

GOF 1081

Chapter 1081: Surging Beasts in Death Valley

Han Fei's last consciousness was that he was eaten by this thing.

Han Fei was a little stunned. I'm an elephant! How can I be eaten by a head so easily?

When the elephant that Han Fei possessed died, Han Fei's consciousness returned instantly.

Han Fei suddenly opened his eyes and shivered. It didn't feel good to be eaten! Although he had been eaten more than once, he still felt terrible.

Recovering his consciousness, Han Fei looked around and saw Little Fatty and Little Gold staring at him with their eyes wide open.

Seeing that there was no danger, Han Fei finally noticed Little Fatty's expression. He asked, "Why are you looking at me like that?"

Little Fatty looked at Han Fei for a long time and seemed to confirm that Han Fei was Han Fei, so he said, "Just now, the energy fluctuation in your body was very strong, as if you were fighting."

Han Fei was stunned. How could he tell?

Wait a minute. Han Fei looked at the ivory in his hand, but it had turned into powder and was mostly gone.

Han Fei wondered how he possessed the elephant when he was in the soul state.

And that wasn't the point.

Why were there abnormal energy fluctuations in his body when the elephant was fighting? If someone attacked him after he possessed the elephant, would he wake up?

Also, what was it that swallowed an elephant? To be honest, Han Fei hadn't noticed it yet. Of course, Han Fei knew the legend of a serpent swallowing an elephant, but in this world, only snakes could swallow an elephant. Obviously, that wasn't the case.

At this moment, Han Fei was a little puzzled. This visualization was said to be able to help him obtain or comprehend something.

Heh, I was too focused on fighting just now. I don't seem to have comprehended anything!

"Huh?"

Han Fei suddenly thought of something. It seemed that he did comprehend something. Otherwise, he wouldn't have got a nose, nor tusks.

As for the void hand, that was only a method of utilizing energy and spirit qi. This was something he had learned long ago.

The only thing left was the elephant's roar.

Han Fei closed his eyes and tried to remember it. He found that when the elephant roared, there seemed to be two kinds of power. One was the waves of wind blades that were like ripples, and the other was the strange sound waves that seemed to have the power to stir the enemy's blood.

Han Fei suddenly stood up.

Roar!

The air in front of Han Fei trembled slightly, and a wind blade flew out. As for its strength, it was very weak, probably comparable to a Dangling Fisher's wind blade.

As for the mysterious power of sound waves, it didn't carry any of it.

"That's not right. The way I use my voice is wrong."

Roar!

Roar!

He howled again and again. Finally, after the possession experience just now, Han Fei seemed to be able to spit out wind blades. Although the strength of the wind blades was not enough, Han Fei finally adapted.

It was as powerful as the attack of a peak-level Hidden Fisher!

Han Fei was shocked. So simple?

However, Han Fei couldn't produce the sound wave ripples continuously by roaring like a real elephant. He could only make one.

But no matter what, this was still a form of comprehension. Although there was only one sound wave blade in one roar, this could also be considered as having an additional skill, right?

When Han Fei was satisfied with the result, he saw Little Fatty staring at him in a daze, so was Little Fatty.

Little Fatty was probably on the verge of a mental breakdown. Why had his master been howling for almost half a day? It was simply the most unpleasant noise in the world.

Han Fei tilted his head and looked at Little Fatty. "Hey, why is this look?"

Tu Feiyuan hesitated for a long time before saying, "It sounds terrible."

Han Fei was speechless.

Han Fei snorted and thought to himself: Stupid Little Fatty, do you know that your master has comprehended a new ability in just a moment?

He had only visualized an elephant tusk for a moment, but he had gained a skill from it!

While Han Fei was feeling proud, he suddenly saw that the porcupine's corpse nearby seemed to have moved.

"Huh?"

Han Fei's pupils were constricted. What happened? Aren't they fossils?

Little Fatty suddenly said, "The smell of blood is getting worse, which must be caused by your shouting."

Han Fei was lost for words. Come on, I just stayed where I was! Why do I have a bad feeling? Did I wake it up?

However, that shouldn't be the case! How could an inanimate object be resurrected?

Han Fei pinched his fingers subconsciously. Suddenly, he had a feeling that something bad was coming.

Han Fei panicked. I just roared and practiced a small combat skill. Does it affect a certain big shot?

At this moment, Han Fei saw that the porcupine not far away was moving again, seemingly struggling.

Not only the porcupine, but even the wolf corpse that Han Fei dragged over began to tremble. A blue fire appeared in its eyes, as if it were alive.

"F*ck! Another zombie?"

As soon as he saw blue fire in the eyes of a corpse, it was most likely a zombie! Han Fei had no doubt about that.

Han Fei had been taught many times that it was a fact.

Therefore, Han Fei didn't give the wolf corpse a chance at all. He directly went up and blew up its head.

When the head was gone, the wolf corpse would become a real corpse. Perhaps, millions of years later, this corpse would also become a visualization fossil?

However, when Han Fei looked up, he saw that the porcupine had got up and was staring at him.

"Cough! Why does it feel like this place is like the Bone Jar Plain of animals?"

When they were in the Undying Soul Realm, they fought with large numbers of human corpses.

Well, now he was in the Prehistoric Soul Realm, and his opponents became animal corpses.

Swish! Swish! Swish!

More than a thousand arrows, shining with white light, pierced at Han Fei. However, Han Fei had already set up an array. All the arrows were cut off outside the defense array.

However, the sharp arrows' attacking method soon changed. They began to spin wildly.

On the other hand, that porcupine was digging the ground with one foot as if it was going to launch a suicidal charge at him. That action of digging the ground with one foot was simply the signature move of a porcupine!

Boom!

Han Fei punched out with a golden fist.

"Do you think I'll give you that chance? Do you think you're an elephant, or a bull? Hmph!"

However, the moment Han Fei threw out the golden fist, the porcupine really rushed over. As it dashed, layers of red light appeared on its body.

His golden fist print was actually shattered by that porcupine.

“Huh!”

Han Fei punched eight more times and finally broke the red light, turning the porcupine into scraps. The spinning arrows also fell to the ground because of their owner’s death.

Han Fei said disdainfully, “Although you’re not weak, you’re not my match!”

“Moo!”

“Roar!”

Roar!

As soon as Han Fei despised the pig, he saw two horns sticking out of the mist in the distance.

Han Fei recognized the horn. Isn’t that a bull horn?

Wait, an elephant head appeared, and then a huge wolf appeared...

Then there were rhinoceros, large cataract, and creatures whose bodies looked like they had tumors growing out of them rushing out of the mist.

Han Fei immediately felt that something was wrong. They came out of the mist, not from a distance.

That was because if they ran over from afar, he would definitely be able to hear them. There would definitely be a loud noise along the way.

With so many living beings racing, the ground should have been shaking. It was impossible for him not to feel it.

Thus, the only explanation was that these creatures had simply emerged from the fog.

Han Fei panicked. I can deal with one or two creatures, or even a dozen or so.

But now, there were hundreds of beasts galloping. Behind them, there seemed to be even more creatures emerging from the fog. How can I possibly handle this?

No matter how amazing he was, could he defeat an army of mutated beasts alone?

Little Fatty glanced at Han Fei. “Aren’t you going to run?”

Han Fei cursed, “Of course! Do you think I’m stupid?”

Shua! Shua!

Han Fei took back Little Fatty and Little Gold instantly.

Han Fei abandoned the array he set up just now. It couldn’t stop the stampede of tens of thousands of beasts.

Han Fei began to run.

It was all fog, and he didn't know where to go. He couldn't sense it here, so he just randomly.

Of course, before running, Han Fei tried flying into the sky. If he could fly in the sky, these creatures could run however they wanted.

However, he had only flown a few dozen meters before being pressed to the ground by a terrifying force.

"Flight is prohibited here?"

Han Fei was shocked. With the power of law, he couldn't fly here. This was definitely Death Valley. Han Fei had no idea why he suddenly dug into the Death Valley.

At this moment, Han Fei finally understood why no one had ever come out of Death Valley. There was no road here. How could one get out?

Han Fei began to run through the mist.

The large array that he had just set up blocked those ferocious beasts. However, the large array only lasted for about 30 seconds before it completely collapsed.

However, Han Fei could no longer see. He was running in the mist.

However, as he ran, Han Fei discovered that there were a few more creatures around him, a few corpses that looked like Shadow Cheetahs.

"Roar!"

Shua!

"So fast."

Han Fei extended his hand and slashed with the Draw. On the other side, he threw out the Infinity Water, which soon exploded.

Han Fei fought as he ran.

However, some creatures were extremely fast. Fortunately, Han Fei's Phantom Glass Wings could still be used. Although he couldn't fly high, he could move fast!

Otherwise, such a battle would definitely delay him.

Han Fei ran as fast as he could. The ground was shaking violently, and all kinds of weird sound attacks were coming from behind him.

Fortunately, these were nothing. Han Fei's soul power was extremely powerful and he was not afraid of them.

Seeing that a Shadow Cheetah was coming, Han Fei's figure flashed and the Void Line shot out. The next moment, Han Fei jumped and sat on the cheetah's back.

"Hu! Comfortable."

Han Fei cracked his neck. It was more comfortable to have a mount!

It was tiring to run!

Chapter 1082: Beast Tide Surges

Han Fei had also become a member of the beasts as they galloped. At this moment, he was riding a Shadow Leopard and racing as fast as lightning.

Han Fei looked back from time to time and saw that the creatures behind him were becoming more and more ferocious. There were all kinds of creatures, as if thousands of different creatures were roaring and shouting.

Splash!

After running for a long time, Han Fei suddenly heard the sound of splashing water, which sounded like waves crashing on reefs. He was too familiar with this sound to have misheard it.

“Hmm? Where did the sound of waves come from?”

Han Fei had a bad feeling at that time. This world was too complicated. There were all kinds of weird things every day. He had been used to all kinds of weird places popping out from time to time.

“Go, charge!”

The shadow leopards were not the fastest. However, Han Fei soon discovered that these creatures were not only chasing him. It seemed that they were chasing him because he happened to be in their way.

At this moment, seven or eight creatures were running side by side with Han Fei. Some of them were even faster than the Shadow Leopard under Han Fei.

“Hmm? You’re not here to hit me? But why?”

This answer was soon explained. Han Fei sprinted.

Suddenly, there was a whistling sound.

When Han Fei looked back, he found that the powerful tiger he had seen before was also among them, running crazily.

“Eh! It’s the one from before?”

Han Fei wasn’t sure if it was the one just now. After all, tigers all looked the same, and he wasn’t their kind, so he couldn’t tell them apart.

However, the tiger king was extremely fast. He led the way, and no living beings dared to approach him.

A moment later, the tiger was about to catch up. Han Fei finally found a huge shadow in the mist.

The further they went, the better the visibility of the fog became.

When the mist began to thin, Han Fei saw the endless sea. In front of him were raging waves and real shrimp soldiers fighting against humans.

However, that was not the point. As he got closer, Han Fei's field of vision suddenly widened.

Han Fei saw a super island with no end in sight. No, it was a giant boat stuck in the rocks.

In his eyes, he could only guess that it was a ship. Because it was too tall, like a huge city falling from the sky, the hull was like a city wall, towering into the clouds.

"F*ck!"

Han Fei was dumbfounded. How big was this ship?

Compared with the giant creature in front of him, the so-called dragon ship in the level-three fishery was like a mini boat.

Han Fei was so surprised that his eyes almost popped out.

And this ship was already moving.

Except for a small part that Han Fei saw, 99% of the hull was already in the sea.

However, the seawater was still too shallow. It wasn't enough to support the boat to sail in the sea, so it couldn't move.

Therefore, Han Fei's eyes fell on the figures of the super giants around the hull. Half of the giants were in the sea, and their hands looked like small mountains.

Han Fei always thought that the Five Finger Mountain didn't exist.

However, he believed it now. The giants' five fingers formed mountains, grasping the hull. The large hands pushed the hull forward.

Countless arrays were unleashed from the gigantic ark to defend against the attacks of countless sea monsters.

In the void, the battle had turned into an earth-shattering scene. Which strong masters were fighting? Han Fei didn't know, but there were people fighting. Those people fought until the sky was dark and the sun and moon were dim.

Boom!

"Roar!"

Suddenly, Han Fei felt that the ground was shaking violently, and something heavy seemed to be falling behind him. When Han Fei turned around, he saw a giant ape more than fifty meters tall.

Of course, it was very big in Han Fei's eyes, but compared to the boat and the giants' hands, the ape was probably like a miniature person. As for him, he might not even be an ant, but a speck of dust.

The ape held a stick and roared, "Where is the beast race going?"

Han Fei's head almost exploded from the roar, but a new name appeared in his mind. Beast race?

The super divine boat had been pushed into the deep sea. Han Fei was touched. He looked ahead and back. Were the beasts rushing towards the boat?

Han Fei swallowed.

During the Age of Doom, there were people who led humans to cross the sea on a peerless ship. However, these people seemed to have abandoned the other creatures on land—the Beast Race.

Han Fei immediately understood what was going on, but he was very confused. Which space was he in? Which era? Which environment?

Anyway, he was wondering: Who am I? Where am I? What am I doing?

The giant ape was unwilling to give up. Sharp teeth could be seen in its mouth. With a furious roar, it smashed out with its staff. Like a cigar-shaped spaceship, it cleaved through the sea at an unbelievable speed.

The shadow of the rod flew past and created a super strong wind that blew the Shadow Leopard under Han Fei into pieces.

Han Fei himself was not much better. His body was rolling on the ground like a ball.

If it weren't for Han Fei's strong physique and the protection of the Will of War God, he might have been blown to death by the wind.

Everywhere the rod passed, all living beings were crushed. Shrimp soldiers, crab generals, crab kings, mountain moving hands, everything was crushed.

In the end, Han Fei saw a figure appear in the distant void and block the power of the rod with one hand. A huge circular wave was raised on the sea.

Wherever the wave swept, all lives were shattered.

The terrifying blast slowed Han Fei's running speed by more than thirty percent.

A voice rang out in the void. "There are two paths for the human race. Some are exploring the seas, while others are fighting to the death. The Beast Race is unable to transcend the seas. I am unwilling to abandon you, but I cannot take you. You can return!"

"Roar!"

That monkey roared angrily and jumped into the air. He extended his giant stick and roared, "The beast race shall not be left behind."

As it spoke, the huge ape went berserk. No one knew what kind of power it had used, but it directly condensed into a huge shadow that was hundreds of meters tall.

The staff cleaved straight at the divine boat.

Han Fei cursed in his heart. Damn it, this monkey is crazy. Obviously, the human beings didn't bring the beast race with them, and the beast race wants the human beings to take away a batch of their descendants to ensure the survival of their race.

“Damn it, this has nothing to do with me! Why did you bring me here?”

In the sky, strong masters attacked.

In an instant, a terrifying shock wave swept across the world. Han Fei’s body was sent flying and smashed into the mountain, spitting out a mouthful of blood.

Was it a coincidence?

Han Fei smashed into the belly of a mountain. It was a good place to hide from the outside world. After all, Han Fei didn’t even know where he was.

However, for some reason, Han Fei was holding a bone, a particularly thick finger bone.

“Where did this bone come from?”

Before Han Fei could tell what bone it was, he was attracted by the strange power contained in the bone. The next second...

“Roar!”

When Han Fei came back to himself, he found himself standing in the battlefield outside. However, his vision was very high at the moment. Not far away, he saw the monkey fighting fiercely.

“Wait, I’ve become so tall!”

Han Fei looked down and found that he had turned into a monkey, covered in fur and holding a rod too. However, he was much smaller than the ape in front of him.

However, Han Fei was full of explosive power.

This made Han Fei very excited. It was an extremely strong psychological awareness. Han Fei felt that he had reached a level of strength that he could not understand at all.

It was as if a single wave of his fist could shatter mountains and shake the seas.

“My son, beat him up! Today, we must fight for a way out for our Beast Race!”

Han Fei was stunned. The big ape in front of him looked at him fiercely.

“F*ck, you’re calling me? I’m not your son. I’m freaking f*cking out right now.”

Han Fei hesitated only for a moment before a huge tiger roared at him. Then Han Fei understood what it meant.

The brightly colored tiger said, “Kill! Today, we will kill until the sky turns upside down.”

The surging beast tide was pushing Han Fei forward.

Han Fei thought to himself, Fine! This is just a scene imagined by the ideal palace. I’ll just fight! I don’t have a good impression of these fleeing humans anyway.

Besides, his mother should’ve been one of them. In the end, they’d conquered billions of territories and created thirty-six heavenly palaces. No matter what, he should’ve been one of them.

Besides, wasn't it too cruel to treat the so-called beast race this way?

After all, there were countless types of living beings in this race! If they were still alive, then perhaps this world would become more colorful.

Chapter 1083: Death of the Ape

What could Han Fei do now? Of course, he had to go!

His body was probably in the belly of the mountain right now. Even if the mountain collapsed, it shouldn't be able to crush him to death! However, he had to fight as far as possible in order to avoid affecting that area.

Han Fei, who had turned into an ape, stepped on the ground and a large Coiled Turtle Array was imprinted on the mountain.

When Han Fei stepped out of the Coiled Turtle Array with the body of an ape, the scene was shocking. He really saw an old turtle lying horizontally, looking like an old monster that had lived for ten thousand years.

Han Fei rushed forward.

Every step he took shook the earth.

The big ape seemed to be surprised. Why did his son use the method of a human spirit gatherer? However, it didn't care and was already fighting on the sea.

At this time, the sea surface had long collapsed. Vicious beasts, humans, and sea races fought together, killing until corpses covered the ground.

Maybe it was because he had become a very strong monkey, but Han Fei felt that he was about to explode. With a leap, he jumped hundreds of meters into the sky.

Han Fei was also proficient in rod techniques.

After all, he had studied the Staff Technique before. However, when Han Fei thought of the Staff Technique, he suddenly felt that they were not the strongest.

What made Han Fei realize the most powerful was power, infinite power, and the law of armor-breaking and void-piercing. There seemed to be a profound understanding of staff arts that fell on Han Fei.

When Han Fei jumped into the sea, the first thing he slapped was a lobster. However, its huge claws broke the hundred-meter void.

"Fight!"

Han Fei slashed the air with his long rod. Before the rod arrived, the waves split, the clouds rose, and flames covered the rod. At this moment, Han Fei couldn't even tell how strong he was.

Currently, what he could understand was the power of one wave. However, it was obvious that this giant ape's power had surpassed a hundred waves.

Han Fei firmly believed that the monkey he possessed now definitely had the strength of an explorer. Also, it was likely that they were not ordinary explorers. The solid body and the explosive power...

In the void, the two large claws had no power to resist at all. They tumbled down and shattered from head to toe.

Clang!

Crack!

Bang!

The giant shrimp head was smashed into pieces by Han Fei's rod.

"D*mn, so awesome?"

Han Fei was stunned. That lobster looked extraordinary. It was covered in armor that was extremely thick. But it was smashed by his rod?

"No, there's Armor Piercing Mysterious Energy on the rod."

Han Fei didn't realize that the rod he had struck with all his might was so powerful!

At this moment, Han Fei had already forgotten about the Staff Technique. This thing was too awesome. It was the peak of the power he felt so far.

Moreover, this staff strike did not end immediately. Wherever the staff wave passed, dozens of shrimp soldiers and crab generals were crushed.

"My son, board the ship."

Han Fei bared his teeth. My son? If Old Han heard this, he would kill you.

However, he could not expose himself yet. After all, this ape was too strong. If he knew that he was not his son, he would be doomed.

Han Fei stomped his feet and immediately wanted to jump onto the towering ship.

However, as soon as Han Fei jumped into the air, a strong master arrived with armor. It was a fierce armorer!

In the territory of the humans, only such a powerful Armored Master would be able to stop creatures like the ape.

The powerful tiger with wings was also stopped by someone.

In any case, even the most powerful beasts had been stopped.

The man in front of Han Fei had an armor box floating in the air, holding two sledgehammers in his hands. He looked at Han Fei solemnly. "Retreat. This boat is full. The beasts have boarded the boat elsewhere. The beasts won't go extinct."

Han Fei pondered for a moment. Since he was here to fight, he had to fight first, didn't he? When the time came, it would be good if he couldn't win, so he wouldn't have to get involved in this.

Therefore, Han Fei didn't say anything and smashed his big rod down.

Clang!

The first to appear was a giant turtle with strange array patterns on its body. It seemed to be the armorist's spiritual beast.

The turtle's eye emitted a strange light that caused the void to tremble, preventing Han Fei's rod from hitting it.

At the same time, the void was torn apart and cold lights swept Han Fei's body, making clanging sounds. Some of Han Fei's fur was cut.

Perhaps because he was not used to the fighting style of apes, Han Fei lost the initiative. However, he was also shocked. This monkey's body was ridiculously strong!

The void rift had been torn open, but only its fur had been slashed. Didn't this mean that this monkey could withstand the attacks of explorers?

The armorist's face turned even uglier. At this moment, he roared and a divine weapon exploded in front of Han Fei.

For a cultivator of this level to blow up a divine weapon, how powerful would it be? Han Fei was blown thousands of meters away and crashed into the sea, crushing a giant centipede.

Han Fei was also infuriated. How could such a strong body be so weak? Of course not. Thousands of rod shadows appeared in his mind.

Han Fei's eyes turned red and he stepped on the air again. But this time, he threw more than a hundred strikes. Even he didn't know what kind of rod technique it was. Anyway, he could just smash whatever appeared in his mind.

Clang! Clang! Clang! Clang! Clang!

Although the space around the turtle's eye was shaking, Han Fei didn't care. If he couldn't hit it, he would hit it ten times. If he couldn't hit it ten times, he would hit it a hundred times.

Maybe it was because Han Fei was too fast, but from other people's perspective, Han Fei waved the fire rod and attacked with it.

Han Fei felt more and more satisfied. He felt that this rod technique was very special. Every rod was faster and stronger than the previous one. It was very similar to Zhang Xuanyu's Nine-Layered Wave of Furious Sea, but the number of waves it could create was countless times higher than Zhang Xuanyu's.

Han Fei smashed the turtle so hard that its head shrank back and cracks appeared on its shell. The Armored Master turned into a giant and tried to resist with his giant hammer.

However, after Han Fei smashed more than 500 rods, the armorist finally couldn't take it anymore. The giant shadow was directly dispersed by Han Fei.

His entire body's bones broke, blood crazily rushing out, flying outwards.

At this point, Han Fei finally had a chance to rush to the boat. He had to break through the formation first.

However, before Han Fei entered the formation, he suddenly heard the roar of thunder.

Someone shouted: "Enough, monkey, this road is long and the future is uncertain. If we humans succeed, the beast race will rise in the future."

"Roar!"

The great ape shouted angrily, "We'll be all dead! What are you talking about? Let us board the ship!"

"Hmph!"

It seemed that they didn't come to an agreement. Then Han Fei saw a scene that he would never forget in his life. He saw a huge hand covering half the sky and descending from the sky like a mountain.

The giant ape was covered in blood. It tried to struggle against the giant hand, but it was pressed to the ground. Han Fei, the Tiger King, and the Monoceros were all pressed down by the giant hand.

"F*ck!"

Han Fei thought, I haven't had two minutes of fun! I just hit one person, but then I was pressed down.

Although it was said to be pressing, there seemed to be boundless gravity on the hand. The few beast kings were all pressed into the sea.

There was a word describing the kind of power that could even topple the mountains and overturn the seas.

Han Fei used to think that it was an exaggeration, but now it seemed that this word was inadequate to describe this power. Even a complete mountain range could be smashed by this hand.

Boom! Boom! Boom!

At that moment, Han Fei didn't know what he was feeling. He felt like a little kid who was slapped. When Han Fei came back to himself, he was buried in the sand of the ocean and his bones seemed to have been crushed.

Just now, he had arrogantly defeated an explorer. At this moment, he felt like a sick patient who was groaning in bed and was about to die at any moment.

Han Fei finally came to a conclusion: the strong were too terrifying! When he hit Han Fei just now, it reminded Han Fei of Old Han.

Han Fei felt uncomfortable.

"I'm going to die, I'm going to die, I'm going to die just like that?"

Han Fei felt that he really couldn't take it anymore! He was obviously not as strong as the big ape, and its power was supposed to be used against the big ape.

Now, Han Fei felt that he couldn't move. Countless undersea giant insects rushed to his wounds and tried to crawl into his body.

Han Fei waited for a long time before he gathered some strength and killed all the creatures.

When Han Fei crawled back to the shore with his devastated body, he saw that the big ape was also beaten to the ground, dying.

He was pressed into the ground. He was probably no better than him!

Suddenly, Han Fei felt a fatal danger. He tried to dodge, but he could only make a move to escape.

"Pfft!"

A silver spear directly pierced through his body. He slid on the ground for several thousand meters along with the spear, smashing through half the mountain before coming to a stop.

Rocks rolled down and pressed Han Fei.

Bang!

The silver spear actually exploded.

Han Fei, who was about to die, was blown up, leaving only a trace of his breath.

In that second, Han Fei fully experienced death.

Han Fei had experienced death before. For example, when he fought with Chun Huangdian, but that time, he died too quickly to feel anything. For example, when he was killed by Snowmourn, but the experience wasn't quite painful.

But this time, he did not know how much time had passed. It seemed very long, but also very short.

Han Fei murmured in his heart, I haven't even shown my power, and I'm already dead?

While Han Fei was dying, he felt that his soul was about to shed. Suddenly, a big hand pulled away the gravel and half of the big ape's body crawled out of the hole and looked at Han Fei deeply.

Han Fei didn't know if the ape was speaking to his son or Han Fei, but he said with difficulty, "If the beast race doesn't go extinct... please treat the beast race nicely..."

Chapter 1084: Monkey King's Three Thousand Staffs

Han Fei didn't know when he woke up, but he felt very tired.

He did not even see the Void Tablet when it appeared.

Han Fei's bones seemed to have scattered.

At this moment, Han Fei finally woke up after throwing countless Divine Healing Techniques at him in a daze.

When Han Fei woke up, he found that he was indeed pressed into the rubble. A huge rock was pressing on his face, almost crushing him into a pancake.

Bang!

Han Fei struggled and blasted a path through the rubble.

When he crawled out, he realized that the scene from before had already disappeared without a trace. However, not far from him, he saw hundreds of all kinds of creatures.

There were wolves, pigs, crocodiles, shadow leopards...

In any case, there were many living beings, but these living beings were different from those on the battlefield. These living beings' bodies had long decomposed and were incomplete.

At this moment, their eyes flickered with blue soul fire as they tried to kill Han Fei.

"That's not right! Why is the timeline here so chaotic?"

Han Fei tried to calm himself down.

From the moment he dug himself into the hole and came out, the timeline had changed. When he visualized the ivory, Han Fei had somehow returned to the time when the elephant died.

When he possessed the elephant, it was probably not the same time as when he came out of the cave and saw the wolf corpse.

But he had been pursued after he had visualized the elephant tusk. Something unknown must have happened. And so he had been led into another timeline.

If possessing an elephant was a timeline, killing a wolf was a timeline, and being chased was a timeline, then this should be the timeline of killing the wolf.

However, these were not his original timeline.

Han Fei immediately understood! Time was chaotic in this mist.

But now, the key was how should he return to the normal timeline?

However, there was no time for Han Fei to consider, because these creatures were about to pounce on him.

"Roar!"

As a wolf roared, Han Fei took out the Embroidery Needle.

"Eh? Why am I grabbing the Embroidery Needle?"

Han Fei was not conscious. He was ready to fight, so he naturally had to grab a weapon. However, his first reaction was to grab the embroidery needle instead of the Blood Drinking Knife, which was quite strange.

But now, Han Fei didn't have to worry about that. He would just fight.

Seeing the wolf attack, Han Fei spat out his tongue and swung his long tail. Han Fei roared and raised the Embroidery Needle.

The moment the Embroidery Needle was raised, Han Fei felt something different. He seemed to be good at rod techniques. A nameless rod technique flashed in his mind.

“The big ape’s staff technique?”

In the blink of an eye, a hundred thousand strikes were unleashed.

Clang! Clang! Clang!

The rod was played by Han Fei violently.

At this moment, Han Fei’s memory became clearer and clearer. He felt that there were three thousand overlapping mountains that could shake the world in his mind.

An hour later, Han Fei covered himself with the Divine Healing Technique while holding the Embroidery Needle.

Han Fei murmured, “What a powerful rod technique! To be precise, there are probably three thousand overlapping waves, but I think I can only cast one hundred overlapping waves. Then I can’t improve anymore.”

“Interesting! Could this be the terrifying power of the Visualization Stone?”

Han Fei sighed. No wonder the value of the visualization fossils was the highest! Although he felt that it was strange from the beginning to the end, the three thousand waves were indeed very powerful.

He had probably raised his staff technique from the bronze-level to the master-level. However, there was still a long way to go before he could reach king tier.

“Forget it. Even though I don’t quite understand it, I’ve inherited your staff technique. If I have the chance to encounter the Beast Race in the future, I’ll treat them better.”

Han Fei looked at the Embroidery Needle in his hand and couldn’t help but focus. “Let’s call it the Three Thousand Strikes of the Monkey King!”

Han Fei sighed.

That giant ape was truly powerful! If not for the giant hand that covered the sky, it might have really attacked.

Of course, Han Fei had no time to think about it.

If nothing went wrong, he was still in the Death Valley! This place was very likely the battlefield of the past. Countless beasts had died here.

Could it be that he really had to clear this place before he could leave? What a joke!

Han Fei still remembered that there was a single-horned rhinoceros that charged together with him. He had better not run into it! Otherwise, it would kill him.

Han Fei rested for a moment and began to walk in Death Valley with his rod.

Along the way, Han Fei encountered all kinds of land creatures. Some of them would attack him, some of them had hatred in their eyes, and some of them didn't, because they were really left with broken bodies.

Fortunately, Han Fei didn't encounter any particularly powerful creatures. He walked out of Death Valley into a dense forest.

The moment Han Fei saw the forest, he felt that it meant that he had left Death Valley!

After sprinting through the forest for a while, the corpses of the beasts had also disappeared. There didn't seem to be any special creatures guarding the area.

About an hour later, Han Fei suddenly realized that he seemed to have come to a cliff.

"Eh? This looks familiar."

Han Fei was surprised to find that this was the cliff that he had come to when he possessed the elephant. So, he walked back here?

Han Fei remembered that there seemed to be a big head at the bottom of the cliff. He wondered what kind of head it was that could swallow an elephant in one bite.

However, Han Fei thought more about the deformed creature with the turtle shell, snake body, and bun head.

After listening carefully for a moment, Han Fei was relieved when he didn't find anything. He wasn't an elephant, and those creatures didn't seem weak either. It was better not to encounter them.

Squeak, Squeak!

Just when Han Fei thought he was fine, he suddenly heard a squeak, which made him think, Little Monkey?

Han Fei looked for the source of the voice and saw a little monkey eating a banana hanging upside down on a tree vine on the cliff far away.

Han Fei thought, Is this little monkey the little monkey I just met?

Although this little monkey seemed to be quite bad, it didn't seem to like fighting. Although the path the monkey took was dangerous, he wasn't afraid of the Tiger King anyway.

If he could meet the Tiger King, it meant that he had already left Death Valley.

Immediately, Han Fei spread his Phantom Glass Wings and flew to the opposite side. In this place, it was not really flying, but flapping! But it was much better than walking.

Han Fei didn't want to jump over. What if another head popped out and ate him? Wouldn't he be doomed then?

Seeing that Han Fei was here, the little monkey threw the banana in panic, pulled a vine on the cliff, and jumped down.

“Monkey, don’t run. We are relatives.”

Han Fei dived into the clouds and chased after the little monkey.

However, although the monkey did not like fighting, it was not slow at all. It was as though this was its backyard.

The cliff was seven or eight thousand meters high. Han Fei chased after it and found that the little monkey had disappeared.

Han Fei fell to the bottom of the valley and his heart sank. This was still Death Valley.

Yes, he saw a large number of monkey corpses, just like mummies.

But there were many monkey bodies lying on the ground. Some even died while sitting upright. There was also a group of monkeys with arms on their arms, forming a circle, standing there without moving. No one knew how long they had been dead.

Han Fei swallowed and said tentatively, “Brother Monkey, look at me! I just fought side by side with your ancestor! I’m obviously a good person. Can you send me out?”

However, there was no sound. The little monkey seemed to have disappeared.

Han Fei could only walk along the valley.

Fortunately, these monkeys had no intention of reviving, which made Han Fei feel relieved.

However, the more he walked, the more he felt that something was wrong, because everything here seemed more suitable for living.

There was even a stone table here. Monkey was playing a game of pitcher, and there were even some wine jars.

Han Fei even ran to the wine jar to see if there was any wine inside. Wasn’t there some Monkey Wine that could strengthen one’s body? What if there was some treasure here?

Unfortunately, the jar was empty.

Thinking about it, it was possible. This was only the Soul Realm. Although this place might really exist, it was definitely not in the Ideal Palace.

The Ideal Palace only had one island. Would it be able to safeguard the seven soul realms?

Therefore, this should be a projection of a certain place, existing in the form of a divine soul space.

After walking for a while, Han Fei suddenly saw a place that looked like a throne. In fact, it was a huge stone chair surrounded by rock paths and all kinds of lines were carved on the ground.

On the side of the stone chair, Han Fei could vaguely see the cliff. There seemed to be a pattern there.

When Han Fei got there, he found that the figure of the big ape was carved on the cliff, and he was playing with a rod.

“Woah! There must be treasures below the cliff. Routine, this is a routine. I know it!”

Han Fei had discovered that the rod technique was the Monkey King's Three Thousand Sticks that he had learned. But now he was not going to learn the rod technique, but to find a way out!

Han Fei stood in front of the cliff and looked at it for a long time. Suddenly, he found that the little monkey was sitting not far away from him.

However, at this moment, the little monkey had a stick in his hand and was looking at him.

Han Fei narrowed his eyes. "Monkey! Why are you holding a rod?"

Squeak, Squeak!

The little monkey's body suddenly expanded and transformed into an ape of the size of two men.

"Son of a b*tch. I knew it.. It's not that easy to get out."

Chapter 1085: Strange Encounter Adventures

Unlike Han Fei, Luo Xiaobai and the others also dug out the problem, but they didn't come to Death Valley after all.

Zhang Xuanyu was digging. When he came back and saw that Han Fei and the other three were all gone, he was stunned.

I just ran next door for a short while. Where are the others?

Curious, Zhang Xuanyu ran into the hole that Han Fei dug. As soon as he came out, the hole behind him was gone.

Therefore, all five people, including Zhang Xuanyu, dug themselves into disappearing.

At this moment, Luo Xiaobai was moving around on a big tree with hundreds of spiritual plants around her, welcoming the danger from the tree.

Yes, unlike Han Fei, Luo Xiaobai found herself in a tree after she came out. The tree was so big that Luo Xiaobai thought she was lost.

Besides, she had lost her ability to move around in the spiritual plants. Fortunately, the Death Substitution Technique could still be used. Otherwise, Luo Xiaobai felt that she would be doomed.

However, Luo Xiaobai's mind was clearer than Han Fei's. At this moment, she was guarding the end of a huge branch and frowning.

"Such a huge spiritual plant, is it a coincidence?"

Luo Xiaobai usually did not believe in coincidences. As a manipulator, she happened to come to a huge spiritual plant.

On this tree, there were all sorts of spiritual plants growing on its bark. There were also many birds that flew in the sky, as well as large numbers of worms and snakes.

Luo Xiaobai thought this place was dangerous because the birds were too scary. As a powerful manipulator, she wasn't afraid of the bugs.

Although snakes were difficult to deal with in battle, he had many attacking methods. Even if she didn't have Han Fei's strong fighting means, spiritual plants were her weapons. In the world of spiritual plants, there was no reason for her to lose to the creatures living on spiritual plants.

However, birds were different. She had very little experience fighting birds.

At this moment, a flying creature was chasing Luo Xiaobai.

Luo Xiaobai thought that they were birds. They had a pair of transparent wings, fur on their bodies, a steel needle spike on their mouths, and a tail that had split into three!

If Han Fei were here, he would've been shocked. "Damn it! Do all mosquitoes in this world look like this?"

Of course, it was impossible for them to really be mosquitos, but they did look like that! They were shaped like bees, only having a needle in their mouths. Their three tails were like whips, able to break through the void.

Most of the spiritual plants summoned by Luo Xiaobai's Great Spirit Summoning Spell were sucked dry by the three tails, making her speechless.

Fortunately, Luo Xiaobai did find something.

She had visualized the claws of a terrifying spider before. Now, as she jumped and turned, her body flowed in thousands of streams. In the void, she only appeared faintly before turning into nothingness.

However, the mosquito-like creatures couldn't see them. Thus, many of them were cut into pieces by the invisible strings.

"Vine Explosion!"

Luo Xiaobai stepped on the vines and darted among the branches with invisible threads as hooks. She wanted to reach the top! Although there seemed to be other creatures there.

...

Le Renkuang came to an orchard. Logically speaking, this should be something to be happy about.

However, what if these fruits were bigger than humans? What if these fruits could attack humans? What if there were worms bigger than humans here?

Roar!

Le Renkuang was also running crazily because there was a group of fruits chasing behind him. The fruits were all grinning with their mouths full of steel teeth and sticky liquid between their teeth.

In the prehistoric times, there weren't necessarily only beasts or strange trees. There might also be some things that simply couldn't be understood.

At this moment, Le Renkuang and the group of fruits chasing him were like a bean-eater game, funny and weird.

Armor Box, Blade Storms were unleashed in all directions.

It was because not only were there fruits chasing after him, but there were also some strange roots like the Piranha Plant on his head. There were also fruits that could shoot poisonous thorns.

If they were just fruits, it was possible that they wouldn't be very strong. At most, their characteristics were a bit abnormal. However, in the boundless universe, there were all sorts of strange things, so this wasn't strange at all.

However, the insects here were not so easy to deal with. Some human-faced half-winged beetles would often lie on some spiritual plants and cast illusions.

If Le Renkuang's soul hadn't become stronger after he had gone through the Demon Plant Soul Realm and the Blue Sea Soul Realm, and if he hadn't had the mint leaf, he would have been fascinated by them.

Also, the bugs were screaming and piercing his soul, which irritated Le Renkuang.

Why else would Le Renkuang and the bugs have some unspeakable opportunities? The most terrifying ones here were not the illusion-type bugs.

Most importantly, there were a lot of mantises here. If Le Renkuang hadn't activated the Ultimate Defence, he might have been killed.

"It's too dangerous. Too dangerous. I want to go home."

When Le Renkuang thought that he had run out of the orchard and reached the mountain range in front of him, he saw a group of broken corpses looking at him.

Le Renkuang recognized those corpses. Weren't they giants? He had seen them on the murals in the Thousand Star Proving Ground.

Good Lord, one of the giants had half his head gone. The other giant had holes all over his body and seemed to be about to attack.

"Roar!"

"Deep Blue Roar!"

...

Zhang Xuanyu was not in a better situation. He came to a spider forest full of spider webs.

There were also sea spiders in the sea.

However, those spiders rarely appeared at the same time, let alone dozens of them.

If one insisted that spiders and crabs were very similar, then he must be blind! At the very least, crabs could still be eaten, but very few would eat spiders.

At this moment.

Zhang Xuanyu was facing a group of spiders.

The spiders were generally larger with longer and unusually sharp legs. At this moment, Zhang Xuanyu was not only in danger of spider silk, but also faced the endless, sharp spider legs.

Ding ding ding!

Clang! Clang! Clang!

“Soul Explosion!”

Zhang Xuanyu’s body had already turned into a phantom, and the long rod in his hand struck out overlapping waves. As a guy who dared to cross the sea when he was only a fishing master, Zhang Xuanyu was quite confident. In some ways, he was even comparable to Han Fei.

In terms of combat experience, except for Han Fei, Zhang Xuanyu was best at fighting alone, not in a group battle. When a lot of spider legs were pierced and sprayed with spider silk and venom, it was too difficult for Zhang Xuanyu.

Fusing with the Bloodthirsty Shark, he tried to draw the blood from the enemy’s body.

Using the power of the soul to pierce through, he guarded himself.

Using the Tertiary Body as bait, he attempted to divert the spider’s attack.

Zhang Xuanyu tried his best to escape from this place...

Covered in wounds, he had just escaped from the tiger’s mouth and entered the wolf’s den. A giant spider was giving birth, and a large group of little spiders was chasing him. His scalp was numb.

He didn’t even dare to think about what he would do if he was caught.

...

Among everyone, only Li Luoluo’s situation was the most normal.

Li Luoluo also appeared in a forest. However, that was a normal spiritual forest. The creatures that appeared were normal creatures that she had never seen before.

“Lalala ~”

Li Luoluo was still humming a little tune, because along the way, she had already made countless living beings into specimens of plants.

“There’s something wrong with the timeline here! How am I supposed to get out?”

Without Han Fei and the others around, Li Luoluo transformed into a nine-eyed spider.

If Han Fei and the others were here, they would be shocked.

The Nine-Eyed Spider was crawling through the forest with thousands of bugs following behind her. It was like a mighty army of insects. Many creatures even chose to flee when they saw her.

Only those who had lost their consciousness would form groups and charge forward.

...

Everyone had different encounters.

The prehistoric world just barely revealed a corner, and no one was unable to see everything.

Han Fei had no idea how long he had been fighting the little monkey.

Anyway, he had already fought him more than 200 times. He had tried using the Void Line, but this ape had the ability to protect its soul. The Void Line could not hit it.

What made Han Fei the most speechless was that the physique of the monkey was no weaker than his.

This shocked Han Fei!

“If you say I can’t beat the ape, then I admit it. After all, the difference in strength is obvious.

However, an ape that was turned from a little monkey was so strong that it could fight against him, which surprised Han Fei!

Of course, in terms of movement techniques and saber techniques, the little monkey was at a disadvantage.

However, the monkey also knew the Monkey King’s Three Thousand Strikes, and its control was much higher than Han Fei’s. After a hundred strikes, Han Fei found that it was difficult to increase the strength and speed of each strike.

However, this little monkey was able to cast 300 shadows. Han Fei was blown away countless times.

Also, this little monkey had the intention to kill him. Han Fei could clearly feel it! If he was killed here, he might really die.

Of course, with Han Fei’s physique, it was extremely difficult for the little ape to kill him. Han Fei was like an unbeatable cockroach. Not only did he not lose any of his combat ability, but his rod arts were also improving slowly.

“Heh! It really is a training ground.”

The Prehistoric Soul Realm had many timelines.

However, Han Fei felt that he had discovered the path here. This place had been destroyed in prehistoric times, but the prehistoric creatures were unwilling to give up, just like how the ape asked Han Fei to treat the beasts kindly.

Also, Han Fei thought he had discovered the secret of the Soul Realm. It was the disappearance of the beast race and their complicated relationship with human beings.

Han Fei thought that maybe in the future, the beast race... could be his friend.

Chapter 1086: Narrowly escaped death

The scary thing about Death Valley was that it wasn’t really that dangerous, but that it was hard for people to leave.

Whether they possessed an elephant or an ape, in the end, it was just an experience. The chaotic timeline brought one's soul into some mysterious time node. Or rather, it was a fantasy that seemed extremely real.

However, the rules were not meaningless. The reason why it wanted people to comprehend something was definitely for some reason.

According to the Ideal Palace's routine, whether it was the Demon Plant Soul Realm, Undying Soul realm, or the Blue Sea Soul realm, all of them had extremely swift and terrifying experiences.

At the very least, as long as there were no problems with their natural endowments, these people would grow rapidly as long as they did not die. Even if he could not reach the end of every Soul Realm...

This way, the chances of a human being nurtured into an expert would greatly increase.

It was the same in the prehistoric soul realm. Although he had yet to visualize a few pieces of visualization fossils, what he felt was almost the strongest.

Even in this prehistoric Soul Realm, there were probably not many better visualization fossils.

At this moment.

Han Fei had been fighting the ape for three days and countless times.

In terms of combat strength, Han Fei and the monkey were evenly matched, although Han Fei had more tricks.

The problem was that every time Han Fei used some fancy tricks, the ape on the other side would fly into a rage and his strength would increase significantly. Therefore, Han Fei could only fight with the monkey bitterly.

Of course, there were also times when he did not fight.

For example, based on the Monkey King's Three Thousand Staffs, Han Fei condensed arrays on his rod and had finally knocked the monkey away. This time, he won.

Han Fei sat on the ground and gasped. "Monkey! I know you want to help me practice rod arts, but can you stop thinking about killing me? If it were anyone else, they would have been beaten to death by you."

Hiss ~ Hiss ~

The ape didn't seem to understand what Han Fei was talking about. It bared its teeth and looked fierce. However, it didn't attack him immediately. Instead, it reached out and took out a banana.

Han Fei sneered and grabbed a jar of wine from the void and drank it.

Normally, Han Fei would grab some food, but he felt like drinking recently.

That monkey bared its teeth and also grabbed a wine jar from the void and started drinking.

Hence, a man and a monkey sat facing each other across a thousand meters and drank.

Han Fei had just finished a jar of wine when he saw the monkey suddenly stand up. Han Fei thought that it was going to fight again, but he saw the monkey begin to pound its own chest with its fists.

“Heh! So what if your chest muscles are big?”

Han Fei picked his rod, ready to fight again. At this time, the monkey surprisingly didn't attack him, which made Han Fei quite curious.

“Eh! Not fighting anymore?”

Then, Han Fei saw the monkey dancing in the air. Slowly, the void changed and the vague shadow of the big ape appeared.

Han Fei recognized the ape. It was that big ape. The shadow dispersed as soon as it was touched. A ball of fire suddenly appeared in the monkey's eyes and spread outwards.

Monkey's body seemed to be unable to withstand this shadow. At this moment, his entire body was trembling, and his skin was beginning to crack.

Then Han Fei heard a deep, hoarse voice.

It was unknown if it was said to Han Fei, “On the day the Beast Emperor... returns... and when the terror descends, the east... the east... the sea...”

Bang!

Then, to Han Fei's surprise, the monkey exploded.

Buzz!

The Void Stone Tablet appeared and Han Fei's name was branded on the 23rd place.

Han Fei was not surprised by this ranking. Although the experience this time was unusual, there were not many real battles.

The chaotic timeline wouldn't destroy the souls of outsiders. The danger that Han Fei faced was mainly the remains of Death Valley and the little monkey that seemed to be the examiner.

Han Fei frowned.

“On the day the Beast Emperor returns, and when terror descends? Does the east mean literally? And the sea? ...Can't you finish your sentence in one go?”

Han Fei murmured and thought for a moment, “What level is the Beast Emperor? And what does the east mean?”

Han Fei's mind was racing quickly. If the big ape knew something, why didn't he say it when the time line was messed up?

Or rather, when the little ape that he had possessed died, what else happened after that?

Unfortunately, he knew too little.

The only thing he could do was to remember this piece of information. The return of the Beast Emperor would bring about great terror.

When Han Fei came back to himself, he suddenly realized that he was standing in the misty valley. Where was the cliff?

“I’m out?”

...

In another timeline, Luo Xiaobai was half paralyzed and covered in blood.

In front of her, a creature with the head of a goat, the body of a human, and two wings was nailed to the top of a giant tree by nine branches.

“Those beneath the king are nothing but ants. No one can escape their fate of being sacrificed...”

Above the giant tree, in the void, there seemed to be a faint ethereal voice repeating these words.

...

In Le Renkuang’s timeline, the guy had gone crazy. His body was red, and even his hair had turned red.

In front of him was a void. The Sky Swallowing Technique was tearing at the void like it was eating something.

There were many giants around Le Renkuang, but they seemed to have been dead for a long time.

A demonic voice sounded. “I’m afraid no one would dare to kill a god for the hundred thousand years after I died... hahaha...”

That laughter was sharp, frightening, and crazy...

...

Compared to Han Fei, Zhang Xuanyu’s experience was very special.

After Zhang Xuanyu escaped from the spider territory, he found a human skeleton.

At this moment, he was in a chaotic timeline, possessing the body of an unknown person. That person stood proudly in the void, the spear light in his hands striking out again and again, piercing into the sky.

Every time he made a move, a dark hole would be pierced through in the sky, as if a huge hole was punctured in the sky.

“Even mortals can open the Heaven Gate. My fate is up to me and not the heavens.”

Those words kept popping up in Zhang Xuanyu’s head.

The person possessed seemed to already know: This path was his own Dao, his final will.

...

Li Luoluo was sitting on the edge of a cliff.

Beneath the cliff, waves crashed against each other. In front of them was an endless sea.

Li Luoluo just sat there alone, her gaze fixed into the distance, her two hands on the ground, looking like a lonely little girl.

Li Luoluo's eyes were somewhat lonely. Her face no longer had any gaudy colors, and she looked like a rather quiet little girl now.

She muttered to herself, "So, they're all dead! But I can't remember anything after I go out! What do you think I should do? Keke."

Li Luoluo's expression changed and her lips curled up slightly, revealing two dimples. "I'll remember."

...

Han Fei didn't know whether he should go deeper into the mountain range or not. He returned to the valley where he dug the hole in the beginning, and the hole he dug was still there.

However, Luo Xiaobai and the others were no longer there. He wondered if they had fallen into an inexplicable time flow like him.

This wait lasted for an entire day and night.

Luo Xiaobai was the first to come out. However, she was in an extremely bad state. She was covered in wounds and looked extremely weak.

Han Fei hurried to ask, "What happened?"

As he spoke, he threw the Divine Healing Technique at Luo Xiaobai. Han Fei also took out a Soul Fruit for Luo Xiaobai to consume.

Luo Xiaobai was relieved to see Han Fei. "There's a time problem here..."

Luo Xiaobai did not hide what she saw. When Han Fei heard the words "Those beneath the king are nothing but ants", he couldn't help but feel frightened.

In his opinion, the Age of Doom was definitely not as simple as the ocean sweeping across the land. Han Fei's scalp turned numb when he heard that everyone would be sacrificed.

After experiencing Desolate Heaven City, the Undying Soul Realm, and the Prehistoric Soul Realm this time, Han Fei realized that the dead creatures of that era had probably exceeded the limits of his imagination.

All these couldn't just be simply explained with "the sea sweeping the land"!

The third to come out was Li Luoluo.

However, when Li Luoluo saw Han Fei, she smiled sweetly. "Brother, Sister."

"Pfft!"

Han Fei and Luo Xiaobai looked at each other. Li Keke?

Han Fei tried asking Li Keke about something.

But it turned out that she knew nothing. What information could you get from an eight-year-old?

However, Luo Xiaobai asked telepathically, "Can Li Keke walk out of the timeline alone?"

Han Fei was slightly surprised but said nothing. "Keep an eye on her from now on."

Han Fei was also suspicious. He had never seen Li Keke fight. In fact, he believed that Li Keke couldn't fight.

However, Luo Xiaobai reminded her. How could an eight-year-old girl walk out of time turbulence?

Buzz!

Suddenly, a hole appeared in the sky.

A towering spear light was shining in the sky. The sharpness of the golden spear was extremely strong. It was as if one's body would be penetrated as long as it was touched by its aura.

Zhang Xuanyu appeared.

However, his clothes were already tattered, and the terrifying sharpness was also restrained.

After Zhang Xuanyu landed, he chuckled. "It was a close call but I benefited a lot from it. Huh, where's Fatty?"

Bang!

A mountain exploded, and a shadow mouth appeared. It was Le Renkuang's latest version of Sky Swallowing Technique.

Han Fei greeted, "Kuangkuang, what are you doing?"

"Roar!"

The big mouth bit at Han Fei.

Everyone's expressions changed.

Because Le Renkuang showed a strong killing intent and had gone crazy.

Chapter 1087: Different Opportunities for Different Persons

Han Fei and the others had never expected that Le Renkuang would go crazy. Although Le Renkuang had a crazy name, it was not a problem to call him a coward.

Since their first meeting, Le Renkuang had never lost control or gone crazy.

Since he had gone crazy this time, it meant that what Le Renkuang encountered was very likely to be terrible.

Luo Xiaobai shouted, "Hold him down."

The vines swept out, covering the ground, the void, and even a gigantic flower.

However, when Le Renkuang pressed the box, the wind blades were full of killing intent. Their speed and power were greatly improved, and they tore Luo Xiaobai's spiritual plants into pieces.

Since they were on the same side, Luo Xiaobai couldn't attack him with her full strength. She could only rely on Han Fei and Zhang Xuanyu to suppress him together.

Zhang Xuanyu roared and his soul power landed on Le Renkuang. "Wake up."

Han Fei's actions were even more violent. He immediately attacked with the Embroidery Needle and crashed into the Blade Storm, ignoring the violent blades.

However, the giant mouth still wanted to bite Han Fei, but Han Fei stepped on it and the Coiled Turtle Array appeared. The Golden Giant grabbed the huge mouth with his hands.

"Devil's Blade."

Han Fei's pupils constricted.

This guy's attack caused the void to tremble. The True Martial Devil Blade broke through the void and slashed at Han Fei.

Crack!

The Coiled Turtle Array was shattered by two strikes. Han Fei's Monkey King attacked with his three thousand staves, fast and violent. Anyway, Le Renkuang's body was not weak at all. Since he couldn't wake him up, he would smash him until he woke up.

Bang! Bang! Bang!

In front of Zhang Xuanyu's shocked eyes, Han Fei threw more than 200 strikes at Le Renkuang in various positions, smashing half of the hill before knocking Le Renkuang out.

"Hu!"

Han Fei took a breath. "This fatty is really hard to beat when he goes crazy."

After a while.

Le Renkuang woke up slowly and saw Han Fei and the others surrounding him. He mumbled, "It hurts, it hurts. Why do I feel like I've been beaten?"

Luo Xiaobai asked, "What did you encounter?"

Han Fei hurriedly cast a Divine Healing Spell on him. He didn't throw it at him just now because he was afraid that Le Renkuang would go crazy again. Now that he was awake, he threw it at him.

Luo Xiaobai said directly, "If there's anything important, tell us in private. Don't say it in front of Li Luoluo."

Le Renkuang's hand trembled slightly, and he said calmly, "Oh, I was almost scared to death. You don't know that I was chased by a bunch of fruits... Yes, fruits. They are bigger than humans, and they have mouths... And worms. I hate worms. I hate worms..."

Zhang Xuanyu said, "Huh! Are you scared silly? Fruits eat people?"

Le Renkuang jumped up. "Yes! They were so fierce. I also saw a huge fruit. Well, I think I was poisoned by it, and then I lost my consciousness."

With that, Le Renkuang winked at the other three behind Li Luoluo.

Li Keke said adorably, "Fat Bro, you're so pitiful."

Le Renkuang froze and looked at Li Luoluo in shock. "Keke?"

Han Fei looked at Luo Xiaobai. "Let's go. We've finished exploring this Prehistoric Soul Realm. Let's see if we can explore all the seven Soul Realms."

Han Fei's idea was actually very simple. He even felt that he might have guessed why those people on the Genius List didn't compete for the rankings.

Because the information obtained from a single Soul Realm was too little, all the Soul Realms seemed to be able to elevate one's cultivation base. Thus, under such circumstances, most people would not choose to walk a single path to the end.

At this moment, Han Fei had the same idea. Although he had obtained a lot of information from the Prehistoric Soul Realm, it would be more difficult for him to enter the top ten or top three if he was only ranked 23rd. After all, they had passed three Soul Realms.

Which Soul Realm's final segment was easy to pass?

Although he had been forced to use the Demon King's Contract in the past and had not been able to carefully experience the three great demonic plants in the Demon Plant Soul Realm, it was still not easy.

In Han Fei's opinion, few people should be able to survive the battle with the Undying Soul and the necropolis of the returnless.

The Blue Sea Soul Realm was even scarier, where an ancient Azure Dragon had appeared.

Who knew what kind of living beings would appear in this Prehistoric Soul Realm? It wasn't that he was afraid. The Soul Realms' existence was mainly to help humans gain experience and increase their strength.

Indeed, he could obtain more growth from the three secret realms at the back first. At that time, he could return to challenge the prehistoric soul realm. Perhaps the outcome would be even better.

Luo Xiaobai thought for a moment and agreed. "Alright! Let's go to the other soul realms first. However, we must be careful in the War Soul Realm if nothing goes wrong. The Sixth and Seventh Soul Realms are extremely mysterious. If the big clans want to take action, the Fifth Soul Realm might be their best opportunity."

Han Fei nodded.

Zhang Xuanyu grinned. "Heh, I'd like to see what the big clans can do."

Le Renkuang said, "Yes."

Li Keke blinked. "Are we going to fight?"

Everyone froze.

Han Fei and the others were speechless. Right, Li Keke is still an eight-year-old child. Should we take her to the War Soul realm?

However, Li Luoluo wasn't weak. Without her, they lost a good helping hand indeed.

Luo Xiaobai frowned. "Keke, can you ask Li Luoluo to come out?"

Li Keke blinked her large eyes and said with some grievance, "Luoluo's asleep!"

Everyone was stunned: Li Luoluo fell asleep?

Zhang Xuanyu immediately said, "Well, Keke! We have something important to do now. Luoluo is asleep. Where's Li Kuang? Can you call him out?"

Li Keke pouted. "OK!"

Then she kept her eyes closed for a moment. After pausing for ten-odd seconds, Li Luoluo suddenly opened her eyes, her eyes filled with fervor.

"Hahaha! I heard you were looking for me? I told you, I, Li Kuang, have unparalleled talent, so I'm certainly the one you need the most. Brothers, why are you calling me?"

"Uh!"

The faces of Zhang Xuanyu and the others stiffened. Didn't Li Kuang come out too fast?

Luo Xiaobai said telepathically, "There must be something wrong with Li Keke. She can change her personality at will! If she can control it, she can suppress it. Otherwise, according to Li Kuang's personality, he would have come out himself."

Hearing Luo Xiaobai's words, Han Fei looked at Li Kuang with a smile. "Brother Kuang, we're going to do something big. Are you interested?"

Li Kuang was delighted and patted Han Fei in the shoulder heavily. "Of course! I'm best at fighting!"

Since Li Kuang had come out, it didn't matter if there were any problems later on. In any case, his combat strength should be better than the eight-year-old Li Keke, right?

...

In the outside world.

Before the Prehistoric Soul Realm, the changes on the stone tablet caused many people to ponder deeply.

After all, Han Fei was too eye-catching in the first three Soul Realms, so many people were relieved that he stopped at 23rd place.

Although he was still very strong, as long as he did not enter the top three, it meant that Han Fei was not as strong as the strongest genius in history. After all, Han Fei had asked about Tang Yan and Li Daxian when he went in.

At that time, everyone thought that Han Fei was trying to challenge the two's positions, so they had high expectations of him. Now, Han Fei's final ranking was quite reassuring.

However, this time, what surprised everyone was that unexpectedly, all five students from the Thug Academy were on the list. Furthermore, their rankings were not low, especially...

On the way back.

Le Renkuang avoided Li Kuang and said to Han Fei, "I saw a king's corpse. Do you believe me?"

At that moment, Han Fei and the other two were all shocked. Although they hid from him, Li Kuang didn't care about it, which made Han Fei and the others slightly relieved.

Han Fei replied, "Don't panic. Stay calm. No... Fatty, are you sure it's a king?"

Le Renkuang replied, "I think so. In the end, he seemed to have said something to me, but I didn't seem to be in a good state at that time, so I didn't remember it clearly. It seemed to be Godslayer or something..."

Zhang Xuanyu rolled his eyes and said, "Fatty, don't try to fool me. Are you sure it's Godslayer? Godslayer?!"

However, Han Fei and Luo Xiaobai were lost in thought. It seemed possible. If Han Fei had never seen the Sky-Shrouding Hand, he might not have believed it.

But he had seen it. And he had been beaten by it.

Oh, that was not right. To be precise, the ape that he had possessed was not even qualified to be beaten up by the hand, but he was still killed.

Luo Xiaobai, on the other hand, thought of the words "Those underneath the king are nothing but ants". It made sense to understand the Godslayer as a king slayer.

After all, in the eyes of mortals, what was the difference between a king and a god?

Han Fei couldn't help but ask, "Yu! What did you see in the timeline?"

Zhang Xuanyu said, "I possessed a person and learned a peerless spear technique."

Han Fei raised his eyebrows. "How peerless?"

Zhang Xuanyu chuckled. "Break the void and open the Heaven Gate."

Luo Xiaobai asked in surprise, "So, you've got a combat skill?"

Zhang Xuanyu thought for a moment. "It's not a combat skill. It seems to be a path. The path I opened is very compatible with my own path. I have a feeling that I will be very strong once I become a law-enforcer."

They all clicked their tongues, wondering if Zhang Xuanyu was bluffing. However, if he said he was strong, so be it!

Zhang Xuanyu asked, "Fei, what happened to you?"

Han Fei thought for a moment.

That scene would probably shock them. So, Han Fei changed his words.. "I experienced the power of an explorer."

Chapter 1088: Fight or Not? That's a Question

For the first time, Han Fei and the others didn't talk about their rankings. It seemed that they maintained their usual tacit understanding.

When the five of them appeared outside the prehistoric soul realm, they immediately aimed at the stone tablet.

Han Fei exclaimed, "That high?"

Zhang Xuanyu was stunned. "What? My ranking is so low?"

Le Renkuang asked in a daze, "Is there a mistake?"

Li Kuang smirked. "What is this stone tablet for? Why am I only ranked 99th?"

Han Fei looked at Le Renkuang speechlessly. Le Renkuang went crazy for a moment and somehow ranked 12th. This number really stunned him.

Han Fei had thought that what he had experienced was already bizarre enough. A giant ape! A giant hand! A giant Divine Boat! How could anyone not be excited?

However, he was only ranked 23rd.

God knew what Le Renkuang had experienced. He was actually ranked 12th.

And it was more than that.

Didn't Zhang Xuanyu say that he only comprehended one path? He possessed a strong master. Han Fei wondered who Zhang Xuanyu possessed. He was ranked 21st, two ranks higher than him.

As for Luo Xiaobai, Han Fei thought that Luo Xiaobai's experience should be on par with his, but Luo Xiaobai was ranked 37th.

He thought to himself: Zhang Xuanyu's experience was definitely not simple! Le Renkuang's experience was probably even more bizarre than Luo Xiaobai's, but her experience might be safer.

However, when Luo Xiaobai came out of the timeline, she was seriously injured. In this case, it meant that what Le Renkuang and Zhang Xuanyu encountered must be more complicated and weird than he thought.

As for Li Luoluo, he directly ignored her.

As soon as Han Fei and the others came out, someone rushed over and said, "I'm here, I'm here."

Han Fei looked at a dwarf and asked in surprise, "Who are you?"

That person transmitted his voice. "Wang Santie! I, Wang San Tie, have information."

Wang Santie had made up his mind to earn money from Han Fei. They were so strong and must have obtained a lot of visualization bones in the prehistoric soul realm.

He had traded with Han Fei for several times. Although he had been told that the Thug Academy was very violent, he felt that they were fine. He had made a lot of money outside of the Blue Sea Soul Realm.

Other than Wang San Tie, there were others who wanted to surround him. Someone shouted, "We also have information."

Wang Santie's expression changed. "What the hell do you have? My information is unique."

Han Fei immediately waved his hand and pointed at Wang Santie. "Okay, you're picked. Let's go and have a chat."

When the others saw this, they were filled with resentment. It was such a good bargain, but it was taken by this guy alone!

Seeing that Han Fei and the others were about to leave, someone shouted, "Many law-enforcers and senior experts have entered the ideal palace."

Han Fei and company frowned.

Although they had expected law-enforcers to come in, when they did come in, it meant that his enemies had been prepared to kill them all.

Wang Santie was instantly enraged. He turned around and bared his teeth. "B*stard, do you think this is all I have?"

A person replied with a sneer, "I don't believe you have much information."

A moment later.

Han Fei led Wang Santie to a small hill.

Han Fei thought for a moment. This time, he didn't find any visualization fossils. He thought that the significance of the Prehistoric Soul Realm was not the visualization fossils but the chaotic timelines.

So, when they came out, Han Fei and the others had been recalling their experiences and forgot about the visualization fossiles.

But although he didn't have visualization stones, he had Soul Fruits! He took out a few intermediate-level Soul Fruits and said, "Tell me! What's your information?"

Wang Santie chuckled. "Well, that guy was right just now, but he doesn't know the exact strength of the law-enforcers. But who am I? I'm Wang Santie! This Ideal Palace is my backyard..."

Luo Xiaobai interrupted him. "Get to the point."

Wang Santie said, "According to my incomplete statistics, there are probably more than 30 law-enforcers who came in this time."

"Tsk!"

Han Fei was obviously disdainful and didn't believe Wang Santie's words.

Before entering the Ideal Palace, Han Fei had seen more than a hundred law-enforcers on the island. It seemed that those people had come in, but he had only seen them. He didn't know if there were more.

Why didn't these people come in before?

This logic was very simple. How precious were law-enforcers? Although there were hundreds of them, it was also the accumulation of their foundation. How difficult was it to nurture a law-enforcer? It would be too much of a loss if they died easily.

So, those people were just waiting. If their Hidden Fisher-level clansmen could kill Han Fei and the others, they wouldn't have to do anything.

After all, in the outside world, they did not know what the ideal palace was like.

Even if the big clans had some guesses about the ideal palace, guesses were only guesses. Once one entered, life and death were hard to predict, so who would want to enter?

Luo Xiaobai said, "This information is not worth much. There are more than 30 law-enforcers and at least a hundred of them. Tell me something else."

Wang Santie was stunned. 'There are so many people? Did I get the wrong information?'

Wang Santie hurriedly said, "Don't panic, I still have more. I know that people from the various great clans have come. Among them, there are some geniuses from the previous generation. Among them, there are at least ten people who got listed on the seven Soul Realms."

Luo Xiaobai frowned. This news was a bit too important. In fact, they did not need to care about ordinary descendants of the big clans.

After experiencing the four soul realms, they felt that they had already reached the pinnacle of their current state, regardless of whether it was their soul, realm, or comprehension.

If not for the rules of the ideal palace, they would have become law-enforcers long ago.

Han Fei: "It's too vague. How many of them?"

Wang Santie laughed dryly. "This, I really can't be sure. I also found out after much difficulty. It's probably because they prevent their whereabouts from being leaked in case you guys are on guard in advance. Oh, right, the Cao Family is here too. Especially Cao Qiu, he's almost rumored to be the strongest in the younger generation of Thousand Star City. I heard that the Cao Family has a grudge with the Thug Academy?"

Han Fei was slightly stunned. Cao Qiu is here? That's right. I haven't heard anything about Cao Qiu in a long time. Cao Qiu must have been adapting to his War God bloodline in the past two years.

1

Han Fei asked, "When did they come in?"

Wang Santie said, "This... they didn't hide it. They came in a few days ago, but they came out of the Demon Plant Soul Realm yesterday and directly disappeared."

Luo Xiaobai looked at Han Fei. "Coincidence?"

Han Fei shook his head. "I don't know, but don't worry about it. Cao Tian listens to Cao Qiu. Cao Qiu is a good person. As for Cao Jiaren, you have to be careful."

Han Fei looked at Wang Santie. "Is there nothing else? For example, what are the law enforcers going to do? How are they going to fight? Where are they going to fight? Do they have any special methods?"

Wang Santie's expression froze. "What do you mean? It's either inside the fifth soul realm or outside. Not just anyone dares to enter the sixth soul realm."

As he spoke, Wang Santie suddenly said, "When it comes to methods, it's not that there aren't any. It's said that someone once dug up a special item in the Prehistoric Soul Realm. It's said to be able to annihilate one's soul. It can be used in or outside the Soul Realms."

Luo Xiaobai asked, "What is it?"

Wang Santie shook his head. "I don't know. It's just a rumor. It's rumored that only one item was dug up, but it seems to be related to time."

Han Fei narrowed his eyes and gave the intermediate-level spiritual fruit to Wang San Tie. "This is real intelligence. What you just said is basically nonsense."

Wang Santie was stunned. This is a rumor! No one has verified it before. You call this important information?

Han Fei asked, "What else... any more important information like this?"

Wang Santie shook his head. "The probability of death in the War Soul realm is extremely high. Does that count?"

Han Fei asked, "Have you been there?"

Wang Santie shook his head. 'Of course I haven't been there. Why would I go there for no reason? Do I have a death wish?'

Wang Santie said, "Even though I've never been there, I know a bit about it. To be honest, there will be many chaotic battles in the War Soul Realm. Moreover, I can't be sure if you'll be together after entering, because some people will be together, while others will be separated. It seems like it's because the battles they encounter are different, but what I can be sure of is that you're definitely in the same place, at the same timeline."

Han Fei and the others looked at each other. The situation of the War Soul was very complicated!

Zhang Xuanyu asked in surprise, "Does that mean that the big clans won't be able to find us?"

Wang Santie hurriedly said, "That might not necessarily be the case. If they can't find you, then they wouldn't have set up an ambush!"

Luo Xiaobai said, "Alright, that's enough. Let's go!"

A moment later, they left Wang Santie behind.

Luo Xiaobai did not look happy. "If the Battle Soul Realm is like this, we are in danger. In the Battle Soul Realm, if there is no problem with time, a lot of strong masters will flood in. If the five of us are separated, the consequences will be unpredictable."

Zhang Xuanyu said, "We can disguise ourselves!"

Luo Xiaobai said, "Since the big clans are ready to fight, they will pay attention to everyone who enters the War Soul Domain."

After a moment of silence, Han Fei suddenly licked his lips and said, "In fact, this might be an opportunity."

Luo Xiaobai: "Huh?"

Han Fei grinned. "In the outside world, do we have a chance to attack the people of these big clans?"

Zhang Xuanyu took a breath. "You don't want to fight them, do you?"

Le Renkuang also took a deep breath. "The law-enforcers are fine. After all, their realm is suppressed. But what if a group of former geniuses comes?"

Luo Xiaobai said, "It's risky."

Li Kuang immediately shouted, "Fight! Fight! I, Li Kuang, have never been afraid of anyone!"

Zhang Xuanyu glanced at him. "Dozens at our level..."

"Uh..."

Chapter 1089: Helpers

Han Fei did not feel threatened, nor did he feel any fear because he had guessed the big clans would attack them in the War Soul Realm.

However, Han Fei had to take care of Luo Xiaobai and the others.

In his eyes, fighting alone required one's physique. Only Le Renkuang could fight with others here. However, if Yang Nanxi was here, Le Renkuang would probably have no time to take care of others.

Whether Le Renkuang had gone completely berserk or not, when he was sober, Le Renkuang should be on par with Yang Nanxi. When he was not sober, it was still the same. Because when he was not sober, he would lose a lot of his power and give others a huge chance to attack him.

Han Fei paused for a moment. "I think this is a chance. If these people are all dead, it'll be a big loss for the big clans. Anyway, our relationship with them has never been good. If we catch them, we must kill them!"

Luo Xiaobai frowned slightly. "No. it'll be useless even if all the paragons are dead. You must know that our real opponents are not them but the big clans themselves. You can kill law-enforcers, but can you kill explorers? And Venerables?"

Han Fei curled his lips. "Why should I care? I'll kill whoever is standing in my way."

Li Kuang immediately agreed. "I agree. If you can kill one, then kill one."

Luo Xiaobai rolled her eyes. "What does it have to do with you?"

Luo Xiaobai said, "Don't forget that the informant said that they have ways to attack souls."

Han Fei smiled. "I didn't forget. They have it, but it doesn't mean that I can't stop them! I think I'll go in first and kill a bunch of them. You can come in when it's safe."

Having the Demon Purification Pot to protect him, Han Fei was not afraid at all. It was better to kill a batch of them first.

Le Renkuang looked at Han Fei in shock. "Are you crazy? Do you want to fight ten people alone?"

Han Fei couldn't help but recall the battlefield of the Undying Soul Realm. He grinned. "Have you forgotten? I'm the first in the Undying Soul Realm."

Zhang Xuanyu hurried to say, "That won't do. The people in the Undying Soul Realm have no intention of killing us. I'm wondering if we should go in together. When the time comes, I don't care if you fight one against five. It shouldn't be a problem for the four of us to fight one each."

Luo Xiaobai nodded. "Since we're all from the Thug Academy, let's go together. We can come again when the opportunity arises."

Li Kuang shouted, "Oh, why is it so complicated? Can't we go and take a look first? If we really can't beat them, can't we still run?"

Han Fei looked at Li Kuang. "You have a point. Whether we enter or not, we should go check it first."

Le Renkuang suddenly said, "Wait."

Han Fei: "Huh?"

Le Renkuang said with a trembling face, "Should we digest the harvest in the prehistoric soul realm? I still have some unknown power in my head! I need to absorb it."

Zhang Xuanyu suddenly remembered. "Oh, right. Feifei, what happened to your stick technique? You've punched out 200 layers of waves in a row and extremely fast. Let's spar."

Luo Xiaobai said, "Then let's rest for two days and enter there in our best state."

...

Three days later.

Clang! Clang! Clang!

The staff in Zhang Xuanyu's hand was like a phantom. With one attack, the void shook and a black hole opened. Han Fei couldn't take down the weird power quickly without using special methods.

However, Zhang Xuanyu was even more surprised than Han Fei. "Stop. Let me ask you, how many waves does your staff technique have? When you attacked, you seemed to ignore space, or you wouldn't have been so fast."

Han Fei pondered for a moment. "The Monkey King's Three Thousand Sticks should be able to make three thousand times, or even more."

"Pfft!"

Zhang Xuanyu almost vomited blood. He exclaimed, "How many times? Are you kidding me?"

Han Fei chuckled. "However, with my current strength, I can only hit 300 times at most."

Le Renkuang was speechless. "You think three hundred is too little, or what?"

Even Luo Xiaobai's lips were twitching. "Although it is not as powerful as the Nine Layered Waves of the Furious Sea, it can make so many waves. This staff technique is very strong."

Li Kuang smacked his lips and seemed to be considering how to deal with Han Fei's 300 strikes.

His expression suddenly changed and he almost switched to another identity. For some reason, he always felt that his confidence had been severely damaged!

Han Fei also discovered that Zhang Xuanyu's rod technique had terrifying armor-piercing power. The attack energy was extremely dense. With this power, Zhang Xuanyu's pure combat power was almost eighty percent higher than before.

It was no wonder that Zhang Xuanyu's ranking was so high. It seemed that the man he possessed was indeed amazing at stick technique.

A while ago, Zhang Xuanyu had said that he would study the Armor Breaking Art if he failed in body polishing. Now, it seemed that he had made insane improvements in the prehistoric soul realm.

Han Fei couldn't help but regret. I broke a law enforcer too early! If I had known that there were so many opportunities in the ideal palace, I wouldn't have done that so early!

Wouldn't it be better to improve his comprehensive combat strength to the limit?

No wonder Zhang Xuanyu said that he felt that he would become very strong after becoming a law enforcer. He had almost reached the end of his road. How could he not be strong after becoming a law enforcer?

Le Renkuang was the same. His so-called gains were actually the gains of the Sky Swallowing Technique. If the Sky Swallowing Technique could only swallow passively in the past, it had transformed after the Undying Soul Realm and could take the initiative to swallow.

Now, after a few days of research, this fellow had actually undergone another transformation. He could summon three Sky Devouring Mouths at once, just like the Shield of Nothingness that he carried around with him. Not only could it be used as a defensive method, but it could also take the initiative to fight. It could be said to be a combination of offense and defense.

Among them, only Luo Xiaobai didn't seem to change, but she also had more tricks up her sleeve now.

Li Kuang: "Can we leave now? If we don't, Li Keke will come out."

Han Fei immediately said, "Let's go. With our lineup, it won't be a problem to fight dozens of them."

Luo Xiaobai said, "Of course, we'll have to disguise ourselves first."

In the ideal palace, Han Fei's Thousand-faced Technique was not needed at all. He could change his face freely. This might be a protective rule of the ideal palace.

However, when Han Fei and the others arrived outside of the War Soul Domain in batches, they were surprised to find that there were only a few people here.

Therefore, no matter what happened to Han Fei and the others, they would be noticed as long as they came.

In other words, it was fine if Han Fei and the others didn't come. They could either leave the ideal palace or go to the sixth soul realm.

However, the sixth soul realm was known as the Samsara Soul Realm. It was said to be extremely difficult. Even among the current top ten prodigies, many people did not dare to casually step into it.

So, when Han Fei reached the War Soul realm, he knew that there was no need to pretend anymore. Needless to say, the place had been cleared.

Han Fei returned to his original appearance. Looking at Luo Jiutian, Diwu Weiguang, and a sword-bearing young man, he asked in surprise, "Why are you here?"

Diwu Weiguang laughed and said: "The two of us made a bet, betting that you will not return... Tsk, Tian'er, you have lost."

Luo Jiutian smiled. "I had thought that with Xiaobai's personality, she wouldn't come."

At this moment, a blue flower bloomed on the ground, and Luo Xiaobai walked out. "I can try. You?"

Luo Jiutian replied, "If you enter, I will definitely enter."

Han Fei looked at Diwu Weiguang, only to hear the latter say with a smile. "I'm here on the orders of my master. After all, the Thug Academy used to be one of the eighth major sects. It's reasonable for us to support each other."

Han Fei was surprised. "The Thug Academy doesn't know Sea Cloud Tower very well, does it?"

Diwu Guangliang laughed out loud. "No... indeed not. However, the seven great sects and big clans aren't very harmonious either! If Jiang Wanyu hadn't gone to the Monument of Gods, he should be here too right now."

Apart from Diwu Weiguang, there was also a man carrying an ancient sword.

At first, Han Fei thought that he was from a big clan, but this person cupped his hands and said, "Heavenly Sword Sect, Lin Yanyi."

The characters of swordsmen were usually cold.

However, since he was already here, Han Fei owed him a favor. Besides, he knew that everyone would lose their memories here after leaving the Ideal Palace, but he still came.

However, at this moment, other than these three people, the others should all be people from big clans. This was because those people were not close to them and seemed to be prepared to escape at any time.

Zhang Xuanyu and the others came one after another. They were surprised to hear that some people had come to help. The Thug Academy was already in such a state, and these people still came to help?

Le Renkuang said happily, "It's good to have more people on our side. One more person means more combat power."

When Luoluo came, there were actually three people with her.

However, these three people stunned Han Fei and the others.

Han Fei was surprised. "Cao Qiu?"

It was Cao Qiu, Cao Tian, and Cao Jiaren. Han Fei never thought that they would come to help.

Cao Qiu nodded as greeting.

Cao Jiaren took a deep look at Han Fei and said, "Although I still want to kill you, our target this time is the people of the Chu Sect. The enemies of the enemy can be allies for a short period of time, but we will only deal with the people of the Chu Sect and not anyone else."

Han Fei looked at Luo Xiaobai, who looked at Luo Jiutian.

Luo Jiutian transmitted his voice to them, "The Cao Family and the Chu Sect have never gotten along. They have attacked each other more than once! This time, there are many people from the Chu Sect. I wonder how many of them the three of them can deal with?"

Han Fei thought: It should be enough. Which one of them is weak? Especially Cao Qiu. I wonder how strong he is now.

In Han Fei's eyes, Cao Tian could fight against five people alone. Zhang Xuanyu and Le Renkuang had attacked him at the same time, but they couldn't shake him at all.

Zhang Xuanyu and Le Renkuang were enough to be on the Genius List. It was obvious that Cao Tian was very powerful.

There was no need to mention Cao Qiu.

Back then, Cao Qiu almost killed him! Now that he had been adapted to his Blood of War God, his strength must have improved greatly.

Cao Jiaren wasn't weak either. She was a woman who could go head to head with him, and she even had the ability of a soul warrior. Not to mention anything else, these three equaled at least five or six geniuses that had entered the rankings.

Luo Xiaobai said telepathically, "We have to prevent the Cao Family from attacking us. It's better to keep a distance from them."

Han Fei replied, "Don't worry. If it's only Cao Tian and Cao Jiaren here, I would be suspicious, but I won't be worried since Cao Qiu is here too."

Han Fei immediately said, "Okay! In return, I'll tell you a secret of the Undying Soul Realm. As for whether you can bring it out of the ideal palace, I don't care."

Han Fei thought that if these people really wanted to help, he could tell them the information about the Void Line in the memorial tower.. Although he had taken the golden page, he could show them the ancient picture.

Chapter 1090: War Soul Realm

Since they offered to help, Han Fei and the others wouldn't refuse.

However, both Han Fei and Luo Xiaobai were used to their original team, and even Li Luoluo hadn't gained their trust.

Therefore, even with Cao Qiu and the others joining them, Han Fei and the others couldn't leave their backs to them in the Soul Realm.

Diwu Weiguang: "There shouldn't be anyone else coming, right?"

Luo Jiutian nodded slightly. "I think so. If the people who came this time aren't strong enough, the chances of them dying are extremely high. Also, remember this: After entering the War Soul Realm, the first thing you need to do is find your own people."

Han Fei was surprised. "Huh? So we'll appear in random places?"

Diwu Weiguang smiled. "Can't you tell after passing the prehistoric soul realm? In the Ideal Palace, anything is possible. The entire world is created with a strange and terrifying divine consciousness. Therefore, whether it's the timeline or the scene that appears, it's actually designed according to the creator's will. Here, everything that has happened can be replicated, including what timeline you entered, what scene you appeared in, what people you encountered, and what things you encountered. Perhaps there's a deeper meaning to all of this."

Luo Jiutian nodded. "If the first four soul realms are training grounds, then starting from the fifth soul realm, it's no longer a training ground but a real battlefield. There are no soul fruits, no soul crystals, and

no visualization fossils here. After entering, we might be together or split up. We're not only facing the big clans, but also the marine race, prehistoric creatures, and the overlords of the sky. As for what we'll encounter, we can't tell."

Luo Xiaobai and the others looked gloomy. "How do we find our companions quickly?"

Luo Jiutian said with a faint smile, "That's simple. We just need to set a location. Regardless of whether we'll appear together in the beginning or what kind of battle we'll encounter... as long as we find a chance to return to the city and find the Sea God Statue, it'll be fine. In the city, where humans are protected, humans are not allowed to fight privately. Otherwise, those illusory souls in the Soul Realm will attack you."

Han Fei raised his eyebrow. "There is a city in the War Soul Domain?"

Diwu Weiguang grinned. "Not only is there a city, but it's also incomparably vast. However, that city is already surrounded by seawater. Also, it's extremely easy to distinguish outsiders in the War Soul Realm. Those who don't have a death aura are definitely outsiders. Needless to say, you'll know when you get there."

Han Fei said to Luo Xiaobai and the others, "If anything happens, run to the city."

Luo Xiaobai suddenly asked, "Where is the exit of the War Soul Realm?"

Luo Jiutian's face sank slightly and he said, "There is no exit. That city seems to be repeating the same war. We will only come out after the war ends."

Han Fei's heart sank. Did the end of the war mean that the city was destroyed?

Luo Xiaobai said coldly, "Okay! Come in!"

Everyone knew what they needed to know. Han Fei and his teammates were few in number, but the War Soul Realm seemed to have its own unique rules.

In other words, if the big clans wanted to make a move on them, they had to follow certain rules. Otherwise, it would be very difficult for them.

As long as there wouldn't be hundreds of thousands of people attacking them when they appeared, this battle could be fought.

Han Fei grinned. "I wonder how the big clans will react if all of them die?"

At the stele at the entrance, Han Fei saw the names of Li Daxian and Tang Yan again. One was first, and the other was third.

Glancing at the mist-like entrance, Han Fei suddenly asked Luo Xiaobai telepathically, "If there's a chance, I want to know why humans, sea demons, and those messy races are fighting."

Han Fei said this to Luo Xiaobai alone.

The latter glanced at Han Fei and said nothing, indicating that she knew.

Han Fei had a deep doubt. From the beginning, he only knew that humans and sea demons were mortal enemies. When he deduced the Fish Transformation Art, Han Fei felt that it was because humans were divided. Some chose the ocean, and some chose land.

But even so, the enmity between them shouldn't be so deep, right? They didn't leave any room for negotiation. From the annihilation of Desolate Heaven City to the annihilation of the city they were about to go to, and the death of the countless beasts, was it really just because of the human race's split?

Also, Han Fei felt that what he saw and heard in the prehistoric Soul Realm couldn't be meaningless.

The words of the Great Ape were one thing, and he did not know whether the Beast Emperor was a Beast Emperor or not.

However, what did the words that Luo Xiaobai heard, 'all lives are sacrificed', mean?

Although Le Renkuang couldn't remember what happened in his timeline, he had seen the corpse of a king and... There was definitely a deep secret behind it.

"Are the seven souls realms really just training grounds?"

While thinking, Han Fei stepped into the mist.

He felt as if his body had been flying very fast in the void for a very long time.

When a light appeared in front of him, Han Fei opened his eyes and saw a real world.

In front of him, there was a huge crimson setting sun. Below him, there was an endless sea, waves rising and rolling.

Beside Han Fei was a group of a hundred people rushing in the sky as if they were on their way.

Han Fei didn't know why he suddenly appeared, but these people didn't react at all. However, he immediately looked at his team.

Han Fei's heart sank. Luo Xiaobai and the others were not here.

"F*ck! Didn't they say that there was a chance of us appearing together? Am I that unlucky?"

At this time, Han Fei could feel a trace of death from the people above.

Suddenly, Han Fei realized that two people were not dead. When he looked at them, they were also looking at him.

Han Fei narrowed his eyes. The clothes they were wearing were obviously from his era. Also, Han Fei could feel their nervousness when they saw Han Fei.

"Are you from big clans?"

Han Fei looked at his clothes and then at the Phantom Glass Wings. He thought in surprise: Don't these people notice these features? Isn't my Phantom Glass Wings obvious enough?

While Han Fei was lost in his thoughts, he suddenly heard the person flying at the front, holding a white antenna conch in his hand, shouting, "Full speed ahead. The battle ahead is dangerous."

"Roar!"

The hundred-man team increased their speed by another thirty percent, flying away like a flash in the sky.

None of them spoke. All of them looked solemn. Han Fei glanced at them. They looked like they were going to die.

Han Fei was calculating in his heart. A hundred-person team of Hidden Fishers! The one at the front seemed to be a law-enforcer. Such a group of people was an extremely powerful force. He wondered what kind of enemies they were going to face.

Han Fei immediately thought of something and approached a man not far away. "Hey! Do you think we can go back alive this time?"

The man asked by Han Fei was middle-aged.

After hearing Han Fei's words, he looked at him and relaxed a little. "Maybe, maybe not. But what's there to fear about death? We are not the elites. Our death is not a pity. But if we can live, we should try to live."

Han Fei thought to himself, It's true that I'm myself, but these people seem to have regarded me as one of them. Is that also a rule?

Han Fei was about to look at the two people behind him, but he subconsciously used his perception. To his surprise, his perception was effective!

"Huh!"

In all the previous soul realms, perception was useless. However, in this war environment, perception was actually useful.

"Could it be that because they knew that there was going to be a battle, the rules here specially released their perception ability?"

Han Fei felt that the creator of this ideal palace was far more powerful than he imagined. Was it really possible for a king to create so many soul realms and the complicated time and space inside?

In his perception, the two people behind him seemed to be mumbling something. At the end of his perception, Han Fei found a large ship fighting.

The ship wasn't as large as the dragon ship, but it was close to a thousand meters long.

At this moment, some strong masters were fighting on the ship. The sky was colorful, and half-human fish, shrimp soldiers, and crab generals appeared in the ocean. There was also a huge octopus slapping the hull of the ship.

Most of the arrays on the ship had already been destroyed. He could perceive that someone had already self-destructed.

“Son of a b*tch, already in such a state?”

The speed of a Hidden Fisher was still very fast. Was there a fishing boat in this era? In his opinion, there probably wasn't.

Sprinting at a full speed, in less than ten seconds, Han Fei's team got agitated.

The leader shouted, “Prepare for battle!”

The moment this person spoke, everyone had already fused with their spiritual beasts.

In the sky, there were all sorts of strange lights. The armorists had already placed their hands on the armor boxes, and the others also took out their weapons, except for the two people who followed behind.

Judging from their behavior, they seemed to want to escape from the battlefield. Han Fei thought, How can I let you go?

Han Fei shouted, “Kill! Those who retreat will die! The last two, what are you doing?”
