

GOF 1171

Chapter 1171: Queen Life

Han Fei couldn't help being a little excited. The Heavenly Palace! This was a place that countless strong masters in the Thousand Star City dreamed of entering. And just because he passed the demonic plant channel and came to the Water-Wood World, he had a chance to enter it.

The bat Venerable looked at Han Fei. "What's your name?"

Han Fei cupped his hands. "Han Fei."

The Red Falcon tilted his head and looked at Han Fei angrily. "How can I not respect the Venerable?"

Han Fei smiled. I walk the path of invincibility. I can be polite, but I really can't call him Master.

There was no telling if the bat venerable cared or not. "Go in! It doesn't matter to me, but you need to respect the queen. Kings cannot be underestimated."

Han Fei smiled and nodded.

Han Fei passed the Venerable, took a breath, and stepped in without hesitation.

After Han Fei went in, the Red Falcon said, "My lord, this person..."

The bat Venerable said casually, "He's extraordinary. A real powerhouse is always proud. Don't take it to heart."

...

In Han Fei's view, the Thirty-Six Heavenly Palaces were built at the same time, but they were divided and ruled by the strong. Therefore, as long as he had seen the Water-Wood Heavenly Palace, he should be able to know what the Yin-Yang Heavenly Palace looked like.

Shua!

Han Fei leaned forward slightly, as if he had been pushed back by a gentle force.

He subconsciously looked back, only to find that no one was there. It must be the power of the teleportation array itself.

"Huh!"

The moment Han Fei came in, he suddenly felt something was wrong.

The spiritual energy was abnormal. As a spirit gatherer, he could easily feel abnormal fluctuations of spiritual energy.

However, the spiritual energy in the Heavenly Palace was too abnormal.

To be honest, the spiritual energy in the Water-Wood World was more intense than in the Yin-Yang World. It might be because of the Cloud Sea Divine Tree, but it was not many times higher.

But in the Heavenly Palace, the moment Han Fei came in, his level-nine spiritual heritage automatically began to absorb the surrounding spiritual energy, and multiple vortexes of spiritual energy appeared on his body.

“Hiss! At least ten times more than the outside world.”

Han Fei was shocked. This was f*cking unbelievable. What did it mean that the spiritual energy was more than ten times denser? Even if a person didn’t cultivate here, his strength would grow by leaps and bounds just by breathing.

Feeling the difference in spiritual energy, Han Fei looked around and found that there were all kinds of spiritual grasses and fruit gardens here. Looking around casually, he saw a spiritual fruit.

Information popped up in his eyes.

< Name > Agility Fruit

< Introduction > It grows in places with extremely rich spiritual energy. It has a magical effect of improving physique and speed.

< Level > Heaven

< Quality > Low-Quality

< Contained Spiritual Energy > 556,000 points

< Effect > Directly eating it can increase a large amount of spiritual energy and contain a small amount of chaos energy. It cannot be taken below the Law Enforcer realm and is ineffective against creatures above the Venerable realm. It can be eaten repeatedly.

Han Fei’s eyes widened. A heaven-level spiritual fruit could be eaten repeatedly?

The Water Immortal had once told him about the Agility Fruit, saying that this kind of fruit was extremely difficult to grow. Its main effect was the trace of chaotic energy, which was a power that was effective even on Venerables.

Han Fei glanced around and saw seven or eight such spiritual fruits. In addition to this spiritual fruit, there were various other fruits.

For example, Han Fei saw an old ginseng that was originally outside the ground. It seemed to have sensed Han Fei’s arrival and drilled into the ground with a swish.

Han Fei looked around and found himself in a super large orchard.

And at the center of this big orchard, there was a lush tree, extremely thick. In front of the tree, various branches and vines twisted into pillars or fell from the sky.

While Han Fei was stunned, he saw a young girl in colorful clothes step in front of him in a few steps. The girl blinked and looked at Han Fei curiously.

Han Fei couldn’t see any suppressing power from this girl, who was like an ordinary person. He couldn’t help but ask tentatively, “Queen... Life?”

“Pfft!”

The girl couldn't help but smile. Then she hurriedly pursed her lips and said meticulously, “Sir, I'm just the queen's maidservant. Sir, please come with me...”

He came fast, but he didn't go fast. The tree seemed to be not far away, but when Han Fei started to walk, he realized that there was something wrong with this journey. There seemed to be a space law attached to him, and a special technique had stretched the journey into thousands of miles.

The girl glanced at Han Fei. “Did you come from the Yin-Yang World?”

Han Fei nodded with a smile. “Yes.”

The girl asked again, “Has Yin-Yang World's Heavenly Dao Dharma Eye disappeared?”

Han Fei's expression suddenly changed slightly as he looked at the girl. Did she know that the Yin-Yang World was now being monitored by the Heavenly Dao Dharma Eye?

The girl smiled and said, “Others might not know, but this is the Water-Wood Heavenly Palace. The queen knows everything.”

“Jing'er, shut up. Adjust that array.”

Suddenly, Han Fei heard a particularly gentle voice. The voice was very soft. From the sound alone, Han Fei felt that Queen Life should be a very gentle king-level powerhouse.

The girl named Jing'er smiled and waved her hand. Han Fei keenly noticed that the space seemed to have changed.

As he expected, after that, he walked a long way with one step. Han Fei even keenly noticed that some mud on the ground beside the road was trembling slightly.

“Hiss! Universal Array?”

“Huh!”

Jing'er was slightly surprised. “You look young, but you're quite good at arrays.”

Han Fei blushed. My ass! To be able to draw an Universal Array, her control must be simply inhuman. It's not something I can draw at all.

Even Old Jiang didn't have this ability. This kind of array required extremely high control of the soul.

When Han Fei was a thousand meters away from the tree, he found that some tree men were either standing still or gently turning the soil as if they were tending to flowers and grasses.

Han Fei's pupils constricted slightly. “Corpse puppets?”

Jing'er looked at Han Fei curiously. “Do you even know that?”

Han Fei smiled. “I had seen some before.”

Needless to say, these corpse puppets should be dead tree men and insects, who were refined into corpse puppets. However, in terms of strength, these corpse puppets were at least at the Explorer level.

This was not what Han Fei felt, but what he saw from their bodies.

Jing'er said, "Ordinary people are not allowed to enter the Heavenly Palace. You are the first person to enter the Heavenly Palace who is not a Venerable. You're lucky."

Han Fei's heart did a flip. Only Venerables could enter the Heavenly Palace? Did it mean that Venerables had the ability to enter the Heavenly Palace?

Han Fei didn't respond.

Passing through the vines and the artificially twisted vines and trees, he moved to the main trunk of the tree.

But when Han Fei reached the main trunk, his pupils constricted. "Is this still the Cloud Sea Divine Tree?"

Yes, it could be seen that it was the root of a tree.

However, the trunk in front of him seemed to be half-buried in the soil. In other words, the Cloud Sea Divine Tree had passed through the spatial rift and grown into the Heavenly Palace.

Han Fei was a little shocked. Gosh, what kind of tree was this? It was too awesome.

Jing'er said, "What's there to be surprised about? The Cloud Sea Divine Tree itself is a king-level creature! Okay, don't be surprised. Be good when you meet the queen... You look a bit..."

Han Fei: "..."

Before Han Fei digested the news, he was hurt by what Jing'er said.

What's wrong with my appearance? I don't look ugly, OK?!

However, when Han Fei thought of the humans he saw just now, he couldn't help but feel discouraged. Were the genes here all good? Why was everyone so beautiful here?

In any case, Han Fei had learned that the Cloud Sea Divine Tree was also a king-level creature, which was terrifying. In other words, there were two king-level creatures in the Water-Wood World.

After taking a few more steps and passing through the tree barrier, Han Fei suddenly raised his head and saw that there was a misty glow surrounding the hundred-meter high altitude. He could vaguely see that there seemed to be a tree palace.

It was like a particularly elegant and beautiful palace was built on the branches of a tree.

Jing'er bowed and said, "My queen, the guest has arrived."

Above, the extremely gentle voice said gently, "OK! Come up!"

Gulp!

Han Fei swallowed, and Jing'er waved her hand in front of his eyes and said, "Don't be in a daze. The queen wants you to go up, but you dare not disrespect the queen."

"Huff!"

Han Fei took a deep breath. He was going to meet a king. He was a little nervous.

While Jing'er was chuckling, Han Fei stepped in the air, trying to balance himself and calm down. With a faint smile on his face, he slowly disappeared into the misty glow.

But when Han Fei passed the sunset, he was surprised to find that there was no palace here. This was clearly a quaint open courtyard with an elegant garden. In the middle of the courtyard, there was a small spring with green liquid flowing out.

At that moment, Han Fei sensed infinite vitality, and a word popped up in his head: "Spring of Life."

In a corner of the courtyard, a slender, almost perfect-looking woman in an emerald-colored cloud silk dress with her hair casually thrown to one shoulder had her back to him.

Gulp!

Han Fei swallowed and immediately cupped his hands. "Yin-Yang World.. Han Fei greets the queen."

Chapter 1172: The Queen's Deal

Han Fei stood there and waited for a while, only to see that Queen Life was fiddling with the mud and watering it.

Wait!

Han Fei's pupils constricted slightly. What was she watering with? It was... a Dao rune?

The Dao runes and the Spirit Awakening Fluid were two completely different things.

If it had to be related, it was that if the mysterious Dao runes were diluted, a large amount of Spirit Awakening Fluid might be produced.

The Queen of Life didn't ignore Han Fei. Although she didn't look back, she said in a stammer, "Still no one can enter Yin-Yang World?"

Han Fei's eyelids twitched.

However, the other party was a king. He could brag in front of a group of children, but in front of a king, he had to have the courage to be slapped to death.

Han Fei said calmly, "Yes, for the time being, no one can enter."

The Life King said again, "The Water-Wood World is quite close to the Yin-Yang World. The Venerable-level war you mentioned a few years ago should be true. Three Venerables died? Did humans start a war with the Sea Clan?"

Han Fei was shocked. How did she know that?

Han Fei bit the bullet and said, "It's not that human beings and the sea demons are at war, but that some greedy Venerables are stirring up trouble, so a few of them were killed."

"Killed?"

Queen Life slowly turned around, and Han Fei was a little dazzled by her beautiful face.

If one had to describe it, it would be that her skin was fair and smooth, her breath was enchanting, her hands were soft, her body was charming, and her eyes were tranquil and soul-stirring.

When their eyes met, Han Fei's brain slowed down and he was a little stunned.

Right then, Han Fei felt that someone knocked on his heart, which finally woke him up.

The old turtle's voice reminded him, "Your strength is too low. Unless the king is willing, you can't look straight at the king."

"Huh!"

Queen Life was slightly surprised. Han Fei seemed to be shaken by some force and came back to his senses.

However, Queen Life wasn't too bothered. She just said casually, "Young man, you spoke as if they were killed by you ... As I expected, the human race has always been like this. Although you are the most suitable creatures for cultivation, you have the most complicated minds. I think this matter has something to do with you, right?"

Han Fei lowered his head, not because he wanted to keep his head low, but because he couldn't look straight at the queen.

Han Fei smiled bitterly. It seemed that he couldn't hide anything from a king-level powerhouse!

Seeing Han Fei's reaction, Queen Life continued, "Your father came once and asked for two things and a promise from me. However, the price fell on you. Listen."

Han Fei's eyelids twitched. "What? I'll return what Old Han asked for?"

Han Fei's expression remained unchanged as he listened attentively.

Queen Life said, "The promise he asked me to make is that if anyone comes from the Yin-Yang World in the future, as long as it doesn't harm Water-Wood World, we must help him unconditionally. And the price... is that this person needs to help Water-Wood World completely resolve the threat of the Sea Clan."

Han Fei's heart flipped.

Old Han had probably thought it through before setting up the trap. He had long known that if Han Fei was to become a king, he would definitely stand against the big clans. Therefore, he had planned a retreat in the Water-Wood World in advance.

However, this price was to help Water-Wood World completely resolve the threat of the Sea Clan?

This was a little difficult for him now.

He hadn't even settled the Ten Thousand Demon Valley in the Yin-Yang World yet. Perhaps he still had to solve the royal city in the future. What about the Water-Wood World?

Han Fei couldn't help asking, "Queen, are there any sea demons on the Water-Wood World's side?"

Queen Life chuckled. "There is at least one Deep Sea Giant Demon guarding the two royal cities."

"Hiss!"

Han Fei was stunned and subconsciously raised his head. He even forgot why he could look at the king directly this time. Anyway, he was shocked.

"Deep Sea Giant Demon?"

Queen Life nodded, clasped her hands, and looked at Han Fei. "Once the two royal cities are destroyed, the other troubles will no longer be troubles."

The corner of Han Fei's mouth twitched. What do you mean? Apart from the Deep Sea Giant Demon, are there other troubles?

Han Fei couldn't have felt worse. Is Old Han setting me up?

A Deep Sea Giant Demon! That's equivalent to a king-level powerhouse. If I had this ability, why would I come to the Water-Wood World to make a breakthrough?

As if knowing what Han Fei was thinking, Queen Life smiled. "Don't worry. I don't need you to take action now. You just need to agree to this matter now. Your father bet that you will become a king, so as long as you dare to agree, you must keep your word. Otherwise, You will never be a king."

Gulp!

Han Fei took a deep breath and asked in confusion, "Do you believe that I can become a king?"

Queen Life said indifferently, "I only heard your father's plan earlier, but now that I've met you in person, I think I can take the risk. Anyway, what your father wants is not difficult for me."

Han Fei understood. It meant that Old Han knew very well that if he could really become a king, the return he would give would be far greater than what the Water-Wood World offered.

Han Fei smiled bitterly. "Now that things have come to this point, I agree."

It was not up to him anyway.

Old Han had taken the things he wanted, and he had come to the Water-Wood World. The other party had basically done all three things. There was no room for him to go back on his word.

Queen Life continued to fiddle with a red flower in front of her.

The flower swayed its body and she said casually, "How long can you stay in the Water-Wood World?"

Han Fei thought for a moment. "Three years at most."

Queen Life nodded slightly. "I'll give you three years. During this period, you can become an Explorer freely and blend into any domain in the Water-Wood World. However, Water-Wood World won't participate in the battle in the Yin-Yang World in three years. That's your own business and also a test for you."

Han Fei nodded. "Okay!"

“Jing’er!”

The maidservant who had just led the way appeared beside him silently. “My queen.”

While tending to the flowers and plants, Queen Life said indifferently, “Take him to the human race’s territory and give him a Venerable Token. He can go anywhere he wants in the future, but you don’t have to help him.”

After that, Queen Life thought for a moment and said to Jing’er, “Protect Han Fei when he transcends the tribulation.”

Jing’er was shocked and looked at Han Fei in shock. Who is this person? A peak-level Law Enforcer with a Venerable Token? Why does he need my protection to transcend the tribulation?

However, Jing’er immediately replied respectfully, “Yes, my queen.”

“OK, go!”

Jing’er looked at Han Fei. “Let’s go!”

After leaving the courtyard, Han Fei glanced at this place. Unfortunately, he didn’t have a chance to see the entire Water-Wood World. However, Han Fei could confirm that there were definitely many strong masters here.

Besides, Water-Wood World used corpse puppets, as did Yin-Yang World. Why?

Jing’er asked, “What are you looking at?”

Han Fei smiled. “Nothing. I’m just curious about how to refine corpse puppets.”

Jing’er chuckled. “Refine corpse puppets? Think about it after you become a king!”

Han Fei was not in a rush to know the answer. What he really wanted to ask was why so many corpses were arranged in the Heavenly Palace. What was the purpose?

However, since it involved the Heavenly Palace, he had to wait until he got the Yin-Yang Heavenly Palace. Before this, everything was bulls * it.

...

Shua! Shua!

When Han Fei and Jing’er came out together, the bat Venerable was slightly surprised.

The Red Falcon’s eyes widened. What’s going on?

The Red Falcon quickly folded its wings and said respectfully, “Messenger Jing.”

The bat Venerable also bowed slightly.

This shocked Han Fei. F*ck, wasn’t she just a maidservant? Why did a Venerable bow to her?

Jing'er looked at Han Fei gloatingly and then said with high airs, "OK! I'll take over the matter of Han Fei. From now on, just treat him as a member of the Water-Wood World. He can do whatever he wants here."

The bat Venerable looked at Han Fei curiously and asked casually, "Can he enter the Heavenly Palace freely?"

Jing'er said, "No, not unless I take him in."

The Red Falcon glanced at Han Fei a few more times, a little jealous. This kid can enter the Heavenly Palace as soon as he comes! I wonder where he got his luck.

After asking the bat Venerable and the Red Falcon to leave, Jing'er handed Han Fei a square token with a bright red fruit engraved in the shape of a drop of water.

He wondered what the token was made of.

As soon as Han Fei took it, he felt refreshed. If he guessed right, this thing seemed to be able to promote soul cultivation.

Jing'er said, "There are only 73 Venerable Tokens in the entire Water-Wood Heavenly Palace. They're as good as Sea Quelling Bizarre Treasures and can only be destroyed by kings. Well, do you know what a Sea Quelling Bizarre Treasure is?"

Han Fei thought to himself, Not only do I know it, but I also have some.

Han Fei nodded. "I do."

Jing'er smiled and said, "That's good. This thing can acknowledge you as its master, but you'll have to give it back three years later. It's good for you to wear it now. However, don't use it rashly, and don't use the Venerable Token to order the creatures of the Water-Wood World at will."

"Got it."

Only then did Jing'er urge, "Let's go! Follow me to the human race."

After leaving the Heavenly Palace, Jing'er seemed to be in a good mood and took Han Fei to another teleportation array on a tree.

Only at this moment did Han Fei know that there were many teleportation arrays here. At a glance, there were more than a hundred teleportation arrays.

Seeing Han Fei's expression, Jing'er said, "What's there to be surprised about? The Cloud Sea Divine Tree is very large. Of course, it's more convenient to use a teleportation array! Forget it, let me tell you about..."

Chapter 1173: Grand Void Illusionary Realm

On the way to the human race, Jing'er told Han Fei about the layout of the Water-Wood World.

It turned out that there were also four battlefields in the Water-Wood World, which were the Ice Domain, the Fiery Sea, the Dark War Port, and the Cave Sea. Among them, ordinary people usually went to the Ice Domain and the Cave Sea to gain experience and hunt.

The Fiery Sea and the Dark War Port were the most dangerous places in the Water-Wood World.

It was said that people fought sea demons there all year round.

In the Fiery Sea, there was a flame wall, which was a barrier to divide the battlefield. In the Dark War Port, there was a place called the Fearless Barrier, which was said to have many strong masters guarding it.

Han Fei was not very curious about this.

He was here to seek a breakthrough. There was no need to cause trouble on the battlefield. It was better to find a place to make a breakthrough quietly.

Shua!

When the teleportation array flashed, Han Fei fell directly on a thick tree trunk.

In the distance, the trees were dense, and the sun couldn't shine in completely, so it seemed a little dim.

As far as Han Fei could see, in addition to the relatively open area, there seemed to be various strange treehouses in the distance.

Some houses were hung on the trunks by vines, and some were built on leaves. Few people could be seen.

As soon as Han Fei and Jing'er appeared, they immediately sensed something.

"Huh? Messenger Jing?"

Shua!

Someone appeared in the square.

The man asked in surprise, "Messenger Jing, why are you here?"

As he spoke, the man's pupils suddenly constricted, and he stared at Han Fei blankly. His first attention was Han Fei's face, and then he was stunned by the Venerable Token hanging on Han Fei's waist.

"Hiss! A... human?"

Jing'er held her head high and said, "Lu Lehan? Where are Wushang Xue and Yi Yuchen?"

The handsome Lu Lehan quickly came back to his senses. "Oh! Venerable Xue and Master Chen went to inspect the human beings. Shall I call them back?"

Jing'er nodded. "Call them back. By the way, inform all peak-level Explorers to come."

Shocked, Lu Lehan looked at Han Fei again, wondering what had happened.

Lu Lehan said solemnly, "Messenger Jing, please wait a moment."

Shua!

After Lu Lehan left, Han Fei asked in surprise, "Are the people here all so good-looking?"

Jing'er tilted her head and looked at Han Fei. "Good-looking? But it's the first time I've seen someone as ugly as you."

Han Fei almost wanted to slap himself. Why did he have to bring that up? He was just looking for a beating.

Jing'er chuckled. "Alright! I won't tease you anymore. Water and earth support different people. People in the Water-Wood World live on the Cloud Sea Divine Tree all year round, so it's normal for the human race here to be a little different from the human race on your side. When you become an Explorer, it'll be very easy for you to become more handsome! You should be able to do that now, right?"

Han Fei muttered, "I think I'm fine now."

"Pfft!"

"Where do you get your confidence from?"

Han Fei rolled his eyes. He felt no pressure chatting with Jing'er. However, chatting with Queen Life would be too much pressure.

Jing'er said, "By the way, you can familiarize yourself with the Cloud Sea Divine Tree first. When you need to transcend the tribulation, you just need to call me through the Venerable Token. This is because it's my Venerable Token."

"Cough! Cough, cough..."

Han Fei staggered. F*ck, is Jing'er a Venerable?

Han Fei felt terrible again.

She looks like a little girl, but she's actually a Venerable? Are you kidding me?

Han Fei tried to keep calm. "Okay! Am I supposed to leave the Cloud Sea Divine Tree when the tribulation comes?"

Jing'er said, "Of course. Who dares to transcend the tribulation on the Cloud Sea Divine Tree? Do you want to die? You don't know the outer sea area of the Water-Wood World well, and other people won't protect you from the tribulation. After you understand this place, you can choose where to transcend the tribulation."

Swish swish swish!

As the two talked, they saw a cold, beautiful woman suddenly appear in front of them.

Then, with swishes, handsome men and beautiful women appeared one after another.

Some people walked through teleportation arrays, and some tore through the void.

Looking at those faces, Han Fei felt inferior.

Jing'er smiled. "Xue, I've brought you a person."

The beautiful woman who appeared first looked like an elf in a movie. She had fair skin, a beautiful face, short shoulder-length hair, watery blue eyes, and normal ears. Cold, beautiful women usually looked valiant. She looked a bit like Ximen Linglan, or to be exact, even more beautiful than Ximen Linglan.

Han Fei thought to himself, This must be Wushang Xue that Jing'er mentioned, the Venerable Xue of the human race.

As for the others, they didn't conceal their auras, which was definitely the standard for peak-level Explorers.

However, there were only ten people here. One Venerable and nine peak-level Explorers. There didn't seem to be many of them. After all, there were 72 in the Water-Wood World.

Logically speaking, there should be more than one human Venerable.

Sure enough, Wushang Xue said, "Jing'er, what do you mean? Why do you always come to me? Are the others all dead?"

She sounded a little impatient. It seemed that Jing'er had brought him here specifically.

Jing'er jumped to Wushang Xue's side and held her arm, saying, "Oh, I have the best relationship with you! Well, his name is Han Fei. He's from the Yin-Yang World. He'll stay in the Water-Wood World for three years. I brought him straight to you!"

Before Jing'er said anything, Wushang Xue and the others were already looking at Han Fei up and down.

Wushang Xue was surprised. "Yin-Yang World? Is that road open?"

Jing'er said cutely, "No, he's special. That's why he's here."

Wushang Xue looked at Han Fei in confusion. "A peak-level law enforcer? Why did you give him your Venerable Token?"

Jing'er said, "The queen wants me to give it to her!"

Wushang Xue's pupils were constricted. "Are you saying that this person has been to the Heavenly Palace?"

"Yes!"

Han Fei cupped his hands. "Nice to meet you, Master Snow."

Someone asked in confusion, "Messenger Jing, did this person come all the way here just to stay here for three years?"

Jing'er said casually, "Han Fei is here to transcend the tribulation and familiarize himself with the Water-Wood World in advance. He will come to help us in the future."

"Him?"

"What? A peak-level law enforcer?"

Everybody frowned, as they didn't think Han Fei was strong enough.

Wushang Xue said, "What do you need me to do? Take him with me?"

Jing'er shook her head. "No, Han Fei can go anywhere in the Water-Wood World. Just arrange someone to tell him about the Water-Wood World."

Han Fei was a little embarrassed.

These people don't seem to take me seriously! How can they look down on me? I'm just not as pretty as you! Do you have to despise me like this?

Wushang Xue narrowed her eyes and said, "Oh? He can go anywhere? Is he very strong?"

Jing'er looked at Han Fei. "He should be very strong!"

Wushang Xue glanced at a handsome young man beside her. "Yi Yuchen, suppress your strength to the peak of the law enforcer realm and fight him."

When Jing'er heard that, she immediately exclaimed and said, "That's not good, right? Yi Yuchen is about to become a Venerable."

Wu Shangxue said lightly, "It doesn't matter! There must be something special about him since the queen treated him so specially. If he can't even compare to Yi Yuchen, how can he help the Water-Wood World?"

The handsome man smiled and said, "How do we fight? Do we fight on the spot or go to the Grand Void Illusionary Realm?"

Wushang Xue glanced at Han Fei. "Grand Void Illusionary Land!"

Seeing that Han Fei was stunned, Jing'er immediately said, "The Grand Void Illusionary Realm is also called the Dream Trial Ground, which is a special ability of the Cloud Sea Divine Tree. As long as you press a leaf of the Cloud Sea and sink your mind into it, you can appear in the Grand Void Illusionary Realm."

Han Fei grinned. "Well, can I say something?"

Everyone looked at Han Fei, thinking, What else do you need to say? Are you scared?

Han Fei smiled and said indifferently, "A peak-level law enforcer might not be able to beat me. You'd better suppress your strength to the Explorer realm! An intermediate one."

Han Fei was just telling the truth. These people had no idea how strong he was now.

After four years of precipitation, his perception had reached more than 1,200 kilometers, and his strength had increased from 54 waves to 76 waves, which increased by more than 20 waves.

Sure enough, everyone reacted differently and was very astonished.

"Hiss!"

"What?"

A woman said with an ugly expression, “Han Fei, right? You have to know that the one you are facing is a powerhouse who is about to enter the Venerable realm. It’s okay for young people to be arrogant. We know you have some talent, but don’t be too arrogant.”

Wushang Xue glanced at the woman, who shut up hatefully.

Only then did Wushang Xue look at Han Fei and say seriously, “In the Grand Void Illusionary Realm, everything is true. Even your body feels real. If you are really seriously injured, your soul will also be shaken and injured. You’d better be clear of it.”

Han Fei sneered in his heart. In a sense, he represented the future king of the Yin-Yang World. It wouldn’t be outrageous to call him the strongest in his realm in the Yin-Yang World.

How could he disgrace the Yin-Yang World at such a moment?

Han Fei smiled. “No, I’m used to fighting like this.”

Yi Yuchen, on the other hand, smiled and said in a warm voice, “Okay, then let’s fight this way.”

Jing’er blinked curiously and thought to herself, The guy who can win the queen’s favor must be capable. There are many people in the Grand Void Illusionary Realm. If Han Fei can fight Yi Yuchen without being defeated, it will be enough to awe the big clans of the Water-Wood World.

Wushang Xue looked at the leaves of the Cloud Sea and said, “Pick a random one to sit on. I’ll wait for you in the Grand Void Illusionary Realm.”

Swish swish swish!

Almost with a swish, the people in front of him disappeared and each of them sat on a leaf.

Han Fei grinned. I’m never afraid of a fight.

Then, Han Fei appeared on a leaf, focused his mind, and put his perception on the leaf.

Instantly, an extremely strange feeling appeared.

When he reappeared, he found himself standing in an enormous square. But when he looked around, he could still see the huge branches, and he was still on the tree.

“It’s rather magical. Is this in the soul of the Cloud Sea Divine Tree?”

Not far away, in addition to people like Wushang Xue and Jing’er, there were other creatures.

A few big blue birds, some spider monsters, and a few big-horned beetles were looking at them curiously.

Chapter 1174: Human Clan Battle Bow Technique

As he had already been to the Ideal Palace, Han Fei wasn’t surprised by this illusion realm, but he was very suspicious of the so-called absolute safety here.

Han Fei couldn't help but look at Jing'er. "If the soul is destroyed here, will there be any danger in reality?"

Wushang Xue asked in surprise, "Are you talking about soul skills?"

Han Fei nodded slightly.

Be it the Void Lines or the Hundred Beast Soul Subduing Roar, they were not weak. They were both great killing weapons that could kill the soul. What if he really used them in the intense battle?

Jing'er said, "Don't worry. I'll tell the Cloud Sea Divine Tree. Don't worry."

Jing'er closed her eyes and seemed to be communicating with something.

After more than ten seconds, she opened her eyes. "Okay, when necessary, the Cloud Sea Divine Tree will take action. So, don't worry about any accidents."

Han Fei thought to himself, From the looks of it, it's not that safe in this Grand Void Illusionary Realm. Once one's soul is destroyed, even if he's not directly killed, he will definitely be seriously injured.

Yi Yuchen was still smiling, but he no longer underestimated Han Fei.

Since the other party said so, it meant that Han Fei had a soul attack method.

The soul attack technique that even the Grand Void Illusionary Realm couldn't resist certainly couldn't be underestimated.

Not far away.

The big beetles that had been colliding with each other couldn't help but exclaim, "Huh? Messenger Jing?"

"Ah! Why is Venerable Xue here?"

"Chirp! Come on, there's a big battle here."

Suddenly, Jing'er shouted from a distance, "None of you are to approach within ten kilometers of here."

The yell of Jing'er attracted some creatures from various races who were in the Grand Void Illusionary Realm.

Yi Yuchen flipped his hand and a long bow appeared in his hand.

Different from the common big bows, the long bows in the Water-Wood World seemed to have a special shape.

The long bow was as sharp as a blade, and there were blades on its sides.

Han Fei keenly noticed that there was a sense of attachment in the middle of the long bow. If he guessed right, the long bow could actually be pried open, forming two knives.

"Interesting."

Yi Yuchen smiled. "Most of the Water-Wood World Humans are manipulators. The evolution of the War Bow Technique has almost reached the peak. Therefore, many people are both manipulators and soul warriors. As it happens, my dual elements are very strong."

Han Fei thought for a moment and decided to say something.

Han Fei took a step forward and condensed an array. The Six Spirit Armor and the Coiled Turtle Array were the simplest. Han Fei even set up a tide array.

At that moment, a huge wave rose behind Han Fei.

He said leisurely, "Due to the restrictions of the area, I'm both a spirit gatherer and a soul warrior. But I'm more versatile and know a thing or two about arrays, rods, swords, and seals. Because I walk the path of body refinement, my fist techniques are stronger."

Next door, Jing'er, who was watching the battle, couldn't help but clap her hands. "Wow, Xue, look, this kid is quite capable, isn't he?"

Wushang Xue frowned slightly. "Don't you think he learnt too much?"

Someone shook his head slightly. "He looks very young. It's very difficult for him to be proficient in so many techniques at the same time, right?"

In the distance, a group of birds, insects, and humans gathered around.

Some young people exclaimed, "Isn't that Master Yi Yuchen? Huh? Who's the guy fighting with Master Yi Yuchen? He's so ugly!"

A big spider was astonished. "Why is that human only a peak-level law enforcer? Why didn't Lord Yi Yuchen suppress his realm?"

A big snake said, "Suppressed, an intermediate Explorer."

"Hiss! He jumped levels to challenge Master Yi Yuchen. Is he kidding me?"

A girl descended holding a bow. "The person opposite doesn't seem weak. Look at the tide, there seem to be countless blades flying."

"Hum... Huala!"

Han Fei activated the Devil Change and the Phantom Glass Wings extended.

He didn't intend to fuse with Little Black and Little White. The appearance of the Yin-Yang Divine Eyes would be too strange. Besides, he planned to keep some trump cards. After all, he was in their territory.

If he revealed all his trump cards, wouldn't he seem too showy?

Wu Shangxue shouted in a low voice, "Yi Yuchen, if you lose, go to the Fearless Barrier and kill a great demon at the peak of the Dao Seeking realm before coming back."

Hearing that, Yi Yuchen immediately shouted, "Han Fei, go all out."

Han Fei frowned. "Of course."

Swish!!!

In the field, the two disappeared almost at the same time. In the void, an arrow shadow shot across, like a big fiery bird with red wings spreading out.

On Han Fei's side, in the tide, tens of thousands of knives flowed like a stream. In an instant, they broke out of the water and shot out dazzling knife lights.

In just an instant, the knives and arrows collided, and the knife stream of Million Knife Art, like a cone, was shot through by the arrows. And the bird-like arrow was also minced by the Million Knife Art.

Ding ding ding!

In the void, their figures appeared in multiple places.

Chi la!

He launched the Draw Technique, and the saber beam tore through the void. At the same time, a terrifying spike pierced through like a sharp arrow.

On the other side, a large number of vines rose.

Yi Yuchen agilely shuttled through the vines and extended his long bow. In the blink of an eye, more than 30 arrows shot out one after another, shattering the void and bombarding the Draw Technique.

Clang! Clang! Clang!

Crack!

The Ten-Thousand-Year Demon Thorn was cut apart by Yi Yuchen with a backhand slash.

Shua! Shua!

This battle only lasted for two seconds. At this moment, the two of them stepped on the void and stood on one side.

Jing'er's eyes glowed. "Wow, not bad, right? Han Fei's knife skills are very good, and Yi Yuchen's arrow flow is faster than before."

Wushang Xue nodded slightly. "Yes, he is very strong. A peak-level law enforcer fighting an intermediate explorer. To be able to fight like this, he must be a top genius."

Next to Wushang Xue, the other peak-level explorers looked serious. He is indeed strong! Although it was a tentative fight, Han Fei was not at a disadvantage. This made them have to treat him seriously.

The creatures who were watching the battle not far away, on the other hand, were exclaiming nonstop.

"Wow! It's too fast. I can't see them at all."

A beetle's eyes kept rolling. "Who's stronger?"

Someone responded, "Neither of them is stronger. They are evenly matched."

A human youth was shocked. Who is this person? He, a peak-level law enforcer, can fight Yi Yuchen who was in the realm of an intermediate Explorer?! If there is such a person in Water-Wood World, how can I not know him?

More and more people gathered around, and Yi Yuchen smiled. "No need to test me. Come on!"

Han Fei nodded slightly.

Just now, he only used 50% of his strength.

As for Yi Yuchen, he had only used a small part of the power of an intermediate Explorer. If he used his full strength, he could kill the other party in an instant.

"Seventeen Dao Querying Arrows."

Yi Yuchen disappeared into the spiritual plants. Han Fei activated the Eyes of True Vision and saw nothing but shadows of vines.

Suddenly, a fiery serpent pounced at him like a dragon.

"A locking technique?"

Han Fei frowned, stood in the air, and pointed his finger. "Ten Thousand Knives in One."

The knife light, like snowflakes, condensed into a knife and slashed through the void, causing the void to tremble.

Bang!

The fiery serpent was instantly torn apart.

In the next second, sixteen fiery pythons pounced out in a row, each more powerful than the last.

Bang! Bang! Bang!

Someone sighed. "Although this person is very strong, it's impossible for him to withstand it! Lord Yi Yuchen's last three arrows still have the power of Dao."

Wushang Xue and the others were expressionless, watching the sparring seriously.

Han Fei grinned. "What a powerful bow technique. I'm a little surprised."

"Roar!"

Han Fei roared and his invincible will appeared.

In the golden shadow, Han Fei raised his fists, and the arrays in his hands were overlapping.

"Sacrificing Punch..."

Crack!

The Ten Thousand Knives in One was shattered by the fifth arrow. At this moment, the void trembled, and a terrifying power erupted from Han Fei.

Boom!

A fist mark rumbled and a blood-red light burst out. A fist mark collided along the way like a savage behemoth, shattering all the arrow shadows.

Bang! Bang! Bang!

Nine fiery pythons were punched through in a row, unable to resist Han Fei's terrifying blow.

This scene stunned everyone. What a powerful fist mark!

Someone exclaimed, "He's so strong! This ugly man is so strong!"

A big bug shrank back. "This fist can easily penetrate my carapace."

Even Wushang Xue said in surprise, "Ordinary physiques can't withstand such an extremely powerful fist mark. This guy's physique is probably terrifyingly strong."

Jing'er's eyes widened.

Although she was a Venerable, she had been staying in the Heavenly Palace. It was not her place to fight. Therefore, she liked watching these scenes the most.

However, Wushang Xue said, "But it's still not enough."

On the battlefield, the last three arrows raised flames hundreds of meters high and the serpent roared, making many people flinch.

Han Fei clearly felt that when the last three arrows appeared, the Sacrificing Punch couldn't hold on anymore.

"Roar!"

With a dragon roar, the Nine Mansions Dragon Seal erupted, and Han Fei smashed out.

Bang!

The arrow shadow containing the Dao runes shattered, but the next arrow shadow burst out. The terrifying blow shattered the Sacrificing Punch and the Nine Dragon Seal at the same time.

Swish!

Han Fei didn't have time to react, and the last arrow had already burst out. At this moment, Twisting the void was useless, and the locking technique wouldn't stop shooting at him just because he had run away.

"Vajra Demon Suppression."

At that moment, another golden man rose from the ground.

Amidst the cries of countless people, Han Fei clasped the arrow with both hands and was sent flying more than 300 meters away with the arrow.

The deafening explosion echoed in the raging flames.

“Hiss! That person actually dares to take an arrow bare-handed?”

“Is he crazy, or am I crazy? He’s doomed to lose!”

“What a fierce person. This is too fierce.”

However, at the moment when Han Fei caught the arrows with his bare hands, the strong masters such as Jing’er and Wushang Xue were all shocked.

Others didn’t know, but at that moment, they saw it very clearly.

The golden giant blocked the Dao runes with a palm, and Han Fei’s body was shining with golden light. He held an arrow barehanded, looking extremely domineering.

At that moment, countless sharp vines that looked like chains stabbed Han Fei in the fire.

Han Fei’s lips curled. “Heh! It seems that I underestimated my enemy. However, this is good. Let me realize that there is a limit to the peak of the law enforcer realm.”

Han Fei’s voice echoed in the fire.

Yi Yuchen’s pupils constricted, and he immediately shouted, “Fateful Arrow!”

A large number of vines gathered, and a big bow floated in the air. There was a big void hand holding an arrow, and endless energy poured into the arrow.

Someone shouted, “Retreat! This is the Arrow Annihilation Technique!”

“Roar!”

While these people were crying in shock, they heard a furious roar. From the flames, a huge figure more than 50 meters tall suddenly appeared.

When everyone saw it clearly, they were stunned. “What kind of creature is this?”

Chapter 1175: A King Candidate

Before the battle, Han Fei never thought that he would use the Beast King Technique.

This was not a quick battle, so Han Fei didn’t have to be extremely domineering at the beginning. He didn’t even want to show much strength and still wanted to reserve it.

However, when Yi Yuchen shot out that terrifying arrow, Han Fei knew that he had underestimated his opponent. How could a strong master who had a chance to become a Venerable be so simple?

Furthermore, the other party’s strength was only suppressed to that of an intermediate Explorer, and he was actually a peak-level Explorer.

At this moment, Han Fei activated the Beast King Technique, and his strength surged.

In the Heavenly Palace, Queen Life, who was feeding a spiritual fruit, was briefly stunned and asked in confusion, “The Beast King Technique?”

...

On the battlefield, everyone was dumbfounded by Han Fei's transformation.

Jing'er jumped and exclaimed, "Is this... An ancient beast... Ape?"

Wushang Xue was also astonished. "Beast race? The one that has already disappeared in the river of history?"

Jing'er nodded quickly. "Yes. Could it be that there are still beasts in the Yin-Yang World?"

However, the moment they talked, Han Fei extended his hand and the Embroidery Needle appeared.

Han Fei held the rod with both hands and held it in the air.

"Roar!"

After an extremely domineering roar, Yi Yuchen grunted and vomited a mouthful of blood. Then, everyone saw the illusion of a hundred beasts, trampling the air, galloping and roaring.

Swish!

A huge fire bird with three gorgeous long tails swept across the sky.

Bang! Bang! Bang!

The Monkey King's Three Thousand Sticks were launched.

At that moment, void cracks appeared and then shattered.

In an instant, hundreds of terrifying attacks were launched. They were ferocious. Before the hundred rods arrived, the fire phoenix was shattered.

Although the remaining half of the arrow was shot at Han Fei because it was too fast, the giant ape clenched its hand and squeezed them all. Such a terrifying attack didn't even break the skin of Han Fei who had turned into a big ape.

The hundred beasts roared, and Yi Yuchen vomited blood, half of his strength gone.

"Huff!"

He opened his mouth that was full of sharp teeth and swallowed all the energy around him, including the raging flames. The horror of the War Body was revealed.

The Monkey King's Three Thousand Stick was still beating, and the chains and vines blocking it were shattered one after another.

At that moment, Wushang Xue shouted, "Yi Yuchen, release the power of an advanced Explorer."

The latter perked up and grabbed the air with his five fingers, shooting five sharp arrows without using a long bow.

Bang! Bang! Bang!

The five arrows instantly shattered.

But it bought some time for Yi Yuchen, so that he could launch a series of arrows again.

Swish! Swish! Swish!

Bang! Bang! Bang!

Han Fei grinned in disdain. You want to last longer than the Monkey King's Three Thousand Stings? That's impossible! Is the Three Thousand Layered Waves a joke to you?

Sure enough, after more than 200 arrows, Yi Yuchen found that even with the strength of an advanced Explorer, he couldn't resist Han Fei's continuous outburst.

In battle, all the energy around would be snatched by Han Fei.

Buzz!

Yi Yuchen disappeared, and seven or eight vines cracked, revealing him.

Han Fei clutched the Embroidery Needle with one hand. "Grow, grow... Roar!"

The Hundred Beast Soul Subduing Roar erupted again.

The Embroidery Needle swept across and all the vines exploded. No one could resist it.

Because the battle was too shocking, countless people cast their eyes over.

Many people had never seen such an explosive battle. They didn't expect a person's physique to be so strong, nor had they seen a terrifying creature like a prehistoric giant ape, so their blood was boiling.

Wushang Xue shouted, "Okay, that's it. Yi Yuchen has been defeated."

When Han Fei heard that, he immediately swung his big stick and carried it on his shoulder, his eyes cold and terrifying, as if he was despising the world.

Yi Yuchen walked out of a demonic vine with a smile. "What kind of monster am I fighting?"

Han Fei put the thick Embroidery Needle on the ground, and his body shrank quickly, turning from a big ape into a human. In the end, he even twisted his neck, full of fighting intent.

Wushang Xue was speechless too.

She couldn't help but look at Jing'er who was still excited. She tugged at her clothes and said, "Withdraw that stupid grin. Who is this guy exactly?"

Jing'er replied casually, "Ah, he should be a king candidate from the Yin-Yang World!"

"Pfft!"

Yi Yuchen, who had just finished the battle, vomited a mouthful of blood. Why didn't you f*cking say so earlier? A king candidate? You asked me to suppress my realm to fight him? I was almost killed.

Wushang Xue looked at the carefree Jing'er speechlessly and covered her head with a hand. "...Why didn't you tell us earlier?"

Under countless shocked gazes, Han Fei put a hand on the Embroidery Needle that resembled a huge pillar. The latter shrank with a swish and disappeared into Han Fei's body.

Wushang Xue patted Jing'er's head. "He even has a Sea Quelling Bizarre Treasure. Why didn't you tell me that too?"

Jing'er was stunned. "I-I don't know!"

Wushang Xue: "..."

Han Fei smiled and cupped his hands. "Thank you for going easy on me."

Yi Yuchen felt terrible. "Forget it, alright... You want me to go to the Fearless Barrier to kill a great demon at the peak of the Dao Seeking realm, right? I'll go."

In the distance, cries rang out.

"Wow! This person won!"

"So cool. What kind of creature was that just now?"

"It was horrible. His mouth was so big and his teeth were so sharp."

"His muscles are bulging."

"Ugly but cute."

Han Fei staggered. What the hell is that? Isn't it hideous? Cute?

Wushang Xue looked around, thought for a moment, and said, "Hi's name is Han Fei, from the Yin-Yang World. He will stay in our Water-Wood World for three years."

"Hiss! Yin-Yang World, can the people over there come over?"

"Ah! He's from the Yin-Yang World?"

A large beetle shook its head. "Yin-Yang World, the legendary Yin-Yang World."

A big bird asked curiously, "Are there many beasts in your Yin-Yang World?"

A human asked curiously, "Han Fei, what's the Yin-Yang World like?"

Jing'er finally came back to her senses and said to the crowd, "Don't ask too many questions. We'll find out later! Okay, dismiss."

Han Fei glanced at Jing'er. "How can I get out?"

Jing'er said, "Just communicate with the Grand Void Illusionary Realm with your mind."

A moment later.

When Han Fei opened his eyes, he looked at the big leaf under him in surprise and thought to himself, This Cloud Sea Divine Tree is really unbelievable. It actually created a place comparable to the Ideal Palace.

Suddenly, Jing'er shouted, "Han Fei, why are you still sitting there? Come down!"

Han Fei saw that they were already waiting for him, so he flashed and appeared in front of them.

However, at this moment, the peak-level explorers looked at Han Fei in a different way. This was the first time they had seen a peak-level law enforcer fight an advanced explorer!

However, when they thought that Han Fei was a king candidate, they were finally relieved. If everyone in the Yin-Yang World was like this, then the Yin-Yang World was too terrifying.

Wushang Xue looked at Han Fei with a complicated expression. "Okay, as expected of a king candidate. Come back to the city with me! I'll ask someone to tell you about the current situation in the Water-Wood World."

Jing'er wanted to follow him, but suddenly heard Wushang Xue say, "Aren't you going back to the Heavenly Palace?"

Jing'er was stunned for a moment. "I-I want to stay for dinner before going back. I want to eat fish pie."

Jing'er thought to herself, It's not easy for me to come out. Do you think it's easy for me? Human beings cook so delicious that I'm drooling just thinking about it.

Han Fei asked in surprise, "Huh? Do you eat here too?"

Wushang Xue was stunned. "People from Yin-Yang World don't need to eat?"

Han Fei immediately had an idea. "Ha! No, of course we have to eat. In fact, what I want to say is that compared to my strength, I am also the strongest in one thing. I am said to be the strongest in the Yin-Yang World in that matter."

The corner of everyone's mouth twitched. Are people from the Yin-Yang World all so shameless? I know you are very strong, OK? Why do you still want to show off?

Jing'er asked curiously, "Do you have any special abilities?"

Han Fei held his head high and said proudly, "My culinary skills are unparalleled in the world. I won't cook for ordinary people... However, I have to do it today."

Jing'er's eyes widened. "Really? Is it more delicious than human's fish pie?"

Queen Life, who was in the Heavenly Palace, sighed. Why did she find such a stupid maidservant? She's really stupid. Han Fei hasn't even tasted fish pie, OK?

A short Explorer among the peak-level Explorers was unconvinced. "That's impossible. Our fish pie is unparalleled in the world. All races like to eat it, especially those shameless golden turtles. They always come to freeload."

Han Fei grinned. "Not necessarily."

As he talked, Han Fei took out a box of "crisps" and bit one of them. "To be honest, I've already mastered the Great Dao in culinary skills."

Jing'er hurriedly reached out and grabbed a piece, saying a little disgustedly, "It's so little. It's not enough for me!"

Then she bit into it too.

Suddenly, Wushang Xue and the others found that Jing'er was stunned in place.

Wushang Xue said with a black face, "Do you have to be like this?"

Wushang Xue glanced at the box in Han Fei's hand, suspiciously pinched a piece, and took a bite.

Under the watch of the peak-level Explorers, Wushang Xue glanced at them, stuffed the crisps into her mouth, and grunted. "Let's go back to the city."

Yi Yuchen hadn't left yet. He looked at Jing'er and then at Wushang Xue, thinking, Is it delicious?

Although at their level, they were no longer tempted by external things, it was normal for them to have a feast.

Just as Yi Yuchen was about to reach out and squeeze a piece, he found the box had disappeared.

At some point, Jing'er had already held the box in her arms. "Han Fei, look, I've led the way for you. This is mine. By the way, let's go back to the city quickly! My time is limited. I have to go back after dinner."

Han Fei: "..."

Everyone: "???"

Chapter 1176: A Heavenly Talent Guide

It turned out that there were cities on the Cloud Sea Divine Tree too.

However, this city was completely different from the kind of city Han Fei was familiar with.

It was more like a primitive village than a city.

Even the Venerable, Wushang Xue, had only built a yard on a tree without setting up any arrays.

However, it made sense. No one would be stupid enough to use their perception to see the home of a Venerable. Otherwise, if they were careless, they would risk being slapped to death.

Wushang Xue brought a group of people directly to their courtyard. Along the way, they walked through teleportation arrays.

Han Fei's only feeling was that it was really troublesome to walk on the Cloud Sea Divine Tree. There were teleportation arrays everywhere, and one could easily get the wrong path.

If he took the wrong path and didn't know that he was on the wrong path... He might be in danger of getting lost.

In the Venerable's yard, there was a grill and a big pot cooking.

The enticing aroma made everyone subconsciously swallow.

Jing'er was eating a garlic prawn and looking at Han Fei curiously. "Why are the ingredients you use so cheap but so delicious?"

Han Fei said with a smile, "Every thing in the world has its own uniqueness. As long as we see the nature of things through phenomena, we can discover what's behind them."

Wushang Xue's eyelids twitched, and she held a roasted clam meat in her hand. Hearing Han Fei's words, she was a little surprised. What he said seemed to make sense.

Someone said, "Han Fei, what pot is this? Are you done?"

Han Fei said, "Please wait a moment. There are still some supplementary materials left."

Wushang Xue said helplessly, "It's just a meal. You've already added more than 20 materials."

The corners of Han Fei's mouth curled up. "This is just like cultivating combat skills. There are many technical considerations. The same is true for cooking. At different times, the amount of fire used, the seasonings used, the amount of water used, and the taste produced are all different."

Jing'er nodded quickly and secretly grabbed a skewer of grilled squid from the grill.

A moment later.

When the hot pot was ready, the aroma of food spread in all directions.

However, with a thought from Wushang Xue, the entire yard was sealed, and the intense fragrance couldn't spread out at all.

For the first time, Han Fei discovered that Venerables could be like this.

It was just a hot pot and barbecue. Jing'er didn't care about her image at all.

Han Fei thought to himself, Aren't Venerables supposed to enter the Dao? Why do people who can enter the Dao act like idiots?

As for Wushang Xue and the peak-level explorers, although they were also amazed, they only praised him once from the beginning to the end. Then, although the hot pot was very delicious, they still ate it in small mouthfuls.

Han Fei smiled in his heart. Food could bring people closer. This method seemed simple but was extremely practical.

In a sense, the more delicious the food was, the more the other party would think that you had paid a huge price. To put it bluntly, it should be easy to exchange a meal for a combat skill here.

However, Han Fei was not short of combat skills.

As a newcomer, he just needed to feed them. They would be touched more or less if he kept feeding them. The more he ate, the better it would be for him.

Halfway through the hot pot, Wushang Xue suddenly stopped eating. "After all, it's nothing but food. It's very easy to hinder cultivation. Jing'er, don't come so frequently in future."

“Why?”

Jing'er, whose mouth was full of food, suddenly widened her eyes, thinking, “Why would it hinder cultivation?”

Wushang Xue glanced at Han Fei and said, “Since your purpose here is to transcend the tribulation, don't hang around in the city every day. I'll get someone to take you around and take you to the battlefields. Your strength has reached the peak of the Law Enforcer realm, so you should be making a breakthrough soon. Don't delay.”

Han Fei nodded slightly. “Okay.”

It didn't matter.

However, Venerable Xue's restraint was quite strong. She actually managed to hold herself back the first time she ate hot pot.

Back in the Scattered Stars Prison, even Old Han couldn't hold himself back and asked him to cook for him every day.

Jing'er suddenly said, “I can show him around.”

Wushang Xue glared at Jing'er. “Don't even think about it. Be careful of the queen catching you back.”

Jing'er snorted and secretly transmitted a message to Han Fei, Remember to make more noise. I'll help you.

Han Fei sweated. Are you here to help me? You're here purely for dinner!

However, the method worked again.

Jing'er was a Venerable after all. If she had the help of a Venerable, the trip to Water-Wood World would be smooth. There shouldn't be any problems.

After dinner.

Jing'er still wanted to eat more barbecue. However, suddenly, a pink flower bloomed in front of her.

When the people saw this flower, Wushang Xue gave her a gloating look, and the others looked as if they were trying to hold back their laughter.

Jing'er bowed to the little flower pitifully. “My queen, I'm going back now.”

Han Fei's eyelids twitched. Oh, it's Queen Life?

Han Fei wondered if he should bribe Queen Life with food when he had time. He should definitely get some high-level ingredients. The combat level in the Water-Wood World was even higher than that in the Yin-Yang World. It probably didn't lack legendary creatures here.

Before Jing'er left, she glanced at Han Fei. “Remember to call me when you're transcending the tribulation.”

Han Fei smiled. “Sure.”

As soon as Jing'er left, Wushang Xue immediately said, "Let's disperse! Yi Yuchen, go find someone to familiarize Han Fei with the Water-Wood World, and then go to the Fearless Barrier yourself."

Yi Yuchen smiled helplessly. "Okay, Han Fei, come with me."

When the others left and only Han Fei and Yi Yuchen were left, the latter smiled. "Han Fei, are there still beasts in the Yin-Yang World?"

Han Fei thought to himself, so she is still thinking about that.

He immediately said, "It's difficult to find a beast. I only obtained some inheritance in an ancient secret realm."

Yi Yuchen hummed and suddenly changed the topic. "Well, do you want to make your face look better?"

Han Fei: "???"

Yi Yuchen thought to himself, In terms of potential, I am not as good as you, but you are too ugly! It's really eye-hurting for you to hang around here!

Han Fei shook his head. "Actually, people in the Yin-Yang World think I'm quite handsome."

Yi Yuchen froze and smiled awkwardly. "Oh? Really? I didn't expect it."

After a few steps, he heard Yi Yuchen suddenly shout in a low voice, "Xiaoman, come here."

Yi Yuchen was a Half-Venerable, so he certainly wouldn't go easily to the towns with a large population.

He simply scanned with his perception and found that there were only a few Heavenly Talents in the city who hadn't entered a state of cultivation, so he called the strongest one over.

Swish swish swish!

Han Fei saw a vigorous woman in a green fashionable battle suit shuttling among the branches.

Beside her, an eagle-winged long bow followed, drawing beautiful arcs in the air.

Women were the most appreciated creatures. Their flexibility and perfect curves, coupled with their good looks, were really worthy of appreciation.

However, Han Fei, who had seen too many beauties, was not interested in this at all. He looked calm.

Compared to Queen Life, Jing'er, and Wushang Xue, this girl seemed a little immature.

The girl's face was exquisite. She had some baby fat, but she kept a straight face as if she wanted to look colder, but her cute face couldn't support her cold temperament.

When the woman landed in front of Han Fei and Yi Yuchen, she first bowed. "Nice to meet you, Master Chen."

Then, the woman frowned and looked at Han Fei as if thinking, Why does this person look like this? Has he never received the grace of Queen Life?

However, she was immediately shocked. She stared at the token on Han Fei's waist and took a deep breath. "Messenger Jing's Venerable Token?"

Yi Yuchen said indifferently, "This is an honorable guest from the Yin-Yang World, Han Fei. It can be said that he is the strongest Heavenly Talent among his peers in the Yin-Yang World. I am no match for him in the same realm or even above. From now on, Han Fei will stay in the Water-Wood World for three years, in our Flying Feather Division. Han Fei is here to transcend the tribulation. Before that, you can follow him. By the way, introduce the terrain and battlefield of the Water-Wood World to him and show him around."

"Yin-Yang World, the strongest Heavenly Talent?"

The woman took a deep breath. An existence that even Master Chen didn't think he could defeat? Was he really so strong?

"Yes, Master Chen."

Yi Yuchen patted Han Fei on the shoulder. "Shu Xiaoman is a Heavenly Talent of the Flying Feather Division and is very familiar with the battlefields. She can tell you in detail later! Thanks to you, I have to go to the Fearless Barrier. I hope you haven't left when I come back."

Shu Xiaoman asked in surprise, "The Fearless Barrier?"

Yi Yuchen smiled. "If you lose the fight, you'll be punished."

Shu Xiaoman couldn't help looking at Han Fei who was smiling. Is this person really so strong?

Han Fei grinned. "Maybe we'll meet again someday."

Yi Yuchen nodded slightly, tore a void rift with a finger, and stepped in, leaving Shu Xiaoman and Han Fei behind.

Han Fei smiled. "Hello."

Shu Xiaoman narrowed his eyes. "Did you really beat Master Chen?"

Han Fei smiled. "I used a secret method."

Shu Xiaoman was finally relieved, but her eyes were provocative. "Sir, can I have a fight with you?"

Han Fei was a little surprised. This girl was obviously unconvinced!

Han Fei shrugged. "How?"

Tree Xiao Man said, "To the Grand Void Illusionary Realm! In the Water-Wood World, no matter what the reason is, even if there is a conflict, it will be resolved in the Grand Void Illusionary Realm. On the Cloud Sea Divine Tree, fierce battles are not allowed. This can easily damage the leaves of the Cloud Sea Divine Tree."

Han Fei said, "If it's just a spar, it should be soon."

Shu Xiaoman: "We can't destroy the Cloud Sea Divine Tree, not even the leaves."

Han Fei chuckled. "If there's any damage, consider it my loss."

Shu Xiaoman's eyes were filled with anger.

This person was too arrogant!

Although you have got the Venerable Token, you are only a peak-level law enforcer! I'm also a peak-level law enforcer. Why should I surrender to you? Just because of Master Chen's casual words, I have to follow you? What if I have to follow you for three years?

Shu Xiaoman was immediately angry. "Remember what you said!"

Chapter 1177: How Can A Human Be So Shameless?

Little Shu was very unhappy with Han Fei's contempt.

She flipped over and jumped away. In mid-air, an arrow turned into a rain of arrows, with a hundred streaks of light.

Han Fei smiled. When he was fighting with Yi Yuchen, he could lock onto his enemy with a targeting technique. It was meaningless to rely on speed, but you were different!

Swish swish swish!

Han Fei turned into a phantom and picked the arrows with his bare hands. In an instant, all the arrows shattered! At the moment they exploded, the energy was swallowed by Han Fei before it could escape.

Buzz!

Han Fei disappeared from the spot and appeared beside her before Shu Xiaoman could react.

"When fighting separately, the power is not enough."

Shu Xiaoman was shocked. She turned her body and a blade-like leaf appeared, protecting her body.

However, at the next moment, she was stunned.

Han Fei twisted his body and appeared in the storm of algae, still standing beside her.

Besides, in order to prevent him from destroying the Cloud Sea Divine Tree, a defensive array appeared at some point.

Her blow failed to break the array.

Shu Xiaoman still wanted to use other combat skills, but with a snap of her fingers, countless chains appeared in the void and instantly locked down her range of movement.

In the blink of an eye.

Shu Xiaoman wanted to use the Death Substitution Art to escape. However, as soon as she moved away, a circle of Void Chains wrapped her again. This time, it directly clasped her, giving her no chance to resist.

While Shu Xiaoman was still shocked, Han Fei retracted the Void Chains and said with a casual smile, "Thank you for letting me win."

Shu Xiaoman: "..."

It was the first time that Shu Xiaomang saw such a way of fighting.

Receiving arrows with his bare hands, swallowing energy, instantly condensing arrays, twisting space, and the speed so fast that no one could react in time. How could there be such a person in this world?

Although Shu Xiaoman didn't think she was the strongest among her peers, she was confident that she wasn't weak at all when she used her full strength, or to be exact, she was very strong.

However, when facing Han Fei, she discovered, to her shock, that she didn't even have a chance to exert any strength. How could she fight in that case?

Shu Xiaomang took a deep breath and said solemnly, "I've lost."

Han Fei smiled. "Your reaction speed is already very fast, and your combat awareness is not bad! But if there's a chance, you can increase your strength."

Little Shu pursed her lips helplessly. You are strong, so I'll listen to you.

Shu Xiaoman didn't think it was a big deal. Even Lord Yi Yuchen had lost. Wasn't it normal for her to lose?

She said, "Let's go! I'll take you to the Flying Feather Division first. However, I guess many people are curious... Does everyone in Yin-Yang World look like you?"

Han Fei couldn't have felt worse. He said with a black face, "You are discriminating against us. Let me tell you, in our Yin-Yang World, I'm one of the good-looking ones."

Shu Xiaoman: "..."

Shu Xiaomang tilted her head and said, "Okay! Our Flying Feather Command is on the west side of the Cloud Sea Divine Tree, close to the Ice Domain. The city is about 50,000 kilometers in radius, but the residents live relatively scattered. And there are still eight large units like our Flying Feather Division on the Cloud Sea Divine Tree. These are all the humans in our Water-Wood World, with a population of billions."

Han Fei immediately understood.

That was right. It was impossible for there to be 72 Venerables and only one human Venerable. It seemed that humans were divided into nine units. In this case, there should be nine human Venerables.

However, Shu Xiaomang said, "When Master Yi Yuchen becomes a Venerable, human beings can have one more division. By then, there will be ten units."

Han Fei said in surprise, "Every additional Venerable can create a division?"

Shu Xiaoman nodded. "Of course. The Cloud Sea Divine Tree is very big. Even if we humans have ten divisions, we won't occupy a great space."

Han Fei wondered, "Aren't there other races here?"

Shu Xiaomang said solemnly, "There are the Sky Clan, the demon plant race, and the insect race. But they don't actually occupy a lot of space. For example, the Sky Clan likes to live outside the Cloud Sea Divine Tree. The insect race lives in the tree holes of the Cloud Sea Divine Tree in groups. The demon plants usually live at the bottom of the Cloud Sea Divine Tree. Generally, except for powerful demon plants, ordinary demon plants won't fight... Well, Tree Demons are an exception. Overall, they are scattered."

Han Fei asked in surprise, "What if a war breaks out? How can you quickly gather all the major races?"

Shu Xiaomang looked at Han Fei as if she were looking at a fool. "The Venerables can gather everyone via voice transmission! As long as the Venerable gives the order, we only need to gather in a specific location. Because the creatures of the various races live too scattered, the Cloud Sea Divine Tree has many teleportation arrays, which is to facilitate the gathering of people quickly."

Han Fei nodded.

In conclusion, the Cloud Sea Divine Tree was very large and more than enough to accommodate the various races here. Because they lived very far away from each other, they needed all these teleportation arrays.

As they talked, Han Fei and Shu Xiaomang had already come to the human settlement.

After walking out of the teleportation array, Han Fei immediately saw a large area that looked like a market.

All kinds of shops scattered in a mess. Some were hung on trees, some fell on trunks, and some were in a circle.

Buzz buzz buzz!

Han Fei saw teleportation arrays everywhere on the tree trunks behind him. From time to time, someone appeared from the arrays.

The bustling crowd was endless among the shops.

In addition to humans, there were also Tree Demons. All kinds of things were being sold.

Someone shouted, "Do you want the Ice Silk that I just got from the Ice Domain? If you want to change your bowstring, hurry up."

Someone sat in front of the stall on the ground. "I've just cast a Divine Feather Bow. I want to exchange it for the black dragon bone and dragon tendon."

A large spider web hung in the air.

On the spider web, various spiritual fruits and crystals were hanging, and a big spider was looking at the crowd.

The big spider said, "Don't miss it. These are all good spiritual fruits."

A big beetle with a huge horn was carrying an identical beetle, shouting, “junior law enforcer-level insect molting. If you miss it, you’ll have to wait another 10 years.”

Immediately, someone ran over. “I want it. What do you want?”

The big beetle hummed and said, “I want the Black Tortoise Wondrous Stone, Dragon Essence Grass, and Purple Pole Fruit.”

The person who asked smiled bitterly. “I don’t have Dragon Essence Grass, but I do have the Black Tortoise Wondrous Stone and Purple Pole Fruit.”

The big beetle’s eyes lit up. “Fire Element Grass will also do.”

The man was delighted. “I have this.”

Han Fei looked at this scene blankly, feeling a little incredulous. This was like a human going to an alien society, where creatures of different races lived together in harmony.

Shu Xiaoman said proudly, “Such a large market is only available to human beings. Therefore, countless creatures gather here every day just for shopping.”

In addition to this large market, there were also various kinds of gossip here.

A little treeman said, “Have you heard? Someone from the Yin-Yang World has come. He is extremely powerful and even defeated the human Half-Venerable, Master Yi Yuchen.”

“Are you bragging? How can anyone come from the Yin-Yang World?”

“That’s right. Even if someone comes, how can he defeat Lord Yi Yuchen? Lord Yi Yuchen is going to be a Venerable soon.”

The branch of the little treeman trembled. “I saw it with my own eyes! That person is very ugly.”

Hearing this, Han Fei couldn’t have felt worse. No, we are just from different worlds. Is it necessary?

Han Fei turned his head, only to see that Shu Xiaoman was trying to hold back her laughter, her face red.

“Cough, cough, cough...”

Han Fei coughed and secretly used the power of beast roars. Instantly, many people looked at Han Fei.

“Wow! Is there really someone... Uh... from the Yin-Yang World?”

“Ah! Isn’t that Lord Xiaoman? Why is she with the guy from Yin-Yang World?”

“Shushu, did he really defeat Lord Yi Yuchen?”

A human being was stunned. “So, this is how the people of the Yin-Yang World look?”

A bird circled his head. “I think he looks fine! Don’t all humans look like this?”

Hearing someone talking about his appearance, Han Fei immediately said, “All men in our Yin-Yang World look like this. This is called masculinity. In our Yin-Yang World, there is a story... In ancient

legends, there was a peerless powerhouse of the human race called the Divine Emperor Pangu. The breath he breathed out became the wind and the floating clouds in the four seasons; the sound he made became rumbling thunder; his left eye became the sun shining on the earth; his right eye turned into the moon; his torso became the mountains and rivers, his blood became rivers and seas, his hair became lush flowers and trees, and his sweat became raindrops that moistened everything... This is not the key. The key is that he looks similar to me.”

“Pfft!”

“Cough, cough!”

Bang...

In the Heavenly Palace, the water bottle in the hand of Queen Life fell to the ground. The grilled squid that Jing'er had just brought to the Heavenly Palace was spewed out of her mouth.

Wushang Xue was sitting cross-legged, cultivating. She stumbled and the spiritual energy in her body was messed up, almost blowing up the courtyard.

Shu Xiaoman looked at Han Fei in shock. “Can humans be so shameless?”

The little tree man waved its branches. “Wow, that Divine Emperor Pangu is so powerful.”

A Single-Horned Sky Bull's tentacle whipped him. “Don't listen to him. A strong master like him must have big horns. Only the insect race can be so excellent.”

In an instant, a large group of people, treemen, insects, and birds looked over.

Someone said, “Can I fight him?”

A girl asked, “I know he's bragging, but what's his name? It's the first time I've seen such a person.”

A big bird exclaimed, “Look, he has a Venerable Token!”

“Ah! It's really a Venerable Token. Where did he get it?”

Shu Xiaomang said to Han Fei, “Because you may have to live here for the next three years. So, you'll have to meet the various races sooner or later. Why don't you introduce yourself to them today?”

Han Fei couldn't have felt worse. Was he being watched like a monkey?

Han Fei thought to himself, There are billions of creatures in all these races. If I socialize with them every day, I won't have to do anything!

Immediately, Han Fei said, “No rush. It's fine as long as they know that I'm here.”

Shu Xiaoman nodded. “Okay.”

Then, she said to everyone, “Everyone, Han Fei has a lot of things to do in the Water-Wood World, so he doesn't have much time to talk to you all. You can do whatever you want. We're leaving.”

“Wait a moment, I want to fight him.”

Someone was inviting a battle, but Shu Xiaoyu tilted her head. "Go away. Come to Han Fei when you can beat me."

As they talked, Shu Xiaomang beckoned Han Fei to enter a teleportation array.

After passing through several teleportation arrays in a row, Han Fei found that the surrounding branches were getting thinner and thinner. They must be walking towards the periphery of the Cloud Sea Divine Tree.

At this moment, the two of them were standing on a huge branch that was empty.

Shu Xiaoman: "There have always been legends about the Yin-Yang World in the Water-Wood World. Therefore, when they know that you are from the Yin-Yang World, they will be curious. You don't have to worry about it! But Master Chen said that you are here to transcend the tribulation. Is it urgent?"

Han Fei thought for a moment. The tribulation wasn't to deduce Void Fishing, so there shouldn't be much noise...

Han Fei thought for a moment. "I can do it anytime."

Shu Xiaoman was taken aback. "Ah! You can transcend the tribulation now? Have you prepared everything?"

Chapter 1178: Secrets of the Tribulation

During the four years in the Wind Rain Village, Han Fei had already adapted to his own strength. Although he hadn't cultivated for four years, his level-nine spiritual heritage could naturally absorb spiritual energy and energy, which couldn't be underestimated.

Therefore, Han Fei's transitions to the peak of the Law Enforcer realm were very smooth. As for what he prepared, Han Fei knew that transcending the tribulation was not something extremely difficult to handle. He actually wasn't quite scared of the power of the tribulation.

Han Fei walked the path of invincibility. What Ximen Linglan said before was right. Even heavenly tribulation was an enemy.

Besides, Han Fei planned to make use of the power of this tribulation to break through to the fourth level of the Indestructible Body.

Shu Xiaoman pondered for a moment and said, "In our Water-Wood World, we can't transcend the tribulation on the Cloud Sea Divine Tree, so every tribulation here basically represents a battle. If you transcend the tribulation, I need to find some strong masters to protect you. I can't protect you."

Han Fei said bluntly, "Uh! Well, Jing'er may come."

"Jing'er?"

Shu Xiaoman was stunned for a moment, and then her eyes suddenly widened as she looked at Han Fei in shock. "You mean Messenger Jing?"

Shu Xiaoman was shocked.

Venerable Jing'er was the most special Venerable in the Water-Wood World and was the queen's personal maidservant. If Venerable Jing'er personally protected him, wouldn't it mean that even the queen would pay attention to Han Fei's tribulation?

Han Fei nodded slightly.

If the battle on the Water-Wood World's side was fierce, the sea demons definitely wouldn't sit idle. After all, every tribulation meant that the Water-Wood World had another Explorer.

Although Explorers couldn't compare to Venerables, they weren't as common as cabbages. There wouldn't be people transcending tribulations every day. Even if there were billions of people, how many Explorers could there be?

Even if the Water-Wood World was much stronger, how many people could transcend tribulations in a year?

Based on Han Fei's experience in the City of Justice, it was already impressive that three or five people transcended the tribulation in a year, and that was when resources were crazily supplied.

Normally speaking, there were one or two people transcending tribulations a year, which showed that this city had a deep heritage.

Shu Xiaomang said with a complicated expression, "Then I'm afraid you'll have to wait even longer. I originally thought that if you want to transcend the tribulation, you should choose the Ice Domain, because it's relatively safe there. But if Messenger Jing takes action personally, you might have to consider your transcending place again..."

Han Fei: "???"

Shu Xiaomang said, "You don't know. Although there have been constant battles between the Water-Wood World and the two big royal cities, every time someone transcends a tribulation, the battle of a tribulation is secondary. Do you know that after becoming an Explorer, you need to seek the Great Dao?"

Han Fei nodded. "Of course."

Explorers sought the Great Dao, while becoming a Venerable represented the confirmation of the Great Dao.

As for the Venerable realm, the Water Immortal had once told him that it was a process of continuous repair of the confirmed Great Dao.

Only when one confirmed that his Great Dao was flawless would he become a king. The Great Dao was different from the law-enforcement path. That was a goal to fight for all his life. Once he confirmed it, it would depend on how far he could go on this Dao.

Shu Xiaomang said, "If you're looking for the Great Dao, you can't make it incomplete. It's best if you get rid of all distractions before the tribulation, severing many mortal causes, etc."

Han Fei nodded again.

The reason why Patriarch Thug turned Lin Miaomiao into an undead creature was probably to mend the knot in his heart and help him resolve this kind of obstacle.

Otherwise, why would a Venerable care about the life of an ordinary great fishing master?

Shu Xiaomang continued, "However, here comes another problem. The Sea Clan has billions of creatures, which are much more than the creatures of the other races in the Water-Wood World. Therefore, every time someone from the Water-Wood World transcends a tribulation, the Sea Clan will send many sea demons to transcend the tribulation together and then provoke us. Under such circumstances, if you don't fight because you need to consolidate your cultivation... then, watching countless creatures die because of your tribulation, this will become a big knot in your heart. Therefore, whenever someone transcends the tribulation in the Water-Wood World, there is basically a war. Many people die in these tribulation battles. No one who survived is weak. The Sea Clan also planted a knot in the hearts of our Explorers in this way..."

Han Fei asked in surprise, "Really?"

Shu Xiaomang nodded. "Of course. On the path of cultivation, there are thousands of disasters. What you pursue is the more perfect self and the ultimately pure Great Dao. The Sea Clan certainly won't ignore the tribulations of our human race and other races. Although you can also transcend the tribulations in the Ice Domain, those who usually choose to transcend the tribulations in the Ice Domain aren't too strong. The Sea Clan might not care too much, but they will also pay attention to it. But you are so strong that even Lord Yi Yuchen is no match for you. You shouldn't transcend the tribulations in the Ice Domain."

Han Fei seemed to understand something. No wonder no one had asked him when and where he would transcend the tribulation...

This was f*cking for him to choose!

As a member of the Yin-Yang World, he was a guest here. If he were to transcend the tribulation in the Ice Domain, he would definitely be despised.

And if he transcended the tribulation elsewhere, he might be able to counter the Sea Clan, which would be meaningful.

Han Fei nodded and said casually, "Got it. In that case, let's not be hasty. How difficult are the battlefields in the Water-Wood World?"

Only then did Shu Xiaomang calm down. She stroked her hair and replied solemnly, "There are four battlefields in the Water-Wood World. There is the Cave Sea in the south, which is the most convenient place for the daily trial of the various races. It's the easiest battlefield. There is the Ice Domain in the north, which is not only used as a trial ground, but also where strong masters fight and die. Ice walls are erected in the ice domain, where guardian battles often break out, ranking third."

Han Fei's heart did a flip. It didn't sound simple. A wall guarding one side must have been hit a lot.

Shu Xiaomang continued, "The most heated battle is the Fiery Sea in the west. Although the Sea Clan is in the sea, there are also creatures who can cultivate in places of extreme coldness and extreme heat. There is a saying that they are as irritable as fire, so the battles in the Fiery Sea are the most heated and fierce. But in terms of fighting, the most difficult battlefield is the Dark War Port in the east. There are Venerables guarding there all year round, at least five of them. From time to time, there will be Venerables coming there to patrol. When the battle is fiercest, almost every hundred years, there will be a Venerable dead. Up to today in the Water-Wood World, it is said that as many as a hundred Venerables have died in the dark war ports while less than ten people died on the other battlefields."

Han Fei's eyelids twitched. A hundred dead Venerables?

Han Fei wondered how many Venerables there were in the Thousand Star City.

Sure enough, having a king and not having one were completely different.

From the looks of it, didn't it mean that he had to thank the Heavenly Dao Dharma Eye for watching the Yin-Yang World? Otherwise, if the Yin-Yang World could have a king, it might be a different outcome.

Han Fei couldn't help asking, "Where did Yi Yuchen make the breakthrough?"

Shu Xiaomang frowned slightly, a little unhappy that Han Fei directly called Master Chen's name.

However, thinking that Han Fei was also a strong master, she replied, "The Dark War Port. It's said that he killed three Explorers of the other party in the battle back then."

Han Fei didn't give an answer immediately.

He knew that his Heavenly Tribulation probably wouldn't be weak. As for where to transcend the tribulation, it depended on the situation. He couldn't just listen to what Shu Xiaoman said. He had to go there and take a look.

Han Fei couldn't help but say, "Let's go to the Ice Domain first! Then, go to the Fiery Sea, and finally go to the Dark War Port. What do you think?"

"OK."

Although she really wanted to see Han Fei kill countless sea demons after the tribulation, the Dark War Port was indeed very dangerous. Han Fei was a guest, and his identity shouldn't be simple. Messenger Jing had even given him her Venerable Token.

Unlike Shu Xiaomang, Han Fei instantly understood why Queen Life asked Jing'er to give him the Venerable Token. Heh, was there anything easier to attract the sea clan's attention than this thing?

Once he put on the Venerable Token, everyone in the Sea Clan would look at him. He didn't know if Queen Life was testing him or if she wanted to see his abilities.

Shu Xiaoman: "Shall we go to the Ice Domain now?"

Han Fei said, "My time is limited. I only have three years. Let's go now."

Little Shu was taken aback for a moment. What can you do in merely three years?

As far as she knew, it was already fast enough if one could become an Explorer in three years. If he could even have the time to stabilize his base after the breakthrough, it would be the limit.

However, although it was extremely dangerous to break through to become an Explorer in the Water-Wood World, as long as he didn't die, he would be rescued no matter what. After all, the queen would give him a drop of Life Spring Water.

However, since Han Fei wanted to go, just let him go.

After a while, Han Fei followed Shu Xiaoman and took a few teleportation arrays.

Han Fei couldn't help but ask, "Well, Xiaoman! Can I ask if there is a map of the Cloud Sea Divine Tree? I feel that I'm going to get lost..."

Shu Xiaoman exclaimed, "Oh, I almost forgot that the main routes of the Cloud Sea Divine Tree all have route maps. I forgot to give them to you."

Immediately, she took out a jade slip and handed it to Han Fei.

Han Fei looked at it with his perception and was stunned. There must be hundreds of thousands of teleportation arrays!

Shu Xiaomang said, "This is the main route map, which is available to all races. However, there are always some people who don't like living in groups. Therefore, the teleportation arrays they established aren't listed on the map."

Han Fei searched for a long time. "Then where are we now?"

Shu Xiaomang pointed at the two string of numbers above the teleportation array and said, "We are now in the 396th teleportation array, 1,500 miles high in the north, which can lead to the 1123th teleportation array, eight hundred miles high in the north."

Han Fei was stunned and thought to himself, If you hadn't told me, I would have thought it was a representation of longitude and longitude.

Han Fei glanced at the map and found that he would be able to leave the Cloud Sea Divine Tree after another six teleportation arrays.

Immediately, Han Fei sighed.. "This must be difficult for you."

Chapter 1179: Ice City Wall

After only three teleportation arrays, Han Fei had already found people coming and going.

At first, it wasn't much.

However, the more outward the teleportation array he took, the more people he encountered.

These people... Well, most of these people or creatures were Hidden Fishers. Few Hanging Fishers appeared, and the frequency of law enforcers appearing wasn't very high.

Walking down this main road, Han Fei discovered that in the Cloud Sea Divine Tree, various races were living together. There were all kinds of creatures here, especially the Insect race. Some of them looked exactly the same, so it was difficult to distinguish them.

For example, spiders were insects, so were centipedes, Golden Turtle Beetles and the Big Worms...

Of course, for some reason, there were mostly Golden Turtle Beetles in this place, which were of all shapes and sizes, except that pure gold bugs were very rare. There were also those big worms with all kinds of weird horns on their heads.

The horns on the heads of these big worms were in the shape of spears, pincers, shovels, blades, and half-moon. Han Fei was almost dazzled.

Every human, bird, insect, or tree demon would look at Han Fei in shock when they saw him. Then, they would look at the Venerable Token on his waist.

Han Fei was speechless and said with a black face, "I was forced."

Shu Xiaoman: "???"

Then she saw Han Fei's face begin to change.

In the next moment, Zhang Xuanyu's handsome face appeared on Han Fei's face.

"No~"

After seeing Han Fei's new face, Shu Xiaoman was surprised. "Although you're a bit different from the human beings of our Water-Wood World, this face looks good. So, which of your faces is real? I knew it, human beings can't be so ugly... Uh..."

Seeing that Han Fei was about to go on a rampage, Shu Xiaoman realized something and shut up.

Han Fei snorted and thought to himself, Fortunately, Zhang Xuanyu didn't come to the Water-Wood World. Otherwise, he might have been killed by Wushang Xue in less than three days.

After all, the people from the Water-Wood World were too good-looking.

Knowing that he had said something wrong, Shu Xiaoman couldn't help but say apologetically, "Well, actually your previous face is good too. It's quite fierce... Well, yes, very fierce."

Han Fei rolled his eyes and thought to himself, If you don't know how to compliment others, just shut up.

Han Fei said solemnly, "You will find out how popular a man like me is in the Yin-Yang World. Forget it, you won't understand. I used this face just to avoid trouble and to avoid wasting my time."

Buzz!

When Han Fei walked out of the last teleportation array, he found that the surrounding temperature had plummeted. What he saw was a white glacier, on which there were a large number of ice jars.

Han Fei gasped. "Bone Jar Plain?"

Shu Xiaoman nodded. "Because there is no land on the Cloud Sea Divine Tree, within the range of the Cloud Sea Divine Tree's roots, it becomes the Bone Jar Plain. Of course, some people only have a sign and then hang it somewhere on the Cloud Sea Divine Tree."

Han Fei couldn't help being a little moved. This bone jar was vast and there was no end to it. He didn't know how many there were. It seemed that too many creatures had died in battle!

Shu Xiaoman said, "Actually, it's just a memento. There's only a sign in this bone jar. Sometimes, when the ice jar is broken, it means that this person has obtained the final resting place. Then, new bone jars will be placed on it. This process repeats over and over again."

Han Fei nodded slightly. "Where is the battlefield? Do we still need a teleportation array?"

Shu Xiaoman shook her head. "In the Bone Jar Plain, there are no teleportation arrays. People all fly over to admire the brave heroes who sacrificed themselves. We can fly directly from here."

With that said, Shu Xiaoman was about to take Han Fei to fly to the Bone Jar Icefield, but when he turned his head, he found that Han Fei didn't move. Not only did he not move, but Han Fei also took out a boat.

Shu Xiaoman was surprised and looked at the strangely gorgeous Wind God Boat. "Is this a boat?"

Han Fei patted the boat and said, "Come up. Don't you have any boats in the Water-Wood World?"

Little Tree was a little puzzled. "Yes! But we don't usually use boats, nor have we seen such a boat... And how can a boat sail on the ice?"

Buzz!

The Wind God Boat floated in the air and flew across the sky.

Little Tree immediately exclaimed, "Ah! Boat, how can a boat fly?"

Han Fei frowned slightly. That's not right. Doesn't the Water-Wood World have a Floating Stone? Although the Heavenly Palace is supported by the Cloud Sea Divine Tree, does the Heavenly Palace not need a Floating Stone? Or is the Yin-Yang World the only special one?

Han Fei said, "This is a fishing boat unique to the Yin-Yang World that can fly. My boat is quite ordinary. It can only fly for more than 60,000 kilometers a day."

After taking out the Wind God Boat, Han Fei wondered if the Wind God Boat should be upgraded.

With his current array skills, he could easily make the Wind God Boat's speed reach 80,000 kilometers. If he upgraded the materials and refined the Wind God Boat into a semi-divine weapon, it shouldn't be a problem to double the speed.

Of course, this didn't seem to make any sense.

Even if the Wind God Boat's speed doubled, it was actually not as fast as his flying speed. Besides, he had to refine it into a Divine Weapon first.

After flying hundreds of kilometers, Han Fei looked back at the Cloud Sea Divine Tree. At that time, he was deeply shocked.

Because up to now, he still couldn't see the top or bottom of the Cloud Sea Divine Tree.

As the Wind God Boat rushed forward, one perception after another swept over. There were even law enforcers chasing along, curious about what this thing was.

However, when someone saw the Venerable Token on Han Fei, they immediately shouted in shock, "Venerable Token? Sorry for offending you, Master..."

"Hum..."

A large swarm of Big-Winged Flying Insects chased after the Wind God Boat and exclaimed, "Huh! Did human beings invent a new Divine Weapon? It looks like a ship!"

"Huh? This ship looks so weird."

"Why can a ship fly?"

The swarm of insects rambled on for a long time, and there were even two ladybugs that landed on the Wind God Boat, not paying much attention to Han Fei's Venerable Token.

Once there was one, there was another.

At first, there were two ladybugs, then a Red-Winged Demon Worm, and then a purple White-Haired Sparrow.

Han Fei said, "Hey, hey, hey! Everyone, stop standing on my ship. If you continue to do so, the ship will collapse under your weight."

The big beetle asked, "Human, you look a bit strange."

The bug couldn't tell what was strange about him, but this guy felt a little different.

However, in their eyes, humans all looked the same.

But the bird said, "That's not right! When I came, I heard that someone came from the Yin-Yang World. However, everyone says the person is powerful but a little ugly."

Han Fei's face turned black.

Shu Xiaoman was still trying to hold back her laughter.

Han Fei immediately shouted in a low voice, "Hey, I'm in a hurry. Take your time chatting."

Then, with a swish, the Wind God Boat disappeared.

Shu Xiaoman was about to say something, when Han Fei stopped her. With a swish, the two of them disappeared.

Shu Xiaoman had never seen the Heavenly Void Divine Movement before.

She exclaimed, "So fast! It's at least the speed of an intermediate Explorer!"

Han Fei said, "Is the insect race all talkative?"

Shu Xiaoman nodded. "In a sense, a little bit. The Sky Clan is much better, usually cold and restrained."

As they spoke, the two had already passed the Bone Jar Ice Plain.

At this moment, Han Fei found that on the ice, a large number of humans, insects, tree demons, and giant beak big birds were fighting.

Shu Xiaoman said, "After crossing the Bone Jar Ice Plains, it's the land of the cold winter. This is just an ordinary battlefield, where there are mostly Hanging Fishers and Hidden Fishers. When you become a Law Enforcer, it's usually in the depths of the land of the cold winter."

Han Fei saw that the giant beak rolled its beak on the ice and immediately dug out a hole. Then, a little tree man dug out the thick ice.

Then, a mess of creatures emerged from the holes. There were sea demon plants, sea worms, crabs, and weird fish in the shape of snowballs.

Although they knew that someone was passing by in the sky, they were already used to it and didn't take any precautions. They just thought that an explorer was passing by.

Half an hour later, Han Fei saw a huge wall of ice and snow far away. He knew that this was the Ice City Wall that Shu Xiaoman mentioned.

In his perception, there were large and small battles happening outside the city wall. However, the intensity wasn't high. Most of the battles were between Law Enforcers, and there were no Explorers.

Han Fei asked in surprise, "Is that all you've got?"

Shu Xiaoman: "You can't expect there to be battles every day. Otherwise, the Water-Wood World would have long been wiped out in the war. The strong need time to develop. This is just the two parties' training. Occasionally, there will be a big battle, which is to consume the strength of our Water-Wood World. They intend to slowly devour our strength in this way."

Shua! Shua!

When Han Fei and Shu Xiaoman landed on the city wall, they saw the city wall was thousands of meters thick and looked like a super huge block of ice. On the outside of the city wall, dense arrays were engraved. It could be seen how much effort the Water-Wood World powerhouse had put into this ice wall.

At this moment, many law enforcers were walking on the city wall.

There were also creatures from various races setting up booths here, but there were not many booths.

When Han Fei and Shu Xiaoman arrived, many people scanned them with their perceptions.

However, although Shu Xiaoman was a Heavenly Talent, there were many creatures on the Cloud Sea Divine Tree. It was impossible for everyone to know her, so no one cared about them.

In short, the ice domain, in a sense, was a training ground. Under normal circumstances, few people died here.

Shu Xiaomang pointed outside the ice and snow city wall and said, "Some people will cross the ice and snow city wall and enter the deep sea. To see a real battle of the strong, you can only see it outside. Many special resources can only be obtained in the outer sea."

Han Fei smiled. "Do you dare to go there?"

Shu Xiaoman was briefly stunned. "Within a hundred thousand kilometers, anything beyond this range is unpredictable."

Han Fei thought for a moment. "Why don't you wait for me here while I go out?"

Shu Xiaoman asked in surprise, "Are you in such a hurry? Why don't you feel the battle on the ice wall first?"

Looking at the battle in the distance, Han Fei shook his head slightly. "Too weak. It's meaningless."

Seeing Han Fei licking his lips, for some reason, Shu Xiaoman's heart suddenly skipped a beat. What does this guy want to do?

Chapter 1180: Am I Not Gaining Experience Here?

Different from the people on the Water-Wood World's side, Han Fei had felt that something was wrong when he heard about the four realms of the Water-Wood World.

In the Yin-Yang World, humans were actually the ones who took the initiative. They were usually tough.

For example, when he was on the Scattered Stars Island, there were often battles, led by strong masters.

However, in the Water-Wood World, the Ice Domain was protected by ice city walls, the Dark War Port was protected by the fearless barrier, the Fiery Sea the flame wall, and there seemed to be an endless trench in the Cave Sea.

In this case, in fact, the combat style of the Water-Wood World was focused on defense, as if they were defending a city.

He couldn't say that it was wrong.

In different times and battles, different combat styles had their advantages, but the Water-Wood World had been guarding for countless years, but had it never taken the initiative?

Han Fei couldn't help asking, "Xiaoman, has any strong master in the Water-Wood World ever attacked the Royal City?"

"Huh?"

"Attack the Royal City?"

Shu Xiaoman was dumbfounded. Who would attack the Royal City? Since it was called the Royal City, there must be a Deep Sea Giant Demon guarding it!

Shu Xiaomang shook her head quickly. She had never thought about that before.

Han Fei grinned. Sure enough, if the Yin-Yang World had a king, according to Xue Shenqi's personality and the style of the Thug Academy, they would definitely try it.

They might not be able to kill the other party, but they would definitely have a try.

Besides, since the Ice Domain was only used as a training ground most of the time, wouldn't there be very few battles in the outer sea area? In other words, wouldn't the outer sea area have been robbed?

Han Fei glanced at Forge the Universe.

Over the years, although he had accumulated a lot of resources, he had also used a lot of them. Especially during the reincarnation, he consciously or unconsciously used a lot of resources.

Han Fei immediately focused his eyes. "How far is the Royal City from here?"

Shu Xiaoman was confused and replied blankly, "The Royal City is in the direction of the Dark War Port and the Fiery Sea."

Han Fei almost laughed out loud. He coughed and said, "Xiaoman! As you know, I came to the Yin-Yang World to transcend the tribulation, and to gain more experience. Now that the Ice Domain is here, I can't just take a look at the ice wall and go back, right?"

Shu Xiaomang said, "If it's not too far away, I'll go with you. I've been instructed by Master Chen."

Han Fei waved his hand. "Well... I may have to walk very far, more than 100,000 kilometers."

Little Tree said in surprise, "That's dangerous. There are often great demons at the Dao Seeking realm there."

Han Fei grinned. "Well, in fact, I'm just going to find a great demon at the Dao Seeking Realm. Ordinary peak-level Sea Spirits are no longer enough for me to gain experience. Therefore, I may be in danger. If you stay here, I'll come back quickly. It'll take me five... uh... half a month at most."

"No!"

Shu Xiaomang said firmly, "As long as you go out, I have to follow you. You are not familiar with the Water-Wood World at all, and you want to go out alone for half a month? Besides, you are about to transcend the tribulation. Why do you still need to gain experience?"

"Uh!"

Han Fei was dumbfounded. "I just want to experience it more and experience how it feels to fight a powerful demon in the Dao Seeking realm."

Shu Xiaomang glanced at Han Fei's Venerable Token and took a deep breath. "I'll follow you. Anyway, you have the Venerable Token. If anything goes wrong, you can come quickly."

Han Fei: "..."

Han Fei glanced at his Venerable Token and quickly stuffed it into his pants. He couldn't expose it for the time being, or he would feel that the other party was looking at Venerable Tokens more than him.

Han Fei rolled his eyes. "Okay, you can follow me, but you'll have to listen to my command."

Shu Xiaoman nodded. "I won't participate in your training. Besides, I am not an ordinary peak-level law enforcer. My spiritual beast is an Electric Fish. When I have to run, I can run very fast."

Han Fei was relieved to hear that.

In his opinion, as long as he didn't encounter two advanced or peak-level Explorers at the same time, he could escape.

If he really encountered a peak-level Explorer, he would immediately call Jing'er and then flee at full speed.

Han Fei nodded. "Okay, you said that."

With that, Han Fei leaped into the air and flew out of the sea.

When Han Fei and Shu Xiaoman left the ice city wall, someone was slightly surprised. "You've just come and you're already going out?"

However, most people didn't take it seriously.

As long as he didn't run far, there was no problem. At most, he would attract some Sea Spirit-level sea demons.

Three thousand kilometers away.

Han Fei perceived three Sea Spirit creatures, an ice dragon, and two Half-Mermen following him from a distance.

Shu Xiaoman looked nervous. "Shall we kill them? Otherwise, they will call more people over and try to surround us."

Han Fei responded, "No, fly slowly. Let them follow us for a while and wait for them to initiate an attack."

Shu Xiaoman thought to herself, Who would wait for others to attack him? She didn't know if Han Fei was extremely confident or arrogant.

This was the outer sea, not the ice city wall! If anything happened, no one would immediately come to help him.

Five thousand kilometers away.

Han Fei perceived seven peak-level Sea Spirits. He even heard a Half-Merman's voice, "Shall we do it now?"

The person who was asked said, "Let's not move first. This place is too close to the ice city wall. Besides, the humans who dare to come to the outer sea area are definitely not weak. Call two more people and try to kill them."

Ten thousand kilometers away, Han Fei suddenly said, "They're going to attack us. Follow me down."

With that, Han Fei quickly descended and landed on the ice.

Han Fei broke the ice with a punch and looked around carefully. Seeing that nobody was around, he secretly took out a fishing pole and caught a squid that had just entered the Sea Demon Realm with the hook.

In the distance, a Half-Merman asked in surprise, "What is this guy doing?"

The ice dragon's eyes were cold. "Did he come here just to hunt a sea demon-level squid?"

A Half-Merman shouted, "I can confirm that he's a peak-level law enforcer. Whatever he does, kill him."

Swish! Swish! Swish!

Han Fei casually squeezed the squid to death and stuffed it into Forge the Universe, smiling.

Shu Xiaoman: "How is it? How many in total?"

Han Fei licked the corner of his mouth. "Only nine."

Shu Xiaoman: "..."

Before Shu Xiaoman asked, Han Fei murmured, "Three, two, one..."

Shua!

Suddenly, Shu Xiaoman found that Han Fei was gone.

At the moment Han Fei disappeared, a Half-Merman suddenly shouted, "Not good, this person is so fast. He doesn't look like a peak-level law enforcer. Quickly retreat."

However, within a second after the Half-Merman shouted, suddenly, with a bang, a cold light appeared in the water.

Then, the ice dragon was beheaded.

Buzz!

A big black fish that was the fastest was about to use a secret technique. However, when half of its body turned black, the shadow of a sledgehammer fell, and its head was suddenly torn apart.

"Explorer! He's an Explorer."

The space was twisted, and two Half-Mermen who were escaping were chopped into pieces.

From beginning to end, they didn't even see how Han Fei attacked.

The remaining five Half-Mermen shouted in unison, "Sea King Descends."

Bang! Bang! Bang!

The ice exploded, and in an instant, a huge water man appeared, a Tooth Grinding Shark appeared, and an octopus swept around.

The moment Han Fei took action, Shu Xiaoman had already rushed towards Han Fei.

She thought that Han Fei was strong, but the other party had nine Sea Spirit powerhouses, so she should be able to deal with two.

However, after she just ran a hundred kilometers...

A roar burst out in the void.

In an instant, a hundred beast phantoms charged at the bottom of the sea, and the ice within dozens of kilometers cracked.

Puff, puff, puff!

Seeing the water man collapse, the teeth of the Teeth Grinding Shark were broken.

When she arrived, she saw that Han Fei was holding a total of nine Sea Swallowing Seashells, a pile of Semi-Divine or low-quality Divine weapons, and he was throwing them on the ground like garbage.

Han Fei, on the other hand, was muttering, "They're not rich! The sea demons in the Ice Domain are a bit poor!"

Gulp!

Shu Xiaomu swallowed and looked at Han Fei in shock. She felt as if ten thousand Iron-Headed Fish were raging in her heart. I haven't run away yet, and your battle is already over?

Also, how can you claim to be poor when you're holding nine Sea Swallowing Seashells in your hand?

Han Fei shook his head and rummaged through the Sea Swallowing Seashells in disgust.

After only a minute or so, Han Fei said with a dark expression, "I think that although the sea demons in the Ice Domain are a bit poor, judging from the composition of the resources they have, most of the resources are spiritual fruits and mystic stones. This shows that in the outer waters of the Ice Domain, there are actually many resources."

Shu Xiaoman asked blankly, "Aren't you here to gain experience?"

Shu Xiaomu pointed at the Semi-Divine weapons and low-quality Divine weapons on the ground. These are low-quality Divine weapons anyway! Can you just leave them here?

Han Fei hummed a response and put away the weapons on the ground. He said solemnly, "Am I not training here? I snatched the resources of the Sea Clan to replenish thousands of creatures of other races. That makes sense, doesn't it?"

"But..."

Shu Xiaomang was speechless too. Why does it seem to make sense? But for some reason, she felt that Han Fei's trip this time was more like a robbery.

But something was not right. Shu Xiaomang pointed at the sea demons. "How should we deal with them? Nine Sea Spirit Realm powerhouses have died at the same time. There must be a Dao Seeking-realm sea demon coming to investigate. What should we do now? Shall we return to the ice city wall?"

Han Fei immediately tilted his head and looked at Shu Xiaomang, thinking to himself, Why is this girl so stupid? If I don't want to be discovered, I'll definitely take these sea demons' bodies away. I must have a purpose to leave their bodies here!

Han Fei said, "Don't panic. At such a critical moment, the only thing we should do is to wait."

Little Tree gasped and exclaimed, "Are you really going to wait for a great demon at the Dao Seeking realm?"
