Chapter 1151: Balance Broken

If the Thug Academy could maintain the so-called balance, it would only end up as food for the big clans and would eventually be divided up.

What Han Fei needed to do was to muddy the waters.

There was a saying, "Take advantage of troubled waters".

Ancient existences like big clans all enjoyed vested interests. Perhaps the ancestors of some families had made contributions, but most of their descendants were on the opposite side of the commoners.

For those who prioritized their own interests, who would want others to become kings?

Ren Tianfei added, "Heh, do you remember the scene when I just snatched the Sea Quelling Painting? I said that the Heavenly Palace is not as good as you said, and there is no chance of becoming a king there. Otherwise, I would have become a king long ago, and the first people I would kill would be you."

All the Venerables frowned.

They chose not to believe Ren Tianfei's words. However, Han Fei's words seemed to be true. He even knew there were 36 Heavenly Palaces. It seemed that he knew some inside information.

The Chu Sect Venerable's voice shook. "Everyone, don't be swayed by this sharp-tongued brat. Let's not talk about what will happen to us later. This brat is definitely not a good person, just like Ren Tianfei and Han Guanshu."

Han Fei immediately shouted, "The Thug Academy is one of the eight academies in the Thousand Star City. We have our rules! Becoming a king? That's bulls * it. If there is a king in the Thug Academy, we might attack some big clans, but we have no reason to attack everyone, just like not everyone attacked the Thug Academy back then."

Han Fei paused and continued, "If you still can rest assured, when a Venerable is born in the Thug Academy, all the secrets of the Star Beads will be given to you for free. At that time, you can use your own means. But you can't just snatch the Star Beads from us."

What Han Fei needed to do was to buy time.

As long as he could hold out long enough, who would fulfill this promise? That was just a trick.

Buzz!

Suddenly, a Venerable shouted, "Ren Tianfei, are you provoking us?"

Han Fei looked at Ren Tianfei with a stunned look, only to see this guy saying casually, "What? I just destroyed a small family in Chu Sect and casually killed two Explorers. Why are you so excited?"

Han Fei's eyes moved. Old Ren took action again? He grinned. "Did you see that? If you want to think about it, go home. I suggest you pay the money now and take your people back. By the way, the

payment is limited to today. Before sunset today, whoever doesn't deliver the resources will be killed. Heavenly Talents from big families? Just a bunch of Iron-Headed Fish to me."

Bang!

Suddenly, a terrifying pressure descended.

Even Ren Tianfei was pressed down a bit and he suddenly shouted, "Attack."

Swish swish swish!

Han Fei directly attacked, only having the time to launch a strike with the Draw Technique. The Void Lines only had the time to control six people, including Chu Qingyan, Yang Nanxi, and Li Xuan.

At that moment, Luo Xiaobai's father appeared, but he failed to protect them. Luo Xiaobai and the others all vomited blood.

"Pfft!"

With broken bones and bleeding eyes, Han Fei killed three people with a single slash.

Boom Boom Boom...

In the next moment, Han Fei controlled another three to explode with the Void Lines.

Ignoring them, Han Fei roared, "Come on, let's hurt each other! You have to think twice before you kill me! I'll kill them without batting an eye."

More than ten people were taken away at once. Although they were not very important, Han Fei was very unhappy.

Apart from Chu Qingyan and company, the other three who were controlled by the Void Lines all self-destructed.

Han Fei flashed and slashed out with the Blood Drinking Knife.

"How dare you!"

"Pfft!"

Another person was killed by Han Fei.

Someone was about to attack when he heard an ethereal voice in the air, "Yang, if you dare to touch me, I'll slaughter your Yang family first."

Han Fei suddenly felt the pressure on him decrease.

Han Fei wiped the blood on the corner of his mouth and said ruthlessly, "OK, the price is doubled now. If you don't pay, I'll kill them."

Half of Ren Tianfei's body was destroyed, but he was still speaking. "You're not going to win today. You guys want to play tough? Then don't blame me for killing too many of you."

"Hmph!"

Someone flew away, and the explorers glared at Han Fei and retreated too.

...

In the distance, as soon as Han Guanshu appeared, a figure appeared, and the two directly broke through the void.

Someone from the Cao Family who was watching the show said leisurely, "This guy has acquired the War Body."

Someone from the Heavenly Sword Sect retracted his gaze and frowned. "He's quite bold. Will the Thug Academy rise because of him?"

A strong master from the Sea Cloud Tower loosened the wooden stake in his hand. "Make the water muddy? However, this kid has underestimated the big clans."

In the void, there were still people hiding.

A woman said, "Darling, is Yanyan safe in the Thug Academy? I'm so scared."

A man said, "Don't worry. Look how confident the boy is. Why did you choose Zhang Xuanyu back then? Isn't Han Fei a better choice?"

The woman said, "Zhang Xuanyu is so handsome!"

The man: "..."

...

Back mountain of the Thug Academy.

Han Fei dragged Ren Tianfei's remnant body and chatted with him.

After all, it was just a clone. Able to protect Han Fei for one second, it was already a very powerful clone. Han Fei didn't understand why this old guy had so many clones, and they were all so strong.

Han Fei set up a seal and said, "Old Ren! Tell me the truth. How many Venerables can you defeat at once? I'm curious!"

Ren Tianfei leaned against the big tree. "Venerables? Do you think a Venerable is an Iron-Headed Fish? If I hadn't disguised my clone as my original body to attract two people away, do you think I would have dared to come here?"

"Hiss!"

Han Fei gasped. "You mean, there were five Venerables who were going to hunt you?"

Ren Tianfei rolled his eyes and said, "Yes! Fortunately, your combat speed is fast enough and it only took you three seconds. Otherwise, I would have been killed."

Han Fei was speechless. "Well, aren't you quite capable? You killed your way into the Thousand Star City twice. Why couldn't you do it this time?"

Ren Tianfei spat. "How can it be the same? What was my previous state? What is my current state? Do you really think I can't be killed?"

Han Fei chuckled. "What do you think? How long can the muddy water last?"

Ren Tianfei said angrily, "How long can it last? Evacuate the Thousand Star City within three days."

"Huh?"

Han Fei was shocked. "Wait... only three days?"

Ren Tianfei said, "If you don't get out quickly, you won't be able to get out anymore. You made a mistake!"

"Huh?"

Ren Tianfei said helplessly, "You can brag about the Heavenly Palace and leak some secrets. However, you shouldn't have told them about the person from the Heavenly Palace that the Chu Sect wants to take."

"Why?"

Ren Tianfei cursed, "Chu Sect prospers because of that single person. Do you know how many people feel scared? Now, their attention is on the matter of becoming a king. However, once their attention is diverted, it will fall on this person. The matter of becoming a king may be put aside, but this person is the priority. Those Venerables will not allow this person to be taken by others... Therefore, they will definitely force you to stay in Thousand Star City, barely maintaining this kind of balance that no one can obtain. Then, find a follow-up solution. In this way, you will be stuck at the peak of the law enforcer realm, unable to advance."

Han Fei was shocked. Damn, that's right. I was too careless.

Ren Tianfei sneered and said, "You're too arrogant! However, this is indispensable for a strong master. It's just that when you muddy the water, you got yourself involved too."

However, Ren Tianfei turned his head and said, "However, in fact, even if you didn't tell this person, you can't leave. Your strength increases too fast and can even kill an Explorer. Anyone knows that if you want to choose a chance to break through to an Explorer, you can't do it in the Thousand Star City. Therefore, sooner or later, you still have to run."

Han Fei: "..."

Ren Tianfei said leisurely, "Your strength is growing too fast, which is also a problem. Anyway, think of a way to run quickly. Those three brats, just kill them! Or take them as hostages... One of my clones has already gone to Jiang Daqian and Bai Congye."

Han Fei couldn't help but ask, "How can I run?"

Ren Tianfei was stunned for a moment. "Wait for someone to save you... Why, do you think you can run away yourself? Okay, I have to go. Just do what you should do. Saving someone doesn't need an opportunity. Every moment is an opportunity."

Han Fei was lost for words. "Wait... Where are you going?"

Ren Tianfei snorted. "Although it's just a clone, it has a wisp of my soul."

After that, Ren Tianfei lay down dead, and a blue light flew away with a swish.

Han Fei: "..."

...

When Han Fei came to the back mountain, Yang Nanxi and the other two were like quails, crest-fallen at this moment.

They were usually arrogant and didn't respect each other.

However, who would have expected that they would be crushed by Han Fei so easily!

Yang Nanxi's hands were gone, so was Chu Qingyan's legs. Li Xuan didn't dare to say a word. He was the only one who had seen Han Fei before entering the Ideal Palace.

However, he would never have thought that Han Fei had become so strong after only two months.

Not just that, the three of them were dumbfounded, so were Luo Xiaobai and the others.

When Han Fei saw Luo Xiaobai and the others, Luo Tianhe had already left. He could attack occasionally, but he couldn't face the big clans of the entire Thousand Star City.

Han Fei glanced at it, but didn't see any Tree Spirit clones. It must have been killed.

Seeing Han Fei, Zhang Xuanyu shouted, "Han Fei, come on, explain to me what happened to you."

Le Renkuang quickly said, "Treat my leg first."

Luo Xiaobai didn't speak but just looked at Han Fei quietly.

The Su family's explorer stood on the side with Su Daiji and company. He seemed to want to hear it too.

Han Fei glanced at Su Laocheng. "From today on, the Su family has nothing to do with the Thug Academy. Su Daiji and Su Sanqian, our Thug Academy will take care of them ourselves."

Su Laocheng's heart trembled. He was about to speak several times, but in the end, he nodded slightly, tore through the void, and left the Thug Academy.

Luo Xiaobai frowned. "What happened?"

Han Fei said leisurely, "I'm afraid we have to run."

Everyone: "???"

Chapter 1152: Prepare to Escape

After explaining the reason for his escape, Han Fei came directly to the back mountain of the Thug Academy.

At this moment, Han Fei squatted beside Jiuyin Ling, looking solemn.

Jiuyin Ling was quite seriously injured. Her internal organs were seriously injured and showed signs of being disabled. However, it was obvious that someone had helped her. She must have eaten a lot of spiritual fruits. Otherwise, she would have been disabled.

However, even if she hadn't been disabled, her foundation had been damaged and she needed time to recover.

When she saw Han Fei, Jiuyin Ling said palely, "I'm fine."

"Fine my ass!"

.

Han Fei frowned and cast the Divine Healing Technique a few times. Only then did he see that Jiuyin Ling's complexion was better.

Luo Xiaobai said, "Because of Jiuyin Ling, the Jiuyin family was attacked by the big clans. I heard that Senior Jiuyin Lie was disabled."

Han Fei narrowed his eyes and said, trying to hold back his fury, "I see. I'll take revenge on you later."

Next to the hot pot.

Han Fei picked up a large piece of fish meat and stuffed it into his mouth, humming. "Just like you can't remember anything after leaving the Ideal Palace, I can't remember anything either. However, I'm strong anyway."

After all, Han Fei had entered the Ideal Palace with them. As for what he had experienced, Luo Xiaobai and the others didn't know. Han Fei was very confident no one would know it.

At this moment, the big clans didn't know what Han Fei had experienced in the Ideal Palace. Why had Han Fei become so strong? Unfortunately, the people who entered the Ideal Palace didn't remember everything inside. Therefore, the big clans couldn't investigate.

What kind of opportunities did Han Fei obtain inside? Everything was a mystery.

However, it was obvious that many elites from the big clans had died in the Ideal Palace.

Because of this, the big clans now also had many guesses. Whether there was someone teaming up with the Thug Academy was also quite contested.

At this time, Han Fei perceived his surroundings and suddenly said, "Release your souls. I'll teach you a new language."

Luo Xiaobai and the others were puzzled. Then, they looked at the void and nodded slightly.

A moment later.

Han Fei said in the Giants' language, "Regardless of how this language comes about, we have to find a way to run in the next few days. This is because I'm already a peak-level law enforcer. Although this

balance seems to still exist, it's actually broken. I have to run. If I don't run, I won't be able to become an Explorer."

Luo Xiaobai said, "I think so too. You're growing too fast! If it were me, I would have kept an eye on you immediately. Now, someone must be already watching you."

Zhang Xuanyu said, "How do we run? Will Senior Ren help us?"

Le Renkuang said, "I don't think so. There are so many Venerables watching."

Han Fei shrugged. "I don't know either. He said we should wait to be rescued."

Jiuyin Ling's eyelids trembled slightly. She didn't speak but just listened quietly.

She saw the scene where Han Fei attacked just now. However, because of her injuries, she didn't go out. She still couldn't believe that Han Fei had become the strongest in the Thug Academy in such a short period of time.

She thought that those people all said that she cultivated fast, but in fact, Han Fei was the fastest.

It was precisely because Han Fei was extremely talented that the big clans in the Thousand Star City didn't tolerate him. Could she really help him in a battle of this level?

Han Fei said, "So, what should we do? Do we just wait?"

Luo Xiaobai was silent for a while and said, "We can't just sit idle. No one knows how many Venerables there are in the Thousand Star City. How many can Uncle Han contain? We don't know either. Senior Ren should be able to hold three! The President and Uncle Jiang might come... However, it's useless for them to come. There are many explorers in the Thousand Star City. Therefore, once they come, it means that they also have the strength to temporarily resist Venerables."

Everyone looked at Luo Xiaobai.

Han Fei was stunned. "So?"

Luo Xiaobai said, "If they aren't strong enough, they might not be able to rescue us. Besides, one of the reasons that the Thug Academy sent us here should be to find a way to enter the Heavenly Palace. I don't think we've accomplished that, right?"

Han Fei hesitated for a moment. "Well, actually... I think we have."

Swish swish swish!

Everyone looked at Han Fei. What? Why did you say that?

Han Fei smiled bitterly and said, "It's complicated to say, but the so-called path has never been complicated. The problem is that we can't enter the Heavenly Palace easily. Old Han had told me that there are Explorer-level puppets everywhere there. The problem is, do you think Old Bai really wants us to come to the Thousand Star City to find the way?"

Luo Xiaobai's heart stirred. "Why do you say that?"

Zhang Xuanyu asked in surprise, "What else?"

Han Fei said, "I keep feeling that something isn't right... In fact, I feel that he wants us to go to the Ideal Palace more, right? Tell me, what happened to you when you left the Ideal Palace?"

Luo Xiaobai said, "After I came out, I became a Law Enforcer, but I don't know how I made the breakthrough."

Han Fei scratched his head. Don't know how?

He had a feeling that this matter was still related to him.

Han Fei was certain that his reincarnation and the so-called Reincarnation Soul Realm were not the same at all.

To Luo Xiaobai and the others, the Ideal Palace might be a training ground. Perhaps the true Reincarnation Soul realm was meant for him to become a law enforcer. However, to him, reality wasn't like this.

If there were no big clans chasing him, then when he entered the Fifth Soul Realm, he might meet Ximen Linglan.

Ximen Linglan's mountain grabbing battle didn't succeed. Humans would lose, but what would happen after they lost? Would he be recognized? Would he have to enter reincarnation again in the end?

Besides, there should be follow-up stories about the human beings and other races in the reincarnation cycle.

After all, there was no statue of the Sea God in the City of Justice that he had snatched, so what were his mother and the others doing back then?

Also, in the Prehistoric Soul Realm, when he transformed into a giant ape, why did the beast race fight with the fleeing humans? Logically speaking, with his appearance, the Grand Myriad Mountains should be the first to know some information about the future.

Since there was a battle, the human ship he saw seemed to have found a way out...

Which people and which races had escaped the disaster? Han Fei didn't know.

Han Fei also sighed at the fate of Ximen Linglan. However, no matter what, everything she had experienced was something that had already happened in the past. No matter how sorry Han Fei felt for her, he couldn't change anything now...

The Ideal Palace left many unresolved mysteries...

Han Fei didn't understand.

When he had the chance, he would still enter the Ideal Palace to take a look. If he could still enter the Fifth Soul realm, would it form a time paradox?

"Han Fei, Han Fei."

Hearing that Luo Xiaobai was calling him, Han Fei suddenly came back to himself. "Ah, OK! Let me put it this way. The president probably sees that the Scattered Stars Island is not very useful for our training

and just wants us to find a safe place to train, but he didn't expect me to make a breakthrough so quickly and implicate everyone."

Pa!

Zhang Xuanyu patted Han Fei. "We're brothers. What are you talking about? Anyway, we've come to the Thousand Star City, become law enforcers, and been in two of the Three Holy Lands. We didn't suffer any loss."

Le Renkuang nodded quickly. "I don't like it here. I want to stay at sea."

Luo Xiaobai glanced at Yi Xinyan and company who were eating another hot pot but were all looking at them. She said via voice transmission, "The problem is that it doesn't seem to be a good choice for us to wait here. Since the battle has already come to this, I wonder if there's a way to cause a greater uproar and create opportunities for Senior Ren and the others?"

Zhang Xuanyu said suspiciously, "Can we escape under the Venerables' nose if there is chaos?"

Le Renkuang said, "Change face! We can change our faces and leave."

Zhang Xuanyu was lost for words. "Are you an idiot? Do you think Venerables can't recognize you? You can't escape even if you become an Iron-Headed Fish."

Han Fei pondered for a long time and suddenly beckoned to Yi Xinyan. "Yanyan, come here."

Swish!

Yi Xinyan and company had been paying attention to this side. They were really dumbfounded. They had just entered the school and the school was already fighting the big clans of the Thousand Star City.

"Senior Brother, what's up?"

Han Fei smiled. "Yanyan! Can you still contact your father and mother?"

Yi Xinyan shook her head. "The two of them ran away to have a second son. They definitely won't let me find them."

Han Fei said leisurely, "Really?"

Han Fei waved his hand and let Yi Xinyan continue eating the hot pot.

After pondering for a moment, Han Fei took a deep breath. "Xiaobai, if you return to the Luo family, will the big clans give you a hard time?"

Luo Xiaobai frowned. "What do you mean?"

Han Fei said, "Make arrangements one by one! In fact, it's not difficult to leave. The difficulty lies in me, not you. Only if you can leave can I think of a way to escape."

Zhang Xuanyu said, "No, we must leave together."

Le Renkuang nodded quickly. If they left, wouldn't there be a full-scale war if Han Fei wanted to leave?

Han Fei said, "Let's wait and see."

...

After dinner.

Han Fei lay on a tree, deep in thought.

He was even more suspicious now. What was their purpose in coming to the Thousand Star City? It couldn't be as simple as finding the entrance to the Heavenly Palace, right?

After so many years, the real strong masters in the Thousand Star City actually knew a few ways to go to the Heavenly Palace.

Perhaps it was not that they didn't know how to go, but that they didn't have the ability to go!

Just now, from Ren Tianfei's tone and casual manner, he didn't seem to be too worried.

Therefore, Han Fei dismissed the gloom in his heart and stopped thinking about it. He decided to see what would happen in the coming two days...

Since Han Fei came out of the Ideal Palace, he hadn't fully checked his situation.

A vine in the Demon Purification Pot had withered, which made Han Fei's heart sink. It seemed that the price to forcibly deduce the sixth level of Void Fishing was not small. He wondered how much spiritual energy it would take to make this vine green again.

At this moment, information appeared in his mind.

Owner: Han Fei

Level: 69 (Peak-level Law Enforcer)

< Spiritual Energy > 4,325,681 (9,999)

< Spiritual Power > 18696 / 18696

Perception range: 942 kilometers

Enforcing Law: Invincible Vajra

Strength: 52 Waves

First spiritual heritage: Level-9, High-Quality

Second Spiritual Heritage: Unawakened

First spiritual beast: Twin Yin-Yang Spirit Swallowing Fish (level-59)

Second spiritual beast: Unawakened

Main Art: Sky Stealing Technique, level six of Void Fishing (Venerable Level, Divine Quality)

...

When he saw this information, Han Fei was briefly stunned. When he was reincarnated, he actually re-cultivated.

Since he was re-cultivating, there were many things that he hadn't cultivated. Therefore, at that time, whether it was spiritual energy, spiritual power, perception range, or strength, there were some differences.

Especially when he accidentally took the Heritage Stealing Fruit, he didn't even realize it until he woke up later. He didn't know if he was lucky or destined to take this spiritual fruit, which made his spiritual heritage reach level nine unknowingly.

He had once wanted to pursue the improvement of his Spiritual Heritage, but now, his Spiritual Heritage was already the highest level.

However, after Wang Han fused with his true body, his strength didn't increase much. In particular, in terms of strength, although he was more than ten times stronger than when he entered the Ideal Palace, he was only slightly stronger than when he was in the reincarnation.

In the realm of peak-level law enforcers, the strength of ordinary geniuses could reach more than 40 waves.

Han Fei suspected that he hadn't completely adapted yet. Perhaps he still needed some time to settle down before he could completely stabilize his strength.

Since he needed to settle down, Han Fei wasn't in a hurry. He had just reached the peak of the law enforcer realm and still had a long way to go. He didn't have time to study the Sky Stealing Technique now. He'd better leave the Thousand Star City first.

After experiencing this reincarnation cycle, Han Fei had seen through the true nature of the big clans.

Therefore, these big clans must be destroyed!

These big clans, like the cancer of human beings, had almost drained all the fishermen under the rule of the Thousand Star City.

If Han Fei wanted to become a king and rule this domain, he must get rid of this cancer! Ximen Linglan's City of Justice had set an example for Han Fei!

In a sense, wasn't Ximen Linglan's path the same as his?

Chapter 1153: Unrest in the Heavenly Fire Festival

In the evening.

The people from the big clans came to deliver resources. They really gave as many things as Han Fei asked for without even bargaining.

Han Fei sneered in his heart. "Why don't you even bargain? Do you think you can take these resources back? In your dreams!"

Looking at the person who came to pick her up, Yang Nanxi shouted, "Come on, let's go. Have you picked up my arm?"

“Miss, I’ve picked them up. Your arms will be put back on you as soon as we go back.”

Yang Nanxi didn’t want to stay in the Thug Academy for a second.

When Han Fei and the others were eating hot pot, she had a feeling that Han Fei wouldn’t let her eat hot pot..

At this moment, when her family came to pick her up, she was so excited that she almost cried. She, a peerless Heavenly Talent, had been defeated so miserably and completely!

Of course, Yang Nanxi felt a little comforted. Chu Qingyan was even worse. She had almost been minced into a human stick. What ten geniuses? At that moment, they were nothing to Yang Nanxi.

She had a new goal now, which was to crush the so-called top ten geniuses first.

Compared to Yang Nanxi who didn’t have much hatred in her heart, Chu Qingyan’s eyes were filled with anger. Escorted by an Explorer, she said coldly, “Han Fei, one day you will regret it.”

Han Fei grinned and took two steps forward. Seeing this, the Explorer frowned, fearing that Han Fei would go crazy again.

Han Fei sneered. “Don’t worry. I won’t attack again. Chu Qingyan, right? I originally wanted to kill you, but do you know why I didn’t kill you?”

Regardless of what she wanted to answer, Han Fei said, “Because you are a pile of resources in my eyes. I can exchange you for a massive amount of resources. Besides, to be honest, you aren’t even qualified to be my opponent now. As long as I don’t die, there will always be a demon in your heart. Maybe I can make another fortune from you in the future...”

“In your dreams!”

Han Fei shrugged and waved his hand. “Get lost!”

When Chu Qingyan and the others were taken away, Han Fei’s smile sank slightly.

Luo Xiaobai said solemnly, “They gave resources too readily. Something is wrong.”

Han Fei nodded. “For them, they probably just want to keep the resources with us and think they can take them back at any time.”

Zhang Xuanyu sighed. “Doesn’t that mean that they will attack at any time? It seems that they are really going to fall out with us now?”

Suddenly, Han Fei’s heart did a flip. He found that someone outside the school came, and it was an acquaintance.

“Huh? Diwu Weiguang?”

Han Fei frowned. “Him again?”

Han Fei said, “Someone is here.”

Everyone was stunned. Someone came to their door at this time?

At the gate of the school, when Han Fei saw Diwu Weiguang, Luo Xiaobai said, "Diwu Weiguang, Sea Cloud Tower, very strong."

Han Fei certainly knew.

In the face of the powerhouses on the Genius List, this guy could fight three alone. How could he not be strong?

When Diwu Weiguang saw Han Fei and the others coming out, he immediately cupped his hands and smiled. "I'm Diwu Weiguang from the Sea Cloud Tower. I'm here to visit you."

Luo Xiaobai was puzzled. "What's the matter?"

Diwu Weiguang glanced at them and said, "Hey! Why don't I see your junior brothers and sisters in your school? I'm here to find them."

Zhang Xuanyu raised his eyebrows. "What do you mean?"

Diwu Weiguang grinned and said, "Well, in every Heavenly Fire Festival, we Sea Cloud Tower will have a battle of breakthroughs to boost cultivation with the battle. We sincerely invite the geniuses of the major academies to participate in the battle. I've long heard that the Thug Academy only has geniuses. How can our Sea Cloud Tower miss you?"

For some reason, Zhang Xuanyu didn't seem to like this person. He immediately said, "Why should we go? You're not the Heavenly Sword Sect and ranks last among the seven major sects. We're not going."

"Wait a minute."

Before Diwu Weiguang could speak, Han Fei suddenly interjected.

Zhang Xuanyu and the others looked at Han Fei curiously. At this moment, they were planning how to escape. How could they escape if they let Yi Xiyan and company go there to fight?

Diwu Weiguang looked calmly at Han Fei with a smile.

Han Fei grinned. "What's in it for them to go there?"

Diwu Weiguang smiled and said, "Helping others is also helping themselves."

Han Fei pointed at himself and said, "Do you think I can help you?"

The corners of Diwu Weiguang's mouth twitched. "Brother Han, you must be kidding. Who doesn't know what happened today? You'd better forget it. I'm afraid that you can't help us but cause problems."

Han Fei said, "If our academy's disciples go to help, there should be a teacher leading the team, right? We can't just let the five of them go, right?"

Diwu Weiguang said lightly, "The Sea Cloud Tower is one of the seven major academies anyway. We'll certainly take good care of the disciples of your school."

Luo Xiaobai's eyes slightly changed.

It didn't sound right. Did the Sea Cloud Tower want to help?

Han Fei thought for a moment. "Alright, our Thug Academy has always been friendly and likes to help others. Yanyan, Daji, Gu Qi... come out."

Zhang Xuanyu asked, "Feifei, what do you mean?"

Han Fei responded, "Didn't you hear him? Going to help with the battle is equivalent to learning from others."

A moment later, Yi Xiyan and company came out.

Han Fei said, "Xing Yue, the Sea Cloud Tower has specially invited you to participate in the Heavenly Fire Festival to gain experience. You are all strong masters of your generation, so you can't disgrace the Thug Academy. In addition, when you reach the Sea Cloud Tower, don't cause trouble for me. Take instructions from this Senior Brother Diwu."

"Huh?"

Xing Yue frowned. Why would he go to the Sea Cloud Tower at this moment?

Yi Xiyan said, "Darling, are you going?"

Zhang Xuanyu's face changed. "Shut up. That's just a low-level trial. Just do what you're told."

Han Fei said, "Okay, it's settled."

Diwu Weiguang waved his hand and a fishing boat appeared. "Let's go. Next time I have a chance, I'd like to fight Brother Han for communication."

Han Fei smiled. "OK."

Su Daiji was still looking at Han Fei. Han Fei frowned. "What are you looking at? There are no toys this time. Go find your own toys to play with."

Xing Yue seemed to realize something and immediately said, "Let's go."

After Diwu Weiguang left, Han Fei looked up at the sky and said lightly, "Xiaobai! Do the Sea Cloud Tower want to snatch the disciples of the Thug Academy?"

Of course, these words were not for Luo Xiaobai to hear, but for some other people.

Luo Xiaobai rolled her eyes. "Whatever, we can take them back later."

Le Renkuang was stunned. "There are only the five of us left? Li Luoluo hasn't come out yet."

Han Fei raised his brows. "Leave her alone. She doesn't have a strong sense of presence. Let her do whatever she wants in the Ideal Palace."

Seeing Su Daiji and the others taken to the Sea Cloud Tower, Jiuyin Ling's heart did a flip.

Anyone who wasn't an idiot could tell that the Sea Cloud Tower had helped them. However, the Sea Cloud Tower didn't want to get too involved, so they only protected the five juniors.

Luo Xiaobai and the others were also puzzled. Why would this major sect that had always had a low profile help them? The Heavenly Sword Sect should be the one taking action, right?

As for Han Fei, he seemed to have some guesses. In the Ideal Palace, Diwu Weiguang had helped him twice.

Including this time, it had been three times.

There was a saying: Those who you have helped might not necessarily help you, but those who have helped you will still help you.

At this point, Han Fei was sure that something was wrong with the Sea Cloud Tower.

There was no helping without reason in this world. Perhaps the Sea Cloud Tower was either related to Old Han or the Thug Academy, but the probability of it being related to Ren Tianfei didn't seem to be high.

This time, the Sea Cloud Tower dared to help him, which meant that the Sea Cloud Tower had a Venerable-level powerhouse, who might be very strong.

No matter who the Sea Cloud Tower was related to, Han Fei had solved a problem.

Without the five of them, their mobility was even stronger.

The next day.

Thousand Star Heavenly Fire Festival.

The temperature in the air was even higher than yesterday. The spiritual energy and energy surged.

Han Fei was lying in the tree house, thinking what would happen next.

Le Renkuang was cooking under the tree.

Zhang Xuanyu shouted under Han Fei's tree, "Feifei! Why are you cultivating all the time now? The surrounding spiritual energy and energy are floating towards you."

Han Fei grinned. Level-nine spiritual heritage. Even if I'm not cultivating, it will automatically absorb spiritual energy and energy to temper my physique. What can I do?

Le Renkuang shouted, "Let's eat!"

Next to the hot pot, Han Fei saw that Jiuyin Ling had basically recovered, so he threw her another Divine Healing Technique and said, "Your foundation was damaged, but it's not a big problem. It will recover sooner or later."

Jiuyin Ling hummed absentmindedly.

Today, Le Renkuang cooked a pot of sea cucumber in the pot.

Han Fei looked at him in shock. "Are you trying to kill yourself?"

Le Renkuang chuckled. "Today is special. Let's eat something nutritious."

“Wait...”

Suddenly, they all looked up at the sky.

In the void, there was a faint trace of music, like celestial music.

Jiuyin Ling said, “Huh? This time, the sound is a little loud. In the past, it was very difficult to hear. It only appeared during the Heavenly Fire Festival.”

Han Fei scratched his head and didn't feel anything. However, it was quite strange. He didn't know how the Heavenly Fire Festival in the Thousand Star City came about.

“Crunch!”

“Suck!”

Seeing that Le Renkuang and Zhang Xuanyu were already eating, Han Fei immediately joined them.

Luo Xiaobai took two casual bites, and Jiuyin Ling only picked up some side dishes.

The meal lasted for half an hour.

Rumble!

All of a sudden, a terrifying explosion burst out in the clear sky.

“Hahaha... Thieves of the big clans, I, Ren Tianfei, am back.”

Swish swish swish!

Han Fei and the others all stood up. Has it started already? So easily?

Han Fei scanned with his perception. About 800 kilometers away from the Thug Academy, the void vibrated, and a battle was happening.

“Old Demon Ren, you must die today.”

“Ren Tianfei, you can't do it three times. If you can escape this time, I'll write my surname Yang upside down.”

The voices echoed throughout the Thousand Star City.

However, this time, only three venerables chased after him.

The big clans were not idiots. They had already notified each other to guard their clans with all their strength. Many geniuses had gone to the Thousand Star Proving Ground in order to avoid being involved in this battle.

Buzz!

Above the Thug Academy, Han Guanshu suddenly appeared.

Chapter 1154: Whose Trap Is This?

He was still elegant and calm, with his hands behind his back.

Han Fei was shocked. "Wait... Old Han, why are you here? That's not how you save people!"

As soon as Han Fei said so, the void was immediately sealed, and three Venerables appeared.

One of them was holding a longsword that was shining with scorching light, one had a dragon behind him, and one's body was deformed, having a bird's claws and black wings.

Han Guanshu glanced at Han Fei. "Strength is what matters in saving people. Just stay here."

Someone sneered. "Han Guanshu, since you're already in the Thousand Star City, just stay here forever!"

The birdman grinned ferociously.. "I've been waiting for you for a long time."

Chi la!

Han Guanshu casually tore open a void rift. "You've deduced the Heavenly Void Divine Movement to this state? Are you a man or a bird now? You're really a waste."

Buzz!

In the blink of an eye, all four of them, including Han Guanshu, disappeared into the void rift.

Luo Xiaobai suddenly said, "Something's wrong. Are they here to save us?"

Han Fei was also dumbfounded. After a long time, he said, "It seems that we are just bait."

Le Renkuang said seriously, "Bait?"

Luo Xiaobai took a deep breath. "Well, we don't seem to be the bait of the big clans, but... Uncle Han's bait."

Zhang Xuanyu was stunned. "No, I don't quite understand. What does it mean?"

Luo Xiaobai said, "Senior Ren, Uncle Han, and the Thug Academy set up a trap together. Then, the President sent us up as bait."

Han Fei was stunned. "Then what will happen next..."

Swish! Swish! Swish!

Suddenly, above the Thug Academy, Old Bai and Old Jiang tore through the void and came over.

Old Jiang laughed. "Brats, we're here to save you."

Han Fei smiled. "Do you believe what you say?"

Luo Xiaobai doubted the intelligence of the two old men. "President, just the two of you?"

Swish swish swish!

Hundreds of void cracks appeared in the sky above the Thug Academy.

The two explorers of the Su Family on Pure Sun Island were originally watching the situation. Seeing the shock, they roared, "Hurry up, everyone, evacuate Pure Sun Island."

In fact, as early as when the Venerables' voice echoed, countless fishing boats had already taken off from Pure Sun Island. In the last battle of the Thug Academy, half of Pure Sun Island had been reduced to ruins.

Only many people of the older generation knew of this experience.

Su Laocheng and another explorer of the Su Family were trembling. Would the tragedy happen again?

...

However, in the sky above the Thug Academy, many of the people who walked out of the void were wearing black robes and white faceless masks.

"Hiss!"

Han Fei and the others immediately gasped. Faceless?

Han Fei asked in shock, "So many faceless explorers?"

Zhang Xuanyu took a breath. "Are the faceless men so strong?"

Le Renkuang was dumbfounded. "Junior Uncle Faceless, isn't he only a Law Enforcer? Why are there so many Explorers here?"

What Han Fei and the others didn't notice was that Jiuyin Ling wasn't surprised at all. She was as calm as before.

When the faceless men appeared, the explorers of the big clans were also surprised. What's going on? Why are there so many faceless men?

Someone shouted in a low voice, "Not good. This is a long-planned conspiracy of the Thug Academy."

Old Bai cursed, "You just figured it out by now? Too late."

"Kill!"

The sky was a mess. Old Jiang shouted and a large circular array was activated. Tens of thousands of sword beams burst out of the array, tearing the sky and the earth apart.

Among the hundred explorers, some fought in the void, and some launched an attack directly. In an instant, the sky kept rumbling, and the battle began.

Old Jiang shouted, "Han Fei, this is not your battlefield. Let's go."

Shua!

A faceless man appeared in front of Han Fei and the others. He extended his hand, and complicated patterns appeared.

With Han Fei's current knowledge of arrays, he could tell at a glance that this was a long-distance teleportation array.

The man chuckled. "Are you surprised? I don't have time to explain to you now. Go to other battlefields."

Everyone was stunned. "There are other battlefields?"

Han Fei suddenly asked, "Junior Uncle Faceless?"

"Hehe! Cut the crap. Go in."

The teleportation array had been activated, and several Explorers descended. Junior Uncle Faceless pushed with his hand and shouted, "Get lost!"

Although Han Fei and the others didn't understand what was going on, they immediately realized that this was actually not a battle where the enemy was stronger than them, but a battle where both parties were evenly matched.

Han Fei said without hesitation, "Let's go!"

Buzz—

When the five of them appeared, they found that they were on a big island full of rivers. Han Fei scanned with his perception and found that six places were fighting.

Those fighting places were all places where big mansions gathered, and those who attacked were all faceless people.

Only at this moment did Han Fei know that it wasn't the Venerables of the Thousand Star City hunting Old Han and Ren Tianfei at all, but the two of them actively restraining the enemy and creating opportunities for the faceless men.

Junior Uncle Faceless shouted, "This is revenge and a long-planned revolt. The so-called catastrophe of the Thug Academy was actually started by us. Our goal is to destroy the big clans in the Thousand Star City in one fell swoop. Let's go and sweep through them one by one."

Zhang Xuanyu immediately laughed. "You scared me. So, we can rob now?"

Faceless chuckled. "Han Fei, you did a good job. If it weren't for the fact that you attracted all the attention and made them mistakenly think that we would only come to save you, they would have noticed the trap we set. Humph, let's just play along."

Han Fei and the others rushed all the way to the battlefield.

Although Han Fei felt that his blood was boiling and his heart was surging, he was still full of doubts. Faceless and the others must have been preparing for a long time, right? But he felt that something was wrong. Was all this built on the basis that he was too strong and dazzling?

Han Fei couldn't help asking, "Junior Uncle Faceless, how do you know that I'll attract everyone's attention? What if I keep a low profile?"

Faceless sneered. "You think you can keep a low profile?"

Han Fei's face was black. "Even if I don't keep a low profile, what if my strength hasn't improved greatly and I can't beat them at the beginning?"

Faceless grinned and said, "You'll have to ask your father."

Hundreds of kilometers passed in the blink of an eye.

What Han Fei saw was the Qin family's residence. A faceless powerhouse was fighting the people of the Qin family in the sky.

Faceless said, "The Qin family is a subordinate family of the Sun family. We only need to kill the Explorers."

Han Fei shouted in a low voice, "Let's be quick. Junior Uncle Faceless, go to the Zhang Family next."

Shua!

Han Fei disappeared and had already rushed out at full speed. He had thought that the Thug Academy was actually not strong enough to resist the big clans.

Who would have expected that their academy would be so powerful, directly contending with the big clans of the entire Thousand Star City?

Was this what Old Jiang meant by low-key?

The Qin family was one of the six affiliated families of the Sun family.

The Qin family's patriarch, Qin Long, was only an intermediate Explorer. Therefore, he didn't participate in this hunt for the Thug Academy.

But who could have expected that trouble would come from the sky?

All of a sudden, a large number of faceless men rushed out. Except for the Explorers who tore through the void, the rest had long been lurking in the Thousand Star City.

For example, an advanced law enforcer of the Qin family had suddenly become a faceless man. In the blink of an eye, he had killed several Qin family's law enforcers.

While transmitting the message, Qin Long shouted, "Who are you exactly? You're making enemies of the big clans of the Thousand Star City. You're digging your own grave."

Suddenly, in the void, someone shouted, "Don't you know that the Thug Academy has always been a group of thugs?"

"Roar!"

Qin Long felt his soul tremble and his vision went dark.

When he opened his eyes again, he saw a hundred beasts rushing at him.

While he was stunned, a spear beam instantly pierced his battle suit. Immediately afterward, a bright sword beam illuminated the sky.

Under the dual attacks, Qin Long, who was already seriously injured by the Hundred Beast Soul Subduing Roar, was killed.

Behind him, Zhang Xuanyu shouted, “Feifei, what kind of combat skill is that? Where did you learn it? Those voices sound like the creatures in the underground city, but in terms of momentum, it’s much more terrifying than those creatures.”

Luo Xiaobai shouted in a low voice, “Cut the crap. We’re going to hunt law enforcers.”

Faceless glanced at Han Fei and was a little stunned. This kid is really worthy of being chosen. He has become a peak-level law enforcer so quickly. And he can even kill an Explorer?

In fact, Han Fei wasn’t that strong. It was just that his combat technique was too new. Other people were caught off guard. Otherwise, it wouldn’t be so easy for a law enforcer to kill an Explorer.

At this moment, there was no trace of Han Fei in his field of vision. Han Fei had already escaped into the void and pounced on another battlefield.

At the same time, on the countless floating islands in the entire Thousand Star City, a large number of faceless people appeared out of nowhere, already fighting with those big clans.

In the Heavenly Fire Festival in the Thousand Star City, countless people hid in their houses and trembled. Why were there still fights in the Thousand Star City? Where were the law enforcement teams? Where were the patrolling teams? Where were the strong?

Seven major sects.

The Heavenly Sword Sect.

Mu Tianfang said leisurely, “Is this the counterattack of the Thug Academy? They... How ambitious!”

A leisure voice came from the back mountain of the Heavenly Sword Sect, “Faceless, I think there should be many people from the seven major sects secretly joining, right?”

Mu Tianfang smiled bitterly. “Doesn’t this mean that the ghost ship has been deliberately infiltrating the Thousand Star City since it was in the level-three fishery? The Thug Academy must have been preparing for this battle for nearly 40 years, right? Sword Master, do you know this?”

It was silent in the back mountain for a moment. “Got it!”

...

The Cao Family’s restricted area.

A brawny but white-haired powerhouse suddenly opened his eyes. “Two Venerables want to suppress Thousand Star? That’s not enough... Will Old Demon Chu come out of seclusion?”

Chapter 1155: Patriarch Thug

After only half an hour, the entire Thousand Star City was ablaze with smoke.

The strong fought in the sky, and the weak fought on the ground. In just a short moment, more than 30 families had been wiped out.

Of course, the destruction here didn't refer to the complete slaughter, but the deaths of the strong. After all, if the Explorers of a family died, it was basically over. Then, such a family couldn't be called a real family!

However, this was only the situation at the beginning of the battle.

Explorers were Explorers after all. They weren't easy to kill. At first, it was because they were caught off guard, but later, it was just endless battles.

The Zhang family of the Thousand Star City, a family that controlled all the dragon boats in the level-three fishery, and a family that was said to be the richest in the Thousand Star City..

At this moment, the five of them, plus a faceless Junior Uncle, were standing in the air, looking at each other in bewilderment.

Theoretically speaking, the entire Thousand Star City was fighting at this moment. However, from where the Zhang Family was, he could perceive that there were only a few people fighting.

Faceless' voice was slightly hoarse. "The faceless men who came first are all dead. Logically speaking, there should be at least three Explorers here, but now there is no one."

"Humph! Since you're here, stay here forever. What kind of a place do you think the Zhang family is?"

Hum...

A breach appeared in the void, and two old men with white hair and a middle-aged man surrounded Han Fei and the others in a triangle.

Han Fei's face changed. "Peak-level Explorers?"

This pressure and momentum made Han Fei's face change drastically.

Han Fei immediately cursed. Wasn't the entire Thousand Star City in chaos? Why were there so many strong masters in the Zhang Family's territory?

Almost without giving Han Fei and the others any time to escape, the three of them attacked almost at the same time, but not to kill, but to catch him.

When three big hands appeared in the air, Han Fei roared and was about to activate the Beast King Technique.

However, a chuckle suddenly sounded beside him. "I wanted to try my luck, but I didn't expect to meet three peak-level Explorers at the same time."

All of a sudden, the three of them shouted, "Not good! Retreat!"

"Heh heh heh, you think you can retreat just because you want to? Do you... not respect me?"

Han Fei and the others turned their heads, only to see a hand that was so dry that there was almost no flesh in it.

“Sky Explosion Eight Hands.”

In the void, two white bone hands extended out and grabbed the air, freezing a space.

Han Fei was surprised. The law of space and time?

A peak-level Explorer roared and summoned a huge turtle that resembled a mountain, his double knives splitting the sky.

The man’s eyes almost popped out. “Not good. It’s Patriarch Thug. He’s still alive. Second Patriarch, come out of seclusion.”

As for the other two, one of them was attached to a Wind Snake, and his arms turned into knives, slashing out a terrifying aura, which made Han Fei and the others close their eyes.

“Ultimate Defence.”

Le Renkuang panicked. Maybe because he was slow to react, he wasn’t shocked by the Patriarch Thug’s name.

Han Fei and the others were all stunned. What? Wasn’t it Junior Uncle Faceless? This was clearly Junior Uncle Faceless’ voice. Why did he suddenly change into the Patriarch Thug?

Didn’t Old Bai say that Patriarch Thug was poisoned to death? Then who the hell was this person beside him?

In the blink of an eye.

Le Renkuang’s Ultimate Defence wasn’t useful at all because skeleton hands stretched out in the void, which seemed to seal the void, looking extremely terrifying.

He looked just like a devil. If he weren’t on Han Fei’s side, Han Fei would’ve thought that this person must be an evil madman.

When the big bone hand grabbed the giant turtle, the giant turtle was aging at a visible speed, and its infinite vitality was swallowed crazily.

“Li Dianxian, stop.”

Li Daxian?

Han Fei was stunned again. Isn’t this f*cking the powerhouse on the Ideal Palace’s stone monument? One is Li Daxian, and the other is Tang Yan. These two are unparalleled.

In the sky above a certain part of the Zhang family’s mountain, a golden light shot into the sky. Immediately afterward, the mountain exploded. Rocks cracked, shaking the sky and the earth.

When Han Fei and the others saw it, their scalps tingled.

The person who came wasn’t simple either! As soon as he came out, he caused a huge mountain to collapse... Could it be that this person was cultivating in seclusion in the mountain?

However, it did make sense. The juniors of the family cried for help in a hurry. This person didn't have the time to come out of the cave before he detonated a mountain.

As the earth was shaking, a sword of light suddenly appeared in midair.

Junior Uncle Faceless... Oh no, Patriarch Thug's two skeleton hands grabbed the sword shadow.

Ka ka ka!

Although the skeleton hands were broken inch by inch, the sword light couldn't penetrate them.

In contrast, the vitality of the three peak-level explorers of the Zhang family was being drained.

The enemy's patriarch hurried over and fought so hard that even the void cracked, but he hadn't even killed a hand.

"Hehehe! What delicious vitality."

Han Fei and the others couldn't help tilting their heads, looking at the Patriarch of the Thug Academy who was laughing creepily, and were shocked.

Was this Patriarch Thug a good person or a bad person?

Zhang Xuanyu laid a hand on Han Fei's shoulder. "Alas, I can't take it anymore. There have been too many ups and downs in the past few days. My brain can't keep up with the situation."

Under everyone's horrified gaze, they saw that the big turtle was almost drained by the Patriarch Thug. The three peak-level Explorers seemed to age hundreds of years in an instant.

One of them was still a middle-aged man a moment earlier, but now he looked old and his beard was turning white.

"Explode!"

Boom! Boom! Boom!

The self-detonation of three ultra-quality divine weapons was extremely powerful. In order to survive, they couldn't care about the safety of ordinary people in the surrounding hundred miles. Although those were ultra-quality divine weapons, they had to detonate them to try to win a chance of survival.

In fact, there was no one within a hundred kilometers.

When the faceless men declared war, even a fool knew that the further away from the Zhang family, the better!

Some people were hiding in their cellars, trembling. However, the possibility of being shaken to death was definitely not small. After all, when the big mountain collapsed just now, it caused a lot of noise. Within a radius of seven or eight kilometers, there would definitely be a dozen-level earthquakes!

In the blink of an eye, the terrifying impact shattered five or six big hands, allowing two of them to narrowly escape.

However, the peak-level explorer who attacked first didn't have the time to run before he was stabbed to death by a skeleton finger.

The other two ran as fast as they could. Fortunately, they had a rich family and had many ultra-quality divine weapons to detonate. Otherwise, they would probably die if they stayed one more second.

Patriarch Thug said with a hoarse voice, "Han Fei, those two people only have less than 10% of their strength left. Go kill them."

Han Fei was stunned. How did you know that I can kill peak-level Explorers? However, if what you said is true, it seems... I can have a try.

The Venerables of the Thousand Star City didn't seem to be all out.

They had just come to the Zhang family, and another Venerable had appeared.

At this moment, the Venerable roared, "Li Daxian I didn't expect you to switch to an undead creature! You're truly a bunch of thugs. You should be executed."

The battle between Venerables couldn't be fought in the clear sky. Only after a moment, they had cracked the void and then drilled into it one after another.

Han Fei and the others were left dumbfounded.

Luo Xiaobai and the others also took a breath. Are we already strong enough to participate in this kind of battle?

Le Renkuang poked Han Fei. "Feifei! Can you still fight those two peak-level Explorers?"

Han Fei caught up with them with a swish. "Hey, you two, don't run if you have balls."

Zhang Xuanyu shouted from behind, "Hey! Feifei, are you really going to kill them?"

However, Han Fei was already gone.

Zhang Xuanyu asked in confusion, "What should we do?"

Luo Xiaobai, known for her intelligence, was also stunned. If it were a law enforcer, we can still fight for a while, but how are we supposed to resist two peak-level explorers?

Even if the two of them only had less than 10% of their strength left, they were still no match for them! If they insisted on going up, they would only cause trouble.

Luo Xiaobai took a deep breath. "Let's go. Let's catch up with them first."

...

With the Zhang family right in front of him, Han Fei shouted, "You two old b * stars, if you keep running home, you'll implicate the ordinary people of your Zhang family. Don't blame me then."

"Hmph!"

"You're asking to be killed!"

The two of them looked at each other. As peak-level Explorers, if they were chased and beaten by a peak-level law enforcer, wouldn't others laugh their heads off?

As they looked back, a giant octopus darted at Han Fei.

One of them said, "Han Fei, to kill you, we don't even need to do anything ourselves!"

Han Fei grinned. "You think you can kill me with a contractual spiritual beast?"

"Then let's have another one."

After that, a Ball Fish appeared.

This was the first time Han Fei saw such a strong master using a low-level creature like a Ball Fish.

However, Han Fei soon discovered that something was wrong. The sting on this Ball Fish gave him a feeling of palpitation.

Han Fei immediately cursed, "Patriarch Thug doesn't seem reliable! They're peak-level explorers anyway. Even if they're weak now, their contractual spiritual beasts won't be weak!"

"Roar!"

Han Fei's figure suddenly changed in midair, and a black thunder panther more than 20 meters long appeared in the air.

This scene stunned the two peak-level Explorers, as well as Luo Xiaobai and the others who were chasing behind. What trick was this?

"Roar!"

"Lightning Flash."

The thunder panther turned into an arc of lightning, and wherever it passed, thunder rumbled.

Swish! Swish! Swish!

The sky was full of sharp spikes.

Han Fei discovered, to his surprise, that the air in any area covered by the sharp spikes of the Ball Fish was blocked, which was equivalent to the power of a domain.

However, this was not a problem for Han Fei.

Han Fei's body trembled, and he appeared in the distance.

The two peak-level Explorers asked in surprise, "The Ye family's Star Teleportation Technique?"

Han Fei didn't intend to fight the two contractual spiritual beasts. As long as he killed their master, the contractual spiritual beasts would die.

Shua! Shua!

Suddenly, a terrifying suction force fell on Han Fei through the void. It was the sucking disc of the big octopus that ignited the blood in Han Fei's body, trying to forcibly deprive him of his vitality.

At the same time, a person slashed out with two sabers, carrying a scorching wave of sabers. It was a locking technique.

At this moment, even if the other party's strength was less than ten percent left, the power of these two blows was definitely no lower than that of an intermediate Explorer.

Another person summoned thousands of golden roots from the void. Wherever the grass spread, void cracks appeared. This scene sent a chill down people's spines.

"Roar!"

Han Fei turned black and white, and his body suddenly expanded in the lightning, turning into a huge ape.

He held a rusty stick in his hand.

"Beast King Technique."

Under their surprised gaze, the big ape that Han Fei turned into grew to more than 50 meters high.

"Roar!"

The big ape opened its mouth, showing its sharp teeth, roared, and a hundred running beasts suddenly appeared.

"Monkey King's Three Thousand Sticks!"

Chapter 1156: A Shocking Battle

Han Fei didn't intend to hide anything.

In the battle at the gate of the Thug Academy yesterday, when he had revealed the Hundred Beast Soul Subduing Roar and the Heavenly Void Divine Movement, he had some concerns.

However, at this moment, a full-scale battle had already begun. After this battle, there was a 99% chance that he wouldn't be in the Thousand Star City, so he naturally had no scruples.

"Huff!"

Han Fei opened his giant ape mouth, and the surrounding energy gathered frantically.

At this moment, something that Han Fei didn't expect happened. He saw that the rust on the Embroidery Needle was cracking.

Ka ka ka!

Han Fei saw a shiny sheen. However, at this moment, Han Fei had no time to bother with it.

Bang! Bang! Bang!

Thousands of rod shadows poured down like waves, and the void ripples bloomed like petals. Wherever the rod touched, the saber beams shattered and the grass was destroyed.

Behind them, Luo Xiaobai, who was chasing them, quickly grabbed Zhang Xuanyu and the others and retreated.

Zhang Xuanyu exclaimed, "Hiss! What kind of stick technique is this? Infinite Layered Waves?"

Jiuyin Ling's eyes widened. What combat technique is this? What kind of creature is this?

Le Renkuang's face was trembling. "I just want to know what opportunities he encountered in the Ideal Palace. This... Isn't this too strong?"

Zhang Xuanyu just wanted to hit Le Renkuang with his rod. You don't even have your own memories. Why do you want to know others'?

At this moment, the big octopus still wanted to stick to Han Fei.

However, with a casual wave of Han Fei's hand, the Infinity Water was extremely powerful at this moment, crazily attacking the octopus.

Bang! Bang! Bang!

The two peak-level Explorers' faces changed greatly, and they were shocked. Where did this brat learn this strange technique?

One of them said, "Not good. This must be the legendary ancient giant ape."

The three of them instantly collided.

The Hundred Beast Soul Subduing Roar was already extremely powerful, causing blood to flow from the two's seven orifices.

However, the other party were peak-level Explorers after all.

Just now, although Patriarch Thug injured their foundations, their soul power was still there, which was much higher than Han Fei's.

Both of them activated the Soul Explosion Piercing Technique at the same time, forcibly shattering the Hundred Beast Soul Subduing Roar.

One of them shouted, "All of you, come out and kill this guy!"

Shua! Shua!

In the blink of an eye, another two intermediate explorers tore through the void.

Why were they intermediate Explorers?

This was because all the advanced Explorers had been sent to battle by the Zhang family. Clearly, the Zhang family was scheming to send advanced Explorers to participate in this kind of battle. As for the peak-level experts, they should stay at home in case anything happened.

"Roar!"

Accompanied by Han Fei's low roar, a strange sound descended from the sky.

“Boom, Boom, Boom...”

Jiuyin Ling shouted, “Retreat! It’s the Nine Sounds of the Great Dao.”

A world phantom suddenly appeared in midair.

Shua!

An extremely powerful saber burned in the air, and a sea of fire spread hundreds of kilometers in the blink of an eye.

Punishing Saber and Fire Seed attacked, shaking the void, giving the two of them no chance to tear open the void.

Although the Punishing Saber and the Fire Seed were both at the peak of the Law Enforcer level, they were legendary and their combat power was also top-notch.

In fact, Han Fei wanted to summon all the five law enforcers out. However, the energy required was too terrifying. Han Fei could afford it, and the cost was too great. It wasn’t easy for him to accumulate enough resources! Besides, what battles would come later? Han Fei didn’t know...

Therefore, it was impossible for Han Fei to use all his trump cards in a battle.

Seizing the opportunity, the Monkey King had already exerted the strength of more than 800 catties, which was far from the limit, but both peak-level Explorers vomited blood.

They didn’t expect Han Fei to be so strong!

One of them shouted, “Retreat and defend the clan. Open the array.”

Hearing that the two were going to run, Han Fei immediately held the rod with both hands and became one with the rod.

Its might was domineering, comparable to the Sacrificing Punch. It shook through the void, causing the void to be unstable, preventing them from tearing through the void to escape.

The old man pushed away the younger peak-level Explorer and roared, “Brat, even if I die, I must take away you little devil.”

“Explode!”

“Hey!”

“Roar!”

Han Fei seemed to have foreseen this scene.

Han Fei launched the Hundred Beast Soul Subduing Roar again. At that moment, he also used the Star Teleportation Technique and the Void Lines buckled.

Without giving the old man any chance, he smashed his rod at him, making the old man explode.

The big octopus died with the old man.

“Elder Qing!”

Several voices roared, their eyes almost popping out, and killing intent surged in their hearts.

However, Han Fei was unmoved. You want to return to your clan to activate the mountain-protecting array? You have to have the opportunity.

Swish!

The Embroidery Needle, like a pillar that held up the sky, shot straight at the Zhang family’s residence. The Infinity Water turned into ten thousand knives and charged at the Zhang family from the other side.

In such a case, if no one stopped him, the Zhang family’s residence would be ruined. Would the Zhang family dare to take the bet?

As he expected, a person flew out of the clan, clenched his fist, and punched the Infinity Water. The peak-level Explorer who was about to run away turned back and shouted, “Open the array.”

“Explode!”

“Sacrificial Punch.”

The area within fifty kilometers had been flattened.

This was only the case when Han Fei and the others were fighting in the sky. Otherwise, there would be countless casualties.

The moment the Infinity Water exploded, a big blue bird floated in the air.

“Freeze!”

“Punishment.”

While the intermediate Explorer was seriously injured by the Infinity Water, Water Luster sealed the void and Punishing Saber intended to kill the Explorer.

These two were real legendary creatures.

Water Luster didn’t just freeze the void, but also the soul of the strong master. Punishing Saber didn’t kill the Explorer’s body, but his soul.

In addition, the sound of the Nine Sounds was deafening.

The intermediate Explorer was beheaded on the spot.

Many of the younger generation of the Zhang family were there.

They were conceited. It wouldn’t be a problem for a Venerable to defeat the Thug Academy. Besides, some Heavenly Talents also knew that the Second Patriarch was still alive. With such a Venerable guarding him, what was there to be afraid of?

But who knew that things would develop to this point?

Zhang Wen and Zhang Mingkun were both shocked. It had only been two months, but how had Han Fei grown to this point?

In the family, a cute girl was looking at the sky in fear. Although she couldn't see, she could hear. At this moment, she said, "Grandpa, is Brother Han Fei going to beat us?"

"Sigh!"

The person who was asked didn't know how to answer. He could only sigh. "Qiaoqiao, go in."

Han Fei heard him.

However, this didn't shake his determination to plunder the Zhang family. At least, he would kill this peak-level Explorer first. As for the ordinary people and innocent people, Han Fei certainly would let them go.

After all, although Han Fei was ruthless, he wouldn't kill the innocent.

Buzz!

He had to admit that a peak-level Explorer was still a peak-level Explorer after all. His physique was so strong that even if he only had less than 10% of his strength, he really couldn't kill him with a Sacrificing Punch.

This person broke his own arm and punched the Embroidery Needle away.

He threw another punch at the Sacrificing Punch, revealing the creepy white bones, but they didn't collapse.

Just as Han Fei was about to attack again, the void cracked, and a white bone hand and a sword light appeared at the same time.

Shocked, Han Fei immediately activated the Star Teleportation Technique and moved horizontally.

Patriarch Thug shouted, "Brat, let's not rob this family."

Han Fei didn't know what to say. I've been fighting so hard, and it's not easy for me to have such an opportunity. Why do you suddenly stop?

Han Fei gritted his teeth and waved his hand. The Infinity Water and the Embroidery Needle returned. He rushed crazily in the direction of Luo Xiaobai and the others.

At this moment, he saw golden blood dripping from the void. He didn't know who was injured.

However, at this moment, there was a sudden noise in the void. "Li Daxian, you won't be able to leave."

"Violent Art."

Han Fei and the others were dumbfounded. Are there still Venerables here? How many Venerables have already appeared in the big clans? There are already seven of them, right?

A huge white bone hand wrapped the air.

Han Fei and the others saw a flash before their eyes, and they had already appeared on another battlefield.

When he reappeared, Han Fei found that he was standing with Luo Xiaobai and the others. Where was the Zhang family?

Han Fei couldn't have looked more awful. He had spent so much effort only to kill two Explorers, not even a peak-level Explorer who was seriously injured. He had planned to get the seventh level of the True Spirit Fishing Art!

Now he hadn't even succeeded this time. He didn't know when he would be able to get it.

However, after what happened today, Han Fei was a little shocked.

How deep was the heritage of these big clans? Even though the Thousand Star City was in such a dangerous situation, they still had such terrifying combat power!

However, at this moment, Han Fei and the others had no time to think at all, because in the sky, battles were going on in all directions.

Han Fei asked, "Where is this?"

Shua!

Old Bai and an Explorer fought out of the void and shouted, "This is outside the Three Holy Lands. This is a battlefield. Don't stand in the air."

Zhang Xuanyu and the others were a little stunned. What about the planned robbery and escape?

All they did was just running back and forth.

Except for Han Fei who could still attack, they couldn't do anything. This made the hearts of Zhang Xuanyu and the others sink. They could only blame themselves for being too weak. Now they didn't even have a chance to help.

Below, near the ground, a large number of faceless men of the Law Enforcer realm were fighting.

Luo Xiaobai shouted, "Let's go down and help."

Han Fei shouted, "Go!"

Han Fei felt that it wasn't so easy to fight Explorers. However, wouldn't it be a piece of cake to fight some law enforcers?

However, a voice echoed in the void, "Kill Han Fei."

All of a sudden, a white-haired young man appeared with exquisite facial features and cold eyes. He pointed a finger at Han Fei.

At that moment, pressure suddenly descended.

Suddenly, Old Han shouted angrily, "Li Daxian."

White bones floated in the air, and Patriarch Thug roared, "Get lost!"

The big bone hand slapped at the terrifying finger mark. The void was punched out of a vortex, and the remaining power sent Han Fei flying.

A voice sneered, "Li Daxian, didn't you say that you crushed the Thousand Star City alone? Why, do you only have this little power now that you've switched to an undead creature?"

As he spoke, the void trembled as another huge vortex shattered the white bone hand. A huge face illuminated the sky. It felt like everyone in the world could see him.

Han Fei felt that this person was too pretentious. Was he afraid that he would be forgotten? Or had he been cultivating alone for too long?

That person was the Second Patriarch of the Zhang family. He had used some unknown method to appear in advance.

At that moment, Le Renkuang roared, "Feifei, run!"

Han Guanshu's voice came into Han Fei's mind. "Use the Dragon Diagram."

Chapter 1157: Sky Dissecting Finger

Han Fei was surrounded by enemies. Gazed at by Venerables, Han Fei was unusually calm at this moment.

Did he have the time to use the Dragon Diagram?

Han Fei stood still, pointed at the sky, and shouted, "Today, watch me slaughter venerables!"

At that moment, in Forge the Universe, millions of points of spiritual energy suddenly disappeared without a trace. On Han Fei's finger, a finger bone burst out with an overwhelming aura, dazzling and illuminating the heavens.

"Son of a b * tch!"

Li Daxian cursed somewhere. He didn't seem to expect Han Fei to have such a weapon.

However, the Second Patriarch of the Zhang Family's expression changed drastically. "A king's aura? How is that possible?"

However, in an instant, the finger bone transformed into a huge finger. Like a jade pillar that held up the sky, it seemed to be about to pierce through the sky. The surrounding void was instantly imprisoned.

In the sky, there were dozens of battlefields. People even forgot to fight as they watched this terrifying scene.

"Is this the King's Strike?"

Gulp!

Old Bai swallowed. This finger is way too big!

In the blink of an eye, it was tens of thousands of feet high in the sky. Because the speed was too fast and the power was too strong, almost in an instant, within hundreds of kilometers, the void energy was suddenly sucked away by it.

At the same time.

Chu Sect, Cao Family, Heavenly Sword Sect, Sea Cloud Tower...

The hidden powerhouses of the super forces were all shocked. Where did Han Fei get this finger bone? Did he really have the potential to become a king?

The Second Patriarch of the Zhang family roared, "Old Demon Chu, help me!"

At that moment, in the void, there seemed to be a shadow of a rod extending hundreds of feet.

Old Bai screamed, "Not good! Be careful of the aftershock! Block it!"

Buzz!

Blood oozed from the corner of Han Guanshu's mouth, and he tore open the void with a swish. He stretched out his arms and shouted, "All of you, come here."

Han Guanshu took a deep look at the shocking finger. This was beyond his plan. If he had this King's Finger Bone, his plan might have changed.

Boom!

Ka ka ka!

The earth-shaking finger touched the shadow of the rod, and the roar shook thousands of kilometers, shaking the entire Thousand Star City.

Countless cultivators were hiding at home or gathered together, looking horrified.

"Damn it. What's going on today? Who are the big clans fighting?"

"The battle of the Venerables hasn't happened in many years. It's too terrifying."

"Master Sea God, please don't implicate us!"

The Heavenly Sword Sect.

Tang Ge and Mu Ling stood on the Sword Tower.

Tang Ge's expression was extremely ugly. "Although we can't see the battlefield, the people who can shake the big clans like this can only be related to the Thug Academy and Foster Father."

Mu Ling held Tang Ge's hand and comforted him. "Don't worry. It will definitely be fine. Now the two sides are probably evenly matched."

Inside the Sea Cloud Tower.

Xing Yue and the other four weren't here to fight at all.

At this moment, they were standing in front of a teleportation array.

Diwu Weiguang said, "The Thug Academy probably can't stay in Thousand Star City anymore. Don't think about this battle. You have to work hard to grow up."

...

Outside the three Holy Lands, a strange light flashed in the sky, and the hundred-foot-long stick shadow finally failed to block the finger and exploded.

Following that, a figure tore through the void in such a situation. A golden palm was printed in the sky, and the pressure of the palm made the void within hundreds of kilometers sink.

Han Guanshu shouted in a low voice, "Cao Tianzhi, Old Demon Chu has already taken action. Why are you still not taking action?"

In the sky, a huge palm blocked the king's finger, and rays of light shot out.

Old Chu shouted in a low voice, "Cao Tianzhi, if the Thugs rise, how can your Cao Family reach the peak?"

Swish ~

Nothing happened.

The big palm was instantly filled with cracks, and the terrifying impact made the flesh and blood of the Second Patriarch of the Zhang family melt. This force was too strong and couldn't be resisted before he reached the peak.

However, there was no response from the Cao Family. They didn't seem to want to participate in this battle.

Han Fei's eyes turned cold. At this moment, he couldn't count on others.

He couldn't help but ask, "Old Han, are you OK? If not, let's run first."

Swish!

As soon as Han Fei said so, a crack appeared in the sky, and a small red sword suddenly thrust at Old Demon Chu.

However, because the small sword was too small, under such power, it looked a little funny.

However, no one dared to underestimate this sword.

This space was held down by the Sky Dissecting Finger. No one else could enter, but this small sword had entered.

Old Chu shouted, "Master of the Heavenly Sword Sect, are you going to be an enemy of our Chu Sect?"

A voice said leisurely, "Chu Sect is too domineering. It's time for you to stop. Others can become kings, but you, Old Chu, can't. You want to suppress Thousand Star City? Then don't blame me for drawing my sword and slashing the sky."

Han Guanshu's eyes flickered, and he drew an array with one hand to protect everyone.

As for him, he stepped into the sky, holding a book in his hand.

Under the watch of Han Fei and everyone else, the book opened, and the golden light dazzled the sky.

There was a small red sword on the left, a strange scroll on the right, and the Sky Dissecting Finger in the middle, all darting at the old man in the sky.

Han Guanshu's voice was still elegant, and he smiled faintly. "The Sword Master wants to draw his sword and slash the sky. Then I'll try to kill you."

Old Chu's hair fluttered in anger, and a big snake appeared behind him, spewing green flames.

Old Chu shouted, "Just with the half volume of the Great Dao Book? Are you qualified?"

In Han Fei's shocked gaze, he saw the golden light spewing out of the book transform into a sharp claw, which seemed to be a bird's sharp claw, grabbing at the giant snake.

Ding!

The small red sword was blocked by Old Chu with one hand.

In the surrounding hundred kilometers, the void was full of cracks. The sword might didn't decrease as it pressed forward inch by inch.

And the bird's claw had already torn apart the blue light all over the sky and grabbed at the giant snake.

With a rip, a large piece of flesh was torn off from the snake's body. Golden blood splashed across the sky.

"Humph! Seven major sects, our Chu Sect will remember this grudge."

The void exploded as a void rift appeared behind Old Chu. The latter took a step back. He couldn't save the Second Patriarch of the Zhang family.

The Second Patriarch of the Zhang family shouted angrily, "Old Demon Chu!"

Bang!

The Sky Dissecting Finger, whose power had been greatly reduced, finally hit the Second Patriarch of the Zhang family. The latter burned his essence blood and resisted with all his strength, and his arms were melting.

"Pfft!"

At this moment, while the Second Patriarch of the Zhang Family was still roaring, a white bone palm had penetrated deep into his body at some point.

The flesh and blood of the Second Patriarch of the Zhang Family were rapidly drying up.

"Hehehe! You underestimate the undead creature that I've switched to. When I suck you dry, I can restore 10% of my strength."

Boom!

Crack!

A red skymark appeared in the sky. In an instant, heavy rain poured down, bright red like blood.

At this moment, a Venerable died.

At this moment, on the ghost ship in the level-three fishery, a faceless man suddenly looked up at the sky. When he saw the rain of blood, he immediately shouted, "Take action and suppress the dragon boats."

...

"Roar! Second Brother... Li Daxian, I'm gonna kill you."

Buzz buzz buzz!

The Sky Dissecting Finger was melting, and the space around him opened again.

A Venerable struck out and blasted Patriarch Thug into the void.

Han Guanshu frowned and shouted in a low voice, "Son, open the Dragon Diagram."

Han Fei shivered. Did they call me? It seems so.

There was only one Dragon Diagram that Han Guanshu mentioned, which was the one he gave him in the Scattered Stars Prison. It was an array map that Old Han seemed to have painted for a long time.

Clatter ~

Han Fei took out the map without hesitation, and the long Dragon Diagram spread out in midair.

"Roar!"

The moment the diagram was unfolded, a dragon roared in the sky, and golden light spots flew around.

Almost at the same time, two Venerables arrived.

Han Fei didn't know who these two people were. Anyway, since Old Han asked him to open the Dragon Diagram, so be it.

At this moment, Han Fei saw a huge dragon shadow surrounding him.

"Shoot! An azure dragon?"

Han Fei was stunned. He knew this guy! Wasn't this the azure dragon in the Blue Sea Soul Realm? Why did Old Han draw this dragon?

But that didn't make sense!

Wasn't Old Han drawing an array? But why did it become a dragon at this moment?

Han Guanshu stepped on the dragon head, and the book in his hand floated in front of him, enveloped in golden light. "King's Slash."

"Roar!"

Dragon Roar suppressed souls.

In the Great Dao Book, a wing cut through the void.

All the spectators, including the explorers, were dazzled by the attack. Ordinary people couldn't see it at all.

“Ahhh~”

Rumble!

In the sky, a second red mark bloomed, and another venerable died.

Old Han said slowly, “The Bird-Man of the Ye family, you can't escape me. The Dao runes have sealed the space, and you still wanted to use the Star Teleportation Technique? Do you think I'm joking with you?”

Only at this moment did Han Fei know that the one who died was the Venerable from the Ye family.

Gulp!

Han Fei, including Zhang Xuanyu and Le Renkuang, swallowed hard. A Venerable! That's a f*cking Venerable! Two of them died so easily?

“Humph! Han Guanshu, show me what you've got. I'd like to see what else you've got!”

The old demon of the Chu Sect ran out again.

This time, even Han Fei's face changed.

Old Chu was extremely insidious. Just now, he couldn't resist the Sky Dissecting Finger and the attacks of the two venerables, so he left the Zhang family's venerable behind and ran away.

Now, when the Sky Dissecting Finger was gone and Old Han killed another one, he appeared?

Was there anyone more insidious than him?

Han Guanshu extended his hand and said, “Sword Master, may I borrow your sword?”

Swish!

A long red sword appeared in Old Han's hand.

This guy, holding a book in one hand and a sword in the other, charged into the sky.

In the end, Han Guanshu glanced at Old Bai. “You can go now.”

Old Bai asked in surprise, “There is still a venerable left!”

Patriarch Thug's voice rumbled. “Leave him to me.. Go.”

Chapter 1158: Chaotic Battle

At this moment, the situation was weird. It could only be said that everyone here was a tough guy.

The only remaining venerable was the patriarch of the Yang family. He was so scared just now that he almost peed his pants. Han Guanshu's terrifying blow wasn't much weaker than that big finger. Fortunately, it was targeted at the Ye family's Birdman. Otherwise, he would have died.

At this moment, the patriarch of the Yang family rubbed his head and was about to kill his way out of the void, when he saw the white bone hand grab at him, forcing him to fight.

"B * stard, Li Daxian, you think you can fight two alone? We should have crushed your bones back then so that you couldn't even become an undead creature."

"Hehehe! I once crushed the entire Thousand Star City. Do you think you can kill me?"

However, there were still many Explorers. Someone shouted, "Everyone, hunt the younger generation of disciples of the Thug Academy. Han Fei must die."

Han Fei immediately roared, "Who the f*ck is talking? If you have balls, say it in front of me. I'm going to dig up your ancestors' tomb..."

There were no Venerables on this battlefield anymore, but dozens of explorers appeared. Among them, there were faceless people and people from big clans.

Among them, there were as many as seven or eight peak-level Explorers fighting.

Old Bai shouted, "Follow me."

It seemed that Old Bai had arranged a retreat.

No matter what, in today's battle in the Thousand Star City, the Thug Academy had shocked the entire Thousand Star City. From now on, the name of the Thug Academy would be remembered by everyone.

After all, if the death of two Venerables couldn't leave a deep impression, what else could?

However, at this moment, Han Fei and the others weren't in a good situation.

Just from what Han Fei saw, there were three explorers besieging him. Han Fei knew one of them. Wasn't that Chu Nanfeng? This guy had the strength of a peak-level Explorer!

As for the other two, one was an advanced Explorer and the other was an intermediate Explorer. Han Fei didn't panic at all if they were only intermediate Explorers. However, he really couldn't defeat advanced Explorers in his current state. At most, he could only hold them back.

Chu Nanfeng shouted, "Bai Congye, are you surprised that Jiang Daqian didn't come? Heh, I knew that old brat was setting up an array to give you a way out. Therefore, I specially sent someone to stop him."

Old Bai's face changed drastically. "Chu Nanfeng, do you think the three of you can stop me?"

Chu Nanfeng smiled coldly. "If Han Guanshu were here, I wouldn't have come. However, you, Bai Congye, aren't qualified yet."

As he said this, Chu Nanfeng shouted, "I'll hold back Bai Congye. No matter if it's Han Fei, kill all of them."

Buzz!

The two explorers took action.

Han Fei's face changed greatly, and he shouted, "Xiaobai, you go first."

Someone sneered. "Can you leave?"

"Roar!"

The advanced Explorer still wanted to attack, but Han Fei roared and used the Hundred Beast Soul Subduing Roar.

This time, he didn't wait at all. He simply turned into the Big Ape, activated the Devil Change, Beast King Technique, and absorbed the surrounding energy with the War Body.

A dull roar burst out of Han Fei's mouth, "Punishing Saber, Water Luster, come out."

"Boom, Boom, Boom..."

The Nine Sounds of the Great Dao appeared, and Han Fei wanted to use the same trick. He stopped the advanced Explorer, and Punishing Saber and Water Luster cooperated to kill the intermediate Explorer.

Faced with Han Fei's current state, the advanced Explorer was slightly moved. How could a person's strength increase so much in such a short period of time?

In fact, Han Fei was no longer relying on Devil Change to increase his strength.

Since he became a peak-level law enforcer, the improvement of the secret method of Devil Change had become four times, which was not as good as before. And the improvement of the Beast King Technique was nearly five times, which could almost replace Devil Change.

The War Body and the Indestructible Body, which was close to the fourth level, made Han Fei's physique and strength reach their peak state.

Otherwise, it was impossible for Han Fei to have the ability to resist an intermediate Explorer.

"Humph! You are only a peak-level law enforcer after all. No matter how much you improve, you can't stop me."

Bang!

Han Fei struck back with his rod. The Embroidery Needle shattered the void and smashed at the advanced Explorer, and an array appeared on the rod.

"Void Saber Array."

The man shook his shoulders and took out his armor box, and thousands of knife lights floated in the sky.

"Fuse!"

Han Fei roared, and his eyes turned black and white. Ignoring the knife array, he activated the Monkey King's Three Thousand Sticks and smashed his rod down at such a fast speed that shadows of rods filled the sky.

Bang! Bang! Bang!

Ding ding ding!

“Shield Fight.”

The advanced Explorer reacted very quickly. He immediately discovered the power of the Monkey King's Three Thousand Sticks. Not daring to let Han Fei continue, he directly summoned dozens of shields and rammed forward.

Bang!

In the end, he was defeated in strength and was knocked away.

However, after fusing with Little Black and Little White, Han Fei's mind was very clear. Seeing that the Nine Sounds of Great Dao didn't trap the intermediate Explorer, Punishing Saber seemed to only cut off one of his arms.

The man slashed at Zhang Xuanyu and the others.

“The Draw.”

The Embroidery Needle hadn't acknowledged him yet, so he couldn't exert its power, but Snowmourne had already acknowledged him. Therefore, under this blow, the sky changed, and the sword shadows tore the sky and the earth apart.

Seeing this, Water Luster immediately tweeted and froze the air within dozens of kilometers.

Chi la!

The intermediate Explorer wanted to tear the void, but he found that his soul reaction was too slow. When he turned his head back, intending to resist, Punishing Saber tore through the air and slashed at him. This person took out a lobster to block it.

However, when Snowmourne swept over, he was directly killed.

Of course, Han Fei did pay a price.

Launching the attack to kill this intermediate Explorer, he could hardly defend himself. When he wanted to do that, a mountain-like boulder pressed down on him.

Rumble!

Han Fei was hit by the mountain. However, in an instant, the Infinity Water shot out and exploded.

Le Renkuang, who was running wildly in the distance, shouted, “Ultimate Defence!”

Luo Xiaobai shouted, “On the ground.”

Luo Xiaobai knew that under such circumstances, she couldn't increase the pressure on Han Fei. They were too weak, and this battle had already exceeded the scope of their abilities.

How could the advanced explorer expect that Han Fei had such a terrifying method as the Infinity Water? A Sea Quelling Bizarre Treasure was already terrifying enough. Now that the Infinity Water exploded, he had to defend himself.

Even so, he was still blown up and his three shields were broken.

Unfortunately, the Infinity Water's power wouldn't increase with the strength of Han Fei's secret technique. After all, it only matched the strength of Han Fei who was at the peak of the law enforcer realm. It was probably just barely considered a high-quality Divine weapon. It was very likely that even if it hadn't reached this level, it wouldn't really be able to shake an advanced Explorer.

"Moo!"

Han Fei hit the ground, making a huge pit as blood oozed from his seven orifices.

However, Han Fei turned into a Unicorn Rhinoceros.

Both of them were bulls. Han Fei chose the Unicorn Rhinoceros, which was the best in the Beast King Valley in terms of brutal force.

After all, the other party was an armorist. If the other party was a manipulator, Han Fei would turn into a water buffalo and strengthen the law of gravity.

"I'm gonna kill you!"

Han Fei transformed into hundreds of one-horned rhinoceros shadows that soared into the sky and crashed brutally at the advanced Explorer.

"So fast."

What surprised the advanced explorer was not that Han Fei had changed again, but that he was so big. How did he do it so quickly?

The person said angrily, "No matter how many means you have, you can't shake an advanced Explorer in the end."

"Shield Mountain, suppress."

Rumble!

In the void, Han Fei's big horn broke through two shields in a row, almost piercing the lungs of the advanced Explorer.

The man shouted angrily, "Go catch the remaining people of the Thug Academy and force them to surrender."

"Roar!"

The Hundred Beast Soul Quelling Roar was activated, directly suppressing his voice. The law of gravity suddenly descended, directly crushing this person into the ground like a meteor.

It was impossible to kill this advanced Explorer in a short period of time. The Void Lines were almost useless against such a guy. His soul power was no weaker than yours, and he might have a soul treasure.

Han Fei didn't continue to fight. He turned around and ran towards Luo Xiaobai and the others.

As he was running, Han Fei's feet were gone, but a pair of wings appeared. Now he turned into a Sky Swimming Falcon?

Since he learned the Beast King Technique, Han Fei had never changed like today. The Sky Swimming Falcon plus the Heavenly Void Divine Movement Technique was so fast that in the blink of an eye, he had traveled hundreds of kilometers.

At this moment, a faceless man tore the void and shouted, "I'll block the one behind. Go to the east."

Han Fei didn't dare to be negligent. He immediately shouted, "Come on up."

Han Fei flew at a low altitude, and Luo Xiaobai jumped on his back at a high speed.

Zhang Xuanyu said in shock, "Feifei, how did you become that bird in the underground city? What combat skill is this?"

Le Renkuang trembled. "That's horrible! We should have left from the beginning instead of robbing the Zhang family."

Zhang Xuanyu was lost for words. "Idiot, we've already robbed them. Although we didn't succeed, we killed a Venerable and two peak-level Explorers. Isn't it worth it?"

Han Fei said, "Shut up. I'm escaping."

Buzz!

All of a sudden, the void twisted, and Han Fei appeared a hundred meters away and continued to rush forward. In the place he had just passed, a void hand reached out.

"F*ck..."

Zhang Xuanyu was stunned. "I was startled. I couldn't see anything at this speed."

Luo Xiaobai said, "To the east is the place to go to the Sky Meditation Garden."

Han Fei's heart stirred. The Sky Meditation Garden? That's my sister's garden!

Instantly, Han Fei seemed to understand something. The way out must be in the Sky Meditation Garden. Old Han must be very familiar with this place. Therefore, Patriarch Thug had brought them here.

Unfortunately, things didn't last long. After only flying for less than ten minutes, Han Fei suddenly sensed danger and twisted space.

However, as soon as he turned around, danger arrived.

At that moment, an array appeared in Han Fei's eyes. As he flapped his wings, Luo Xiaobai and the others entered an array and appeared more than 10 kilometers away.

Unfortunately, Han Fei could only activate such short-distance teleportation arrays now.

Crack!

The moment Luo Xiaobai and the others entered the array, Han Fei was slapped dozens of kilometers away, his bones broken and blood spurting out.

If he couldn't even withstand a single blow, this guy must be a peak-level Explorer.

A figure walked out of the void rift and glanced at Han Fei.. "You can't leave today."

Chapter 1159: A Prediction Appeared

Seeing this person, Han Fei found that this person seemed to be injured, but not seriously. There was only a knife light emitting knife intent on his chest.

When Han Fei saw this person, his eyes almost popped out. What are the faceless men doing? Why did they let out another peak-level Explorer?

The man seemed to know what Han Fei was thinking and couldn't help but laugh. "The people who tried to stop me are already dead. Since we've completely fallen out, who can resist our Chu Sect? Han Fei, die!"

"Roar!"

The Hundred Beast Soul Subduing Roar was activated, but the Chu family cultivator took out a large bell.

Clang!

"The sound of the bell shakes the world."

The man chuckled. "I know you have a weird soul attack method. Let's see how my Soul Quelling Bell works."

Clang! Clang! Clang!

The hundred beast phantoms were exploding one after another. With each beast phantom that was shattered, more blood oozed out of Han Fei's mouth.

In the distance, Luo Xiaobai shouted in a low voice, "Father."

The person from Chu Sect subconsciously turned his head, but immediately knew that he had been tricked.

At this moment, the void in front of him shook, and Han Fei had already twisted the void and escaped a thousand meters away.

"Humph! Do you really think you can resist a peak-level Explorer?"

"Big Bell Great Dao."

Han Fei knew that it was not good. He subconsciously tried to use the Star Teleportation Technique to get rid of the weird bell. But in the next second, he discovered that the Star Teleportation Technique was useless.

The Chu Sect powerhouse sneered. "I'm already half a step into the Dao. How can I give you a chance to escape?"

Han Fei was shocked. Is this person a Half-Venerable?

At that moment, Han Fei's first reaction was to use the Supreme Yin-Yang Wheel.

However, reason told him that even if he used the Supreme Yin-Yang Wheel, it wasn't enough. It was impossible for him to cross such a huge realm to defeat this person.

No one responded, and the peak-level Explorer attacked very quickly. He had a single horn on his head, his fingers became sharp, and he directly broke the void. There was no telling what spiritual beast he had fused with.

"Demon King Contract."

Han Fei roared.

When there was an absolute gap in strength, Han Fei couldn't care so much. In this situation, he either died or used all his trump cards. There was no other way than fighting a desperate battle.

The sharp claws in the air had just reached half a meter in front of Han Fei and were about to succeed. Suddenly, a black fog rose from Han Fei's body, and wherever the sharp claws touched, the black fog condensed into a scale.

"Bedeviled?"

The Chu family powerhouse shouted, "So what? Open up."

"Chi la ~"

The ear-splitting sound of claws clashing echoed, which sounded extremely creepy.

Buzz!

Unfortunately, the Chu family's strong master didn't get what he wanted because the black gas on Han Fei's body became more and more intense. Behind him, large swaths of black fog rose.

In the distance.

Luo Xiaobai and the others were horrified. They saw a huge black claw trying to extend from behind Han Fei.

Luo Xiaobai suddenly felt refreshed. For some reason, she felt that she had seen this scene somewhere.

Jiuyin Ling wanted to approach him, but Luo Xiaobai stopped her and shouted, "This is a sign of bedevilment. Wait."

However, before they stayed long, they saw five or six law enforcers pouncing at them.

Zhang Xuanyu roared, "Beat them first! Son of a b * tch, what's going on here?"

"Great Sky Swallowing Technique."

“Seal!”

...

“Roar!”

The corners of Han Fei’s mouth suddenly curled up slightly. As for the palm full of black gas, it suddenly grabbed the hand of the Chu family’s strong master. The other party’s hand withered at a visible speed.

The Chu family powerhouse was horrified as he had suddenly aged dozens of years.

“Pfft!”

He severed one of his arms and tried to escape through the void in horror.

However, this time he was dumbfounded. Just now, it was Han Fei who couldn’t run away, but now he couldn’t.

“Hehehe! I’ve finally returned...”

Endless black fog began to envelop the void.

The Chu family powerhouse shouted in horror. He found that his body couldn’t move. This was impossible! Even if the other party was a peak-level Venerable, it was impossible for him to instantly freeze the void!

Yes, this was not sealing the void, but locking down the void. At this moment, no speck of dust here had any spiritual energy or energy. Everything was imprisoned.

Han Fei said with a heavy voice, “I knew that you couldn’t resist the temptation of power. From now on, you will become a reincarnation of this emperor. This is your glory... Oh, rich vitality, give it to me...”

“Ahhh~”

The Chu family powerhouse felt a chill down his spine. From his body to his soul, he was extremely terrified. His vitality was stripped away inch by inch. In the blink of an eye, his skin began to dry up as if he had aged hundreds of years.

However, at this moment, black and white light flashed in Han Fei’s eyes.

Three golden pages floated out of Han Fei’s body.

At that moment, the black gas sizzled.

“Roar! F*ck off... You think a mere three-page Dao rune heavenly book can suppress me twice?”

Han Fei’s body was trembling crazily. He frowned and let out a low growl.

The weird voice came from Han Fei’s mouth again. “Boy, give up struggling. I’ll give you eternal life.”

“Roar... F*ck off... Absorb...”

Two small vines extended from between Han Fei’s eyebrows, and one of them had withered.

The vine was yellow and withered when Han Fei deduced the sixth level of Void Fishing.

At this moment, in an instant, green light dazzled.

The billowing black gas was crazily absorbed by the vine. The withered root gradually restored its color, and cyan mist circulated on the vine.

“What’s that? Get lost! Ah ~”

The black fog began to collapse.

The black fog seemed to be trying to shrink into Han Fei’s body. However, under the crazy swallowing of the Demon Purification Pot, the black gas entered Han Fei’s body and was sucked out again.

For a moment, the eyes of all the strong masters in the Thousand Star City were focused on this space. However, the Great Dao here was chaotic, and a terrifying Dao charm was born, blocking everyone’s vision.

“Open!”

A sky-reaching fist mark smashed out of the void, leaving a big hole in the chest of a Venerable.

Chi la!

Ren Tianfei tore the Venerable apart. Having no time to think about it, he grabbed at the void where Han Fei was.

Han Guanshu’s expression changed slightly. The golden light on the Great Dao Book dazzled. He shook off Old Chu and stepped into the air.

Patriarch Thug exploded five big skeleton hands and also disappeared in the void.

Buzz!

A rotten body crawled out of the black fog. Who else could it be but the peak-level explorer of the Chu family? At this moment, he was about to pee. He had thought that he could kill Han Fei easily.

Who could have expected that Han Fei’s body contained great horror!

If it weren’t for Han Fei’s own problem, he would have been drained by the black mist in a couple of seconds. Even so, he was seriously injured and had lost more than half of his lifespan. Even if he found a way to treat himself, he might not be able to recover.

Unfortunately, as soon as he rushed out of the black fog, he saw Ren Tianfei.

At that time, he couldn’t have felt worse. He had just left the tiger’s den and then entered the wolf’s den.

How could Ren Tianfei have the time to care about him now? He just glanced at him and casually pressed down. This person directly exploded, his body shattered.

Ren Tianfei stepped into the black fog.

“Huh?”

Ren Tianfei looked at his arms, which were slightly aging. However, he didn't care at all as he activated the Indestructible Body and vitality was reproduced.

The two Venerables who were chasing Ren Tianfei also wanted to rush into the black fog, but as soon as they entered, they found that their vitality and flesh were being drained.

Immediately, the two retreated.

Their physique was incomparable to Ren Tianfei's. They were just ordinary Venerables. And this black fog clearly exceeded the limits of ordinary Venerables.

"Oh! Boy, let that little vine go back. We can talk."

"Damn it, did you hear what I said?"

"Ahhh~"

Crack!

With a crack, something seemed to be broken.

At that moment, the entire sky turned red, a rain of blood poured down, and the sound of breaking echoed a million kilometers away.

In the next moment, the infinite black gas immediately became thin, and the black shadow disappeared without a trace.

When Ren Tianfei arrived, he found that a green light was retracted between Han Fei's eyebrows. At the same time, there seemed to be a shadow in the black fog, but he didn't know where it went.

Ren Tianfei's heart stirred. Before everyone arrived, he picked up Han Fei with one hand and threw him to Luo Xiaobai and the others. "Keep running."

After that, Ren Tianfei extended his hand into the void.

Old Bai was making slapping postures and seemed to be fighting someone. He was directly pulled out of the void.

Ren Tianfei said, "Protect them."

After that, Ren Tianfei grinned ferociously. "It seems that if I don't kill one of them today, you will forget my ability."

"Primordial Chaos Heaven Breaking Hand."

A black palm slapped out infinite white light, grabbing the Venerable who had just been reborn.

Rumble!

The big hand and the Venerable's body exploded at the same time.

Crack!

Another red mark appeared in the sky, and a rain of blood poured down.

“Haha! Who else?”

...

Han Fei felt that his head was buzzing as if he was being dragged. The bumpy ride almost shook his brains out.

There seemed to be noise in his ears.

When Han Fei opened his eyes in a daze, a familiar figure appeared in his eyes.

“Old Bai?”

“Go!”

The hoarse yell echoed between the heavens and earth.

The dark veil before Han Fei’s eyes seemed to be suddenly lifted.

At this moment, he was in the middle of the sky.

Han Fei lowered his head, only to find that he was at least thousands of feet from the ground. He looked back, only to see that Little Gold had attached to him. Its huge wings were opened, and blood was dripping from them.

Suddenly, a knife light spanning a thousand meters passed above Han Fei’s head.

Han Fei was horrified and looked up, only to find that there was a great battle in the sky.

Old Bai was besieged by a group of people, who were all ferocious. In the sky, several huge spiritual beasts flew across the sky, blocking the sun.

“F*ck!”

Han Fei was horrified. He had seen this scene before.

He saw this scene when he climbed the altar at the bottom of the Steps into the Sea.

While Han Fei was stunned, he saw that Zhang Xuanyu had appeared beside him.

“What are you waiting for? Run!”

Han Fei immediately grabbed Zhang Xuanyu, twisted his body, and appeared dozens of meters away.

Shua!

A sword Qi that swept across suddenly penetrated the place where he was just now.

Chapter 1160: Calabash, Absorb It

Han Fei didn’t know if he was attacked at all. He only felt that he was.

Zhang Xuanyu was shocked. “So fast!”

Han Fei, on the other hand, was horrified. If he remembered correctly, Zhang Xuanyu had been pierced through just now.

Immediately afterward, a hand fell from the sky.

Han Fei watched a sword-wielding powerhouse being slapped to death by this slap.

Old Bai shouted, "Take these children away. Hey, the Yi family guy, don't you want a son-in-law? Take them."

Han Fei suddenly realized something and quickly looked up, only to see that Zhang Xuanyu had been taken away by a big hand. He didn't know that person, but he was so handsome and seemed to be on par with Zhang Xuanyu!

Old Bai shouted again, "Only one? Take the damn fatty away too!"

On the other side, Le Renkuang appeared below, crying, "I'm not leaving."

Han Fei frowned and looked into the void.

An old man with an unshaven face drew a huge arc in the sky and stood in front of Le Renkuang.

In the next moment, Han Fei twisted his body again and dodged a fist mark.

"Huh?"

Some people seemed to be suspicious that they failed to hit Han Fei.

Han Fei activated the Heavenly Void Divine Movement and thrust a high-quality Divine weapon into the sky.

Han Fei roared, "President, run!"

However, before Han Fei could do anything, Old Bai slapped him away. "What are you doing here? Get the hell out of here."

Old Bai roared and charged at the sky with his Divine Weapon.

Below.

Han Fei came back to his senses, and a faceless man rushed over and took off his mask.

"Mr. Xiao Zhan?"

Xiao Zhan shouted in a low voice, "Remember to take revenge."

"Revenge? What revenge?"

Boom...

Before Xiao Zhan answered, Han Fei's eyes almost popped out. In the sky, Old Bai detonated himself.

"Old Bai, President..."

Wait, something is not right.

Han Fei frowned. Why didn't you detonate the Divine Weapon but yourself? Was this old man pretending?

Xiao Zhan grabbed Han Fei with one hand, trying to throw him away, but Han Fei was unwilling to let him do so. As he recalled, Xiao Zhan was about to blow himself up.

Han Fei clasped Xiao Zhan and appeared on the battlefield below with a swish.

The two rushed forward.

Soon, Han Fei found Wenren Yu who was fighting a Law Enforcer.

"Roar..."

The Law Enforcer was killed by the Hundred Beast Soul Subduing Roar. Han Fei grabbed Wenren Yu and shouted, "Mr. Xiao Zhan, where are you going?"

Wenren Yu shouted, "Han Fei, let go!"

Han Fei said, "Cut the crap and run!"

Wenren Yu roared, "Wrong direction. Pass diagonally."

At this moment.

In the sky, a cold voice echoed, "The Thug Academy defies the heavens. You deserve to be punished."

A voice echoed, "Today, I'll wipe out all your teachers and students."

Someone shouted, "You want to kill me? Don't you know what you are?"

One after another, people Han Fei didn't know appeared in the sky, on the ground, and above the city...

The sky was overcast, a rain of blood was falling, and explosions were ceaseless.

Wenren Yu shouted, "Han Fei, let go! We have a way out!"

Han Fei shouted, "Liar."

Wenren Yu was speechless, took out a jade slip, and showed it to Han Fei. Han Fei narrowed his eyes. It turned out to be a teleportation array.

Wenren Yu said, "Did you see that? Let go."

Han Fei was lost for words. Why did it feel different from what he remembered? Something was wrong! Was the prediction he saw wrong?

Suddenly, Han Fei saw Luo Xiaobai and Jiuyin Ling in the distance.

Jiuyin Ling was flying towards him.

Xiao Zhan said, "Han Fei, go by yourself. Our paths are different. Get lost."

Han Fei realized that it didn't seem right. He didn't see many pictures back then, but the explosion of Old Bai just now was too strange. Could it be that it was a way for them to escape?

Han Fei asked, "Teachers, are you going to blow yourselves up?"

Wenren Yu scolded, "What are you thinking? I haven't lived half my life yet."

Hearing that, Han Fei immediately let go and flashed through the void. He seemed to have made a mistake.

Han Fei grabbed Jiuyin Ling and ran, while he looked at Luo Xiaobai. "Xiaobai, what are you doing? Let's go!"

Luo Xiaobai shook her head slightly. "We'll be separated for now. You go by yourself. I'll go back to my family."

Knife light and sword light flashed around him. Han Fei stepped on the array and the Infinity Water swept over, directly killing two law enforcers.

Chi la!

Seven sword beams swept over. Han Fei's heart stirred. "Sword Seven from the War Soul Realm? No, the other party is an Explorer."

Han Fei pushed Jiuyin Ling away, Snowmourne in hand, and slashed through the void.

Luo Xiaobai took the opportunity to throw a spherical seed into the sky.

Boom!

In a flash of white light, the opponent's Explorer's long stick broke through the air.

Han Fei thought to himself, How can this attack cause trouble for me?

However, before Han Fei flew away, a large swath of spider silk suddenly appeared within a kilometer.

Boom!

He was about to perform Star Teleportation, when he realized that Jiuyin Ling was still behind him.

Immediately, he roared, stepped on the Great Coiled Turtle Array, and threw out the Sacrificing Punch, punching a hole in the silk net.

And Han Fei was hit by the long stick.

Boom!

When the opponent's Divine Weapon exploded, Han Fei vomited a mouthful of blood and was blown away.

In his dizziness, Han Fei heard someone shouting, "No, this kid's physique is too strong. We have to kill him with soul attack."

At that moment, Han Fei felt that his head was a mess, and he seemed to see Jiuyin Ling drawing a teleportation array with one hand.

Then, he seemed to see the shadow of a big turtle, which was full of black gas.

Immediately afterward, Han Fei felt his vision go dark as if he had been hit by something. Then he fell like a shooting star across the sky.

At that moment, he felt that his bones were shattered, his internal organs were damaged, and he vomited mouthfuls of blood.

After a long time.

Old Bai's voice came to his ears, "What's wrong with this kid?"

Jiuyin Ling said weakly, "He was injured by an Explorer."

Old Jiang shouted, "Go!"

...

In the end, Han Fei survived 99% of the battle, only to be heavily wounded by the Demon King Contract.

At this moment, Han Fei's mind was still in a mess. In his dizziness, he was standing in a void.

In front of him was an old turtle.

This turtle was ugly and black all over. Other turtles' heads looked like snake heads, but this one's head looked like a crocodile's head. Its eyes were staring forward like two big f*cking car lights.

When the big turtle saw Han Fei, it roared, "Asshole, thief, return my Great Dao to me... You brat, you called me over and I borrowed your power, but you tried to swallow me."

Han Fei was stunned. "Wait, who are you?"

Suddenly, Han Fei remembered something and his eyes widened. "F*ck, are you the old monster behind the Demon King Contract?"

Han Fei remembered. At that time, this old thing seemed to want to swallow his soul.

Han Fei bared his teeth and suddenly saw the Demon Purification Pot floating in the air. The two small vines swayed slightly, emitting green fluorescence.

Immediately, Han Fei realized that he was probably in a very special state. Was he communicating with this turtle with his spiritual senses? Why did this turtle come into his body and be suppressed by the Demon Purification Pot?

"Yes, I'm fighting. Jiuyin Ling saved me... And Old Jiang."

Han Fei immediately confirmed that he was asleep. He immersed his spiritual senses into his mind and talked to this turtle. He wondered how the battle outside was going.

It was a mess. They didn't know who was fighting whom. Especially the last melee, it was simply a mess.

Zhang Xuanyu had probably been taken away by Yi Xinyan's parents. And fatty was taken away by someone too. As for Luo Xiaobai, she had gone home... Then where was he?

However, he didn't care anymore. He should be safe now.

Han Fei sneered. He glanced at the big black turtle and said in disdain, "This is the first time I've seen such an ugly turtle. Old turtle, are you really worthy of being called an emperor?"

The old turtle roared with bloodshot eyes, "Brat, you came to me first! I saved your life, and your life should've been mine... Ouch..."

Han Fei rubbed his ears and thought of something. The Demon King Contract was deduced by the Demon Purification Pot. It seemed that he had to deduce secret techniques more carefully in the future.

Hearing what the old turtle said, Han Fei curled his lips. "You saved my life? I, Han Fei, am going to be a king. Do I need you to save my life? Even if you saved my life, so what? You don't look like a good person at all... Calabash, suck it up."

"Hey hey... Boy, don't go too far. Let's talk nicely. Let's calm down."

Han Fei sneered. "Now you know you should calm down? Why did you do that earlier?"

Han Fei urged the Demon Purification Pot to suck the old b * stard to death, but it didn't move.

"Huh? I've suppressed it. Can't you suck it to death?"

The old turtle looked nervous. "Boy, what are you thinking? Let me tell you, don't try playing tricks on me, or I'll die with you."

Han Fei glanced at the turtle contemptuously. "Hey, you're too confident. Calabash, absorb now..."

"Hey, hey, hey, don't, don't... I was just kidding."

Han Fei held his head high. "Heh! Such a coward. Why do you call yourself Emperor? Tell me, where are you from?"

The turtle stared at Han Fei with bloodshot eyes, as if it felt something was wrong.

Han Fei frowned. "Why are you staring at me? Do you know whose territory you are in? Calabash, suck..."

"Enough, b * stard, stop calling calabash. You can't control the calabash, can you? If you could, you would've sucked me to death long ago. Humans are truly shameless!"

Han Fei pretended to be furious. "What did you say? I can't control my calabash? If I can't control it, why were you sucked like this? You don't believe me, do you? Fine, let me show you what I'm capable of... Abracadabra..."

Then, Han Fei found that the big turtle was looking at him as if he were an idiot.

"Hmph!"

Han Fei waved his hand and said, "Forget it, I won't bicker with you. You don't seem to be weak.. If it weren't for the fact that you seem to have a powerful background, I would have sucked you to death."
