

GOF 1251

### **Chapter 1251: Grand Puppet Technique**

In the face of Han Fei's bargaining, the old turtle said, "Okay, I know you just want resources. You can have the Sun-Moon Shells of Yu Wendao and Gui Sanqing. To be honest, I'm not interested in them, but you should need them more than me."

Han Fei couldn't help but ask, "What are in them?"

The old turtle said, "Two million catties of spiritual spring, as well as a bunch of other messy things. Check it for yourself."

Han Fei's eyes glittered. Two million catties of spiritual spring equaled two billion points of spiritual energy, didn't it? F\*ck, it's really quick to make money now!

Once upon a time, he was worried about a few points of spiritual energy, but now he was talking about hundreds of millions.

Sure enough, he should find strong people as his opponents. These people had a lot of resources.

The old turtle sneered. "When you become a Venerable, you will find that spiritual energy is everywhere in the world. But then you will know why you can't wake up a king even after throwing billions of points of spiritual energy. After all, spiritual energy is something ordinary people use. Once you become a king, it will be a leap in the level of life. You won't understand."

Han Fei chuckled. "I will understand."

Han Fei's heart stirred. It must be the Chaos Energy. It was said that the Immeasurable Fruit he once obtained contained a trace of Chaos Energy.

However, when he transcended the heavenly tribulation, that energy fruit should have been absorbed by him subconsciously. He didn't see any Chaos Energy emerging.

Forget it, I'll ask Queen Life for more later!

Anyway, Queen Life is my junior sister. Isn't it natural for a Senior Brother to ask for things from his junior sister?

Of course, Han Fei was too weak now, so he'd better not disgrace himself. Anyway, the Demon Purification Pot was still eating spiritual energy, but the amount was getting larger and larger.

In the future, he could feed the Demon Purification Pot with whatever advanced energy he wanted. Now, he just needed to feed it spiritual energy.

Han Fei said, "Okay, I can use the Heaven Enlightenment Divine Technique on you. However, should we find a safe and secluded place? Otherwise, if a pillar of light descends from the sky, won't we be exposed?"

The old turtle said, "There's no need to go through so much trouble. That's why I spent so much effort to activate this Turtle Shell Sky Sealing Technique. It requires a price. I used a small half of Yu Wendao's

vitality to forcibly seal this place for three days and three nights, during which what happens here won't be detected by the outside world."

Han Fei's eyelids twitched. "It's so powerful. Can I learn it?"

The old turtle sneered. "The secret technique of the Turtle clan requires special physique. First of all, you need a shell. If you possess a turtle, then I don't mind teaching you."

"Then forget it..."

Han Fei took the two Sun-Moon Shells.

He didn't have a choice. He didn't demand that much, and he didn't need to. The small benefit of two billion was enough to move him.

He really needed to save some resources. Although the Water Immortal said that he only needed to find her body within a hundred years, he didn't even know the future of the Water-Wood World in the coming three years. Who knew what would happen a hundred years later?

Therefore, where was the real body of the Water Immortal? This was something he needed to solve urgently.

However, if he found it, he would probably need a lot of resources to replenish the spiritual energy.

The Heaven Enlightenment Divine Technique was activated again, and Han Fei found that there was no sky-reaching pillar of light anymore. The pillar of light was only a hundred meters high and seemed to shoot out of the void, shining directly on the old turtle.

In his heart, the old turtle said, "This is not light, but Dao runes. Therefore, where it appears can be controlled. As for the skill to control it, it's because of the difference between stepping into the Dao and not stepping into the Dao. If you have stepped into this Dao, how to use the Heaven Enlightenment Divine Technique will be all up to you."

Han Fei saw that Gui Sanqing's body slowly grew taller. There were some strange lines on the turtle shell, but they disappeared soon.

Feeling that he had given the vitality of a hundred years, Han Fei immediately stopped the Heaven Enlightenment Divine Technique.

The old turtle muttered, "Actually, it doesn't matter for you to give more vitality. Anyway, there will be plenty of opportunities for you to hunt Dao Seeking demons in the future. Your vitality will eventually be replenished."

Han Fei said, "Then let's make up for it first."

Han Fei didn't know how many effects the Heaven Enlightenment Divine Technique had.

But he thought that 100 years of vitality wouldn't be much anyway.

After all, it took nearly 2,000 years of vitality for him to wake up the Water Immortal. And he had to rely on the Life Spring Water and billions of points of spiritual energy to do that.

Gui Sanqing said, "As I expected, the Heaven Enlightenment Divine Technique has restored 80% of the foundation of the little turtle. I think that if you're confident that you can remain invincible, you can choose to walk the Dao of the Heavenly Enlightenment. At least, if you choose that Dao, you can definitely become a king. Then you'll be stronger than 99% of the people in this world."

Han Fei curled his lips. "Humph! Cut the crap. Give me the Grand Puppet Technique."

The old turtle took out a jade slip, squeezed it with one hand, and quickly injected spiritual energy into it. After only one second, a technique jade slip was formed, and he threw it to Han Fei.

The old turtle said, "The Grand Puppet Technique is extremely demanding on refining skills. Why do you have to be at least in the Venerable realm to practice this technique? One of the restrictions is the refining. Only when you reach the Venerable realm can you learn anything extremely fast. But when you reach the Sea Establishment realm, you can learn even faster. Of course, your refining skills shouldn't be bad. You should be able to use it."

Han Fei accepted the Grand Puppet Technique and didn't pay much attention to it.

He was thinking about a question: why were there so many puppets in the Heavenly Palace?

Be it the Yin-Yang Heavenly Palace or the Water-Wood Heavenly Palace, they had many puppets. And under the Steps into the Sea, they even specially nurtured puppets. How was it different from refining puppets?

Han Fei spread out his perception, and information popped up in his head.

Grand Puppet Technique (Venerable-Level, Low-Quality)

Introduction: This is a puppet refining technique that can steal the power of nature. Before the creature dies completely, shatter its soul and scatter it in the flesh and blood of the body. With the refining technique and the law as the source, fuse a wisp of your own soul into the body to reforge a spiritless body. After the puppet is refined, the wisp of soul will become an ownerless soul, and after the refining, it will produce telepathy with you.

Deduced Art: "Great Technique of Puppet Nurturing"

Deduction Cost: 1 billion

< Remarks > The puppet needs to be refined before the body decays and the soul completely dissipates.

Han Fei had never seen such a technique before.

It was a Venerable-level, low-quality technique. It could be seen that puppets were actually more difficult to nurture than he had imagined.

Although the Void Lines could control creatures and make them his puppets,

However, it needed the Void Lines to control them all the time. And this Grand Puppet Technique didn't seem to need him to control them at all, only needed a wisp of his soul.

Han Fei certainly wouldn't care about that.

It was just a wisp of a soul. As long as he killed a few enemies, the lost soul could be replenished.

Looking at the 1 billion points of spiritual energy required, as well as the Great Technique of Puppet Nurturing, Han Fei couldn't help being a little curious. What he saw on the Steps into the Sea should be a puppet nurturing technique, right?

Han Fei couldn't help but ask, "Old Yuan, I've heard of puppet techniques, but I've seen a technique that suppresses corpses. Is it also refining corpses?"

The old turtle was feeling his new body. Hearing Han Fei's question, he said, "What you talk about should be a puppet nurturing technique, which is much more advanced than the Grand Puppet Technique. You can only refine unconscious puppets with the Grand Puppet Technique. No matter how powerful this puppet is, it can't be more powerful than his own body. However, a puppet nurturing technique is different. It is to completely shatter the soul in a creature's body and make an ownerless soul appear in his mind. In the end, as long as you are willing, you can develop a puppet in any direction you want. And... someone once nurtured this kind of puppet, then possessed it and directly refined it into his avatar."

"Wow?"

Han Fei exclaimed, "An avatar?"

The old turtle said, "Of course. When you can nurture such puppets to a certain level, they will have consciousness. Even if you are their master, they will resist if you want to possess them. Because at that time, they will be equivalent to an independent creature."

Seeing that Han Fei was deep in thought, the old turtle couldn't help but laugh creepily. "Someone did this because they were too weak. They searched for the most talented people and killed them before they could grow up. Then, they nurtured their bodies and possessed them so as to improve their own strength."

Han Fei smiled. "Shameless."

The old turtle said disdainfully, "What's the big deal of this? If it weren't for the harsh requirements of raising a puppet and the extremely low probability of raising an ultra-quality one, this technique would have been popularized a long time ago."

Han Fei licked the corner of his mouth. It sounded awesome, but he decided not to think about it! Even the old turtle, who liked to brag every day, said that it was difficult. It must not be simple.

As for the puppet under the Steps into the Sea? Forget it, he'd better wait until he became stronger!

Immediately, Han Fei began to study the Grand Puppet Technique.

Even if Yu Wendao was useless in the mouth of the old turtle, he was still half a Half-Venerable. If he refined him into a puppet, he would be invincible in the realm of Explorers.

**Chapter 1252: Debt Again**

Three days later.

Deep in a certain sea, in a trench, there was a black turtle shell here, covering half of the trench.

At this moment, spiritual fire was raging in the trench.

Not only was Han Fei refining a puppet, but he was also doing it in a different way. When he refined Overlord, it was just because of a random idea from Mu Jia'er.

This time, he imagined what would happen if he carved an array on Yu Wendao's body as a tattoo.

The old turtle, with Gui Sanqing's body, standing not far away with his hands behind his back, slightly nodded. "I didn't expect you to be so good at arrays at such a young age. Although this array technique can't give Yu Wendao the combat power of a Venerable, it can increase his strength by 20%."

Han Fei grinned. "I can engrave arrays on your turtle shell too. Do you want me to do it for you?"

The old turtle said disdainfully, "You have no idea how powerful the turtle shell is. The turtle shell is an array in the first place. This array can prevent vitality from leaking and can withstand all techniques. How can a few random arrays be comparable to it?"

Han Fei frowned. Is that true?

He said in disdain, "Doesn't that mean that all creatures with shells are born with arrays?"

The old turtle said leisurely, "You can't say that this is wrong. For example, crabs, do you think their carapace is not an array? Every creature in this world is unique. Their carapace has infinite effects and has grown like this through the accumulation of countless years. Who knows if there is any array in it?"

Hearing what the old turtle said, Han Fei, who was carving arrays, was taken aback. What the old turtle said seemed to make sense. He couldn't help but think of the beautiful golden-ratio lines on the parakeet that Li Luoluo dug out in the Ideal Palace.

After about an hour, a new Yu Wendao appeared. However, it was different from the previous Yu Wendao who pretended to be a sage.

Instead, it was a bald guy with tattoos all over his body. Han Fei had even engraved arrays on his forehead.

The old turtle said, "You're too particular about balance. There are too many defensive arrays and spirit gathering arrays, but too few speed ones. However, this concealment array is not bad. Of course, it's ineffective against Venerables, but it's still effective on the Dao Seeking realm."

Han Fei said indifferently, "A puppet needs to be comprehensive. How can I count on it to deal with a Half-Venerable powerhouse? Once I lose the ability of thinking, even if I split a wisp of my soul, compared to a Half-Venerable powerhouse, my reaction should not be fast enough. Therefore, its purpose is only to deal with creatures below the peak of the Dao Seeking realm."

Buzz ~ Buzz ~

Suddenly, the black shell phantom above Han Fei's head began to fade.

The old turtle said, "The effect of the Turtle Shell Sky Sealing Technique is limited. Someone will find this place soon, right?"

As an Emperor-level powerhouse, he certainly could think of the existence of the Venerable Token. Now it was up to Han Fei to explain.

Han Fei said, "Don't mind it too much."

Then, Han Fei secretly activated the Venerable Token. Instantly, a voice sounded in Han Fei's mind, "Stay where you are."

More than an hour later.

Han Fei wondered, "Why do they come so slow?"

The old turtle said, "It's not that they're slow, but that they have to arrive here without being detected."

Sure enough, after waiting for another half an hour, Han Fei suddenly found that a large amount of vine grass appeared in the trench. As the vine grass increased, a red flower bud grew out.

When the flower bud bloomed, Han Fei saw Jing'er walk out of it.

Jing'er immediately looked at the old turtle. After all, at her level, she knew that the old turtle was not a puppet but a real sea demon.

But Jing'er didn't pay much attention. The old turtle seemed to have known that she was coming, so she frowned. "Why did you come to this damn place? It's not close to Water-Wood World at all."

After complaining for a while, Jing'er looked at the old turtle and asked, "Who is this?"

Han Fei said, "This is Gu Sanqing. He has already been instigated to defect by me. Now he follows me."

The old turtle rolled his eyes, put his hands behind his back, and thought to himself, I follow you? If it weren't for you, how could I have ended up like this?

Considering that Han Fei's identity was different and his methods were complicated, Jing'er didn't think too much about it. She simply pushed and a soundproof array appeared, blocking the old turtle outside.

The first thing Jing'er said was, "Tell me who your junior sister is first."

Han Fei blinked. "Don't you know?"

Looking at Jing'er's curious eyes, Han Fei knew that something must have happened. He said leisurely, "Well... I can't tell you."

Jing'er took a deep look at Han Fei. "Really? The queen said the same as you. What are you up to? You've only met the queen once, and I heard everything you two talked about."

Han Fei smiled casually. "This is a secret. However, I think you will know it in the near future."

Jing'er grunted for a few seconds before giving up asking. Then, she put on a serious expression. "It turns out that you can really become a sea demon. I don't know how you do it. Did you cultivate some special technique to have the ability to become a sea demon? Can you change back?"

Han Fei grinned and his body quickly changed. The Deceit Technique changed his realm and strength.

At this moment, Han Fei became a junior Sea Spirit. "Can you tell?"

Jing'er frowned. "It seems... I can't tell that this technique has completely hidden your true strength."

Han Fei said with a smile, "It's not enough. My appearance, strength, and aura can all be changed, but my law enforcement ability can't be changed, nor can my combat skills. It's easy to solve combat skills, but the key is the law enforcement ability... This Fish Dragon King's law enforcement ability is Near at Hand Technique."

While talking, Han Fei looked at Jing'er with a smile, and Jing'er bared her teeth slightly.

Jing'er glared at Han Fei. "So, you're coveting my Near at Hand Technique? But this does require the ability of space comprehension."

Han Fei frowned and said, "I can't learn it?"

In his heart, the old turtle said, "Not necessarily. As long as this little girl is willing, she can still teach you."

Han Fei asked, "Do you know it too?"

The old turtle said, "Of course. But I can't teach you. You'll master it after you reach the king level. This is because space is right there. As a king, you can see through such a shallow power at a glance."

Han Fei: "Why didn't you tell me earlier?"

The old turtle said, "If you want to go to the Royal City, of course I'll tell you, or you'll be exposed. But are you sure you want to go to the Royal City with your current strength? You know, there is a king there. Once you're exposed, we'll be doomed."

Han Fei immediately understood what the old turtle meant. This was probably why he didn't tell him before. However, he wasn't a fool. Even if he really went to such a dangerous place, he definitely had to be absolutely sure.

Jing'er pouted. "That's a bargain. What else? The queen asked where you would be in the future and how to contact you."

Han Fei licked the corner of his mouth and said, "Don't worry about me for the time being. I'm going to find a place. Did the queen give you any hint?"

Jing'er said suspiciously again, "I really wonder if you have secretly met the queen."

With that said, Jing'er threw a fish skin map to Han Fei and said, "The queen gave it to you. These are all the forbidden places in the Water-Wood World. You know how precious this sea map is, right? The queen said that if she gave you this map, you would owe him another 100 Dao Seeking powerhouses and 10 Venerables."

"Pfft!"

Han Fei couldn't help but exclaim, "That's a robbery!"

Han Fei couldn't have felt worse. I'm only a junior Explorer! Do you think it's easy for me?

Seeing Han Fei standing there dumbfounded, Jing'er snorted and said, "Don't be ignorant. Do you know how long the queen has been drawing this map? Tens of thousands of years!"

Jing'er said excitedly, "How difficult it is for the queen! She can't go to sea and is restrained by the two big Royal Cities. Do you know how the secret places, forbidden places, and forbidden areas on this map were discovered? Those places are all explored by people. For this reason, more than 10 Venerables have died in Water-Wood World!"

Han Fei couldn't help but feel refreshed. Had Queen Life been searching for the Water Immortal for more than ten thousand years?

He immediately opened the sea chart and took a look. Immediately, a vast sea chart appeared. Han Fei's pupils were constricted. This map has included the boundaries that the Water-Wood World could reach?

The words "8,200,000 miles" were written on it. It was the distance between the north and south of the Water-Wood World. Along the way, there were thousands of points marked out.

It was needless to say that every point here was probably a secret realm, and this was only a small part of the sea. And in the eyes of a king, there might be many ordinary secret realms that she didn't necessarily go to record.

8,200,000 kilometers to the side, there were the words "Turbulent Sea" written there.

Han Fei couldn't help looking at Jing'er. "Jing'er, what is the Turbulent Sea?"

Jing'er said, "I knew you would ask. The so-called Turbulent Sea can also be understood as the turbulent sea area or the Wall of Death, a manifestation of the Infinite Ocean. However, its range is not very large. It's usually hundreds of thousands of miles. It's said that it's created by the kings for the purpose of severing the sea into 36 pieces. Even Venerables are very likely to die if they enter."

Han Fei asked in surprise, "Why? Isn't it good to interconnect?"

Jing'er looked at Han Fei as if he were an idiot. "Are you an idiot? Different Heavenly Palaces have different ways of defending against enemies. If they interconnect, will the Sea Demon Royal Cities also interconnect? Then it will be a mess. What if multiple royal cities join forces to attack a single domain?"

Han Fei frowned. That did make sense.

However, the kings had joined forces to create a place that even a Venerable might die in. How dangerous was that place? Was the Infinite Ocean so dangerous?

Seeming to see through Han Fei's thoughts, Jing'er said, "In a sense, this turbulent sea is more dangerous than the Infinite Ocean. The Infinite Ocean is big and distant, yet this turbulent sea is short and dangerous.. They're different."

### **Chapter 1253: Arrangement Before Leaving**

Han Fei finally understood why the Water-Wood World was right next to the Yin-Yang World, but no one could come here.

Therefore, the Infinite Ocean that he and almost everyone in the Yin-Yang World had thought of was actually not the real Infinite Ocean at all, but the sea area that was used to separate the Thirty-Six Mystic Worlds by powerhouses.

He was a little surprised. Who the hell had the ability to seal a place that was tens of millions of kilometers long. But that guy did it indeed. This was a fact!

However, Han Fei asked curiously, "What about the sky? Can you fly?"

Jing'er said, "Why do you have so many questions? I don't know! I haven't been in it before. The queen said that the Wall of Death is terrifying. Who dares to go there?"

Han Fei continued to study the map and asked, "Have you never been to the red spots on the map?"

Han Fei found that the area of this map was too big, but in fact, there were not many marked areas. For example, when he went to the level-three fishery, there were thousands of marked secret realms on Old Bai's map. However, what was really worth exploring was only a few.

There were actually only about 30,000 markers in the vast area of the Water-Wood Heavenly Sea Painting, which were divided into three colors. The areas near the Cloud Sea Divine Tree were mostly green, and this range was about 500,000 kilometers.

The rest were red and black.

Among them, most of them were red, taking up almost 90%, and only 10% of them were black. Even so, the black spots were as many as more than 2,000.

However, among the more than 2,000 black spots, 80% of them had a green mark.

Jing'er said, "The green means that it has already been explored. The red signs indicate that they know that there are secret realms or special places, but they can't verify if these places have been explored by sea demons or not. However, the places marked in red shouldn't have high exploring value. Usually, it's at the level of Sea Spirit. Occasionally, there are some at the level of Explorers, but not many."

Han Fei's eyes flashed. "So, the black ones are the most important?"

Jing'er said, "Black is the most dangerous. Similarly, among these black marks, those with green marks have been explored by our Water-Wood World. As for the rest, we only know of them, but haven't had the time to explore them. Among them, especially around the Blood Sea Divine Wood City and the White Shell Royal City, there must be a large number of unexplored secret realms."

Han Fei was speechless. "Huh... So, what do you mean? I'm going?"

Han Fei looked at the black secret realm that only had 400 or so left. They were mainly distributed around the westmost Blood Sea Divine Wood City and the eastmost White Shell Royal City.

Both of these cities had one characteristic, which was that they were very close to the turbulent sea. According to the standards on the sea chart, the distance between them was probably only five or six hundred thousand miles.

What did it mean? It was probably the distance between the Ice City Wall of the Good Water-Wood World and the Ice God Canyon.

In fact, this distance was not far, so the Ice God Strait was listed as the front line battlefield.

In other words, if he wanted to go to the White Shell Royal City, with the location of the Cloud Sea Divine Tree, he had to cross almost 5 million miles of sea to reach it.

And on this road, Han Fei saw unexplored black spots... Within the million miles around the Cloud Sea Divine Tree and the White Shell Royal City respectively. Han Fei counted, there were 101 black spots.

Of course, Han Fei only counted the black spots, but he didn't count the red spots because there were too many of them.

In the past, Han Fei felt that a secret realm was equivalent to a treasure. If there was such a sea map in the Yin-Yang World, he would probably take Zhang Xuanyu and the others to explore the secret realms one by one.

Unfortunately, Han Fei didn't have the time now. Even if he could explore a secret realm a day, he didn't seem to be able to explore them all.

Han Fei couldn't help taking a breath. His Junior Sister, Queen Life, had thrown a super big trouble to him! Considering the time Queen Life spent in the Water-Wood World, it was impossible for her unable to find a person.

If even she couldn't find the Water Immortal, there was a high chance that the place where the Water Immortal was hiding was somewhere in the two royal cities.

Han Fei felt a chill down his spine. So, not only did he have to go to the royal cities, but he also had to investigate special secret realms in them.

He might even have to find a way to sneak into the Blood Sea Divine Wood City. However...

When Han Fei thought of the Blood Sea Divine Wood City, he heard Jing'er blink her eyes and say, "Since you have become a sea demon, can you become a woman?"

Han Fei: "..."

Han Fei said with a black face, "No, I won't do that. Don't even think about it."

"Huh! It seems that you have this ability?"

Han Fei shook his head quickly. "I don't. Don't slander me. I can't transform into a Blood Demon, nor can I transform into a Millennium Snapper."

Jing'er said in surprise, "You know what I want to say. Sure enough, you must have secretly met the queen."

Han Fei rolled his eyes. "Cut the crap. Can the queen come to see me?"

Seeing that Jing'er was still staring at him, Han Fei waved his hand and said, "It's impossible for me to turn into a woman. I'll never do that in this life. Even if I turn into a fox, it'll be a male fox. Forget it... I feel that I have a lot of stress right now, and my work intensity is a bit high..."

Seeing that Han Fei was already talking nonsense, Jing'er was speechless. Fox? Work intensity?

Jing'er said, "Alright, although I don't know what tacit understanding you have with the queen, the queen has really paid a lot this time. This time, she can only give you three drops of Life Spring Water, which is already the limit. She can't give you more."

Han Fei's face couldn't help but change slightly. He knew that in the past few days, Queen Life had given him 43 drops of Life Spring Water, which was the reserve of a hundred years of a Sea Creation Realm powerhouse. Although she claimed that he owed a lot of sea demons to her, it showed that the queen had really paid a huge price.

Han Fei could roughly guess that every time the Thousand Mountain Ancient Realm opened, there would probably be people carrying Life Spring Water in. And those Life Spring Water wouldn't be much, probably only enough to extend the life of the Water Immortal.

The Water Immortal had clearly expressed that if she wanted to abandon her Great Dao and re-cultivate, she had to abandon her original body and start from the Spirit Awakening Realm step by step.

Of course, this was all Han Fei's own guess. He hadn't re-cultivated and didn't have this experience.

Jing'er extended her hand, and the three drops of Life Spring Water exuded rich vitality, which really made him want to swallow them.

As long as Han Fei swallowed a drop now, he could immediately replenish his vitality and return to his peak state. However, the Life Spring Water should not be used at this time.

Han Fei waved his hand and put away the Life Spring Water. Then, he said, "Near at Hand Technique."

Jing'er pouted, sighed, and handed a jade slip to Han Fei. "You people from the Yin-Yang World are really troublemakers. You've only been in the Water-Wood World for a few days, but it's already in chaos. The Sea Ice Domain, the Fiery Sea, and the Dark War Port have all been messed up by you."

Han Fei couldn't help but say, "But there's one more human Venerable."

Jing'er said, "Yi Yuchen is going to enter the Dao anyway. He will do it whether you come or not, and it won't cause such a large-scale battle."

Han Fei said with a smile, "Come on, it's better to have changes than to be stagnant. You've almost forgotten your ambition."

With that, Han Fei said, "Okay! Do me a favor."

Jing'er couldn't help but feel terrible. "What favor?"

With a flash between Han Fei's eyebrows, Nine Tails, Little Fatty, and Little Gold were thrown out by him.

Jing'er was slightly surprised. "You have three contractual spiritual beasts?"

Han Fei said carelessly, "It's nothing to be surprised at. It's not a special case."

With that, Han Fei stepped on Nine Tails's claws and said, "Help me throw him into the Cave Sea to gain experience."

Then, Han Fei pointed at Little Fatty and said, "The Dark Water of the Dark War Port is very suitable for this guy."

Then Han Fei patted Little Gold's head. "I don't know where to throw this guy. Help me throw him to the Sky Clan for training."

Little Fatty glanced at Han Fei. "Where are you going?"

Jing'er couldn't help being curious. This big octopus looked so strange and spoke quite coldly to his master.

Han Fei scoffed. "I won't take you wherever I go. You are too weak now."

Little Fatty couldn't help but ask, "Are you sure? If you don't take me with you, I'm afraid you will kill yourself."

Han Fei: "..."

Han Fei immediately said angrily, "How can you say that? Do you think I'm stupid? Your master is going to be a king... Forget it, you'd better come with me!"

Han Fei thought for a moment. It seemed that this trip was indeed dangerous. If he went to the White Shell Royal City, he would have to move under the King's watch. Without Little Fatty, he would be in danger.

Immediately, Han Fei's glabella flashed again, and the licking dog appeared.

"Meow..."

Bang!

Han Fei kicked him and pointed at the licking dog's nose. "If you meow again, believe it or not, I'll cut your balls!"

Swish!

The licking dog dashed far away. Why? Is Master in a bad mood today?

Han Fei couldn't help sighing at the coward. "Take him away. You can throw him wherever you want."

Jing'er exclaimed, "Why is there a fourth contractual spiritual beast? Is this... a beast?"

The corner of Han Fei's mouth twitched. Seeing the licking dog hiding beside Nine Tails, he said helplessly, "Sort of! I don't have the time to take care of him."

In the end, Han Fei took out a Sun-Moon Shell with one hand. “Well, there are a million catties of Spirit Awakening Fluid here. You can ask... Uh, you can ask anyone to feed them a few mouthfuls from time to time.”

“Master, I can keep it for you.”

The licking dog spoke and stared at the Sun-Moon Shell in Han Fei’s hand.

Han Fei said, “Shut up. Every contractual spiritual beast needs to grow up. It’s up to you how far you can go. If I find out that any of you are lazy, slacking off, refusing to go to sea or fight... when I come back, I will personally train you.”

Swish!

Nine Tails and the licking dog jumped behind Jing’er. They could feel how powerful Jing’er was. They thought to themselves, This guy is a strong master after all. Master probably won’t kick them if they hide here.

The licking dog sniffed. This person smelled so good!

“Lick, lick...”

Jing’er had never been licked by a dog. When she saw the big tongue rubbing against her leg, she immediately kicked the licking dog into the bottom of the sea.

Bang!

The soil on the seafloor was stirred up and a big pit appeared. Nine Tails was so scared that it hurried to slip away. Why is this guy even more ferocious than Master?

Han Fei covered his face. How did I create such a thing?

Jing’er said, “Okay! Although you have a lot of contractual spiritual beasts, their strength is too weak, although their quality is good. It’s the right choice to have them gain experience by themselves. A contractual spiritual beast without experience can never really grow up. Anything else? If not, I’m leaving...”

Han Fei nodded solemnly. “Okay!”

## **Chapter 1254: Return to the Ice God Canyon**

When the red flower bloomed again, Jing’er left with Nine Tails and the others.

The licking dog and Nine Tails suddenly became comrades and they seemed to feel it was good to leave their master. Little Gold, on the other hand, was quite reluctant to part with Han Fei.

Han Fei was a little sad, but he knew that these were all legend creatures. Since they had the ability, they should have the strength of legends. Punishing Saber and the others were all top powerhouses.

Although he hadn’t fought Punishing Saber and the others, Han Fei had seen Punishing Saber and Water Luster cooperate in combat. The two of them could cooperate to kill an Explorer who had just entered

the intermediate level. How terrifying was this strength? If the four of them attacked together, Han Fei felt that even he would be in danger.

With a thought from Han Fei, the illusion of mountains and rivers appeared.

Punishing Saber and the other four appeared, or they shouldn't be called humans. They were one saber, one fire, one pangolin, one treeman, and one ice bird.

Han Fei thought for a moment and threw out two Sun-Moon Shells. "The Spirit Awakening Fluid should be useless for you now. There are a million catties of spiritual spring here. Throw it into the painting... I'll give you five thousand spiritual fruits. You can split them evenly. Don't mind. I only have two thousand left."

Fire Seed said, "Master, we can fight for you. Now that Master's strength has reached the Explorer realm, so has ours, we can already appear. Anyway, we can absorb spiritual energy and energy by ourselves. It's not a big problem."

Han Fei said, "Not yet. I'm in danger now. I won't call you out unless I have to. I'll give you some resources periodically to help you grow. Or, under certain special circumstances, I'll call you out to gain experience, but you can't stay outside."

Tree Spirit nodded. "Yes, Master."

Recalling Punishing Saber and the others into the Sea Quelling Painting, Han Fei knew that Tree Spirit and the others were one of his trump cards. The combined combat power of the five of them was definitely not weak. Perhaps they might not be able to defeat peak-level Dao Seeking powerhouses, but if the five of them joined forces to fight advanced Dao-Seeking sea demons, they would probably win.

Besides, he had to be very careful in the sea demons' backyard.

Otherwise, if he, the old turtle and the seven Dao Seeking realm creatures traveled together, it would be difficult for others not to notice them.

The old turtle, who had witnessed the whole process, was actually shocked. He couldn't imagine how lucky Han Fei was to be able to get so many treasure followers in that desolate place.

He had two Sea Quelling Bizarre Treasures.

And the drop of Infinity Water, which even he hadn't seen before. After all, he wasn't omnipotent. However, that drop of water seemed to be omnipotent and its practicality far exceeded that of ordinary Sea Quelling Bizarre Treasures.

Even a special creature like the Nine Death Soul Splitting Octopus could recognize him as its master. And the other three pets must be legend creatures.

Besides, although he had seen Punishing Saber and the others come out many times, it was the second time he saw them all come out. The first time was during the tribulation. And from their conversation, the old turtle discovered that Han Fei probably had one more Sea Quelling Bizarre Treasure, a space weapon that sealed a space for living creatures to live.

The old turtle wondered, Could it be the Star Shell? But it didn't seem to be a storage space... Anyway, the old turtle was sure that Han Fei had at least something comparable to a Sea Quelling Bizarre Treasure.

The old turtle was speechless. Han Fei actually had four weapons of the quality of Sea Quelling Bizarre Treasures when he was still an Explorer. That... really shocked him.

Besides, these were not the strongest ones. The most powerful thing on Han Fei was still the little calabash, which was at least a God-level weapon.

At this moment, the old turtle felt tired. This guy's luck was really good. When he was at the same level as Han Fei, he was so poor.

However, it was precisely because of this that the old turtle fell into deep thought. Even in this damn place, Han Fei could have so many fortuitous incidents. If he went to a bigger world, what would happen to him?

Han Fei had arranged everything and gave most of his resources to Punishing Saber and the others. After all, they were equivalent to five Explorers. If they didn't give enough resources, they probably wouldn't have enough.

As for him, he kept a small half of it, which should be enough for him.

As the old turtle said, most resources were useless to him now. What he needed was the kind of resources that were rarer, more advanced, and could clearly increase his strength.

Han Fei looked back at the old turtle. "Old Yuan, you are the only one who knows all my secrets. Swear that you, Emperor Yuan, will not leak any of my secrets, whether by speaking or by writing."

The old turtle's face darkened. "Do you want to attack me?"

With a thought from Han Fei, Yu Wendao, who had been refined into a puppet, appeared and stared at the old turtle.

Han Fei said, "Old Yuan, we're old acquaintances anyway. There's still a long way to go in the future. You have part of your soul free now. Don't make us fall out over such a trivial matter."

The old turtle couldn't have felt worse. He knew that Han Fei was extremely selfish. I taught you so much and gave you so many resources.

In the end, you suspected me...

The old turtle looked at Yu Wendao. He knew that a puppet was nothing at all, but the problem was that Han Fei had too many trump cards.

For example, the five guys just now were the real Five Legends. With their heritage and cooperative strength, their strength couldn't be underestimated, let alone Han Fei, the biggest monster.

If he didn't obey, most of his soul definitely wouldn't have a chance to escape. Even if this body could escape, it would definitely be seriously injured. At that time, it would take him at least a thousand years to become a king again.

Having no choice, the old turtle sighed. "You are truly ruthless."

Han Fei grinned and said, "Hey! I, Han Fei, am approachable and serve the people. I do good things without leaving a name. Everyone who knows me praises me..."

The old turtle: "..."

Han Fei was relieved to see the old turtle swearing to this Great Dao. He put away Yu Wendao and said with a smile, "That's it! From now on, we can be allies. It shouldn't be a problem for us to dominate the entire White Shell Royal City."

The old turtle shook his head slightly. "Okay, Yu Wendao is dead, but he used the excuse of going out to cultivate, so if he doesn't come back in the short term, no one will find out. Although you also said you were going out to cultivate, you are an influential figure in this trip to the Thousand Mountain Ancient Realm. Someone will definitely pay attention to your whereabouts. You have to show up."

Han Fei nodded. "No rush. I have to go back to the Ice God Canyon!"

"Huh?"

The old turtle couldn't help but ask in surprise, "Why are you going back to the Ice God Canyon now?"

The corners of Han Fei's mouth curled up. "The dragon energy in my body is boiling, and I'm in dire need of the power of soul freezing in the Ice God Canyon to suppress my blood and Qi."

The old turtle: "..."

...

Ice God Canyon.

At this moment, the SeaHorse Venerable was questioning Yu Cailing and Lan Cai'er. Without the Fish Dragon King here, he could only ask these two people.

As for the others, well, they didn't even know what had happened.

The Sea Horse Venerable said, "You two are the subordinates of the Fish Dragon King, but you went out of the Thousand Mountain Ancient Realm alone without his permission. Except for the initial phase, you don't know anything about the Ancient Realm. What kind of a 'subordinate' are you?"

Lan Xue'er lowered her head, and Yu Cailing pursed her lips. "Master Venerable, when the Dragon King came back, he only brought Master Sanqing with him. He left in a hurry and didn't inform us at all."

Narrowing his eyes, the Sea Horse Venerable said, "Yu Cailing, you've been to the Royal City once. Tell me what you think of the things in the Thousand Mountain Ancient Realm. The Fish Dragon King was on a killing spree in the end. It's said that he killed more than a hundred people with his arrays. Is that true?"

Yu Cailing said, "Master Venerable, we don't know much about that, but we heard from the Blood Demon that it's true. However, at the exit of the Ancient Realm, Master Dragon King intercepted more than 500 people alone. I remember it vividly."

The Sea Horse Venerable pondered for a long time. Was the Fish Dragon King capable of fighting five hundred alone? Was he not bragging?

He had experienced the realm of a Sea Spirit too. Although he wasn't the best, he was still a top genius.

But 1v500? Humph, even 1v50 was impossible. The scene where the Fish Dragon King rushed at the 500 Blood Demons alone seemed a bit strange.

He had asked them to retreat first, but halfway through, the Fish Dragon King disappeared. The three Venerables searched but didn't find him, which was strange.

At this time, the Sea Horse Venerable shouted in a low voice, "Send someone out to find him. A living person can't disappear without a trace."

Right when Yu Cailing was about to leave, someone suddenly said, "Master Venerable, the Fish Dragon King and Gui Sanqing are back. They've passed the Ice Mountain City and are coming to the Ice God Canyon."

The Sea Horse Venerable was taken aback. "Oh? They're back?"

About half a day passed.

On the way to the Ice God Canyon, Han Fei muttered, "The Near at Hand Technique is interesting. It's actually a space folding technique. It's really magical."

The old turtle smiled foolishly. "This is nothing. When you become a real king, if you take the Great Dao of space, you can cross millions of miles with one step. And there are some who are good at Void Teleportation. They can cross the entire sea area in the blink of an eye."

Han Fei asked in surprise, "So quick?"

The old turtle said disdainfully, "The speed of travel is different from the speed of actual combat. However, these are all about Great Dao. You can't understand it now."

Han Fei: "..."

## **Chapter 1255: Explore the Abyss**

Han Fei returned to the Ice God Canyon. The moment he stepped into the Ice God Canyon, many perceptions immediately scanned over.

As soon as they entered the canyon, the Seahorse Venerable had already said, "Come to the arena."

Han Fei knew that it was a Venerable's voice transmission. He swam forward and saw many people watching at the entrances of their caves.

Most of these people were peak-level Sea Spirits, and most of them were not qualified to go to the Thousand Mountain Ancient Realm because they were not strong enough.

However, in private, the comments about Han Fei in the past few days had already spread. There were even comments that he could beat a thousand alone.

Someone said via voice transmission, "Are powerhouses from the Royal City so powerful? I heard that he defeated all the top Heavenly Talents of the Blood Sea Divine Wood City alone?"

Someone who saw Han Fei carrying Huo'er out of the Thousand Mountain Ancient Realm said solemnly, "Yes! You don't even know what happened back then. There were undead creatures everywhere. Everyone was fleeing, but this Fish Dragon King didn't seem to intend to leave at all. It was said that he even rushed into the insect tide in the end."

Someone sighed. "Otherwise, how could he become the Heavenly Talent of the Royal City? And he's only ranked tenth on the Genius List. I can't imagine how strong the first place is."

However, someone said, "But he's too ruthless. I heard that none of the other heavenly talents of the Royal City came out. One of them was killed by him in the Ancient Realm."

Many people's faces changed. "Shut up. Is this something you can discuss? Any strong masters will fight internally more fiercely than we think."

Under the watch and discussion of countless people, Han Fei swam straight to the arena arrogantly without paying attention to anything else.

In the arena.

Han Fei saw Yu Cailing and Lan Xue'er standing respectfully on one side. On the high platform, the Sea Horse Venerable looked at the Fish Dragon King and asked, "Why is the blood and Qi in your body stirred up? Your demonic energy seems to be out of control. Are you going to... transcend the tribulation?"

Han Fei said, "My lord, I gained some inspiration during the trip to the Thousand Mountain Ancient Realm. Because of the strange reaction of my bloodline, I left the team without permission and found a secret realm, cultivating and stabilizing my cultivation base there for several days."

The Sea Horse Venerable looked at Han Fei. "Well, it seems that the effect is not good! It has been a few days but you still failed to suppress it."

Han Fei smiled casually. "My bloodline is responding abnormally. I feel that the level of my demonic heritage may increase."

The Sea Horse Venerable was taken aback. "Oh? You mean, within level eight or level nine?"

Han Fei curled his lips and smiled bitterly. He said, "Level nine is still too difficult. If I can make a breakthrough this time, I may reach level eight, high-quality."

The Seahorse Venerable's eyes glittered. "That's great news. In that case, why don't you come back after the breakthrough?"

Han Fei smiled. "It's mainly to prevent the Venerables from being too worried. Also, due to the strange reaction of my blood and Qi, I need to use the power of ice in the Ice God Canyon."

The Sea Horse Venerable nodded and said, "OK. By the way, is the last Blood Demon you killed the one who ambushed you?"

Han Fei shook his head. “No, there must be someone else. That person’s strength is probably comparable to mine, or even more mysterious. Otherwise, she would have long been killed by me.”

The Sea Horse Venerable slightly nodded. “OK! I see... Both of them are your subordinates. Take them away!”

Han Fei turned his head and glanced at the two of them, his eyes cold and his lips curled. “Wait here for me to return.”

After that, Han Fei ignored them, turned around, left the arena, and swam directly to the abyss outside the Ice God Canyon.

The old turtle hadn’t said a word since the beginning, but simply followed Han Fei.

As soon as Han Fei left the arena, Lan Xue’er and Yu Cailing followed out. Compared to the Fish Dragon King, the Sea Horse Venerable actually cared about these two people more.

Beside the seahorse, another Half-Merman Venerable suddenly appeared and asked casually, “What do you think?”

The Sea Horse Venerable said, “After all, the Fish Dragon King was originally from the Royal City. Now that his demonic heritage has upgraded, his ranking may change in the future. Besides, from this trip to the Thousand Mountain Ancient Realm, the Fish Dragon King must have gotten a lot of opportunities. Let these two follow him.”

The Half-Merman Venerable asked, “Do you think the Fish Dragon King is really as conceited and arrogant as he looks?”

The Sea Horse Venerable tilted his head and asked, “What do you mean?”

The Half-Merman Venerable said, “I don’t know why, but I have a feeling that under the conceited appearance of the Fish Dragon King, there is a scheming heart. Think about it, Yu Hong is dead, Shui Hongyan is dead, a total of three people came from the Royal City, but the two shrewd ones died, and the conceited Fish Dragon King survived.”

The Sea Horse Venerable frowned and said, “That’s true, but among the three of them, the Fish Dragon King is the strongest. Maybe what you said is true, but what does it have to do with us? No matter how talented he is, he’s not worth our attention before he enters the Dao.”

The Half-Merman Venerable nodded slightly. That was true. Not to mention that the Fish Dragon King was only ranked in the top ten of the Genius List in the capital, even if he was ranked first, it didn’t mean anything if he was only in the Sea Spirit realm.

...

The Abyssal Chasm could also be called a trench.

In the ocean, because of crustal movements, trenches were actually very common, but some were deep and some were shallow.

And considering the depth of this crack in the Ice God Canyon, it was not something ordinary people could explore.

Last time, Han Fei dove for ten thousand meters with the identity of Yu Hanjia, and Yu Wendaoy was watching him all the way.

This time, Han Fei directly dove 10,000 meters deep and descended quickly, followed by the old turtle.

The old turtle said, "Huh? I still can't perceive anything. This body limits me."

Han Fei was lost for words. "Come on, what's such a big deal of it? I can't perceive anything either, but did I complain?"

The old turtle: "..."

Han Fei couldn't perceive anything now, but he didn't think it was a bad thing. Even the old turtle couldn't perceive the bottom of the abyss, so it was impossible for ordinary Venerables to see it through with their perception.

This time, when Han Fei and the old turtle descended to about 15,000 meters deep, the old turtle reminded him, "You need to protect yourself with demonic energy. They can see you clearly from this distance."

Han Fei nodded. The ice crystals on his body were shattered at this moment, and billowing demonic energy wrapped him.

At this depth, Han Fei was not in a mood to joke anymore, because both his body and soul seemed to be slightly stiffened.

In the Ice God Canyon, the three Venerables were looking at Han Fei who was diving in the crack.

Among them, the Turtle Venerable who came the latest said, "He didn't protect his body with demonic Qi until he reached 15,000 meters. This kid is really arrogant. However, it's only halfway through. Let's see how deep he can go."

The Sea Horse Venerable said, "It shouldn't be a problem for him to go 25,000 meters deep. But if they go further down, it's hard to predict for the Fish Dragon King, and it should be difficult for Gui Sanqing to go further down."

The Half-Merman Venerable grinned and said, "This has nothing to do with the realm but the strength of the soul. After all, Gui Sanqing is just a servant. Even if he is already a Half-Merman, 30,000 meters should be his limit. Not everyone can pass that layer of frost mist."

The Sea Horse Venerable said, "However, didn't he say that he would use this chance to cultivate? Is he still interested in the secret under the Ice God Canyon?"

Down below, when Han Fei came to twenty thousand meters, he found that even the demonic Qi protecting his body couldn't resist the cold. And in the sea, there seemed to be something stimulating his soul.

When he dove to 25,000 meters, Han Fei stopped. He was almost frozen. He couldn't help but ignite demonic fire. His blood was surging and the speed it circulated in his body was almost doubled.

Han Fei asked, "Old turtle, what the hell is this place? Haven't you perceived anything yet?"

The old turtle had deliberately frozen himself into a pile of ice. He said, "There's a mist of ice down below. My perception is blocked by the mist but it almost passed through it."

Han Fei was unconvinced. "Almost?"

The old turtle's expression was ugly. "If my soul is not damaged and my Great Dao hasn't disappeared, I can see through this place at a glance."

Han Fei said impatiently, "Okay, stop bragging. It's not a shame even if you can't see it through. It's f\*cking cold here! My blood is almost frozen."

The old turtle chuckled. "Are you kidding me? With my Great Dao as the foundation, your meridians are no longer ordinary meridians. Plus with your Golden Body almost done, walking directly into the mist will do you no harm. You are just cold now."

Han Fei's lips curled. "But I still can't go down directly. How strong is the Fish Dragon King? If he could directly pass through the mist, he would have done so long ago. Let me stay here for a few days."

So, seen from above, Han Fei and the old turtle were both stopped about 25,000 meters deep in the abyss. The old turtle simply let itself be frozen.

Han Fei, on the other hand, was smoking. Demonic energy was surging into his body crazily from all directions, and he was practicing the Demon God Scripture.

Before, Han Fei had never practiced a sea demon technique seriously.

However, at this moment, when he was practicing the sea demon technique, he found that there seemed to be power slowly improving his physique.

The old turtle asked, "The sea demon technique you practice seems to be quite advanced?"

Han Fei thought to himself, Nonsense, this technique is a transformation-type magic technique, which is close to a Great Dao.

Of course, Han Fei didn't bother to explain.. He said casually, "I picked it up."

### **Chapter 1256: An Extremely Cold World**

Han Fei should have discovered that whether he was a human or a sea demon, his body was his. Then, no matter what form he took, as long as he could still cultivate, his final strength would be in sync.

Therefore, when Han Fei practiced the Demon God Scripture, he absorbed a large number of demonic stones in Forge the Universe at one time.

It was difficult to cleanse his body repeatedly in three days, but Han Fei's strength had improved a little bit.

Of course, such rapid progress would take time to stabilize later.

However, Han Fei didn't care. He just wanted to quickly increase his strength to the peak of the Explorer level and then use a few years to slowly solidify it. In this way, he could at least use stronger combat power in advance.

However, under the Venerables' watch, Han Fei couldn't make any breakthroughs, or he would be exposed.

As a peak-level Sea Spirit, if he made another breakthrough, he would have to transcend the tribulation!

Even a fool knew this. Therefore, even though he had consumed a large number of demonic stones, Han Fei still hadn't reached level 71.

As if he had adapted to this depth, Han Fei suddenly said to the old turtle, "I'm going to continue to dive until I reach above the mist you mentioned."

The old turtle said, "This Gui Sanqing's body won't go down with you. Gui Sanqing's body and soul aren't enough to support him to explore this secret realm. However, I can roughly guess that there should be something extremely cold below. Unless with a special technique, ordinary people can't use this powerful ice power, not even Venerables."

Han Fei thought to himself, I won't use it. I don't have such a technique! If it weren't for Little Black and Little White, I might not have come to this Ice God Canyon.

Buzz!

Han Fei seemed to take a deep breath and descended more than 5,000 meters in one go. At this time, ice kept freezing beside him but was constantly shattered by Han Fei's surging blood and Qi.

At this moment, Han Fei bared his teeth and seemed to be shivering all over. However, this was actually all an act. No matter if anyone could see it, he didn't have to be too outstanding.

At this moment, a deep dragon roar appeared in his throat.

In addition, there was also a faint dragon shadow of demonic energy surrounding him.

The moment this dragon shadow appeared, the three Venerables of the Ice God Canyon couldn't help casting their eyes at him again.

"Huh? Is his Dragon King bloodline having a reaction?"

"Yes, there's clearly something wrong. It seems that he did obtain an opportunity in the Thousand Mountain Ancient Realm."

"Heh! Maybe Yu Hong was actually killed by him. Maybe he is hiding a lot of things from us."

Han Fei knew that a Venerable-level perception had scanned him. However, he didn't panic at all. After all, he could pretend to be using the Spirit Gathering Art.

Of course, in order to prevent the demonic dragon shadow he deliberately created from being seen through, Han Fei deliberately used the Void Lines and the Water Vein Technique to create an illusion.

Venerables were not gods. They couldn't be omnipotent.

Even the kings, or those above the king level, often made mistakes, just like when he lied to Chun Huangdian.

So what if it were a king?

In the face of absolute acting, everything was nothing but an Iron-Head Fish. Besides, Han Fei was a sea demon now. Although he was not the Fish Dragon King, he was an authentic sea demon.

After diving for 30,000 meters, Han Fei finally saw a large cloud of white mist. This environment reminded Han Fei of the Mirror of Icy Salt he had visited in the level-three fishery.

After acting for three days and improving himself, he was only one step away from level-71. Han Fei certainly wouldn't let go of this chance.

"Haha! Next, I'll improve as much as I can!"

Of course, Han Fei was not in a hurry to cultivate.

When he was halfway through the white mist, he really felt abnormally cold this time. Even his soul had begun to be slightly numb.

This time, Han Fei really started to light a fire for himself. The demonic energy flames on his body burned fiercely.

If it were someone else, he might not have been able to hold on... At least, the demonic energy in the body wouldn't be enough.

Unless that person was a great demon in the Dao Seeking realm. But even if it was a great demon in the Dao Seeking realm, it depended. The initial Dao Seeking realm was different from the junior peak-level one. The speed at which one absorbed demonic energy and spiritual energy from the void was also different.

Han Fei didn't care about that. There were still one billion points of spiritual energy in Forge the Universe! It was too much to use up.

Then, a fiery-red area of at least a hundred meters appeared in the white mist.

Han Fei was still descending quickly.

He had never encountered a deep-sea area with a depth of tens of thousands of meters. There were still 3,000 meters from the Abyssal Chasm to the surface of the sea, and he had probably dove more than 3,000 meters in the mist. He estimated that it was almost 40,000 meters.

At this moment, Han Fei found many colorful creatures in the mist.

In front of Han Fei's eyes, there was a huge fish that looked like a lantern. Suddenly, it released a terrifying electric current at him.

With Han Fei's physique, he certainly wouldn't be afraid of a mere electric current.

Han Fei even sensed that the current was a special cold power that was trying to attack his soul.

However, Han Fei looked at it for a long time in surprise. If it weren't for the information that popped up, he wouldn't know what electrified him.

Because that thing was completely transparent.

Information popped up in his eyes.

< Name > Transparent Algae Eel

< Introduction > A special fish in the deep sea. Its body is as thin as vine algae and transparent. When swimming, it will emit colorful light on the frontal bone and the edge of the body. Transparent algae eels are good at releasing paralyzing electricity and strangling enemies.

< Level > 69

< Quality > Exotic (mutated)

< Spiritual Energy > 59,998 Points

< Edible Effect > Long-term consumption can greatly enhance blood and Qi and improve physique.

< Collectible > Transparent frontal bone, glowing meridians.

<Absorbable>

< Remarks > The transparent algae eel will cling to its prey and kill it with terrifying power when it tries to strangle its enemy. (Just like the case of Willow Eel)

When Han Fei saw the information clearly, he already had a bad feeling. It was mainly because while he didn't pay attention, he seemed to be wrapped by a film-like thing. As for now, he really didn't feel anything.

"Hehe! A creature thinner than a seaweed leaf wants to kill me?"

With a thought from Han Fei, the Infinity Water shot out in all directions from his body and turned the transparent algae eel into a honeycomb.

However, the vitality of this transparent algae was comparable to that of the jellyfish. Its body was riddled with holes, but its speed was not slow at all. It seemed to find that the enemy was too strong and wanted to slip away quickly.

Han Fei grabbed it with his hand.

It was not until this moment that Han Fei discovered, to his surprise, that this thing was more than fifty meters long and eight meters wide. Except for a skull, there was only a glowing vein left on its body.

Chi la!

Han Fei cut the transparent algae eel into two pieces and threw it into Forge the Universe. This thing was so tough that it must be chewy.

After killing a transparent algae eel, Han Fei found that there were many creatures nearby. For example, he encountered a group of white lobsters half a meter long with a single horn on their heads.

This kind of lobster was even more special.

They looked like a single cone-shaped pillar, and their eyes were on a big spike, which extended from the forehead to the tail as if a missile was carried on the back of a truck. This kind of shrimp was good at flashing stabs, which were extremely powerful.

< Name > Blood-Piercing Shrimp

< Introduction > deep-sea single-spiked shrimp

< Level > 68

< Quality > Rare

< Contained Spiritual Energy > 95,83 points

< Edible Effect > Long-term consumption can increase ice resistance.

< Collectable > Spiked Spear

<Absorbable>

Swish! Swish! Swish!

Han Fei saw that the water rippled in front of him, and the shadows were stabbing at him. Because there were so many of them, Han Fei didn't bother to attack them one by one.

"Roar!"

A dragon-like roar burst out. As Han Fei roared, hundreds of Blood-Piercing Shrimp in front of him were shaken to death.

In comparison, this was just a rare creature. Even if Han Fei stood still and let them poke him, they couldn't cut his skin, let alone hurt him.

In Forge the Universe.

The dying Fish Dragon King was already dumbfounded when he saw Yu Wendao come in. He was still alive, but Yu Wendao seemed to have become a statue.

Trapped in an array, he watched Han Fei throw things into this vast space every day, or take things from here.

And when the Fish Dragon King saw Han Fei use the spiritual spring or something like that by ten thousand catties or even hundred thousand catties every time, he didn't want to live at all. The blow was too huge for him.

In the past few days, he had seen strange marine creatures thrown in one after another. Sometimes it was a turtle, sometimes a big fish, sometimes a conch, sea cucumber, sea urchin, crabs, lobsters...

In short, there were many kinds of fish. Now, a transparent thing was thrown in, and followed by hundreds of strange shrimp.

He knew this kind of shrimp, which was unique to the Ice God Canyon. In other words, Han Fei was now in the Ice God Canyon.

The Fish Dragon King roared, "Han Fei, let me out, Han Fei..."

Bang!

Under the pressure of gravity, Han Fei's voice shook in the void. "Shut up! Buzz, buzz, you're comparable to those bugs. If you keep yelling, I'll cut you into pieces."

The Fish Dragon King said, "I know that you are in the Ice God Canyon, and you are investigating the secrets of the Ice God Canyon. I know the secrets of this place, and I can trade with you."

In the outside world.

Han Fei curled his lips and said disdainfully, "The secrets of the Ice God Canyon aren't enough. If you want to survive, OK, use the secrets of the royal capital to trade with me."

Reading information with the Void Lines was not omnipotent.

It couldn't read complete memories. Han Fei could only read some relatively shallow memories. Many deep memories that were thought to be important were usually hidden by the brain.

Of course, no matter what the Fish Dragon King said, Han Fei would never let him go.

### **Chapter 1257: The Opportunity Under the Ice God Canyon**

Seeing that Han Fei didn't seem to care at all, the Fish Dragon King roared, "Han Fei, your methods are despicable and you are shameless. Come and fight me fair and square."

Han Fei said leisurely, "You either tell me the secrets of the Ice God Canyon or shut up. Otherwise, I don't mind killing you right now."

The Fish Dragon King laughed. "Han Fei, you dare not kill me. My Life Tablet can't be broken. Once my Life Tablet is broken, you can no longer pretend to be me."

Swish!

Yu Wendao suddenly stepped in front of the Fish Dragon King.

However, Yu Wendao said, "I don't have to pretend to be you. However, Fish Dragon King, you have never been my opponent. Your life is dispensable to me. However, if you can help me do one thing in the future, not only will I let you go, but I will also heal your injuries, and you may reach the peak again."

The Fish Dragon King trembled.

Did Yu Wendao become a puppet?

However, the Fish Dragon King suddenly perked up. He might not have to die?

For such a Heavenly Talent, he knew very well how strong he was and how strong others were. Perhaps he was no match for Han Fei, but not everyone was Han Fei.

Han Fei had completely subverted his understanding.

This was a ruthless and fierce person.

Not only that, this person was extremely dangerous. It was incredible that he could pretend to be him under Gui Sanqing's watch.

Being defeated by a person like Han Fei might become his inner demon, but this inner demon wouldn't be an obstacle for him to enter the Dao.

The Fish Dragon King asked, "Tell me, what do you want me to do?"

Yu Wendao put on a smile. "That's simple. I'll go to the Royal City in the near future. When the time comes, I'll meet all kinds of people. You need to help me recognize people."

The Fish Dragon King asked in surprise, "So simple?"

Han Fei sneered. "What are you thinking? This is just the basis of our cooperation. I don't know what I will need you to do until I reach your White Shell Royal City."

The Fish Dragon King's expression was complicated. "You want me to help you deal with the Royal City? Impossible. No matter how strong you are, you've just transcended the tribulation. It's impossible for you to deal with the White Shell Royal City."

"Humph! Who told you that I'm going to deal with the White Shell Royal City?"

The Fish Dragon King was a little puzzled. "Then what are you going to do?"

Han Fei said, "I'm looking for a secret realm. As long as I find this secret realm, it doesn't matter if I kill you or not."

"What if you can't find it?"

"Heh! You can pray that I can't find it. However, if I can't find it in the White Shell Royal City, then it will be time for me to use you. So, no rush. You still have value. So, tell me the secret of the Ice God Canyon first."

Han Fei said, "Fish Dragon King, only when a person has value can he have a chance to live. You can live, but you have to keep showing me your value. You are a Heavenly Talent. Even if you can't become a king, you have the potential to enter the Dao. Don't make any mistakes. Now tell me..."

Han Fei's voice seemed to be enchanting, making Yu Longwang stunned.

Hearing Han Fei's words, a glimmer of hope appeared in the heart of the Fish Dragon King.

It couldn't be helped. In the boundless despair, any trace of hope would become a straw to clutch at. Therefore, the Fish Dragon King quickly made a decision.

He knew very well that no matter where it was, it was a place where the strong preyed on the weak. The only truth was to survive.

Immediately, the Fish Dragon King said, "OK..."

When the Fish Dragon King said this, the old turtle's voice buzzed, "Son of a b \* tch, this guy has no backbone at all. He won't be able to enter the Dao in this life."

Han Fei said with a smile, "I don't care if he can enter the Dao or not. I didn't lie to him. Maybe I will really help him recover."

The old turtle sneered. "You just don't want to go to the Blood Sea Divine Wood City."

Han Fei grinned. "Smart."

In Forge the Universe, the Fish Dragon King said, "It's not that nobody has discovered the secret under the Ice God Canyon, but that nobody can use it."

"Oh? Why do you say that?"

Han Fei also felt that the sea demons had already made nests in the Ice God Canyon and had Venerables guarding it all year round.

If there were really great benefits under the Ice God Canyon, even if Venerables couldn't use it, kings could, right? After all, there were king-level figures in the White Shell Royal City.

However, the Ice God Canyon was still the Ice God Canyon. It seemed that except for the realm above the Dao Seeking realm, basically no one knew what was under the Ice God Canyon.

In fact, the sea demons in the Dao Seeking realm were useless. At least, Gui Sanqing, who had been possessed by the old turtle, couldn't come down at this moment.

The Fish Dragon King said, "Under the Ice God Canyon is a kind of power, a power extreme cold. It is said that anyone who covets this power will be frozen to death without exception. There was once a Venerable who cultivated the Dao of extreme cold with the ice attribute, but when she wanted to subdue this kind of power of extreme cold, half of her body was broken. It took her a hundred years to recover."

"Huh!"

Suddenly, the old turtle exclaimed, "If that's the case, it's interesting. There is indeed such cold power in this world. This is a spiritual treasure! Oh, no, to be precise, it should be a peerless treasure. But it was thrown here and no one cares about it?"

Han Fei hurriedly said, "Peerless treasure? What do you mean?"

The old turtle said, "In addition to the Great Dao, there are countless treasures in the world. Many of them are beyond your imagination. If there is really such a treasure below as the Fish Dragon King described, the only possibility is that the kings here don't know what they have encountered at all, so they just let this thing be stored here without being afraid of it being snatched."

Han Fei took a breath. "Is it really that precious?"

The old turtle snorted. "How can I lie to you? How big a world have you only seen? Do you know how big a world there is outside? I told you that the land you live in is very barren. When you encounter such a rare treasure, you shall never let it go... Oh, that's not right. You probably can't take it either!"

Han Fei couldn't help but ask, "What kind of person can collect such a thing?"

The old turtle said leisurely, "First of all, if it's that kind of rare treasure that even a Venerable can't touch, it must be at least a Sea Quelling Bizarre Treasure. However, since the king knew that there was such a thing and left it here, maybe..."

Han Fei's eyelids twitched. "Maybe even kings can't take it?"

The old turtle: "..."

Han Fei was stunned for a moment. "F\*ck! If that's the case, why would I go down?"

The old turtle sneered. "At least you can take a look? Why don't you take a look at such a precious treasure? With my Great Dao as your spiritual heritage, why are you afraid of this little bit of cold?"

Han Fei was lost for words. "Hey, hey! Don't keep mentioning it. It's my meridian now."

In Forge the Universe, the Fish Dragon King said, "Han Fei, I saved your life. If you have the pride of a Heavenly Talent, give me a promise."

After a moment of silence, Yu Wendao said, "Your so-called secrets are meaningless to me. If it's really so dangerous, you definitely wouldn't tell me. Otherwise, if I die, you can take me to die with you. However, since you told me, it means that you know that I won't be tricked and won't try to take that kind of power directly. Heh, are you out of your mind thinking that you saved my life by telling me that?"

The Fish Dragon King: "..."

Han Fei said lazily, "Just stay here quietly! Don't play tricks with me next time."

Suddenly, the old turtle said, "Boy, is your Soul-Attracting Technique incomplete?"

Han Fei wondered, "What do you mean?"

The old turtle said, "You said that you know the Soul-Attracting Technique, but the Soul-Attracting Technique has the ability of memory reading. Why do you bother to make a deal with him? Why don't you just watch his memory? Or, are you testing him? If he lies, you'll kill him?"

Han Fei was stunned for a moment. He didn't think that much. The Soul-Attracting Art could read memory, so could the Void Lines.

Han Fei said, "It can only read part of a memory, can't it?"

The old turtle laughed. "Are you kidding me? You can read all his memories with the Soul-Attracting Technique, but the side effects may be a bit great."

Han Fei was shocked. What? The Soul-Attracting Technique's memory reading ability was different from the Void Lines'?

Han Fei couldn't help taking a breath. Read all his memories? Wasn't that too unbelievable?

But Han Fei still keenly grasped a piece of information. The side effects of this technique were a bit too great. Han Fei couldn't help saying, "Tell me what the side effects are first."

The old turtle said, "It seems that what you have mastered is not the Soul-Attracting Technique, but a technique to peep at memories. I had thought you had mastered the Soul-Attracting Technique."

After taunting Han Fei, the old turtle said, "In fact, it's not that bad. There aren't many side effects. If the Soul-Attractee is stronger than the Soul-Attractor, it's easy for him to suffer a backlash, so you can't do that to a person in a higher realm than you."

Han Fei thought this was really nothing. His soul power was very strong, which was more than enough to deal with ordinary people.

The old turtle continued, "Also, if you use the Soul-Attracting Technique to read a person's memories, your memories might be affected by his."

Han Fei's eyelids twitched. "Affect my memories?"

Han Fei's face changed several times. "Anything else?"

The old turtle said unhurriedly, "Forcibly soul-attracting can easily cause the soul-attractee to become an idiot... That's all."

Han Fei certainly didn't care about that, but the first side effect didn't seem acceptable. But he hadn't been to the White Shell Royal City yet, so he could take his time with the soul-attracting thing. He shouldn't be misled by the old turtle.

Han Fei said calmly, "Let's finish exploring this place first."

...

After Han Fei broke through the mist, he finally landed on this large reef rock.

Crack!

The moment Han Fei appeared, he suddenly grunted, his head seemed to be stabbed, and his body was frozen.

Crack!

Bang!

After directly shattering the ice, Han Fei saw that with him as the center, the ice quickly condensed. In less than two seconds, he was frozen into ice again?

Han Fei: "???"

Han Fei was lost for words. The demonic fire was still burning on his body. Now the ice sculpture, which was him, was ablaze with raging flames, which looked very weird.

The old turtle sneered. "The path of invincibility! The path of invincibility means not only being invincible in fighting, but also invincible in defense!"

With a thought, Han Fei shattered the ice again, letting the golden giant phantom envelop him. Sure enough, this time, no ice came over. He had blocked the power of ice.

At this moment, Han Fei's eyebrow suddenly twitched.

Han Fei's heart did a flip. Under such cold circumstances, with Little Black and Little White's current strength, could they withstand it?

However, since Little Black and Little White had taken the initiative to come out, it seemed that this place was deeply attractive to them.

With a flash between Han Fei's eyebrows, Little Black and Little White jumped out.

However, after the two little fish circled Han Fei, Little Black suddenly said, "Dad, I'm cold. I don't want to be outside."

"Huh?"

Han Fei froze for a moment and quickly threw Little Black into Forge the Universe.

Suddenly, Han Fei seemed to understand something.. He couldn't help but look at Little White. "Girl, it turns out that it's you who want to come out?"

### **Chapter 1258: Triple-Blazing Cold Shrimp**

The old turtle had seen Little Black and Little White more than once, so he wasn't surprised at this moment.

However, when Little White swooshed out a hundred meters, both Han Fei and the old turtle were stunned and said at the same time,

"Huh? Girl, aren't you cold?"

"Huh? The little white fish can withstand such freezing power?"

Little White said, "Daddy, there's treasure."

Han Fei nodded and thought to himself, I know there are treasures here! If there are no treasures, why am I here? The problem is, can we take this treasure?

Han Fei immediately said, "Girl, don't do anything rash. The treasure is there. No hurry. Let's see what it looks like first."

Little White had always been an excellent treasure hunter. With Little White leading the way, it couldn't be wrong.

However, in this extremely cold place, Han Fei discovered that he couldn't even extend his perception five meters, because his perception was frozen the moment it spread out.

Because he couldn't perceive, Han Fei couldn't see more creatures, so he could only chase Little White all the way.

After about a hundred seconds, Han Fei felt that his surroundings were getting colder and colder. Even frost crystals appeared around his Invincible Will.

Therefore, Han Fei could only compress the Invincible Will to the surface of his body, which made Han Fei look like a golden man.

Han Fei took a slight breath. "Fortunately, I'm a body refiner. Otherwise, I'm afraid I wouldn't have been able to enter."

The old turtle was even more certain now. "There must be ice-type treasures here. Your physique is no weaker than that of a peak-level Dao Seeking powerhouse in the first place. It's even at the level of a Half-Venerable. Coupled with your invincible will and unlimited spiritual fire, your resistance is comparable to that of a Venerable. Even so, it's still not enough. It's obvious that that thing is not something anyone below the Venerable realm can touch."

Han Fei felt that the demonic energy was burning more fiercely every time he moved forward.

He probably understood why those Venerables just watched him and weren't worried that he would cause trouble below the Ice God Canyon...

They probably never thought that they could make it this far.

Han Fei curled his lips and smiled. He chased Little White for another fifty seconds. When he felt that he couldn't hold on anymore, he saw a huge ice block glowing with blue and silver light.

When he saw the ice lump, Han Fei felt his soul tremble.

Han Fei shouted with a shivering voice, "Daughter, is this your chance?"

In any case, Han Fei didn't think he was lucky enough to enjoy such an opportunity.

Although Little White seemed to be fine, Han Fei still felt that he should observe a bit to prevent any accidents.

Seeing that Little White was looking at him, Han Fei unhurriedly took out a Dragon Burial Pole. He waved his hand and threw out the fishing line.

However, to Han Fei's horror, the fish hook and the fishing line froze at a visible speed.

In less than one second, the ice had spread to the Dragon Burying Pole. The intermediate divine-quality weapon was frozen solid at this moment.

With a thought from Han Fei, billowing spiritual energy surged out, trying to shatter the ice in one fell swoop.

However, Han Fei felt that the demonic energy was blocked and couldn't be transmitted out of the fishing pole.

Han Fei gritted his teeth. "Is the ice so sturdy?"

Han Fei transmitted a tremendous amount of spiritual energy out, and the demonic energy on the Dragon Burial Pole surged and then trembled.

Bang!

The violent explosion sent Han Fei flying. Han Fei was dumbfounded. The Dragon Burying Rod was broken?

This was an intermediate Divine Weapon anyway!

It just carried a big amount of spiritual energy. How could it break so easily?

The old turtle said, "It's not that the weapon is poor, but that the freezing power directly destroyed the structure of the weapon. Therefore, under the influence of a large amount of spiritual energy, a spiritual energy explosion was produced because the spiritual energy was blocked. In short, your weapon is destroyed."

Han Fei thought to himself, Nonsense, can't I see it myself? You're telling me!

In the explosion, Han Fei saw that Little White had reached the ice block at some point.

Han Fei's heart skipped a beat, and at the same time, he was surprised. Little White was only level-59! How could she resist the freezing power?

The old turtle exclaimed, "I've never seen your spiritual beast before. However, even though it has an extremely Yin body, its level is too low. How can it resist such a powerful freezing power?"

However, at this moment.

Not far away, Han Fei suddenly saw the ice block tremble slightly, and a green blue gas seemed to be flowing into Little White's body.

Han Fei couldn't help but smile. "It shows that my spiritual beast is talented and has infinite potential. Look, it can easily withstand the power that I can't resist."

"Heh!"

The old turtle chuckled. "Although I don't know your spiritual beast, I do know one thing. Your little white fish definitely can't resist the power of ice with its own strength. There is a certain Tao rune on it. I suspect that it has already mastered the Dao of Extreme Coldness."

Han Fei was stunned for a moment and then smiled. "Are you kidding me? She hasn't even entered the Dao yet. How can she have a Dao rune?"

The old turtle pondered for a moment. "This world is far bigger than you think. Some creatures can achieve what you think impossible. Some creatures are born with the Dao Body. They're different. You'll be pissed to death if you compare yourself to these creatures."

Han Fei's eyelids twitched. Innate Dao Body?

For some reason, Han Fei suddenly thought of the Time Dragon Carp. It seemed that Little Time was only level 1. But could Little Time already affect space and time?

In this case, since Little Black and Little White were both mysterious creatures, why couldn't they be born with a Dao Body?

After all, when he used the Supreme Yin-Yang Wheel, it seemed to be producing some Dao runes too.

Now Little Black and Little White became even more extraordinary in Han Fei's eyes. He said, "Daughter, eat harder. Eat up this ice lump."

Before Little White responded, Han Fei's face suddenly changed slightly. A danger seemed to be coming.

Without the old turtle's reminder, Han Fei discovered that a three-colored light suddenly appeared at the bottom of the water. Because they were no longer in the mist, Han Fei could see very clearly. They were three identical lobsters of different colors, each about seven or eight meters long.

The old turtle said, "It's the Triple-Blazing Cold Shrimp. No wonder there are no other creatures around. It turns out that this thing is here. Han Fei, activate the Art of Invincibility and kill them. Remember, find a way to kill the three of them at the same time."

Because they were not very close, Han Fei hadn't been able to read the information about the Triple-Blazing Cold Shrimp yet, so he could only listen to the old turtle.

However, these three lobsters were obviously targeting Little White. How could Han Fei bear it? My daughter is eating, and you want to disturb her?

Han Fei performed the Star Teleportation Technique and stepped out. As he pointed his finger, the Infinity Water burst out first, rolling like a long dragon.

After this step, Han Fei didn't feel colder, but warmer.

The three lobsters seemed to be slightly surprised by Han Fei's sudden arrival. At this moment, three rays of light shot at Han Fei, respectively milky white, dark blue, and fiery red.

Information popped up in Han Fei's eyes.

< Name > Triple-Blazing Cold Shrimp

< Introduction > This is a legendary creature. The three lobsters are one. One of them carries the Three Light Divine Water, one can enter the sea of fire, and the other can enter the extreme cold. The three lights are red, blue, and white. The white light can break armor, the red light can kill all enemies, and the blue light can invade the soul. The combination of the three is really stronger.

< Level > 76

< Enforcing law > Three Light Divine Body

< Quality > Legend

< Spiritual Energy > 13,364 Points

< Edible Effect > Practicing ice and fire combat skills, the effect is doubled, and can resist ice and fire.

< Collectible > Cold Crystals, Fire Seed, Dao Spine, Three Light Wondrous Heritage

<Absorbable>

< Remarks > Unless you kill three lobsters at the same time, if one doesn't die, the other two can resurrect.

Han Fei was stunned to see the message.

Three lobsters at the peak of the mid-level of the Dao Seeking realm? This was the first time he had seen such a strange creature. The three lobsters were one, so he couldn't treat them as three mid-level great demons at the Dao Seeking realm. He should at least treat them as an advanced Dao Seeking powerhouse.

However, according to the legend quality of the other party, Han Fei frowned. Their true combat power was at least at the peak-level of the Dao Seeking realm.

The old turtle said, "Don't be careless. The Triple-Blazing Cold Shrimp are one. You can't judge them by their strength on the surface."

At this moment, Han Fei had no time to talk to the old turtle. He had already rushed out, and the Million Knife Art directly flew at the lobster that was emitting an icy blue light.

Ka ka ka!

The lobster was immediately shattered, which stunned Han Fei. Was it killed so easily?

This was obviously impossible. If they were killed in one attack, could the Triple-Blazing Cold Shrimp still be considered a legend creature?

As he expected, the blue lobster that had been shattered into ice chips turned into blue light cones and stabbed at Han Fei.

Han Fei's reaction was extremely fast. He stomped, and a Soul Guarding Array appeared immediately. He knew very well that this blue lobster could invade the soul, so he certainly wouldn't give it any chance.

Bam! Bam! Bam!

The Soul Guarding Array shook and was about to break. Han Fei stomped again. At the same time, Han Fei tried to release the Void Lines.

However, as soon as the void was released, Han Fei felt his soul tremble and his body stiffened. He happened to be hit by the two red and white lights.

"Pfft!"

Ding!

Han Fei's invincible will was pierced through. Immediately afterward, the red light shot out like an arrow, piercing Han Fei like a spear with a clank.

Han Fei was blown back a kilometer and almost knocked stunned.

Although the surrounding temperature seemed to have risen because of the Triple-Blazing Cold Shrimp, it was just an illusion. In the extreme cold, even if the temperature rose a little, so what?

Han Fei couldn't help taking a deep breath and looking down at his chest. There was a small hole there, but it happened to hit his bones, so there was a clang.

Han Fei's face suddenly changed. What precise cooperation! As expected of a legend creature!

### **Chapter 1259: The Void Lines Can Be Upgraded Now**

All this time, Han Fei had been exploring and had encountered many strange creatures.

Counting the time he spent in reincarnation, Han Fei was very experienced and knowledgeable. Therefore, he didn't take the slightest carelessness seriously.

At the moment when Han Fei retreated, the blue lobster had already rushed at Little White. And the red and white lobster intended to stop him. The two lights, one white and one red, came at him fiercely.

Buzz!

Han Fei certainly wouldn't continue to fight. With the Star Teleportation Technique, his body appeared in the way of the blue lobster.

"Moo ~"

The Hundred Beast Soul Subduing Roar was activated. This time, it was not a dragon roar, but the old buffalo's voice.

Han Fei grinned coldly. Who do you think you are to play soul attacks with me?

When Han Fei stopped the blue lobster, he issued an order in his heart, and Yu Wendao's puppet body appeared in the ice.

Han Fei just wanted to see if Yu Wendao could withstand the power of ice. If he couldn't, Han Fei would take him back.

However, to Han Fei's surprise, Yu Wendao's body was ablaze with raging flames. In addition to the flames, Han Fei could also see that Yu Wendao's body was shaking. He didn't know why.

Although Yu Wendao had been refined into a puppet by him, he could only sense Yu Wendao and give him some orders. Han Fei couldn't turn himself into Yu Wendao to fight. After all, this wasn't a possession. The puppet could also instinctively use its own power.

Therefore, Han Fei actually didn't know Yu Wendao's fighting style.

"Hum... Hum..."

Han Fei smashed the blue lobster with a punch again, only to see that the ripples in the seawater were oscillating and every drop of seawater seemed to be shaking. Yu Wendao intended to attack the Triple-Blazing Cold Shrimp by oscillating, but Han Fei saw that the flames on Yu Wendao's body were getting smaller and smaller, and his movement was getting slower and slower.

The old turtle said, "After all, he's just a puppet. He can only fight with his instincts. Besides, Yu Wendao's strength and spiritual heritage aren't enough for him to fight in such an environment for long. It's already good enough for him to block a blow of the two lobsters for you."

Han Fei's face was slightly dark, but he still took Yu Wendao back in the end. He was a little speechless. This environment was too unfavorable for him. The Void Lines couldn't withstand the freezing power, so could the puppet. He could only use the Infinity Water.

"Wait... No..."

Han Fei's heart suddenly stirred. The Fire Seed and Water Luster were both legend creatures. They seemed to be able to resist the power of extreme cold.

Shua!

At the next moment, as the illusion of mountains and rivers appeared, Water Luster and Fire Seed appeared.

At the moment they appeared, the flame on Fire Seed suddenly shrank by nearly half.

"Hiss!"

Fire Seed's voice trembled. "Master, where are you now? I'm a little cold."

Han Fei: "..."

Han Fei sweated. "I'm in the middle of a fight. Can you handle this environment?"

Water Luster said, "What a terrifying freezing power. Master, although the two of us have just reached the Explorer realm, we can only exert 80% of our strength here."

Fire Seed added, "Me 60%, oh, no,... 50%."

Han Fei was speechless. "Then why bother to fight? The enemy is also a legend creature."

Fire Seed and Water Luster naturally noticed the Triple-Blazing Cold Shrimp, but there was still a gap in their realm.

This time, Water Luster and Fire Seed said in unison, "We can't beat them."

Water Luster said, "Fire Seed and I can probably resist one."

Han Fei said, "Try it."

Swish swish swish!

With that, Han Fei disappeared. He had already picked up Snowmourne and his figure flashed crazily. Anyway, he couldn't be seen with the naked eye. In the void, the sword light flashed, and a sword wave appeared in the seawater. Wherever the sword light cut, the water was cut extremely fast, forming a water wall.

Crack!

The blue lobster and the red lobster were pierced, but on the other side, a white light flashed, and the red and blue light condensed again, turning into two lobsters again.

Han Fei's lips twitched. "What a fast resurrection speed."

The old turtle said, "They're not resurrected quickly, but they didn't die in the first place. Only when these three lobsters die at the same time can they fuse. Only when they fuse together can you really kill them."

"Pfft!"

Boom!

On the other side, the white lobster penetrated Water Luster's body and then collided with the water, producing a violent explosion and surging waves.

When fighting with him, the Triple-Blazing Cold Shrimp didn't seem to be very special. That was because he was too strong and ignored the fact that the lobsters were actually very strong.

They were legend creatures too, so Fire Seed and Water Luster couldn't gain any advantage. Furthermore, the two of them had just entered the Explorer realm, and the other party was about two realms higher than the two of them, so they were no match for these lobsters at all.

Buzz!

The illusion of the mountains and rivers appeared. Without giving Water Luster and Fire Seed a chance to respond, Han Fei simply took them back. Since they couldn't beat the lobsters, he couldn't let them be killed.

Although Han Fei could throw one of the three lobsters into the Sea Quelling Painting where the five legends could definitely resist it, if they started a fight, the Sea Quelling Painting would probably be in a mess.

Therefore, this idea popped up in Han Fei's mind, but was immediately dismissed.

Glancing at the lobster that had turned into a blue light again, and at the two red and white lobsters that were dashing at him, Han Fei issued an order in his heart.

At that moment, beside Han Fei, waves were surging, and the Infinity Water was all retracted into the seawater.

Han Fei was expressionless. Indeed, to forge iron, you needed a strong hammer.

"I don't believe I will be beaten by three lobsters today. People will laugh at me if they learn the news!"

He looked back, only to see that Little White was still absorbing a certain power from the ice block. Han Fei's figure disappeared again, and the golden fist mark roared and smashed at the white lobster.

He launched a spiritual spike at the blue lobster and slashed at the red one with the Draw Technique.

In one fell swoop, the blue lobster and the white lobster were shattered, but the white one pierced through his golden fist mark with its head.

After fighting several times, Han Fei found a problem. If the three lobsters hadn't shattered at the same time, the last one would have been invincible and couldn't be defeated at all.

At the moment when the red and the blue lobsters shattered, the waves rolled.

The Sacrificing Punch erupted and punched through the seabed, shattering the white lobster.

Han Fei grinned. "Done!"

Han Fei said, "Legend creatures have specific characteristics. If you can't target their characteristics, it will be very difficult to beat them. But if you target their characteristics... Like now."

"Explode!"

Han Fei opened his mouth, only to see the tri-colored lobster suddenly explode. A terrifying explosion sounded at the same time. After all, the Infinity Water was a single weapon! If it wanted to blow itself up, it would be as precise as an alarm clock.

Bang! Bang! Bang!

Han Fei opened a fish skin map and set up a large Coiled Turtle Array, protecting Little White in it as he was blown dozens of miles away.

Above the Ice God Canyon, the mountain trembled slightly as if there was an earthquake.

The perceptions of the three Venerables swept across, but no one went down to check.

However, the Turtle Venerable said, "I'm afraid he encountered opponents down below! That's inevitable. Some creatures there are indeed unconventional."

The Sea Horse Venerable said, "This Fish Dragon King is quite strong. He actually passed through it."

The Half-Merman Venerable said, "It's inevitable for him to pass through. It's obvious from the level of his demonic heritage. If he can really upgrade to a level-eight high-quality spiritual heritage, it means that as long as he doesn't die, he will be much stronger than us in the end."

The Turtle Venerable said leisurely, "Let's see how long he can hold out below."

...

Below the Ice God Canyon.

When the Triple-Blazing Cold Shrimp collapsed at the same time, they fused.

Yes, they weren't dead but fused.

After the fusion, the Triple-Blazing Cold Shrimp was more than ten meters long. The three spikes on its head were exactly red, white, and blue.

At this moment, Han Fei shouted, activated the Devil Change and the Beast King Technique, and brandished the Snowmourne.

Shua!

The terrifying sword was pushed out by Han Fei with one hand and slashed out overwhelming sword Qi. Like a milky white brilliance, it stabbed into the forehead of three lobsters and went all the way out of their tails.

The red sting in the middle of the gigantic lobster was directly shattered by Snowmourne. It didn't make sense that it didn't die.

After this strike, He snorted confidently. "You're just in the advanced Dao Seeking realm. I thought you had reached the peak."

The three lobsters were beaten back to their original forms, turning into three lobsters again. However, this time, they were motionless. The red one's carapace was broken, but the other two were intact and had died at the same time.

"Huh? It died so easily?"

The old turtle's voice sounded, "Of course. Do you think legenda creatures are invincible? It's all relative. Boy, you have too many means. Think about it, if it were someone else, he would have been killed more than ten times."

However, Han Fei didn't pay much attention to what the old turtle said. His eyes glowing, he cut open the shell of the red lobster with the Snowmourne and said, "A legend-level lobster bloodline?"

Han Fei couldn't help but pull it with his hand, and his eyes lit up. "Good stuff.. The Void Lines can be upgraded now."

#### **Chapter 1260: Little Black and Little White's Breakthrough**

The Triple-Blazing Cold Shrimp didn't give Han Fei a chance to collect it at all. It died so easily, and its body switched between colorful light and reality.

It was precisely because of this strange ability that even a Half-Merman wouldn't be able to kill them if he didn't get the knack.

However, there were a lot more treasures on the Triple-Blazing Cold Shrimp. Han Fei picked up two lobster spears, a cold crystal, and a ball of fire origin, as well as three meridians.

He stored all of them into Forge the Universe. However, as soon as the fire origin was absorbed into Forge the Universe, Little Black swallowed it in one bite.

Seeing this scene, Han Fei couldn't help but be vigilant. Little Black and Little White were originally one, one Yin and one Yang.

Now, Little White had encountered her own great opportunity, but Little Black didn't seem to like it. On the contrary, Little Black had a need for the scorching flames.

Crack!

Before Han Fei had time to think about it, he suddenly heard a crisp crack, which turned out to be from the big ice block that Little White was sucking at.

At this moment, Han Fei clearly saw a crack appear, and then the blue aura became more and more intense. However, soon, he saw cracks appear on the ice one after another.

Crack... Crack... Crack...

Bang!

Suddenly, the ice block was broken.

Han Fei took a deep breath. "Damn, isn't this a treasure?"

The old turtle said, "Of course not. The real treasure is just wrapped in this ice block."

When this ice lump was broken, Han Fei felt the temperature around him drop again. In an instant, Han Fei retreated a kilometer. His Invincible Will almost couldn't resist it, and his whole body was ablaze. Han Fei began to refine himself into a divine weapon.

Almost every second, ten thousand points of spiritual energy were burnt up.

This was because he had enough spiritual energy. Otherwise, the energy absorbed from the void by a regular Dao Seeking great demon wouldn't be able to meet the spiritual energy consumption of this intensity.

When the ice block completely shattered, Han Fei saw a sky-blue object that looked like an ice crystal flower. That thing looked like the kind of firework that was held in hand. Its surface flickered irregularly. Its shape was more bizarre than the Infinity Water.

After the Infinity Water was picked, it became a drop of water, which no one could recognize in the water.

As for the blue object, it was not like water or ice and seemed very extraordinary.

The thing seemed to produce a string of light mist connecting it and Little White. It seemed that it was injecting its original body into Little White's body.

Han Fei wanted to see what this thing was and if the Demon Purification Pot could recognize it.

But the old turtle suddenly said, "I see."

Han Fei was puzzled. "What do you understand?"

The old turtle said, "This can be considered a spiritual treasure, but it's not the best kind. If I've guessed right, this should be the Blue Sea Ice Sand, a kind of spiritual treasure that grows in the land of extreme coldness. I couldn't feel it just now because my soul was too weak now. This is at most equivalent to that drop of water."

"Infinity Water?"

Han Fei exclaimed in shock. Are you kidding me? This thing is comparable to the Infinity Water and you said it's not the best kind?

Although the Infinity Water didn't seem to have any particularly powerful effects or power, it was very useful! It could grow with his growth.

In fact, Han Fei could even say that as long as he had a drop of Infinity Water, then all the way until he became a king, he wouldn't lack weapons because the Infinity Water was suitable for every realm.

Li Huang from the Heavenly Desolate City called the Infinity Water the treasure of his city. Han Fei felt that he would definitely be able to develop more usages of the Infinity Water in the future.

However, there was something below the Ice God Canyon comparable to the Infinity Water. This was unbelievable.

The old turtle said, "I've seen it before. This thing might not be as good as your drop of water, but it's naturally-born and conformed to the Great Dao of Heaven and Earth. Therefore, it's extremely attractive to creatures of the same species. This shows that your little white fish has already had Dao runes on her, which means that your spiritual beast was born with Great Dao. In this barren land, it's extremely rare."

Han Fei asked suspiciously, "Do you think they share the same Dao?"

The old turtle nodded. "Definitely. When you took that drop of water, the water chose you instead of you choosing the water, right?"

Han Fei's body trembled. "How do you know that?"

The old turtle chuckled. "I've seen more natural spiritual treasures than the fish you have eaten. How can I not know that? Unless you can suppress a natural spiritual treasure, it usually chooses its owner instead of being chosen. Otherwise, this ice sand couldn't have stayed below the Ice God Canyon until now."

Han Fei took a deep breath. "So, it has taken a fancy to Little White?"

The old turtle said with a smile, "It's perception. I told you that you could perceive opportunities after you enter the Dao. Your little white fish is born with Dao runes, so is this ice sand. So they could perceive each other."

Han Fei couldn't help but ask, "What about Little Black?"

The old turtle said, "It's simple. Yin and Yang make up for each other. The little white fish swallowed a spiritual treasure. You can think of a way to let the little black fish swallow a fire-type spiritual treasure. Isn't there a Fire Seed in your painting? It has already gained consciousness. Although it's not as good as the ice sand, it's enough to complement this sand."

Han Fei's face turned green. What the hell are you talking about? Is it my style to kill my own people?

"Fire Seed calls me Master. How can I do that?"

Besides, didn't Fire Seed come out just now and was almost frozen to death? How could Fire Seed compare to this sand? Even Fire Seed wouldn't believe it.

Han Fei said, "That's impossible. Fire Seed calls me Master."

The old turtle was speechless. "Do you have a bottom line?"

Han Fei said with a black face, "Old Yuan, don't push the big devil's thoughts to me. I have my limits. If you speak like this again, we'll be enemies."

The old turtle sneered in his heart. What the hell? Do you have a bottom line? Even the turtle laughed.

The old turtle said leisurely, "Or you turn to your junior sister for help! Isn't there a fire tree in the Fiery Sea? Something that can make such a large area of the sea burn for thousands of years must be extraordinary."

Han Fei realized that it did make sense. He had said that it was like a parasol tree.

However, Han Fei thought of something else. In fact, other than the Fire Tree, if the Blood Sea Divine Wood City was full of the Big Red Trunk, there shouldn't be lacking fire-attribute treasures, right?

With this in mind, Han Fei didn't rush. If there was a treasure, take it. He would think of a way to resolve Little Black's malnutrition later.

Suddenly, Han Fei's pupils were constricted. He saw that Little White opened her mouth and swallowed the ice sand. After the Blue Sea Ice Sand was swallowed by Little White, the spiritual fire on Han Fei's body jumped ten feet high.

The terrifying freezing power disappeared. Although it was still very cold here, it was completely different from before.

Han Fei scanned with his perception, which directly swept across more than a kilometer.

Besides, the temperature was soaring. He believed that his perception range could continue to increase in a while.

Then, in Han Fei's mind, Little Black's voice sounded, "Dad, let me out. I'm going to make a breakthrough."

Han Fei shivered. Little Black made a breakthrough so easily?

Han Fei didn't dare to be negligent. With a thought, Little Black jumped out.

Shua!

Little Black swooshed to Little White, and then the two of them began to swim around each other. The two fish became even more crystalline, and Little White's milky brilliance was comparable to the brilliance of the Heaven Enlightenment Divine Technique. Little Black was even darker. Han Fei couldn't even see the details of Little Black's body with his eyes.

"Shoot! It's all absorbed?"

Han Fei was shocked. There was a kind of darkness that could even absorb light. Little Black was so black now that he could even turn himself invisible. Han Fei could still see Little Black now just because of the environment. Compared to the pitch-black waters, Little Black's darkness was purer. It was so pure that no matter how Han Fei looked at it, he could only see a mass of black. He had to examine it carefully with his perception to distinguish it.

Feeling that the surrounding spiritual energy was drilling into Little Black and Little White's bodies, Han Fei directly took out a large amount of spiritual spring and threw it over. This is my one and only spiritual beast. No matter how much they eat, I must feed them!

Little Black and Little White simply drilled into the spiritual spring, which disappeared at a visible speed.

Han Fei couldn't help being a little surprised. Were the resources required for a breakthrough so much now? He had thrown out at least 10,000 catties of spiritual spring, which was equivalent to 10 million points of spiritual energy. But it was almost all consumed in only a minute?

The old turtle said, "When you enter the Dao, you will understand that spiritual energy is actually not the key. The reason why you are still using spiritual energy is that your disassembling of spiritual energy is not enough."

Han Fei narrowed his eyes when he heard about the disassembling of spiritual energy. Shu Shushan seemed to have told him that when he became an Explorer, he could actually start the next step of disassembling spiritual energy.

When this matter was over, he would check out why the old turtle said this.

He threw out another ten thousand kilograms of spiritual spring. Suddenly, Han Fei sensed something and scanned it with his perception range, which had covered an area of ten thousand meters.

He saw that there seemed to be creatures moving in the ice under the seabed.

Han Fei said solemnly, "There seems to be a lot of creatures down below."

The old turtle said, "Of course, when the freezing power is gone, creatures will still start to revive. But there shouldn't be many. Even without the Blue Sea Ice Sand, this is a place that can give birth to ice sand. Millions of years of freezing can't be broken easily. It will be difficult for them to come out without decades or even a century."

As soon as the old turtle said so, a big octopus appeared, white all over and looking sick.

Han Fei said leisurely, "Didn't you say it would take hundreds of years?"

The old turtle pondered. "Maybe some of them weren't frozen in the first place."
