

GOF 1101

### **Chapter 1101: Battle for the Mountain (1)**

The Avenger moved very quickly, like a sharp knife piercing through the sea. Behind them, more than 20 large ships followed, looking majestic.

During this period of time, there were several sea demons that tried to stop them, but they were directly obliterated by Ximen Linghan with a tap of a finger in the air. Even the large fish tide was completely crushed in an instant.

During the battle, Han Fei, like many others, leaned on the bow of the ship and watched. He saw Ximen Linghan stirring the sea with one hand, and the whirlpool in the sea suddenly rose. In an instant, tens of thousands of living beings turned into blood mist.

This was the first time Han Fei saw a Venerable attack. So powerful!

He could only see a strange power erupting from the sea. It seemed to have an indescribable charm. The whirlpool spun and everything collapsed.

Zhang Xuanyu took a breath. "Is this the strength of a Venerable? Isn't it too powerful?"

Luo Xiaobai narrowed her eyes. "Dao runes. Venerables have already comprehended Dao runes! We can't catch any trace of the Great Dao, let alone understand it."

Han Fei said, "I didn't see any Dao runes when my father beat people!"

Luo Xiaobai tilted her head and looked at Han Fei. "Maybe Uncle is acting cool."

Han Fei was speechless.

Diwu Weiguang said leisurely, "You guys are so leisurely! You must know that once the war starts, our war will start at any time."

Han Fei was puzzled. "What time do you think it will be? They have to find an opportunity, right? Otherwise, they might be killed easily."

Diwu Weiguang: "Heh, how would I know? I am not on their side. However, with my own experience, I will only have a chance to fight in the middle and late stages of this battle."

At this moment, Han Fei suddenly turned around and saw Chu Qingyan walking over.

Luo Xiaobai asked, "What are you doing here?"

Chu Qingyan sneered and looked at Han Fei. "It seems that your people are not all here!"

Han Fei sneered. "You're talking as if all of your people are here? Are you sure you can eat us?"

Chu Qingyan said casually, "Can't we eat you?"

Before Han Fei said anything, Zhang Xuanyu suddenly stretched out his head. "Come, do you want to eat? I'm so handsome. Here, have a bite of my face."

Chu Qingyan's face immediately darkened. "Zhang Xuanyu, you don't seem to be very powerful."

Zhang Xuanyu shook his head and pretended to be surprised. "Am I not good enough? We're going to war anyway. Why don't we find a place where no one is around and show you how good I am?"

"You're looking for—"

Chu Qingyan was horrified. She discovered that there was a gaze on her.

She was instantly astonished. As an outsider, she shouldn't have been noticed. Why would Ximen Linghan turn her gaze here?

Zhang Xuanyu said cheekily, "What am I looking for? You?"

Diwu Weiguang patted Zhang Xuanyu's shoulder and said, "You are too dirty with your words. Let me show you how we should talk to her. Long-legged, let's date him for half an hour while we still have enough time. What do you think?"

"Hmph! Shameless!"

"Hey! Don't go, I'm serious..."

Han Fei was lost for words. He wondered how many girls would be in trouble because of these two men.

Luo Xiaobai had already developed the habit of automatically ignoring them.

She usually ignored Zhang Xuanyu when he was bragging or flirting with girls. Now there was one more annoying man around, and she started to ignore Diwu Weiguang too.

Chu Qingyan had come to provoke.

If Han Fei and the others could panic, they would not be able to resist their attacks in the upcoming battle. That would be what she wanted to see.

However, her provocation was easily resolved by the two a\*sholes.

Han Fei looked up and saw Ximen Linghan looking at him.

Han Fei was scared. No, why are you always looking at me?

A voice suddenly sounded in his mind. If it wasn't Ximen Linghan, who was it?

Ximen Linghan said, "You look very much like someone I know. The more I look at you, the more similar you look."

Han Fei didn't know what to say. Was the Venerable flirting with him? Come on, I'm just an innocent little boy!

Most importantly, is this Venerable in front of me a human or a soul? I don't want to fall in love with a ghost!

Han Fei swallowed. "City Lord, I'm quite ordinary-looking. Maybe I have a common face!"

Ximen Linghan looked at Han Fei again. "I'm not talking about your face, but the feeling you give me. You look like an old friend of mine."

Han Fei wanted to smile, but he didn't dare to. It was obvious that she was trying to trick him... She felt him familiar? That was impossible!

Seeing Han Fei lower his head and his body stiffen, Luo Xiaobai asked, "What are you thinking?"

Han Fei quickly replied, "Oh! Nothing."

When Han Fei looked up again, he found that Ximen Linghan had turned her head away.

Many people around him said, "The City Lord was looking at me just now."

Someone sneered. "Nonsense! The City Lord was clearly looking at me just now."

Someone said disdainfully, "Why don't you take a look at yourselves? The City Lord is obviously looking at me."

For a moment, many people were arguing fiercely.

Han Fei thought, I don't care who she looks at. Just don't look at me anymore.

About two hours later, Han Fei suddenly thought of something. He pinched his fingers subconsciously and found that danger was coming.

Buzz!

Suddenly, Ximen Linghan's voice rang out, "Those who stand in my way shall die."

Han Fei and the others only saw the void tremble. Darkness suddenly covered the whole sky, and a huge hole was torn open in the void. What happened next made Han Fei's scalp tingle.

Dozens of octopus tentacles that were almost a hundred meters long pried open the crack, and a pair of red eyes lit up from the depths of the crack. Then, a pair of large hands tore the crack even wider.

Through the crack, Han Fei saw a human head-shaped head with tentacles below the eyes. The head was sticking out of the crack like a mountain.

Ximen Linghan directly appeared in front of the spatial rift. Although she was small, she was not afraid at all. She held two curved sabers in her hands, and the space in front of her rumbled. Two scorching saber flashes cut through the darkness, revealing an X-shaped red mist saber flash. The creature that had yet to crawl out of the spatial rift let out a low roar, and its mouth spewed out cold air, intending to block it.

Only, that blade radiance was like a blazing sun, hacking through the darkness. With a deafening sound, it landed on that pair of large hands, directly hacking them back.

Boom!

With a flick of Ximen Linghan's hand, the void quickly closed.

Ximen Linghan said coldly, "Scram!"

After saying this, Ximen Linghan didn't even turn her head, and directly shouted in a low voice, "You guys continue forward."

In front of everyone's eyes, Ximen Linghan's dual sabers were reversed, and she slashed out a spatial rift. She stepped into it and disappeared.

Seeing this scene, six people flew into the sky from the Avenger. They were all explorers.

One of them shouted, "Forward!"

In less than an hour, the surface of the sea began to boil. On the surface of the sea in the distance, a huge crab emerged from the bottom of the sea. Its claws were like heavenly scissors, striking the surface of the sea and causing a tsunami.

A giant octopus reached out with its claws, trying to block the Avenger.

A flying python soared into the sky. It could also be called a wind snake. It opened its mouth and a foul wind blew over.

Buzz buzz buzz!

The three explorers attacked and shouted, "Continue forward."

When the five giant beasts appeared, only one explorer was left. That person looked back and shouted, "All big ships, activate all the arrays."

Buzz buzz buzz!

For a moment, more than twenty colorful ships were sailing on the sea. Han Fei had sensed that a dark mountain had appeared 500 kilometers away. This dark mountain towered alone.

Near that great mountain, the gravity was abnormal, creatures floating in the air.

Similarly, when he found the mountain, Han Fei saw a big turtle covered in thick armor.

Apart from the big turtle, there were also giant creatures, over a hundred of them.

The explorer at the front shouted, "Attention everyone, empty that mountain. We will move it even if we die. Law-enforcers control the ships, and Hidden Fishers move the mountain."

With that said, the explorer also flew away.

At this moment, the surface of the sea was filled with raging waves and tsunamis. There were Venerables and explorers fighting, who were holding back the strongest sea demons.

Swish swish swish!

A law-enforcer landed on Han Fei's ship. Or rather, on every ship, law-enforcers descended.

These people shouted in a low voice, "Everyone, get ready. In a hundred breaths' time, the revenge array will be activated. All of you move the mountain."

As these law-enforcers spoke, with the Avenger as the center, a circular ship formation was set up. There were large ships that were horizontally, and large ships that were connected at the head and tail.

A hundred seconds passed in a flash. Han Fei said to Luo Xiaobai and the others, "I've perceived it. Fifty miles ahead. Be careful of the attacks of the big clans."

However, Diwu Weiguang said, "Don't panic. It's not the time yet. If this mountain is so easy to move, why would the City of Justice be destroyed? What's next is a thousand-man battle. Don't worry about them attacking us."

"Roar!"

Before Han Fei asked more questions, a peak-level law-enforcer flew out of the Avenger. "All Hidden Fishers, charge with me."

Swish swish swish!

Countless people flew out of more than 20 ships and followed the law enforcer.

Diwu Weiguang said, "Let's go! Catch up with them."

Chapter 1102: Battle for the Mountain (2)

Han Fei and the others didn't know anything about the Age of Doom. They had never been to the War Soul Realm before, so they could only take things one step at a time.

The law-enforcer at the front pulled out a fish skin map with a swish.

All of a sudden, a ray of scarlet light that was like a blazing sun shone on everyone.

When the light shone on him, Han Fei felt his blood swelling and his body heating up, as if he were full of energy.

The law-enforcer roared, "Charge!"

More than 3,000 people flew across the sky like a huge sharp knife. A strange scarlet flame soared into the sky.

"Eh! This is..."

Han Fei remembered the charge of the sea demons..

When hundreds of merfolks used secret techniques to charge forward, they would condense an incomparably powerful force, like a manifestation of their will.

At this moment, the humans were the same.

Han Fei could clearly feel that his strength had increased by about ten percent.

Although it was only a 10% increase in strength, the increase in battle prowess of over 3,000 people was accompanied by a certain will. This overall strength was terrifying.

Bang! Bang! Bang!

When all the Hidden Fishers flew through the sky, the colorful lights of the array formed an enormous array that covered more than 50 miles.

This was the first time that Han Fei had seen such a huge array. Although it seemed to be made of countless small arrays, it was obvious that the Avenger was the eye of the array, which was reforged by small arrays. More than 20 law-enforcers controlled the array. It was terrifying.

In Han Fei's perception, wherever the array passed, half of the merpeople were directly minced by the invisible sword shadow and some Ice Crystal Balls were minced by the sword shadow.

Almost instantly, more than half of the creatures in the array died.

Luo Xiaobai looked at Han Fei in shock. "Is this a formation that can trap and kill explorers?"

Although Han Fei found it hard to believe, he still nodded. He had thought of using arrays to trap explorers.

However, Han Fei knew that it was almost impossible for an expert of that level to be trapped for a moment. However, this ship formation did it. Not only did it do it, but it was also extremely powerful. Could it trap and kill explorers? He didn't know, but law-enforcers would definitely die if they entered.

"Into the sea!"

The law-enforcers at the front shouted again and charged into the sea first.

Thump... thump...

Like dumplings being dropped into a pot, like a sharp knife stabbing into the sea, everyone entered the sea extremely quickly, heading straight for that dark mountain.

Han Fei was moved.

In his opinion, Ximen Linghan's attack this time was already extremely well-prepared.

The Venerable personally took action. Six explorers attacked the sea demons and controlled the ship to kill them. Besides the law-enforcers who controlled the ships, there were nearly 50 law-enforcers overseeing the Avenger.

Such a battle was even more majestic than the one on the ancient battlefield on the Scattered Stars Island.

Diwu Weiguang turned serious as he sent a voice transmission. "We can't count on Brother Luo and Cao Tian to arrive. They must be trapped on another battlefield and can't escape. Remember, I can only guarantee that the big clans won't make a move before the array is broken. Once the array is broken, don't hesitate and escape immediately."

Han Fei looked at Cao Qiu.

Cao Qiu said indifferently, "I know what to do."

Zhang Xuanyu said, "I just want to ask, how do we move mountains?"

Diwu Weiguang grinned. "We're moving the mountain now."

As they spoke, the 3,000 people directly hit against the black mountain with the law-enforcer as a sharp knife.

Ka ka ka!

They were like a sword, cutting through the mountain. Han Fei and the others rushed into the mountain one after another.

Back then, Chun Huangdian moved the 800-mile mountain range by himself. Now, 3,000 Hidden Fishers had to move the floating stone mountain ranging a hundred miles. The difference was obvious.

More than three thousand people moved through the mountain like one, just to cut the mountain. In the end, they moved it together.

It was easy for others to move mountains, but in reality, how heavy was a real mountain?

Han Fei once boasted about the origin of Mount Taixing and Mount Wangwu. There were golden-armored giants who carried mountains on their backs and walked on the void.

At this moment, the golden-armored giant was replaced with 3,000 Hidden Fishers.

However, Han Fei thought to himself, to move such a mountain, it doesn't need 3,000 Hidden Fishers, does it?

However, a few seconds after this idea appeared, Han Fei sensed that a large number of marine creatures were coming from all directions.

"Oh? The ship array has failed? No... what is that?"

As soon as the mountain was cut in half, Han Fei found that the island was surrounded from all directions. Behind them, a large number of marine creatures also charged into the mountain without fear of death.

And in the ship formation, a merman expert appeared, riding on a fat worm that was as thick as a stupid bear.

The merman expert was enveloped by a rapidly spinning water ball.

There was nothing in the merman's hand, so he put on his armor. As the merman raised his hands, a huge whirlpool was formed at the bottom of the sea. Han Fei sensed that the seawater inside the mountain was flowing back and being sucked away.

"Another explorer. So powerful."

Many people saw this scene and were moved.

In this world, was there actually someone who could withstand the ship formation alone?

The leading law-enforcers shouted, "Ignore those battles. Carry the mountain and leave."

As if he had expected things to not be so easy, the fifty or so law enforcers who were supposed to be guarding the Avenger all went into the sea.

Among them, twenty of them charged towards the merman expert. The rest were rushing towards the floating stone mountain.

There were only thirty people, and it was obvious that they couldn't protect the entire area, because there were too many marine creatures, including Hidden Fisher-level ones.

Under the endless impact, these law-enforcers unleashed all their secret techniques and domains. They even started to burn their bloodlines to protect Han Fei and the others.

Ka ka ka!

Bang! Bang! Bang!

While Han Fei and the others were charging, a crack in the sky was suddenly torn open and a large shell jumped out.

Clang!

The shell clanked, and the sound waves crashed into the floating stone mountain.

Following that, a long tongue shot out from the shell like a whip and struck the floating stone mountain. Wherever the long tongue passed, flames would blaze.

However, before the long tongue could fall, it was grabbed by a large bloody hand and dragged back into the void crack.

Needless to say, that person was definitely Ximen Linghan.

Han Fei was shocked. Ximen Linghan seemed to be seriously injured. How many people was she fighting alone?

Of course, now was not the time to consider this.

Although the shell was pulled back, the sound waves crashed into the mountain and shook it. Many people vomited a mouthful of blood and were injured.

Han Fei and the others only felt a shock impact, but it couldn't shake them.

Boom!

The moment the mountain was completely broken, the law-enforcer shouted again, "Let's go, the suicide squad will cover our retreat."

"The suicide squad?"

Han Fei thought, Why didn't I know that there was a suicide squad?

Then, Han Fei saw some older Hidden Fishers breaking away from the blade of fighting will.

Someone laughed. "If the human race is not destroyed, the City of Justice will not be destroyed."

Someone pressed down on the armor box and ignited his blood crazily, roaring furiously, "I've lived long enough. Fish boys, let me show you what a human is!"

Someone laughed and thousands of vines burst out. "I have no family but this city. Is there anything better than sacrificing my life to protect my city in this world?"

Thousands of Hidden Fishers left the team in the blink of an eye.

The rest of them carried the mountain to walk forward.

Hualala!

There were still close to 2000 people left who were carrying the mountain out to sea. Their speed was extremely fast.

This was a battle for the mountain.

Ximen Linghan was bold enough, and she was also willing to pay her price. Either live or die, leaving no way back.

Han Fei and the others had successfully taken the mountain.

However, Han Fei was not happy at all, because he saw a huge fish tide. All he could see were endless sea creatures.

Shrimp soldiers and crab generals rushed on the surface of the sea. Seahorses galloped and whizzed over. Countless starfish, lobsters, and flagfish chased madly.

At the bottom of the sea, the battle had already begun.

More than 300 armorists opened their armor boxes, and their weapons sealed off the remaining area of the floating stone mountain. Vine and herbs suddenly grew everywhere, and huge vines intertwined as they struck in all directions.

The leading law-enforcer shouted angrily, "Leave quickly, they are heroes. We must bring this mountain back."

Just as this person shouted, he saw a large number of creatures flying towards him from the sky.

Someone shouted, "It's a meteor flying fish."

Swish swish swish!

Another hundred Hidden Fishers left the team and roared at the man carrying the mountain, "Go, go!"

At that moment, it would be a lie to say that he was not moved.

They were all Hidden Fishers! It was not easy for human beings to nurture a Hidden Fisher. They had to go through countless battles to become Hidden Fishers.

But today, in order to snatch a mountain, thousands of people had sacrificed their lives.

For the sake of a city, for the sake of the people in the city, for the sake of humanity's survival.

Han Fei's eyes turn red.

He really didn't know why the humans and the sea clan were fighting. Humans lived on land, while the sea clan lived in the ocean, and the two sides were at peace. What the hell happened? Why were they fighting each other so desperately?

## Chapter 1103: I'll Go First

The price of war must be for peace.

But from the looks of it, it was almost impossible for the marine race and humans to coexist peacefully. Meanwhile, the humans' purpose had become survival.

On the surface of the sea, waves were crashing one after another. On the surface of the sea, mountains of corpses and seas of blood were already everywhere. Almost half of the law enforcers who covered Han Fei and the others had died in such a short time.

Han Fei and the others carried the mountain.

On the sea, many law-enforcers shouted, "Ship formation, Big Turtle Carrying Stone."

At this moment, with the Avenger at the helm, a huge turtle shell phantom floated in the air above the hull.

.

Buzz buzz buzz!

Blue turtle shells appeared.

With the ship formation as the boundary, an incomparably huge turtle shell appeared.

How could Han Fei and the others not know the purpose of this? They couldn't just run back to the City of Justice with a mountain on their shoulders. Of course, they still had to rely on big ships to carry them back.

Rumble!

The process was unexpectedly smooth. When the floating stone mountain was placed on the turtle shell, everything was carried out according to plan.

He heard Diwu Weiguang say, "From now on, be careful. Keep sober and don't leave this timeline."

Han Fei was stunned. "What timeline? Timeline?"

Diwu Weiguang said, "In the ideal palace, everything we see is related to the timeline. Once you enter a special state, it's very likely that you'll leave this timeline. Now, don't enter other timelines. Although this place is different from the prehistoric soul realm and doesn't have a time span that's senseless, you still have to be careful."

Luo Xiaobai and Zhang Xuanyu knew what the timeline was.

After all, they had experienced it in the Prehistoric Soul Realm.

However, Han Fei was different. He remembered that he had transformed into the Supreme Yin-Yang Wheel in the previous battle, but the battle was over when he woke up.

Han Fei hurried to ask, "Do you think you'll accidentally enter other timelines if you leave the current timeline?"

Diwu Weiguang nodded. "Of course. The entire Ideal Palace is like this."

Han Fei asked while looking at Chu Qingyan and the others warily, "How come? According to you, shouldn't the first three soul realms be related to the timeline too? Why didn't we notice it?"

Diwu Weiguang sneered. "That's because the timeline is fixed, or rather, it's a cycle. For example, the awakening of a spiritual plant in the Demon Plant Soul Realm. I suspect that it's not the power of the Ideal Palace that is restoring them, but time. Otherwise, there are people harvesting the Soul Fruits every day, people digging Visualization Stone every day, and people refining soul crystals every day. No matter how strong the power that supports the Ideal Palace is, can it inject the power of soul infinitely?"

Hearing his words, Han Fei was shocked. An unbelievable idea flashed through his mind.

His mother had once said, "The river of time can actually be stolen and intercepted."

According to the words of Diwu Weiguangr, could it be that the Ideal Palace was not simply a place of souls but a section of time river?

"Hiss!"

Han Fei felt his scalp go numb.

If the Ideal Palace was a river of time, then...

Suddenly, Han Fei thought of an impossible possibility.

In fact, even though the Ideal Palace was made of souls, everything he saw and experienced was real.

Most likely, problems would occur when the body entered the timeline. However, souls might not have this limitation.

However, outsiders like him were in a different timeline compared to the things and people he had experienced in the Ideal Palace. They were fighting at a fixed time.

Why did the people around him all have a death aura?

It was unknown how many tens of thousands of years ago people had actually perished in the true long river of time. If one looked at them as outsiders, they would feel that they had an aura of death. This was because in terms of time, they had died, but at a certain stage, they were still alive.

He observed them, but felt them dead through an invisible time barrier.

When they looked at him and the others, they were also separated by an invisible time barrier. Because they came from the future, they were naturally alive.

However, Han Fei had another question. Didn't they also eat Soul Fruits through the timeline? Didn't they also kill each other? Did those people in the Undying Soul Realm die in their timeline?

However, Han Fei suddenly realized something. It seemed natural for the people of the future to take the things left behind by the past! But what if it was people from the past who took things from the future...

Han Fei's mind was a bit messed up. Although he had some deductions, he couldn't prove anything.

Even though what he was thinking now was only his guess, a guess without any evidence would always be a guess, although Han Fei felt that it was very close to the truth.

When Han Fei and the others gathered and waited for the ship formation to accelerate and rush out of the sea, someone suddenly shouted, "Look, what's that?"

In the distance, a hundred miles away, a huge wave was rushing toward the ship formation at incredible speed.

There was an enormous black shadow within the giant wave, which seemed to be a creature.

Diwu Weiguangshouted, "Don't perceive it."

However, when Diwu Weiguang shouted, Han Fei had already scanned it with his perception.

In the next moment, he spat out a mouthful of blood.

He hurriedly cast a Divine Healing Technique on himself. "Don't perceive it."

The moment Han Fei sensed it, his soul was injured.

Before Luo Xiaobai and Zhang Xuanyu sensed it, they saw Han Fei vomited blood out of thin air and many people around vomited blood too, so they asked, "Feifei, what did you see?"

Han Fei felt his scalp go numb.

Instead of answering Zhang Xuanyu, he looked at Diwu Weiguang. "Are you running or not?"

Diwu Weiguang shook his head. "Wait."

Han Fei looked at Zhang Xuanyu. "An enormous monster."

Han Fei could only describe it this way, because the creature he saw had the head of a crab, the limbs of a Mantis Shrimp, the body of a wyrm, and the shell of a Rock Holding Turtle. Its body was shining with black light and covered in armor.

Buzz!

A spatial rift was torn open, and a streak of light that pierced through the heavens and the earth was nailed towards the black figure within the enormous wave.

Whoosh!

Fifty kilometers away, a gigantic black shadow leaped out of the wave. Two 300-meter-long limbs slashed at the rainbow in the sky.

Zizizi ~

At that moment, it was as if it had been frozen in place. The long rainbow in the sky was blocked. Upon closer inspection, it was actually a curved saber, Ximen Linghan's curved saber.

Ka ka ka!

However, the monster's body was too huge.

At this moment, it had leaped out of the sea, which was probably more than five hundred meters long. Under the blade of Ximen Linghan's saber, it was broken inch by inch.

Crack!

Rumble!

A boundless explosion stirred up huge waves. In just ten seconds, the waves reached Han Fei's side.

At this moment, an explorer, the explorer who had talked to Han Fei before, guarded in front of the floating stone mountain, blocking the terrifying power alone.

The airwaves swept past the two sides of the floating stone mountain, extending for hundreds of kilometers.

Gulp!

Countless people swallowed their saliva: What kind of creature is this, to be so terrifying?

Han Fei looked back at the explorer.

At this moment, this explorer's entire body was drenched in blood. Previously, he had fought a great battle with those powerful marine creatures and had suffered heavy injuries. He had lost an arm.

At this moment, his hair was disheveled, and he held a shield in one hand without taking a single step back.

He shouted, "Retreat immediately!"

Rumble!

Just as this person finished speaking, another terrifying explosion erupted at the bottom of the water. However, the Dao Seeking level merman trapped in the array seemed to have grabbed hold of the change in the ship formation as it retreated. He detonated his weapon and unleashed his strongest attack.

A large black ship suddenly shattered and the law-enforcer on it was immediately severely injured.

Han Fei and the others were blown dozens of meters away by the terrifying impact. More than 50 Hidden Fishers were killed by the attack.

"Revenge Array, hold it down!"

The array glowed again. Through his perception, Han Fei found that the mermen below the water seemed to be seriously injured and were attacking the array crazily.

Han Fei cast a Divine Healing Technique on the explorer.

The latter looked back at Han Fei and grinned. "It's useless."

This person was not anxious. Instead, he took a deep breath and looked up at the void. He muttered, "This is the limit of the power of the City of Justice!"

After saying this, the explorer walked on the air and covered a thousand meters with each step.

In the distance, the giant monster once again dove into the water and charged over. Clearly, it had blocked the powerful attack just now.

The middle-aged explorer's energy and blood burned as he came to a stop halfway. He laughed in a low voice. "If we humans don't die, there will come a day when we will fight to the end of the sea and pierce through that eternal darkness. I'll take my leave first."

"Old Jia ~"

In the air, there was a delicate cry, as if calling out the middle-aged man's name.

Only, at this moment, that middle-aged man's body had already exploded. A scarlet long blade cutting through the sea, stopping the waves of the sea. The blade was dyed scarlet red like the ocean was crying.

#### **Chapter 1104: Fighting Three Masters Alone**

This scene was too grand.

Just now, it was merely the might of a single slash, and the waves swept over a few hundred miles.

Now, how could the self-explosion attack of an explorer be underestimated? But without the protection of a strong master, how could they move the mountain?

Only, Diwu Weiguang did not say anything at this moment and appeared rather calm.

Han Fei was slightly relieved. Did another human expert come to protect them?

On the other side.

Chu Qingyan said in a low voice, "Nanxi, help me stop Cao Qiu later. Qingyi, you only need to stall Diwu Weiguang for a moment. Remember, we only have one target to hunt, and that is Han Fei. Don't mind the rest. Once Han Fei dies, everything will be settled."

Han Fei was paying attention to Chu Qingyan.

With the strength of his soul, how could he not hear what Chu Qingyan said? He was just about to curse at this woman for being truly vicious, but on second thought, Chu Qingyan seemed to be saying that she was going to attack soon.

Later?

Han Fei transmitted his voice to Diwu Weiguang. "What else will happen later?"

Diwu Weiguang glanced at Han Fei. "Are you sure you want to know in advance? You may be disappointed."

Han Fei said angrily, "Of course. I have to seize the opportunity. Tell me."

Diwu Weiguang was stunned slightly. Seize the opportunity? Aren't we very passive now?

However, as Han Fei insisted on it, he could only say, "What else? Ximen Linghan will come out."

Han Fei was surprised. "Then?"

Diwu Weiguang said, "Then, we can escape."

Han Fei's heart immediately sank. There were only two possibilities for Ximen Linghan to come out. The first was that the battle between Venerables had ended, and Ximen Linghan had won. The second was that the battle hadn't ended, but Ximen Linghan had to come out to save the situation.

Since Diwu Weiguang said that it would be time for them to run away, then it was probably the latter.

If that was the case, Chu Qingyan would most likely attack on the path of escape. But if she wanted to escape, there would be a lot of people running together. Thus, how could she possibly have the opportunity to attack?

Bang!

Like a thunderclap, Han Fei saw something even more terrifying than a mushroom cloud. The seawater flowed backward and a huge vortex spanned more than thirty kilometers appeared. A ring of seawater rushed into the sky like a pillar.

It was just that in an instant, a large number of marine creatures exploded. Even the ship formation, which had already charged a hundred miles away, was almost sucked back.

The churning sea water seemed to fall from the nine heavens, turning into waves as it fell. It covered the entire sky at an incredible speed.

However, before this, a figure suddenly appeared on the floating stone mountain. Who else could it be but Ximen Linghan?

At this moment, Ximen Linghan looked no different from when she left. However, Han Fei saw that her lips were bright red, and the hand holding a scimitar trembled slightly.

From this, it could be seen that Ximen Linghan's battle was definitely not easy.

Ximen Linghan stretched out a hand, and endless sea water gathered, like a spiral water ball. The water ball was continuously compressed, and its speed was so fast that the vast expanse of seawater in Ximen Linghan's palm became a palm-sized glowing water ball.

Han Fei took a deep breath. You can do that?

Others might not know, but Han Fei saw endless spiritual energy being poured into the water ball.

Even the vast amount of spiritual energy couldn't be compressed to such a size, let alone seawater. Han Fei could predict that once the water ball was compressed successfully, it would be even stronger than the explorer's self-detonation. After all, Han Fei knew the concept of pressure.

The smaller size the endless power was being suppressed to, of course, the more concentrated the power was!

Ximen Linghan's other hand was not idle either. Endless spiritual energy was poured into the machete. When the machete lit up, Han Fei, Luo Xiaobai, and the others were slightly stunned.

This was because there were black and white lights enveloping the blade.

In Luo Xiaobai's eyes, although they rarely saw Han Fei use the Yin-Yang Wheel, they all knew that Han Fei had such a hidden skill.

Han Fei was also surprised. Black and white lights were interweaving. What kind of battle technique was Ximen Linghan using?

His first thought was: Could Ximen Linghan be related to the Immortal Palace?

After all, Han Fei had never seen anyone else with such skills. Little Black and Little White seemed to be extraordinary. Besides, the Ninth Immortal Palace was called the Yin-Yang World. Was there really no special mark?

As soon as Ximen Linghan appeared, a spatial rift opened. However, what appeared was no longer the giant octopus monster from before, but a strange person with the body of a shrimp.

To be exact, it was more like a spider's body. However, it was not as fat as a spider.

That person held two giant hammers in his hands and cackled loudly. "Ximen Linghan, the former Pirate King, has slaughtered countless living beings of my sea race. Have you ever thought that this day would come?"

On the other side, the void was torn apart again.

The giant octopus monster appeared again. Its two hands tore open the void, but Han Fei keenly noticed that more than half of the creature's tentacles had been cut off. But at this moment, the tentacles were growing back rapidly.

Ximen Linghan was unmoved, still compressing the water ball in her hand. However, with a stomp of her foot, the formation on the Avenger changed completely.

Everyone felt the formation of the ship suddenly change into the shape of an arrow. It was slightly different from what they had seen before, but it was extremely fast.

"You want to escape? Have you asked me?"

The half-human, half shrimp monster raised the sky penetrating hammers in its hand. Under the hammers' strike, lightning fell and electric arcs filled the air. When they fell from the sky, it was accompanied by lightning and flames, as if Mars had crashed into Earth.

Now the only hope of the people present was Ximen Linghan.

Han Fei couldn't help but think how much pressure Ximen Linghan was under? There were two living beings of the venerable level in the sky and one in the sea.

The one in the sea had already rushed out of the huge waves. A large part of its body was broken, and one of its limbs had already been severed.

The explorer's life-risking strike only caused such a minor injury to it. Even Han Fei felt helpless. How could Ximen Linghan fight the three venerables at the same time?

Ximen Linghan said coldly, "The City of Justice is only the City of Justice. I am not the strongest, and there will come a day when the human race will rise against the tide. I believe that in the future, there will be a person who will pierce through this endless sea. Today, I admit defeat since I have been plotted against by you. But if you want to kill me, you have to see if you have the power to do so."

Shua!

Ximen Linghan raised the curved saber in her hand, and a huge black and white wheel appeared.

"Hiss!"

Han Fei took a deep breath. Supreme Yin Yang Wheel?

No, no.

The attack looked like the Yin-Yang Wheel, but the killing intent in it was too strong, causing the wind within a thousand meters to be as sharp as a blade. It wasn't as pure as the Supreme Yin-Yang Wheel.

Luo Xiaobai asked, "What is this?"

Han Fei shook his head. "It's not the same as mine."

Although Han Fei said so, he was sure that Ximen Linghan's Yin Yang Wheel had something to do with him.

At this time, Han Fei remembered what Ximen Linghan had said. She said he looked a bit like someone she knew. Han Fei was shocked. Was she talking about Old Han?

He could only think of Old Han.

He didn't know which era Old Han was from. If he could even woo his mother from the opposite side of the river of time, was there anything he couldn't do?

However, this shameless Old Han couldn't be two-timing, right? Could it be that there was some unknown story between Ximen Linghan and Old Han?

The Yin Yang Wheel blocked the enormous hammer shadow.

The compressed water ball in Ximen Linghan's hand was also pushed out by her. The moment the water ball left her hand, a path appeared above the sea. Spiritual energy followed it, and seawater surrounded it, causing the water ball to grow larger and larger, instantly becoming a hundred meters in size.

Then Ximen Linghan tapped at the air and drew a formation in the air. There were only seven strokes, but Han Fei saw seven layers of killing formations. Seven Flood Dragons rose into the air and rushed to bite the octopus monster.

She was fighting against three venerables alone! It was the first time that Han Fei saw a woman so differently.

If it were Old Han, Han Fei felt that he wouldn't have done that. He would have guessed it in advance.

If it was Ren Tianfei, that old fellow would be fearless. He could fight Thousand Star City alone, and it was not surprising that he did it twice.

And this Ximen Linghan was the third ultimate powerhouse that Han Fei had seen. In fact, she was very likely somewhat related to him, which made him feel a little closer to her.

Han Fei felt that he couldn't just ignore it.

Han Fei immediately said, "Under any circumstances, don't give up your life so easily. Only by living can you have hope."

Ximen Linghan's body trembled slightly, but she didn't turn around. She stood proudly on top of the floating stone mountain, and the wind swept up her clothes and long hair, making her look so valiant and sassy.

It was not an exaggeration to call her a heroine.

"Roar!"

In the sea, there were angry roars. In the sky, there were howls.

Although the speed of the ship formation was fast, where could it run to in just a few breaths of time?

After 10 breaths of time, Ximen Ling took a step forward, and her cold voice echoed, "Someone once told me that people should embrace the light. Even if we are in the darkness, we must become our own light."

No one knew who said these words to Ximen Linghan. In any case, after she finished speaking, she disappeared from the floating stone mountain in a single step.

Han Fei felt uncomfortable.

Old Han, don't tell me you've abandoned her? More importantly, your son doesn't have the ability to participate in a battle of this level. I can't help you save her!

Han Fei was silent, feeling uncomfortable.

Before he could feel uncomfortable for long, he heard a law-enforcer shout, "Everyone, surround the ship and prepare for war. The City Lord has already done her best. We need to complete the rest ourselves. We need to kill our way back to the City of Justice."

Someone roared, "Kill our way back to the City of Justice!"

Someone shouted, "As long as I don't die, I will kill my way back to the City of Justice."

The ship formation continued to surge for more than 3,000 kilometers. The giant fish tide erupted, and countless sea creatures charged into the ship formation. At this time, it was unavoidable. Since it was a trap set by the enemies, how could they not have any tricks up their sleeves?

Han Fei and the others also joined the battle.

However, the five of them did not separate. The reason for that was because Chu Qingyan and the others might try to obstruct them at any moment.

During this time, a large turtle tried to fly out of the void, only to be dragged back by a bloodstained explorer.

After running for about 8,000 miles, there were less than 20 law-enforcers left. The number of Hidden Fishers dropped from 2000 to more than 1,300. The rest were all dead.

Just as many people were getting excited, a large black ship suddenly collapsed.

It turned out that the merman who had been trapped in the formation had broken the formation.

The law-enforcers shouted, "Keep running. Leave it to us."

At the same time, Chu Qingyan shouted, "Attack!"

Chapter 1105: Battle Begins

Han Fei had been paying attention to Chu Qingyan.

In fact, he saw that more than ten people from the big clans had died. However, Chu Qingyan had never made a move.

It turned out that Chu Qingyan was waiting for this moment.

However, Diwu Weiguang said in surprise, "Why now?"

Swish! Swish! Swish!

Luo Xiaobai immediately controlled the vines to hold Han Fei, Zhang Xuanyu, Diwu Weiguang, and Cao Qiu.

Chu Qingyan had endured until now.

This meant that she definitely had a way to deal with them. However, it was clearly unsuitable for her to do so here.. Once they made a move, wouldn't they be afraid that these people would gang up on them?

These prehistoric humans were not weak at all. Whether it was in terms of body tempering or battle techniques, they were all well-trained.

There were no weaklings on the battlefield. Luo Xiaobai did not understand what Chu Qingyan meant by "attack".

Chu Qingyan and the other 160 people suddenly took this chance to attack.

Among them, Yang Nanxi blasted towards Cao Qiu while a woman in cyan charged towards Diwu Weiguang.

However, in Han Fei's eyes, he was slightly puzzled. Why did Yang Nanxi become so slow?

Not only that, but the moment Diwu Weiguang's shadowless arrow shot out, a dragon's roar suddenly rang in the void and pierced towards the cyan-clothed woman.

Chu Qingyan's expression changed. "There's a traitor."

Han Fei's first reaction was that Yang Nanxi had betrayed them. Did he successfully convince this silly girl?

Diwu Weiguang was also somewhat startled: Who is helping me?

As he spoke, Chu Qingyan knew she couldn't wait any longer and immediately attacked. A white ripple suddenly spread out.

"Time freeze."

Buzz!

Han Fei was shocked. What kind of a f\*cking ability is this? Can this woman freeze time?

Zhang Xuanyu thought to himself, "Damn. How is that possible?"

Luo Xiaobai hurried to say, "Wait, wait. If time is frozen, why can we still talk?"

Han Fei was also stunned. Yes, I can still move.

Suddenly, Han Fei felt that his scalp was numb. "Damn, the Avenger is disappearing."

Everyone was horrified.

In their vision, the ship formation was still charging forward. However, after charging for a short distance, all the other ships, including the Avenger, were fading away.

Diwu Weiguang shouted, "Not good! Long-legged forcefully changed the timeline. Our timeline is different from the Avenger's."

Han Fei and the others were dumbfounded. She could do that?

Zhang Xuanyu cried out, "If it's that simple, why didn't this woman make a move earlier?"

Cao Qiu said indifferently, "There were venerables here."

Zhang Xuanyu was lost for words. Yes! No matter how powerful Chu Qingyan was, she was only a Hidden Fisher now. If she did that in front of the venerables and explorers, it was very likely that she would be stopped.

When they were moving the mountain, everyone was too fast, so she didn't have a chance.

When they were carrying the mountain back to the ship formation, the venerables were also watching them. There was also a group of law-enforcers beside them. The Hidden Fishers were busy carrying the mountain, so they didn't have a chance to attack.

At this moment, all of the strong masters were gone.

The law-enforcers went to beat the merman. She was surrounded by Hidden Fishers, so no one could stop her.

Han Fei couldn't help but take a deep breath. This woman was really patient.

At this moment, their timeline was only slightly off from the normal timeline. But because of this slight difference, only Chu Qingyan and they were left.

However, it was not without good news.

The good news was that Yang Nanxi had betrayed them. No, Yang Nanxi hadn't completely betrayed them, but she had slacked off. Han Fei knew this very well.

She did not want to try her best, nor did she want to fight with them. She was probably planning to sit on the mountain and watch the tigers fight!

But this was an opportunity. Han Fei would not let it go.

Han Fei immediately said via voice transmission, "Yang Nanxi, I know it was you just now. It seems that you've thought about what I said before. Perhaps I'm your dangerous enemy, but the Chu Sect is even more dangerous. It's fine if you don't want to join the battle. I have a way. How many people from your Yang Family are here?"

Yang Nanxi replied quickly, "13."

Han Fei immediately said, "I'll tell Zhang Xuanyu to run away, and your family people will go after him. Then you don't have to join the battle, okay?"

Yang Nanxi readily agreed. "Sure."

Han Fei immediately transmitted his voice to Zhang Xuanyu. "Yu! Yang Nanxi has betrayed them. I've discussed it with her. Go provoke her and take the Yang family away from the battlefield. Keep a distance from them! If they intend to attack you, come back immediately."

Zhang Xuanyu was stunned. When did this happen? Yang Nanxi betrayed them? And she even told you... her family people wanted to fake a fight?

However, since Han Fei said so, Zhang Xuanyu immediately understood the importance of this matter.

Currently, he was not good at group battles.

And Yang Nanxi was really difficult to deal with! If he could take the Yang Family people away from the battlefield, the pressure on Han Fei's side would be greatly reduced.

After all, Yang Nanxi was a top powerhouse ranked fifth on the Prodigy Roll after all. Even if it was a one-on-one battle, she would occupy a person on their side.

Chu Qingyan sneered, "Han Fei, do you know that you have no way out?"

Han Fei sneered. "Great! You even changed the timeline! I didn't expect the Chu Sect to have such tricks."

At the same time, Han Fei said to Yang Nanxi, "Provoke me."

Yang Nanxi understood and immediately raised his sledgehammer and shouted, "Han Fei, you won't be able to escape this time. Weren't you powerful just now? Weren't you very hard to fight? Let me see how you fight the eighty law-enforcers here!"

Zhang Xuanyu took the opportunity to shout, "Hey, Shortie. In the Ideal Palace, everyone is a Hidden Fisher. Believe it or not, I can poke a string with a spear!"

Yang Nanxi instantly despised him. "You? I've never seen someone as good at bragging as you."

Zhang Xuanyu burst into laughter. "I'm bragging? You know what, I can not only poke a bunch of you guys with a spear, but I can also strip you and take you home as a slave."

"Ahhh~"

Yang Nanxi's face flushed red with anger. "Say that again?"

Han Fei was lost for words. Yu! I only asked you to provoke her, but you went too far! Yang Nanxi is not very smart. Maybe she will really kill you because of your words.

Luo Xiaobai looked at Han Fei in confusion. Why did Zhang Xuanyu suddenly start a fight with Yang Nanxi?

Chu Qingyan did not panic.

She knew what kind of person Yang Nanxi was. She would become more powerful if provoked. So just let Zhang Xuanyu continue to provoke her.

Besides, she disliked Zhang Xuanyu and Diwu Weiguang very much. They were both very handsome, but so lascivious.

Zhang Xuanyu looked at Yang Nanxi up and down. "You look like a child. I'm not very interested in you! I, Uncle Yu, like long legs."

"Ah! I'm going to kill you!"

Yang Nanxi charged at Zhang Xuanyu with the hammers in hand.

Zhang Xuanyu struggled free of the vines and sneered, "You want to kill me? Come!"

Luo Xiaobai said to Han Fei, "It's too fake."

If Luo Xiaobai still couldn't figure it out at this time, it wouldn't match her intelligence.

However, to everyone's surprise, Yang Nanxi shouted, "Yang Family people, follow me. I'm going to kill this guy."

Chu Qingyan's expression changed drastically.

Yang Nanxi, did your brain get hit by an Iron-Headed Fish? Why did you suddenly want to chase Zhang Xuanyu?

Also, if you just want to hit Zhang Xuanyu, why do you bring the Yang family people along?

Buzz!

Without waiting for Chu Qingyan to call Yang Nanxi back, Han Fei attacked first. The Sacrificing Punch burst out and attacked Chu Qingyan, not giving her a chance to speak.

Luo Xiaobai seemed to understand something. Was Yang Nanxi doing this on purpose? Was she looking for a reason to leave?

Luo Xiaobai immediately shouted and fell into the water. In the next moment, a huge amount of vines and seaweed extended from the sea. Luo Xiaobai had already used the Hollow Nether Fish to hide her tracks.

Diwu Weiguang chuckled as he held the unique longbow in his hand. He drew the bow faster than a normal person's punching speed. The Shadowless Sword Flow shot out, making it difficult to find traces of it.

Cao Qiu frowned slightly. He waved his hands and clenched his fists. With a single step, a god of war materialized.

On the other side, Chu Qingyan probably knew that Yang Nanxi had actually run away.

However, she didn't think that Yang Nanxi would really betray her. With Yang Nanxi's intelligence, if she were to betray her, how could she be acting from the Demon Plant Soul Realm until now? If Yang Nanxi was such an actress, she would not be called Yang Nanxi.

Chu Qingyan firmly believed that the traitor was definitely still among her group. However, that person had not jumped out yet. At this moment, it was the time for battle, and she had no time to dig the person out.

Chu Qingyan shouted, "Qingyi, I'll leave Diwu Weiguang to you. All hunters, kill Luo Xiaobai."

Diwu Weiguang sneered. How can she stop me? Long-legged, are you dreaming?"

"Pfft!"

As Diwu Weiguang spoke, someone was pierced by the Shadowless Sword Flow.

It was not that the person did not notice, but the arrows of Diwu Weiguang were too fast. The moment he sensed danger, he tried to block, but he was too slow.

Chu Qingyan added, "Chu Hongjia, help Qingyi."

Two people appeared in the crowd. One of them was a woman in green. She held a pair of daggers in her hands. In the blink of an eye, she struck dozens of times in the air and sent dozens of invisible arrows flying, but she remained expressionless.

The other one was an armorist with red hair and an arrogant expression. As the corners of his mouth split open, a red-armored centipede coiled around his body. Inside the box, eight scarlet tokens floated in the air and surrounded his body.

Diwu Weiguang narrowed his eyes. "Chu Hongjia, who was once ranked # 7 on the Prodigy Roll, isn't weak. With Li Qingyi, he's barely qualified to fight against me."

"And me."

Another woman walked out with white threads in her hands and seven swords floating behind her. If one looked closely, they would realize that the white threads controlling the swords were not controlled by spiritual energy.

Diwu Weiguang glanced at Han Fei. "So, Sword Seven of Jade Immortal Palace is from the Chu Sect. Han Fei, you have to count on yourself."

Han Fei rolled his eyes. "You only took three?"

Diwu Weiguang said with a black face. "Three on Prodigy Roll is enough. If another one comes, I will have to run."

Han Fei: "..."

Chapter 1106: Soul Lock

Han Fei felt that he was too careless this time.

When he learned that Chu Qingyan was going to attack them, Han Fei didn't expect that she would pull them onto an independent battlefield in this way.

Otherwise, Han Fei would have separated from Luo Xiaobai and the others early.

At this moment, Luo Xiaobai was at the bottom of the ocean, and dozens of hunters were eyeing her.

Diwu Weiguang was occupied by three former elites on the Prodigy Roll. Thankfully, Yang Nanxi was not smart and was tricked away by him. Otherwise, there would be another big problem right now.

Now, Han Fei was most worried about Luo Xiaobai. If she had become a law enforcer, Han Fei would be less worried. After all, as time went on, the manipulator and spirit gatherer professions would become stronger..

However, in the ideal palace, Luo Xiaobai could only be a Hidden Fisher.

Han Fei was somewhat annoyed.

Old Bai had said that it would be best for them to become law enforcers in the Three Holy Lands. Did he mean that they should go to the Monument of Gods to become law enforcers?

At this moment, Diwu Weiguang transmitted a message to Han Fei and the others. "Three hundred breaths. I'll come back."

Cao Qiu lowered his head and looked at the sea. His voice was a little stiff as he said, "You go, I go?"

Cao Qiu meant to help Luo Xiaobai. Although his War God Bloodline had awakened, Cao Qiu should not have become completely indifferent. That was why he asked such a question.

Han Fei smiled. "You go."

Cao Qiu landed on the sea surface without a word.

Han Fei faced more than a hundred people alone.

Who knew if there were hidden experts among them? For example, Yang Nanxi's previous interceptions. Number didn't matter to strong masters. The key was what kind of opponents they encountered.

Chu Qingyan said lightly, "Do you know why I'm not in a hurry to attack?"

Han Fei tilted his head and waited for Chu Qingyan to continue.

She strode forward elegantly and said, "Because you're always the only target. We don't care about the others."

Han Fei sneered. "Do you think you can kill me with these people?"

Han Fei was not afraid of human wave tactics because he had enough confidence and strength.

Chu Qingyan leisurely said, "I know that your physique is very strong, but powerhouses are usually very conceited. It's as if you really think I'm just chatting with you."

Han Fei narrowed his eyes.

Suddenly, the hunters who were targeting Luo Xiaobai appeared in all directions.

When the hunters appeared, a weapon that Han Fei was familiar with appeared: Spirit Restriction Net.

The corners of Chu Qingyan's mouth curled up. "Do you think that the Ideal Palace really doesn't need spiritual energy? No, it's all the same. It's just that as outsiders, we can freely control spiritual energy."

Han Fei's face changed slightly.

On the surface of the sea, Luo Xiaobai appeared. Vines grew crazily and she used her Great Spirit Summoning Spell with the intention of tearing open the Spirit Restriction Net.

However, in the next moment, dozens of manipulators attacked at the same time. The surface of the sea suddenly turned into a sea of spiritual plants. Luo Xiaobai was powerful, but she couldn't win against a large number of manipulators of the same level at once.

As for Cao Qiu's side, it was even simpler. When the Imposing Dragon Punch was unleashed, he was surrounded by more than 30 armorists. Layers of shield armor covered the sky. Among them, an armorist summoned a huge conch with a thick shell. Clearly, he was not an ordinary character.

Even so, Chu Qingyan still had nearly 80 people with her. Facing Han Fei, she was confident.

Han Fei waved his hand and the Infinity Water turned into a thousand knives that swept the Spirit Restriction Net and exploded.

Bang! Bang! Bang!

It exploded countless times, but what surprised Han Fei was that the Spirit Restriction Net was invisible and couldn't be blown up.

Chu Qingyan disdainfully smiled. "Why do you think that I've allowed you all to pass through the Undying Soul Realm, the Blue Sea Soul Realm, and the Prehistoric Soul Realm? Do you really think that we don't dare to step into those Soul Realms? This isn't the Spirit Restriction Net. This is a Soul Lock, something that has basically never appeared in this era."

Han Fei was touched. Wait, is this a Soul Lock?

It was not the first time that he had heard this name. The Divine Seaweed Octopus he had met in the grassland of the level-three fishery knew how to use the Soul Lock.

At that time, he was also locked with a Soul Lock. In the end, he forcefully absorbed the Soul Lock through the Demon Purification Pot.

Han Fei remained calm. The Void Line turned into hundreds of threads and locked the Soul Lock that looked like a Spirit Restriction Web.

Han Fei immediately felt something when the Void Line buckled it.

< Name > Soul Lock

< Introduction > It's a unique Soul Locking Tool made with the power of the soul. Different from ordinary soul locks, Soul Lock can only be refined by the soul. Once locked by the Soul Lock, one will be enslaved at least, and in the worst scenario, one's soul will be severely injured, and one will lose all combat strength and be at the mercy of others.

< Level > Rare

< Soul Power > 1886 Points

<Absorbable>

<Note> The effect on the law-enforcers is halved. It is basically ineffective on the explorers.

“Absorb.”

Han Fei secretly sighed. This Chu Qingyan was indeed foxy! At least, he would never have thought of this.

“Roar!”

More than ten armorists were sent flying, and a large turtle was torn apart by Cao Qiu's hands. In the wind, there were bubbles spat out by the poisonous bubble fish.

However, an armorist summoned a three-headed giant python with shields in front of him.

They didn't want to kill Cao Qiu. They just needed to stop him.

Luo Xiaobai's eyes turned white. A bergamot covered the sky, and the blue Piranha Plant was blooming. Within a thousand meters of her, invisible nets covered the area. Wherever they passed, all spiritual plants collapsed.

However, there were too many manipulators. The surface of the sea looked like a grassland.

It was filled with flying flowers, grass, and ivy, blocking Luo Xiaobai.

Han Fei was absorbing the power of the Soul Lock crazily.

At the same time, on the Void Line, Han Fei split his soul and simulated the Soul Lock.

Chu Qingyan chuckled. "Han Fei, you won't be able to escape even if you have wings."

Then Chu Qingyan looked at the soul warrior behind her. "Battle Bow Technique, kill."

Swish! Swish! Swish!

A large group of soul warriors were shooting furiously with bows in their hands. They seemed to be using all their strength.

Han Fei stomped on the ground and the Coiled Turtle Array appeared.

Holding the Embroidery Needle in his hand, Han Fei attacked in the hundreds of arrows.

Bang! Bang! Bang!

Explosions sounded one after another.

In less than five seconds, the Soul Lock had entangled Han Fei.

Han Fei seemed to have lost all his spiritual energy and could only fly in the air with the Phantom Glass Wings.

Due to his powerful physique, his strength was still extremely terrifying even though he was bound by the Soul Lock. However, his reaction speed was already not fast enough, and he was blasted flying in the sky.

Cracks appeared on the surface of Han Fei's body, which was shocking.

However, Han Fei shouted, "Hahaha, so this is all you've got? You can't even break my body. How can you kill me?"

Chu Qingyan sneered, "Secret techniques activated."

Buzz—

Including Chu Qingyan herself, they had already activated all their secret techniques. She saw dozens of people holding spears, sabers, and swords. The sky was filled with light and shadows.

Chu Qingyan pointed at Han Fei. "Wither."

However, when Chu Qingyan shouted so, the ring on Han Fei's hand began to light up.

Han Fei sneered. "Wither my ass! It's useless against me."

Chu Qingyan stared at the ring on Han Fei's hand and used the Thousand-Faced Buddha Hands to clasp at Han Fei.

"Deprive."

Han Fei felt that his vitality was slowly draining away. It was not fast because his physique and blood were too strong.

Just as Chu Qingyan was about to close in, Luo Xiaobai suddenly appeared on a blue flower in the air. The three armorists behind her were cut into pieces.

Han Fei said, "I'm fine."

Luo Xiaobai didn't believe that Han Fei was really fine. She said coldly, "Deep Blue, Soul Devouring."

Whoosh!

Huge blue flowers bloomed.

On the surface of the sea, in midair, at the same time, several dozen people's souls were stirred. In the void, there were blue roots that were like heaven and earth spiritual veins, like strange ice threads, grabbing towards everyone who stopped her.

However, Luo Xiaobai was still a step too late.

She wasn't the only one manipulator here. There were dozens of manipulators here, and one of them had actually summoned a huge flower similar to Heavenly Red Hibiscus and scattered pollen everywhere.

Han Fei was about to be besieged, which only took a few seconds.

However, when Chu Qingyan was only a few dozen meters away from Han Fei, she saw Han Fei smile and immediately had a bad hunch.

"Shit. Retreat."

Buzz!

Han Fei's momentum suddenly rose. He activated the Devil Change and the Yin-Yang Divine Eyes. The Void Line turned into hundreds of long threads and captured dozens of people in an instant.

However, to Han Fei's surprise, half of the people here could resist the Void Line?

However, it did not matter.

Han Fei gave up on those people and disappeared in midair.

This time, he forcefully caught all those who could be caught. Even if he had to harm himself, he had to kill a group first.

"Pfft!"

"Pfft!"

Chi la!

The Blade Aura entered their bodies and in an instant, all twelve of them were killed by Han Fei.

Unfortunately, Han Fei couldn't keep up.

No matter how powerful the Void Line was, it couldn't control too many people at once.

Previously, it was already very difficult to control six people at the same time. This time, killing twelve people in the blink of an eye was already risking the danger of his soul being hurt.

"How is that possible?"

Chu Qingyan was shocked. Han Fei escaped from the Soul Lock?

“Fight!”

The moment Han Fei appeared, the area within a thousand meters of him was drowned by all kinds of attacks.

Chapter 1107: Blossom in Killing

On the surface of the sea, the battle was intense, and Luo Xiaobai was pressed down forcefully.

Cao Qiu was trapped. Although he had the War God Bloodline, he was blocked by a group of armorists.

Although Han Fei had the Yin-Yang Divine Eyes, there were too many enemies, and none of them were weak. His invincible will was full of cracks under the bombardment.

“The law of gravity.”

“Lightning Blade.”

“Sacrificial Punch.”

“The Draw..”

“Monkey King’s Three Thousand Sticks!”

...

“Roar!”

In less than a hundred breaths, Han Fei was covered in blood, although he had killed more than twenty people.

However, Han Fei’s defense was finally broken.

Someone had pierced him with a strange bone weapon. A small hole was poked in Han Fei’s chest.

Some manipulators had the ability to parasitize and limited Han Fei’s speed.

Someone had a blood control technique that made Han Fei’s blood run wild.

Many people launched soul attacks and sent Han Fei flying.

“Bloody hell.”

Han Fei spat out a mouthful of blood. He saw that Chu Qingyan had been standing behind the crowd and watching quietly, as if she was looking for an opportunity.

Han Fei felt that someone had pierced through his back. It was a translucent bone knife, and Han Fei couldn’t control this person at all with his Void Line. The other party had a soul protection technique.

“Pfft!”

However, Han Fei was not helpless except for the Void Line. Little Fatty's tentacle stretched out from the void and drew blood from the man's body, so the tentacle directly sucked his blood.

Han Fei punched him in the chest and tore him into pieces.

However, as soon as he killed the man, Han Fei's brain seemed to have been hit by a hammer. He was attacked with Soul Explosion and Soul Piercing.

In the chaos, a hunter turned into purple sand and wrapped Han Fei up, while a double-edged sword stabbed at Han Fei's neck.

On the other side, someone unleashed another Soul Explosion.

However, that was not the point. Han Fei suddenly found that Chu Qingyan had disappeared.

At that moment, Han Fei felt a sense of crisis that he had never felt before.

Han Fei knew that Chu Qingyan had found an opportunity.

"Supreme Yin-Yang Wheel."

Han Fei dared not delay.

Even if he were to fall into a state of unconsciousness, he couldn't let Chu Qingyan succeed. Since this woman didn't make a move, there must be a reason why she didn't. She was looking for an opportunity.

The moment Han Fei cast it, the purple sand was crushed, but at the same time, a red light pierced into the Supreme Yin-Yang Wheel.

In the void, Diwu Weiguang shouted, "Save him. It's the God Slaying Awl. It can kill the soul."

Crack!

The moment Diwu Weiguang finished shouting, Chu Qingyan's expression changed drastically. "Dao runes?"

The God Slaying Awl split open. That was Chu Qingyan's strongest trump card. She thought it would never be used. Before, she thought that the Soul Lock could bind Han Fei and there would be plenty of ways to penetrate his body.

But the Soul Lock was broken, and Chu Qingyan knew that Han Fei's soul was powerful, so she waited for an opportunity to kill him.

But she didn't expect Han Fei to be so fast. In an instant, he was gone and turned into a Yin-Yang Diagram.

At that moment, Chu Qingyan's expression was extremely ugly.

She immediately thought of Ximen Linghan's Yin Yang Wheel. Could it be that Han Fei learned this technique from Ximen Linghan after seeing it once?

Chu Qingyan didn't expect this at all.

Whether it was Yang Nanxi or that person from the Ye family, they had never told him about the Yin Yang Wheel.

Han Fei was right. Even Yang Nanxi was shaken. If they wanted to weaken the power of the Chu Sect, it was natural that the Ye Family would have some tricks up their sleeves.

The God Slaying Awl was the only soul-slaying treasure dug out of the Prehistoric Soul Realm. However, it shattered at this moment.

However, the God Slaying Awl was not completely useless.

The moment the God Slaying Awl shattered, the Supreme Yin-Yang Wheel suddenly weakened and a crack appeared on it.

Puff, puff, puff!

A hundred miles away, Zhang Xuanyu and Yang Nanxi had just run around when they saw the scene from afar.

Zhang Xuanyu was furious. "Yang Nanxi, I don't have time to play with you. The big families are not united. Once the Thug Academy dies, you guys will fight to the death. I don't care where you go. I'm going back to fight."

Zhang Xuanyu rushed back crazily.

Yang Nanxi stood in midair and raised her hand. "Wait."

Some of the Yang Family members were confused, "Miss, if we leave the battlefield like this, I'm afraid that Chu Qingyan will definitely come after us."

Yang Nanxi stood with one hand on her waist and the other holding the hammer. "Who cares about her? After all, no one can remember what happened here after leaving the Ideal Palace. Han Fei and the others are really powerful. It hasn't been long, but more than 50 people have died there. Wait a while longer, another 30 will die... When they are about to decide the winner, we will attack. We will fight whoever is stronger. This is called the Way of Balance."

Instantly, the group of people behind Yang Nanxi rolled their eyes. "Do you know what the Way of Balance is? When the time comes, you have to kill one side!"

However, Yang Nanxi was the boss. At this moment, she was still very complacent and felt that she had made the smartest decision in her life.

...

"Roar!"

The moment Han Fei turned into the Supreme Yin-Yang Wheel, Luo Xiaobai, Zhang Xuanyu, and even Cao Qiu knew that Han Fei was in danger.

Especially Luo Xiaobai and Cao Qiu, who were closest to him. They knew that something was wrong.

Luo Xiaobai didn't know what the crack on the Supreme Yin Yang Wheel meant, but Han Fei was definitely seriously injured.

Cao Qiu's pupils were constricted. He had personally witnessed the might of the Supreme Yin Yang Wheel. The battle in the Sea Quelling Painting was still fresh in his memory.

Back then, his body of the War God had been torn apart, but the Supreme Yin Yang Wheel had not been damaged at all. However, at this moment, a crack had appeared on the Supreme Yin Yang Wheel. What did this mean? It went without saying.

Although anyone who blocked Han Fei's path would die, the brilliance of the Supreme Yin Yang Wheel was not as intense as when it first appeared.

...

In a similar timeline, Ximen Linghan, who was in the midst of a fierce battle, suddenly shuddered as she went berserk in the battle. Her gaze pierced through the void, and it was as if she saw an inconceivable scene in the shadow of time.

"It's him?"

...

As the Supreme Yin-Yang Wheel rapidly killed more than ten people, it suddenly started jumping around uncontrollably.

The strange Dao runes began to flicker non-stop. The trajectory of its flight became chaotic as if it was a headless fly.

At that moment, Luo Xiaobai and the others all knew that something had happened to Han Fei.

"Ahhh~"

Bang! Bang! Bang!

At that moment, thousands of deep blue Piranha Plants exploded with a loud bang. Endless multicolored light enveloped the world. All the spiritual plants on the surface of the sea started to riot. No matter who summoned them, at that moment, none of them were controlled.

Luo Xiaobai floated in the air and a seed appeared between her eyebrows. In the next second, the seed began to grow crazily and enveloped Luo Xiaobai in the blink of an eye.

Chu Qingyan's eyes flickered and she shouted, "Ignore her. Han Fei is seriously injured. Let's kill him together."

However, just as Chu Qingyan shouted these words, the manipulators who were surrounding Luo Xiaobai were about to leave and give up on her.

But in the next moment, they found that they could no longer fly. In the void, there were roots that wrapped around them. All the spiritual plants within a 5000 meter radius began to wither and wither.

And where Luo Xiaobai was, an enormous blue flower bud was growing. In just a few seconds, the flower had grown to a hundred meters long and was still growing.

Immediately, someone shouted, "Not good, this is the divine technique of the Luo Family."

At that moment, everyone, including Chu Qingyan, was shocked: Luo Clan's Divine Technique, a strange power that had not appeared for 300 years.

The divine technique of the Luo Family was also known as the manipulator's forbidden technique. It was why the Luo Family was called the Divine Manipulators' family.

No one mentioned this name because no one had reached this level.

The divine technique of the Luo Family could be considered an evolutionary technique. Once a descendant of the Luo Family mastered this technique, as long as he did not die, he could control the Divine Manipulators' family for a thousand years.

No fellow professional was heard to be able to shake a Divine Technique user. It was said that the person who controlled this technique could control all living things, and was the master of all killing spiritual plants.

The Blue Piranha Plant was growing too quickly. In an instant, it grew to over three hundred meters in size.

An armorist tried to save them. The flood of swords and sabers slashed at the Blue Piranha Plant.

However, it was as if plant roots had grown out of the void. They were densely packed, and in the blink of an eye, they controlled all the blades.

A manipulator shouted, "Not good, my vitality is fading."

Someone shouted, "Weapons self-destruct!"

When this person shouted these words, a large amount of seaweed spread through the void. The force of the explosion only forced the seaweed back a few hundred meters before it was replenished by other seaweed.

In the eyes of Chu Qingyan and the others, the skin of the manipulators who were being controlled was becoming wrinkled, their hair was withering, and their flesh was drying up.

Chu Qingyan used a time secret technique.

However, when the endless sea grass surged over, the time secret technique was actually devoured.

Chu Qingyan gritted her teeth. "Kill Han Fei now."

Swish! Swish! Swish!

The Shadowless Arrow suddenly exploded.

Diwu Weiguang, who had been pulled away earlier, came rushing over from a distance, covered in dust, followed by two people. The woman named Qingyi did not follow, but the other two were not dead yet.

Obviously, Diwu Weiguang knew that Han Fei couldn't wait for three hundred breaths. He seemed to be drunk.

"Roar!"

Cao Qiu punched through dozens of turtle-shell shields and crushed an armorer. The giant behind him was like a god as he punched through the void towards Chu Qingyan.

The latter snorted. "No one can save him today."

Chu Qingyan turned over her palm, and Cao Qiu's fist gradually faded away, corroded by time.

Buzz!

On the surface of the sea, more than 20 manipulators had already turned into dried corpses. Their vitality had been completely drained and they had already died.

Splash!

The enormous flower petals flourished with incomparable brilliance. Dense blue light illuminated the void.

Luo Xiaobai closed her eyes and hugged her chest. She opened her eyes slowly. "Today, all of you must die."

Chapter 1108: Who Am I

No one expected Luo Xiaobai to rise so quickly.

Chu Qingyan also admitted that Luo Xiaobai was not weak. However, that was only because her overall strength was not weak. Her ability to escape was strong, but her attacking methods were relatively poor.

Therefore, in Chu Qingyan's impression, Luo Xiaobai was good at defending when she faced real experts. However, Luo Xiaobai was not very strong when it came to attack.

However, at this moment, Luo Xiaobai's danger level increased exponentially with the help of the Luo Family's Divine Technique. Her threat level was almost comparable to Han Fei's. After all, the entire Divine Manipulators' family relied on the Luo Family's Divine Technique to become independent of the big clans in Thousand Star City.

That was not all. Chu Qingyan clearly noticed that the seed between Luo Xiaobai's eyebrows seemed to be extraordinary.. If she was right, it might be an ancient seed. What level was it? She did not know, but it must be extraordinary to be able to activate Luo Xiaobai's divine power.

As Luo Xiaobai raised her head, countless flowers blossomed and looked extremely beautiful.

Taking a step forward, Luo Xiaobai had already appeared a thousand meters away. She was standing on a dark blue flower with the plants following her. Roots extended in the void.

Chu Qingyan held her longsword as her figure flashed in the sky. This was the unique ability of her spiritual beast, the Butterfly Star Insect. Its speed was no slower than anyone else's.

"Shadowless Life Devouring Sword."

In fact.

At this moment, Han Fei was being bombarded by countless people. There were punches, arrows, palm strikes, and many armorists' Torrents of Sabers and Swords.

Only, these attacks were all shattered by the Supreme Yin-Yang Diagram, not a single one able to harm his foundation.

Puff, puff, puff!

For the first time, Diwu Weiguang retracted his cynical attitude. He tapped the water with his foot and shot himself out with the wave as a bow.

A large white fish flew through the air. It was his spiritual beast, the Holy Light Fish.

"Holy Light Descends!"

In the sky, a beam of light shot at Han Fei.

Because it was light, even the Supreme Yin Yang Wheel could not dodge it. Furthermore, the Supreme Yin Yang Wheel did not dodge. When the holy light shone, one could only see that the crack on the Supreme Yin Yang Wheel had actually healed quite a bit.

"Hmph!"

"Armor Dao Divinity Rune."

Not far from Diwu Weiguang, a large number of runes appeared, forming an armor.

Diwu Weiguang let go, and the arrows shot out like a stream. In the blink of an eye, thirteen arrows followed one after the other. With a single point, they shattered the strange armor.

Unfortunately, Diwu Weiguang had just broken through the armor.

Seven swords combined as one, bringing with it an unparalleled sword wave as it thrust forward.

Diwu Weiguang turned around with a jerk. "Sword Seven, I'll remember you."

"You can't leave here today."

Zhang Xuanyu had arrived and shouted, "Fei!"

"Son of a b\*tch! Chu Sect's little b\*tch, do you really think I'm a freeloader?"

Zhang Xuanyu turned around and threw the spear out of his hand. He roared, "Heaven Gate Knocking!"

This was the only spear technique Zhang Xuanyu had learned in the Prehistoric Soul Realm. Mortals could open the Heaven Gate too. Even if he couldn't, so what if he knocked on it?

Clang!

Chu Qingyan's Life Devouring Sword landed on the Supreme Yin-Yang Wheel. She twisted her other hand and time changed. One could only see the power of Zhang Xuanyu's spear twisting in the air and attacking the Supreme Yin-Yang Wheel.

"Shit."

Zhang Xuanyu roared and quickly took it back. However, the rule of time had been changed, and he couldn't take back the shot.

At the same time, Chu Qingyan directly spat out a mouthful of blood at the Supreme Yin-Yang Wheel. "Time Annihilation."

Everything happened in a flash.

Chu Qingyan intended to kill Han Fei by destroying time.

At this moment, time seemed to have frozen. Luo Xiaobai was chasing after Chu Qingyan. She was more than 3000 meters away from Chu Qingyan. It seemed very close, but she could not move any faster.

Diwu Weiguang was blocked and could only treat Han Fei a bit with his Holy Light.

Cao Qiu threw a punch, but it was shattered by Chu Qingyan.

Zhang Xuanyu's spear, which was far away, failed to hit Chu Qingyan. Instead, she turned it at Han Fei with Time-Twisting Technique.

Moreover, at the same time, many people used soul attack techniques.

For the current Han Fei, he was surrounded. Chu Qingyan's eyes lit up. Her blood essence broke through the trace of Dao runes and fell on the Yin-Yang Diagram.

"In two breaths, Han Fei will die."

At this moment, Chu Qingyan was also on the verge of going crazy. She was about to make an outstanding contribution, and this genius who was very likely to become a king was about to die in her hands.

Space began to distort. Although the Supreme Yin-Yang Diagram was resisting, it began to gradually distort, as if it would be destroyed at any moment.

Yet.

At this critical moment, a giant hand suddenly reached out from the void.

As the hand stretched out, its flesh and blood were stripped away, leaving nothing but bones.

Moreover, cracks were appearing on the white bones, as if they could collapse at any time.

After all, Ximen Linghan was only at the peak level of the Venerable Realm. Logically speaking, it was impossible for her to cross the river of time. However, these two timelines were too close, so close that even Ximen Linghan could sense them.

Chu Qingyan was shocked. "Impossible! Who? Who can cross the time barrier?"

The giant hand grabbed the Supreme Yin-Yang Wheel and forcefully pulled it into the unknown. Then, it disappeared.

...

In the normal timeline.

Le Renkuang, Li Luoluo, Cao Tian, Cao Jiaren, and Luo Jiutian were chasing into the deep sea at full speed.

Halfway there.

They passed by large fragments of the ship's wreckage.

Le Renkuang roared, "Hurry up, go at full speed... They must be in great danger."

Cao Jiaren shouted coldly, "Calm down, this is already our maximum speed."

Cao Tian's eyes turned cold. "If anything happens to Qiuqiu, everyone will die."

Suddenly.

They saw that above the sky, a hand that covered the sky stretched out from the sky and entered the void.

The speed was so fast that it took less than a breath of time. By the time the giant hand came out, it was already devoid of flesh and blood. All that was left were ghastly white bones covered in cracks that looked like they could shatter at any moment.

Cao Jiaren's pupils constricted. "A Venerable? Who could have injured a Venerable so quickly?"

Luo Jiutian cried out in shock, "Impossible, there is no such thing in the story of the City of Justice."

Everyone turned to look at Luo Jiutian. What the hell are you talking about? We've seen this scene, and you're saying that there's no such thing?

Luo Jiutian didn't know what was going on either, but his expression was extremely unsightly.

"Something's not right. By right, Ximen Linghan should have been attacked by the three Venerables at this time, and should be on the verge of death. At this time, it should be impossible for her to make a move, but if it wasn't Ximen Linghan, whose hand would it belong to? In the history of the City of Justice, this definitely didn't happen."

Li Luoluo said, "Could it be that you guys missed it? After all, ordinary people might not be able to watch Venerables fight!"

Luo Jiutian replied, "Impossible. This isn't a history that I know alone. This is a history that all the big clans know."

Cao Jiaren concluded, "This means that something special happened over there."

Le Renkuang said, "Stop it. Can someone drag me a bit? Hurry up."

...

Han Fei didn't know where he was, but he felt a splitting headache. A series of fragmented images appeared in his mind, as if there was a crimson awl piercing his brain.

The moment the red light pierced into his mind, the Demon Purification Pot started spinning crazily. The green barrier was like a thick barrier that forcefully blocked the red light and gradually crushed it.

However, the moment the red light entered his body, Han Fei's soul was thrown into chaos. All of a sudden, countless random things flashed.

Han Fei struggled and slowly opened his eyes.

"Where is this? Who... am I?"

Han Fei covered his head, feeling that his brain was too chaotic. All kinds of images and fragments appeared, making his brain chaotic.

"It really is you. I knew you would return."

Suddenly, Han Fei raised his head and saw a valiant woman staring at him. Who else could it be but Ximen Linghan?

Han Fei shivered and exclaimed, "Holy sh\*t! Who are you? Where did you come from?"

Ximen Linghan's eyes were filled with sorrow. "So that's how it is. So it was this time that your memories were scattered. Sigh, could this be fate?"

Han Fei quickly stood up. "Well, girl, what are you talking about?"

Ximen Linghan said, "I'm a Venerable. Although I'm still unable to discover the mysteries of this world, I keep feeling that something is wrong. This world is wrong."

Han Fei smiled. "What's a Venerable? I'm a King... Damn!"

Han Fei looked down and found himself standing on the sea. He immediately raised his feet. "F\*ck, f\*ck... I'm standing on the sea? I don't even fall?!"

Seeing Han Fei's surprised look, Ximen Linghan was a little speechless. "You didn't talk so much before."

Lying on the sea, Han Fei looked around curiously and said casually, "I used to? I used to be a fisherman... Huh, my boat? Where's my boat? Wait, who am I..."

Ximen Linghan looked at Han Fei and pointed a finger at him. Han Fei was rendered speechless and his mouth was sealed.

Ximen Linghan said, "It's better for you to be quiet. It's just that my memories are messed up, so I can slowly put them back together. What I don't understand is what I should do now. What I don't understand is, why did you appear so late? What I don't understand is... are you really you?"

Han Fei felt that he must be dreaming! He couldn't speak. Where did this woman come from? She was so mysterious...

"Yes, I must be dreaming. How can a person stand on the surface of the sea... Eh! This woman seems to be very hot. Hehehe... Anyway, it's all a dream. Can I tease her a little?"

Thinking of this, Han Fei immediately walked up to the woman and looked into her eyes.

Ximen Linghan: “???”

Pop!

Han Fei suddenly kissed her, and Ximen Linghan’s eyes widened. This guy... How dare he?

“Hmm? It’s quite real. I’m really lucky. Let me lick her lips...”

Chapter 1109: The Fool Under the Peach Tree

Ximen Linghan kicked Han Fei and sent him flying. Han Fei rolled on the sea surface dozens of times before slowly stopping.

Han Fei was lost for words. “Damn, Is this woman so violent? The beauty in my dream is even stronger than me?”

“Eh! Wait... Why do I feel a little pain? Can I still feel pain in my dreams?”

Ximen Linghan’s expression changed slightly, and she asked, “Why have you become so shameless now? Why were you so cowardly in the past?”

Han Fei thought, “Before? I’ve never dreamed of you before! Otherwise, I would’ve f\*cked you long ago.”

Han Fei was about to go up and teach the woman in the dream a lesson when he found that he couldn’t move anymore.

“F\*ck, don’t! Did I hurt my legs when I’m sleeping? Shit, at such a critical moment, a beauty is right in front of me, but my legs are numb. This is outrageous.”

However, Han Fei thought that it made sense.. He didn’t seem to have succeeded in doing things in his dreams. Forget it. When he woke up, he would go to a tavern and have a drink with a girl.

However, Han Fei found that he couldn’t wake up. The girl was still there.

Then he heard Ximen Linghan say, “The moment my original body saved you, it had already shattered. Unfortunately, the City of Justice is already hopeless! However, when I see you, the feeling in my heart becomes even stronger. This world might be fake.”

Han Fei rolled his eyes. Of course, a dream is fake!

Ximen Linghan let out a long sigh. “If not for that, I wouldn’t have met you till today. I had thought that you were already dead.”

Han Fei really wanted to say, What are you talking about? I’m just having a dream.

Ximen Linghan pointed at a stone tablet not far away, and said, “I discovered this place a long time ago. I’ve tried countless times, wanting to go in and take a look, but I’ve never been able to enter. This time,

when I see you again, I'm sure that this world is fake. So, I've always been trapped in the trap... Perhaps, I'm already dead!"

Han Fei followed Ximen Linghan's gaze and looked over. He found that there was indeed a stone tablet standing not far away, quietly standing on the sea.

More importantly, Han Fei saw a lot of names on the stele. The first one was "Han Fei".

"Huh? Han Fei, I'll go... Isn't my name Han Fei?"

Han Fei was surprised. Yes, my name is Han Fei. Hehe, I'm dreaming indeed. No wonder I couldn't remember my name just now!

"Eh! This stone tablet... Why does it look familiar? Li Daxian? Tang Yan, why do these names sound familiar?"

Han Fei saw the girl walking towards him, but he couldn't move or do anything!

Ximen Linghan gently hugged Han Fei, looking very tired.

Han Fei blushed. In my dream, I was actually seduced by the woman in my dream? Why do I feel a little excited?

However, he heard Ximen Linghan say, "The Beast King said that you won't come back. He said that you've crossed the river of time and returned to the place you should go. But even if you want to come back, why must you wait until I die before coming back? How can you be so cruel?"

As he spoke, Han Fei felt a cold liquid sliding down his neck. For some reason, Han Fei suddenly felt sad.

He thought: Although I don't know why such a beautiful girl appeared in my dream, there must be a story behind it, right? Could it be that I seduced her in my previous life?

"Bah!"

Han Fei put aside his wild thoughts. Since he was held, he could only look at the stele.

For some reason, the more Han Fei looked at the stele, the more familiar he felt that he had seen it somewhere before.

Han Fei wanted to recall where he had seen this kind of stone tablet before, but his head almost exploded at the thought of it.

The woman was still hugging him as she spoke into his ear. "Although you came back very late, it's enough. It's good that you came back. At least, you made me realize whether this world is real or fake. I can finally rest for a while. Perhaps, I will rest for a very long time, a very long time... but you, you seem to still be alive. How hateful. If I die, why are you, a fool, still alive?"

Han Fei was dumbfounded. What are you talking about? What's real and fake? What do you mean you're dead and I'm alive? I'm just a virtual character, okay? I'm almost touched by this sad play.

After a long, long time...

Han Fei felt that the woman released him and looked at him seriously. "I can't hold on much longer. You! You're like a traveler in time and space. You came here at this time... I don't know how to save you. I can only think of this place... Although there's another stone tablet at the end of this sea, it scares me. I can only bring you here. Maybe you can leave here. If not, it's good that we can die together."

When the woman finished speaking, Han Fei suddenly found that he could move.

Han Fei thought to himself, Okay! You've been hugging me for so long, I... have to hug back.

However, before Han Fei could do anything, he appeared next to the stele.

"F\*ck! I can teleport?"

Behind the stele was a vortex in the sea. Han Fei thought, I'm familiar with this... But why is there no suction force?

There were still two lines of tears on Ximen Linghan's face. Seeing Han Fei's silly look, she burst into laughter. This is more like you, a fool.

Han Fei was annoyed. You are a fool! Your whole family is fools!

But Han Fei found that the woman stretched her head over, and he felt a chill on his lips.

"D\*mn, I've been molested again? Sigh, this feels so good. If only I could have this dream every day."

Han Fei was still feeling it when the woman finished kissing him. He hurried to ask, "Hey! Beauty, what's your name? I'll order you in my dreams next time."

Ximen Linghan tittered and said in a low voice, "Fool."

Han Fei was furious. "Hey! Woman, can you stop calling me a fool? This is my dream, so can you please give me some face? What do you want me to do?"

Ximen Linghan suddenly took out a golden page and stuffed it into Han Fei's arms. "I got this by accident. I haven't understood it yet. I'm going to die. This is for you."

Ximen Linghan smiled gently and said, "Me! My name is Ximen Linglan. Remember, there was once a woman in this world who waited for you for a very, very long time..."

After she finished speaking, Ximen Linghan gave a gentle push, and Han Fei's body flew into the vortex.

Han Fei wanted to turn back, but he found that he couldn't. The woman behind him said, "Don't look back. Dying people look ugly. I don't want you to see me ugly."

At that moment, Han Fei was overwhelmed with grief, as if he had lost something important.

However, before he could think further, he was sucked into the vortex. He was truly unable to turn around to take another look.

...

Luo Xiaobai went crazy.

The Void Root continued to pierce through one person after another until Chu Qingyan was fleeing.

Nearly 160 people entered the timeline. Han Fei killed a batch, Cao Qiu killed a batch, and now it was Luo Xiaobai's turn. Less than 50 people were still alive. Of course, not including Yang Nanxi's group.

At this moment, Yang Nanxi looked at the battlefield in the distance with a dumbfounded expression. She was completely dumbfounded.

"Miss, is Han Fei dead?"

Yang Nanxi immediately said angrily, "Are you blind? Is that death? He was clearly saved by someone."

"Ahem... Miss, what should we do now?"

Yang Nanxi thought it was an opportunity. She was still proud of her decision, but Han Fei was saved?

In fact, she wanted to save Han Fei just now, but she held back when she saw Luo Xiaobai go berserk.

At this moment, Luo Xiaobai was on a killing spree. Now that the divine technique of the Luo Family was out, she did not dare to go up.

After a long silence, Yang Nanxi suddenly said, "No, I have to kill one of them. Han Fei has been rescued, so... I'll kill Chu Qingyan."

"Huh?"

The Yang family's subordinates were dumbfounded. What kind of way is this?

Yang Nanxi said, "We have to destroy one, either the Thug Academy or the Chu Sect. Han Fei has already run away. Who else can I kill but Chu Qingyan? She has the potential to become a king. In the future, she will definitely be my competitor."

The group of subordinates looked at each other. Where did you see that Chu Qingyan had the bearing of a king? And where did you see that you had the bearing of a king?

However, Yang Nanxi didn't care. She rushed out with her sledgehammers.

However, before they could cover more than a thousand meters, the four seas were shaking and the void was shaking. Everybody flew up involuntarily, including Luo Xiaobai and the rest.

...

In the normal timeline.

Le Renkuang was still sprinting.

However, he suddenly found that he couldn't run anymore. His body was involuntarily pulled into the air by a suction force.

Rumble...

It was as if there was muffled thunder in the sky, and the entire sky was shaking. Everyone realized that something was wrong. Something was wrong with this space.

In the outside world.

Outside the fifth soul realm, Han Fei's name appeared at the top of the list.

Someone exclaimed, "What the hell? He directly made it to the top! What did Han Fei do?"

Someone was stunned. "How... can this be possible?"

Someone sucked in a deep breath and exclaimed, "Look! The fifth soul realm is closing!"

Buzz buzz buzz!

Figures flew out from the entrance. This was something that had never happened before.

Swish! Swish! Swish!

Endless vines spread out. Luo Xiaobai's cold voice echoed, "All of you must die."

...

On the other side.

In the corner of a small village, in front of a dilapidated house, were two peach trees.

At this moment, there was a seven or eight year old child squatting under a peach blossom tree. His face was dirty and he was holding a small branch in his hand. He was poking an ant with an extremely serious and focused expression.

From time to time, the child would wipe his snot with his sleeve.

At this moment, a group of children whizzed past and stopped when they passed by the peach trees.

"Fool, fool. A noble lady from the Ximen family has been driven out. Let's go and peek at her bathing."

The youth who was poking the ants tilted his head. "I'm at war."

A child rushed up and stomped the ant nest flat. "Fool, if you succeed this time, I will teach you combat skills."

When the child heard the battle technique, his eyes lit up. "Okay."

Chapter 1110: My Name Is Ximen Linglan

This city was called Yu City.

Outside of Yu City, there was a village called Great Wilderness Village near the reef sea. Under normal circumstances, the villagers were not qualified to enter Yu City.

The idiot was none other than Han Fei.

Even Han Fei himself didn't know that he had entered a cycle.

His current name was Wang Han, as common as Han Fei.

He was born in an ordinary family.

Han Fei's father was a powerful cultivator, at least in Han Fei's opinion, who had reached the level of a hanging fisher. Han Fei's mother died in a battle..

...

Han Fei's father had been summoned to fight overseas. Usually, he would return home every few months. Every time he came back, he would bring some toys and shells for Han Fei.

Knowing that Han Fei was not very smart, his father didn't teach him any combat skills since he was a child. He just gave him a random cultivation technique.

In the eyes of Han Fei's father, his son was already stupid and it was not easy for him to live in this era. It was actually good that he didn't cultivate, because he would easily die if he did.

No matter how stupid Han Fei was, he was still his son. It was good that he was still alive. Whether he could cultivate or not was secondary.

Because Han Fei's father was often away from home, Han Fei often went to buy food with the money left by his father when he was hungry.

However, because Han Fei was very stupid, his money was usually spent by other people. Therefore, Han Fei's father specially got two peach trees at the door of their house.

In this world, spiritual plants grew rapidly, so peaches always grew.

However, there were also many teenagers who were in the same situation as Han Fei. For example, two or three of them had similar family backgrounds as Han Fei, but they were not stupid.

Because Han Fei was stupid, the peaches were often picked up by these poor kids. So, Han Fei, who was often hungry, would go to the reef to dig crabs and catch worms alone.

Han Fei's favorite food was Mantis Shrimp. For some reason, he liked Mantis Shrimp very much.

Also, Han Fei was always different from others when he ate. He was always picky, not liking the food he bought. He was always patient enough to get some salt, some seaweed, and some seagrass juice, and cook it. The food he made tasted delicious.

Apart from eating, Han Fei liked to do two things.

One was to poke ants. In his world, Han Fei always felt that he was holding a giant pillar that could hold up the sky. Every time he attacked, it was earth-shattering. He never got tired of it. Every time he poked the ants, he poked accurately and no ant could escape from his hands.

The other thing was that Han Fei liked to draw. When he wasn't hungry, he would either poke ants or squat on the beach to draw. He drew all kinds of strange things, but many people thought that Han Fei drew very well because he drew things vividly.

People often came to Han Fei with fish skins. They liked to ask Han Fei to draw their appearances on the fish skins, but Han Fei didn't like drawing people. He only liked drawing ocean creatures. Occasionally, he would have a flash of inspiration and draw complicated lines.

Han Fei knew how to draw, but he refused to draw people, so he was often bullied. The more he was bullied, the more stubborn he became. I won't do anything that I don't like even if you beat me to death.

Also, Han Fei was not smart, so everyone would bully him.

Of course, children's bullying and teasing had a limit. They wouldn't really kill Han Fei.

Occasionally, when Han Fei couldn't find food and was starving, someone would give him food. For other people, this was like giving alms to Han Fei, which would give them a sense of superiority.

However, Han Fei was very picky about food. He would rather starve or go to the beach to find food than eat the food other people gave him.

Of course, Han Fei was not completely stupid. He knew that he should learn how to fight.

On the beach, fierce insects and gigantic crabs often appeared. If he did not know how to fight, sometimes it was difficult for him to find food on the beach.

Because his father didn't teach him, when Han Fei grew up and saw other people teaching their children, he would always squat on the side and watch.

Those people wouldn't mind, thinking, "What can a fool understand?"

In fact, if he hadn't seen these, Han Fei wouldn't have been able to find food on the beach. He would have been eaten by large crabs and worms.

...

Today, it was said that there was a noble lady from a large clan in Yu City who was driven to the Great Wilderness Village.

Han Fei didn't know why those high-and-mighty people in Yu City came to the Great Wilderness Village, nor did he know the cause and effect. He only knew that the girl lived in a large house even though she was driven here.

Even the fruit tree that Han Fei's father planted for him was enclosed in the house's yard.

However, Han Fei was already used to being robbed, so he didn't care. He could find food himself! He agreed to these children because of the combat skills they said.

Most of the combat skills that Han Fei learned were incomplete, and he couldn't understand the technique that his father gave him. Every time he practiced, he couldn't continue.

But he liked battle techniques.

At this moment, Han Fei responded to the children, threw down the "towering pillar" in his hand, and ran towards the big house.

After all, this was a village. No matter how good a house was, there would always be loopholes.

For example, Han Fei and the other wild children knew where the stones could be moved and where there were tunnels.

At this moment.

It was already nighttime.

Han Fei followed a group of children into the tunnel. The five of them crept into the house.

A child said, "I heard that the noble lady of that large family was in a terrible state when she was chased out. It was her mother who sacrificed herself in exchange for her to come out. It's said that she only had a servant and didn't have any cultivation base. However, this is all hearsay. We mustn't make a sound."

Someone patted Han Fei. "Idiot, do you hear it? Don't make a sound."

Someone sighed and said, "I heard that even crabs can't stand on the clothes worn by the big clans in Yu City. They will slip and fall directly."

Someone chuckled. "More than that! I heard from my father that the descendants of the Yu City's major clans grew up eating spiritual fruits. Unlike us, we eat peaches the most."

Han Fei was a little suspicious. Peaches are also delicious! Are those spiritual fruits better than peaches?

After chatting for a while, they sneaked into the house and climbed out of a hole in an abandoned rockery.

Someone said in a low voice, "Idiot, go scout ahead and find out which room that noble lady is in?"

Someone reminded him. "Idiot, don't make a sound."

Someone said, "Yes, remember to get back and call us when you find her."

Han Fei asked, "What about combat skills?"

Someone nudged Han Fei. "I'll teach you the combat skills when we get back. Go!"

Han Fei was relieved.

Immediately, he crept into the house. In the dark, Han Fei treated the ground as the beach and walked lightly.

From time to time, Han Fei pricked up his ears.

Nobody knew that Han Fei's hearing was very good, which was why he had been able to find Mantis Shrimp on the reefs and beaches.

Han Fei heard the sound of water. He curled his lips and thought to himself, It's so strange for the descendants of the big families in Yu City. Can't they just take a shower in the river?

Soon, Han Fei reached one of the rooms in the house. Following the water sound, Han Fei tiptoed and moved closer.

Han Fei listened carefully and felt that he shouldn't make any sound, so he approached.

However, when he reached the window, he stuffed a blade of grass into the window and opened the window without any sound. However, he did not find anyone but a big bucket.

“Huh? No one? Did I hear wrongly?”

Just as Han Fei was about to listen again, he smelled a strange fragrance. It was very nice.

Han Fei almost drooled. There’s good food!

For a foodie who hadn’t had enough food all year round, the temptation of delicious food was far greater than watching a girl bathe, although Han Fei didn’t know what was so nice about watching a girl bathing.

Han Fei tapped his toe and jumped into the house. Soon he found a small red fruit on a table in the corner.

Gulp!

No one had taught Han Fei if it was good or not to steal, but he was used to being robbed, so he felt that stealing was natural.

The food is right there. Are you going to take it or not? How can you refuse not to take it?

Han Fei not only took it but also ate it on the spot. He grabbed the fruit and stuffed it into his mouth.

Splash!

Suddenly, the sound of water sounded behind Han Fei.

Han Fei looked back quickly, and then...

“Ahhh~”

“Shameless thief, who are you?”

Slap!

Han Fei was stunned. What was that white thing? In the blink of an eye, a person hurriedly wore a layer of clothes and slapped him.

“No, you haven’t started to cultivate. You can’t eat that.”

Han Fei lay on the ground and was knocked out by the slap. Five red finger marks appeared on his face.

When he woke up in a daze, he saw a young girl dressed neatly and staring at him coldly. Han Fei felt that he had never seen such a beautiful person before. There was no dust on her face.

“Who are you?”

The little girl drew a knife from her back and pointed at Han Fei.

Han Fei sat up in a daze. “Wang Han.”

The little girl asked again, “Why did you come here to steal?”

Han Fei replied, “I’m here to scout.”

The little girl was puzzled. “You have to scout ahead to steal things?”

Han Fei said, "I'm just hungry. I didn't steal anything. They want to sneak a peek at the noble lady's bathing. I'm here to scout ahead."

The girl was stunned. Is this guy a fool?

However, she was even angrier.

Fortunately, she was smart enough to ask, "Who sent you here? Who are they?"

Han Fei pursed his lips. He couldn't tell her their names, or they might be beaten.

Seeing that Han Fei was silent, the girl gnashed her teeth. "Do you know who I am?"

Han Fei shook his head.

The little girl huffed and said word by word, "Remember, my name is Xi! Men! Ling! Lan... I am a demoness who kills without batting an eyelid."

Han Fei blinked. "OK! Do you want to continue? I'll ask them to come and watch."

Slap!
