

GOF 1281

Chapter 1281: The Flower of the Sea

Whether it was in the sea or on land, be it fish or demon plants, creatures with particularly gorgeous colors were usually not good things.

Of course, this lily flower was nothing compared to the colorful coral.

However, that depended on where they appeared!

He didn't know where he was at all. In the dark undersea jungles, only some luminous creatures were flashing. It was eerily quiet. There seemed to be some grayness in the sea, which was not as gorgeous as the coral reefs.

Of course, this was not what surprised Han Fei. What really frightened him was that the lily flowers seemed to have appeared out of thin air.

Or maybe, Han Fei could be sure of one thing: he probably appeared on the third floor of the Demon Subduing Tower, which was the level of creatures at the Dao Seeking realm.

However, could even the Dao Seeking realm make him feel a sense of danger?

Han Fei frowned and said, "Old turtle, if my guess is correct, this kind of demonic plant must have drilled through space and appeared here directly, right?"

The old turtle seemed a little absent-minded. "Is there a need to guess? Isn't it obvious?"

Han Fei certainly knew it. He just wanted to chat with the old turtle in this weird atmosphere.

Seeing that the old turtle didn't want to chat, Han Fei confirmed a direction with his perception.

There was a large rock wall blocking in his way. But behind the rock wall, through Little White's perception, Han Fei was very sure that there were terrifying creatures there.

It must be the thing that tried to devour his perception power when he came in just now.

Han Fei didn't really want to deal with these creatures. He could tell how dangerous they could be from the place where the six-finger coral was. Fortunately, he didn't appear among them but appeared outside. Otherwise, the noise wouldn't have been so small.

And now, as soon as he rushed out of that area, he saw a lily flower. From the perspective of natural enemies, this lily flower should be the natural enemy of the Six Finger Coral, the Sea Flower.

How strong was the Six Finger Coral? And its combat skills were so hard to deal with. This sea flower might not be any better.

However, when Han Fei wanted to find a relatively safe route in the third level of the Demon Suppressing Tower, he found that in Little White's perception system, the most dangerous places and the safest places were all pointing in the direction of the Sea Flower.

Han Fei couldn't help but laugh at himself. "Oh! No wonder the Demon Subduing Tower is so dangerous. It turns out that the flower has blocked all the roads! There's only one road left. How can it not be dangerous?"

Han Fei had already made a rough judgment.

Perhaps the third level of the Demon Subduing Tower was also a way to select the strong.

No matter what, Han Fei absolutely didn't believe it. This was an ancient demon suppressing ground that had existed for an unknown period of time, and you told me that there were no big demons in it except for two kinds of plants? Of course he didn't believe it.

Therefore, Han Fei firmly believed that as long as he passed the Sea Flower, it would definitely be a different situation.

Immediately, Han Fei extended a hand of spiritual energy and grabbed the lily flower.

However, just as the spiritual energy hand was about to knead over, the lily flower's feather-like tentacles grew thousands of tentacles in a hurry.

Han Fei was also stunned for a moment. Is this the demonic plant in the sea? It's just a test. Does this damn thing even want to eat my spiritual energy?

Han Fei took a closer look. What was that? A feather-shaped tentacle? It wasn't a f*cking tentacle at all, but... a living leech?

A leech could also be called a bloodsucker. In the level-one and level-two fishery, there were many terrifying stories about leeches pasting across. However, Han Fei had never seen such leeches full of long tentacles.

He was sure that it was a leech because the leech was full of tentacles. Han Fei didn't see the original body hidden under the tentacles until all the tentacles were out. What was that soft, sticky thing if not a leech?

Han Fei waved his hand, and at the moment the void hand squeezed at it, half of the hand was devoured by the lily-like leech.

Of course, the remaining spiritual energy hand still easily caught the leech and squeezed it to death.

With a thought from Han Fei, the Infinity Water turned into countless sharp water needles, guarding him around.

With the Infinity Water, Han Fei was no longer afraid that the leech would attack him with special means.

However, when this lily-like leech was squeezed to death, Han Fei saw another one, two, three...

Han Fei was dumbfounded. I just squeezed a flower to death. Why did so many of them pop out? Are they not afraid of being squeezed to death by me?

In such an environment, he must have been discovered.

Han Fei had no choice. Since the most dangerous place and the safest place were in the same direction, he might as well charge!

Han Fei ran in the most dangerous direction, mostly because he didn't want to give the leech a chance.

Sure enough, when Han Fei began to rush forward, he saw white and purple lily flowers appear beside him.

Because the leeches appeared too frequently, Han Fei inevitably encountered them during his sprint.

Therefore, no matter how fast and responsive Han Fei was, he was still hit in the end.

At that moment, information appeared in Han Fei's eyes.

< Name > Sea Flower

< Introduction > An exotic creature with demonic plants and insect species coexisting. It has countless tentacles that can penetrate the void. Each of its tentacles has a Companion Feather-shaped leech that can devour vitality, parasitize, and split. The Sea Flower can continue the power of other creatures to a certain extent, so it cannot continue its unique ability.

< Level > 77

< Quality > Legend

< Enforcing law > Swallowing

< Spiritual Energy > 155,172 Points

< Edible Effect > Long-term consumption can greatly enhance blood and Qi and improve physique.

< Collectible > Void Fruit, Void Tentacle

<Absorbable>

< Remarks > Wherever the Sea Flower grows, no creature can live unless the Sea Flower allows it to live.

"Indeed."

Han Fei immediately cursed in his heart. As expected of the mortal enemy of the Six-Finger Coral, the Sea Flower was just as disgusting as it.

The two were born in the same space and had been fighting for countless years. Their strength should be at least equal.

When Han Fei saw that the so-called Sea Flower seemed to be symbiotic with the leeches, he thought to himself, Is this so-called Sea Flower anemone? It was really interesting that leeches were symbiotic with sea anemones.

To be honest, Han Fei had never seen such a powerful sea anemone. A level-77 weird creature should be much more dangerous than ordinary sea anemones.

Han Fei was still charging forward, but after only running for less than 300 kilometers, he saw large tracts of white flowers floating towards him.

Except for the difference in color, it had exactly the same effect as the Marching Sea Leeches. Small sized, but capable of large-scale hunting, this kind of animal made Han Fei's face turn cold.

Han Fei frowned and the invincible will appeared again. The Infinity Water began to revolve around him crazily.

Han Fei wasn't the kind of person who would hesitate to use his treasure. This Demon Subduing Tower was much more dangerous than the Thunder Prison, so he would just use all necessary means.

Bang! Bang! Bang!

White and purple flowers exploded one after another, and more leeches emerged. The dead leeches began to split.

Some were split into two, and some were even split into five or eight leeches, which looked creepy.

Han Fei couldn't have felt worse. This thing was splitting too fast, wasn't it? In a few seconds, it had split into two. At this speed, wouldn't it be easy to eat up the entire third floor? The Six-Finger Coral was simply no match for it at all!

With this in mind, Han Fei immediately confirmed that there must be a limit to this leech's split, and the Sea Flower definitely had more enemies besides the Six-Finger Coral.

However, at this moment, the Sea Flower didn't let him go. Instead, there were more and more leeches.

It was not just the leeches. Void tentacles began to appear in the air. From the tentacles, a large number of purple, shrimp egg-like things spewed out.

Han Fei's face sank. This b*stard wants to parasitize me?

"Sacrificing Punch!"

Han Fei punched out and decided to force his way in. He had thought that only the Six-Finger Coral had the ability to parasitize, but it turned out that the Sea Flower also had this ability.

Han Fei thought for a moment and shouted, "Combination... Twin Divine Technique."

When the Sacrificing Punch bought him some time, Han Fei directly used the Twin Divine Technique. This time, he didn't transform into a human at all, but in a smoke state.

As soon as the technique was activated, Han Fei felt that the so-called Sea Flower was just a piece of cake. All the leeches, tentacles, and fish roe-like things within a radius of a hundred meters were frozen.

The black smoke swept across, and all the iced items were easily minced.

The Flower of Sea was probably dumbfounded at this moment. What the f*ck was going on? Did this guy just turn into smoke? Why couldn't I get close to the smoke?

Large swaths of tentacles and leeches were withering.

After a hundred seconds, Han Fei finally saw a Sea Flower that was more than 300 meters tall in the distance.

Countless tentacles, all sucking leeches, were swinging randomly. Seeing Han Fei, the tree shook as if it were frightened.

Han Fei, on the other hand, couldn't help but sneer. "You've lived long enough. Let me take you in."

Chapter 1282: Sneak Attack

The special ability of the Sea Flower lay in the tentacles that extended out of the void and the leeches that could split. In addition to these, there were also shrimp eggs that attempted to parasitize its enemies.

When the Twin Divine Technique appeared, these abilities basically couldn't get within a hundred meters of Han Fei. In an instant, they were frozen. As Han Fei's black fog rolled, they were directly shattered.

After all, no matter how strong the Sea Flower was, it couldn't compare to the power of the heavenly spiritual treasures. Now, Little White was just a walking ice maker. Wherever she went, ice would follow...

If Han Fei weren't its master, he would've been frozen too.

However, creatures at the level of the Sea Flower were already very intelligent. If a creature that could survive in a place like the Demon Subduing Tower didn't have any ability, wouldn't it have long been killed?

Therefore, Han Fei saw that on the Void Tentacle that stretched out again, there was a skeleton hanging. It was not a complete skeleton, but the corpse of a Half-Merman.

The skeleton was like a marionette, controlled by the tentacles.

The corpse that was in the puppet state spewed out a pillar of fire from its mouth. The pillar of fire was extremely hot, accompanied by dazzling brilliance, like a flame ray, which was comparable to the impact of the White Sun Essence Fire.

This was another characteristic of the Sea Flower. To a certain extent, it could inherit the power of other creatures. But in this case, it was clearly using other people's bodies to fight.

The guy controlled by the Sea Flower must be extraordinary. Even the flame power he released after death was so pure and powerful.

However, how could the Sea Flower know that what Little White swallowed was a spiritual treasure of the world. How could ordinary fire origin energy compare to it?

Han Fei, who had turned into white mist, rolled up a cone-shaped tentacle and rushed at the fire origin energy.

However, the fire origin began to collapse halfway. It seemed fierce, but in fact, when it was ten meters away from Han Fei, it completely disintegrated without even sparks.

The sea flower was obviously stunned, letting one of its tentacles be frozen into pieces by Han Fei.

In the next moment, hundreds of tentacles extended out of the void.

On each tentacle hung a creature, including octopuses, six-finger corals, green toads, colorful sea urchins, lobsters, and conchs... Among them, there were six Half-Mermen, one Merman, and one human, who looked like Yu Wendao. He must be an undersea human!

Realizing how powerful Han Fei was, the Sea Flower seemed to have shown its trump cards, thinking, I have hundreds of creatures and at least a hundred techniques here. Can you resist them all?

Han Fei was stunned to see so many creatures. He wondered how many creatures the Sea Flower had killed.

Although he was surprised, Han Fei didn't panic at all.

Although it had inherited the power of other creatures, other creatures had already died. The Sea Flower definitely couldn't exert their original strength.

For example, from the blow of the Half-Merman just now, with Han Fei's grasp of power, if the Half-Merman was still alive, it would be at least an advanced Dao-Seeking realm creature.

"Pfft!"

Han Fei controlled his two bodies to open completely, turning from two masses of smoke into two swathes of smoke.

Although the black fog was open, it didn't cover any creatures. Therefore, it didn't immediately suppress the various attacks of these creatures.

However, the white mist was different.

A large cloud of mist drifted out, and all the attacking energy began to decrease within a hundred meters of the white mist.

The power that could penetrate ten meters of the white mist was mostly swords and knives.

However, even Han Fei didn't expect that there were some special methods in this attack! He saw a spear-like thing piercing through space, drawing a long spatial crack.

But even if there was such a spear, it was wrapped and swallowed by the black fog.

Han Fei was also surprised. The teeth of this mist after the fusion seemed to be especially good! It seemed to be able to eat anything. However, this devouring power was not without disadvantages. It seemed to shorten the time of his transformation. In other words, the more attacks he received, the stronger he was, but the shorter time Han Fei could use the Twin Divine Technique.

However, Han Fei didn't mind.

The Twin God Technique could hold out for half an hour in a battle with a Half-Venerable puppet, let alone a battle of this level.

Almost half of the hundred tentacles were broken in an instant. Under the baptism of the black and white mist, they were damaged again and again. After only a moment, only twenty tentacles were left, which looked rather shabby.

Han Fei wasn't familiar with the Twin Divine Technique after all, so he wanted to take this chance to practice it. The black and white mist transformed into humans.

The black Han Fei didn't attack directly but was trying to approach and hunt.

The normal Han Fei raised his hands and summoned a large number of ice spears. As he thought, the spears shot out. However, this kind of spear that left the body was purely summoned by strength and didn't have a particularly powerful attack power.

At this time, Han Fei also used the Art of Invincibility. The Art of Invincibility even had a frosting effect.

The fierce battle went on for a long time.

The sea flowers seemed to realize that neither their own power nor the power they controlled could shake Han Fei.

This made the Sea Flower panic.

Therefore, a spiritual power shook in the water. "I'll let you pass. Let's not interfere with each other, OK?"

Han Fei didn't expect that this thing was conscious and could communicate with him.

"Hmph!"

Han Fei grunted and ignored it. After all, the black him had already sneaked to the side of the gigantic Sea Flower but hadn't attacked it.

You didn't make peace until I approached you? Isn't it too late?

How could Han Fei hold it back?

The black Han Fei was still approaching.

However, the Sea Flower seemed to be paying all its attention to the normal him and didn't notice this black figure.

Han Fei was very careful not to cause any fluctuations in the airflow. He discovered that although this sea flower was baring its fangs and brandishing its claws, its trunk was so high and it looked like a big tree. In fact, it was just a big flower. From above, there was a fruit hidden in the middle of the flower. If he guessed right, it should be a Void Fruit.

Seeing this scene, in order to attract the attention of the Sea Flower, the white Han Fei immediately shouted, "You want me not to attack you? Then there must be a reason for me not to do anything. Otherwise, die..."

Han Fei hadn't spoken before.

At this moment, seeing that Han Fei had really stopped attacking and was talking to him in a negotiating tone, the Sea Flower also stopped attacking.

To be honest, the Sea Flower had never tried to reason with anyone in its life, but now it was forced to do so!

Han Fei said, "Let me ask you first, how does this place lead to the lower floors?"

Immediately, the Sea Flower said excitedly, "Walk less than 600 kilometers from here, and then pass the channel guarded by a Half Serpent. I can help you talk to the Half Serpent and ask him to open the channel."

Han Fei thought to himself, This is just the third level. Even if I don't use anything, I can still fight my way through.

Han Fei continued, "Secondly, tell me, do you know where there are powerful Lotus Demonic Plants?"

"Huh?"

The Sea Flower seemed to be speaking with dozens of mouths at the same time. "No. There are only two demon plants here, me and the Six-Finger Coral, and no other demonic plant creatures."

Han Fei asked, "You don't know the situation of the other floors below, do you?"

The Sea Flower's voice echoed, "I have never left this place. I only know that there should be other spaces above and below me. In the past, most of the living creatures on our floor went to other places below through that channel."

In the first place, Han Fei didn't expect to get an accurate answer from the sea flower. What was the level of the Water Immortal, and what was the level of the Sea Flower?

Han Fei was really not interested in the third floor. He didn't want to talk to the Sea Flower anymore, so he shouted, "Attack!"

"Sacrificing Punch..."

"Draw ~"

The white Han Fei punched the Sea Flower.

The Sea Flower immediately panicked. "There is no grudge between us. Why fight to the death with me... Did you sneak attack me?"

"Ahhh~"

The Sea Flower found that in the center of the flower pistil, a sword aura swept across in an instant. In the next moment, there was no fruit left. Something had picked it.

The Sea Flower exclaimed, "Is this... an Associated Spirit?"

"Pu! Pu! Pu! Pu!"

Three seconds later, Snowmourne, together with the white Han Fei, cut the Void Tentacle of the Sea Flower into pieces.

Han Fei grinned. "What's the use of you if you don't know anything? If you want to prove your usefulness, release your soul and let me see it for myself. Otherwise, go to hell!"

There was no other choice for the Sea Flower. God knew why Han Fei was so strong.

At its level, it really didn't understand. For countless years, it had never encountered an opponent like Han Fei.

To be honest, Han Fei didn't seem to be strong! Why was he so strong the moment he attacked?

At this moment, Han Fei wanted to see its soul. Although the Sea Flower was horrified, it still agreed. After all, it was a demonic plant. If it had to, it could split its tentacles, escape into the void, and find a chance to regenerate.

The Sea Flower: "Okay!"

Han Fei smiled. "Collect!"

The Sea Flower: "???"

At this moment, the Sea Flower was still thinking, "Collect"? What does that mean?

However, at the next moment, it knew nothing.

Chapter 1283: Peerless Treasure Trove

There seemed to be no limit to the Demon Purification Pot's ability to collect demons. However, the number of contractual spiritual beasts fused seemed to be related to the number of small vines of the Demon Purification Pot.

This sea flower was indeed very strong.

If it weren't for Han Fei's special methods, it would be impossible for him to win so easily. It was best to take in such a creature.

At this moment, Han Fei looked at the Void Fruit in his hand.

Information popped up in his eyes.

< Name > Void Fruit

< Introduction > It's one of the Space Enlightenment Fruits. All the laws of the Sea Flower are gathered in one fruit. Eating it can allow you to understand the Dao of space. It's extremely rare.

< Level > Heaven

< Quality > High-Quality

< Spiritual Energy > 101,000 Points

< Effect > The devourer's understanding of space depends on their own opportunities.

Han Fei's eyes widened when he saw the magical effect of the fruit. There might be many spiritual fruits in the vast sea, but there were few with special quality or magical effects.

Although most anti-poison fruits were precious, they were nothing compared to the exotic spiritual fruits of space.

This fruit could even create a Heavenly Talent.

The gigantic Sea Flower was sucked into the Demon Purification Pot.

Han Fei's vision suddenly widened, mainly because his eyes lit up. The Demon Purification Pot collected the true body of the Sea Flower, and the countless corpse puppets killed by the Sea Flower were not sucked into the Demon Purification Pot.

Therefore, Han Fei found a big pit under the Sea Flower. In the big pit, there were more than 200 corpses of various races.

Han Fei felt excited and regretful at the same time. Unfortunately, the Grand Puppet Technique could only be used before the body decayed and the soul dissipated.

But these creatures had been dead for a long time. It would be difficult to refine them into puppets.

Han Fei couldn't help but wonder if there was a way to refine these creatures with the Puppet Nurturing Technique.

This idea was immediately given up by Han Fei.

Now was not the time! He couldn't completely trust the old turtle yet.

In the future, when he grew up to the point where he could easily crush Gui Sanqing, he could deduce and use great techniques like the Puppet Nurturing Technique and the Soul Searching Technique.

However, although there were many corpses here, there were actually not many who could fight. Although Han Fei couldn't refine them into puppets, he could use the Soul Splitting Technique!

As long as he split a wisp of his soul, he could also control these creatures. However, this method didn't mean much. He could control their remnant bodies, but their combat power wouldn't be very high.

Han Fei landed and waved his hand, collecting half of the remains into Forge the Universe. These creatures were at the Dao Seeking level anyway. Their bodies could be counted as Divine-level materials.

The rest was too decayed to be refined into weapons.

Han Fei also keenly discovered that there were as many as a dozen flood dragon bones here.

Seeing that, Han Fei's eyes glittered again. Since there were dragon bones, there must be a lot of dragons and pythons.

As for the Half-Serpent mentioned by the Sea Flower?

When Han Fei first heard about this creature, he thought it was a human snake or a snake spirit. The upper half of its body was a human, and the lower half was a snake. Otherwise, how could it be called a half serpent?

Seeing that Han Fei was safe, the old turtle said casually, "It seems that this Demon Subduing Tower is indeed extraordinary. The enemies at the same level as you are extremely difficult to deal with. Do you want to eat this fruit now?"

The two Han Fei disappeared at the same time.

Han Fei became himself again, and Little Black and Little White were circling around him.

With a thought from Han Fei, Yu Wendao appeared.

Han Fei said, "Of course! The more special creatures here, the more dangerous it is, the more opportunities there will be. I've just come in, and I've already met creatures like the Six-Finger Coral and the Sea Flower. Since they can live here for so long, I might be better adapted to the environment if I eat their power."

The old turtle pondered for a moment. "That's good. However, I'm actually a little uneasy. In this so-called Demon Subduing Tower, nature's mystery is in chaos. I can't calculate anything."

Reminded by the old turtle, Han Fei also calculated and found that he couldn't perceive anything either.

The old turtle said disdainfully, "Although I don't know how you learned the divination technique at such a young age, what realm are you in? I can't even figure it out. How can you?"

Han Fei curled his lips. "I hope that when I become a king, you can still be as arrogant as you are now."

Han Fei quickly sat cross-legged and ordered Yu Wendao to protect him. "Old Yuan, let me try the danger of this place and cultivate here. Let's see how many creatures will come."

The old turtle: "OK!"

He stuffed the Void Fruit into his mouth, which flowed into his body like smooth and sweet water.

Buzz!

Han Fei felt that his head suddenly shook, and he seemed to enter a dream. Countless mirrors seemed to appear around him.

Han Fei, who was in a slightly chaotic state, looked around and found himself everywhere.

Although it was slightly chaotic, Han Fei didn't lose his rationality and didn't directly enter the mirrors.

Han Fei gently pointed his finger, and a knife light pierced into a mirror. The moment the knife light left his body and entered the mirror, Han Fei suddenly had a strange feeling. He felt that he could go anywhere he wanted.

Han Fei immediately looked back and issued an order in his heart, only to see that the knife light he just launched at the front appeared behind him.

Han Fei suddenly comprehended something.

He had learned the Near at Hand Technique, which actually couldn't be called the Near at Hand Technique but shrank the ground into inches. The way to do that was to find a node and make the space in that place oscillate. As long as the oscillation was at the same frequency as his, he could ignore the space and cross over.

But at this moment, countless nodes appeared in Han Fei's mind. It seemed that within the coverage of his soul, he could go to many places.

Han Fei even felt that he could step into the void and leave the real world. This was a bit like the Star Teleportation Technique...

In the outside world.

Han Fei had been sitting there for two hours.

At first, no creatures attacked him. However, after only an hour, he saw a yellow light darting at him. It was none other than the Six-Finger Coral.

Not only the six-finger coral, but also dozens of whip shadows swept over. Those whip shadows looked like shadows and quickly drew back the moment they appeared.

When these whip shadows appeared again, they no longer probed but simply swept at Han Fei.

However, at that moment, Yu Wendao attacked.

With the strength of a Half-Venerable, he smashed the six-finger coral with one hand and grabbed a long whip with the other.

As Yu Wendao pulled hard, the terrifying force straightened the long whip, and a strange black fish was dragged back through the void.

This creature's shape was extremely strange. Its fish head had a separate nose, and on the nose, there was a long whip countless times its body.

At this moment, Han Fei suddenly opened his eyes and saw the weird fish rushing at him.

"Huh? Horned Anglerfish?"

In Han Fei's mind, his first reaction was that the guy in front of him was very similar to a deep-sea fish he had seen before, called anglerfish. And it was an extremely rare Horned Anglerfish.

Shua!

Han Fei moved slightly and appeared next to the gigantic anglerfish.

Information popped up in his eyes.

< Name > Dragon Beard Devourer

< Introduction > Dragon Beard Devourer, with a little dragon bloodline, has bewitching and illusion powers. It can make creatures take the initiative to enter its stomach without knowing it, making it difficult to escape. Its long whip that was like a dragon's whisker and has extremely strong perception abilities, is extremely tough and sharp, and can tear through the void.

< Level > 77

< Quality > Legend

< Enforcing law > Enchantment Whip

< Spiritual Energy > 15,026 Points

< Edible Effect > Inedible

< Collectable > Tempting Beard

<Absorbable>

< Remarks > There is a big space in the stomach of the Dragon Beard Devourer, which has a strong hypnotic ability.

When he saw this Dragon Beard Devourer, Han Fei directly ignored the bewitching technique. However, the words like “a little bit of dragon bloodline” and “the long whip dragon beard was very tough” deeply attracted Han Fei.

His Void Lines should have been updated a long time ago. It took him a lot of effort to get the shrimp meridians of the Triple-Blazing Cold Shrimp. So far, he hadn’t met a Dao Seeking great demon who could be used to refine the Void Lines.

He didn’t expect to meet the Dragon Beard Devourers in this Demon Subduing Tower. Even Yu Wendao couldn’t break their long beards! It could be seen how tough they were!

At that time, Han Fei looked excited. This is a treasure trove! This is a damn treasure trove!

For ordinary people, the Demon Subduing Tower was a perilous place.

However, for Han Fei, if this wasn’t an unparalleled treasure trove, what was it? As soon as he came in, he had swallowed a Void Fruit, picked up a bunch of Divine Weapon materials, and met the Dragon Beard Devourer. He could make a lot of upgrading now!

The old turtle asked, “What about the effect of the fruit?”

Han Fei smiled.. “Great.”

Chapter 1284: Epiphany

Han Fei said great, and he really meant it.

He had been pretending to use the Near at Hand Technique before, but now he had really grasped it.

The so-called Near At Hand Technique was to shorten the distance or the time. Shortening the time was actually an act of deceiving oneself. In fact, the distance he walked didn’t change.

And shortening the distance was like teleportation, like the infinite flash ability of the Phantom Glass Wings. That was the power to cross space.

At this moment, Han Fei’s strength had grown so much, but his use of combat skills was somewhat restrained. Thanks to this Void Spirit Fruit, Han Fei perceived that there were some spatial nodes in the

surrounding space. If he found the right spatial node, he could easily achieve strange powers such as flashing, shrinking the ground to an inch, moving thousands of miles in a step, and twisting space.

Han Fei couldn't help being curious about the Star Teleportation Technique.

It was precisely because he understood the nodes in space that he knew that this so-called space could actually be sealed.

A strong master could forcibly seal a space, or to be exact, a certain powerful force made some spatial nodes being sealed and unable to be broken.

However, the Star Teleportation Technique wasn't one of them. The Star Teleportation Technique even broke the spatial nodes, as if it had opened a space restriction and forcibly destroyed a space.

Although there had been someone who could seal his Star Teleportation Technique, that was purely because the other party was much stronger than him. If the two parties were at the same level, the other party wouldn't be able to stop him at all.

At this moment.

Han Fei saw that there was a light on the head of this Dragon Beard Devourer. At that moment, he seemed to fall into an illusion.

In the illusion, a huge fish head was opening its mouth, trying to swallow him.

"God Scaring Stab."

As he thrust out his spear, the illusionary fish in front of him shattered like glass, and a big mouth was trying to swallow him.

However, at this moment, the eyes of the Dragon Beard Devourer were red, as if it was stabbed by his God Scaring Stab.

However, the other party's reaction speed wasn't slow either.

After all, as an advanced Dao Seeking creature, it wouldn't be killed by Han Fei's single blow. If that happened, wouldn't the creatures who survived the Demon Subduing Tower be too weak?

Han Fei's fist flashed and he punched out. However, he felt that his mind was slightly shaken. When he came back to his senses, he found that he had hit the wrong place.

Chi la!

A sawtooth-like sound rang.

Han Fei saw that this Dragon Beard Devourer appeared 100 meters away, trying to pull its long beard out of Yu Wendao's hand.

However, it had underestimated the power of a Half-Venerable.

Han Fei had figured out what happened. Just now, when he punched, a red mark appeared on the head of the Dragon Beard Devourer. It must have enchanted him at that moment.

Han Fei frowned. With a low growl, he stepped on the Dragon Beard Devourer and activated the Hundred Beast Soul Subduing Roar.

Boom! Boom!

After two explosions, the two eyeballs of the Dragon Beard Devourer exploded.

Clang ~ Slash!

Han Fei slashed and forcibly cut off the long beard of this Dragon Beard Devourer.

Immediately afterward, Han Fei used the Draw Technique to cut off its body. It was an advanced Dao Seeking creature, but it was still cut in two by Han Fei.

The old turtle finally said leisurely, "Your reaction speed is not slow, but it's still not fast enough. When you were enchanted just now, if the other party hadn't fled but chose to attack, you would have been hit. If you encountered a top powerhouse, the other party would definitely seize this moment of opportunity. After all, your Dao heart is not firm enough."

Han Fei frowned. "Dao heart?"

The old turtle said, "The Dao heart may be a bit mysterious, but the stronger the Dao heart is, the stronger the will. Although the power of the soul can resist many illusions, the soul is not omnipotent. At least, it can't compare to the Dao heart. When you comprehend your own Great Dao in the future, you will know that the Dao heart is much more powerful than the soul."

Han Fei was puzzled. "Dao heart? Why haven't I heard of it before?"

The old turtle snorted. "Why don't you take a look at how remote the sea area you're in is? In fact, in my era, most people had already started cultivating their Dao hearts when they were still weak."

Han Fei was surprised. "What is a Dao heart?"

The old turtle explained, "A cultivator's Dao heart is to pursue the Great Dao in their heart, or the determination to become stronger. Few people can finish the path of cultivation. If you want to walk on your own, how difficult is it? Some people give up halfway, and some people look around blankly. These are all embodiments of a lack of Dao heart. You gave birth to an ancient seed. If you persist on that path, your Dao heart will be stabilized in the future. Now, your ancient seed has shattered, but you haven't comprehended your own Great Dao, so your Dao heart isn't stable for a short period of time."

Han Fei was stunned. When do I have a Dao Heart?

The old turtle said, "Think about it. When you harvested that ancient seed, what was the environment? What was your pursuit?"

Han Fei's heart stirred. Back then, it was a seed born from the opportunity Ren Tianfei left him in the Abyssal Chasm in the level-three fishery.

As for the environment...

Han Fei was suddenly refreshed. Back in the level-three fishery, he didn't have any distractions.

All his goals were to become stronger, to take revenge, and to find the opportunities left behind by Ren Tianfei. Therefore, when he was in the level-three fishery, what he loved most was to explore secret realms and try to become stronger.

At this moment, he seemed to be thinking of ways to save the Water Immortal. However, when he came to the Water-Wood World, he didn't know that the Water Immortal was still alive. Therefore, saving the Water Immortal wasn't his Dao, but something he needed to do recently.

Then, what was his purpose for coming to the Water-Wood World to transcend the heavenly tribulation?

Before, Han Fei thought it was to become a king. However, after hearing what the old turtle just said, Han Fei suddenly realized that it didn't seem to be the case! He was here for the war three years from now.

That war had given him too much pressure!

The pressure the Heavenly Palace gave him was great too!

The pressure on him to become a king was equally great!

Others' expectations also put too much pressure on him!

At this moment, Han Fei froze and looked solemn.

Yes, in fact, from the moment he competed for the Sea Quelling Painting and learned about the Thirty-Six Heavenly Palaces and some secrets of this world, he had already felt pressure.

Unlike Ximen Linglan in the Age of Doom, Ximen Linglan was born in a big clan in that era. After she was expelled from the big clan, revenge was her Dao.

However, the path of revenge was too narrow. In the end, Ximen Linglan embarked on the path of great love.

Could it be that his Dao was to become a king? Was it for the battle three years from now?

The answer was obviously not. However, if he just went on like this, his growth would only be limited.

At this moment, Han Fei really wanted to thank the old turtle.

As the saying went, your remarks were more enlightening than what I had read in ten years. It wasn't until just now that Han Fei came back to his senses in surprise.

These words were not only better than ten years of study, but also better than ten years of cultivation. Didn't the Water Immortal have to re-cultivate because she took the wrong Great Dao?

"Hiss!"

Han Fei gasped. He had to change his mistake!

At this moment, Han Fei realized that he was wrong. What exactly had he been doing all these years? Transcending the tribulation, pretending to be the Fish Dragon King, and finding the Water Immortal, these were just his experiences. And the realm of the heart was his biggest problem.

Buzz!

The spiritual energy around Han Fei suddenly gathered, and power from all directions gathered.

The old turtle realized that the brat had an epiphany. Why did he have one at this moment?

The old turtle was lost for words. If you want an epiphany, enter your calabash world! How can you have an epiphany in such a dangerous place?

However, Han Fei had already entered a state of epiphany, and spiritual energy was gathering frantically. Yu Wendao, Little Black, and Little White, who had just entered the Sea Spirit Realm, were not enough to protect him.

The old turtle couldn't help cursing, "God damn it! It wasn't easy for me to save some vitality. Why does this idiot suddenly have an epiphany? Doesn't he know to choose a place to have an epiphany?"

At this moment, Han Fei had a complicated mind and didn't realize that he was in a state of epiphany at all.

In Forge the Universe, a huge amount of spiritual energy and energy burst out, which stunned Fish Dragon King. He thought to himself, What did Han Fei do this time?

At this moment, Han Fei was very uneasy. What is my Dao?

At first, it was for treasure hunting.

Then, he had to keep getting stronger to protect himself.

After that, he was a little immersed in the pleasure of treasure hunting and becoming stronger. He chased after Ren Tianfei's treasure, hoping to see this world and the Infinite Ocean.

In Luo Xiaobai's words, he simply wanted to become stronger.

Now, Han Fei discovered that whether it was the war three years later, becoming a king, the Yin-Yang Heavenly Palace, or the story of Old Han and his mother, they were actually not his pursuit.

He had always been others' pawn.

No matter how smooth things were or how many hardships he had to go through, he couldn't jump out of the game. This was because he was following their plan. He even instinctively believed that following their plan was the right choice.

"No... My goal is the Infinite Ocean, the vast sea... Xia Xiaochan is waiting for me, the Heavenly Desolate City is waiting for me... The gods have perished, the beast kings have gone east, and the history remains a mystery! My path is to keep walking forward..."

Chapter 1285: Breakthrough

Crack!

Han Fei stood proudly in midair and had already made a breakthrough without knowing it. His strength had directly skipped the junior Explorer realm and reached the intermediate Explorer realm.

The old turtle was dumbfounded. What kind of speed is this? How long has it been since the tribulation? How did he suddenly become an intermediate Explorer?

And the spiritual energy in Forge the Universe was still being consumed crazily. Thousands of spiritual fruits exploded, and all kinds of power poured in, but Han Fei's breakthrough didn't stop.

However, the outside world had already become a sea of corpses and blood.

Yu Wendao was on a killing spree, and his palm swept across the sea. Poisonous substances escaped from his body, and there was a dazzling golden light, gravity suppression, and saber beams.

Yu Wendao had mastered too many Great Daos, so in the eyes of the old turtle, he was just a weakling. However, in the eyes of these great demons at the Dao Seeking realm, Yu Wendao was simply a monster.

Furthermore, what Han Fei didn't know was that Yu Wendao wanted to come to the Royal City for the forbidden areas. He conceited that he had many means and was very strong. Perhaps he could encounter opportunities in the forbidden area to let him enter the Dao.

However, Yu Wendao never expected that he would enter the forbidden areas of the Royal City as a puppet.

Yu Wendao was fighting fiercely, so was the old turtle.

At this moment, the black fog was spreading, and many weird creatures were rushing into the black fog but never going out again.

In this black fog, Little White was forcibly suppressed by the old turtle. The main reason was that Little Black and Little White were too weak. Even if they had an innate Dao Body, so what? An innate Dao Body couldn't cross a large realm or multiple small realms to fight an enemy!

If Han Fei woke up and saw his precious spiritual beast almost being beaten to death, he would definitely blame him. This brat would definitely fight him to death for these two fish.

Little White was caught, and Little Black was attacking.

A creature was going to swallow Han Fei. How could he tolerate it?

Little Black opened his big mouth. He decided to bite first whether he could bite or not.

Within a kilometer around Han Fei, there were a lot of cracking sounds, and sparks flew in all directions, which were mostly caused by Little Black.

The attacks came from two sources. One was the Six-Finger Coral, which seemed to have discovered that the Sea Flower had died and was rushing here unscrupulously.

A group of corals could actually leave their growing place and float in the water? Who would believe this?

However, the six-finger coral was stopped by the old turtle.

All the yellow light shot into the black fog without raising any water. The insect fluid that could corrode vitality and soul was swallowed by the black fog and instantly withered.

On the other side, dozens of Dragon Beard Devourers attacked. Just now, one of their companions died. They were a little unsure and didn't dare to attack rashly.

But at this moment, Han Fei was making a breakthrough. The spiritual energy and energy gathered here, and a large number of creatures were surging over. How could they fall behind?

In addition to the Dragon Beard Devourers, there was also a large shell full of sea anemone-like tentacles pushing at the water. The soul of the jellyfish flashed with electric arcs, and there were huge flowers burning with flames.

Hundreds of creatures were gathering.

On Han Fei's side, there were actually only two combat powers. If he had to describe it, Yu Wendao was at most a peak-level Dao Seeking powerhouse, and the old turtle could be counted as a Half-Venerable.

Therefore, the old turtle wrapped Han Fei in black fog.

Even so, the old turtle could only devour the vitality of these creatures at most. However, if any creatures entered the black mist and attacked Han Fei, the old turtle couldn't stop them. He could only control that area to make the vitality absorption more frantic.

And the black fog was also a kind of energy.

When the old turtle defeated his opponent, he actually consumed a lot of energy. Besides, as a soul, he swallowed vitality just to extend his life. The soul was the key to the old turtle's survival. But now he was fighting with his soul power.

Therefore, although it seemed that the old turtle was almost invincible, and all the vitality of creatures was being swallowed by the black fog, only the old turtle knew that he didn't make any profit.

He had gained some vitality, but he had used a lot of his soul power.

Therefore, when the old turtle saw that Han Fei had already become an intermediate Explorer, he began to call for reinforcements. He felt that it wasn't good to make too many breakthroughs at once. The more talented Han Fei was, the more he needed to accumulate.

Therefore, the old turtle roared, "Han Fei, wake up, wake up..."

At this moment, Han Fei was immersed in his beautiful vision. He was very excited. At this moment, he vaguely discovered his Great Dao.

It was an exploration, a pursuit of knowledge, and a path of comfort. To become stronger was to see this world! Cultivation was to see this world!

Even though he was already very strong, looking at this world, he still felt like a passerby. That feeling was like "I am the master of my fate"..

This mood made Han Fei transform. His meridians were emitting a strange light, and his blood was boiling.

In Han Fei's Dantian, a small seed the size of a sesame was born at some point. When this seed was born, the old turtle was dumbfounded.

"Hiss! Another one?"

"Although it's small, this brat gave birth to another one? His talent is too terrifying."

...

At the moment when Han Fei was having an epiphany, in a secret realm in the Yin-Yang World, Han Guanshu suddenly opened his eyes, pinched his fingers, and calculated, and his expression became solemn. "Why did this brat jump out of the chess game so quickly?"

Han Guanshu quickly performed divination again, and the sky and the clouds changed. After a long while, he slowly breathed a sigh of relief. "Hu! Fortunately, he hasn't completely jumped out. That's all right."

Han Guanshu couldn't help being a little curious. Didn't Han Fei just go to the Water-Wood World to transcend the tribulation? Why had he almost ruined his chess game?

In a distant unknown place, a woman was standing on a cliff. Under her feet was the moonlight, and she was like standing on the stars.

The woman looked up at the starry sky and her eyes flickered. "Has my son entered the Dao? But why have I never seen this Dao before?"

...

Han Fei didn't know what impact his epiphany would have.

All in all, he felt that he was in an extremely good state! Of course, except for the noisy shouting in his ears.

"Wake up, wake up, wake up..."

Han Fei wanted to ignore the noise at first, but at the next moment, he suddenly woke up. F*ck, wasn't I fighting in the Demon Subduing Tower? Why am I suddenly exclaiming about my life?

Instantly, Han Fei's consciousness returned to reality.

When he opened his eyes and took a closer look, he found that a battle had already broken out in front of his eyes. The black fog swept out, and many creatures were held by the old turtle, their vitality fading.

The old turtle roared, "Brat, you finally woke up! I'll leave these creatures to you. My soul has been damaged again. I can't do anything anymore..."

Han Fei had wanted to thank the old turtle. He thought to himself, If it weren't for this old guy's words, I wouldn't have been able to find my Great Dao yet!

As for what the old turtle said about the soul damage, Han Fei didn't believe it at all. The reason he didn't believe it was that the old turtle, as an emperor, wouldn't be hurt because of this trivial battle.

He didn't know what an emperor was like yet.

However, Han Fei knew very well what a Half-King was like. That was simply inhuman. The Sky Dissecting Finger was terrifying enough, wasn't it? He felt that the finger could even pierce through the sky. However, a Half-King was able to resist it.

He had once asked: How many peak-level Venerables or Half-Kings could a king-level powerhouse defeat?

The old turtle said, "A dozen, easily."

From this, it could be seen that a king-level powerhouse could easily destroy a Thousand Star City.

If a king-level powerhouse was already so strong, what about an emperor? Therefore, no matter what, Han Fei would never believe what the old turtle said.

However, he was indeed distracted just now.

Since the creatures had come, he would just fight!

Setting aside some shackles on him, Han Fei discovered that what he loved most was still exploring, treasure hunting, becoming stronger, and seeking knowledge.

At this moment, he saw that a big shell opened its shell, and a large number of tentacles extended out of the shell, trying to buckle him.

"Humph! Even a shell dares to attack me now? Do you want to be my food?"

Han Fei stepped in the air, his figure flashed in the air, and he directly appeared beside the big clam. As the Invincible Fist blasted out, with a bang, the big clam was sent flying.

Dong!

Crack!

When Han Fei heard the muffled thunder-like bombardment, he felt his strength slightly. Something seemed to be wrong.

Han Fei immediately looked at his message.

The next moment, Han Fei gasped. What did I do? When did I become an intermediate Explorer?

Information popped up in his eyes.

Owner: Han Fei

Level: 74 (Intermediate Explorer)

Spiritual Energy: 180,000 / 180,000

< Spiritual Power > 24,666 / 24,666

Perception range: 2,160 kilometers

Enforcing Law: Invincible Vajra

Strength: 348 Waves

First Spiritual Heritage: Unknown

Second Spiritual Heritage: Unawakened

First spiritual beast: Twin Yin-Yang Spirit Swallowing Fish (level 61)

Second spiritual beast: Unawakened

...

Chapter 1286: A Half-Serpent

When he saw this information, Han Fei was stunned. When did I become an intermediate Explorer?

His upper limit of spiritual energy suddenly soared to 180,000 points.

His spiritual power had also increased a lot, and his perception range had increased by more than 200 kilometers. And he hadn't cultivated the God Scaring Painting yet. Otherwise, as time passed, it would only be higher.

However, he didn't ask the old turtle this time.

Han Fei soon discovered that he was not in the right state. He seemed to be more relaxed, both physically and mentally.

Then he found a sesame-sized seed in his Dantian. It must have just been born.

Han Fei was a little surprised. "I just perceived it. Why are there so many benefits? Is this a Dao Seed?"

At this time, the old turtle thought to himself, Why are you still puzzled? I'm the one who's depressed!

The old turtle said, "Physical body, realm, and spiritual perception are all extremely important in cultivation. Especially perception, it determines the height of your spiritual realm and soul."

Han Fei saw that the increase in his spiritual power didn't seem to be a lot, but it was actually nearly 10%. After reaching the Explorer level, it was already extremely terrifying to be able to increase his strength by 10%.

Of course, this was definitely not the limit.

Han Fei could clearly perceive that as long as he had enough time to cultivate, it shouldn't be a problem for his spiritual power to increase by 20% or even 30%.

Unfortunately, the only thing he lacked now was time.

Looking at the clam shell that was almost torn apart by his punch, Han Fei grinned, stomped, and appeared a thousand meters away.

A Dragon Beard Devourer couldn't escape in time and its long beard was grabbed by Han Fei.

"Chila..."

The Draw cast a dazzling brilliance on the seabed, and a long beard was chopped off by Han Fei.

In addition to the normal creatures, a large number of six-finger corals shot out grayish-yellow light. This group of living corals seemed to be trying to grab territory without fear of death.

However, with the death of the Sea Flower, Han Fei's strength had greatly improved, and the Six-Finger Corals' parasitic ability couldn't be used at all. Then they were directly sucked dry by Han Fei.

Yes, they were sucked dry. What was sucked dry was spiritual energy and vitality.

However, there were still many creatures here, and most of them were in the advanced Dao Seeking realm. Therefore, even if Han Fei used all his strength, he wouldn't be able to kill them instantly.

A single-horned dragon whose horn flashed with lightning released electric arcs thousands of meters around, sending a big black fish to the bottom of the sea.

A blue lobster attacked Han Fei with its pincers, cutting the seawater and the space. It seemed to be trying to kill Han Fei quickly.

"Roar! Get lost!"

Han Fei's body suddenly soared, and he activated the Beast King Technique, summoned the big ape, and held the Embroidery Needle in his hand.

Bang! Bang! Bang!

He simply let the electric sparks fall on him.

Han Fei's body and the surrounding waters were bombarded with crackling sounds.

However, his speed didn't decrease at all. The Monkey King's Three Thousand Sticks smashed down, directly smashing the giant pincers.

Then, Han Fei stomped and the Embroidery Needle smashed at the head of the big dragon crazily until the head was broken.

Han Fei stared at a giant turtle and punched it backhand. The Sacrificing Punch crushed the giant turtle all the way to the bottom.

Han Fei's powerful blow respectively killed and seriously injured one of them. Seeing this, many creatures were surprised. More importantly, the six-finger coral failed to gain anything from Han Fei.

It was also under this blow that Han Fei's strength seemed to be recognized by the creatures on the third floor of the Demon Suppressing Tower. Therefore, a large number of creatures began to retreat.

However, Han Fei certainly wouldn't let them go. He roared, "All the other creatures can go, but the dragon-bearded big fish must stay."

Like a giant, Han Fei shrank the ground into an inch at the bottom of the sea, covering dozens of kilometers with each step as he chased crazily.

A Dragon Beard Devourer said, "We admit your strength. Why do you keep chasing us?"

Han Fei was slightly surprised. "You can talk? Then why didn't you tell me earlier? In short, I like your long beard. Are you giving it to me voluntarily, or should I pluck it myself?"

"Roar! Do you know where you are?! How dare you speak so arrogantly?"

Three Dragon Beard Devourers, seeing that Yu Wendao didn't chase over in time, quickly turned around in tacit understanding. Their long beards wove into a net and fell on Han Fei.

However, Han Fei didn't want to fight a protracted battle with them.

Therefore, under the Star Teleportation Technique, Han Fei suddenly appeared beside a Dragon Beard Devourer. He drew his sword, turned the Infinity Water into a knife, and launched the Draw Technique again.

With his two powerful strikes and a Sea Quelling Bizarre Treasure, how could ordinary great demons at the Dao Seeking realm resist it?

Chi! Chi!

On the scales of the Dragon Beard Devourer, flames were surging.

Han Fei could even feel the muscles of their bodies twitching. However, even so, these dragon-bearded big fish failed to block the attack of a Sea Quelling Bizarre Treasure.

In an instant, the two advanced Dao Seeking demons were almost cut apart.

They didn't die in one attack because they had stayed in the advanced Dao Seeking realm for too long, so their current physique was very strong. Only because of that were they not chopped in half by Han Fei's slash.

However, just as the two Dragon Beard Devourers were horrified and were about to burn their blood to escape, they suddenly discovered that their souls seemed to be caught.

In fact, these dragon-bearded big fish had cultivated for much longer than Han Fei. Although Han Fei's soul power was very strong, it was not much stronger than these advanced Dao Seeking creatures. Therefore, it was not easy to directly control them.

However, what Han Fei wanted was to delay them for some time. As for the others, he would deal with them later.

The Infinity Water turned into the Million Knife Art, entangling the two Dragon Beard Devourers in it. In an instant, tens of thousands of wounds appeared on their bodies, and the two advanced Dao Seeking creatures that should have been extremely powerful were killed.

Seeing how ferocious Han Fei was, the other creatures didn't dare to fight him anymore.

Yu Wendao's strength clearly exceeded the third level of the Demon Subduing Tower. However, because it was a puppet, the Demon Subduing Tower had no restrictions on him.

None of the creatures who had survived in the Demon Suppression Tower were fools. How could a person who could kill a Sea Flower be weak? Even if they attacked him together, they couldn't shake him. Why not run?

At this moment, a weird perception swept past casually.

Han Fei suddenly became vigilant.

Han Fei could clearly tell that on the third level of the Demon Subduing Tower, the strongest should be at the advanced Dao Seeking realm. Because of their characteristics, those who survived might have certain abilities, but they were definitely not strong enough that he couldn't deal with them.

However, this perception made Han Fei's heart palpitate. Could it be a behemoth who could resist him with the strength of the advanced Dao Seeking realm?

Immediately, Han Fei smiled. He had almost forgotten that he was only in the intermediate Dao Seeking realm. Before, he was only at the junior Dao Seeking realm. When did he no longer take advanced Dao Seeking creatures seriously?

"Is it a legend creature?"

Only legend creatures would give him a sense of danger in this realm. If it were a creature of another level, unless it had reached the level of a Half-Venerable, it wouldn't make his heart palpitate.

Han Fei didn't directly perceive with his soul.

In this realm, he discovered that there were too many creatures that could attack the soul.

Without using his soul to perceive, Han Fei snorted and collected the bodies of dozens of creatures. Then he strode forward and swam in the direction of danger.

"Huh!"

The old turtle exclaimed, "It's such a creature!"

Han Fei was confused. "What?"

The old turtle said, "See for yourself! That guy is waiting for you."

Han Fei was even more confused. Wait for me? Does he think he can sweep me?

Han Fei didn't believe it at all. In the words of the old turtle, the Yin-Yang World and the Water-Wood World were just barren lands, but he had just had an epiphany! The key to his path was not the path itself, but walking.

If he couldn't even walk through this barren land and couldn't even defeat the creatures here, how could he cross the Infinite Ocean? And search for the Merman race? And rebuild the Heavenly Desolate City?

A thousand kilometers passed in a moment.

Some creatures met Han Fei, but they quickly fled and didn't fight.

In fact, Han Fei didn't lack the materials for these creatures. Now, spiritual spring and spiritual fruits were easy to obtain in Han Fei's eyes. He could grab them if he wanted and didn't have to try so hard to get them.

Han Fei felt that it was like exploring now. Exploring the unknown, the history, and the location of the body of the Water Immortal...

It was not until this moment that Han Fei realized that Explorers were called Explorers mostly because of their pursuit of the unknown. He had figured out many secrets and had a general direction in his heart. As for the others, they couldn't even touch the door.

Clatter ~

The forest-like terrain at the bottom of the sea disappeared.

The hidden creatures no longer appeared in this water area. Instead, it was yellow sand. However, what alarmed Han Fei was that under the sand, there were many bones, but no living creatures.

Until Han Fei saw a human woman in the middle of the sand.

Han Fei had always thought that the Half-Serpent was a big demon that was half human and half snake.

However, it turned out to be a beautiful woman with a slightly larger frame.

Furthermore, the woman's clothes were rather exquisite. With the sea demon's skin as the clothes and the bone ornaments as the accessories, from her left wrist to her neck, and then to her right elbow, there was a white serpent entangled.

At this moment, both of them were looking at Han Fei.

Han Fei saw that this person was looking in his direction with a cold look, like the snake head on her elbow, which gave him a strange feeling.

After a long stun, Han Fei waved his hand and said, "Hi ~"

Chapter 1287: The Woman in the Demon Subduing Tower

Han Fei said with a smile, but he was very surprised.

The feeling this woman gave him was extremely extraordinary!

She didn't have a snake body. Although her frame looked bigger than his own, her face was cold and holy.

Especially the white snake that entangled her body, it made her look inhuman. Han Fei felt that this was the symbol of god.

She stood barefoot and expressionless. With a strange beast accompanying her, she looked like a celestial being.

What surprised Han Fei even more was that the Demon Purification Pot didn't see any information from this person, not even the information of the white snake.

Han Fei couldn't help asking in his heart, "Old Yuan, is this a human or a demon?"

The old turtle said, "To be precise, this is not a human or a demon, but a mutation born of a human and a sea demon. It's fine if it's an ordinary mutation, but this one was born with great luck. As a result, she almost became a divine child."

"Hiss ~"

Han Fei was stunned. Are you kidding me? A divine child?

Han Fei asked in shock, "Are you saying that she's the child of a god? Didn't gods die a long time ago? Has this woman lived here for hundreds of thousands of years?"

The old turtle said angrily, "I said that she almost became a divine child, but she didn't, OK? Now, I can only tell that her bloodline is a bit special, and she may have awakened some ancient bloodline. As for what it is, how can I know?"

At this moment, the woman gently raised her right hand, and the white snake on her elbow rose. The snake flicked out its tongue and looked at Han Fei curiously.

The woman said, "You are a powerful sea demon."

Han Fei was confused. You're telling me!

Han Fei asked, "Who are you?"

The woman raised her head slightly. "My last name is Bai."

"Pfft!"

Han Fei was speechless. Who the hell asked your last name? He couldn't help but ask, "Well... what about your first name?"

The woman looked back. "No one gave me a first name. I only know my last name is Bai."

Han Fei didn't feel that this woman wanted to kill him, but she was indeed on her guard.

Han Fei asked, "Then, Miss Bai, are you waiting for me?"

The woman nodded slightly. "You killed the Sea Flower. On this floor, no creatures except me should be your match."

Han Fei asked, "Did you know that there are other floors?"

The woman said calmly, "Yes, I walked down floor by floor. I can enter the next floor in three years at most."

Han Fei asked in surprise, "Did you walk down floor by floor?"

The old turtle said in Han Fei's heart, "Of course. Since she was born, she has been in the Demon Subduing Tower. Naturally, she walked down from the first floor. However, she lacks experience in the tower, which makes her foundation not perfect."

Han Fei asked, "There are so many powerful creatures here. Are they not enough for her to gain experience?"

The old turtle sneered. "How long have you been here? You're already invincible on this level, not to mention her. The creatures here are all afraid of her. Who will fight her? Everyone is wary of her."

Han Fei thought to himself, She can take the initiative to fight other creatures! However, this woman seems rather innocent. Maybe she doesn't want to kill those creatures?

Han Fei looked at the woman. "Then do you know the way to the next floor?"

The woman nodded. "I know, but there are restrictions to going to the next floor. Can you do me a favor?"

Han Fei nodded.

She spoke to him nicely the moment he came up. He was not a born killer, so he certainly wouldn't rush up and fight her.

Therefore, Han Fei smiled and said, "Just tell me. I'll help if I can!"

The woman's frown suddenly relaxed.

Han Fei could tell from her small movement that this woman seemed to have taken a long breath and was relieved.

Han Fei thought to himself, Is she afraid that I won't help her?

The woman said, "Come on, hit me."

"Huh?"

Han Fei was stunned for a moment. "Wait, Miss Bai, you mean hit you?"

The woman nodded. "Because it's difficult for me to find an opponent. Outsiders will probably die before they reach me. You are already the strongest outsider I've ever seen."

Han Fei couldn't help rolling his eyes. Aren't you talking nonsense? Those who are stronger than me basically appear on the fourth level and won't appear on the third level at all. How can you find someone stronger than me!

Han Fei asked, "So, you want me to fight with you and help you polish your foundation, right?"

The woman nodded, so did the white snake on her elbow. They seemed to be telepathic.

Han Fei thought to himself, It seems that I haven't fought such a strange person before. The other party shouldn't be weak.

Han Fei smiled and said, "Okay, let's have a fight first. Let me have a try."

Although he knew that this woman should be very strong and the old turtle even said that she almost became a divine child, Han Fei didn't think he was weak! Even if she was a real divine child, so what?

With great confidence, Han Fei suddenly launched the Heavenly Void Divine Movement at an extremely fast speed. In an instant, he appeared in front of the woman.

The Invincible Fist blasted out.

Just as Han Fei was considering if he should hold back, he saw a piece of white gauze blocking his fist.

Bang!

The terrifying ripples spread out dozens of kilometers. It could be seen how powerful Han Fei's punch was!

To Han Fei's horror, the woman brushed past him and "gently" patted his shoulder with a hand.

Han Fei had never been afraid of anyone in close combat.

Since he was trained by Ren Tianfei in the level-three fishery, Han Fei felt that every bone and every muscle in his body seemed to be able to fight.

Knowing that the other party was about to slap him, Han Fei moved his feet, exerted strength in his waist, and rammed his shoulder at the slap.

Rumble!

At that moment, sand flew all over the sky, the seawater exploded, and there were continuous booms.

Han Fei felt that his bones were almost broken. He was horrified. What kind of power was this?

The moment the two sides collided, Han Fei had already realized that something was wrong. The other party was too strong, so he didn't hold back at that moment. He poured all his strength out but was still slapped away, rolling dozens of times on the seabed.

Half of his body was numb.

"Cough!"

Han Fei grunted and found that he had some internal injuries. Blood was flowing from the corner of his mouth.

The old turtle said, "Do you really think you're invincible? She is going to reach the peak level anyway, two levels higher than you. You don't even use any secret technique, and you think you can win against her? Let me tell you, she hasn't even used 50% of her strength."

Han Fei was quite bummed himself.

This time, he had really overestimated himself. Yes, if it were an ordinary advanced Dao Seeking powerhouse, no matter how strong he was, he would only have a strength of 500 waves at most.

However, this woman was obviously not an ordinary person!

The woman said, "You can exert all your strength. The strength you use now is too weak."

When had Han Fei ever been evaluated like this by a woman?

He couldn't have looked more awful. He stomped and activated Devil Change.

Now, the old turtle was in his body.

At that time, he could still use the Devil Change secret method. They had discussed before that the old turtle's true body was still suppressed somewhere, so Devil Change could be used.

Of course, after reaching the level of an intermediate Explorer, the effect of the usage had become extremely low. The enhancement of Devil Change was only two times. It was still much weaker than the Beast King Technique.

However, the power boost of two times was already a lot. When doubled, the power he had would reach as high as 700 waves, which already exceeded the power of ordinary peak-level Dao Seeking powerhouses.

Han Fei stepped out again and appeared in front of the woman.

This time, the Invincible Fist was even more powerful, with a brilliance of a thousand feet, dazzling, and shockingly fast.

Since this woman's realm was higher than his, Han Fei didn't hold back anymore! When he attacked again, it was completely different from before.

The woman's eyes glittered as she punched Han Fei with all her strength and extended a hand.

Rumble!

This time, the vortex at the bottom of the sea completely erupted, and the shaking ripples spread out a hundred kilometers in the blink of an eye.

The other creatures released their perceptions, and after seeing the power of the two of them, they immediately fled. This was too f*cking terrifying! Even the power of their ultimate blow was probably not so strong!

"Cough, cough ~"

The woman didn't move at all, but Han Fei took seven or eight steps back before he suddenly raised his head. "Her physical strength exceeds 700 waves. If I've guessed right, it might even reach 1,000 waves. And in this blow just now, she still didn't use all her strength."

The woman asked in confusion, "You are very strong, but why do you fight only with strength?"

Han Fei chuckled. "I just wanted to see how strong you are.. Okay, now I'm going to fight you seriously."

Chapter 1288: Dao Arrays

Wasn't this battle a trial for Han Fei? It had only been half a year since he transcended the tribulation, but he had already become an intermediate Explorer.

His strength improved too quickly!

Han Fei was also eager to polish himself to fully adapt to this power.

In duels, there was no such thing as pure strength fight. In a battle, strength was not the only determining factor. If he didn't use the Beast King Technique, he would definitely lose.

At this moment, Han Fei's figure flashed in the void with the help of the Near at Hand Technique technique, and his invincible fist mark swept in all directions.

At this time, the white snake that Han Fei had always thought might be a spiritual beast propped up half of its body. The moment Han Fei appeared in the air, the white snake had already located him.

The woman almost stood still, giving Han Fei a taste of the Thousand-Hand Guanyin. After discovering that the Near at Hand Technique didn't work, Han Fei even summoned the Phantom Glass Wings and began to flash infinitely.

But even with Infinite Flash, this woman could keep up with the speed of his punches. After only twenty seconds, the surrounding energy was almost swallowed by the two of them. The sand had long become a big pit.

"Agility of Wind!"

Under the dual acceleration of the Heavenly Void Divine Movement and the Agility of Wind, the woman's expression finally changed. She didn't expect that Han Fei's speed could be even faster.

Immediately, the Thousand-Hand Guanyin pose disappeared.

Instead, three oval void shields appeared in front of her like three small portals, shielding in front of her.

Han Fei's Invincible Fist entered through the void doors and then blasted back at him from all directions.

"Huh?"

Han Fei was surprised. A space teleportation technique similar to the Star Teleportation Technique? It was also like the space reversal technique he had encountered in the Abyssal Chasm and the ghost ship.

Seeing this scene, Han Fei retracted his fist and the Infinity Water turned into a knife. And he used the Star Teleportation Technique and appeared directly inside the void shields.

"Huh?"

Seeing that Han Fei had so many means, the woman's pupils turned white, and she released a power similar to a soul explosion, trying to drive Han Fei away.

"Roar!"

The Hundred Beast Soul Subduing Roar was activated. The woman's body trembled, and blood oozed out of her ears.

Han Fei took the opportunity to launch the Million Knife Art.

But to Han Fei's surprise, this woman's physique was equally strong. As the Million Knife Art swept across, clinking sounds were heard.

However, Han Fei soon discovered the problem. It was not that this woman's physique was strong, but that the surface of her body was suddenly covered by a layer of white scales.

However, although it was covered by white scales, it was still unable to resist the attack of the Million Knife Art. The scales were cracking, which caused the woman and the white snake to be injured again.

It seemed that the woman had sensed the horror of the Infinity Water, and a thin layer of sand attached to the woman's body, which turned into a battle suit of sand in the blink of an eye.

However, a round of Infinity Water swept over and destroyed most of the battle suit.

For this woman, buying so little time seemed to be enough. Hundreds of tentacles of sand extended from the bottom of the sea, trying to roll towards Han Fei.

Han Fei grabbed with one hand and crushed a tentacle, but the tentacle didn't fall but gathered again and began to recover.

Seeing this scene, Han Fei knew very well that the other party was controlling these sand with the power of soul. It seemed that the Hundred Beast Soul Subduing Roar just now didn't have much effect on her.

The corners of Han Fei's mouth curled up slightly, and he held the spear in his hand and blasted out a God Scaring Stab. Then he immediately used the Star Teleportation Technique and activated the Sacrificing Punch again.

Ding ding ding!

Rumble!

After fighting for more than ten minutes, they fought for three hundred rounds. After using the Devil Change and releasing all his strength, he finally won by a fluke.

At this time, the woman had already come back to her senses after being smashed into the sand.

Seeing that Han Fei didn't chase her, she sensed the energy around her and knew that if she wanted to attack again, she would have to rest for at least several hours.

After a fierce battle and using many means, Han Fei finally won. However, this was not a life-and-death battle. He still had some trump cards, but this woman must be in the same situation.

If it was a life-and-death battle, although Han Fei was confident that he wouldn't die, he would probably lose a layer of skin.

The woman was thrown dozens of kilometers away by Han Fei's punch. When she came back, the white snake laid weakly on her arm, but the woman seemed to be only lightly injured.

The woman looked at Han Fei rather curiously. "You are the first creature who can beat me in the intermediate Dao Seeking realm. You are much stronger than the sea demons that have appeared before."

Han Fei thought to himself, Fortunately, you didn't leave the Demon Subduing Tower and get discovered by the people of the White Shell Royal City. Otherwise, you would either surrender or die.

Han Fei shrugged. "You are already very strong. Among the people I know, there are no more than ten who are stronger than you in the same realm."

In fact, Han Fei wanted to say that there might not be a second person who was stronger than this woman in the same realm except for him. However, he counted Old Han and the other powerhouses he had met in because he didn't want this woman to be too complacent.

Han Fei thought for a moment, stretched out his hand, and cast the Holy Light Technique, which startled the white snake. However, when the white light fell, the white snake seemed to stretch out and became much more energetic.

The woman looked at Han Fei curiously but didn't ask further. She just nodded slightly. After a while, she said, "Will you be here forever? It seems that your level is not enough for you to go to the next floor."

Han Fei raised his eyebrows. "What kind of strength do I need to go to the next floor?"

The woman said, "Break through the advanced Dao Seeking realm and reach the peak. Then you can go to the next level."

Han Fei frowned. He couldn't wait until he reached the peak of the Dao Seeking realm. How could it be so easy to do it in a short period of time?

Han Fei couldn't help but ask, "Miss Bai, let me ask you, do you know if there is a lotus here?"

The woman was puzzled. "What is a lotus?"

Han Fei was helpless. Yes, this woman had never left the Demon Subduing Tower. It could be said that she was unfamiliar with the entire world, so she naturally didn't know about lotus.

However, the girl suddenly said, "Maybe, when you reach the next level, I can help you answer this question. If you are willing to come with me, I can wait for you until your realm improves."

Han Fei saw that the girl's eyebrows relaxed again, but this time Han Fei's heart sank. Who wants you to wait? And how many years have you been trapped here? Even if I reach the next floor, what can you do to help me?

Although he needed to consolidate his strength, he knew that time was of the essence. But other people were different. For the old turtle, a thousand years wasn't a long time and might be only enough for him to take a nap. And for a normal Dao Seeking great demon, eight or ten years was definitely not long.

But for him, even a month was very important. He still didn't know how to get out. If he couldn't get out in a month, would Yu Tianxin and Changshui Qin think he was already dead?

If the forbidden area was closed, wouldn't he have to find another way to leave the Demon Subduing Tower?

Seeing that this woman should be innocent, Han Fei asked directly, "Miss Bai, do you know how to leave the Demon Subduing Tower?"

The girl was briefly stunned and then shook her head slightly. "I've searched every floor but found no way to leave. And I don't want to leave now."

Han Fei's heart sank. Shit, even she couldn't find a way to leave. The old turtle also said that he didn't come in through an array, but through the void.

This also meant that unless he found the void's weak point, it was almost impossible for him to return.

Han Fei's heart skipped a beat. He probably had to carry some kind of token to enter the Demon Subduing Tower, with which he could find the weak point of the space.

However, he came in without bringing anything. He thought that Yu Tianxin and the others were defenseless. They probably didn't expect him to run into the Demon Subduing Tower that was the last place he should come in.

Han Fei said with a sullen face, "Miss Bai, is there no other way to go to the next floor? Are there arrays between the upper and lower floors? If there are arrays, I can take a look."

The white snake on the girl's arm immediately straightened up and flicked out its tongue, only to hear the girl say, "You know arrays? There is indeed a big array up and down, but I don't understand them. Besides, it's not entirely an array. You can take a look."

Han Fei scanned around with his perception and frowned. He didn't find any exit or arrays!

The girl said, "You can't perceive anything there. Just follow me."

After that, the two of them walked for more than 300 kilometers and found a circular ring of light with a radius of about 50 meters. Even if they could see it with their naked eyes, under their perception, this place was still empty.

"Huh?"

Han Fei was slightly stunned. What a magical place.

Now Han Fei finally understood why the girl said that this wasn't entirely an array. It was because this array floated in the circle of light, rising and falling in the void.

Han Fei reached out and grabbed at it, but he couldn't touch the strange array at all.

At this moment, the old turtle said leisurely, "Dao arrays have no real bodies. What you see is the traces of the Dao runes left behind by the void.. You can't be teleported to the next floor until you trigger a Dao array or reach the peak of the Dao Seeking realm."

Chapter 1289: Entered the Dao

"A Dao Array?"

This was the first time Han Fei had heard of "Dao arrays". An array imprinted with the Great Dao? Was the level of this Demon Suppression Tower so high?

Han Fei asked, "Does it mean that I have to enter the Dao and use the Dao runes to crack this array?"

The old turtle said, "That's right. This should also be a restriction. In the advanced Dao Seeking realm, there aren't many people who can accurately grasp their own Great Dao and firmly press on to this Dao. Usually, at the peak of the Dao Seeking realm, they will be stuck at the threshold of entering the Dao. At the Half-Venerable realm, one needs to think about whether to enter this Dao or not. As for you..."

"Yes?"

The old turtle said leisurely, "I don't know. You should have discovered that you suddenly gave birth to another Dao Seed. I've never heard of it before. By logic, you have already stepped into the Dao, but I didn't notice it at all!"

"Oh? Have I stepped into the Dao?"

Han Fei was stunned for a moment. Although another Dao Seed appeared in his Dantian, he didn't realize that he had stepped into the Dao. He only felt that he might have understood some of his paths.

Suddenly, Han Fei's heart trembled. Is my path my Dao?

Han Fei's body stiffened, and he hurriedly asked, "Old Yuan, does having a Dao Seed mean that no one has taken this path, which means that this path is very strong?"

The old turtle said, "It's not completely certain. Generally speaking, no one who can give birth to a Dao Seed at your level has walked such a path. However, isn't your Dao Seed a little too small? It's only the size of a needle eye. I can't be sure. However, no matter what, the Dao Seed that can be born is generally not weak. Most Great Daos don't have a Dao Seed. Only some... special Daos will give birth to a Dao Seed."

Han Fei took a breath. Got it!

In short, his Dao should be very special. Even if his Dao Seed was only the size of a sesame seed, it couldn't change the fact it was unique. Who said that the strength of a Dao Seed was determined by its size?

Han Fei couldn't help but ask, "Since I've already stepped into the Dao, what about my Dao runes? How can I use my Great Dao?"

The old turtle said, "You have to experience it yourself! I'm not you, and I don't know your Dao. I don't even know how you gave birth to a Dao seed. How can I tell you?"

Han Fei's face was stiff, which puzzled the woman next to him. Seeing that Han Fei's expression remained unchanged, she guessed that Han Fei probably couldn't break this array.

She said, "Is it difficult?"

Han Fei came back to himself and nodded quietly. "Yes, this is a Dao array. To crack this array, one needs to use Dao runes."

"Dao runes?"

The woman frowned. "I've seen many creatures enter, but most of them will go straight there when they break through to the peak of the Dao Seeking realm."

Han Fei said, "It's possible. They entered the Dao at that moment."

Han Fei didn't panic. He first looked at the complicated array.

The contents of the array didn't seem to be difficult. According to the outline of the array, this should be a kind of teleportation array.

Although it was very different from ordinary teleportation arrays, teleportation arrays were teleportation arrays. Although the mechanism of activation was different and required some Dao runes, it was still a teleportation array. Therefore, a certain spatial power had to be designed as the foundation of the teleportation array.

It was like solving a question. No matter how complicated the question was, it was derived from simple questions and concepts. Therefore, this was what Han Fei understood.

There was no unbreakable array in this world. It was just a matter of time.

Han Fei already had an idea of how to break the array. Now he just needed to try breaking the array.

But this problem came. If he wanted to experiment, he had to learn to use his own Dao runes first. He had even produced a f*cking Dao Seed, but he didn't know how to use it! Wasn't it embarrassing?

Han Fei turned his head and looked at the woman. "Miss Bai, I need some time to deduce it."

The woman nodded slightly. "Okay."

Han Fei summoned Yu Wendao to guard him. After all, it was the first time he met this woman. It was impossible for him to trust her.

When he was fighting at the Sea Flower, this woman must have seen Yu Wendao. Therefore, Han Fei didn't have to hide anything.

The woman was not surprised at Yu Wendao's appearance at all. She seemed to have foreseen it. She even retreated dozens of kilometers back.

Han Fei sat cross-legged, calmed his mind, sank his consciousness into his Dantian, and carefully observed the Dao Seed he gave birth to.

In the old turtle's words, he knew too little about the world.

Although Han Fei felt that he had seen enough of the world, from the various secrets he had dug out, there were still too many unknowns waiting for him to explore.

The twists and turns of the process were not important, but the exploration process was. To be more precise, he still had a long way to go.

He hadn't been to the Yin-Yang Heavenly Palace yet. There was still half a drop of Origins Water waiting for him to take. However, there were so many puppets there. If his strength was weak, he probably wouldn't even have a chance to take it.

Also, he had to find Xia Xiaochan, so he had to become a king first. Otherwise, if he couldn't beat Chun Huangdian, it would get him nowhere.

Therefore, entering the Yin-Yang World was his first step, and becoming a king was his second step. This would be an important turning point on Han Fei's path.

Secondly, he had to find his biological sister and rebuild the Heavenly Desolate City. How many secrets were involved in this?

Also... the Grand Myriad Mountains and the mystery of the fall of the gods. What happened back then?

He wanted to know all this?

He had to become stronger!

He didn't expect that the simple spirit of exploration was also a road. When this road itself became a Great Dao, how should he use the power of this Great Dao?

Han Fei frowned, his mind revolving around the sesame-sized Dao Seed, thinking, How could such a Great Dao provide power for me?

For example, the Soul Splitting Path. Its significance was very clear, which was to split the soul.

For example, the Great Dao of Heaven Enlightenment. The Heaven Enlightenment Divine Technique was meant to save one's life. It could last long and revive the dead with infinite magical effects.

For example, to walk the path of invincibility, one had to be invincible. The ultimate goal of this path was to be invincible.

And his Great Dao?

At present, Han Fei didn't know what to call it. He had to know how to use it, so as to give it a name!

Han Fei first transmitted his spiritual power into the seed, trying to understand the mysteries of this Great Dao.

However, the moment his soul was immersed, Han Fei saw nothing but darkness.

Han Fei frowned and injected spiritual energy into the seed again, which flashed. Han Fei felt his body tremble, and an arched object wrapped in white mist appeared in front of him.

It looked like a bridge.

Han Fei was a little depressed. He was just perceiving the Great Dao. Why did a bridge suddenly appear? Furthermore, was this bridge covered by fog? It didn't seem to reveal its true body.

"Huh! Is this a Great Dao? It's directly revealed?"

The old turtle couldn't help exclaiming. It seemed that he had never seen Han Fei's weird Great Dao before.

Han Fei wondered, "Shouldn't the Great Dao be revealed directly?"

The old turtle said solemnly, "There are. However, the Great Dao is a secret of one person. Once the Great Dao is broken, your Dao path may collapse. Therefore, under normal circumstances, no one will show their Great Dao at all."

Han Fei's eyelids twitched. "Huh... then what about mine?"

The old turtle said, "I don't know either. I've never seen it before. This is your own Dao. Try walking this bridge."

Han Fei raised his eyebrows. "Will there be any problems?"

The old turtle said impatiently, "That's your own Dao. What problem can you have? Will it kill you?"

Han Fei realized that it did make sense.

This is my own Great Dao. What's wrong with me walking on it? I unconsciously created my own Dao. How monstrous is this? How worthy of bragging?

Therefore, Han Fei got up and walked straight to the white mist bridge.

When he stepped on it, he felt that it was soft and didn't seem to feel anything.

Therefore, the second and third steps...

After three steps, Han Fei felt heavy all over. After seven or eight steps, he came to the center of the bridge.

Han Fei felt that his legs were a little weak.

For some reason, when Han Fei took another step forward, his body went soft and he sat on the bridge, shivering.

But that was not all!

Not only did Han Fei fail to cross the bridge, but he was also panting hard, unable to even take a deep breath. His body was shaking all over.

"F*ck! Old Yuan, didn't you say that this was my own Dao? Why do I feel like I'm going to be disabled?"

The old turtle was also a little stunned at this moment. How could someone walk on his own Dao like this? He thought to himself, This is also the first time I've seen a situation like this!

However, Han Fei's eyes were almost blurred by sweat.

In the mist, Han Fei seemed to see a vague figure hidden in the white mist on the other side of the bridge.

Han Fei felt that the figure was very familiar, and he even felt pure power. However, his body could no longer support him to move half a step forward...

"Fuse."

At this moment, Han Fei didn't choose to recall the power of the Great Dao, but tried to look at the opposite side of the bridge.

The moment Little Black and Little White fused, the Yin-Yang Divine Eyes appeared. At that moment, Han Fei seemed to see another him on the other side of the bridge.

In addition to his other self, Han Fei seemed to feel surging power, see a void, and see an array.

“Wait!”

Han Fei was shocked. Wasn't that array the same one as before?

However, unlike the array just now, the array on the opposite side of the bridge seemed to have some different Dao runes, which seemed to have been redrawn.

Unfortunately, he only caught a glimpse of it and didn't see it clearly.

Buzz!

There was no telling if his strength was exhausted, but the white mist bridge disappeared.

Han Fei staggered and almost fell. Fortunately, the surrounding energy and spiritual energy swept over. Han Fei swallowed it and then stabilized himself.

Han Fei took a deep breath. “My Dao?”

Chapter 1290: Bai Ling

Translator: Henyee Translations **Editor:** Henyee Translations

This was the first time Han Fei had come into contact with the Great Dao. He didn't even understand how he had embarked on this Dao.

Maybe it had something to do with his life, the path he was about to take, and maybe everything he had experienced.

Han Fei felt that the problem was not how he got on this Great Dao. This Great Dao seemed very strange yet powerful. There were two ends of the bridge. One end of the bridge was him, and the other end was someone else.

Was it still him? Then wouldn't there be a paradox? How could there be so many of him?

Besides, during the glimpse just now, although Han Fei vaguely saw that there seemed to be a him on the other side of the bridge, there was also darkness, as well as the redrawn Dao Array.

A thought suddenly occurred to Han Fei. Could he see the future with this Dao?

As the saying went, the past was gone, and the future was coming!

The past was certain. Even if he returned to the Age of Doom, it was difficult for him to change the course of the world alone.

However, the future was different!

There were countless possibilities in the future. Every decision and every different choice he made now might give rise to countless different answers in the future.

If it was such a Great Dao, how could he cross this bridge?

Dozens of kilometers away, the woman saw a cloud of white mist that Han Fei released just now, but she didn't see the bridge, and the bridge just now was actually hidden by the white mist. Even Han Fei couldn't see the bridge clearly when he stepped on it.

Therefore, the woman and the white snake didn't speak, but they were also full of curiosity. In their entire lives, they had never left the Demon Subduing Tower, so everything they saw was new.

Besides, in the woman's opinion, Han Fei had disappeared the moment he stepped into the white mist. She couldn't see him at all. She couldn't even feel his breath. This seemed to have the same effect as the teleportation array.

At this moment, Han Fei's attention was not on the woman.

After calming down, Han Fei was about to call out the white mist bridge again, hoping to take a closer look.

However, a magical scene appeared. As he injected spiritual energy into the seed, there was no reaction. The brilliance was still dazzling, but the bridge of white mist didn't appear.

Han Fei immediately raised his eyebrows. "Old Yuan, was there something wrong just now?"

The old turtle seemed to be deep in thought too. He said solemnly, "You've already stepped into the Dao. How can there be a problem?"

Han Fei asked, "Then why can't I call out the white mist bridge just now?"

The old turtle frowned and said, "I don't know either. There's nothing wrong with your behavior. The opposite side of the bridge is covered by white mist, and I can't see anything. It can be seen that your Dao is quite mysterious. The reason why you can't call it out now is probably because you haven't figured out your Dao. It appeared just now because Dao appeared for the first time."

Hearing this, Han Fei couldn't help but frown. The Great Dao has appeared for the first time? After it first appeared, couldn't there be a second time?

Han Fei sat down again. What did the pictures he saw mean? Did they see him? Did they sense the attraction of power? Did they see the transformed array?

Or was there a connection between these three?

He didn't know if they were related, but strength was what he pursued. It seemed to mean his future growth? That array was the only way for him to reach the fourth level of the Demon Subduing Tower.

Did this mean that the growth of his strength would allow him to comprehend the Dao Array leading to the fourth level of the Demon Subduing Tower?

If this was the case, the bridge would become a kind of prediction. This was similar to the predictable future.

Han Fei tried again, but still couldn't summon the white mist bridge. He tried again and looked at the Dao array for a long time.

He tried to draw an array in the void to crack this Dao array. However, he couldn't use the Dao runes. The array he drew couldn't fuse with the other party's Dao array at all.

"What is my Dao exactly?"

Han Fei was quite bummed!

He had already seen the Great Dao, which was a white mist bridge. However, if he wanted to use its power, he had to first know what this white mist bridge could do. What could he use it for?

Three hours later, Han Fei suddenly came to the woman surnamed Bai and said indifferently, "I still have a lot of questions that I don't understand yet, so I might as well be your sparring partner. In this way, you and I can polish our foundations better than meditating in boredom."

The girl slightly nodded, and the white snake on her arm flicked its tongue.

In the blink of an eye.

Three days passed in a flash.

On the third floor of the Demon Suppressing Tower, within 500 kilometers of Han Fei and the others, there was no living creature left.

The battle here was too terrifying and loud! The surrounding spiritual energy and energy were almost drained every hour.

The third day.

Han Fei had accidentally practiced the 64-Dimensional Fish Dragon Dance to the highest level, and now he was jumping around in a sea of spiritual plants.

In fact, in the following battles on the first day, this woman surnamed Bai had already unlocked the manipulator methods.

This shocked Han Fei. He remembered what the old turtle said. Is this woman a child of a human manipulator and a sea demon? She even inherited the means of a manipulator?

Han Fei, who was used to fighting, was not afraid of these spiritual plants at all.

However, what forced him to run was that the white snake had the Eyes of Petrification. When the white snake stared at him, its eyes would emit green light, and wherever the green light shone, everything would be petrified.

When he encountered this technique for the first time, Han Fei's legs were enveloped by it, causing his lower body to be petrified. Then, the other party caught up to him and kept slapping him. Although he tried to protect himself with arrays, it was useless.

However, fortunately, Han Fei found that this petrification didn't really turn his body into stone, but made it stiff. If it was stiff to a certain extent, it would be no different from petrification. It might break into pieces at a touch.

However, Han Fei was full of vitality and Qi. Therefore, under the impact of the Qi and blood, the petrifying effect on his legs quickly disappeared.

However, that battle was very tragic. Han Fei lost.

This made Han Fei a little speechless. Sure enough, he still couldn't be invincible in his realm.

And this was just the Water-Wood World, a very desolate Heavenly Palace forbidden area!

Well! Han Fei smiled bitterly. He was influenced by the old turtle.

Now, Han Fei often felt that the Yin-Yang World and the Water-Wood World were two desolate places that nobody cared about. There shouldn't be any peerless geniuses with unparalleled talents.

At this moment, with the Star Teleportation Technique, he protected his body with an array when the phantom of the white snake enlarged, and its eyes seemed to lock onto the void in all directions.

As soon as Han Fei came out, the array was broken, and his body began to turn crystal clear.

Han Fei hurriedly activated Flash and fused with Little Black and Little White. With the magical power of the Yin-Yang Divine Eyes, he avoided the next stare of the white snake.

However, the two sides were only narrowly tied.

Han Fei suddenly felt a little chagrined. This woman's strength had improved too fast! In the past two days, she had almost lost more than she won. Up to now, the odds were basically even, which only took about three days.

The battle between the two of them lasted for about a hundred seconds, more than three times longer than before.

This not only made the woman's strength improve rapidly, but also made Han Fei's strength consolidate quickly. Besides, Han Fei's spiritual power also increased a little bit on the basis of strength consolidation.

After the battle came to a tie, Han Fei couldn't help but wave his hand. "Hey! What kind of snake is yours? Am I not fast enough? It has already surpassed your reaction speed. How can it still notice me in advance?"

The woman surnamed Bai said, "Your speed has already far exceeded mine. Therefore, a few days ago, I stopped competing with you in speed. I found that Bai Ling can foresee the source of danger in advance. Although this ability wasn't obvious at the beginning, your combat style was too strong. Therefore, Bai Ling could gradually predict your moves."

“Prediction?”

Han Fei was stunned. Under the double speed of the Heavenly Void Divine Movement and Agility of Wind, it was impossible for this woman to keep up with him, not even this white snake.

Two days ago, they failed to keep up, but on the third day, they began to catch up slowly. Wasn't it strange?

Now it turned out to be a dangerous prediction!

However, wasn't the snake's prediction too precise?

This meant that before he performed the Star Teleportation and Flash, it already knew where he was going.

Han Fei couldn't help but look at Bai Ling with a smile. “You little snake is somewhat like my Little White.”

The white snake flicked its tongue, and the woman surnamed Bai said, “Bai Ling said that it is not a Companion Spirit. Therefore, it is incomparable to your Companion Spirit.”

Han Fei was surprised. “Not a Companion Spirit? Then who is she?”

The woman surnamed Bai said, “She is my sister.”

Han Fei: “???”

At that moment, Han Fei was dumbfounded. One was a human, and the other was a little snake. How did they become sisters?

The woman surnamed Bai said, "It was like this when we were born. My power is strength and its power is spirit. At certain times, it can indeed see the future, which should be a kind of foreseeing ability."

"Huh?"

Han Fei's heart skipped a beat. See the future? It's a bit like my white mist bridge!

Wait, did he miss something?

If he had a clear short-term goal, would the bridge of white mist be revealed? Wasn't his Great Dao like this?
