

GOF 1271

Chapter 1271: White Shell Royal City

The Sea Demon Royal City, the holy land in the hearts of all sea demons.

At this moment, it was right before Han Fei's eyes.

Here was another trench.

Looking from the outside, the trench seemed to be very wide. The crack seemed to be hundreds of kilometers away. The depth from the surface of the sea to the trench was nearly 80 kilometers. The depth from the trench to the Royal City was about 20 kilometers.

In such a case, the depth from the sea surface to the White Shell Royal City was a hundred kilometers.

This meant that even peak-level Hidden Fishers wouldn't be able to discover a magnificent city under their feet when they passed by the sea.

When Han Fei entered the trench, it was as if he had entered some sort of seal. He immediately discovered that there was something wrong with the pressure here.

When he came down from the trench, the water pressure suddenly became countless times lighter. This feeling was the same as when he was hundreds of meters under the sea.

Han Fei was confused. What was that?

The old turtle said, "What's the big deal? With a king guarding this area, he can seal the entire trench. You can regard this place as the surface of the sea. The further you go down, the more pressure there will be."

Han Fei didn't speak. Changshui Qin had already left. When he just entered the trench, his perception had already scanned him. When Han Fei took a closer look, he found that at the entrance of the trench, about a kilometer deep, there were two huge stone turtles lying on the left and right side. Each of them was more than 300 meters long and was still alive.

The old turtle roared, "Damn it! How dare he make my clansmen guard the door? This king deserves to die!"

Han Fei said contemptuously, "Hey, hey! What are you talking about? You turtles are of different species. When did they become your clansmen?"

The old turtle said, "I am the strongest powerhouse of the Turtle Clan. Why can't I be the ancestor of the Turtle Clan?"

Han Fei scoffed. "Don't brag. If another big turtle surpasses the Emperor Realm, it may step through the void and kill you."

The old turtle snorted. "What do you know? Those stronger than me should be dead..."

Realizing that he had said something wrong, the old turtle suddenly stopped speaking.

Han Fei frowned. Those stronger than the old turtle should have been dead?

But the old turtle had once said that one could live forever when he becomes an emperor, and fuse with the Dao when he becomes god.

This meant that, as far as the old turtle knew, there were at least two levels above the King.

Han Fei vaguely guessed that there must have been big secrets he didn't know. How big a thing must have happened to make the gods die?

However, these secrets weren't easy to figure out. It involved too much history! Before the Age of Doom, there might have been a longer history.

Han Fei swam all the way to the Royal City.

As he recalled, the Royal City was at the center of the sea, about 3,000 kilometers away.

Because this trench didn't reach the bottom all at once and had a downward slope, Han Fei saw a large number of luminous creatures.

After walking a hundred kilometers, Han Fei found that most of the creatures here were luminous. Even the most common seaweed was luminous seaweed. There were schools of fish, shells, crabs, starfish, conchs, sea anemones, sea cucumbers, and jellyfish... There were too many varieties of them to count.

These creatures were not strong.

Han Fei even saw a large number of creatures that had just awakened who had just gained consciousness.

They seemed to be used to the appearance of strong masters. Therefore, they were not afraid at all. After all, strong masters would not be so idle as to attack them.

Continuing forward, the creatures Han Fei encountered became stronger and stronger. From the ordinary creatures at the beginning, to the sea beasts such as flood snakes, giant seals, squid, royal ribbons, and giant snails, there were countless of them.

These creatures didn't seem to have any territorial awareness, nor did they dare to have any.

In Han Fei's memory, these creatures could appear outside the Royal City because they were specially searched and brought back. They also needed to go through some training, battles, and killing...

After repeated eliminations, the strong of them would have a chance to enter the Royal City.

When Han Fei returned to the city, he changed into the clothes of the Fish Dragon King and put on an identity sign that belonged to him. This sign was actually a Demon Heritage-level sign.

In the Sea Demon Royal City, people below the Venerable level were not judged by strength, but their demonic heritage.

Those who saw Han Fei's purple waist tag immediately backed off. This was a top Heavenly Talent with an above level-7 demonic heritage, one of the highest ranks in the Royal City.

In particular, some creatures who could tell that Han Fei's waist tag was a level-eight, low-quality spiritual heritage dared not stand in his way at all.

When he came all the way to the Royal City, the strongest person Han Fei had seen was only at the peak of the Sea Spirit Realm. There were no creatures at the Dao Seeking realm still wandering outside the Royal City.

At this moment, Han Fei looked at the mountain in amazement.

This place was shining!

The White Shell Royal City was not big. It was only about 50 kilometers long. However, the construction of the Royal City was extremely magnificent.

The archway that was tens of thousands of meters long and thousands of meters high had the words "White Shell Royal City" written on it. Han Fei felt his eyes ache after taking a few more glances at it.

He had experienced this feeling when he explored the Fiery Mountain, the strongest secret realm in the level-two fishery.

These words were a great technique. His Million Knife Art and Ten Thousand Knives in One were deduced from the line of words in the Fiery Mountain.

Although Han Fei really wanted to deduce the technique of the four words too, if he stayed at the door for so long, someone would definitely notice him.

And now, the last thing Han Fei wanted was to be noticed. If he could keep a low profile and make no one notice him, that would be great.

Besides, there was a row of shrimp soldiers and crab generals guarding at the gate of the city. Every thousand meters, there would be one group, and there were a total of ten groups. If he stood there and looked at the words, would they think he was an idiot?

Although the archway was ten thousand meters long, what was more impressive than the archway were two pillars, which were made of blue jade, a hundred meters thick, and a thousand meters high.

On the pillars on the left and right, the words "Secrets of Heaven and Earth" and "Waterfall Hidden Dragon City" were respectively written.

The two pillars stood on both sides like two big lights. The pillar-shaped luminous pearls illuminated the surroundings. Han Fei landed here and saw the two squads of shrimp soldiers and crab generals bowing to him but didn't say anything.

After all, they were just the guards at the gate who changed shifts. Even if they wanted to, they couldn't greet you at work, right?

Holding the usual pride of the Fish Dragon King, Han Fei simply ignored these shrimp soldiers and crab generals. He didn't even nod at them.

This gate tower was actually equivalent to a portal.

Outside the gate, only vague scenes of the Royal City could be seen. In fact, the Royal City was surrounded by a mist.

When Han Fei stepped into the gate tower, he suddenly saw a magnificent palace. A thousand meters above the waters was a space where sea beasts and jellyfish lived.

Among them, there were powerful jellyfish that were like gigantic light bulbs. Their bodies emitted rays of various colors, illuminating the entire Royal City.

And the roof of the ancient building that seemed to be made of gold almost blinded Han Fei's eyes. This made Han Fei immediately think of Master Hexagon. If he saw it, he must love this place to death. He wondered what animal the king of the Royal City was.

...

In another sea area, in a palace, there were brilliant and dazzling stones piled up. A big starfish with six tentacles was lying on this pile of "treasures". Who else could it be other than the Hexagon Starfish?

Around the starfish, a big octopus was massaging the starfish's tentacles, and a Clam Girl was standing next to the starfish. Occasionally, when the starfish raised his tentacles, the Clam Girl would hold up the jar in her hand and pour a dark green liquid down.

Swish!

All of a sudden, the six tentacles of the starfish lit up, and the starfish shivered and mumbled, "Why a breakthrough again? Alas, I'm going to consolidate my strength again. When will it end?"

...

Han Fei looked at the splendid palace, which looked a bit like the Dragon Palace on TV dramas, as if there were all kinds of treasures hidden here.

However, the fish bones and seaweed ornaments inlaid with gold were too styled, which made Han Fei return to reality.

Han Fei looked to the right, stepped in the air, and flew to his cave. It was the Fish Dragon King's home, and many of his belongings were kept there.

Unlike the outer waters, there was no such thing as stealing in the White Shell Royal City. If you were strong enough, you could steal what you wanted, but if you were discovered, you would be permanently exiled from the Royal City.

In the White Shell Royal City, anyone could go to the trial secret realm to get what they wanted instead of stealing it. Therefore, the cave abodes of every family here had a specific array. Once the array showed abnormal signs, someone would immediately discover it. Then, it would be impossible for the intruder to escape.

The 50 kilometer-large area could accommodate 100,000 people.

Apart from those who lived above the capital as light bulbs, there were even fewer people in the city.

However, when Han Fei arrived at his... no, when he arrived at the residence of the Fish Dragon King, he found dozens of people waiting at the entrance of his residence.

Han Fei's heart did a flip. What's going on? Why are they blocking the door?

Chapter 1272: Battle in the City

In front of the seal of the Fish Dragon King's residence, dozens of people blocked the door, seeming to be waiting.

Needless to say, they must be waiting for the Fish Dragon King, the current Han Fei.

As early as when Han Fei just entered the city, these people seemed to know that Han Fei had arrived. Therefore, at this moment, they all turned their backs to the door and looked in the direction where Han Fei came.

Han Fei scanned with his perception and found that although there were familiar faces in this group of people, there were no familiar Heavenly Talents. These people seemed to be the servants of some Heavenly Talents, so they shouldn't be here to cause trouble.

Suddenly, Han Fei turned his head and looked at a high-rise building ten kilometers away. Someone was looking at him with a scorching gaze, which stunned Han Fei.

When Han Fei took a closer look, he was slightly stunned. Sure enough, there were still strong masters on the Genius List watching him.

This person was not a Half-Merman or a Merman, but a Lobster-Man. However, he couldn't be called a lobster soldier because he was ranked sixth on the Genius List and had the strongest Lobster bloodline in the White Shell Royal City.

This person was called Shrimp Youwei. He wore bright red armor, a bright helmet on his head, and on the helmet, there were two crystal-clear and sharp shrimp whiskers. This person had two feet and six hands and was holding a sharp spur in each hand.

The two of them looked at each other, and in Han Fei's mind, Shrimp Youwei's voice rang. "I heard that you've gained a great opportunity this time. You killed Shark Ball and Yu Guang in one battle? And you even transcended the tribulation one step in advance?"

Han Fei remembered that this person hadn't transcended the tribulation yet. Among the top ten of the Genius List, only the top three had transcended the tribulation. However, there was a guy named Zhang Xiaotian who was ranked fourth, who was in fourth place and refused to transcend the tribulation. This person said that he was the fourth, waiting for someone to seize his position.

As a result, the top three of the Genius List in the White Shell Royal City never needed to do anything. Whenever someone wanted to fight, Zhang Xiaotian would welcome them. Because Zhang Xiaotian refused to transcend the tribulation, no one else did.

Heavenly Talents were all arrogant creatures. Someone was already so strong without transcending a tribulation. As Heavenly Talents, how could they easily transcend a tribulation?

Han Fei frowned. "If it weren't for the special circumstances, why would I transcend the tribulation?"

Shrimp Youwei nodded approvingly. "You're right. Only by surviving can you be proud. Shark Ball and Yu Guang failed this time. It seems that they underestimated you."

Han Fei curled his lips and said, "Heh! They just knew that I was going to break into the forbidden area and were worried that I would be too strong and snatch their position. How could they underestimate me?"

A smile appeared on the corner of Shrimp Youwei's mouth. "You're already so arrogant when you face me. It seems that you've gained a really great opportunity in the front line this time. Since you are so confident, let me see what makes you so confident?"

Han Fei frowned slightly. Shrimp Youwei seems to be quite strong. Although he didn't take him seriously, if he showed that he could defeat the powerhouses on the Genius List in a row and advanced all the way with irresistible force, it would arouse suspicion.

In Han Fei's impression, Shrimp Youwei was ranked sixth but was actually the goalkeeper of the top five. He once said that if anyone wanted to challenge Zhang Xiaotian, he should challenge him first. Only by defeating him would he be qualified to challenge Zhang Xiaotian. The Fish Dragon King had once challenged this person, but he was defeated after taking 13 blows from Shrimp Youwei.

The old turtle said, "This person should not be weak. If I've guessed right, his original body is a Fire Shrimp whose defense, speed, fire element control, and armor breaking ability are all very outstanding. Unfortunately, his demonic heritage is not good enough, which is much worse than mine."

Han Fei sweated. "Old Yuan! Has anyone ever said that you are narcissistic?"

The old turtle snorted. "I'm telling the truth."

Ignoring the old turtle, Han Fei glanced at Shrimp Youwei indifferently. "When I come back from the forbidden place, I'll challenge you first."

"Pfft!"

Suddenly, a chuckle was heard, and a woman in green walked out of a red jellyfish-shaped building.

The woman smiled and said, "Fish Dragon King, are you scared of fighting? How can you refuse a battle?"

Han Fei knew this woman, a Clam Girl named Qing Siling, ranked fifth. She was a talkative Clam Demon, but her strength couldn't be underestimated. She was the fifth on the Genius List.

As Han Fei recalled, the Fish Dragon King had never fought this woman. Few people even challenged this woman because this woman had entered the Purgatory-level trial eight times in a row and returned safely.

However, this woman reminded him that the Fish Dragon King was an extremely arrogant person. In the face of a challenge, even if he couldn't win, he wouldn't flinch, so he might have to fight this time.

Immediately, Han Fei stopped in midair and looked at the two of them indifferently. "I didn't fight because I wanted to explore the forbidden-level secret realm. You two, do you think I'm afraid?"

Qing Siling chuckled. Really? Or, have you become timid after being ambushed?"

At this moment, Han Fei sensed thousands of perceptions. He wondered how many people were watching this scene.

After all, many people were very curious about his current strength.

If it were the previous Fish Dragon King, Shrimp Youwei wouldn't have come to provoke him at all! Because he was very sure that the Fish Dragon King was not his match.

But now, Han Fei had killed the eighth and ninth Heavenly Talents on the Genius List in one battle, so he was ranked eighth. If he guessed right, his strength must have improved a lot.

Now, Shrimp Youwei was here just to see how strong Han Fei was.

Han Fei thought to himself, Although the ambush this time was rather secret, the law-enforcer in the capital had already punished them, which had been announced. After all, this was the job of the strong masters such as Hai Tinglei. It was not good to let the city be as drab as dead water. They had to make some noise from time to time.

Han Fei thought to himself, I'm afraid this battle can't be avoided. Now that we've pushed me like this, if I still avoid the battle, it won't be in line with Fish Dragon King's personality.

When he first saw the Fish Dragon King, this person was very happy to fight a group of guys much weaker than him. Now facing this kind of fight of the same level, he had no reason to avoid it.

Han Fei suddenly grinned. "When have I ever been afraid of fighting? Don't you just want to see my current strength? Since you want to see it, I'll show you."

Shrimp Youwei grinned. "This is the Fish Dragon King I know. In that case, come and fight me."

Then, Shrimp Youwei set himself on fire. With a swish, he soared into the sky like a flame and went straight to a thousand meters above.

In the White Shell Royal City, fighting was an exciting thing. Only fighting could show the gap in strength. Therefore, the sea demons thought that this was something worthy of admiration.

Just like in the arena in the Ten Thousand Demon Valley, countless people were watching.

In the White Shell Royal City, the battlefield was not in the buildings or underground, but in the sky above the Royal City.

At a height of 3,000 meters in the White Shell Royal City, there was a king-level seal. You could enter and fight, but the aftershock of the battle would not fall. Once it touched the seal, it would be stopped.

Han Fei glanced at the gate of the Fish Dragon King's cave. Those people were also watching and didn't seem to mind waiting for a while.

Without hesitation, Han Fei activated the Near at Hand Technique. With one step, he was a kilometer above in the sky, and with two steps, he had already appeared in the sky.

The Near at Hand Technique was the symbol of the Fish Dragon King. At this moment, it must be shown.

When the two of them reached the sky, the sea beasts that had been wandering above the Royal City all made way for them.

Han Fei didn't expect that he would have to perform for everybody the moment he came to the White Shell Royal City...

Shrimp Youwei, however, said, "You've just transcended the tribulation and haven't consolidated your strength yet. I won't give you a hard time. You can use the power of the Dao Seeking realm."

Han Fei sneered. "How can I take advantage of you? Have I ever been afraid of a Sea Spirit?"

In the city, many people released their perceptions, and more people walked out of their houses.

The servants of a level-six demonic heritage remarked, "The powerhouses on the Genius List are truly terrifying. They're already so strong, but they still fight all day long."

Someone sneered. "Do you think they're like us? How can it be easy for them to become top Heavenly Talents?"

Someone exclaimed, "Do you think the Fish Dragon King will win this time?"

Someone couldn't help but say, "I don't think so. No matter how fast his strength grows, he can't beat Master Shrimp Youwei in one fell swoop, right?"

Someone speculated, "If the Fish Dragon King doesn't suppress his realm, he won't lose, right?"

Someone pondered. "The point is, how can he not suppress his realm?"

In addition to ordinary people discussing, there were also some Heavenly Talents watching coldly.

For example, a bald young man stood next to Qing Siling and said casually, "Fighting four alone, he can't be weak."

Qing Siling asked in surprise, "Xiaotian, when did you come back?"

This little baldy was Zhang Xiaotian, who was ranked fourth. He had been in the Purgatory-level trial, but now he had returned.

Zhang Xiaotian raised his head and looked at the sky. "It was boring, so I came back. I wanted to try the forbidden-level trial, but I didn't expect that the Fish Dragon King would come here first."

In a certain palace, a Venerable turned his head and watched the battle. Few things could attract their attention now. This Heavenly Talent battle was just a show for them.

After all, not all Venerables were dedicated to cultivation. Most Venerables lived a decent life. Some Venerables who had no chance of breaking through were even idler.

In the sky, Han Fei pretended to reduce his realm and held the red spear as if he were holding a red light.

Han Fei said, "Since when can a shrimp be compared to me? Take my spear..."

Chapter 1273: Near At Hand · Instant · God Scaring Stab

Under the thousands of gazes, Han Fei took action. The spear beam was simple and unadorned, but the spear technique stunned countless people.

Han Fei raised his foot and disappeared. At the moment Han Fei disappeared, Shrimp Youwei held the six cold spikes in his hand and pierced through the void in an instant.

Just as he was a thousand meters away, a huge cone shot out of the void at an extremely fast speed.

Han Fei was appearing in this space. The moment he appeared, he moved his body aside and threw out the Instant Mystic Spear. As if space had been shortened, he appeared in front of Shrimp Youwei.

"Huh?"

When Han Fei attacked, many people noticed something.

In the outer sea, what Han Fei encountered most was the Sea Spirit Realm sea demons, at most some in the Dao Seeking realm. Normally, he wouldn't use the Instant Mystic Spear.

Normally, he would use his full strength to directly kill his enemy.

At this moment, in the White Shell Royal City, where sea spirits were everywhere, after Han Fei attacked, someone immediately discovered something.

Changshui Qin was slightly surprised. "The law of time?"

A Venerable was puzzled. "Master the law of space and time at the same time? This Fish Dragon King is quite capable. It seems that the Dragon King bloodline can't be underestimated."

In midair, at the moment when time was frozen, Shrimp Youwei was so shocked that he thought he was distracted. The cone in his hand flashed with fire, and like a fire shield, it instantly appeared in front of him.

With a crisp clang, in the sky, a seemingly weak ripple spread out for dozens of kilometers, almost covering the entire White Shell Royal City.

Crack... Crack... Crack...

The flame shield quickly cracked, but taking advantage of the critical moment when the flame shield was broken, Shrimp Youwei flapped his six limbs and struck more than thirty times in a row. Then, he retreated quickly and took the blow.

At this moment, Shrimp Youwei's arm trembled slightly. How did the Fish Dragon King become so fast? Also, his strength was more than 30% greater than before!

Below, Zhang Xiaotian's pupils were constricted. "It's the law of time. The Fish Dragon King actually mastered the law of time on this trip. No wonder he could kill Shark Ball and Yu Guang."

Qing Siling couldn't help frowning. "The law of time? Isn't it the law of space? Why has it become the law of time?"

Zhang Xiaotian shook his head slightly. "No, time was paused at the moment when the spear light pointed at Shrimp Youwei. However, the Fish Dragon King didn't grasp it well enough. He probably didn't grasp it well enough. Otherwise, Shrimp Youwei would have been defeated."

Shrimp Youwei calmed down. As he expected, the Fish Dragon King was no longer the same as before. This move alone was worthy of his attention.

Han Fei, on the other hand, was also surprised. Shrimp Youwei had managed to block the Near at Hand Technique with the Momentary Time. This showed that Shrimp Youwei's reaction speed was extremely fast.

Also, Han Fei immediately found that the two whiskers were gone.

He took a step and crossed a kilometer, and the two whiskers, like invisible whips in the air, almost brushed past his chest and cheeks.

In the eyes of outsiders, Han Fei was sliding past two extremely sharp void cracks. If he wasn't careful, he would be torn apart.

However, in this shocking scene, Han Fei didn't even look back and thrust the spear backhand. This thrust transformed demonic energy into a dragon and rushed out.

Shrimp Youwei sneered. "How do you have the cheek to attack me with such a method?"

Halfway through his words, Shrimp Youwei's expression suddenly changed. He felt his soul tremble, and a terrifying soul sting hit him.

"Pfft!"

Shrimp Youwei suddenly spurted blood. Yes, spurted blood.

Caught off guard, he was hit by Han Fei's God Scaring Stab. Of course, he was injured.

However, Han Fei hadn't fully mastered the God Scaring Stab yet. He still had half of the God Scaring Painting unfolded!

Otherwise, if he had the complete version of the God Scaring Stab, he probably wouldn't dare to use it. No matter how many changes the Fish Dragon King had undergone, it was impossible for him to master the law of time and comprehend a powerful soul attack technique after going out for only a few months!

The reason why Han Fei dared to use it was naturally because he hadn't mastered the law of time and the God Scaring Stab well. He imitated Zhang Xuanyu's law of time, so there was still a gap.

And he used this God Scaring Stab because the Fish Dragon King was good at spear techniques. The God Scaring Stab was also a spear technique, but it was just a soul spear technique.

At the moment when Shrimp Youwei's seven orifices were bleeding, the dragon-shaped demonic energy hit them and caused a loud bang.

In just one clash, Han Fei used three killer moves.

He wasn't afraid of being exposed. He was going to the forbidden-level trial. It wouldn't make sense if he didn't have some ability!

At this moment, Han Fei turned around and flashed, and the spear in his hand, wrapped with demonic energy, was thrust out.

In an instant, Shrimp Youwei who was injured by Han Fei launched a fierce counterattack.

He seemed to be seriously injured, but in fact, it was not that serious.

The Instant Mystic Spear was blocked, and Han Fei hadn't mastered the God Scaring Stab well, so it didn't seriously injure his soul. As for the Violent Spike, it only caused a minor injury to Shrimp Youwei at most.

Only then did the fierce battle between the two start.

Lights and shadows flashed in midair, and various combat skills appeared.

Under Han Fei's deliberate effort, the footwork and combat skills he showed were weaker than Shrimp Youwei, but Han Fei's physique, strength, and soul power had become stronger.

The two parties fought for about half an hour, and Han Fei showed some signs of exhaustion. But at the same time, Shrimp Youwei was no better. Like Zhang Xuanyu, he could use a combat technique similar to the Tertiary Body, but he still failed to win.

Below.

Qing Siling said solemnly, "Not good. The Fish Dragon King's strength has surged. Now, he hasn't completely digested this power. If he comes out of the forbidden-level trial alive, his strength may increase by another twenty percent."

Zhang Xiaotian shook his head slightly. "Obviously, his gains from this trip were not completely absorbed. No wonder he needed to stay outside for so long before he came back. He went out to gain experience for five months, and when he came back, he went to the forbidden-level trial ground to gain experience. Once he has fully grasped it, I'm afraid he can fight us."

Qing Siling's eyes turned cold. "Then let him try."

In the eyes of the Heavenly Talents and servants with level-six Demonic Heritage or above, such a battle was already too unbelievable. How could this be the power of a Sea Spirit? It had reached the power of the Dao Seeking realm. Whether it was laws, combat skills, or soul attacks, they didn't dare to think about it.

Someone sighed. "It's useless to watch such a battle. The laws of a Heavenly Talent-level battle are better than ours. Their combat skills are also very special and not something we can match."

Some people were excited and thought to themselves, We are all cultivators. The level-six demonic heritage is actually not weak. We also have a chance to grow into powerhouses.

Many Dao Seeking demons were wondering if the Fish Dragon King was worth following. If the Fish Dragon King could return alive from this forbidden trial, they might consider it.

As for the Venerables, they were relatively calm. With different perspectives, they had different opinions on strength. No matter how talented he was, he had to survive to the Venerable realm. Unless he had the potential to become a king, no geniuses deserved their full support.

“Stop!”

In the void, a dignified voice descended. A phantom appeared, and when everyone saw that person, they lowered their heads. It was the law enforcer of the Royal City, Hai Tinglei.

Hai Tinglei glanced at the two of them and said indifferently, “You can challenge him, but no fighting is allowed. In this competition, the Fish Dragon King has the advantage in the realm, so he is counted as slightly defeated and will be ranked eighth on the Genius List.”

This result was because the combat power that Han Fei showed was weaker than that of Shrimp Youwei. This was what he deliberately showed. Otherwise, if the gap in strength was too large, it would inevitably arouse suspicion.

At this moment, Shrimp Youwei showed no anger or surprise. Instead, he took a deep look at Han Fei. “You’ve improved in all aspects? That’s good. I look forward to your challenge again.”

Hearing that, Han Fei raised his head high. “Next time, you will surely lose.”

Speaking in such a tone, Han Fei felt that his acting skills were very good, very in line with the personality of the Fish Dragon King.

Shrimp Youwei seemed not to hear him. With a smile, he stabbed the spurs into his shell with his six hands and turned away.

After Shrimp Youwei left, the crowd dispersed, and everyone retracted their gazes.

Han Fei felt a gaze still on him and turned his head, only to see a baldy. He immediately narrowed his eyes slightly. Zhang Xiaotian?

In the memory of the Fish Dragon King, he seemed to have challenged Zhang Xiaotian before but was defeated by him with one hand. And this Zhang Xiaotian was known to be invincible in the Sea Spirit Realm. So far, no one in the Sea Spirit Realm could defeat him.

Han Fei really wanted to suppress his realm and fight this man.

After all, the top three of the Genius List were just nominal. Everyone had already transcended a tribulation. It was said that because their talent was too high, they left their ranking on the Genius List. It was said that as long as someone could beat Zhang Xiaotian, the three of them would come out.

Looking at Zhang Xiaotian, Han Fei pretended to be angry and snorted. In a few steps, he reached the gate of his cave.

Looking at the people still blocking the door, Han Fei asked coldly, "Why are you here?"

One of them smiled and held a Sun-Moon Shell in his hand. "Master Dragon King, we're here to deliver something. These are all the resources of Master Yu Ding."

Another person also held the Sun-Moon Shell and said, "Master Dragon King, this is all the reserve resources of Master Shark Ball."

"Master Dragon King..."

Han Fei was almost stunned. F*ck, are you here to give me resources? Why didn't you tell me earlier?

Chapter 1274: Rich Heavenly Talents

Han Fei received a total of 12 Sun-Moon Shells and 16 Sea Swallowing Seashells. This was the resources of everyone except Gu Buyu.

Han Fei immediately regretted it. If he had known that the resources of whoever he killed would belong to him, he would have killed Gu Buyu too. The reason why he let Gu Buyu go back then was that this woman's defense power ranked in the top five of the Genius List. Besides, he also wanted to let go of a person to spread his heroic deeds.

Unexpectedly, she was punished before she ran back to the Royal City.

Han Fei didn't know why the three of them had 28 Sun-Moon Shells. It must be because Shark Ball and the others had some accumulation. Anyway, this number was really awesome.

If possible, Han Fei hoped that he would be ambushed every day. In this way, he might be able to get Sea Swallowing Seashells every day.

...

Han Fei had already simulated the aura of the Fish Dragon King with the Deceit Technique.

To be honest, he was now the Fish Dragon King. Therefore, when he stepped into the residence's seal, he wasn't stopped at all.

Stepping into the residence, the old turtle took the lead to say, "This seal is good and secret enough. It's a fixed array. It can fool the eyes of a Venerable, but it definitely can't block the eyes of a king. Therefore, even in the residence's seal, we still have to act."

Han Fei said, "Doesn't the White Shell Royal City only have one king? Why would a king peep at a junior Dao Seeking realm like me?"

Pondering for a moment, the old turtle said in Han Fei's heart, "Generally speaking, yes. The perception of a king can cover every corner of this city, even every grain of dust. It's like a game to monitor you."

Han Fei's heart skipped a beat. That's too much! Do kings really have such a creepy hobby?

For some reason, Han Fei thought of Zhang Xuanyu. If that guy became a king, he would probably like to peep at women the most.

Reminded by the old turtle, Han Fei certainly didn't dare to do anything outrageous. He maintained the usual arrogant posture of the Fish Dragon King.

But out of curiosity, Han Fei grabbed all the Sun-Moon Shells and Sea Swallowing Seashells and examined them.

Han Fei thought to himself, Even a king wouldn't pry into every person in the Royal City, right? Why would a king do that to a mere Fish Dragon King?

Then Han Fei was briefly stunned. Gosh, how much spiritual spring was there?

Not daring to say it aloud, Han Fei recited in his heart, "This one has 200,000 catties, this one has 180,000 catties, this one has 280,000 catties, this one has..."

Han Fei poured all the spiritual spring into a Sun-Moon Shell.

He weighed it and found that it was probably more than three million catties. Plus his own storage, it was almost four million catties.

The old turtle said, "Don't forget, this is your residence now. You should have a secret stash."

Han Fei's heart did a flip. That's right. The Fish Dragon King couldn't take all his wealth to the front line, especially an extremely conceited guy like him. He certainly wouldn't take all the good stuff to the front line because he disdained it.

Instead of consolidating the resources immediately, Han Fei went straight into the Fish Dragon King's residence.

The Fish Dragon King was quite combative. F*ck, there wasn't even a chair at home. What he saw was seven or eight spears placed in various corners. There were no decorations on the surrounding walls, only spear marks.

Except only one wall.

On the wall, the Fish Dragon King had created a picture of a flood dragon with golden sand. However, the flood dragon looked strange and resembled a dragon.

Han Fei couldn't help but look puzzled. So, this Fish Dragon King was probably enchanted by his name and bloodline and yearned for creatures like dragons. However, he had never seen a dragon before, so he created such a weird dragon picture?

In front of this wall was a big chair with a turtle shell as chair back and crab claws as armrests, which looked like a throne made of steel. It could be seen that the Fish Dragon King was not only extremely arrogant and conceited, but also very narcissistic.

Who would build a throne in their own home? Probably only people like the Fish Dragon King would do that.

Seeing this throne, Han Fei suddenly had an urge to sit on it.

Wait, why the hell do I want to sit on it?

Suddenly, Han Fei's face changed slightly. Something was wrong. This was the side effect of the Soul-Attracting Technique! He had always thought that he could act as the Fish Dragon King well because of his good acting skills.

But at this moment, when Han Fei saw this ugly yet a bit cute throne, he suddenly realized a problem: was it because of his good acting skills, or was it because the Fish Dragon King's memories had infected him?

Before he used the Soul-Attracting Technique, Han Fei already felt that he was much stronger than the Fish Dragon King, so there shouldn't be a problem.

But now it seemed that there were still some influences.

"Heh! The old turtle is malicious. Fortunately, I only read the memories of the Fish Dragon King."

However, Han Fei didn't panic. Anyway, he had to act as the Fish Dragon King, so he had to sit on the throne.

Han Fei sat cross-legged on this throne and opened a fish skin before his knees, and a switch was revealed. After opening it, there was a Sun-Moon Shell and three Sea Swallowing Seashells inside.

Han Fei couldn't help but grin. Sure enough, the rich were the rich. Sun-Moon Shells were more popular in the Water-Wood World.

The Fish Dragon King had already brought a lot of resources to the front line. Otherwise, there should be more resources here.

Half an hour later, Han Fei calculated the number of resources he had obtained.

4.5 million catties of spiritual energy. The combined resources of the four Heavenly Talents in the White Shell Royal City were not much less than the resources he gained in the Free Trade Valley of the Ice Mountain City.

Apart from that, there were more than 800,000 catties of Spirit Awakening Fluid, which was not much. He estimated that these people had probably already nurtured their Companion Spirits.

After all, the sea demons seemed to only have one companion spirit, and it seemed that only humans could have contractual spiritual beasts.

There were 10,821 spiritual energy fruits, 8645 energy fruits, 482 poisonous fruits and 566 spiritual power fruits.

Two high-quality Divine weapons, thirteen mid-quality Divine weapons, and as many as 42 low-quality Divine weapons.

There were as many as eighty high-quality Divine materials. As for the other materials, he had to measure them in tonnage.

After all, refining a good weapon required a lot of resources.

In addition to these basic items, there were also more than 120 sea demon combat skills. There were more than 60 fish skin maps. Han Fei compared them and searched in his heart. There were only five spots that hadn't been marked by Queen Life.

Unfortunately, Han Fei had no time to explore the secret realm now. He might only have time to roughly check them. What if the original body of the Water Immortal was there?

Judging from the map given to him by Queen Life, the target was very clear. It was the White Shell Royal City and the Blood Sea Divine Wood City.

However, how could the people of the Water-Wood World sneak into these two places?

Fortunately, Han Fei appeared. He had many means and could even become a sea demon. How could Queen Life not use such a talent?

However, Han Fei compared the sea chart and finally confirmed that these places were within 200,000 kilometers of the White Shell Royal City.

It wasn't that Han Fei didn't believe it, but that these places were too close to the White Shell King City. If the Water Immortal's original body was here, with so many Venerables, Dao Seeking great demons, or even kings here, how could they not discover these secret realms nearby?

Throwing away these maps of the secret realm, Han Fei felt a little irritable. He seemed to make a mistake. The Water Immortal said that with the Lotus Petal in his hand, he could sense her true body within ten thousand kilometers.

But now, the entire Royal City was only 50 kilometers long. Even if the entire Abyssal Chasm was included, it should be less than 10,000 kilometers. It could be seen that the true body of the Water Immortal was not in the White Shell Royal City.

He had to find an opportunity to explore the 500,000 kilometer area around! Otherwise, he would have to find a way to escape the White Shell Royal City and go to the Blood Sea Divine Wood City.

After sorting out the resources, Han Fei had no time to use them, nor could he directly deduce anything in the White Shell Royal City.

Having no choice, Han Fei could only start to practice the Demon God Scripture. This technique was quite extraordinary. If a king observed it, he would probably think that the reason for his rise was related to this technique. In that case, he would have successfully deceived another king.

Han Fei certainly couldn't make another breakthrough here.

After all, he had just advanced to the Dao Seeking realm in name and hadn't even consolidated his foundation yet.

And his real strength was already at the peak of a junior Explorer. This speed was already extremely fast. After all, the Explorer realm was no longer the Sea Demon Realm. Even if he had enough resources, he could easily leap five or eight levels.

However, he needed to lay a solid foundation for this stage to become an intermediate Explorer.

Half a month later.

Bam! Bam! Bam!

Standing outside the yard, Gui Sanqing said, "Young Master, it's time for the trial."

Han Fei rose quickly. He had already stuffed all his resources into Forge the Universe. Only then did he feel at ease.

Outside the gate, a Half-Merman respectfully said, "Master Dragon King, under the order of Venerable Changshui, I'm here to invite you to the trial field."

Han Fei's heart did a flip.. After waiting for half a month, the trial finally came.

Chapter 1275: Choosing the Forbidden Area

The trial grounds in the Sea Demon Royal City were a bit like the Thousand Star Proving Ground and the three Holy Lands in the Thousand Star City.

The difference was that in these trial secret realms, strange things like losing memories wouldn't happen.

In the center of the White Shell Royal City, there were five teleportation arrays. According to the difficulty of the trial, they were respectively simple, ordinary, difficult, purgatory, and forbidden areas. According to the color of the teleportation array, there were five colors: white, green, blue, purple, and black.

Each of the five teleportation arrays had a diameter of about 100 meters, and the simple and ordinary teleportation arrays often sent people in and out.

In the White Shell Royal City, everyone needed to go to trial. This was compulsory. So all these trial secret realms, under normal circumstances, had been open all the time so that people could enter at any time.

About 80% of the residents in the White Shell Royal City were wandering between the simple and ordinary trial sites. This led to many people entering and exiting the arrays most of the time every day.

Of course, the teleportation array was just a teleportation array, and behind each teleportation array, there was more than one trial secret realm. As long as you entered the teleportation array, it meant that you chose this difficulty. As for which trial ground you wanted to go to, no one cared about it.

When Han Fei arrived, a Half-Venerable seemed to be already waiting here. Seeing Han Fei arrive, this person took a deep look at the Fish Dragon King and then nodded slightly. "Because very few people go to the forbidden-level trial field, most people don't know it well. I will go with you and give you some instructions."

Han Fei was a little indifferent. This person's name was Yu Tianxin. He was very strong and was known as the strongest in the Dao Seeking realm in the White Shell Royal City. He didn't expect this person to be in charge of opening the forbidden-level trial.

Han Fei nodded. "In that case, thank you, Master Tianxin."

In front of the teleportation array, there happened to be a group of about twelve or thirteen people walking together, who seemed to be preparing to go to some trial secret realm together. However, as soon as these people arrived here, they were surprised to see the Fish Dragon King and Yu Tianxin, the strongest in the Dao Seeking realm in the White Shell Royal City, standing in the black teleportation array, which was the forbidden-level teleportation array.

Then, under their watch, the two of them walked in one after another, only to see black light swirling and a mist covering them. Where could they be seen?

The twelve or thirteen people were all stunned. This wasn't the first time they came here, but the forbidden-level teleportation array had never been used before. Why was it used this time?

Someone exclaimed, "Who was that just now? He actually went to the forbidden-level trial field."

Someone said with a complicated look, "It seems that you haven't been here long enough. You don't even know the Fish Dragon King. He's famous for being arrogant and conceited."

Someone sighed. "Didn't the Fish Dragon King just fight Shrimp Youwei? He seems to be weaker than Shrimp Youwei. Is he going to the forbidden-level trial field now?"

Someone shook his head slightly. "How can it be so easy to enter the forbidden-level Proving Ground? This Fish Dragon King is arrogant and conceited. I think his chance of survival is not high."

...

When Han Fei followed Yu Tianxin into the forbidden-level trial field, he saw a cliff that was covered with weird wrinkles, and four dark caves on the cliff.

Above the four caves, it respectively wrote:

The Well of Abyss.

Demon Suppression Tower.

The Lightning Prison.

Godfiend Sea.

Just by looking at the names, Han Fei knew that none of these four places seemed simple. Otherwise, they wouldn't be called forbidden-level trial fields. Even Heavenly Talents felt that it was hard to survive these places.

In the memory of the Fish Dragon King, there was no memory of any of these four places.

Therefore, when Han Fei saw the four Proving Grounds, he couldn't help but be stunned. It looked too weird.

However, before Yu Tianxin could speak, Han Fei suddenly felt that the lotus petal left by the Water Immortal in Forge the Universe trembled slightly.

Han Fei was immediately refreshed and excited. Did he come to the right place?

As if sensing Han Fei's shock, Yu Tianxin said lightly, "This is the forbidden-level trial field you want to go to. There are only four places in total. Since you want to explore them, you've got what you want. Now let me give you a simple explanation."

Yu Tianxin pointed at the Well of Abyss and said, "That secret realm is an extremely deep seabed cave. It was connected to a certain abyss in the Wall of Death, and sea beasts are rampant there. They don't care if you are a sea demon or not. In their eyes, you are just food."

Han Fei was surprised. "The Wall of Death?"

Yu Tianxin smiled faintly. "Although the Wall of Death is terrifying, it is not terrifying everywhere. Although the Well of Abyss is connected to the Wall of Death, since this place has been established as a trial field, there is a chance for a trial, so there won't be creatures much stronger than you. Of course, not every place in the trial field can be explored, so there should be many special places where there may be powerful sea beasts."

Han Fei looked solemn. "In that case, is it very likely that an unknown existence beyond my ability will appear in the forbidden-level trial field?"

Yu Tianxin said, "The premise is that you can resist the temptation. Don't explore places you can't reach!"

Han Fei looked past the Well of Abyss and at the Demon Subduing Tower.

Yu Tianxin said, "The Demon Subduing Tower, this is the nearest forbidden area to the Wall of Death. As its name suggests, it is the place to suppress sea monsters and ferocious beasts. However, the source of the sea monsters here is the Wall of Death."

Han Fei was shocked. "Can the creatures in the Wall of Death come out?"

Yu Tianxin said, "The Wall of Death is just a means of sealing. As long as it's a seal, there will always be a problem. This Wall of Death has existed for countless years. Isn't it normal to occasionally miss a few small fish?"

Han Fei asked, "Are they locked up together?"

Yu Tianxin shook her head. "Of course not. The tower is actually a cave. There are layers to the cave. The Demon Subduing Tower is an ancient place that had existed before the White Shell Royal City. The king once tried to enter it and also felt the danger from the bottom level of the Demon Subduing Tower, but he couldn't enter it."

Han Fei's eyelids twitched, and he was dumbfounded. "Huh?"

Seeing Han Fei's expression, Yu Tianxin smiled faintly. "Why are you panicking? That's at the bottom level of the Demon Subduing Tower. How can it be a place that you and I can reach? The Demon Subduing Tower is divided into different realms according to the strength of the suppressed sea demon beasts. From top to bottom, there are a total of nine levels. They correspond to the Sea Spirit, Peak Sea Spirit, Dao Seeking, Peak Dao Seeking, Half-Venerable, Venerable, Peak Venerable, Half King, and King realms."

As he said this, Yu Tianxin couldn't help but glance at Han Fei. "I have to say that this Demon Subduing Tower is the most unsuitable for you. If you were still in the Sea Spirit Realm, with your talent, there's a high chance that you would be able to pass through it. However, you just happened to break through to the Dao Seeking realm. Among the three realms, you are the weakest. If you enter it, you might be torn apart."

Han Fei's heart did a flip. He hoped that the Water Immortal wasn't in the Demon Subduing Tower. It didn't sound simple. How could he shake a place that could even suppress a f*cking king?

Let alone a king, logically speaking, going to the fifth level might already be his limit.

Seeming to be sure that Han Fei wouldn't choose the Demon Subduing Tower, Yu Tianxin looked at the Thunder Prison and said, "I don't know much about the Thunder Prison. I can only say that Master Hai Tinglei cultivated and stepped into the Dao here."

Han Fei was taken aback for a moment. "Does Master Hai Tinglei still need to go to the forbidden trial field?"

Yu Tianxin said indifferently, "It's more like a cultivation field than a training field. In this space, what you have to face is endless lightning and thunder. As you go deeper, the intensity of the lightning and thunder becomes stronger. It is said that at the end, you can see creatures in the lightning and thunder."

In the end, Yu Tianxin pointed at the Godfiend Sea. "Among the four forbidden-level secret realms, the top three have their own characteristics. The safety of the Godfiend Well can be high or low. Everything depends on your luck. The Demon Subduing Tower has experienced the precipitation of countless years. It can be said that no matter which floor you go to, the creatures you encounter are bound to be extremely powerful. As for the Thunder Prison, as long as you are confident in being able to withstand the lightning and thunder, relatively speaking, it's the least dangerous."

Han Fei couldn't help narrowing his eyes. "What about the Godfiend Sea?"

Yu Tianxin said casually, "The Godfiend Sea is in the Wall of Death."

"Pfft!"

Han Fei looked at Yu Tianxin in shock. Are you kidding me? Can we go into the Wall of Death?

Yu Tianxin curled his lips. "Don't look at me. As I said, the Wall of Death has been sealed for too long. It's possible that some part of the seal was accidentally broken. This Godfiend Sea is such a place, but the king restored the seal with special means and fixed the broken part. The disadvantage is that the king used some means, which can reflect the creatures in the Wall of Death. Besides, it might not be one, but a group."

Han Fei: "..."

Han Fei was speechless at Yu Tianxin's explanation. No place sounded simple. If there was one place that was suitable, it was the Thunder Prison, which was definitely suitable for his cultivation.

Han Fei couldn't help asking, "How long can I stay in a forbidden-level secret realm?"

Yu Tianxin said lightly, "There is actually no limit to this. If there is a time limit, it's seven days for the Well of Abyss and the Demon Subduing Tower, three days for the Thunder Prison, and one day for the Godfiend Sea. This time limit is set just to confirm that you are still alive."

Han Fei keenly grasped the word "no limit" and hurriedly asked, "No limit?"

Yu Tianxin said, "The time limit is set mainly to confirm that you are still alive.. If you think you can still stay inside, come out first and explain the situation. After obtaining the approval of Master Changshui Qin, you can enter again!"

Chapter 1276: Thunder Prison

Han Fei glanced at the lotus petal in Forge the Universe. However, except for a slight tremble at the beginning, the lotus petal had no response.

As if knowing what Han Fei was thinking, the old turtle's voice sounded, "It's not because the place where your master is located is within ten thousand kilometers of you, but because your master is somewhere in these four forbidden places, and these forbidden places may be very far away from you. However, because there are teleportation entrances, the lotus petals can perceive it. You just need to walk past these four entrances once."

Han Fei immediately realized that he had already chosen the one he wanted to go to. No matter which forbidden place the Water Immortal was in, he would choose the Thunder Prison. Because of his physique, the Thunder Prison shouldn't have a chance to kill him.

Besides, by choosing the Thunder Prison, he might be able to cultivate quickly. After all, he didn't lack any spiritual spring or energy fruits. With the help of thunder and lightning, he might be able to improve his Indestructible Body further.

Yu Tianxin looked at Han Fei. "Have you decided what to choose?"

Yu Tianxin was not surprised at Han Fei's choice. After all, although there were unpredictable dangers in the Well of Abyss, it was still a good choice and might help him avoid most of them.

However, when Yu Tianxin saw Han Fei walk to the entrance of the Well of Abyss, he turned and went straight to the Demon Subduing Tower.

Yu Tianxin couldn't help but frown. "Although the Demon Subduing Tower is the place with the most opportunities, it's definitely the most dangerous place. It's extremely dangerous for you to enter with your strength."

However, Han Fei didn't listen to Yu Tianxin. Instead, he concluded that the Water Immortal was not in the Well of Abyss. When he walked straight to the entrance of the Demon Subduing Tower, in Forge the Universe, the lotus petal trembled again.

Han Fei glanced at Yu Tianxin quietly and said, "I'm not choosing by myself. I'm letting my bloodline choose."

Yu Tianxin couldn't help frowning slightly. Does Bloodline have such a function? I have a bloodline too, and my bloodline is not necessarily worse than your Dragon King bloodline, OK?

However, when he saw Han Fei continue to walk towards the Thunder Prison, he couldn't help but secretly smile. The Thunder Prison and the Godfiend Sea were more dangerous than the first two.

However, Yu Tianxin saw Han Fei suddenly stop at the entrance of the Thunder Prison and look inside. He stood there for about ten seconds, and Yu Tianxin didn't know what he was thinking.

Han Fei thought that he had done enough acting, so he turned around. "I choose the Thunder Prison."

Yu Tianxin's eyes narrowed slightly. "Are you sure? Although the Thunder Prison only has the baptism of thunder and lightning, you have to know that the time limit for the Thunder Prison is three days. This means that the Thunder Prison is actually a very dangerous place compared to the Well of Abyss and the Demon Subduing Tower, second only to the Godfiend Sea."

Han Fei said proudly, "I choose the Thunder Prison."

Yu Tianxin knew that no matter how arrogant the Fish Dragon King was or how bad his personality was, he was still a Heavenly Talent. Since he was a Heavenly Talent, he naturally had his own persistence. Although he didn't know why the Fish Dragon King was so confident to enter the Thunder Prison, he thought it might be because of his bloodline or his opportunities.

Anyway, he was just leading the way for him. After all, there were very few people who would propose to explore the forbidden-level Proving Ground, so every time one appeared, he had to treat it seriously.

No one would take their own life as a joke. Without strength, they wouldn't be able to come out even if they went in. Those who had strength, such as the Fish Dragon King, more or less had some confidence, but no one knew if they had enough strength to make it through.

But if the Fish Dragon King made it, he would be the center of attention.

Seeing that Han Fei had chosen a target, Yu Tianxin threw out a small seal and said, "Master Changshui Qin said that he would give you a chance. This is an attack sealed by him. Ordinary people wouldn't have this chance. If you hadn't been forced to transcend the tribulation by Shark Ball and the others, Master Changshui Qin wouldn't have helped you. This thing is likely to save your life. Take care. I will wait for you for three days."

Han Fei caught the small seal and said, "What if I don't return in three days?"

Yu Tianxin said, "I can wait for one more day. If you don't return in four days, I can basically be sure that you have died. The teleportation array leading to the forbidden trial field will be closed. I won't wait for you anymore."

Han Fei pretended to frown. "What if I'm just delayed?"

Yu Tianxin shook her head slightly. "Under normal circumstances, the possibility is very small. Although it is not impossible, I have already given you one more day, but if you don't come out in four days, the probability of death is far greater than the probability of you being delayed."

Han Fei couldn't help but ask, "Aren't you going in to take a look?"

Yu Tianxin couldn't help but laugh. "Depending on different levels of strength, the situation will be different after entering. The Demon Subduing Tower clearly has different levels, but the levels of the other three forbidden areas are very ambiguous and difficult to judge. But it is certain that the scene after I enter will be different from yours. Not to mention whether I can find you or not, the question is, why should I save you?"

Han Fei pondered for a moment and said, "How often will the forbidden-level trial field open?"

Yu Tianxin chuckled. "Don't you know? Of course, it will only be opened when someone wants to challenge it. Why do you open it when no one wants to enter it? As for the last time the Forbidden Proving Ground was opened, you should know that five years ago, Bei Nanxiang challenged the Forbidden Proving Ground and returned with serious injuries. But he was also ranked third on the Genius List because of this. Don't you know?"

Han Fei's expression remained unchanged. "Of course I know. It's just a question. Alright, the rules have been known. I'm going."

He didn't chat with Yu Tianxin anymore. He didn't even look at the last Godfiend Sea. A secret realm that could reflect creatures of the Wall of Death, the most difficult of the four forbidden places. Why would he go there?

Han Fei grabbed the seal and walked to the entrance of the Thunder Prison.

This was naturally also a teleportation array. Otherwise, the lotus petals wouldn't just tremble. The reason why he didn't choose to go to the Demon Subduing Tower at the beginning was mainly because he could tell from Yu Tianxin's explanation that the creatures in the Demon Subduing Tower had been accumulated over countless years, so there couldn't be any weaklings among them.

If he went there, it would be the Dao Seeking level, which was on the third level of the Demon Suppressing Tower, which combined the junior, intermediate, and advanced levels. Although he should be able to withstand it, this was the last one he had any reason to choose.

If he really went there, he was afraid that someone would suspect him and he would be watched. Then, even if he wanted to escape, it might be a problem.

As for the teleportation array that Yu Tianxin said would be closed, Han Fei wasn't too worried, because when Hai Tinglei was enforcing the law, he heard with his own ears that Bai Wushu and Yu Qing, who ambushed him, were punished to guard the Demon Subduing Tower for 30 years.

If he didn't go there via teleportation array, there must be other paths he could take.

Han Fei couldn't help but ask the old turtle, "If I stay here, is there any way to get out?"

The old turtle couldn't help but say, "How would I know? However, there is no secret realm in the world that can't be broken through, but it's not certain. It's normal to be trapped for hundreds or even thousands of years."

Han Fei was speechless. Trapped my ass! I can only stay in the Water-Wood World for three years in total, and more than five months have passed. I don't have much time!

Han Fei immediately decided to come out in three days, but he would delay for two hours to prove that he could break the rules. Then he would wait for three days to decide what to do next.

Han Fei went straight into the Thunder Prison.

Boom!

Ka ka ka ~

As soon as Han Fei appeared, two bolts of lightning struck him hard, making him tremble all over.

Han Fei was speechless. I haven't even seen clearly where it is, and it's already attacking me?

When Han Fei took a closer look, his face was full of surprise and shock, but there was only darkness within his vision.

In the dark sky, dense lightning was flashing nonstop, illuminating this dark place that seemed to stretch out infinitely.

"Huh?"

Han Fei had just been shocked when the old turtle suddenly exclaimed.

Boom!

Han Fei was struck by another lightning bolt. If he guessed right, the probability of him being struck by lightning here was only once every few seconds. According to the power of each lightning bolt, it was equivalent to the power of a junior Explorer. Han Fei couldn't help but click his tongue. No wonder it was called the Forbidden Proving Ground. He had just come in and was already hit like this at the door. What could he do next?

Of course, Han Fei could stay at the door for three days and then go out. However, would Yu Tianxin really not peep at him? Or after he went out, no one would really investigate him?

However, it was not important whether there were any inspections or not.. Even if there were lightning strikes at the door every few seconds, it would be hard for him to withstand them for three days and three nights. If there were too many ants, even an elephant could be killed, let alone lightning strikes!

Chapter 1277: Spirit of the Thunder Heritage

Boom!

In just a short moment, Han Fei had been struck dozens of times. He was so energetic that his energy was overflowing, and tiny electric arcs were dancing on the surface of his body.

He said, "Old turtle, what are you exclaiming about?"

The old turtle pondered and said, "If I've guessed right, this place is not ordinary. There is the aura of the gods."

Han Fei was stunned. "Wait a moment, what did you say? The aura of the gods? Are you serious?"

The old turtle said solemnly, "It can't be wrong. It's definitely the aura of a god. A god once fought in this world, so this eternal lightning domain was left behind, but..."

Han Fei couldn't help but ask, "But what?"

Han Fei was not a fool. As early as in the Age of Doom, the Beast King and the others had said that the gods had died 30,000 years ago. Up to now, it should be 130,000 years.

Someone had fought here and caused this place to be struck by lightning for 130,000 years? And the frequency was so high?

The old turtle asked in confusion, "However, I have a feeling that something is wrong. Why is the aura of the gods so weak? Even at the periphery, it shouldn't be so weak!"

Han Fei was stunned for a moment. "Is this... Weak?"

Han Fei pointed at the lightning in the sky, and two bolts of lightning continued to strike him.

Of course, Han Fei didn't take it seriously. Instead, he looked up at the shocking lightning in the sky, waiting for the old turtle's answer.

The old turtle said, "Walk inside first. Let me feel it first."

Hearing the old turtle's words, Han Fei couldn't help but feel a little contempt in his heart. You are really a disgrace to emperors. You really don't know anything!

However, Han Fei still walked forward a thousand meters at a time. Because he was moving very fast, lightning fell on him like raindrops.

Of course, Han Fei didn't care. He had completely adapted now.

Boom!

Rumble!

After only a hundred kilometers, Han Fei found that the power of lightning was as strong as when he deduced Void Fishing although it was not as terrifying as the heavenly tribulation.

This change in intensity made Han Fei very uncomfortable.

How could it be! How could the intensity change so quickly? It was fine on the periphery, but why was it so strong after only a hundred kilometers?

At this time, the old turtle said, "Don't stop. Keep going!"

Han Fei was speechless. "Old Yuan, are you trying to kill me? You think that lightning can't kill me, so you want me to feel the power of the Heavenly Tribulation a few more times?"

"Heh! How can I not know you? Although I haven't seen this space clearly, I can be sure that with your physique, you can go a thousand kilometers forward without a problem, not to mention a hundred kilometers forward. Do you think a Half-Golden Body is a joke?"

Han Fei frowned. Are you kidding me? Am I that strong?

In fact, Han Fei didn't stop at all. He was still moving at a thousand meters per step.

After more than 300 kilometers, the old turtle said, "Release the little black fish! The power of thunder is extremely masculine and extremely Yang. Your little white fish has just swallowed the extremely cold Blue Sea Ice Sand, so the little black fish's Yang power is relatively weak. It won't be good for you. Now that we are in this environment, we can let him out to eat thunder and lightning."

Reminded by the old turtle, Han Fei's glabella flashed, and Little Black and Little White appeared.

The moment Little White appeared, she leaned against Han Fei's cheek. "Dad, I want to go home."

Han Fei gently patted Little White, and Little White returned to Forge the Universe, while Little Black rushed out and wandered in the sea of lightning.

Han Fei thought that the old turtle was right. Just like how Little Black didn't like the Blue Sea Ice Sand, Little White also didn't like the masculine power of thunder.

While walking, Han Fei asked, "Old turtle, with my Little Black's abilities, can he balance his Yang power with Little White's Great Dao as long as he stays in this Thunder Prison for a few more days?"

The old turtle sneered. "What are you thinking? Do you think your little black fish swallows thunder?"

Han Fei couldn't help but wonder, "Yes?"

The old turtle said, "With the Innate Dao Body, they can absorb energy from the void if they need it. They swallowed the lightning because there's a trace of the Supreme Yang Great Dao in it. What they swallowed was the power of the Great Dao! However, the place has existed for too long, and the power of the gods has been exhausted. Therefore, unless your little black fish swallows the entire Thunder Prison, how can it be compared to the Blue Sea Ice Sand?"

Han Fei: "..."

Han Fei felt as if ten thousand Iron-Headed Fish were galloping in his heart. Swallow the entire Thunder Prison? Are you f*cking kidding me? In these few seconds, the Thunder Prison had struck down countless bolts of lightning. And you said swallowing the whole Thunder Prison is comparable to taking the Blue Sea Ice Sand?

The old turtle said, "So, the further you go in, the stronger the Supreme Yang Dao the little black fish will swallow. One Dao inside is comparable to ten or even a hundred Daos now."

However, Han Fei already had no hope in the Thunder Prison. In the future, he would have a chance to take Little Black to his junior sister and ask for the Parasol Tree.

Three thousand kilometers passed.

Han Fei suddenly stopped, because he found cracks on his body. The power of lightning seemed to contain some kind of metallic killing intent, which could even cut his skin.

The old turtle also said, "Okay, that's it. I've figured it out."

Han Fei couldn't help but ask in confusion, "What do you figure out?"

The old turtle said, "This is indeed the place where the gods fight, but it's not the gods fighting each other, but fighting against the ominous."

"The ominous?"

Han Fei was a little puzzled. He seemed to have heard this word before. But what was the ominous?

Without Han Fei asking, the old turtle replied, "You might not be happy if I tell you. You don't have a chance at all, nor are you qualified to know what this is. I have only heard of it from another emperor. There is no aura of the ominous here anymore, so the remaining power of the gods is dissipating. Perhaps in tens of thousands of years, this so-called Thunder Prison will be gone."

Han Fei asked, "Is that all?"

The old turtle asked, "Then what else do you want to know?"

Han Fei rolled his eyes and said, "What's the difference between saying that and not saying it? I just want to ask, are there any opportunities in the Thunder Prison? If there is, let's get it out. It's not easy to travel to the Sea Demon Royal City. We have to take something away, right?"

The old turtle pondered for a moment. "The problem is that you're at most a Half-Venerable with a golden body. Even if you use all your secret methods, you can only go another 2,000 kilometers at most. You can't touch the real opportunities here..."

"Roar!"

While they were talking, they suddenly heard roars from the dark void.

Han Fei was stunned. Didn't they say that the Thunder Prison was full of thunder and lightning and had no creatures? Then who was roaring?

"Huh? Where's Little Black?"

Han Fei suddenly realized that Little Black was gone.

The main reason was that Little Black was too difficult to find now. He was pure black, the kind of black that could even devour light. If he wasn't careful, he would sink into the darkness and never be found again.

Fortunately, Little Black was his spiritual beast and could sense him.

Therefore, Han Fei looked up at the sky and found that in the high altitude of thousands of meters, Little Black was chasing a blue something.

"Huh? The Spirit of Thunder Heritage? Where is it from? I didn't notice it!"

The old turtle was always slow. Han Fei was already used to this rhythm. At this moment, he was also scanning the blue dragon-like thing with his perception.

The old turtle hurriedly said, "Don't use your soul to perceive."

Boom!

Han Fei felt that his head exploded with a buzz, and he was stunned for three or five seconds before he slowly came back to his senses.

After he woke up, Han Fei found that his seven orifices were bleeding. He wiped his nose with his hand and found that the golden blood was flowing in large swaths.

Han Fei couldn't help but say angrily, "Why didn't you say so earlier? What's going on here?"

The old turtle was lost for words. "Did you give me a chance to speak? The Spirit of Thunder Heritage is a creature born of thunder and lightning, and the power of the soul is mostly dark. It's just that your soul power is not weak, and this Spirit of Thunder Heritage is not strong enough. Otherwise, this blow would have seriously injured your soul."

Han Fei immediately retracted his aura and activated the Star Teleportation Technique, braving the thunder and lightning and chasing the Spirit of Thunder Heritage in the air. As he chased, he asked, "What's the use of this Spirit of Thunder Heritage?"

The old turtle replied, "Well, it's just like the difference between turbid spiritual energy, ordinary spiritual energy, and pure spiritual energy. The Spirit of Thunder Heritage is the essence of the power of the Thunder Prison. However, there shouldn't be many such creatures here. Otherwise, after swallowing a thousand of them, I'm afraid they can barely match the power of the Blue Sea Ice Sand."

Han Fei was dumbfounded again. "A thousand? Then swallow me!"

Seeing that Little Black and the little blue snake were chasing each other in the sky, Han Fei joined the battle too.

Seeing that Han Fei had come and was so fast, the little blue snake roared and thousands of lightning bolts, as if they had found a target, bombarded Han Fei.

Boom Boom Boom ~

Han Fei's body sank and he fell from the sky, with seven or eight cracks on his body. It could be seen that the lightning could even hurt a Half-Venerable.

No wonder Yu Tianxin didn't recommend him to come to the Thunder Prison!

Even if Yu Tianxin were here in person, he would probably be badly battered.

However, Han Fei certainly wouldn't let go of the meat in his mouth. He roared and swallowed it.

He used the Swallowing Technique and swallowed the power of lightning bolts in one bite, and his body swelled and made him look so fat.

"Star Teleportation! Where are you going?"

Chapter 1278: Indestructible Overlord Body

When Little Black and the Spirit of Thunder Heritage chased each other, Han Fei joined in.

In terms of speed, Han Fei was extremely fast, which couldn't be measured by the speed of a junior Dao Seeking demon at all.

The moment Han Fei took action, the Spirit of Thunder Heritage noticed that something was wrong. A large amount of lightning struck Han Fei crazily as if being controlled.

Han Fei was a little impatient. These lightning bolts were indeed very strong, but he didn't think they could kill him. He even felt that they might not be enough to help him cultivate.

Now that the fourth level of the Indestructible Body had been broken, the next level would be to create an Indestructible Body. And one of the characteristics of an Indestructible Body was that the cultivator would be reborned with his blood, which was easy for Venerables.

However, how could it be so easy for a person who walked the path of flesh and soul to be reborn and regain his former strength? Therefore, this Indestructible Body was different from ordinary Blood Rebirth.

Rebirth was just one of its abilities.

Apart from being reborn, when he broke through to the fifth level of the Indestructible Body, he should make his soul indestructible. However, the Indestructible Body that Ren Tianfei gave him didn't involve the cultivation of the sixth level. This also meant that if he completed the breakthrough of the fifth level, he wouldn't be able to cultivate the Indestructible Body further.

At this moment, Han Fei, who was bombarded by thousands of lightning strikes, held back the cracks on his body and grabbed at the Spirit of Thunder Heritage in the void.

"Roar!"

At the moment when the Spirit of Thunder Heritage was caught by Han Fei, it seemed to be anxious and roared as if it wanted to shatter Han Fei's soul.

"Roar!"

However, what responded to its roar was also a roar. The dragon roar and the tiger roar collided, setting off ripples in the sky.

When Han Fei grabbed the Spirit of Thunder Heritage, he found cracks on his arms.

At the same time, the Thunder Vein Spirit seemed to regard Han Fei as its most dangerous enemy. It roared and struck him with lightning bolts frantically, as if it were determined to fight Han Fei to the death.

And Little Black also rushed up at this moment. He opened his big mouth, which was all black. Han Fei knew very well what Little Black was doing. He was going to swallow the Spirit of Thunder Heritage!

Han Fei's heart did a flip. "Son, don't eat it. It's useful to Daddy."

Little Black was about to eat it, but Han Fei said he couldn't eat it, which made him very unhappy. However, Little Black and Little White didn't seem to care about food much. Therefore, since Han Fei wanted it, he certainly wouldn't eat it by force.

Seeing that Little Black swooshed back into the dark void, Han Fei couldn't help but sigh. In the future, even I, his master, won't be able to find him!

Ignoring Little Black, the Spirit of Thunder Heritage that Han Fei caught was no longer as ferocious as before. It was just a three-foot-long snake.

Information popped up in Han Fei's eyes.

< Name > Spirit of Thunder Heritage

< Introduction > A special creature that grows in the place where thunder and lightning gathers and feeds on lightning. Its original body is a gathering of lightning essence mixed with a trace of Dao. It has the ability to control thunder and lightning. Its speed is extremely fast and can flash and move in thunder and lightning.

< Level > 66

< Quality > None

< Spiritual Energy > None

< Effect > Eating it can polish the body and remove impurities in the spiritual heritage, improving the body and flesh.

< Collectable > None

<Absorbable>

Faced with such a creature that he didn't know what it was exactly, Han Fei had an idea. For others, the Thunder Prison was an extremely dangerous place, but not for him.

What could be a better place of cultivation than the Thunder Prison?

Almost none.

This lightning could provide him with almost endless power. The amount of spiritual spring he had was enough for him to fill a river and bathe in it.

Besides, when Han Fei discovered that the Spirit of Thunder Heritage could summon lightning, a thought popped up in his mind.

He could deduce the Indestructible Body now.

In the past, Han Fei had never deduced the Indestructible Body because body refinement was too difficult. He had so many opportunities, so when he was transcending the tribulation, he made use of the power of the heavenly tribulation to pass the fourth level of the Indestructible Body.

The Indestructible Body on this level had given him a Half-Golden body and golden blood, which made Han Fei's body take a big step in the direction of being inhuman.

However, it was impossible for him to continue to break through the Indestructible Body, unless he could enter the deepest part of the Thunder Prison as the old turtle said. However, it was impossible.

Since none of these methods could continue to improve the Indestructible Body in a short period of time, he could only take a different approach.

Since the cultivation technique was extremely difficult to practice, he could just improve the upper limit of the quality of the technique, right?

The old turtle was confused to see that a hundred thousand kilograms of spiritual spring in Forge the Universe had been swallowed by this world.

A hundred thousand kilograms of spiritual spring might not be a lot, but it was definitely not a small amount. It disappeared again so strangely.

This made the old turtle suspicious. First of all, the disappearance of the spiritual spring must have something to do with the calabash. However, what did Han Fei do? Why did the calabash eat the 100,000 kilograms of spiritual spring?

However, there were some things that the old turtle couldn't see.

At this moment, information popped up in Han Fei's eyes.

Indestructible Overlord Body (Heaven-Level, Divine-Quality)

Introduction: This is a supreme way to strengthen the body. By cultivating the skin, flesh, viscera, bones, and marrow, one can forge the Indestructible Golden Body. Through the golden body, one can nurture the immortal soul. Only by fusing the body and soul can one obtain the Indestructible Overlord Body.

Deduced Art: Unknown

Deduction Cost: 1 billion

Shortcoming: It requires a very good physique.

Note: This is a body-refining technique. Don't seek speed. Practice it steadily.

When Han Fei saw the message, he quickly browsed through the contents.

Then, he discovered a fact that the so-called Indestructible Overlord Body only had more ways to refine the immortal soul than the Indestructible Body. In terms of physique cultivation, there was nothing more special than the Indestructible Body.

At this moment, the soul forging technique also made Han Fei's scalp tingle. This combat technique said that to create a powerful soul, one needed to crush and destroy his soul.

As for the method, the first step was called the "Pain of the Body". Its general meaning was that one's body was an external thing, but his mind could exist forever. Therefore, when he could ignore the pain of the body one day, it meant that he had fully mastered the Indestructible Body and could officially start to practice the second volume of the Indestructible Overlord Body.

Han Fei was lost for words. F*ck, my body is my own too. If I'm in pain, then I'm in pain. Why do I have to pretend that it's someone else who is in pain instead of me? What kind of crazy idea is this?

Han Fei had planned to take a shortcut and try to take advantage of the infinite energy in the Thunder Prison to quickly break through his physical barrier with the help of the Indestructible Overlord Body.

But now, he had given up. Sure enough, there was no shortcut in this world. He had just walked halfway down the road when he wanted to change to a more effective method. His intention to avoid it was not feasible.

However, Han Fei secretly activated the Indestructible Body while holding the Spirit of Thunder Heritage.

When his flesh and skin were extremely hot, vitality slowly appeared in his body. The wounds that had been blasted open instantly recovered.

And the struggling Spirit of Thunder Heritage continued to summon thunderbolts from time to time, which was barely enough for Han Fei to continue cultivating. Although he couldn't make a major breakthrough on the fifth level of the Indestructible Body, his cultivation speed was definitely more than ten times faster than normal.

Han Fei was even tempted. At this speed, he should be able to reach the golden body level in half a year at most.

Unfortunately, he didn't come here to cultivate, but to find the Water Immortal. Now, Han Fei had a rough idea of the Water Immortal's whereabouts, which was inside the Demon Subduing Tower. He still wanted to go there.

As for the Thunder Prison, Han Fei had to go through the Demon Subduing Tower to see if he could sneak out of it.

With this in mind, Han Fei didn't care about anything else but focused on cultivation.

Three days later, Little Black caught another seven or eight Spirits of Thunder Heritage from somewhere. Han Fei saw Little Black slip in front of him with the little snake in his mouth many times.

After three days, Han Fei felt the improvement of his physique and couldn't help but smile bitterly. After such high-intensity cultivation, he was almost struck dead by the lightning, but he felt that his Indestructible Body didn't even improve by 1%.

At this moment, Han Fei knew that it seemed that he had overestimated his cultivation speed. According to this progress, it was basically impossible for him to cultivate a Golden Body unless he stayed in the Thunder Prison for a whole year.

The old turtle said, "Your physique is getting stronger very quickly. I think you can really try to cultivate in this realm for 10 years. With the resources you have, 10 years is enough for you to cultivate to the peak of the Dao Seeking realm and get a Golden Body. Your strength can reach the level of a Half-Venerable. In this barren land, there should be few people who are your match."

Han Fei curled his lips. "Not interested. I'm the man who is going to become a king.. The entire Yin-Yang World is waiting for me to return."

Chapter 1279: Demon Subduing Tower

In the eyes of others, the Thunder Prison was extremely terrifying.

However, to Han Fei, it became a place of body tempering. It could be seen that although physical cultivation was difficult, the opportunities varied from person to person.

Han Fei didn't believe that no one knew the use of the Thunder Prison.

However, there were probably few people who could cultivate here. Even he felt that his body refinement had reached the strongest level among his peers. Even so, as time passed, his skin and flesh would still be cut open, and he needed the Indestructible Body to nurture vitality.

Outside the Thunder Prison.

Changshui Qin was standing before the caves of the four forbidden areas, looking calm.

Changshui Qin asked, "It's been three days? Did you say that he chose the Thunder Prison voluntarily?"

Yu Tianxin nodded. "That's right. He didn't choose the entrance of the Abyssal Well and the Demon Subduing Tower, and didn't even look at that of the Godfiend Sea."

Changshui Qin nodded slightly. "If this is a mutation of the bloodline in his body, then his Demonic Heritage must have been improved. Otherwise, he wouldn't have been able to withstand the bombardment of the thunder and lightning in the Thunder Prison, even if he had been at the entrance all the time."

Yu Tianxin was holding a pulse-testing stone in his hand and said, "Let's see if he can come out. By logic, he should have come out by now."

The moment Yu Tianxin spoke, his eyes suddenly narrowed, and blood Qi rushed out of the entrance of the Thunder Prison.

His tumbling blood and qi, the flashing electric arcs on his body, and the bloody scabs all over his body seemed to be trying to prove how miserable he was.

Seeing this scene, Yu Tianxin frowned. Did he really come out alive? What did this mean? It meant that this Fish Dragon King had infinite potential in body refinement.

It also showed that the opportunity that the Fish Dragon King got from his last trip was enough to support his body to reach such a level.

Changshui Qin, on the other hand, looked at Han Fei casually and asked softly, "How do you feel?"

Seeing that Changshui Qin was here, Han Fei held his spear in one hand and was about to speak. As soon as he opened his mouth, a thunder arc spurted out.

In Han Fei's mind, the old turtle was almost rolling his eyes. He had never seen anyone who was so good at acting!

Han Fei's voice slightly trembled. "It's horrible. Infinite lightning strikes. No wonder it's ranked as the second most dangerous forbidden place."

Changshui Qin said calmly, "It's not that the Thunder Prison is ranked as the second most dangerous forbidden area. The difficulty of the forbidden area varies. For different people, the difficulty is different. How far have you traveled?"

Han Fei thought to himself, How should I put it? If I said I had been at the entrance, I'm afraid it's meaningless. But if they know I went quite deep inside, they'll suspect me.

Han Fei thought for a moment and said with the buzzing sound of the electric arc, "As far as 300 kilometers away."

Han Fei meant that he had walked far away, but then came back.

But even so, Changshui Qin couldn't help being a little surprised. He thought that Han Fei had only walked fifty or a hundred kilometers forward.

As for staying at the entrance, it was impossible, and Changshui Qin wouldn't believe it! He knew that Fish Dragon King's conceited and arrogant personality wouldn't allow him to stay at the entrance.

However, the result of three hundred kilometers really made Changshui Qin look at Han Fei in a new light.

Yu Tianxin couldn't help narrowing her eyes. "Fish Dragon King, are you sure you can go as far as 300 kilometers away? You know, although Venerable Changshui and I didn't see it with our own eyes, we can roughly judge you through your strength and your future trial effects."

Han Fei despised them in his heart. What the hell? Only three hundred kilometers has already shocked you? Then what would you think if I told you that I cultivated for three days and three nights in a place three thousand kilometers away?

But on the surface, Han Fei's face sank. "I, the Fish Dragon King, don't bother to lie. A mere three hundred kilometers is not worth lying about."

Yu Tianxin nodded slightly. "Of course we won't doubt you. You've proven your strength by coming out alive. However, since you stayed in the Thunder Prison for three days, did your demonic heritage mutate? Venerable Changshui and I need to take a look."

Then, Yu Tianxin threw the pulse-testing stone in his hand to Han Fei.

As if he had known that this would happen, Han Fei was already prepared. He grabbed the pulse-testing stone with one hand and injected demonic energy into it. Immediately, the purple light turned from purple to dark red, indicating that it hadn't reached level nine yet. However, the intensity showed that it was clearly the peak of level eight.

Seeing this, Yu Tianxin couldn't help but ask in surprise, "Level-eight, high-quality?"

Yu Tianxin couldn't help looking at Changshui Qin, who still looked calm.

However, Changshui Qin said, "Not bad. You've upgraded from a level-eight low-quality to a level-eight high-quality one, or even a bit more... You've tried to break through to a level-nine demonic heritage, haven't you?"

Han Fei's body trembled slightly.

The old turtle was speechless. This kid is really a dedicated liar.

Seeing Han Fei's reaction, Changshui Qin couldn't help but smile. "It seems that I still underestimated your harvest this time. It seems that your bloodline power has increased your overall strength by at least two levels. Do you still want to continue this trial?"

Han Fei pretended to be hesitating. He had to show a certain amount of talent, as well as a hint that he was not good enough.

Han Fei hesitated for a while before slowly saying, "Venerable Changshui, can you give me three months? Three days is too short."

Changshui Qin said indifferently, "One month. I don't care what kind of opportunity you have obtained. If you can cultivate in the Thunder Prison for a month, your strength may rise greatly. But if you stay for three months, I'm afraid your strength will rise too fast, which will inevitably affect the polishing of your foundation."

Han Fei was delighted. Sure enough, pretending to be a genius was useful. Otherwise, if he negotiated with a figure like Changshui Qin, he would be lucky if Changshui Qin didn't slap him to death.

Han Fei gritted his teeth. "Okay! Thank you, Venerable Changshui. One month it is. Does Senior Tianxin want to wait outside or come back in a month?"

In fact, Han Fei didn't care whether Yu Tianxin was here or not.

He wanted to go to the Demon Subduing Tower, but he couldn't go directly because with his current strength, the Demon Subduing Tower was the most unsuitable forbidden place for him.

However, he wasn't the real Fish Dragon King. As long as Changshui Qin wasn't around, he had a way to sneak from the Thunder Prison to the Demon Subduing Tower without Yu Tianxin's notice.

Yu Tianxin shook her head slightly. "I'll come again in a month. This is a trial! Since you want a month, it means that you already have some considerations in your heart. All excellent benefits can only be enjoyed when you're qualified. Don't you have anything to guarantee?"

The forbidden-level secret realms in the White Shell Royal City were rarely opened, but as long as they were opened, the person who entered them would be given enough attention. If Han Fei performed well, then his status and identity would rise. But if Han Fei only became slightly stronger, nothing would change.

This was an identity and status that had to be exchanged with one's life. Many people could do this, but they wouldn't choose to do so. After all, a single mistake would cost their lives.

Han Fei was overjoyed. It's great that he's not here! Then I'll have time to play in the Demon Subduing Tower!

Changshui Qin looked at Han Fei casually. "I hope you can show me more things. Try it more. If level-eight high-quality can become level-nine, you should know what it means."

Han Fei nodded solemnly. In fact, Han Fei was already laughing in his heart.

Han Fei sat cross-legged and began to recover. This was only natural in the eyes of Changshui Qin and the others. There was only one month left. Han Fei needed to prove his value and potential this month, so it was a race against time.

After about ten seconds, the old turtle's voice sounded in Han Fei's heart, "Okay, stop pretending. Both of them are gone."

"Huff!"

Han Fei breathed a sigh of relief. "Old Turtle, these four realms are definitely extraordinary. Can you temporarily use your power as an emperor? Let's empty these four forbidden places, OK?"

The old turtle couldn't help but growl, "If I could use my power as an emperor, why would I be imprisoned in your sea of consciousness by your calabash? If I could use my power as an emperor, why would I have to try so hard to possess someone?!"

Han Fei said awkwardly, "Okay! Forget it. In that case, we can try that when we have time in the future. For now, we should go to the Demon Subduing Tower. Can you feel the seal of this teleportation array?"

The old turtle said, "You are an array master yourself. Can't you see it? Of course it's sealed, but it can be opened at any time. If you're not in a hurry, stay outside for a day before entering."

Han Fei realized that his words did make sense. As the saying goes, anxiousness makes waste, so be it.

One day passed.

There was indeed no response from the teleportation array. Han Fei pinched his fingers to make sure that no one was paying attention to him.. Then he walked quickly to the cave where the Demon Subduing Tower was located.

Chapter 1280: Six Finger Coral

Han Fei remembered that Hai Tinglei had sent Bai Wuzhu and Yu Qing to guard the Demon Subduing Tower.

Therefore, Han Fei felt that he might appear in front of these two people after entering the cave. Then he could threaten them.

He could tell the two of them that as long as they didn't announce that he had been there, he could take them as his followers and take them back from there.

Han Fei believed that no one could resist such temptation. After all, 30 years was not short. No one would want to stay in such a dangerous place to watch the door. They would definitely know how to choose.

However, the moment Han Fei stepped into the cave of the Demon Subduing Tower, he seemed to have fallen into a vortex and appeared directly in a jungle under the sea.

Han Fei was stunned and asked in surprise, "Undersea Jungle? Where is the Demon Subduing Tower?"

The old turtle said, "I don't feel too good. You don't seem to be outside the Demon Subduing Tower, but inside."

"Huh?"

Han Fei was stunned. This teleportation array led directly to the inside of the Demon Subduing Tower? Then wouldn't the creatures in the Demon Subduing Tower be able to come out?

The old turtle said leisurely, "The way you came in is gone."

Han Fei quickly looked back, his heart pounding. Where is the road?

The old turtle said, "Maybe you didn't say that you were coming to the Demon Subduing Tower at all, so Changshui Qin and Yu Tianxin didn't have to tell you the way to come out of the Demon Subduing Tower. So... You might as well have chosen the Demon Subduing Tower from the beginning! At least you will know how to come out."

Han Fei was dumbfounded. What the hell should I do now?

Shouldn't the Demon Subduing Tower be a huge tower with countless powerful creatures suppressed in it? If there was a loophole somewhere in it and someone dug a way out, wouldn't the creatures inside notice it?

Han Fei immediately said, "No, in terms of arrays, there is no such thing as an absolutely perfect array in this world. Since I can come in, I can definitely go out. There must be an array here, but it was hidden the moment I appeared."

However, the old turtle roared again, "Are you sure that the way you came in is an array?"

Han Fei's eyelids twitched, and then his face turned black. He said helplessly, "Can't you say something auspicious?"

The old turtle said disdainfully, "In the world of cultivation, the path you can't think of or don't want to think of is very likely to be the answer. At least, I don't feel any teleportation. It should be the law of space."

Han Fei was about to mock the old turtle, when he subconsciously moved away.

In the next moment, a pale yellow light pierced the void and appeared where Han Fei was standing just now.

"What is it?"

Han Fei's face changed slightly.

In an instant, dozens of lights appeared at the same time. To be precise, there were more than thirty of them, which came from all directions.

Buzz!

The invincible will appeared, and the golden giant protected Han Fei.

He stomped, and the Coiled Turtle Array and the Soul Controlling Array appeared at the same time. The 64-Dimensional Fish Dragon Dance was also activated.

Even so, the speed couldn't compare to the speed of light!

Although the yellow light didn't seem to be real light, its speed was even faster than when he used the Star Teleportation Technique. This was why Han Fei didn't use the Star Teleportation Technique.

“Pu! Pu! Pu!”

The Coiled Turtle Array was directly blasted through, and the yellow light passed the Soul Driving Array. It seemed that it wasn't a soul attack.

However, when the yellow light collided with the Invincible Will, Han Fei clearly felt a stabbing pain in his head. That weird thing could corrode his will?

Fortunately, Han Fei was fast enough.

Only two or three yellow lights fell on him, which were blocked by the Invincible Will. Although there were still yellow lights shooting at him, Han Fei's reaction was very fast.

“Roar!”

Han Fei roared and threw out the Sacrificing Punch. The brilliant red light penetrated the void and pressed on for dozens of kilometers.

This was Han Fei's current strength, which was completely different from when he was still a Law Enforcer.

The moment the Sacrificing Punch was thrown out, he activated the Heavenly Void Divine Movement and chased after the Sacrificing Punch.

Han Fei wanted to see which creature attacked him.

This was because when he released his perception, Han Fei felt a trace of danger. It seemed that after he released it, he was being led, as if someone wanted to eat his perception.

The Heavenly Void Divine Movement was very fast, wasn't it? Walking between illusions and reality, Han Fei felt that even the yellow light shouldn't be able to keep up with him. However, something terrifying happened. Han Fei turned his head and found that in the void, the yellow light was still there, and there was a light trying to catch up with him and kill him.

Han Fei was immediately confused. What was going on here? Was it a “physical attack” or a “magical attack”?

Of course, Han Fei just pointed his finger backhand. Spiritual energy surged and exploded. It wasn't too difficult to block the yellow light.

Boom!

According to the power of the explosion, Han Fei could roughly tell the power of this yellow light. It wasn't very strong, only about the power of an intermediate Dao Seeking realm.

After shattering one of the attacks, because of the extremely fast speed, before all the other attacks arrived, Han Fei had already followed the fist mark of the Sacrificing Punch, crushing all the attacking yellow light along the way.

It was at this moment that Han Fei saw a rather creepy demon plant. It was like deformed fingers supported by a long palm, which made it look like a human hand.

When it launched an attack, the palm-like demon plant pointed its six fingers in Han Fei's direction, as if it wanted to block the Sacrificing Punch.

However, how could it possibly resist Han Fei's all-out attack? It wasn't at the peak of the Dao Seeking realm, nor was it a Half-Venerable. How could he suppress Han Fei?

Information popped up in Han Fei's eyes.

< Name > Six-Finger Coral

< Introduction > A strange creature with demonic plants and insect species coexisting. It has the ability of corrosion. When it hits a creature, a large number of Corrosive Worms will parasitize and devour the host's vitality and soul until the host grows into a new six-finger coral. The six-finger coral and the sea flower are natural enemies. The sea flower's tentacles can resolve the parasitic danger of the Corrosive Worm.

< Level > 75

< Quality > Exotic

< Enforcing law > Light of Corrosion

< Contained Spiritual Energy > 12,3364 Points

< Edible Effect > Inedible

< Collectible > Spirit Corroding Insect Fluid

<Absorbable>

< Remarks > It's best not to kill it directly, or the Corrosion Worm will disperse throughout the entire area to find a host to parasitize.

When he saw this scene, Han Fei screamed, "Ouch!" The space in front of him distorted, and he appeared far away.

Rumble!

A terrifying explosion sounded, and the Sacrificing Punch directly blew up a large area of six-finger corals. In the sea, there were colorful unknown particles everywhere.

Han Fei was horrified. What kind of creature was this? He had been in the Grand Myriad Mountains for so long but had never heard of it.

The old turtle said, "Well, it's just a six-finger coral. It's nothing special. As long as your defense power and will are strong enough, it can't do anything to you. However, isn't this six-finger coral a bit too small?"

Han Fei had already retreated. He stomped. "Fuse!"

When the Yin-Yang Divine Eyes appeared, Han Fei instantly felt extremely good. Through Little White's perception, he could very clearly know where the source of danger was.

Besides, after this fusion, Han Fei felt that, through the coldness, the yellow rays of light slowed down when they shot at him.

Han Fei was overjoyed. So, you're afraid of the cold too?

Han Fei didn't have to fight this kind of creature, but he wouldn't completely give up.

He reached out and grabbed some of the Spirit Corroding Insect Fluid, before he melted some of it into his body and wrapped it with spiritual energy, making it impossible for them to escape.

The Heaven Spirit Detoxifying Insect hooked the blob of Spirit Corroding Insect Fluid that Han Fei sent over and quickly stuffed it into its mouth.

"Not bad!"

Han Fei immediately grinned. Compared to Little Fatty and the others, the Heaven Spirit Detoxifying Insect was of the highest level. After all, he had seen all kinds of demonic plants after exploring the Grand Myriad Mountains.

And now, the Heaven Spirit Detoxifying Insect had reached level-58. It upgraded so quickly by eating! Even Han Fei didn't know how it upgraded so quickly.

Seeing this, Han Fei issued an order in his heart and the Infinity Water shot out.

From Forge the Universe, Han Fei drew out a blank fish skin.

As Han Fei drew an array with one hand, soon, in the array, the Infinity Water rolled towards the large pile of six-finger corals that had just been cut open, sealing the Spirit Corroding Insect Fluid inside.

Han Fei felt that eating too much wouldn't help. However, as a new poison, it shouldn't be a problem for the Heaven Spirit Detoxifying Insect to reach level-59.

Sure enough, in a place like the Demon Subduing Tower, danger and opportunity really coexisted. This was more exciting and challenging than the boring Thunder Prison.

Of course, although Han Fei had collected a piece of Six-Finger Coral, it didn't mean that he liked to stay in such an environment. After all, this place was rather creepy and no one wanted to stay here!

After swimming a hundred kilometers, Han Fei saw a lily flower on the rock wall of a mountain. However, it was much larger than the normal lily flower, and its tentacles were much longer. It looked very beautiful.

After seeing such a beautiful flower, Han Fei's heart skipped a beat. The more beautiful a creature was, the more deceptive it would be. An undersea lily flower? He had never seen it before! It was another kind of creature that he had never seen in the Grand Myriad Mountains.

(Reference: Sailor Coral, also known as the finger of the dead)
