inner hopes disappeared a little, Xiao Chen still didn’t want to fully believe that this thing would break out completely.

He directly landed in the hall of the palace and shouted, “Grandpa, come out!”

The God Of Medicine Son-in-law Chapter 467

“Xiao Chen, wake up!” Suddenly a cry came into Xiao Chen’s ear.

Xiao Chen was suddenly stunned. Isn't he quite sober? Why is someone calling him?

"Who are you?" Xiao Chen stood in the hall of the whole palace shouting, but no one answered him.

"Xiao Chen, wake up!" Another voice came into Xiao Chen's brain, and Xiao Chen immediately felt a little strange. Looking around, I found that the scene around me was constantly changing.

One by one, the scenes appeared around him. All the people I met looked at him coldly at this time, as if I hadn't seen him and didn't know him at all.

"Where am I?" Xiao Chen suddenly realized something and found that his place didn't seem to exist.

But now he seems to be completely surrounded by something. He has no way out of this place.

"Xiao Chen..." the voice came again. Xiao Chen still could barely hear each other's words, but there was no way to distinguish where the words came from.

I don't know how long it took. Xiao Chen felt a whirling feeling. After opening her eyes again, she found that she was lying in a bed and looked around. She suddenly found that she was at home in China.

Xiao Chen struggled to get out of bed, but found that he didn't have any strength all over, and almost fell out of bed.

"Xiao Chen, you're awake!" Outside, Hua xuwan suddenly ran in.

Xiao Chen stared at her with wide eyes. He wanted to make sure whether the Hua xuwan in front of him was real or changed by the changer.

See Xiao Chen's very surprised expression. Hua xuwan wondered and said, "what's the matter? Xiao Chen, you've been in a coma for a long time. Did you dream? What did you see?"

Xiao Chen was slightly stunned when she heard this. She didn't expect that Hua xuwan even knew this thing. She knew that she had just learned some terrible things.

However, Xiao Chen then thought about it and found that there was something wrong. After all, the things he had encountered before were too strange. What changers, Zhuge Qing's words, and those things about my grandfather should not exist at all.

It is likely that everything he had previously was just a dream, but Xiao Chen thought again and felt that it should not be just a dream. Many things in it are so real.

And now he can feel his body so weak. It shows that I used to consume a lot, but I didn't consume a lot in my dream. I just visited around.

In this way, this dream is not just a dream. It is likely that I have some powerful illusions and so on.

Xiao Chen still heard Nangong Lengshan say this. It is said that there is a kind of skill cultivated by monks that is used to confuse the enemy. Such people are called illusionists in the whole cultivation world, and their own ability is not particularly powerful.

It can even be said to be quite weak, because as a cultivator, normal people can fight ordinary people at will, but illusionists have to deal with ordinary people through some complex illusory means.

by comparison. There are few illusionists in the whole cultivation world. Even no one will choose to be a illusionist. The reason is also very simple. The speed of cultivation is very slow. Moreover, the accomplices of cultivation are quite complex.

However, no one who is a pure illusionist is willing to practice illusionism, but if some friars practice illusionism after reaching a certain degree, the concept is different, although I haven't heard such a statement.

But now Xiao Chen suddenly had a feeling that the masked man he met that day was likely to be this type of cultivator. Xiao Chen didn't know when the other party had the illusion.

He himself had never come into contact with such a kind of monk, and this masked man was probably the first time he met.

Think of it here. Xiao Chen suddenly understood a lot in her heart. If everything is like this, maybe she can explain it.

So he immediately asked Hua xuwan, "did you bring me back from that breakfast shop? How many days have passed now?"

"Yes, we brought you back from there. On the way back, you said some strange things, such as Grandpa. You should have dreamed of your grandpa?"

Hua xuwan nodded and replied that she didn't deny Xiao Chen's words.

"I see." Xiao Chen nodded.

"Now you should have slept for nearly half a day. Just now you didn't know what you were shouting. I went out for a while and you woke up when I came back. We were almost ready to call an ambulance." Hua xuwan said again.

Half a day? Xiao Chen took out his mobile phone and looked at the time. He found that it was indeed half a day, and it was the same as the time he experienced in his dream. No wonder he couldn't see any difference at all.

It seems that the masked man's means should be quite clever.

Xiao Chen wanted to get up, but found that his body was almost out of control, and he had little power to stand up.

"If you're in such a situation now, don't struggle to get up and have a good rest." Hua xuwan told after reading it.

Xiao Chen couldn't help smiling. He suddenly remembered that the Chen family in his dream seemed to be the target of the masked man's attack. Now he didn't know whether another family had been secretly attacked.

While Xiao Chen was thinking, Hua Qiye came in from the outside anxiously.

"Today, the Yang family encountered a sneak attack by experts, and Yang Yun, the leader of the Yang family, died." As soon as he came back, he broke a big story.

"What are you talking about?" Hua xuwan was stunned and looked at his father in disbelief.

It seems that she can't believe what Hua Qiye just said is true. The Yang family is also one of the top ten families in Kyoto. Although its power is not particularly strong, it still has a certain strength.

The owner of the house was attacked like this. That's what people can do.

"That's the man." Xiao Chen spoke aside.

"Who?" Hua Qiye and Hua xuwan both turned their heads to look at him and asked.

"It's the masked man in the breakfast shop. He's probably the real murderer who attacked the Yang family, but I didn't even see him." Xiao Chen was helpless.

The God Of Medicine Son-in-law Chapter 468

"Masked man?" Hua xuwan and Hua Qiye were a little strange. Then Hua Qiye seemed to think of something and said, "I know. At that time, not long after we just went out, I saw a masked man go in."

"At that time, Xiao Chen took the initiative to say that he would stay, right? Xiao Chen, is that the person at that time? He was sitting in a corner at that time. I just felt a little strange and left after looking at it."

Hua Qiye said and looked at Xiao Chen. Seems to be waiting for him to give himself an answer.

“He’s been in bed for half a day. That’s why he’s been in bed for a long time. That’s why he’s probably a very strange person.” Xiao Chen nodded.

“So it is. This man is so powerful that even Xiao Chen can be suppressed by magic. Isn’t it quite troublesome for us to deal with him?” Hua Qiye frowned.

“No. you’d better leave him alone. I’m thinking of another way.” Xiao Chen said.

Just after he finished speaking, he suddenly felt a vitality flying over him. Then he felt his strength coming back and suddenly stood up from the bed.

Later, Hua xuwan and Hua Qiye seemed to be hypnotized by the skill of an expert, and they fell down directly.

A master is coming? Xiao Chen’s heart moved. He knew that there might be experts outside looking for him, so he ran outside in a few steps. When he opened the door, he found that his grandfather Xiao Qingyuan was standing in the air, as if he was waiting for him.

“Grandpa?” Xiao Chen was stunned. Now when he saw Xiao Qingyuan, he would have a very strange feeling in his heart, which was caused by the illusion just now. Now he doesn’t believe in his grandfather.

However, after getting rid of those distractions, Xiao Chen immediately flew up, flew in the direction of Xiao Qingyuan, and stayed by Xiao Qingyuan’s side.

“Grandpa, you should be here to tell me about the Yang family?” Xiao Chen asked after coming forward.

“Good.” Xiao Qingyuan spoke slowly, but then his eyes were a little different. Then he nodded twice on Xiao Chen’s head. Xiao Chen felt that something in his brain seemed to have been pulled out. The whole person was sober and had less doubts about his grandfather.

Xiao Chen's memory of some things he had previously encountered has been blurred. It is obvious that Xiao Qingyuan's once completely eliminated the illusion left in Xiao Chen's mind.

So Xiao Chen also felt that his mind was clear for a while.

"It seems that you have already made a move. This is not a small sect. It's the voodoo sect in the big world. It's a big sect in the demon sect." Xiao Qingyuan seemed to be talking to himself.

"Voodoo sect? What's that? Is it a cultivation sect?" Xiao Chen asked curiously.

"Son, I have to let you know something now. I was going to tell you when I arrived, but now that things have happened, I have to make it clear to you that the world you see now is actually very small. There are many spatial faults around us, and there are all kinds of strange practitioners. All kinds of monsters and Warcraft will invade Our world. "

"Most people don't know this thing. Only a few people who have reached a certain level of cultivation can see the essence of the world clearly. The things I asked you to do before are all experience in order to sharpen your mind."

"Now it seems that it's too late. I have to tell you that things have become serious now. I don't know which world practitioners have found the existence of our world. They want to rob the resources here, so what's happening now is done by those people."

After Xiao Qingyuan finished, he sighed and looked at Xiao Chen. It seemed that he didn't want to tell Xiao Chen such a fact. Maybe he was afraid that he couldn't accept it for a while.

However, to his surprise, Xiao Chen did not show special composure. But nodded and said, "Grandpa, in fact, I understand all these things. From the beginning when I was able to practice, I was a little skeptical. I know there is another world outside this world."

"That's right. Your cultivation is just to build the foundation, and then there is Kaiyuan. The eight realms of Bigu, Jindan, distraction, Yuanying, transforming God, crossing robbery and Mahayana are still far away in the future. Now the other party has sent many experts from Kaiyuan and Bigu to our world, and

I have been fighting with some experts from the whole world , but I'm still busy. It's estimated that soon. They will bring down more powerful experts. At that time, even I may not be able to fight. "

Xiao Qingyuan said with deep anxiety in his eyes.

"What kind of state is Grandpa now? Pigu? Or Jindan?" Xiao Chen asked.

"I'm still one step away from reaching the state of opening up the valley. Each big state is divided into nine small states. When I reach a certain level, I can break through. This is the effect of energy accumulation. The Jidao divine formula you are cultivating now is actually a very powerful skill."

"Everyone has a spiritual root. You can cultivate only with a spiritual root, and there are no attributes in your spiritual root, so you can be suitable for practicing the Jidao divine formula, because it is also a skill without any attributes. Now I will teach you the secret of all the Jidao divine formula, and you can understand it well."

Xiao Qingyuan said something silently in his mouth. Then Xiao Chen felt a series of strange words flying in his mind. Then he found that he had completely understood the secret of the secret formula of the extreme way.

There are nine levels in total. If you don't succeed in cultivating, your accomplishments will be greatly improved, and the effect of each level is different. For example, now Xiao Chen's first level of cultivation has been completed.

The main function of this weight is to strengthen his vitality and make himself able to accommodate at least five times more vitality than ordinary monks. Therefore, Xiao Chen will feel that the vitality in his body is very strong when running the Jidao divine formula.

If Xiao Chen succeeds in the second level of cultivation, he can get ten times the power of ordinary friars. This is the power that the second level of Jidao divine formula can bring, which is the goal that Xiao Chen can achieve now.

The God Of Medicine Son-in-law Chapter 469

The remaining layers need Xiao Chen's continuous understanding in his later cultivation in order to make a continuous breakthrough. Now his most important thing is to make a breakthrough in his cultivation from foundation building to Kaiyuan.

Foundation building is the time to lay the foundation, and Kaiyuan is the time when a person is really transformed into an immortal. At this time, there will be a qualitative change in the whole person's body, and all forces will increase to an unimaginable degree.

However, it is not easy to break through Kaiyuan. Ordinary monks have to spend at least 50 or even 80 years of hard work before they have a certain chance to break through.

But Xiao Qingyuan came here this time to take Xiao Chen to break through his cultivation.

"Xiao Chen, listen carefully. I'm going to take you to a very mysterious place, where there are many special vitality and elixirs. You should seize the opportunity and absorb all kinds of breath as much as possible, okay?" Xiao Qingyuan suddenly said to Xiao Chen with great dignity.

"I see." Xiao Chen nodded. He knew that if his grandfather treated this matter so seriously, it would show that this matter must be quite complicated. As for what it is, he doesn't know now. If Xiao Qingyuan doesn't say it, he can only experience it slowly by himself.

Maybe this is also Xiao Qingyuan's work style. He doesn't like to explain too much about many things, but let his grandson develop himself. In fact, Xiao Chen was able to get Taichu Baolu in Wuling. This kind of treasure was also something Xiao Qingyuan didn't expect.

Now the place he is going to take Xiao Chen with him is also a treasure land, but Xiao Qingyuan doesn't know what this place is called. He only knows that he has directly improved the cultivation of several small realms once.

Now I bring Xiao Chen here. I hope he can get great benefits in it. The more, the better. After all, everyone hopes that this is the benefit. Moreover, in this situation, the stronger Xiao Chen is, at least he can protect himself.

Don't say anything else. Xiao Chen can protect himself. In fact, Xiao Qingyuan thinks it's enough. Now the world here is just invaded by a voodoo gate, and the matter is not serious enough to be uncontrollable.

Moreover, these voodoo men also see the situation clearly. They will not kill everyone, but just kill those in power or those who have the chance to resist them. They don't pay attention to other ordinary people, but just let them continue to live.

As for what role these people will play in the future, we don't know. When he came to the treasure land, Xiao Chen immediately felt a breath that made him feel comfortable, just as the treasure land was specially made for him.

"There are all kinds of vitality that can be provided for you to practice. There are spirit grass and strange spirit beasts around, but as long as you don't provoke them, they will live in peace with you." After Xiao Qingyuan came here, he explained to Xiao Chen.

"Grandpa, why don't you continue to practice here?" Xiao Chen asked.

"I'd like to, but I haven't had any effect in practicing here now, so you should hurry up next. Practice well and strive to get more benefits here. I have other things to deal with those people in the voodoo gate. Practice first and then leave. You can come to me in the wusheng building in Kyoto."

When Xiao Qingyuan spoke, the whole person disappeared and turned into a streamer, flying in an unknown direction.

Xiao Chen also gathered all his thoughts and began to feel the breath here.

Just at the beginning of feeling, Xiao Chen suddenly felt that his body was like a vortex, and all the surrounding breath seemed to be induced by something, all of which rushed towards him.

"So much!" Xiao Chen was shocked in his heart, but he suddenly absorbed it. He felt something constantly awakening in his body. Now every cell in my body is constantly injected with power.

His breath rose, and soon he felt something coming down on his head. But soon it was directly absorbed by this treasure land, transformed into the power in the treasure land, and continued to be absorbed by Xiao Chen.

“I seem to have broken through!” Xiao Chen suddenly opened his eyes. He found that only for a while, his cultivation seemed to have a sense of breakthrough. He could even feel that a huge spiral had been produced in his Dantian at this time.

As long as he moves a little, an incomparably powerful force will be generated in the spiral thing and poured into his body.

But later, Xiao Chen found that his body seemed to be unable to bear such a force. This force was far beyond the limit he could bear. Now if he absorbed it again, his body might be burst.

Just as Xiao Chen was about to leave, suddenly two forces of yin and Yang poured into his body, integrated with the Qi of yin and Yang in the body, and then great changes took place.

Xiao Chen can even feel that the Taichu Baolu in his body has completely awakened, and after waking up, it has been dissolved by the two forces of yin and Yang. Then it turned into a strange thing.

It was slowly injected into his body.

Xiao Chen couldn't stop all this. Then he found that his flesh began to change, as if something was going to break out of his body, and all kinds of skin outside were constantly broken.

Then new skin grew continuously, but there were all kinds of marks on the skin. Take a closer look. It turned out to be a green dragon, rosefinch, Xuanwu, white tiger, and a thing that looks like a snake rather than a snake and a dragon rather than a dragon, right on the left and right arms, legs and chest of the body.

They all emitted different lights. At this time, Xiao Chen felt that his body seemed to be able to bear endless power, and no matter how much power would not be broken.

So he began to absorb the vitality around him crazily again. Soon, he felt a strong sense of disaster on his head again. This time, it was not thunder robbery, but a hot feeling, from the inside to the outside. He suddenly turned the vortex in his Dantian, and the power gushed out of it, Directly suppressed the hot feeling.

The God Of Medicine Son-in-law Chapter 470

As the blazing feeling disappeared, Xiao Chen suddenly felt a dizziness in his mind, and unconsciously fell asleep.

After a while, he found himself in a strange place, surrounded by thick fog like things, in which he could not see what it looked like. Just when he was ready to stand up, he suddenly found that he had turned into a cloud of gas, under such a scene. He seemed to blend in with all the fog around him.

“Xiao Chen, congratulations on your success in removing the seal in your body. From now on, you will keep waking up some of your original memories. Make good use of your strength to do what you know is right.”

A woman’s voice seemed to be in Xiao Chen’s ear and far away from Xiao Chen. After saying this, Xiao Chen suddenly woke up again. He found that everything around him had not changed. He still sat in the fast treasure land that Xiao Qingyuan brought him before.

But now he found that all the strange breath around him had disappeared, and the treasure land seemed to have lost its aura, and all the marks belonging to divine beasts on his body had disappeared.

He suddenly stood up and suddenly found that there was a vast breath in his body. When he moved at will, he felt that there was a powerful force constantly entering his body in his Dantian. And one’s own body can indeed accommodate strong power.

Now he doesn’t know what kind of state he is, but he can feel that he is at least dozens of times stronger than before. Now if he meets the big man in the previous dream again, he may be able to resist.

Later, Xiao Chen tried to run his Jidao divine formula, and found that the Jidao divine formula had been improved again. He has reached the third level. Now his power is more than ten times stronger than before. He can even feel his every move, run the Jidao divine formula, and even split a mountain.

Thinking like this, Xiao Chen flew up in an instant. In a short while, he had come to a hill not far away, worked his vitality and suddenly split at the hill in front of him.

“Boom!”

Great power. Split the hills directly.

“What a powerful force, but I absorbed all the energy in this treasure land. I don’t know if Grandpa will blame me.” Xiao Chen looked in the direction of the treasure land and found that the treasure land had completely lost its spirit. It looked like there was no much difference from an ordinary piece of ground.

“Don’t care so much. Go find grandpa first.” Xiao Chen murmured. With that, he flew towards the wusheng building mentioned by Xiao Qingyuan.

Less than a minute after flying out, Xiao Chen suddenly found that his speed was nearly 100 times faster than before. Originally, he flew almost 100 meters per second, but now. It has reached more than 1000 meters per second. Just one minute later, he has flown nearly 60 kilometers and directly came to the vicinity of the wusheng building.

And Xiao Chen also found that if he wanted to hide his breath now, he could almost completely converge in his body. Even if others were how to detect his breath, they could not find any vitality in his body.

This is almost equivalent to directly closing the vitality of yourself completely, and can reach such a degree. Xiao Chen could feel that he must have got some magical skill and so on.

Although all the marks of the gods and beasts attached to him had disappeared, Xiao Chen could obviously feel the smell of those gods and beasts in his body.

Each of these divine beasts seems to represent a different role. It's like that after Xiao Chen completely restrained his breath, he felt that the Xuanwu mark on his left leg seemed to be running continuously. Completely hide your vitality.

As a divine beast in charge of water system attribute, Xuanwu's power of water attribute is just to completely hide everything, making Xiao Chen look like an ordinary person now.

Came to the door of the building, Xiao Chen just ready to go in, was stopped by a security guard.

"Sorry, sir, you don't seem to be the staff here. Only staff and people with an appointment can enter it now. Please show your appointment certificate or contact the person you have made an appointment."

The security guard is quite polite, but Xiao Chen can see that the security guard still looks down on him. After all, Xiao Chen's clothes are only very casual, and Xiao Chen seldom cares about his clothes.

Hearing that the security guard said to make an appointment first, Xiao Chen frowned and said, "I'm looking for my grandfather. He should be the highest commander here. You can find someone to ask him."

"Supreme commander? Sorry, sir, we don't have any Supreme Commander here. We only have the president and chairman of the building. If you want to find someone else, please leave immediately." The security guard's tone seemed a little heavier.

"My grandfather is in this building. He should be in a very important position. I hope you can let him down to meet me. My name is Xiao Chen." Xiao Chen still kept the calm expression on his face at this time.

In fact, Xiao Chen is used to having such a security guard outside such a building. He doesn't think there is anything wrong. Now he just needs someone to prove his identity and his grandfather's identity. He also came to tell Xiao Qingyuan what he had just been in that treasure land. After that, if Xiao Qingyuan doesn't have much arrangement, Then he can leave.

At this time, a young man also came in. Looking at his dress, he knew that he was not an ordinary person, and Xiao Chen could keenly feel that the man's breath was extraordinary. He was also a monk, but his accomplishments seemed to be lower than before. According to what Xiao Qingyuan said.

The man in front of him is obviously a monk in the period of Qi refining. He may be at the same level as Nangong Lengshan, but his cultivation seems to be a little worse than Nangong Lengshan. He may be a monk who has just entered the period of Qi refining.

When the security guard saw the man, he said respectfully, "Hello, young master Huang."
