The God Of Medicine Son-in-law Chapter 81

Because the waiting time was too long, Xiao Chen asked Wu Yaqing to go back to his medical school first. He would just take care of the things here.

In the middle, Wu Yaqing also sent food to Xiao Chen.

“Hey, that handsome guy, are you here to see a doctor? The doctor hasn’t left today. Why don’t you go in and have a look?” The sweet nurse saw Xiao Chen, who had been watching outside all day. Thought he came to see a doctor, too.

So Xiao Chen had an idea and simply took the plan. He changed his constitution with the disease pulse, which makes him look very weak and his pulse is very disordered. Ordinary doctors should send a critical notice after seeing it.

“Oh. Yes, I’m here to see a doctor. There are too many people in front of me. I went to the hospital today. The hospital said I couldn’t live tonight. I heard that the doctor here is a miracle doctor, so I’ll try it, otherwise I may really die tonight.” Xiao Chen suddenly showed great weakness.

It was normal to look at him. Suddenly, it felt like she was dying. The beautiful nurse was also shocked: “Oh, doctor yuan, come and have a look. The patient seems to be dying!”

Then he hurried to help him inside.

The legendary doctor yuan looks like a normal young man with black framed glasses. He looks plain and doesn’t see anything special.

But Xiao Chen noticed his hand as soon as he came in.

“The third layer of rejuvenation, with lingering fragrance!”

Yes, there is already a strange aroma on his hand. It is not because of perfume or what has just touched something, but that the understanding of medicine has reached a certain level.

It is said that if the six layers are fully cultivated, it can really bring the dead back to life. Even the dying can be saved!

The yuan doctor in front of him has cultivated to the third level at a young age. It is not impossible to achieve perfection and complete all the cultivation of the sixth level.

But when he saw Xiao Chen's situation. He frowned in an instant.

"Well... Sir, why are your internal organs quite healthy, but there's a dead breath from the celestial cover? It's strange. Have you come into contact with anything strange lately?" He seemed to see that Xiao Chen's illness was not simple.

"No. doctor, I just go to and from work normally. I didn't know it suddenly became like this." Xiao Chen's voice was hoarse.

"This... I'll try!" It seems that he is not completely sure that he can cure Xiao Chen, but he still wants to try his best.

He took out a new set of silver needles and asked Xiao Chen to lie down on one side of the bed. He quickly stabbed the silver needles into Xiao Cheng's body one by one.

Soon. Sure enough, some black smoke came out of Xiao Chen's body.

"What a heavy breath of death. I'm afraid I've inhaled some evil poison for thousands of years!" Doctor yuan was very surprised.

"Sir, your illness... I'm really powerless. I'd better go home and let your family prepare for the future. I'll also exempt you from the medical expenses." He finally put down his hands heavily.

"Oh, is that right? Then... Thank the doctor, too. I see." Xiao Chen made a very lost look, as if he knew that his death was coming.

But in the eyes of doctor yuan, he is indeed a dying man.

The next day, Xiao Chen was still waiting outside like yesterday. Finally, when the beautiful nurse found him again, she couldn't help crying out: "ah!"

Although she is afraid. But he still asked, "Sir, are you... A man or a ghost?"

Xiao Chen pointed to his shadow and said, "ghosts have no shadow."

"Ah? Didn't you last night..." she covered her mouth.

"Yes, it seems that Dr. yuan's skill has worked, but I still haven't cured it. So I still want Dr. yuan to help me." Xiao Chen said.

"That... Doctor yuan! The one from yesterday is here again!" The beautiful little nurse hurried to Dr. yuan's consulting room.

"What are you talking about?" After hearing this, Dr. yuan hurriedly ran out.

"This....." he was also very shocked. It was obvious that Xiao Chen was dying, but he was still alive.

"Well... Doctor yuan, I think I can save it again." Xiao Chen said with a dispirited look.

"OK... Come first and I'll help you heal." Doctor yuan waved to him.

Like yesterday, Xiao Chen used the same technique for acupuncture and moxibustion, but today he also added massage. Xiao Chen completely felt that he was the Xuanmen massage hand of Yixian door.

It seems that doctor yuan should be a disciple of the medical immortal sect. I didn't expect such a talented disciple of the medical immortal sect after coming out for so long.

But he is still not as good as Xiao Chen now. After all, if the medical skill is really enough, he can see that Xiao Chen's disease is completely changed by his disease pulse.

After the treatment, doctor yuan suddenly murmured in a low voice, "didn't you say that the efficacy is not so great? Am I really a genius?"

Efficacy? Xiao Chen was suspicious in an instant, so he stopped when he was going to step out of the consulting room.

He turned his head and said, "well, doctor yuan, you see I'm not ill. I really admire your medical skills. I'm about your age. Why don't you take me as an apprentice? I really want to learn medicine to save people!"

"You?" Doctor yuan's eyes widened in an instant. He didn't train his own medical skills. How can he take an apprentice. He replied coldly:

"Forget it, I don't think you have that talent. My medical skill has been practiced since I was only three years old."

At the age of three, Xiao Chen immediately understood that he was lying. At the age of three, he didn't even have Dantian. How can he practice medicine? Are you really a genius child prodigy? If it is true, I should have heard it when I was young.

"Doctor Wu Yuan, what do you think? I'll try it here tomorrow. I've experienced life and death for two days. It seems that I've realized something. I want to try." Xiao Chen said.

"Try it? I'm afraid you don't have a pit in your brain? Or you've been ill for two days. Can you try this kind of thing? What if someone dies? And we all have doctor qualification certificates. What do you have?" Doctor yuan looked at Xiao Chen like a fool.

"I don't have a doctor's qualification certificate, but do you think this is enough?" Xiao Chen took out a card from his pocket.

The God Of Medicine Son-in-law Chapter 82

"The gold card of Haifa bank!" Doctor yuan's eyes were almost staring out in an instant.

He knows what this means. This gold card is only available to wealthy Donghai people with at least 100 million deposits.

And now the young man standing in front of him is such a local tyrant.

"You... Take this and check it for me!" Doctor yuan seems to have some doubts that Xiao Chen is a liar.

So Xiao Chen had to hand over the gold card.

Doctor yuan checked it again and again and found it was true. He couldn't help but look at Xiao Chen with new eyes.

In order to get the current medical skills, he lost his fortune and spent one million to sell his married house. It was not easy for him to get a quick pill at the medical immortal gate.

What for? Just for money, in order to change his poor fate, like his original medical skills, he may not be able to rise in the East China Sea in his life.

But it is said that there is a medicine immortal sect with such magic medicine. I thought it was false, but I didn't expect it to be true.

However, it seems that some tests have to be passed before getting it. Ordinary people can't buy it with money. He's lucky, too.

It's been almost a month since I came here. I haven't met any local tyrants. Although the income of the medical school is considerable every day, he thinks it's still too slow for him. He needs to be faster.

And there's a door right in front of you. How could he not be excited.

"What's your name, sir?" Doctor Yuan's face was full of smiles. It seemed that seeing Xiao Chen was like seeing a small Treasury.

"Me? My name is Xiao Chen." Xiao Chen said his name directly. The people of Yixianmen should be familiar with his name.

"Oh, Hello, Mr. Xiao. If you have some special needs, you should have said it earlier. I didn't know your identity before, so it's really my dereliction of duty to offend you. I'll make amends. How about I invite you to have a meal?" Doctor Yuan said.

"Well, no, no, I'm just very interested in medical skills. I think my father died young, so I left these cold money. I can't be happy even if I sleep in the pile of money every day!" Xiao Chen said with a look of great pain.

After hearing this, Dr. Yuan's face twitched twice. Shit, you're not happy sleeping in the pile of money. Give it to me! I'm so happy!

But of course he didn't dare to say that.

"Medical skill is sometimes about fate." Doctor Yuan said.

"Oh? Fate, do you think it's also a kind of fate for me to survive?" Xiao Chen pretended to be very excited.

"Of course, of course, but I also bought my medical skill at a certain price. Whether I can learn it depends on your sincerity." Said doctor Yuan. Rubbed his hands, and then looked at the gold card on Xiao Chen's hand.

“Oh, I understand, I understand! I’ll pay you five million tomorrow. Please help me beg for fate!” Xiao Chen instantly looked like he understood.

“Hahaha, it’s easy to say. Although I can’t guarantee 100%, I’m at least 80% confident that I can ask for this fate. Of course, if you have more sincerity, hahaha, I think I’ll be more confident.” With that, he took another look at the gold card in Xiao Chen’s hand.

“Don’t say anything, doctor yuan. I’ll give you 20 million directly. See, is this fate enough?” Xiao Chen raised his voice directly.

“Enough! Enough!” Doctor yuan instantly felt a sense of excitement and rushed directly to his celestial cover.

His grandmother’s, 20 million ah, rich people are different. I still set up a stall here to cure Mao’s disease. There are 20 million, and I can go to Dubai to buy a house to live in!

“That’s settled. Doctor yuan, you must tell me the secret of studying medicine! I’ll remit money to you early tomorrow morning!” Xiao Chen held his hand tightly.

“No problem, as long as your sincerity comes in time, the secret of learning medicine will be brought to you!” Dr. yuan had a plan in mind for a long time.

Because you can buy the instant elixir from Xianmen medical school repeatedly. But the second time is much more expensive than the first time. It needs five million, but it’s only five million. Xiao Chen has directly paid 20 million yuan.

Moreover, there are only dozens of gold cards in the whole Donghai city. It is certain that there will be no fake. Tonight, he is going home to have a good check and ensure that he is safe.

“Well, sincerity will be paid to your account as soon as possible.” Xiao Chen smiled.

“By the way, what’s your account? I’ll remit money at that time!” Xiao Chen seemed to suddenly think of something.

“Oh, yes, come on, add a friend. I’ll send it to you then!” Doctor Yuan quickly took out his mobile phone.

However, seeing that Xiao Chen is still using a very old mobile phone, I can’t help but have doubts.

“Oh. It was left by my father back then. I heard it was specially customized in Great Britain. I’m not very clear, so I’ve been using it all the time. It’s still very good.” Xiao Chen quickly gave a careless eye.

Although doctor Yuan had some doubts in his heart, he still believed what Xiao Chen said. After all, rich people have different tastes from ordinary people.

“OK. I’ll send it to you later!” Doctor Yuan said.

“Well, I’m looking forward to seeing you tomorrow!” Xiao Chen was also looking forward to it.

The two waved goodbye. Xiao Chen couldn’t help laughing coldly. He was dreaming of taking the money for nothing!

Of course, the gold card in his hand is not real. It’s just an imitation, but it’s also imitated through his own organization. It’s no different from the real one.

He doesn’t really have so much money, but the world bank’s black card can’t transfer money here. He’s too lazy to go to Liu Nianxin to ask for this card.

This card needs to be handled by himself. When he doesn’t want to get it, the whole Donghai city knows him. In case he is found by his enemies, it will be more troublesome.

Now my cultivation is too low. At least half of my skills can be restored after cultivating the tenth disease pulse. Now it seems that there is still a long way to go. I’d better take a step by step.

Returning to the hotel, Wu Yaqing originally said that she could come here to accompany him tonight, but it seems that there are some temporary things, because her hospital is about to close down. Now some hospitals are in recession, and many young doctors have disappeared for no reason.

Therefore, a general director of the municipal hospital specially invited Wu Yaqing to talk and wanted her to be an attending doctor in the past. Anyway, she has all kinds of documents.

However, this also reminds Xiao Chen of a very serious problem. Although these so-called harmonious medical centers are serving the public, their prices are still too high.

The God Of Medicine Son-in-law Chapter 83

Generally speaking, it doesn't cost much money to go to the hospital once you are ill, plus various reimbursement. However, to see a doctor in the harmony hall, take the doctor of this yuan as an example.

Whether it's serious or minor illness, you have to pay a registration fee of 200 first. It seems not expensive, but many families with poor family conditions are still willing to go to the hospital. But this harmonious hall has led to the brain drain of the hospital.

Many young doctors have disappeared inexplicably, which is bound to affect the whole process of medical development in China. After all, talents are the foundation of all development.

Without talent. Even if there is a lot of money, good equipment and strong prescriptions, there is no way to change the current situation.

Thinking, I suddenly received a call from Dong Wu.

"Hello, Xiao Chen. Are you busy?" The voice at the other end was a little anxious.

"Ah, not busy. Please tell me what you have to do!" Xiao Chen said.

“Well, do you know about the harmony hall recently?”

“I see. I’ve been investigating these days. What’s the matter? Have you found any problems?”

The so-called “miracle medicine” is a kind of magic medicine. I can buy it in a short period of time. But I don’t think it’s a magic medicine. I can get it in a short period of time. I don’t think it’s a magic medicine. Your phone, so I’m here to disturb you today. Your medical skills are quite good. What do you think of this matter?” Dong Wu’s voice is relatively quiet. It seems that he is afraid of being monitored by someone.

“It’s really serious, but don’t worry. I should be able to find out why it’s coming these days. Don’t try this so-called quick cure pill casually!” Xiao Chen’s voice was more serious and seemed to be warning Dong Wu.

“Of course, I listen to doctor Xiao.” Dong Wudao.

“OK, I’ll let you know when there is development!”

“OK, thank doctor Xiao!”

The other end cut off the phone.

After a while, some big people who knew before called Xiao Chen one after another. They all asked about the miracle doctor’s quick success pill, and even Chen Wen revealed it. Chen Huimin wanted to buy one some time ago. Fortunately, she was stopped.

Xiao Chen quickly warned them not to try, because the sudden appearance of this pill is likely to be accompanied by some huge conspiracy.

However, fortunately, these big people are people with brains and have not acted rashly.

Later, Xiao Chen called Ah Ling first. Although she was a little embarrassed, she still had to ask her to help.

“Ah Ling. How are you... Recently?” Xiao Chen said such words on the phone of the organization for the first time.

Hearing such a sentence from him, the other end seemed to be silent for a moment and didn't know what he was thinking.

But Xiao Chen immediately resumed his seriousness: “please help me change the amount in this card number to 20 million temporarily. The card number is...”

Xiao Chen wanted to use the advanced technology of the extermination organization to deceive Doctor Yuan and let him lead the old fox behind him.

Early the next morning, Xiao Chen came to the Harmony Hall near the Spring Festival Hall. Today, the Harmony Hall didn't open the door, but the little nurse was still waiting at the door.

So Xiao Chen said hello to her, “Hey, it's Doctor Yuan today. Haven't you come yet?”

“I don't know. I've been contacting him, but he seems to have something.” The pretty little nurse frowned.

Seeing that she was also a rare beauty, Xiao Chen couldn't help being curious: “nurse, little sister, do you have a high salary here?”

“It's not high. That's more than 5000 months. There's no five insurances and one fund.” She thought for a moment and replied.

“Wow. With your temperament, why not become a nurse in a big hospital? You can earn a lot there.” Xiao Chen showed her doubts.

“Big hospitals do earn a lot of money, but they are also tired. Besides, I think it’s good to follow Dr. yuan. He’s very down-to-earth.” As she spoke, a faint blush appeared on her face.

“Oh ~” Xiao Chen immediately made an expression of “I understand”.

“Oh, you can see it in a few days. But this big fool hasn’t seen my thoughts on him for so long.” The beautiful little nurse seems to hate iron rather than steel.

Xiao Chen shook her head when she heard her words. It seemed that doctor yuan was blinded by interests. He didn’t know that the person who should be cherished most was around him.

“Don’t worry, he’ll see!” Xiao Chen used a relatively brisk mouth airway.

Of course, he won’t worry about this yuan. The doctor took the money and ran away, because as long as he dared, he would be arrested before he passed the customs. The money in his card was illegal.

Sure enough, after a while, he received his news and asked Xiao Chen to wait for him in a cafe nearby. He said he wouldn’t go to the hospital today.

Looking at the little nurse waiting on her mobile phone, Xiao Chen couldn’t help feeling unworthy for her, but reminded her: “doctor yuan has an appointment with me today. So the hospital won’t open here. Go back first!”

“Ah? He didn’t tell me, really!” The beautiful little nurse frowned slightly and walked towards the bus stop over there.

Came to the coffee shop, because it was early, almost no one.

“Is that Mr. Xiao Chen?” The owner of the cafe is a young girl. Temperament is quite good.

“Ah, yes, it’s me.” Xiao Chen answered.

“This way, please. Please go to the box on the second floor. Everything has been put away for you. Doctor yuan ordered it last night.” She smiled.

“OK, thank you!” Xiao Chen came to the box.

After a while, doctor yuan rushed over.

“Oh, Mr. Xiao Chen, you’re so early. My house is far away, so it’s a little slow.” He apologized when he came up.

“It’s all right. Has the money arrived?” Asked Xiao Chen.

“Here we are, so I’m going to ask for fate today. Mr. Xiao Chen, you are indeed quite predestined. I asked for it as soon as I asked.” He smiled mysteriously and took out a delicate wooden box.

Xiao Chen instantly smelled the fragrance of the pill.

“This is the secret of your medical skill?” Xiao Chen is ready to open it.

“Hey, don’t. once this is turned on, the efficacy will be lost.” With that, he took out another ancient book and put it in Xiao Chen’s hand, and then told him to.

“Here is another medical skill script. You can use it together at that time. Soon your medical skill will be like me!”

The God Of Medicine Son-in-law Chapter 84

“Thank you, doctor!” Xiao Chen looked at the box and script in her hand, and her eyes lit up.

“Where, we will be brothers in the future. Where do we need to say this between brothers? This pill has an enhanced version. If you still need it, brother Xiao Chen, give me a word and I can buy it for you right away!” Doctor Yuan said.

Sure enough, he is an open-minded man. Seeing that Xiao Chen has money, he wants to get close.

“Ha ha, of course, the pursuit of medical skills is a dream I want to realize all my life. When I practice this script, I will come back to you!” Xiao Chen pretended to be ready to go with doctor yuan and patted him on the shoulder.

“That’s certain. As long as you are sincere enough, the day when you become a master of Chinese medicine is just around the corner!” Dr. yuan is still flattering.

“Well, well, I won’t say much. I’ll go home and study!” Xiao Chen showed a very impatient look.

“OK, OK, brother Xiao Chen, go ahead and make sure you wake up tomorrow and find that you are no longer an ordinary person!” Doctor yuan quickly got up and sent Xiao Chen.

“Hey, no need. Brother yuan, that’s it. I’ll just go back by myself!” At the door of the box, Xiao Chen waved to doctor yuan.

“Well, then I won’t force it. Brother Xiao Chen, keep in touch!” Dr. yuan seems to have more to say.

Fifteen million! That’s 15 million. That’s how I got into my wallet.

Yes, yes! Doctor yuan immediately felt a sense of excitement and rushed to his forehead. That feeling is like a fairy.

What medicine? What’s the use of high medical skills? Finally, it’s not a bubble of loess. After taking the money, the master should also enjoy the treatment of a winner in life.

Yuan Zhenqi's eyes were full of excitement. He was about to embark on the long-awaited Road, and his dream finally came true.

But just a few steps out of the cafe, several law enforcement vehicles stopped beside him. But he didn't realize that the other party was coming for himself.

"Sir, you are yuan Zhenqi, aren't you?" A uniformed law enforcement officer came up and asked.

"Yes, what's the matter?" Yuan Zhenqi was very confused.

"That's right. Please come with us!" The other party took out a pair of handcuffs directly.

"You... What are you doing? I'm a legitimate doctor. I have a certificate. If you don't believe me, I'll show you. I'm not breaking the law!" Yuan Zhenqi was so stupid that he didn't understand what happened.

"Mr. Yuan Zhenqi, we found that your account has illegally tampered with the amount and is suspected of economic crime. If you have anything to say, you'd better go to the court!" The law enforcement officer looked at him with a sneer.

Who in general will admit that he has broken the law?

"No. are you mistaken? I have no problem with my money. My sources of money are quite legitimate!" Yuan Zhenqi is still explaining.

Of course he doesn't know. All this is designed by Xiao Chen. For a greedy man like him, Xiao Chen will not have any kindness.

"Take it away! There's so much nonsense!" The law enforcement officers looked very impatient.

.....

Xiao Chen took the pill and the secret script and went back to his hotel room first. The secret script was copied at first sight. The paper was very rough, but what was recorded above was really some basic needling methods and techniques of yixianmen.

But at most, I can practice my skills to the third level of rejuvenation, and there is no more behind. The acupuncture is just a small success. It's OK to treat ordinary diseases, but it still doesn't help a lot for some serious diseases.

Then he opened the box and a black pill appeared in front of him.

At first glance, it looks like the Peiyuan pill that I often used in yixianmen. It's nothing special. But after careful observation, Xiao Chen suddenly found something wrong.

So he condensed the disease Qi on the fingertip of his right hand and directly broke the pill. In an instant, there was a strange little bug. The bug was so small that it even needed a high-power magnifying glass to see it clearly.

But fortunately, Xiao Chen's eyes are like a six times magnifying glass. He can see the bug completely, and then pour the disease Qi into his right hand to grasp it.

"B born silkworm!"

This is one of the forbidden drugs of the medical immortal sect. It is said that it is a spirit insect brought back by an ancient ancestor of the medical immortal sect thousands of years ago. It is a parasite. The main host is human beings, which can instantly stimulate most of the potential of the human brain.

And that era was also the most brilliant era of the medical immortal sect. Because of the emergence of this strange insect, there were many medical masters in the whole medical immortal sect, and even a strong medical Saint appeared in the world.

The medical immortal sect became the strongest Sect on the whole earth in a year.

But immediately the side effects of this strange insect appeared. The medical treatment of using b-born silkworm changed from a young man in his twenties to an old man in his seventies and eighties in a year.

Most of them died. Only a few disciples who really had their own accomplishments, including the ancestor at that time, forced the bug out of their body with all their medical skills.

So the medicine immortal gate declined in an instant, and then sank. Until today, no one knows.

And this terrible strange insect appeared again. At the beginning, the old ancestor buried it in the unknown underground. Who brought it out again?

Xiao Chen instantly realized the seriousness of the matter. The ancient books of yixianmen did not record the treatment method of this kind of strange insects. If this continues, there may be a huge crisis in China's medical industry.

Xiao Chen hurriedly called Lin Zihao directly.

"Hello, I'm Xiao Chen. Now there's a very important thing that needs your help. Just listen. Now there are mysterious businessmen selling the so-called magic medicine instant pill in the East China Sea and even all over China. Whether you know it or not, now everyone is prohibited from buying this medicine immediately!" Xiao Chen's tone was quite serious.

The other end gave a "um" and hung up.

Then Xiao Chen called Dong Wu, Zhang Xian and the Liu family.

"Doctor Xiao Chen, you said this medicine would die of old age immediately!" Liu Xue was silly when she heard this. She wanted to buy one, but she didn't have a medical background, so she had no channel.

Now I'm afraid to think about it. If I become an old woman in her 70s and 80s within a year, it's the most terrible thing in the world.

After the phone call here, Xiao Chen must also find the largest medical school in Donghai city to see if there are any disciples of the medical fairy gate who have also opened a medical school outside.

The God Of Medicine Son-in-law Chapter 85

The whole East China Sea suddenly fell into great turmoil, because the so-called miracle doctors were arrested and the harmony hall was sealed up one by one.

Not only the East China Sea, but even the whole of China has started a major change, and the East China Sea is just the leader.

Xiao Chen rushed to the largest harmony hall in the East China Sea, although it has been banned outside. However, many patients still come to the hospital.

Although it is a good thing for patients, it will not last long. At that time, it is estimated that there will be few real doctors left in China. It is not easy to cultivate a doctor. Xiao Chen must not let this happen in China.

At the hospital, Xiao Chen drilled directly into the innermost part of the crowd. Came to the doctor.

“Xiao Xi!” For a moment, he was dumbfounded. The doctor inside was no one else but his cousin.

Although he is a cousin, he only met when he was very young, but Xiao Chen still knows him because his blood can sense it.

“Xiao Chen?” Xiao Xi was surprised when she saw Xiao Chen.

Xiao Chen hurriedly picked up the pulse, grabbed his hand and examined it.

“You’re crazy! Why use B to produce tiansilkworm!” Xiao Chen felt the faint breath in his body, but even so, he would never admit his mistake.

Xiao Xi shook off his hand and said, “what are you talking about? What is b-born silkworm? Are you jealous when my medical skills are higher than you?”

“You don’t even know about b-born silkworm?” Xiao Chen was very surprised, but then remembered that many ancient books left by Grandpa were burned by a fire. The current master of the medical immortal sect doesn’t know who is in control. He doesn’t even understand these things.

“Where did you get these pills?” Xiao Chen questioned.

“Hey, young man. Don’t delay doctor Xiao to see a doctor!” A middle-aged man in the back urged.

“All right, next!” Xiao Xi shouted.

All the patients in the back came to receive his treatment.

“Do you know how dangerous this pill is? Do you know it’s at stake?” Xiao Chen looked at Xiao Xi, who was seeing a doctor as if nothing had happened, and her eyes were full of anxiety.

Although the cousin doesn’t have any friendship with himself, the blood thicker than water still makes Xiao Chen want to save him.

“Sir, if you don’t go out, I’ll take extraordinary measures!” Xiao Xi’s eyes burst out a trace of unhappy color.

“You!” Xiao Chen was speechless for a moment: “if you believe me, don’t use that medicine again, otherwise your life is running out!”

“Hum! Joke, what are you talking about here, a waste whose elixir field has been abandoned? If you want elixir, just say it. Don’t put any saints here. Now you won’t be the one who makes chickens and dogs restless here in the East China Sea? Then you’re really a good man!” Xiao Xi still had a sneer on her face.

“Sooner or later you will know!” Xiao Chen immediately felt that the cousin in front of him had no medicine to cure.

After that, Xiao Chen squeezed out of the crowd again.

Now b-born silkworm has appeared. I wonder if Grandpa will come forward to solve this crisis.

After investigation, Xiao Chen found that almost all the means of circulation of the pills are medical students or doctors. In this way, it won't be long. It is estimated that there are few doctors left in Huaxia.

In the East China Sea, in a villa in Shuijing villa, three people sit separately on three ancient and simple chairs.

“Sect leader, Xiao Chen dares to make some moths, or we'll send some medical experts to him...” Xiao Jiantian compared a gesture to wipe his neck.

The man in blue in the middle shook his head: “Xiao Chen is just a waste whose elixir fields have been abandoned. What's there to kill? Killing him is just soiling my hands. I'm looking for Xiao Qingyuan. He disappeared when he took out the ancient books of our medical immortal sect. It's the treasure of our medical immortal sect. You must take it back!”

The other person is obviously not from China. His blond curly hair and high nose bridge are from the United States.

“Ouyangchen sect leader said yes, this little Xiao Chen can't turn over any big waves. The quick success pill of miraculous doctor newly developed by weidelan company has won international recognition. Now we have someone contacting the managers of Huaxia Kyoto, and everything will return to its original shape soon.” The United States is humane.

“What Mr. grace said is quite reasonable! So is what the sect leader said! I was reckless. I didn't think well!” Xiao Jiantian quickly flattered.

“Well, now there are still many areas where our medicine has not been put in place. Hurry up and let the following people contact famous doctors in various regions and promote this thing!” Ouyangchen ordered.

“No problem. It’s up to me.” Xiao Jiantian stood up and walked to the door.

After he left, grace said faintly: “the fool of the Xiao family in the medical immortal door is really easy to cheat. He didn’t even see the side effects of this pill. If there is such a divine medicine, how can we sell it in the United States? It’s ridiculous!”

“Ha ha, Mr. grace, don’t you know? China is just a group of fools. I haven’t been a citizen of China for a long time. My father managed the nationality of the United States for me when I was born.” Ouyangchen said with a smile.

“Or are you Ouyang family quite farsighted? What kind of traditional Chinese medicine do these fools in China want to rely on and rely on natural products to survive? Now that science and technology are so developed, it’s sooner or later for us to rule the world. When Huaxia wins, how about arranging you to be the first manager?” Grace said it very easily. It seems that Huaxia is already in his bag now.

“Ha ha, it’s better to obey orders than to be respectful!” Ouyangchen said.

No one can guess that the undercurrent is surging on the Chinese land, which seems to be a scene of peace, and unimaginable crises may break out at any time.

Before long, Lin Zihao suddenly received a message from Kyoto asking him not to interfere in the harmony hall. Everyone below was also threatened.

Even Dong Wu was warned. Everyone called Xiao Chen one after another.

Now Xiao Chen realizes how serious the problem is. The other party doesn’t want to exterminate the doctors of the Huaxia country from bottom to top, but wants to control the whole Huaxia country from top to bottom.

Xiao Chen thought again and again, but still dialed the previous mysterious phone. He hoped that at such a critical moment, at least his grandfather could give him some advice.

The God Of Medicine Son-in-law Chapter 86

“Doodle...”

The phone dialed, but no one answered. Just when Xiao Chen was ready to hang up, the phone was connected.

“Hello?” Strange and familiar voice, which is the voice I have followed and studied for 12 years, which is also the voice I have missed since I went abroad for 10 years.

“Grandpa!” Xiao Chen shouted excitedly.

No one else answered the phone. It was Xiao Qingyuan, his grandfather who had disappeared for a long time.

Hearing Xiao Chen’s cry, the other end didn’t seem excited, but answered with quite calm words: “what are you looking for me?”

“Grandpa. Is it really you?” Xiao Chen was still unable to suppress the sense of joy in her heart and was still confirming with the other party.

“If you’re looking for your grandpa, I’m sorry. You may have the wrong number.” The other side is still quite cold. Seems to be hanging up.

“Wait!” Xiao Chen quickly reacted. Does it mean that the other party is not his grandfather, but his voice is very similar?

“I have something very important to tell you!”

“Say.” There’s a simple answer.

“Now there is a so-called miracle medicine quick Pill on the market, but in fact, it was transformed by the spirit insect B born Tianchan that appeared in yixianmen thousands of years ago. Now this pill has endangered the safety of Chinese medical circles, and the other party’s background seems not small. I doubt that yixianmen has been controlled. I don’t know what to do now. Do you have any way to crack it?” Xiao Chen said all the current situation in one breath.

“All methods are in the Pharmacopoeia. Whether you can understand them or not depends on your understanding.” The other party said and hung up.

“Pharmacopoeia? Is it the baijue Pharmacopoeia?” Xiao Chen had no time to ask. The other party had hung up.

No one answered the call again.

However, I don’t know how long I have been holding the “baijue Pharmacopoeia” for enlightenment. Without any clue, don’t you have enough understanding?

But if you give up like this, it’s not Xiao Chen’s style at all.

Being depressed, Wu Yaqing came to the hotel again. Today, she dressed quite “cool”, wrapped her hips in a short skirt, and her upper body was also a suspender shirt. It looks quite attractive.

Finding Xiao Chen’s sad face, he opened the lunch he had brought.

“I know you’ve been worried about this harmony hall recently. So I specially made chicken soup and my own special coke roast ribs. Try it! Delicious food will make people feel happy.” She said with a sweet smile on her face.

Xiao Chen feels that all her troubles seem to have been eliminated. Now she just wants to have a good meal and a bowl of soup with Wu Yaqing. It seems that everything is enough.

“Yaqing. It’s nice to have you here.” Xiao Chen held her directly in her arms.

Wu Yaqing felt a faint fragrance of jasmine and hugged Xiao Chen with both hands.

She gently put her head on Xiao Chen’s chest, and they were silent in an instant.

“If only I could do this with you all my life.” Wu Yaqing spoke slowly.

This sentence reminds Xiao Chen. No country, no home? Since the mysterious man said that the secret is in the Pharmacopoeia, it means that there must be an answer!

Xiao Chen thought and took out the baijue Pharmacopoeia again.

Seeing the baijue Pharmacopoeia, Wu Yaqing whispered, “does this book really exist?”

“Why, you know?” Xiao Chen was surprised.

“Grandpa told me when he left. If one day he could see the lost baijue Pharmacopoeia, he would give something to its owner.” Wu Yaqing said and took down the jade Guanyin directly from his neck.

In an instant, “baijue Pharmacopoeia” and jadeite Guanyin had an induction. Both shine with great brilliance.

Then the jadeite Guanyin turned into a green streamer and disappeared directly into the baijue Pharmacopoeia.

Xiao Chen hurriedly wanted to open it again, but she couldn’t open the book.

“What’s going on?” Wu Yaqing watched Xiao Chen break for a long time. The book can’t be opened.

“It seems to be locked by something.” Xiao Chen used his greatest strength and even used the diseased pulse without any effect.

“Grandpa said that those of us who study medicine can’t use brute force. We have to find a way.” Wu Yaqing is quite sober.

Xiao Chen patted his forehead and said, “yes, look at me. I’m so anxious to forget this.”

For a long time, although the medicine immortal sect is a combination of medicine and martial arts, it has never advocated the use of brute force to solve problems.

This is one of the principles of the medical immortal sect.

Based on medicine. Practice with martial arts.

Martial arts is only practiced together. In the end, it can’t be a reason to solve problems with brute force.

“Did your grandfather say anything else?” Xiao Chen hurriedly looked at Wu Yaqing.

In those years, his grandfather was the person who had the deepest friendship with his grandfather. He should know a lot of things that even Xiao Chen didn’t know.

Wu Yaqing took the “bajue Pharmacopoeia” and read it over and over several times. I also touched it back and forth for a long time, but I didn’t find any mechanism or the like.

In this way, they have been studying since noon, and almost all have reached the point of forgetting to eat and sleep. Xiao Chen is fine. He has a pulse of disease now. Even if he doesn’t eat or drink for a few days, it doesn’t have any effect.

But Wu Yaqing couldn’t stand it. She fell asleep on Xiao Chen. At this time, Xiao Chen reacted. She hasn’t eaten anything and must be very tired.

So he hurriedly asked the hotel to bring a table of food.

Wu Yaqing was very hungry. Besides, the relationship between the two people had been determined, so she began to eat and fed Xiao Chen from time to time.

Unable to study it for a while, Xiao Chen still decided to break through his disease pulse first. Now he can break through as long as he practices a little and produce a second disease pulse.

The next morning, Wu Yaqing slowly opened her eyes and saw that Xiao Chen had an unspeakable momentum all over her.

This is the benefit brought by the second disease pulse to him. Of course, it's not just the appearance. Xiao Chen instantly understood a lot of medical skills, and he already knew how to open the *baijue Pharmacopoeia*.

Slowly introduced the ill Qi into the book, and the whole book opened itself in an instant. Then many strange characters appeared on it, all of which were merged into Xiao Chen's head.

Then there was no word on the book and it became a blank.

"Xiao Chen, you are..." Wu Yaqing looked at him in surprise.

"I'm a medical practitioner. I'm sure you've heard of it." Xiao Chen was not going to hide it, so he said it directly.

Wu Yaqing nodded slowly. Although there were no medical practitioners in her family, she still knew something about her grandfather's relationship with Xiao Qingyuan.

The God Of Medicine Son-in-law Chapter 87

After the scriptures of *baijue Pharmacopoeia* entered Xiao Chen's body, a scripture was formed in his already empty Dantian. Xiao Chen can read it at any time, and it seems that he can use the disease pulse to draw strength, which made him feel very magical in an instant.

Then he picked up the five Dan prescriptions again and realized them. Unexpectedly, he realized two after a while.

But then the power of scriptures seemed to fade. Xiao Chen also found that his originally full ill Qi was consumed.

It seems that using this Scripture for enlightenment needs to consume disease Qi, which can only be obtained from the patient.

So Xiao Chen excitedly took Wu Yaqing's hand and said, "I know the usage of this *Pharmacopoeia*. From tomorrow, we will revive the rejuvenation hall, and I will be the attending physician!"

"You?" Wu Yaqing was somewhat muddled, but it seemed that Xiao Chen had just understood the essence of the hundred *Pharmacopoeia*. It doesn't seem to be impossible.

"OK, I'll inform some of my friends to help publicize and publicize!" With that, she began to call some of her good friends.

Xiao Chen also sent out the news and got a lot of responses in an instant, and said that Xiao Chen must see a doctor for them.

Xiao Chen doesn't want to make money from this. He collects fees according to the lowest price, as long as he can maintain the normal operation of the rejuvenation hall.

Early the next morning, Xiao Chen and Wu Yaqing came to the Spring Festival Hall before six o'clock, but now the outside is full of people.

"Doctor Xiao Chen, you are here. We are all introduced by old Liu!"

“Yes, you are here. We are from many units in the city. I heard that your price is affordable and your medical skills are really advanced, so we came here early in the morning!”

.....

Everyone was very excited when they saw Xiao Chen.

“OK, OK, let’s come one by one.” Xiao Chen also smiled.

“I’ll open the door!” Wu Yaqing said and trotted to the door of his medical school. This is the first time in a long time that she has seen so many patients coming to the rejuvenation hall. She feels that she is also a little excited.

Because Xiao Chen’s technique and medical skill are much better than those doctors who use the magic medicine quick pill, and ordinary people will not doubt him, so his efficiency is almost ten times that of the doctor of harmony hall.

On the first day, Xiao Chen received more than 5000 patients, and most of them were basically cured. And also specially arranged some traditional Chinese medicine prescriptions for them to strengthen their health.

There was a miracle doctor Xiao Chen in the Huichun hall. The matter exploded in Donghai city in an instant. The next day, more patients poured in, and there was an endless stream of patients behind.

Xiao Chen kept collecting the disease Qi. On the third day, he had understood all five prescriptions for treating incurable diseases. But he is not in a hurry to let these prescriptions come out, but waiting for an appropriate time.

Now, although the obvious opponent is yixianmen, in fact, he feels that everything must be controlled behind the scenes. He must find the person behind the scenes.

Because his efficiency is quite high, but he also said in advance that he is not doing charity. Only the first 100000 patients can get quite preferential treatment, and then come back to the spring hall. Xiao Chen gave it to Wu Yaqing.

Although Wu Yaqing's medical skills are not as good as he is, the reputation of the rejuvenation hall has begun. So Xiao Chen doesn't worry about things here anymore.

Wu Yaqing also understood that Xiao Chen was preparing to deal with a bigger enemy, so he fully supported his decision. Although some patients still complained at the beginning, Xiao Chen gave preventive shots in advance, and many people in Canada explained to Xiao Chen.

The business of huichuntang then slowly faded down, and the employees left one after another.

Wu Yaqing was also idle. Originally, Xiao Chen wanted her to travel and relax.

But she didn't go anywhere. She just wanted to stay with Xiao Chen. Xiao Chen also had some helplessness, but since she had decided so, Xiao Chen didn't say anything more.

After all, it is also a hard won happiness to eat the food cooked by your lover every day.

On the eleventh day of the integration of Pharmacopoeia, Xiao Chen suddenly found a shocking secret.

When his pulse broke through the fourth. It can absorb b-born silkworms and transform them into the power of their own diseased veins.

"Sure enough, sure enough! Grandpa didn't lie to me. Everything is in the Pharmacopoeia!" Xiao Chen excitedly picked up Wu Yaqing, who was still making breakfast for him.

"Ah! Xiao Chen, what are you doing? The eggs are burning!" Wu Yaqing said angrily.

“Ha ha, I’m so happy, Yaqing. Now these doctors have been saved. I believe we can see many doctors aging in less than half a year. At that time, our rejuvenation hall will be booming!” Xiao Chen said excitedly.

“What are you talking about? Didn’t we agree that we practice medicine to save patients? Why do we want to make money?” Wu Yaqing was puzzled.

“Of course, although money is not everything, you can’t do without money. We haven’t determined who my opponent is now, so we should be fully prepared. Moreover, I don’t really want to receive my own pocket. Then you will know my usefulness.” Xiao Chen said he would kiss her.

“It’s annoying. The poached eggs are burning. Put me down quickly!” Wu Yaqing is still thinking about the poached eggs she cooked for Xiao Chen.

“Well, my good wife really has to go to the hall and the kitchen. I don’t know that Xiao Chen has been blessed for several lives to meet a good wife like you!” Xiao Chen said and put Wu Yaqing down.

“Annoying!” Wu Yaqing was said to blush and nod his head slightly: “I am. It’s a blessing to have a good husband like you for several generations.”

“Yaqing, don’t worry. When I deal with all these things, we’ll find an isolated paradise. Then we work every day at sunrise and rest every day. We regenerate a pile of fat dolls. Do you agree?” Xiao Chen whispered softly, hugging Wu Yaqing’s waist from behind.

“If only you could do that, where is there any paradise in this society now? And your medical skills are so excellent that you should take the world as your own responsibility at that time.” Wu Yaqing suddenly said positively.

“I don’t care. I don’t want to hang such a good wife.” Xiao Chen smiled and said.

“Glib, just say some messy things!” Wu Yaqing said angrily, and then brought the poached egg and her previously prepared sandwich to the table.

The God Of Medicine Son-in-law Chapter 88

Originally, Xiao Chen thought it would take half a year for those doctors who bought the miracle doctor quick success pill to come to him, but it was less than half a month before someone came to him.

Of course, it's not because the miracle doctor quickly became Dan, but because Xiao Chen framed yuan Zhenqi in prison.

"Is Xiao Chen?" The voice at the other end was very sharp, but Xiao Chen immediately identified who it was. It turned out that it was the little nurse of yuanzhenqi hospital.

"Ah, it's me. What's the matter?" Xiao Chen was a little surprised.

"It's strange why you framed him. Although he has some bad problems, his heart is not bad. You have made his whole family lose hope. Do you know how serious it is?" That head came up and directly questioned Xiao Chen.

Xiao Chen was helpless. It was yuan Zhenqi's greed that caused trouble. If everyone's greedy desire should be forgiven. Then the world is in a mess.

But Xiao Chen was still silent and listened to her finish.

"You know what? I've known him for a long time. Although he has always regarded me as a friend, I actually like him very much. Although he is not tall and handsome, and he doesn't have a lot of money at home, at least he is also a person who keeps fighting in such a society. You are very rich, but can money decide the life and death of others? Your conscience won't change Are you condemned? " The more they talk, the more excited they are.

But Xiao Chen didn't take it to heart at all. It was her sincerity to Yuan Zhenqi that moved him.

"You are still young and don't have a comprehensive understanding of the whole society. I can accept such complaints, but it's just your own things and ideas. It has nothing to do with me. If yuan Zhenqi is not dominated by greed and honestly tells me the truth of the matter, I think I will still give him a way to

live, but everything is his own decision, so I didn't Have any responsibility!" Xiao Chen explained it reluctantly.

But the other side is still reluctant. Xiao Chen hung up the phone.

"Who?" Wu Yaqing saw a trace of displeasure on Xiao Chen's face.

"The nurse in the previous hospital seems to have true love for the doctor, but the doctor is too greedy and doesn't cherish the things around him, so I don't want to give him any chance." Xiao Chen told the truth.

"Gold has no barefoot, and no one is perfect. If you think so, everyone is actually fighting for a better life. Wasn't I also blinded and almost lost you?" Wu Yaqing sits on Xiao Chen. Put his hands around his neck.

"You are different!" Xiao Chen answered without thinking.

"What's the difference between me?" Wu Yaqing felt warm in his heart when he was said so.

"Of course it's different. You're my good wife. I can tolerate any mistakes, but if others make mistakes in front of me, I'm Bao Qingtian with an iron face." Xiao Chen said, sticking his side face to Wu Yaqing's side face.

"Well, what you say is what you say. I respect your decision!" Wu Yaqing stopped persuading her. She still knew Xiao Chen's character better.

"It's just a pity. A couple with lovers will go their separate ways." Wu Yaqing felt a trace of pity in an instant.

"You're wrong. It's not a lover. The little nurse is very good. I hope he can meet someone who loves her very much. This yuan is really strange. He can give up everything for money. Even if they get together, I don't think much of them." Xiao Chen has another idea.

But he was right. Later, the little nurse really saw Yuan Zhenqi's face and finally found her true love.

Although the power of Xiaochen in the East China Sea is not enough to shake the managers in the East China Sea for the next period of time. While collecting disease Qi, they publicize their own ideas, so that more doctors believe what he said, and don't use the miracle doctor's quick pill anymore.

However, once people are controlled by desire, they can no longer hear any rational persuasion. The East China Sea is still a less serious area, but some other areas in China are quite serious. Almost most doctors are trying their best to buy instant pills.

However, there will always be an upper limit in an area. After all, the miracle doctor quick success pill is not cheap, and not everyone can afford it.

Six months later.

When Xiao Xi got up early in the morning to wash, she suddenly found that she had raised her head lines, and her skin was no longer smooth, but very rough. It felt like she was 20 years old overnight, and her hair was a little gray.

"This... What's the matter? How can I become like this!" Xiao Xi looked at her face in disbelief.

Yesterday he was still a teenager. How could he become like this overnight?

He hurriedly called Xiao Jiantian: "Hey, Dad, I have a problem. Now I'm... So old. It's like being 20 years old overnight."

"Stop talking about you... So am I now!" An old voice came from the other end.

"Who are you? You're not my father!" Xiao Xi was stunned for a moment. She took her mobile phone and looked at the number she dialed, but the name of the contact displayed above was her father.

"Don't ask, I've grown old overnight, at least 20 years old!" Xiao Jiantian seems like a dying old man.

“Xiao Chen, what Xiao Chen said is true!” Xiao Xi suddenly remembered what Xiao Chen had said before.

“You will regret it!”

“What really? What happened to Xiao Chen?” Xiao Jiantian was confused.

“Dad, we must find Xiao Chen. He must have a way. He knows what’s wrong with us!” Xiao Xi said.

“Xiao Chen? That loser? What can he do? I called the sect leader first. The sect leader said that this is a normal phenomenon. It will be fine in two days. Just don’t go out in these two days.” Xiao Jiantian also fully believed ouyangchen’s statement.

“This... Really? But I feel that the aging of my body is really quite real.” Xiao Xi didn’t believe it.

“Think about it, your potential has been forced out so much. Can your body not age? Isn’t this a very normal phenomenon?” Xiao Jiantian seems to be about to scold his silly son.

“Well, yes, I’ll... Wait another two days!” Xiao Xi also nodded.

Xiao Chen has bought a facade in the center of the East China Sea and opened a hospital specializing in aging.

Just opened less than two days, almost all the doctors in the East China Sea came to him.

The God Of Medicine Son-in-law Chapter 89

“Doctor Xiao Chen, we know we’re wrong. We shouldn’t have listened to you!”

“Yes, doctor Xiao Chen, you must save us!”

“Doctor Xiao Chen, please!”

.....

Xiao Chen could not help sighing when she saw all kinds of doctors standing outside the door.

Is it always like this? Never believe it before it happens, and never regret it until it happens.

There are not so many regret pills to take in the world.

“It’s natural to help you, but you need to know. Everything comes at a price. Now you have the freedom to choose, and I won’t embarrass you. I can cure your aging, but at the same time, your so-called medical skills will disappear. Secondly, all the money you earn during this period should be handed over to me, and I’ll find someone to arrange it The release of some funds. Of course, if you hide it or don’t want to give me the money you’ve worked hard to earn, I won’t force it. Please help yourself. “

Xiao Chen said and put a box in front of everyone.

Register the money you earn and put the card in the box. If you believe me, I will explain to you. If you don’t believe me, you can find another way.

“I, I’ll come first!” A shorter doctor rushed straight to the front.

“In fact, I didn’t make much money by using this broken pill. Instead, I wasted my family’s money. I thought it could develop for a long time, but I didn’t expect it to be like this for only half a year. Doctor Xiao Chen is right! I’ve paid all my money. Please help me treat it quickly!” Then he threw all his bank cards into the box and wrote a string of numbers on the paper beside him.

Xiao Chen nodded after reading it.

Then he directly transported the sick pulse and played a set of massage palms all over his body.

Then an imperceptible black gas directly entered Xiao Chen's body and was absorbed by the diseased pulse. Xiao Chen felt that his first diseased pulse was stronger.

The little doctor in front of him gradually recovered his appearance. He touched his face and jumped with joy. Holding Xiao Chen's hands excitedly, he said:

"Sure enough, you are a miracle doctor. You are the real living Hua Tuo. You are the hope of our Chinese medical community!"

"Well, you don't have to flatter. Go back to study medicine and be down-to-earth." Xiao Chen said faintly.

"OK, sure, sure!" With that, the dwarf doctor jumped away.

It seems that he has put down his heavy burden.

"Doctor Xiao Chen... Help me treat it!"

The crowd burst into flames in an instant.

"All right. Come one by one. If you're crowded, I'll leave and line up!" Xiao Chen waved his hand.

Then they immediately lined up in an orderly manner.

"Huang Shiyuan, you really only made more than 100000?" Xiao Chen looked suspiciously at the doctor wearing a yellow coat.

"Really... Really, doctor Xiao Chen." Huang Shiyuan's face became ugly in an instant.

“Hum! You’d better take your card away. I can’t cure your disease!” With a wave of Xiao Chen’s big sleeve, he directly asked him to retreat.

“No, doctor Xiao Chen. I know I’m wrong, I really know I’m wrong!” With that, Huang Shiyuan knelt down directly and kowtowed constantly.

“You should know what you have done yourself, and I don’t want to say more!” Xiao Chen looked at him coldly, with no emotion in his eyes.

“No. No, doctor Xiao Chen, I know I’m wrong. I’ll change it now, I’ll change it now!” With that, he ran to the white paper registered next to the box and crossed out the 100000 he wrote down and changed it into more than two million.

“Tut tut Tut, you are greedy, and you have falsely reported so little!”

The doctor on one side could not help shaking his head and accusing him.

“Doctor Xiao Chen. I really know I’m wrong. Please forgive me!” Huang Shiyuan immediately knelt back.

Xiao Chen glanced at him, Then he said, “look, you still have a little conscience. Forget it this time. Stand here and let everyone watch. This is the end of dishonesty. As long as any doctor comes here, you won’t have a chance to get treatment. If you don’t make it to me for treatment, it’s really not very interesting. You can only blame yourself for your bad luck.”

“Yes, yes, thank you, doctor Xiao Chen, doctor Xiao Chen!” He hurriedly stood to the side of Xiao Chen’s clinic, looking a little shaken.

“Hiss -“

The doctors in the back saw such a situation, and their backs were cold in an instant.

No one can predict this aging situation, and so many doctors in the whole East China Sea, if it is the last turn. It's really hard to say whether you can survive.

Originally, some small minded doctors lowered their heads and began to think, but when they saw Xiao Chen's fierce eyes looking at the people, they all gave up their thoughts.

Although it's a good thing to leave some money, what do you want money for when people die? Don't take such a risk. Otherwise, it's not good to really lose your life at that time.

So the numbers written by the people in line behind are quite true.

Xiao Chen had a sense of pride in his heart. Did he use this move to make an example of others or did he get the right benefit? Who doesn't want to live? The older people are, the more afraid they are of losing their lives. Otherwise, there won't be so many people who are ill and want to be cured by spending so much money.

On the first day, Xiao Chen cured more than 3000 doctors. His four disease veins have also expanded to three times the original, and now his understanding of medical ethics has also reached a higher level.

Even now he can create some prescriptions to treat some rare diseases.

The next day was still overcrowded. Xiao Chen specially hired several big men to maintain order, so the efficiency of the next day was much faster than that of the first day, and 5000 people were cured.

The disease pulse expanded again, and Xiao Chen's medical skills have reached the point of turning corruption into magic.

On the third day, Xiao Chen was seriously treating the doctor who came to see him, but suddenly I heard an old man shouting: "Xiao Chen is my cousin! I want to see him. He will help me cure my disease. Don't stop me!"

Hearing what the other party said, Xiao Chen smiled coldly. Did he still come?

“Let him in first!” Xiao Chen greeted the security guard outside.

Then an old man in his 60s came to Xiao Chen with a hurried step.

Then he smiled on his face: “well... Cousin, I know you have excellent medical skills and are kind-hearted. You will help me cure my brother’s disease, won’t you?”

The God Of Medicine Son-in-law Chapter 90

“Of course, brother, it’s not human to help you when you are in trouble?” Xiao Chen said with a smile.

“Yes, yes, brother is in trouble. He must help!” Xiao Xi instantly felt that she was saved.

“Well. But I don’t quite understand some things.” Xiao Chen pretended to think of something.

“Why don’t you understand?” Xiao Xi felt nervous again when she saw Xiao Chen like this.

“It’s nothing special. I’m just curious. Brother, how much money have you made in the past six months? Your harmony hall is the largest in the East China Sea. It’s full every day.” Xiao Chen looked at Xiao Xi with a smile on her face.

He knows that Xiao Xi, as a child of the Xiao family, must have a certain medical foundation, which is much better than the effect of ordinary people using this magic medicine instant pill. So it can also cure many difficult and miscellaneous diseases.

Naturally, it makes a lot more money than the average doctor’s hospital.

“Well... Brother, can we not talk here? As long as you help me cure this aging disease, I must earn half as much as you!” Xiao Xi obviously didn’t want to show her wealth in front of everyone.

“So?” Xiao Chen whirled her chin.

“Elder brother, you may need to look at the rules on my side. Everyone acts according to the rules. Although we have blood relatives, people are here waiting to treat me. I can’t break the rules, can I?”

“Rules? What rules? Do we still need to talk about these?” Xiao Xi said and put his wrinkled hand on Xiao Chen’s shoulder.

“You told me that I was unfaithful, but now you remember me!” Xiao Chen pushed away his hand lightly.

Damn... It wasn’t my... That’s not my has the final say, it’s mainly my damn old dad. He was blind at his own dog’s eyes. I really liked our Shaw Chen’s brother, and I don’t believe it... You can ask the brothers of the medical fairy gate now. Xiao Xi directly threw the pot on Xiao Jiantian’s head.

“Get out of the way! Get out of the way! Do you know who I am? The miracle doctor Xiao Chen inside is my nephew!” An old cry came from outside.

Then I saw an old man who seemed to be in his eighties and pushed away the crowd to Xiao Chen.

“Nephew Xiao Chen, long time no see! How are you doing recently?” Xiao Jiantian rubbed his hands.

“Oh? Uncle, why are you here?” Xiao Chen pretended to be surprised.

“It’s not because the miracle doctor’s quick success pill is making trouble!” The wrinkles on Xiao Jiantian’s face have almost covered up his expression. He can only judge his mood by his eyes.

“Dad!” Xiao Xi was even more frightened when she saw that Xiao Jiantian was so old.

“Why are you here, little rabbit!” Xiao Jiantian didn’t expect his silly son to come.

“I haven’t seen brother Xiao Chen for many years. Come to talk about the past?” Xiao Xi gave a careless eye. Then he asked:

“Didn’t you say that Lord Ouyang can cure you?”

“Ouyangchen, that boy is not a thing! I’m really blind!” Xiao Jiantian’s teeth itched when he heard the name.

“Why did you come here today...” Xiao Xi seemed to have a hunch of what was going to happen next.

“Of course, I asked my nephew Xiao Chen to treat me. After all, we all have the blood of the Xiao family. Do you think so, nephew Xiao Chen!” Xiao Jiantian looked at Xiao Chen with a smile.

“Oh? Come to cure? That’s nice. You see. My elder brother Xiao Xi also wants to cure. Why don’t you two discuss and discuss? Who wanted to abolish my Dantian and drive me out?” Xiao Chen said coldly.

“Hey. What are you two doing ahead? We’re still waiting for doctor Xiao Chen to cure!”

All the doctors behind urged.

It’s really hard to feel the taste of aging all the time.

“What a noise! Who do you think you are!” Xiao Xi arrogant tunnel.

“Hey, brother, that’s your fault. All my guests come to my store. The customers are God. How can you treat my gods like this! You’d better go aside and discuss your affairs first!” Xiao Chen waved his big hand. Let two security guards come directly and pull them away.

“Nephew Xiao Chen, we know we were wrong. I was obsessed with what happened in those years, but I was wrong. We kowtowed to you!”

Then Xiao Jiantian knelt down directly to Xiao Chen, and Xiao Xi knelt down with him.

Although both of them now show a great compliment to Xiao Chen, they have made a plan in their hearts. As long as Xiao Chen cures their disease, they can turn their face and refuse to recognize others at that time.

“Kowtow? Is kowtow worth money? Everyone here, they kowtow! Hey!” Xiao Chen looked at them jokingly.

Hearing this sentence, Xiao Jian has a lot of killing opportunities in his eyes. If it's not for his aging, only Xiao Chen can cure it. He wanted to kill Xiao Chen now. The peerless ancient book of the medical immortal gate was also missing because of Xiao Chen's appearance.

As a result, many skills and secrets of the medical immortal sect have been lost. Now the medical immortal sect is far less prosperous than before.

“Nephew Xiao Chen, you should look at the face of our blood relationship. Give us a chance. I promise that Xi'er and I will treat you like our family in the future. Even if you want to get back the leader of the medical immortal sect, we can help you!” Xiao Jiantian knelt on the ground and begged.

The appearance is quite sincere, which makes people feel that all he said is true.

But who is he? Xiao Chen knows most clearly in his heart. The reason why Xiao Chen was driven out by the medical immortal gate was that these two made “great achievements” in those years.

“Well, uncle and brother, you don't have to say much. Just follow the rules. As for your sincerity and whether you really want to cure your own disease, it depends on yourself.” Xiao Chen said while helping other aging doctors.

“What are the... Rules?” Xiao Jiantian asked.

Xiao Chen motioned for the bulletin board over there.

They both walked over and were stunned after reading it. This rule is worse than killing them.

You know, they also paid a lot for this miracle doctor quick success pill. Although they are from the medical immortal family, ouyangchen didn't give face to anyone, so the father and son just smashed the pot and sold iron for a few.

Now that this is the case, they have to hand in all the money they have earned. How can they agree.
