

GOF 1091

Chapter 1091: Sea War

Hearing Han Fei's words, the two people almost hated Han Fei to death. Their purpose was not to fight.

Han Fei said, "You want to leave? You have to ask me if I agree. Since you've come, don't leave."

As expected, the leader turned around and said, "Those who don't fight will die."

The two men had no choice. Fortunately, there were so many people here. Without them, they wouldn't have met Han Fei.

They were not top geniuses. Although they were confident in their strength, it was almost impossible for them to survive against Han Fei.

However, the two of them also said, "Han Fei, I didn't expect you to come here. Do you want to kill us here?"

Han Fei sneered. "There are plenty of opportunities to kill you."

Han Fei simply replied. If they dared to run away, he would kill them first. Now he saw the shrimp soldiers and crab generals on the sea and was ready to experience the strength of such creatures.

Before, when Han Fei turned into an ape, he didn't feel anything. He only felt that there were many shrimp soldiers and crab generals. He could defeat dozens of them with one strike. However, he was too strong at that time, so he thought that the other party was weak. But now, he was not that ape, so the other party didn't seem weak.

At the very least, the battle on the surface of the sea was in full swing. All kinds of phantoms dazzled the eyes, and all kinds of weapons flew everywhere.

Someone shouted, "Kill! You can die, but you can't throw the floating stone away."

Han Fei's heart did a flip: Floating stone? The floating stone that makes boats?

Han Fei couldn't help but fantasize.

At this time, humans had already discovered the use of the floating stone? In his opinion, the appearance of the floating stone should have been discovered by his mother and the other strong masters after they conquered their territory.

Now it seemed that his guess was wrong. Someone had discovered it during the war.

No wonder, no wonder the humans were unafraid of death. With the floating stone and the powerful abilities of strong masters, they might be able to make floating islands now.

Once humans lived in the sky, they didn't have to be afraid of sea demons!

However, when Han Fei guessed the thoughts of the human beings, his heart sank. If the human plan succeeded, the Soul Realm should not have existed. Or rather, this Soul Realm was merely a stronghold of the human beings. Local failure would not affect the overall situation.

Shua!

Han Fei's figure flashed out. His fist was bright and there was an array on it.

The shrimp soldiers and crab generals were far from what Han Fei had imagined.

Han Fei had thought that the shrimp soldier was a humanoid creature holding a harpoon, and the crab general was a muscular man with a crab head and holding a large bronze hammer.

In reality, the shrimp soldiers were indeed in human form. However, they had no legs. The lower half of their bodies were prawns with claws, while the upper half of their bodies was a huge water droplet-shaped prawn head. They also had two shrimp whiskers. In their hands, they held either a harpoon or a spear, and on their backs there were six spears.

This was different from what Han Fei had seen on the ocean platform. Their shell had turned into armor.

And that crab general was not holding the giant bronze hammer. Those chubby pincers were even more terrifying than the giant bronze hammer. His body was like a black iron ore dug out from the sea trench. Almost his entire body was his head.

Furthermore, crab generals were not of the same species. Some were big and some were small. Some had many shrimp soldiers standing on their backs. Some of them were long-legged and had barbs and hooks all over their bodies, and some blades... They were of different species.

At this moment, Han Fei chose a chubby and sturdy crab general with three shrimp soldiers standing on its back. They were going to attack several Hidden Fishers, but when they saw Han Fei, the three shrimp soldiers respectively pulled a spear from their bodies and flung it at Han Fei.

The spears pierced through the void and appeared in front of Han Fei in the blink of an eye. This was the Void-Shattering Strike, one of Han Fei's most powerful techniques. But now everyone knew it, so he couldn't beat others with it anymore.

Now, as long as they didn't attack too fast, Han Fei could deal with it with a flash.

Shua!

Han Fei rushed forward a hundred meters and punched. The crab general swung its claws and punched at Han Fei.

Bang! Bang! Bang!

The void exploded.

This crab general was not so powerful after all. He wanted to tear Han Fei's attack apart with just a shadow? Even the full-strength attack of a junior law-enforcement officer might not be able to do it.

The hammer shadow exploded, and the crab general didn't expect Han Fei to be so strong. He raised his pincers and waved his hammers in front of him.

As for the three shrimp soldiers, they suddenly appeared in the air, passed the fist mark, and turned into three streams in the air with strong murderous intent.

Han Fei smiled. He spread the Void Line and appeared in front of the three of them. When they were unprepared, he threw the Void Line out.

Swish swish swish!

Chi la!

Crack!

The Draw.

In the end, Han Fei found that the defense of these shrimp soldiers seemed to be quite strong. He wanted to kill each with a strike, but failed to kill any of them and just shattered the shells on their heads.

“Gasp! So powerful?”

Boom!

The crab general was hit by Han Fei’s punch, but his claws didn’t shatter. Had his punch been blocked again?

“Devil Change.”

Han Fei’s vibe suddenly increased. If he couldn’t kill the shrimp soldiers and crab generals with his current strength, it meant that their strength equaled that of a law-enforcer. And they were only the most ordinary shrimp soldiers and crab generals!

However, the shrimp soldiers and crab generals seemed to only be peak Hidden Fishers.

“Something’s wrong. If they’re only peak-level Hidden Fishers, how can a small fish have such strong defense?”

Han Fei confirmed one fact: the shrimp soldiers and crab generals also suppressed their realms.

Or rather, they had been molded to be like this. In reality, they could really be law-enforcers, and it was very likely that they were not junior law-enforcers.

However, they were currently limited to peak-level Hidden Fishers, so they didn’t have the ability of law enforcers.

Chi la!

Another slash and three shrimp soldiers were beheaded by Han Fei.

Han Fei punched again. The punch mark was completely different from before. The crab general was smashed into pieces.

Seeing that the two of them had also entered the battle, Han Fei smiled and started killing.

After Han Fei used the secret technique, his strength equaled that of a peak-level intermediate law-enforcer. It would be a shame if he couldn't defeat a group of shrimp soldiers and crab generals.

Bang! Bang! Bang!

Puff, puff, puff!

In a moment, wherever Han Fei went, the shrimp soldiers and crab generals were all shattered.

Many people were shocked at Han Fei's strength. Kill one with one punch?

Someone shouted, "Come and help!"

Han Fei looked around. A thousand meters away, a man was fighting a half-mermaid. The half-mermaid was clearly a law-enforcer and could control ice. At this moment, there were thousands of ice blades in the air.

Han Fei thought, Why do I have to fight law-enforcers as a Hidden Fishers wherever I go?

Not all living beings in this space would have their realms suppressed. Otherwise, the big ape and the other living beings wouldn't have appeared, let alone that huge hand that could slap the big ape half-dead with a single slap. Of course, this half-mermaid couldn't reach that level.

Han Fei's figure flashed in the void. Every time he stopped, one or two creatures would die.

By the time Han Fei reached the other side, the human beings who were fighting were already covered in wounds. They seemed to have been fighting for a long time. Seeing that the man was consuming spiritual fruits, Han Fei immediately sensed that something was wrong.

Why did the other party want to consume a spiritual fruit? Of course to replenish spiritual energy.

However, couldn't spiritual energy be imagined in the Ideal Palace?

Han Fei wanted to check his data, but nothing changed. This meant that only outsiders like him could have unlimited spiritual energy and energy, but not these people and marine creatures.

Thinking of this, Han Fei clenched his fist and attacked.

When the huge scarlet fist mark covered the sky, the half-mermaid immediately bared its teeth. Ice walls appeared, and it even grabbed a lot of seawater from the ocean and attacked Han Fei.

The human was able to catch his breath. Although he was surprised by Han Fei's strength, he soon ignored it. After all, there were many strong masters everywhere. There was no need to be shocked.

This human also slashed his sword through the air toward the half-mermaid.

Splash!

At this moment, a huge tentacle suddenly extended from the bottom of the sea. It seemed slow but was actually fast. The millstone-like suction cup directly sucked the human law-enforcer in.

Han Fei reacted quickly. In a flash, he disappeared from where he was. Not only did he avoid the tentacle, but he also used the Draw to cut the half-mermaid.

Ka ka ka ~

“Pfft!”

Faced with Han Fei’s endless energy, the half-mermaid was chopped into pieces.

However, the human law-enforcer who was sucked by the suction cup curled up into a ball and was sucked to death.

“Shit.”

Han Fei tried hard to suppress his anger. This was not real. History was repeating itself. He couldn’t be impulsive.

Han Fei was about to continue killing shrimp soldiers and crab generals. After all, he would only have a chance to go to the city if he finished the battle here as soon as possible.

However, before he could do anything, he heard an explosion in the sky above the hull. The destructive hurricane was so powerful that Han Fei felt something sweet in his throat. He was injured?

Bang! Bang! Bang!

The array on the hull shattered inch by inch. Under this one strike, at least several hundred soldiers and crab generals were directly shaken to death by this terrifying force.

“Gasp! There’s such a strong master?”

“Explorer?”

Han Fei’s first reaction was that it was an explorer. Otherwise, he wouldn’t have been able to kill so many people in this battle so easily.

“If the human race is not destroyed, we will fight to the death without retreating.”

Han Fei saw a pair of bloody hands grabbing a ball-like creature from the void and tearing it apart.

Rumble!

To Han Fei’s surprise, the creature self-destructed.

“F\*ck!”

In a flash, Han Fei dived into the sea, almost one step too late. He was hit by the tremendous energy and vomited blood.

“Flash, flash...”

In a few flashes, Han Fei hid under the boat with the hull as a barrier.

He could only see whirlpools at the bottom of the ship, caused by the energy shockwaves.

However, Han Fei also fought more fiercely. After all, marine creatures lived in the sea.

Therefore, they were thinking: It would be the same if I just shatter your hull and let your ship disappear.

Blood suffused the sea.

Han Fei looked awful. Blood and broken limbs were everywhere around him.

Han Fei felt irritated. Although he knew that this had happened before, he still couldn't calm down.

"F\*ck, you son of a b\*tch."

### **Chapter 1092: Only One Left**

Han Fei frowned.

The great formation at the bottom of the ship was mostly damaged. Some parts had already been destroyed. Because they were fighting around the hull, humans were in a passive position. Thus, at this point in the battle, there were many casualties.

Han Fei couldn't fight in the sky above the sea. He only saw through his perception that it was a half-mermaid riding on a giant python and holding a harpoon.

However, the humans didn't seem to be weak either. Someone stepped on a lobster with a hundred swords floating around him. Sword shadows cut through the void and sword streams filled the sky.

The two sides were locked in an intense battle, and they soon left the ship's range.

Han Fei's heart sank.

The killing in the water was even more intense than on the boat. Han Fei's eyes turned cold. The endless water turned into thousands of knives and the seawater surged. The blades began to spin like a storm in the water.

"Roar!"

"Kill that man."

A half-mermaid roared, its harpoon breaking through the void.

In Han Fei's perception, dozens of miles away, a real mermaid pointed a long whip at him. Then, Han Fei saw two clam girls jumping toward him.

Han Fei sneered. Two clams? Who are you looking down on?

At the bottom of the ocean, Han Fei began to kill fiercely.

Those shrimps, crabs, and sea creatures who had their realm suppressed were no match for him. Blood sprayed everywhere the Infinity Water passed.

On the human side, many people seemed to be motivated by Han Fei's strength.

Someone shouted, "Good, good. You're the pride of our human race. Kill!"

Someone grinned with a fervent gaze. "Let's go. I want one of the two clam girls."

A manipulator summoned endless seaweed and rolled it towards the clam girl, as if to buy time for Han Fei.

Han Fei's figure flashed rapidly on the seabed. Wherever he went, thousands of knives followed him. His invincible fighting will dye the seabed golden!

The two clam girls let out sharp whistles almost at the same time. The eerie sound reverberated, and many people on the seabed, including the shrimp soldiers, held their heads and resisted with great difficulty.

Han Fei suddenly felt that something was wrong. Little Black and Little White immediately possessed him. Then, he saw thousands of invisible threads trying to control him.

The two people who went to stop the clam girl were now stiff. At the last moment, they shouted almost simultaneously, "Explode!"

Choosing to self-destruct was the only thing they could do.

Sometimes, the strength of a battle technique could not determine victory in a battle. The creatures of the sea were different from humans. They had some unique talents.

Han Fei looked awful. "You're asking for death!"

Han Fei moved like a fish dragon, ignoring the weird noise and rushing out. From afar, the Void Line surrounded him and the Sacrificing Punch attacked.

Smack!

The two clam girls closed their shells at the same time and even spun themselves to hit Han Fei.

Bang!

However, they underestimated Han Fei's strength. Under the rebound of the array, the two clam girls crashed into the seabed like cannonballs, creating two huge pits.

One of them carried the majority of the power of the Sacrificing Punch. The clam girl inside was probably stunned by the impact and opened her shell.

The Void Line took the opportunity to enter. Han Fei cut the shell into two pieces.

Boom! Boom! Boom!

Two large hammers appeared in Han Fei's hands. At this moment, he was hammering the other shell.

"Die!"

In the distance, a mermaid who seemed to be the commander of the army rushed over like a swordfish.

Han Fei suddenly grinned and looked up at her. On his double hammers, an array appeared.

Boom!

Crack!

Han Fei did it on purpose. Do you think you're strong? It's not like I haven't killed your kinsman before. Do you think I'm still a junior Hidden Fisher?

Han Fei threw away the hammer and took out a kitchen knife.

He looked at the mermaid who was a lot lower than Xia Xiaochan and said, "Or should I call you a merman? I want to see how strong the legendary merman race is."

Chi la!

With a slash, the seawater seemed to be cut in half.

"Ignorant humans, you can't escape the fate of being exterminated."

Pop!

A large bubble appeared. He did not know if it was a type of ability or something else. The bubble had already caved in to the point where both sides were stuck together. Unexpectedly, it did not break.

"Ah~"

A strange song sounded from the seabed.

The scene around Han Fei suddenly changed. Even with his Yin-Yang Divine Eyes, the scene had changed.

"No, I was pulled out of the battlefield by a huge bubble?"

Han Fei discovered that the mermaid somehow pulled Han Fei and himself out of the battlefield.

"Hey! Demoneess, what deep hatred do humans have against you merfolk? You actually let us fight to this extent."

Han Fei pretended to be angry, but he was trying to get information out of her

erAs he spoke, the Million Knife Art appeared again and cut through the water ball layer by layer. Han Fei swept his perception and found that he had been brought more than 30 miles away.

The woman on the other side sneered. "In a battle of power, there is only life and death, no reason."

With that, the long whip in the woman's hand broke the seawater like a giant scaled snake and lashed at Han Fei with a cold light.

Han Fei bared his teeth, set up a Coiled Turtle Array by stomping, and grabbed the whip with one hand.

Han Fei frowned. His palm was pierced? But Han Fei did not panic. This small injury was nothing.

As Han Fei pulled with great force, spiritual energy surged towards the mermaid through the whip.

Boom!

Under the spiritual energy explosion, Han Fei's figure flashed and disappeared. The mermaid was wrapped in a bubble and was completely fine.

"The soul attack technique? You're indeed a peerless genius of the human race, but you can't save the human race. The heavenly trend is irreversible."

Water balls the size of fists appeared in the seawater. As soon as they appeared, thousands of them swept at Han Fei like cannon fire.

Han Fei took out the Embroidery Needle and attacked with the Monkey King's Three Thousand Staffs. At this moment, Han Fei was like a villain braving the wind. The shadow of the rod had disappeared, and there were explosions all around him, but none of them could stop Han Fei.

The mermaid abandoned her whip, but a spear appeared in her hand. She struck with her tail and waves surged behind her, as if the sea behind her was supported by her strength.

Han Fei grinned. He sensed that the b\*stards from the two families had already started to run away.

Han Fei said, "Why are you running? Come and help."

As soon as Han Fei's voice came out, someone immediately noticed them. Everyone could see that Han Fei was fighting really hard, while the two descendants of the big families were getting further and further away, which attracted the attention of others.

Someone shouted, "Those who escape will die."

Han Fei sneered. "You want to leave? Do I allow you to leave?"

The two men were furious, but they were also shocked. Han Fei's perception had reached fifty miles?

On Han Fei's side, the merman seemed to have condensed enough power, so Han Fei didn't dare to neglect it. The Monkey King's Three Thousands Staffs were suitable for fighting, but not for a fight to the death.

If he couldn't control his opponent with the Void Line, then he would go all out.

Buzz!

The waves around him washed up in the sky.

"Sacrificing..."

Suddenly, Han Fei's face changed because there was a finger pointing at him.

"Damn."

Han Fei's face changed greatly. He had thought that this woman was only risking her life to fight him, but it turned out that she was plotting something.

"Supreme Yin Yang Wheel."

Suddenly, a diagram appeared. Han Fei disappeared and turned into a diagram, merging with Little Black and Little White. In this realm, if he died, he would really die. Han Fei didn't want to make this bet.

For some unknown reason, the appearance of the Yin-Yang Diagram caused the blue sea to stir, and soul force gathered in all directions.

Chi! Chi!

Whether it was the might of the spear or the Void Finger, they both ignited with resplendent flames at the edges of the array diagram. However, they were unable to advance any further.

Crack!

Crack!

The formation diagram flashed through the air before appearing before the mermaid.

“Pfft!”

So what even if he was a law enforcer? If he wanted to risk his life, he had to do it thoroughly. At that moment, Han Fei was completely locked on. He had only two choices: either use the Demon King’s Contract or attack blindly.

The only way to activate the Life-Risking Fist was to combine the two of them. This was also one of Han Fei’s strongest moves. Previously, Han Fei could shake Cao Qiu, but now he could shake the two of them.

As expected, as soon as the diagram appeared, all eyes were focused on it. The mermaid was directly chopped and fell under the Yin-Yang diagram.

The void finger shattered inch by inch. A strong master was trying to save Han Fei. The fact that the human race had such a genius moved them.

Only, someone shouted loudly, “Do you think our human race’s heavenly talent is someone you guys can touch?”

In the deep sea, a giant octopus aimed at Han Fei.

However, someone directly ignited their bloodline and life, shouting angrily, “Die!”

Han Fei was like a fuse. Perhaps it was because of his identity as a genius that the sea clan and the human race both exploded.

For a time, killing intent filled the sky. They were locked in a fierce battle.

Han Fei, on the other hand, had been killing presumptuously in the seawater for a while. He was trying hard to control his thoughts. The state of the Supreme Yin-Yang Wheel was very strange and difficult to control. It would occupy his consciousness.

Inside his body, a black thread was struggling, as if it wanted to break through the shackles.

Little Black’s violent emotions made him confused.

Finally, the Demon Purification Pot shook and Han Fei was freed from the Yin-Yang Diagram.

However, when Han Fei returned to his original form, he was surprised to find that there was no war here. The sea was full of wood shavings. As far as his eyes could see, broken corpses were floating in the sea, and blood was flowing along the seawater, dyeing the sea red until it reached the sky.

Han Fei didn’t even know what had happened. So the fight is over?

Han Fei flew alone in the sky.

On the horizon, the setting sun was as red as blood. There was no one on the sea surface, not even a living creature nearby.

“No, there must be something wrong.”

Chapter 1093: Ambush Halfway (1)

Han Fei frowned. That’s impossible! The war had just begun. It’s not like I didn’t have the experience of fusing with Little Black and Little White before. Although I used the Grand Yin-Yang Image this time, the battle wouldn’t be over so soon.

To be able to cause such a completely destructive battle, there must be a strong master who took action, right? If there was a strong master, why didn’t he attack him?

Han Fei seemed to be the only one left in the world.

It was empty in Han Fei’s perception range.

“Wait! Where did those two go?”

Han Fei scanned the area with his perception and found no bodies belonging to the two. Had they been killed?

“No, they’re still disciples of big clans. Since they dared to enter the War Soul Realm, how could they be incompetent persons?”

“Those two escaped?”

However, Han Fei didn’t think it was likely. If they ran away, it meant that they had been fighting until the end, so nobody cared about them.

“No, no! Why do I feel like these people have been dead for a long time?”

Han Fei frowned and suddenly felt that something was wrong... It seemed that these people had been dead for a long time and didn’t look like they had just died. Had it been a long time since he changed the map?

“Hiss!”

Han Fei suddenly had a strange idea.

“Does this battle really exist?”

Han Fei swallowed. He didn’t dare to admit his thoughts. If this war didn’t exist, what did he encounter?

He even talked to them and the mermaid. Everything was too real.

“Illusion?”

Han Fei pondered. If it’s an illusion, can people in the illusion have thoughts?

Han Fei remembered what Diwu Weiguang said:

How was one to tell if a person was an outsider? One only needed to see if there was any death aura on their body. Or rather, those people had actually died long ago. And this world was just repeating a never-ending war?

“And the motive?”

Han Fei couldn't figure it out. If he hadn't died, were the two people from big clans still alive?

Han Fei flew in the direction he came from without any expression. What if he hadn't met a group of dead souls when he came in?

After all, the Demon Purification Pot didn't seem to work here. There was no information. However, Han Fei had never seen such undying heroes. He was almost no different from humans.

Or could it be that his previous state had allowed him to escape from that battle in the chaos? So, that battle had nothing to do with him?

So, those two people from the big clans weren't actually running away, but were actually trying to escape the battlefield? Once they stood outside the battlefield, they would break away from the battlefield, and the battle would automatically evolve?

“What terrifying rules.”

Han Fei rushed in the direction he came from.

He wondered if he could catch up with them if they were still alive.

After about four hours.

Han Fei suddenly sensed that something was wrong.

Han Fei had just stopped above the sea.

A flash of silver light flashed in the air. Because he was too fast, Han Fei took out the Blood Drinking Knife and blocked it, taking the opportunity to flash a hundred meters away.

Bang! Bang!

The water surface exploded and five gorgeous red flowers extended. Vines appeared on Han Fei's wrists and neck like slender snakes.

“Hmph!”

Han Fei shook and shattered the small snakes. Looking at the stamens that drilled into his body, he waved his hand and cut the vines with the Million Knife Art.

However, in this short period of time, Han Fei found that a great array had been activated, a Confinement Killing Array.

Han Fei smiled. You want to play arrays with me?

The moment the formation appeared, an identical reverse array was quickly outlined. Han Fei stepped on the Coiled Turtle Array and it only took him two seconds to break the Confinement Killing Array.

However, at this moment, a huge hammer shadow appeared in the sky and smashed at Han Fei like a meteorite.

“Yang Nanxi?”

Han Fei raised his head and an array appeared on his fist. He activated the Devil Change and unleashed the Sacrificing Punch.

“Who told you that I can’t fight when I set up the array?”

Clang!

Golden ripples rippled and the sea caved in. Han Fei stood proudly in the air and controlled the Million Knife Art to attack the manipulator.

The previous hunter appeared under Han Fei and stabbed him from below.

“Roar!”

Han Fei waved his hands left and right. The Nine Palace Dragon Roar and the Gravity Law burst out at the same time, and the Void Line rushed at the man at lightning speed.

However, the hunter’s body flashed and twisted the space, appearing elsewhere.

“Ye family, Star Teleportation Technique.”

Bang!

At this moment, the array exploded. Han Fei dodged seven or eight times, avoiding another array that was about to form, and left the battle group.

Han Fei did not underestimate the number of enemies. At this moment, another hunter appeared assisted by an armorer who launched a sneak attack.

However, to everyone’s surprise, a golden light appeared on Han Fei’s body. He didn’t even dodge and let the hunter slash at his back.

“Pfft!”

When the bone blade entered his body, the hunter’s body suddenly froze, unable to move.

Han Fei stepped out of the Coiled Turtle Array and sneered. “It seems that you came in a hurry. As I expected, those two guys didn’t leave much earlier than me. So, you didn’t have enough time to gather a lot of people to kill me.”

The hunter behind him was naturally controlled by Han Fei.

The moment she attacked, Han Fei knew that this hunter was at least two levels lower than the previous one. That was why Han Fei dared not move at all.

“Yang Qian, what are you doing?”

Yang Nanxi appeared with a trace of anger on her face.

Han Fei grinned. "Do you want to ask her? Tsk, I don't know if I should tell you or not. Few hunters can escape from me in close combat."

"Fuse!"

When the Yin-Yang Divine Eyes appeared, Han Fei immediately found everyone from some concealment arrays.

There were a total of two groups. Other than the one he controlled, there were only nine people left.

Han Fei murmured, "Kill me with ten people? Who gave you the courage?"

Just as Han Fei said so, Yang Nanxi suddenly shouted, "Yang Yuan, retreat!"

However, Yang Nanxi shouted too late. A terrifying electric arc had already landed on the armorist's body. A huge golden-red figure appeared. Who else could it be but Little Gold?

As the ultimate technique of legendary creatures, the Lightning Blade was not easy to deal with. Unless the enemy's body could resist the terrifying electric current, Han Fei would definitely kill him.

Han Fei was very fast. He saw seaweed covering the sky, sword grass attacking him, and green vines preparing to save him...

But no matter how fast they were, how could they be faster than Han Fei, who was at the peak of his speed? Having mastered 64-Dimensional Fish Dragon Dance, Han Fei's speed had reached the peak.

Of course, there was another figure who was faster than Han Fei, the Ye Family member, who had appeared in front of Yang Yuan.

Han Fei shouted, "Seal!"

An array suddenly rose around the two of them. The Ye family hunter twisted space again and disappeared into the array.

It was not that he didn't want to save him, but he couldn't. Han Fei was not slow. If he was trapped for a moment and Han Fei got close to him, he couldn't guarantee his life.

The Void Line hit the armorist, and Han Fei punched him away.

This punch was quite heavy. It had already shattered the armorist's bones.

However, others were surprised. Why didn't Han Fei kill him directly? Had Han Fei underestimated Yang Yuan's physique?

In the blink of an eye, Yang Nanxi had come up and her hammers were dancing like a dragon. Han Fei punched back and exchanged dozens of blows with her in an instant.

Yang Yuan had been saved by the manipulator. Han Fei suddenly grinned. "Explode!"

Yang Nanxi realized something, but before she could say anything, Yang Yuan suddenly self-destructed. Then, before Han Fei could do anything, the hunter who had been controlled appeared beside the manipulator and killed him with a slash of his cold blade.

Yang Nanxi retreated in shock. "Not good. Han Fei can control other people's souls."

Han Fei grinned. "In fact, I'm good at setting up arrays too."

As Han Fei spoke, another trapping array appeared. When the other party's spirit gatherer realized this and wanted to break the array, it was too late.

Taking advantage of Yang Nanxi's retreat, Han Fei also retreated. There were two people and two soul warriors in the array. Because the battle happened too quickly, they hadn't found a suitable opportunity.

As a result, Han Fei set up an array around them. When Han Fei came, the two of them used all their secret arts and fought bloodily.

However, Han Fei smiled. "Gravity law."

The Void Line appeared again.

Han Fei was slightly surprised. One of them blocked the attack. It seemed that he was protected by a spiritual treasure. However, Han Fei didn't mind and slashed at him three times.

Han Fei said unhurriedly, "Five out of ten are gone. I know that the five of you are the strongest. These five are just here to make up the numbers. I'll solve them first."

At this moment, Han Fei pointed his finger and the hunters and soul warriors under his control rushed towards the other party's spirit gatherer. He didn't stop and attacked.

Han Fei said, "Yang Nanxi, they all say that you're very strong, but I don't think you have any special abilities other than your strength..."

Yang Nanxi was furious.

This time, she was indeed reckless. When she received the news, she thought that she might have a chance to kill Han Fei if he was alone.

Also, she had always wanted to fight Han Fei. She was afraid that Han Fei would run away, so she brought her men here in a hurry.

Who would have known that Han Fei had so many tricks up his sleeve! In less than five seconds, three people died and two others became his puppets.

Chapter 1094: Ambush Halfway (2)

Why did Han Fei expose the secret that he could control others' souls so decisively at such a time? It was because he knew a few things.

After leaving the Ideal Palace, the memories of this period would be selectively forgotten. He would not have to worry about his secret being exposed in the outside world.

The other was that the fifth soul realm was the last soul realm that most people could force their way through. Including Yang Nanxi, no one had passed the sixth soul realm until now. It was apparent that the sixth and seventh soul realms were not simple. Not just anyone could step into them.

Since he was not afraid of being chased into the sixth soul realm, he might as well fully display the power of the Void Line. At the very least, he could kill a few more people and intimidate some people so that they would not dare to attack casually.

As long as Han Fei could get out of the ideal palace safely this time, he would definitely gain a lot from this trip. He and the others would definitely be upgraded at a high speed. Reaching the peak of the junior law enforcer realm was the most basic.

At that time, the Thug Academy would enter the era of law enforcers. At least, they would have the ability to protect themselves and be fearless.

Even if Yang Nanxi and the rest went out, could they really crush the Thug Academy? Not necessarily.

Yang Nanxi sent a voice transmission. "Qian Wufa, retreat from this battle and go back to get more people here. The others have the power to protect their souls, right?"

The voice at the bottom of the sea said, "Nanxi, are you sure you still want to fight?"

Yang Nanxi said, "Fight! Of course. The others in the Thug Academy are nothing to worry about except Han Fei. Since he's alone, we can't let him go."

Han Fei saw a male armorist take a deep look at him and fly away.

Han Fei sneered. "Ask an armorist to look for help? I thought you would ask the woman from the Ye family to call for help."

In Han Fei's eyes, the woman from the Ye family was 500 meters to his left.

The remaining spirit gatherer held two curved sabers in his hands. Obviously, he realized that he was not as good as Han Fei in terms of array skills, so he was ready to fight in person.

As for the manipulator, if Han Fei was right, the manipulator should be stronger than the hunter of the Ye family, second only to Yang Nanxi.

Just now, his Million Knife Art seemed to have cut the red flower into pieces, but at this moment, the sea was full of red seeds. Although he didn't know what these seeds were for, Han Fei knew that it was definitely not a good thing. If necessary, he would kill this manipulator first, even before solving Yang Nanxi.

Han Fei grinned. "What? Do you think four people can kill me?"

Clang!

Yang Nanxi's dual hammers clashed. Despite her cute loli face, she said fiercely, "Of course I won't underestimate you. As long as I can stop you for two hours, you will definitely die."

Han Fei narrowed his eyes. "Oh, really? By the way, Yang Nanxi, I understand that Chu Sect wants to kill me. I also understand that the Sun Family wants to kill me. But why did your family waste so much effort to kill me? Does killing me mean anything to your Yang Family?"

Yang Nanxi: "Hmph, cut the crap. Everything will be fine as long as you die."

Han Fei was not in a hurry. He said unhurriedly, "Can't you tell me why? If I die, then you, the big clans, can continue to pressure the Thug Academy and even snatch the Star Beads. But do you think that with the intelligence of the Yang Family, you can be sure that you can get the Star Beads?"

Yang Nanxi's expression changed drastically. "You're saying I'm brainless?"

Han Fei sneered. "At least, I don't think you have any brains. Think about it. Is your Yang Family better than the Chu Sect, the Cao Family, or the Seven Major Sects? Or are you better than the Sun Family, the Zhang Family, or the Mo Family?"

Suddenly, a voice rang. "Nanxi, don't listen to his nonsense. He's just looking for an opportunity."

Han Fei glanced at the sea. "I don't know which family you are from. I'm guessing that you are from the Mo Family. As for your family, what else do you have? You can't fight, but you keep asking others to marry into your family. I'm afraid your family is going to die soon. Who can your family beat? The Yang Family may be stupid, but they can fight. What does your family have?"

Puff, puff, puff!

Red and bewitching flowers bloomed in the air. Five flowers bloomed on a vine, revealing sharp stamens and the huge mouth in the center.

Han Fei waved his hand and the Million Knife Art stirred up a storm. With a step, the Coiled Turtle Array appeared.

Han Fei smiled in disdain. "Why? Are you angry?"

Han Fei said, "I'm not finished yet. And the Ye family is the most useless family. Apart from speed, all they have is speed. Even if I die, the Star Beads of the Thug Academy have been snatched by the big families. Do you think the Ye family can compete with the Chu Sect with speed? Believe it or not, they will easily slap you to death!"

The hunter didn't say anything, but Han Fei noticed that her dagger was slightly tilted, ready to attack at any time.

Han Fei continued. "Let's put it this way! The big clans may seem powerful, but they are just chasing after something that even they are not sure about. Do you know why the Chu Sect doesn't fight for the Sea Quelling Painting? Do you know why the Chu Sect is focused on exploring the Thousand Star Proving Ground? You, including the seven major sects, don't know anything. Is there any difference between you and the Iron-Headed Fish?"

"Ahhh~"

"I'll knock you to death."

Yang Nanxi seemed to be unable to continue listening. With a roar, an incomparably huge old turtle that was like a mountain appeared.

Han Fei shouted, "What? Are you angry now? Did I say anything wrong? Being used as a tool, it's impossible for you to be successful! At least, the Chu Sect knows what they want, and you only know to find that road. You don't even know if that road exists, where it is, what you will encounter when you go there... So why are you fighting here? Hey, you turtle is so big. Are you not fusing with it?"

"Mountain Godforce."

Yang Nanxi roared and angrily smashed down with the large bronze hammer. The hundred-meter hammer shadow produced blazing flames.

Han Fei sneered. It was indeed a silly girl who only knew how to use brute force.

Suddenly, Han Fei felt that something was wrong. Gravity?

Han Fei discovered that the gravity had changed. Within a thousand meters... No, within a further distance, the gravity suddenly increased dozens of times.

"Heh! Domain power? You think you can stop me just like that?"

As Han Fei spoke, dozens of shadows split from the Ye Family's hunters and attacked from the sky.

Other than that, two curved blades flickered in the air like moons.

The spirit gatherer blocked the attacks of the hunters and soul warriors and shouted, "The spiritual energy fluctuation on his body is very fast. He is drawing an array."

Han Fei bared his teeth. For some reason, he hated manipulators and spirit gatherers. In a battle, he could treat anyone as a retard, but not the people of these two professions.

On the surface of the water, the seeds had begun to glow. The seeds covered an area of over 5,000 meters. It looked like some kind of domain power.

Han Fei was indeed drawing an array, but the method of this array was very strange. He drew it in his eyes, and all the spiritual energy he thought of was gathered in his eyes.

He was drawing a rather complicated spell array, a killing array.

The dozens of times gravity couldn't move Han Fei.

With Han Fei's current strength, even if the gravity was a hundred times stronger, it would only reduce his speed by less than twenty percent.

At this moment, where Han Fei was, there were mountains on top and endless seeds below him. There were shadows moving around to assassinate him. As for a spirit gatherer? It was negligible.

"What a bunch of fools."

The Million Knife Art suddenly disappeared and the Infinity Water turned into only one drop. Han Fei's first priority was to stop the domain power of the manipulator at the bottom of the sea.

At this point, using the Void Seal would be useless. Since the other party dared to stay behind, it meant that they had a way to defend against the Void Line.

However, Han Fei did not retract the Void Line. At this moment, his Void Line was already aimed at the huge Mysterious Earth Black Turtle.

The Infinity Water quickly fell into the sea. Although there were red flowers blocking it, it was still water, after all. It could change at will. At that moment, it dissipated into mist, passing through the flowers.

Almost at the same time as the Infinity Water fell into the water, the seeds suddenly spewed out red laser-like beams that shot into the void. This scene was very spectacular.

“Explode!”

Boom!

Ding ding ding!

The Ye Family hunter’s 13 doppelgangers attacked.

However, Han Fei did not move at all. He avoided most of the attacks with his body trembling slightly.

Of course, after being slashed a few times, the Coiled Turtle Array was broken and Han Fei was wounded not because of the hunter’s strength but because of the bone knife in his hand.

The Infinity Water beneath him exploded.

Above him, Han Fei’s Sacrificing Punch had already exploded.

Dong ~

Golden ripples visible to the naked eye began to ripple through the air.

At that moment, Han Fei’s face changed slightly. Such strength!

He had still underestimated Yang Nanxi’s strength. This silly loli’s pure strength was almost on par with his own when combined with the mystic technique.

This meant that Yang Nanxi’s strength at the peak of Hidden Fisher had reached 15 waves.

Also, Han Fei was slightly weaker than the Mysterious Earth Black Turtle.

Not only was Yang Nanxi’s side extremely powerful, but the Void Line had also returned empty-handed once again. When the first Void Line had struck the Mysterious Earth Black Turtle, the giant turtle had directly entered Yang Nanxi’s body. An earthen yellow glow appeared on the latter’s body.

“You want to control my spiritual beast? Dream on. Guys, don’t release your contractual spiritual beast.”

On Yang Nanxi’s side, it did not succeed, but the threat on the surface of the sea was much less. Within a radius of 2,000 meters, all the seeds were crushed by the Infinity Water. The laser-like things could not envelop him.

Looking at the white mark on his neck, Han Fei snorted. The Golden Giant appeared and blocked the Ye Family’s hunter with the War God’s Will.

The reason why he was so passive was that in Han Fei's eyes, a complicated array was quickly being formed.

Chapter 1095: Ambush Halfway (3)

Seeing the laser-like red light beams, Han Fei suddenly felt inspired.

"Damn, why didn't I think of this before?"

In the Ideal Palace, since there was unlimited spiritual energy and energy, why couldn't he create something special?

The Infinity Water returned to protect him again. Han Fei grabbed the air and a strange weapon appeared in his hand.

This was a world made of imagination. If the other party could use laser-like battle techniques, could he not?

What appeared in Han Fei's hand was a hot weapon similar to a Gatling gun.

Han Fei felt that this might be the first and most incredible weapon he had ever created in this world.

"Da da da!"

Han Fei grasped his hands and spiritual energy flooded into his weapon. Endless light spots were shot out in all directions.

Yang Nanxi carried the sledgehammer and had just rushed forward when she was hit by hundreds and thousands of bright spots.

Yang Nanxi was stunned.

Han Fei was also stunned. He looked at the firearm in his hand and was speechless. It didn't seem to be very powerful! For a body refiner, this spiritual energy explosion couldn't hurt her at all.

The weapon in Han Fei's hand turned into a spiritual energy compression cannon. However, before Han Fei could compress much spiritual energy, a large number of seeds covered the sea again.

The laser-like red lines were bending like noodles and reaching towards Han Fei.

In the blink of an eye, all the compressed cannons were useless. He had to use his own fists.

Han Fei and Yang Nanxi were fighting each other. In terms of strength, neither of them could defeat the other. Yang Nanxi had a violent strength and often used her strength as an absolute advantage to defeat her opponents. Therefore, she never practiced any combat skills.

But at this moment, Yang Nanxi was also speechless. Does Han Fei have a special bloodline like me?

1

However, Han Fei's attention was not on Yang Nanxi at all. The Million Knife Art swept towards the red lines.

However, to Han Fei's surprise, the water blades passed through the red lights and couldn't cut them. He heard a voice saying, "It can't be cut off. I told you before, you are preparing. We are preparing too."

Han Fei's heart sank. Should I use the Supreme Yin-Yang Diagram again?

At that moment, with the Embroidery Needle in hand, Han Fei completely gave up on the other party's hunter. He attacked Yang Nanxi with the Monkey King's Three Thousand Sticks with all his strength.

Swish swish swish!

Clang! Clang! Clang!

Han Fei circled around Yang Nanxi and flashed crazily.

The Ye Family hunter flashed crazily around Han Fei.

From the third person's eyes, a strange scene appeared: Yang Nanxi was spinning in circles, and Han Fei was around her, while Han Fei was surrounded with white marks.

"Explode!"

Since the Infinity Water couldn't cut the red threads, Han Fei summoned it back and detonated it right in front of him.

Boom!

The three of them were sent flying.

At this moment, he could clearly see that the Ye Family hunter was spurting blood.

Han Fei flew directly into the red threads.

Blood flowed out of Han Fei's mouth. "What can you do if I blow myself up?"

As soon as he said that, Han Fei found that he was bound by an extremely flexible silk. More importantly, the silk couldn't be cut.

At this moment, Han Fei's array was ready.

The Thousand Flowing Divine Arrows Array was an extremely small-scale array that came from the Ocean Book. Normally, this wasn't an arrow array that could be set up by a single person. This was because it required a vast amount of spiritual energy, and when a single person set up this array, even if the spiritual energy was abundant, it would take more than an hour to set up.

However, this kind of killing array was usually set up on the battlefield at the last minute. How could it give you an hour's time? Therefore, it was usually set up by several hundred people at the same time.

When the array was activated, it was as if thousands of experts were attacking with all their strength. The lethality was extremely great! As long as there was spiritual energy, the arrow array would work.

Under normal circumstances, such an array was used in large-scale wars to help defend one side. After setting up the array, at least a hundred spirit gatherers had to set up a spirit gathering array to complement it.

However, all the difficulties were not difficult in the Ideal Palace. Han Fei only needed time to draw the array.

The difficulty of the array was actually not that high. It was just that it was very difficult for a single person to complete it. Once a single mistake was made, they would have to start all over again.

Han Fei had been putting all his effort into setting up the array. If Old Jiang were here, he would have finished it in a few seconds, but Han Fei couldn't.

Buzz!

At this moment, spiritual light emerged in Han Fei's eyes. An extremely complicated array was hovering in the air.

Swish! Swish! Swish!

Streaks of light shot out from the array, heading straight for the four people on the battlefield.

However, Han Fei was almost wrapped in the red light.

A killing array also appeared under Han Fei's feet. It was the spirit gatherer. The other party was not idle either. Obviously, the hunter and soul warrior controlled were not strong enough to stop him.

The spirit gatherer set up the Tidal Sword Array and sword shadows slashed at Han Fei.

However, the sword array was not made of bone swords. Thousands of swords failed to break Han Fei's body.

"Damn it, forcing me?"

"Remove the fusion. Supreme Yin-Yang Wheel."

Han Fei knew that the Supreme Yin-Yang Wheel was extraordinary. Previously, he chose to fuse with his spiritual beasts because he might have been stabbed to death if he hadn't.

But now, none of these four were law-enforcers. They could not kill him in one strike.

Therefore, Han Fei did not panic. Little Black and Little White could simply perform the Supreme Yin-Yang Wheel.

The Supreme Yin-Yang Diagram appeared and swept around Han Fei, breaking all the red lights.

When the hunter that was charging over saw this scene, he instantly exploded with rage. What sort of force is this?

Han Fei smiled. "B\*stard, you are indeed powerful and have many tricks up your sleeve. However, isn't it my turn now?"

Han Fei stepped on the ground and a great Coiled Turtle Array appeared. With a thought of Han Fei, the arrow light split into three hundred arrows and shot at Yang Nanxi.

"Kill that manipulator."

Han Fei took out the compressed spiritual energy cannon again.

He had thought it through: It was useless to throw these people away by compressing a bit of spiritual energy. Even if the Infinity Water exploded in front of them, it would be useless.

After all, this was the Infinity Water that he had thought of, not the true Infinity Water.

Since he wanted to compress it, he would need a spiritual energy explosion that even he felt was terrifying.

Yang Nanxi saw that something was wrong.

Han Fei was holding a box-like weird thing in his hand, his arm trembling.

Yang Nanxi shouted, "Han Fei, no matter how hard you try in the Ideal Palace, you won't be able to do anything. Die!"

Han Fei flashed away after the giant hammer hit him. All his strength had been used to compress the spiritual energy cannon, so he was not in the mood to fight.

At this moment, taking advantage of the fact that only Yang Nanxi could block the Thousand Flowing Divine Arrows Array, he only needed to avoid her.

The most dangerous person was the manipulator. She had never seen anything like the Supreme Yin-Yang Diagram before. Spirit plants were ineffective against it, poison was ineffective against it, domains were ineffective against it, and light and shadow threads were also ineffective against it.

In any case, any kind of power was ineffective against the Supreme Yin-Yang Wheel. She even felt an indescribable oppression whenever this strange pattern approached her.

Puff, puff, puff!

Thousand Streams exploded. This manipulator was trying to survive using the Death Substitution Technique.

However, just as she appeared from another place, a ball of extremely huge spiritual energy appeared.

Han Fei shouted, "Explode!"

The manipulator reacted quickly. She covered her body with spiritual plants and activated the Death Substitution Technique.

Suddenly, she realized that she could no longer move. The Yin-Yang Diagram was already hovering above her head. At that moment, she was stunned. Dao runes?

The woman was horrified. "Impossible! Nanxi, save me!"

Yang Nanxi was shocked. Mo Yu was actually asking for help? How was that possible?

Mo Yu was a top prodigy ranked fifth among the top ten prodigies. As long as someone fell into her line of light and shadow, very few could escape. But now, she was asking for help?

When Yang Nanxi saw the Supreme Yin-Yang Diagram, she gritted her teeth and immediately gave up on Han Fei to attack with her hammers.

Han Fei sneered. "You're leaving just like that? That will make me embarrassed."

Swish! Swish! Swish!

All the sword streams that surrounded the spirit gatherers and hunters attacked Yang Nanxi. No matter how strong Yang Nanxi was as a peak-level Hidden Fisher, she had to deal with them. That was equivalent to the attack of thousands of Hidden Fishers.

"Pfft!"

Enveloped by the Supreme Yin-Yang Diagram, Mo Yu even found that her Death Substitution Technique had been broken. It was an absolute Dao rune suppression.

At the final moment, Ink shouted, "The charm of the Great Dao!"

"Pfft!"

Mo Yu died. When she shouted out the charm of the Great Dao, all three of them, including Yang Nanxi, were horrified.

Their first thought was, how is that possible? What's Han Fei's strength? He might not have understood his own law yet. How can he have the power of Dao runes?

However, how could they not be shocked when Mo Yu, who was once ranked fifth among the ten great geniuses, died in front of them?

Having escaped the crisis, Han Fei activated the Supreme Yin-Yang Diagram and attacked the spirit gatherer.

"Shit!"

Although the spirit gatherer was a genius, his array and combat power were not as good as Han Fei's. The reason he stayed behind was because he had the Guardian Soul Law and Yang Nanxi and the other two were here too.

However, Han Fei attacked him without hesitation.

The thousand streams sealed the escaping road. This person could not escape in time and was killed immediately. Mo Yu could still resist, but he did not even have the strength to.

The road was blocked, the Supreme Yin-Yang Diagram came, and so did Han Fei. He was a spirit gatherer and soul warrior that was not that professional. He only tried to resist with an array, but he couldn't resist it for a second and was directly killed.

The situation changed in the blink of an eye. Han Fei gave up on the Ye Family person. It wasn't that he didn't want to kill him, but he couldn't. Besides, the hunter had already run away. He twisted his body and appeared a thousand meters away, speeding away.

At this moment, Han Fei chased after Yang Nanxi with the Supreme Yin-Yang Diagram and the arrow streams.

Yang Nanxi could no longer remain calm. The Dao runes are out. Why would I still fight?

Yang Nanxi turned and ran.

Han Fei shouted behind Yang Nanxi, "Hey, silly girl, I won't kill you. We can work together..."

Chapter 1096: You Can Become A King

"I won't listen. I won't listen. You can't kill me."

While running, Yang Nanxi tried to bombard Han Fei with her hammers to block Han Fei's sneak attack.

In fact, Yang Nanxi was really panicking. What did Dao runes mean? In her impression, only explorers and above had the right to pursue Dao.

Why were people below the Explorer level called law enforcers? It was because experts at this level could only grasp a wisp of law at most. It was impossible for them to touch the Great Dao.

However, when Mo Yu died, her terrified expression did not seem fake.

This could only mean that Han Fei had some special opportunity to control a trace of Dao runes in advance. In the face of the law, Yang Nanxi was naturally fearless. After all, no matter how strong the law was, it was only a wisp of power. However, Dao runes were a wisp of the Great Dao. How could they be ranked equal?

Yang Nanxi did not know that the Supreme Yin-Yang Diagram was actually not that strong. Back then, Cao Qiu was able to resist it, and how could he surpass Yang Nanxi's current strength? Therefore, she could also withstand it.

Except, Yang Nanxi did not know the strength of the Supreme Yin-Yang wheel, nor did she know that this kind of power could not last for a long time. At least, when she was alone here, she did not dare to go all out. If she lost, her life would be lost.

At least, the strength that Han Fei had shown so far was abnormally strong. There were ten people who came, but except for one armorer, one hunter, and her, all died.

Although Yang Nanxi had been clamoring to have a fight with Han Fei before, she was actually just unconvinced. She believed that if she hadn't passed the sixth soul realm, she wouldn't have been ranked only fifth on the Genius List.

Yang Nanxi even felt that she could be tied for first place with Jiang Nanyu.

However, she was truly horrified by this battle. She didn't even dare to release her contractual spiritual beast in front of Han Fei, fearing that she would be controlled.

In terms of strength, Han Fei was indeed powerful.

This was the first time in her life that she had encountered someone who could match her strength at the same cultivation realm.

Moreover, there were 10 people coming with her. Although not all of them were elites, Yang Nanxi believed that this force was enough to trap and kill two experts on the Prodigy Roll. In the end, when it came to Han Fei, almost all of them were killed in just five minutes. How could she not panic?

The Phantom Glass Wings were faster than Yang Nanxi. Han Fei soon arrived not far away from Yang Nanxi and dispelled the Supreme Yin-Yang Wheel.

Han Fei said, "Yang Nanxi, I'm serious. No one in your family died in my hands, so why must I kill you? What I said before is true. Even if your family can kill me, your Yang family won't get a share, but I can give you a share."

Yang Nanxi swung his hammer at Han Fei, but it was broken by Han Fei's three punches. They stood a thousand meters apart.

Yang Nanxi said, "Don't think that I'll believe you just because you took away that black and white pattern. Stay 5,000 meters away from me first before you speak."

Han Fei smiled. Not bad. The IQ of the Yang family is indeed not good.

Han Fei shrugged. "As you wish. In fact, I can catch up with you if I really want to kill you. Do you really think you can escape?"

Yang Nanxi snorted arrogantly. "You can't kill me. Do you think I'm that lunatic Chu Kuangren? Although your black and white pattern is very powerful, if I don't care about the consequences and attack with all my might, at least my life won't be a problem."

Han Fei stepped back and spread his hands. "I won't. Let's talk."

Yang Nanxi looked vigilant. On one hand, she wanted to hear what Han Fei had to say. On the other hand, she was waiting for someone.

In fact, Han Fei's purpose was very simple. He wanted to divide the enemy. Once they left the ideal palace, they would still be enemies. However, if he could win over the Yang Family in the ideal palace and even keep them neutral, it would be very helpful.

Han Fei said, "I know you're waiting for reinforcements, but it doesn't matter. I'll only say it once. It's up to you whether you want to listen or not. I've analyzed it for you before. Even if the Thug Academy's Star Beads are all handed over, your Yang family won't be able to get them."

Yang Nanxi raised her hammers. "What makes you so sure?"

Han Fei sneered. "The big clans of the Thousand Star City might all know the purpose of snatching the Star Beads, which is to go to that place. Do you know where it is?"

Yang Nanxi: "I don't know, but I know of a mysterious place outside of Thousand Star City. Once we go there, there will be countless blessings."

Han Fei sneered. "Bullsh\*t. If you really knew what was going on there, would the big clans have fought with me for the Sea Quelling Painting? Look at the Chu Sect. Did any of them ever fight for the Sea Quelling Painting?"

Yang Nanxi: "So much nonsense, what are you trying to say?"

Han Fei sneered. "I want to tell you that in the end, there is only one chance... No, to be precise, only one person can get it. The goal is to become a king."

Yang Nanxi's pupils constricted. "You know the inside story?"

Han Fei said disdainfully, "Do I need to know the inside story? If it's not for the sake of becoming a king, what do you think the big clans are doing? Besides, becoming a king is also a matter for Venerables. Does your Yang family have a Venerable? Let me assume that your Yang family has a hidden Venerable, but is he stronger than Chu Sect? They know that the opportunity is not in the Sea Quelling Painting, so they have been exploring the Thousand Star Proving Ground. They have prepared for this for thousands or even tens of thousands of years. How can you, a group of people who don't know anything, compete with them?"

Yang Nanxi said in disbelief, "Our clan leader can't be a fool. I don't know, but they definitely know."

Han Fei sneered. "I believe in other families, but do you think your Yang family is smart? You're just a bunch of simple-minded people. How can you compete with a family that has stood for thousands of years? However, if you listen to me, your Yang family may not become a king, but at least your Yang family may not be destroyed."

Yang Nanxi tilted her head and looked at Han Fei. "Don't lie to me. I'm very smart."

Han Fei thought to himself, Those who can say this must not be smart. How can you be smart?

Han Fei grinned. "Of course, I admire your intelligence. Otherwise, I would have told others about it long ago. But they are too stupid, even more so than you."

Seeing that Yang Nanxi's face softened a little, Han Fei couldn't help but laugh in his heart. He continued to trick her. "Think about it. What if your elders are also kept in the dark? What if the Chu Sect succeeds? Do you know what will happen to the Yang Family?"

Yang Nanxi's eyes narrowed. "Continue."

Han Fei said, "Let me ask you a question first. Think about it. If someone in your family becomes a King, but all the other families have the chance to become a King, what will you do?"

Yang Nanxi said fiercely, "Beat him up."

Han Fei smiled. "That's right. Look, among the top ten geniuses, I think you can be the first. What do you think?"

Yang Nanxi immediately said arrogantly, "Of course. If it weren't for the sixth soul realm, I'll definitely be first. I possess an ancient bloodline, so of course I won't lose to anyone."

Han Fei sneered in his heart. Is this Yang Family the descendant of the giants? It seems that their brains are not very developed.

Han Fei immediately said, "Think about it. You are so talented that you will definitely be a king. But once the Chu Sect succeeds, will they pick on geniuses like you?"

Yang Nanxi choked. Her brain seemed to be racing for a long time. "Let me tell you, we're still enemies. Don't try to fool me."

Han Fei laughed. "Of course, we are enemies, and I have the potential to become a king too. In the future, there will be a battle between us. However, Yang Nanxi, think carefully. Don't be used by others without knowing it. If there's a chance to become a king, no one will give it to you Yang Family, and neither will I. So, not only am I your enemy, but all the families that came here today are your enemies. You are only working together temporarily to kill me, an enemy who has the potential to become a king. If I die, won't you be the next one to be killed?"

Yang Nanxi shuddered.

Han Fei's eyes lit up. "That's all I have to say. I know someone will come to help you soon. I have to go. Yang Nanxi, it's not without reason that no one in Thousand Star City has been able to become a King for ten thousand years. The big clans will always look at those who have the potential to become a King. I have it, so they all came to kill me. But you have it too. Do you think they will let you go because of your Yang family?"

With that, Han Fei left.

Han Fei couldn't kill Yang Nanxi. Even with the Supreme Yin-Yang Wheel and his powerful array, he could at most heavily injure her. After all, these were all imagined by him. The power displayed was indeed much weaker. Perhaps, her reinforcements would arrive soon.

In that case, he might as well let her go and fool her.

Anyway, the members of the Yang Family were rather silly and easy to fool.

If the other party refused to listen to him, he wouldn't mind having one more opponent.

However, if he succeeded and planted a seed of suspicion in the other party's heart, would the other party still try so hard to kill him?

Han Fei released his spiritual perception and dashed toward the city.

An hour later.

A large group of nearly 50 people were rushing swiftly on the surface of the sea, and they just happened to encounter Yang Nanxi who was heading straight towards them.

Who else could the leader be but Chu Qingyan? The Ye Family hunter who escaped earlier was also among them.

Seeing that Yang Nanxi was alone, Chu Qingyan's face immediately sank. "Nanxi, where's Han Fei?"

Yang Nanxi looked at Chu Qingyan strangely and said, "He ran away."

Chu Qingyan had an ugly expression on her face, "Damn it... where did he go?"

Yang Nanxi: "How would I know? You guys came too slowly. And Ye Kai, you ran away so fast. Why didn't you bring me with you?"

Immediately, five to six people surrounded Yang Nanxi. "Miss, are you alright?"

Yang Nanxi harrumphed and waved her hand. "Something almost happened.. Let's go back to the city."

### **Chapter 1097: City of Justice**

Han Fei could avoid them. With his perception range, it was not difficult for him to discover others in advance.

Along the way, apart from Chu Qingyan and others passing by, Han Fei also found at least three groups of people passing by. However, those people were all rushing to various places and in such a hurry as if they were on a mission.

Han Fei didn't cause any trouble. If they didn't come for him, he wouldn't have to take the initiative to fight them. About half an hour later, Han Fei found that there were more creatures in the ocean.

Just like the periphery of the Scattered Stars Island, human beings and marine creatures began to fight. However, the level of these battles was not very high. Most of the enemies were at the level of Dangling Fishers. Although the battles were very intense, such battles were actually a kind of training.

.

Experts would only watch from the sidelines to prevent any accidents from happening. They would generally not take action.

With a thought, Han Fei turned into another person. However, when Han Fei landed, he sensed that several eyes were on him.

Han Fei sensed that at least a dozen people had disappeared into the crowd.

About fifty kilometers away, Han Fei saw the shadow of a giant city. Han Fei thought, This is much better than when I saw Heavenly Desolate City.

When he was in the Heavenly Desolate City, they were really miserable. In the end, even the Dangling Fishers joined the battle. It was obvious that all the experts had perished in the war.

Because the strength of Han Fei's soul had reached a very high level, it was very easy for him to see everything within a hundred miles. Therefore, Han Fei saw the words "City of Justice" on the city wall from afar.

Han Fei murmured, "The City of Justice? I've never heard of it. It's such a weird name. Even if you are the embodiment of justice, you don't have to give yourself such a name, do you? Besides, can you guarantee that the people in the city are all good people and none of them are evil? That's unrealistic! But that's not the point. Let me go in first."

Han Fei knew that he had the aura of a living person, so he would definitely be discovered as soon as he came. If the big families had already sealed the fifth soul realm, he would naturally be discovered.

Not only would he be discovered, but Luo Xiaobai and the others would also be discovered.

Now, he had only encountered Yang Nanxi and the others. He wondered if Luo Xiaobai and the others had gathered together.

Many people looked at Han Fei.

However, they were all ordinary Hidden Fishers, and only one of them had reached the peak. Because they didn't know Han Fei, they only bowed and didn't talk to him.

...

Below the city.

Han Fei passed through the city gate and was not stopped. In fact, there was no one guarding the gate here. Perhaps, this city was really so safe? However, it was true that in a world of cultivators, it was the same whether there were guards or not. After all, cultivators could sense things with a thought. Why would they need guards?

Also, this place was too close to the coastline, so close that if something big happened, someone would immediately notice it.

This City of Justice was also made up of the inner city and outer city. How was it similar to the Heavenly Desolate City back then? However, the outer city now revealed large expanses of empty land. Many people were cultivating and honing their battle techniques.

Bam! Bam!...Clang, Clang, Clang!

"Beat him to death! You must carve battle into your bones!"

Han Fei saw a group of peak-level Dangling Fisher teenagers fighting not far away. It was a real battle, and they were bleeding.

On another training ground, two perfect combinations were facing each other. Sabers flashed, shields flew out, and they were locked in a fierce battle.

Among them, a hanging fisher with seven or eight scars on his face was watching the battle. From time to time, he would yell at them.

There were spirit gatherers guarding at the edge of the training ground. Obviously, they would heal these teenagers after the battle.

Han Fei couldn't help but feel a little touched. If it were only one or two places, it would be fine, but in his perception range, there were hundreds of such training battlefields.

Because the nearest training ground was too close to Han Fei, the instructor's eyes lit up when he saw Han Fei.

It was because under normal circumstances, not many experts would pass by the outer city. Everyone was very busy. The experts in the city always had a lot of things to do, so they usually flew directly from the sky.

In times of war, efficiency was everything.

So, when the man saw Han Fei, he hurried to him. "Sir, can you come with me?"

Han Fei was surprised. "What's up?"

That person twisted his ugly face and said, "Sir, a few of my children have reached a bottleneck. I wonder if you can exert some pressure to help them? I don't dare to delay you for too long, it will be fine in a while."

Han Fei thought, So that's what he is asking.

He immediately smiled and said, "Of course, these are the pillars of our humanity."

Seeing that Han Fei had come, the instructor immediately said to the spirit gatherer, "Everyone stop fighting and heal quickly."

Not far away, the spirit gatherer was about to move when Han Fei said, "No need, let me do it!"

Han Fei knew that the spiritual energy of a peak-level Dangling Fisher was limited, and his healing speed was much faster.

While the scar-faced instructor was confused, Han Fei waved his hand and cast a series of Divine Healing Spells. Under the shocked gaze of the spirit gatherer, he saw the injured children recovering at a visible speed.

One breath.

Two breaths.

Three breaths.

Because none of them were seriously injured, the group of youths' injuries healed in three breaths' time. This efficiency was simply astonishing.

Scarface was stunned. "Are... are you a law-enforcer?"

Han Fei didn't explain. He just smiled. "Everyone, come to me within a hundred meters."

The group of youths were already stunned. It wasn't that they hadn't seen law-enforcers before. They could often see them. The outer city was only a wall away from the outside world, so they were often taken to watch the battle.

However, they rarely saw someone with such a powerful and fast healing skill. So, the teenagers looked at Han Fei in admiration.

Han Fei sighed in his heart. It wouldn't take much time anyway. It was better to give them some hope.

When the teenagers gathered, Han Fei's face turned cold.

Suddenly, everyone within a hundred meters shuddered. It was an intense killing intent that reeked of blood.

Even the scar-faced instructor next to Han Fei was shivering. How many lives had he killed to produce such a terrifying killing intent?

Even the instructor was shocked, let alone those youths.

Almost half of the teenagers retreated, not daring to look at Han Fei.

Han Fei shouted, "Don't retreat."

The feeling was like a small boat floating on a turbulent sea surface. If they were not careful, they would be knocked over by the waves. Many of these youths were bleeding from the corners of their mouths as they braced themselves to resist the intense killing intent.

Han Fei said solemnly, "You will eventually go to the battlefield and kill the enemies bravely. The battlefield is a giant beast of cannibalism. Your companions are dying and your home is destroyed. You have no choice. The road is right ahead and you have to kill. You have to kill your way out with the knives in your hands. You carry hope..."

At this moment, many people were looking over from all directions. It would be a pity if they did not witness the magnificent sight of a breakthrough.

Many people heard what Han Fei said and clenched their fists. Yes, they carried hope!

Under the pressure and verbal stimulation, a youth's eyes reddened. "Kill!"

Crack!

The barrier was broken, and a new Hanging Fisher was born.

In the short span of 30 breaths, five people had successfully broken through the barrier.

Han Fei sensed the strength of the remaining people and withdrew his killing intent. In an instant, all the teenagers fell to the ground.

Han Fei looked at the scar-faced instructor, who was drenched in sweat, and said, "Most of them have made the breakthroughs. The rest are still lacking some strength."

The scar-faced instructor said with a solemn expression, "Thank you, master law-enforcer. You are right, the road is right in front, we must kill. I hope that you will follow our City Lord Ximen and use the Avenger as your companions to create a bright and clean future by fighting and killing."

"City Lord Ximen? The Avenger?"

Han Fei nodded slightly and suddenly pointed at the high city wall, asking in a low voice, "I want to ask you, why is this city called the City of Justice?"

This question stunned everyone. Was there a need to ask?

However, Scarface reacted quickly. This master law-enforcer must be educating them!

Scarface shouted, "Are you all mute? Master is asking questions."

Many people pricked up their ears to listen. Was there a need to ask? Was there a deeper meaning?

A youth who had just broken through hurriedly stood up and said respectfully, "My lord, the name of the City of Justice is personally written by City Lord Ximen Linghan. The City Lord once suffered injustice

and went out to sea, determined to take revenge, controlling the Avenger and crossing the sea. In the end, she experienced tens of thousands of tribulations and comprehended the Dao. She upheld justice in the world and slaughtered all injustice in the world. She selflessly contributed all kinds of cultivation techniques and battle techniques, allowing tens of thousands of humans to rise up. She once said that, born as a human, everyone should have a heart of justice.”

Han Fei’s eyelids twitched. Wow, a Venerable-level expert? That’s awesome! The name of this city makes sense!

In fact, after hearing what he wanted to hear, Han Fei immediately said unhurriedly, “This is justice that you understand. It’s too narrow. Let me tell you, what is justice? In the outside world, the Sea Race invaded and wanted to kill the human race. However, the Heavenly Dao is heartless and treats everything as ants. Chaos is coming, and the Age of Doom has arrived. If the heavens want the human race to be destroyed, our human race will rise against the heavens, not to mention the Sea Race. As long as human beings live, the continuation of their race will last for tens of thousands of years. This is the justice of this world. We shall never bow our heads to invaders. Nothing in this world can destroy the human race, let alone the Sea Race. Do you understand my justice?”

Hearing Han Fei’s words, the surroundings fell silent.

Someone’s heart trembled: “What a bold statement!”

Someone muttered, “There’s nothing that can destroy us humans, not even the heavens and earth.”

Some people’s minds were ignited with flames. This was what it meant to have an unmatched will, this was what it meant to be the pride of a strong master.

Someone roared, “The human race cannot be destroyed!”

“The human race cannot be destroyed...”

Han Fei turned around and headed toward the inner city amid the roars. He seemed slow but was actually very fast.

Countless youths looked at his back and felt incomparably lonely.

They knew that there were often strong cultivators dying. There must be more on their shoulders.

Some people had tears in their eyes as they roared, “What are you all standing there for? Train, train...”

Chapter 1098: The City Lord

“Huff!”

Han Fei breathed a sigh of relief. It required acting skills indeed to brag seriously.

Of course, he was not bragging. He was telling the truth. Although the City of Justice would definitely perish in the water of the sea, one could not lose hope. Countless people in this world relied on a sliver of hope to survive. Without this hope, living was equivalent to death.

In fact, Han Fei had some expectations. He didn't want this city to be sealed by an unknown force like the Heavenly Desolate City.

Perhaps this city would be destroyed. Perhaps most of these youths would die in battle.. However, perhaps one or two would be able to escape alive?

In any case, the longer he stayed in the illusion, the more Han Fei felt that it was more than an illusion! Every person here seemed to have existed before.

Now, being able to regenerate in an illusion might be the result of a monstrous force. It might not be a coincidence that these people could exist forever in the illusion. At least, someone wanted to remember these heroes who had passed away.

At this moment, Han Fei did not know that in the depths of the City of Justice, someone was standing on the clouds and watching the scene quietly.

That person muttered, "There's nothing to destroy our human race, not even the heavens and earth. Shit, my awareness isn't even as high as a little brat's. Sigh, I feel a bit ashamed."

With a thought, a voice sounded. "This kid is not bad. He has a high level of awareness and has the bearing of a king. Bring him to my Avenger. I will personally nurture him."

Of course, Han Fei didn't know what would happen to him because of his bragging. He just wanted to know why the City of Justice was called the City of Justice. What did it mean? That was all.

Han Fei was strong, so he entered the inner city easily.

Because his perception range was very large, Han Fei swept with his perception and found a statue of the Sea God standing more than 400 kilometers away.

To be precise, Han Fei thought, this statue of the Sea God looks very familiar. Is it my mother's statue? It must be. Otherwise, why would it look familiar? Especially after seeing my mother's shadow... Anyway, I can see her anywhere. This means that my mother is much stronger than Old Han.

"Tsk tsk, Old Han! How did you manage to steal my strong mother's heart? This doesn't make sense!"

Han Fei didn't stop.

There were still many people in this city. Regardless of whether it was the Age of Doom or what era it was, regardless of whether it was experts or ordinary people, they all pursued something called life!

Of course, the strong would pursue their own path. Some simply wanted to become stronger, while others wanted to become a king.

For different people, their goals were in stages. And at different stages, their goals had different meanings.

The city was not bustling. There were many shops selling goods, but the smell of fish filled the air.

All kinds of fish bones, deep-sea iron, shells, spiritual fruits, and so on were sold, but the scene Han Fei saw was slightly different from that in Heavenly Desolate City.

Heavenly Desolate City had been in battle for too long, and people were already used to living in that state. Therefore, there were people everywhere on the road, and it was bustling with noise. There were all kinds of things to sell.

However, in the City of Justice, Han Fei could still sense countless people training at home.

Han Fei looked up at the sky and found spiritual energy surging like a tide, but it was absorbed in all directions at an extremely high altitude.

“There are many, many great Spirit Gathering Arrays in the city. It seems that Ximen Linghan has done quite a bit of work for the sake of the citizens’ cultivation.”

Of course, Han Fei saw people flying in the sky from time to time. They were all Hidden Fishers. Law-enforcers would pass by occasionally, but they didn’t pay much attention to him.

Han Fei did not stop. He sensed that Luo Xiaobai and Zhang Xuanyu were here too, but none of the others were. This meant that they had been teleported to different places.

It was just like how he had appeared in those people’s team and come out alive.

In front of the Sea God Temple, many people were worshipping and praying. The form of their prayers was very simple. They were holding up a hand with their eyes closed. No one knew what they were thinking.

Not far away, there was a large garden where Luo Xiaobai and Zhang Xuanyu were sitting.

...

Zhang Xuanyu asked, “Aren’t they in the city? Why haven’t they shown up yet?”

Luo Xiaobai thought for a moment and said, “It’s a probability problem. It’s possible that they’ve appeared in the outer sea. But we can’t find them, nor can we find them. We can only wait.”

Zhang Xuanyu said, “See? We’ve been targeted by many people. There are dozens of them watching us! I’m afraid that once we go out, a war will break out.”

Luo Xiaobai nodded slightly. “It’s natural to be discovered. It’s very likely that there are not many places that appear at random, so you and I can be together...”

Suddenly, Luo Xiaobai’s eyes lit up. “Han Fei is here.”

Zhang Xuanyu swept his perception and found Han Fei. He immediately asked via voice transmission, “Where did you go?”

Han Fei flew over. Since everyone was flying, nobody in the City of Justice would care.

The distance of a hundred miles was short.

Han Fei soon arrived and asked casually, “Where are the others?”

Luo Xiaobai shook her head. “I don’t know. Zhang Xuanyu and I showed up here directly. We didn’t need to find the Sea God statue at all.”

Han Fei said, "They might have been delayed by some mission."

Luo Xiaobai asked in confusion, "What mission?"

Han Fei immediately told them what he had seen and heard. To prevent others from eavesdropping, Han Fei even set up a soundproof formation.

Zhang Xuanyu was stunned. "What? You said that you've been through two battles?"

Han Fei nodded. "Yes. Xiaobai, what can you analyze?"

Luo Xiaobai thought for a moment and said, "The teleportation points are not fixed, but they are definitely not many. If you appear in a mission as you said, it might mean that we appeared following the history of this city or historical events."

Han Fei thought for a moment and nodded. "But if that's the case, why can many people leave the events? For example, I've sensed the aura of more than 60 living beings."

Zhang Xuanyu sneered. "It's fine. These people can only watch. I thought that a war was going to break out as soon as we came in! Who knew that it would be in the city? But look, in the City of Justice, everyone is united, protecting the people and defending the foundation of human beings. If they dare to attack under such circumstances, I'm afraid that the people of this city will tear them apart without us even needing to do anything."

Han Fei bared his teeth. "Are you that optimistic?"

Luo Xiaobai shook her head. "The big clans are not fools. Many of them have passed the fifth soul realm. If they can't fight here, why would they choose this place? Besides, the fifth soul realm is also known as the War Soul realm. However, we haven't encountered a war except for the encounter Han Fei mentioned just now..."

Luo Xiaobai paused for a moment and continued, "Also, there is another question. As outsiders, or rather, living beings, is it really an accident that we are here? You appeared in the outer sea area and participated in the war directly. Does our appearance here mean that something is going to happen here?"

Han Fei nodded. But then he saw several figures suddenly appear in the sky.

Han Fei's face changed slightly. An explorer?

It was impossible to be wrong about this.

If the man was a law-enforcer, Han Fei could tell from his aura, but now he was sure the one coming to him was definitely an explorer.

It was a middle-aged man with a stern expression and a gray robe.

The man shouted, "All Hidden Fishers in the city, gather under the statue of the Sea God. All of you shall return to your positions within half an hour..."

The middle-aged man repeated it three times, his voice echoing throughout the city.

Han Fei and Zhang Xuanyu couldn't help but look at Luo Xiaobai. You guessed right! But Le Renkuang and the others hadn't even arrived yet... and the event had already begun.

Luo Xiaobai's face darkened. "It happens that if Le Renkuang is in the city, he will definitely come. If he doesn't, it means that he is not in the city. Also, all the big clans will gather. However, since something big has happened, they can't attack us directly in a large-scale war."

Han Fei grinned. "I'm just afraid that Kuangkuang and the others will be attacked in the outer seas."

Han Fei couldn't help but remember that he found Chu Qingyan and the others on the way, but he avoided them. It was obviously unwise to fight so many people alone.

If there were only 50 peak-level Hidden Fishers or even 50 ordinary geniuses, he wouldn't be afraid at all.

However, many law-enforcers had joined this time, and there might be stop geniuses like Mo Yu among them. If two more such geniuses came, Han Fei would be worried. After all, they were quite strong and experienced.

Of course, to be able to enter the top ten prodigy roll, there had to be something extraordinary about them. Just like Mo Yu, he had almost been tied up by her. If he didn't have the Supreme Yin-Yang Wheel, he would probably have been pressed down in the sea and battered hard by Yang Nanxi.

While they were thinking, their eyes suddenly blurred.

The middle-aged man who spoke just now directly appeared in front of the three of them.

Han Fei and the other two felt a chill down their backs. What happened? Why did the explorer come to us?

The middle-aged man looked at Han Fei deeply. Han Fei felt his scalp going numb. Had his identities as outsiders been discovered?

Before Han Fei could think further, the middle-aged man said, "Not bad. The city lord said that you are qualified to board the Avengers. The city lord can train you herself."

"Hiss!"

Han Fei was stunned. What? Ximen Linghan?

Han Fei swallowed. He had never seen Ximen Linghan before. Why was she looking for him?

Han Fei's face stiffened and he pointed at himself. "City Lord, wants to train me personally?"

The middle-aged man reached out and patted Han Fei's shoulder. "You have to believe in the city lord's judgment. You must know that this is a great honor. This means that the city lord has taken a fancy to your potential. Once you get on the Avenger, your future achievements will be limitless."

Han Fei looked at Zhang Xuanyu and Luo Xiaobai and found that they were also looking at him. He thought to himself, Didn't you say that you fought in the outer seas? How can you be related to the city lord of the City of Justice?

Han Fei took a deep breath. "Can I ask why?"

Chapter 1099: Good at Bragging

Han Fei really couldn't figure out why. He had never met the city lord, so why did she think highly of him? And why did she have to train him personally? Was he really the chosen one? He was so lucky that even the Venerable liked to be associated with him?

The middle-aged man said, "What you just said in the outer city was very good. Tsk, nothing can destroy our human race, not even heaven and earth... These words are very imposing. The pride of a heavenly talent is fully displayed."

Han Fei was stunned. What is this City Lord doing? There are so many people in this city. Why are you eavesdropping on me?

Han Fei thought that he was very lucky. So it was just because the city lord overheard his bragging?

Luo Xiaobai and Zhang Xuanyu looked at Han Fei and were lost for words: What did you do in the outer city? Why did the city lord hear your words?

Also, as two people who knew Han Fei very well, Luo Xiaobai and the other two knew that Han Fei was bragging.

Human race? Come on, Han Fei had never spoken for the human race like this..

Now, he suddenly said this. They bet he was just bragging.

But what if Han Fei was taken away?

Han Fei's eyes dimmed and he said solemnly, "Senior, please forgive me. I can't go with you."

"Huh?"

"Why?"

The middle-aged man looked at Han Fei in shock. Is this guy crazy? Does he know what he's doing? This is a benefit that countless people can't get. Is there a pie bigger than being allowed to board the Avenger?

However, Han Fei refused?

Not to mention this middle-aged man, in the sky, the originally smiling Ximen Linghan's expression suddenly stiffened, and she was dumbstruck. 'This brat's head was caught by a lobster?'

Han Fei took a deep breath and said solemnly, "Senior, I admit that I'm tempted, but the rise and fall of a city is every citizen's responsibility. In the Outer Sea, the Sea Race is coming over, trying to destroy our city. Even dangling fishers and great fishing masters are willing to risk their lives to protect the city. How can I, Han Fei, escape and board the Avenger?"

The middle-aged man was flabbergasted. 'That seems to be the case! But why do your words sound so strange? Has it reached the point where the entire city is ready to die?'

The middle-aged man said, "Han Fei, right? You can actually fight on the Avenger."

Han Fei shook his head. "With the City Lord around, who is a Venerable, it's hard for me to die there even if I want to. I, a peak-level fisher, won't have any chance to participate in a battle. I'm glad that the City Leader appreciates me. However, everyone in the City of Justice is my brothers, uncles, aunts, nephews, and nieces. How can I, Han Fei, abandon them? Although the war is dangerous, nothing can stop my feet and my fearless heart. Therefore, I can't board the Avenger. If I do, I'll regret for the rest of my life. I, Han Fei, belong to the City of Justice. I just want to die together with all the other citizens, and I will never regret it."

Luo Xiaobai and Zhang Xuanyu couldn't stand it anymore.

Zhang Xuanyu had always admired Han Fei for always coming up with new words to subvert his understanding.

Luo Xiaobai almost couldn't help but twitch the corner of her mouth. If she didn't know Han Fei, she might have been moved and thought that it was an honor to know such a hero!

But she knew Han Fei too well.

She could guarantee with her honor that although Han Fei's words were impassioned, Han Fei was doing nothing but bragging now.

However, the middle-aged explorer did not know.

He looked solemn and looked at Han Fei differently. He didn't expect that there was such a person in the City of Justice. No wonder the City Lord took a fancy to him. No wonder the City Lord wanted to train him personally.

The middle-aged man sighed. This person was indeed extraordinary. If not for the intense battle, this person would definitely be something in the future if he did not die.

Even Ximen Linghan was moved by Han Fei's words.

"Damn it, I almost fell for him. Why is he only a peak-level Hidden Fisher? If he's a Venerable, he'll be a good choice for me. Maybe..."

Ximen Linghan sighed and transmitted her voice, "Let him be! This is his own choice, I respect his choice."

The middle-aged man sighed and patted Han Fei's shoulder. "Try to survive. The City of Justice needs someone like you to protect it."

Han Fei said solemnly, "I will do my best."

What else could he do?

The middle-aged man could only sigh in his heart: These people are really the future hope of the City of Justice. It's best if they don't die.

He did not notice Luo Xiaobai and Zhang Xuanyu. Instead, he returned to the statue of the Sea God and waited quietly.

“Those below the Hidden Fisher, retreat.”

Around him, in the huge square, countless people were standing in a big circle. All the Hidden Fishers in the city had been gathered here. Something big must have happened.

Since Han Fei and the other two were peak-level Hidden Fishers, they were no exception. They stood in front of the Sea God Statue. Then, from all directions of the City of Justice, figures streaked across the sky and landed one after another.

The outsiders of the big clans naturally didn't dare to run. Running in front of the explorers? That was almost impossible. Because they were all peak Hidden Fishers, they were in the same row as Han Fei.

These people didn't look surprised at all. They didn't seem worried or anxious at all. They were very calm.

Han Fei and the other two looked at each other and frowned. This was not a good sign. The fifth soul realm seemed to be an endless war. If the City of Justice was gone, it might be the beginning of the story.

This was their first time coming to the Ideal Palace. They wondered how the story here would develop.

However, these big clans had occupied Thousand Star City for such a long time, and it was very likely that they knew the history of this city very well. There would always be their clansmen lingering in the ideal palace. Based on this point alone, Han Fei and the others were very passive.

More and more people arrived.

In just half an hour, there were more than a thousand Hidden Fishers. Among them, the number of alive people reached 120.

Han Fei's face darkened. It seemed that the big clans were going all out this time. These people were not small potatoes. Not many people dared to enter the fifth soul realm. There were more than a hundred of them. This meant that they were all elites among elites. In the eyes of outsiders, they were definitely heavenly talents.

Zhang Xuanyu swallowed and said, “Kuangkuang and Li Kuang aren't here.”

Luo Xiaobai's face was gloomy. “They must be in trouble. Don't panic. Act according to the situation.”

Roughly half an hour later, Diwu Weiguang arrived and Cao Qiu arrived. However, Luo Jiutian, Cao Jiaren, and Cao Tian did not appear. Half an hour was almost up.

Han Fei was secretly relieved. He looked at Diwu Weiguang and thought, it was great that Chu Qingyan and Yang Nanxi didn't come.

But at the last moment, Han Fei's face suddenly changed. He sensed that Chu Qingyan and the others had returned.

“Damn, they came so soon?”

The middle-aged explorer was about to speak, but he seemed to have noticed that some people were returning. He shouted towards the void, “Hurry up.”

Zhang Xuanyu said unhurriedly, "Almost 200 people."

Han Fei rolled his eyes and thought, Do I need you to tell me? Can't I see?

On his side, there were only five people including Diwu Weiguang and Cao Qiu. And they were unaware of the war soul realm at all including Cao Qiu.

Diwu Weiguang said, "Don't panic."

Han Fei replied, "We don't."

Soon, Chu Qingyan and the others arrived. They were all peak-level Hidden Fishers, which made the middle-aged explorer look much better.

After Chu Qingyan and the others returned to their positions, the middle-aged man said indifferently, "Speed is the most important factor in war. Long story short. Not long ago, the City Lord discovered a mysterious stone mountain in the outer sea. It might be able to resolve the danger that our human race is in and save our people from fire and water. We've gathered all of you here for this. At this moment, there are as many as 32 battlefields in the outer sea, involving many sea race creatures. This is our chance. The Avenger will personally lead us to attack. At that time, it will be time for all of you to contribute..."

The middle-aged man spoke for a long while before his tone turned cold. "This battle is the key to our race's eternal foundation. We must risk our lives this time. Are you confident?"

As he spoke, the middle-aged man's fighting aura soared into the skies. His infernal energy roiled forth, causing everyone's blood to boil.

Some people shouted, their veins bulging. "Fight ~"

Someone roared, "We will definitely win this battle. If the human race doesn't die..."

However, when Han Fei and the others heard this, their meaning changed. The Venerable had personally led everyone to fight for a mountain. It must be a floating stone.

However, the City of Justice had already been destroyed.

Thus, this battle was extremely dangerous. It could even be said that the City of Justice was most likely destroyed because of this battle.

Therefore, the crucial moment for the big clans to take action was in this battle.

Luo Xiaobai took a deep breath and said, "It doesn't matter whether the others are here or not. This time, you have to ensure your safety no matter what."

Han Fei nodded solemnly. Indeed, as long as he died, the purpose of the big clans would almost be achieved.

Han Fei glanced at Yang Nanxi, who stole a glance at Han Fei. Besides that, they had no interaction.

Chapter 1100: The Great City Lord

Nearly 3,000 people went to battle.

Among them, there were as many as 800 peak-level Hidden Fishers, which was quite powerful.

Not to mention that there were 32 battlefields in the outer sea. How many Hidden Fishers and law-enforcers were there?

In terms of strength and foundation, the City of Justice seemed to be much stronger than the Heavenly Desolate City he had been to. Of course, this was also related to the time when Han Fei went to the Heavenly Desolate City. After all, in the space-time that Han Fei went to, the Heavenly Desolate City had been fighting for hundreds of years and its foundation had been hollowed out. Therefore, the battle the Heavenly Desolate City was fighting was the real battle to destroy the city.

This time, it might be a city destroyer battle too, but there was still a huge difference between the two.

In Han Fei's opinion, the overall strength of this place was even stronger than the current Scattered Stars Island. It was a force that could not be ignored by any force..

Under the thousands of eyes of wishes and prayers, Han Fei and the others soared into the sky.

They didn't sense Le Renkuang, Li Luoluo, and the others even when they reached the south coast. As they expected, they should be on one of the 32 battlefields in the outer sea...

For example, Sun Wu, who was ranked fourth on the Prodigy Roll, Li Xuan, Zhang Mingkun, and the rest weren't seen either.

Han Fei was not so worried. Le Renkuang was not weak at all. Besides, he had attracted most of the firepower, so there was nothing to worry about.

Only, since Cao Jiaren and the others who said they were going to deal with the Chu Sect weren't here, they were definitely held back by something. Otherwise, they wouldn't have let Cao Qiu participate in this extremely dangerous battle alone.

If there were no accidents, this battle would destroy the City of Justice. History could not be changed, and the people of the City of Justice could not come back alive.

In this situation, they had no idea that they didn't exist at all. Instead, they lived in a special way. They had to face endless war every day.

City of Justice, south coast.

Han Fei saw large ships lying on the sea surface. They were simple, wooden, and covered with dense arrays. There were some special fish-bone devices on them. Han Fei had seen them on dragon boats and ghost boats before. They were spiritual energy cannons that worked with arrays.

At this moment, Han Fei immediately understood where the dragon ships came from.

That thing was created based on the ships from the City of Justice, but it was much larger. The size of the ship did not matter. With a ready-made model, it was easy to build.

There were more than twenty such ships, each of which was not very large and almost less than a thousand meters long. However, Han Fei would never underestimate the combat power of these ships.

There were not only Spirit Gathering Arrays but also extremely complicated killing arrays carved on them. There were more than twenty such arrays at a glance.

Of course, this wasn't the key. At the front of all the ships, a large black ship about three times the size of an ordinary large ship floated on the surface of the sea.

There were many holes on the black sail inlaid with gold, but they were not big.

The stern of the black ship was in the shape of an octopus. Its octopus claws were on the hull.

At the very front of the ship was not a dragon's head. Instead, it was abnormally sharp, like a steel blade standing upright. It could easily cut through the wind and waves.

One with the steel blade, the lower half of the blade was a shark with its mouth wide open, domineering and ostentatious. On that large black ship, the wood was so black that it shone, and an array that looked like silver patterns was imprinted on it.

Han Fei was stunned when he saw the array. What a complicated array.

Han Fei didn't understand it at all, or maybe he only understood a little. It seemed to be a terrifying array created by an extremely powerful array master.

Even someone of Old Jiang's level couldn't compare to the array master who carved this array.

"No wonder the Avenger is so famous. Just this array formation alone is not something ordinary people can create. It would be strange if it's not strong."

While Han Fei was in a daze, a voice appeared in his mind. "Are you really not coming to the Avenger?"

Han Fei looked around and suddenly saw a woman in black and red standing at the top of the Avenger's sail. Her robe was fluttering in the wind.

Her long hair was fluttering in the wind too. The voice transmission seemed to have come from that person.

Han Fei was surprised. The legendary Ximen Linghan was actually a woman?

Han Fei was lost for words. The name was so domineering that he never expected it to be a woman. Also, this woman was slender, her face exquisite and cold, and her red lips were especially charming.

Han Fei took a deep breath and replied, "I live and die with my compatriots."

The moment Ximen Linghan appeared, Han Fei immediately discovered that there were countless people looking at her with scorching eyes and unparalleled admiration.

Han Fei felt that if Ximen Linghan said, "Die." Many people here might not even bat an eye and immediately cut their own throats.

Han Fei swallowed. A prestigious woman, the strongest in the City of Justice, and the legendary captain of the Avenger must have an extraordinary life.

Zhang Xuanyu was mesmerized by this woman. He murmured, "I love you. I love you."

Pa!

Han Fei slapped him on the head. "Shut up."

When he saw Ximen Linghan's gaze sweep over, Zhang Xuanyu instantly froze, and thought, "It's over. I can see that she's not an ordinary person! Will she beat me to death?"

However, the corners of Ximen Linghan's lips curled up slightly, and she casually shifted her gaze away.

Luo Xiaobai said, "Idiot."

Han Fei also noticed that many people had the same expression as Zhang Xuanyu, including Diwu Weiguang. This guy was not any better than Zhang Xuanyu. He almost drooled.

As for Cao Qiu, he seemed to become an aloof prince charming through and through since he awakened his War God bloodline. He was completely unfazed by women, as if he didn't even see them.

Han Fei sighed. It seemed that every fatty had the potential to become a Prince Charming. Once they lost weight, they would become lady killers. He wondered what Le Renkuang would look like when he lost weight.

While Han Fei was lost in his thoughts, a cold voice echoed in the void.

Ximen Linghan said coldly, "In this critical time, we're all in danger. In this boundless sea, the Sea Race rose up and slaughtered our human race. When I was young, I had never thought that one day, my ambition would be to fight for the human race and seek a place for the human race to live. However, since I have taken the position of the City Lord of Justice, I have to achieve something."

As he spoke, Ximen Linghan turned to the side, pointed at the vast sea, and said indifferently, "This trip will be extremely dangerous. However, with me, Ximen Linghan, here, you don't have to worry. Everyone, once this battle is accomplished, our human race will not be destroyed. If we lose this battle, I will die first..."

"Roar!!!"

"Roar!!!"

"We'll follow City Lord Ximen and have no regrets even if we die."

"We'll follow City Lord Ximen and have no regrets even if we die."

The surrounding 3,000 people were all excited.

Even Han Fei was excited. The woman had only said a few words, but everyone was willing to die.

Luo Xiaobai murmured, "Such a strong aura and charisma."

In Han Fei's eyes, the woman's figure was tall and straight. For some reason, however, Han Fei's heart skipped a beat. Why did she look so lonely?

"Definitely a woman with a story."

Han Fei could only guess. This was the first time he had seen a female Venerable. Of course, compared with his mother, Ximen Linghan would be nothing.

...

On the ship.

He didn't know whether it was heaven's will or they did it on purpose. In any case, Han Fei's ship had more than a hundred members of the big clans. The other seventy or eighty were on another ship next door.

Due to the fact that it was going to be a battle of life and death, many people were chatting with each other.

Zhang Xuanyu and Diwu Weiguang were sitting on the edge of the boat, staring at the Black Avenger in front of them.

Luo Xiaobai observed her surroundings warily and was not in the mood to talk.

Han Fei was sitting on the edge of the deck with a young man.

That person smiled and said, "Bro, I've never seen it before!"

Han Fei grinned. "You want to talk about this at the moment of life and death?"

That person laughed. "Isn't this just a conversation? Moreover, with the City Lord here, we'll definitely win this battle."

Han Fei smiled. "Are you that confident?"

The man immediately turned serious and looked at Han Fei. "Of course. The City Lord is a legend. Nothing in this world can stop her."

Han Fei thought, Is Ximen Linghan so great in the eyes of ordinary people?

Although Han Fei also wanted to ask how great Ximen Linghan was, and what had she gone through?

However, this question was obviously inappropriate. In the City of Justice, there seemed to be no one who didn't know about Ximen Linghan. If he asked, it would probably arouse suspicion.

Han Fei immediately changed the topic. "Yes! Of course, I believe that City Lord Ximen can win, but we may not survive. Well, is there anything you want to do?"

Generally speaking, people would remember a lot before they died. Han Fei knew that these people probably wouldn't live long. So he wanted to let them talk more about their lives.

The person laughed. "That's a lot. My wish is to become a law-enforcer."

Han Fei despised him. "Is that what you want to do? What else do you know besides cultivation?"

The man laughed so hard that his body trembled. "What do you know? I told her that when I become a law enforcer, I'll ask the City Lord to host our wedding. She said that she also wants to become a law-enforcer before our wedding! Look, she only has a level-three spiritual heritage and hasn't become a

Hidden Fisher yet... How can I afford to wait? I won't listen to her. When I was eight years old, I showed my talent. She was just a follower of mine..."

Han Fei stiffened and looked at the man who was smiling and bragging about his life.
