Chapter 1041: Meeting Wang Santie Again

Han Fei's appearance didn't attract anyone's attention, but someone asked, "Brother, have you seen anyone from the Thug Academy?"

Han Fei shook his head with a smile. "I've heard of the Thug Academy, but I don't know and have never seen any of them."

Upon hearing Han Fei's answer, the man immediately lost interest and thought to himself, This guy is just a passerby. Don't take him to heart.

At this moment, the shop owner who had said that he was leaving said, "Brother, do you want to buy a soul fruit?"

Han Fei thought for a moment. What was the currency of this soul world?

Han Fei shook his head. "No."

The person was immediately delighted. "Hey, Brother, it looks like you are going to sell some?"

Han Fei shook his head again. "No."

The person in the other intelligence store laughed. "It seems that he's here to buy information from me! Brother, I guarantee I can provide you with the latest information. I only want one mid-quality soul fruit. Do you need it?"

"Eh, this voice, this tone, this style of speech... Wang Santie?"

However, Wang Santie was also in a disguised state. This wasn't a secret to people who often visited the Ideal Palace.

Han Fei was also somewhat surprised. Wang Santie seemed to be a junior Hidden Fisher! Why was he here now? He even opened a shop and did business?

Han Fei thought for a moment and walked towards the intelligence store.

Wang Santie was immediately delighted. "Brother, come, let's chat privately."

Han Fei remained calm. Of course they would have a private chat. Otherwise, if others heard him, they would know that he was new.

Han Fei entered the shop and saw Wang Santie setting up a soundproof array with a smile. "Brother, my information is very timely. What kind of information do you want to hear? I have everything from the miscellaneous matters in the Soul World to the latest news about the seven secret realms and the secrets of the creation temple. But the price... hehe."

Han Fei glanced around.

When he was in the Sky Meditation Garden, Wang Santie looked like a soul warrior. One could vaguely tell it from his steps and actions.

But now this guy seemed to be a spirit gatherer? To be able to cultivate to this point, this person was rather talented.

Han Fei said calmly, "Apart from Soul Fruits, what else can be used to pay?"

Wang Santie's face froze. "Is this your first time here?"

"F*ck! Did I just expose myself?"

Han Fei thought to himself, As expected, if he didn't know much about the Ideal Palace, he would be seen through just by saying a few words.

Han Fei smiled. "It's my first time here. Can you tell me?"

Wang Santie's expression changed immediately. "Go away! Do you have any money on you? You just want to trick information out of me, right?"

Han Fei looked back outside. There were more than a hundred people in this gathering place. He would even be able to kill them all.

Therefore, Han Fei curled his lips and said, "Then I'll sell you some information. I wonder if you dare to buy it?"

Wang Santie scoffed. "What information I don't dare to accept? Besides, you just came in. What information can you have?"

Han Fei smiled. "Do you know who I am?"

Wang Santie sneered. "I don't care who you are. There are so many people in the Thousand Star City, I can't recognize everyone! Tell me your information. Let me see how much it is worth."

Han Fei continued, "I'm Han Fei from the Thug Academy."

Wang Santie: "..."

At that time, the disdain on Wang Santie's face froze, and he couldn't help but sweat. But then, his expression returned to normal. So what even if he was from the Thug Academy? This was the Ideal Palace! He couldn't kill him.

Wang Santie's expression changed. "There are so many people outside looking for you. Aren't you afraid that I'll leak your information?"

Han Fei said casually, "Since you're so well-informed, there's no need for me to say the name of the Thug Academy and me, right? If you want to say it, go ahead."

Wang Santie said stiffly, "How do I know you're Han Fei? What if everyone comes and says that they're Han Fei? Wouldn't I suffer a huge loss?"

Han Fei smiled. "Why? Have you forgotten that I gave you 200 kilograms of spiritual spring in the Sky Meditation Garden?"

“Shoot...”

Wang Santie nearly wanted to run. Was he recognized by him? Was his bearing that outstanding?

Swallowing his saliva, Wang Santie looked at Han Fei with a bitter look. “If I’m not wrong, the anomaly in the Sky Meditation Garden has something to do with you, right? As soon as you went there, there was a problem. The spiritual beasts of many people in the big clans went wrong. This caused all the families to look at the Sky Meditation Garden, so I had to hide in the Ideal Palace... I think 200 kilograms of spiritual spring is too little.”

Han Fei grinned and said, “I’ll give you a chance to earn more now. If you don’t want to tell the people outside that I’m Han Fei, tell me about the Ideal Palace. I’m talking about a full introduction.”

Wang Santie said leisurely, “But you don’t have money!”

Han Fei clicked his tongue and looked outside. “There’s so much money outside. How can you say that I don’t have money? Do I look like a poor person?”

“Huh?”

Wang Santie looked out of the shop inexplicably. No money... Wait, what did Han Fei mean? Was he referring to the people outside?

Wang Santie was rendered speechless. So you want to rob them?

However, as quick-witted as Wang Santie, he thought to himself, This Thug Academy is quite capable. It’s said that only a few students have come, but the major families don’t dare to do anything against them.

Furthermore, in the Heavenly Sword Sect, Han Fei, as a Hidden Fisher, had shocked the entire Thousand Star City by killing Chu Kuangren. In the Ideal Palace, the realm suppression was at the level of a Hidden Fisher. How many people could defeat Han Fei in this realm?

Wang Santie couldn’t help but lick his lips. As the saying goes, great rewards come from taking risks. From the last transaction, Han Fei should be a trustworthy person.

Wang Santie immediately said, “Then I want all the wealth of these people outside.”

Han Fei couldn’t help but laugh. “How dare you ask for so much. Let’s see if the information you gave me is worth it. I have to measure its value.”

Wang Santie immediately patted his chest and promised, “Don’t worry. I, Wang Santie, have been in the Ideal Palace since I was young. I’m definitely the most familiar with it. I’m not bragging...”

Han Fei said, “Get to the point.”

Wang Santie paused. “Ha, actually! In the Ideal Palace, there are only four things that can be traded. One is soul fruit, one is ownerless soul, one is soul crystal, and one is visualization stone. In order, the first two are the most common, but ownerless souls typically aren’t sold. People will absorb them themselves.”

“Wait a minute...”

Han Fei's eyes widened. "Everyone can absorb ownerless souls?"

In Han Fei's opinion, it seemed that he couldn't absorb an ownerless soul without certain means. At the very least, his method was to split the soul and devour the ownerless soul. How could anyone absorb it here? If so, there should be many human strong masters in soul.

Wang Santie said with a smile, "Don't be anxious. You can't do it elsewhere, but in the Ideal Palace, there's nothing you can't do. You have to know that we are soul bodies here. Do you think an ownerless soul is hard to absorb for us?"

Han Fei's eyes flickered. "You mean, eat?"

Wang Santie said in surprise, "Whoa! You guessed right."

Han Fei was somewhat dumbfounded. He had forgotten his current identity. Yes, he was a soul body now. Why couldn't a soul body eat a soul body?

Wang Santie chuckled. "It's just that it's not easy to find ownerless souls now. Perhaps we might have a chance to encounter them."

Han Fei said, "Continue!"

Wang Santie wasn't in a rush to get the money because as long as Han Fei stayed in the Ideal Palace long enough, he would eventually know what he just told him.

He continued, "Apart from soul fruits and ownerless souls, soul crystals and visualization stones are extremely rare. A soul crystal's value is comparable to a mid-quality soul fruit. As for a visualization stone, its value is comparable to one to ten high-quality soul fruits."

Han Fei asked, "Where can we get them?"

Wang Santie said with a smile, "The seven Soul Realms in the Ideal Palace. The information I'm about to tell you is shockingly valuable... well..."

As Wang Santie spoke, he looked out and chuckled.

Han Fei said with a black face, "Tell me first. Tell me something of value. If you want the resources outside, you have to prove what you said is valuable first."

Wang Santie chuckled. "Alright! Each of the seven Soul Realms is harder and more dangerous than the last. One is easy to die in any one of the seven Soul Realms. Ordinary people only know of the first four Soul Realms. Heavenly talents might know of the fifth Soul Realm, but very few know of the last two. But who am I? I'm Wang Santie. I've been..."

Han Fei said, "Get to the point."

"OK! Of the seven Soul Realms, the first four are the Demon Plant Soul Realm, Undying Soul Realm, Blue Sea Soul Realm, and Prehistoric Soul Realm. They correspond to different challenges such as demon plants, undead creatures, sea monsters, ancient creatures, and so on. They can be said to be very dangerous. If you aren't careful, you will die."

Han Fei asked, "Shall we continue?"

Wang Santie looked outside and continued, "The Fifth Soul Realm is the War Soul Realm. I spent a lot of effort to collect intelligence. Many people die after entering it. It's said that there are a large number of Sea Clan creatures inside, as well as some special creatures. There are constant wars."

Han Fei frowned. "It's said?"

Wang Santie said with a smile, "It can only be hearsay. I've never entered it before, but the information is definitely reliable."

Han Fei asked, "What about the Sixth Soul Realm?"

Wang Santie opened his mouth a few times. "This is really valuable. Perhaps all the people outside combined aren't enough to pay the bill."

Han Fei turned around and strode out of the shop. With a flip of his hand, the Blood Drinking Knife appeared and he slashed out.

Chapter 1042: Seven Soul Realms

As the saying went, attack when necessary.

There were more than a hundred people here. There were probably less than ten people from the big clans combined, but it didn't matter! As long as these people had money, they could be robbed.

The first target Han Fei aimed at was the person who had come up to ask him questions.

A terrifying golden saber beam tore through the air and appeared beside the person. The person's reaction wasn't slow as he instantly thought of three shields to block in front of him.

However, with three cracking sounds, the person was instantly killed.

Suddenly, Han Fei heard Wang Santie say, "The money is in the gray fog."

Wang Santie was afraid that Han Fei didn't know the storage rules here. If Han Fei chopped up all the soul fruit resources, only a few ownerless souls would be left.

Han Fei ignored the gray fog. It won't disappear anyway. I'm in the middle of a battle. How can I have the time to collect things?

When Han Fei suddenly attacked, eight people suddenly shouted, "Who is it? Are you looking to die?"

"Your grandfather, Han Fei."

"Hoop!"

The Phantom Glass Wings spread out, and Han Fei's figure flashed crazily. With a flip of his hand, the law of gravity descended and immediately enveloped five people.

Slash! Slash! Slash!

Before they could react, they had already been attacked.

Furthermore, three of them had died completely. Two of them were dying. That was because... the Void Lines hadn't been able to match his killing speed.

Han Fei suddenly shouted, "Aren't you big clans looking for me? Now that I'm here, come up!"

Wang Santie was dumbfounded. F*ck... Although he's a soul body now, he is still so damn strong!

Many people gulped. Is this the Han Fei that the big clans are looking for? This is crazy! He attacked without any warning and killed so brutally.

Someone roared, "Damn it, quickly inform..."

As soon as the man shouted, Han Fei had already flashed over. The man opened his armor box and a thousand knives flew out at the same time. However, when the knives were halfway through, he suddenly felt a shock. Was it a life-and-death crisis?

At that moment, he instantly figured it out. Han Fei had a way to kill people in the Ideal Palace!

However, just as he was about to speak, he realized that he couldn't say a word.

"Puff!"

In just ten seconds, six people were completely killed by Han Fei, except for one who escaped.

After returning to the gathering place, some people thought that they hadn't offended Han Fei, so they didn't escape.

Han Fei chuckled and walked straight to the shop selling Soul Fruits. "Brother, lend me some money."

That guy: "???"

As if understanding Han Fei's meaning, the person suddenly jumped up and used a secret technique, detonating three spherical weapons.

However, when Han Fei punched out, the entire shop instantly collapsed.

Slash! The shop owner died.

Han Fei said, "Sorry, I'll return the money to you if I meet you again."

Han Fei looked back. "Sorry, everyone. I need to borrow your soul fruits. If you lend your soul fruits to me, I won't send you out."

"Swish!"

Instantly, these people all scattered. A large group of people fled in all directions.

Of course they had to run. If they stayed behind, would they be chopped?

All this time, the concept of the undying soul made them feel that outside the seven Soul Realms of the Ideal Palace, it was a safe place.

However, they had forgotten that if a powerhouse's goal was only to rob, they couldn't resist at all!

Under normal circumstances, a top genius wouldn't come to such a remote corner to rob, alright? No one would have the face to do that.

Han Fei didn't chase after them. Instead, he said casually, "Alright, these things are all yours..."

Before Han Fei could put on a cool pose, he saw that Wang Santie had quietly taken away all the gray fog floating in the air and was rushing to his shop.

As Han Fei attacked, all the shops around him disappeared.

These houses were originally visualized by their owners. Now that they were about to escape and didn't want these things to continue existing and affecting their visualization of other things, they were naturally taken away.

Just now, it was a small market-like place. In an instant, it became an empty space.

Only Wang Santie happily gathered all the resources left.

Han Fei threw over the low-level Soul Fruits he had snatched. "Alright, is this enough?"

Wang Santie chuckled as he received the soul fruits. He thought to himself, "Indeed, one needs to be bold to receive more in return. He's not afraid of those big clans. After all, as long as they leave the Ideal Palace, no one will remember what happened here. Naturally, no one will come looking for trouble with him."

Wang Santie's appearance suddenly changed. He went from a young lad to a middle-aged man with a mustache.

Han Fei said, "Continue."

Wang Santie's expression stiffened. "Should we switch places?"

Han Fei was puzzled. "Is the Ideal Palace very small?"

Wang Santie said, "It's not small. It's bigger than the Sky Meditation Garden. However, if we don't leave, I'm afraid many people will come."

Han Fei asked, "Do you think I'm afraid of them?"

Wang Santie smiled in embarrassment. "Of course you're not afraid. However, if you really want to kill them, you'd better do it in the seven Soul Realms. You won't be able to kill anyone here."

Han Fei's heart stirred. That's good. The Thug Academy has a deep grudge against these big families. As long as there's a chance, no one will let the other party go. What Wang Santie said makes sense.

Even if he had the Void Line, he wouldn't be able to kill them all once more of them came!

"Alright, let's go somewhere else."

After a moment.

Han Fei asked, "What's the difference between being in the seven Soul Realms and being outside? Why can people be killed in the seven Soul Realms?"

Wang Santie chuckled and said, "To be precise, only in the top five Soul Realms people can be killed. It should be due to the rules. The remaining two Soul Realms are filled with danger. It's impossible for ordinary people to obtain information about those two Soul Realms."

Han Fei nodded. "Continue. What's the sixth Soul Realm you mentioned?"

Wang Santie was somewhat hesitant. "The information is really valuable..."

Seeing that Han Fei's expression wasn't good, Wang Santie immediately changed his words. "But I, Wang Santie, will keep my word. Since you've paid, I'll certainly tell you. I accidentally heard about the Sixth Soul Realm from an intelligence report. If I hadn't been in the Ideal Palace since I was young, I..."

Han Fei said, "Get to the point."

Wang Santie nodded. "The Sixth Soul Realm seems to be related to reincarnation. Only elites can enter! But most of the geniuses who entered it have perished."

"Hehe!"

Han Fei nodded, looked at Wang Santie again, and raised his eyebrows. "That's it?"

Wang Santie was also surprised. "Yes! Isn't that enough?"

The corners of Han Fei's mouth twitched. Reincarnation? It doesn't sound simple. Anything that can be described with this word is definitely not a simple place.

Han Fei asked, "Any other news? What's the Creation Temple?"

Wang Santie howled. "Creation Temple is equivalent to the third Firmament of the Ideal Palace. Not many people will go there, but the conditions are extremely simple. As there's only one palace there, no one knows what it's used for. Therefore, everyone suspects that to know the use of the Creation Temple, one has to pass the seven Soul Realms. However, as you know, each of the seven Soul Realms is harder and more dangerous than the last. The number of people who can really pass the seven Soul Realms can be counted on one hand in every generation. In the past thousand years, only about a thousand people have been able to pass them. Only a true genius among men has the ability to complete exploring the seven Soul Realms."

Han Fei narrowed his eyes. "A thousand? That's a lot! Did these people discover the secret of the temple?"

Wang Santie said with a smile, "How can it be that simple? It's just like the Sky Meditation Garden's Soul Restriction Sky. It's not like no one has entered all these years. However, there's no news of any benefits from entering. Perhaps the large clans have sealed the related news. However, I think that even if someone obtains benefits, it's extremely rare. Anyway, it's not something a person like me can imagine."

Han Fei couldn't help but ask, "Is the creation temple the same? No one gains anything from it?"

Wang Santie shrugged. "Even if someone gains something, he won't tell others!"

Han Fei had a general understanding of the Ideal Palace. Seven Soul Realms, plus a Creation Temple, and these ordinary places that weren't Soul Realms formed the third Firmament.

Han Fei asked, "Where's the Demon Plant Soul Realm?"

Wang Santie thought for a moment and a fish skin map appeared. The locations of the seven Soul Realms had been indicated.

Wang Santie said, "Well, this is our second time cooperating. I, Wang Santie, am a trustworthy person, right?"

Han Fei was looking at the map and found that the map of the Ideal Palace was more like a half-moon or bow-shaped composition based on the distribution of the Soul Realms. The location of the Creation Temple was like at the head of an arrow that mounted on the bow.

Han Fei casually replied, "Not bad!"

Wang Santie chuckled and said, "Well, actually, I think I need to remind you of something. However, the price... I've already lost out!"

Han Fei suddenly looked up. "You can wait for me outside the Demon Plant Soul Realm, but it depends on the importance of the information you're about to say."

"All right!"

Wang Santie had been waiting for these words, so he smiled and said, "In the Ideal Palace, each of the seven Soul Realms has a Void Monument. On it are a hundred names. Since ancient times, anyone who can leave a name on it has been a peerless genius. I've ranked the Thousand Star City's geniuses who were listed on the rankings in the past thirty years. Chu Kuangren, who you killed, is ranked seventh."

Han Fei said casually, "Continue."

Chapter 1043: Endless Battle

Wang Santie was overjoyed. The income this time equaled what he earned in half a year normally. Besides, Han Fei had agreed to give him more, so he naturally wouldn't let it go.

So Wang Santie continued. "I have a list of those people and detailed information about their spiritual beasts, contractual spiritual beasts, and special skills."

Han Fei pondered for a moment. Based on Chu Kuangren's strength, it didn't seem to matter if he bought it or not.

However, Luo Xiaobai and the others might need it.

Therefore, Han Fei nodded and said, "Alright, I'll buy it. How much is it? Don't ask for too much. Since they are all famous figures, there should be many who know about them."

Wang Santie said with a smile, "Sure, sure. It's very cheap. A hundred low-level soul fruits or ten soul crystals. To you, it's nothing more than killing a few people. It shouldn't be expensive, right?"

Han Fei thought for a moment. How many people did the big clans send this time? There were at least eight hundred! And they must have brought money with them.

Therefore, Han Fei nodded. "Alright! I'll buy it. But remember, the price you give me can't be higher than others. Otherwise, there won't be a next time."

Wang Santie smiled obsequiously and said, "Of course, of course. In business, I, Wang Santie, will definitely be honest with everyone."

Han Fei took the fish skin map and glanced at it. Wow, these people are strong!

At a glance, the first one made Han Fei raise his eyelids.

Number one on the Genius List.

Name: Jiang Nanyu

Gender: Male

Class: Soul Warrior, Armorist

Realm: Unknown

Soul Beast: Horned Beluga Whale

Contractual Spiritual Beasts: Blood Guillotine, Darkmoon Wolffish

Weapon: Spear

Special Skill: Strange Spear Soul Skill. Rumor has it that it can slay souls.

Seven Souls List: Rank 47 in the Demon Plant Soul Realm, 59 in the Undying Soul Realm, 72 in the Blue Sea Soul Realm, 90 in the Prehistoric Soul Realm. The rest are unknown.

Deeds: He has passed all seven soul realms. Once challenged the top ten of the Genius List, with eight wins and a draw. He once had a draw with the second place Diwu Weiguang, and defeated the fourth place, Sun Wu, and the eighth place Mo Fan at the same time. Therefore, he is listed first.

Character evaluation: From Sea Cloud Tower, also known as the strongest itinerant cultivator in Thousand Star City. In terms of combat strength, he can be ranked first in the seven major sects. Bold, decisive, but low-key.

Han Fei narrowed his eyes. What surprised him was that Jiang Nanyu was able to defeat two of the top ten of the Genius List at the same time!

This person was truly powerful!

If he were to face two Chu Kuangren and didn't borrow the power of the Punishing Saber, he might even be beaten to death by them.

This was a pure difference in strength. It had nothing to do with one's combat techniques.

Of course, if Han Fei were in the same realm as Chu Kuangren, he would have no problem fighting two alone.

With this in mind, Han Fei was immediately relieved.

When Han Fei glanced at the second place on the Genius List, he couldn't help but exclaim. The second place's name was Diwu Weiguang.

This surname was very rare. It was somewhat similar to Jiuyin. He didn't seem to be an itinerant cultivator.

Putting his surname aside, he actually came from the same sect as Jiang Nanyu—Sea Cloud Tower.

Previously, when they ascended the Sky Ladder, Han Fei and the others had discussed that the Sea Cloud Tower was the most low-key of the seven sects. Up to now, Han Fei had never felt their presence.

And now, the top two were both from Sea Cloud Tower. They looked like itinerant cultivators, but they had occupied the top two places of the Genius List.

Then, Han Fei looked down and saw that the remaining eight people were all from big clans. There were no longer any itinerant cultivators.

As for the third place, Han Fei was stunned. Chu Qingyan? The Chu family?

Han Fei didn't think the Genius List had any problem. If someone like Chu Kuangren could only be ranked seventh, Chu Qingyan was definitely extremely powerful.

The remaining families were the Sun, Yang, Mo, Chen, and Zhang families...

"Eh! Luo Jiutian? Someone from the Bai family?"

Han Fei had never heard that Luo Xiaobai had an elder brother. However, since he was ranked sixth on the Genius List, he shouldn't be weak.

Han Fei smiled. "Very good. Let's part ways here. I've read all of this. Go wait outside the Demon Plant Soul Realm. I, Han Fei, have always been fair! You provide me with information, and I'm in charge of robbery. I'm honest with all customers. The more information you give me in the future, the more benefits you'll get."

Wang Santie immediately beamed. "No problem. Leave this to me. I have all kinds of information. I, Wang Santie, grew up in the Three Holy Lands..."

As Wang Santie was talking, Han Fei had already run away.

Seeing Han Fei leave, Wang Santie didn't panic at all. With a thought, he picked up a stick and walked straight to a gathering place.

After a moment.

Wang Santie seemed to panic. He rushed into the gathering place and shouted, "Big news, big news. Has anyone received any intelligence? It's about the Thug Academy."

Swish! Swish! Swish!

Instantly, five to six people surrounded Wang Santie.

Someone shouted coldly, "Speak."

Someone's eyes were cold. "Where are the people from the Thug Academy?"

Someone said, "Who did you see?"

Wang Santie hurriedly said, "I want to exchange information. This information is worth at least five soul crystals."

Immediately, someone frowned.

However, the few of them exchanged looks. One of them threw a ball of gray fog over. "There are fifty low-level soul fruits here. Speak. We want this information."

Wang Santie hurriedly put away the Soul Fruits and smiled obsequiously. "Gentlemen, I just met Han Fei from the Thug Academy. He started a massacre and said that since he couldn't kill the members of large clans outside the Soul Realms, he'll go to the Soul Realms. Now, he's already headed to the Demon Plant Soul Realm."

Someone's face lit up. "Are you sure it's the Demon Soul Plant Realm?"

Wang Santie patted his chest and said, "Of course I'm sure. I saw it with my own eyes! If you don't believe me, you can go to the Demon Plant Soul Realm to take a look. I told you that Han Fei is extremely powerful... Sigh! Take care. Don't panic. He just set off..."

After they left, Wang Santie secretly smiled. He had made another windfall.

He didn't care about revealing Han Fei's whereabouts at all. How could an ordinary Hidden Fisher be a threat to someone who could kill Chu Kuangren?

And the more people who went to find Han Fei, the more things Han Fei could snatch. When the time came, he should be able to make a fortune outside the Demon Soul Plant Realm.

Wang Santie couldn't help but feel smug. Was there anyone braver and smarter than him?

...

Han Fei didn't even bother to disguise himself and appeared in his true appearance. He had deliberately exposed his whereabouts! This way, Luo Xiaobai and the others would know his location.

He knew that since these people from big clans dared to look for him, they definitely had some means to directly destroy his soul.

Therefore, neither the outside world nor the Soul Realm was safe for the people of the Thug Academy.

Outside the demon plant soul realm.

Someone was hawking. "Low-grade soul fruits. Does anyone want them? 12 for one soul crystal."

"An ownerless soul for a high-grade soul fruit. Come if you are interested."

"Swap combat techniques! Only heaven-level ultra-quality combat skills and techniques needed..."

"Soul crystals can be exchanged for high-grade soul fruits."

Undoubtedly, humans could do business in any corner of this world. Even if they were only souls, they still didn't forget doing business.

Behind these people, outside a deep forest, a stone monument stood tall. On it were a hundred names written from top to bottom, allowing future generations to commemorate them.

BAM!

Just as there was a commotion outside the Demon Plant Soul Realm, someone was suddenly sent flying. The golden fist rushed out for thousands of meters before stopping.

Then a figure walked over from afar with a golden seal in his hand.

Many people were dumbfounded. What was he doing?

“Holy sh*t, is this the Han Fei that the big clans are looking for?”

“This person is crazy. He actually came over openly.”

Immediately, someone shouted, “Han Fei, you just walked right into our trap.”

Someone shouted, “Cut the crap. Surround and kill him!”

In an instant, the market that had been bustling a moment ago was almost empty.

More than thirty children of big clans were gathered here. Looking at the weapons in their hands, Han Fei found it strange that they were all made of bones.

“Could it be that these weapons can injure souls?”

Han Fei chuckled casually. “Inside, it’s killing, and outside, it’s killing too. Let me see what abilities you so-called big clans have.”

“Hoooooo!”

The Nine Palace Dragon Seal erupted as a dragon’s roar sounded. A small mountain phantom smashed down.

As for Han Fei, he had already activated the Phantom Glass Wings and flashed out.

Seeing Han Fei rush over, someone sneered. “Soul Sound Battle Skill.”

“Ahhhhh!”

Slash!

Roar!

There were five or six people. Some opened their mouths, and some had drums appear in their hands. At the moment the battle techniques were launched, ear-piercing, terrifying sound waves struck Han Fei’s soul.

Han Fei sneered. You probably don’t know how strong my soul is, do you?

The soul sound was like a tidal wave, howling at Han Fei.

Someone shouted again, “Armorists, attack!”

Hiu! Hiu! Hiu!

Hum!

“Swish!”

Tens of thousands of weapons whistled and blotted out the sky. If it were the old Han Fei, he would probably have to consider whether to fight or not just by looking at this formation.

But now, Han Fei wasn't afraid even though he saw a few special bone weapons among the thousands of weapons.

Han Fei twisted his body and with a thought, a drop of water flew into the thousands of weapons.

Explode!

Boom...

Han Fei didn't know what level the Infinity Water he had come up with out of thin air was, but this didn't stop it from being powerful. It wasn't that everyone could come up with weapons out of thin air. The strength of these weapons had to be the same as in reality.

Due to the difference in weapon structure, the Infinity Water that Han Fei self-destructed was equivalent to the power of a junior law enforcer.

Amidst the surging waves of explosions, Han Fei activated the Devil Change and activated the Agility of Wind, his body flashed like a shadow.

“Law of Gravity.”

At that moment, a terrifying force descended, crushing at least a dozen people under the law of gravity.

“How is that possible? How can you use your law enforcement abilities in the Ideal Palace?”

Someone's expression changed drastically as he shouted, “Not good. Han Fei has two law enforcement powers—Battle Bow Art.”

A soul warrior retreated as he drew his bow and shot.

Han Fei raised his saber and slashed at the three of them.

If he wanted to be faster, it was possible. However, he didn't want to defeat these people. He wanted to kill them.

Han Fei's soul trembled, and the Void Lines split apart again, relying on his terrifying 9,999 points of spiritual power. The Void Lines turned into countless illusory lines that filled the sky and headed straight for the others trapped in the law of gravity.

Chapter 1044: A Narrow Escape

As an ancient technique, the power of the Void Fishing was fully displayed.

Due to Han Fei's terrifying spiritual power, the Void Lines directly captured the remaining dozen or so people. Han Fei raised his saber and slashed, and all of them died in horror.

This was because only they knew that their souls were controlled. How could Han Fei have such a terrifying soul attack in the Ideal Palace?!

At this moment, manipulators almost couldn't cause Han Fei any trouble. In his own law of gravity, the spiritual plant couldn't even stand up.

The only ones with offensive means were the soul warriors. They were descendants of large families and were peak Hidden Fishers, or even higher, so Han Fei wasn't surprised that they had soul attacking ways.

However, their current realm limited their strength.

The golden fist rumbled as Han Fei charged into the crowd again like a ferocious tiger. His might was unstoppable.

"Retreat! Retreat into the Demon Plant Soul Realm."

"Detonate the bone weapons."

BAM, BAM, BAM...

They were the bone weapons used by these people. Under the self-destruction, Han Fei felt pain all over his body and his soul trembled several times.

In the end, only nine people escaped into the Demon Plant Soul Realm. Two of them escaped the Void Lines accidentally. The others all perished.

This was the true horror of Han Fei. Those who escaped and those who watched the show only thought that Han Fei had shattered their souls and that they would recover outside the Ideal Palace.

However, even in reality, these people would never be able to live. If this was known by the people of these big clans, would they still come to kill Han Fei?

Han Fei looked around and found that all the bone weapons had self-destructed.

He couldn't help but be puzzled. What kind of weapon was that? It had such powerful destructive power outside the Soul Realm that even he was slightly injured.

Fortunately, there weren't many of these kinds of weapons. Although they were dangerous, they weren't enough to seriously injure him. Therefore, Han Fei didn't pay too much attention to them. He only knew that it was one of the means used by big clans to dominate the Ideal Palace.

In the distance, there were still people watching with looks of surprise. Han Fei glanced at them and their hearts tightened. Some even fled.

Although they believed that they wouldn't die, the things on them might be snatched! After all, they had worked hard to obtain those things. Who would be willing to be robbed?

Han Fei curled his lips and smiled. Seeing that no one was coming, he thought that Zhang Xuanyu and the others probably hadn't figured out the situation of the Ideal Palace as quickly as him.

In that case, he would head in first. With the shrewdness of Zhang Xuanyu and the others, they definitely knew how to disguise themselves.

Han Fei stepped into the dark forest.

Yes, there was no one in the Demon Plant Soul Realm. A forest stood tall. The gaps between the trees were equivalent to doors. It was unknown if it was because the trees were too dense or if this was only an entrance, but it was impossible to see inside from the outside.

When Han Fei stepped into the Demon Plant Soul Realm, he suddenly saw a cold light pounce at his face.

Swish!

Han Fei's figure disappeared from the spot, leaving behind a shattered afterimage.

Just as Han Fei appeared, another spear beam landed on him.

However, at this moment, Han Fei set up the Coiling Turtle Array and the Six-Spirited Armor with one foot. When the spear pierced through the two defensive arrays and landed on Han Fei, Han Fei grabbed the spear.

Explode!

Boom!

Han Fei was blown back dozens of meters.

"Eh! A strong master!"

Han Fei's face turned slightly serious. The person who ambushed him was very strong. At the same level, to be able to pierce through his two defensive arrays with one spear and cause such great damage, he was definitely a heavenly talent.

"Huh?"

Sensing danger, Han Fei's figure flashed and moved a hundred meters to the side. Two bone daggers appeared.

"Hunter?"

Toot, Toot!

A melody suddenly sounded in his ears.

Boundless darkness appeared in front of Han Fei.

"Hallucinations?"

Han Fei first dodged randomly, then with a thought, the mint leaf appeared in his mouth. He opened his Yin-Yang Divine Eye and saw another spear light approaching him.

BAM!

Han Fei was sent flying by the spear. He rolled twice on the ground and disappeared.

When Han Fei appeared again, he was already in midair. He looked down at the wound on his chest and realized that the soul world could simulate a flesh wound.

Of course, Han Fei knew how strong his physique was now. At this moment, he was a body refiner at the third stage of the Indestructible Body and the Desolate God Body.

Ordinary Hidden Fishers might not be able to beat him even if he stood still and let them beat him. To injure him? One had to have a divine weapon.

However, just as he entered, he suffered a round of attacks. The other party's cooperation was exquisite, and his attacks were fast, accurate, and ruthless. It exceeded his expectations.

Swoosh!

A white beam of light appeared in front of him in the blink of an eye.

Han Fei flipped his hand and pressed down with the Law of Gravity. The white shadow suddenly sank and plunged to the ground, and Han Fei had already punched out with a golden fist.

Clang... Crack.

A huge shield appeared in the sky. Although the shield shattered, Han Fei saw the white shadow distort and disappear into his law of gravity.

Han Fei couldn't help but laugh. "Impressive. The Ye family's Star Teleportation Technique. The five of you are very strong!"

Han Fei wasn't joking. These five people were really strong! As a team, there were very few people who could cooperate perfectly. This required a lot of time and training.

For example, he and the other four had developed a tacit understanding from a young age. Most of the time, they knew what to do by only exchanging a glance.

After Xia Xiaochan left, no one could integrate into Han Fei's team, not even Li Luoluo! She and Han Fei worked well together, but with Luo Xiaobai and the others, it was impossible for her to catch up with the others' combat rhythm and style.

How could Han Fei not be surprised that he had encountered an almost perfect team of five?

The five of them had ugly expressions on their faces. Wasn't Han Fei kinda too strong? Be it his reaction or his ability to break the deadlock, he was so strong that it left them speechless.

More importantly, this was the Ideal Palace! Although this was the strongest state they had been in as a Hidden Fisher, wasn't Han Fei's physique a little too monstrously strong?

The spear-wielding man pointed his spear at Han Fei. "Your physique is indeed very strong, but I was just testing you."

Han Fei sneered. "I'm afraid you won't have the chance to attack. Do you want to tell me your name now so that I can remember it?"

As Han Fei spoke, he twisted his body and a hundred bone knives suddenly emerged from the void.

The moment Han Fei dodged, Thousand Threads spewed out. The enemy's manipulators made a move. Han Fei held a spider silk in one hand and slashed with the Blood Drinking Knife in the other. With a flash of golden light, many bone sabers were sent flying.

As if knowing that there was a spear light erupting behind him, the other party must have used a secret technique this time. The danger was even greater than before. Han Fei turned around and used the Sacrificing Punch. The scarlet and golden fist seal shattered the spear in the other party's hand and pressed forward, locking onto him.

In the previous battle, there was no such thing as energy or spiritual energy in this world. Energy and spiritual energy were just something he had imagined out of thin air. With his Invincible Heart and self-confidence, who could resist him?

At this moment, Han Fei's heart suddenly stirred. He wanted to take half a step back, but a bone saber behind him suddenly self-destructed and his soul trembled.

At this moment, a dagger tried to slice Han Fei's neck. Han Fei's body twisted, but the spider silk took the opportunity to wrap around his waist.

In this moment of life and death, Han Fei didn't panic. He conjured a small seal in front of him out of thin air. The moment the seal self-destructed, the law of gravity pressed down.

At that moment, a bone dagger almost touched Han Fei's neck and fell on his ribs.

"Puff!"

The bone saber drew a flame on the surface of his body, and Han Fei grabbed the woman with one hand and instantly bound her with the Void Line.

"Not good! Soul Breaker Spear!"

Han Fei didn't even look at it. He grabbed the woman's dagger with his left hand and tilted his head slightly, dodging the other dagger that the woman had brandished. He pushed to the left and right, shattering the spear with the Nine Palaces Dragon Seal.

Han Fei was trapped, but like a bloodthirsty god of war, he grabbed the woman's neck with one hand.

The hunter, who had been controlled by the Void Line, had long lost her soul. However, because everyone was moving too quickly at this moment, the woman only had a little consciousness left. However, this consciousness could only be used to deal with Han Fei's control. Otherwise, she would have long told her companions to escape.

Just as Han Fei was about to grab the woman's neck, a white shadow swept across. Dozens of bone knives spiraled into a cone and enveloped the white shadow.

Han Fei smiled. "I was waiting for you."

Crack!

"Puff!"

Han Fei directly killed the woman and took the attacks of three bone knives.

He turned around, grabbed the Void Line, and slashed at the Ye family person. Since he didn't know him, he didn't hesitate to kill him. The result was a flash of spear at Han Fei's neck, but Han Fei dodged it.

"No! Qingqing..."

"Roar, Old Ye."

With a flick of his wrist, the Blood Drinking Knife sliced through the spider silk like a butterfly. Han Fei flashed out and stood in the air again.

Han Fei's heart raced. That was a narrow escape.

Indeed, the perfect combination was really difficult to deal with. He didn't know what kind of weapon the bone saber was, but it could even slice through his body. It didn't make sense.

Han Fei reached out to touch the blood on his neck and said indifferently, "You're fast enough, but you don't know how to control your body. This isn't something you can understand. As I said, the Ye family is good for nothing except speed. What makes you think you can save people from me? Stupid."

"I'm going to kill you."

Han Fei saw a burly man with bloodshot eyes controlling a hundred bone sabers to attack Han Fei.

The spear-wielding youth's body was covered in wounds. It wasn't easy for him to withstand the Sacrificing Punch. He roared angrily, "Leave!"

The manipulator finally appeared from underground. Like a spider, he grabbed the armorist and the spear-wielding youth and prepared to escape.

However, Han Fei sneered again. "Children can fight, but adults have to think about the consequences before doing anything. Do you think you can leave now?"

Chapter 1045: Demon Plant Soul Realm

In the blink of an eye, not far from the entrance of the Demon Plant Soul Realm, the people who had just escaped and were prepared to launch a sneak attack were dumbfounded.

Han Fei was so powerful?

Two people from Ye Feng's team had died in the blink of an eye. This had completely exceeded their expectations.

In their opinion, Han Fei had no chance of winning against the five-person team alone. These five people were so strong that they could escape unscathed after challenging Yang Nanxi, who was ranked fifth on the Genius List.

However, in that split second, the two of them perished.

It was fine if others died, but the Ye family was best at speed. The chances of the Ye family members dying were very low. If they couldn't beat them, they could escape.

However, in that instant, Ye Feng didn't even have the time to run before he perished.

"Leave quickly and don't fight him. Han Fei isn't our match. Don't fight him in the Soul Realm."

Han Fei naturally didn't have the time to pay attention to those lackeys. No matter which family they came from, they might be talented, but talent was relative.

In a twinkling, Han Fei's figure flashed crazily in the void. He punched at the entrance again, making it impossible for the remaining three to escape.

Suddenly, a huge turtle shell the size of a hill appeared on the armorist's body.

The armorist roared, "I'll hold him back. Leave quickly."

As he spoke, the armorist severed the spider silk. His soul was burning as his spiritual beast appeared. He fused with a centipede and his body seemed to be covered in a layer of black armor.

At that moment, there was a saber in the armorist box. It was crystalline and flashed.

Explode!

In an instant, Han Fei extended his hand and flicked it. Infinity Water shot out and self-destructed with the crystalline saber.

Boom! Boom!

However, during the self-detonation, Han Fei endured the terrifying explosion and rushed to the entrance.

"Lightning Blade."

"Void Chains."

When the chains were placed in front of the entrance, terrifying lightning suddenly sealed the entrance.

Han Fei grunted when he was hit by the impact of the explosion. He drew his saber and slashed at the two men.

As for the armorist, he didn't have Han Fei's terrifying physique, so he could only block with his turtle shell and his attached scales. However, at this moment, he was already dripping with blood as his shield shattered.

Han Fei was surprised that this person could even withstand the self-destruction of the Infinity Water. It seemed that he was indeed very strong!

However, Han Fei didn't care about him. His goal was to kill everyone. At this moment, the spear-wielding youth seemed to have unleashed his strongest killer move and his spear dazzled.

The spear-wielding youth said, "Go!"

Crack!

The Draw tore through the spear beam.

Invincibility wasn't a joke. Han Fei was at the peak of the Hidden Fisher level and was augmented by the Heart of Invincibility. It wasn't something that could be blocked by secret techniques and fearless attacks. Therefore, the spear-wielding youth was beheaded by Han Fei with a single slash. He had no chance of survival.

However, the young man's suicidal attack failed to save the manipulator.

Under the bombardment of the Lightning Blade, the Manipulator was already heavily injured. With the void chains locking him down, he could only transform into a spider and burrow underground.

With a thought, two sledgehammers appeared in Han Fei's hands.

Knock! Knock! Knock!

The ground exploded, creating small pits.

"Eh! Escaped?"

Han Fei was somewhat disappointed. The armorist seemed to want to escape, but the Void Lines had already shot out. He wasn't fast enough, and his physique wasn't as strong as Han Fei's. Now that he was seriously injured, how could he resist Han Fei?

Han Fei's figure flashed and appeared beside him. He saw that the armorist was struggling against Han Fei's control.

Han Fei said leisurely, "I have to say that you are indeed good, but you chose the wrong person to mess with. Remember, don't be born in a big clan in your next life."

"Puff!"

In this perfect combination, except for the manipulator, four people had perished. It made the scalps of those who had been preparing to hunt Han Fei tingle as they fled deep into the Demon Soul Plant Realm.

Han Fei didn't feel anything because he had killed a few geniuses. For him, this was something he was used to.

When they were at sea, fighting and killing were inevitable. This group of people had never met people like Yue Shier or Ning Jingyao. If they had fought these people, they definitely wouldn't choose to underestimate him. After failing once, they still dared to attack him?

Although they seemed to be on the verge of success several times during this period, a miss was as good as a mile. In a life-and-death battle, even the slightest error was not allowed.

At this moment, Han Fei focused his eyes and saw that the so-called Demon Plant Soul Realm was about a thousand meters away. However, some spiritual plants had been destroyed in the explosion just now. But at this moment, Han Fei saw many vines extending out of the ground, and strange spiral flowers drilled out of the ground.

Since it was a place where people died easily, Han Fei naturally wouldn't underestimate it.

Since there was a stone monument erected outside and there were a hundred people on the rankings, the Demon Soul Plant Realm naturally became more and more difficult.

Han Fei walked into the forest without hesitation. Less than a hundred meters into the forest, he saw a jujube tree with a fingernail-sized green fruit hanging on the trees.

Perhaps because he was in the Soul Realm, the Demon Purification Pot didn't see any information about the tree.

As Han Fei took a few more steps forward, suddenly, the branch swung and the green dates shot at Han Fei like bullets.

Han Fei extended his hand and caught a green date. He stepped on it and the Coiling Turtle Array appeared.

Clang! Clang! Clang!

The green dates shattered on the Coiled Turtle Array, and the one between Han Fei's fingers exploded with a bang. Its power was equivalent to an iron bullet. Its power was only about that of an intermediate Hanging Fisher, and it seemed to have the power to shake the soul. However, this power was almost nothing to Han Fei.

Han Fei stepped on the ground and quickly rushed into the forest.

Since the demon plants ahead were very weak, Han Fei naturally had no interest in staying. Since someone had already passed the seven Soul Realms, he was just wasting time here.

As Han Fei ran, vines smashed at him like hammers, broad leaves flew, and sword-like plants shot sword-like leaves at him. Their power had already reached the level of a junior Hidden Fisher.

"Oh? There's something in the grass?"

Han Fei saw that there was an azure fruit in the sword hemp. He reached out with one hand and destroyed the sword hemp with a slap before grabbing the Soul Fruit.

At this moment, information appeared in Han Fei's eyes. However, this information was an introduction to low-level Soul Fruits.

"The soul fruit can be seen, but ordinary plants can't. Does this mean that only the fruit is real, and these demon plants are actually an illusion?"

Han Fei saw that the sword hemp that he had shattered was erected again. The sword leaves that looked like sprouts were growing at a discernible pace.

"Interesting. The astonishing recovery speed means that this demon plant soul realm has extremely powerful recovery abilities."

Han Fei waited until the sword hemp grew back, and the sword leaf stirred, but the low-level Soul Fruit inside didn't grow.

"From the looks of it, it will take time for the Soul Fruit to regrow."

Just as the sword hemp was about to ripen, Han Fei continued running into the forest.

...

Outside...

Zhang Xuanyu disguised himself as a handsome young man and was sizing up the stone monument outside the demon plant soul realm.

“Eh! Eh! Zhang Mingkun, ranked 81st. That’s the guy from the Zhang family, right? Whoa, there are quite a number of big clans people.”

Just as Zhang Xuanyu was about to continue studying it, he suddenly saw a group of people rushing over.

Among these people, there were three super beauties. Zhang Xuanyu’s heart skipped a beat.

Of course, he naturally knew where he was. The five or six people in the lead looked very powerful. He stared at the girl with two braided pigtails and two large copper hammers in her hands.

At this moment, she pointed at Zhang Xuanyu with a hammer. “What are you looking at?”

Zhang Xuanyu thought for a moment. “Oh! It’s nothing. I just heard that there was a big battle here. I heard that it’s the people from the Thug Academy, so I came to see if their names appeared on this stone monument.”

A tall woman in a short skirt with two slender and fair legs exposed sneered. “They’ve just entered. How can the names be left so quickly?”

Suddenly, a gloomy-looking man said, “Qingyan, let’s go. There’s no need to bicker with a passerby.”

However, the long-legged girl suddenly looked at Zhang Xuanyu. “You don’t know us?”

Zhang Xuanyu’s heart skipped a beat. Should I know them? None of them looks weak. It seems that I’m in danger!

Zhang Xuanyu grinned and gathered his soul power. “Of course I know you! Aren’t you... my wife?”

As soon as he finished speaking,

With the Soul Explosion and the Majestic Mystic Spell on him, he charged towards the Demon Plant Soul Realm.

However, Zhang Xuanyu had underestimated these people this time. He thought that the soul explosion would give him a chance to escape, but in the next second, he saw a giant hammer fall from the sky.

The girl with braided hair had already leaped into the air and shouted, “You want to run? Let’s see if you have the ability to do so!”

The long-legged woman slapped at Zhang Xuanyu. Thousands of strange blood-red demonic vines sealed the entrance.

Following that, the woman swept across with a sword hilt.

Zhang Xuanyu wasn't a fool. He knew this woman was definitely not joking with him. Indeed, in the next moment, the void beside him was torn apart.

Swoosh!

With the long stick in hand, Zhang Xuanyu stuck it into the ground. The stick bent and at the same time, three identical figures appeared.

Even Han Fei couldn't figure out the secrets of the Tertiary Body. The three Zhang Xuanyus looked the same in strength. He took the opportunity to strike out with his stick, and in an instant, he pierced a huge hole in the red demonic vine.

"Freeze!"

Just as Zhang Xuanyu was about to rush into the Demon Soul Plant Realm, the entrance was sealed by an ice wall.

Explode!

The soul explosion happened again, shattering the ice wall. However, a water dragon roared over.

"The Mo family?"

Zhang Xuanyu turned around with a solemn expression. These people are very strong. I'm afraid I can't beat them alone.

As their attacks were too fast, so fast that before the braided girl's hammer landed, many combat skills had already exploded.

Suddenly, three vines wrapped around Zhang Xuanyu and pulled him away.

"Netherblue, Mist."

As a white fog descended, someone suddenly shouted, "Ultimate Defence."

Clang~

When the huge hammer landed, the ground exploded. With a bang, the three of them were smashed into the entrance of the Demon Soul Plant Realm.

Outside.

The long-legged woman shouted, "His spear skills are amazing, Zhang Xuanyu. Divine Manipulation Technique, Luo Xiaobai. That armorist should be Le Renkuang. Chase..."

Chapter 1046: Terrifying Demonic Plants

In the Demon Plant Soul Realm, Zhang Xuanyu and the other two were running.

Le Renkuang panted heavily. "What's the background of that little girl? What terrifying strength? My Ultimate Defence almost couldn't block her attack!"

As Zhang Xuanyu ran, he exclaimed, "Who cares about her? She's just a barbarian. As for you, when did you come? Thankfully, you came. Otherwise, I'm afraid I wouldn't have been able to survive."

Luo Xiaobai looked forward. "It's not possible. You definitely can't beat them. I've heard the names of at least three of them. The girl with the hammer is Yang Nanxi from the Yang family. It's said that she was born with great strength. At the same level, her strength is probably comparable to Han Fei's."

"And one is Sun Wu of the Sun family. Her spiritual beast is Ice Kiss that can create an ice domain."

"You should know the one from the Mo family. Their family's battle technique is Water Dragon Chant. I just don't know which one he is."

Zhang Xuanyu exclaimed, "What about the long-legged woman? She's so beautiful, but why is her heart so cold? She was the first to discover me."

Luo Xiaobai said, "I don't know her."

Boom! Boom! Boom!

At that moment, a large number of green dates smashed over.

Le Renkuang roared, "Stop chatting. There's something strange here."

Blue light emitted from Luo Xiaobai's hands as she suddenly stopped and pressed her hands on the ground. Instantly, the entire forest boiled as all the spiritual plants in the surrounding area trembled.

Behind them, a large number of vines extended out. Luo Xiaobai said coldly, "They're chasing after us. Let's go."

...

Han Fei didn't know what happened behind him. He was standing in a pool of water now.

To be precise, this place was more like a swamp with a depth of less than a meter. However, there were no other living beings other than spiritual plants here.

In front of Han Fei, the strange, curled-up forest was in the water and less than twenty meters tall.

However, from afar, Han Fei saw a huge vine in front of him. The vine was a hundred meters tall and its vines were like willows scattered in all directions.

Looking at the strange trees that were destroyed but were growing again, Han Fei sneered. Where can you go?

On the way, Han Fei had been ambushed several times, probably by the escaping manipulator. It had to be said that this person was indeed quite strong.

Swish!

Han Fei raised his foot and flashed into the forest. Instantly, branches and vines tried to seal him.

Han Fei's body twisted and turned, jumping, somersaulting, sliding, and dashing through the dense and slippery branches.

Hiu! Hiu! Hiu!

Suddenly, spider silk shot out from the countless cracks.

Han Fei clasped his hand and three golden wheels circled around him. The spider silk wrapped around him, but it was useless. Poison mist suddenly spewed out.

Han Fei was already used to drinking poison. Since his soul had entered the Ideal Palace, the Heaven Spirit Detoxifying Insect's soul had probably entered as well. Therefore, these poisons were still ineffective against him.

As Han Fei ran, he sneered. "The four of them are dead. Let's see how long you can last."

As he spoke, black and white colors flashed in Han Fei's eyes. He vaguely perceived that more than 2,000 meters away, a group of small spiders was charging forward among the vines.

"Hey! Got you."

Swish! Swish! Swish!

In the blink of an eye, dozens of figures flashed through the void.

Han Fei shouted, "Supreme Yin Yang Wheel."

Hum!

The Yin-Yang symbol appeared as all the branches that wrapped around it were shattered.

The group of spiders was rushing madly, and she was terrified that Han Fei had come so quickly. If she had a little more time, as long as she entered the depths of the Demon Plant Soul Realm, she could use the power of the Demon Plant to deal with Han Fei.

However, at the critical moment, the manipulator wanted to burrow underground again.

"Law of Gravity."

Boom! Boom! Boom!

Many tree branches were crushed to the ground.

A Sacrificing Punch exploded, crushing a spider in the water in the blink of an eye.

However, Han Fei saw a figure rushing a thousand meters away.

"Ha! She escaped. She even gave up her spiritual beast. Interesting."

Half an hour later, Han Fei caught up to the giant vine. He saw that the manipulator was standing under the giant vine and looking at him coldly.

"Lure me over?"

Han Fei grinned. "Don't look at me with such angry eyes. You started this game! I told you that adults have to think about the consequences. Do you think a mere demonic plant can stop me?"

Han Fei walked on the water surface. After just walking a hundred meters, he saw a demonic vine lashing at him like a whip.

BAM!

The golden fist struck out. With a boom, a ripple appeared in the air as large amounts of vine fragments scattered.

“Such great strength. You’re stronger than ordinary peak-level Hidden Fishers.”

Han Fei’s face was expressionless. The girl opposite him was turning around and climbing up the giant vine.

In the cultivation world, the advantages of manipulators and spirit gatherers became more and more obvious as one progressed. The specialty of manipulators was their strong ability to escape. As long as there were plants, their chances of survival were extremely high.

As for spirit gatherers...

Han Fei grabbed with one hand, and the Infinity Water appeared. The water under his feet boiled and turned into knives. Faced with such a demon plant, the most suitable combat technique for combat was a combat technique like the Million Knife Art.

With his extremely powerful spiritual power, the floating sabers increased by thousands. The dream of controlling ten thousand knives in a time wasn’t impossible.

The demonic vine seemed to sense an immense danger as dozens of vines flailed in the air and struck down crazily.

However, this time, Han Fei didn’t even raise his hand. The ten thousand water blades spun wantonly, and countless blades shot up like a meat grinder.

Han Fei stepped on the water blade and walked in the air, chasing after the manipulator.

The latter was still climbing, as if he didn’t care about Han Fei’s approach.

Amidst the shattered vines, Han Fei was less than a hundred meters away from the manipulator. The Void Lines transformed into a hundred and sealed off the area around the manipulator.

The latter suddenly turned around and shot out a thousand threads. She leaped into the air and charged at Han Fei, her entire body covered in a layer of dark green.

“Lifeblood Poison Spike.”

Han Fei paused and punched through the air, blasting the woman apart with the Sacrificing Punch.

However, the red poisonous creature followed like a shadow, passing through the Sacrificing Punch and instantly landing on Han Fei’s fist.

The giant vine fell. Han Fei frowned as he looked at his palm. The crack-like red poison was spreading.

Inside his body, the Heaven Spirit Detoxifying Insect began to crazily devour the poison.

After a hundred seconds, Han Fei’s entire arm turned red, but the red poison began to dim.

Three hundred seconds later, Han Fei felt that the Heaven Spirit Detoxifying Insect had leveled up.

“Phew!”

Han Fei heaved a sigh of relief. Good! This meant that the Heaven Spirit Detoxifying Insect could withstand the poison.

After nearly an hour, the poison in Han Fei's body gradually disappeared. Han Fei felt that the Heaven Spirit Detoxifying Insect seemed to have gained weight.

"Phew! From the looks of it, I can't fight head-on with poison in the future. If such a strange poisonous stinger appears again, the outcome will be unpredictable."

The giant vine fell, and Han Fei saw seven or eight Soul Fruits scattered on the top of the vine.

He took them and information appeared in his eyes.

<Name> Intermediate Soul Fruit

<Introduction> A strange fruit that grows in the Void Soul World. Eating it can strengthen one's spiritual power.

<Level> Intermediate

<Quality> Rare

<Effect> Intermediate Soul Fruits can boost one's soul and are especially useful for Hidden Fishers.

With a flip of his hand, Han Fei put away the Soul Fruits. However, they were extremely useful to Hidden Fishers. He had already become a law enforcer and the soul barrier had appeared. It was impossible for him to break through with just this. It would be a waste to eat them.

Standing on the remnants of the giant vine, Han Fei saw that there seemed to be a towering mountain in the clouds in the distance. He continued forward.

Perhaps it was because the battle had caused a huge commotion, but Han Fei didn't meet anyone. He didn't know if the people who entered the Demon Plant Soul Realm had scattered or if he was walking in a straight line, so he didn't encounter anyone.

Three hours later...

After destroying a huge flower that resembled a rose, Han Fei obtained his first high-level Soul Fruit, a Soul Fruit that was extremely useful to the law enforcers.

In front of him were three tall mountains.

Just by looking at it with the naked eye, one could see a vine at the center of the mountain. It was more than 300 feet tall, and its vine extended into the void and into the clouds.

On the left mountain peak, there was a Hydra Grass that took up half the mountain. It had nine heads, like a cobra standing up.

On the top of the mountain on the right was a huge bright red rose. The stamen in the middle of the flower was more than 200 meters tall.

These three plants seemed to form a tripartite balance of power. None of them looked easy to deal with.

Han Fei couldn't help but sigh. As expected of the Demon Soul Plant Realm. Son of a b*tch, isn't this too big?

Han Fei immediately judged that the giant rose was surrounded by gorgeous colors and filled with pollen. He wondered if it was poisonous. The Heaven Spirit Detoxifying Insect hadn't completely digested the poison, so he ignored it for now. It wouldn't be too late to deal with it after the insect digested and absorbed the poison.

The giant vine in the middle occupied the main peak and was the largest. In terms of overall strength, it was probably the strongest.

Therefore, Han Fei could only look at the Hydra Grass.

Han Fei wondered if there would be other demon plants besides these three giant demon plants.

However, Han Fei's heart palpitated. This meant that even the Hydra Grass was a great threat.

Suddenly, Han Fei turned his head and saw that more than ten kilometers away, some people were looking at him in the trees.

Seeing Han Fei look over, they jumped into the forest.

Han Fei didn't rush up the mountain. There seemed to be people around. If there were people, it seemed to be more meaningful to capture one to ask than to rush up the mountain.

Therefore, Han Fei ran at full speed around the three mountains.

"Holy sh*t! He's here."

Han Fei heard someone exclaim and saw people jumping out of the calm forest from time to time.

"Eh! Why are they hiding here?"

Han Fei realized that there seemed to be more people hiding here than he had imagined.

After identifying one, Han Fei charged at full speed.

Chapter 1047: Three Great Demon Plants

Zhao Dahai felt like he was about to cry. Who the hell was this person? The battle was like thunder, rumbling as it crushed everything along the way.

He was clearly more than twenty kilometers away, but in the blink of an eye, he was less than two kilometers away.

Zhao Dahai activated his secret method and ran back desperately, ignoring the demon plants along the way. However, before he could run a thousand meters, he suddenly realized that there was no one behind him.

"Are you looking for me?"

“Oh! Brother, spare me. I’m just a soul fruit digger. My life is worthless! I’ll give you all the soul fruits. Don’t kill me.”

Zhao Dahai turned around and saw Han Fei looking at him with a smile.

Han Fei shrugged and said, “Don’t worry. My enemies are only the big clans. However, I have a few questions for you. If you answer them truthfully, I won’t take your soul fruits. But once I discover that you’re lying to me, I’ll kill you.”

Zhao Dahai nodded incessantly. “I’ll answer. I’ll answer. I’ll tell you everything I know.”

Han Fei nodded in satisfaction. “Let me ask you first. Why are so many people lurking in front of these three mountains?”

Zhao Dahai said, “Big brother, is this your first time in the Demon Soul Plant Realm?”

Bang!

Han Fei slapped him. “Who are you calling big brother? I’m still a child.”

The corners of Zhao Dahai’s mouth twitched. Who the hell are you lying to? You call yourself a child? You might be an old monster that’s hundreds of years old.

However, it was obvious that Zhao Dahai didn’t dare to show any dissatisfaction. He hurriedly said, “That’s because the people who enter the Ideal Palace are basically all Hidden Fishers. Those who haven’t become peak-level Hidden Fishers can only wander outside the swamp to pluck low-level soul fruits. They usually guard their spots, so they are relatively scattered.”

Han Fei couldn’t help but ask, “How long will it take for the soul fruits to grow?”

Zhao Dahai said, “About three days. But even so, it won’t be easy to guard the soul fruits. This is because many people appear in the periphery. Therefore, it’s usually a five-man team guarding the soul fruits. They aren’t too far away from each other. This way, if they encounter a robbery, they can immediately provide reinforcements. The stronger ones don’t bother to snatch low-grade soul fruits. Therefore, although the periphery looks dangerous, the danger actually comes from enemies of the same realm as us, so it’s usually unlikely for there to be any deaths.”

Han Fei said, “Continue.”

Zhao Dahai gulped and said, “Those who can enter the swamp are basically peak-level Hidden Fishers. Most of these people have special strengths, but usually, they form teams to pluck soul fruits and never separate. After all, there aren’t many demon plants that can give birth to mid-level soul fruits. Once those people are separated, it’s almost impossible for them to pluck mid-level soul fruits.”

Han Fei nodded. No wonder he hadn’t met anyone after entering the swamp. It was possible that he had scared them away. After all, he couldn’t perceive them.

Han Fei asked, “What about here?”

Zhao Dahai said, “We’re mainly waiting here.”

Han Fei was puzzled. “Wait for what?”

Zhao Dahai looked back at the mountain and said, "Wait for the soul fruits of the three demon plants."

"Wait?"

Han Fei glanced at the mountains and couldn't help but ask, "You wait instead of snatching them?"

Zhao Dahai hurriedly said, "There's no way to snatch them. This is the center of the Demon Plant Soul Realm. The three demon plants are the strongest in the Demon Plant Soul Realm. If the Heavenly Vine is angry, a casual whip from it will equal the combat strength of a law enforcer. There are large numbers of blood demon bugs in the Heavenly Red Hibiscus's pollen that can suck the soul. Once it enters your body, you won't be able to protect your soul and will be sucked to death in the blink of an eye. As for the Hydra Grass, it's like a real living creature. Its leaves have fine scales and are extremely hard. Its nine snakeheads specialize in devouring souls."

Han Fei frowned. "So strong?"

Zhao Dahai nodded immediately. "Of course. Take the Hydra Grass as an example. Many body-tempering masters tried to fight it, but they were all devoured in the end. Oh, right, Yang Nanxi on the Genius List is the only person who has ever killed the Hydra Grass."

"Yang Nanxi?"

Yang Nanxi's information immediately surfaced in Han Fei's mind. It seemed to be true.

The fifth on the Genius List.

Name: Yang Nanxi

Gender: Female

Class: Soul warrior

Realm: Advanced Law Enforcer

Soul Beast: Expanding Earth Black Turtle

Contractual spiritual beast: Mountain-Carrying Conch, Dragon King Eel

Weapon: Overlord Hammer

Characteristics: Born with great strength, Ranked Number One on the Genius List in strength.

Seven Souls List: Demon Plant Soul Realm No. 23, Undying Soul Realm No. 89, Blue Sea Soul Realm No. 26, Prehistoric Soul Realm No. 32. The rest are unknown.

Deeds: He had already passed the five soul realms. He had once challenged the second place of the Genius List, Diwu Weiguang, and fled with serious injuries. His strength was astonishing. He had once destroyed Hydra Grass in the Demon Soul Plant Realm and killed the Fury Sea Dragon King with three hammers in the Blue Sea Soul Realm.

Character evaluation: A genius girl of the Yang family in Thousand Star City, born with great strength. When she was 15, her strength reached 1 wave, and when she was 18, her strength 2 waves. Her secret technique was a strength boosting technique, and the details are unknown. The person with the

greatest strength in Thousand Star City, ranked first among the seven sects and big clans. Diwu Weiguang once said that once Yang Nanxi passed the sixth soul realm, the seventh soul realm would be a piece of cake for her.

Han Fei touched his nose. "It's a little like Xiang Zuozuo's style. She's also a girl who uses a hammer. However, Yang Nanxi is much more powerful than Xiang Zuozuo. Jiang Nanyun, who is ranked first on the Genius List only overtook her in the Undying Soul Realm but lost to her in the other three soul realms."

Han Fei glanced at the rankings of everyone else and was surprised to find that no one's ranking exceeded Yang Nanxi's except for the Undying Soul Realm.

"Yes! She's quite strong."

Han Fei continued, "Then what do you mean by waiting for the soul fruits?"

Zhao Dahai said, "The three demon plants will spray soul fruits at random intervals. These soul fruits are all high-level soul fruits. As long as one can reach this place and wait patiently, the chances of getting those soul fruits are very high."

Han Fei said in surprise, "Spray high-level soul fruits? There's such a good thing?"

Zhao Dahai nodded hard. "Otherwise, there wouldn't be so many people here. After all, it's rather difficult to find a safe place here."

Han Fei thought for a moment. "Alright, hand over the soul fruits and leave!"

Zhao Dahai: "???"

Zhao Dahai was stunned. "Didn't you say... you don't want my soul fruits?"

Han Fei scoffed. "Because you're too ugly."

Zhao Dahai: "..."

After handing over his soul fruits, Zhao Dahai was afraid that Han Fei would go back on his word and kill him. Seeing that Han Fei had no intention of attacking, Zhao Dahai hurriedly fled.

"No, I can't stay in the Demon Plant Soul Realm anymore. Where did such a ferocious person come from?"

Zhao Dahai had a bad feeling. This person had never appeared before, and his style of doing things was very tough. He was definitely not easy to deal with. Based on Han Fei's temperament and expression just now, something big might happen here. To avoid being harmed, he'd better go to the Blue Sea Soul Realm!

After Zhao Dahai left, Han Fei pondered for a moment and walked straight to the mountain of Hydra Grass.

Zhao Dahai's description was very clear. Yang Nanxi was born with great strength and had once smashed Hydra Grass. He shouldn't be much weaker than Yang Nanxi, right?

His current pure strength was a little more than 2 waves. With Devil Change, he could use 16 waves of strength, making him comparable to an Intermediate law enforcer.

Furthermore, he had the law of gravity and can use the Void Lines to try capturing the Hydra Grass. Unless the Hydra Grass's strength had already exceeded that of an advanced law enforcer, he could definitely defeat Yang Nanxi with his superb speed and strength.

Han Fei made up his mind to see what benefits the Hydra Grass had. Then, he would see if there was a chance to challenge Heavenly Red Hibiscus.

Han Fei couldn't help but think that it would be great if Le Renkuang was here. In terms of the ability to eat worms, no one would dare claim to be number one if he claimed to be number two.

Once he activated the Sky Swallowing Technique and Ultimate Defence, the Blood Demon Bug wouldn't pose any threat at all.

With this in mind, Han Fei was greatly relieved. He planned to kill the Hydra Grass and then kill his way back to find Le Renkuang. In any case, he would conquer the Demon Soul Plant Realm first.

In front of the left mountain.

When Han Fei stood at the foot of the mountain, many people secretly exclaimed, Is this person going to climb the mountain?

Someone cursed inwardly. "Is this person crazy? Thankfully, he isn't climbing the highest mountain. Otherwise, I would have to run."

Someone's eyes shone. "This is a ferocious person. He has pushed his way all the way here, and now he wants to kill the Hydra Grass? How bold."

A member of a large clan who was fleeing was secretly delighted. Han Fei, you're courting death. Don't stop if you have the ability. It's best if you seek death from the Heavenly Vine.

Han Fei could feel some gazes, but he didn't care. Since he was already here, it would be a pity if he didn't try.

Han Fei climbed the mountain and jumped a hundred meters high.

Just as he went up the mountain, a hissing sound came from the top of the mountain. The nine snake heads all looked at Han Fei as if they were waiting for him to come up the mountain so that they could have a good meal.

Han Fei extended his palm and the Infinity Water appeared.

Han Fei couldn't help but mutter, "The treasure of the Heavenly Desolate City must be invincible in the Demon Soul Plant Realm. I'll treat you to a bite first."

Since he had chosen to climb the mountain, Han Fei no longer hesitated.

As he ran, the Sacrificing Punch erupted. Infinity Water was enveloped by the punch as the Void Lines were released.

Han Fei reached out and two sledgehammers appeared. “Ahhh! Try my hammers.”

Chapter 1048: Hydra Grass

“Hoooooo!”

When Han Fei stepped onto the mountain on the left, the nine snakeheads roared. They seemed to feel that someone had violated their dignity, and their nine heads spewed out strange blue flames at the same time.

Han Fei’s expression changed slightly. They don’t seem weak!

This flame gave Han Fei a strong sense of danger. It seemed to be a flame that could burn souls. At this moment, the entire mountain was engulfed by this blue flame.

At that moment, the ordinary demon plants on the mountain were completely vaporized by the terrifying blue flames.

With a thought, Han Fei stomped his foot and a pale yellow array appeared.

This was a Soul Controlling Array he had learned from the Ocean Book. In the Ocean Book, this wasn’t considered a profound array. In comparison, in terms of soul defense, it was equivalent to the Coiling Turtle Array’s defense against physical attacks.

Smack!

After just two seconds, Han Fei saw cracks appear on the Soul Controlling Array.

Han Fei’s eyelids twitched. They’re indeed strong!

However, Han Fei was building up his strength and transforming himself. The moment the Soul Driving Array shattered, the Sacrificing Punch penetrated half the mountain and struck the root of the Nine-Headed Snake Grass.

In Han Fei’s opinion, the difference between plants and humans was that it was extremely difficult for them to move.

This was especially so for gigantic demon plants like the Hydra Grass that took up half the mountain. How was it to run with such a huge body?

Furthermore, his Void Lines also went out with the Sacrificing Punch. Han Fei didn’t believe that such a behemoth didn’t have a soul.

As for Han Fei himself, he was instantly covered by the blue flames. For a moment, Han Fei felt as if his entire body was being pricked by needles. In his mind, there was energy constantly attacking him, but the power didn’t shake his soul.

“Phew! You gave me a fright. I thought you were very powerful.”

Han Fei couldn’t help but secretly heave a sigh of relief. This spiritual attack probably had the power of a junior Law Enforcer. Its power was comparable to an ordinary soul explosion.

If an ordinary person were to come up the mountain, it would probably be extremely difficult for them to withstand the flames.

Han Fei looked up and saw that on the mountain, the nine heads seemed to have cleverly realized Han Fei's thoughts. This human seemed to want to severely injure them by destroying the roots...

At that moment, the nine heads gathered together, revealing their dark-red forehead as they faced the Sacrificing Punch together.

Boom...

The terrifying explosion swept out for dozens of kilometers. Even the Heavenly Vines and Heavenly Red Hibiscus couldn't help but move slightly. In the clouds, a void vine swept past as though a dragon had flown across the sky.

Outside the mountain.

About dozens of people suddenly jumped out of the hidden area.

Someone shouted, "Quickly retreat far away. The Soul-burning Flame is coming."

Someone frantically fled back as he shouted, "Be careful of the Heavenly Vine."

Bang!

As he spoke, a vine that was thousands of meters long in the clouds struck the demon forest like a whip from the sky. It left a pit that was more than 2,000 meters long.

However, the Heavenly Vine didn't attack the Hydra Grass.

At this moment, Han Fei's heart surged. The Sacrificing Punch was blocked? The nine snakeheads combined their power and blocked his Sacrificing Punch.

However, Han Fei didn't panic but manipulated the Void Lines. The Void Lines had attached to their souls, and hundreds of lines tied up all nine snake heads.

However, Han Fei's expression immediately changed because he was shocked to discover that the nine snake heads weren't one, but nine independent creatures.

Therefore, it was almost impossible for Han Fei to control nine Law Enforcers at the same time. It wasn't a matter of who was stronger or weaker, but that Han Fei's control was too scattered. With Han Fei's current level, it was impossible for him to complete such intense control.

Almost immediately, Han Fei felt a counterattack at his soul. After a clash of souls, Han Fei felt a backlash and spat out a mouthful of blood.

In his heart, Han Fei thought, In a place like the Ideal Palace, since everyone was a soul body, the so-called blood was probably also a manifestation of a soul body?

How could he spit out his soul? Therefore, Han Fei swallowed the blood.

The Void Lines retracted and all shot at one of the snake heads.

At this moment, Han Fei spread out his Phantom Glass Wings, and his two copper hammers streaked across the sky, turning into a hundred-meter-long hammer shadow accompanied by the Law of Gravity. Han Fei's hammer attack could even strike a high-level Law Enforcer.

The Hydra Grass seemed to hate hammers. Apart from one of the snake heads crazily swinging around in an attempt to escape the Void Lines, the other eight snake heads opened their mouths and tried to swallow Han Fei.

Although it was called a snake head, it was actually a plant. It didn't have any teeth. Instead, there was a circular golden rim around its mouth that resembled thick lips.

Han Fei could even see the esophagus inside the snake head through the mouth. There was a black sticky liquid inside.

"You're just a blade of grass. What makes you think you can eat me? I'll hammer you to death!"

Clang Clang Clang!

In midair, Han Fei's figure flickered crazily. He struck the snake heads crazily with his hammer.

In the distance, someone had just dodged the tree demon's sudden stab. At this moment, when he saw this scene, he couldn't help but click his tongue. Could this... be a powerhouse born with great strength like Yang Nanxi? Could it be another member of the Yang family?

There were also a few members of big clans who had ugly expressions and were alarmed. Han Fei was actually so powerful that his strength was comparable to Yang Nanxi's? Weren't people born with great power very rare?

Someone gritted his teeth. "While Han Fei is fighting the Hydra Grass, let's go out and inform everyone to surround him outside the Soul Realm."

...

In the swamp of the Demon Plant Soul Realm, Luo Xiaobai's pupils turned white as she flew back and controlled the spiritual plant to attack like a storm.

However, three water dragons soared up and chased after the three of them.

Occasionally, there was a flash in the void from time to time. However, every time this happened, Le Renkuang would use the Sky Swallowing Technique to forcefully stop the hunter hiding in the void shadows.

As for Yang Nanxi in braids, she ran crazily across the water. She didn't dodge any of the attacks. With her powerful physique, she took all of Luo Xiaobai's attacks.

"Great Spirit Summoning Art!"

Instantly, white fog appeared as dozens of flowers bloomed in the void. Poison, mucus, illusions, and psychedelic gases spewed out as well as ghostly-blue vines.

Behind him, the long-legged woman shouted, "Dragon King's Fury, Buddha's Three Thousand Hands."

A sea of red tentacles kept extending out from Luo Xiaobai and company, making everyone feel as though they were running through a sea of red tentacles.

Luo Xiaobai shouted, "Seize Soul!"

In the blink of an eye, a large number of tentacles were controlled by Luo Xiaobai, and the two parties continued to fight.

Behind her, the long-legged woman shouted, "Luo Xiaobai, do you think you can resist us? Even if your brother is here, he's not my match. Who do you think you are?"

Zhang Xuanyu shouted, "Let me stop these guys."

However, before Zhang Xuanyu could say anything, he suddenly saw a blazing orange light erupt from Le Renkuang's body. The Violent War Body and the Majestic Mystic Spell were activated at the same time.

"Deep Blue Roar!"

"Roar!"

A hundred-meter-wide void hole appeared. In an instant, the Sun family's hunter in the void frantically jumped back. The three water dragons instantly shattered, and thousands of tentacles were straightened.

Le Renkuang was holding two sabers in both hands, and a demonic red figure appeared behind him. The True Martial Fiend Saber slashed out two void rifts.

Le Renkuang shouted, "Let's go first. After all, you won't have any memories after we leave. Then, I'll let you experience what it means to be... a legend!"

"Try my hammers!"

Yang Nanxi didn't care at all. As the others retreated, she swung the hammer in her hand like a wheel of fire and wind and smashed it at Le Renkuang.

Thump!

The phantom of a huge turtle that was hundreds of meters long appeared. Yang Nanxi was sent flying backward, and the huge turtle was also sent flying by the hammer. Like a huge ball, Le Renkuang rolled thousands of meters in the swamp, shattering all the spiritual plants along the way.

However, the huge ball rolled back and slammed into the group of people.

Zhang Xuanyu roared, "Fatty, charge in. Don't waste time here, OK?"

Thud...

He collided head-on with Yang Nanxi again and flattened everything within a thousand meters. Only then did he roll and chase after Zhang Xuanyu.

Behind them...

Yang Nanxi moved her wrist and twisted her neck. “What a powerful recoil. He’s fine after taking two of my hammer strikes head-on. I’m afraid that fatty really has a legendary contractual spiritual beast. It’s even stronger than my Expanding Soil Black Turtle.”

...

At the top of the mountain

Han Fei’s arm went numb.

After hammering for a long time, he finally smashed one of the heads. In the end, a large amount of black mucus spewed out of the head. The mucus even attempted to grow a new snake head.

“Pui! You win if you can grow it.”

At this moment, the snake head controlled by Han Fei was biting the other snake head. Han Fei had switched the hammer in his hand to Snowmourn. He drew his sword and slashed at the Hydra Grass’ root.

With this strike, the six heads opened their mouths and bit at Han Fei.

When the sword came out, Han Fei was swallowed by a snake head.

BAM!

The Infinity Water exploded the snake’s head, and Han Fei’s body turned pitch-black as if he had fallen into ink.

When Han Fei focused his eyes, he saw that the plant had sacrificed a snake head to block the Draw.

However, it was also because of this that three snake heads were destroyed. One snake head was controlled by him and was attacking the other. Only four snake heads could still fight now.

Han Fei grinned. “Let’s see how long you can last. There’s no spiritual energy or energy here. Here, I’m invincible.”

Chapter 1049: Ten Geniuses

Defeating Hydra Grass was only a matter of time.

Han Fei discovered that the Hydra Grass was nothing more than being tough. Its tongue was filled with black liquid that corroded the soul. However, as long as he wrapped himself in an array and blew it up with the Infinity Water, it would be fine.

He controlled the snake head to bite the other snake head, and when he smashed another snake head, a thin purple flower extended out from the center of the Hydra Grass.

Han Fei immediately exerted more strength and smashed the two badly injured snake heads, throwing the Void Lines to another snake head.

Then he pounced on the Pearl Grass Core flower. The flower bud bloomed at an extremely fast speed, revealing a spherical black hole that resembled an eye.

“Shoot...”

Han Fei’s heart suddenly palpitated as he subconsciously dodged. He saw a laser-like purple-red pillar of light instantly pierce through his afterimage.

Boom!

The purple light contained so much power that it directly blew apart a portion of the hill.

“Holy sh*t! What’s this? A laser cannon?”

For a moment, Han Fei’s figure filled the sky. The purple laser spewed out everywhere, piercing through Han Fei’s afterimages. Han Fei originally wanted to direct the laser to shoot at the Heavenly Vine and the Heavenly Red Hibiscus.

However, on second thought, weren’t these two big shots more powerful than the Hydra Grass? To deal with three big shots at the same time seemed a little provocative! Therefore, Han Fei gave up on this plan.

“The Draw!”

Crack!

Han Fei dodged the snake heads and the laser and slashed at the central root. Sparks flew.

Many of the thin scales shattered.

Han Fei took the opportunity to stuff the Infinity Water into the root.

“Detonate!”

Boom!

This time, the Hydra Grass really couldn’t withstand it. After all, it was only a blade of grass, and Han Fei was the kind of guy who could flicker indefinitely. It was only a matter of time before he won.

The moment the root shattered, the snake heads in front of him withered.

Han Fei ignored those snake heads, because he found that the laser-spewing fruit flower cracked and nine purple Soul Fruits appeared.

Han Fei reached out and grabbed all nine Soul Fruits. He scanned them and a message appeared:

<Name> Ultra-quality Soul Fruit

<Introduction> This is a strange fruit that grows in the Void Soul World. Eating it has a chance of breaking through the mental barrier.

<Level> Ultra quality

<Quality> Rare

<Effect> Ultra-quality Soul Fruits can help break through the soul barrier but are ineffective to Explorers.

Upon seeing this attribute, Han Fei was delighted. This is good stuff! Nine of them came at once. I was worried that I couldn't break through the barrier of my spiritual power, but this came. How could I not be happy?

Just as Han Fei was feeling excited, a huge monument suddenly appeared in the void. Like a mirror, Han Fei was reflected on it. Then, Han Fei found that his name appeared on the stone monument.

"Eh? This is a stone monument outside the Demon Soul Realm?"

Han Fei was horrified. He hadn't engraved his name, but it was reflected directly. This stone monument was probably a treasure, right?

When Han Fei's name stopped at 39th place, he couldn't help but be stunned.

If he remembered correctly, Yang Nanxi should be ranked 23rd. The difference between his and Yang Nanxi's ranking wasn't small. Yang Nanxi had probably gone to another mountain.

Suddenly, Han Fei thought of something. Is it because the Hydra Grass hasn't been completely killed?

There were three snakeheads in front of him. One of them was under his control. Although they had withered, they weren't dead. The void stone monument in front of him hadn't vanished either.

Han Fei extended his hand and chopped at the snake heads.

...

In the forest, Le Renkuang and company were running wildly. Just now, Le Renkuang had used Deep Blue Roar to stall for time, buying them a lot of time to escape.

As there weren't any members of the Ye family here, with the strength of Luo Xiaobai and the others, even though they had encountered people from big clans once, two of them had been pierced by Zhang Xuanyu's spear.

It was almost impossible to stop them from rushing forward.

At that moment, Le Renkuang exclaimed, "What kind of demon plant is this? It's getting more and more ferocious? It's to the point where even Xiaobai can't control it?"

Luo Xiaobai had already come back to her senses. "Although we can't control them, we can affect their perception and prevent them from attacking us."

Boom!

Suddenly, a ripple rushed towards everyone. Zhang Xuanyu said in surprise, "There's a big battle ahead."

The few of them exchanged looks. It must be Han Fei.

Luo Xiaobai said, "Han Fei is there. Let's go."

Behind them...

Yang Nanxi said in surprise, "That Han Fei climbed the mountain."

Chu Qingyan frowned. "Let's go and take a look."

Chu Qingyan and company suffered in the Demon Plant Soul Realm. Although Chu Qingyan was also a manipulator, the difference between a manipulator and a Divine Manipulator was huge.

If they were in the outside world, she was confident that Luo Xiaobai and company would have been killed by them. However, they had managed to escape into the Demon Plant Soul Realm.

After a moment.

When Luo Xiaobai and the others rushed out of the Demon Plant Soul Realm, they saw Han Fei waving a huge ax in the sky and chopping the snake heads.

Zhang Xuanyu gasped and said, "What the hell is this? Such a huge snake?"

Luo Xiaobai shook her head. "It's not a snake, but a demon plant."

Le Renkuang took a deep breath. "What a huge demon plant. There are two more over there."

Han Fei hadn't finished chopping off the snake heads when he saw Luo Xiaobai and the other two suddenly rush over. He immediately said in delight, "Come on up. I'll leave this head for you. Maybe you can be ranked in the Genius List too."

Zhang Xuanyu shouted as he ran, "What ranking? They're coming from behind. Let's end this quickly."

Han Fei's expression changed slightly, and he immediately roared angrily. The axe beam reached a hundred meters and exploded the snake head.

Just as the snake head exploded, a girl with braided hair rushed out of the forest with a sledgehammer and happened to see this scene.

Chu Qingyan and company were there as well.

The moment they appeared, they saw this scene and couldn't help but be moved. The Hydra Grass is already dead?

They had thought that they had come quickly enough. Even if Han Fei had started to climb the mountain, it couldn't be long. However, they saw that the Hydra Grass was already dead. This made their hearts sink.

The man from the Mo family said in a low voice, "As the news says, this Han Fei is very powerful."

Another person said, "Look, the ranking on the void stone monument is changing."

At this moment, Han Fei's name went from 39th to 36th.

Han Fei was instantly speechless. He smashed three heads, so he raised his ranking by three?

Han Fei was still disgusted, but Yang Nanxi's eyes flickered. "When I finished killing the Hydra Grass, I was only ranked 42. Han Fei is very strong."

Han Fei had already landed and was at his peak in all aspects.

When he saw Chu Qingyan and company, he immediately narrowed his eyes. “Long-legged, are you Chu Qingyan?”

Chu Qingyan narrowed her eyes. “You know me?”

At this moment, Han Fei’s murderous aura surged as he grinned coldly.

The Third Place on the Genius List.

Name: Chu Qingyan

Gender: Female

Occupation: Soul Warrior, Manipulator

Realm: Peak-level Law Enforcer

Soul Beast: Dead Leaf Sea Star

Contractual spiritual beast: Butterfly Star Worm, Thousand Leaf Buddha Hand

Weapon: Shadowless Sword

Characteristics: Can Devour Others’ Life Force

Seven Souls List: Ranked 46th in the Demon Plant Soul Realm, 75th Undying Soul Realm, 83rd Blue Sea Soul Realm, 91st Prehistoric Soul Realm. The rest are unknown.

Deeds: She had already passed six Soul Realms. She had once challenged Diwu Weiguang, who was ranked second on the Genius List. Not only had she lost, but she had also been taken advantage of. She rose because of the sixth Soul Realm.

Character evaluation: From the Chu Sect in Thousand Star City. With outstanding talent, she can be ranked first in the Chu Sect. Diwu Weiguang once said that once Chu Qingyan passes the Seventh Soul realm, her strength will be on par with his.

Han Fei directly repeated Chu Qingyan’s information, making the eyes of Zhang Xuanyu, Le Renkuang, and Luo Xiaobai flicker.

Luo Xiaobai suddenly said, “No wonder my Grand Spirit Summoning Art was broken so quickly. So she has the ability to devour life.”

Chu Qingyan looked at Han Fei coldly. “Han Fei, you killed my brother. Today, you must die.”

Han Fei grinned. “Who do you think you are? Just because you have long legs doesn’t mean I will relent.”

“How dare you!”

Suddenly, a cold-faced man next to him whipped his whip hard on the ground as if he wanted to fight Han Fei.

Han Fei frowned. “Who are you?”

Luo Xiaobai: "He's from the Mo family."

Han Fei couldn't help but sneer. "Are you Mo Fan?"

Mo Fan said coldly, "It's me. What do you want?"

Han Fei sneered again. "I thought the Mo family only had women. I can't believe they gave birth to a man. Are you proud to be ranked eighth on the Genius List? Do you believe that I can beat you up in minutes?"

Black gas emerged from Mo Fan's body, and his voice was cold. "Han Fei, you deserve to die."

Han Fei twisted his head. "Many people want me dead. Who the hell are you?"

Yang Nanxi, who looked like a little girl, pointed her hammer at Han Fei. "Let me fight you."

Han Fei curled his lips. "You? Number five on the Genius List, Yang Nanxi? You can fight Fatty. Fatty, right?"

Le Renkuang's face turned green. "This woman is very strong."

Han Fei smiled. "I know, but isn't she only a peak-level Hidden Fisher now? Can't you handle her?"

Le Kuang muttered, "I can withstand her but can't defeat her!"

Han Fei ignored him and looked at the slender woman next to him, shaking his head and asking, "Do the big clans lack men? Who are you?"

"I'm Sun Wu from the Sun family. Sun Mu is my younger brother."

The corners of Han Fei's mouth curled up. "Whoa! You're really going all out to deal with our Thug Academy. Four of the top ten elites came. Any more? Is there a fifth?"

Chapter 1050: White-hot Battle

Le Renkuang leaned close to Han Fei and asked, "What's the Genius List?"

Han Fei chuckled. "It lists the top ten strong masters of our generation in the Thousand Star City."

"Hiss!"

Zhang Xuanyu asked, "What's that Sun's ranking?"

Han Fei: "Fourth."

Le Renkuang's expression turned bitter. "The third, fourth, fifth, and eighth are all here? Holy sh*t, this doesn't seem easy to fight!"

Han Fei immediately said proudly, "What's so hard about it? Didn't we occupy the top five in the Blue Sea Town? Why should we be afraid of them?"

Mo Fan sneered. "The Blue Sea Town isn't even an island in Thousand Star City."

Zhang Xuanyu directly replied, "Shut up. You're eighth. You don't have the right to speak."

Mo Fan's expression turned extremely ugly. I'm f*cking eighth. Why am I not qualified to speak?

Han Fei thought for a moment. Chu Qingyan was ranked third, so she was probably the strongest among these people. Sun Wu was a hunter, so the Ice-sealing Spell and the Soul Stabbing Spell shouldn't be able to threaten him. However, he didn't know if Luo Xiaobai and Zhang Xuanyu could resist her. In any case, he couldn't let her fight Luo Xiaobai. To a certain extent, hunters were the bane of manipulators.

As for Yang Nanxi, Le Renkuang was definitely capable of dealing with her. As for Mo Fan, he was also a hunter and walked a strange path. His spiritual beast was Nether Sea Demon Fish. He had never heard or seen such a creature before, so he had to be careful.

Furthermore, there were a few people behind them. From their attitudes, they didn't look like strong masters on the Genius List. They were likely other figures from big clans who were supporting those people.

However, if these people were comparable to the batch he had killed previously, the outcome was unpredictable.

Chu Qingyan and company weren't in a rush to take action. They were likely discussing who should deal with whom.

Han Fei immediately sent a voice transmission. "Xiaobai, this is a little tricky. The point isn't on these four people, but the people behind them. I encountered a perfect team that's very strong. There are also five behind them. I'm afraid it's also a perfect team."

Luo Xiaobai said, "If it's possible, I'll deal with Chu Qingyan. Le Renkuang will deal with Yang Nanxi. Can you take on two hunters by yourself?"

Han Fei: "Alright!"

Zhang Xuanyu frowned. "You dealt with Chu Qingyan alone. Didn't you say that she would devour lives?"

Luo Xiaobai said, "Manipulators don't lack life force at all."

Luo Xiaobai went on. "But the other party might not follow our plan. If nothing unexpected happens, Chu Qingyan might hold back Han Fei and the two hunters will come at me. Han Fei, what's on the mountain behind?"

Han Fei said, "Two extremely powerful demon plants. I don't know much about that huge vine, but that flower emits a pollen fog. It's said that the pollen is filled with Blood Demon Worms that can suck souls. Once it enters a person's body, it'll immediately suck that person to death in the blink of an eye. This is only what I know. It's very likely that the other party has more offensive means than this."

Han Fei couldn't help but feel a chill when he thought of the Hydra Grass's laser beam. That thing wasn't something anyone could block. It would probably be easy to go up the mountain, but difficult to go down.

Luo Xiaobai's heart skipped a beat. "If anything unexpected happens, I'll go to the big vine with Le Renkuang. You and Zhang Xuanyu, go to the flower."

Just as Luo Xiaobai was about to say something else, the three hunters of the other party vanished.

What alarmed them was that Sun Wu and Mo Fan had disappeared. As for the other person, Han Fei and the others didn't care too much.

The moment they disappeared, Han Fei unleashed his full strength. He fused with his spiritual beast, had his contractual spiritual beasts attach to him, and activated Devil Change.

Han Fei's Yin-Yang Divine Eye appeared directly. Since they were all in the Ideal Palace, no one would know or remember them if they went out. Since Le Renkuang had even used Deep Blue Roar, he naturally didn't panic. Little Fatty had also attached to him.

In the void, Han Fei's expression changed slightly. He found that the three hunters were all crouching and preparing to attack Luo Xiaobai.

Han Fei said, "Xiaobai, I'll try to block the three hunters. If it doesn't work, I'll make a backup plan."

While Han Fei was transmitting his voice, Yang Nanxi had already rushed over. Her target wasn't Le Renkuang, but Han Fei.

However, with a low growl, the Great Sky Swallowing Technique was activated, and the True Martial Fiend Saber was drawn. Behind him was a black shadow that was more than 50 meters tall. It was obvious that Le Maniac had used his strongest combat strength.

Le Renkuang: "Silly girl, your opponent is me."

"Scram."

The sledgehammer flew across the sky as flames surged in midair. Layers of armor appeared in front of Leren Kuang as he attacked with the demonic saber in his hand.

On the other side, Zhang Xuanyu struck first. In an instant, he shot the Momentary Time at the opponent's manipulator.

However, to everyone's surprise, Chu Qingyan's target was also Han Fei. This made Han Fei somewhat helpless. This was because a large number of purple tentacles had already appeared. Furthermore, Han Fei could clearly sense a force swirling around him, as though it wanted to deprive him of his life.

However, at this moment, the ring on Han Fei's hand lit up.

"Eh? Why did the time ring light up again?"

Han Fei immediately recalled, when Qiannian Ying's disciple who was called Qiannian Chen used a time-based secret technique, the ring responded.

And now, Chu Qingyan made the Time Ring light up again. This made him vaguely sense that his life was being stripped away.

Immediately, Han Fei confirmed one thing: Chu Qingyan had both a time-based secret technique and the ability to devour life.

Han Fei said directly, "Xiaobai, Chu Qingyan has a skill that can accelerate time. Do you have a way to deal with her?"

Luo Xiaobai said decisively, "Yes."

Han Fei was immediately relieved. With a flash, he flew out. The Void Lines would only be used when he was 100% confident. Otherwise, once the opponent escaped, his soul attack would be exposed. It would be difficult to kill someone outside the Soul Realm in the future.

Han Fei's fist smashed through the void and struck in three directions.

Ice Seal!

In an instant, a white mist appeared around Han Fei. Following that, the water dragon swept up and froze Han Fei in the ice.

However, before the two of them could attack Luo Xiaobai, the huge ice block exploded with a bang. The Sacrificing Punch erupted and blasted at Sun Wu.

Han Fei's figure flashed as the Blood Drinking Knife in his hand tore through the air and slashed at Mo Fan. As for the other one, Han Fei simply ignored him.

However, Mo Fan's back trembled as his six wings lit up. With the shadow of a bat covering him, he easily dodged the attack.

At this moment, Sun Wu turned into a piece of purple sand. The ice walls and pillars around her actually had a way to deflect the force and blocked the Sacrificing Punch. Furthermore, Sun Wu transformed into gravel and swept towards Han Fei like a storm.

Han Fei didn't see Sun Wu's body. The purple sand was probably the ability of the Purple Sand Eel. However, Han Fei knew about the Purple Sand Eel, but he had never heard that it had the ability to turn into sand!

Han Fei immediately shouted, "Pull away."

SWISH!

The battle didn't even have a transition as it reached its climax. Everyone was a genius and extremely confident. Just like when Chu Kuangren came to challenge Han Fei, his arrogance shocked many people present.

And now, other than those who were there to make up the numbers, even the weakest was ranked eighth on the Genius List. This battle was naturally not easy to fight.

Seeing that the void was trembling over at Luo Xiaobai's side, Han Fei dodged and used Infinite Water to transform into the Million Knife Art, sealing off Mo Fan's path.

"Heavenly Constellation Weak Water."

The purple sand, wrapped in something similar to the Nirvana Essence Water, splashed on Han Fei. It wasn't that he didn't want to dodge, but that these people's goal was very clear. They planned to kill Luo Xiaobai first. Once Luo Xiaobai, the Divine Manipulator, died, Zhang Xuanyu would be next.

In order to buy time, Zhang Xuanyu couldn't care less.

Tertiary Body erupted and each of them held a long pole. The Bloodthirsty Shark launched two Soul Explosions. By stirring up the opponent's energy and blood and activating the Instant Time technique, he had blown up one person.

However, what Han Fei didn't expect was that something happened to Le Renkuang first. At this moment, Yang Nanxi also had the ability to go berserk and a secret technique. Furthermore, this girl's Mountain-Carrying Conch was like a small mountain on her back, and forcefully sealed the Sky Swallowing Technique.

At that moment, the two of them were hammering each other. One was holding a sledgehammer, while the other was holding a demonic saber. Both of them were wearing armor, and they were slashing at each other frantically. Every strike was accompanied by a boom.

However, in terms of strength, Le Renkuang, who had used the Majestic Mystic Spell, was actually weaker than Yang Nanxi.

Han Fei thought to himself, After this, I'll have to teach them the Devil Change.

As for Luo Xiaobai's side, she was in a perilous situation. Hundreds of spiritual plants appeared, and Luo Xiaobai used Infinite Life Substitute to fight. The most useful one was the gray vines in the ancient battlefield. After entangling them, they could barely resist Chu Qingyan's two kinds of powers.

Han Fei cursed inwardly. At this moment, he missed Li Luoluo so much. As long as this girl was around, the chances of winning were definitely with him.

This was because Han Fei couldn't let the two hunters circle around and attack Luo Xiaobai. Therefore, the other party somewhat took the upper hand. If only he had a clone. However, the afterimage wasn't a clone. The afterimage only had the power of one strike and could only cooperate with him in battle.

"Lightning Blade!"

Han Fei gritted his teeth and Little Gold went into battle.

At this moment, Little Gold hadn't broken through to level 50 and hadn't awakened again. Han Fei sent Little Gold to deal with the hunter.

"Screech!"

The golden-red saber beam swept through the void as a terrifying electric current blasted out. The void exploded as the Hunter retreated, his body charred.
