

GOF 1291

Chapter 1291: Father, Is That You?

This white snake only foresaw danger, not the future.

However, Han Fei's white mist bridge might have this ability.

To verify his thoughts, Han Fei came to the side of the Dao array. Looking at the array lines floating in the shadow and light, Han Fei recalled the array he saw just now and secretly activated the Dao Seed.

Buzz!

Han Fei felt that power was surging in his body, and an inexplicable array idea appeared in his mind. Han Fei extended his hand and pointed at the air, drawing an array.

This time, the arrays that Han Fei left behind seemed to have Dao runes flickering.

Even Han Fei felt a little magical. So this was how his Great Dao was used?

In fact, Han Fei didn't see the future completely. He just happened to see a corner of the future with his Yin-Yang Divine Eyes. In his imagination, he seemed to know something, but he didn't know that it was the future.

The only thing that gave Han Fei a chance to guess was the modified array he saw.

If he guessed right, this should be modified by him? It was actually not difficult to change the array. The difficult part was to add Dao runes to the array when drawing it.

At this moment, when Han Fei drew the first line of the array, a hazy mist of light fell with the lines. At that moment, Han Fei seemed to understand the usage of the Dao runes.

"I see."

This was not an ability to see the future, but... to create things with imagination?

Han Fei was shocked. Wasn't this f*cking similar to the power of the Ideal Palace? He could create whatever he wanted out of thin air with imagination.

When this power was used, Han Fei realized that what he saw was not a real picture of the future, but an idea in his subconscious.

At this time, Han Fei was very sure that the lines of the Dao rune array he drew now actually didn't match the Dao array in front of him.

However, in the picture he saw earlier, the array lines seemed to have broken the Dao array.

In other words, he had fused this array with a mismatched array map and achieved the effect of passing it off as real.

Of course, after a preliminary test of strength, Han Fei felt that maybe it was because his current understanding of this Great Dao was not enough. If he reached an extremely high level, could he really pass off the false as the genuine?

It seemed that the power of the white mist bridge was beyond his imagination.

Han Fei tried again, activating the Dao Seed with his mind, hoping to directly become a peak-level Dao Seeking powerhouse.

Han Fei felt that his strength was suddenly boosted by external forces. However, his overall strength had increased by nearly a hundred waves, but he was still far away from the peak of the Dao Seeking realm.

“Huh? It seems that the restriction is not small!”

Since the first time the bridge of white mist appeared, it had never appeared again. This time, although he suddenly figured out how to use it and the effect seemed to be very high, it wasn't to the point of being terrifying.

At least for now, the power that the Great Dao gave him wasn't as strong as the Devil Change.

Han Fei was speculating in his heart, not knowing that if this thought was known to others, they might want to slap him to death.

Han Fei was still self-reflecting at this moment. On one hand, it was because his realm and strength were not enough; on the other hand, it was because his comprehension of the Great Dao in this aspect was not enough.

Seeing that Han Fei could fuse arrays into the Dao array, the woman surnamed Bai couldn't help but ask, “Did you crack this array?”

Han Fei shook his head slightly. “Not yet. I can only draw arrays now. How to break the array? I still need to think about it.”

The woman surnamed Bai looked at Han Fei deeply and asked in confusion, “Have you stepped into the Dao?”

This kind of thing couldn't be concealed.

Although this woman had never been out of the Demon Subduing Tower, she was not a fool. It was impossible for her to not know this.

Therefore, Han Fei nodded casually. “That's right. The facts have proven that even if one has stepped into the Dao, he still can't be teleported to the next floor if his strength is not enough. Therefore, I still have to break the array.”

The woman surnamed Bai naturally didn't understand arrays, but Han Fei did!

Although his way of cracking it wasn't right, it could bewilder the Dao array itself and achieve a level of confusion, which was created out of thin air in a short period of time...

And once this kind of array appeared, Han Fei could easily deduce the real solution of this array. This was like doing a question. If he could know the final answer of this question in advance, then the process of deduction would be much simpler.

Han Fei was in such a situation now.

If he guessed right, he only needed to try a few more times, and in less than a day, this array would be broken.

This time, Han Fei was not in a hurry. He asked, "Miss Bai, why are you so determined to go to the next floor? I think that since the creatures outside have a way to come in, the people inside also have a way to get out, right?"

The woman surnamed Bai said casually, "First of all, you can come in, but it doesn't mean you can go out. Secondly, I want to keep going down. I want to know who I am."

"Huh?"

Han Fei was stunned. "You don't know who you are? Then how do you know that your surname is Bai?"

The woman surnamed Bai said softly, "Heritages."

Han Fei immediately realized that although this woman looked like a human, she was actually not a person or a big demon, but a special creature.

Han Fei had long known that there were legacies between creatures. For example, as long as the spiritual beast and contractual spiritual beast were of high quality and level, who didn't have an inherited combat skill?

The old turtle said, "This woman is neither a human nor a demon, but a special creature. It's normal for her to have heritages. However, I'm still a little puzzled. I didn't sense anything unusual with her bloodline. She must have been born with a mutation. However, I don't know how she appeared in the Demon Subduing Tower."

Han Fei said, "Maybe when she was born, her parents thought this child was too strange, so they threw her into this Demon Subduing Tower. I'm going to the next floor to take a look. Even if I can't return to the royal city, I have to find a way to get out."

Han Fei didn't quite panic now.

After all, he was very sure that the Water Immortal was in this Demon Subduing Tower. The difficulty was that the Water Immortal should be very deep down, and Han Fei even suspected that her true body was at the bottom level.

After all, Yu Tianxin once said that even the king-level deep-sea behemoth in the White Shell Royal City had once felt the threat from the bottom level of the Demon Subduing Tower and didn't dare to enter.

He was only an intermediate Explorer now. This Demon Subduing Tower could only reach the fifth level at most and then he couldn't go further. Even the fifth level was very difficult for him.

He had only reached the third floor, but he had already encountered a creature like the Sea Flower and a powerful opponent like the woman surnamed Bai. He didn't know what kind of behemoth would be on the level of a Half-Venerable. If he encountered a legend creature at the level of a Half-Venerable, he would probably need Yu Wendao's help to defeat the opponent.

However, no matter what floor he could go to, could he find the Water Immortal? He had to keep going. Otherwise, staying on the third floor would be meaningless. It would just waste his time.

One day passed.

In the array floating in the air, thousands of lines were interconnected and outlined, making the originally brilliant array even more brilliant.

The old turtle asked, "Why didn't I notice your Dao runes?"

Han Fei thought to himself, You know my ass! My Great Dao is a kind of power that can pass off the fake as the real. It's a power imagined out of thin air and without a real body, like the ability of the Ideal Palace.

But the ability of the Ideal Palace had limitations. Apart from infinite spiritual energy and energy, it could only summon a few weapons. The limitations were huge.

However, his white mist bridge was different. It could really give birth to a future power or result out of thin air. When his realm was higher and his comprehension of the Great Dao was deeper, the effect would only become better and better.

Han Fei even suspected that if one day he could walk directly to the opposite side of the white mist bridge, would he directly walk to the future?

When the last line was successfully drawn, the entire Dao Array trembled with a buzz. Han Fei narrowed his eyes slightly. The original Dao Array was trying to swallow the Dao Array he drew in an attempt to consolidate itself.

Han Fei immediately looked at the woman and the white snake. "We can go now. Do you want to go to the next floor?"

The woman's eyes glittered, and she rushed up to Han Fei. "Thank you."

Han Fei said, "Let's go."

The two stepped into the array one after another and disappeared in the Dao array with a swish.

In the next second, Han Fei saw nothing but gold in front of his eyes. He took a closer look, only to discover that it was an undersea sand bed. He scanned it with his perception, only to find that it was more than 800 kilometers wide.

"F*ck!"

Han Fei felt terrible, because he didn't detect any creatures in this place.

Would such a situation happen in the Demon Subduing Tower? That was impossible. Only the strong had territory. Such a large sea of sand, if there were no creatures guarding it, it would have long been occupied.

Besides, to be able to defend such a huge place here, the person couldn't be simple. He had to be at least as strong as the Sea Flower or the woman surnamed Bai.

The only thing that puzzled Han Fei was that there was also a sea of sand around the Dao array at the third level, and at the entrance of the fourth level, it was still a sea of sand?

Han Fei looked back at the teleportation array. It was still a Dao array, but this array was not enveloped by light. Only the array mark floated in the void.

Han Fei frowned. "It seems that going back is more difficult than coming in!"

Bang!

While Han Fei was still observing the environment and vigilant of sneak attacks, he saw that the entire desert suddenly rioted.

Every grain of sand floated up, like dust in the air, and there were more and more of them.

Gradually, the floating gravel began to roll up, like extremely small sharp blades, and began to strangle Han Fei and the woman.

"Roar!"

The Invincible Will appeared, and Han Fei stepped out a large Coiled Turtle Array. He was about to let Little Black and Little White fuse with him and then use Little White's keen perception to find the source of danger and kill the other party first.

But before Han Fei took any action, he heard the woman surnamed Bai suddenly shout, "Father, is that you?"

Chapter 1292: Reborn In Someone Else's Body

Han Fei was confused. What does she mean?

He had always thought that the woman surnamed Bai was thrown into the Demon Subduing Tower from birth. Why was his father here?

Buzz!

A furious Vajra appeared.

Han Fei stood proudly in the flying sand. The clanking sounds struck his golden body like raindrops.

There was no telling if it was an illusion, but when Han Fei used his enforcing law again, he found that the vajra phantom seemed to be alive.

Under normal circumstances, the power of law enforcement, to a certain extent, represented a person's path. For example, this Vajra phantom represented what Han Fei wanted to walk on back then was actually a body-tempering cultivation path, a path of invincibility.

However, at this moment, his Dao had become a bridge of white mist. At present, it only showed a little bit of its strength, which didn't seem to match his enforcing law at all.

Han Fei had thought that his enforcing law didn't seem to be in harmony with his Great Dao, but it didn't seem to be the case. Instead, his enforcing law seemed to have become stronger?

This was because Han Fei had already established a Half-Golden Body and had a physique at least at the Half-Venerable level. Even if he didn't use his enforcing law and just let these sand blades hit his body, they might not be able to break his skin.

However, Han Fei thought that the creatures who survived the Demon Subduing Tower must have their own specialties, not to mention a powerful creature who occupied a corner of a floor. Perhaps, they had other special means.

But after the woman surnamed Bai called him "Father", Han Fei knew that this woman didn't seem to be so simple. This Demon Subduing Tower didn't seem to be so simple either.

If this woman's parents were both in this Demon Suppressing Tower, why did this woman go to the first floor of the Demon Subduing Tower? Could a child born on the fourth floor automatically appear on the first floor without passing through the teleportation arrays?

Han Fei and the woman were both waiting, but the yellow attack didn't weaken.

The woman surnamed Bai was also covered in a layer of white scales, and clanking sounds were also heard.

Han Fei's perception scanned again and again, but he didn't find any special creatures in this desert! Except for some skeletons under the sea of sand, there didn't seem to be any living creatures.

Han Fei couldn't help but ask, "Miss Bai, are you sure your father is here? The flying sand is getting stronger and stronger. Did he not hear you? Why don't you call him again?"

As he spoke, Han Fei asked the old turtle, "Old Yuan, where are the creatures in this sea of sand? Why didn't I notice them?"

The old turtle said leisurely, "Dead, buried at the bottom of the sea of sand."

"Huh?"

Han Fei frowned and was about to extend his perception into the sea of sand, when the old turtle said, "Don't spread out your perception. It's coming out."

Han Fei felt a chill down his spine. "Didn't you say that he was already dead? Why is he out again?"

The old turtle sneered. "You haven't even seen this little bit of the world, have you? Undying creatures, of course... A peak-level Dao Seeking cultivator turned into an undead creature, but he's still dead."

Han Fei narrowed his eyes and asked, "Turned?"

Hearing the word “turned”, Han Fei knew that there was a big story behind it. Patriarch Thug, Li Daxian, also turned into an undead creature! A human’s will and strength were both preserved. What was the difference between an undead creature and a living one?

Whoosh!

The sand rose like a hill.

At this moment, Han Fei finally perceived a rather handsome human corpse.

Although the corpse’s white clothes were torn and his face was extremely pale, his sword-like eyebrows were prominent, and he looked handsome and calm.

“Huh... A human?”

Han Fei was stunned. The old turtle was right. This woman was born of a human and a sea demon?

Han Fei couldn’t help but think, If the child of a human and a sea demon could grow up to be like this girl, it would be completely acceptable! She was born with immortal energy. What was wrong with giving birth to such a daughter?

Bang!

The sand dune exploded, and the pale and cold middle-aged man in a long robe stood on the sand, looking at the woman surnamed Bai quietly.

At this moment, the flying sand suddenly stopped.

Han Fei was secretly relieved. This person didn’t look weak. The picture of father and daughter meeting was better than the picture of father and daughter fighting.

The woman seemed a little excited and called again, “Father?”

The middle-aged man raised his head stiffly, as if he was thinking hard.

Han Fei found that something was wrong and shouted, “Old Yuan, what’s going on? Isn’t this person an undead creature? Why doesn’t he seem to know his daughter?”

The old turtle said, “They should know each other. Just wait patiently.”

Han Fei stepped back a little. He didn’t want to disturb them when the father and daughter met.

The middle-aged man stared at the woman in white for a long time. His face began to twist as if he was in pain. Then, vines extended out of the sand.

In a moment, the vines had already covered a space of dozens of kilometers.

Han Fei saw that these vines were dragging a ball that was slowly emerging from the bottom of the sea.

When the ball made of vines and algae appeared, Han Fei, the woman surnamed Bai, and the white snake all looked at it.

As for the middle-aged man, he slowly walked to the ball and raised his hand, and the algae spread out.

A woman with a half-human and half-snake body curled up in it. The snake demon clenched her fists as if afraid of the cold, looking very pitiful.

Han Fei immediately sensed that the woman was still alive, but she was dying. She was seriously lacking vitality and seemed to die at any time.

On this woman's body, some parts of her skin were pierced by extremely fine vines that extended into her body. Among the vines, there was still the power of blood and Qi slowly feeding this woman.

Han Fei immediately took a breath. "This man turned himself into an undead creature and used all his vitality and energy on his wife?"

The old turtle nodded. "That should be the case. Besides, this person has been trying to suppress his cultivation, seal his strength, and make himself sleep."

Han Fei narrowed his eyes. "That's why he attacked us at the beginning. He seemed to be in pain after he came out... In fact, his seal was unlocked?"

The old turtle said, "I'm afraid it's beyond his control now that the seal has been removed. He probably has to go to the fifth level, then break through to the Venerable-level, and reach the sixth level."

At this moment, the middle-aged man gently stroked the snake demon. "Honey... our... daughter... is here."

Even Han Fei was moved by his words. What happened back then? Why did it become like this?

When the woman surnamed Bai heard this, tears flowed from her eyes. As for the white snake, it slowly lay dormant on the woman surnamed Bai's shoulder, looking very sad.

Under the middle-aged man's call, the haggard and skinny snake demon quickly absorbed the Qi and blood in the spiritual plant and then slowly opened her eyes.

However, at the moment she opened her eyes, Han Fei clearly sensed the loss of vitality. The speed of the loss was so fast that Han Fei could perceive it directly.

Not just Han Fei, the woman surnamed Bai and the white snake could feel it too.

This was because the snake demon's hair was slowly turning yellow. Although it hadn't turned white yet, it should be turning white soon.

The woman stepped to the snake demon and shouted in panic, "Mom!"

At this moment, Han Fei couldn't help but say, "Her vitality is fading. At this speed, she will die in less than an hour."

The woman quickly looked at Han Fei and then at the middle-aged man in panic.

The middle-aged man tried to put on a smile. "An hour is enough! Girl... I want to see you, but I'm afraid to see you. Because then we'll never meet again. I'm in a dilemma..."

The middle-aged man's eyes were gentle as he looked at the woman surnamed Bai deeply, and then at the snake demon affectionately, sighing.

They would never meet again because the snake demon would die. If his seal was removed, they could only reunite for a few hours at most.

For the first time, Bai Ling swam down from the woman's body and climbed onto the snake demon.

When the snake demon opened her eyes and saw Bai Ling and the woman surnamed Bai, she was overjoyed and tears flickered in her eyes.

The snake demon looked at the middle-aged man in shock. "Is she really our daughter?"

The man in the middle said, "I know. My daughter is blessed."

The snake demon immediately wept with joy and held the woman's hand, unwilling to let go.

The woman surnamed Bai had thought that they could reunite as a family after she went down! She didn't expect that they would be separated. After all, she was just an inexperienced girl. How could she withstand this kind of test?

The woman surnamed Bai asked, "Why... is this happening?"

The middle-aged man stroked her hair and said guiltily, "I'm a human Heavenly Talent. It's taboo for me to marry your mother because it's against the Heavenly Dao. When your mother gave birth to you, the sky changed its color, and a World Shaking White Lotus appeared. To avoid being hunted by my enemy, we hid in the Demon Subduing Tower to avoid disaster. However, your mother, you, and I, because of our different realms, fell on all floors of the tower. I had to reduce my realm to search for you. Unfortunately, I could only find your mother in the end. At that time, you were still in your cradle and had no power to protect yourself. I thought you were in danger, but you were born with great luck and should be blessed. However, your mother's Qi and blood were exhausted, and her vitality was almost gone. So I had to turn myself into an undead creature to protect your mother..."

The snake demon said guiltily, "Girl, don't blame your father for not being able to reduce his realm to find you. If he lowered his realm so much, not only would your father not be able to find you, but he would also die."

How could the woman surnamed Bai and Bai Ling blame him? Their eyes were filled with tears.

Han Fei, on the other hand, couldn't help but ask in surprise, "A World Shaking White Lotus?"

The middle-aged man glanced at Han Fei. Since Han Fei didn't have any intention of killing him and came with his daughter, he said, "Yes, it's a blessing yet a disaster. With Qing Niang's talent, how could she have given birth to our child? So although the World Shaking White Lotus is helpful, it also deprived Qing Niang of all her vitality. That's why she gave birth to our daughter."

At this moment, Han Fei and the old turtle said almost at the same time, "Reborn in someone else's body?"

Chapter 1293: World Shaking White Lotus

They might not know it, but Han Fei did!

There was no such thing as great luck in this world.

The true body of the Water Immortal was a white lotus. The so-called World Shaking White Lotus and the descent of great luck were probably related to the Water Immortal.

Han Fei suddenly thought of something and couldn't help but salute the middle-aged man. "Sir, are you from the Water-Wood World, the Cloud Sea Divine Tree?"

The middle-aged man raised his eyebrows slightly.

Although Han Fei came with his daughter, Han Fei was a Half-Merman after all, which was his enemy. How could he be completely at ease?

However, the middle-aged man was confident that Han Fei was definitely not his opponent. Therefore, he hadn't attacked Han Fei yet, but just stayed vigilant.

The middle-aged man said, "That's right. You and I are enemies, but I've already been trapped in the Demon Subduing Tower. I don't think you have to make things difficult for me, Brother."

However, Han Fei's face began to change, including his body and his breath. Under the watch of the middle-aged man, the snake demon, the woman surnamed Bai, and the white snake, he turned from a Half-Merman into a human.

Han Fei waved his hand, put on a battle suit, held a longbow, and smiled lightly. "Han Fei from the Flying Feather Division of the Cloud Sea Divine Tree greets you, Senior."

The woman surnamed Bai and the white snake both looked at Han Fei in surprise. This guy who had fought with them for three days was not a sea demon?

The middle-aged man suddenly trembled.

However, his face remained unchanged, and his voice was deep. "Transformation method? This doesn't prove that you are from the Cloud Sea Divine Tree, does it? Since you can transform, it's hard for me to confirm."

Han Fei opened his hands, and Jing'er's Venerable Token appeared in his hand. "Do you know this?"

"Hiss!"

The middle-aged man, who had never changed his expression since they met, was shocked at this moment. Even though he was already an undead creature, he still couldn't hide his shock.

"Messenger Jing's Venerable Token?"

Han Fei grinned. "It seems that you haven't been trapped in the Demon Subduing Tower for long. Now, can it prove my identity?"

The middle-aged man nodded slightly. "Of course."

Han Fei immediately said, "Senior, may I ask your name?"

The middle-aged man was briefly stunned. You proved yourself just to ask for my name? Then you could've asked me without so much effort!

The middle-aged man bowed slightly. "Zhang Yao, Cloud Sea Divine Tree, Silver Bow Unit."

Han Fei and the old turtle said at the same time, "Sure enough, his surname is not Bai."

At the level of Han Fei and the others, they could guess a lot of things from a single piece of information. For example, Zhang Yao's remark about the World Shaking White Lotus couldn't be a coincidence.

This explained why this woman surnamed Bai was so strong. How could Han Fei not be able to defeat someone in the advanced Dao Seeking realm? She was so difficult to deal with, but she had never been out of the Demon Subduing Tower? How could such a peerless genius appear randomly?

To be sure that his guess was correct, Han Fei asked again, "Senior, what's your profession?"

Although Zhang Yao didn't know what was going on, he still said, "I'm a soul warrior and spirit gatherer. It's precisely because of this that I can survive to this day and be reunited with my daughter."

Han Fei's heart sank again. Zhang Yao is not a manipulator, so is this snake demon...?

However, he had never seen a sea demon who could control spiritual plants like this. Even if a sea demon had the ability of a manipulator, it shouldn't be a snake demon!

Han Fei took a deep breath and looked at the woman surnamed Bai. If he guessed right, this woman was the reincarnation of the Water Immortal!

He had been hoping to find the Water Immortal, but little did he know that she was trying to save herself. Furthermore, she had used such a method to be reborn.

Besides, in this life, she was no longer a demon plant, but a special creature whose race he didn't know.

Although Han Fei had guessed a lot of things, the reincarnation of the Water Immortal didn't know her real identity.

At this moment, the woman surnamed Bai seemed to be in deep thought. Why did she remember that her surname was Bai? Wasn't her father's surname Zhang? Did she not inherit the power from her parents?

They all noticed Han Fei's strange expression. Han Fei felt that this might also be his luck! Although it was a coincidence, it was inevitable.

The Water Immortal had been alive for too long, and only her soul remained. She didn't even know what her body was like.

What Han Fei didn't understand was why the Water Immortal didn't tell him such important information back in the Thousand Mountain Ancient Realm.

If you had told me earlier that you had already reincarnated, I wouldn't have been in such a rush!

At this moment, Han Fei said, "To be honest, I entered the Demon Subduing Tower this time to find out more about the World Shaking White Lotus you mentioned. Senior, do you know more about the World Shaking White Lotus?"

Zhang Yao looked at the snake demon hesitantly.

The snake demon said, "Yao, it's okay. Anyway, I'm going to die soon. Since he's from the human race and came for the World-Shaking White Lotus, give it to him!"

The middle-aged man said in a low voice, "But you've just seen our daughter."

The snake demon sighed slightly. "Having seen her, I have no more regrets in my life. Besides, our daughter has become such a beautiful girl. I should be happy."

"Uh..."

Han Fei suddenly interjected and said to the middle-aged man, "Well, Senior, if you are worried about your wife's lifespan, I think... this should be useful."

Han Fei reached out and took out a drop of Life Spring Water.

The reason why Han Fei took out the Life Spring Water was simple: the Water Immortal had already reincarnated in your body, but she was so talented that she almost drained her "mother"'s vitality, which also caused Zhang Yao to turn himself into an undead creature...

No matter what, he had to return the favor to sever this great karma!

Fortunately, he didn't use up all the three drops of Life Spring Water. Unexpectedly, it came in handy now.

"Hiss..."

"Life Spring Water?"

Zhang Yao looked at the Life Spring Water in Han Fei's hand in shock, and his eyes flickered with a strange light. He hurriedly said, "Little Brother, I, Zhang Yao, have never asked for a favor in my life! I know how precious a drop of Life Spring Water from the queen is! But now, I'd like to ask you to give me this Life Spring Water. I, Zhang Yao, will repay you with my life."

The snake demon grabbed Zhang Yao's arm, and the white snake straightened up and looked at Han Fei. The reincarnation of the Water Immortal, the woman surnamed Bai, also looked at Han Fei.

With a solemn look, Han Fei pushed the drop of Life Spring Water to the middle-aged man. "Whether or not you have any leads on the World Shaking White Lotus, this drop of Life Spring Water is yours. I don't want any return..."

Zhang Yao took a deep look at Han Fei. "We can't thank you enough. We do have information about the World Shaking White Lotus, which lies in Qing Niang's body. It's a white lotus. She survived all these years because of that white lotus."

Only then did Han Fei realize that Zhang Yao was not a manipulator. Then where did the spiritual plants all over the ground come from...

So it must be the power of this white lotus.

Han Fei quickly said, "Senior, you'd better swallow the Life Spring Water as soon as possible! A drop of the Life Spring Water can make up for a hundred years of life, which is countless times better than blood and Qi."

The snake demon looked at the middle-aged man who was equally excited.

If they could survive, who would be willing to die? Besides, it was at the moment when they met their loved ones!

Although Zhang Yao had already switched to an undead creature, he still had consciousness. Except that he was lifeless, he looked no different from ordinary people.

Besides, in the Snake Demon's view, her daughter was back. This was the best time for a family reunion. Who would be willing to have a happy event turn into a funeral?

Zhang Yao hurriedly said, "Honey, come on, open your mouth..."

Han Fei didn't know how to address the reincarnation of the Water Immortal who had been watching in shock...

At this moment, she looked stunned. There was no telling if it was because she was born cold or because she hadn't awakened. However, Han Fei guessed that before she stepped into the Dao, she wouldn't awaken the memories of the Water Immortal!

Since the Water Immortal had already thought of using this method to live another life, she must have thought of the problem of Dao entering. If she still entered the previous Great Dao, then it was meaningless to be reborn.

The white snake's vitality was rapidly recovering.

Her skin was no longer wrinkled, her hair was no longer yellow, and her strength was returning.

The surrounding spiritual energy and energy were drilling into the body of the snake demon crazily. In only about two hundred seconds, this snake demon turned into a beautiful and voluptuous big demon.

Furthermore, as soon as she recovered, her strength was maintained in the realm of early Dao Seeking. Because she didn't enter directly from the outside world, the Demon Subduing Tower wouldn't throw her into the third level.

Zhang Yao hurriedly asked, "Qing Niang, how do you feel?"

The snake demon was overjoyed and quickly cupped her hands at Han Fei. Then, a green light flashed in her hand and she grabbed at her chest. A green light bloomed, and a white lotus appeared in the air.

The snake demon said, "Benefactor, it was this white lotus that drilled into my body, so I could give birth to my daughter. It was also this white lotus that took almost all of my vitality but kept me alive until now."

Han Fei's eyes lit up. This was definitely a small part of the original body of the Water Immortal. He had seen it more than once.

As for the White Snake and the reincarnation of the Water Immortal, they were both refreshed when they saw the white lotus. They had an urge to grab the white lotus! After all, this was the original body of the Water Immortal. Therefore, this urge was born!

However, Han Fei certainly couldn't give it to them. Otherwise, if the reincarnation of the Water Immortal stepped into the same Dao, she would still enter the wrong Dao...

Before they lost control of themselves and were about to take action, Han Fei reached out and grabbed the white lotus.

Han Fei took a long breath. "Hu! Found it."

Chapter 1294: Name Again?

When Han Fei held the white lotus, he immediately felt the lotus petals in Forge the Universe tremble violently.

Han Fei wanted to put the white lotus into Forge the Universe, but as soon as he thought of that, the tremendous spiritual energy in Forge the Universe evaporated instantly, which stunned Fish Dragon King.

The old turtle quickly said, "No, it's alive."

Han Fei quickly dropped the idea.

But even so, he had wasted nearly 100,000 catties of spiritual spring, which was really a pity.

However, because the white lotus was alive, the moment Han Fei was about to collect it, the surrounding space shook as if there was an earthquake.

Seeing that everyone was looking at him, Han Fei pretended to be calm. "The white lotus has changed hands, so the void is trembling. It's nothing."

The snake demon couldn't help but heave a sigh of relief. She had a hundred more years of vitality, and her energy, vitality, and spirit were instantly restored. At this moment, she thanked him again. "Thank you, benefactor."

Han Fei shook his head with a smile, thinking, If you knew that your daughter was the reincarnation of a king, what would you think?

The girl couldn't help asking, "Dad, Mom... Why is my surname Bai?"

As if she had been holding it back for a long time, she finally asked this question. Of course, when she asked this question, she looked at the white lotus in Han Fei's hand.

The snake demon and the middle-aged man looked at each other. Surnamed Bai?

The snake demon was surprised. "Girl, when we gave birth to you, we didn't have the time to name you. How could your surname be Bai?"

Then, they all looked at the white lotus in Han Fei's hand.

Han Fei said casually, "The World Shaking White Lotus is a treasure born from the chaos of the world. Miss Bai has been protected by the white lotus since she was young, so she can survive in the Demon

Subduing Tower. Naturally, she inherited some of the power of the white lotus. Therefore, she feels that her surname is Bai, which is a matter of course.”

The woman surnamed Bai and the white snake were both stunned. Really?

Han Fei was certain that the reincarnation of the Water Immortal was still too naive and didn't know how to distinguish between real and fake. She was easy to fool.

As for Zhang Yao and the snake demon, although they were not weak, they definitely knew very little about the power of the Water Immortal or the treasures of the world. Besides, they couldn't resist his persuasion.

Han Fei said, “If I've guessed right, this original body of the white lotus might be in the Demon Subduing Tower. Otherwise, you wouldn't have gotten such a good thing. Now, you and the World Shaking White Lotus are connected by karma. I think it's better for Miss Bai to keep the surname Bai. After all, the white lotus will bless her.”

Han Fei tried his best to persuade these people, thinking to himself, The Water Immortal is a white lotus in the first place. If she changed her surname to Zhang, won't she beat me to death when she regains her memories?

The snake demon frowned. “That makes sense. Girl, do you have any inherited secret techniques?”

The reincarnation of the Water Immortal frowned slightly, raised her hand, and spiritual plants appeared like a waterfall.

Seeing this scene, the snake demon and the middle-aged man looked at each other in shock. As Han Fei said, their daughter inherited some of the power of the World Shaking White Lotus. This was too magical!

The middle-aged man couldn't help asking, “What's my daughter's name?”

The reincarnation of the Water Immortal shook her head slightly. “No name.”

The middle-aged man froze for a moment and was about to speak when his arm was tugged. It was the snake demon who tugged at his sleeve.

The snake demon said, “My savior, thank you for bringing the girl here. If I'm not wrong, the girl hasn't stepped into the Dao yet, nor has she reached the peak, and you have even entered this level as an intermediate Explorer. This must be because of your special method, right?”

The middle-aged man nodded slightly. “I missed it.”

The snake demon smiled faintly. “Why don't you give her a name, my savior... Girl, what do you think?”

For some reason, the Water Immortal's reincarnation slightly nodded, seeming to trust Han Fei.

Han Fei's lips twitched. Name again?

However, would she like the name he gave her in the future?

There was nothing she could do even if she didn't like it! This was a karmic opportunity. It just so happened that your reincarnation encountered me.

Han Fei, however, paced back and forth for a while, thinking to himself, No matter if it's a good name or not, I should brag about it first. If she wants to hit me in the future, at least she'll remember that I complimented her for a long time before I named her.

Han Fei said, "When I saw you for the first time, Miss Bai, I felt that you were extraordinary. You're gorgeous, elegant, beautiful, charming, with fair and smooth skin... Miss Bai, you seem to be the most beautiful, elegant, and noble woman in the world..."

Han Fei spoke without even batting an eyelid, which stunned them. Even the white snake trembled at his words.

The snake demon secretly said to Zhang Yao via voice transmission, "Darling, is... our savior interested in our girl?"

Han Fei's heart skipped a beat. Sister, you can't say whatever you want. If my teacher awakens in the future, she will slap me to death!

Han Fei hurriedly said solemnly, "Therefore, I think Bai Suzhen is a good name for her. Bai means white, representing the World Shaking White Lotus. Su means colorless. Zhen means chaste and pure, which has the meaning of white too... Therefore, all the three words mean white. It's really a good name."

Zhang Yao's lips twitched slightly. "...It's indeed a good name."

The snake demon said, "You are truly an extraordinary person. This is a good name indeed."

Han Fei glanced at the reincarnation of the Water Immortal.

She and Bai Ling were looking at him.

Han Fei thought to himself, Why isn't Bai Ling a green snake? This is even more perfect. They were Bai Suzhen and Xiao Qing. In the future, when a man named Xu Xian appears, they'll be able to put on the White Snake Legend.

As he expected, the reincarnation of the Water Immortal nodded slightly and seemed to like the name. Even her brows relaxed a little.

OK, now the family had reunited, her mother's life was extended, and she had a name.

Han Fei didn't want to watch a family reunion drama here, so he hurriedly asked, "Well, Senior Zhang Yao, do you know how to leave the Demon Subduing Tower?"

Zhang Yao was slightly surprised. "Huh? Our savior, you don't have a way to get out?"

Han Fei didn't answer directly, but said, "I came in from the trial secret realms of the White Shell Royal City. If I go out from there, my identity may be exposed. I wonder if there is any other way to leave this Demon Subduing Tower."

Zhang Yao smiled bitterly. "To be honest, I really don't know how many floors the Demon Subduing Tower has. I only know that this place is full of dangers, one floor after another, but I haven't found a

way to leave here. Now that I've awakened and my strength has come back, I may be restricted by the rules and have to enter the next floor."

Han Fei asked in surprise, "Is there such a rule?"

Zhang Yao nodded slightly. "It's not impossible to forcibly stay on this floor. However, bad luck will follow. The chaotic void will appear in the tower and cause strong enemies to attack and force me to go to the next floor. This should be a way for the Demon Subduing Tower to maintain its balance."

For the first time, Han Fei knew that the Demon Subduing Tower had such a magical function that it could produce the Chaotic Void.

Therefore, the strong couldn't stay on the levels for the weak, but the weak could stay on the levels for the strong. After all, the weak couldn't break the balance.

Bai Suzhen frowned. "Is it dangerous?"

The middle-aged man shook his head slightly. "Don't worry, girl. I'm a peerless Heavenly Talent anyway. Now that I could sever my own cultivation in the past, I can do it again."

The snake demon's face stiffened. "Yao..."

Zhang Yao smiled. "Qing Niang, don't worry. I'll be back soon."

Han Fei, on the other hand, was calculating in his head. Chaotic Void? How should he use the white lotus in his hand? If he guessed right, this was part of the Water Immortal's body. Otherwise, it was impossible for it to have such a powerful force to extend a person's life for so long.

Besides, the Demon Purification Pot couldn't see any information about this white lotus, which meant that this white lotus was much higher leveled than he imagined.

If the Water Immortal's true body was really at the bottom level, he couldn't go down! Even if he could defeat creatures at the level of Half-Venerable, he couldn't defeat creatures at the Venerable level!

While Zhang Yao and his family were exclaiming, Han Fei suddenly interjected, "Wait a moment. Senior Zhang Yao, you stay here for the time being. I think I can explore this white lotus first. If you can suppress it for a few days, I can try to see if I can find a way to leave."

If it was an irrelevant passerby, even if Zhang Yao was a human, Han Fei would definitely not try so hard to help him.

In this world, there were thousands of races in this world. He couldn't do everything he could to help someone just because he was a human too, right?

However, this person was the father of the Water Immortal's reincarnation after all. This karma was not small at all. Different from the father he had after crossing the river of time, this person was her biological father.

Besides, if Zhang Yao went to another floor and the snake demon hadn't fully recovered her strength, she might die. After all, on this floor, there were mostly peak-level Dao-seeking creatures who had entered the Dao.

After all, the Water Immortal hadn't stepped into the Dao or awakened. Facing one or two, it might be fine. Facing three or four, she might be able to resist. But if there were ten or eight peak-level Dao-seeking realm demons, it wouldn't be easy for her to handle.

Although he had hunted peak-level Dao Seeking powerhouses when he was outside, the outside world was different.

In the outside world, the peak-level Dao Seeking demons might not necessarily enter the Dao. However, in the Demon Subduing Tower, this ratio might be very high.

Besides, when he hunted peak-level Dao Seeking powerhouses, he usually launched a sneak attack and cooperated with the old turtle to kill the other party.

With this in mind, Han Fei felt that for the safety of his teacher, this white lotus must be the key.

Chapter 1295: You Came So Quickly?

Since the Water Immortal had started her plan long ago and even split part of her true body, she was naturally preparing to rise again.

Now, the white lotus had been obtained by Han Fei. Did it mean that he could contact her through this part of her true body?

With a thought from Han Fei, Yu Wendao appeared, which startled Zhang Yao and the snake demon.

Zhang Yao asked in surprise, "A Half-Venerable? No... Is this a puppet?"

Han Fei nodded and said, "Senior, please guard me."

Bam! Bam! Bam!

Under Han Fei's feet, arrays appeared one after another. Soon, a white mist completely submerged the space where he was.

With Han Fei's current array skills, even a person who had reached the peak level of the Dao Seeking realm wouldn't be able to see through his array.

In the array, Han Fei directly transmitted his spiritual power into the white lotus and said, "Teacher, teacher... Can you hear me, teacher?"

The old turtle said, "It's useless. This lotus has been obviously separated from the true body of your teacher. How can you use it to communicate with the original body?"

Han Fei frowned. "Can't they communicate with each other after they're separated? Demonic plants are very special creatures. They always have an inextricable connection. Otherwise, how could the rootless lotus extend the snake demon's life for so long?"

The old turtle said leisurely, "Maybe some of the roots have been separated too."

Han Fei frowned. He remembered what the Water Immortal once said to him. The roots of demonic plants were like the souls of humans. It was not impossible to separate the roots, but it would inevitably lead to a drop in strength.

And the Water Immortal was in the Demon Subduing Tower, and the king of the White Shell Royal City must be eyeing her covetously outside. If the Water Immortal rashly separated her roots and lowered her strength, the king might take advantage of her.

It was impossible for the Water Immortal not to have thought of what he could think of. What the old turtle said wasn't without reason. What if the Water Immortal separated only a few roots?

However, even if the Water Immortal separated her roots, it meant that she also separated some of her soul. And this part of her soul was definitely not connected to her original soul suppressed at the bottom of the Demon Subduing Tower.

Otherwise, if the Water Immortal found that he was here, she would definitely have some response.

Han Fei couldn't help but take out the lotus petal in Forge the Universe. If he called her directly through the white lotus, it might be limited by certain conditions.

However, what if he activated it with this petal?

Buzz—

The moment the lotus petals appeared, the white lotus trembled and began to spin.

"It worked."

Han Fei's eyes glittered. The lotus petal that could protect the Water Immortal for eighty thousand years couldn't be simple. The Demon Subduing Tower was here, which meant that the Water Immortal must be within ten thousand kilometers of him.

Now, he had already seen part of the real body of the Water Immortal. Then the real body couldn't be far away!

Besides, the former situation was that the Water Immortal's body and soul were both asleep.

However, it was different now.

Now, the Water Immortal's soul had awakened. Since the lotus petal could sense her, she should be able to sense the lotus petal too.

Since they could sense each other, why did he bother to look for her himself?

He might as well wait for the Water Immortal to find him.

However, the old turtle poured another bucket of cold water on him. "Han Fei, don't forget, this is called the Demon Subduing Tower. The teleportation barrier on each floor is probably different. Just because you can break through to the fourth floor doesn't mean you can keep breaking through. It's the same for your master. Since she's suppressed, it means that she can't pass through the barriers either."

Han Fei said angrily, "Cut the crap! Why don't you just give me a solution?"

The old turtle snorted. "I'm teaching you. You need to consider everything carefully."

The lotus petal was flashing and the white lotus was spinning. Han Fei felt the void tremble several times, but it was to no avail. The lotus petal just trembled once and then stopped.

Han Fei's heart sank. As the old turtle said, the Water Immortal couldn't come over!

"Wait!"

Han Fei's eyes glittered.

Zhang Yao had been sealing and suppressing his strength, hadn't he? If he didn't seal and suppress his strength, the Chaotic Void might come. Once the void cracked, did it mean that at least one or two layers of barriers were broken? Taking advantage of that moment, the Water Immortal would definitely seize this opportunity.

As Han Fei thought, the old turtle said leisurely, "That's possible, but even if this person opens all his seals, he can only reach the sixth level at most. It remains unknown whether your master can cross over or not."

Han Fei's eyes flashed. "This is already the most likely solution I can think of. Otherwise, I don't know if I'll have a chance to come to this Demon Subduing Tower again."

At this moment, Han Fei chose to take a risk, hoping that the Water Immortal could seize the opportunity to pass the barrier.

Outside, Zhang Yao was still struggling to suppress his strength. The snake demon held Bai Suzhen's hand, not daring to disturb Zhang Yao with concern.

Zhang Yao said solemnly, "Suzhen, I will go to the next floor one day. You have great luck and must be strong. However, your mother hasn't recovered her strength and needs your protection... Wait for me to come back."

Bai Suzhen asked, "Are you going to reduce your strength again?"

Zhang Yao smiled bitterly. "You can enter but can't leave this place easily. I can't do anything about it. But if you have great luck, you might have a chance in the future."

Bang!

Han Fei stepped out of the mist and looked at Zhang Yao.

Han Fei said, "Senior, if the Chaotic Void will appear if you stop suppressing your strength, can you completely release your strength?"

"Huh?"

Bai Suzhen frowned. "It's dangerous."

The snake demon asked, "Benefactor?"

Zhang Yao, on the other hand, was very calm. A person who could get Messenger Jing's Venerable Token, a peerless genius who could win the favor of the queen, certainly had his reasons.

Zhang Yao said calmly, "Okay! When?"

Han Fei was quite surprised that Zhang Yao agreed without even asking.

Han Fei grinned. "Thank you, Senior. I can't go out either, but I need to take a risk. If I win, we may have a chance to go out."

After Han Fei said that, everyone, including Bai Suzhen, trembled slightly.

Zhang Yao shouted in a low voice, "Understood."

Of course, Han Fei didn't ask Zhang Yao to remove all his power immediately. Instead, he waited for his family to familiarize themselves with each other for a day, and then he closed his eyes to feel his Dao Seed.

One day passed.

The eight hundred-mile quicksand ground trembled three or four times. Han Fei perceived that there were creatures at the edge of the sea of sand.

Under the watch of the snake demon and Bai Suzhen, Han Fei and Zhang Yao looked at each other.

Han Fei said, "We can start now."

Zhang Yao looked solemn. "Han Fei, are you sure you want to enter the Chaotic Void?"

Han Fei immediately nodded. "Don't worry. I know what to do."

Zhang Yao nodded solemnly and shouted, "Qing Niang, Suzhen, step back."

Buzz!

Ka ka ka ~

Blood chains appeared on Zhang Yao's body one after another.

Han Fei could tell at a glance that it was an array. This Zhang Yao actually locked himself up with his essence blood and forcibly sealed himself.

At this moment, the blood-colored chains broke one by one, and Zhang Yao's aura soared rapidly like a rocket.

Bang!

After only ten minutes, Zhang Yao had reached the level of a Half-Venerable, and his strength was still soaring.

Zhang Yao shouted in a low voice, "Han Fei, if you need me, I can enter the Dao. My Dao is fine. I've already entered it once. This time, I'm just returning."

Han Fei's eyes lit up. It would be even better if he could become a Venerable, which meant that he could break two barriers this time.

Han Fei shouted, "Enter."

“Roar!”

A terrifying power swept hundreds of kilometers away. However, this power avoided Bai Suzhen and the snake demon very well. Han Fei perceived that many creatures appeared around the sea of sand.

Zhang Yao roared, “In the land of eight hundred kilometers of quicksand, any trespasser shall die.”

With that, Zhang Yao threw out an array map, covering the sea of sand.

In the next moment, Han Fei felt that the space was unstable, and abnormal fluctuations appeared. It seemed that there was a creature trying to drill in from the void.

Zhang Yao took a step forward and shouted again, “Open.”

The void cracked, and a starfish extended its long tentacles, trying to tear the void and enter this place.

Zhang Yao grabbed at the air with both hands as if he had grabbed dozens of bowstrings. As he pulled the bow, he shouted, “Han Fei, I’ll take it away. It’s up to you now.”

The moment Zhang Yao stepped into the void, Han Fei activated all his secret methods and activated the Beast King Technique. He even used the power of his Great Dao. His strength had long surpassed the strength of a thousand waves.

At this moment, Han Fei followed Zhang Yao into the void, holding the white lotus in one hand and the lotus petal in the other, which were shining with white light.

Both of them entered the Chaotic Void and went their separate ways. This chaotic void shouldn’t have appeared on the fourth level of the Demon Subduing Tower.

And Han Fei and Zhang Yao’s strengths were different. Even if Han Fei used all his strength, reaching the Half-Venerable realm was his limit. It was impossible for him to reach the Venerable realm.

However, at this moment, when the void was about to be closed, Han Fei heard a surprised voice in his ear, “You came so quickly?”

Chapter 1296: Fight the King

Yes, Han Fei guessed right. When He had just taken the chance of Zhang Yao entering the Dao to break through the void barrier, he heard the voice of the Water Immortal.

This also meant that the Water Immortal had known that he was coming since a long time ago, but she couldn’t cross the space barrier and directly come over.

Although Han Fei heard the Water Immortal’s voice, he didn’t see where she was.

The Water Immortal quickly said, “Drop the white lotus in your hand.”

Han Fei immediately let go and no longer held the white lotus. The white lotus quickly drilled out of the void rift, turned into a beam of light, and disappeared into the center of Bai Suzhen’s eyebrows. It was so fast that Bai Suzhen didn’t even have time to react.

Han Fei was also dumbfounded. It seemed that this white lotus had nothing to do with the Water Immortal re-entering the Dao! Otherwise, the Water Immortal wouldn’t have done this.

The moment the white lotus disappeared, the Water Immortal shouted, "Crush the lotus leaf."

Han Fei didn't dare to take it lightly. God knew where this chaotic void would take him!

If the Water Immortal wanted him to crush it, he would just do it.

The moment the lotus leaf shattered, it instantly turned into a phantom lotus seat and fell at Han Fei's feet.

Bang! Bang! Bang!

As if receiving multiple collisions, a large number of cracks appeared on the white phantom shield of the Lotus Seat every time it exploded.

After four consecutive violent collisions, Han Fei felt that the lotus seat under his feet might break at any time.

Han Fei thought to himself, This is a power that can protect the Water Immortal for ten thousand years! How can it be broken so easily?

However, unlike what Han Fei expected, the lotus seat seemed to be full of cracks, but it hadn't really been broken. During this period, Han Fei saw a terrifying giant mouth open as if it wanted to swallow him.

He also saw long whips trying to break through the void and pull him out of the void.

Han Fei even saw a webbed hand extending into the void and slapping the lotus seat, making it twist.

Fortunately, on the lotus seat, a white light bloomed, forcibly blocking the blow.

At this moment, Han Fei saw white light appear in the void, and it seemed that the void had been broken from the outside.

Han Fei breathed a sigh of relief. This should be the exit. He had been taken from the fourth floor to the floor where she was.

When the lotus seat drilled out of the void, Han Fei's eyes didn't suddenly light up, but he sank directly into a sea of spiritual plants.

As far as Han Fei could perceive, it was all white lotuses. Countless white lotuses almost enveloped his perception range.

Of course, seeing this scene, Han Fei didn't panic at all.

So what if there were white lotuses here? This was his teacher's original body and wouldn't hurt him.

Therefore, although the white lotuses were terrifying, every vine was extremely tough and flexible, and a few random vines would be able to whip Han Fei to death, Han Fei didn't panic at all.

On the contrary, Han Fei was very relaxed. He scanned the area with his perception and asked, "Teacher, where are you?"

A voice echoed in the world, "Why are you here so soon? I'm talking about a hundred-year period. Now only a few months have passed."

Han Fei curled his lips and said, "Speed is important in war. Teacher, you know, there are still many things waiting for me to do. Therefore, waiting a hundred years is impossible."

The Water Immortal asked crossly, "Who were you with just now? Why did I feel my own breath?"

Han Fei asked in surprise, "Huh? Teacher, are you sure you don't know?"

The Water Immortal was confused. "What do I know? I've only been awake for a few months. Now I can only feel your existence, but I haven't broken the shackles of my original body, so I just feel you coming."

Han Fei immediately told the Water Immortal about Bai Suzhen.

The Water Immortal was stunned for a long time, before her voice slowly became solemn. "No wonder I couldn't establish a connection with my original body after trying for months. I'm afraid that a new consciousness has been born in my body."

"Huh?"

Han Fei immediately shivered and said, "Teacher, don't scare me! I can't defeat a king-level powerhouse now."

The Water Immortal said, "It shouldn't be a big problem. Before I fell asleep, I had already sealed the Great Dao of my original body. The newly-born spiritual consciousness couldn't completely control my original body. It must take him a long time to separate a part of my original body, intending to reincarnate in someone else's body."

Han Fei immediately took a breath. "Huh? So Bai Suzhen isn't your reincarnation, Teacher?"

The Water Immortal said, "Yes and no. In fact, I didn't figure it out just now. Why is a part of me outside? Do you know why I asked you to release that white lotus? Because that white lotus is no longer under my control. I'm just afraid that some of my original body will be controlled by others. If you bring it back, it will definitely stop you."

Han Fei was puzzled. "Then what about Bai Suzhen?"

The Water Immortal explained, "It's a reborn body that the new consciousness found for itself. It has been residing in the snake demon you mentioned, not to help the snake demon extend its life, but to wait for its reborn body to come. In this way, when the two are combined, it can parasitize the reborn body and completely control this new body."

Han Fei immediately said, "Not good. Hasn't she already succeeded?"

The Water Immortal said, "No, I can't control my own body yet, which means that this new consciousness hasn't fully descended in Bai Suzhen's body."

Buzz!

"Be careful."

The old turtle reminded him in his heart, and Han Fei performed Star Teleportation and teleported himself away.

“Fuse!”

“Twin Divine Technique.”

Han Fei didn't dare to be negligent at all. When he learned that a new consciousness was born in the original body of the Water Immortal, he felt terrible.

Now, when he guessed that a new consciousness was still here, Han Fei felt a chill down his spine.

That was a f*cking king-level creature! Even if it only had a little bit of new consciousness, even if this new consciousness could only use a little bit of its true body's power, it was still not something Han Fei could defeat.

The moment Han Fei flashed out, the place where he was just now had been pierced by thousands of vines.

Therefore, the moment he appeared, Han Fei chose to use the Twin Divine Technique.

In order to prevent the other party from rushing over like a bolt of lightning, the Infinity Water condensed into a bubble and directly wrapped him up.

Sure enough, in the next moment, tens of millions of vine stings instantly squeezed the Infinity Water until it was about to explode.

“Explode!”

Before the Infinity Water was squeezed to pieces, Han Fei chose to blow it up.

“Roar!”

Han Fei directly roared, and the Hundred Beast Soul Subduing Roar burst out. In an instant, the Hundred Beasts soared into the air and kept roaring.

Rumble!

While the Infinity Water exploded, Han Fei set up the Great Coiled Turtle Array and waved his hand, and dozens of fish skin maps appeared, all of which were Great Coiled Turtle Arrays.

The old turtle roared, “Come on, come on, hide in here!”

Han Fei didn't have the time to dodge at all.

In the second second, Han Fei saw that a huge number of vines were pouncing on him again. The time he needed to enter Forge the Universe had always been three seconds.

Boom Boom Boom...

After two seconds, Han Fei saw that his Coiled Turtle Arrays were instantly shattered like paper.

Seeing this, Han Fei immediately wrapped the black mist with his white mist body.

“Freeze!”

As the white mist dispersed, these vines lashed out again, directly whipping Han Fei away.

However, at that moment, Han Fei didn't feel any pain, because he was a mist now! Besides, although the white mist dispersed, the black mist, because it was too dark, might not be noticed and survived a disaster.

After all, in the eyes of outsiders, Little Black couldn't be seen. It was true that the Water Immortal was a king, but it didn't mean that her new consciousness was also a king-level one!

Otherwise, each time a consciousness was born, it would be a king. Then what was the point of fighting? He would have been beaten to death a long time ago. The other party wouldn't give him any time to react.

“Collect!”

The white mist was shaken away, and Han Fei could only send half of himself into Forge the Universe.

“Huff!”

The white mist dispersed again, and Han Fei felt that he was panting.

While the vines couldn't do anything to him, the black fog-form Han Fei turned into the human form in Forge the Universe and called Little Fatty out.

At this moment, Han Fei felt very strange. Half of him was in Forge the Universe, and the other half was outside.

At this moment, the vision of the two could actually be shared.

Han Fei shouted, “Teacher, your soul is at the king level. It can't be suppressed by a new consciousness, right?”

The Water Immortal didn't respond, but the old turtle responded, “Guard the soul. Your teacher has been sleeping for too long. It's not impossible to take a long time to seal your teacher's soul. You won't be able to wake it up again unless you find this seal and break it.”

When Han Fei heard that, the white mist quickly condensed. He didn't dare to use his perception for fear of being torn apart. Han Fei could only sense it with Little White's naturally-endowed ability.

Fortunately, Little White's ability was not weak. Even if a king was around, it still couldn't block its perception of the surroundings.

Therefore, Han Fei soon found the place of sealing that the old turtle mentioned.

“Agility of Wind!”

The sealing place was only a little more than a thousand kilometers away from him. With his speed, he would arrive in two seconds.

A pair of phantom-like wings extended out of the white mist. After flying less than 500 kilometers, Han Fei felt that his soul was collapsing. The terrifying soul impact instantly defeated him.

However...

The white mist only stopped moving for a moment, and Han Fei felt his consciousness return.

The moment he came back to his senses, Han Fei realized that the Twin Divine Technique did follow the characteristics of the Twin Yin-Yang Spirit Swallowing Fish. If one of them didn't die, the other wouldn't die.

Han Fei was overjoyed. This time, he rushed to the sealed place without hesitation.

Chapter 1297: Soul Soaring

The new consciousness of the Water Immortal was also stunned, thinking, "He's still alive?"

After another sprint, Han Fei's soul was shaken away again. However, Han Fei had already reached the sealing array. The second soul's return seemed to be slower.

When Han Fei came back to his senses, he found that the frost-covered vines seemed to be trying to disperse the white mist he had turned into.

Han Fei discovered that once the white mist was blasted away, the time when his soul woke up again would be longer. Therefore, if he was infinitely killed, the Twin Divine Technique might collapse, and his soul would be destroyed by half, and then he might only be able to survive in Forge the Universe.

And this newly born consciousness might have underestimated Han Fei.

The power of the Blue Sea Ice Sand slowed the vines that were extending over, delaying her time.

After all, she was using the Water Immortal's body forcibly.

Seeing that he was about to be dispersed, Han Fei thought quickly, How can I re-combine my white mist body?

Suddenly, Han Fei thought of something and secretly activated his Dao Seed.

"I can ignore space."

Han Fei narrowed his eyes, only to see that his white mist body drilled out from all directions. Some even ran out of the plant roots.

When the white mist re-gathered, the new consciousness was stunned again. What the hell was going on?

However, this time, Han Fei didn't dare to be reckless.

It was too f*cking difficult. He had been killed twice in only two seconds. If he hadn't been prepared and thrown his black fog body into Forge the Universe, he would have been dead.

Even the old turtle was frightened. This was too f*cking scary! An intermediate Explorer was fighting a king?! He had no idea how to fight this battle even if he had ten turtle heads!

Fortunately, Han Fei cleverly discovered that his Dao could achieve some simple and idealized things, such as strengthening strength and ignoring space, which were not difficult to do.

The moment the white mist was recombined, Han Fei realized that if this new consciousness could seal space, it would be a little difficult for him.

However, after two deaths, Han Fei finally came to the sealing array.

It was very difficult to find the true body of the Water Immortal among the thousands of white lotuses.

If the Water Immortal didn't give him a hint and he didn't have Little White's abilities, he probably wouldn't be able to find it.

At this moment, Han Fei saw a blooming white lotus the size of a palm, with a pale green aura circulating around.

After only a quick glance, Han Fei discovered that it was actually not a kind of array, but a simple sealing power superimposed in.

Yes!

This new consciousness had never left the Demon Subduing Tower. How could she know any arrays? Even the Water Immortal wasn't proficient in arrays. How could this new consciousness know arrays?

Seeing that it was just a simple sealing power, Han Fei suddenly grinned. Taking advantage of the third soul attack, he quickly counterattacked. "Star Teleportation."

However, this Star Teleportation was not teleporting Han Fei, but the space not far away in front of him.

The Star Teleportation Technique couldn't just move him away. When Han Fei moved that space, he made space and space exchange.

Although the sealing power was extremely powerful, what was its use if it sealed the wrong place?

At the moment when the sealing power was teleported out, the Water Immortal's voice sounded again, "A*shole, a mere intermediate Venerable wants to possess my body? You're courting death."

In an instant, the void exploded.

"Ahhh~"

Han Fei heard a scream, and the space within a hundred kilometers seemed to collapse. Immediately afterward, a large swath of Blue Soul Body emerged.

"Spare me!"

The Water Immortal had lived for tens of thousands of years, so how could she spare an outsider who wanted to occupy her body?

Even if this body was abandoned by her, it wasn't something others could take away at will.

Han Fei sensed that something was being crushed in the space dozens of kilometers away.

Then, a large number of ownerless souls appeared.

The Water Immortal said, "Little Wang Han, is your soul injured just now? Try swallowing this ownerless soul."

Han Fei sensed that his soul was indeed injured, but only less than 20% was damaged. Besides, it could still be repaired. Therefore, it wasn't a big problem.

At this moment, seeing so many ownerless souls in front of him, how could Han Fei hold back?

Han Fei said, "Teacher, has the new consciousness died?"

The Water Immortal said, "I made a mistake this time. I didn't expect to be tricked by a new-born consciousness. Don't worry. She has already been killed by me. As for you, even I didn't think I had the time to save you just now. I didn't expect you to survive under such circumstances..."

The Water Immortal's voice clearly trembled. There was no telling if it was because of fright or fear.

Han Fei was also relieved. "I was so scared. Just now, I thought I was going to die. Wait, let me take a mouthful of ownerless souls to calm down."

Han Fei still didn't release his black fog body. God knew if there were any other accidents.

Han Fei's way of collecting ownerless souls was simple, which was to use the Soul Splitting Technique to separate out dozens of wisps of souls and fuse them into the ownerless souls, refine the ownerless souls, and take them back.

After a full half an hour, Han Fei swallowed about a third of the ownerless souls, but he already felt that his soul had soared.

The Water Immortal said, "Alright, I know that you still preserve a part of your original body. I'm very sure that the new consciousness has already died. You can come out now."

The old turtle said, "I don't sense any threat either."

Han Fei was finally relieved.

In Forge the Universe, the black fog body appeared. However, Little Fatty was still lying in Forge the Universe. That was Han Fei's last resort. He had to keep it.

When Han Fei canceled the Twin Divine Technique, the Water Immortal said in surprise, "This spiritual beast is quite rare. It can integrate vitality into one body."

Han Fei said, "Teacher, do you want to feel your own body? I'll eat this ownerless soul first."

The Water Immortal asked, "Can you still eat?"

The old turtle also said, "Brat, how can you still eat it?"

However, Han Fei replied with a smile, "I have an extraordinary painting that can help me digest it."

After that, more faint blue souls were split out by Han Fei.

After another half an hour, this ownerless soul was finally swallowed by Han Fei.

Another hour later, Han Fei quickly memorized the God Scaring Painting. At this moment, he had already uncovered 700 pieces, and he was still quickly memorizing them.

Han Fei never expected that an ownerless Venerable-level soul would have such a great effect! It could actually help him remember such a huge amount of God Scaring Painting. The effect was really extraordinary.

When Han Fei had the epiphany in the Demon Subduing Tower a few days ago, he didn't have time to cultivate the God Scaring Painting, so this time, Han Fei specially cultivated for a while.

After another three hours, he couldn't remember the God Scaring Painting anymore. Now he had remembered 726 pieces in total. It seemed that he had reached the limit of his memory.

Information popped up in Han Fei's eyes.

Owner: Han Fei

Level: 74 (Junior Explorer)

Spiritual Energy: 180,000 / 180,000

Spiritual Power: 2,9012 / 2,9012

Perception range: 3,600 kilometers

Enforcing Law: Invincible Vajra

Strength: 348 Waves

First Spiritual Heritage: Unknown

Second Spiritual Heritage: Unawakened

First spiritual beast: Twin Yin-Yang Spirit Swallowing Fish (level 61)

Second spiritual beast: Unawakened

Main Art: Sky Stealing Technique, level six of Void Fishing (Venerable Level, Divine Quality)

...

Seeing this scene, Han Fei was shocked. His spiritual power had increased by nearly 4,000 points?

Last time he had an epiphany and broke through to the realm of an intermediate Explorer, his strength only increased by 2,000 points.

However, after he swallowed the intermediate Venerable-level new consciousness, it had grown so much?

As for the range of perception, Han Fei wasn't too surprised. After all, the effect of the God Scaring Painting was very powerful. It would be strange if it didn't grow much! He even thought this was still not enough.

"Hiss ~"

Han Fei took a deep breath. It seemed that this near-death experience was worth it.

Han Fei's soul power skyrocketed, which made the old turtle very envious. He thought to himself, This kid is too monstrous!

However, what surprised the old turtle even more was not the power of the soul, but Han Fei's method of forcibly breaking through the king's body and the will of a Venerable.

That could only be a Great Dao method. Otherwise, he couldn't figure out what abilities Han Fei had to be able to block such a strong enemy and survive?

Seeing that Han Fei had woken up, the Water Immortal said rather casually, "How is it? Little Wang Han, how is the ownerless soul in the Venerable realm? Fortunately, this new consciousness has been suppressed at the bottom of the tower. Otherwise, this ownerless soul wouldn't be so pure."

As if having a full meal, Han Fei looked satisfied, but he said, "Teacher, what about Bai Suzhen? This new consciousness shouldn't have completely died. There's still a part of her in Bai Suzhen's body."

The Water Immortal said casually, "It doesn't matter. Most of its power was destroyed by you just now, and the last bit nurtured the Snake Demon for hundreds of years. The price was high. Since she helped me create a reincarnation body, it's not bad. It saved me a lot of trouble. Otherwise, I would have to find a way to be reborn."

Han Fei was relieved to hear that.. He rubbed his hands and said, "Master, you've been reborn, but what about your original body? Don't let it give birth to another new consciousness. I can't stand it anymore!"

Chapter 1298: Avatar

Han Fei still felt scared. If he hadn't used so many tricks just now, he would have been dead.

However, fortunately, the soul strength of the newly born consciousness was only in the intermediate Venerable realm. If it was at the king-level, he wouldn't have any chance to survive.

This time, although he didn't fight a Venerable head-on, Han Fei was still horrified by the strength of a Venerable. This was only the soul at the intermediate Venerable level, but he had killed him twice in two seconds.

If a real intermediate Venerable was standing in front of him, what would happen? Even if he had a hundred means, he might not be able to survive.

At this moment, Han Fei felt that he was still too weak. It was clearly not enough for him to participate in a battle at the Venerable level.

Furthermore, Han Fei deeply realized the terrifying gap between the Explorer and the Venerable realm. In any case, he had fully unleashed his strength just now. Even if he wasn't at the Half-Venerable realm, he was at least at the peak of the Explorer realm.

However, in the face of the power of a Venerable, he was still so vulnerable.

At this moment.

He had survived this disaster. Since the Water Immortal had already resolved the newly-born soul and didn't want her original body, wouldn't this great benefit belong to him?

Although Han Fei didn't know how to use it, a terrifying demonic plant with a king-level body must be very useful to him.

The Water Immortal said, "My original body is useless to me. However, my original body is a living body. With your current strength, you can't kill it even if it lets you. However, there are three ways to transmit the power of my original body to you."

Han Fei was immediately refreshed. "Which three ways?"

A phantom slowly appeared in front of Han Fei. Who else could it be but the Water Immortal?

The Water Immortal said:

"The first is that you cultivate here, and I'll slowly inject the vitality and power of my original body into your body, washing your flesh, veins, and bones... After washing your body with the power of a king for ten years, I can push your spiritual heritage to the point of leaving the mortal realm, surpassing the so-called level-nine spiritual heritage. At the same time, your strength will reach at least the Half-Venerable realm... You seem to have already comprehended the Great Dao, so when you go out, it shouldn't be a problem for you to enter the Venerable realm."

Han Fei immediately shook his head. "Master, my spiritual heritage is no longer a mortal one."

"Huh?"

The Water Immortal was briefly stunned. "Really?"

Han Fei said, "It's a long story. Anyway, my meridians have been reconstructed and have long left the mortal realm. I don't know what kind of meridians I have now. Therefore, the first method shouldn't be suitable for me. Also, I have to return to my territory in two years. There's still a great war waiting for me there."

The Water Immortal thought for a moment and said, "The second way is that I can condense a lotus seat and multiple lotus seeds with all the power of my original body. The lotus seat can withstand all attacks below the king level. However, the consumption of spiritual energy and energy is also very large. However, it shouldn't be a big problem for you. The lotus seeds can help you make breakthroughs and improve quickly in an extremely short period of time. However, it will take at least 10 years to mature these nine lotus seeds. The rest of my true body will instinctively struggle to survive. I can't do anything to them for the time being."

When Han Fei heard that the lotus seat could block all attacks below the king level, he was shocked. If he took this lotus seat back to the Yin-Yang World, wouldn't he be invincible instantly?

However, it would take him ten years to wait for the lotus seeds to mature. Although Han Fei knew that those lotus seeds definitely had heaven-defying effects, he didn't have ten years now.

However, even without the lotus seeds, he still had the lotus seat. If he took the lotus seat back to the Yin-Yang World, he would have the capital to fight the Thousand Star City.

The old turtle's voice also sounded in Han Fei's body, "This method is very good. It can save your life and quickly increase your strength. It's only ten years, and it will take me a hundred years to take a nap."

The old turtle felt that Han Fei's teacher, the Water Immortal, was already very kind. This was simply a shocking opportunity. If Han Fei chose this opportunity, it meant that no one below the king realm could hurt him.

Han Fei quickly came back to himself and looked at the Water Immortal. "Teacher, what's the third way?"

The Water Immortal hesitated for a moment. "My suggestion is the second, because the third option has both advantages and disadvantages. It may even consume your strength in the short term."

Han Fei couldn't help but wonder, "Why?"

Han Fei thought to himself, If I have the body of a king, how can it weaken my strength? Shouldn't it be like adding wings to a tiger? Isn't it a great opportunity?

The Water Immortal said, "Little Wang Han, you should know that I have the art of dying to survive. My original body is a lotus flower. I can undergo nirvana and rebuild a new body. My new body doesn't have a soul. You can split part of your soul and implant it in, creating an avatar for yourself."

"Hiss!"

Han Fei immediately exclaimed, "An avatar?"

This was different from the Twin Divine Technique.

With the Twin Divine Technique, it was essentially still him. However, with an avatar, there would be two of him.

The Water Immortal said, "Don't be so optimistic. Although you have an avatar, you need to separate a lot of souls to dominate your new body. It may require half of your soul power. Only in this way can this avatar reach a balance with you in strength."

"Half?"

Han Fei was dumbfounded. This price was really too high, wasn't it? He was still smug just now that his soul strength had skyrocketed into a new level. Who could have expected that this avatar would directly take half of his soul?

However, Han Fei was still very tempted. He could swallow the vitality of others and steal the souls of others! As long as he fought more frequently and killed enough opponents, although it wouldn't completely make up for it, he could definitely make up for most of it.

Furthermore, he hadn't fully mastered the God Scaring Painting yet. If he spent some more time visualizing and cultivating the God Scaring Painting, it wouldn't be a problem for him to cultivate an avatar if he could absorb another ownerless soul at the Venerable level.

Han Fei said, "Teacher, what's the benefit of having an avatar?"

The Water Immortal said, "In the short term, there's actually no benefit. However, if your avatar cultivates at the same pace as you. As an independent individual, he can cultivate one Dao alone. If you want to fuse with him in the future, it's also possible. At that time, your combat power will double."

Han Fei asked quickly, "Can we still separate after fusion?"

The Water Immortal was stunned for a moment. "No. After you choose to fuse with him, your strength will soar, and you may even obtain two Great Daos. But since you've already fused with him, you can't be separated from him and won't have an avatar anymore."

Han Fei asked, "Are there any other benefits?"

The Water Immortal said, "By choosing this path, you can let your avatar cultivate in this tower. Although I can let my original body give birth to a new body, it doesn't mean that my original body will die. Your avatar can constantly absorb the power of my original body to cultivate. The premise is that no one notices it. Otherwise, if someone notices that my strength has been greatly reduced, it will also be useless."

Han Fei said, "There are kings in the White Shell Royal City. This path may not work. My avatar can't stay in the Demon Subduing Tower. However, can my avatar and my true body communicate at will?"

The old turtle added, "To put it bluntly, there will be two of you. However, you have to remember that once your soul is separated, the soul in your true body and the soul in your avatar may not be connected. Although your true body has the initiative, you two will only perceive each other when you are close to each other. If you two are too far away, you might not know what the other you is doing!"

Han Fei was stunned. What are you talking about? I don't know what I'm doing. It sounds rather weird.

Han Fei thought for a moment. In general, it meant that he was temporarily cut apart. When he fused with his avatar, his strength would increase a lot in an instant.

On second thought, Han Fei realized that he would enter the game again once he returned to the Yin-Yang World. Why not leave some trump cards in the Water-Wood World?

Han Fei suddenly said, "Teacher, if my original body dies, will my avatar die?"

The Water Immortal shook her head. "Of course not. Your avatar is also you, but when you split your soul, one is the main and the other is the secondary. Once your main body's soul dies, the soul of your avatar will become the main body's soul, and this avatar will become your original body."

Han Fei's eyelids twitched. "I choose the third one."

As the saying went, "those who did not plan for the future would find trouble at their doorstep."

In the long run, the benefits of having an avatar were definitely above the lotus seat and lotus seeds.

Two of him were cultivating and could fuse in the end. This meant that he had twice the time of others. How could there be such a good thing in the world?

The Water Immortal asked, "Little Wang Han, do you have enough soul power?"

Han Fei asked, "Teacher, can you catch another Venerable-level creature and get me some ownerless souls?"

The Water Immortal couldn't help rolling her eyes. "Do you think I'm omnipotent? You should know the spatial barrier in this tower. Now, I've given up on my original body. Perhaps I can cross the barrier and kill a Venerable-level creature, but I can't bring it back! Besides, once I make a big noise, someone outside will definitely notice it."

Han Fei asked, "What about taking me with you?"

As soon as he said this, the Water Immortal looked at Han Fei as if looking at a fool, thinking, I can keep you safe here but not on the other floors!

The old turtle said, "Why are you in such a hurry for this matter? Worst comes to worst, you can just kill more people. You'll make up for it one day."

Han Fei's face immediately turned black. What are you talking about? If I have a f*cking chance to make up for it immediately, Isn't it better?

The Water Immortal said, "Can you make up for it if I give you a large number of ownerless souls?"

Han Fei nodded quickly. "Yes."

Han Fei knew it clearly. After all, the soul was just like a jar. Even if he poured out half of the water in the jar, as long as he could replenish this half of the water back, it would be the same.

The Water Immortal said, "There is still a part of the new consciousness in Bai Suzhen. If you kill that consciousness, you should be able to get some ownerless souls."

Han Fei's eyes glittered. "Great!"

Chapter 1299: A Lotus Body

In fact, Han Fei knew very well that if he chose the second method, he would be almost immune to all attacks under the king level.

However, choosing that kind of method, he would lack experience. It felt like lying down to win, which sometimes didn't seem to be a good thing.

With the Lotus Seat, he wouldn't be afraid of being beaten by others at most. But under the same realm, when had he ever been afraid of others? And for those who could beat him, even if he had the Lotus Seat, he would still be defeated.

After Han Fei firmly chose the avatar, he suddenly said, "Teacher, since you can reshape a new body, why don't you re-cultivate with a new body?"

The Water Immortal said, "I was going to re-cultivate, but not in the way to rebuild my body, but a brand-new beginning. I'll turn into a seed and start from scratch."

In Han Fei's heart, the old turtle exclaimed, "How bold. To recultivate from scratch, she must have the great ambition to fight another life and walk the path of longevity!"

Han Fei was also stunned for quite a while. From what the Water Immortal said, it could be seen how determined she was! She even abandoned her king body!

Han Fei couldn't help but ask, "What about Bai Suzhen?"

The Water Immortal said, "Just like you, when I purge the newborn consciousness in her body, she will still be my reincarnation. However, unlike your avatar, she now has her own independent will. When she becomes stronger, she will return to me in the end."

Han Fei was relieved to hear that.

After all, no matter what, Bai Suzhen was the reincarnation of the Water Immortal, so he didn't help the wrong person.

However, Bai Suzhen was created by the newborn consciousness with the intention to use her body to be reborn. However, she didn't expect the existence of the Water Immortal. Otherwise, the newborn consciousness might really succeed.

The Water Immortal said, "Since you said that you are in a hurry, don't delay any longer. By the way, if you split your soul, can you still suppress the ferocious creature in your body?"

"Huh?"

Han Fei's eyes widened, and the old turtle's heart did a flip. Had he been seen through?

The Water Immortal chuckled. "It's nothing. My body is almost half dead, so my soul is particularly powerful. Last time I met you, I felt its existence. This time, I'm more certain that there should be an old monster in your body."

Han Fei shrugged. "It doesn't matter. Master, you should know that I have a special soul treasure. The old turtle is not suppressed by my own soul now, but by my soul treasure."

The Water Immortal said lightly, "That's good. I was worried that you couldn't suppress him. However, since he knows all your secrets, don't give him a chance to come out easily in the future."

In Han Fei's heart, the old turtle immediately roared, "How can I be so despicable? I have my own Great Dao."

Han Fei said impatiently, "Old Yuan, shut up! You can't even escape from my teacher's eyes. How can you call yourself an Emperor? You're really a disgrace to the title."

The old turtle: "..."

Although the Water Immortal didn't know who the old turtle was, she knew Han Fei well. A person who could cross the river of time, a person with a terrifying powerhouse behind him, would definitely not let a dangerous powerhouse hide in his body.

Therefore, since the powerhouse was already in Han Fei's body, he was probably suppressed. As she expected, he was suppressed indeed!

With Wang Han's personality, it was hard to say. However, with Han Fei's current personality, he shouldn't be tricked by the creature easily.

The Water Immortal said, "Wait for me for three or five days. I need to mobilize my true body's strength."

Five days passed.

In just five days, the Water Immortal's body shrank at least by half. However, under the cover of one of the white lotuses, a lotus seat appeared, and under it, a lotus root grew.

Han Fei had already guessed that his avatar was made of lotus roots.

Information popped up in Han Fei's eyes.

< Name > Primordial Chaos Lotus

< Introduction > Your Primordial Chaos Lotus was produced by a king-level lotus demon with a tremendous amount of vitality and chaotic energy. It's immune to all evils, poisons and soul attacks and can be used to refine an avatar.

< Level > King

< Quality > Ultra-Quality

< Contained Chaos Energy >???

< Effect > If it's eaten directly, anyone under the level of a Half-King will die easily, but anyone above the level of a Half-King can be immune to all evils, poisons, and soul attacks after eating it.

Han Fei almost drooled when he saw the message. This was f*cking awesome! He had never thought that he would become as powerful as Nezha.

Han Fei even wondered if Nezha's Lotus Body was as good as his own. He didn't think so. After all, his body was made from the body of a real king.

At this moment, Han Fei's heart stirred. Since his avatar wasn't a human in the first place, why should he be stuck in the form of a human being?

Han Fei immediately said, "Teacher, can you make me three heads and six arms?"

The Water Immortal: "???"

Han Fei said, "Master, I think that since my avatar doesn't have to stick to human form, why don't maximize my combat power? I have too many combat skills, so two hands wouldn't be enough. If I have three heads and six arms, I think I can fight countless enemies alone."

The Water Immortal: "..."

The Water Immortal said, "Let me try."

Han Fei continued, "I'm saying that when I need three heads and six arms, I'll have three heads and six arms. When I don't need to, I'll still have one head and two arms."

The Water Immortal said crossly, "You have too many demands. Don't go too far..."

Three days passed.

Han Fei saw a lotus body appear in the water. Its body and appearance were exactly like Wang Han's, which made Han Fei sigh.

On the Lotus Body's ears, there were two lotus seed earrings. Han Fei complained, "Teacher, I'm a man. I don't think it's appropriate for me to wear earrings."

The Water Immortal said impatiently, "What do you know? That's your other two heads."

Han Fei: "???"

Han Fei felt that he might have taken it for granted. The three-headed six-armed technique of Nezha could actually be found, which was not a particularly advanced combat skill.

However, the technique was different from the original body. It was definitely better if the original body had three heads and six arms. Otherwise, if he used combat skills, he could only use them as secret techniques. There was always a time limit.

Han Fei had already planned that he would equip his avatar with the Divine Weapons such as the Universe Ring, the Chaotic Sky Silk, the Wind Fire Wheel, the Fire Pointed Spear, the Nine Dragons Divine Fire Barrier, the golden brick, and so on.

"Tsk, tsk!"

With this in mind, Han Fei felt that he would be charmed by his own charm. When his avatar appeared out of nowhere, he would definitely shock the entire world and easily kill his way into the Yin-Yang World.

In the past few days, both the old turtle and the Water Immortal felt that Han Fei was a bit weird. Now and then, he would laugh like a fool.

According to the logic of these two people, Han Fei was a powerhouse who had stepped into the Dao after all. After comprehending the Great Dao, it was only a matter of time for him to become a Venerable. Why could he not even control his own expressions?

But Han Fei didn't care. Apart from losing half of his soul, he didn't suffer any losses.

Besides, the soul could be replenished. However, how much luck did it take to encounter a powerful avatar?

The Water Immortal shouted, "Little Wang Han, listen to my command. Split your soul... Begin."

Han Fei immediately frowned, and his soul seemed to be torn apart. Large tracts of faint blue soul appeared like smoke emerging from his body.

This scene shocked the Water Immortal. "Your soul power is so strong?"

After all, she was a king-level expert. The Water Immortal could naturally tell the strength of Han Fei's soul at a glance.

At this moment, the amount of soul that Han Fei had split out was probably the entire soul power of an ordinary Dao Seeking powerhouse.

Han Fei's face was twisted as he continued, and he said, "Not yet. Wait a moment."

At this time, Han Fei was trying to split his soul, which no longer hurt as much as before. However, the separation of too many souls still made Han Fei dizzy.

The old turtle didn't know that Han Fei's soul power was so strong. Seeing this endless separation, he couldn't help but sigh. "What a monster! How many years has this kid cultivated for? How can he have such strong soul power?"

After half of his soul was stripped away, Han Fei felt that his body was suspended, his face became extremely pale, and it took him a long time to steady himself.

The Water Immortal, on the other hand, took a deep look at Han Fei. While wrapping Han Fei's soul with a green light and injecting it into the lotus, she said, "Little Wang Han, your soul power has reached the level of a Half-Venerable?"

Han Fei grinned with difficulty. "I don't know how strong the soul power of a Half-Venerable is!"

The Water Immortal said helplessly, "Then recover first. You need to adapt to the sudden loss of your soul. Your avatar still needs to be refined."

Han Fei saw that after his soul disappeared into the lotus, a strange and enormous power seemed to be gathering in all directions, which was in faint gray.

Han Fei's heart did a flip. For some reason, he felt that he also wanted that kind of power.

Han Fei couldn't help asking, "Teacher, what kind of power is this?"

"Chaos Energy."

Chapter 1300: Destroy the Demon Subduing Tower

When Queen Life gave him the Immeasurable Fruit, it also contained a wisp of Chaos Energy!

However, at this moment, Han Fei didn't know how much Chaos Energy had entered his avatar.

Now, the part of Han Fei's soul that had been separated was being guided by the Water Immortal. It felt like a force was pushing him into a soft marshmallow, making him feel like he was being wrapped up.

Only at this moment did Han Fei know that it was to make his soul more adapted to this new body. And the Chaos Energy, like flames used for refining, was used to refine the embryo into a finished product.

This was because his soul was separated at this moment. Half of his soul had already entered the lotus root. Therefore, this part of his soul was idle, but he couldn't move it. He could only watch.

It felt like he was being pressed to a bed covered with marshmallows and someone was massaging him.

Therefore, Han Fei didn't have to pay attention to the soul in his original body all the time. This was because his soul was interconnected within a short distance.

While consolidating his soul power, Han Fei looked at his data. At this moment, his various parameters had a drastic drop.

Owner: Han Fei

Level: 74 (Intermediate Explorer)

Spiritual Energy: 150,000 / 150,000

Spiritual Power: 14,506 / 14,506

Perception range: 1,800 kilometers

Enforcing Law: Invincible Vajra

Strength: 292 Waves

First Spiritual Heritage: Unknown

Second Spiritual Heritage: Unawakened

First spiritual beast: Twin Yin-Yang Spirit Swallowing Fish (level 61)

Second spiritual beast: Unawakened

Main Art: Sky Stealing Technique, level six of Void Fishing (Venerable Level, Divine Quality)

...

In fact, this result was even better than Han Fei had expected.

Han Fei pondered. After all, he had reached a high level once. If nothing went wrong, he could easily return to his original realm. This kind of return, in addition to absorbing an ownerless soul, shouldn't require any epiphany. Now, his spiritual power and perception range had been reduced by half, and not much else had dropped.

Of course, Han Fei was relieved to see that his perception range was 1,800 kilometers. After all, before his last epiphany, his perception range was only 300 kilometers more than now.

Now, the power of his soul had been split in half, but it was still 1,800 kilometers, which surprised Han Fei.

However, half of his soul was gone, but his range of perception was about the same as before.

This also indicated another problem: his current soul perception was definitely not as secret as before.

In the past, when he used the Soul-Attracting Technique to peep on others and eavesdrop on others' conversations, others might not have noticed it at all.

But now, if he did this again, he might be discovered by others. The reason why his perception range was still so large was probably because he had cultivated the God Scaring Painting.

At this moment, the weakening of his soul made Han Fei clearly realize the importance of the soul. After all, the strength of the soul directly affected the amount of spiritual energy in his storage and its loss had weakened his strength by more than 50 waves.

Han Fei asked, "Old Yuan, how can the weakening of the soul weaken my strength?"

The old turtle said lazily, "It's only temporary. The soul is extremely mysterious and can fully mobilize the strength and potential of the body. It's like a person in a normal state, and a person in a weak state. The former's mental state is good, and the latter's is bad, and their strength will also vary with their state. But when you replenish your lost soul power, it'll be alright."

The old turtle's example was quite vivid.

With this explanation, Han Fei understood.

Now, all his attributes had declined because his soul was weak. In this case, he had to find a way to quickly repair his soul and return to his previous strength. In that way, he could easily handle a place like the White Shell Royal City.

However, even if he was in a weak state, he was actually extremely strong and the Fish Dragon King was still no match for him at all. Even if he were to fight Bai Suzhen again, he wouldn't lose. After all, his strength wasn't weak at all.

Han Fei felt that it shouldn't be a problem for him to make it to the top three with such strength.

With this in mind, Han Fei was relieved.

One day.

Two days.

Three days passed.

Halfway through the third day, Han Fei suddenly felt that he was "revived".

It was an amazing feeling.

He was clearly cultivating, but he suddenly felt revived. Because his soul was connected, Han Fei sensed his current self from another place.

Han Fei, who was cultivating, suddenly opened his eyes and looked at his lotus body.

The Water Immortal roared, "Little Wang Han, throw half of your essence blood over."

Han Fei didn't dare to be negligent. With a flip of his hand, Snowmourne appeared. With a swish, he cut his wrist, and golden blood essence quickly spewed out.

Compared to the soul, essence blood was nothing. He could make up for it with spiritual fruits. He didn't even have a chance to let himself be in a weak state.

Han Fei couldn't help but ask, "Teacher, do you still need essence blood? I can give it all away. I can regenerate it."

Looking at Han Fei's golden blood, the Water Immortal was a little stunned. Golden blood... Why do I feel that his level of life has already exceeded the scope of the human race?

However, the Water Immortal still immediately replied, "No, you still need to let your avatar adapt to it and let him create his own essence blood."

When all the essence blood disappeared into the avatar's body, the avatar slowly opened his eyes. Han Fei smiled. "Master, is this my avatar?"

The Water Immortal seemed to be in a weakened state. "You can experience it for yourself. This avatar shouldn't be as strong as your current one, but it shouldn't be weak either. You can let him cultivate on his own and try another Great Dao."

The two Han Fei looked at each other. The lotus body looked into his mind, only to see no information. It seemed that his body had changed and he no longer had the protection of the Demon Purification Pot.

Without the Demon Purification Pot, he couldn't feel the old turtle anymore. Han Fei said tentatively, "Old turtle, old turtle, old turtle..."

Han Fei was relieved to hear no response.

It seemed that the lotus body was at least much weaker than the original body in terms of treasures.

However, the Water Immortal suddenly said, "Little Wang Han, we have to find a way to get out now. My true body's strength has weakened too much. Almost half of my strength has been used to create this avatar of yours. My strength has dropped to the Half-King realm. If any powerhouses perceive, I'm afraid there will be conflicts."

Han Fei raised his eyebrows. In order to create an avatar for him, the Water Immortal had consumed her strength so much?

Han Fei didn't dare to be negligent. With a thought, he tried to recall his avatar into Forge the Universe. However, a massive amount of spiritual spring disappeared in Forge the Universe again, and his avatar trembled slightly, unable to enter immediately.

Han Fei was horrified and stopped in a hurry. Forge the Universe didn't recognize his avatar?

Han Fei didn't force it. With a thought, the illusion of mountains and rivers appeared. Since it was not easy for his avatar to enter Forge the Universe, he might as well put him into the Sea Quelling Painting.

After a while, Han Fei said, "Teacher, I don't know how to get out!"

The Water Immortal said, "I'm a king. How can I not even be able to walk out of a few seals? However, once I break through the seals, I may attract the attention of strong masters. If I transform into a new seed and send you out, it's possible that you will be discovered. Let me think of a better solution."

Hearing what the Water Immortal said, Han Fei blinked and said, "Master, can this Demon Subduing Tower be destroyed?"

The Water Immortal was stunned for a moment. "What are you talking about? There are many powerful creatures suppressed in this tower. Once it's released, it may cause a great disaster in this sea area."

Han Fei scratched his head and said, "Teacher, there's something I forgot to tell you. Although we are not in the Sea Demon Royal City now, this place should be very close to the Sea Demon Royal City. It's a trial ground in the Sea Demon Royal City."

"Sea Demon Royal City?"

The Water Immortal was stunned. "Why am I in the Sea Demon Royal City?"

Han Fei shrugged. "I don't know! Maybe, the Demon Subduing Tower exists to suppress you."

The Water Immortal asked suspiciously, "Then is it really fine to release these powerful creatures?"

Han Fei grinned. "Teacher, including my junior sister and your disciple, there are three Kings in this territory."

The Water Immortal frowned. "Three Kings... In that case, I can give it a try. However, if I still had my previous strength, I might be able to break this Demon Subduing Tower... Now, I'm afraid it will be a little difficult."

In Han Fei's heart, the old turtle said, "Why do we have to break it? Just let out those big demons! Then, throw this tower into the so-called Wall of Death. It's best to smash a hole and release some creatures! You don't even know how to wreak havoc?"

Shocked by the old turtle's words, Han Fei simply repeated what he said to the Water Immortal. If the Demon Subduing Tower fell into chaos, the White Shell Royal City would fall into chaos too, and the Water-Wood World would be at ease!

The Water Immortal was still a bit conservative.

However, the old turtle and Han Fei were both lawless people. One was proud of being a demon, and the other was purely a troublemaker who wanted to see the world in chaos. The two hoped that the Demon Subduing Tower would collapse! Only then could they win in chaos.

...

The sixth floor of the Demon Suppressing Tower.

Zhang Yao was fighting hard. Even as an undead creature, he couldn't withstand the intensity of the battles here. It had been nearly 20 days since he stepped into the Dao, but he hadn't found a chance to reduce his realm.

At this moment, he was fighting a big crab, and the terrifying power shattered the void.

Suddenly, in the dark void, a Lotus God Seat suddenly appeared inexplicably on the sixth level.

And on the lotus seat, who else could it be if not Han Fei?

Han Fei shouted, "Senior, stay where you are."

Hearing this, Zhang Yao dared not move.

He didn't know what Han Fei was doing.

He didn't know where Han Fei came from either.

A phantom of mountains and rivers enveloped him. In the next moment, Zhang Yao disappeared.

As for the big crab, it still wanted to pinch the void.

However, as the lotus seat turned, its giant pincer shattered, and the crab was so frightened that it hurriedly dodged to the side.

Bang! Bang!

The void continued to shatter.

With another two sounds, the spatial barrier was broken again. On the fourth level of the Demon Subduing Tower, in the land of eight hundred kilometers of quicksand, Bai Suzhen clapped her hands. Guarding the weak snake demon, she was fighting with six big serpents.

Bai Suzhen, who was the new consciousness of the Water Immortal, had to protect this snake demon. After all, in terms of karma and mental demons, she had to protect her nominal mother.

Otherwise, this would affect her Great Dao.

Suddenly, the void cracked, and Bai Suzhen couldn't help raising her head.

However, when she raised her head, her expression changed and she exclaimed, "Impossible..."
