Chapter 1011: Sand Sea

In the sea, there was a special scenery—sand.

Based on what humans knew, sand was extremely common. It was formed by nature after thousands of years or even billions of years.

The sand was extremely fine. If it was magnified a thousand times, the world of sand and stone would be like a dazzling river of stars, extremely beautiful.

However, with more magical things like sand, there would be changes.

At this moment, Han Fei and the others arrived at an underwater sand bed. At least, as soon as Han Fei appeared, his perception spread out for 500 kilometers, and everything was sand and stone.

At the bottom of the sea, there was a waterfall known as the Sandfall.

There was nothing special about this in itself. There were no less than ten sand waterfalls in the periphery of the Scattered Stars Island. As water would pour down in a waterfall, sand poured down in a sandfall.

However, for ordinary sandfalls, the flow wasn't very large.

The moment everyone recognized their surroundings, Jiuyin Ling said, "Do we just ignore those people outside?"

Han Fei explained, "Yes! Because of some balance, they can't attack us now. If it's a Hidden Fisher, he won't be a match for us. If it's a law enforcer, he won't dare to attack us. This time, their goal is to anger us and lure us into the Star River, where they might set a trap for us."

Jiuyin Ling's eyes turned slightly cold. "Shameless."

Han Fei said casually, "We won't go to the Star River for the time being. We can't give them a chance. They probably can't control the three Holy Lands. When the time comes, we'll go to the three Holy Lands directly."

Luo Xiaobai said, "Let's check the environment first! There's something under the sand."

There was a kind of withered yellow seaweed here. Therefore, Luo Xiaobai immediately sensed something through the spiritual plants here.

Han Fei scanned it and said simply, "There are a small number of Mess Swallowing Worms. However, they should be stronger than the ones in the level-three fishery. There aren't many of them, and shells are almost extinct here. I'm afraid there are large creatures here."

Almost at the same time, Han Fei and the others said, "Sand Silkworm?"

Luo Xiaobai shook her head. "It's different from the sandworms we know. Don't forget that the sandworm we saw last time lived in the undersea forest. Although there's sand there, it's mostly mud caves."

Han Fei said, "Apart from the Sand Silkworms, there's also a very large fish."

Jiuyin Ling couldn't help but look at Han Fei. "I didn't sense it."

Han Fei said, "More than 300 kilometers away, there's a stupid fish growing vertically. Let's ignore it for now. Since this is a secret realm at the level of a Hidden Fisher, it's definitely not that simple. Let's go take a look at what is on the sand."

Any one of them had the strength to face the law enforcers. Of course, they weren't afraid of a mere desert.

When the few of them stood on the sand, Zhang Xuanyu struck out with his spear and nailed an ugly Mess Swallowing Worm with a hard carapace.

Zhang Xuanyu said, "It's not strong, but its body structure is very strange, like sand."

Han Fei took out his fishing rod and hooked it out. It pierced through the air and appeared more than 2,000 meters away. With a wave of his hand, he pulled out the Mess Swallowing Worm.

Being more than thirty meters long didn't mean that it was powerful. Even ordinary Mess Swallowing Worms were more than thirty meters long.

When Han Fei pulled the Mess Swallowing Worm closer, he found that the particles on the carapace were obvious, as if a layer of crystalline sand had been applied to it.

At that moment, the Mess Swallowing Worm's long body was twisting in the seawater as sand constantly fell.

Information appeared in Han Fei's eyes.

<Name> Sandworm

<Introduction> Sand-eating worms. Sandworms like to eat rare gems and crystals in gravel. By refining these gems and crystals, their bodies are strengthened. They are often buried in sand, and adult sandworms are 30 meters long. There are sand thorns in their bodies, and their joints can be broken, allowing their bodies to be disassembled. Splitting growth is the basic ability of sandworms to survive.

Le Renkuang frowned and said, "I hate bugs."

Li Luoluo rushed over. "I like bugs."

Li Luoluo pinched the sandworm's body with one hand and crushed one of its scales.

She said, "This sandworm's shell is very hard. It feels like it's about to reach the level of an advanced spiritual weapon."

Han Fei casually slashed out a saber beam and cut the sandworm into two.

Each of the half-broken worm bodies rapidly grew a ferocious head and began to escape.

Pa! Pa!

Luo Xiaobai grabbed the two sandworms with her vines and asked in puzzlement, "They can split into two living beings?"

Han Fei shrugged and said, "It should be its characteristic. I'll try cutting it a few more times."

Swish! Swish! Swish!

In the blink of an eye, the Mess Swallowing Worm was chopped into eight pieces. To everyone's surprise, the eight pieces were all alive, but their levels had dropped.

Han Fei cut again and found that even though the sandworm was cut into twenty pieces, it was still alive. It went from one creature to twenty creatures.

"Boom!"

Han Fei smashed the twenty sandworms with a punch. This time, these sandworms were truly dead.

At this moment, Luo Xiaobai grabbed dozens of colorful stones.

Li Luoluo reached out and grabbed all the stones. "This color is really nice."

Luo Xiaobai said, "I roughly understand. The Mess Swallowing Worms here can split infinitely. Unless they are completely crushed, they will split more and more. However, these Mess Swallowing Worms won't split themselves, or it's not time for them to split yet."

Han Fei smiled. "It's not strong anyway. It's even weaker after splitting."

Luo Xiaobai shook her head and said, "No, I can sense the aura of a spiritual plant from this Mess Swallowing Worm."

Just as Luo Xiaobai finished speaking, there were several loud bangs. Five to six withered yellow vines suddenly emerged from the sand.

Li Luoluo jumped out with a whoosh. In midair, a few colorful worms appeared and with a flash, Li Luoluo returned to Han Fei's side.

Li Luoluo screamed, "What's that? I didn't sense it."

Luo Xiaobai said, "A spiritual plant, a Purple Bamboo spiritual plant that can have consciousness."

At this moment, as soon as the spiritual plant appeared, it pounced at Han Fei and the others.

Han Fei casually slashed out. With a ding, he felt a huge resistance. Although he had cut off a section of it, he felt this thing was extremely hard.

Luo Xiaobai said, "Catch it."

Han Fei said, "No, let's go down to see its body."

Luo Xiaobai was stunned for a moment and couldn't help but smile bitterly. Truly, the talented were bold. This spiritual plant was obviously extraordinary. Han Fei actually wanted to let the spiritual plant pull them over.

With Han Fei's reminder, no one stopped him. However, when the vine tentacle reached out to Luo Xiaobai, it suddenly began to shrink rapidly.

Luo Xiaobai's expression changed slightly. "It wants to run."

Han Fei immediately flashed out and grabbed the vine. Pressing it down with the Law of Gravity, he shouted, "Come on, pull it out."

Jiuyin Ling and Li Luoluo were dumbfounded. Is this the style of the Thug Academy?

The spiritual plant had already hidden far away, but these people still wanted to pull it out?

At this moment, information appeared in Han Fei's eyes.

<Name> Jade-Eating Demonic Vine

<Introduction> This is a strange creature in the sea of sand. It likes to eat jade essence and is extremely resilient and powerful. It can reach the strength of two waves and is good at lashing and binding. Jade-eating Demon Vines give birth to jade essence that can be used to forge divine weapons.

<Level> 58

When Han Fei saw the message, he was stunned. A level-58 creature with the strength of two waves had such great strength? No wonder it took him some effort to drag it without using any secret techniques.

Indeed, the secret realm was even more dangerous than he imagined. If an ordinary peak-level Hidden Fisher with a strength of 8 million catties was here, he wouldn't be able to defeat the Jade-eating Demon Vine.

Because the vines had many tentacles!

At this moment, dozens of vines slapped across the sky. Han Fei sneered and slashed with his saber beam, breaking all the vines.

At this moment, Luo Xiaobai grabbed the vine with one hand. Her eyes turned white as she attempted to control it.

In a moment, the six of them pulled out a huge sand pit without using any secret techniques. Luo Xiaobai's level was higher than the jade-eating demonic vine, so she had already succeeded in controlling it to crawl out.

A moment later, everyone saw a huge root that looked like an old tree root appear on the sand. Fifty to sixty large tentacles and countless small tentacles were swaying with the waves.

Han Fei curled his lips and said, "That's it? Heh, there must be more than one here."

Jiuyin Ling said, "Look, this tree has already turned into jade. Don't tell me it raised those Mess Swallowing Worms?"

Han Fei nodded. "It's very likely. This means that there are far more Jade-Eating Demonic Vines like this in the desert."

Luo Xiaobai came back to her senses and said, "There's indeed more than one spiritual plant here. Through it, I can sense that in the middle of this sea of sand, there's still the biggest one. It might have reached the law enforcer level."

Zhang Xuanyu grinned and said, "So what? Can't the six of us defeat a law enforcer-level spiritual plant?"

Luo Xiaobai thought for a moment and said, "There's no need. To us, defeating it doesn't mean much."

Han Fei nodded. "We don't lack resources now. A battle at this level is meaningless. Let's go out! Let's split all the Star Beads. After dealing with the dangers in some low-level secret realms, we'll throw them to Xing Yue and company. After dealing with them, let's go take a look at the ruins."

Luo Xiaobai couldn't help but look at Han Fei. "How many ruins are there?"

Han Fei said, "Eighteen."

"Wow..."

Chapter 1012: Ruins Expedition Team (1)

Zhang Xuanyu put his arm around Le Renkuang's shoulder and sighed. "The two of us are indeed just here to make up the numbers."

Le Renkuang's reaction was normal. "How nice!"

With the experience of entering, it was easy to leave. As soon as spiritual energy touched the Star Bead, the portal opened. With a whoosh, Han Fei and the others returned to the Thousand Star Proving Ground.

At that moment, it was about 300 seconds before they entered. If they hadn't stayed in the sea of sand for a while, they could have come out even earlier.

"Eh! They're out."

In the distance, many people revealed looks of surprise.

Although the clash between the students of the Thug Academy and the children of the big clans hadn't really erupted, it was impossible for it not to attract the attention of others.

In particular, some people from the seven sects were silently watching.

Of course, they didn't come to cause trouble for Han Fei. With Chu Jian and the others gone, no one came to cause trouble.

Ku Shui quickly came to them. "Young masters, you're out already?"

Luo Xiaobai said indifferently, "These secret realms aren't of much use to us. There's no need to explore them too much."

Han Fei took out more than 200 Star Beads and many fish skin maps and said, "Alright, in that case, let's split them. If most of the secret realms aren't too difficult to pass, ignore them. But if we encounter a few troublesome creatures, solve them. Next, we'll explore the ruins. Fatty, follow Li Luoluo."

Li Luoluo immediately said, "I'm a law enforcer! I can do it alone."

Han Fei smiled and said, "You're just a temporary teacher at the Thug Academy, and the resources are accumulated by the Thug Academy for a long time. Do you understand what I mean?"

To put it bluntly, Han Fei's trust in Li Luoluo was only on the level of a friend.

In the world of cultivators, it was already not bad to have a friend. It was impossible for Li Luoluo to explore her own secret realm alone.

As the saying went, defenses couldn't do without. They couldn't trust anyone who wasn't from the Thug Academy. After all, it wasn't impossible for the big clans to have some deliberate arrangements to achieve their goals.

Why did he let Le Renkuang go with Li Luoluo? This guy didn't seem to be strong, but when he really exploded, he was second only to Han Fei.

He had mastered both Overlord's Technique and Violent War Body, and the legendary creature, Deep Blue Roar, as his contractual spiritual beast, as well as the Sky Swallowing Technique. If there was really a problem with Li Luoluo, Le Renkuang could completely suppress her.

Li Luoluo had no objections to this.

Of course, she wouldn't ask why Jiuyin Ling could explore it alone. It was because Han Fei knew what kind of person Jiuyin Ling was. She didn't hesitate to give him the Comfort and Nature Technique, which was a great show of trust.

...

Three days had passed.

In the square of the Thousand Star Proving Ground, Han Fei and the others became famous. The name of the Thug Academy was almost everywhere.

Because...

Almost every two hours, Han Fei and the others would come out several times. Then, they took out a new Star Bead and opened a new portal.

This frequency shocked everyone. Did the Thug Academy have so many secret realms?

Someone sighed. "What's the background of the Thug Academy? With so many secret realms, they're comparable to the big clans!"

Someone said, "Go back and check the information. This school's reputation was once above the seven major sects."

Someone said, "I've already counted. In the past few days, this group of people has already appeared in nearly 200 secret realms. This is crazy. Can none of those secret realms stop them?"

Someone scoffed. "Do you know who these guys are? Han Fei is famous in the Unknown Place. He killed a law enforcer when he was only an intermediate Hidden Fisher. Do you think a non-explorer secret realm can stop them?"

Swish!

Han Fei appeared in the trial square.

At this moment, he didn't plan on continuing.

This time, he had a feast for his eyes. There were really all kinds of strange secret realms.

There was an undersea jungle, a sea of sand, a nest of insects, an area of undead creatures, ruins of sunken ships, a fish tide canyon... Han Fei couldn't help but sigh. There were really all kinds of strange places in the sea.

After two hours, Jiuyin Ling came out.

As a law enforcer, Jiuyin Ling's exploration speed was very fast, especially with the seal law she had mastered. This made her almost invincible.

After a while, Luo Xiaobai, Zhang Xuanyu, Le Renkuang, and Li Luoluo all came out.

Han Fei: "How is it? How many haven't been explored?"

Luo Xiaobai shook her head. "No. We didn't thoroughly explore them but just confirmed the level of danger."

Zhang Xuanyu curled his lips. "I encountered an octopus just now and almost died inside. However, I cleaned it up myself."

Le Renkuang: "We've checked the secret realms we entered as well. There aren't more than ten abnormal secret realms."

Han Fei nodded. "Alright! From now on, we'll leave them to Xing Yue and the others. Next will be the ruins. Those places are different from these ordinary secret realms. Let's go together."

Luo Xiaobai nodded. "Alright!"

Li Luoluo said, "Actually, I think we can also observe the law-enforcer secret realms. After all, our strength is already comparable to a law enforcer's."

Luo Xiaobai shook her head. "Not for the time being. From these ordinary secret realms, it can be seen that these secret realms aren't something ordinary law-enforcers can dominate. If the strength of the law enforcer-level secret realms reach the level of advanced or peak law-enforcers, the danger will be completely uncontrollable."

What Luo Xiaobai said was exactly what Han Fei was thinking.

At present, he was the only one here who could fight advanced law-enforcers head-on, let alone peak-level law-enforcers.

For example, even if he called out the Punishing Saber, he still couldn't kill Chixue Huan. From this, it could be seen that Han Fei and the others shouldn't enter the secret realms of the Law Enforcer level no matter what.

Han Fei only had a total of eighteen ruins-type secret realms. Eight of them were at the level of the Law Enforcers, which meant that they could only explore the remaining ten for the time being.

As for the order of choice, it was naturally from easy to hard.

First was the level of Dangling Fisher.

Han Fei said, "Don't mind the low level. Ruins-type secret realms are the most mysterious. There will always be some strange information left inside. Let's check them one by one."

After opening a Dangling Fisher Star Bead, they walked in and appeared in a sunken ship.

"Huh?"

In the pitch-black water, a light flashed and something began to escape.

In such low-level ruins, no one would bother to chase after them.

Le Renkuang said, "Anti-Heaven Blade, are we back in the level-three fishery?"

Luo Xiaobai shook her head. "It might not be the level-three fishery. Places like the level-three fishery are surrounded by humans, but this doesn't eliminate the possibility that there are Anti-Heaven Blades in the outside world. There are many such waters, so there should be many relatively safe places."

Han Fei released his aura. Instantly, a large number of creatures on the huge sunken ship fled. There were jumping conchs, octopuses hidden in the shattered deck, squids, roe deers, red-browed shrimp, and all kinds of starfish...

In any case, the moment the aura of a strong master pressed down, more than a hundred living beings began to flee crazily. After all, the level of this secret realm was too low. The living beings here wouldn't be too powerful.

Luo Xiaobai said, "Don't destroy this secret realm. Leave it to Daji and the others in the future. To them, this secret realm is definitely dangerous."

From the location of the creatures that had just escaped, ordinary Dangling Fishers would probably have to fight their way in. It was very dangerous.

Han Fei nodded. "Yes, we just need to observe carefully."

First of all, from the outside, this sunken ship looked very ancient. It had a mast, but this thing couldn't be seen on current fishing boats.

Looking at the size of the sunken ship, it was more than 300 meters long. This was not something the small and ordinary fishing boats could compare with.

Just from its appearance, Han Fei could confirm that this ship was the kind of normal ship he knew and wasn't used for fishing.

Furthermore, there were two rows of railings that resembled skeletons on both sides of the hull. Despite so many years, they hadn't rotted, revealing the jade-like internal structure.

There was also a dragon's head at the bow. It wasn't a real dragon's head, but like the head of the Green Swimming Dragon Han Fei had seen before.

As Luo Xiaobai swept up the vines, the hull that was covered by barnacle and seaweed was revealed. Exquisite patterns were revealed. These lines weren't only made of seaweed, but also all kinds of strange beast patterns.

Upon seeing this, Han Fei's eyes narrowed. "This ship left behind from ancient times seems to have been damaged in battle. However, the hull doesn't rot and has the texture of an ultra-quality spiritual weapon."

Zhang Xuanyu exclaimed, "Holy sh*t... This ship is very valuable!"

Le Renkuang was dumbfounded. "Rich? We should have come to the ruins long ago!"

She said, "I've seen similar patterns in some ancient books, but there are very few records."

Luo Xiaobai said, "You have to look at the long-term. When we obtained this secret realm, it was impossible for the president and the others not to know the value of this ship. However, they didn't

touch it. First of all, the Thug Academy doesn't need to sell ultra-quality spiritual weapons to make a living. Wealth is just wealth. It has no real meaning to us now."

Han Fei nodded. "Yes, besides the value of this ship, there must be something more meaningful inside. Let's split up and look around. There's no danger here."

Chapter 1013: Ruin Expedition Team (2)

If he wanted to find the hidden story in this ship, he had to clear it out.

Therefore, Luo Xiaobai and Li Luoluo played a huge role.

Luo Xiaobai controlled the spiritual plants to clean up, while Li Luoluo used worms to clean up. It seemed that manipulators had a unique talent in certain matters, such as cleaning.

A moment later.

Han Fei found the main cabin inside the hull. This surprised him. This was different from the layout of the fishing boat. The place where Han Fei was now could be called the control room, and below it was the lounge.

Han Fei's eyelids twitched when he saw the rudder.

Han Fei passed through the cabin and entered the lounge.

A moment later, he easily found a jade box in a sealed cupboard. Inside the box was a logbook.

When he saw the logbook, Han Fei immediately grinned. Indeed, humans were more like navigators in the past, not like now when fishing boats became tools for travel.

The logbook was a necessity for a captain. This box had probably been opened by a former student of the Thug Academy.

He must leave this diary here because of the habits of the Thug Academy. When future students had the ability, they could naturally come and check it themselves.

Han Fei took out the box and everyone immediately surrounded him.

Zhang Xuanyu asked in surprise, "What's this?"

Han Fei smiled. "A logbook."

Jiuyin Ling asked in surprise, "What's a logbook?"

Considering the requirements of Jiuyin Ling's cultivation technique, Han Fei explained, "In ancient times, the sea wasn't all. There were continents. Some humans needed to explore the sea through large ships. Back then, there might not have been any flying fishing boats. Therefore, the ship we found was very different from ordinary fishing boats. Such a large ship needed a captain. To record everything on the journey for reference, the captain needed to make a daily record of the voyage. For example, the captain could record the location of some special reefs, which was equivalent to a map. It was also used to record the sailing situation every day. This logbook was equivalent to a memo. If an accident

happened to the ship, when people found it thousands of years later, they would know what happened to it. Well, in fact, the logbook itself is an interesting record with many stories.”

What Han Fei said made the others speechless. Was it so complicated for ancient people to travel by boat? Shouldn't it be mainly fishing?

With that said, Han Fei flipped open the fish skin map that wrapped the logbook. On it was a map of the route and a drawing of the harbor. However, this thing was of no value now. This was because all the places had been submerged, so the map was useless.

Han Fei threw the nautical chart away, but Luo Xiaobai caught it. “Don't throw it away.”

Han Fei didn't pay much attention to it, but he saw that the name of the ship was written on the sailing day: “Hope Exploration Records.”

He flipped to the first page.

There were only several lines of words on it. It was the captain's note, signed by Lin Cang, who was likely the captain of the Hope.

Han Fei flipped open the notebook and saw:

Year 13822, Day 17 of the Sun's Chronicles, the Hope set off.

This was the title. The text was as follows.

In just ten years, tsunamis erupted everywhere, and countless sea creatures swept through the safe sea. This wasn't the first time in history, but this time, it was extremely serious.

Today, more than half of Yu City's land has been seized. The sea demons have attacked and the cities are in a fierce battle. The city governor ordered me to head to Boulder City to request reinforcements as the captain of the Hope.

I don't know if there's any hope for Hope... many ships have already been sent out, but none of them have returned. Perhaps... No matter what, I'm now the hope. I shoulder the hope.

That was all for the first page of the logbook.

Han Fei turned to the next page.

On the second page of the logbook, it wrote the Day 21 of the Sun's Chronicles. Han Fei wasn't sure what the Sun's Chronicles was. It was probably a calendar.

Lin Cang directly wrote:

“The current sea is too terrifying. We've encountered the greatest blow in history. Nearly half of the strong masters on the ship perished during a huge fish tide, and three law-enforcers perished.

I don't know how to proceed? I'm certain of one thing. We have encountered the legendary sea race. There are merfolk, shrimp soldiers, crab generals, demon snakes, clam girls... Legend has it that these creatures have been destroyed by the gods, but it seems that the gods have deceived us. The enemies

facing Yu City aren't just ordinary sea demons. We might be facing countless races that should have lived in the Endless Deep Sea.

Thankfully, I'm already an Explorer. I saved Hope, but tomorrow, I don't know...

After reading the second page,

Everyone's eyes widened.

Luo Xiaobai asked, "Gods?"

Li Luoluo said in surprise, "What kind of existence is a god? Is it a realm above the king level?"

Jiuyin Ling asked curiously, "What kind of creature are shrimp soldiers and crab generals? What kind of creatures are demon snakes and clam girls?"

Han Fei and the others looked at each other in surprise. Could this be related to the Age of Gods that Old Bai had mentioned?

Han Fei said, "Who are these so-called gods? None of us know. However, these so-called shrimp soldiers, crab generals, and other creatures might be creatures beyond our knowledge. Isn't it said that there are other creatures in the Infinite Ocean beyond us? Perhaps there are other creatures in that distant sea."

Han Fei didn't explain much. He continued to flip through two pages, both of which described the war. What kind of danger and strange things did they encounter today...

It wasn't until the fifth page that Han Fei and the others noticed.

Day 27 of the Sun's Chronicles. It couldn't be stopped.

Upon seeing the words "cannot be stopped," Han Fei and the others were slightly moved.

One could imagine a scene that even an Explorer couldn't withstand.

When the Hope set off, there would definitely be many experts accompanying it. However, this couldn't withstand the daily deaths!

The logbook recorded:

This wasn't an ordinary crisis. This was an unprecedented crisis.

In the endless sea, there will definitely be a new god rising. I saw a scene that I will never forget for the rest of my life. Thousands of living beings are awakening and transforming into demons. Their goal isn't just to target Yu City. I estimate that the situation in Boulder City isn't much better.

The other party has three strong masters at the Spirit Breaking Dao Seeking realm guarding them. I finally understand why the strongest master in Yu City has disappeared for no reason.

From what I can tell, he didn't disappear but was killed by a super strong sea demon. Yu City might be destroyed.

After writing this line, I feel I might die in battle in the vast sea.

If the latter could see Hope's logbook, remember to inform humanity and find another way. Find the legendary place. Perhaps humanity still had hope.

Signed by: Lin Cang.

Han Fei hurriedly flipped to the back, but as recorded in the logbook, after writing this page, Lin Cang went to fight and probably died.

Hope's request for help ultimately failed.

Le Renkuang couldn't help but ask curiously, "Wasn't he already an explorer? Why didn't he just fly over, but walk across the sea?"

Han Fei thought for a moment and said, "Don't forget that there are also strong masters among the sea demons. If he can fly, do you think Lin Cang won't?"

Luo Xiaobai said, "There's another possibility. This Lin Cang isn't very strong among the explorers. If the two places are too far apart, even explorers probably can't keep flying, right?"

Han Fei shook his head. "That's unlikely. Explorers should be able to absorb the spiritual energy of heaven and earth. Besides, in that case, wouldn't it be better to just teleport there directly? Why would there be a need to sail there? Since it can't be done, it means that these methods were useless or destroyed."

Luo Xiaobai said, "Let's keep looking and see if there's anything else."

Han Fei thought for a moment. The most valuable on the ship was probably the logbook.

Han Fei stopped searching, but before long, Jiuyin Ling pulled out a small box and ran to Han Fei.

Han Fei's eyelids twitched. Huh? This box is well-preserved.

Everyone gathered around again.

However, as soon as the box was opened, Han Fei saw shells, crab pincers, a transparent glass, and a few metal objects scattered inside. He immediately understood what they were.

Han Fei said with a smile, "This is just a simple storage box. I'm guessing it's a crew member who wants to bring some gifts back for his children. Therefore, they put all kinds of random toys here. As for why they weren't stored in the Sea Swallowing Seashells, it's probably because these things are very common and worthless. Well, it's also possible that the Sea Swallowing Seashells are very expensive and this crew member can't afford them."

Jiuyin Ling blinked. It seemed that she hadn't found anything useful!

After a while, no one discovered anything special. There was nothing to decipher about the decorative patterns.

Therefore, Han Fei said, "Alright, let's go out! To the next ruin."

Chapter 1014: Ruins Expedition Team (3)

A Hanging Fisher-level ruin was on a completely different level from a Dangling Fisher-level ruin.

In fact, the Heavenly Desolate City that Han Fei and the others went to should have been equivalent to a Hanging Fisher-level ruin, but once they returned to the past, who knew what kind of ruins it was? Or perhaps it wasn't a ruin at all, but an opportunity.

At this moment, Han Fei and the others arrived at a Hanging Fisher-level ruin. It was probably a small human settlement.

Many ghosts haunted here, who were constantly roaring, but unfortunately, it was useless to Han Fei and the others.

After exploring the area, they found some traces left behind by humans.

For example, Li Luoluo had brought a pair of intact vases from somewhere. Han Fei was stunned. There's porcelain here?

Of course, Han Fei asked, "Why are you carrying two jars?"

Li Luoluo said, "Don't you think these are very exquisite? Look at this drawing, look at this carving, look at this body... Hey, don't go!"

At that moment, Zhang Xuanyu came over with a rusted rod and shook his head. "This is just a trial secret realm. It doesn't have any special value. Perhaps the people living in this place died in a sea demon attack."

...

The third ruin was similar to the second ruin, but there were more ghosts here but they were relatively stronger. Furthermore, there were many boulders in this place. There were many tall, damaged buildings with different human faces.

Suddenly, Li Luoluo shouted again, "Come here, all of you."

Everyone rushed over, only to see that Li Luoluo had dug out a skeleton with worms.

However, when everyone saw the skeleton, they were a little stunned.

Jiuyin Ling was surprised. "This person's skeleton is so tall. He's probably seven to eight meters tall."

Le Renkuang said in surprise, "This shouldn't be a human, right?"

Zhang Xuanyu curled his lips and said, "It's definitely a human! Look, if this isn't a human skeleton, what is it?"

Luo Xiaobai said, "Let's keep looking."

In just a moment, everyone dug out another two to three such corpses. Among them, the largest skeleton was about 15 meters tall.

Han Fei looked at the almost jade-like skeleton and said, "It should be a different human race, the giants."

Everyone looked at Han Fei and thought, How do you know everything?

Han Fei immediately said leisurely, "First of all, we can confirm that these are human bones. Since they are human bones, we can be sure that they are human. This is a ruin from ancient times. I won't be surprised if a dwarf race existed back then, much less a giant. Perhaps there are even palm-sized imps."

Everyone rolled their eyes. Li Luoluo said disdainfully, "A palm-sized imp race? Wouldn't they be wiped out easily?"

Han Fei said with a smile, "The sea creatures are getting bigger and bigger, but they didn't see us humans being wiped out! Different species definitely have different characteristics. It's boring to look at these bones. It's best if you find something like stone carvings or books. That way, there will be archaeological value."

Half an hour later...

Zhang Xuanyu suddenly said, "Come here. We found something."

They followed Zhang Xuanyu to run more than 800 kilometers away. Han Fei was speechless. How far did this guy run?

It wasn't until Zhang Xuanyu led Han Fei and the others to a cliff that he pointed at a large stone sculpture on the cliff and said, "There, they're indeed giants."

In the painting, a group of burly giants seemed to be building a city. Some giants moved mountains over, while others fished out giant trees from the sea.

Following that, the scene changed. It was a scene of giants eating. And in this painting, there was a strange scene. When the giants were eating, they would worship a totem.

The totem was a female figure that Han Fei and the others were familiar with. It was the Sea God statue.

Zhang Xuanyu smiled and said, "It seems that in ancient times, people began to worship the Sea God?"

Luo Xiaobai suddenly said, "Wait a minute. Someone has already worshiped the same Sea God like us in the Age of Doom. Then, how much time has passed?"

Luo Xiaobai's question stunned everyone. Who knew how long it had been?

Luo Xiaobai said, "Don't forget that when we were reading the logbook just now, it had already been more than ten thousand years old. As for the Age of Doom, it has definitely been ten thousand years. Otherwise, there would definitely be a large number of records left regarding the Age of Doom. But in reality, there aren't any."

Han Fei swallowed and said, "This means that the Sea God we worship has actually lived for a long time. He might not be dead yet."

Le Renkuang hurriedly said, "Wait, will gods die?"

Han Fei rolled his eyes and said, "I'm just wondering if the so-called Sea God is a Sea Expansion king. If so, that king has lived for too long. If not, the realm above the king..."

Jiuyin Ling suddenly said, "Look at the third painting. It's about war. There's an especially tall giant."

Everyone hurriedly turned their gazes to the third painting. The giant in the lead was fighting a huge octopus monster. He was more than twice the height of the other giants and was probably close to 40 meters.

In the giant's hand was a huge ax.

Luo Xiaobai said, "It looks familiar."

Han Fei said, "He's a little like Yang Deyu. Do you still remember his will of War God? How similar is it to this giant?"

Han Fei was certain that the Yang family must have obtained a secret realm related to the giants and inherited something, such as bloodline.

And he was still thinking: Does the Cao family also have such an inheritance? After all, Cao Qiu has the bloodline of the War God. When it erupts, he doesn't even look human.

Han Fei explained, "They experienced a battle with a sea demon. See that? There's a clam girl with a big shell over there. However, I don't see any shrimp soldiers or crab generals. They seem to be soft creatures fighting them."

There were a total of six paintings.

In the fourth painting, the battle had clearly failed. In order to preserve their bloodline, this Giant had sacrificed a newborn baby.

In the fifth painting, the clouds in the sky parted as a pair of eyes appeared above the clouds.

This scene made Han Fei's pupils contract. The fish skin map Ren Tianfei left him had a pair of similar eyes.

Li Luoluo couldn't help but shiver. "Eh~ What strange eyes."

The sixth painting was at the entrance of a hall. Where was this hall? Han Fei already had an idea: the Heavenly Palace.

Luo Xiaobai and the others exchanged looks but didn't say anything.

Luo Xiaobai said, "Let's go to the next ruin."

...

Unfortunately, the third ruin was similar to a village battlefield with many ghosts. However, the ghosts here were normal. There were no giants, stone carvings, or books.

The exploration of the Dangling Fisher-level ruins was over.

The Hanging Fisher-level ruins had also been explored.

There were six ruins of Hidden Fishers.

Without any surprise, the danger here would be even greater. However, there were six people here, so they weren't flustered at all.

At the same time.

In a particular family.

Someone reported, "Han Fei and the others should be clearing the secret realms, but they were extremely slow today. It took the six of them a day to clear four secret realms. They should be investigating the ruins."

"Yes! A ruin at the level of a Hidden Fisher shouldn't be difficult for them. They probably won't be able to explore explorer-level secret realms. Don't worry about it for now."

Elsewhere.

Someone had a similar response. "Let's not worry about it for now. The secret realms left behind by the Thug Academy are just for testing their disciples. We'll talk about it when they finish exploring all the ruins and enter the Star River to find new ruins."

Someone else replied, "There's no rush. Let's wait for a while. When the time comes, we'll send someone to see if we can exchange for a ruin-type secret realm from them."

...

In the ruins of the level of Hidden Fishers, Han Fei ignored the three battlefield-like drawings and chose three architectural ruins.

At this moment, Han Fei and the others were standing in a place that looked like a pyramid. However, Han Fei knew that it wasn't. The altar only had five floors, and there were exactly 45 steps.

At the top was a room.

Han Fei tried to perceive, only to find that the entire altar had blocked perception.

Han Fei grinned. "Let me do it."

Luo Xiaobai reached out and bound Han Fei with vines. "Be careful."

What Han Fei didn't want to climb the most was strange places like altars. These places always hid mysteries. Who knew if they would make him enter illusions, memories, or the past?

Jiuyin Ling said, "Let... me go? I have the seal law."

Han Fei shook his head. "No. What do you want to seal? There isn't anyone you can seal."

With that, Han Fei stepped onto the first step.

After stepping on the steps, Han Fei looked back and found that everyone was looking at him.

"Eh! It's very real. It looks like I was overthinking things."

Seeing that there was no problem, Han Fei quickly climbed up the steps to the top.

At this moment, he saw a small one-room tomb. Yes, there wasn't even a coffin. There were only three walls and a ceiling. Therefore, the tomb was completely exposed to Han Fei.

The walls were colorful and seemed to be totem-like. On the three walls, there was a small square pit that was empty.

Logically speaking, if there was nothing inside, this small hole shouldn't have been dug out. The thing in it had probably been taken away by a senior from the Thug Academy.

On the ground was a corpse. Han Fei's eyelids twitched when he saw the corpse. It was the kind of corpse that had appeared in the underground city and the Undersea Chimney...

Around the corpse were four small humanoid statues that were prostrating as though they were praying.

What were they praying for? Han Fei looked up and saw a pair of terrifying eyes painted on the ceiling.

"Holy sh*t, it's those eyes again?"

Chapter 1015: Strange Corpse

Last time, Han Fei forgot to ask Ren Tianfei what the eyes on the fish skin were.

This was already the third or fourth time he had seen these eyes...

Even a fool would know what the eyes represented. It represented being extraordinary.

Han Fei looked at the eyes, hoping to find some information from the wall patterns around the altar.

However, for some reason, he felt a chill down his spine.

Suddenly, in his vision, he saw the eyes that were originally engraved at the top of the room move.

The eye was originally looking at the corpse on the ground, but now it was already looking at Han Fei.

"Gulp!"

Han Fei swallowed. The Invincible Heart was actually resisting.

Han Fei suddenly shouted, "What are you looking at? Come here if you have the guts!"

"Crack! Crack! Crack!"

Hum!

As soon as Han Fei said so, the rotting corpse on the ground suddenly stood up.

"Holy sh*t, he's really coming!"

Han Fei flew back and looked back, only to see the other people frantically gesturing at him. Following their gestures, he saw a pair of blurry eyes appear in the void.

"F*ck! There's one outside too?"

Swish!

Han Fei retreated all the way to the bottom of the altar, and the corpse quickly followed. This left Han Fei and the others dumbfounded. What the hell was this?

It wasn't until Han Fei left the altar that he heard the voices.

Zhang Xuanyu asked, "What's this?"

Li Luoluo: "Let's quickly spread out."

Luo Xiaobai said, "Prepare for battle."

Jiuyin Ling waved her hand in the air, and a seal appeared. "Seal!"

It was obvious that the corpse paused for a moment. However, the corpse seemed to have some unknown power, which helped him escape the restraints on him.

"Devil Change!"

Taking advantage of the moment when the corpse paused, Han Fei activated the Devil Change and spread his Phantom Glass Wings.

Han Fei shouted, "Spread out. I'll fight him."

As he spoke, Han Fei's figure approached the corpse. As the saying went, the skilled were bold. In terms of close-quarter combat skills, Han Fei wasn't weak at all.

At that moment, Han Fei's body turned golden. He grabbed the corpse with one hand and slammed it with his shoulder.

BAM!

A violent explosion occurred between the two of them. Han Fei never expected a corpse to be so powerful.

"Seal!"

"Instant Mystic Spear"

"Worm Devour."

At that instant, everyone attacked at the same time. Countless tiny vines extended from the corpse's feet and bound it.

Holding the saber in one hand, Han Fei twisted his body and unleashed the Drawing at close range.

Clang~

Clink!

BAM!

The saber hit the corpse hard, but the sound made Han Fei's scalp tingle. This thing's hardness was comparable to a mid-quality divine weapon?

The corpse was instantly sent flying by Han Fei. It rolled on the ground countless times and a stick stabbed an inch into his chest.

As for the stick in Zhang Xuanyu's hand, it bent like a bow.

"Hoooooo!"

The corpse trembled and Zhang Xuanyu was sent flying. He tumbled dozens of times before stopping.

As for Li Luoluo's worms that attempted to burrow into the corpse's body, they were crushed by a jolt.

With a tap of her finger, Jiuyin Ling poked the corpse's head.

The corpse was sent flying again and rolled dozens of times on the ground.

With a crack, a saber mark appeared on the corpse's chest—it had just been slashed by Han Fei.

"True Martial Fiend Saber."

Along with the True Martial Fiend Saber appeared the Sky Swallowing Technique.

Using the Sky Swallowing Technique to suck the corpse, Le Renkuang slashed at its head.

Clang~

The backlash from the saber's might hit Le Renkuang's hand, body, and face. It made him feel what power was...

Smack!

Fortunately, Le Renkuang's strike was rather violent and split the corpse's head apart.

Han Fei took the opportunity to dodge and slashed at his arm with the Drawing.

Luo Xiaobai immediately understood what Han Fei meant. The vines grabbed the limbs of the corpse and tore them apart.

Clang~

This battle lasted for nearly a hundred seconds before they killed the corpse. This was even after Han Fei used Devil Change.

When Han Fei looked up again, he found that the eyes had disappeared.

Zhang Xuanyu kicked the corpse and said, "Good lord, isn't this too hard? This corpse is comparable to a divine weapon!"

Le Renkuang rubbed his stomach and said, "More than that! His strength is astonishing. Fortunately, we came together. Otherwise, it would have been dangerous."

Han Fei nodded. "No wonder there are so few high-level secret realms. And this is a secret realm at the level of a Hidden Fisher. How strong will the Law Enforcer-level secret realms be?"

Luo Xiaobai said, "What did you see up there?"

Li Luoluo said, "That's right! Just now, you stood there without moving. Then, a pair of eyes appeared in the void. It was terrifying."

Han Fei curled his lips and said, "Nothing. Just a pair of eyes. Now, the corpses are useless. Let's go."

After a moment.

When Han Fei led everyone up the altar, his eyes suddenly widened.

Everyone looked at Han Fei speechlessly. Zhang Xuanyu said dumbfoundedly, "No way! Fei, why is there another one?"

Han Fei was also stunned. "Holy sh*t, retreat!"

A hundred seconds passed.

With their previous experience, they cooperated perfectly and killed the corpse, their faces filled with puzzlement.

Han Fei said with a sullen face, "When I was up there, I only saw one corpse. But when I went up with you, I saw another one. If nothing goes wrong, there's still one when we go over now. The problem isn't the corpse, but the eyes."

Everyone exchanged looks. What kind of strange altar was this? How could there be endless corpses?

Luo Xiaobai said, "Therefore, it's not that the seniors didn't explore this place back then. They did, but new corpses kept appearing. But what are those eyes? There are also such eyes in the giant ruins. They seem to be above the clouds."

Han Fei nodded. "Let's go to the next one. This ruin isn't that big. I think it's a building. Who knew that we would come here to fight... Let's go to the next one."

Han Fei basically knew what this secret realm was for. It was to tell the people that the eyes were strange, and this secret realm was to remind them to pay attention.

Regardless of whether there was anything else worth investigating, this secret realm was still in his hands. There was no need to repeatedly fight with a corpse.

Furthermore, Han Fei suspected that the origin of this corpse didn't seem to be from the plains of the underground city.

Therefore, he thought of the Heavenly Palace.

Han Fei still remembered that when he took the Origin Water, the shadow had said that the Heavenly Palace was now filled with such corpse puppets. Not only were there low-level ones, but there were also many Explorer-level puppets.

Han Fei thought that even if he came to this secret realm again, he would have to come alone.

Han Fei: "Let's go to the next place."

"Wait a moment."

Luo Xiaobai interrupted Han Fei. "I have a question."

"Huh?"

Luo Xiaobai looked at the altar and said, "For some reason, I have a feeling that the ruins we have passed through are related. We have seen these eyes in the ruins of giants. However, don't forget that above the eyes is a palace."

Jiuyin Ling suddenly said, "By the way, there's something I don't know if I should say."

Everyone looked over and Han Fei couldn't help but say, "Go ahead!"

Jiuyin Ling pursed her lips and said, "When I cultivated the Comfort Technique, I was once brought into an illusion by a strange force. I once saw a huge floating island I had never seen before. There was a melodious voice nearby."

Everyone was waiting, but Jiuyin Ling blinked and fell silent.

Han Fei was stunned. "That's it?"

Jiuyin Ling's face turned slightly red as she opened her mouth. "Yes."

The corner of Han Fei's mouth twitched. "Alright! At least it's information."

With her face flushed red, Jiuyin Ling smiled awkwardly. It wasn't easy for her to interject, but it didn't seem to be effective.

Han Fei said, "What Xiaobai said makes sense. If these ruins are all connected, it means that all the ruins in the Thousand Star Proving Ground are probably connected. More or less, they involve some secrets about the Age of Doom."

Luo Xiaobai said, "If that's the case, our ruins-type Star Beads should be very valuable."

Han Fei immediately said in distress, "But we can't snatch the ruins of other families!"

Jiuyin Ling opened her mouth and said slowly, "My family should have a few."

Luo Xiaobai added, "My family has some too."

Han Fei couldn't help but laugh dryly. "No rush. I've already achieved my goal of coming to the Thousand Star Proving Ground. My main goal is to sweep through the secret realms, which is suitable for Su Daiji and the others to cultivate. As for exploring the ruins of the Age of Doom, it's just my own interest. Besides, even if we don't have enough ruins, there are still the three Holy Lands to explore. So don't worry. There's plenty of time to do these things."

In fact, Han Fei already had a guess. If this pair of eyes could take out a corpse, could it take a person up?

If his guess was right, would eight-star or nine-star secret realms directly appear in the Heavenly Palace?

In Han Fei's opinion, this ruin might also be a spatial tunnel that allowed one to come and go freely. So, why couldn't it directly lead to the Heavenly Palace?

Chapter 1016: Heavenly Dao Dharma Eye

Three days had passed.

Han Fei and the others had been in the Thousand Star Proving Ground for nearly ten days.

Unfortunately, not every ruin had secrets to explore. For example, two of the remaining Hidden Fisher-level ruins had been completely destroyed and had no value for inspection.

Instead, he found a coffin in one of the battlefield relics that Han Fei least favored.

This was also the last ruin that they could explore at this level.

In the ruins, other than the location of the coffin, there were signs of damage everywhere. This place used to look like a mud city, but it had been reduced to rubble in the battle.

Zhang Xuanyu said, "With such a violent fighting style, I think it should be done by our own people. I mean, the seniors of the Thug Academy once fought here and destroyed it..."

Han Fei said, "Then why did they only leave this coffin behind?"

Everyone was standing in front of the coffin.

There were some strange patterns engraved on the outside of the coffin. These patterns were basically engraved all over the coffin. Together with the lines of inlaid gold and jade, the coffin looked extremely noble.

The patterns on the coffins were even more interesting. There were twenty types of patterns, and Han Fei basically recognized them all.

There were crocodiles, houses, snakes, deer, rabbits, water, skeletons, wolves, apes, grass, giant eagles, flowers... There were also a few creatures that he didn't recognize. Perhaps these creatures were relatively rare.

Upon seeing these relief sculptures, the first thought in Han Fei's mind was that they were stone carvings of ancient humans. In the past, the most famous stone carving of ancient humans he knew was the Sun Stone, also known as the Solar Stone.

It was a calendar that recorded time. It was usually in the shape of a disc, involving Chinese eras. However, why were these patterns engraved on the coffin. Were there meanings behind them? A noble coffin was still a coffin. What was the point of being so luxurious?

Clearly, the stone carvings on the coffin weren't a calendar. The patterns of these small animals were rather odd. Could it be some hunting result?

Han Fei carefully pondered and found that there were weak energy and spiritual energy fluctuations around the coffin. It felt like a human breathing.

This feeling was very weak, but Han Fei and the others were almost law-enforcers. It was impossible for them not to feel this.

Le Renkuang swallowed his saliva. "Should we open it or not?"

Li Luoluo bared her teeth and said, "Why didn't the seniors of the Thug Academy open it before? Why did they leave it for us?"

Jiuyin Ling suddenly said, "It should have been opened."

Everyone looked over. Han Fei said, "How did you know it?"

Jiuyin Ling blushed slightly and said, "You know the technique I cultivate. Although I've changed it, I can vaguely hear some strange sounds. One is that I can hear someone breathing weakly inside the coffin. The other is that I seem to be able to see some blurry images from this place. It seems like someone once opened this coffin. There seems to be a woman sleeping inside, but for some reason, it has been sealed again."

Han Fei and the others couldn't help but look at each other. What was this? Prediction?

Han Fei raised his eyebrows. "Comfort Technique?"

Jiuyin Ling nodded slightly. "Yes, although it has been abandoned, there are still some characteristics left. The former Comfort Technique can communicate with the world's music, allowing one to see through the secret from the music."

Han Fei couldn't help but ask, "Is the woman inside still alive?"

Jiuyin Ling shook her head. "I don't know. But I think since she's breathing, she should still be alive!"

Li Luoluo: "It's getting more and more unbelievable! Weren't we here to explore the secret realm? Now, we become tomb raiders?"

Luo Xiaobai said, "Since it has been opened, let's open it."

Han Fei nodded. "Take note. If anything goes wrong, immediately use secret techniques. Fatty, help me open the coffin. Open it gently."

The flesh on Le Kuang's face trembled as he couldn't help but grumble, "Why is it always me?"

Zhang Xuanyu smiled and said, "Do you want a girl to do this job?"

As Han Fei and Li Renkuang lifted the lid, the two of them looked at each other. The lid is so heavy!

Han Fei said, "Maybe there's a gravity array under the coffin lid. It's fine. Move it away first."

When the two of them gently opened the coffin lid, the first thing that appeared was a pair of bare feet with fair skin. Then, there were exquisite calves. Following that was a green gauze robe.

"It's indeed a woman."

Everyone exchanged looks.

After Han Fei and Li Renkuang moved the coffin lid away, they looked back and saw an exquisite-looking girl in her twenties. In terms of appearance, she was the cute type of girl. Her face was slightly chubby, and her hands were crossed on her abdomen.

And under the girl's hands was a jade slip.

Upon seeing this, everyone exchanged looks. There must be a lot of information in this jade slip!

Han Fei couldn't help but ask, "Are you taking it or not?"

Luo Xiaobai rolled her eyes at Han Fei. Ask me? Who should I ask?

Han Fei smiled. "Alright! Then take it. I don't believe this woman can come back to life."

Jiuyin Ling said, "Then why didn't the seniors take it?"

This question stumped Han Fei and the others. Who knows?

Han Fei said, "I'm not afraid. I'll touch it and try to read the information in it."

Luo Xiaobai said, "Shall I do it? I'll try using the spiritual plant."

Han Fei nodded. This was better than him using his own hand.

Luo Xiaobai summoned a grass vine and slowly extended it to the jade slip. Seeing that the woman didn't react at all, everyone heaved a sigh of relief.

However, Luo Xiaobai frowned and said, "I can't read any information from the jade slip."

Everyone knew that Luo Xiaobai could parasitize vines and make spiritual plants become a part of her. Was this jade slip useless?

Han Fei reached out his hand. Since Luo Xiaobai didn't have any problem, it shouldn't be a big problem for him either.

Han Fei gently removed the woman's hand and pointed at the jade slip.

"Master..."

"Shoot!"

Han Fei suddenly retracted his hand and saw Le Renkuang and the others hurriedly activated secret techniques.

Zhang Xuanyu asked nervously, "What's wrong?"

Han Fei looked at the woman lying in the coffin. After a long while, he said, "I'm fine, Yu! Try tapping it with your finger?"

Li Luoluo was instantly rendered speechless. "You scared us to death. Do you know that it's very easy to scare people to death?"

Luo Xiaobai was speechless at Han Fei. She had almost used a secret technique just now.

Jiuyin Ling had already condensed the law of seal in her hand.

Zhang Xuanyu said reluctantly, "Let me do it?"

Han Fei nodded. "It's no big deal. Just tap on the jade slip and see what's the reaction."

Zhang Xuanyu glanced at Han Fei. Perhaps Han Fei was just trying to scare him. It would be definitely fine! Otherwise, he wouldn't have asked him to touch it?

Zhang Xuanyu slowly extended his finger and placed it on the jade slip. However, after a while, he said, "There's no reaction!"

Li Luoluo: "Let me try."

A moment later, Li Luoluo shook her head. "I really can't see anything. Is it because this jade slip is too old and useless?"

Luo Xiaobai shook her head slightly. "I don't think so."

Following that, Jiuyin Ling, Le Renkuang and company all tried, but the jade slip still gave no reaction.

Only then did Han Fei reach out his finger again and tap the jade slip carefully.

This time, the same voice sounded.

"Master, is that you?"

Han Fei's pupils constricted and his fingers froze. Luo Xiaobai and the others were nervous to see it.

Zhang Xuanyu scolded jokingly, "Stop pretending! It gave no reaction to all of us, OK? Why did it give you a reaction? Do you think this is your wife?"

However, Han Fei ignored him.

He tried to put his spiritual power into the jade slip. "Who are you?"

Suddenly, Han Fei felt an excited spiritual power touch him.

The spiritual power sent a message. "Master, are you back? Ci'er has been waiting for you for a long time."

Han Fei said, "Um... Miss, I don't think I'm your master. You've probably been lying here for tens of thousands of years, but I'm only twenty."

The spiritual power suddenly trembled. "Impossible. If you aren't Master, how can you have Master's bloodline power?"

Suddenly, the spiritual power stirred again. "Ah! Master, have you been reincarnated?"

Han Fei was dumbfounded. Are you kidding me? Reincarnated?

However, Han Fei immediately grasped a key piece of information. Luo Xiaobai and the others couldn't sense it, but only he could. What did this woman mean by bloodline power?

The only thing Han Fei could think of was the Water of the Origin. He had met the Ninth Palace Lord through the Water of the Origin, so this was the only connection he could think of.

Han Fei rolled his eyes and said, "I can't be sure. Since I'm your master, do you know where I come from?"

The spiritual power was trembling. “Of course it’s Yin-Yang World! Master, have you not recovered your memories? Master, don’t be anxious. Perhaps it’s because your strength hasn’t recovered to a certain level. Your memories will definitely be reopened.”

Han Fei said, “Yin-Yang World? Are you talking about the Ninth Heavenly Palace?”

“Yes, Master. Ever since you went to pry into the Heavenly Dao, many things have happened. The Heavenly Dao Dharma Eye descended and covered the Great Dao foundation of this world. The guardian puppets in the Heavenly Palace had their consciousness wiped away by the Heavenly Dao Dharma Eye...”

As the voice spoke, Han Fei could clearly sense that the spiritual power was somewhat mournful. “Our Heavenly Palace didn’t have many people to begin with. The puppet riot resulted in Sister Xue’er’s death. In order to prevent the Heavenly Palace’s war from affecting the Thousand Star City, the controller sealed off the Central Holy City of the Thousand Star City, restored the three Holy Places and severed the connection between the Heavenly Palace and the Thousand Star City. Due to my weakness, I was sent out of the Thousand Star City by the controller. However, due to my severe injuries, I was attacked by a villain surnamed Chu from the Thousand Star City. I had no choice but to cultivate a reincarnation body.”

Han Fei’s scalp went numb. Heavenly Dao Dharma Eye? It’s the pair of eyes I saw?

A pair of eyes had actually sealed the Great Dao foundation of the Yin-Yang World? This was probably the reason why no one in the Thousand Star City could create a sea and become a king!

Also, what was the reincarnation body this woman talked about?

However, Han Fei had got one piece of information: a villain surnamed Chu from the Thousand Star City. Who else except for the Chu Sect people in the Thousand Star City was surnamed Chu?

Chapter 1017: The Way to the Heavenly Palace

After the woman said that the people of Chu Sect had attacked her, Han Fei immediately understood a lot.

Why didn’t the people of Chu Sect snatch the Sea Quelling Painting?

It seemed like the people from Chu Sect... had been exploring the Thousand Star Proving Ground. Why?

Their goal was to find this coffin and this woman?

At this moment, Han Fei already knew that the major families only knew that there was an opportunity to become a king in the Sea Quelling Painting. The opportunity they thought of might be different from what he had obtained.

He had obtained the Origin Water, but they were probably thinking of using the Sea Quelling Painting to enter the Heavenly Palace.

Therefore, the Heavenly Palace was their ultimate goal.

As for the people of the Chu Sect, they had long known of this woman. In fact, they had successfully sneaked an attack when no one was paying attention, allowing this woman to escape into the Star River secret realm.

Therefore, they kept searching. How could the opportunity to find the Sea Quelling Painting be as direct as finding this woman?

Finding the Sea Quelling Painting might not necessarily allow one to enter the Heavenly Palace, but the chances of finding this woman and ascending the Heavenly Palace were much higher than the Sea Quelling Painting. After all, this woman had come from the Heavenly Palace.

Furthermore, Han Fei thought of something.

Old Bai said that the Patriarch of the Thug Academy had been to the Heavenly Palace. Then, did the destruction of the Thug Academy have something to do with this? As the Patriarch of the Thug Academy had been to the Heavenly Palace, the big clans in the Thousand Star City, or rather, Chu Sect, felt that the woman had been captured by the Thug Academy, so they came to attack the Thug Academy?

In fact, their real goal was to obtain the Thug Academy's Star Beads.

Also, the reason why Ren Tianfei was crippled wasn't just because he had brought the Sea Quelling Painting down from the Heavenly Palace, right?

Perhaps they also wanted to know the way to the Heavenly Palace through Ren Tianfei...

As for Old Han, he had always been mysterious. Others might not know that he had been to the Heavenly Palace.

In any case, this woman was calling him master. It was best for him to use this opportunity to fish for information.

Han Fei had thought that this trip to the Thousand Star City would be very difficult. What was the Thousand Star Proving Ground? What were the Three Holy Lands? What was the Central Holy City...

He felt that every place sounded very dangerous.

But who would know that in the ruins left behind by Old Bai, he could find people from the Heavenly Palace. Old Bai probably didn't expect that he could speak to this girl, right?

Han Fei immediately asked, "How may I address you?"

The mental wave said, "Master, just call me Ci or Little Ci. That's what Master used to call me."

Han Fei asked, "Little Ci! Is that Chu guy you're talking about from Chu Sect?"

"Chu Sect? I've never heard of this faction. However, that person's surname is Chu indeed. They destroyed a portion of Ci'er's soul and even stole my Star Shell."

Han Fei thought to himself, so Chu Sect probably boomed because they snatched Little Ci's belongings.

Son of a bitch!

It was no wonder Chu Sect was so passionate about the Thousand Star Proving Ground. It seemed they had benefited too much and wanted to continue benefiting from Little Ci.

Han Fei asked again, "Little Ci, how should I enter the Heavenly Palace?"

Little Ci's mental strength trembled for a while. "Master, what's your current strength?"

Han Fei said bluntly, "I chose the path of invincibility, so it's very difficult for me to advance. At present, I've just reached the peak of the Hidden Fisher level and am about to become a law enforcer."

"Ah! Master, you actually chose the path of invincibility?"

Han Fei couldn't help but ask, "What's wrong with the path of invincibility?"

Xiaoci's mental strength seemed to be a little nervous as she hurriedly said, "Master, everyone says that the path of invincibility is a path of no return. They say that there's no such thing as invincibility in this world. In history, less than 10% of those who walked the path of invincibility survived. Why did you walk this path?"

"Shoot!"

Han Fei was dumbfounded. What? Is the path of invincibility so dangerous?

However, Han Fei said indifferently, "The Dao of Heaven is heartless, treating all things as junk. Since I've embarked on this path, I have my own karma. Alright, Little Ci, how do I go to the Heavenly Palace?"

Han Fei felt that he could just brag a little. If he bragged too much, he might expose himself.

Little Ci fell silent for a moment before saying, "Master, I'm afraid you won't be able to go to the Heavenly Palace for the time being."

Han Fei said, "I know I'm not strong enough, but I need to know the way to go. After knowing the way, I have to think of a way to transcend the tribulation in Water-Wood World and break through to the Explorer level. The person who injured you has now become a power known as the Chu Sect with a Venerable guarding it. If I don't leave, I'm afraid I'll be in danger of dying."

"Huh?"

The mental strength fluctuated violently. "That bastard surnamed Chu. How dare they touch you, Master? Little Ci, Little Ci..."

Han Fei hurriedly said, "Don't be agitated. I have my ways to deal with it. I know that there are many puppets in the Heavenly Palace, and the Origin Water is over there. Therefore, I won't give Chu Sect a chance to take advantage of it. When I find out the way to the Heavenly Palace, I'll quickly become a law enforcer and transcend the tribulation at Water-Wood World. Once I succeed in transcending the tribulation and cultivate for a period of time to break through to the Venerable realm, I'll wipe out all these large clans."

Little Ci's mental strength stirred. "They have to be destroyed. They have to be ruthlessly destroyed. Master, in fact, you'll know the way to the Heavenly Palace after you awaken your memories. However, these two methods are too difficult now. The first is the Star River's level-nine secret realm. It's your

daily cultivation ground. However, with your present strength, I'm afraid you won't be able to choose this method in a short period of time. This is because you need to reach the peak of the Venerable realm at the very least."

Han Fei rolled his eyes. Peak of the Venerable Realm? Are you kidding me? If I really reach the peak of the Venerable Realm, I can defeat these big clans alone. When the time comes, I'll have plenty of time and means to enter the Heavenly Palace.

Han Fei couldn't help but ask, "What about the other one?"

Little Ci said, "Go to the Central Holy City. However, with Master's current strength, I'm afraid it will be somewhat difficult. However, since Master has embarked on the path of invincibility, it definitely won't be difficult for you to pass the Sky Meditation Garden and the Ideal Palace. Only the Monument of Gods might take you some effort. But it might be very difficult for you to head to the entrance of the Central Holy City with the controller's avatar guarding it personally."

Han Fei's heart stirred. "What's the strength of a controller's avatar?"

Little Ci said, "I don't know how much time has passed. The controller seems to have been injured as well. I don't know if his strength has dropped to the Venerable realm, but he's at least at the junior Venerable realm."

Han Fei felt terrible. Are you kidding me?

A peak Venerable and a junior Venerable. I can't f*cking defeat either of them!

Little Ci said, "Besides, I don't know if Master still remembers the killing arrays in the Central Holy City. Those killing arrays were set up by the controller. But if you awaken, everything will be fine. The controller will definitely be able to recognize you. When that happens, it will be as though you are walking into your own backyard."

Han Fei let out a long sigh inwardly. But I'm not your master! How troublesome!

Han Fei couldn't help but feel a headache. From what Little Ci said, there were only two ways to enter the Heavenly Palace.

The first path wouldn't work for him for the time being. Was a peak Venerable a joke?

As for the second path, it seemed like he had to pass through the three Holy Lands and enter the Central Holy City from the Monument of Gods. At the Central Holy City, he had to first defeat the Controller's avatar and pass through some killing arrays...

"Sigh, why is life so difficult!"

On the side, Zhang Xuanyu sighed and said, "Feifei, are you trying to take advantage of her? You've been holding onto that jade slip for a long time."

Han Fei glanced at Zhang Xuanyu and communicated with Little Ci, "Little Ci, when will the reincarnation body you're cultivating be completed?"

Little Ci replied, "Master, nearly half of my soul has been destroyed. When I was reincarnated with the secret method, I was just a junior Explorer. If I want to revive this time, I need a large number of ownerless souls. Otherwise, I'll need an extremely large amount of reviving items. Otherwise, I'm afraid it will take a long time."

Han Fei thought that if he could revive Little Ci, he might be able to take her to challenge the Monument of Gods with him. When the time came, wow, wouldn't the controller see that they were on the same side? Perhaps he would let them enter immediately.

However, he didn't have either of the two items that Xiaoci needed. These were extremely rare treasures. How could it be so easy to obtain them?

Han Fei said, "Little Ci, wait a few years. I'll revive you after I return from Water-Wood World and enter the Heavenly Palace."

Little Ci was excited. "Yes, Master. I'll wait for you here. However, Master, although you have a good relationship with the Water-Wood World's Palace Lord, will she covet your strength because you are still weak?"

Han Fei raised his eyebrows. Was the relationship between the Palace Lords of Yin-Yang World and Water-Wood World very good?

"That's not right. From what Little Ci said, is the Water-Wood World's Palace Lord still alive?"

Han Fei thought for a moment. Little Ci had been lying here for countless years. Perhaps the Palace Lord of Water-Wood World had also died. As for being coveted? Han Fei wasn't worried at all. What do I have for such a powerful person to covet? Perhaps Water-Wood World has many explorers, and they might not care at all.

Han Fei thought for a moment and immediately replied, "Don't worry. Since I dare to go, I'm not afraid of any problems. After all, I'm not sure if I'm the Palace Lord of the Yin-Yang World..."

Little Ci said, "You must be. I can't be wrong. You have the Yin-Yang Dao in your body. Otherwise, you wouldn't have been able to wake me up."

Han Fei was stunned again. "Huh? What is Yin-Yang Dao?"

Xiaoci: "Yin-Yang Dao. This is the strongest talent of our Yin-Yang World. Apart from the Palace Lord, no one can have it."

Han Fei smacked his lips. Is she talking about Little Black and Little White? Besides, after consuming the Origin Water, I do have a second spiritual heritage.

Han Fei couldn't help but say, "Then what do you know about the Yin-Yang Dao? I don't remember this at all."

Little Ci fell silent for a moment. "I don't know either. However, I know that this is the Palace Lord's talent."

Han Fei grinned. Forget it. If she didn't know it, so be it! Anyway, many strange things had happened to me.

It was unknown who had schemed against him, but it was a scheme. Without enough strength, he probably couldn't change the situation.

So he just said, "Little Ci, rest here in peace. The day I regain control of the Heavenly Palace will be the day you are revived."

Little Ci's metal strength stirred violently. "Yes, Master."

Chapter 1018: School Daily

Han Fei felt that he was really awesome now, recruiting henchmen everywhere.

In the Sea Quelling Painting, he took five big shots as his henchmen.

In an unrelated place here, another big shot who originally belonged to the Heavenly Palace had paid allegiance to him. Half of her soul had been destroyed, but she still had the strength of an Explorer. And that reincarnation-body technique she had! She must have been very powerful before she was injured.

She must have been at least a junior Venerable in the past!

Han Fei retracted his hand and said solemnly, "Alright, close the coffin!"

Everyone: "???"

Li Luoluo asked in puzzlement, "Han Fei, are you serious? Don't tell us you can't feel anything."

Zhang Xuanyu also said disdainfully, "That's right. If you can't feel anything, just tell us! Perhaps this girl is a senior sister of our Thug Academy. Let's not be in a rush to close the coffin! Let's try waking her up? She doesn't seem to be a threat anyway. If she's a senior sister of our school, we can't just leave her here!"

Han Fei rolled his eyes and said, "Why don't you take a look at this coffin? What era is it from? Let me tell you, she might be sleeping or preparing for something. It's fine if we take a look at the jade slip, but if we really pull her up, she might get up and kill you."

With that, Han Fei had already sealed the coffin with the coffin lid.

What Han Fei said was true.

When he had the chance, he would definitely revive Little Ci. That way, not only would he have one more follower, but he would also have one more guide.

Well, since she had decided that he was her master, so be it. Since she didn't mind, why did he mind?

Han Fei said, "Alright, alright. I think we've explored enough. To put it bluntly, anything in the Age of Doom can become a ruin. Who knows how many ruins there are? Besides, we only have so many ruins. In the future, when we are strong enough, we can explore them again!"

Jiuyin Ling nodded. "Yes, these ruins aren't of much use for the time being. What's really useful is level-seven secret realms."

Han Fei said, "Alright, now that we've seen all the secret realms that we can explore. Let's go back to school."

Outside...

When Han Fei and the others came out, someone had secretly left, and someone had been watching them.

However, no one came to provoke them.

They seemed to know that this was not the best time to make trouble.

However, even if they didn't stir up trouble now, they would in the future! Therefore, the big clans were just waiting. And their ultimate goal was the ruins.

...

In school.

Crack! Crack!

When Han Fei returned, he saw Su Daiji twisting her body in a strange posture. Her head was on the ground and she was spinning the Cube with one hand.

Han Fei immediately shouted, "Su Daiji, what are you doing?"

BAM!

Su Daiji was startled. She fell to the ground, hurriedly put away the Cube, and began to cultivate the 108 Spirit-Absorbing War Bodies. This was because Han Fei had left enough body-tempering medicine for them to cultivate for a month. Therefore, he wasn't afraid that they had nothing to do.

It was unknown when Su Daiji had broken through to become a level-nine fisher.

Luo Xiaobai said, "It's time to awaken Daiji's talent, right? She seems to have improved quite quickly. It's usually time."

Han Fei nodded. "After the test."

Seeing that Han Fei and the others had returned, everyone was practicing body refinement, except for Yi Xiyuan, who was obviously slacking off.

Han Fei glanced at Zhang Xuanyu. "Talk to Yi Xinyuan."

Zhang Xuanyu pointed at his nose. "Me? You're the acting president."

Hum!

Nine Tails suddenly appeared in an open space. Having adapted to the sea for a long time, Nine Tails usually maintained a size of dozens of meters. Therefore, when he appeared, he gave the five of them a fright.

Seeing that Nine Tails was about to pounce on him, Han Fei kicked him. "Shrink to three meters."

Nine Tails shrank rapidly and rubbed against Han Fei's leg.

Han Fei pointed at Yi Xiyuan and Su Daji and said, "Just keep an eye on them. Whip whoever slacks off! Remember to use less strength. Just use level-seven strength."

Yi Xiyuan immediately said aggrievedly, "Darling..."

Bang!

Before she could see what was happening, a chain suddenly appeared in the void and struck her buttocks.

Nine Tails was an authentic legendary creature. This strike made Yi Xinyuan, who was only an intermediate fishing master, fall to the ground and scream.

Han Fei snorted. "Hmph, even your husband can't save you. If he dares to save you, I'll whip him too."

Zhang Xuanyu hurriedly pointed at Han Fei and said, "Hey, I'm still a pure young man. What are you talking about... Yi Xinyuan, behave yourself and call me Senior Brother."

Yi Xiyuan didn't dare say a word because the big shrimp was already in front of her. Her face turned pale.

Although Yi Xiyuan was naughty, she knew what she could do and what she couldn't. Han Fei had ordered the shrimp to slap her with the strength of a level seven or eight, but she didn't take it seriously! However, she felt that she couldn't even resist the level seven or eight strength.

This made Yi Xinyuan involuntarily gulp. What level was this contractual spirit beast? Why was it so powerful?

Han Fei was very satisfied with her current state and said to Nine Tails, "See that? That little girl. If she secretly plays with the Cube again, whip her."

Su Daiji trembled slightly and began cultivating.

At this moment, Han Fei said, "Have the five of you finished cultivating the 108 Spirit-Absorbing War Bodies?"

Xing Yue: "Senior Brother, I've already cultivated it once. It's just that it took too long."

Han Fei nodded secretly. This was indeed a little difficult. To be able to complete all the poses in ten days showed that these people were talented.

At the very least, when he had obtained the Incomplete Monograph on 108 Ways of Body Refining, with his talent back then, he was already exhausted but still couldn't even finish cultivating it once.

Compared to now, Han Fei felt that they were really blessed.

Luo Xiaobai said solemnly, "Xing Yue, Su Sanqian, test paper."

As she spoke, two vines extended in front of them. The two hurriedly stopped and took out their test papers.

Han Fei and the others gathered together and began to comment.

Le Renkuang took a look. "They've finished the test papers."

Zhang Xuanyu commented, "Eh, it's a little different from what I expected!"

Han Fei said, "It's a little different from what I thought too."

As far as Han Fei and the others were concerned, Su Sanqian had been repressed for a long time and knew the fickleness of human nature. Therefore, it was inevitable that his emotions were a little indifferent.

As for Xing Yue, he grew up in a normal family. Therefore, his personality should be relatively conservative.

However, from the answers, it seemed that Su Sanqian was more willing to help others. As for Xingyue, this kid was somewhat similar to Han Fei and the others. He actually liked to rob.

Everyone looked at Han Fei. You are both spirit gatherers and soul warriors, and like to rob others. This kid is so much like you!

Li Luoluo didn't care about this.

However, after reading the test papers, Jiuyin Ling said indifferently, "I think Sanqian is pretty good."

Han Fei, Zhang Xuanyu, and Le Renkuang chuckled at the same time.

Luo Xiaobai said, "Xing Yue, you will be the captain of this team in the future. You need to cultivate your sense of command! Su Sanqian, you are a manipulator. You can't let your emotions affect your decisions at critical moments. You need to listen to instructions."

Su Sanqian nodded with great effort. "Yes, Senior Sister."

Xing Yue was somewhat surprised. He had secretly compared his answer with Su Sanqian's and felt a little embarrassed, believing that he definitely couldn't beat Su Sanqian. But why was he the captain?

Jiuyin Ling didn't understand either, but Han Fei gave her a look, indicating that he would talk about it later.

Han Fei said, "From now on, all of you cultivate the 108 Spirit-Absorbing War Bodies once and then come to the back mountain."

With that, Han Fei kicked Nine Tails. "Keep an eye on them. Whip whoever slacks off."

...

Back mountain.

Seeing the confusion on Jiuyin Ling's face, Han Fei said, "You've been to the Heavenly Water Village, so you must have been to the ordinary fisheries. Have you seen the resource competition between the villages?"

Jiuyin Ling nodded. "Yes. It's a little cruel."

Han Fei scoffed. "The sea is just that cruel. Apart from the Thousand Star City, the thirty-six towns and the various villages are taught this. On the path of cultivation, a benevolent heart is the most dangerous. You were fighting sea creatures from the beginning, but you probably didn't fight many humans. Therefore, you don't know how sinister the human heart is..."

Han Fei chatted for a while and said leisurely, "Su Sanqian is not suitable to be the captain. Yu, I'll leave him to you."

Zhang Xuanyu was stunned. "Me again?"

Han Fei patted his shoulder and said, "Communication has always been your forte."

At this moment, Le Renkuang had already started cooking. He interrupted, "Should we nurture another chef?"

Han Fei's face turned serious. "That makes sense. Who do you think is the most suitable?"

"Gu Qi! Is there a need to ask?"

Han Fei grinned. "Up to you."

Han Fei and the others were chatting. While Jiuyin Ling was thinking about what Han Fei had just said, she saw a small figure running towards the back mountain.

Luo Xiaobai exclaimed and looked at Han Fei. "Less than two hours."

Han Fei was also somewhat surprised. Could it be that Su Daiji was the kind of person who was born suitable for body refinement? This speed was godly!

Chapter 1019: Sand King

Previously, Han Fei had noticed that Su Daji was different.

After all, in such a strange world, there might be many geniuses like Su Daiji who had seemingly low-level spiritual heritage but actually had a growth-type spiritual heritage.

It was possible that they would be mediocre their entire lives and might erupt in the future, but once that period passed, it would be very difficult for them to rise again.

Su Daiji was lucky to encounter Han Fei and the others before her talent was revealed.

At this moment, the girl held the Cube in one hand and looked at Han Fei. Just as she was about to play with the Cube, she was stopped by Han Fei.

Han Fei said, "Daji, stop playing it. Let me awaken your talent."

Su Daiji blinked and put away the Cube, looking eager. Although she didn't like to speak, it didn't mean she didn't know anything. She had been expecting this matter for a long time.

Luo Xiaobai pointed her finger and a giant vine broke out of the ground, digging a two-meter-deep pool.

Han Fei reached out and grabbed a large portion of the water from the river in the school and poured it into this pool.

Han Fei said, "Daji, go in and sit at the bottom of the pool. Don't come out."

After Su Daiji jumped into the pool with a splash, Han Fei said, "How much Spirit Awakening Fluid does one need to put in the talent awakening?"

They looked at each other in confusion. None of them knew!

Suddenly, the elusive Ku Shui appeared. He said, "Under normal circumstances, 500 kilograms is enough for 1,000 people. However, those with good talent absorb more. To a genius, 5 kilograms is the minimum."

Han Fei said, "What happens if I put more?"

Ku Shui hesitated for a moment before saying, "It shouldn't be a problem. It's left behind because it can't be absorbed. It won't have any negative effects on the body."

Han Fei grinned and said, "Then I'll put in 50 kilograms first. If it's not enough, I'll put in some more."

Ku Shui staggered slightly, thinking, Forget it, I didn't say anything!

Han Fei reached out and threw a large blob of Spirit Awakening Fluid into the pool. Instantly, the entire pool turned dark green.

At a time like this, Han Fei and the others couldn't help at all. They could only wait by the side. Even Le Renkuang, who was cooking, stopped, afraid that he would disturb Su Daiji's awakening.

A hundred seconds.

Half an hour.

Han Fei couldn't help but frown. "Why can she stay in the water for so long?"

Jiuyin Ling said, "Daji's endurance is very good!"

Li Luoluo said, "I remember that I lasted for half an hour."

Han Fei remembered that he seemed to have lasted for a long time. However, unlike him, Su Daiji didn't absorb much of the Spirit Awakening Fluid. The color of the pool only turned a little lighter.

After another hundred seconds, Li Luoluo shouted, "Look, the color is turning lighter."

Han Fei and the others had already seen it. The color was turning lighter and lighter, but the speed was too fast.

In just ten seconds, more than half of the Spirit Awakening Fluid was gone. The dark green color had turned light green.

Han Fei couldn't help but stare. What was going on? She absorbed so much Spirit Awakening Fluid alone?

Luo Xiaobai said, "It slowed down. In that instant, she absorbed more than half of the Spirit Awakening Fluid. Now, she has stopped absorbing the Spirit Awakening Fluid."

Just as Luo Xiaobai had said, in the next hundred seconds, Su Daiji's body emitted some yellow light. It looked like the light produced by the pulse-testing stone.

The color of the light happened to correspond to the yellow color of a level-three high-quality spiritual heritage.

Luo Xiaobai suddenly heaved a sigh of relief and said, "It's not that the pulse-measuring stone didn't detect it, but that Daiji's spiritual heritage is originally this color."

Then, a pincer extended out from the dark yellow light.

Le Renkuang was puzzled. "Lobster?"

Zhang Xuanyu said, "Wait, there's a tuft of yellowish-green fluff on the pliers."

But then, a flat head appeared. Everyone realized that it was a scorpion.

The scorpion seemed to have broken through some restraints as it crawled out with all its might. There were circles of black patterns on its feet, and there was a tuft of yellow-green fluff on its head and tail.

Information popped up in Han Fei's eyes.

<Name> Sand King (Su Daiji's spiritual beast)

<Introduction> An ancient beast that inherited the bloodline of sand. It can freely control sand and rocks, and its digging speed is extremely fast. Its body is covered with sand armor, and its defense is extremely strong. The Sand King is proud and aloof. In battle, it can use the power of the earth to fight under the sea or on the ground.

<Level> 1

<Quality> Legendary

<Spiritual energy> 500 points

<Food> Insects, fish, sand stones

<Note>

Upon seeing this message, Han Fei couldn't help but raise his eyebrows. I've picked up a treasure! Sand King? The name sounds so domineering!

It was a Legendary creature the moment it appeared. Although it was a little inferior to Little Black and Little White, its level was definitely high enough.

Cao Qiu's War God bloodline was very powerful, but it was just of the legendary level.

In fact, as far as Han Fei knew, apart from Tang Ge's White Dragon Feather Spirit Shrimp, the highest level of the spiritual beasts he knew was legendary.

Even the Deep Blue Roar was obtained by Le Renkuang when he was already very strong. Furthermore, there was probably a reason why Le Renkuang seldom used it.

Now, Su Daji's spiritual beast was directly at the Legendary level. It could be said that her talent was very likely comparable to Cao Qiu. After all, Su Daji also had a growth-type spiritual heritage. Even if her bloodline hadn't awakened, it was already precious.

BAM!

Su Daji suddenly opened her eyes and emerged from the water. When she saw a small yellow-green scorpion, she immediately pouted and looked disgusted.

Han Fei rolled his eyes. Why are you complaining? You've already won at the starting line, alright? Some people are born at the starting point, while others are born at the finishing line.

In Han Fei's opinion, Su Daji was born directly at the finishing line.

Before Han Fei could think of what to say, he heard Luo Xiaobai inhale slightly and say, "I think I've seen this creature before."

Everyone looked over, including Su Daji. Luo Xiaobai looked at Ku Shui and said, "Grandpa Ku, is this..."

Ku Shui nodded with a solemn expression. "I think so."

"Ah! What are you talking about? What's so different about this spiritual beast?"

Li Luoluo couldn't wait any longer and was a little impatient.

Zhang Xuanyu said, "Is it very high-level?"

Luo Xiaobai stared at the Sand King. "I've read about it in ancient books. If I'm not wrong, this is an ancient beast, a legendary creature, the Sand King."

Han Fei raised his eyelids and deliberately asked, "What kind of creature is the Sand King?"

Luo Xiaobai said, "It's recorded in ancient books. In ancient times, ferocious beasts were rampant. Back then, there was a world of sand, not the so-called sea of sand. It was the true early sea of sand. There lived a group of terrifying creatures with earth-shaking divine power. They were Sand Kings."

Zhang Xuanyu took a deep breath. "So does this little thing still have earth-shattering divine power?"

Luo Xiaobai said, "If I'm not wrong, there should be someone in the Su family who had a spiritual beast like the Sand King. Otherwise, there's no reason for Da Ji to directly awaken the Sand King."

Ku Shui added, "Indeed, it might be due to the attraction of her bloodline. In that case, Miss Daji might have an unknown bloodline flowing in her."

Han Fei couldn't help but stroke his chin. No wonder Su Daji was a loner and didn't like to talk. Could it be because of this bloodline?

Su Daji suddenly grinned and pointed at the Sand King. "Sand, let's go."

Then she slipped into the maze.

Su Sanqian and company were sweating profusely. Their bodies had already spasmed several times, but they didn't dare relax. This was because Nine Tails was crawling from east to west, from south to north. If they slacked off, they would be whipped hard. That really hurt.

Just as they gritted their teeth and were about to endure the pain, they saw Su Daji running over. Beside her was a small scorpion that was running alongside her in a fluster. From time to time, it would fall to the ground and roll twice due to inertia.

Nine Tails suddenly turned his head. When he saw the Sand King, his eyes pricked up. The Little Sand King was so frightened that it wanted to burrow underground.

No matter what, the Sand King was still a weakling for the time being. Although they were both at the legendary level, he was still much weaker than Nine Tails.

Before the Sand King could burrow underground, Su Daji grabbed its tail and lifted it up.

Then she stared at Nine Tails angrily. "Don't scare Sand."

Nine Tails cocked his eyes. This little thing can't even compare to a single claw of mine. Do I have to frighten it?

Gu Qi said in surprise, "Daji, your talent has been awakened?"

Bang!

Just as Gu Qi finished speaking, a chain lashed down and slammed her to the ground. She was so frightened that she hurriedly got up and continued what she had been doing.

Yi Xiyang's face was filled with curiosity. Xing Yue thought nothing of it. It was just a scorpion! Su Sanqian frowned as though he had thought of something but was unsure.

Su Daji was spinning the Cube as she strolled in front of the four of them. She came and went, leaving them speechless.

Xing Yue couldn't help but say, "Daji, can you stop wandering around? You're affecting our cultivation."

Bang!

Xing Yue was slammed to the ground by a chain.

Su Daiji was obviously flaunting.

When she saw that even Yi Xinyang's face darkened, she finally ran to the back mountain.

With the appearance of Su Daji's spiritual beast, the team was finally complete.

The position of soul warrior was fixed. Perhaps, this would be another legendary combination in the future.

Chapter 1020: Han Fei's Gift

Two months flew by.

Han Fei and the others had already reached the peak of the law enforcer realm after more than a year of training on the Scattered Stars Island. Now, they were teaching the new students some new combat skills.

In the short span of two months, Xing Yue and company had been tortured to the brink of death. This included the most talented Yi Xinyan, who kept clamoring about finding a husband, only to be beaten up daily.

As for Nine Tails, he had already become the exclusive instructor for this group of troublemakers.

In order to curry favor with Nine Tails, Yi Xinyan tricked Su Sanqian and the others every day to catch fish and shrimp to feed Nine Tails. In the end, it was useless.

As Han Fei and the others were too free, almost everyone would pick up the five juniors and train them for a while when they were bored.

For example, Luo Xiaobai liked to whip people with vines, and Zhang Xuanyu liked to hit people. Le Renkuang liked to stand still and let them attack him. Another example was Li Luoluo's bad taste. She liked to tease them with worms.

Once, for some reason, Li Luoluo transformed into Li Keke and shouted that she wanted to play with Su Daji and company. This scared the five of them silly. Up to now, they believed that Li Luoluo had deliberately teased them that day.

As for Jiuyin Ling, she had become the favorite teacher of the five of them.

That was because she didn't beat them, and gave them useful advice every time. Sometimes, when she saw that they were really tired, she would secretly let them rest.

Every time, Han Fei would come over and end their beautiful rest.

Therefore, Han Fei became the number one demon king in the hearts of the five of them.

On this day.

Night fell, and the stars were twinkling.

After the meal, Su Sanqian and the others practiced together and cooperated with each other. Zhang Xuanyu was the instructor, and Le Renkuang guided them from the side. Li Luoluo was watching them cultivate.

Back mountain.

Han Fei secretly carried cylindrical tubes and slipped to the top of the mountain.

Apart from paying attention to the students during class, Jiuyin Ling focused all her attention on Han Fei, including during meals.

Therefore, she immediately knew that Han Fei had slipped to the back mountain, so she followed him secretly.

As for Luo Xiaobai, she simply found it strange. She didn't notice Han Fei, but she did notice Jiuyin Ling. She narrowed her eyes and wondered if Han Fei had fallen in love with Jiuyin Ling. Therefore, she hid among the plants and followed him.

As it had always been safe in school, Han Fei had no reason to constantly perceive his surroundings. Therefore, he didn't discover the two of them following him.

After a moment.

Han Fei stood on the top of the mountain.

He chuckled as he looked at his can of fireworks. This gift was definitely a surprise. It would definitely shock everyone at Tang Ge's wedding.

At this moment, Han Fei thought that he had to release his perception. Otherwise, what if this secret was known by others?

However, when he released it, he found that Jiuyin Ling was secretly hiding more than thirty kilometers away. When he looked again, he realized that Luo Xiaobai's head was stuck in a tree hole, which startled him.

Apart from the two of them, Han Fei didn't feel anything different. This was because it was more than 500 kilometers from the back mountain to the plantation. He couldn't see any further.

Thankfully, he didn't notice anyone paying attention to him within this range. He did perceive two people in the mountains, but they had fled after he swept them with his perception.

Han Fei didn't mind. They were so far away that they couldn't see what he was doing.

Han Fei immediately snapped, "If the two of you want to come, come quickly. Xiao Jiu, you've changed. Why are you secretly following me? And Xiaobai, are you trying to scare me by showing your head?"

Upon hearing that Han Fei was communicating with them via voice transmission, the two of them blushed with shame. Why would this guy release his perception in his own territory?

Moments later, the two showed up.

Jiuyin Ling blushed red, while Luo Xiaobai directly asked, "Han Fei, why are you sneaking around?"

Han Fei grinned and said, "I didn't want to tell you. Since you're here, I'll show you my masterpiece. Come on, witness my great invention."

Jiuyin Ling perked up. A great invention? Did Han Fei make something shocking?

However, Luo Xiaobai didn't think so. She knew Han Fei too well. If it was really great, Han Fei would have told them long ago, so she was sure that it wasn't anything good...

Han Fei put the cylinder on the ground. "Look! Isn't Tang Ge getting married? I'm preparing a gift for him! I wanted to give him a surprise on his wedding day. Since you're here, forget it. I'll show it to you!"

Luo Xiaobai wondered, "This isn't a divine weapon, right? Or is it a very powerful divine weapon?"

Jiuyin Ling sniffed. "I smell something strange."

Han Fei said, "No rush. Let me try first."

Han Fei pointed at the air and the firework fuse ignited.

"Hiss..."

Swish!

Suddenly, a flame soared into the sky, rising more than 300 meters.

When the fireworks exploded in the silent night sky and a colorful and beautiful flower blossomed in the sky. The magnificence before the destruction made one forget the silence of the night. The petals were like jade, like beautiful figures, which left Luo Xiaobai and Jiuyin Ling dumbfounded.

The two of them looked up and widened their eyes. What the hell was this? Why was it so beautiful?

Pa! Pa!

Amidst the blooming fireworks, an array suddenly appeared. The array spread out as the three words "Hahaha" appeared in midair.

"Oh yeah, I made it!"

Han Fei raised his fist vigorously. His purpose tonight was to see if the array he set up in the fireworks was alright.

If not for this, he wouldn't have come to set off the fireworks tonight.

Luo Xiaobai said angrily, "Han Fei."

Luo Xiaobai was very angry. You actually wrote three words on such a beautiful scene? That was too much! Hahaha? What the hell was that?!

Jiuyin Ling hugged her chest with her hands. After a long while, she muttered, "It's indeed a great invention. It's too beautiful. I still want to see it."

However, the tiny cylinder's fireworks had already been released.

Han Fei said, "Don't worry. I just made a test. Let's wait for Tang Ge's wedding! It seems to be in three days. Someone from the Heavenly Sword Sect came to deliver the invitation this morning."

Luo Xiaobai came back to her senses from the beauty of the fireworks. "We're all going?"

Han Fei nodded. "Yes, all of you. I don't think it's that simple."

When Old Han said that he would propose marriage to the Heavenly Sword Sect for Tang Ge, Han Fei had suspected his thoughts.

Old Han was a scheming person. Why did he adopt Tang Ge? Tang Ge was so talented, so why didn't he specially train him? And the moment he met Tang Ge again, he proposed marriage to the Heavenly Sword Sect for him, and gave very precious betrothal gifts. It was more like a combination of the strong.

So Han Fei suspected that maybe Old Han had known that Tang Ge would go to the Heavenly Sword Sect long ago.

Although this didn't seem possible in theory, Old Han did the same thing to him. It wasn't that Old Han wasn't good. Maybe he did all these for the good of Tang Ge and him.

However, he couldn't help but suspect his true motives.

If Old Han really wanted Tang Ge to live the rest of his life well, there was no scheming involved.

If Old Han was scheming against Tang Ge, Tang Ge's wedding might involve something else.

Anyway, he would go to Tang Ge's wedding. If he went alone, he represented Old Han. However, the invitation letter invited everyone from the Thug Academy to go. This was worth thinking about.

If the Heavenly Sword Sect only wanted to show that it had a relationship with Old Han, they wouldn't have invited the Thug Academy. Since they had, there might be something behind it.

Three days later.

Early in the morning, Han Fei came out with a bunch of fancy clothes.

Li Luoluo rubbed her eyes and said, "Han Fei, what are you doing?"

Le Renkuang was humming a tune when he saw Han Fei holding a pile of clothes. His eyelids twitched. "Feifei! What are you doing?"

Su Sanqian and the others also looked at Han Fei. They had a feeling that Senior Brother Han Fei was sometimes crazy and liked to prank people. What was he up to this time?

Luo Xiaobai said, "I want the aqua blue one."

In the past, Luo Xiaobai liked to wear white, but Jiuyin Ling also wore white every day, so she gave up white clothes.

After all, she had to keep an eye on Han Fei and Jiuyin Ling for Xia Xiaochan. Therefore, she chose an aqua blue dress. This one and a vest looked quite exquisite.

Han Fei handed it over and said, "Yes! It's still the same style as before. You have good taste. I thought you would choose white."

Jiuyin Ling was puzzled. "You... know how to make clothes?"

The corners of Han Fei's mouth curled up. "Tch, if I don't even know how to make clothes, what kind of refiner am I? These are all Semi-Divine clothes. Only one set per person."

"Ah!"

Two cries. One came from Li Luoluo and the other from Yi Xiyan.

Li Luoluo asked, "What about mine?"

Han Fei glanced at her. "This fancy one is yours."

Han Fei pulled out a long dress with at least seven or eight colors and seaweed patterns and threw it to Li Luoluo. This was the famous Pop style, and it was the only dress that Han Fei felt was suitable for Li Luoluo.

Before Li Luoluo could say a word, Yi Xinyan jumped over. "Senior Brother, it's mine. I want it too."

Han Fei threw an ordinary JK over and said indifferently, "The five of you are all at the mortal level. If you want good clothes, become stronger."

Yi Xinyan let out a long sigh. She carried the clothes in disappointment and ran to Zhang Xuanyu.

"Darling, help me put them on."

"Puff!"

Zhang Xuanyu said, "Shut up. Call me Senior Brother, especially outside. You have to call me Senior Brother."
