

God Of Medicine 471

The God Of Medicine Son-in-law Chapter 471

The Yellow child just nodded slightly, and then came to the side of Xiao Chen. It seemed that Xiao Chen was not very happy to stand here, so he said in a deep voice: "get out of the way."

"There's such a big road on your side. I'm just standing in a small place here. Why should I let you?" Xiao Chen looked at him suspiciously.

In fact, at the beginning, Xiao Chen had some respect for these friars here. After all, they may all be their grandfathers who unite to fight against some experts of that voodoo sect.

Although the cultivation achievement of this young master Huang is relatively low, at least he can embark on the road of cultivation. If the cultivation is low now, the cultivation will not continue to increase, and they can become a combat power in the world where Xiao Chen is now. We can fight against some monks from other worlds, defend our homes and protect some weak people.

But now the young master Huang doesn't seem to be what Xiao Chen imagined. He even has the feeling of bossing and being superior, which makes Xiao Chen reluctant to accept.

"I don't like my building. A beggar stopped in front of me. I'll give you a chance and get out of here, or I'll make you look good! Remember, it's rolling, not letting you go. If you go, I'll break your legs!"

The Yellow child's face is very cold.

"Let me go? Are you sure?" Xiao Chen was really angry at this time. He didn't expect that the young master Huang would be domineering to such a degree, so he was still ready to teach the young master Huang a lesson and let him know what it means to have a mountain outside the mountain and a day outside the sky!

"Die!" Child Huang directly moved the vitality in his body and punched Xiao Chen.

Xiao Chen didn't look either. He slowly stretched out his right hand and directly blocked the punch.

The security guard over there was gloating when he saw that childe Huang had made a move. He knew that Xiao Chen, who dressed up like a beggar, would be taught a lesson soon, but now he saw that Xiao Chen had followed childe Huang's moves at random. After that, he was stunned. He couldn't believe what he saw now was true.

"This..." the security guard didn't know what to say when he saw this scene.

At this time, childe Huang suddenly found that the Xiao Chen he faced seemed to be powerful and terrible. Because he just punched up and hit Xiao Chen's hand, but the punch was like a stone sinking into the sea, and even a drop of waves and flowers didn't stir up.

"Who are you?" The young master Huang immediately became vigilant. He didn't know when he had an additional talisman on his hand. Obviously, he wanted to report to the high-rise in the building that there might be a strong enemy coming below.

"I'm not here to fight against you. Put away your talisman. I'm here to find my grandfather. I said, my name is Xiao Chen." Xiao Chen looked at the Yellow childe faintly.

Childe Huang was stunned when he heard Xiao Chen's name, and then immediately took back his strength. "Putong" knelt down directly in front of Xiao Chen: "I'm sorry, young master Xiao Chen, I'm wrong. I don't know it's you. I just offended you. Please punish me!"

Seeing this, Xiao Chen just waved his hand and said, "well, don't tell me this. Just get up. I'm going to see my grandpa now. I have something very important to do."

"OK, I'll take you now!" Childe Huang quickly got up and said.

With that, he took Xiao Chen and prepared to enter the building.

The security guard is a little stupid. He didn't expect that Xiao Chen's identity was so noble. For a moment, the expression on his face was very complex. He didn't know whether to compliment Xiao Chen or say something to apologize, or show kindness to Xiao Chen.

However, Xiao Chen didn't care so much. He directly followed the young master Huang and went in.

"Hello, young master Xiao Chen. My name is Huang Tao. I'm a small supervisor in this building. I'm just beginning to practice now. I still need your guidance in the future."

Huang Tao said to Xiao Chen as he walked.

"Yes." Xiao Chen's face didn't change much. Just observing everything in the building, he found a strange phenomenon when he went up to it. All the employees in it. Except for the security guard who guarded the door, they were all monks.

And it seems that different positions are divided according to different accomplishments, so as to build the foundation. It seems that there are some managers here, and the higher you go, the higher your accomplishments.

Moreover, what they do every day is different from that of other companies. Unexpectedly, they are all arranging their people to look for some miraculous drugs or treasures. After they get something, some of them will stay in their own hands, and the other part will be handed over to the company.

There are various systems within the company, which can be rewarded according to the performance of some employees. The content of the reward is also some elixirs, powerful skills obtained from treasures, or powerful magic weapons.

However, if someone else investigates the company, it is difficult to find out what the company is actually doing, so it can be said to be quite hidden.

When he came to the top, Xiao Chen immediately felt that several strong smells appeared in the leak. It also includes the breath of his grandfather Xiao Qingyuan.

"Young master Xiao Chen, this is not accessible to low-level employees like me. I can only send you here now." Huang Tao then stayed in the elevator and stopped following Xiao Chen down.

Xiao Chen nodded at him, and then found that the elevator didn't run with electricity, but with vitality.

This can be regarded as a fairy company.

Into this layer. Xiao Chen suddenly felt that the breath in the surrounding rooms was very unusual. At a glance, he knew it was not an ordinary room. Xiao Chen even felt the general breath of thunder robbery from a room.

“Who?” There suddenly came a voice, quite powerful. Obviously, an expert noticed that Xiao Chen now came to the highest level.

At this time, Xiao Chen no longer hid his cultivation and directly released all his strength.

Suddenly, a surprised voice came out of a room. Then Xiao Chen saw six powerful breath, flew directly to his side and surrounded him directly in the center. Xiao Qingyuan was also one of the six people. Now he is also looking at Xiao Chen.

The God Of Medicine Son-in-law Chapter 472

Xiao Qingyuan had recognized Xiao Chen at this time, but he didn't speak. It seemed that he was also observing Xiao Chen's accomplishments. There was a look of approval in his eyes, but then he was surprised. He stroked his beard and asked:

“My good grandson. Did you just absorb all the breath in that treasure land?”

“Exactly.” Xiao Chen nodded.

“Can you directly absorb all the breath in the treasure land? What is the degree of cultivation? Even if I was there at the beginning, I felt that I could only absorb less than one thousandth or even one thousandth of the breath, but you absorbed all of it?”

A friar on the edge shocked the tunnel.

“No, it’s all absorbed. Is this... Is this still human? Even a monk in the valley opening period can’t absorb all of it, and aren’t those smells exclusive to us? What kind of existence are you...?”

Another monk was also quite shocked at this time.

But now Xiao Chen feels a little strange to see these people in suits discussing this matter.

“Well, I’ll go first now. It’s not a place to talk outside.” Xiao Qingyuan said and walked into the room again.

Several other monks followed into the room.

Xiao Chen also followed in.

Just after entering, Xiao Chen heard that Xiao Qingyuan was a little excited and said, “I didn’t expect it to really exist. Now we have hope to defeat each other!”

Hearing this, Xiao Chen was stunned. Then he looked at Xiao Qing and said, “Grandpa, what are you talking about?”

“Xiao Chen, you have succeeded. You have absorbed all the breath in the treasure land. Your cultivation has exceeded our six old guys and reached the valley opening period. Now you are our leader!” Xiao Qingyuan blushed.

“Ah?” Xiao Chen was stunned. He didn’t know that he had directly broken through to the realm of opening up the valley.

“I didn’t expect that the genius in our world should be in our Xia state. It’s saved, it’s indeed saved.” Another monk smiled and said.

“Am I really strong now?” Xiao Chen was a little confused at this time. Although his strength increased a lot, he still didn’t have much confidence in his heart. After all, he had seen his grandfather’s means before.

And now he doesn’t know the means of the other party’s big man. If the other party’s is stronger than him. Isn’t there no hope but despair?

“Your strength is hard to describe in words. Come with me!” Xiao Qingyuan said and waved his hand. Now Xiao Chen felt that his whole body flew up and directly followed Xiao Qingyuan into another room.

It was the room where he felt the thunder earlier.

“This is a room that I have gathered all the forces scattered by the monks’ thunder robbery for so many years. This room is actually a small special space. You can’t feel the situation inside outside unless you have reached a certain degree of cultivation.”

“Now you go up and try it. Enter it and try your own cultivation. Each thunder robbery represents a thunder robbery you will experience when you break through.”

As Xiao Qingyuan said this, he became energetic. Directly pushed Xiao Chen into it.

At this time, all the other five monks entered the room and began to observe Xiao Chen’s situation.

Xiao Chen was pushed into the center of the thunder and lightning, and immediately felt the force of thunder and lightning attacking his head, which was like the force of thunder and lightning he had experienced for the first time before.

But now the power of thunder and lightning is just so in Xiao Chen’s view, and there is no sense of fear.

Seeing the thunder and lightning coming, Xiao Chen directly stretched out his hand to run the Jidao divine formula. The totem of the green dragon in his hand suddenly appeared, and the power of lightning was directly dispersed with a direct punch.

It was a fist that dissolved the power of lightning. All the onlookers were shocked. They completely didn't expect that Xiao Chen was so strong now. Although this is only a heavy thunderstorm.

But it is also a thunder robbery after all. Ordinary monks are all flesh and blood and human bodies. No monk can shake Tianlei. Even if there is someone who can fight against Tianlei, it also needs the blessing of some other things.

And now Xiao Chen is a simple punch to break up the sky thunder directly. What kind of degree is this. They can't imagine, and now they observe so closely that they can see that there are no scars on Xiao Chen.

Even if ordinary people are hit by some ordinary electric shock, they may suffer some injuries and leave some traces on their hands. Even if you don't get hurt, the mark will still be left. After all, it's thunder robbery, not fun.

But now there was no trace on Xiao Chen's hand, which shocked all the experts who observed.

However, if they knew how Xiao Chen felt now, it would be more unbelievable, because Xiao Chen found that he had completely absorbed the power of the thunder robbery through a period of feeling.

Different from the first absorption, he felt that the power of thunder robbery in his hand was completely absorbed into his body and became the power in his body. In other words, when he moved his strength and waved his right hand, the power of thunder might be hit out.

And Xiao Chen also found that the green dragon totem on his left arm seemed to have a trace of life after absorbing the power of lightning, but it was slowly revived on his arm.

"Boom!"

As Xiao Chen's feeling spread all over his body, the second lightning fell down again, but Xiao Chen still raised his left arm and punched it out, which once again scattered the lightning in the air that day. Then Xiao Chen felt that the green dragon on his left arm seemed to have more vitality.

However, the vitality that these lightning can give it is quite limited. We don't know what degree of lightning we want to reach until it is completely resurrected.

At this time, the six people outside were stunned again. This was the thunder robbery during the Kaiyuan period, which was smashed by Xiao Chen again? There were several monks in Kaiyuan period. Except Xiao Qingyuan and another monk who didn't look too old, the accomplishments of others were in Kaiyuan period.

The God Of Medicine Son-in-law Chapter 473

The monks present are observing Xiao Chen as a passer-by. They have also experienced the thunder robbery in the Kaiyuan period. The terror of the thunder robbery is indescribable. They deeply know that as a person, it is impossible to resist such thunder and lightning. Even if their accomplishments are so high.

But I was still a little afraid of the scene of crossing the robbery.

"How can this be possible? Chairman Xiao Qingyuan, who is your grandson? How can he be so powerful? I can't understand it. He can break up all the thunder robberies in the Kaiyuan period directly. Even chairman Xiao Qingyuan and vice president Xu Chuo can't do it?"

Next to him, the oldest looking monk spoke, and his language was full of miracles. He couldn't believe that what he saw really happened in front of his eyes. Xiao Chen was able to directly break up the thunder robbery in the Kaiyuan period. What kind of strength is this?

"Well, even I can't do that." The young monk Tao, who is also in the valley opening period, is close to Xiao Qingyuan's breath. He should be the vice president Xu Chuo mentioned by the two old monks.

"I can't do it." Xiao Qingyuan's eyes were full of shock at this time. After all, he didn't know much about Xiao Chen's strength, but through previous contact, he also knew that his grandson's strength was not particularly strong, although for ordinary people. Xiao Chen is already very powerful, but for these friars, Xiao Chen was actually quite general before.

Because in this building, many employees' accomplishments are in the foundation period, and even many are senior monks in the foundation period, so they were discussing at the beginning. Many things don't include Xiao Chen, but now I see, where is the foundation period of Xiao Chen's strength? Even in the period of opening the valley, it is estimated that it is not as powerful as him? According to his current state, it is estimated that his ability should be able to catch up with the monks in the golden elixir period.

"Do you want to come again? This is the thunder robbery during the valley opening period." Xiao Qingyuan was afraid to launch the third thunder robbery at this time. After all, it was the thunder robbery in the valley opening period, which was left by him and Xu Chuo when they were promoted. Even the two monks in the valley opening period didn't want to try the disaster again.

"Come on, I can do it." Xiao Chen nodded to his grandfather Xiao Qingyuan.

Just after the thunder robbery was input into his body, Xiao Chen felt that the green dragon on his left arm woke up again, although maybe the thunder robbery was only a drop in the bucket. But now Xiao Chen seems to be able to see what is hidden in the green dragon totem on his left arm. Now it still looks quite vague. If you want to be completely clear, it is estimated that you need more baptism of thunder and absorb the power of thunder to stimulate it.

"Then I'll start the third thunder robbery. Be careful. It's better than the previous two. I don't know how many times." Xiao Qingyuan reminded.

"OK, no problem. Trust me, Grandpa." Xiao Chen nodded. His face was full of self-confidence. It was obvious that he was well prepared. He had no fear of the next thunder robbery, but more like a feeling of eager to try.

"Boom!" Xiao Qingyuan launched the third thunder robbery, and the huge force of thunder directly landed on Xiao Chen's head.

The color of this thunder robbery has changed. The previous thunder robbery is similar to the general sky thunder, that is, thunder and lightning, and this thunder robbery even contains purple sparks. Obviously, because the power of lightning is too fierce, it directly produces some strange scenes.

At this time, Xiao Chen also felt the power of the thunder robbery on his head, which can be said to be quite powerful.

However, he still raised his left hand, and the thunder and electric shock hit his left hand. In an instant, it was completely absorbed by the green dragon totem. In the eyes of people outside, Xiao Chen broke up the thunder robbery with another punch. The power of the whole thunder robbery instantly entered Xiao Chen's left arm. Xiao Chen immediately felt something flying out of his left arm, and then directly penetrated into his mind.

Then he saw a little green dragon wandering in his mind. After a while, the little green dragon suddenly burst into a strong brilliance, and then turned into a few lines of words.

“Green dragon Sutra? Dragon God spear, dragon power armor, Dragon Emperor's wing!”

Xiao Chen immediately felt that many skills had been injected into his body. Suddenly, he could observe that there were many small particles in his body. When he looked carefully, those particles were small green dragons, which were composed of the power of lightning.

Xiao Chen Ran the vitality in his body to touch one of them. In an instant, the particle seemed to be activated and directly absorbed more than half of the vitality in the Dantian.

Then Xiao Chen felt that he was instantly filled with the power of thunder, which was at least twice as powerful as before.

As he became stronger, the skill of the Dragon God spear was thoroughly condensed in his mind. Now Xiao Chen can directly refine a dragon god spear as long as he moves at will and operates the power of the green dragon in his body. The power is unmatched.

“What a strong breath! What is it? It's the breath of thunder. Has he absorbed all the power of thunder?” Another friar on the side was surprised again.

At this time, Xiao Chen has completely come out of the thunder robbery space. The power of thunder robbery has just been completely absorbed by him. Now he is really a little different. He has the smell of lightning and is quite powerful.

“Xiao Chen, how do you feel now?” Xiao Qingyuan asked aside.

“Feeling? Very good. My strength has been greatly improved.” Then he looked at the people in front of him and asked, “Grandpa, are they trustworthy people?”

After hearing this, Xiao Qingyuan was stunned, then nodded and said, “don’t worry. They are all experts I make friends with and people who are ready to protect our planet together.”

“That’s good. I’ll show you something.” Xiao Chen said and turned the power of the green dragon in his body. A spear with thunder breath was condensed into an entity in his hand. It was the Dragon God spear.

The God Of Medicine Son-in-law Chapter 474

“This is... Rejuvenation? Isn’t this the ability you have after reaching the golden elixir? You just have this ability in Kaiyuan realm now?” Xu Chuo was surprised. Then he looked at the spear in Xiao Chen’s hand, and there was a shocked expression on his face.

Because of the smell emitted from the spear, even he felt very dangerous. It might be the feeling that he would be killed directly if he was careless.

Except Xiao Qingyuan. After seeing the Dragon God spear, other monks in Kaiyuan territory all stepped back. It seems that if the distance is too close, they will be completely crushed by the spear. My heart was trembling.

“This is a skill I just learned. It’s called Qinglong Jue. It’s the weapon I refined with this skill. Of course, it’s also the first priority of the skill.” Xiao Chen explained.

“Qinglong Jue? Is it such a powerful skill? What kind of grade will this skill be?” Xu Chuo was still surprised at this time. It is estimated that the people present can only describe it with shock and surprise. It is really too shocking.

“Xiao Chen, let’s have a competition now.” Xiao Qingyuan suddenly said.

“Competition?” Xiao Chen was stunned, but nodded a little: “well, I hope grandpa can give me more advice.”

“All right, let’s do it!” Xiao Qingyuan’s whole person was full of momentum for a while, and his body immediately showed four different breath.

“My skill is called the four seasons formula. It can change the four seasons. Now it has reached the fourth level of cultivation. It can evolve the four seasons in one move. It’s powerful. You should be careful!”

While talking, Xiao Qingyuan’s figure had already begun to move, and instantly turned into the breath of the four seasons. He bombarded Xiao Chen mercilessly. It seemed that he was not prepared to leave any way for Xiao Chen.

However, the reason why Xiao Qingyuan came out so directly was that he felt that Xiao Chen’s Dragon God spear was quite powerful. Even if he did his best, maybe Xiao Chen could break his moves in an instant.

“Come on!” Xiao Chen laughed. Then the Dragon God spear in his hand waved in an instant and hit it. It directly collided with his grandfather Xiao Qingyuan’s vitality of the four seasons, and the power instantly spread to everyone in the whole room.

However, both of them completely restrained their vitality. Therefore, although it has affected the people around, the scope of the impact is not large, and no one feels any discomfort. It’s just that he has just been gently pushed by someone.

Let’s have a fight. Xiao Qingyuan immediately felt that the power contained in Xiao Chen’s spear was quite large, and there was also the power of thunder. That day, the power of thunder was like a sharp knife and directly entered his body. He was constantly walking, making him feel that his vitality could not work.

“Come again!” At this time, Xiao Chen seemed to feel that his ability had been greatly improved, and the whole person was very excited. Once again, a spear came out, while Xiao Qingyuan could only reluctantly run the vitality in his body to resist. But under the collision, Xiao Qingyuan was shocked and flew out.

The monks behind him also worked together to stop him. Fell to the ground.

“Grandpa, I’m sorry, I hit too hard.” At this time, Xiao Chen realized that he had just started something too heavy.

“It doesn’t matter. It’s a good thing.” Xiao Qingyuan coughed softly twice.

Xiao Chen hurriedly flew over, came to Xiao Qingyuan’s body and injected a breath into his body. At this time, the rosefinch totem and Xuanwu totem on his body appeared at the same time. In an instant, two water and fire forces entered Xiao Qingyuan’s body.

Xiao Qingyuan felt his body recover in an instant. Not only did he recover, but it seemed that because the two water and fire forces were integrated into his body, his cultivation showed signs of breaking through.

“What power is this? It’s amazing!” Xiao Qingyuan sighed. Then his strength surged out, and then I saw that he was promoted on the spot, directly from the second floor to the fourth floor.

And this is just the power of a trace of water and fire in Xiao Chen’s body. If Xiao Chen had just poured all into his body, what degree would he rise to? I can’t imagine.

“What kind of power is this? It has increased so much in an instant?” The other monks nearby were shocked.

“Yes, what kind of power is this? It has been promoted for two periods at once, and it is still in the period of opening up the valley! Boy... No, director Xiao Chen, please give me some!” Xu Chuo on the side.

“Yes, give us some!” Others are also begging.

“OK, I’ll give you a trace of each one!” Xiao Chen was also quite generous at this time. He directly played several water and fire forces and injected them into these people’s bodies.

Then I saw that the cultivation accomplishments of the people present were instantly improved by several grades. Xu Chuo in the period of opening valley was suddenly improved to the cultivation accomplishments of the third floor of opening Valley, and those in the other Kaiyuan period were unified and improved by four small levels.

One of them directly reached the level of the ninth floor of Kaiyuan territory, only one step away from the robbery and stepped into the valley opening territory.

“How strong! What a strong breath! If I can get such breath moisture every day, how strong will my cultivation be?” Xu Chuo sighed.

“Xiao Chen, your breath is so powerful. Don’t you need to consume essence or life source? If you want to consume these things, don’t use them to improve our cultivation.” Xiao Qing traveled a long way.

“Grandpa, you can rest assured that these of mine are generated through the previous accumulation of lightning power, but everyone can only use this power every day, and the later the effect will be worse. According to the current situation, it is still no problem to help you improve to the golden elixir period these days.” Xiao Chen smiled and said.

“Golden elixir period!” Everyone stood up in shock. It can be said that it was their dream. Now it can be realized so easily?

“Really don’t need to consume anything else?” Xiao Qingyuan asked curiously.

“I really don’t need it. Don’t worry. I’ll practice here these days to help you improve your accomplishments. I’ll also improve my accomplishments.” Xiao Chen still kept a smile on her face.

“Good! Director Xiao Chen, although you are practicing here, we won’t let anyone disturb you!” All the monks said one after another.

The God Of Medicine Son-in-law Chapter 475

“OK, then practice well!” Xiao Qingyuan also nodded. He didn’t expect his grandson to be so strong, and he got such a skill, which can not only make himself strong, but also make his companions stronger. It’s too rebellious.

But this is really a good thing for them. At least now they don’t have to worry about how to deal with the invasion of the voodoo gate. After that, all six of them reached the golden elixir period. No matter how many experts the voodoo sect sends out, they are all killed.

At that time, there should be no other problems to protect their own world. As for the future, we must wait until later to plot.

In the following time, Xiao Chen practiced in this building. After a week, Xiao Chen’s cultivation reached the peak of Kaiyuan realm, that is, the ninth floor. It is only a little short of entering the valley opening period.

However, Xiao Chen still suppresses his cultivation, because he can feel that the next disaster is not so easy to get through, and he must be fully prepared.

Now he has condensed the dragon power armor, which can’t be penetrated even by the monk attack in the golden elixir period. He can be said to be an invincible existence.

But even so, Xiao Chen can still feel that the power of the next thunder robbery is much greater than he imagined. Not only his Longwei armor can resist, but also he needs to refine more things.

During this period of time, through the continuous communication of vitality in his body, he found that his Jidao magic formula seemed to be able to transform the power of the five totems on his body into each other, and after he transformed part of the power of Green Dragon into the power of Xuanwu, he found that his whole body began to become very condensed, and even now his body is steel and iron, Without using any vitality, the general Kaiyuan friars may not be able to cause any damage to him.

However, Xiao Chen could still feel that this was not the limit, and there was room to improve his Xuanwu power. Therefore, during this period of time, he should continue to transform the power in his body to make his body directly reach the same level as the Longwei armor. In this way, he will have the confidence to go through the next thunder robbery.

At this time, the previous six monks, including Xiao Qingyuan, all came to the edge of the golden elixir period with the help of Xiao Chen. They all went to find a suitable place to cross the robbery, as long as they came back. There will be six more masters of the golden elixir period on the whole wusheng building, and Xiao Qingyuan's plan will be implemented.

At the same time, in the Hua family on the other side, Hua xuwan and Hua Qiye are discussing something at this time.

"Dad, in fact, I think we'd better not let Xiao Chen intervene in this matter now. In fact, he has other tasks to do when he comes to our house. We're actually delaying his affairs now. We'd better find the real murderer behind the scenes by ourselves."

Hua xuwan road.

"Well, in fact, I always agree with this. But I don't know how to talk to Xiao Chen. This child has a heavy sense of responsibility." Hua Qiye nodded.

"Let me tell you. This time I will make him give up the idea of helping us." Hua xuwan said and was ready to take out his mobile phone.

At this time, a sad voice suddenly came out: "you don't have to say, you don't have to say, after tonight. You are dead!"

While talking, a dark wind came. Huaqiye quickly blocked huaxuwan and said, "xuwan, you go first! I'll hold him and let Xiao Chen come quickly!"

But at the moment he spoke, a dark man suddenly appeared behind them. He was wearing two sharp claws on his hands and was about to puncture their bodies.

Then, just as he was about to stab his sharp claws into the body of Hua Xuwan and Hua Qiye, a huge force suddenly burst out in front of him. He flew the whole person out for hundreds of meters and pierced the roof directly.

“What is this? Is it a golden elixir?” The dark man immediately felt a burst of pressure and was ready to run away with the vitality in his body.

“Want to escape? Have you asked about the spear in my hand?” Xiao Chen drank coldly. In an instant, he directly pierced the dark man’s body with his spear.

At the moment of penetration, Xiao Chen felt that some things on the man seemed to be absorbed into the Dragon God spear.

After taking back the spear, Xiao Chen felt that the vitality in his body had increased. Then the third green dragon in his body also woke up in his stomach, and at this time, he directly triggered his Valley opening disaster.

In the sky, a large area of dark clouds gathered together. Xiao Chen could clearly feel that the breath of thunder robbery was enough to devour him completely.

“Boom!” The first thunder fell, which was many times stronger than the thunder disaster in the valley opening period that Xiao Chen had experienced on the Wusheng building. Although the essence of thunder and lightning had not changed, the power and size of thunder and lightning were at least ten times greater than the previous one.

Directly, Xiao Chen can be shrouded in it. His power is unmatched!

However, Xiao Chen was still not afraid and directly raised his left arm. In an instant, the power of lightning was completely absorbed again. The totem of the green dragon on Xiao Chen’s left arm became more real. It was obviously full of energy by lightning. The green dragon seemed to have a feeling that it was about to wake up.

At this time, the second thunder robbery came. This thunder robbery was not so much a thunder robbery as an attack formed by heaven and earth. Thunder and lightning directly turned into an arrow to pierce Xiao Chen's body directly and fall directly from above. It was so fast that it was almost not ready to give Xiao Chen a chance to react.

"Longwei armor!" Xiao Chen was not flustered at this time. He shouted directly, and the blue armor with dragon power appeared, which directly protected his whole body.

Then he took out the Dragon God spear and fought directly with the arrow.

After the impact, there was a huge vitality fluctuation, which directly shocked Xiao Chen out. Not long after, Xiao Chen stabilized his body shape, and there was a crack on his Longwei armor at this time.

The God Of Medicine Son-in-law Chapter 476

However, there was only a crack, which did not cause any damage to Xiao Chen, and his Longwei armor will be repaired continuously, as long as he has enough vitality.

So now Xiao Chen is almost no different from his heyday. After a while, his Longwei armor was repaired. Then he condensed his Dragon God spear. Because he felt that the dark clouds in his mouth had not dispersed, he knew at a glance that a third thunderstorm was coming.

Sure enough, the dark clouds were extremely violent, and the great power of thunder was accumulated in them. After a while, it turned into a huge ball of lightning. It turned out to be a ball of lightning similar to the previous one experienced by Xiao Chen, but the power contained in the thunder has exceeded the limit that ordinary people can bear. Even now Xiao Chen can feel the kind of pressure.

It was not a thunder robbery. It could even be said that someone was manipulating the thunder robbery and directly formed a spherical cutting form of lightning, which directly wanted to completely cut Xiao Chen's body. At this time, the spherical thunder robbery had entered a state of extremely high-speed rotation, which was almost unstoppable.

Any object can be completely cut open, even if Xiao Chen now has Longwei armor and body protection. In addition, he has cultivated the power of Xuanwu and condensed his body to a certain extent. However, there is still no chance of survival after the thunderstorm.

The thunder robbery has been strong enough that Xiao Chen can't resist it now, and Xiao Chen can't escape now, because it has locked Xiao Chen's breath. Unless Xiao Chen disappears directly in the world, it's impossible to escape the thunder power of the other party.

Now Xiao Chen can be said to have no retreat. There is no way to continue to escape the punishment of thunder robbery. This is the punishment between heaven and earth. It seems that the heaven and earth that has represented this piece can no longer accommodate Xiao Chen. He must be completely eliminated from this heaven and earth.

This is the natural will of heaven and earth, which can not be resisted by a person or a friar. Any friar or person in front of it can only accept his life and let it kill himself without any chance to fight back.

But Xiao Chen won't give up because he knows he can't die here anyway. After getting these five totems, Xiao Chen has felt that he has a greater mission to complete in the future. If he is directly destroyed in this thunder robbery, he will not be able to complete his mission in the future.

So now he is doing his best to fight against Tianlei. Although he doesn't know the effect, he still wants to try, because if he doesn't try, he may not even have that chance.

As the saying goes, there is always a chance between life and death. As long as he gets this chance, Xiao Chen may be able to survive under such circumstances. So as to change life against the sky and obtain the power of rebirth.

"Zizi!" The rapidly rotating thunder robbing thunder ball flew directly to Xiao Chen's side. Xiao Chen immediately felt that his body seemed to be completely cut and completely melted in the light ball.

But he is still struggling to resist. His own Longwei armor has been condensed to the extreme, and the Xuanwu power in his body constantly offsets the power of the rotating thunder ball.

But even so, Xiao Chen could obviously feel that he would still be completely melted in the lightning ball. It seemed that everything was over.

At the same time, Xiao Qingyuan, who was preparing to cross the robbery on a high mountain, suddenly felt a burst of uneasiness in his heart. He suddenly opened his eyes, looked at the current position of Xiao Chen, and murmured:

“Xiao Chen, what’s wrong with you? Now your cultivation has reached the highest peak in almost the whole world. Unless it’s a natural disaster, no one should be able to get you. Are you really going through the disaster now?”

Say. There was a very dignified look in Xiao Qingyuan’s eyes. If it was really like what he thought, Xiao Chen might be experiencing a natural disaster he had never seen before.

However, even if it is true, Xiao Qingyuan knows that he can’t do anything else at this time. He can only silently pray that his grandson won’t have too many accidents.

After all, the key to the survival of the whole world and the whole planet lies in Xiao Chen. Only Xiao Chen or, the world will have hope. Now maybe there is only a voodoo sect, but in the future, some other powerful organizations or sects may continue to invade.

Now I don’t know which world has been opened. If the experts continue to come to the world where they live, without the support of Xiao Chen, just relying on their old men is certainly not enough to protect their area.

The master of the golden elixir can be said to be the top master in the world where Xiao Qingyuan and Xiao Chen live now, but in some other worlds, it may not be anything. Even in other worlds, there may be those Yuanying and even the friars of Dujie and Mahayana on the golden elixir.

Even Xiao Qingyuan can only look up to such friars, because such friars can directly capture friars Jindan almost with a wave of hands. Even a friar in her infancy may be able to clean them up directly, not to mention other friars above.

On the other side, the East China Sea, Wu Yaqing has returned to his old business and is running his own hospital. His business is still quite good. After all, there are some prescriptions left by Xiao Chen.

But today she seemed a little particularly upset. She didn't know what had happened. She also called back and asked about her family. She found that there was nothing wrong at home. Everything seemed to be going on normally.

But she just had a feeling that she was going to lose something important.

Then she looked at the sky and suddenly remembered the man who had saved the whole people of the East China Sea. Her only man is now uncertain. She never thought Xiao Chen was really dead. She thought Xiao Chen must still be alive, but she didn't come to see her for some reasons.

So she has always had an expectation.

The God Of Medicine Son-in-law Chapter 477

Looking forward to Xiao Chen's reappearance in front of his hospital one day, with a smile and calm face, he gently said to her, "I'm back!"

This is the day Wu Yaqing has been looking forward to. Although she is not sure whether this day will really come, in her heart, this day will indeed come. Once this day comes, everything will have a new beginning. Everything will make her feel like she's new.

But now the feeling in her heart made her start to worry. If Xiao Chen didn't die, he must be in trouble now. And the trouble should be quite serious, because if it weren't so serious, she wouldn't feel like this.

If so, she doesn't want Xiao Chen to encounter any trouble, but now she has nothing to do. She can only keep praying in her heart that her lover won't have any accidents. Can always live in the world.

At this time, ah Ling, who was far away on the other side of the ocean, suddenly felt her heartbeat. It seemed that something particularly important was going to happen. Then she looked at the sky and

asked silently, “brother Xiao Chen, is that you? Where are you now? You must not be able to do anything.”

Just above Kyoto, many people in Kyoto can see that a huge thunder ball is wrapped in a small human shape. It seems that someone has been threatened by thunder robbery, but everyone doesn't know who it is.

And the Hua xuwan and Hua Qiye, who saw with their own eyes that the thunder robbed Xiao Chen completely, were also praying silently, hoping that Xiao Chen could successfully survive the disaster.

Not far away, there was also a man in a black robe. His eyes were fixed on Xiao Chen in the thunder ball, He was also constantly saying: “this man directly caused the rejection of heaven and earth when he was promoted to the valley opening period. He wanted to completely destroy him by robbing the power ball with the supreme thunder. What degree has his cultivation reached? Has the heaven couldn't tolerate him?”

“My life is mine, not heaven!” Xiao Chen roared into the sky, suddenly. He felt that the rosefinch totem on his right arm suddenly flew out of his hand, and one of the hot forces was refining the power of thunder robbery.

Then the power of thunder was absorbed by the green dragon in his left arm and entered the body. In the Dantian, the green dragon particles were waking up. The fourth and fifth particles didn't stop until the eighth and a half.

At this time, the power of thunder has completely disappeared, and Xiao Chen's body has been repaired under the power of the rosefinch totem. Originally, his body was about to be cut in half by the ball of thunder. But now, it has been restored intact.

Then, the rosefinch totem entered Xiao Chen's body and was still attached to his right arm. Now Xiao Chen felt at will and found that his rosefinch power seemed to be a little stronger. It seemed that he could help his grandfather to improve the accomplishments of other monks with higher accomplishments.

Feeling all this, Xiao Chen felt a burst of joy in his heart. Then he fell on the roof of the Hua family, and then he found out again. There seems to be something awakening in your body.

It was a big melting pot, which appeared directly in the depths of his Dantian.

“The furnace of the Dragon Emperor!” Such a word flashed through Xiao Chen’s heart, and then it seemed that a small Green Dragon flew up in his brain, forming three groups of words directly in his mind.

They are: the furnace of the Dragon Emperor, the seal of the Heavenly Dragon and the land of the holy dragon!

The furnace of the Dragon Emperor has just awakened. Xiao Chen can feel that if he sacrifices this furnace during the battle. You can even completely suppress and refine your enemy, and transfer all his vitality skills into your own body for your own use.

That day, the Dragon seal is more powerful. After a move is played, you can directly seal all the yuan qigong methods of the other party, and cooperate with your own dragon emperor furnace.

The final holy dragon realm is unimaginable to him. It needs quite strong cultivation to start. Once it is started, the world will change color. With the sun and moon shining, the whole heaven and earth will be directly transformed into a holy dragon, and everyone should completely surrender under the majesty of the holy dragon.

But now it’s still too far away for Xiao Chen. He now has the furnace of the Dragon Emperor. If he tries to evolve the Dragon Seal, he can almost say that he doesn’t have to worry against any enemy. But now he is also quite strong.

There is the strongest attack, the Dragon God spear, the strongest defense, the dragon power armor, and the fastest speed, the wing of the Dragon Emperor. Now there is another Dragon Emperor furnace, which produces endless power in the battle. It can almost be said that the step-by-step challenge is as simple as eating and drinking water.

Now he has only the cultivation during the valley opening period, but even a golden elixir or even Yuanying can’t be his opponent, as long as he plays his own killing move in an instant. The other party estimates that if they don’t even have time for reaction, they will be directly refined.

Feeling his strength, Xiao Chen's inner self-confidence surged up. Now he even felt that if he had a just spherical thunder robbery, he could directly sacrifice his Dragon Emperor's furnace. Directly refine the power of thunder robbery.

Just when he felt satisfied, suddenly, a figure with a strange smell fell on the roof of Washington, and he was actually another killer. However, his cultivation was higher. He had reached the golden elixir period, and he was the superior master in the golden elixir period, the friar on the seventh floor of the golden elixir.

"Boy, although I don't know what kind of treasure you got and can resist such a disaster, you must be extremely weak now. I'll take advantage of your illness and kill you now!" The golden pill friar roared and clapped countless palms on his hands.

Each palm contains endless power, and there is also a very powerful poisonous fog, which is almost the kind that ordinary monks will die if they touch it.

"Come on, just in time. Then try my new skill! Dragon Emperor's furnace, come out!" When Xiao Chen saw the friar Jindan, his face immediately showed a look of joy.

Now he is not in a weak state just after the robbery. On the contrary, he is quite abundant now.

The God Of Medicine Son-in-law Chapter 478

"Hoo Hoo ~"

A huge furnace with the power of the Dragon Emperor appeared in front of Xiao Chen in an instant, directly blocking the attack of the Jindan friar, and then the vitality and poison gas were thoroughly refined and transformed into a trace of power and injected into Xiao Chen's body.

"Ha ha! Well, the breath of the golden pill friar is really strong!" Xiao Chen felt that this force was injected into his body and couldn't help laughing.

The friar Jindan was stunned when he saw this scene. He didn't expect that Xiao Chen had such a strong skill that he directly turned his attack and poison gas into strength and absorbed it.

And above the furnace. The pressure of the Dragon Emperor was conveyed one by one, which made him begin to retreat in his heart.

But he is not easy to mess with. Monks who can reach the golden elixir period have great perseverance and wisdom, and their palms change several times in an instant. A green giant condensed behind him.

"This is my killing move, poison refining man. I'll see if you can resist under my poison refining man!" While the friar Jindan spoke, the huge green poison man behind him began to attack.

Although its size is huge, its action is quite rapid. In an instant, its huge palm slapped directly over, and it seems that it is going to slap Xiao Chen to death.

At this time, Xiao Chen also felt that the poison refining man was really extraordinary, and the poison gas contained in him was unbearable even if he was infected with a trace, but he was already very different from before.

The dragon's armor, the Dragon God's spear and the Dragon Emperor's wing appeared on him instantly. Xiao Chen directly escaped the attack of the poison refining man like a lightning bolt

"This speed. This is the speed that friar Yuanying can't possibly achieve!" Seeing that Xiao Chen's speed was so fast, the friar Jindan immediately became a little afraid.

However, Xiao Chen certainly won't give him any chance. Although the Jindan friar has refined a hundred refining poison man, after all, he hasn't been wrapped by the hundred refining poison man. Xiao Chen's goal now is to kill the Jindan friar directly.

The Jindan friar also felt that Xiao Chen's goal was himself, not the man who refined poison. So he immediately ran his vitality again. In an instant, in his whole body, strands of green poison completely wrapped him up.

“Voodoo gas mask! This is one of the five unique skills of our voodoo sect. Even friar Jindan can’t break through my gas mask, and there is strong poison on it. As long as your vitality is contaminated with this strong poison, your meridians will be filled with poison gas and finally turn into thick water!

The Jindan friar smiled confidently and said, “I don’t think you dare to deal with me!”

While talking, the man behind him acted again. Directly from his mouth, he spewed out a poisonous gas like a Changhong and went straight to Xiao Chen.

Xiao Chen evaded at will, and then the Dragon God spear pierced out directly. In an instant, he had come to the friar Jindan.

“Hahaha! You can’t kill me!” The friar Jindan laughed.

But the next second, his laughter stopped suddenly, because Xiao Chen’s Dragon God spear pierced his eyebrows directly. He was like a kite with a broken string and fell to the ground.

“The furnace of the Dragon Emperor!” Xiao Chen killed him with one move. Without hesitation, he directly sacrificed the furnace of the Dragon Emperor again. In the Dan Tian of the golden Dan monk, at this time, a small bead with green and shining light came out, which was the essence of his lifelong training.

“Good boy, your ability has reached such a level! I must return to the sect and report to our sect leader and elders, and let them work together to suppress you, refine and obtain your skill!” There was someone talking in the golden elixir.

However, Xiao Chen knew this for a long time. Because the Jindan friar has condensed his soul into the Jindan, so as long as the Jindan Friar’s Jindan is still there, he can stay and reincarnate and practice again. Then pursue immortality again.

Therefore, it can be said that for friars, the golden elixir is a watershed. If they are killed before the golden elixir, they will die. But after the golden elixir, as long as the golden elixir is still there, they can continue to find the next body for cultivation.

This is the huge gap, which is why many monks have to work hard to cultivate the golden elixir.

Friar Jindan has a life of nearly 400 years, and can reincarnate again with the help of other bodies at the time of death. In the magic door, there will be some supreme evil cults to find some people with strong physique between heaven and earth, seize his body, and then practice again, so as to break through to a higher level.

This is also equivalent to taking a shortcut, so in fact, there are many people in the world where immortality is popular. Originally, the speed of cultivating magic skills is quite fast, and they can change their physique with all kinds of strange skills and methods to get the best physique and then practice. That feeling is pursued by almost every monk.

So now there is also his soul clamoring in the golden elixir of the golden elixir friar. In fact, it is to find a way to get the body of Xiao Chen, so that it can directly reach the level of Xiao Chen. Then it can be said that it is almost invincible in the world where their voodoo gate is located.

Unfortunately, he didn't know Xiao Chen's means. In the process of his golden elixir flying out at high speed, a huge dragon power came out in an instant and was suppressed directly from the top of his golden elixir.

Before the alchemy friar reacted, the huge dragon emperor furnace completely suppressed his alchemy and refined it.

"No! It's impossible! You're just a monk who just entered the valley opening period. How can you reach this level? I'm not willing! I'm not willing!" The soul of the friar Jindan roared madly in it.

But then, Xiao Chen suddenly felt a strange force coming from the totem of the white tiger on his left leg. Then he saw a white tiger in the furnace of the Dragon Emperor. He opened his mouth and swallowed the soul of the friar Jindan directly.

"What is this! Why? No! Don't eat my soul! I don't want to fall into the abyss forever!" The soul of the alchemy friar roared wildly, but it had no effect.

The God Of Medicine Son-in-law Chapter 479

After the white tiger swallowed up the soul of the Jindan friar, Xiao Chen felt that his soul power seemed to be growing. The whole person's vision of the world had changed. It seemed that he could see through the essence of anyone at random. Moreover, he now had a deeper understanding of the origin of the world and the power of his cultivation.

"It turns out that my power now belongs to the power of the legendary four holy beasts, but what is the totem on my chest? What will it do?" Xiao Chen looked at the snake like totem on her chest in great doubt. But there is no answer in my mind.

After thinking for a while, Xiao Chen gave up the idea in his mind. I put my mind on the golden elixir. The golden elixir rotates wildly in its own dragon emperor furnace, and the power in the whole furnace is constantly refining the golden elixir completely.

In this way, Xiao Chen felt the power surging towards his body, which was the purest strength between heaven and earth. Bathed in such, Xiao Chen felt that she was becoming strong all the time.

Every second, he will be a little stronger than the last second. Soon, the golden pill in the furnace of the Dragon Emperor was completely refined. At the moment after refining, Xiao Chen felt that the eighth green dragon particle in his body seemed to be completely activated.

However, it seems that the power is still a little poor, so the eighth particle still did not wake up successfully. However, Xiao Chen's cultivation has been slightly improved, and has reached the third level of the valley opening period, which has been improved by three levels at once.

But if a powerful monk sees such a sight, he will be frightened, because the power contained in the golden elixir of a golden Dan monk's essence. It can almost be said that it is enough to raise an ordinary monk in the valley opening period to a very high level of cultivation, and even close to the golden elixir, but now, Xiao Chen's cultivation has only increased by three small levels.

What kind of concept is this? The energy of a Jindan friar is only equivalent to Xiao Chen's three-tier realm. How strong will Xiao Chen be? No one knows and no one can estimate.

However, the skill and totem in Xiao Chen's body can almost represent the existence of gods. This kind of skill and totem can't be treated with a normal idea. Apart from others, it's enough to see that Xiao

Chen just killed a Jindan friar with the cultivation of just entering the valley opening period. He's not an ordinary friar.

Even from ancient times, some peerless geniuses may not be able to do this. Just entering the valley opening period, they can kill a monk master in the golden elixir period, and the cultivation of this monk master is still at a high level of the golden elixir. Such people, even if the ancestor of Yuanying comes, may need to spend some effort to kill them.

And after the killing, it is likely to be escaped by the other party's golden elixir. It is impossible to get the power in the other party's golden elixir, but Xiao Chen is different. Kill the friar of the golden elixir directly. Needless to say, the golden elixir was refined by him. After that, even the Friar's soul was completely absorbed. It was simply that after killing, he swallowed the other person directly, leaving no residue.

If Xiao Chen is now in some other world dominated by cultivating immortals, he will certainly be regarded as the reincarnation of an ancient demon emperor. By directly absorbing the essence of others' essence, we can enhance our own cultivation.

It's just appalling, that's all. After completely devouring the vitality of the golden elixir friar, Xiao Chen fell into Washington again. At this time, Hua Qiye and Hua xuwan were stunned, not because Xiao Chen had just fought with the friar Jindan.

It's that Xiao Chen can survive such a disaster, which is obviously not what people can do.

Seeing their surprised faces, Xiao Chen also knew that they had seen what had just happened, so he didn't hide it. He said directly: "now that you have seen it, I will no longer hide it. Now this is my real strength. After that, I may rarely see you again. I have more important things to do. Now I have found these people who sneak into the big family. They are not people in our world. They are people in other worlds."

"But you can rest assured that there are experts protecting the whole Xia Kingdom, so you will be very safe for a long time to come."

With that, Xiao Chen didn't wait for the two to speak, so he flew in one direction.

At this time, over a city called Yanjing in the southeast of Kyoto, Xiao Qingyuan was standing in the air, looking at several people in black robes in front of him.

“Hey, hey, your name is Xiao Qingyuan, isn’t it? Your accomplishments are really good. You have reached the golden elixir period. Have you received the original support of your world recently? You have understood the best method of cultivation? But even if you reach the golden elixir period, it doesn’t make any sense. Now we have five monks in the golden elixir period, and their accomplishments are higher than you. I see you How to deal with us! “

The man headed by him, wearing a green jade crown on his head, looked very dignified. His voice was a little sad, which made people feel bad after listening to it.

“Shadow king, I’ll kill this old guy this time. When he reaches the golden elixir period at this age, it can only show that he has insufficient talent. I promise I’ll take off his head within three moves!” At this time, a man in black stood up. He seemed to disdain Xiao Qingyuan and said that he would solve Xiao Qingyuan within three moves.

If this word is said by anyone on the planet where Xiao Qingyuan is now, Xiao Qingyuan will probably laugh it off, because he knows it is impossible. Now his cultivation has reached the golden elixir period and directly broke through the level of the second floor of the golden elixir.

Apart from others, he will not fear anyone on the whole planet except his grandson, but now, these people in front of him are people from that strange other world, people from the voodoo sect. Their cultivation is in the golden age, and their breath is more powerful than Xiao Qingyuan. This man said so.

The God Of Medicine Son-in-law Chapter 480

Xiao Qingyuan was still worried. Although he had some hidden means and practiced a good skill, the other party’s cultivation was more advanced, and they came from another world. Maybe there was a more powerful skill in that world.

There must be a certain reason why the man in black dares to say such a thing now. As for the reason, it may be what kind of killer mace he has. It can be guaranteed that Xiao Qingyuan will be killed directly within three moves.

However, Xiao Qingyuan can't retire now. The other five experts in his own company are breaking through the golden elixir period until they all break through. They have six Golden elixirs against the four golden elixirs in front of them. It is estimated that there are still some opportunities, so the main thing he should do now is to delay time.

"Ha!" After the man in black finished speaking, he seemed to get the permission of the leader. He immediately roared and rushed up and killed Xiao Qingyuan directly.

In an instant, several sharp claws appeared on his hand, which was very fast. Moreover, there is a strong poison on it. Such a strong poison makes people infected with Tao, which is enough to poison people directly. When a monk meets it, he should pay special attention. Once affected by the poison gas, it will inevitably lead to the ineffective operation of his own vitality, and then it will become the meat on the chopping board, which can be slaughtered.

So the moment Xiao Qingyuan saw that the man in black had an action, he also ran his own skill and quickly retreated in one direction. Now these friars seem to have a playful heart. They are not in a hurry to kill themselves directly, but want to torture themselves to death one by one.

Xiao Qingyuan just seized this opportunity and kept dealing with each other.

Although Xiao Qingyuan doesn't have much confidence in fighting, he is still fully confident in avoiding each other's attack. After all, it was quite convenient to avoid these attacks. Soon, he got out of the attack range of the monk in black and reached a safer position. The man in black immediately flew again at a high speed.

The sharp claw on the hand also directly cut through the air and made bursts of whistling sound.

"I'd like to see when you can escape, Voodoo Skynet!" The man in black suddenly made a big move. A huge net full of toxins appeared behind Xiao Qingyuan out of thin air, and Xiao Qingyuan had to flee in another direction.

But the big net seemed to have life. It wrapped Xiao Qingyuan directly. It didn't give him any chance to escape again. It had to wrap him directly.

“Bad!” Although Xiao Qingyuan had just entered the golden elixir period, his perception of danger was far beyond the original level. Of course, he knew the power of the big net, so he immediately appeared with a long sword, which seemed to be a treasure.

“Silver chop!” After Xiao Qingyuan roared. The long sword instantly cut out a silver sword spirit, directly cut the big net completely, and instantly got out of the control of the monk in black.

“There’s a baby! Well, I’ll kill you and take your baby. Then I’ll have another point! Voodoo fingerprints!” The friar in black roared again. In an instant, a huge green handprint appeared out of thin air and hit again directly in the direction of Xiao Qingyuan.

Seeing this, Xiao Qingyuan knew that he must be unable to hide, so he quickly danced the sword in his hand. The silver light directly formed a long sword spirit dragon and wanted to break the handprint directly.

In this way, the two killing moves collided with each other, and a huge explosion of vitality was generated in an instant. The huge fluctuation of vitality also directly shocked both of them for a distance.

“Poisonous wolf, you still can’t do it. It’s already two moves, and the other party is still alive. Now you don’t think you can kill him in the next move.” On the side. Another monk in black sneered.

“Impossible? I’ll show you the strongest skill I’ve cultivated, poisonous wind demon Sirius!” The poisonous wolf roared again. Then, the whole body began to change and turned into a huge poisonous wolf.

The poisonous wolf was somewhat similar to the poison refining man summoned by the Jindan friar Xiao Chen met, but he directly turned himself into a wolf. The wolf looked at least five or six people tall, his eyes were full of green poisonous smell, and a lot of poisonous gas came out of his mouth during breathing.

“That’s good. I’ve cultivated the true form of Yuanshen just on the fifth floor of the golden elixir. It seems that there should be some doorways. Come on, see if you can kill the old man opposite with one move.” The friar who mocked earlier looked at the poisonous wolf with new eyes.

“Poisonous wolf kills heaven!” In an instant, the huge poisonous wolf seemed to have locked Xiao Qingyuan. Like a thunderbolt, Xiao Qingyuan ran directly towards him. Xiao Qingyuan could obviously feel that he could not escape this attack and could only catch it. If he can’t catch it, it’s very likely that he will be killed directly under this blow.

So he began to stir up the vitality in his body, and all poured into the silver sword. It seemed that he was going to fight hard.

“Well, don’t look. The old man is dead. Unexpectedly, the poisonous wolf is still a little level. He has cultivated the true shape of the yuan God. Even against the monks on the sixth or seventh floor of the golden elixir, it is more than enough. Although the old man’s skill is mysterious, it hasn’t reached the level of heaven. His sword is a treasure, at least at the level of spirit tool It’s a treasure, but it’s too wasteful in his hand. ” At this time, the monk wearing the jade crown commented.

Their eyes shifted to another direction. Not far away, there was a faint brilliance flashing. That was the main purpose of their coming this time. The brilliance contained strong vitality. If they got it, it was estimated that their accomplishments would increase sharply and their longevity would be greatly improved, So their eyes were greedy at this time.

In fact, they found this shortly after they came here. Unexpectedly, there are such treasures on this planet where there are almost no monks.

Over there, the huge poisonous wolf has been killed in front of Xiao Qingyuan. At this time, the huge claws have directly patted Xiao Qingyuan’s silver long sword out. Xiao Qingyuan doesn’t have much means of resistance.
