## Chapter 1051: Han Fei Rampages

As Little Gold attacked, Chu Qingyan shouted, "Chu Guang, return to the team."

Chu Guang was the hunter who tried to kill Luo Xiaobai.

Chu Qingyan could tell that if he didn't return to the team, he would be killed in less than thirty seconds.

At that moment, while Chu Qingyan and Luo Xiaobai were fighting, she could divert her attention to summon a large number of flashing worms that headed straight for Little Gold.

Luo Xiaobai's eyes turned cold as the Blue Cannibal Flower suddenly burst out of the ground. Chu Qingyan felt that her life was draining away.

Chu Qingyan's eyes narrowed. "You can actually strip away life too?"

Luo Xiaobai replied coldly, "Stab."

"Puff... Puff... Puff..."

Spikes emerged from the ground one after another. They looked like the strange spikes of the Thousand-Year Tree Demon, forcing Chu Qingyan to focus on the battle.

While everyone was fighting fiercely, it was the hardest to fight on Han Fei's side, because the two hunters didn't want to fight him at all and focused on Luo Xiaobai.

If Han Fei hadn't had the Phantom Glass Wings, he probably wouldn't have been able to defend himself.

"Agility of Wind."

Han Fei sped up, and the golden fist penetrated the purple sand. The corrosive water was ineffective against his soul.

However, there were layers of ice sealing the path. Mo Fan's Nether Sea Fiend Fish had the ability of flashing. Once Han Fei caught one, he would miss the other.

Zhang Xuanyu roared angrily and launched a Soul Explosion again, intending to launch a powerful attack with Instant Time. However, there was an armorist on the other side, and his shields shattered layer after layer. However, this was the Ideal Palace. As long as a person didn't die, he could summon as many shields as he wanted.

Although he had stabbed another person, that person was a manipulator and had life-saving means. In addition, with the hunter's return, Zhang Xuan's Tertiary Body was just enough.

One restrained the Hunter, one faced the armorist, and the last fought the manipulator and the soul warrior.

Here, there was no spirit gatherer in this group. This was because spirit gatherers were somewhat passive in the Ideal Palace. 99% of the spirit gatherers who entered the Palace of Ideals had dual professions and were soul warriors at the same time.

Zhang Xuanyu exploded his soul several times and found a chance to kill another person.

However, this couldn't continue. The opposing team looked similar to the one Han Fei had just encountered.

As if in a hurry to help, Zhang Xuanyu roared and the three divine weapons he had imagined exploded.

Following that, a long staff appeared in Zhang Xuanyu's hand. When he struck out, the void trembled as he struck the armorist.

However, the armorist was very strong too. At this moment, he stabbed Zhang Xuanyu with a cone-shaped weapon without regard for his own safety.

Crack!

"Puff!"

The shield shattered as the armorist was blasted apart by the staff.

As for the cone-shaped bone sword, it stabbed Zhang Xuanyu's body. The spiritual pearl's protective barrier was penetrated, causing Zhang Xuanyu to vomit a mouthful of blood.

Then, Zhang Xuanyu twisted his body and the Hunter slashed at his back.

"Son of a b\*tch."

Zhang Xuanyu retreated and combined his three bodies. His combat strength returned to its peak.

Zhang Xuanyu roared, "Feifei, do you have any means to replenish the soul?"

Han Fei grabbed an ultra-quality Soul Fruit with the Void Lines and threw it over. "End the fight as soon as possible. Go help Fatty."

At that moment, Yang Nanxi's eyes flashed. "It's an ultra-quality soul fruit. Shatter it."

An old turtle roared and prepared to forcibly shatter the ultra-quality soul fruit. Han Fei turned around and launched eight golden fist marks at the old turtle.

It wasn't that Han Fei didn't want to use the Sacrificing Punch, but that although the Sacrificing Punch could be used indefinitely, different from the Invincible Fist, it needed to build up power. It wasn't a fist technique that could deliver dozens of punches in an instant.

Right now, they were fighting for a critical moment. Once they were in a passive position, the slightest error could result in a huge defeat.

However, at that moment, Mo Fan took the opportunity to escape Han Fei and had already flashed out.

A strange sound wave suddenly roared. Luo Xiaobai let out a muffled grunt and spat out a mouthful of blood. Chu Qingyan's eyes flashed as she slashed out with the sword in her hand, tearing through the air and piercing through Luo Xiaobai.

This opportunity was seized by Mo Fan in an instant. It only made Luo Xiaobai pause for a moment. Yes, Luo Xiaobai couldn't use the Life Substitute Spell at that moment.

With that, together with Chu Qingyan's Shadowless Life-Eating Sword, he could defeat Luo Xiaobai with one strike.

"Hoooooo!"

Swish! Swish! Swish!

Han Fei was only a little late. He appeared beside Luo Xiaobai and stuffed an ultra-quality Soul Fruit into her mouth.

This was the Soul Realm. Once something happened to Luo Xiaobai's soul, he could die at any moment.

If Luo Xiaobai died, Han Fei was sure that he would kill everyone here.

At this moment, Mo Fan retreated when he saw Han Fei coming. As for Sun Wu, she threw caution to the wind and attempted to freeze Han Fei and Luo Xiaobai together to create an opportunity for Chu Qingyan.

However, Han Fei's eyes were cold.

A terrifying force suddenly erupted as Chu Qingyan shouted, "Be careful."

Hum!

Holding Luo Xiaobai with an arm, Han Fei vanished. His speed was so fast that no one realized what had happened. He was almost as quick as the Ye family people.

"Boom!"

The golden fist marks had the effect of the Sacrificing Punch.

At this moment, Han Fei's face was cold like a devil, and a wisp of black mist seeped out of his body.

Zhang Xuanyu, who had just obtained the ultra-quality soul fruit, immediately regretted it when he saw that Luo Xiaobai was seriously injured. He should have held on a little longer.

However, when he saw Han Fei's action, Zhang Xuanyu immediately held back. His eyes were also cold as he used Momentary Time for three times to pin the manipulator to death. In the blink of an eye, he pounced on another person.

Luo Xiaobai said weakly, "Han Fei."

Han Fei's face was dark, and the corners of his mouth curled into an unnatural smile that smelled of blood.

Han Fei suddenly said, "It seems that I haven't taught you enough lessons! I killed Sun Mu. As his sister, do you want to avenge him?"

Luo Xiaobai could sense that Han Fei seemed to be a different person at this moment, with an evil look on his face.

Yes, Han Fei had never wanted to use the secret technique of the Demon King Contract. Although the increase in strength was extremely terrifying, the disadvantages were also great.

Energy could be imagined in the Ideal Palace.

However, there were two other drawbacks. One was easy to be demonized, and the other was easy to create a mental demon barrier. This was something Han Fei didn't want to see.

But at this moment, Luo Xiaobai was seriously injured. Even if Zhang Xuanyu won, it would be too late.

Defeat on one side, defeat on the other. Having been in this world for so long, how could Han Fei not understand this?

Therefore, the moment Luo Xiaobai was injured, he chose to use the Demon King contract.

Han Fei said, "Little Gold, Little Fatty, protect Xiaobai."

Little Fatty left Han Fei's body. How could the two legends, who were guarding Luo Xiaobai, be defeated so easily?

Sun Wu's eyes were cold. "You finally admit it? Although Cao Qiu says he hates Mu'er, he's not the kind of person who can bear to kill. Only you and Mu'er have a deep grudge."

"Haha!"

Han Fei laughed presumptuously. "So what if it's me? Do you want revenge? Try it?"

Chu Qingyan suddenly attacked Zhang Xuanyu and said, "He's stalling for time, waiting for Zhang Xuanyu to free himself."

As for Zhang Xuanyu, he aimed his Soul Explosion at the void. Then, he blasted Chu Guang apart with Momentary Time.

Seeing Chu Qingyan charge over, he tapped his foot and his Tertiary Body appeared again before he dodged.

Zhang Xuanyu said, "Feifei, I'll hold this woman back. Kill those two first."

In the blink of an eye, Han Fei had already disappeared when Zhang Xuanyu killed the last person.

At this moment, he was a peak-level Hidden Fisher with a strength of more than 20 waves. His speed was comparable to Ye Baiyu's, and he had infinite flashing abilities with the Yin-Yang Divine Eyes on him. How could Sun Wu and Mo Fan resist him now?

However, Han Fei's first target wasn't Sun Wu, but Mo Fan.

It was this b\*stard who had created an opportunity for Chu Qingyan to succeed in stabbing Luo Xiaobai. Therefore, Han Fei's anger was all on Mo Fan.

Swish! Swish! Swish!

Han Fei disappeared, and when he reappeared, he was only dozens of meters away from Mo Fan.

The latter was alarmed as he hurriedly dodged. The Specter Fiend Fish fused with him, adding a layer of black armor to his body.

However, Snowmourne had already appeared in Han Fei's hand. A sword pierced through the sky, sealing Mo Fan's escape path. A punch tore through the void and landed in front of Mo Fan.

The latter's six wings flashed as he barely dodged.

However, at this moment, Han Fei shot out the ninth arrow of the Battle Soul Art with a longbow in hand.

"One arrow! Two arrows. Three arrows."

Every arrow transformed into a beam of light that instantly vanished as it pursued Mo Fan.

Sun Wu originally wanted to kill Luo Xiaobai, but seeing how strange Han Fei was, she wanted to save Mo Fan first.

He knew that once Mo Fan died, this battle would return to its original state. The two sides would probably only be able to fight to a draw.

Therefore, Sun Wu summoned a thousand ice cones and sealed Han Fei with layers of ice walls. As for herself, she launched a Soul Stabbing Art at Han Fei.

Unfortunately, Han Fei was much faster than her.

Just as the Soul Stabbing Art arrived, it only pierced through Han Fei's afterimage, but Han Fei had already appeared a hundred meters away.

"Four arrows, five arrows, six arrows..."

Ice-sealing techniques were useless against a body refiner like Han Fei. Sun Wu shouted, "Mo Fan, retreat."

However, Han Fei sneered. "Can he retreat?"

The ninth arrow of the Battle Soul Art killed both the body and the soul. Han Fei couldn't use it before, but he could use it now.

To strong masters, combat skills didn't differentiate between realms. The law enforcers were still very strong when using a mortal combat skill, while it was useless for a dangling fisher to use a king-level combat skill.

At this moment, it was no longer a question of whether Mo Fan could retreat or not. Han Fei ignored Sun Wu and focused on killing Mo Fan, and Sun Wu couldn't even touch the corner of his clothes.

Chu Qingyan noticed that Han Fei's speed and strength suddenly soared. She had only seen this feeling of shooting arrows from one person.

It was Diwu Weiguang.

Diwu Weiguang could be said to be the number one Battle Archer in the Thousand Star City. His combat technique, Lightless Arrow Stream, was miraculous. Chu Qingyan even felt that even Jiang Nanyu might not be a match for Diwu Weiguang.

At this moment, the feeling of Han Fei shooting arrows was very similar to that Diwu Weiguang gave her.

At that moment, she knew that Mo Fan was probably going to die.

Sun Wu was good at combat, but she wasn't suitable for fighting body refiners. If Han Fei was free, Sun Wu would be in danger in an instant.

Chu Qingyan even glanced at Luo Xiaobai. She was wondering if she could kill Luo Xiaobai at this moment.

However, what would happen if she killed Luo Xiaobai?

If Sun Wu died, the situation would change again.

Chu Qingyan immediately shouted, "Nanxi, let's go. Sun Wu, retreat. We quit."

### **Chapter 1052: Stepping On Dragons and Dragons While Plucking Roses**

"You want to leave now? Have you asked for my opinion?"

When Han Fei heard that these people wanted to leave, he was displeased. Arrows rained down, filling the sky.

These arrows were not only aimed at Mo Fan, but also at Chu Qingyan, Yang Nanxi, and Sun Wu.

However, after Yang Nanxi left the battlefield, she spun around and raised her two sledgehammers like a storm. Chu Qingyan and Sun Wu immediately hid in the storm.

As for Mo Fan, he couldn't escape. Han Fei was chasing him, and he couldn't flash infinitely like Han Fei. At this moment, he was in a perilous situation.

If it wasn't for the six-winged contractual spiritual beast and the Mo family's Water Dragon Chant, he would have long been killed.

At that moment, Mo Fan roared, "Help me."

Hum!

A Sacrificing Punch struck Yang Nanxi's Storm Hammer like a dragon. The scene was like a nuclear explosion, sending waves dozens of kilometers away. The three of them used Han Fei's strength to run dozens of kilometers.

Han Fei's eyes were cold. Yang Nanxi was indeed very strong. She could even withstand the Sacrificing Punch in this state.

However, Mo Fan was in despair. A Momentary Time pierced through the void and landed on his shoulder. The Great Sky Swallowing Technique swallowed a huge mouthful of air, causing him to pause.

"No!"

Hiu! Hiu! Hiu!

Boom! Boom! Boom!

Countless arrows exploded. Even though Mo Fan had extraordinary abilities, he was instantly crushed.

Han Fei glanced at Chu Qingyan and the others who had already fled, his heart calm.

At this moment, he wasn't in his strongest state. Because there was no concept of spiritual energy here, when it came to the use of spiritual energy, it wasn't the most perfect state. Therefore, the additional strength of Han Fei's spiritual energy couldn't be reflected.

Otherwise, he would be much stronger.

Luo Xiaobai didn't immediately choose to recover. Instead, she shouted, "Han Fei, remove the secret technique."

Zhang Xuanyu's expression was solemn. "Feifei! Quickly remove it."

Le Renkuang also shouted, "He's running away. There's no need to fight."

Han Fei looked down at them and then back at Heavenly Red Hibiscus and Heavenly Vine.

Now that he was at the peak of his combat strength, with Luo Xiaobai injured, it was unlikely that Le Renkuang could approach Heavenly Red Hibiscus.

A hint of fanaticism appeared in Han Fei's eyes as he shouted, "Yu, I'll climb the mountain. You support me."

Here, Han Fei had the strongest soul power, and Zhang Xuanyu was second to him.

At this moment, Zhang Xuanyu immediately said in surprise, "Now?"

Han Fei took a step forward and rushed straight for Heavenly Red Hibiscus. His speed was so fast that Zhang Xuanyu and the others felt their scalps tingle.

Luo Xiaobai's expression changed. "Zhang Xuanyu, his secret technique is very dangerous. We can't let him continue to use it."

Zhang Xuanyu gritted his teeth. Do I look like I can control him?

"OK!"

Regardless of whether he could control him or not, he had to give it a try.

Zhang Xuanyu ran up the mountain, but a soul barrier appeared on his body.

...

Chu Qingyan and company, who had just run away, had extremely ugly expressions.

As they retreated, they occasionally looked back. Finally, Chu Qingyan took a deep breath. "Mo Fan probably won't return."

Sun Wu frowned. There was something wrong with Han Fei's technique. Her abilities to seal and suppress souls had no effect on him at all. Even the Purple Sand Corrosion and the Weak Water Corrosion couldn't shake his soul. She was 100% sure that it was the Art of Invincibility.

Chu Qingyan nodded. "Not only are your spells ineffective, even my time powers are ineffective against him. He's an extremely dangerous person! Also, the mystic technique he's using is very strange. We can't fight him head-on in the future."

Yang Nanxi sniffed. "I underestimated them. That fatty isn't simple either. He actually completely withstood my power. By the way, his contractual spiritual beast should really be a legend creature."

The three of them felt their hearts sink. Chu Qingyan said, "Ordinary means are useless against them. Inform the others later that those who are not geniuses shall not start a fight with these people, especially Han Fei."

...

Outside the Demon Plant Soul Realm, there were many people gathered.

However, these people were discussing it because the ranking on the stone monument had changed. Han Fei's name was directly imprinted on the 35th. It was terrifying.

At that moment, someone said, "I've witnessed the entire process. Anyone want to buy information?"

Someone scoffed. "Why do we need to buy information?"

The person said disdainfully, "Do you know who climbed the mountain?"

Someone in the crowd replied, "Is there a need to guess? It's none other than those people from the Thug Academy. So many people from the big clans went in. Someone saw Chu Qingyan and Yang Nanxi enter as well. Even if you use your butt to think, you will know what happened!"

The person who wanted to sell the information was embarrassed and helpless. It seems that everyone has known it!

At this moment, one of them stood in the crowd and muttered to himself, How are Han Fei and the others so fast?

As for Wang Santie, who had already changed into another person, he couldn't help but feel excited. The Thug Academy is really powerful! How long has it been since we were separated? He's already on the stone monument ranking? This means that he has at least flattened a mountain. I just don't know which one it is...

At this moment, someone rushed out of the forest. When he saw so many people, he was first shocked before cursing, “Why the f\*ck are you all gathering here? I have important information that involves the Thug Academy and the big clans. Who wants to buy it?”

Wang Santie immediately said in amusement, “Do we need you to tell us this information? We’ve already known it.”

The man was taken aback and then said in surprise, “You all know that Han Fei killed the Hydra Grass?”

Instantly, everyone came to a realization. “Oh! So it’s this mountain?”

The man’s face was cold. “The Thug Academy and the big clans have already started a war. There must be some people who got killed this time. Aren’t you afraid that someone will come out and kill you in anger? Those people have visualization fossils.”

Some people were moved, but no one left. Which idiot would use a visualization stone to attack a passerby? Wouldn’t that be a waste?

Several hours later.

When Yang Nanxi was the first to come out with her sledgehammers, someone let out a scream before a group of people ran away.

However, at that moment, Wang Santie couldn’t help but look back. Why did he only see Yang Nanxi, Chu Qingyan, and Sun Wu?

Then his heart surged. “Where is Mo Fan?”

...

In the Soul Realm.

The Million Knife Art was like a long dragon, with the intention of directly chopping off Heavenly Red Hibiscus. However, reality proved that it wasn’t that simple.

The Heavenly Red Hibiscus wasn’t just a beautiful flower.

Han Fei dispersed the pollen. High in the sky, he saw the flower that hadn’t fully bloomed. The petals opened, revealing what was inside.

They were thin stamens that numbered in the thousands. As for the stamen in the middle, it bloomed at the top and began to spew out massive amounts of pollen.

Was that pollen? No, they were clearly fist-sized red fruits. They were bright red and beautiful, making one have the urge to bite them.

However, when Han Fei and Zhang Xuanyu saw the red fruits, their faces changed drastically. They swept towards Han Fei and Zhang Xuanyu like missiles.

Of course, they were mainly to attack Han Fei, because a soul storm had already arisen around Zhang Xuanyu. Countless Blood Demon Worms were crumbling, and Zhang Xuanyu was struggling to walk in the pollen.

Han Fei shouted, "Be careful of the flower pistil."

Boom! Boom! Boom!

The fruits were like nuclear bombs that exploded into dazzling sparks in midair.

Han Fei's fist mark rumbled, and Zhang Hanyu's spear struck out and he roared, "Feifei! This flower is a little fierce. Shall we retreat?"

Han Fei ignored it. Although the fruits were powerful, he was at his peak state and didn't panic at all. He was still charging towards the Heavenly Red Hibiscus.

Hiu! Hiu! Hiu!

At this moment, thousands of transparent veins seemed to appear in the void. Han Fei vaguely felt the Demon Purification Pot tremble slightly.

Han Fei stepped out of the Soul Driving Array and saw transparent veins trying to fall on him.

"Hmph! Wanna control me?"

The moment Han Fei released the Void Lines, Heavenly Red Hibiscus gave up on Zhang Xuanyu and an overwhelming number of Blood Demon Worms and red fruits charged at Han Fei.

Han Fei didn't panic. The Million Knife Art formed a blade storm that spun around him.

"Hoooooo!"

Han Fei struck out with the Sacrificing Punch. Wherever he passed, the red fruits exploded and the Blood Demon Worms were crushed into nothingness.

Even so, the Sacrificing Punch failed to break through the 500-meter barrier.

Under the mountain.

Le Renkuang swallowed his saliva crazily. "Is this a flower?"

Luo Xiaobai's eyes flickered. "Can the Blue Cannibal Flower become such a spiritual plant in the future? It's too strong."

They had all seen Han Fei's Sacrificing Punch. It was so powerful that ordinary geniuses couldn't even survive a single punch but be blasted to nothingness.

However, on this mountain, it was crushed after less than 500 meters.

Zhang Xuanyu shouted, "Soul Explosion, Explosion, Explosion..."

Three consecutive Soul Explosions were accompanied by a void spear beam.

A petal from Heavenly Red Hibiscus landed. Not only did it block the soul explosion, but it also shattered at the same time as the spear beam.

Zhang Xuanyu almost vomited blood. What kind of sick demon plant is this? Can a single petal stop me?

"Are you looking down on me?"

Zhang Xuanyu took the opportunity to rush all the way to the mountain and burst a three-leaf petal. Finally, the blood demon worm returned, but only a small portion.

This was because Han Fei was also charging. He was a greater threat than Zhang Hanyu and was even faster.

Heavenly Red Hibiscus chose to deal with Han Fei, and Han Fei's figure flashed in the sky with countless afterimages. At this moment, a void hand reached for the center of the flower pistil.

"Chila!"

In an instant, three leaves flew across the space.

"Explode!"

The petals collapsed, and the illusory hand shattered as well. However, after the Infinity Water, Han Fei gathered his strength and launched the Sacrificing Punch again.

The Heavenly Red Hibiscus suddenly emitted a strange fragrance. At that moment, the black mist on Han Fei's body kept rising.

Han Fei gave a low, sinister chuckle. "Hehehe! You want to stop me with just a few petals?"

Heavenly Red Hibiscus didn't know Han Fei's current state. The floral fragrance was a method of derangement, but Heavenly Red Hibiscus probably didn't expect Han Fei to become more and more violent.

At this moment, two colors rose from Han Fei's body. One was black mist, and the other was resplendent golden light. It was like the light of dawn, and the golden light shone on the darkness. However, the golden light failed to break through the darkness and became even more demonic.

Some of the Void Lines were attached to the transparent veins, while others were attached to the petals. A pitch-black hand appeared in the sky and tried to grab Heavenly Red Hibiscus.

With that grab, even the red fruits couldn't explode. More than 30 petals were crushed.

### **Chapter 1053: Bedevilment**

When Han Fei showed the black hand, Heavenly Red Hibiscus completely gave up on Zhang Xuanyu.

Luo Xiaobai had already stood up with an ugly expression. "Is this a sign of bedevilment?"

Le Renkuang said with a trembling face, "Bedeviled? What do you mean by bedeviled?"

Luo Xiaobai took a deep breath. "Rumor has it that cultivators cultivate in defiance of the heavens, fight against the heavens, fight against the sea, and absorb the righteous aura of the world. Even if there's a problem with their temperament, they at least walk the right path. However, becoming possessed seems to be a different path. They fight against the heavens and the earth and escape the heavenly spirit and earthly meridians. Although they can obtain extremely powerful strength, once they fall into this path, their temperament will change drastically."

Le Renkuang said anxiously, "Then is there any other way?"

Luo Xiaobai shook her head slightly. "That depends on Han Fei. Look, he has the Art of Invincibility, and his demonic nature can't completely descend. That's a good thing."

Leren Kuang swallowed his saliva. "I think he's going crazy. Is that a good thing?"

Halfway up the mountain, Zhang Xuanyu looked at this scene in a daze, thinking, Han Fei, what secret technique is this? It makes my heart palpitate.

Even the Heavenly Vine on the mountain in the middle moved, much less Zhang Xuanyu. Green vines were spiraling in the clouds. Although they didn't fall directly, they looked like they were about to move.

In the sky, Han Fei charged forward like a black-gold shadow, smashing through a large number of explosive fruits. Behind Han Fei was a large swath of black fog. In the fog, there were scarlet eyes and a gaping mouth that looked extremely terrifying.

The ten thousand transparent stamens of the Heavenly Red Hibiscus crazily extended towards Han Fei.

However, Han Fei tilted his head slightly, and light rushed out of his black and white eyes. A large number of transparent veins exploded.

Han Fei reached out again. Seeing that Heavenly Red Hibiscus was powerless to resist, three green vines fell from the sky and lashed at Han Fei.

Han Fei suddenly looked up, cracked his mouth, and said coldly, "Scram!"

A Sacrificing Punch blasted out as the Draw slashed into the void.

Two vines exploded, and Han Fei raised his hands. Two black hands appeared in the air. Han Fei grabbed the third vine and smashed it at Heavenly Red Hibiscus with terrifying strength.

BAM!

The pollen filled the sky as the flower petals scattered. It was as though they were weaving red silk in the void. The Heavenly Red Hibiscus was finally defeated with one strike.

However, at this moment, another green vine fell at an extremely fast speed. It hit Han Fei and sent him flying dozens of kilometers away, hitting the mountain on the right and the mountain on the left.

Boom!

The Hydra Grass was still recovering when a nuclear bomb smashed down. It had just grown a small piece of stem when it was smashed to pieces.

On the mountain, dust billowed as rubble flew everywhere.

Zhang Xuanyu shivered and saw red fruits falling.

Without any hesitation, he scooped it up and rushed towards the mountain on the right.

Zhang Xuanyu roared, "Feifei! Alright, alright. Let's attack the remaining one together."

In the sky, the void stone monument appeared again. Han Fei's name jumped straight up from the 35th to the 12th place.

Perhaps because of Zhang Xuanyu's participation in the battle, his name also appeared in the void, wanting to be imprinted to the 100th place.

However, although it tried a few times, it was blocked by the stone monument. In the end, it failed to be imprinted.

However, Zhang Xuanyu wasn't in the mood to care about that. Even Luo Xiaobai and Le Renkuang were rushing towards the mountain. They had to stop Han Fei from being possessed.

However, before the three of them could run over, they saw the mountain of Hydra Grass suddenly explode. The black Han Fei rushed straight for the mountain in the middle.

Zhang Xuanyu cursed angrily, "F\*ck, you're still coming?"

Le Renkuang: "Send me there."

Luo Xiaobai grabbed him with her vines and smashed him into the center.

In midair, Le Ren roared, "Sky Swallowing Technique."

However, just as the hole appeared, Han Fei flashed and flew far away.

Le Renkuang was dumbfounded. "Slow, slow. Send me off again."

However, Luo Xiaobai was half-kneeling on the ground and couldn't send him off. She was still heavily injured.

The three of them could only watch helplessly as Han Fei rushed to the center peak like a lunatic, the black fog behind him scary.

In the next moment, a boom sounded from the mountain in the middle. A large number of Heavenly Vine descended like dancing green snakes.

...

Outside...

Chu Qingyan and company didn't leave. Instead, many people from big clans gathered.

Yang Nanxi had been staring at the stone monument for a long time.

Suddenly, Han Fei's name flashed with golden light and jumped to 12th place.

Yang Nanxi immediately exclaimed, "He cleared the second mountain."

Chu Qingyan and Sun Wu had ugly looks on their faces. It wasn't because of anything else. Among the top ten geniuses, Yang Nanxi was ranked the highest in the Demon Plant Soul realm. It wasn't that no one could break through the mountain alone, but it might take a long time without any help.

No one was as efficient as Han Fei.

In a sense, this meant that even Jiang Nanyun, who was ranked first among the top ten geniuses, was no match for Han Fei when he was a peak-level Hidden Fisher.

This thought agitated Chu Qingyan.

Han Fei was a body refiner, but he shouldn't be this strong. The names on this stone monument were accumulated over thousands of years.

With a whoosh, Han Fei was ranked 12th. Was his talent really that high?

...

At this moment.

Deep in the Demon Plant Soul Realm, the mountain in the middle was already enveloped by a black fog. Only the golden fist marks could be seen constantly striking out. Occasionally, Han Fei would be smashed into the ground, and often, giant vines would explode.

In fact, the three of them saw Han Fei tear off a giant vine, which extended thousands of meters.

**BAM!**

A chubby figure was sent flying and rolled dozens of times on the ground before being stopped by Zhang Xuanyu.

With his face covered in dust, Le Renkuang spat out a mouthful of blood. "I can't beat it."

Zhang Xuanyu swallowed. "It seems that we can't participate in this battle!"

Luo Xiaobai said, "He can only depend on himself. If the four of us work together, we may have a chance to beat this heavenly vine. However, his condition isn't right at the moment."

As they spoke, in the black fog on the mountain.

Han Fei's body was shining with golden light, and his teeth were bared. What was fighting was no longer the Blood Drinking Knife, but the miniature Yin Yang Wheel. It wasn't the combination technique of Little Black and Little White, but the Million Knife Art turning into a miniature Yin Yang Wheel.

An azure vine tore through the void, causing a violent "crack" sound to erupt in the air. The black fog behind Han Fei surged, and the azure vine was blocked as if it had been slapped into water.

Han Fei took the opportunity to cut the vines with Snowmourne.

Under the influence of the black fog, the green vine seemed to be somewhat dispirited.

Han Fei took the opportunity to attack crazily, cutting off one vine after another. At this moment, his target was already aiming at the main trunk of the Heavenly Vine, a torso made of countless vines.

Han Fei punched the main trunk of the Heavenly Vine and the Infinity Water seeped into it.

**Boom!**

Five or six of the Heavenly Vine's main trunk had been blasted apart. This was only because of the self-detonation of the Infinity Water from the inside! Normally, Han Fei's Sacrificing Punch would only explode one.

Subconsciously, Han Fei had a strange thought that he wanted Little Black and Little White to cancel the fusion.

At that moment, Han Fei realized that something was wrong. After Little Black and Little White fused, he should have been in an absolutely calm situation, but after fighting for a long time from Heavenly Red Hibiscus's side, he realized that he wasn't calm.

At this moment, Han Fei suppressed the thought. This Demon King Contract is strange. Is it trying to guide me?

Without the fusion state and the calmness created by the Yin-Yang Divine Eye, his mind would probably be easily stripped away!

However, although Han Fei realized it, he didn't want to remove the Demon King contract. This was because... the dawn of victory was right in front of him.

Taking advantage of this seemingly clear-headed moment, Han Fei tied the Heaven Vine with the Void Lines and crawled into the hole.

In the eyes of Luo Xiaobai and the others,

Suddenly, a golden beam of light erupted from the green vine's torso from time to time. After more than ten consecutive explosions, the huge vine in the sky began to pour down like a tower.

Le Renkuang's eyes widened. "He won just like that?"

Zhang Xuanyu suddenly pointed at the air. "Look at the black fog."

He saw a swath of black fog begin to condense into a claw-like shape as though something was about to extend out of the fog.

Luo Xiaobai couldn't care less as she pointed into the air. "Great Spirit Summoning Art."

Then, Luo Xiaobai vanished and rushed towards the black mist mountain through the vines and spiritual plants.

Zhang Xuanyu and Le Renkuang had a bad feeling and quickly rushed over.

As for Han Fei, he looked especially irritable as if something wanted to drill out of his body.

"Han Fei, Han Fei..."

"Be careful behind you."

"Feifei! Don't just stand there. Behind you."

"Sky Swallowing Technique!"

With the use of the Sky Swallowing Technique, the black claw suddenly paused. However, it only paused for a moment before slowly extending towards Han Fei, albeit at a slower speed.

“Momentary Time. Three Tremors to the Sea.”

The spear beam trembled and landed above the black fog, but it didn’t even cause a ripple. It sank straight in.

At this moment, Luo Xiaobai had already appeared on the fallen ivy and grabbed Han Fei with the vines.

“Han Fei, wake up.”

In the chaos.

Han Fei saw an empty darkness. In the darkness, there was a huge shadow staring at him.

Scarlet eyes and a twisted mouth.

An extremely low and hoarse voice sounded. “Give up struggling. You will obtain all my strength.”

Han Fei’s black and white eyes were cold as he stared at the pair of eyes.

“Who are you?”

The voice chuckled. “I’m the embodiment of power. I’m the eternal darkness. I can help you find the Great Dao and become a king.”

“Daddy, Daddy...”

Suddenly, Han Fei’s left eye twitched as a call came from his mental world.

Han Fei looked back. There was nothing around him. Where was he?

“Han Fei, wake up.”

“No! I can’t suck this thing.”

“Feifei! You son of a b\*tch, what are you waiting for?”

Han Fei raised his hands and saw the black gas in his palms. He seemed to realize something.

“Terminate.”

Han Fei frowned. It couldn’t be removed.

“Heh heh heh, what’s wrong with being possessed? You will obtain infinite power. That’s true invincibility, above all life...”

Swish!

Suddenly, a golden light shone into the void. It was a golden page that floated in the void.

“Hoooooo!”

“Hehehe, you can’t escape your desire for power. We will meet again.”

Hum!

The black fog dissipated, and in the eyes of Luo Xiaobai and the others, a page of the Heavenly Book fell from the sky. The golden light dispelled the darkness, and the black claws melted.

As for Han Fei, he fell straight down.

### **Chapter 1054: One Page of the Heavenly Book**

When Han Fei woke up again, he opened his eyes and saw Zhang Xuanyu and Le Renkuang staring at him nervously.

“Hey! What are you doing?”

Han Fei shivered and hurriedly pushed the two heads away. “I’m not gay!”

As he pushed the two of them, Han Fei realized that he was holding a golden page in his hand. He couldn’t help but be curious. “What’s this?”

He got up and saw that Luo Xiaobai was recovering beside him.

Han Fei’s face changed. “How’s Xiaobai?”

Zhang Xuanyu waved his hand in front of Han Fei’s eyes. “Hey! Do you remember what you just did?”

Han Fei was stunned. After thinking for a moment, his face sank. “I was fighting the big red flower.”

“Wait a minute!”

Han Fei was stunned. “And I was...”

Han Fei turned his head and saw that the Heavenly Vine was gone. The big green vine was lying on the ground not far away, in ruins.

Han Fei immediately said with a strange expression, “I even killed it?”

Le Renkuang nodded repeatedly. “You only just found out? I couldn’t even catch up to you. You just rushed over and beat it into pieces.”

Han Fei’s heart skipped a beat. What was the Demon King Contract he used? For some reason, a huge monster that existed in the void appeared in his mind, as well as the endless black fog.

Zhang Xuanyu asked, “What did you remember?”

Han Fei’s face sank. “What just happened?”

Le Kuang immediately whimpered. “That’s because you didn’t see what happened just now. A whole mountain was almost flattened by you, and a huge claw that’s more than a thousand meters long extended out of the darkness. My Sea God, that so-called heavenly vine can’t even touch you...”

Le Renkuang went on and on, trying to vividly describe how Han Fei was as fierce as an ancient beast that had come out of nowhere just now.

Han Fei's heart sank as he listened to Le Renkuang's description in a daze. He had wanted to teach them Devil Change, but now it seemed like there was a lot going on!

What the hell is that monster? It seems to be telling me that it wants to give me infinite power? Do I need you to give it to me?

Immediately, Han Fei said with a straight face, "What else?"

Zhang Xuanyu rolled his eyes and said, "What else do you want? Do you really want that thing to run out? Forget it, the four of us will be finished together. Oh, there's something else. A huge stone monument appeared in the void. Your name went to the top with a whoosh. Then, this thing fell from the sky. I've been looking at it with Kuangkuang for a long time, but we can't understand it."

Zhang Xuanyu pointed at the golden page in Han Fei's hand with a curious expression.

Han Fei hurriedly looked down. It was a golden page. There was something written on it, but he didn't recognize it at all.

Or could it be that the words on the paper weren't words, but symbols?

It seemed to be an extremely complicated and rhythmic thing. As Han Fei looked at it, he realized that the paper was melting.

Zhang Xuanyu said, "Hey! Why is it gone?"

Le Renkuang said, "They all ran into Feifei's body."

The golden paper turned into a faint golden light and disappeared from Han Fei's palm.

Han Fei was also dumbfounded. What's going on? I don't understand either!

Han Fei closed his eyes and tried to see if there was anything special in his mind. After all, every time he encountered such a situation, he would just see the reaction of the Demon Purification Pot.

But this time, there was nothing.

Old Han's divination skills would at least give a hint. This golden page was clearly a page, but it didn't show anything, leaving Han Fei puzzled.

At this moment, Luo Xiaobai slowly opened her eyes and looked at Han Fei. "You're awake?"

Han Fei chuckled. "Yes, I'm awake."

Luo Xiaobai asked, "What secret technique did you use? In the ancient battlefield, you used the Majestic Mystic Spell. But then the secret technique you used seems to have changed."

Han Fei grinned. "The underground city. I got it from Sky City."

Luo Xiaobai frowned. "You were almost possessed. If it wasn't for the sudden golden light, you might have been possessed."

Han Fei couldn't help but frown. Indeed, this Demon King contract couldn't be used casually. He should have known when he deduced it.

Just now, he almost lost control of himself.

Han Fei remembered that in the Ideal Palace, no matter what happened, he couldn't use the Demon King contract again.

In terms of strength alone, neither Chu Qingyan nor Yang Nanxi were stronger than him. However, the fact that the other party had more people was a problem.

Han Fei said, "Do you know what it's like to be possessed?"

Luo Xiaobai shook her head. "I don't know, but on Tang Ge's wedding night, Grandpa Ku told me..."

Han Fei: "What?"

Luo Xiaobai looked a little strange. She said, "Grandpa Ku said that Ren Tianfei has been possessed."

"Hiss!"

Han Fei immediately gasped. "No... Wait a minute. Are you sure?"

Luo Xiaobai nodded slightly. "I didn't say that. It was the strong masters of the big clans in Thousand Star City who said that, the Venerables."

Zhang Xuanyu said in surprise, "The one... who's protecting our Thug Academy?"

Le Renkuang took a deep breath and said, "I don't think so! Just because the big clans call him a devil doesn't mean that he has really become a devil! If that person has become a devil, doesn't that mean that our Thug Academy is related to a devil?"

Han Fei said angrily, "Bullshit. Are the Venerables right about everything? Especially the Venerable in the Thousand Star City. They can't bear to see the Thug Academy doing well."

Luo Xiaobai said, "No, Grandpa Ku said that it was my father who said that Ren Tianfei didn't have any meridians in his body. It's said that he went crazy from body cultivation and broke all his meridians."

Han Fei was suspicious. "That doesn't mean he was possessed! He just has no meridian, right? Is it a big problem?"

Luo Xiaobai's eyes widened. "Meridians bear the Tao of Heaven and are the law of nature. Without the meridians in one's body, one will definitely perish. But he didn't... Not only is he fine, but he has even broken through the physical barrier and is extremely powerful. Only by defying the Heavenly Dao and cultivating a heterodoxy technique can he have such a strange situation. Therefore, the Venerables once said that Ren Tianfei has been possessed."

Le Renkuang and Zhang Xuanyu gasped. What she said seemed to make sense!

Zhang Xuanyu was dumbfounded. "His meridians are gone? Then his spiritual heritage is gone too?"

Le Renkuang swallowed his saliva. "Is it that... so non-mainstream?"

Han Fei said disdainfully, "Possessed? Isn't this remark a little disrespectful to being possessed? Shouldn't it be the descent of a devil king, with mountains of corpses, seas of blood, and thousands of

bones? With a wave of his hand, the Heavenly Dao will shatter. With a stomp of his foot, the sea will surge. Then, he will point at the sky and curse—damn the heavens.”

The three of them looked at Han Fei strangely.

Zhang Xuanyu said leisurely, “Feifei! Are you describing a devil or a king? I think a king should be like this, carefree.”

Le Renkuang nodded repeatedly. “I agree.”

Luo Xiaobai shook her head and said, “Anyway, you can’t use that secret technique anymore. I think the Majestic Mystic Spell is pretty good. Your secret technique is extremely dangerous now. Just now, you were so close to being possessed.”

Le Renkuang and Zhang Xuanyu nodded repeatedly. They felt that the current Han Fei was better. They really couldn’t handle the previous one.

Han Fei scratched his head. “Sigh! I won’t use it again.”

The three of them were relieved to hear that.

Only then did Luo Xiaobai change the topic. “Take advantage of this period of time to digest these soul fruits! I ate one previously and felt that this soul fruit seems to be able to help me break through the soul barrier.”

Zhang Xuanyu immediately said, “Yes, I forgot to say. This soul fruit is damn effective. I feel that if I eat a few more, my soul barrier will be broken.”

Zhang Xuanyu hurriedly took out the seven shining red fruits.

Le Renkuang hurriedly took out an azure fruit and said, “Don’t blame me. That huge green vine only has one fruit.”

Han Fei was somewhat surprised. Such an awesome green vine only had one fruit? How stingy!

However, Han Fei glanced at it and fell silent.

A string of data appeared in his eyes.

<Name> Destiny Soul Fruit

<Introduction> A strange fruit that grows in the Void Soul World. Eating it can sever the mental barrier.

<Level> None

<Quality> Heaven and Earth Spiritual Item

<Effect> Destiny Soul Fruit bears the heavenly meridian. It helps to forcefully break through one’s soul barrier but is ineffective against explorers.

Han Fei’s eyes turned green. Isn’t this what I want? This is good stuff!

Immediately, Han Fei took out seven ultra-quality soul fruits and threw them to Le Renkuang. “Give that to me and these are all yours.”

Luo Xiaobai said in surprise, “You know this soul fruit?”

Han Fei was stunned. “Uh! No, but I think it’s especially compatible with me.”

Luo Xiaobai tacitly agreed. This feeling was very strange. It wasn’t a problem to say so!

However, Luo Xiaobai said, “But that’s too much! We don’t need that much!”

Apart from the Destiny Soul Fruit in Han Fei’s hand, there were still 14 ultra-quality soul fruits left. Luo Xiaobai felt that three of the fruits could help them break through the soul barrier. She and Zhang Xuanyu had already eaten one, so there might be six or seven left.

Han Fei immediately smiled and said, “You have to take a look. What kind of place is this? This is the Ideal Palace! Our existences are all soul bodies, and this is only the first Soul Realm! There are still six more Soul Realms like this! I heard that each one is harder than the last. Since these soul fruits are so useful, they must be useful. Let’s digest them here and break through the soul barrier before we leave.”

Le Renkuang nodded vigorously. “That’s right, that’s right. Only four of the so-called ten geniuses came, but they’re already so difficult to tackle. I can’t imagine what will happen if all of them come.”

Zhang Xuanyu took a deep breath. “Do you think they’re waiting for us at the door?”

While Han Fei and the others were discussing, they didn’t know that the outside world was in a great uproar.

On the void stone monument, golden light flashed as Han Fei ranked first.

This wasn’t something that happened once in a thousand years. It was completely unprecedented!

It could be said that those who saw it were dumbfounded and those who heard it were alarmed!

### **Chapter 1055: Slaying the Soul Barrier**

Although Luo Xiaobai and the others had many opportunities, they hadn’t been able to extend their perception beyond 50 miles.

The one with the weakest perception was Le Renkuang. He was only about 30 miles away.

It didn’t mean that his perception was weak. In comparison, Le Renkuang’s perception was already very high. Some peak-level Hidden Fishers didn’t even have a perception range of ten miles.

Luo Xiaobai and the other two were consuming ultra-quality Soul Fruits, but Han Fei didn’t. At this moment, he had to be absolutely sure. Otherwise, once someone else entered, the consequences would be unpredictable.

Perhaps it was because everyone was a soul body now, the effects of consuming ultra-quality soul fruits were shockingly fast.

In less than half an hour, Luo Xiaobai and Zhang Xuanyu each woke up once.

Even for Le Renkuang, it only took him less than half an hour too. When he finished absorbing the first ultra-quality soul fruit, he looked at Han Fei and said in surprise, “Feifei, I feel that my perception should have increased a lot.”

Although he couldn’t release his perception in the Ideal Palace, he could clearly sense the strengthening of his soul. If Le Renkuang said that it had increased significantly, it definitely wouldn’t be a small increase. After all, his perception range was small.

Han Fei said, “Continue eating until it can’t increase any further.”

Han Fei couldn’t help but be tempted. If an ultra-quality soul fruit could greatly enhance the power of the soul, what about his Destiny Soul Fruit? If he could break the soul barrier, what would happen?

One hour passed.

Crack!

The sound of laws cracking sounded in the void.

Zhang Xuanyu was the first to open his eyes. At this moment, a shadow appeared in his eyes. It looked like he had broken through the barrier.

Zhang Xuanyu sighed. “Four Soul Fruits. Four Soul Fruits made me feel that my soul has nearly doubled in strength. This is crazy. This Ideal Palace is crazy.”

Han Fei was shocked. “How much?”

Zhang Xuanyu chuckled. “Double! Maybe not that much, but not far from it.”

Han Fei said, “Don’t speak yet. Wait for Xiaobai and the others to finish.”

Luo Xiaobai also ate four soul fruits and broke through after a hundred seconds.

The moment she opened her eyes, Luo Xiaobai said, “I thought I would need three Soul Fruits to break through the barrier. I was too naive.”

Han Fei asked, “How’s the effect?”

Luo Xiaobai thought for a moment. “It’s greatly improved. The effects of this soul fruit are beyond my expectations. Although I can’t release my perception here, I think my perception range might be close to 100 miles.”

Zhang Xuanyu said happily, “I feel the same.”

Unlike Zhang Xuanyu and Luo Xiaobai, Le Renkuang didn’t seem to have a physique suitable for cultivating the soul. Up to now, he had only eaten the third soul fruit before breaking through.

However, when he opened his eyes, he laughed in delight. “Hahaha, my soul’s weakness has finally been made up. You might not believe it, but my perception range is definitely at least 60 miles. Yes, definitely!”

Han Fei patted his shoulder awkwardly. “Well! As long as you’re happy. Come, guard me.”

Le Renkuang couldn't help but be stunned when he saw Han Fei's expression. He looked at Zhang Xuanyu. "What's wrong with him?"

Zhang Xuanyu looked up at the sky. "It's nothing. You're great and have improved a lot."

Luo Xiaobai said, "You're weak. My perception range is about a hundred miles. With the help of spiritual plants, it might be even larger. Zhang Xuanyu's pure perception should be farther than mine."

Le Renkuang was stunned. "..."

Han Fei was already sitting cross-legged. Without hesitation, he stuffed the Destiny Soul Fruit into his mouth.

Ever since he had swallowed the Origins Water in the Sea Quelling Painting, his soul's strength hadn't increased despite more than a year of training.

From this, one could tell how difficult it was to break through the barrier to his soul!

It could be seen that the Origins Water expanded his soul. It might even have allowed Han Fei to obtain the soul strength of a law enforcer in advance.

Han Fei glanced at the Destiny Soul Fruit and nodded firmly.

Then he opened his mouth and stuffed the Destiny Soul Fruit into his mouth.

Hum!

At that moment, the air around Han Fei surged, and the three of them couldn't help but take a few steps back.

Zhang Xuanyu said in surprise, "How strong is Fei's soul? Why is there such a huge reaction from eating a fruit?"

Luo Xiaobai said, "It should be that the fruit is rather extraordinary."

As for Han Fei,

the moment the soul fruit was swallowed, Han Fei felt his entire body tremble. His body naturally glowed with golden light, and his physique was raised to its strongest state as if his body was suddenly filled.

It was completely different from when he digested Soul Beads.

Perhaps because of Han Fei's current soul body, Han Fei felt the soul power in the Destiny Soul Fruit seep into his limbs and bones.

At the same time, an invisible barrier that resembled a wall of nothingness appeared in his mind. Massive amounts of soul power surged over like a tidal wave.

It would have been fine if it was just an impact, but the impact seemed to have an invisible blade that attempted to shatter the barrier.

BAM!

In the eyes of Luo Xiaobai and the others, Han Fei's body was trembling almost every second. Every time he trembled, dust would fly up around him.

Le Renkuang exclaimed, "What's going on? Is he breathing?"

A strange look appeared in Le Renkuang's eyes. "That's not right. He seems to be breaking through the barrier! He reached the barrier long ago. Therefore, after consuming the soul fruit, he directly began breaking through the barrier."

Luo Xiaobai asked, "But is this barrier that strong?"

Zhang Xuanyu fell into deep thought. From the looks of it, Han Fei's soul was much stronger than his! If Han Fei obtained a soul combat technique, how could ordinary people be his match?

Zhang Xuanyu couldn't help but say enviously, "His physique is so strong, so is his soul. It doesn't make sense!"

What the three of them didn't know was that at this moment, Han Fei felt that his brain was about to explode. Every time he hit the barrier, it felt like someone had slashed him with a knife.

Han Fei couldn't help but be speechless. It was quite easy for Luo Xiaobai and the others to break through the barrier! Why is it so difficult for me? Is this because I'm too talented so even the heavens are jealous of me?

"Pui! Pui! Pui!"

Putting aside these inauspicious thoughts, thinking: Perhaps Zhang Xuanyu and the others also attacked the soul barrier in this way!

Han Fei didn't panic at all.

In the past, when he cultivated the Indestructible Body and was struck by lightning, when Snowmourne recognized him as its owner, was it not dangerous?

Instead, Han Fei felt that the power to slash at the soul barrier was still within his limits.

An hour later, Han Fei could clearly sense that the soul barrier seemed to be loosening. He felt that he was just one step away from breaking through it.

"Chop!"

Thud...

It rumbled.

A huge vortex appeared beside Han Fei, sending the surrounding plants flying.

At that moment, Han Fei felt that the whole world was clear. When he opened his eyes, he could see a hundred miles, and hear and smell everything around him.

At the moment when Le Renkuang stuck his head over, Han Fei felt as if he was in slow motion. A pig's head slowly extended over.

“Feifei, are you okay?”

Han Fei suddenly stood up, but the moment he did so, he was slightly surprised.

This was because his will had already risen, but his body was a step too slow.

“Well...”

Han Fei immediately looked at the Demon Purification Pot.

Owner: Han Fei

Second spiritual beast: Unawakened

<Main Art> Divine Manipulation Technique, Volume Five of Void Fishing (Heaven-Level, Divine-Quality)

...

Seeing Han Fei’s strange expression, Luo Xiaobai couldn’t help but ask, “What’s wrong?”

Han Fei was too familiar with this feeling. No, to be precise, this feeling was unfamiliar, but something similar had happened before.

When he broke through to become a Hidden Fisher and crazily devoured Spirit Awakening Fluid, his strength increased too quickly, causing his body to become uncoordinated.

This time, it had nothing to do with his body. Instead, it was his own reaction. His mental thoughts were faster than his body.

Han Fei paused and said, “Yu! Stab me with Momentary Time!”

“Huh?”

Zhang Xuanyu was shocked. What was wrong with Han Fei? He had never heard of such a request!

Zhang Xuanyu couldn’t help but say, “But can you dodge it?”

Han Fei: “Come on, just do it.”

Le Renkuang muttered, "Could he be possessed? Did he damage his brain?"

Zhang Xuanyu pulled away from Han Fei and said, "Then I'm coming?"

"Come on!"

Swish!

Even when facing Han Fei, Zhang Xuanyu wouldn't slack off. He never talked nonsense when it came to things that could be explained through fighting.

When the spear stabbed over, space and time distorted slightly.

In the past, Han Fei wouldn't have had time to consider it, because time was too short.

But now, Han Fei felt that he could grasp the fluctuations at that moment. His brain had already dodged, but his body was moving slowly.

However, he still dodged it. The spear light should have landed on Han Fei's shoulder, but it slid slightly to the side, about an inch away.

"Huh?"

Zhang Xuanyu said in surprise, "Feifei, you've become faster?"

Luo Xiaobai seemed to understand something. "Your reaction speed is faster than your body?"

Han Fei chuckled and nodded.

Luo Xiaobai and the others: "..."

### **Chapter 1056: Diwu Weiguang**

Even Luo Xiaobai was inexplicably envious of Han Fei's current encounter.

Their mental reaction exceeded the speed of Han Fei's body, which was unexpected. Was Han Fei's body weak? Was he slow?

No!

Everyone knew that Han Fei wasn't slow!

It could be seen from the battles with the various geniuses. In fact, under certain limits, Han Fei could match Ye Baiyu's inhuman speed.

Luo Xiaobai said, "Shall you practice a little to get used to it? We don't know what will happen when we get out."

Han Fei shook his head. "No, I'm just a little unaccustomed to it, but it doesn't affect my combat ability."

Han Fei looked back and found that the shattered demon plants on the three mountains were connected by threads in the void as if they were slowly recovering.

As for the Hydra Grass, half of its head had already grown out.

Luo Xiaobai said, "After all, this is a strange soul space. Everything is possible. Perhaps these demon plants are just scattered souls that are currently being repaired."

Han Fei nodded. "Yes, let's go!"

...

Outside the Demon Plant Soul Realm, the crowd had already dispersed, but they hadn't gone far.

On the contrary, due to the various news, there were more and more people here. It wasn't until nearly 300 people from the big clans came and occupied the place that the others retreated far away.

Someone discussed, "This isn't a small matter. Mo Fan went in but didn't come out."

Someone sighed. "The Thug Academy is really crazy! They dare to fight against the big clans of the entire Thousand Star City with just five people."

Someone scoffed. "In any case, no one will remember what happened here once we leave. I think it's over. If these two parties aren't fighting to the death, we won't be able to leave."

Someone was puzzled. "The big clans are so powerful. Rumor has it that there are several Venerables. Why didn't they attack the Thug Academy outside? Why did they have to do it in the Ideal Palace? Their realms were suppressed."

"Heh! If they could make a move, wouldn't they have done so long ago? Why have they waited until now? This means that the Thug Academy definitely has some unknown trump card that prevents the big clans from taking action easily."

Everyone nodded. This was the only explanation.

In the eyes of these people, the Thug Academy was probably in danger this time. They knew that the big clans were going to deal with them, but they still wanted to enter the Ideal Palace? Even if they were strong, there were still more than 300 peak-level Hidden Fishers here! If they really fought, heh, how could they withstand it?

Just as everyone was discussing, a few figures suddenly walked out of the pitch-black forest. It was Han Fei and company

In that instant, more than 300 people outside the Demon Plant Soul Realm entered combat mode.

Seeing this, Han Fei and the others immediately activated their secret techniques and fused with their spiritual beasts.

Chu Qingyan said coldly, "You should know that you can't escape."

Sun Wu gritted her teeth. "Han Fei, you must pay for my brother's life."

Yang Nanxi held one sledgehammer against her shoulder and pointed at Han Fei with the other. "I want to fight you."

Han Fei twisted his head. "How annoying! Is there another one of the top ten geniuses here?"

Han Fei decided that if Jiang Nanyu and the so-called Diwu Weiguang were among these people, they would have to run. Or rather, he could have a fight with them and see their strength.

With the humanoid shield-armor, Le Renkuang standing in front of him, this was possible.

In the crowd, a girl suddenly leaped over. Her appearance changed in midair as rainbow colors swirled around her. Who else could it be but Li Luoluo?

Han Fei frowned. "Why are you here?"

Li Luoluo giggled. "Who am I? Since I've joined the Thug Academy, I have to look like a member of the Thug Academy!"

Han Fei and Luo Xiaobai looked at each other.

In fact, they had privately discussed Li Luoluo's purpose in joining the Thug Academy. This was because as long as one wasn't a fool, one wouldn't choose to join the Thug Academy at such a time.

Even if Li Luoluo didn't know the exact situation, she could still make some deductions.

But at this moment, this critical moment, Li Luoluo actually chose to jump out? Just this point alone, no matter what Li Luo's purpose in joining the Thug Academy was, he had to treat it seriously.

Of course, there was another possibility.

Han Fei said to them via voice transmission, "Be careful. Be careful of Li Luoluo's sudden sneak attack".

This was because, after leaving the Ideal Palace, one's memories here would vanish. Therefore, those who still came into contact with them were either sincerely helping them or spies.

He would see what choice Li Luoluo would make next...

Yang Nanxi curled her lips and said, "All five of you are here? I heard that Xia Xiaochan is quite powerful. Unfortunately, she seems to be dead. Why? Have you found another one to replace her?"

Han Fei narrowed his eyes. "Yang Nanxi, be careful when you speak next time. Otherwise, don't blame me for only killing you."

Yang Nanxi raised her head proudly. "Why don't you give it a try?"

Chu Qingyan glanced at Yang Nanxi, then at the people from the big clans, and finally at Han Fei. "Do you think five people can defeat three hundred? Remember, those who can be here are not ordinary Hidden Fishers."

Han Fei narrowed his eyes. "So, there is no other top ten genius here?"

"Puff!"

A green vine emerged from the ground, and a white flower bloomed on it. A black-robed youth walked out of the flower.

The young man glanced at Han Fei and the others, then looked at Chu Qingyan and company. "I'm not late. Oh, there're so many people here. Li Xuan, stop hiding. I see you."

Han Fei was puzzled. "Who is this?"

Without any introduction, a person walked out of the crowd opposite him. It was Li Xuan, who Han Fei had met once, but he wasn't on the Genius List.

Li Xuan smiled. "Luo Jiutian, even you are here? Do you want your Luo family to have no heir?"

Chu Qingyan said coldly, "Luo Jiutian, what do you think you can do with one more person?"

Han Fei and the others couldn't help but look at Luo Xiaobai in surprise.

Luo Xiaobai nodded slightly. "My brother."

Zhang Xuanyu immediately grinned. "It's good to be a big family member. You have so many siblings."

Han Fei grinned and said, "Sixth on the Genius List. Now we have six strong masters of the Genius List on our side."

Sun Wu said, "Don't flatter yourself. You haven't entered the rankings yet."

Han Fei sneered. "What's the difference? If Mo Fan hadn't been so annoying, you would have been the first one I killed."

Luo Jiutian glanced at Han Fei and couldn't help but laugh. "How arrogant."

He continued, "Who said that I was the only one?"

Everyone was puzzled. Other than someone from the Luo family who was willing to help the Thug Academy, who else could it be?

Han Fei looked at Luo Xiaobai. "Don't tell me you have two brothers?"

Luo Xiaobai's expression was cold. "Just one."

He heard a chuckle from afar. "I really don't mind having such a sister. It's my honor."

The person held a bow and walked slowly over. He didn't look like he was here to fight, but more like he was here to hunt and travel. His footsteps were slow, but he stepped out of a teleportation array and appeared beside Luo Jiutian in the next second.

The man looked at Han Fei and the others and smiled. "I heard on the way that you killed Mo Fan. Impressive. That guy is indeed annoying. Well done."

Chu Qingyan gritted her teeth and said, "Diwu Weiguang, is your Sea Cloud Tower going to participate in this matter?"

Luo Xiaobai and the others were surprised. Why would Sea Cloud Tower help the Thug Academy?

Han Fei was also surprised. It seemed that the Thug Academy and the Sea Cloud Tower didn't have any connection.

Diwu Weiguang waved at Chu Qingyan. "Long-legged, we meet again!"

As he spoke, he even put his hand to his nose and sniffed. Then He nodded in all seriousness. "Yes! It smells good!"

At that moment, Chu Qingyan's expression turned extremely ugly. She thought to herself, "This shameless bastard. I'll kill him sooner or later."

Han Fei and Zhang Xuanyu looked at each other as if they understood something.

Zhang Xuanyu couldn't help but say leisurely, "Nice, what a role model."

Diwu Weiguang turned his head and chuckled. "I'm flattered. I still need to work harder."

Zhang Xuanyu: "How did it feel?"

The corners of Diwu Weiguang's mouth curled up as he said with a smile, "Indescribable. You know what I mean."

"How dare you!"

Chu Qingyan couldn't hold it in any longer. How could she tolerate such teasing in front of her?

As she spoke, Thousand feelers emerged from the ground and grabbed at Diwu Weiguang.

The latter flipped his bow and shot an arrow. Then, the arrows rained down. Luo Jiutian's figure disappeared and appeared in front of a white flower that had appeared out of nowhere beside Han Fei.

In the rain of arrows, the feelers were all shattered.

Diwu Weiguang stepped on a defensive array and grabbed at the void with one hand, grabbing a small glowing arrow.

Swoosh!

The arrow vanished, but the space in front of Chu Qingyan distorted as time changed. With a cracking sound, the arrow seemed to shatter.

Diwu Weiguang chuckled. "Oh, not bad. Long-legged, your strength has increased significantly!"

Chu Qingyan said with a cold expression, "What has this got to do with your Sea Cloud Tower?"

Diwu Weiguang shrugged and said, "Nothing! But can't I fight? Jiang Nanyu went to the Monument of Gods, so I'm lonely and came here to look for you! Tsk, do you miss me?"

"Shameless!"

"Thank you for the compliment."

Chapter 1057: Exposed

In the blink of an eye, there were seven strong masters on Han Fei's side.

Although the big clans had more than 300 people, they only had three top-notch strong masters. As long as Chu Qingyan and company were stopped, the outcome would be unpredictable if Han Fei and company were to charge into the crowd.

However, Chu Qingyan and company didn't choose to retreat just because Diwu Weiguang had arrived.

From their point of view, Han Fei and the others had just entered the Ideal Palace. In the seven Soul Realms, they might be strong, but this was outside the Soul Realm. Without corresponding weapons or special means, even if all the three hundred people died, their souls would only return to their bodies. They could still enter again.

Chu Qingyan said, "I'll hold off Diwu Weiguang. Sun Wu, you deal with Luo Jiutian. As long as we stop the two of them, our people will be fine. Nanxi, it's up to you. Li Xuan, can you solve Li Luoluo?"

Diwu Weiguang looked at Han Fei and said leisurely, "These people can't be killed, but you might not."

Han Fei smiled and said, "It's fine! However, Sea Cloud Tower has never had anything to do with the Thug Academy. Why are you helping us this time?"

Diwu Weiguang smiled casually and said, "I'll tell you when you enter the Seventh Soul Realm."

Han Fei was slightly relieved. It seemed that he still had a request. What he was afraid of was the kind of help that came without any reason. It wasn't easy to repay such a favor.

Han Fei immediately said, "Alright, as long as it's within my power."

Diwu Weiguang smiled. "Alright. With my understanding of the long-legged, she definitely won't stop. I'll stop her. As for the others, can you guys handle them?"

Han Fei nodded.

Diwu Weiguang suddenly took a step forward. "Babe, shall I help you straighten your bones?"

"Hmph! Attack."

Han Fei said, "Xiaobai, the four of you fight together. I'll deal with the others."

As he spoke, Han Fei had already flashed over.

Yang Nanxi wanted to attack Han Fei, but when she saw that Luo Xiaobai and the others were still around, she immediately licked her lips and thought, Let's stop the two of them first.

Hum, hum, hum...

A large number of hunters disappeared, and Luo Xiaobai, as a matter-of-factly, faced Yang Nanxi with Le Renkuang.

Due to the powerful soul attack, Zhang Xuanyu had already pierced through the void with his stick and killed a hunter.

Li Luoluo didn't dare to be negligent. The seven-colored fog swirled around her as she sank into it. On the ground were all kinds of worms and colorful wormgrasses that extended out from the ground.

As the battle raged, Han Fei's Void Lines split into a hundred. With his powerful soul power, it was no problem for him to control five to six people at once.

"Puff... Puff... Puff..."

At that moment, Han Fei was like a tiger entering a flock of sheep, unleashing a massacre. No one was a match for him.

An armorist's shield was fully activated, but Han Fei slashed him with the Draw and crushed him to death with the Art of Invincibility.

As a member of the Divine Manipulator family, Luo Jiutian also used the Great Spirit Summoning Spell. The number and variety of spiritual plants he had mastered far exceeded Luo Xiaobai.

Sun Wu could seal one or two pieces, but she couldn't seal all.

Furthermore, above the ice layer, there were crystalline snow-white ice flowers blooming. Demonic vines tore out, and man-eating flowers to devour the sand.

As for Diwu Weiguang, Han Fei caught a glimpse of his battle and finally knew why Diwu Weiguang was called the number one archer in Thousand Star City.

He stepped on the array and the frequency at which he shot arrows was almost shocking. It wouldn't be an exaggeration to call it the Shadowless Hand.

Furthermore, none of the arrows that shot out could be seen.

"Is this the Shadowless Arrow Stream? Impressive."

The moment he saw the Shadowless Sword Art, Han Fei immediately felt that the War Soul Archery was weak. Be it the frequency of the arrows or the strangeness of the archery, it seemed to be inferior to the Shadowless Arrow Stream.

Of course, Han Fei wasn't weak either.

In an instant, six people had died.

No one knew that they had really perished. At least for now, Han Fei didn't want to expose the secret of the Void Lines. Otherwise, these people would probably retreat immediately.

As the frequency at which the Void Lines hooked people wasn't that fast, the pressure on Han Fei in battle wasn't too great. He could even help Zhang Xuanyu and Li Luoluo kill one or two people.

Some people were still watching from afar and couldn't help but sigh.

Someone exclaimed, "How powerful. It's a little crazy for seven people to fight more than 300."

Someone said, "Look, the visualization stone can't cut Han Fei."

BAM!

A bone saber exploded in front of Han Fei. A strange array appeared in front of Han Fei and easily blocked the saber. Han Fei casually slashed, but in fact, the dazzling saber beam was extremely sharp.

With one slash, a soul warrior was beheaded by Han Fei. At the moment of his death, his eyes were filled with horror, but he couldn't say anything. If he had the chance, he would probably inform others that he couldn't be revived!

After fighting for about half an hour, the bone sabers kept exploding. Zhang Xuanyu wasn't suitable for group battles. At this moment, his Tertiary Body was defending against the attacks from three directions, but he was still covered in blood by the bone sabers.

Li Luoluo wasn't having it easy either. Although she was also a hunter, she was still no match for Li Xuan and a group of strong masters in the same realm.

If there were only ten or eight, it might not have been a problem. But now, there weren't just ten or eight.

As for Han Fei, more than fifty people had died under the Void Lines.

At this moment, Zhang Xuanyu seemed to be difficult to attack. He would have been in danger if Luo Xiaobai hadn't helped him.

"Die!"

Han Fei flashed to the front of Zhang Xuanyu, pressed down with the Law of Gravity, and grabbed the five of those people with the Void Lines.

Swish! Swish! Swish!

All five of them perished.

Han Fei shouted, "Don't be stingy with Soul Fruits. Eat them."

Zhang Xuanyu grinned. "I'm fine. Don't worry. I can still fight for another hour."

Han Fei dodged again, went to Li Luoluo, and grabbed at Li Xuan with one hand.

The latter blocked with his sword and transformed into a shadow. He retreated as a few strange rocks flew over.

Boom!

Han Fei's Soul Controlling Array was shattered, but the bone didn't really hurt him much.

Li Luoluo took a deep breath. "This person has the art of shadow, and the combat skill he uses is also of shadow type."

Han Fei focused and stomped his foot violently, throwing out a Sacrificing Punch. A hunter who was about to launch a sneak attack was crushed by the punch.

At this moment, a lightning-fast figure suddenly appeared beside Han Fei and stabbed at his armpit with a cone-shaped spike.

At this moment, Han Fei didn't have time to use the Law of Gravity. Almost instantly, the Void Lines beside him grabbed at the person.

He originally imagined that this was a relatively powerful hunter. However, space suddenly distorted as the figure vanished from his range of control.

Han Fei's expression changed drastically. "Star Teleportation Technique?"

The comer was equally alarmed. At that instant, he felt that he would have perished if he had been one step slower.

Immediately, the figure shouted, "Take note. Han Fei has a way to kill the soul. Be careful!"

Hum!

Wow!

Li Xuan, Sun Wu, Chu Qingyan, and Yang Nanxi were all stunned.

In the next second, they were horrified. Without a visualization stone, how could he have a way to kill the soul?

Chu Qingyan immediately shouted, "Retreat!"

At that moment, she was somewhat horrified.

If Han Fei had a way to kill souls, then the people who died just now...

She didn't dare to imagine the consequences. If that were the case, more than sixty people would have died at Han Fei's hands.

This wasn't 60 cabbages. They were peak-level Hidden Fishers who were rather powerful in the big clans. If they weren't suppressed by the rules of the Ideal Palace, any one of them was a Heavenly Talent outside.

So many people had died in an instant! Including the ones who had died previously, there were probably nearly a hundred.

This loss made Chu Qingyan's expression turn extremely ugly.

Han Fei was somewhat annoyed. He didn't expect that the Ye family people would appear here. Son of a b\*tch, he had planned to slaughter everyone here.

Han Fei immediately cursed, "Stop those guys. I'm going to kill them all."

As he spoke, Han Fei changed his pace. With Infinite Flashes and the 64-Dimensional Fish Dragon Dance, he just wanted to kill as many as he could.

Han Fei was like a phantom in the void, constantly changing his position. The Void Lines were no longer concealed as they scattered and pounced.

Unfortunately, with the Ye family guy's warning, Han Fei only had time to kill seven people before the descendants of the big clans retreated. They either hid or fled. After all, these people cherished their lives. When they knew that Han Fei had the means to kill souls, escaping was their top priority.

Yang Nanxi's hammers struck down, giving them time to escape.

When Sun Wu turned into sand and retreated, Li Xuan was long gone. As the strongest, Chu Qingyan was slapped heavily on the ass by Diwu Weiguang when she retreated.

Diwu Weiguang said leisurely, "Um, nice ass."

"Diwu Weiguang, I'll fight you to the death!"

Diwu Weiguang raised his hand and waved it. "Don't. If you're angry, I can let you slap my ass. I'm very generous."

"Shameless!"

With that, Chu Qingyan ran off.

It was impossible for Han Fei and the others to chase after them. If peak-level Hidden Fishers fled in all directions, no matter how fast Han Fei was, he could kill at most four or five of them. This wouldn't hurt the big clans much.

There were almost countless peak-level Hidden Fishers in the big clans. Even if they killed all three hundred of them, it would at most enrage these big clans for a while.

Some of the onlookers had also run away. Some thought to themselves, Since it doesn't concern me, they probably won't kill me. Of course, they definitely wouldn't dare approach.

However, there was an exception in this group of people. A mustached man ran over and said, "Congratulations, congratulations. Congratulations on the great performance of the Thug Academy..."

### **Chapter 1058: Secrets of The Seven Soul Realms**

Without looking, Han Fei knew who this person was.

Wang Santie!

This fellow was really courageous. Since he knew that he had the means to kill the soul, he still dared to come over? He was a classic example of someone who valued money more than life.

The main reason was that Wang Santie actually had his own way of recognizing people. In the eyes of others, Han Fei was crazy. However, Han Fei only targeted the people of these big clans but wouldn't touch innocent people.

Furthermore, as an intelligence provider, as long as he could provide information, he would be of value. There was no need for Han Fei and the others to kill him.

Wang Santie said obsequiously, "The Thug Academy is really brave. My admiration for you is like a tidal wave that never ends..."

Han Fei casually threw out more than ten mid-quality Soul Fruits and said, "This is what you deserve. The extra is for you to take note of the situation in the Ideal Palace. As long as the information you provide is useful, you will be rewarded."

Wang Santie took it and looked at it. Holy sh\*t, he threw 12 mid-quality Soul Fruits over. It seemed that Han Fei had casually killed a powerful figure and threw all his Soul Fruits over.

This was much higher than the price he had asked for. He had only asked for 50 low-quality Soul Fruits, but Han Fei had given him mid-quality ones! This time, he definitely earned huge.

Wang Santie immediately beamed. "Brother Han, don't worry. From today onwards, my only role is to help the Thug Academy gather information. Do you want information on the Undying Soul realm? I know quite a bit about it."

Suddenly, he heard Luo Jiutian say, "There's no need."

Wang Santie certainly knew Luo Jiutian.

How could he not know such a big shot? Wang Santie immediately said with a smile, "Then I won't disturb you any further. Please have a good chat!"

As for whether Wang Santie would continue to gather intelligence, Han Fei didn't really care. He just felt that the information this fellow gave him was a bit useful.

As for a few mid-quality Soul Fruits, heh, that was a piece of cake. He didn't even know whose resources he had snatched. In any case, he had already eaten the Destiny Soul Fruits. Why would he care about a few mid-quality Soul Fruits?

After Wang Santie left, Luo Jiutian looked back at Luo Xiaobai and said, "I was in the Soul Realm previously, so I came late."

"OK!"

Luo Xiaobai only grunted in response and didn't say anything else to her brother.

After Han Fei threw a few Divine Healing Techniques at Luo Xiaobai and the others, they felt that Luo Xiaobai and her brother didn't seem quite close!

However, on second thought, it made sense. Since Luo Xiaobai came to the Thug Academy when she was only twelve, she spent almost all her time with Han Fei and the others. Therefore, in terms of feelings, she might be closer to them.

Diwu Weiguang smiled and said, "Brother Luo, your sister is hot."

Before Luo Jiutian could say anything, Zhang Xuanyu bared his teeth. "What do you think of me?"

Diwu Weiguang: "???"

Zhang Xuanyu gave an elegant smile and said leisurely, "Our Xiaobai has high standards. You're not even as handsome as me. She won't like you."

Luo Xiaobai's face darkened. "Shut up."

Diwu Weiguang stroked the bow in his hand and laughed. "Interesting."

Han Fei glanced at Diwu Weiguang. "The second place on the Genius List is indeed worthy of the reputation. Was that the Shadowless Arrow Stream just now?"

Diwu Weiguang smiled and said, "You're very well-informed! However, the so-called ten geniuses are only relative. With your current strength, it's probably easy for you to enter the Genius List. With Brother Han's technique just now, even I don't dare to casually spar with you."

Han Fei naturally ignored such pleasantries.

Han Fei suddenly asked, "I'm quite curious about something. The first on the Genius List, Jiang Nanyu, and you are both from the Sea Cloud Tower. However, the Sea Cloud Tower isn't very eye-catching among the seven sects. Just from the ranking, it might even be ranked last. I'm afraid it's not simple, right?"

Diwu Weiguang chuckled. "How can it compare to the Thug Academy? When the Thug Academy was around, Sea Cloud Tower was nothing. However, now, in terms of nurturing students, Sea Cloud Tower is indeed extraordinary. In terms of number of students and scope, we might not be as good as the other six sects, but in terms of the number of strong masters, it's no less than any of them."

Han Fei nodded slightly. "Thank you very much."

Diwu Weiguang hurriedly said, "Don't! Although I happened to encounter Brother Luo this time, I naturally have my own plans. There's no need to thank me. I might have to trouble Brother Han in the future."

Han Fei nodded. It's good that you have a request! As long as it doesn't cross my bottom line, it's a waste not to have such a temporary ally.

At the very least, it was fine if he offended Chu Qingyan and the others in the Ideal Palace. However, if he really offended all ten of the geniuses, it would probably be difficult for him to challenge the seven Soul Realms.

Diwu Weiguang patted Luo Jiutian's arm and said, "It's not appropriate for me to participate in the subsequent matters. Everyone, farewell."

After Diwu Weiguang left, Luo Jiutian said, "Is Mo Fan dead?"

Luo Xiaobai nodded. "Yes."

Luo Jiutian smiled faintly. "It doesn't matter if he's dead. This is the Ideal Palace after all. However, you still have to be careful. Although Chu Kuangren and Mo Fan are dead and Jiang Nanyu has left, there are still a few other geniuses other than me and Diwu Weiguang. They haven't appeared yet, so they might be trapped in some Soul Realm. Furthermore, other than the ten great geniuses, there are still some who aren't listed on the Genius List, but that doesn't mean they aren't. For example, Li Xuan can be considered 11th."

Han Fei couldn't help but ask, "A lot?"

Luo Jiutian said, "Quite a few. You don't know many. The big clans in the Thousand Star City have tens of millions of years of heritage. How can there be few elites in them?"

Han Fei nodded. "Thank you for your reminder, Brother Luo. By the way, about the Undying Soul Realm..."

Luo Xiaobai continued, "What are the seven Soul Realms like? What do we need to pay attention to?"

Seeing that Luo Xiaobai was so straightforward with her brother, Han Fei thought to himself, With Luo Xiaobai's temper, it will be quite difficult for her to find someone to dual cultivate with in the future.

Luo Jiutian seemed to be used to her talking style. He just smiled and said, "Demon Plant Soul Realm replenishes the soul, Undying Soul Realm fuses combat technique. Blue Sea Soul Realm nurtures blood and courage, Prehistoric Soul Realm benefits all living beings, War Soul Realm brings prosperity to the world, and reincarnation sees past and present. I don't know much about the seventh Soul Realm."

Zhang Xuanyu couldn't help but ask, "What do you mean?"

Li Luoluo: "I don't understand."

Han Fei was also confused as he waited for Luo Jiutian to continue.

Luo Jiutian smiled indifferently. "It's extremely difficult for humans to cultivate their souls. As for the Demon Soul Plant Realm, it's actually to allow humans to quickly cultivate the power of the soul. The Undying Soul Realm is like a test. You can encounter any kind of undying soul and combat method there. It's a perfect place to cultivate combat techniques and deduce one's combat techniques to the extreme."

Luo Xiaobai asked, "Test?"

Luo Jiutian said, "Yes, it's like a test. The entire Ideal Palace might be a test. In order to select the most outstanding talents, it's not easy to pass any Soul realm."

Le Renkuang: "What else?"

Luo Jiutian continued, "The third Soul Realm, which is the Blue Sea Soul Realm, is more like a place to cultivate combat awareness and human bravery. The living beings there are strange and have many means. Their strength is comparable to ours or even higher. It's usually suitable for team battles."

Han Fei said in surprise, "True Sea?"

Luo Jiutian shrugged. "I'm not sure if it's true. In any case, it feels very real. As for the prehistoric soul realm, it's a long story. I can't tell you the details, but it might subvert your understanding. That place is a magical place with countless magical creatures."

Li Luoluo exclaimed, "Is it an underground city?"

Luo Jiutian was puzzled. "An underground city?"

Luo Xiaobai said, "An island with countless strange creatures, many demon plants, and four-legged creatures."

Luo Jiutian said in surprise, "From the looks of it, you have seen it before. Yes, that's true. Therefore, it's difficult for me to describe it."

Han Fei asked, "What else?"

Luo Jiutian said, "The Fifth Soul Realm is also known as the War Soul Realm. As the name implies, it's about war, the war between humans and sea demons. However, it will produce creatures other than sea demons, such as shrimp soldiers, crab generals, clam girls, turtle slaves, and so on."

Luo Jiutian went on. "These aren't the key. What's important is the sixth Soul Realm. Very few people know of the sixth Soul Realm, and this Soul Realm is extremely difficult. To be honest, I once entered this Soul Realm. After I returned, my memories were damaged. It seems to erase some of the memories of the person who entered it. However, through the incomplete memories, I seem to have entered another era."

Han Fei took a deep breath and narrowed his eyes. His first reaction was a world like the Heavenly Desolate City. Entering another era, this Soul Realm was also known as the reincarnation soul realm. What did it mean?

Luo Xiaobai said bluntly, "The level of danger."

It was like a game of quick asking and answering. Luo Jiutian said, "It's hard to say. Every Soul realm is difficult. However, it depends on how deep you go. It's extremely difficult if you want to directly reach the top of the rankings like in this demon plant soul realm. I believe it won't be easy for you to ascend the mountain in the demon plant soul realm, right?"

Han Fei smiled in embarrassment. He knew nothing! Back then, he was so mesmerized by the Demon King Contract that he didn't know what he was doing.

Luo Xiaobai nodded. "What about the Creation Temple?"

Luo Jiutian shook his head. "I even know less about that. It's like an abandoned land. Even if someone knows, they won't tell you easily. I'm just reminding you that other than the Sixth and Seventh Soul Realms, the first four Soul Realms can easily enter and leave. The Fifth Soul Realm is the easiest to perish. Therefore, don't pursue the rankings on this stone monument too much. Since ancient times, countless people have died because of this ranking. In any case, you can enter at any time. If you can't achieve what you want this time, come again next time. It's fine."

Han Fei and the others fell silent. It sounded like these seven Soul Realms weren't easy to enter!

### **Chapter 1059: The Strength of Sea Cloud Tower**

Since Luo Jiutian was Luo Xiaobai's brother and one of the top ten geniuses and had passed the six Soul Realms, his strength couldn't be underestimated.

Based on his description, Han Fei and the others immediately realized how dangerous the seven Soul Realms were!

The underground city was dangerous enough, right? However, a place like the underground city was only ranked fourth among the seven Soul Realms.

Furthermore, Han Fei had to rely on his abnormal state to break through the Demon Plant Soul Realm.

However, Han Fei really didn't dare to use the Demon King Contract a second time. Therefore, it would be extremely difficult for Han Fei to reach first place in the next Soul Realm.

Luo Jiutian suggested, "I can be with you."

Han Fei felt that this was good. With a powerhouse traveling with him, he could rest assured.

However, Luo Xiaobai directly refused. "No! Go about your business. Since it's training, we have to experience it ourselves. If you provide guidance and protection, it won't be called training."

Han Fei and the others subconsciously felt that the relationship between the two siblings was definitely not good. It was even a little stiff.

Luo Jiutian smiled and didn't say anything else. "That's fine. Our Luo family has also sent some people in. They will take note of the various parties' actions. I'll inform you immediately if anything happens."

"OK!"

Luo Jiutian smiled in embarrassment. "Then I'll be leaving?"

"OK!"

After Luo Jiutian left, Han Fei couldn't help but look at Luo Xiaobai. "Why? Is your relationship that bad?"

Luo Xiaobai said indifferently, "We haven't been close since we were kids."

Zhang Xuanyu: "Is he really biological brother?"

Luo Xiaobai turned her head and glanced at Zhang Xuanyu, who immediately shut up. Clearly, Luo Xiaobai didn't want to talk about this topic. Zhang Xuanyu consciously shut up. It was better not to ask about her family matters.

Anyway, everyone was gone now.

After Chu Qingyan and the others learned that Han Fei could also kill souls outside, they would definitely be careful no matter what they did.

At the very least, they wouldn't come over to fight in such a short period of time.

Han Fei said, "Although our souls have improved, we don't have any decent soul-type combat skills. It's not conducive to combat. Since the Undying Soul realm is a place to hone our combat skills, we should go there first. We can temper ourselves and become stronger. That way, we can cope with the upcoming pressure better."

Li Luoluo said, "But I haven't been to this Demon Plant Soul Realm!"

Zhang Xuanyu smacked his lips and said, "It's useless even if you go in now. The main creatures inside have been killed. Let's go to the Undying Soul Realm first!"

Le Renkuang said tiredly, "It looks like this Ideal Palace is just a place for fighting. Fatty is too tired!"

Han Fei chuckled. "Alright, since we're already here, we have to pass the Ideal Palace. If we can't pass it once, we have to at least reach our limits. We can come again when we accumulate enough strength."

...

Half an hour later...

Along the way, Han Fei and the others discussed the usage of souls with Zhang Xuanyu while thinking about how to get a soul-type combat skill on this trip.

To Han Fei, any soul battle technique was fine. He could deduce it anyway.

As for Zhang Xuanyu, he was born with abilities. Soul Explosion and Psychic Piercing were his specialties. He could crush ordinary cultivators of the same realm, but he was much weaker when facing the top geniuses of his generation.

Zhang Xuanyu's born ability couldn't be replicated, so he couldn't give a decent answer.

At this moment, everyone had already arrived at the foot of the mountain. At the foot of the mountain, there was a temple that seemed to be built from fish bones.

On the left side of the fish mouth, a stone monument stood silently.

Ranked first was a man named Ji Chen. As for which era he was from, it was impossible to know. In the long river of history, geniuses emerged one after another. No one was absolutely powerful.

Even Han Fei could only defend against two strong masters on the Genius List. It was very difficult for him to beat them.

At that moment, there were only a few people outside the Fishbone Mountain. Furthermore, most of them had just come out. There were also some people who had rushed over from outside, hoping to enter the Undying Soul realm.

Two people who came from outside seemed to recognize Han Fei and the others. Their faces immediately changed and they fled.

Everyone: "..."

Han Fei: "There aren't enough people!"

Luo Xiaobai said, "Since it's a place to temper combat skills and pursue combat techniques, there shouldn't be any direct opportunities. I'm afraid that those people are either training there or exploring other Soul Realms."

Zhang Xuanyu was very excited. Among them, he was the one who liked exploring combat skills the most.

Han Fei was also interested. Ever since he had comprehended the Invincible Road, he had gained insights in all aspects. Even the 64-Dimensional Fish Dragon Dance, which he had found difficult in the past, had now been mastered.

If the Undying Soul realm was really as useful as he had said, it would be a suitable place for cultivation.

Han Fei said, "Come on! Let's go in first. Fatty, prepare Ultimate Defence to prevent any sneak attacks."

The scene of being ambushed in the Demon Plant Soul Realm was still fresh in Han Fei's mind.

Of course, although such a sneak attack wasn't weak, it couldn't shake Han Fei and the others. However, if it were Chu Qingyan and the others, it would be hard to say.

After a moment.

When the scene in front of them changed, a familiar scene inundated them.

The ruins were barren, the roads were broken and muddy, and the rotting ancient walls seemed to emit the smoke of a battlefield. There was no seawater, but a pure land battlefield.

The black aura of undying souls emanated. They were like ghosts, rippling in the void with all kinds of weapons in their hands.

Of course, from the looks of it, they had encountered much fewer undying souls than back in Undersea City. Maybe it was because they had just entered and hadn't gone far.

However, there were three people fighting a few Hunter Undying Souls nearby. The battle between the two parties was rather intense. Their figures flashed and their steps were elusive.

Even the undying souls looked like living persons. Apart from being an Undying Soul Body, their combat skills were almost no different from ordinary persons'.

Li Luoluo exclaimed, "Can an Undying Soul do this?"

Luo Xiaobai said, "I've never seen it before, but it doesn't mean that it doesn't exist."

Han Fei said, "Let's go straight in! Let's walk until we can't move."

As the five of them walked forward, undying souls that were soul warriors charged forward with sabers. A golden fist blasted out and a spear beam struck out. The two undying souls shattered.

The three people who were still fighting gasped. One of them was stunned as he was stabbed. He retreated and hurriedly ran out.

Along the way.

Han Fei and the others crushed all obstacles along the way.

After 30 miles, the number of undying souls began to increase.

Beyond 50 miles, undying souls were everywhere.

After a hundred miles, perished geniuses appeared one after another.

As for the five of them, their combat strength had been unleashed by 70%. Along the way, they encountered other cultivators. When they saw Han Fei and the others, they were horrified yet excited.

After passing another hundred miles, the number of human cultivators they encountered began to increase, while the number of undying souls decreased. It was difficult for strong masters to appear. This was an unchanging principle.

However, surprisingly, in the Undying Soul Realm, Han Fei and the others didn't see anyone with ill intentions. It seemed that the big clans had let them go.

Zhang Xuanyu frowned as he fought. "Could there be an ambush?"

Han Fei said, "If there's an ambush, it should be behind us. The further we go, the stronger the combat power of the undying souls. If they want to ambush us, they will be besieged."

Luo Xiaobai said, "Charge forward again."

When they were about 180 miles away, Zhang Xuanyu and Li Luoluo stopped. Some powerful undying souls had come to attack them. Even if Han Fei and the others defeated them, they couldn't crush them in one strike.

Li Luoluo's combat strength was already extremely strong, but she seemed to be at a disadvantage now. After all, she wasn't extremely strong when she was a peak-level Hidden Fisher.

Otherwise, she wouldn't have been defeated when she met Sun Mu on the ancient battlefield.

After dozens of kilometers, vines shot out from the ground. Luo Xiaobai said, "Han Fei, go forward yourself."

At the same time, as Luo Xiaobai used the Great Spirit Summoning Spell, she said to Le Renkuang, "Don't rush forward. Without Ultimate Defence, you might not be able to withstand it. Find one to fight alone."

Han Fei looked back, twisted his body, and dodged a shadow assassination in the void. He wasn't far from the others, and he didn't plan to go too far away from them. Then even if something happened to his companions, he would be able to return in time.

Immediately, Han Fei said, "Fatty, Xiaobai, you two stay together and take care of each other. Call me if you need anything. I can hear you."

Luo Xiaobai: "Okay."

With that said, Han Fei had already flashed forward. The air around Han Fei trembled slightly as a phantom stabbed at him at an extremely fast speed.

With a thought, Han Fei put away the Phantom Glass Wings and stopped using the Desolate God Body. Instead, he used the 64-Dimensional Fish Dragon Dance.

He looked at the wasteland ahead and smiled inwardly. It's time to consolidate my combat skills!

### **Chapter 1060: How Many Lonely Tombs Are There?**

The tempering of battle was actually similar to the training left behind by Ren Tianfei in the Abyssal Chasm.

However, on this battlefield, he was no longer facing an all-rounded opponent like Ren Tianfei, but undying souls of the five professions.

At this moment, when Han Fei rushed forward for dozens of miles, a hunter and a manipulator welcomed him.

The tentacles that extended out of the void were like shadows that extended from the edge of the darkness.

The Hunter's void dagger drew a silver thread in the void. Its afterimages could be seen. Clearly, it was very fast.

Han Fei's body moved like a phantom, circulating between the countless shadow-like daggers and silver light. At this moment, he saw three figures flying.

Han Fei frowned. "They aren't fast enough."

Immediately, Han Fei dodged as he walked and continued to sprint.

This time, another armorist appeared, who used swords. When the more than 200 sword shadows wreaked havoc, Han Fei recalled the scene of him challenging Nameless.

There were too many sword shadows, shadow vines, and silver threads of light. The space around Han Fei was almost enveloped.

However, Han Fei's soul was keen enough to sense the source of the threat. Using his body's instinctive reaction, Han Fei quickly changed his footsteps.

"Puff!"

Even so, in just a few seconds, Han Fei was slashed in the calf. Han Fei felt the strength of the sword shadow and saw that only a white mark was left on his leg.

Han Fei was immediately shocked. These people must have been very powerful when they were alive. Even their souls could leave a mark on him.

In this Soul World, because everyone was a soul body now, there was no real difference between Han Fei and them.

"Puff... Puff... Puff..."

After a slight pause, three more white marks appeared on Han Fei's body.

Han Fei's heart skipped a beat as he changed his pace. He used almost all the movement techniques he had previously learned.

Unlike challenging Nameless, the undying souls here attacked at an infinite frequency. There was no such thing as running out of spiritual energy, so tempering combat skills here was indeed the best choice.

Of course, without Han Fei's freakish physique and strength, blindly charging in was probably no different from suicide.

Under the siege of the three of them, Han Fei was gradually getting better. Although the Desolate God Body was useful, it wasn't enough to deal with such dense attacks.

However, in such a situation, a person's adaptability was very strong.

At this moment, Han Fei could sense the sources of most of the attacks. However, because his mind wasn't completely adapted to his body, he was a little out of sync.

However, this disharmony was rapidly weakening, and Han Fei was gradually getting used to it.

Two hours later, when Luo Xiaobai and the others arrived at Han Fei's location, they were surprised to find that Han Fei wasn't fighting at all.

Han Fei was like a tumbler. Every slight movement of his feet and every tremble and contraction of his body allowed him to dodge an attack.

"Extreme reaction?"

In Luo Xiaobai's eyes, Han Fei seemed to be dodging attacks at his limit. The opponent's saber beams and vines often brushed past Han Fei.

Luo Xiaobai was dealing with a hunter at the moment, so she couldn't divert her attention to look at Han Fei, but she was a little shocked. Han Fei probably had the explosive speed of a hunter and was much better at avoiding combat than ordinary soul warriors.

And Han Fei was also a spirit gatherer.

Luo Xiaobai couldn't help but think that the absolute advantage of being a spirit gatherer had already begun to appear. As a manipulator who was in control of the entire situation, she probably needed to make a breakthrough too.

...

Han Fei knew that Luo Xiaobai was here, but he didn't have time to care. At this moment, he was in a wonderful state and was enjoying himself.

This was a kind of enjoyment at the edge of danger. It was a little like he was pursuing extreme stimulation, but also like he was showing off his skills. At this moment, none of the attacks could land on Han Fei. His figure was like a phantom in an inch of space.

Han Fei's body suddenly trembled. His body and his soul's reaction speeds were now consistent.

Smack!

Han Fei suddenly reached out and grabbed at the air, cutting off the silver light. By the time Han Fei tapped his feet, he had already appeared at the end of the silver light.

BAM!

The golden fist mark suddenly erupted as a shadow was shattered by the punch.

There were still saber streams at this juncture. Han Fei seized a shadow vine and imagined that most of the spiritual energy in his body had gathered and drilled into the ground.

Boom!

The ground exploded as a shadow swept out.

Swish!

When he slashed out with the Draw, Han Fei dodged a few shadow sabers and didn't even look at the undying soul. When he turned his head, Han Fei was advancing in the saber wave again. At this moment,

an undying soul that had just jumped out of the ground had been swept by the saber beam and vanished.

At present, there was only an armorer's undying soul left. Han Fei was even more smug. Thousand Sabers flew, but none of them could touch his body. He traversed the distance of a thousand meters in an instant.

Boom Boom Boom!

Han Fei stuck close to the armorer and broke his armor with three punches. From then on, he destroyed this soul.

At this point, Han Fei turned around and looked at Luo Xiaobai, only to find that Zhang Xuanyu and Le Renkuang weren't far from him.

However, Luo Xiaobai's combat style surprised Han Fei a little. He found that Luo Xiaobai's combat style seemed to have changed.

At this moment, unlike before, Luo Xiaobai didn't manipulate her vines. Instead, she was jumping and dodging.

Wherever Luo Xiaobai passed, she left a dark blue flower in the void and on the ground.

As for the Hunter's undying soul, there were traps everywhere it passed. Some of the blue flowers formed a net, some instantly transformed into man-eating flowers, and some continuously erupted like swords.

The most terrifying thing was that after every blue flower bloomed, the attack form they released was different.

At this moment, it was no longer the hunter hunting Luo Xiaobai, but hundreds of strange attacks that began to surround the hunter.

"A trap?"

Han Fei couldn't help but smile. This kind of thing was the most nerve-racking. At this moment, Han Fei saw that there were different traps cooperating with each other. For example, when the Sword Grass swept across, there would be a fog blooming. Beyond the fog, there was a man-eating flower biting. Behind the man-eating flower, there were thin vines extending. All of this was sealing off the area the hunter passed.

Han Fei thought to himself, Luo Xiaobai was really a worthy member of the Divine Manipulator family. Other Manipulators could only control one type of spiritual plant at most, but to a Divine Manipulator family, there didn't seem to be such a restriction. Luo Xiaobai could use any special spirit plant they had seen.

A manipulator could be used as countless manipulators. How could an ordinary person fight such a battle?

Seeing that Luo Xiaobai seemed to be handling it with ease, Han Fei continued to walk forward.

However, before long, Han Fei suddenly stopped.

At that moment, he realized that there was a huge cemetery in front of him. Bone jars were littered on the ground. It was almost no different from the Bone Jar Plains he had encountered in the underground city.

If there was a difference, it was that the density of the bone jars here was very low. Often, the distance between two bone jars was quite large. Furthermore, these bone jars were rather exquisite. They were jade-like and embedded with golden threads, and there were complicated carvings on them.

Han Fei was briefly stunned before he continued walking forward.

As expected, the bone jars were a way to be buried. The so-called Bone Jar Plains was a cemetery. Could it be that the undying souls had come from these bone jars?

Han Fei walked to the nearest bone jar and was about to take a look.

However, just as he walked over and was a hundred meters away from the bone jar, he found that it was beginning to tremble slightly.

“Eh! This jar’s senses are quite strong!”

Han Fei took a few more steps forward and saw a hand extend out of the bone jar. His pupils were constricted.

“Oh? It’s not an undying soul?”

Han Fei looked at this scene in surprise. What surprised him was that what emerged from the jar wasn’t an undying soul, but a corpse.

At this moment, Han Fei immediately thought of his experience in the Bone Jar Plains. No way? Are they all corpses?

To be honest, Han Fei felt a little scared when he saw the corpses. After all, the corpses he had met were all very powerful.

However, this was the soul world. He suspected that these corpses were actually formed by the soul. In fact, this wasn’t their true bodies.

When the corpse quickly crawled out, it was a muscular middle-aged man wearing tattered armor. He extended his hand and a thin shadow rod appeared.

Han Fei saw blue flames blooming in the corpse’s eyes as it quietly looked at him.

In the next second, the corpse took a step forward and tore through the air. The staff shadow extended out of the void and landed in front of Han Fei.

However, Han Fei could even dodge the Momentary Time of Zhang Xuanyu. This corpse’s strength didn’t exceed that of a Hidden Fisher, so how could it be his match? However, from the moment the staff struck, the void flashed dazzlingly. It was obvious how fast and powerful it was.

Han Fei punched with his fist and bent the staff. The corpse retreated seven or eight steps and charged towards again. In an instant, the battle began.

30 seconds later, the corpse shattered.

Han Fei came to the bone jar and looked inside. There was nothing inside, but a shadow was gradually condensing.

Indeed, the corpse is also constructed from souls. It's not real.

In the battle just now, Han Fei discovered that this corpse was actually equivalent to an ordinary genius of a big clan. It wasn't very strong.

However, this was the first time he had seen it. The deeper he went, the stronger it would become.

Han Fei looked back and saw that Luo Xiaobai and the others hadn't come up, so he continued to walk in.
