

GOF 1131

Chapter 1131: Slaying An Explorer

Eighteen years later.

A ragged ship that was riddled with holes was braving the storm.

Under this storm, the sky was dark. Every time a lightning bolt struck down, it illuminated the night. There were even lightning bolts striking the ship, but every time, there would be strange arrays appearing, and no lightning bolt could penetrate the array.

A domineering woman stepped on the bow and shouted proudly, "Sprint through this weird place."

Someone cursed, "F*ck, what the hell is this place? I've never heard of such a terrifying place in the outer sea."

Someone was horrified. "It's terrifying. The sea demon just now was blasted to death. That's a great demon in the Dao Seeking realm."

On the top of the mast, a silly-looking boy stood and looked at the lightning in the sky, asking subconsciously, "Forbidden area?"

It wasn't until the next morning that the ship rushed out of the storm.

The morning dawned, and the sky was clear.

There were about twenty people on the boat, who all looked ferocious and were eating around big pots.

Among these people, there were only two exceptions. They often ate alone.

Han Fei was flying in the air, holding a big brush in his hand, drawing a picture.

"Okay! Marshal Han, you're the best in terms of painting."

"Marshal Han, I'm afraid no one else in Yu City can draw such a creative picture. Good job."

Han Fei seemed to be used to these cries and was not touched at all. He was still drawing his pictures seriously, which were made of various lines, mysterious and complicated.

Only the flag at the top was different.

On it, there was a drawing of a skeleton wearing a sailor hat and a red bandana with two scimitars crossed, which was also drawn by Han Fei.

"Marshal Han, when are we going back to Yu City? With your capabilities, you can definitely kill two explorers."

"Marshal Han..."

Suddenly, Han Fei glanced at the sea and disappeared. Then, the water surged and a translucent starfish was caught by him.

Chi la!

A peak-level law enforcer starfish was torn apart by Han Fei's hands and didn't even have a chance to fight back.

After a brief stun, everybody laughed. "Great, we have Starfish to eat now."

Someone mumbled, "I prefer big clams, which have more meat."

Someone spat. "Lobster is the best, of course. It tastes so good."

Someone shouted, "F*ck off! Stir-fried octopus is the best!"

Just as they were discussing which food was delicious, suddenly, they heard a cold shout, "Eat, a bunch of foodies, go hunting. You guys just fool around all day long."

Then these big men all shrank their necks and jumped into the sea.

Those who didn't have time to jump quickly turned back and looked at the ferocious woman fawningly. "Captain, you're up? You woke up early enough."

"Captain, what would you like to eat this morning? Let me get it for you."

"Get the hell out of here. Go prepare the resources. This time, our target is Yu City."

Buzz buzz buzz!

Everyone trembled, and someone grinned ferociously. "Hahaha, are we finally going to Yu City? Damn, we've been waiting for this day for a long time!"

Many people craned their heads out of the sea. "We've been waiting for this day for a long time. Hey, big clans in Yu City, wait and see."

Someone said with a ferocious gleam in his eyes, "F*ck! Let's destroy Ximen first, then slaughter Dongfang, and then kill Sunyang..."

These people were picked up by Han Fei and Ximen Linglan in the outer sea or the deep sea. Yes, they were picked up.

They all had a certain level of strength, but they were forced by the big clans to leave their hometowns in a desperate attempt to enter the deep sea to search for opportunities. They were all outlaws who were eager to conquer Yu City and kill their enemies.

Of course, the result always contradicted their thoughts.

The deep sea was too dangerous!

Too many guys like them had died. After encountering Han Fei and Ximen Linglan by chance, they finally found an organization and joined the Avenger.

After all these years of fighting in the sea, these people were all villains. Even the weakest was an intermediate law enforcer and they had long wanted to kill their way back to Yu City.

However, they also knew that Law Enforcers couldn't cause any waves in Yu City. Only Explorers could do that! However, on the current Avenger, the only Explorer was the captain of the Avenger, Ximen Linglan.

The other person who these people admired the most and treated with sincerity was Han Fei. Han Fei always gave them the feeling that he was ridiculously powerful.

Han Fei was only an intermediate peak-level law enforcer, but it was as easy as pie for him to tear apart a peak-level law enforcer. They once suspected that with Han Fei's strength, even an Explorer might not be able to beat him.

After driving away these crew members, Ximen Linglan smiled sweetly at Han Fei. "Idiot, it's time for dinner. I made you fish soup."

"Hehe!"

Han Fei threw away the starfish in his hand and with a swish, appeared in front of Ximen Linglan.

In the cabin, Ximen Linglan gave Han Fei a basin of fish soup.

She had long been used to the way they used to live in the Remote Desolate Forest where they ate a lot and only ate high-level creatures. They were very nutritious, and over time eating them was good for their health.

"Suck!"

"Suck!"

Han Fei swallowed, but Ximen Linglan didn't eat it. Holding her chin, she looked at Han Fei. "Idiot, don't you want to ask me why I'm going back?"

Han Fei grinned and shook his head slightly.

Ximen Linglan pouted. "You've always been like this. You don't ask and always listen to me. Sometimes, I don't know how to choose. You can't hold on much longer, right?"

"Suck!"

Han Fei scratched his head and tilted his head to look at Ximen Linglan. "Yes!"

Ximen Linglan sighed. "I don't know why the Beast King doesn't allow you to cultivate. But he must have his reasons. You reached the third level of that strange body tempering technique eight years ago. Recently, when you sleep, there will be energy escaping from your body. Is the fourth level about to be broken too?"

Han Fei shook his head with a foolish smile. "I don't know."

Ximen Linglan curled her lips. "I don't know why, but when going to sea with you, I always feel that I'm very lucky. I can even encounter three corpses of Venerable-level sea monsters. I believe that you are a person with great luck. Therefore, I think it's time to go back."

Han Fei looked at Ximen Linglan. "Eat."

“Okay, okay, I’ll eat it.”

As they ate, Ximen Linglan suddenly said naughtily, “Idiot, I guess there’s a high chance that we can take revenge by half. After all, we can’t defeat Venerables. However, we can take revenge by half first. After we take revenge, let’s go back to the Grand Myriad Mountains, okay?”

Han Fei’s eyes glittered. “Okay!”

Ximen Linglan smiled. “I want to go back too. Although the Beast King and the others think I’m too weak, I still like it there and the life there. Should we give them some gifts? Well... Let’s bring a lot of seasonings back, okay?”

Han Fei: “Okay!”

“Idiot, after we take revenge, let’s go back to the Grand Myriad Mountains and have a baby, OK?”

Han Fei was stunned for a moment and scratched his head. “A baby? Which family can give us a baby?”

Ximen Linglan blushed. “I mean, let’s have a baby together.”

Han Fei said, “Even if we ask for it together, they won’t give it to us!”

Ximen Linglan was speechless for a moment. “Forget it. A child who comes like this must be an idiot too.”

...

For 18 years, neither humans nor the Grand Myriad Mountains gave up looking for the thing that could save the world.

It was also 18 years later, the culprit of the Ximen family’s tragedy was never found.

On the contrary, half of the Law Enforcers of the Ximen family died in that battle, which could be said to be a heavy loss. Later, they fought several big clans and lost another dozen people.

Fortunately, the Ximen family had a large family business, and these years they had also raised a group of newcomers. As for the matter at the beginning, gradually no one talked about it again.

On this day, the wind was gentle and the sun was shining, and the clouds were rolling in the sky.

The offshore waters had already become the trial field of Yu City.

Within ten thousand kilometers, it was no longer the outer sea.

No matter how deep they went, there were still big ships rampaging.

Although the sea race had retreated, the sea demons were still rampant. Occasionally, there were even creatures at the Explorer level who would shuttle in the sea area of about 50,000 kilometers.

It could also mean that the sea clan hadn’t abandoned Yu City and the Grand Myriad Mountains. Therefore, those Explorer-level creatures had actually come with a purpose.

But on this day, what came was not sea creatures.

A big ship came from the depths of the sea.

Although the big ship was dilapidated, it was as black as ink. The most conspicuous thing was the big flag hanging high above the mast, on which there was a double-bladed skeleton as if laughing at the world.

Looking at the big sails, the lines on the sails were weird, and the weird patterns were engraved on them. On the hull and even every deck, there were such patterns.

This was the place where Han Fei painted when he had nothing to do in the past 18 years. He had painted on the entire ship and even the cabin.

Regarding Han Fei, Ximen Linglan had always let him do whatever he wanted.

The moment she became an Explorer, a lightning tribulation fell from the sky, and this big ship, the Avenger, with its dense array patterns, helped her block nearly 60% of the tribulation.

Only at that moment did Ximen Linglan know how terrifying this ship had been carved by Han Fei!

It was precisely because of that lightning tribulation that this ship became so ragged.

But there were also benefits!

After being struck by the lightning tribulation, the ship seemed to come to life. All the ship wood turned into lightning strike wood, and its quality was improved by several levels.

The human race patrolled the outer waters to prevent accidents. Most of them were from the big clans in Yu City because ordinary people didn't have that ability.

The reason why the big clans did this was to protect their own interests.

After all, without the lowest level, what could they rule? Besides, the structure of the strong was a pyramid.

The strong masters were selected from billions of people! Therefore, this foundation must not be broken.

Ximen Linglan stepped on the bow of the ship, and suddenly heard a voice in the void, "Who are you? Are you from the Black Stone City?"

Ignoring this person, Ximen Linglan said via voice transmission, "Keep moving."

After a while, a thousand-meter-long ship appeared with two escort ships. In the void, an explorer blocked the way. "Everyone, what do you mean?"

Ximen Linglan didn't answer but turned her head to look behind her. "Does anyone know him?"

More than 20 people flew into the air. One of them, a brawny man, grinned and said, "Hey, who is it? Isn't this Dongfang Yu, the seventh master of the Dongfang family in Yu City? Oh, why did the seventh master come here?"

Dongfang Yu's pupils constricted slightly. "Jia Wuxing, you're still alive?"

The man laughed out loud. "Thanks to the Dongfang family, I'm not dead. Not only am I not dead, but I have obtained an opportunity to become a peak-level law enforcer, Dongfang Yu, are you the only one patrolling the area?"

Dongfang Yu narrowed his eyes. The opponent's lineup is so strong! An Explorer, 21 law enforcers. Among them, there are only 3 intermediate law enforcers and 12 peak-level law enforcers.

If there was only one Explorer and 21 advanced law enforcers here, Dongfang Yu wouldn't find it strange. After all, any big clan could mobilize such a lineup.

However, taking out 12 peak-level law enforcers at the same time was equivalent to all the peak-level law enforcers of an entire family. In a sense, the people on this ship could become a mid-sized faction in Yu City.

Dongfang Yu frowned. "So, are you here for revenge?"

On the big ship and two guard boats in the distance, law enforcers emerged one after another. Among them, there were four peak-level law enforcers, seven advanced law enforcers, eleven intermediate law enforcers, and nearly 30 junior law enforcers.

The people on patrol were all very strong.

Otherwise, if they encountered a strong master, wouldn't they be unable to deal with him? With Dongfang Yu's lineup, coupled with the hull array, they could even resist an advanced Explorer for a while.

However, there was no need for that now. The patrolling people were a mixed team made up of members of different big families in Yu City. At the same time, there were at least four or five patrolling teams like Dongfang Yu's in the sea outside Yu City.

Dongfang Yu smiled coldly. "You think a junior peak-level Explorer and twelve peak-level law enforcers can take revenge? The leading woman, are you also my enemy?"

Ximen Linglan's eyes were cold, and she didn't answer his question, but said lightly, "Jia Wuxing, is this person guilty?"

Jia Wuxing grinned ferociously. "Of course. When my Jia family forged an ultra-quality Divine weapon and was about to soar, it was this Dongfang family who killed all 17 members of my Jia family. I was the only one who escaped. Hey, Dongfang Yu, you were there, weren't you?"

Dong Fangyu sneered. "A good weapon depends on who uses it. A man's wealth is his own ruin. Don't you understand that?"

Jia Wuxing shrugged. "Captain, look, he admitted it without even retorting."

Ximen Linglan raised her eyes and looked at Dongfang Yu. "Kill!"

Swish swish swish!

The Avenger began to charge, but no one got off the boat. Instead, it crashed into the other party's big ship.

Dong Fangyu's eyes turned cold. Who the f*ck is this woman? How can you just directly attack us? Aren't the big clans usually cautious? Don't you know that as an Explorer yourself?

Dongfang Yu roared, "Go to hell! Attack!"

In an instant, the sky was full of contractual spiritual beasts, and all kinds of brilliance descended, almost enveloping the Avenger.

However, Dongfang Yu clearly felt that there was one person missing on the Avenger. He was puzzled. Why were there only two of the three intermediate law enforcers left?

"Pfft!"

Boom!

Almost at the same time they summoned their spiritual beasts, one of the peak-level law enforcers was suddenly alarmed and felt that there was danger. With a thought, his armor appeared.

But at some point, a hand had stabbed into his chest. A terrifying energy burst out, and the peak-level law enforcer died instantly.

Not only that, another peak-level law enforcer had just fused with his armor and summoned a spiritual plant. A big stick slashed down, and the shadow of the stick was like a knife, shining brightly. She died before she could use her law power.

Dongfang Yu's reaction was already extremely fast. He had no time to think about why an intermediate law enforcer was so strong. Rescuing his team members was more important.

However, before he arrived, the void trembled, and Han Fei's figure had already disappeared.

This time, his target was a spirit gatherer. This spirit gatherer had already realized his situation. Immediately, he opened a fish skin map, which was a defensive array he had long prepared.

But then, the void flashed, and he discovered, to his shock, that Han Fei had passed the defense array and appeared directly in front of him.

With a single blow, the spirit gatherer who was a peak-level law enforcer died.

At this moment, Dong Fangyu panicked. Are you f*cking telling me that he's only an intermediate law enforcer?

Dongfang Yu was halfway through his attack when two Soul-Attracting Knives were slashed apart. Above the knife light, there were all kinds of creepy shadows and faces, and a terrifying and evil aura enveloped the area, which seemed to be inauspicious.

Ximen Linglan's indifferent voice sounded, "Your opponent is me."

After both Ximen Linglan and Han Fei took action, the 12 peak-level law enforcers on the Avenger attacked at the same time, their bodies full of murderous intent.

The remaining people on the ship hadn't left, but they were also clamoring. "An intermediate Explorer wants to stop us? In your dream."

“Roar!”

With a roar, a hundred beasts descended. The peak-level law enforcer armorist who was about to escape suddenly vomited a mouthful of blood, and the secret technique on his body was broken. In the next moment, the hammer shadow fell from the sky.

Clang! Clang! Clang!

The power of three hammers directly killed him.

“Alright!”

“Marshal Han is awesome.”

“Haha, you want to run away under Marshal Han’s hands? What are you thinking?”

Although Han Fei was only an intermediate peak-level law enforcer at this moment, and the effects of the secret technique had been greatly reduced, his power after using the secret technique still exceeded 50 waves, which was comparable to a peak-level law enforcer of the top Heavenly Talent level.

That was not all. After gaining power, Han Fei also had unparalleled speed.

If Han Fei’s consciousness was clear, he would definitely know that the two special techniques mastered by the Ye family in the Thousand Star City were nothing more than the Heavenly Void Divine Movement and the Star Teleportation Technique, which were from the Sky Clan.

However, at this moment, Han Fei’s speed had already surpassed that of the Ye family people. He not only had these two techniques, but also had the Phantom Glass Wings and secret techniques.

In this way, Han Fei killed five peak-level Law Enforcers almost in an instant. In the end, the person only had time to escape back to the ship. But for the Star Teleportation Technique, unless the high-level sealing array locked down even space, it was impossible to stop Han Fei.

Then, a scene that shocked the patrolling powerhouses appeared.

Han Fei flashed like a shadow and appeared directly in the array of boats. With a roar, he killed a peak-level law enforcer, and the fear in everyone’s heart spread.

All the peak-level Law Enforcers had died, and Han Fei didn’t touch the others at all, leaving all of them to the scoundrels on the Avenger.

Dong Fangyu intended to tear open space and escape, because these people were really powerful. If someone had told him before that an intermediate law enforcer could kill five peak-level law enforcers in three seconds, he wouldn’t believe it even if he was beaten to death.

But now, he saw it with his own eyes.

With such strength and speed, he might even be able to fight an Explorer.

However, Dongfang Yu couldn’t escape because the woman with the weird scimitars was equally terrifying. There seemed to be infinite resentment souls on her double knives that went straight to his soul.

Not only that, the woman's speed was extremely fast, even far faster than his. Besides, what the hell was her spiritual beast?

Dong Fangyu couldn't see Ximen Linglan's spiritual beast at all, only a black fog. In the fog, there were scarlet eyes. He had never heard of such a spiritual beast.

Puff, puff, puff!

Clang! Clang! Clang!

They collided more than a thousand times in the void, and Dongfang Yu opened a void rift several times, but he couldn't escape at all. Instead, every time he tried to escape through the void, he would be stabbed.

Dongfang Yu roared. He saw the young man with glazed eyes standing proudly in the air. Although he didn't attack, he felt a strong sense of threat from the young man.

Dong Fangyu gritted his teeth and summoned a jade conch phantom. "Who are you exactly?"

In the void, their speed was getting faster and faster, so fast that Dong Fangyu couldn't even react.

Ximen Linglan's voice echoed, "Who are we? We are a group of avengers. My name is Ximen Linglan."

Dong Fangyu's body trembled. This name sounds too familiar. Back then, when a lot of people tried to kill the people of the Ximen family, they all left the name Ximen Linglan.

Son of a b * tch, the real Ximen Linglan is back now, and she is so strong.

On Dongfang Yu's jade conch, black gas was surging.

He discovered, to his shock, that his soul couldn't resist the erosion of the strange power. If this went on, he would die.

"Ha, the jade door is locked."

Boom! Boom! Boom!

Doors appeared one after another, trying to lock Ximen Linglan in.

"Roar!"

However, before Dong Fangyu could do that, he saw a huge ape above the sea, more than 30 meters tall, holding a big rod and smashing down.

"Roar!"

With that roar, the phantom of a hundred beasts appeared, and their feet stepped on the void, making Dongfang Yu's soul pause.

Han Fei, who had used the Beast King Technique, had doubled his strength, which far exceeded the strength of a peak-level law enforcer. His shocking stick smashed through one of the gates.

"What? An Explorer-level power... Is this a secret method of the beast race?"

“Soul Slash!”

Ximen Linglan’s double knives shot out like dark moons and stabbed into Dongfang Yu’s body.

Ka ka ka!

At that moment, the jade doors shattered, and furious waves surged.

On the Avenger, everyone sighed.

Every time they saw Han Fei transform, they were horrified. He was too strong. They had never seen an intermediate law enforcer hammer an Explorer, but now it had really happened.

Although Han Fei’s strength was only at the level of an Explorer after he used the Beast King Technique, he could still use the Hundred Beast Soul Subduing Roar to restrict Dongfang Yu.

Of course, if it was an advanced Explorer, it would be another situation.

But now, it was enough.

After Ximen Linglan’s attack succeeded, Dongfang Yu felt as if his soul was being bitten by ten thousand souls, and his combat power suddenly plummeted.

The battle between the strong only lasted for a moment. When Dongfang Yu noticed what happened, two scimitars had passed through his body like wheels, and Han Fei’s Monkey King’s Three Thousand Sticks smashed down frantically.

Clang, Clang, Clang. After only a hundred seconds, Dongfang Yu died.

Chapter 1132: Great Dao of the World

“Run!”

In fact, the moment the jade doors shattered, the patrolling law enforcers had already begun to flee for their lives.

The Law Enforcers on the Avenger were still slaughtering their enemies when the battle was over! The people who hadn’t attacked yet were trembling and thought to themselves, The captain and Marshal Han are f*cking terrifying!

The other party’s law enforcers all abandoned their ship and fled. After all, Han Fei’s strange movement technique was something the boat array couldn’t withstand. Who would dare to run to the boat?

At this moment, before the Avenger hit the big black ship, Ximen Linglan shouted, “Don’t hit it. We’ve already won.”

However, at this moment, the Avenger was about to crash into it.

On the boat, the helmsmen were speechless. How the f*ck did I know you were fighting so fast?

Someone roared, “No, there’s no time! Smash the smaller ones! Smash the smaller ones!”

Rumble!

The two sides collided, the array exploded, and a huge wave rolled. A big ship of more than 300 meters was smashed into pieces by the Avenger.

Someone hurriedly shouted, "Captain, I didn't do it on purpose! There's really no time."

Someone kicked him. "Can't you f*cking slow down? Do you not believe the strength of the captain and Marshal Han, or what?"

Someone shouted, "There's no food for you at noon. Eat your sashimi."

The man drooped his head and muttered in his heart, Captain asked me to do that!

The big ape turned into a human again.

Ximen Linglan took out Dongfang Yu's Sun-Moon Shell, narrowed her eyes, and quickly looked at Han Fei. "There's a lot of Spirit Awakening Fluid. Do you still want to try?"

At first, Han Fei didn't awaken his spiritual beast because he didn't have Spirit Awakening Fluid. But after leaving the Grand Myriad Mountains, they got a lot of Spirit Awakening Fluid. However, no matter how Han Fei swallowed, he couldn't awaken his spiritual beast.

Not only spiritual beasts, but Han Fei also couldn't sign contractual spiritual beasts, not even one.

This made Ximen Linglan wonder, What happened to Han Fei? Did he miss the best time?

Han Fei scratched his head. "It's useless to drink it."

Ximen Linglan shrugged. Indeed, it was useless for him to drink it. She was already used to it.

Ximen Linglan curled her lips and said, "Then there's nothing good. It's much worse than the treasure of the Venerable-level demon we found last time."

Someone was about to come back. Hearing what Ximen Linglan said, he staggered and fell on the sea.

The man was lost for words. Captain, can you be more careful with your words? You're comparing a Venerable to an Explorer? Are you serious?

Ximen Linglan shouted, "Jia Wuxing, it's yours."

As they talked, Ximen Linglan threw the Sun-Moon Shell over. Because at this moment, Jia Wuxing's body trembled slightly in excitement. He didn't expect that as soon as he came back, he could take revenge.

Although deep in his heart, he wanted to kill the entire Dongfang family.

However, he also knew that he didn't have this ability. Even the Avenger might not be able to do it.

Han Fei tilted his head and looked at the man standing in the air. "Something is wrong."

Leaning against Han Fei, Ximen Linglan said softly, "Idiot, you don't understand. That feeling of revenge, from pleasure to depression, to the untying of the knot in the heart, and then to the greater desire for power... All in all, it's very complicated. He's going to make a breakthrough. We're going to have a second Explorer."

Han Fei was slightly surprised and opened his mouth. "Road..."

Ximen Linglan smiled and pointed at the Avenger. "They all know where their path is. In fact, it's not that difficult to become an Explorer. What's difficult is how to find the Dao."

Han Fei scratched his head. "I don't understand."

Ximen Linglan took Han Fei's hand and led him to the Avenger. "You don't have to understand. Maybe the Great Dao is in your head."

After a while, the mess was cleaned up.

Under the watch of more than 20 people, Jia Wuxing's body was wrapped in infinite energy and power. The Avenger had already driven under Jia Wuxing.

The Avenger was empty. Otherwise, it would only attract more troublesome heavenly tribulation.

Someone cursed, "I'm angry! Old Jia's luck is too f*cking good! As soon as he comes back, he can make a breakthrough and become an Explorer."

Someone said hopefully, "I want to! Who doesn't want to? But I don't have as much luck as him."

Someone grinned and said, "How many more Heavenly Tribulations can the Avenger endure?"

Ximen Linglan said indifferently, "Since the first heavenly tribulation, the Avenger will no longer be destroyed by the heavenly tribulation. In short, it will only become stronger and stronger."

Suddenly, everyone looked up, only to see clouds rolling in all directions and thunder rumbling, like a huge vortex appearing in the sky.

Han Fei looked at Ximen Linglan and said dumbly, "It's not big."

"Pfft!"

"Hiss!"

Everyone rolled their eyes and looked speechless.

"Marshal Han, Old Jia's heavenly tribulation is not big, but not everyone can be compared to you!"

Someone said with a smile, "Marshal Han, when you're going to transcend the Heavenly Tribulation, I'm afraid you'll have to get a few more Avengers."

Someone thought for a moment. "At that time, we can each grab a ship and get twenty Avengers."

Hearing this, Ximen Linglan tilted her head and looked at Han Fei. "I think it makes sense. Why don't we do this in the future?"

In fact, Ximen Linglan had long felt that if Han Fei were to transcend the heavenly tribulation, it must be a very horrible heavenly tribulation. It was better to be safe than sorry. She took this idea seriously.

Han Fei scratched his head. "Okay!"

Boom!

The sky exploded, and blue lightning struck down.

In an instant, armor floated. Jia Wuxing held a spear and struck the sky, and the divine weapon exploded in the lightning.

Chi la!

A fish skin map was torn open, which was the Great Coiled Turtle Array that Han Fei painted. Everyone here had a Great Coiled Turtle Array. As the array hovered, the old turtle lay across.

But the array opened and broke quickly.

Crack... Crack... Crack...

In an instant, dozens of arrays were shattered, but the power of the lightning was reduced by nearly 40%.

"Roar!"

Jia Wuxing was struck down by the lightning and only lasted for half a second before he fell on the boat. Electricity surged on his body, and the lightning struck the entire Avenger until electric arcs flashed.

However, at this moment, the array was fully activated, and a large number of electric arcs seemed to be entering the sea. Although they broke through layer after layer of arrays, they were no longer able to continue and thus disappeared.

Jia Wuxing roared and rose from the ground again, looking at Han Fei and the others. "This thing is awesome. Fortunately, I, Old Jia, am strong and sturdy. If it were an ordinary person, he would have long been blasted to pieces."

"Hoo ~"

Immediately, boos were heard.

Someone yelled, "Where is your face? You only blocked 30% of the attack, and you still have the cheek to brag about it? Look at you, your mouth and nose are bleeding and your body is burnt. How can you still brag about it? It's the Avenger that blocked the attack for you!"

Someone cursed, "Shut up... The second one is coming."

Rumble!

The second time, it was the same way, and blood oozed out of Jia Wuxing's eyes, nose, and mouth, and his body cracked, and he managed to fly back to the sky.

At this moment, no one cursed. Old Jia would be an Explorer if he survived the next attack.

Someone shouted angrily, “Old Jia, if you can’t f*cking hold on, I won’t go to your tomb to visit you next year.”

Someone said solemnly, “Old Jia, it’s time. Marshal Han can cure you as long as you don’t die.”

“Roar!”

Jia Wuxing was bathed in blood, and his blood was burning. Three shields appeared in the air, two array maps hovered, and a secret method was activated.

Rumble!

Bang!

A third thick lightning bolt, purple in blue, struck down, and the array shattered.

More than 20 places on Jia Wuxing’s body exploded, and his body was almost torn apart. He was like a piece of coal, lying on the ship dying.

“Old Jia!”

“Old Jia, hold on.”

“Don’t f*cking die.”

Everybody was rushing to the Avenger.

However, Han Fei was faster than them. When Jia Wuxing hit the deck, Han Fei had already appeared.

Swish swish swish!

The healing brilliance of the Divine Healing Technique was thrown on Jia Wuxing one after another.

After casting seven or eight Divine Healing Techniques in a row, Han Fei felt Jia Wuxing’s violently beating heart and then stopped. Indeed, it was much easier to treat him than to treat the Mountain Giant. After all, their strength was not on the same level.

Ximen Linglan appeared with him and heaved a sigh of relief. It wasn’t easy for this group of people to survive all these years. It wasn’t easy for any of them! She felt that every one of them should become an Explorer.

Ximen Linglan turned around. “Okay, it’s okay.”

The Law Enforcers had just rushed into the Avenger when they trembled under the aftershock of the lightning. As the lightning struck them, they suddenly felt great.

Someone smiled and said, “Hey! Does this count as us sensing the power of the Heavenly Tribulation in advance?”

Someone laughed. “How can you feel it? If you really go up, you’ll be blown up by a single bolt of lightning.”

“Hahaha!”

Everyone laughed.

But Ximen Linglan was very calm. It was impossible to pass the heavenly tribulation without being noticed. Not only the patrolling experts, but also the sea demon beasts.

Ximen Linglan: "Set sail. Go, take that big ship with you. Abandon the small one."

After that, Ximen Linglan ran to the small boat and wrote two words on the long sail: "The Avenger."

...

In the distance, two fleets were rushing towards them at full speed.

Unfortunately, the sea area was so big that it was difficult for the big ships to arrive quickly. However, after only a moment, an Explorer-level powerhouse tore the void and appeared here.

Two explorers arrived one after another.

One of them said, "Someone is transcending a tribulation."

The other person looked at the two big red words on the big sail and his eyes constricted. "This technique is very familiar!"

"They probably won't target the Ximen family anymore. They might be different people. After all, Dongfang Yu is dead."

Both of them looked solemn. Dongfang Yu was an intermediate Explorer after all. Although he had just become an intermediate Explorer, he wasn't easy to kill. This meant that the visitor was extremely strong and at least an advanced Explorer.

...

Ximen Linglan knew very well that their return would definitely be discovered.

At this moment, Ximen Linglan looked at everyone solemnly and said, "Seven days, we only have seven days. Our goal is to overthrow the rule of the big clans in Yu City. Therefore, in the end, all the big clans are actually our goal. In these seven days, we must let them know of our existence."

Someone licked the corner of his mouth and said, "Captain, although what you said is very inspiring and this is a great goal, isn't our strength a little weak? Shouldn't we fight secretly?"

Ximen Linglan looked at Han Fei and said, "Within seven days, plunder the outer sea area. Then our terminal will be the Grand Myriad Mountains."

"Grand Myriad Mountains?"

Everyone looked at Han Fei.

They had always felt that a person like Han Fei should have come from the Grand Myriad Mountains. Otherwise, why would a hundred beasts appear when he roared?

However, Ximen Linglan had never told them about the Grand Myriad Mountains, let alone Han Fei.

Ximen Linglan looked at Han Fei. Her decision was actually not good for the Grand Myriad Mountains. It also kinda meant to make use of Han Fei.

After all, the one the four Venerables cared about was Han Fei, and they taught her just because of Han Fei. Because Han Fei was with her, the Grand Myriad Mountains would stand on her side.

If the Grand Myriad Mountains were involved because of her revenge goal and became enemies with the big clans of Yu City, it would be very unfair.

However, after thinking for so many years, she had become a villain, an unstable factor that could affect the safety of the human race.

However, she was from a big clan and knew how many resources the big clans had monopolized. If ordinary people wanted to rise, they had to fight with their lives.

However, if the children of the big clans wanted to rise, they just needed to extend their hands.

Especially the children of the big clans who were born with good backgrounds, they had a lot of resources to use. Even ordinary children would have a fixed amount of resource subsidies.

As for those Heavenly Talents, they had a lot of resources. As their realm increased, in fact, everything would develop in a good direction as they continued to fight.

Her current idea was to subvert the rule of the strong.

Perhaps because she had seen the solidarity of the Grand Myriad Mountains, Ximen Linglan felt that the hegemony rule of human beings was wrong.

However, it was too difficult for her to subvert it on her own.-

However, once this idea popped up in her mind, she couldn't help but guess that this was her Dao. Therefore, even if something was wrong, she still wanted to do it.

She made the final decision and dismissed everybody.

Only then did Ximen Linglan look at Han Fei. "We're facing foreign invasions, but we still have 500 years. I have found my Dao. I know 500 years is too short for top strong masters. However, I feel it is very long for us. If in Yu City, everyone becomes a free person and everyone can rely on their strength to compete for resources, humans will inevitably rise because this is the great Dao of the world."

"Your Dao?"

Seeing the determination in Ximen Linglan's eyes, Han Fei's heart trembled for some reason, and he nodded heavily.

Ximen Linglan had never thought that a small figure like her who had almost given up on herself would one day become the person who pushed the wheels of history.

Every reform, every revolt from the bottom, was accompanied by suppression or roars of the mass.

Ximen Linglan felt that no matter what, no matter what others said, she had to try.

...

Seven days passed.

Outside a medium-sized ship, more than 100 people had gathered. Among them, there were five law enforcers. Their goal was simple: to hunt, catch spiritual beasts, fish, or hunt marine creatures to improve themselves.

Many people were fishing and some were talking nonsense.

Someone said, "Hey! Have you heard of it? The Avenger robbed the Yang family's ship yesterday. Two explorers went over and fought in the outer sea, but they didn't win. Where is the Avenger from?"

Someone sneered. "Who knows? Anyway, they're very strong. Last time, three explorers found their traces but didn't defeat them. They just ran away. That's just one boat, but even the three explorers together didn't defeat them."

Someone said, "Heh! I know that peak-level Explorers have been deployed. Although the outer sea is very large, the searching ability of the powerhouses can't be underestimated. I think there will be a great battle in three days at most."

Someone nodded. "That's true. It's said that all the big clans have sent their Explorers out. No matter how big the sea is, how can it resist so many people?"

Boom!

Suddenly, the hull shook and everyone staggered.

Then, everyone felt that the hull was hit, and the dragon bone deformed.

A few law enforcers suddenly flew into the air. "Not good, a large sea demon."

After that, nothing appeared in the air, but a terrifying power swept over their heads.

Boom!

The array trembled under the impact, and a big tail appeared in the void.

Someone's face changed drastically. "Not good! It's the Spectral Flood Dragon! Prepare for battle! Prepare for battle!"

An armorist law enforcer broke through the array of boats, fused with the old turtle, rushed through the knife array, and attacked the Spectral Flood Dragon.

Clang! Clang! Clang!

The giant tail swept across, and swords and knives were sent flying. With a bang, the armorist was sent flying thousands of meters away, vomiting blood.

Someone shouted, "Why is there a Spectral Flood Dragon here? Its strength is at least at the peak of the law enforcer realm. We can't beat it."

A law enforcer roared, "Run, return at full speed."

However, at that moment, the shadow of a gigantic tail hundreds of meters long slapped at him.

Someone shouted, "Flash! Armorists, hold on!"

However, the Law Enforcer hadn't returned to the ship yet. As soon as the ship began to operate, before the armorists on the ship had time to gather, they suddenly saw a young man in gray appear in midair.

The young man grabbed the sea demon's tail with one hand and suddenly pulled, pulling a big dragon out of the bottom of the sea.

In the blink of an eye, a cold light swept across and chopped the Spectral Flood Dragon into five or six pieces.

The dragon snake's head turned into a shadow and was about to bite Han Fei, when a golden fist mark appeared from head to tail.

"Hiss!"

"F*ck!"

"Who is it?"

"We were rescued by the Explorer?"

"That's not right! He's clearly... How can he only be a Law Enforcer?"

Suddenly, someone's expression changed. "It's over. It's over. Look, isn't that..."

Someone swallowed crazily. "The... the Avenger?"

"Run! Run! Jump off the ship and run!"

As soon as the first person left the ship array, he heard a voice saying, "We won't kill those who are not from big clans."

"Huh?"

Everyone paused because on the other side, a woman was standing in the air, looking at them.

A law enforcer's body trembled slightly. "Sir, we are not from a large clan! We are itinerant cultivators, so we formed a hundred-person team to go out to sea to hunt."

The armorist who was sent flying hurriedly said, "My lord, please show mercy."

Ximen Linglan's voice was cold. "As I said, the Avenger only kill the members of the big clans. The purpose of the Avenger is to fight for justice and freedom. We want to slaughter the big clans so that everyone in Yu City can become a free person and share the resources of the sea. What the Avenger wants is a united human race without any suppression. This is the principle of the Avenger! Welcome, ambitious people, to join the Avenger's fleet. We'll be waiting in the Storm Strait..."

With that, Ximen Linglan and Han Fei disappeared, and the distant Avenger did not approach but quietly left, leaving a group of law enforcers and Hidden Fishers staring blankly at each other.

"Did... Did I hear that right?"

"So, we're still alive?"

“Son of a b * tch, you scared me. I thought I wouldn’t be able to escape.”

After the fright, someone couldn’t help but reflect, “The Avenger doesn’t seem to be what we think!”

Someone frowned. “Do you think it’s possible? They want to overthrow the big clans in Yu City!”

Someone shook his head. “How is that possible? If a family had a Venerable, how can we overthrow that family? How can the Venerables of the big clans allow this to happen?”

Someone said, “What if the Avenger succeeds?”

A law enforcer’s eyes flickered. “Whether it succeeds or not, let’s not talk about it for now. Do you want to go?”

Many people nodded like chickens pecking rice. Their goal was too ambitious, which sounded very tempting.

The law enforcer glanced at them. “Just f*cking stay here. Even if this matter is true, there will be millions of bones along the way. Don’t you want your family?”

Suddenly, among the five Law Enforcers, a female manipulator stepped away from the array and looked back. “I have no family. My strength is okay. I’m going. Don’t come as a Hidden Fisher. Once you fail, you’ll be gone.”

The manipulator rushed forward to catch up with the Avenger without even looking back, leaving many people speechless.

The armorist sighed. “Alas! She’s gambling with her life! How dare she?”

Beside him, a soul warrior said, “If you have nothing to lose, do you want to bet or not? You’ve seen the two of them. Are they people who covet our resources? They killed the Spectral Flood Dragon without even picking its body up.”

The armorist choked. “If they really succeed, the rise of ordinary people will be at least several times faster... Hey, wait, isn’t the Storm Strait a sea area that belongs to the Grand Myriad Mountains?”

Chapter 1133: Joint Attack

Yi Yue was a manipulator. Her life experience wasn’t complicated. Like most people, her family had died in battle, and she had a few friends, but they were also seeking their own opportunities.

As an intermediate law enforcer, her status was actually not low. Many large families had once thrown her an invitation.

However, she also knew that once she entered a big clan, she would no longer be free. She would become a soldier, fighting wherever she was sent to, unable to get good resources but ordinary ones.

In fact, there were many people who had the same thoughts as her. Therefore, the itinerant cultivators formed a hundred-person team to go to sea to hunt. In this way, although there were more dangers, they would be able to keep what they snatched.

Therefore, when she heard about Ximen Linglan's great ambition, she was immediately convinced..

If the rule of the big clans in Yu City was really overthrown, a free human race was established to uphold justice for billions of humans, and fight for resources with strength, how wonderful it sounded!

However, when she stepped on the Avenger, she regretted it a little.

The twenty burly men had such strong killing intent, and she was just an intermediate law enforcer. How could she not be afraid?

However, what Yi Yue didn't know was that this group of brawny men was also dumbfounded. The captain just shouted and someone had come? And it was a beautiful girl?

These men had wandered in the outer waters for decades and had forgotten what girls looked like except for the captain. They were not nervous, but not used to it. After all, there was only one woman on the Avenger. Besides, she was a couple with Marshal Han, so no one dared to covet her.

Ximen Linglan smiled and said, "Welcome to the Avenger."

Buzz!

Roar! Roar!

As soon as she said so, a crazy roar burst out of the cabin.

"I'm not dead. I'm already an Explorer. Hahaha. F*ck, one who survives a great disaster is destined to good fortune for ever after... Marshal Han, Marshal Han..."

Under the gaze of everyone, Jia Wuxing jumped out and laughed. "Marshal Han, I can't thank you enough. I can get you whatever you want to eat..."

"Jia Wuxing, shut up. Can you act like an Explorer?"

"Uh... Huh? A woman? Where is this woman from?"

Yi Yue looked at this scene in shock, dumbfounded. This person was an Explorer?

After Ximen Linglan scolded Jia Wuxing, she smiled and looked at Yi Yue. "There are not so many rules on the Avenger. Everyone is very casual. Resources are taken by whoever needs them. What shall I call you?"

Yi Yue hurriedly said, "My name is Yi Yue. I'm an intermediate law enforcer and a manipulator. My spiritual beast is..."

Ximen Linglan nodded slightly and looked at Jia Wuxing and the others casually. "Take Yi Yue to know more about the Avenger. In addition, Yi Yue's realm is a little unstable, so let her take some resources to stabilize it."

Immediately, they began to bicker.

"Miss Yi Yue, let me show you around. I'm an intermediate law enforcer, just like you. We are close."

Someone pushed him away. "F*ck off. Do you know what to choose? Miss Yi Yue, I'm a peak-level law enforcer. I'll pick good stuff for you."

Someone scoffed. "You're so ugly. How do you have the cheek to lead the way? Miss Yi Yue, I'm the most normal one here. I'm a very gentle man. I'll take you there."

Yi Yue was dumbfounded. She subconsciously glanced at Ximen Linglan, but Ximen Linglan was already gone. When she looked up, she found that Ximen Linglan was standing on the mast. In mid-air, the young man who had just torn the Spectral Flood Dragon with his hand was carving strange lines on the sail.

Then Yi Yue was taken to visit the ship by this group of burly men.

Seeing Yi Yue's gaze, someone immediately reminded her, "Miss Yi Yue, you can chase any man in the Avenger, but not Marshal Han. He belongs to the captain."

Yi Yue said in surprise, "Marshal Han?"

Someone immediately said proudly, "Let me tell you, I'm not bragging, but in this world, Marshal Han is the most powerful person I've ever seen. Speaking of back then..."

Hearing him brag about those stories of Han Fei, Ximen Linglan grinned. "They're talking about you. In the eyes of these fools, you are the boss."

Han Fei turned his head, glanced at Ximen Linglan, chuckled, and scratched his head.

"Stupid."

...

When Yi Yue saw the resources on the Avenger, she was stunned.

She had never seen so many resources in her life.

She picked up a random Sun-Moon Shell, only to find that it was full. There were also countless Sea Swallowing Seashells, and all kinds of weapons were thrown everywhere. And the quality of the weapons was really good!

Also, what was the green thing in that Sea Swallowing Seashell? Spirit Awakening Fluid?

Also, wasn't the horrified creature a great demon at the Dao Seeking realm? Why wasn't it used to refine Divine Weapons?

Someone hurriedly said, "Ah! These are all foods. Keep them for eating. Let's look at something else."

Yi Yue's eyes widened. "Fo... Food?"

Jia Wuxing laughed. "Yes, Marshal Han is a foodie, so Captain stores a lot of food in the ship."

Yi Yue couldn't help but gape in shock. He was only an intermediate law enforcer. Why was he so strong?

But in any case, Yi Yue felt that she made the correct decision. Although these people looked ferocious, they seemed to be very nice!

...

Five days later, in Yu City.

On the streets, in the villages and towns.

“Hey, have you heard of it? The Avenger is here to save the poorest in Yu City. They said that they are recruiting people in the Storm Strait to overthrow the big clans in Yu City.”

“When did this happen? Weren’t they just a bunch of pirates who were focused on looting?”

“What the f*ck you know? One of my distant relatives saw the Avenger with his own eyes. How can it be fake?”

“Really? Wait, isn’t the Storm Strait the territory of the Grand Myriad Mountains?”

“Who knows...”

...

On a boat.

Someone said, “Hey, bros, why don’t we go to the Storm Strait and join the Avenger too? Otherwise, with our ability to find opportunities, when can we make a name for ourselves?”

Someone sneered. “Do you think you can go to the Storm Strait as you please? The violent vortex there will swallow us before we reach it.”

Someone sighed. “Alas... Why did the Avenger choose the Storm Strait?”

Someone responded, “Are you stupid? How would the strong masters of the big clans dare to enter the Grand Myriad Mountains? It’s said that there are powerful creatures there.”

...

In Yu City.

Someone said, “Bro, we are all itinerant cultivators. Why don’t we go to the Storm Strait and try our luck?”

Someone hurriedly shouted in a low voice, “Are you crazy? Do you know that a group of people has already been caught? I heard that some people from the big clans are already stopping them on the way.”

“Really? Then forget it. Let’s wait and see.”

...

On the other side, a big ship was sailing at full speed in the waves.

Someone at the bow of the ship shouted coldly, “Humph, a few clowns want to destroy our big clans?”

Someone chuckled. "There's already news that the Avenger is on their way to the Storm Strait. Someone has already gone to stop them. We're not much slower than them."

Someone snorted. "If the Venerables had recovered, how could a few explorers have swaggered on the sea?"

A beautiful girl from a big clan chuckled. "They're nothing but clowns! This time, we'll definitely wipe out the Avenger. I heard that there are many peak-level law enforcers on that ship, so we can take it as a good practice. Ximen Lie, don't you think so?"

A cold young man narrowed his eyes and said, "My goal is Ximen Linglan."

The woman chuckled. "Are you so sure it's her?"

Ximen Lie nodded. "It can't be wrong. How similar is this matter to 18 years ago? Perhaps she also got an opportunity. In the past, I spared her life because I didn't think she would have a chance to rise again. But now, humph, she must die."

...

The news had already spread throughout Yu City that the Avenger was going to overthrow the rule of the big clans.

For a moment, countless people yearned for it, but very few took action. They were all watching.

There must be a big battle at the Storm Strait.

If the Avenger made it through, its reputation would inevitably rise sharply.

But once it failed, all of this would just be a beautiful bubble.

At this moment.

The Avenger was racing at sea with three large ships.

The Avenger, which had activated all its arrays, was extremely fast. Han Fei ran to the other three ships to draw arrays.

The main reason was that there was no more space to draw on the Avenger, and Han Fei felt that he couldn't hold back his realm anymore. He had to find something to do so that he could forget about the breakthrough.

Bang!

One of the arrays collapsed, setting off a huge earthquake.

Ximen Linglan said, "This is the third time you broke an array today. It seems that you want to go back too."

Han Fei raised his head and smiled. "Yes!"

Ximen Linglan smiled and said, "We're almost there. We'll enter the Storm Domain and the Swirl Domain in about half a day. I think there should be many seniors from the Grand Myriad Mountains there. Now, let's go to eat first."

Han Fei grinned and suddenly frowned. He roared at the air and punched out.

Bang!

A crack appeared in the void, and a big hand reached out and squeezed the golden fist mark.

Immediately afterward, a middle-aged man in a purple robe walked out of the void and glanced at Han Fei and Ximen Linglan. "Well, your strength is not weak. However, you are only peak-level law enforcers. Are you people on the Avenger?"

Ximen Linglan shouted in a low voice, "Idiot, retreat to the Avenger!"

"Humph, you want to retreat?"

The middle-aged man held the void cage and sealed the space with a shield. Then, with a twist of the void, Han Fei and Ximen Linglan had already disappeared from his confinement array.

"Huh! Is this the law of space?"

As the Grand Myriad Mountains and Yu City had very few interactions and never got along, the Sky Clan's magical technique wouldn't be told to humans at all.

If a Venerable were here, he would definitely know something.

However, because the Explorers had never fought the top powerhouses of the Sky Clan, they didn't know the Heavenly Void Divine Movement and the Star Teleportation Technique. They only thought that it was the law of space.

Ximen Linglan shouted, "Open the array!"

In Ximen Linglan's plan, the Avenger, which had been infinitely augmented by Han Fei's arrays, was actually very fast. This was why they could avoid Explorers so unpredictably these days.

According to her calculations, those people couldn't deliver the news that fast. But now, it was clearly beyond her expectations.

Buzz buzz buzz!

In an instant, the Avenger turned into a super turtle shell surrounded by a misty light. Spiritual energy surged in all directions, and its speed suddenly soared.

The explorer who appeared was a little stunned too. How many arrays had been set up on this ship?

The Explorer sneered. "Since you've been caught by me, do you think you can escape?"

The void tore again, and the Explorer appeared in front of the Avenger. The void hand pushed across the sky. He didn't believe that he couldn't even stop a ship with his full strength.

Rumble!

A terrifying power swept across the four seas, and the ripples spread out for dozens of kilometers.

However, the explorer's eyes narrowed. He was fine? This ship didn't even retreat?

At this moment, everyone on the Avenger was gathered on the deck. They had abandoned the big ships behind them. They could grab more boats, but a battle was about to break out, so they had to fight all-out.

Jia Wuxing shouted, "F*ck, who is it?"

Ximen Linglan said solemnly, "A peak-level Explorer."

As a newcomer, Yi Yue watched this scene with her heart palpitating. Could a peak-level Explorer withstand it? Apart from the captain and Marshal Han, what other special reliance did the Avenger have?

But before they thought about it, three more explorers tore through the void and came at them.

Ximen Linglan's face changed slightly. "We can't wait. This is just the first batch! Once we delay it, there will definitely be a second batch."

Jia Wuxing said awkwardly, "Captain, I don't think we can beat them!"

Someone gritted his teeth and said, "Zhou family, Zhou Zifu."

Someone's eyes were cold. "Zhao Pi from the Zhao family."

Ximen Linglan shouted in a low voice, "Now is not the time to be angry. Venerable Bone Spiritual Energy Cannon, prepare."

The so-called Venerable Bone Spiritual Energy Cannon was forged by Han Fei with the Venerable-level sea demon bones. After learning the Hundred War Divine Hammer, he found that its practical value far exceeded ordinary refining methods.

As for why it was a spiritual energy cannon, he learned it from a big flood dragon in the sea. In the battle with the big flood dragon, Han Fei used the Venerable bones to forge two killing weapons of this level.

Ka ka ka!

Two large circular holes were opened on the deck of the Avenger, and two artillery shells appeared. At this moment, the four Explorers had already communicated with each other and attacked at the same time.

Some could carry giant shields, some held battle axes, and some held silver spears.

Of course, these three people were not peak-level Explorers. However, there were also two advanced Explorers and one intermediate Explorer.

The peak-level Explorer roared, "Break the arrays."

"Roar!"

A Mountain-Carrying Conch appeared, its body huge like a mountain.

Rumble!

Clang!

Crack!

When they joined forces, more than ten arrays shattered.

A small hole appeared in the sail in the front. The speed of the Avenger dropped by half, and the hull shook violently.

Shua!

Han Fei and Ximen Linglan appeared in front of the Venerable Bone Spiritual Energy Cannon at the same time. They raised the cannon and aimed at the void.

The peak-level Explorer shouted, "Be careful. I don't know what that thing is."

Bam! Bam!

Two shots were fired in an instant.

The entire Avenger froze, and a terrifying mass of spiritual energy appeared in front of two of the explorers as if it had broken through the void.

Rumble!

The sea surface caved in, and huge waves rose to the sky. Half of the sky was illuminated by white light, illuminating everyone's eyes.

"Ahhh~"

"Dodge that thing."

The four explorers retreated far away. When they stabilized themselves, they were horrified.

Among them, the intermediate Explorer's armor was shattered, his body was dripping with blood, his chest and abdomen sunken, and his two arms were gone.

As for Zhou Zifu from the Zhou family, half of the Mountain-Carrying Conch's body was directly shattered. He was so frightened that he hurriedly put away his spiritual beast. Damn, he almost died.

When the white light flashed again, another cannon shot was fired.

This was launched by Han Fei. He was aiming at the Explorer who had lost his arms.

However, this time, the peak-level Explorer slashed the void. "Dragon Slaying Slash."

Rumble!

Once again, white light exploded, and furious waves billowed to the sky.

Ximen Linglan fired again. Although each shot consumed a huge amount of spiritual energy, they had a lot of spiritual energy, so they didn't hesitate.

They could've shot hundreds of such cannons.

On the deck, everyone laughed.

"Haha! Explorers? So what? F*ck, come again!"

"Son of a b * tch, Zhou Zifu, do you still remember me? You f*cking definitely don't, but I remember you. My sister died miserably at the hands of your Zhou family's son, Zhou Fei. I'll settle this score with you sooner or later."

After a few cannon shots, the explorers all stepped in the air at an astonishing speed.

The peak-level Explorer said via voice transmission. "It takes time for that thing to aim. As long as we avoid their shots, we can still attack them.

Zhou Zifu didn't seem to hear the clamor on the boat. "I'll attack from the bottom of the boat."

At the moment when they dispersed, Han Fei and Ximen Linglan suddenly disappeared. The void twisted, and the two of them appeared directly in front of the intermediate Explorer who had lost his arms.

The latter shouted coldly, "Saber Waterfall!"

"Roar!"

In an instant, hundreds of beasts floated in the air, stomping in the air and roaring.

A knife light appeared in Han Fei's hand, and he slashed out with all his strength.

Of course, it was a pity that the knife light was instantly shattered by the waterfall-like sabers.

However, when the man attacked, gravity fell, and hundreds of crises seemed to be coming from the void.

"Just the Law of Gravity, shatter."

Even an Explorer who was seriously injured was still an Explorer. He couldn't be killed so easily.

However, the opponent in front of this person was Han Fei. Behind him, a black fog came, and two Soul-Attracting Scimitars hit him.

"Puff! Puff!"

Both attacks hit the target.

Just when Ximen Linglan was about to continue to attack, Han Fei appeared and took her away from the Twisted Space. This was because there was a dragon shadow pouncing at them, and the peak-level Explorer had already arrived.

"Roar!"

Bang!

Han Fei roared and tried to stop him.

However, the other party's realm was too much higher. Taking the chance of void twisting, he almost touched the two of them.

However, the Venerable Bone Spiritual Energy Cannon exploded again, and it was Jia Wuxing who fired it.

With another loud bang, Han Fei and Ximen Linglan returned to the Avenger.

All this happened in a flash. It was not that the other people on the boat didn't want to help, but that they couldn't do anything before they realized what was going on.

Only Jia Wuxing, who had already become an Explorer, could take action in time.

Returning to the boat, Ximen Linglan quickly looked at Han Fei, only to see blood at the corner of Han Fei's mouth. She shivered. "Idiot, are you okay?"

Han Fei shook his head and cast a Divine Healing Technique on himself.

Jia Wuxing shouted, "Marshal Han, it's too risky. The other party has a peak-level Explorer after all."

Yi Yue, who had witnessed the entire battle, was stunned. An intermediate law enforcer was going to kill an intermediate Explorer? And he escaped from a peak-level Explorer? This completely subverted her impression of an intermediate law enforcer.

At this moment, Yi Yue finally knew why these ferocious guys worshiped Han Fei so much. How could anyone not admire him? Considering his shocking courage and strength, she had already begun to worship him.

At this moment, the Avenger was flying very fast.

After a round of fighting, neither side gained an advantage.

The only bad news was that the intermediate Explorer was vomiting blood. He was seriously injured twice. Although he wasn't killed, he had no combat power left.

However, this person wasn't important. What mattered most was that peak-level Explorer. The Venerable Bone Spiritual Energy Cannon only left a few drops of blood on his fist.

"Do you think you can escape with a boat?"

The peak-level Explorer didn't attack again but said to Zhao Pi and the seriously injured Explorer, "Go back and guide them."

Zhao Pi nodded slightly, tore the void, and disappeared in the blink of an eye.

The peak-level law enforcer looked at Ximen Linglan and Han Fei. "This place is at least five hours away from the Storm Strait. As for the strong masters in Yu City, they will arrive in two hours. Why don't you try stalling them? I'm curious, who drew this ship's arrays? They're indeed exquisite."

Seeing that someone was looking at Han Fei, the peak-level Explorer's pupils constricted slightly. "Oh! This is surprising. An intermediate law enforcer has power comparable to an Explorer, controls the law

of space, and can draw such a complicated array. What a peerless genius. Unfortunately, he chose the wrong path.”

Ximen Linglan said coldly, “Our path is to flatten you big clans who have occupied Yu City for thousands of years. If we survive this disaster, the big clans in Yu City will never have peace again.”

“Heh! Shut up.”

Chapter 1134: I Want to Make a Breakthrough

The Avenger was shaken, but the arrays were not broken.

Zhou Zifu suddenly appeared in midair. He shook his head slightly. “The bottom of the boat is also engraved with strange arrays. These arrays are interlocked and can’t be completed in one day. However, these arrays are not very strong in themselves, but they are strung together and very complicated.”

With that, Zhou Zifu looked at Ximen Linglan and Han Fei. “If my guess is correct, if three peak-level Explorers attack together, these ship arrays will definitely be broken.”

Someone cursed, “Then break them. You two are simply not capable enough.”

Someone laughed. “I didn’t expect that one day I would have a chance to confront a peak-level Explorer. I’ve set an example for countless people.”

Jia Wuxing grinned and said, “Captain, Marshal Han, if they really break the arrays, you two must escape. It’s not a pity that we die. As long as you two escape, I believe that sooner or later these fish shit families will be wiped out.”

“Yes, that’s right. Marshal Han, remember to take the captain away.”

“That’s right, Marshal Han. Remember to leave first. We’ll cover you.”

“Haha, I should have died a dozen years ago anyway. I’m satisfied to live a dozen more years!”

Ximen Linglan turned around and shouted, “It’s not time to run yet. I want to see what these people are capable of!”

With that, Ximen Linglan said proudly, “Don’t you want to know why we’re going to the Storm Strait?”

The peak-level Explorer narrowed his eyes. “Oh, tell me about it...”

Ximen Linglan glanced at Han Fei and smiled. “Because we are from... the Grand Myriad Mountains.”

“Bullshit.”

Zhou Zifu sneered. “The human race has nothing to do with the Grand Myriad Mountains. With your strength, can you enter the Grand Myriad Mountains?”

Ximen Linglan sneered. “Do you want to bet?”

The peak-level Explorer pondered for a moment and said, “Even if you come from the Grand Myriad Mountains, so what? The human race and the Grand Myriad Mountains never get along. Do you think they will fight against the human race for you?”

Ximen Linglan frowned slightly. She wasn't sure about this.

However, with Han Fei here, Ximen Linglan felt that it was very likely. However, she didn't know much about this matter. She didn't know why the four Venerables regarded Han Fei so highly. Therefore, even if she told these two people, it was probably useless.

Suddenly, Han Fei scratched his head. "I want to make a breakthrough."

Ximen Linglan's body trembled slightly.

Not just her, everyone on the Avenger trembled slightly.

Han Fei was going to make a breakthrough, which was something they had never seen. Yes, in the past 18 years, Han Fei had only made two minor breakthroughs without even breaking a realm.

However, at this moment, Han Fei said that he was going to make a breakthrough! This meant that if Han Fei became an advanced law enforcer, his strength would increase sharply.

Zhou Zifu laughed. "Hahaha! What a joke. Even if an intermediate law enforcer makes a breakthrough, so what? Even if you are talented, so what?"

However, on the Avenger, more than 20 people looked at Zhou Zifu as if looking at a fool, thinking, You don't understand at all.

Ximen Linglan looked at Han Fei with a complicated look. She didn't know what Han Fei's breakthrough would bring. However, the Beast King once said that there should be a reason for Han Fei to suppress his realm.

Ximen Linglan took a deep breath. "Okay!"

Han Fei disappeared with a swish and had already entered the cabin.

Jia Wuxing and the others had completely forgotten that there were two Explorers outside the ship. They were all guessing.

Jia Wuxing: "I can't imagine it! I thought that Marshal Han wouldn't make a breakthrough until he couldn't hold it anymore."

Someone rolled his eyes. "He already can't hold it anymore. Marshal Han's body is dispersing energy."

Someone agreed. "If it weren't for Marshal Han's shockingly strong physique, most people would've died ten years ago."

Yi Yue's body was tense. She felt that it would be difficult this time.

Although she had heard a lot of stories about Han Fei these days, no matter how strong a person was, he couldn't cross an entire realm to challenge a peak-level Explorer, right?

Even if he could, how could he fight so many enemies alone?

Someone looked at Yi Yue with a smile. "Yi Yue, don't be nervous. After Marshal Han makes a breakthrough, even if he can't beat them, he can at least take the captain away. It's very meaningful."

Someone nodded quickly. "Sorry to involve you in. You've just boarded the Avenger a few days ago, and we're facing such a crisis now. But don't panic. Maybe we can break into the Storm Strait."

...

Outside the warehouse, Han Fei was sitting cross-legged.

All these years, he really couldn't hold it back anymore.

Since five years ago, he had been practicing the Indestructible Body to suppress the energy explosion in his body.

This was the main reason why he could tear apart the strong beasts. This was because at this moment, he had already broken through the third level of the Indestructible Body and was about to reach the fourth level.

But at this moment, he also realized the danger. If there were more people of the same strength outside the ship, he and Ximen Linglan might lose.

He held a Sun-Moon Shell in his hand, and with a hum, soaring spiritual energy erupted on the Avenger. Because of the extremely complicated arrays, even the peak-level explorers outside had their senses blocked.

However, spiritual energy was swarming in from the outside world, and the faces of the people on the opposite side changed. It was just a breakthrough of an intermediate law enforcer. Why was it so loud?

Not only spiritual energy, but also terrifying energy erupted in the cabin.

An hour later.

Crack!

A crisp sound came from the cabin.

For a moment, everyone looked at the entrance of the cabin.

However, spiritual energy was surging nonstop. It seemed that the entire Avenger was covered in spiritual energy.

Two hour passed.

Someone asked in surprise, "Marshal Han is still making a breakthrough?"

Jia Wuxing said, "Don't disturb him. We never understood Marshal Han's way."

Smack!

With another breakthrough sound, everyone realized that Han Fei was indeed making a breakthrough. And very quickly, in just half an hour, not only had he stabilized his realm, but he had also made a small breakthrough.

After another hour, the people outside were still waiting for reinforcements. After all, the arrays couldn't be broken yet.

However, another crack sounded in the cabin.

Outside the boat, Zhou Zifu frowned. "Is there such a precedent? This person actually broke through two levels in a row after breaking through a realm? Does he want to break through all the way to become a peak-level law enforcer?"

The peak-level Explorer frowned slightly. "It doesn't matter. As long as he doesn't become an Explorer, no matter how many breakthroughs he makes, it won't change anything. Today, this Avenger will definitely be wiped out."

At this moment, perhaps because they were close to the so-called Storm Strait, the wind and waves grew stronger, and the wind howled.

Buzz!

Suddenly, the void was torn apart.

With a swish, Ximen Linglan flashed to the Venerable Bone Spiritual Energy Cannon, raised her hand, and fired.

However, the newcomer's sword shadow struck horizontally, but after only a pause, a crack appeared on his palm, and then it returned to normal.

"Interesting. Brother Feng, it seems that we are not late."

The peak-level Explorer nodded slightly. "Brother Dongfang, are you alone?"

Buzz!

The void cracked again, and two more people stepped out. Ximen Linglan's pupils constricted.

"Brother Ximen, we've been waiting for you."

Ximen Linglan gnashed her teeth, her eyes spitting fire. "Ximen Wuqing, Ximen Zhan..."

Ximen Linglan would never forget this person. Ximen Wuqing, her nominal second granduncle, had severed her path as a heavenly talent.

Beside Ximen Wuqing was her third granduncle, Ximen Zhan. This person liked to fight, but he pretended to be elegant and noble. However, he was ruthless and wasn't a good person.

Ximen Zhan's pupils were constricted. "Huh? It seems that it's really you. Ximen Linglan, you've become an Explorer? It seems that you're really lucky!"

Ximen Wuqing's eyes turned cold. "B*stard."

Ximen Linglan shouted angrily, "F*ck you, old b * stard. You robbed me of my spiritual heritage and killed my mother. I'll never forgive you."

Ximen Wuqing chuckled. "Your mother? Didn't you kill her yourself?"

Knowing that Ximen Linglan's real enemy was here, Jia Wuxing and the others immediately shouted, "Old b * stard, f*ck you!"

Someone scolded, "Old b * stard, the Ximen family will be wiped out sooner or later."

"Hmph!"

After all, he was a peak-level Explorer. How could Ximen Wuqing allow others to insult him? Immediately, he slammed his palm at the Avenger.

Boom!

However, the complicated array floated in the air, and Ximen Wuqing was surprised that his blow was blocked.

Ximen Wuqing couldn't help but look at the peak-level Explorer. "Sun Qian, this ship array?"

Sun Qian smiled. "If we can break it, I won't call you over."

Ximen Wuqing snorted coldly. "Let's attack together."

Ximen Linglan: "Jia Wuxing, you'll be in charge of the other Venerable Bone Spiritual Energy Cannon."

"However, there are six Explorers, three peak-level Explorers, and three advanced Explorers here. Two cannons are obviously not enough."

As for the others, they were useless in this battle.

If the person who came was a law enforcer, they would have long rushed out. But at this moment, they could only curse on the ship.

Bang! Bang! Bang!

Rumble!

Boom!

A real battle began.

Although neither side could temporarily injure or crush the other party, at least the noise was deafening, like thunder.

Ka ka ka ~

The big array of the Avenger was cracking.

Three peak-level Explorers attacked together, and three advanced Explorers covered them. Although Han Fei's array had been painted very complicated, it still couldn't withstand such a violent bombardment.

Only half an hour later, half of the arrays on the Avenger was broken.

Ximen Wuqing shouted, "There's only one last layer left. This layer is the most complicated. It must have engraved the entire ship into a whole. Let's shatter it together."

Chapter 1135: Kill the Explorer

Smack!

The energy and spiritual energy on Han Fei's body slowly gathered.

As he slowly opened his eyes, countless images began to form in his mind. In an instant, eighty percent of his soul came together.

"Huff!"

Han Fei let out a long breath, scanned with his perception, and sighed in his heart. "Alas! It seems that when I reach the peak level, it is the time for me to fully recover. Calabash, Calabash, why didn't you block that attack back then? Now I'm in a dilemma!"

Han Fei smiled self-deprecatingly. "Shit, Yu City, City of Justice, Prehistoric Soul Realm... It seems that history is indeed complicated. I just didn't expect that I was actually in this history..."

Han Fei sobered up.

.

He felt that there was something wrong with this history. He had come in for no reason! In a sense, was he interfering with history?

"No!"

Han Fei realized that maybe this was part of history.

However, if he was part of history, was he really Han Fei? Or was the Earth real?

Han Fei shook his head slightly, cleared his mind, and rose.

He curled his lips. How could he fight this battle?

The Avenger was the fruit of painstaking labor for 18 years of the fool, Wang Han. Now, it had been destroyed. The last array could only last for half an hour at most.

However, although he was the fool, Wang Han, he still had his pursuits. Now, his understanding of arrays had reached an extremely high level.

Han Fei couldn't help but click his tongue. If he maintained this state to study arrays, sooner or later he would be able to trap and kill an Explorer.

Outside, the battle was fierce.

Suddenly, Yi Yue and company saw a figure suddenly appear beside them.

"Damn!"

"Han, Marshal Han?"

"Marshal Han, when did you come out?"

Ximen Linglan trembled. For some reason, she felt that Han Fei was different now.

Jia Wuxing shouted, "Marshal Han, would you like to operate the cannons? You should be more proficient than me."

Without looking back, Han Fei said casually, "No, go on."

Everyone suddenly trembled.

Since when did Marshal Han speak so soberly?

Outside, Ximen Wuqing sneered and shouted, "I thought who it was! Just an advanced law enforcer."

Han Fei smiled and stomped, and a series of arrays rose at the same time, which stunned everyone.

Yi Yue and the others were also dumbfounded. Is this an array? I can't even kill people as fast as you!

However, those Coiled Turtle Arrays were as fragile as paper in front of these peak-level Explorers, unable to withstand their attacks at all.

Ximen Linglan shouted, "Idiot."

Han Fei turned around and smiled at Ximen Linglan. "I heard you."

Ximen Linglan's face changed drastically, and a trace of horror appeared in her eyes. "You, you... You got your memory back?"

Han Fei heaved a sigh. "Almost there. But it doesn't matter. You guard it. I'll be back soon."

"Huh?"

Jia Wuxing and the others were surprised. What do you mean? Where are you going?

Ximen Zhan sneered. "You're just an advanced Law Enforcer. Where do you want to go?"

Han Fei glanced at Ximen Zhan contemptuously. "Why do you care where I go?"

Buzz!

In an instant, Han Fei had already disappeared a kilometer away from the Avenger. He activated the Devil Change, the Phantom Glass Wings, the Agility of Wind, and the Heavenly Void Divine Movement, setting up a dozen speed arrays in a row.

In an instant, Han Fei disappeared from everyone's vision.

"Zhan, stop him. He's looking for reinforcements."

Although Sun Qian was surprised at Han Fei's speed, he still shouted to remind that Han Fei was going to the Storm Strait to seek reinforcements.

Ximen Zhan quickly tore the void and chased Han Fei away.

...

To be honest, Han Fei didn't even know how fast he was now. The peak speed boost of the Agility of Wind had reached a terrifying number, six times.

The Heavenly Void Divine Movement Technique was extremely fast in the first place. With Devil Change, he had reached the speed of an intermediate Explorer. Besides, he also had the Phantom Glass Wings.

The two stepped into the void one after another.

First, eight hundred kilometers away, Han Fei felt space fluctuating, his body twisted, and he moved a thousand meters horizontally. When Ximen Zhan came out, he was speechless to find that Han Fei was already dozens of kilometers away.

Ximen Zhan felt terrible. Are you f*cking kidding me? The speed of an advanced Law Enforcer is comparable to mine?

The problem was that the moment he tore the void, he needed time. And this little time was enough for Han Fei to fly dozens of kilometers away.

Ximen Zhan snorted. "Let's see how far you can run!"

This time, Ximen Lie tried to cross thousands of kilometers to block Han Fei.

In fact, he was indeed in front of Han Fei. However, when he appeared, Han Fei was gone. When he scanned around with his perception, he found that Han Fei was rushing somewhere 300 kilometers away.

"How is that possible?"

Han Fei sneered. So what if you're an Explorer? With my divination technique, how can you stop me?

After only half an hour, Han Fei saw the Storm Strait.

The so-called Storm Strait must have experienced a certain battle here. The sword marks caused waves of sword energy. Therefore, there was a very strong sword aura here.

Besides, there was a remnant array here. On the sea, there were vortexes one after another.

"This is a perfect place for cultivation."

Han Fei immediately figured it out. When he saw the seaweed and demonic plants here, he knew he had arrived.

"Roar!"

The Hundred Beast Soul Subduing Roar burst out a billowing beast roar. For a moment, Han Fei felt that a perception was sweeping over.

Han Fei looked back and said in a hurry, "It's me, Wang Han. The Giant King, the Beast King, Venerable Tianqing, and the Water Immortal are all my teachers. There are high-level explorers chasing me. I need your help."

After that, Han Fei deliberately slowed down.

Sure enough, after only one minute, Ximen Zhan arrived.

"Huh?"

When Ximen Zhan appeared, he found that Han Fei was a thousand meters away, looking at him with a smile.

Ximen Zhan's pupils constricted as he looked around. "It's just some demonic plants. Do you think they can save you?"

"Roar!"

Han Fei's body suddenly deformed and turned into a big ape nearly 50 meters tall. As Han Fei extended his hand, a big stick appeared in his hand.

A low and domineering ape's roar rang like a demonic sound. "I don't think I can defeat an advanced Explorer. However, let me try!"

Buzz!

A huge pillar that held up the sky soared hundreds of meters in the air, burning fire broke through the air, and suddenly smashed down.

Ximen Zhan's expression was extremely ugly. Was this guy really related to the Grand Myriad Mountains? He was a battle maniac and had once read some records about the beast race.

At this moment, Ximen Zhan said coldly, "Beast! King! Technique?"

Ximen Zhan shouted angrily, "This place is still far away from the Grand Myriad Mountains. I just entered the Storm Strait. Who would know if I killed you first?"

Swish! Swish! Swish!

Seeds were popping up from nowhere, and a gigantic algae at the bottom of the sea emerged.

Bang! Bang! Bang!

Seeds bloomed one after another, blooming with purple demonic flowers.

The broad leaves were like an array, sealing off the sky.

"Moo!"

Suddenly, Ximen Zhan heard the low cry of an old bull.

"Chirp!"

The void was torn apart, and an enormous hawk appeared.

"How can there be so many strong masters?"

At this moment, it was impossible for Ximen Zhan to escape. The void was shaken and tumbling by Han Fei's blow. At this moment, even if he could tear it apart, he might be caught in the turbulent void.

Bang!

XiMen Zhan's hammer struck the sky.

After all, he was an advanced Explorer. No matter how much Han Fei's strength increased, it was impossible for him to suppress him in strength.

Han Fei's rod was shaken back, but a huge claw left six red marks in the air, spanning a hundred meters.

Ximen Zhan wanted to dodge, but his surroundings had been blocked by demonic plants.

"Mystifying Dragon Corner."

A giant floor dragon appeared, and the hurricane around it formed a shield in front of it.

"Are you kidding me?"

"Wind Sky Spell."

The Sky Survey Golden Hawk flapped its wings, and the hurricane moved horizontally, turning into a big bird of wind, with ten thousand feathers as blades, covering the ground.

Clang! Clang! Clang!

Swish swish swish!

Ximen Zhan burnt his blood to fight and activated a strange technique, and his flesh and blood exploded.

However, at that moment, there seemed to be a huge mountain pressing down. An old bull suddenly took action, his feet were like mountains, and the terrifying gravity directly crushed the space around Ximen Zhan.

Han Fei, who had turned into a giant ape, picked up a broadsword and shouted, "The Draw!"

The overwhelming knife light directly hit the completely restrained Ximen Zhan.

Ximen Zhan roared, "Are the Grand Myriad Mountains declaring war on the human race?"

Han Fei shouted, "Then let's fight."

"Pfft!"

Han Fei couldn't kill Ximen Zhan with a single slash. After all, the difference in realm was too great. Even if he used the Beast King Technique, his strength wouldn't be enough.

However, although he didn't kill it, he still tore a large piece of flesh off of Ximen Zhan.

However, the Sky Survey Golden Hawk was different. It directly tore off Ximen Zhan's arms. At the same time, Ximen Zhan's wounds turned purple, and the poison entered his body.

Bang! Bang!

The old bull stomped and crushed Ximen Zhan's lower body.

A large number of demonic plants fluttered and began to devour Ximen Zhan's flesh and blood.

"No... Why? Explode..."

However, before Ximen Zhan finished shouting, a giant crocodile stuck its head out of the void crack and looked at Ximen Zhan's eyes, directly petrifying him.

Chapter 1136: Who Dares to Mess With the Four Venerables' Only Disciple?

Han Fei looked at the old bull and the hawk apologetically.

However, there was no time to be sentimental. He said, "Seniors, Linglan is still being besieged. Seniors, please help me."

The Sky Survey Golden Hawk said coldly, "Wang Han, you are human. Why are you fighting the human race?"

The old bull said in a low voice, "Do we really have to start a war with the human race? The danger of the Sea Clan hasn't been resolved. The battle of Venerables didn't mean to cause internal strife on the land."

Han Fei said with a serious expression, "Seniors, please believe me. Nowadays, human beings are bullied by the big clans. We have to take this opportunity to clear up the hidden dangers. In the future, human beings will become a free race.. Without strong masters to occupy resources, more people will rise. When hundreds of millions of human beings rise, there will be Heavenly Talents who can push the combat power of human beings to another peak. Only then can they resist the Sea Clan better."

Some demonic plants were shaking, and their voices were ethereal. "It seems that you want the Grand Myriad Mountains to help you control the human race?"

Han Fei shook his head. "It's not control. Everyone is equal. There's no difference in social status. Different strong masters just have different jobs. Everyone shall have a chance to rise. When the time comes, the human race will only have one voice, which is to resist the intrusion of the Sea Clan."

The old bull said, "I need to inform the beast king."

Anxiety flashed in Han Fei's eyes. "There's no time. If we're any slower, Ximen Linglan will be surrounded and killed."

The Sky Survey Golden Hawk was silent for a few seconds. "Let's help you stabilize the situation first. Our king, the Giant King, and the Water Immortal are still recovering. Whether to fight or not remains to be decided by the beast king."

In the end, the Sky Survey Golden Hawk glanced at Han Fei. "Have you recovered your spiritual senses?"
"Hehe."

Han Fei scratched his head. "Yes."

The Sky Survey Golden Hawk turned its head aside. "Still as stupid as before."

...

The Avenger couldn't move anymore, mainly because the enemy was too strong. It didn't make much difference although Ximen Zhan was killed. If there were three advanced Explorers bombarding the Avenger's array, it could last at least four hours.

However, the difference between peak-level and advanced-level explorers was too great.

This realm was the realm where ordinary cultivators could make the greatest gap. At this moment, the green-blue turtle shell array was already full of cracks.

Ximen Linglan and Jia Wuxing didn't stop attacking. This time, they could only block the attacks as long as possible.

Otherwise, if they just let them bombard the ship, the array would only be broken faster.

Jia Wuxing said, "No, Captain, we can't hold on anymore. If Marshal Han doesn't return in time, you go first. I'll cover your retreat."

The rest of them had already taken out their weapons. So what if they were Law Enforcers? It was a disgrace to lose without a fight. They just waited for the moment the array was broken to stop the enemy by detonating themselves.

Someone shouted, "Captain, I, Old Yu, have nothing to say. If we lose, you have to run. Remember to avenge me and crush Yu City."

Someone grinned. "Captain, Old Yu is right. It doesn't matter if we die. You and Marshal Han can't die. You two are real Heavenly Talents. We only have aspirations, but our foundation is too weak."

Someone laughed and said, "Captain, I have something to say. If I'm going to die today, I have to say it. Captain, you are so beautiful. I really envy Marshal Han..."

"Hahaha..."

"Damn it, Old Jin, you've said what we think."

Ximen Linglan shouted angrily, "Shut up, he will come back. No one in this world can kill him."

Ximen Wuqing sneered. "You want to count on that kid? Ximen Linglan, do you think that no matter how fast he is, he can be faster than your third grandpa tearing the void?"

Ximen Linglan's face turned cold. "Old b * stard, shut up. If I don't die, the Ximen family will definitely be destroyed."

It had been nearly three hours, and the Avenger was already riddled with holes and on the verge of collapse.

At this moment, dozens of big ships were approaching from a distance.

Suddenly, Ximen Wuqing sneered. "Ximen Linglan, the joint advance party of the big clans is here. Don't you want to see how your spiritual heritage is used on Lie'er?"

Ximen Linglan's eyes were icy. Ximen Lie, this name was her lifelong resentment.

However, Ximen Linglan sneered. "It's only 28 years. Has he become an Explorer?"

While attacking, Ximen Wuqing laughed. "You underestimate a level-eight spiritual heritage. Isn't it inevitable for him to become an Explorer? However, Lie'er's strength is beyond your level. Both his foundation and talent are above yours."

Jia Wuxing cursed, "Old b * stard, our captain is invincible. She'll definitely beat that Ximen Lie one-on-one."

Ximen Wuqing snorted and suddenly shouted, "Come and help. Don't be targeted by the artillery."

Swish swish swish!

In an instant, six explorers tore the void.

Of course, they weren't that strong. The strongest one was only an intermediate Explorer, and the others were all junior Explorers.

And Ximen Linglan's gaze suddenly fell on a red-haired young man.

Ximen Linglan gnashed her teeth. "Xi! Men! Lie!"

Ximen Lie was stepping in the air and dodging the Venerable Bone Spiritual Energy Cannons. He said leisurely, "Ximen Linglan, it's really you."

Ximen Linglan: "Yes, it's me. If I don't die this time, I'll definitely kill you."

Ximen Lie chuckled and his lips cracked. "Ximen Linglan, look at your current situation first. Besides, are you sure you can kill me? Well, in fact, I knew that you left the Great Wilderness Village with a fool. Hahaha... A fool. No matter how lowly your identity is, you don't have to surrender to a fool, right? You're really a disgrace to the Ximen family!"

Crack!

Suddenly, the array of the ship was broken.

Jia Wuxing shouted, "Captain, run!"

Jia Wuxing decisively gave up the Venerable Bone Spiritual Energy Cannons and hurriedly flew into the air to stop the enemy. Although he didn't know how to stop the enemy, he would just detonate himself in front of the three peak-level Explorers. He was an Explorer after all.

Not only was Jia Wuxing about to take to the sky, but everyone on the Avenger was about to do the same.

But at that moment, a terrifying gravity pressed down on them.

Jia Wuxing was about to shout to remind Ximen Linglan to escape, when he heard a familiar voice, "I told you I would be back soon. What are you doing? Prepare to self-destruct? Do you want to die?"

With a flip of Han Fei's hand, the law of gravity was retracted, and everyone recovered.

The Phantom Glass Wings spread out, and Han Fei stood proudly in the air and looked at Ximen Lie. "Sorry, I'm the fool you mentioned. I don't care about the others, but you have to die today."

Ximen Lie grinned. "Haha, you? A... Well, an advanced law enforcer? Hahaha... Are you kidding me?"

Ximen Wuqing and the other two suddenly shouted, "Retreat!"

"Moo ~"

A voice echoed in the air, which contained explosive power.

An old bull walked out of the void rift.

When he just walked out, his body was only dozens of meters long. However, with every step he took, his body doubled in size. When he stepped out of the void crack, a huge body of more than 300 meters appeared on the water.

"Tweet ~"

"Tweet ~"

The void rift opened again, and a Sky Survey Golden Hawk, a White-Headed Sea Hawk, and a White-Eyed Wild Hawk appeared. The three of them, except for the White-Headed Sea Hawk, were all peak-level Explorers.

Splash!

A big crocodile came out of the water, a thousand feet long.

Puff, puff, puff!

The big crocodile trembled, and thousands of seeds were scattered on the sea. Blue lotuses bloomed one after another.

The void was torn apart one after another, and a total of six explorers from the Sky Clan came.

A unicorn rhinoceros stepped out of the void, stirring ripples with each step.

At that moment, everyone on the Avenger was stunned. Jia Wuxing gaped in shock. This... This was the f*cking reinforcement that Marshal Han found?

"F*ck!"

The rough men were stunned. Isn't this reinforcement too strong?

Yi Yue was also dumbfounded.

Just now, she even thought that she was going to die and was about to detonate herself. She secretly regretted it. She shouldn't have been so hasty.

Unexpectedly, Han Fei returned in such a short time! He didn't escape.

In Yi Yue's opinion, under such circumstances, the possibility of Han Fei escaping was very high.

Han Fei smiled and pretended to be surprised. "Oh, right! Is this guy named Ximen Zhan?"

As he spoke, Han Fei flipped his hand and took out a half-stone man. Why a half-stone man? Because Ximen Zhan's lower body was crushed and his arms were torn off.

“Third Granduncle!”

Ximen Lie roared, “How dare you kill a member of my Ximen family? You’re asking to be killed!”

Han Fei tilted his head and looked at Ximen Lie. “Are you calling me stupid? I think you’re the one stupid! In the current situation, what’s the big deal of killing an Explorer from your Ximen family? What’s the big deal of slaughtering your Ximen family?”

Ximen Wuqing shouted in a low voice, “What do the Grand Myriad Mountains mean? This is an internal matter of our human race. Someone wants to disturb the peace of our human race. How can the Grand Myriad Mountains interfere in this matter?”

The big crocodile opened its mouth wide. “I think Wang Han is a tough guy. What’s wrong with beating you humans?”

The old bull hummed. “Don’t speak from such a high perspective. You can’t represent the human race.”

The unicorn stomped in the air. “I only saw a group of explorers bullying a few children.”

The Sky Survey Golden Hawk’s voice echoed, “Internal affairs of the human race? Do you know that Wang Han is the only disciple of the four venerables of the Grand Myriad Mountains? Even if it’s your family’s Venerables, ask him whether he dares to kill him!”

“Hiss!”

Except for Ximen Linglan, everyone gasped.

Jia Wuxing and the others’ eyes turned green as they looked at Han Fei in shock.

“The only disciple of the four venerables of the Grand Myriad Mountains?”

Chapter 1137: You Are My Light

Ximen Wuqing felt that he was about to explode. No matter what, he would never expect that Ximen Zhan, who was an advanced Explorer, would die at the hands of a high-level law enforcer.

However, when he heard the words “the only disciple of the four venerables of the Grand Myriad Mountains”, he was horrified.

What did it mean? The fool that Ximen Lie mentioned had such a high status?

Ximen Linglan looked at Han Fei with a complex look.

For some reason, she wasn’t used to the eloquent Han Fei.

Of course, Han Fei had noticed Ximen Linglan’s gaze a long time ago. All these years, he had been stared at by this gaze. To be honest, he had complicated feelings.

He vaguely remembered the scene where Ximen Linglan fought the three Venerables alone.. However, at that time, he mistook that Ximen Linglan had an affair with Old Han.

But now, he really regretted it. How stupid he was!

And there was still Jia Wuxing. If he guessed right, the scene in his mind showed that Jia Wuxing was already a peak-level Explorer in the battle of moving the mountain.

However, in order to protect everyone from moving the mountain, he sacrificed himself and turned into a knife, fighting a head-on clash with a Venerable.

At this moment, Han Fei really wanted to say, What a man!

Han Fei turned around and gave Ximen Linglan a calm smile. Then he turned around and his expression suddenly changed. "Today, Ximen Lie must die. Seniors, please help me seal the void. I don't want to let go of any of these people."

Hearing that, all the explorers present were shocked.

Someone shouted, "Hey, even if you are the disciple of the four venerables, do you know what you are doing? We human race don't have many strong masters. If you make the Grand Myriad Mountains fight us, when the sea demons attack, who will defend an empty city?"

Han Fei suddenly pointed his finger and shouted, "If you dare to say another word, I'll kill you first. Also, my name is Wang Han, Marshal Han on the Avenger."

Han Fei was extremely domineering as he looked around at everyone. "I have 500 years. Even if you all die, the human race won't die. You underestimate the survivability of human beings and think too highly of yourselves. A group of explorers clamoring to resist the sea demons. Do you think you're qualified?"

Ximen Linglan watched blankly at Han Fei who was scolding a group of explorers and looked extremely domineering, thinking to herself, Is this how he was originally?

However, in the eyes of Jia Wuxing and the others, Han Fei's current performance made their blood boil.

Look, what was overbearing?

Look, what was domineering?

Marshal Han was an advanced law enforcer. Regardless of whether he was relying on the Grand Myriad Mountains or not, he was still one of the most powerful.

The old bull hummed. "Wang Han, our king is not here. We can seal their retreating path, but we won't attack them."

Han Fei smiled and said, "Thank you, Senior. I'll kill Ximen Lie. One-on-one."

Han Fei twisted his head and pointed at Ximen Lie. "I'll give you a chance. I heard that you snatched Linglan's spiritual heritage. I heard that you think a level-eight spiritual heritage is very strong. Very good, I'll give you a chance. If you beat me, you can leave."

Ximen Lie's eyes glowed.

Just now, he was really shocked. He never expected Han Fei to have such a strong background.

However, as an advanced law enforcer, you want to fight me alone? If I can lose, I'll be an Explorer for nothing.

“Wait a minute.”

Suddenly, a shout interrupted them.

Ximen Linglan stepped into the air and stood beside Han Fei. “Let me.”

Han Fei frowned slightly.

However, thinking of the future Ximen Linglan, he nodded slightly. “Okay, be careful.”

In battle, Han Fei was a man who would use any means. Even if Ximen Linglan lost, he would still kill Ximen Lie.

After 28 years of being a fool, he finally woke up. With the Grand Myriad Mountains behind him and the four venerables as his masters, who would he be afraid of?

Han Fei pointed at Ximen Wuqing. “Old b * stard, let Linglan send your precious grandson to the next life first. Just wait a little longer.”

“How dare you!”

Ximen Wuqing shouted, “Wang Han, even if we really start a war today, do you think the Grand Myriad Mountains will win? There are 12 Explorers on the human side. Where do you get the confidence?”

The Single-Horned Rhinoceros hummed. “The Elephant is on its way here. Dumb Tiger should be here soon, so should Old Bear. Are three peak-level Explorers enough? If not, Ape Three and Lady White should be coming too. They are two peak-level explorers. Do you human beings want to call some people over?”

Han Fei remembered Ape Three, who was one of the big apes who watched him being dragged away with a smile every day when he was in the Beast King Valley. From Ape Three to Ape Seven, there were all peak-level explorers. Ape Three came probably because he was the nearest.

As for Lady White, it was the name of the Six-Tailed White Fox. She was a tough one! Back then, when he went to launch a sneak attack with the tiger, the two of them were beaten up by her and fled like rats.

Ximen Wuqing’s face immediately turned black. Was this f*cking brat so powerful? How many strong masters had the Grand Myriad Mountains deployed?

Unlike the people of the Grand Myriad Mountains, Ximen Wuqing and company didn’t inform the others at all because they wanted to divide up the resources of the Avenger alone.

After all, the Avenger had been robbing for seven days in a row, so there must be a lot of resources on the ship. However, they were caught in their own scheme in the end.

The big advance ship on the human side had already begun to retreat. Everyone on the ship panicked. Damn, they were here to catch people, not to be beaten up!

The big crocodile suddenly said, “Should we take down that boat?”

Han Fei smiled casually. "This boat is not bad. I've taken a fancy to it. Don't say that I don't treat human beings well... Human beings can leave, but the boat shall be left behind. Whoever needs to be punished will be punished sooner or later. Now, small potatoes can leave, but the big fish can't leave."

On the Avenger, someone immediately shouted, "That's right. You almost destroyed our ship. Leave the boat behind."

Someone shouted, "How can one ship be enough? We need two such huge ships."

Jia Wuxing shouted, "No! What's two boats worth? We lost five boats earlier, so they'll have to return ten."

Someone echoed, "Yes, Old Jia is right. Ten ships."

Han Fei grinned, and his voice echoed in the air, "Heard that? You can go back and tell your families to prepare ten such ships... Forget it, I won't take advantage of you. Leave this one behind and prepare ten three hundred-meter-long ships to send over. After all, if I rob them myself, that won't be the case."

Han Fei agreed with Jia Wuxing and the others very much.

The reason why he wanted to keep this big ship was that Han Fei remembered the real Avenger. It was a big ship thousands of meters long with dense arrays engraved on it. With his current array skills, he should be able to do it.

However, carving ten boats at the same time was a bit difficult. Therefore, it was better to have smaller boats. After all, there were only 20 people on the Avenger. Why did they need so many boats?

Instantly, those people's faces turned green. Well, shall we give them the ships?

Swish swish swish!

Someone had already escaped.

No matter what, they had to take this opportunity to report back! Or, there must be explorers on their way to the Storm Strait. They had to quickly call for reinforcements.

However, before they ran far, Han Fei's voice sounded leisurely, "You can call for reinforcements, but remember to bring the boats over. I'll remember this."

Han Fei had just started the show. Then he turned his eyes to the old crew members on the Avenger.

Han Fei asked, "Who here do you have a grudge against?"

As soon as Han Fei asked this question, someone immediately shouted, "Marshal Han, that guy is called Li Jiao. He's a junior Explorer, right? He's the one who f*cking killed my two brothers. At that time, he was still a peak-level law enforcer."

"Yes, Marshal Han, the one in green. This guy is extremely cruel. He takes advantage of the fact that he comes from a large family and specializes in snatching the resources of law enforcers. My biological brother was robbed and killed by him back then."

"Yes, Marshal Han..."

Han Fei waved his hand. "So everyone here has a problem."

With that, Han Fei swept his gaze across. "You heard it. As the strong, you can't set an example but compete with the weak for resources and use your comrades as the shield. Why do we want such strong masters? You, junior Explorers, I'll give you a chance. If you defeat me, you can leave, regardless of whether you live or die."

When Han Fei spoke, he couldn't help but glance at the void.

And the beast king hiding in the void couldn't help but touch his chin. What does this kid mean? Did he find out? That's impossible! How could he find me?

The beast king thought to himself, but didn't take it seriously.

As far as he could tell, this boy was quite arrogant after he woke up. However, this was in line with the beast race's style. He particularly despised those big clans.

It wasn't just him. Neither the Giant King nor the Water Immortal liked the big clans. Therefore, in the past, if they had to negotiate with human beings, they would have Tianqing represent them.

Because Tianqing was fast, those big clans didn't have the ability to trick him. Secondly, Tianqing was always expressionless, which made it easier for him to communicate with human beings.

On the human side, Dongfang Qi said frankly, "Wang Han, what exactly do you want?"

Someone softened and said, "We can talk."

Han Fei sneered. "Can we talk now? Sorry, I don't want to talk. As for what I want, it depends on her."

Han Fei looked at Ximen Linglan with a smile. "She said that she wanted to overthrow the rule of the big clans; she said that she wanted to make everyone in Yu City a free person; she said that the Avenger will uphold justice in the human world, and all the people shall be united to defend against foreign enemies."

Han Fei looked at Ximen Linglan again and smiled gently. "Am I right?"

Ximen Linglan nodded quickly. Han Fei had awakened. She would listen to him.

Han Fei turned his head and shrugged. "I think she's right. So, I want there to be no big clans in Yu City... Is that clear enough?"

...

At first, Yi Yue boarded the Avenger, thinking that she was going to die. And then she, dumbfounded, watched the silly Marshal Han suddenly turn into the only disciple of the four venerables.

Now, she, still dumbfounded, watched Han Fei boss around these strong masters.

As for Jia Wuxing and the others, their bodies had already begun to tremble with excitement.

Everybody was excited. Marshal Han was truly overbearing. Only Marshal Han could say that.

The beast king who was eavesdropping scratched his butt and nodded slightly. Five hundred years, although not long, war was not something that could be launched overnight.

He knew that there were many big clans in Yu City. If those big clans' resources were scattered, humans might really welcome an era of full rise.

More importantly, he believed that Han Fei's choice was definitely a choice that was in line with the times. If it went against the development of the age, Han Fei certainly wouldn't do that.

With this in mind, the beast king continued to watch the show.

“Roar!”

All of a sudden, the void trembled, and a ferocious tiger jumped out of the void crack. As soon as it came out, it roared loudly.

“Which idiot wants to touch my disciple? Let me swallow him.”

The Rhyhorn hummed. “Stupid tiger, don't flatter yourself. If the king hears you, he will definitely beat the hell out of you.”

Big Tiger shouted, “The king doesn't have time for this trivial matter! Haha... Wang Han, I heard that your spiritual consciousness has awakened. Do you still remember me?”

Han Fei scratched his head. What a disgrace! He had never succeeded in a sneak attack with this guy.

However, on the surface, Han Fei still grinned. “Master Tiger, long time no see.”

The big tiger jumped over, put its big head next to Han Fei, and shouted, “How can it be long? I've only been on the sea for a few rounds, and the time has passed. I finally took a nap, but when I heard that you were beaten up, I immediately came over.”

“Stupid tiger, you talk too much.”

The void was torn apart again. Lady White walked over gracefully and glanced at Wang Han. “Yes, you've become much stronger.”

“Roar!”

The void cracked again, and Ape Three jumped out with a big stick. He said with a smile, “Wang Han, it's been so long. Why didn't you come back to the Beast King Valley? Phew, little Linglan, you're already an intermediate Explorer? You've improved a lot!”

Ximen Linglan greeted Ape Three respectfully. She had never walked out of the Beast King Valley at all. Therefore, she didn't know Tiger, Lady White, and the others well. What she was familiar with was demonic plants, but she didn't know this one who came now. Swallow-tailed Glede didn't come either, and the War Giants were too slow to arrive either.

Therefore, when she saw Ape Three, she respectfully greeted him.

On the other hand, the faces of Ximen Wuqing and the others turned even paler. What should they do? They hadn't even started to fight yet, and the strong masters came one after another without stopping!

In the blink of an eye, the strong masters from the Grand Myriad Mountains were enough to crush them.

Han Fei said, "Seniors, Linglan and I will take care of this matter first."

Then Han Fei continued, "Ximen Lie, fight now. Also, does anyone else want to challenge me? If you win, you can leave. Don't say that I didn't give you a chance. Maybe I'll change my mind later."

"Roar!"

The tiger roared, "Did you hear that? Hurry up if you want to fight."

Lady White poked the Tiger King's head. "You're too loud. Shut up and let Wang Han deal with it."

Ximen Linglan held two knives in her hands. "Ximen Lie, I'll take back what you snatched from me myself."

Ximen Lie knew that if he didn't fight this battle, he probably wouldn't be able to leave today.

At this moment, he narrowed his eyes. "Okay, then let's fight. Ximen Linglan, in the cultivation world, the strong prey on the weak. If you give me another chance, I will still do that. Now let me show you what a level-eight spiritual heritage is like."

Lady White said lightly, "Is she going to fight him herself?"

Han Fei nodded slightly. "This is her path. She must win."

In the past 18 years, the two of them had experienced all kinds of things on the sea, which could definitely be called a legend. They had encountered three places where a Venerable died, and both he and Ximen Linglan had survived. How could a pampered Ximen Lie be a match for her?

"Captain, kill him."

"Captain, kill this pretty face."

"Captain, cut him into pieces with three blows."

Ximen Lie held a long sword, and behind him, a seven-headed python appeared.

However, as soon as this giant python appeared, it fused with Ximen Lie.

The old bull hummed. "Seven Ultimate Python, not grown up yet."

The two knives in Ximen Linglan's hand hovered. "Ximen Lie, is this your trump card?"

Ximen Lie's face was livid. The time was too short. Whether it was his spiritual beast or contractual spiritual beasts, they hadn't grown up yet. However, they could always increase his strength. Therefore, he was attached to a Flag Fish and an Eight-Tailed Golden Carp.

He knew that he was facing a difficult battle that concerned his life. He didn't have an advantage in terms of realm. He was a junior, while Ximen Linglan had reached the peak of a junior.

Since he couldn't distance himself in terms of realm, he could only use secret techniques.

At the level of Explorer, the effects of the secret technique were already extremely weak. A flame burned, and Ximen Lie's strength soared and doubled.

Ximen Linglan stepped in the air, and behind her was an inky black fog. In the black fog, a pair of scarlet eyes appeared.

Ximen Linglan said coldly, "You can take my spiritual heritage, but you can't take my naturally-endowed spiritual beast. It's called the Sea Subversion Banner."

Han Fei had seen the Sea Subversion Banner more than once. It was indeed a kind of creature, but it was a mist-like creature. Han Fei had never encountered such a weird creature before. It could be said that Ximen Linglan was definitely a Heavenly Talent if her spiritual heritage was intact.

The Sea Subversion Banner was as powerful as the Purple Sand Eel, but it was even weirder. It could wrap creatures up and swallow them, including their flesh and soul.

"Fuse."

Unlike Ximen Lie, Ximen Linglan had experienced ten times more battles than Ximen Lie. The Sea Subversion Banner had been growing. Especially after going to sea, the supply of Spirit Awakening Fluid had been endless, and she went through one battle after another.

Therefore, the fusion of the Sea Subversion Banner made Ximen Linglan's strength enter the realm of intermediate Explorer.

Shua!

Ximen Linglan's figure disappeared. At that moment, Ximen Lie's eyes constricted. So fast!

Ximen Lie didn't know that Ximen Linglan had also learned the Heavenly Void Divine Movement. Otherwise, she would definitely not be as confident as before.

"Seven Kill Seal."

Seven mystic lights formed an array in midair.

"Seal!"

A gray fog swept towards Ximen Linglan. However, the endless black fog poured out, like Le Renkuang's big mouth, swallowing the gray fog in one bite.

"Trap!"

The yellow mist swirled, and when Ximen Linglan was swallowing the gray mist, she tried to tie it up. However, Ximen Linglan's scimitars rotated, with black and white on them, which quickly turned into a saw.

This was the Supreme Yin-Yang Wheel that Han Fei had used, or the Little Yin-Yang Wheel, which had taken them out of danger several times.

Ximen Linglan was used to learning from Han Fei. Even if this wheel didn't have any Dao runes, it still had a special power.

The confinement array was broken in an instant.

“Kill!”

The sword tide was like a waterfall, rushing at Ximen Linglan.

However, what made Ximen Lie speechless was that Ximen Linglan had an old turtle lying on her back. It turned out to be an array? Damn, how could it be an array?

There was a burst of laughter on the Avenger.

Jia Wuxing laughed. “Captain hangs around with Marshal Han every day, and even I know a few arrays. Can Captain not?”

Although an Explorer couldn’t do whatever he wanted as a spirit gatherer, he could still control spiritual energy very smoothly after decades of observation.

With the Yin-Yang Wheel and the Coiled Turtle Array, Ximen Linglan broke another seal.

“Shield!”

When he saw the shield, Han Fei smiled. If the shield worked, wouldn’t armorists be invincible?

The black-and-white Yin-Yang Wheel instantly turned red. The Yin-Yang Wheel slashed the shield, and at the same time, Ximen Linglan held two knives in her hand. Black fog surrounded her, and the surrounding space was corroded by the black fog.

Ximen Lie only felt that the energy and spiritual energy were disappearing, and the powerful effect of the level-eight spiritual heritage was directly reduced by half.

“Pfft!”

The double knives were like gold and stone, turning into weapons and penetrating through Ximen Lie’s battle suit.

The sword in Ximen Lie’s hand turned into thousands of swords, intending to cut apart Ximen Linglan. However, the latter turned into mist and seemed to pass through his body.

In the next second, Ximen Linglan appeared behind Ximen Lie and held the double knives in her hand again.

Ximen Linglan said, “My knife is my law.”

After only one slash, Ximen Lie was seriously injured, and a large amount of black fog spewed out of his body. In the next moment, the black fog spewed out seemed to wrap Ximen Lie up, and his flesh and blood were withering.

Ximen Wuqing shouted, “Ximen Linglan, he is your brother.”

Ximen Linglan’s eyes were cold, and her hand flashed in the void. She activated the Heavenly Void Divine Movement Technique at the highest speed, and in a blink of an eye, a thousand knives hacked into the black fog.

In a moment, a crystal white skeleton fell from the sky. The Sea Subversion Banner swallowed both flesh and soul.

Ximen Linglan turned her head slightly and looked at Ximen Wuqing. "How can you say that? You robbed me of my spiritual heritage and forced my mother to die. Do you expect me to acknowledge you? Or this brother?"

Ximen Wuqing's heart shivered. He was extremely surprised by Ximen Linglan's real combat power. How could she be so strong? She even broke the Seven Ultimate Seal? Were her double knives her law? They could even ignore defenses within a small range? And her ability to turn into black fog, her black and white wheel, and her way of instantly condensing arrays...

But no matter what Ximen Wuqing thought, Ximen Lie was dead.

In fact, from the beginning to the end, Ximen Linglan had only used one attack, and the following million attacks were just her venting.

The Avenger was full of shouts.

"Congratulations on your revenge, Captain."

"Congratulations on your revenge, Captain."

Han Fei came to Ximen Linglan, reached out, touched her head, and looked at the black fog. Frowning slightly, he comforted her softly, "People should embrace the light. Even in the darkness, you must become your own light."

After a moment of silence, Ximen Linglan gently hugged Han Fei. "You are my light."

Chapter 1138: Five Hundred Years

Ximen Linglan's strength clearly exceeded everyone's imagination.

There was only one word to describe her combat style: mixed. Although mixed, it was strong!

That was because the abilities that Han Fei had shown over the years were too mixed, which also influenced Ximen Linglan's combat style.

Han Fei said lightly, "Is there anyone else you want to fight? If you want to fight them, fight early! Otherwise, I'm afraid you won't have a chance to fight them in the future."

Ximen Wuqing said via voice transmission, "Li Jiao, your physique is the strongest among the junior Explorers. No matter how capable Wang Han is, you should be able to defeat him. If you win, we'll reward you when we go back."

The face of the explorer named Li Jiao changed slightly. Theoretically, that was true, but this kid was really weird!

How could he jump out to fight a life-and-death battle without any ability? Although it seemed impossible for an advanced Explorer to kill an Explorer, how could such a character be judged by common sense?

Li Jiao shut his mouth. You can go if you want. I'm not going anyway.

Although Han Fei said tough words, if everyone here died today, the big clans in Yu City would definitely not let it go. He was still considering it.

The tiger immediately roared, "Human beings are really boring. Do you think I can't hear you? That white-haired old guy, you're trying to trick others into fighting Wang Han. Let me fight you... Roar!"

Lady White tugged the tiger's ears and said, "Wait a moment. Wait for the king to come."

At the next moment, the human powerhouses were all stunned. What did they mean? Was the beast king coming? Although they had never seen the beast king, they had heard that the beast king's temper was not good at all.

Besides, the beast king was the strongest of the four venerables in the Grand Myriad Mountains. In the battle of Venerables, the beast king slaughtered venerables, two venerables.

At this moment, the human beings were all shocked, and Dongfang Qi shouted, "Run!"

In an instant, the boundless gravity pressed down, the old bull mooed, the big crocodile swung its tail, and Ape Three struck out.

The tiger roared and clapped its paws. "As I expected, they ran."

Lady White chuckled. "Six Dao Fiend Seal."

Six heavenly pillars descended and sealed a space. Dongfang Qi had just torn apart half of the void when it suddenly closed.

Lady White said proudly, "No one is allowed to leave before the king comes."

Dongfang Qi glared at her. "Do Grand Myriad Mountains just let Wang Han do whatever he wants? Do you know how many strong masters have to die to overthrow the rule of the big clans?"

Lady White said lazily, "I told you to wait for the king to come. It's none of my business how many human powerhouses die. Anyway, no one is allowed to leave now."

The tiger said, "Roar! Yes, I haven't fought yet. Whoever wants to leave, fight me first and let me flatten him before he leaves."

The giant wild bear shouted, "How can he leave if you flatten him?"

The giant wild bear emerged from the void. "Am I late?"

The tiger said with a buzz, "Yes, they've already finished a fight. Little Wang Han is clamoring, but no one dares to fight him."

The giant wild bear glanced at Han Fei. "Oh, isn't he just an advanced law enforcer? No one dares to fight him?"

The big crocodile opened its mouth. "After all, he is the king's disciple. How dare they fight him?"

The giant wild bear roared, "Then let's fight them!"

Lady White looked back at the giant wild bear. "Stupid bear, shut up."

Han Fei looked into the void. "Wait for half an hour. If the teacher doesn't come, please help me kill these people."

Han Fei's words sounded casual. He had long known that the beast king had come, but the beast king didn't come out because he was waiting for someone. As for who he was waiting for, it was obvious human Venerables.

Lady White frowned. "Little Wang Han, you can't decide this matter."

The Sky Survey Golden Hawk said, "Wang Han, you're quite brutal after you awakened your spiritual senses!"

Han Fei cupped his hands and said with a smile, "Seniors, don't worry. My masters will know why I'm doing this. They won't object to it. None of them will. Otherwise, I'll bear the responsibility alone."

With a smile, Han Fei spoke unhurriedly and confidently. In fact, if it weren't for the fact that he wasn't strong enough, he would have killed all these people by himself.

As for what would happen?

Heh, Yu City would be the city of justice in the future. No matter what, Yu City would be purged. This was the trend.

Besides, Han Fei was thinking, Did all the big clans die? Or did they all run away?

Otherwise, as long as they still had Venerables, it was impossible for them to die.

Han Fei's mind was racing.

The beast king was waiting for the human Venerables. If they really fought, it would mean a real battle. Therefore, they probably had to talk. Since they had to talk, it meant that they couldn't eliminate these big clans in a short period of time.

Then he could only get the greatest bargaining chips in the negotiation, so that the big clans would have to give him whatever he wanted.

Suddenly, Han Fei said, "Seniors, I don't mind not killing them. Help me beat them up and capture them first."

Everyone: "???"

Ximen Wuqing and the others were all dumbfounded. F*ck, didn't you say you would wait for half an hour just now? You changed so fast! It hasn't even been more than two minutes.

Lady White was puzzled. "Little Wang Han, you have to know the importance of your decision."

Han Fei nodded. "Let's fight and capture them first. I know what I'm doing. Sorry for the trouble, my dear elders."

Han Fei changed his way of address without batting an eyelid. He called them elders instead of seniors to please them so as to earn their support.

The Sky Survey Golden Hawk was about to say something when Ape Three took the lead to attack. He roared, "Fight first!"

"Roar!"

The tiger had long been unable to hold back. Its body swelled, its mouth spewed out light waves, and its huge palm slapped.

Roar!

The giant wild bear followed him. They were all ferocious beasts. If it weren't for fighting, why did they bother to run so far?

As the three led the charge, the big crocodile, the old bull, the Rhyhorn, Lady White, and the Sky Survey Golden Hawk all took action.

They had no choice. Since the moment they attacked, there was no turning back!

Just fight.

Instantly, the expressions of Ximen Wuqing and the others changed. F*ck, are these people from the Grand Myriad Mountains brainless? How can a group of peak-level Explorers all listen to an advanced law enforcer?

Ximen Linglan tugged at Han Fei's arm. "Isn't this too much?"

Han Fei gave her a comforting smile. "It's okay. We've already fought. Let's take them first."

Jia Wuxing and the others felt that the blood in their bodies was about to burst out. That's f*cking awesome. Marshal Han is too fierce.

The three junior Explorers on the human side shouted, "Wang Han, I want to duel with you."

Han Fei picked his ears and said, "F*ck you! I gave you a chance just now, but no one came. Now you want to fight me? Humph, you have to ask, am I happy?"

The three of them were stunned. They were only junior Explorers! How could they resist those peak-level Explorers?

Han Fei looked at them leisurely. It wasn't that he was afraid, but that he was stalling for time. He wanted to catch all of them before the human Venerables arrived.

In an instant, the periphery of the Storm Strait exploded. The earth rumbled, and furious waves shook the sky. In the void fragments, the sky was full of behemoths slapping.

As soon as Ximen Wuqing collided with the tiger dozens of times, he was slapped away by a bear's paw.

The Tiger King roared, "Fool, he's mine."

The Violent Bear King hummed. "Oh, I wasn't paying attention, sorry."

Dongfang Qi and the old bull were fighting, and soon, he was petrified by the big crocodile's stare and his feet were broken.

Sun Qian was the most miserable. Being attacked by two big eagles, he was no match for them in speed and physique. His weapons couldn't resist the sharp claws of the hawk, and soon he was covered in blood.

The Rhyhorn was rampaging.

One of Zhao Pi's legs was gone, and his body was blown to the bottom of the sea like a missile.

Han Fei didn't take any action. In terms of quality, the Grand Myriad Mountains had won, and in terms of number, the Grand Myriad Mountains had won even more. It was almost two against one. How could he not win?

However, after only one or two minutes, these human powerhouses had been beaten black and blue all over. There was also a big hole in Ximen Wuqing's belly.

Han Fei, on the other hand, had already taken Ximen Linglan back to the Avenger. At this time, hundreds of arrays rose. After all, he had to protect his people first.

After another minute, a voice suddenly echoed in the void, "Okay, that's it! Ximen Linglan, I know you want revenge. But Lie'er and Ximen Zhan are both dead. Do you want the Ximen family to disappear?"

Ximen Linglan's expression changed drastically. "It's Ximen Tian, a Venerable."

Han Fei's face changed slightly, and he said without any consideration, "Seniors, keep fighting. End the battle as quickly as possible. Bring everyone back. Teacher, help me stop the Venerable. I'm going to take these people today."

"Nonsense."

Ximen Tian's voice echoed again.

But Han Fei grinned. "I don't care if you are a Venerable or not. I'm going to take these people today."

"Huh? Do you really know that I'm here?"

The beast king's voice rumbled like thunder. He was a little surprised but didn't take it to heart.

The beast king roared, "Hey, did you hear what my disciple said? These people can't leave!"

Buzz!

Someone stepped out of the void. "Beast king, it's not good for the Grand Myriad Mountains to let a junior to mess around like this, right?"

Dong!

The Beast King's big rod fell to the sea, almost a hundred meters high.

The Beast King was standing on a stick and laughed. "What's wrong with that? The four Venerables of the Grand Myriad Mountains have never taken a disciple. It's not easy for us to take one in. What's wrong with him messing around? Is it your business?"

The tiger roared, "So, the king has been here. Roar, come here."

The tiger bit the legs of Ximen Wuqing in one bite, and its big claws directly pressed on Ximen Wuqing's head, almost deforming his head. It also let out a muffled roar, looking ferocious.

...

Ximen Tian arrived first, followed by another Venerable.

The two of them looked at the explorers from the big clans caught and didn't know what to do.

Both of them were injured at the moment. They had come out of seclusion this time just to save their juniors.

Besides, even if they were not injured, the two of them combined would not be able to defeat the beast king. This guy was said to have slaughtered two venerables in a row and be comparable to a half-king. Who dared to fight him?

Ximen Tian looked at Ximen Linglan again. He had no choice but to turn to Ximen Linglan.

Ximen Tian said, "Little Linglan, the Ximen family can compensate you. However, if you do this, how can you deal with the intrusion of the Sea Clan in the future?"

At this moment, Ximen Linglan's mind was a mess. When this really happened, it seemed to have exceeded her expectations. She didn't mean to cause such an uproar at the beginning.

Han Fei sneered. "Little Linglan? Who are you? She's listening to me now. Now, it's I who want to fight this battle. Get your facts straight first."

The beast king didn't speak as if saying, solve the trouble you caused, but I'm behind you.

Ximen Tian said leisurely, "You're Wang Han, right? I've already got a basic understanding of the situation. You can name your terms. If so many powerhouses in Yu City die, the human race will be in danger. If you just want to take revenge, kill them then."

Han Fei sneered. "Don't try to threaten me with righteousness. Even if they all die, the human race won't be in danger. Even if you die, the human race will still be fine. Let me tell you, I don't buy it."

The strong masters of the Grand Myriad Mountains and Jia Wuxing and company were all looking at Han Fei.

Even the tiger and the others were a little speechless. The Venerables are already here, and you're still so arrogant?

Jia Wuxing and the others were already swallowing nervously. Although Marshal Han was strong, he was actually challenging a Venerable... How bold was he?

At this moment, they didn't even dare to send a voice transmission, all silent.

After all, there were all big shots here. They couldn't hear anything they said. Just the vague pressure alone was enough to make them suffer.

Another Venerable asked, "Then what do you want?"

Han Fei's lips curled. "You should know what I want. Our original goal is to overthrow the big clans and let everyone in Yu City have freedom and share resources fairly."

"Hmph!"

Ximen Tian snorted. "Brat, even if you have the Grand Myriad Mountains as your backer, do you think you can completely suppress Yu City? It's true that the beast king is strong, but if you really want to start a war, you'll definitely be injured."

The beast king suddenly said with a buzz, "You can fight them. You're all seriously injured and haven't recovered yet. If you really want to fight them, I can summon the divine son. As for the price? Heh, I have my own considerations."

Hearing this, Han Fei just wanted to give him a thumbs up and say, "How domineering."

Han Fei grinned and said, "Heard that? You'll still lose if we fight. However... Since I am also a human, I will consider the consequences."

Han Fei looked at the Beast King and said, "Teacher, I'll call all the people from the big clans who can make the decision. Can you handle them?"

The Beast King's mouth twitched. How many more people do you want to call over?

However, as a dignified half-king, I can certainly handle any situation!

The beast king nodded slightly and waved. "Divine Son, you should have heard it, right? Call all the people over."

"Alright!"

The response was quick and concise, and his voice was quite gentle.

Han Fei grinned and said, "Okay, Ximen Tian, call for reinforcements! You can't represent Yu City. Call all the big clans, leaders, and family heads over!"

The beast king said, "They're all coming here. Let's wait a little longer."

Han Fei curled his lips. He knew that those big clans wouldn't easily admit defeat. Besides, the Venerables who came earlier were also worried that they were weak. If they really fought, they might die.

Therefore, they didn't stop other Venerables from coming at all.

Come on, the more people came, the safer they would be. Therefore, they would just trick as many people into coming as they could!

After only one hour.

Explorers arrived one after another. There were already as many as a hundred of them, and Jia Wuxing and the others were almost kneeling.

In fact, Jia Wuxing and the others were fine. They were used to fighting in the outer sea, but Yi Yue, who had just come, was full of panic.

As an intermediate law enforcer, she had never seen such a scene before. When she came to the Avenger, she didn't expect it to be so powerful.

The strong masters that she couldn't even see in the past were popping up one after another, which made her numb.

Then there came a Venerable, 12 peak-level Explorers, and more than 30 advanced Explorers on humans' side. As for junior Explorers, they were ignored.

As soon as the other party appeared and saw the lineup of the Grand Myriad Mountains, they were a little frightened. How did this f*cking Avenger cause such a big scene? Could it be that soon after the war with the Sea Clan, humans were going to fight the Grand Myriad Mountains again?

However, they soon learned the whole story. Their faces changed as they looked at Han Fei.

Han Fei grinned. "Why? Have you all arrived? Is there anyone who hasn't arrived yet?"

Ximen Tian said, "Everyone is here. Wang Han, what conditions do you have? You can tell me now."

Han Fei paced and tilted his head with a smile. "That's easy. Listen carefully. Firstly, I want half of the resources of the big clans."

Buzz!

"Nonsense."

"Impossible!"

"In your dreams."

"Can you swallow it?"

Gulp!

Even the beast king was speechless. This kid is really greedy!

The tiger looked at Han Fei in shock. He had thought that he was already arrogant enough! He didn't expect that there was someone more arrogant than him!

Jia Wuxing and the others almost fell on the deck. They thought to themselves, If the big clans really give it to us, how f*cking many resources will we have?

Han Fei clicked his tongue. "So, you can't agree to the first condition?"

Ximen Tian's eyes were cold. "If we dare to give it to you, can you afford the resources?"

Han Fei sneered. "Even if I can't, Yu City can. These resources are used to subvert the current rule of Yu City and help humans grow quickly. Listen to my second condition. It's not too late for you to talk."

Under the furious stares of countless people, Han Fei said leisurely, "From today on, Yu City will set up a position of city lord to control and mobilize this resource. In short, no matter how you use the resources, it will be better than you storing them in your own treasuries."

"Impossible!"

"Nonsense!"

"What do you know?"

Han Fei suddenly shouted, "Shut up, all of you. You, you... and you..."

Han Fei pointed at one of them and said, "Even the Venerables didn't speak. Who do you think you are?"

That person was a peak-level Explorer after all. How could he hold back being scolded by Han Fei? Since it was a negotiation, he wasn't afraid of the beast king.

He snorted coldly. "I am the head of the Zhou family in Yu City, Zhou Fukong. Yu City is so big, and you want to be the city lord so easily. What do you think this is? A game?"

Han Fei suddenly looked at Zhou Zifu who was pressed to the ground under the bear's paw. "This one's surname is also Zhou. What a coincidence."

Han Fei's Snowmourne suddenly appeared, and his figure suddenly disappeared. He exerted all his strength and slashed Zhou Zifu's neck with the Draw Technique.

Smack!

Faced with Zhou Zifu who had no combat power left, Han Fei naturally cut a big cut in his neck.

"Wang Han, what are you doing?"

Han Fei suddenly raised his head and grinned ferociously. The Infinity Water appeared in his hand and sank into Zhou Zifu's flesh.

Han Fei extended his hand and stomped on the array.

Bang!

Zhou Zifu was already disabled. He cried in shock, "Help me!" and then exploded.

To be precise, he didn't explode.

Han Fei underestimated the physique of an advanced Explorer. Most of his body had been destroyed and riddled with holes, but he could still retain his human form.

However, it was impossible for him to survive.

Han Fei waved his hand and the Infinity Water gathered.

Zhou Fukong roared, "Wang Han, are you negotiating?"

Under Zhou Xuanton's furious gaze, Han Fei said leisurely, "Be careful when you talk to me next time, especially when the captives are in my hands. I'm a person who prefers persuasion to coercion. Now, can you listen to me?"

The three human venerables looked at Han Fei and narrowed their eyes. This kid is really ruthless.

Ximen Linglan looked at Han Fei. "The fool who has recovered his spiritual senses is really domineering."

Jia Wuxing and the others swallowed and were dumbfounded.

The giant wild bear scratched its butt. What's going on? Why did he cut this guy so easily?

A Venerable said, "Wang Han, you went too far."

Han Fei stared at him provocatively. "Which family do you represent?"

The Venerable's pupils constricted. You want to kill my family's people?

However, he felt that Han Fei was a lunatic, so he snorted and didn't speak.

At this moment, Han Fei shrugged and said, "There are only three human venerables here, which shows that the current human race is not strong. What can mere three venerables do? Fight the sea demons? No way! You'll lose for sure. The battle of Venerables has just passed, and the human race still has 500 years to go. We don't lack the three of you. You shall take it as an honor that we want half of your resources. If it weren't for the huge implications, I really want to kill all of you and start all over again. It might be impossible for a few Venerables to appear in 500 years, but it's inevitable for a group of explorers to appear."

Han Fei raised his hands high. "Whether it's the Grand Myriad Mountains or the human race, how can there be an egg when the nest is destroyed? There are many strong masters in the Grand Myriad Mountains, but the human race never relies on the strong to decide a war. The human race relies on their tenacious characteristics. In order to survive, the world works as one. However, in Yu City, the big clans are plundering resources, and the people don't even have many chances to drink soup. Do you want to save the human race or destroy the human race?"

"Alright!"

The beast king clapped his hands and roared, "Did you see that? My disciple is right."

Now that the beast king spoke, the other beasts all shouted.

Tiger King: "Look, Wang Han is so insightful. He's almost as smart as me."

Lady White: "That's true. Yu City is a mess now."

The Sky Survey Golden Hawk: "..."

"Cough, cough..."

Han Fei cleared his throat and his face suddenly sank. “Therefore, I want to make use of the coming five hundred years to establish a new Yu City. Within five hundred years, whoever wants to stop me will be killed!”

Chapter 1139: You Gotta Pay More

Of course, it was useless for Han Fei to say that alone.

Han Fei knew very well that the people of the big clans would probably not really be subverted.

However, he wasn't in a rush. What he needed to do today was to win the hearts of the people. With the Grand Myriad Mountains as his backer, he could force the human powerhouses to give in.

As long as he got the resources, he had plenty of ways to bewitch people.

Not just that, from this incident, Han Fei seemed to see the future of the Thousand Star City. Yes, it was the same. The big clans controlled the Thousand Star City, and history was repeating.

The interests of the big clans in the Thousand Star City were to pursue the Heavenly Palace.. To become a king, they didn't want to destroy a place like the Ten Thousand Demon Valley.

A Venerable said coldly, “So, you want to use our resources to do the world a favor?”

Han Fei immediately retorted, “What do you mean by ‘your resources’? If it weren't for the big clans seizing the resources by force, it's hard to say whose resources are whose. If you are unwilling, it's fine. From today on, the big clans in Yu City are not to interfere with the human beings' choice in Yu City and are not to plunder other people's resources. The Avenger will openly appear in the sea area outside Yu City, challenge people of the same realm and compete fairly. If you accept this, you can pretend I didn't say the last two points.”

Han Fei's words exuded great confidence, which shocked many people on the opposite side.

Although Han Fei was a lunatic, he had really killed Zhou Zifu just now. What did it mean?

This showed that Han Fei's true strength was very strong. Otherwise, if it were someone else, even if he were to use a Sea Quelling Bizarre Treasure, he wouldn't be able to kill an advanced Explorer as an advanced law enforcer. After all, the strength of the two was completely different.

They could imagine that the two conditions Han Fei proposed were actually to buy time for the Avenger. If the strong masters of the big clans didn't do anything, the cultivators below junior Explorers of the big clans would definitely be blocked.

Even if they sent a large number of junior explorers to besiege the Avenger, the latter's array was extraordinary. Furthermore, once it reached that point, there would definitely be a lot of people in Yu City who supported the Avenger. Even now, there were a lot of itinerant cultivators in Yu City who were unhappy with the big clans.

Therefore, Han Fei's request was actually to drive the big clans against human beings.

Seeing that many people were silent, Han Fei immediately smiled and said, “Why, don’t you dare? Without the rule of the strong, you big clans don’t even have the courage to fight head-on?”

A Venerable asked, “Do you have any other conditions?”

Hearing this, Han Fei immediately laughed. “Yes, there is another way. It won’t make you big clans suffer any losses.”

The tiger mumbled, “You have so many solutions.”

Han Fei replied, “I learned it from you, Master Tiger.”

After that, Han Fei said, “There’s another choice. The big clans will evacuate Yu City with all your resources. Find another place, and Yu City will belong to me. I don’t care where you go. We’ll compete for resources at sea with our own abilities in the future. But if you go back and forth, we’ll fight to the death.”

Han Fei was resolute. No matter what choice it was, he had to win the hearts of the people in Yu City. These big clans had to give him their resources, or they would fight to the death today!

Ximen Tian said, “If we don’t accept the choices, are you really going to start a war?”

Han Fei ruthlessly pointed at Ximen Wuqing and the others and looked at the tiger king. “Master Tiger, beat them up.”

“Roar!”

Bang! Bang! Bang!

“Wait!”

“Stop!”

Boom...

The tiger ignored the humans.

From the looks of it, Han Fei was more like a person from the Grand Myriad Mountains. Although he was a human, his style was too similar to the Grand Myriad Mountains. If you didn’t like someone, kill him. This was the truth.

Almost in an instant, there were only six captives left. Five of them had been blown up and died.

Ximen Tian shouted, “Wang Han ~”

Han Fei said, “Seniors, please wait a moment.”

After the beasts stopped, Han Fei tilted his head and looked at Ximen Tian and the others. “There are only three choices for you. Either give me half of the resources, and let me become the city lord, or let’s compete fairly, and the big clans will retreat and not plunder the humans in Yu City, or the big clans will leave with all the resources, and Yu City will belong to me. Now the choice is yours. If you refuse to choose, then let’s fight. If the worst comes to worst, I’ll overthrow your big clan and start all over again. It’s all death anyway. I bet on the coming five hundred years.”

The human powerhouses were trembling with fury.

Han Fei said leisurely, "If I were you, I might choose the second option. You don't have to give resources or leave Yu City but can still go to sea. That's great!"

However, the three human Venerables' faces were cold. They thought to themselves, This Wang Han is really greedy. Among the three, the last one to choose is the second one.

The first choice was that the big clans wouldn't leave Yu City, and the Avenger would be stationed in Yu City. Even if Han Fei were to publicize them, not many people would believe him.

But as for the second, once the big clans retreated, the control of Yu City would be taken away too, and they would be restricted. If the big clans wanted to develop, they could only eat their old money. In the long run, the big clans would only exist in name.

As for fighting?

To be honest, if it was just a beast king, they actually had a way. The big clans had deep heritage and methods.

However, the Grand Myriad Mountains had an even more terrifying existence after all! It was the divine son. That extremely powerful existence could be said to be the number one person under the king although he rarely showed up.

Now that the human Venerables were all injured, it would be the best they could do to stop a beast king. If the divine son really attacked, it was impossible for them to stop him.

A Venerable said, "We need to discuss it for a moment."

They had to discuss it.

Han Fei was too ruthless and killed Explorers without any warning. There were 12 captives just now, but in the blink of an eye, there were only 6 left because two of them said something to annoy Han Fei.

If they tentatively said that they couldn't accept it, none of the remaining people would survive.

They could naturally agree first and then regret it. However, did they dare to kill Han Fei?

While this thought flashed in their minds, Han Fei tilted his head and looked at the Beast King. "Master, if I die one day, it must be a scheme of the big clans. At that time, please avenge me."

The beast king's eyes flickered. "Okay! I know my disciple. He has wandered in the outer sea for many years without perishing. If he perishes in human territory, I'll kill those big clans one by one."

Han Fei chuckled. "Thank you, Master."

Hearing this, all the human powerhouses were dumbfounded. Damn it, we have to be responsible if you die?

However, they also knew that at this moment, their relationship had reached such a stalemate. If it wasn't them, where could it be?

But Han Fei thought differently. In fact, he didn't have 500 years at all. He had to find a way back. No matter what, this was the Age of Doom, not his world. Therefore, he could do whatever he wanted. Besides, Han Fei knew the situation in the future and didn't panic at all.

Although Han Fei didn't know how Ximen Linglan would survive these years? It should be very difficult. After all, she was making enemies of these big clans. But in any case, in the future, Ximen Linglan would be very strong! She would be in charge of the City of Justice alone and be loved by the entire city. This was clear.

The Thousand Star City and the Scattered Stars Island still needed him, and he had to return to the Scattered Stars Island in seven years. God knew how long he had been in the river of time.

What was the Thug Academy like now? What was the Scattered Stars Island like? Han Fei had no idea.

This was what worried Han Fei the most.

However, so many years had passed in the river of time, and Han Fei didn't care about the next few years. At least, he had to find a way to create a new situation so that he could find a way to leave in peace.

That was all Han Fei could do. He didn't know how the City of Justice would develop in the future. All he knew was the result. Now, he couldn't infer the development of the City of Justice through this result...

In the void, buzzing sounds echoed.

After a long time, a Venerable said, "Alright! Now that the human race is weak, the Grand Myriad Mountains are indeed stronger. Let's see what will happen after you take over Yu City. We'll choose the third option. The big clans will retreat from Yu City, but the 3,000 salt marsh in the north will belong to our big clans. In the future, the resources in the sea will be distributed depending on our means."

Han Fei tilted his head and looked at Ximen Linglan. "Where is the Three Thousand Salt Marsh?"

Ximen Linglan swallowed. She couldn't believe it! She had thought that the battle would be fierce. Hearing Han Fei's question, she quickly said, "It's a large salt lake on the north coast. However, it's relatively barren, about 20,000 kilometers away from Yu City."

After Han Fei smelled it, he grinned. "Okay, this matter is settled. The big clans in Yu City will move out of Yu City in three days. The Avenger will take over Yu City in three days."

Everybody gasped behind Han Fei.

Jia Wuxing and the others couldn't believe it. Damn, they made it?

Although it seemed that some people couldn't take revenge for the time being, it couldn't be helped. They were facing the entire Yu City's big clans now. They had never dared to force the other party to this point before.

As for the tiger and the other beasts, they were not interested in the tricks of human beings and felt that it was like they were fighting for territory. If they lost, they would have to change territory, right?

Han Fei could guess what their plans were.

They would temporarily evacuate and recover from their injuries first to nurture strong masters. The big clans had a long heritage. If they endured for a while, they might be able to take back Yu City in the future.

This was why they would rather move away than hand over the resources. After all, these resources had been accumulated over a long period of time. They would rather abandon hundreds of millions of people than to give up the precious resources accumulated!

In fact, they didn't understand the principle of "Man's will, not Heaven, decides". In the past, the people in Yu City were the bottom of society, the oppressed party. If these people turned over and became masters, would they be willing to return to the past? Since they were unwilling to return, there must be suppression by force, and there must be revolt?

This was Han Fei's real plan.

After all, Han Fei knew that the human heart was everything!

At this moment, Han Fei was not panicking at all. How can I let you win? Then consider it my loss. This is just the first time we've fought. Next time we fight, if I don't squeeze you dry, I will abandon my surname "Han".

Ximen Tian said with a straight face, "Now, can you release them?"

"Release them?"

Han Fei sneered. "What does this have to do with letting them go? I caught them with my own abilities. How can I let them go so easily?"

Han Fei didn't have the habit of releasing captives at all. If they were released so easily, why did he take them in the first place?

The Beast King couldn't help but scratch his butt, thinking, What else does this brat want to do? He has already won a complete victory this time. Does he still want to kill?

A Venerable said coldly, "Wang Han, what else do you want?"

Han Fei grinned. "What else do you want? These people have been chasing the Avenger for a long time and destroyed my ship. This is the fruit of my 18 years of hard work. How can I let them go? You haven't paid back the ten ships you owe me."

Ximen Wuqing snorted coldly. "Someone will deliver the big ships to you soon!"

Han Fei said again, "The members of the Avenger were all persecuted by the big clans. Now that the negotiation has been completed, we can't avenge them. How can ten ships be enough... You've gotta pay more."

Jia Wuxing and the others thought to themselves, Actually, we are already very satisfied. Don't fight the big clans again because of us! What if the negotiation breaks down?

However, Ximen Linglan was a little surprised. For some reason, she felt that what Han Fei said before was not important. What he said in the end mattered.

A Venerable asked, "Wang Han, what's the meaning of this? Yu City is already yours. Do you think it's not enough?"

Han Fei quickly waved his hand. "Stop. These two things are different. You can't mix them. These people's hands are covered in blood. If you don't pay some price, you will never know what pain is. If you want these people back, OK, pay us. How much money is needed to nurture an Explorer? I only want what I can see. These people are at least advanced Explorers. On average, for each of them, the price is a million catties of spiritual spring, a million catties of Spirit Awakening Fluid, ten heaven-level combat skills, a thousand ultra-quality spiritual weapons, a low-quality Divine weapon... no, an ultra-quality Divine weapon, ten thousand energy fruits, and ten thousand spiritual fruits..."

Han Fei counted on his fingers. Hearing his words, even the tiger couldn't bear it anymore and bared his teeth.

The tiger thought to himself, If anyone dares to ask me for such things, I'll definitely slap him to death.

Behind him, Jia Wuxing and the others swallowed crazily. The awakened Marshal Han seemed a bit ruthless. These things seemed to be much more than what they could get from robbing a big ship.

Ximen Linglan felt her head explode. Where was that domineering idiot just now? But now he seemed a bit strange!

"Enough!"

Someone shouted, "Wang Han, are you robbing us?"

Han Fei raised his head innocently. "Huh! Do you think an advanced Explorer isn't worth this? Or do you think a peak-level Explorer isn't worth this? You have to know that these people have a big grudge against me. How much pain in my conscience is it to let them go? You don't even want to add money but want to take them away? Why, do you think I'm a fool?"

With that, Han Fei picked up Snowmourne and was about to cut the captives.

"Wait a minute!"

"Don't move!"

"What's the rush?"

Han Fei stopped, looked at these people expressionlessly, and pointed his sword at Zhao Pi who was closest to him. "What do you mean? Are you giving me the money or not?"

Zhao Pi sweated hard and began to send messages to his family via voice transmission crazily: Son of a b
* tch, this brat really dares to kill me!

Just now, Zhou Zifu, who was next to him, was killed just because the Zhou Family people said something to question Han Fei. What could this brat possibly not do?

A Venerable was so angry that the corner of his mouth was trembling, but someone held back his fury. "Okay, we can give you this batch of resources, but Wang Han, there's nothing more."

Han Fei smiled casually. "That's it. I have nothing else to ask for. However..."

In an instant, everyone looked at Han Fei. "However?"

Han Fei suddenly looked at Ximen Tian. "But the Ximen family is different."

Ximen Tian frowned. "What do you mean?"

Han Fei's eyes were cold. "Ximen Linglan is the captain of the Avenger. She has a great grudge against the Ximen family. We can let others go, but we can't let Ximen Wuqing go."

At this moment, Ximen Wuqing was almost trampled to death. Fearing that Han Fei would really kill him, he shouted, "Wang Han, are you forcing us to fight?"

Han Fei sneered. "Shut up. It's not up to you whether to fight or not! You're the only exception. I'm not forcing anyone to fight!"

Ximen Linglan tugged at Han Fei's waist. "Idiot, actually..."

Han Fei glanced at Ximen Linglan. "Listen to me."

After that, Han Fei looked at Ximen Tian. "This grudge is huge. We can't coexist... You have to pay more."

Everyone: "???"

Ximen Linglan: "???"

The beast king: "..."

Han Fei said without blushing, "Twice as much."

Han Fei looked straight at Ximen Tian without dodging.

After all, this was a Venerable. In order to prevent this guy from doing anything unexpected in rage, he would just charge the Ximen Family twice as much. As for the future, it was another story.

Ximen Tian's eyes flickered, but he gritted his teeth and said, "Okay, no more."

Han Fei was speechless. Ximen Tian agreed so easily? It seemed that he had said too little just now. He should have asked for more.

However, forget it. There was still a long time to come. Han Fei wasn't in a rash at all. He would just take these benefits first.

Han Fei said casually, "You can go back now. You pay the money and we'll deliver the goods at the same time."

Ximen Wuqing and the others couldn't have felt worse. Are we goods?

A Venerable said, "Wang Han, do you doubt my credibility?"

Han Fei curled his lips. "You big clans have never been credible. I won't let these people go without seeing money and boats."

"Hmph!"

The man flew away, not wanting to say another word to Han Fei.

Immediately afterward, these people quickly left with swishes. It seemed that they didn't want to stay in this damn place at all. Or rather, they didn't want to see Han Fei's face for a second.

When all the strong masters on the human side left, the tiger slapped Han Fei so hard that he almost fell over. "Not bad! How did you get this?"

The corner of Han Fei's mouth twitched. "Master Tiger, my bones are scattered..."

Before Han Fei could exchange pleasantries with others, the Beast King roared, "Disciple, come with me."

As the Beast King waved his hand, Han Fei appeared above the sea, far away from the Avenger.

Han Fei scratched his head. "Master."

The Beast King looked at Han Fei. "Tell me what you remember. Do you remember that thing?"

Han Fei said solemnly, "I don't remember it. Or rather, I do remember it. It seems to be right at the tip of my tongue, but I can't speak it out. There seems to be a rule that prevents me from saying it."

Han Fei had expected it.

There must be something wrong with his crossing the river of time this time. Although he could remember things from a long time ago, he couldn't remember the final situation of the various races when it came to key matters, such as the Floating Stones, his understanding of the Heavenly Palace, the Soul Sea, or the situation of the various races.

The Beast King frowned. "That's indeed the reason. You are not from this world. Although you came across the river of time with a strange method, you can't change the situation in this world. All you can do is to take advantage of the situation."

Han Fei asked in confusion, "What's that supposed to mean? I'm already here!"

The beast king shook his head. "You don't understand! Even if it's a king, even if he really has a way to cross the river of time, he can't even speak or interfere with the changes of time. That's the suppression of the Heavenly Dao! For you to appear here, and you can fight, talk and fight, it can only be said that there is a problem with this river of time. In a sense, it lacks the influence of the Great Dao."

Han Fei's heart did a flip. He felt that he knew something, but he couldn't remember much about it. From his current memories, he had remembered all the normal memories.

What he didn't remember was all those secrets. It seemed that what the beast king said was true.

The Beast King looked at Han Fei. "Do you remember anything about the beast race?"

Han Fei thought for a moment. "In the place where I live normally, I haven't seen any beast race. However, I once encountered many beast race members, demon plant race members, and sky race members in a secret realm."

The Beast King narrowed his eyes keenly. "There are no war giants?"

Han Fei shook his head slightly. “No. Maybe I haven’t been to enough places. I have to become stronger first.”

The beast king nodded slightly.

The beasts could only appear in certain secret realms! This meant that their final result wasn’t good. However, since there were still some, it meant that they hadn’t been extinct.

“Do you remember the answer you came back for?”

Han Fei nodded. “Yes, but I don’t quite understand. Teacher, you said that an oracle could make the Sea Clan and thousands of races fight for tens of thousands of years?”

The beast king roared, “You don’t understand. Who doesn’t want to rule all the races and master the Great Dao? We only know that much. As for what the oracle is like, what did it mean exactly, and is there any secret behind it, they are not something we know. By the way, do you have a way to become a king?”

Could he become a king? The beast king didn’t know much about it.

What they said about being able to become a king was just a matter of posture. As for whether he could really succeed or not, he didn’t know, nor could he tell.

Han Fei was helpless. “Teacher, how can I answer this question? I don’t know the way, but many people say that I may become a king. I think so too.”

Han Fei wasn’t narcissistic. The source of his confidence wasn’t Old Han or his mother, who was the master of the Heavenly Palace, but the Demon Purification Pot.

Of course, he also knew that the problem he faced was very big. Here, he could use the Grand Myriad Mountains to suppress the big clans. However, once he returned to the Thousand Star City, he would really have to do it himself.

The Beast King nodded. “By the way, you need to be careful on your path of invincibility. This path is full of thorns and bumps. Only those with great luck can bear it. As I know, no one who embarks on the path of invincibility has a good ending.”

“Huh?”

Han Fei couldn’t have felt worse. What’s the meaning of this? Everyone says that the path of invincibility is hard to walk, but I’ve already walked it!

The Beast King comforted him. “However, it’s not necessarily true. After all, I have seen very few people taking the paths of invincibility. Perhaps someone has succeeded. You can even cross the river of time, which shows that you are very lucky.”

Han Fei smiled bitterly. Is this considered comfort?

Chapter 1140: Here Comes the Avenger

In fact, Han Fei couldn't tell the beast king much.

For the current Grand Myriad Mountains and humans, what they needed was time, powerhouses, and a way to resist the Sea Clan.

There were too many sea creatures and resources. The speed at which powerhouses were born was obviously faster than humans. In the battle of Venerables, a large number of sea clan Venerables died. It might be a heavy loss. However, this could only cause 500 years of peace.

If there was a next time, it would be a greater challenge.

When Han Fei returned to the avenger, he found that the strong masters of the four races of the Grand Myriad Mountains had already left, and only Ximen Linglan was left sitting on the top of the boat with her chin in her hand.

The others were all talking about what happened just now with exaggerated expressions.. They were almost scared out of their pants! At this moment, these people were expressing their inner excitement.

Someone said, "Damn it. I never dreamed that one day, we would take over Yu City!"

Someone was still dazed. "We won just like that?"

Jia Wuxing's head was also buzzing. "The big clans surrendered? So they did? No, am I hallucinating? I need to go to sleep. Yes, sleep."

Han Fei appeared with a swish and grabbed Jia Wuxing. "Hey, don't sleep. Prepare to accept the spoils of war."

Seeing Han Fei return, everyone paused and looked at him blankly. However, Han Fei was looking at Ximen Linglan. With a gentle tap of his toes, he had already sat beside Ximen Linglan.

Everyone was still looking up. As a girl, Yi Yue immediately said, "Don't look at them. Let's go to that big ship."

Yi Yue said via voice transmission, "Marshal Han and the captain definitely have a lot to say."

"Oh... That's right. Let's go to the big ship to clean up..."

When everyone ran away, Han Fei thought for a long time but didn't know what to say. What shall he say? I'm Han Fei from the other side of the Time River?

Having no choice, Han Fei looked at the noisy Jia Wuxing and the others and muttered, "What a bunch of idiots."

Ximen Linglan tilted her head and looked at him, thinking to herself: You've been an idiot for almost 30 years, and you still have the cheek to say that about others?

Ximen Linglan took a deep breath, straightened up, and faced Han Fei. "So, you... Are you still Wang Han?"

Han Fei nodded. "Yes."

Han Fei clearly felt that Ximen Linglan's tense body relaxed.

The latter breathed a sigh of relief with a tremble and then said, "Do you remember what happened before?"

Han Fei nodded slightly. "Yes."

Ximen Linglan blushed.

Han Fei looked at her with surprise, thinking: Why are you blushing? I was a pure fool back then.

Even Ximen Linglan's eyelashes were trembling slightly. "Then what, what do you remember? Who is Xia Xiaochan? You call this name the most. What about Tang Ge? And Zhang Xuanyu, Luo Xiaobai, Le Renkuang, Old Han, Old Jiang..."

Han Fei was stunned. Is that what you want to know the most?

Han Fei pretended not to know anything. "What? Who?"

Ximen Linglan looked at Han Fei leisurely, thinking to herself: Good, just keep pretending.

Han Fei changed the topic. "Let me tell you, we have a greater goal now, which is to completely crush the big clans. Otherwise, they will definitely come back."

Ximen Linglan was stunned for a moment. "Aren't they leaving now?"

Han Fei sneered. "That's just a temporary measure. The Venerables are injured, and we are stronger than them now, so they just retreated for now. When dealing with enemies, we have to torture them until they can't make a comeback... I've thought of a few plans. Let me tell you..."

Hearing Han Fei's words, Ximen Linglan was silent for a long time, and then suddenly said, "I still think it's better when you are an idiot."

Han Fei: "..."

...

Three days later.

Yu City was in an uproar. Every day, countless people lingered outside of Yu City. One after another, many big clans moved away. No one knew why.

Some families even took away their houses and land. Everyone was dumbfounded and had no idea what had happened.

Someone said, "Are these big clans crazy? Has the Sea Clan come again? Is it because this time it's unstoppable, so they're going to run?"

Someone was puzzled. "But where can they go? Do they want to cross the sea and run to the Black Stone City?"

Someone sneered. "What Black Stone City? If Yu City is attacked, how can Black Stone City have an easy time? They must have been attacked too."

Someone was puzzled. "That's not right! A few days ago, didn't the big clans go to destroy the Avenger? Could it be that they were driven away by the Avenger?"

Someone rolled his eyes and said, "How is that possible? No matter how strong that Avenger is, it's just a ship. Unless there is a king on it, how can it let so many big clans in Yu City move away? Besides, if there is really a king, can these big clans escape?"

Suddenly, someone ran in from outside the city and shouted, "They're here, they're here..."

Someone cursed, "Are you crazy? Who's here? Son of a b * tch, the Sea Clan is here?"

Before everybody panicked, the man roared, "The Avenger is here, the Avenger is here..."

"What?"

"Who's here?"

"The Avenger?"

"Hiss... Son of a b * tch, the big clans are leaving. The Avenger is coming. This..."

Someone listened to the news in shock. "Yu City is going to change!"

...

On the sea, a huge black ship thousands of meters long was breaking through the waves. This ship was in a strange shape. On the black sail with gold inlaid patterns, there were patterns. The stern of the ship was in the shape of an octopus, and the octopus's claws were clasped on the hull. The front of the ship was like a steel knife erected, and the bottom half of the blade was a shark that opened its mouth, domineering and ostentatious.

When modifying this ship, Han Fei found out why the Avenger was like this. These were transformed from the remains of the Venerables they had picked up in the sea over the years.

As for black, wasn't that the favorite color of pirates? Because of the need for setting up arrays, Han Fei wanted to make this ship into a unique avenger. Therefore, he didn't use the pirate map. However, at the top of the mast, there was a pirate flag.

He didn't see the pirate flag on the Avenger, so it must have been taken down. Otherwise, he would have doubted his life when he saw the pirate flag.

At this moment, Han Fei was modifying the arrays. He was afraid of Ximen Linglan.

Recently, Ximen Linglan was forcing him to have a baby with her.

Come on, if I have a baby now, when my baby is dead, I'm still living in the future. That doesn't make sense!

Furthermore, Han Fei suspected that this was almost impossible. How could he not care about the Great Dao?

This was because he wasn't a person of this era, and he would eventually leave, so it was impossible for him to give birth to a child. What if he gave birth to his own ancestor?

He thought, If this is a reincarnation, I shouldn't have woken up in advance! Or rather, waking up in advance means that I'm gradually leaving this time.

Han Fei knew that his memories were still a little lacking. What if these memories were filled up? From the looks of it, his soul injuries had basically recovered. If he waited for all of them to recover, would he remember things that he shouldn't remember?

The beast king said that it was the influence of the Great Dao. Then, once he was completely sober, what would the Great Dao do?

Therefore, at this moment, Han Fei didn't focus his energy on romance. He had to rebuild the Avenger first.

Seeing that they would reach Yu City soon, Ximen Linglan shouted, "Idiot, it's time for dinner."

Han Fei's body trembled. "Oh, well, it'll be done soon. You eat first."

Ximen Linglan appeared beside Han Fei and waited patiently. Han Fei shrugged. "Eat, eat."

Ximen Linglan sneered. "When you were a fool, you were much more domineering than now. How can you be so shy when you're eating?"

Han Fei immediately said angrily, "This is called concentrating on work and planning for ten thousand years."

Ximen Linglan snorted. "We're going to Yu City soon. What are you going to do after we take over Yu City?"

Han Fei smiled. "Humans need freedom, but we can't tell them directly. We have to stand on the side of justice and tell them that they are the masters of this city, the future of mankind, and they're free. Since they have become masters, they won't allow their home to be destroyed by others, even if the big clans come back in the future and suppress them. However, they have already developed the habit of freedom in their bones. Even if they are suppressed for a moment, they will still think about resisting all the time. This is what I want."

Ximen Linglan tilted her head and looked at Han Fei. "I have a feeling that there are countless things hidden in your head."

Han Fei laughed. "I've basically told you everything in my head. In the future, my task is to build an Avenger fleet that can sweep across the sea."

Ximen Linglan said in surprise, "You took Yu City, but you didn't manage it?"

Han Fei grinned. "Management is not something a single person can do. Wait, you'll find out when we reach Yu City."

Ximen Linglan said, "Since you're no longer an idiot, I feel that you have become so bad."

Han Fei: "..."

...

There were many ports in Yu City. Among them, there were eight largest ports, and no less than a hundred ports of various sizes. Otherwise, there would be no place for so many big ships.

Of course, there were many small towns around Yu City. The entire Linhai Town spanned more than 8,000 kilometers. With the countless villages and towns nearby, it was extremely vast.

The Avenger appeared in a place more than 500 kilometers away from the port of Yu City, which was the only route to and from ships. However, due to the lack of large ships going to sea these days, there were especially many small and medium-sized ships going to sea.

When countless small and medium-sized ships saw the arrival of the Avenger, they all turned around and fled back.

The rumors about the Avenger these days were too horrible, so people were scared.

After all, the feeling they got from the Avenger was that it had appeared out of nowhere and was extremely powerful. The big clans had already started to run away, but then the Avenger appeared, which explained a lot.

Therefore, many small boats stopped a hundred kilometers away from the Avenger to see what it was going to do. These people were hopeful and worried.

They were looking forward to the possibility that the Avenger would share the resources of the sea as the rumors said.

What they were worried about was whether the Avenger would be like the big clans. After all, countless people were used to this kind of environment.

In fact, the big clans thought the same. They didn't expect Han Fei to bring any "freedom" to Yu City at all. They felt that Han Fei just wanted to dominate. Therefore, they naturally felt that they had a chance to make a comeback.

On a boat, several middle-aged men were whispering.

Someone said, "Do you think they are really here to help us? However, the big clans usually don't bully us much except to collect some resource tax, right?"

Someone sneered. "Are you stupid? They don't bully us? Don't you know how strong we are? With our strength, can we get anything good? Look at those Hidden Fishers and Law Enforcers. When they get something good, they immediately exchange it with the big clans for what they need. Do you know how many benefits have the big clans exploited from this?"

Someone said, "That's right. You're just a fish head. They're everywhere in the relatively safe and resource-rich areas near the sea! They haven't gone to sea these past few days. Do you see how many people have gone to grab resources?"

Just as these people were whispering, a voice resounded in the void, "Everyone, from today onwards, our Avenger will take over Yu City. We are from the darkness, but we will bring light. If you don't find it troublesome, please inform your families and friends in the various villages and towns. At this time tomorrow, the Avenger will board Yu City and announce the liberation of Yu City. From today onwards, Yu City will be open to everyone. Anyone can enter Yu City and no one can stop them."

Buzz buzz buzz!

Everybody within a thousand kilometers was shocked.

“What? Yu City is liberated? Liberated?”

“The Avenger is going to board Yu City?”

Someone exclaimed, “Oh my god, the Avenger said that everyone in Yu City can become a free person? Is it true?”

Someone clutched his head and circled around a few times. “The Avenger won. Yes, they must have won in the Storm Strait. God, there must be a Venerable on the Venators.”

Someone shouted, “Brothers, don’t just stand there. Let’s go back and spread the news. We still have to spread the news to the villages and towns.”

While steering the boat, someone asked, “Will the Avenger really help us?”

Someone shouted, “We’ve already helped them. Haven’t you seen that the big clans have moved away?”

On this side, people were running and spreading the news.

On the Avenger, Han Fei was eating hot pot. After all, he had snatched countless good things, so it shouldn’t be a problem to eat hot pot with some spiritual fruits.

At this moment, four big pots were placed on the boat, and a group of people surrounded the hot pot, eating happily.

Someone said, “Marshal Han, are we going to take over Yu City? But we don’t have enough manpower!”

Someone kicked him. “What do you know? We’ve already taken over Yu City. How many people do we need?”

“Suck!”

Someone took a mouthful of fish meat and said with a buzz, “How can we do that? Marshal Han must have an idea. Why do you bother to worry about that?”

Jia Wuxing slapped the man’s head. “Shut up.”

He turned around and chuckled. “Marshal Han, what should we do with such a big city?”

Han Fei sneered. “Just eat your hot pot! You won’t understand even if I tell you. Anyway, I won’t let you do it.”

Jia Wuxing smiled awkwardly. “I just want to share the pressure with you and the captain.”

Ximen Linglan echoed, “Me neither. Managing a city is something we have never done before.”

“Crunch!”

Han Fei stuffed fish into his mouth, wondering how to manage a city.

When a person stood at a certain height, he would come up with a solution even if he didn't have a solution. As long as the principle remained the same, it was fine.

Han Fei suddenly felt that he had a headache, a very slight and faintly painful feeling. This was definitely not a good sign. As a cultivator, how could he have a headache?

Ximen Linglan looked at Han Fei. "What are you thinking?"

Han Fei shook his head and stuffed more fish into his mouth. "Nothing. I'm just thinking about the follow-up arrangements in Yu City."

"I believe you."

Han Fei smiled bitterly in his heart. I don't even believe in myself. You haven't managed a city, neither have I. The reason why I took it from the big clans is that I have to. If I don't, how can you be the city lord?

...

The next day.

All the ports in Yu City were full of people.

They had already begun to believe it. This was because all the houses and shops of the big clans in the city were empty and closed.

Of course, there must be many people from big clans in the crowd. However, these people were just asking about the situation in Yu City and couldn't cause a greater uproar.

Under the expectant gaze of everyone, in the early morning mist, a large black shadow slowly appeared. Immediately afterwards, a dozen large black ships followed the Avenger and slowly appeared in front of everyone.

Standing on the bow, Han Fei declared proudly, "My fellow humans, gather in the city."

"Roar!"

"Here it comes. The hope of Yu City has come."

"Welcome, the Avenger."

"I have been waiting here since last night."

"Let's go to the city."

"Let's go. Let's go together."

Seeing countless people walking towards the city gate, Han Fei couldn't help shouting, "From today on, you can fly freely in Yu City. Anyone can walk from the sky as long as you don't destroy this city."

"Roar!"

"The Avenger is awesome!"

Swish swish swish!

One figure after another flew in the air. Although these people didn't have wings, Hidden Fishers could temporarily fly in the air, so this was nothing.

As for those who couldn't fly, Han Fei saw many Hanging Fishers climbing the city wall. Some manipulators even set up a spiritual plant ladder to let people step over the city wall. After all, the gate here had been blocked.

Han Fei glanced at Jia Wuxing and the others. "Leave the ships here. Let's go into the city."

This was the first time Han Fei entered Yu City.

Even though he had been in this world for nearly 40 years and had always heard about Yu City, it was the first time he had been in this city. He estimated that it should be similar to Thousand Star City.

Behind him, Jia Wuxing shouted, "Have you sorted out your hair? Pay attention to your manners. Don't disgrace Marshal Han and the captain. Beard, straighten your beard."

Someone swallowed. "Old Jia, aren't you nervous? Damn, my heart is pounding."

Someone echoed, "I'm so nervous that my legs are shaking. This is too big a scene! How many people are watching us?"

Yi Yue was also nervous, but she comforted everyone. "Don't worry. Generally speaking, the strong are in big clans. Although ordinary people also have strong masters, they are at most peak-level law enforcers. There are very few Explorers among them. You are all very strong."

Jia Wuxing also took a deep breath, looked at Han Fei and Ximen Linglan who had already stepped into the air, and immediately said loudly, "Let's go, follow them. Damn it, we've come all the way here. Now that we're back in the city, why should we be afraid of them?"

In the sky, Ximen Linglan said telepathically, Idiot, I, I'm nervous too.

Han Fei said leisurely, "Don't panic. It's not a big deal."

Han Fei said to Ximen Linglan and the others, "Just think of them as fish heads. Yes, just think of them as fish heads."

Someone muttered, "How many fish heads are there?"

Jia Wuxing slapped him. "Shut up. Just take them as fish heads. Cut the crap!"

Han Fei and the others didn't fly fast. When they walked above the city wall, many law enforcers and Hidden Fishers were waiting here, following their steps.

In the city, it was crowded, and many people were looking at the sky.

A child held an old man's hand and jostled her way through the crowd. "Grandpa, is this Yu City? There are so many people!"

The old man sighed. "Alas! Yes, this is Yu City. There are so many people in the main city. Grandpa hasn't been here either. Let's take a good look this time."

A girl pointed to the sky and said, "Dad, that woman looks awesome."

The old man was also fascinated. "Perhaps you can also fly into the sky and dive into the sea like her in the future!"

Many people were amazed. Many of them came from villages and towns. This scene was rare to see in thousands of years. Wouldn't it be a loss if they didn't take a look?

Unlike the people who only knew a little about the situation, Han Fei scanned more than 600 kilometers as soon as he entered the city, but he didn't find any Sea God statues.

"Huh? Not here? Why?"

Han Fei frowned. He had seen a statue of the Sea God in the City of Justice, but there were no statues here. Did the Heavenly Palace not appear at this time?

"No, that must not be far behind the timeline. The Heavenly Palace must have appeared before the destruction of the City of Justice."

Han Fei smiled.

Since the statue of the Sea God was not here, this was a good thing. This showed that in the coming period of time, it was actually not just Ximen Linglan who was working hard, but many people were working hard in places unknown to others.

As for why the City of Justice was destroyed, there might be many reasons. Perhaps his mother and the others were fighting somewhere? After all, the Thirty-Six Heavenly Palaces were so huge that they couldn't fall from the sky.
