### **Chapter 1301: You've Finally Made A Move**

In Bai Suzhen's view, Han Fei's strength was only at the intermediate Dao Seeking realm. With such strength, below the fourth level, he probably couldn't survive. But how could he still be alive?

However, when she saw the Lotus Seat, she was immediately horrified. Wasn't that existence sealed by her? How could she break through the seal?

This Lotus Seat was definitely not something her main soul could control. Her main soul wasn't that strong either. Therefore, the existence must have awakened and regained control of the body.

Therefore, the consciousness at the bottom of Bai Suzhen's heart was extremely terrified at this moment. Had her main soul been destroyed?

It wasn't easy for her to split some souls out and pass through layers of barriers to come here. She had long lost the connection to her main soul. She didn't expect that she had miscalculated.

The illusion of mountains and rivers descended and enveloped the snake demon. Without giving the snake demon a chance to react, Han Fei put her into the Sea Quelling Painting.

And the six serpents, sensing the terror of the Lotus Seat, had already escaped.

It could even be said that Han Fei had broken through the void on the Lotus Seat, which was enough to shock them. They had been in the Demon Subduing Tower for so long, but they had never seen any creatures who could break through the void and do this.

In the land of eight hundred kilometers of quicksand, only Bai Suzhen was left.

The consciousness wanted to run, but where could she run to in the Demon Subduing Tower? Her great plan had been ruined by Han Fei at this moment. How angry was she?

There were three small white lotus seals between Bai Suzhen's eyebrows. They emitted blazing light and attempted to self-destruct.

"Humph! You think you can kill yourself in front of me? Who gave you the courage?"

The pressure from a king forced Bai Suzhen to kneel on the ground. The lotus seat under Han Fei shot out a white light, enclosing Bai Suzhen.

"Ahhh~"

The newborn consciousness had no power to resist at all and was crushed by the Water Immortal.

As the white light rolled, a large swath of blue soul was sucked into the lotus seat. However, the amount of this ownerless soul was far less than the one Han Fei had absorbed earlier.

This was probably only less than a quarter of the previous time. It should be said that Bai Suzhen survived alone in the Demon Subduing Tower because of this wisp of consciousness.

At this moment, this wisp of consciousness had been eliminated.

Although the amount was very small, it was already a lot for Han Fei.

Han Fei certainly wouldn't refuse it. However, he didn't have the time to absorb it yet. With a thought, Han Fei stored these ownerless souls into Forge the Universe.

The soul between Bai Suzhen's eyebrows was broken. She was bleeding from her seven orifices and fell to the ground. Han Fei cast a Holy Light Technique on her, and the illusion of mountains and rivers appeared, putting her into Forge the Universe.

All of this happened very quickly, in only a few seconds.

Han Fei shouted, "Teacher, it's done."

...

Outside the White Shell Royal City, in a circular mountain range about 300,000 kilometers away, an ancient tower that seemed to be made of black stone stood.

This tower had six floors on the surface. Every floor had eaves that extended out. Each eaves were clasped into the surrounding mountains by extremely thick chains.

Therefore, the tower looked as if it had been shackled to the bottom of the sea by countless chains.

On the 24 eaves of the sixth floors, a total of 24 peak-level Dao Seeking powerhouses were sitting. Among them, Bai Wuzhu and Yu Qing, who had once ambushed Han Fei, were sitting on the eaves of the first floor.

The two of them were sent to guard the Demon Subduing Tower for 30 years as a punishment, and only less than three months had passed.

Buzz!

Hualala ~

All of a sudden, the Demon Subduing Tower shook slightly, and all the iron chains that held the eaves began to shake, producing rattling sounds.

Because they were at the bottom of the sea, the regular sea melon seeds, conchs, and starfish were all over the tower and the chains.

These creatures were shaken into powder in an instant.

The Demon Subduing Tower seemed to shake slightly, and the impurities on the 24 chains were instantly shattered, revealing iron chains that glittered coldly. At the same time, weird array runes lit up.

The people guarding the Demon Subduing Tower were all shocked.

Someone shouted, "Not good. There must be a powerful creature in the tower attacking the seal and augmenting the array."

Each of the 24 people pressed their hands on the chains they were guarding. An array pattern lit up, and they poured tremendous spiritual energy into the array pattern, causing the 24 chains to flash with a strange light.

Yu Qing glanced at Bai Wuzhu. "Is this the power of the Demon Subduing Tower? It's just a slight vibration, but such a terrifying force is transmitted out?"

Bai Wuzhu smiled bitterly. "It's just a power transmission. We haven't encountered that kind of spatial turbulence yet. There was once a turbulence due to a space problem, and a big demon almost came out of it. In that battle, even with the support of arrays, as many as 13 people died in order to guard the Demon Subduing Tower. Otherwise, why do you think no one wants to guard the Demon Subduing Tower?"

Feeling the terrifying power on the chains, Yu Qing couldn't help but ask, "Is this fine?"

Bai Wuzhu cursed, "Don't panic. Of course it will be fine. It's just a normal vibration."

Buzz!

Crack ~

However, as soon as Bai Wuzhu said so, a muffled sound resounded thousands of kilometers away.

Everyone thought that it was a normal suppression, but the surrounding ring-shaped mountain cracked and a huge crack appeared.

It was like during an earthquake, when the crust moved, a huge crack appeared on the ground.

How similar was the scene at this moment? The terrifying and huge cracks on the distant mountain were quickly being torn apart and gradually magnified.

Immediately, someone shouted, "Danger! Danger! Attack with all your strength! Don't hold back at all..."

...

In the Demon Subduing Tower, there was a green vine that broke through multiple barriers from the bottom layer, piercing almost all the barriers in the Demon Subduing Tower.

Han Fei could even see that the Water Immortal's true body was withering. One after another vine and white lotus withered after providing terrifying power.

Han Fei asked, "Teacher, are you okay?"

The Water Immortal said, "It doesn't matter. Since I've given up on this body, I'll let it play its last role. As a king, I'll pierce through the nine-level demon tower."

The Water Immortal's cold voice sounded, "All the creatures in the tower, listen up. I'm going to destroy the tower. Those who don't want to be suppressed and want to leave, try your best to collapse this place."

"Roar!"

“A king?”

“Alright!”

In fact, the power of a king and the shock of the mind were directly transmitted to all the big demons in the Demon Subduing Tower. They couldn't help but believe her words from such a level of attack.

Of course, some lesser demons didn't realize this.

Separated by layers of seals, Han Fei seemed to be able to hear someone doubting: There is actually a king-level creature here?

There were also some creatures who seemed to have guessed that there was a king-level creature here. Hearing that the king was going to break the tower, how could they not follow her? As long as they broke the tower, they could be free!

On the eighth floor of the Demon Subduing Tower, a giant shark suddenly opened its eyes.

Boom ~

A terrifying force hit the seal on the tower wall.

On the seventh floor of the Demon Subduing Tower, a golden lobster extended its pincers, and the phantom spanned thousands of meters and struck the wall of the tower.

There was a big red octopus. Its tentacles, like the whip of death, suddenly began to whip.

In addition to the dangerous creatures at the bottom floor, there were also countless creatures that began to charge frantically at the walls of the tower.

Because of a few words of the Water Immortal, the entire Demon Subduing Tower went on a rampage, and millions of creatures attacked at the same time.

...

Outside the Demon Subduing Tower, a rumbling power echoed from all directions.

Bang!

A peak-level great demon was trying his best to inject spiritual energy into the array. However, a bell-like explosion suddenly sounded in his ears.

As if a demonic sound had descended, its head exploded. Before it could react, its upper half body had exploded! This terrifying power blasted in all directions.

As one of them exploded, at least four of them vomited blood.

Hualala ~

The chains shook crazily.

Someone shouted at a big conch, “Something happened to the Demon Subduing Tower! Come and help us!”

Boom ~

Like a huge bell, an unknown force struck the body of the tower, causing the ground of the entire Demon Subduing Tower to crack. Some peak-level great demons' arms were instantly minced into powder. Some peak-level great demons were directly shattered, leaving no corpse behind.

"Not good! Hold on! There's a riot in the Demon Subduing Tower!"

Crack... Boom...

As soon as he said so, the thick chains in front of him suddenly emitted cracking sounds, and then with a bang, they were broken.

Half of the broken chains hit the tower, and the other half hit the circular mountain, raising deafening sounds.

As for the person who had just spoken, the sealing array under his hand had completely exploded. His body was like a porcelain doll, trembling and cracking all over.

With a bang, a terrifying wave struck the tower, and this person's body shattered.

...

In the White Shell Royal City.

The White Armor Emperor had already cast his gaze at the Demon Subduing Tower the moment it trembled.

However, what he didn't expect was that even he thought this was just a slight shake of the Demon Subduing Tower. He didn't expect that the next moment, the mountain would crack and the chains would break.

"All Venerables in the White Shell Royal City, listen up. Follow me to suppress the Demon Subduing Tower."

The White Armor Emperor's expression changed drastically. After endless years, the Demon Subduing Tower finally moved.

He had studied the Demon Subduing Tower for too long, but he was afraid of the power inside and didn't dare to really enter it.

At this moment, under the order of the White Armor Emperor, there were as many as 50 places in the entire White Shell Royal City, with spiritual energy oscillating. Some people broke through, some soared into the sky, and some directly tore the void and headed for the Demon Sealing Tower.

And the White Armor Emperor took a step forward and appeared above the Demon Subduing Tower.

However, at the moment he appeared, a green light bloomed on the tower.

The remaining 20 peak-level Dao Seeking sea demons on the tower suddenly began to tear their flesh and blood. From their eyes, ears, mouth, and nose, a large amount of vines was growing.

"Ah! Help me!"

A white lotus grew out of Bai Wuzhu's chest.

Then it exploded with a bang.

He had thought about who to choose as his master after he returned to the Royal City. How could he know that the riot in the Demon Subduing Tower had occurred as soon as he came to the Demon Subduing Tower? He couldn't help but sigh.

Seeing this scene, the White Armor Emperor's eyes flickered. These people can no longer be saved. Since a king takes action, how can they survive?

The White Armor Emperor put his hand on the top of the Demon Subduing Tower and said in a low voice, "You've finally made a move."

### **Chapter 1302: Battle of the Kings (Part I)**

As the only king of the White Shell Royal City, the White Armor Emperor naturally knew the danger of the Demon Subduing Tower, but this danger had been dormant for too long.

It had existed since he discovered this place, but it never erupted.

Furthermore, the White Armor Emperor even once felt that the danger under the Demon Subduing Tower might no longer be a threat. It wasn't until the moment the White Armor Emperor became a king that he once wanted to enter the Demon Subduing Tower to find the opportunity at the bottom of the tower.

However, at that time, he sensed the presence of a king, which seriously threatened him.

At that time, the White Armor Emperor was only a junior king.

He even thought that if a king had been hibernating in the Demon Subduing Tower for tens of thousands of years, his strength couldn't be underestimated. Therefore, he only attacked tentatively once, but in the end, he didn't succeed.

Up to this day, the White Armor Emperor had tried to explore the danger under the Demon Subduing Tower many times.

However, every time, he felt an unparalleled terrifying vitality. It was precisely this vitality that frightened him. This once made him suspect that the strength of the one below might have reached the end of the king realm.

However, the existence at the bottom of the tower had never really attacked, nor had he thought of leaving the Demon Subduing Tower, nor had he shown any threat.

That was why the White Armor Emperor never intended to touch the Demon Subduing Tower.

Even at this moment, when the White Armor Emperor arrived, he just pressed the seal of the Demon Subduing Tower with one hand, trying to continue to suppress the existence below.

At least, he didn't want to let him out before the other party revealed his identity.

The Water-Wood World was only of this size. With the three kings standing side by side, it was already a little cramped. If another one came, who might be the strongest, no one could withstand this!

The White Armor Emperor was certainly worried. Would this existence seize his White Shell Royal City?

Buzz—

One Venerable after another arrived.

When they saw that the surrounding ring-shaped mountains were about to collapse, as well as the two broken chains, they were extremely surprised. Why did the Demon Subduing Tower have such a big riot this time?

Seeing the White Armor Emperor personally suppress the Demon Subduing Tower, the Venerables guessed, Is the legendary one in the Demon Subduing Tower coming out?

The White Armor Emperor said again, "I know that this Demon Subduing Tower may not be able to suppress you. However, with the help of this array, it won't be so easy for you to break out. Who are you?"

The Water Immortal said leisurely, "Let go. I'm going back to the Wall of Death. Don't make me fight you."

"Hiss!"

Many people gasped. They didn't expect that there was really a peerless king in the Demon Subduing Tower.

Someone secretly pushed his strength to the extreme, intending to save himself at the critical moment.

This was a battle of kings! If this battle broke out, as Venerables, if they were careless, they might die.

While the White Armor Emperor looked solemn, a cold voice sounded, "I told you to get lost."

When facing Han Fei, the Water Immortal might still be a kind teacher, but she was a king after all. How could she be so easy to talk to?

Bang! Bang! Bang!

In the vision of the White Armor Emperor and the many Venerables, one cyan demonic vine after another extended from the ground around the Demon Subduing Tower. Each of the vines was like a dragon swimming out of the depths of the sea, writhing and clinging to the tower. On the 22 Demon Subduing Chains, vine leaves stretched out as white lotus flowers began to blossom.

"Hmph!"

The White Armor Emperor shouted in a low voice, "How can I believe you when you say that you're going to the Wall of Death? Besides, if you take the entire Demon Subduing Tower to the Wall of Death, you will definitely break a corner of the seal. How can I let you release all the demons to the sea?"

As he spoke, the White Armor Emperor's huge hand extended thousands of meters.

Around the Demon Subduing Tower, thousands of void cracks appeared.

Bam! Bam! Bam! Vines exploded one after another. Every vine exploded with great power. Sand and stones flew within a hundred kilometers, the furious waves rolled, the seabed sunken, and the seawater flowed backward.

Such a terrifying explosion flattened the surrounding ring-shaped mountain in an instant.

All the Venerables who came were horrified. Is this the tentative confrontation between kings? Any random blow seems to have the terrifying power of an advanced Venerable.

Furthermore, in their eyes, the white lotus flowers growing around the Demon Subduing Tower were even more terrifying than green vines. This was because under such a terrifying bombardment, the white lotus flowers were not damaged at all.

Even the White Armor Emperor was a little shocked. This was already beyond the scope of probing.

It could be said that if he hadn't come in person, even if all the Venerables in the White Shell Royal City had come, they probably wouldn't have been able to completely suppress this force.

Swish! Swish! Swish!

Three white lotus flowers were spinning towards the White Armor Emperor. The latter looked solemn and no longer dared to be careless. Two white gongs appeared out of nowhere.

The White Armor Emperor: "Retreat a thousand kilometers."

With the White Armor Emperor's command, everyone retreated. They knew that most Venerables couldn't withstand such a battle.

Boom ~

Bang! Bang! Bang!

When the three white lotus flowers exploded, the two gongs clasped together.

A visible ripple instantly shattered the surrounding mountains.

The aftermath was not over yet. Under the violent impact of the oscillating ripples and waves, within a thousand kilometers, gravel was discharged. The sea surface was blasted into a huge tide, and a terrifying spherical space with a radius of more than 10 kilometers appeared at the bottom of the sea.

This blow was extremely powerful. Although the White Armor Emperor was equally powerful, his sleeves had been shattered, and his arms were full of blood marks.

And the two big gongs that had just been summoned became distorted.

The White Armor Emperor roared, "Do you really think I can't do anything to you? If you don't stop, don't blame me for using all my strength."

The White Armor Emperor looked solemn as he looked at the nine-level demonic tower that had been completely exposed at the bottom of the sea. Eight of the Demon Subduing Chains had been broken.

If the one in the tower continued to attack, it would only be a matter of time before the seal on the periphery of the Demon Subduing Tower was broken.

However, the White Armor Emperor was also a little frightened by the power of the Water Immortal. The terrifying power of the three lotus flowers had completely exceeded the limit of the Half-King realm and had already reached the junior king realm.

Don't underestimate this power. Coming from inside the Demon Subduing Tower, this terrifying power should have been weakened by the Demon Subduing Tower, but it could still unleash such a terrifying power.

It could be seen how strong the person inside was.

...

Inside the Demon Subduing Tower.

Han Fei looked solemn. He didn't know what the battle outside was like.

Anyway, the Demon Suppressing Tower was in a mess. Since the Water Immortal attacked, the shaking had never stopped, neither did the roars from different big demons.

But what really made Han Fei worry was the Water Immortal's consumption.

He didn't know how the Water Immortal attacked. Anyway, Han Fei saw that her lotus flowers were withering one after another. At this speed, in less than an hour, the Water Immortal's true body would be gone.

Han Fei asked, "Teacher, did you encounter any difficulties?"

The Water Immortal said, "In order to condense your avatar, my strength has dropped. Now, I can only make use of the power of my original body to barely exert the combat power of a king. If I start a fight outside, it's okay. However, with the seal of the Demon Subduing Tower, my strength is somewhat limited."

Han Fei frowned. "Then what should we do?"

The Water Immortal snorted. "Let's fight it out."

In the outside world.

The White Armor Emperor suddenly frowned. He saw eight flower buds suddenly emerge from the void.

He shouted in a low voice, "Are you crazy? How can you just attack without considering the consequences? Do you want to die?"

The Water Immortal's voice was cold. "I want to open the sky and return to the Wall of Death. Let me ask you, are you going to let me go or not?"

Anyway, this was the last moment for the Water Immortal's true body to exist.

The Water Immortal had released all her power. She had never fought so crazily in her entire life.

Frightened by the Water Immortal's words, the White Armor Emperor was shocked. This person wants to open the sky?

Could it be that this person had been lying low for so long because he was trying to break through to the Sky Opening realm?

Yes, this person had never died and his vitality had always been extremely strong, far stronger than his. If it weren't for this, he would have long taken action.

In order to open the sky, this person had been lying low for tens of thousands of years. His patience was terrifying.

Buzz buzz buzz!

Eight flower buds began to blossom, and rays of white light penetrated the seawater. The lotus flowers charged at the White Armor Emperor with brilliance again.

In the tower, the Water Immortal shouted, "All creatures, help me crash the tower."

Rumble!

The White Armor Emperor was lost for words. How could such a terrifying battle have happened without any warning?

Could it be that the big shot inside had accumulated his strength to the limit to open the sky?

However, even if this big shot wanted to open the sky, why did he have to go to the Wall of Death? Did the Wall of Death have the power for her to open the sky?

The White Armor Emperor's heart did a flip and he suddenly had a guess.

He roared, "Stop! I'll let you go. You just want to go to the Wall of Death. You can go. I have no grudge against you. Being neighbors for so long, why should I stop you?"

Han Fei naturally heard what the White Armor Emperor said.

Hearing what the White Armor Emperor said, Han Fei hurriedly said, "Teacher, don't believe him, never ever believe him. You can trust anyone, but not the sea demons."

The Water Immortal's voice trembled slightly. "Do you think I'm stupid? This person most likely doesn't want to fight me head-on. However, I wonder what he has up his sleeve?"

The Demon Subduing Tower, along with part of the mountain, flew into the air, like a celestial mountain crossing the sea, flew thousands of kilometers away in an instant.

The White Armor Emperor shouted, "Everyone, be prepared. There will be a great battle at the Wall of Death. Kill the enemies with all your strength."

### **Chapter 1303: Battle of the Kings (Part II)**

Because it happened too suddenly, the White Armor Emperor wasn't prepared.

In a hurry, a super powerhouse who was going to break through to the Sky Opening realm came out of the Demon Subduing Tower. No matter what, he couldn't let this person live.

First of all, this person was not a sea demon but seemed to be a super strong demonic plant.

In the entire Water-Wood World, the Cloud Sea Divine Tree was a demonic plant, the Blood Sea Divine Wood was a demonic plant, the Queen Life was a demonic plant, and none of these three were on his side. They were all his enemies.

Then, this meant that the lotus demonic plant, if nothing went wrong, wouldn't be on his side either. She would probably become his enemy too.

Even if the other party wouldn't become his enemy, even if the Lotus Demon Plant stood on the side of the White Shell Royal City, so what? The other party could already break through to the Sky Opening realm. If she really succeeded, who would have the final say in the White Shell Royal City in the future?

However, if he killed this lotus demon plant, it might be another opportunity. A king-level creature stronger than him happened to be trapped at this moment, and she happened to be in a disadvantageous situation and was about to cross the Wall of Death.

It could be said that everything was in his favor.

Even if he couldn't kill her, he had to seriously injure her and make it impossible for her to make a breakthrough. Only in this way could he maintain the balance.

The Demon Subduing Tower was originally next to the Wall of Death. That was why the creatures that occasionally rushed out of the Wall of Death were locked into the Demon Subduing Tower.

In mid-air, there were continuous collisions on the Demon Subduing Tower, and the chains had already risen.

Countless demons roared in the tower.

If they relied on themselves, it was impossible for them to break out of the Demon Subduing Tower without becoming a king. Now that a king-level powerhouse had taken the initiative to stand out, they certainly would follow her if they were not stupid.

When the 24 chains exploded, the sealing power of the Demon Subduing Tower was weakened. However, although the chains were broken and the ground was collapsing, on the body of the Demon Subduing Tower, countless runes lit up.

No one knew who created the Demon Subduing Tower. It had so many layers of protection, just like the Avenger that Han Fei once built with his own hands.

Although you knew that it would break in the end, it wouldn't break in the short term.

In a hurry, the Water Immortal quickly said to Han Fei, "Listen, the preliminary plan is that when this king takes action, I will detonate all my remaining true body. At that time, I will turn into a seed and open a void passage. I don't know where I can go. However, with your ability, it shouldn't be a problem for you to escape."

Han Fei had no objection.

In any case, the Water Immortal had already decided to abandon this body. At this moment, she didn't care about the cost at all.

In the Demon Subduing Tower, a tremendous number of creatures were attacking the seal.

The Water Immortal's terrifying power was erupting, and a large number of arrays on the Demon Subduing Tower were shattering. This scene made the corners of the White Armor Emperor's mouth twitch. It seemed that the creatures in the Demon Subduing Tower had been locked up too long.

The White Armor Emperor frowned slightly. The origin of the Demon Subduing Tower had always been a mystery. However, he had been guarding the White Shell Royal City for so long and knew that there were three entrances to the Demon Subduing Tower. One was inside the Wall of Death, one was the forbidden passage of the White Shell Royal City, and the last was a door on the body of the Demon Subduing Tower. That door was on the bottom level, and it was usually buried underground. But at this moment, it was exposed.

Apart from these three entrances, there were no other entrances to the Demon Subduing Tower.

The White Armor Emperor knew this, but he didn't know if the Lotus Demon knew this.

At this point, he had no choice but to kill the Water Immortal.

Han Fei couldn't see what was going on outside from the Demon Subduing Tower, but he knew that the whole tower was shaking. All the creatures here seemed to be rioting and attacking the seal on the tower crazily.

At this moment, the Water Immortal extended her hand, and a rotating lotus flower appeared in her palm. It was spinning so fast that it was invisible to the naked eye. As the Water Immortal pushed it, it was directly pressed into the seal of the Demon Subduing Tower.

Han Fei could even see that in the seal, array patterns overlapped one another. At a glance, there were hundreds of layers.

This was the first time Han Fei had seen such a terrifying array layout. This was beyond his ability! Han Fei had thought that he was already very awesome to draw a ship array like the one of the Avenger.

However, at this moment, when Han Fei saw this magical combination array with hundreds of layers, it was equivalent to putting hundreds of layers of battle suits on the Demon Subduing Tower. Therefore, it was naturally difficult to break it with one blow.

However, the Water Immortal pressed the white lotus into the array with a slap and said, "It just looks scary. If he is really a top powerhouse above the King Realm, he wouldn't have used such a method to seal this so-called Demon Subduing Tower. With such a complicated array, I can still break it, which shows that the person who set up the array is not as strong as I think. I suspect that this person is at most a Half-King, and this Demon Subduing Tower might just be a copy."

"Hiss!"

Han Fei took a deep breath. Is this a f\*cking copy? This is already enough to suppress a king!

In Han Fei's heart, the old turtle agreed with her. "She's right. If it were me, I wouldn't have sealed this tower with such a complicated array. This tower actually failed to suppress a king. Otherwise, your teacher wouldn't have been able to get out."

The white lotus bloomed in the layers of arrays. The lotus phantom expanded rapidly. The petals were like magical blades, "digging" a hole in the surrounding array.

Han Fei said in surprise, "Break the array with force! Teacher, your consumption will be very high!"

The Water Immortal said indifferently, "I've abandoned this body and this battle is very important. Why should I reserve any force?"

The Water Immortal extended her hands again and threw out another two white lotus flowers. Han Fei felt a chill down his spine.

Although the Water Immortal didn't want her kingly body anymore, it was really a pity to waste it like this! In any case, to cultivate this kingly body, the Water Immortal had definitely used a lot of resources!

The first white lotus had already drilled out of the Demon Subduing Tower. At this moment, Han Fei suddenly shouted, "Fuse."

When Little Black and Little White fused, Han Fei suddenly took a breath. He saw the outside of the Demon Subduing Tower from inside.

To be precise, it was not the outside, but the scene where the Demon Subduing Tower passed through the void.

After three or five seconds, Han Fei saw a grayish-white mist. According to the manner in which the mist flowed, Han Fei was sure that there were terrifying hurricanes outside.

It was common sense that the wind dispersed the mist. However, the wind was so strong that even the void was shattered and the surrounding mist dissipated, so Han Fei perceived that they had arrived at the Wall of Death.

In the outside world.

The White Armor Emperor was equally anxious. He knew that the Water Immortal didn't completely believe him, because the arrays on the Demon Subduing Tower were broken one after another.

Although compared to the countless layers of array imprints of the Demon Subduing Tower, there were not many ones damaged, for a king, once an opening was broken, she would be able to come out.

Now, although the tower hadn't been broken, it might not last long.

The White Armor Emperor snorted coldly. "Aren't you going to the Wall of Death? Why do you want to break out of the seal now?"

It was only less than ten thousand kilometers away from the Wall of Death. The Water Immortal didn't really want to explore the Wall of Death. She just wanted to create an environment and find an opportunity to detonate her true body and send Han Fei away.

Therefore, when the Water Immortal saw the Wall of Death, the eight lotus flowers outside the tower penetrated the void at the same time and smashed at the White Armor Emperor without any warning.

The White Armor Emperor's face turned cold. "Humph! I knew that you had ill intentions and wouldn't leave. Do you think I'm not prepared? Everyone, retreat three thousand kilometers away."

Hearing that, the Venerables immediately ran. They had no choice but to run. Even White Armor Emperor had called out his companion spirit.

Buzz!

At the moment when the eight lotus flowers pierced through the void, the void tore, and a huge shell more than a thousand meters long appeared in the void.

The White Armor Emperor stepped out and appeared in the shell.

Boom boom boom...

After eight consecutive terrifying explosions, the bottom of the sea was overturned, and the sky cracked. Endless gray fog and hurricanes erupted, and the speed was so fast that even wind blades could kill Venerables.

The terrifying shell of the White Armor Emperor was shaken back more than eight hundred kilometers, and a void crack stretched across the sky.

The White Armor Emperor gritted his teeth and roared, "Since you go back on your word, don't blame me for being ruthless."

The White Armor Emperor rammed the Demon Subduing Tower with his shell.

With another clang, all the creatures on the seabed within a thousand kilometers were crushed by this terrifying force.

The Demon Subduing Tower was sent flying at a terrifying speed.

It was about to crash into the Wall of Death.

The Water Immortal's heart skipped a beat. She had underestimated the power of this king. If they were hit into the Wall of Death, as Han Fei said, it wouldn't be easy for them to come out.

"Open!"

In the tower, three white lotuses collided with the overlapping array one after another, forcibly blasting a hole in the array that suppressed her on the eighth, seventh, and sixth floors.

The Water Immortal shouted, "Those who don't want to stay here, charge out. I'll stop the king outside. You, hunt the Venerables."

"Roar!"

A terrifying black-patterned shark rushed out and opened its mouth as if to swallow the sea. It said, "Thank you for opening the way, King."

A big octopus was extremely fast. It drilled through the void rift and shouted, "Thank you for opening the way, King."

A big lobster tore open a void rift with its two claws, rushed out, and shouted, "We're finally out."

At the moment when the Demon Subduing Tower quickly crashed into the Wall of Death, more than 20 Venerable-level demons drilled out of the tower.

The White Armor Emperor had already walked out of the shell, but he had no time to care about the Venerables. He knew very well that he couldn't give the Water Immortal a chance to come out.

The White Armor Emperor shouted, "All Venerables, listen up, kill them."

Among the group of Venerables, there were two of Han Fei's acquaintances. The law enforcer of the royal capital, Hai Tinglei and the secret realm assessment official, Changshui Qin, both looked solemn.

Hai Tinglei took a deep breath. "That shark is already a Half-King. Let me fight it."

Changshui Qin: "That octopus, leave it to me."

On the other sidea?|

As soon as a white lotus cleared a way for Water Immortal, she saw a big gong blocking the way.

White Armor Emperor: "Even if you want to come out, you have to ask me first."

The Water Immortal frowned and stomped, and thirteen giant vines grabbed at the exit in a row crazily.

She knew that she had to blow this road open and push back the White Armor Emperor. Otherwise, Han Fei couldn't get out. Once the Demon Subduing Tower was blasted into the Wall of Death, Han Fei might as well stay in the Demon Subduing Tower.

Seeing that the Water Immortal seemed to be risking her life, the White Armor Emperor also tried his best. He must not let this person stay in the Water-Wood World, or his position would be threatened.

The White Armor Emperor roared, the power in his hand surged, and he seemed to be attacking with all his strength. "This domain is my domain. There's no room for you here.. Get lost."

#### **Chapter 1304: Return the Same Way He Came**

Even now, the White Armor Emperor felt that the strength of the Water Immortal was much stronger than his.

Seeing the Water Immortal attacking so frantically, he knew that he couldn't have done it if he were in her shoes.

After all, he knew very well how strong the seal of the Demon Subduing Tower was. If he tried his best, he might be able to break it through by force at the expense of damaging his Great Dao.

However, which king would be a fool? It was not easy to become a king. The White Armor Emperor never would have thought that the Water Immortal was actually just bluffing with her final true body.

At this moment, the White Armor Emperor didn't dare to be negligent.

He believed that the stronger and more appalling the power the Water Immortal showed, the stronger her real power was.

The White Armor Emperor used his big gong that he had polished for ten thousand years, which could be called a Sea Quelling Bizarre Treasure, to forcibly block the breach of the Demon Subduing Tower and blocked the way of the Water Immortal.

The Water Immortal was also a little confused. Are you so afraid of me? You would rather sacrifice two Sea Quelling Bizarre Treasures to stop me?

However, seeing that it was only 3,000 kilometers away from the Wall of Death, the Water Immortal made up her mind. I don't even want my own body. Why should I be afraid of two junior-level Sea Quelling Bizarre Treasures?

"Explode!"

Rumble...

Even Han Fei, who was inside the Demon Subduing Tower, was flung away by this terrifying force. If it weren't for the hundreds of complicated array seals of the Demon Subduing Tower, Han Fei felt that he might have been crushed to death in an instant.

In this gray fog, there were as many as 30 battlefields. Because the force was too strong, this space was sunken and cracks appeared in the void.

"Roar!"

Bang! Bang!

Perhaps because they were too close to the Wall of Death, they could vaguely hear some creatures roaring in the Wall of Death, and some behemoths and demons seemed to be trying to break through the wall.

Rumble!

The sky was full of thunderbolts, and Hai Tinglei and the giant shark were fighting crazily. The two of them fought in the void, but at the moment the thunderbolts struck, with a crack, the void shattered. The terrifying shock wave directly sent him and the giant shark flying.

Hai Tinglei was shocked. "A trace of the combat power of a king can crush the void?"

After the shock wave arrived, it took a full three seconds before there was the sound of metal slapping.

A terrifying circular explosion blasted into the sky, covering more than ten thousand kilometers.

The two gongs of the White Armor Emperor were now riddled with holes. They had been blown up into pieces of Sea Quelling Bizarre Treasures and could no longer block the exit.

The White Armor Emperor's arms were bloodstained, his eyes were bloodshot, and blood was flowing out of his mouth. He was blown more than 5,000 kilometers away.

As for the Demon Subduing Tower, it wasn't much better. The complicated and terrifying sealing array seemed to have been skinned alive, and at least ten percent of the sealing array was destroyed.

Although it was only 10% of the seal, if Han Fei were to take his time to break this 10% seal, it would take him at least ten years.

However, it was destroyed by this blow.

Not only was the sealing power of the Demon Subduing Tower destroyed by 10%, but the entire tower also penetrated the void and slammed into an invisible barrier.

Boom... Crack... Crack... Crack...

At this moment, Han Fei couldn't believe it, and the corner of his mouth twitched.

This was because he found that the Demon Subduing Tower was stuck, stuck by an invisible barrier. From the cracks condensed by the surrounding terrifying power, half of the Demon Subduing Tower crashed into the Wall of Death, and the other half failed to break in.

More importantly, the Demon Subduing Tower was suspended in the air. It was stuck in the middle of the Wall of Death, unable to be pulled out.

Han Fei took a deep breath. "What's going on here?"

The Water Immortal was also a little stunned. "Is this the so-called Wall of Death? It seems... a bit extravagant."

The old turtle was also a little stunned. "This is the first time I've seen such a terrifying sealing power. This is definitely not a sealing barrier that a king-level creature can set up. The person who set up this array must have surpassed the Sky Opening realm and reached the Longevity realm."

Han Fei's eyelids twitched. "Old Yuan, don't try to fool me. You keep calling here the barren land, and considering the history of the Water-Wood World and the Yin-Yang World, how can there be a super powerhouse in the Longevity realm here? Why don't you say that we also have gods here?"

The old turtle said leisurely, "In a sense, the Longevity realm is the realm of god, the realm of false god."

Gulp!

Han Fei swallowed. "What should we do now? Teacher, can we still charge out?"

The Water Immortal was not in a good shape at the moment.

Han Fei saw that her soul's will had weakened a lot, and there were only more than 300 kilometers left that her original body covered. It could be seen how crazy the consumption just now was.

The Water Immortal shouted, "Little Wang Han, I didn't expect this person to be so tenacious. He tried to block me from coming out of the Demon Subduing Tower with two Sea Quelling Bizarre Treasures. Here he comes again..."

How could the White Armor Emperor not come? He was worried that if the Water Immortal came out, his White Shell Royal City would be taken away in an instant. And he might be chased to the end of the world.

Therefore, this time, no matter what, he had to stop this woman.

The Water Immortal glanced at her true body, which didn't seem to be enough to resist the White Armor Emperor.

The Water Immortal asked, "Little Wang Han, how did you come in?"

Han Fei hurriedly said, "There is a forbidden area in the White Shell Royal City, and there is a hole in the forbidden area. It should be the weak point of the Demon Subduing Tower. I came in from there. However, after I came in, I couldn't find the way back."

The Water Immortal asked, "Huh? There are other paths in this tower?"

The Water Immortal glanced around, and Han Fei felt that in an instant, a terrifying soul power swept across the entire Demon Subduing Tower.

Boom!

Outside, the Water Immortal and the White Armor Emperor were fighting again. This time, the Demon Suppressing Tower moved a little bit deeper into the Wall of Death.

The Water Immortal suddenly thought of something. "Gotcha. Take me out by the way you came. Whether we can survive depends on whether you can leave the White Shell Royal City or not."

Han Fei said in surprise, "So simple? Then why do we still have to break through the seal? Teacher, why don't you come with me and destroy the sea demon camp?"

But the Water Immortal said, "Didn't you say that you were going to release these big demons and smash a hole in the Wall of Death? I think it's not bad to destroy half of the sea demon Royal City with this useless body! However, I underestimated the opponents of this era. Besides, this passage is too fragile. Even Venerables can't enter it. Once I leave, it will collapse instantly."

Han Fei was speechless. "Then what should we do now?!"

"Wait, wait for me to transform into a seed."

From the beginning, when the Water Immortal had just awakened in the Thousand Mountain Ancient Realm, she already knew what a new kind of path she would take.

She wanted to condense herself into an ancient seed again and be reborn.

This time, she had been preparing for tens of thousands of years for this great seed. Once this seed was born, her talent would definitely be terrifying.

At this moment, the soul phantom of the Water Immortal swooshed and turned into a transparent luminous ball. Then, the ball crazily absorbed the power that might be Chaotic Qi in all directions.

At the last moment, the Water Immortal's voice echoed, "Little Wang Han, I used the power of my last blow to fake the illusion of my body exploding and open a way for you. However, there are many turbulent spaces, and this way back is extremely dangerous. If you die, I can still float in the void, but you might really die. Therefore, leave your avatar behind and I'll send you to the third level..."

Han Fei frowned and asked in surprise, "Is it so dangerous? Teacher, wait a moment..."

However, Han Fei said it too late, because he saw 27 white lotus flowers appear at the same time, which made his blood freeze.

The old turtle hurriedly said, "The so-called spatial turbulence was caused by her. This woman is really tough!"

Han Fei thought to himself, Of course! There are no weaklings in the Grand Myriad Mountains.

The White Armor Emperor didn't know what the Water Immortal's plan was. At this moment, he was holding the Sea Quelling Bizarre Treasure fragments, planning to stuff them into the Demon Subduing Tower and blow them up.

The White Armor Emperor roared, "I don't believe you can defeat me without coming out of the Demon Subduing Tower! Blast..."

At that moment, the battlefield fell into silence.

Some of the creatures who were released from the Demon Subduing Tower began to stop. After all, it was the kings who would decide this battle.

As the White Armor Emperor said, it was really disadvantageous for the Water Immortal to fight in the Demon Subduing Tower. If the Water Immortal was defeated, they had to run quickly.

However, when the White Armor Emperor rushed to the front of the Demon Subduing Tower, he was dumbfounded to see 27 white lotus flowers.

"Hiss... Lunatic... You are a lunatic..."

Boom boom boom...

Han Fei had no idea what was going on outside.

At the old turtle's urging, Han Fei grabbed a green seed the size of an ordinary peach core and quickly drilled into a space crack.

At this moment, Han Fei could only feel the vibration of the Demon Subduing Tower. However, he was no longer on the previous floor, so he couldn't see the outside.

At that critical moment, Han Fei asked, "Old Yuan, will the Demon Subduing Tower be blown up?"

The old turtle shook his head. "No. It's been existing for tens of thousands of years. How can it be broken so easily?"

Han Fei gritted his teeth, and the illusion of mountains and rivers appeared. His lotus body appeared in the Demon Subduing Tower, along with most of Han Fei's resources.

The old turtle asked, "Do you really leave it here?"

Han Fei made up his mind. "Yes! The creatures in the Demon Subduing Tower are not weak. If I can come back one day, I'll find a way to take my avatar away. If I can't, this will be my second body."

Han Fei had decided that compared to the treacherous Yin-Yang World, this Demon Subduing Tower could even be said to be a hidden Shangri-la, especially since he was still on the third floor! He could defeat all the enemies on this floor, so it was literally a paradise!

Knock, knock, knock!

Hardly had Han Fei disappeared when he heard the sound of a bell.

There seemed to be a familiar voice, and the White Armor Emperor shouted, "Mu Wuhua..."

Unfortunately, the sound was too wretched. After all, the space had changed. However, because everything happened too fast, it only left a trace in the void.

"Pu! Pu! Pu! Pu!"

In the blink of an eye, hundreds of wounds appeared all over Han Fei's body, and countless space cracks appeared around him.

"F\*ck..."

"Fuse!"

After fusing with Little Black and Little White and revealing his Yin-Yang Divine Eyes, Han Fei activated his Dao Seed and covered himself with a layer of power.. "My defense is invincible."

### **Chapter 1305: End of the Battle**

In fact, Han Fei wanted to give himself a divination that he could successfully pass this passage. However, as soon as this idea popped up in his mind, he knew it wouldn't work.

Although his Great Dao was similar to the power of divination and could change some rules within a small range, it couldn't exceed a certain range.

Obviously, directly predicting a safe result was completely beyond the scope of his own Great Dao.

At this moment, Han Fei activated the Invincible Will Protective Cover and the Glaring Vajra. Under his feet, he activated the Heavenly Void Divine Movement and activated the 64-Dimensional Fish Dragon Dance.

In this dark void, Han Fei was like a golden dancing sprite, so fast that it looked like a wisp of golden light.

It was different from the way he came. When he came, Han Fei went straight in through the void's weak point. However, when he returned, the Water Immortal's true body had self-destructed, and the terrifying power swept tens of thousands of kilometers. Under such circumstances, Han Fei crossing the void was naturally much more dangerous than when he came.

Even though Han Fei's speed was extremely fast, almost every second, there were hundreds of space cracks cutting his body. The Vajra Body lasted for about five minutes and was about to collapse.

Bang!

The vajra phantom disappeared, and the Invincible Will kept cracking as if there were countless knives cutting his body. Although the Invincible Will was also cut apart, Han Fei didn't panic at all. Under his feet, the Coiled Turtle Arrays appeared one after another, and he threw out seven or eight large Coiled Turtle Array fish skin maps in a row.

Even so, it still took Han Fei a full three minutes to barely cross the spatial turbulence and reappear in the forbidden areas in the Royal City.

At the moment he landed in the forbidden areas, Han Fei was covered in blood, and the golden blood dyed his skin. This made Han Fei look as if he had been washed by golden powder.

Han Fei scanned the area with his perception and found that there was no one around. He controlled his blood not to fall to the ground and then disappeared into the Thunder Prison.

When Han Fei appeared in the Thunder Prison, he saw lightning and thunder rumbling down.

"Huff!"

Although he was struck a few times, Han Fei was still greatly relieved.

When he came back to his senses, he activated the Holy Light Technique, and the thousands of tiny wounds on his body healed at a visible speed.

Han Fei flashed again and appeared in Forge the Universe.

At this point, Han Fei finally had enough time to rest. A month should be enough.

However, Han Fei's soul had been greatly damaged. He needed to come in first and swallow the ownerless soul.

The Fish Dragon King had been trapped in Forge the Universe for a long time. Seeing that Han Fei didn't appear in his face, he immediately asked warily, "What do you want to do?"

Han Fei ignored him and said bluntly, "My place forbids others from speaking."

Having no time to listen to the Fish Dragon King's nonsense, Han Fei simply sealed the small space where the Fish Dragon King was. In Forge the Universe, Han Fei's will was above everything.

Han Fei's belief moved again and continued to block the Fish Dragon King's vision. After doing this, Han Fei extended his hand and grabbed the faint blue soul fire floating in Forge the Universe.

The old turtle said, "Fortunately, you returned the way you came. Otherwise, I would have had to control Gui Sanqing to escape."

Han Fei curled his lips. "I wonder how it is going in the Demon Subduing Tower."

The old turtle sneered. "Haha, your teacher detonated her true body, so the king must be in serious trouble."

Han Fei suddenly said, "Old Yuan, when I entered the passage, I seemed to hear the name Mu Wuhua. Did you hear it?"

The old turtle said, "You didn't hear it wrong. If I've guessed right, it should be Queen Life from the Water-Wood World coming."

...

However, when Han Fei's true body escaped, the battle outside the Demon Subduing Tower at the Wall of Death was only halfway through.

When he saw the Water Immortal's shocking attack, the White Armor Emperor finally realized that something was wrong. The Water Immortal didn't seem to be trying to come out but fighting him with her life.

He had thought the white lotus flowers were a way of fighting. However, when the 27 white lotuses broke through the void, the terrifying vitality made him panic. Was she risking her life?

At that moment, the shocking shell appeared again, and the White Armor Emperor drilled into the shell, trying to escape.

Seeing this, the Venerable-level demons who were fighting nearby didn't want to fight anymore. They tore through the void and fled frantically, afraid that they would be too slow.

Rumble!

In the blink of an eye, an unparalleled ferocious might covered tens of thousands of kilometers.

Above the four seas, a strong wind swept; in the sky, a rain of blood fell.

No matter how fast the Venerables ran, there were at least five or six of them. When they were caught up by the self-destruct blow, their bodies and souls were blown to smithereens.

The remaining people were shocked. A king had perished, so the heavens cried?

In the sky, the crimson crack couldn't be fake.

Because the White Armor Emperor was in the middle of the storm, the two gongs were completely destroyed, and he suffered internal injuries. The white shell was bombarded by the 27 lotus flowers consecutively, producing a total of nine cracks.

The White Armor Emperor was speechless. Aren't you trying to break through to the Sky Opening realm?

He even speculated that it was impossible for him to stop the Water Immortal, who was probably coming out!

So the White Armor Emperor was already prepared to activate the Royal City's array.

However, the Water Immortal died?

At that time, the White Armor Emperor had too many questions in his heart and felt that he had been tricked. He was shocked, angry, and aggrieved, like ten thousand Iron-Headed Fish galloping in his heart.

However, the result was completely beyond his expectations.

He speculated that the Water Immortal would be injured, escape to recuperate, and attack the White Shell Royal City, but he didn't expect the Water Immortal to die...

She had been dormant for tens of thousands of years and caused such a big uproar just to die? This didn't make sense!

However, the Great Dao collapsed, the heavens cried, and a rain of blood fell. These couldn't be fake. After all, she was a king. Now she had really died! Did something happen that he didn't know about?

When the White Armor Emperor entered the void, he saw that the surface of the shell was suddenly covered with a layer of algae that looked like a creeper vine. Countless green vines extended from the big shell crack.

"Mu Wuhua? How dare you leave the Cloud Sea Divine Tree?"

"Pfft!"

The White Armor Emperor vomited another mouthful of blood.

Just now, the self-destruction of the Water Immortal had seriously injured him, causing his strength to decrease too much. He might not be able to recover in ten years.

As for his Companion Spirit, the huge shell, it would take at least a hundred years for it to recover. However, at this moment, Mu Wuhua came.

The White Armor Emperor didn't expect that Queen Life would know about the chaos in the Demon Subduing Tower in advance.

His first thought was that the death of a king had shocked the entire Water-Wood World. If he were Mu Wuhua, he would definitely come to the White Shell Royal City to investigate the situation.

The reason was simple. He was the only king in the Water-Wood World who wasn't a demonic plant. The one in the Blood Sea Divine Wood City had the geographical advantage. Mu Wuhua would definitely not dare to go there rashly.

Queen Life roared, "Vitality, deprive."

In an instant, the White Armor Emperor and the big shell rushed out of the void. The aura of the big clam was suddenly weakened by 30%. It was first bombarded by a king and then sneak attacked by Mu Wuhua, adding to its injuries.

The White Armor Emperor was furious. With a thought, he recalled the shell. In his hand, he held a long green jade spear, pierced through the void, and shattered the strange Life Devouring Technique.

The White Armor Emperor shouted, "Mu Wuhua, aren't you afraid that guy will go to your Cloud Sea Divine Wood?"

Mu Wuhua chuckled. "You seem to be seriously injured. If I were her, I would kill you right now."

He heard a dull voice in the void, "Don't involve me in the battle between the two of you. This matter has nothing to do with me! However, I want to ask, if neither of you is dead, who died? Did a Sea Creation Realm creature come out of the Wall of Death?"

The White Armor Emperor shouted as he was fighting Mu Wuhua, "Why should I tell you about the internal affairs of the White Shell Royal City? All you need to know is that I am still alive."

Queen Life smiled slyly. "Could it be that someone in the White Shell Royal City secretly broke through to become a king but failed to resist the tribulation, so he died, causing the heavens to cry?"

This was an excuse that Queen Life had long thought of.

In fact, Queen Life had some guesses about this matter. Looking at the Demon Subduing Tower that was almost blasted into the Wall of Death, Queen Life finally knew where the Water Immortal's true body was locked up.

However, what surprised her was that Han Fei's efficiency was a bit too high. How long had it been? It hadn't been half a year! Not only had he snuck into the White Shell Royal City, but he had also found the Water Immortal's true body and caused such a huge uproar!

Queen Life didn't believe that the Water Immortal had died. Only demon plants knew demon plants better. Demon plants had a long lifespan. The Water Immortal had held on for such a long time. There was no reason for her to die now.

Therefore, at this moment, the death of the Water Immortal might also mean a new life.

At this moment, even she was curious. What did Han Fei gain from the Water Immortal? What had happened during this period of time?

The battle between Queen Life and the White Armor Emperor only lasted for half an hour. After roughly ascertaining the White Armor Emperor's injuries, she said, "All Venerables who have escaped the suppression of the White Shell Royal City, I, Water-Wood World, welcome you. It's up to you whether you come or not."

With that said, Mu Wuhua looked at the White Armor Emperor. "Did that person die in the tower? We Water-Wood World want a share of the opportunities there."

The king of the Blood Sea Divine Wood City just said that she wouldn't get involved.

At this moment, seeing how miserable the Demon Subduing Tower was, she immediately shouted, "Whoever sees it shall have a share! Our Blood Sea Divine Wood City should also have a share."

The White Armor Emperor's expression was extremely ugly. He really wanted to tear these two jerks apart.

In this battle, the White Shell Royal City suffered heavy losses!

The White Armor Emperor lost two Sea Quelling Bizarre Treasures.

The Demon Subduing Tower was destroyed. His Companion Spirit was seriously injured and wouldn't recover for a hundred years. He was heavily injured too.

However, when he heard that both parties wanted the opportunities in the tower, the White Armor Emperor sneered and thought to himself, How can it be so easy to get the opportunities in the Demon Subduing Tower? Since you want it, send someone over.

However, on the surface, the White Armor Emperor said, "OK! However, the aftershock of self-destruction is still powerful in this place.. If you want to compete for this opportunity, let's talk about it in ten years."

### **Chapter 1306: The Fish Dragon King Is Out**

The battle in the Demon Subduing Tower this time was not really a battle of kings. Although the power that erupted in the end was completely the combat power of a king, this power was not enough. It could be seen from the injuries of the White Armor Emperor.

If the kings were to fight head-on, even if the White Armor Emperor and Queen Life were to fight, the outcome would only be worse.

Although the White Armor Emperor still didn't understand why the one in the tower attacked him by force, or maybe the other party was still alive?

After the battle was over, the White Armor Emperor had some guesses, but they were just speculations.

Inside the Demon Subduing Tower.

Han Fei lowered his head and looked at his lotus body, only to see that his shoulders were shining with spiritual energy. With two swishes, two heads and four arms grew out of his body.

"Huh? It doesn't feel weird at all. In this way, even without Little Fatty, I can still fight enemies from all directions at the same time."

Roar!

In the distance, a silver fish came at him like a long sword.

Or rather, only the great demons on the floor-6, floor-7, floor-8 and floor-9 ran out this time. On floor-7, floor-8 and floor-9, there were all top powerhouses, with only five or six of them, including the Water Immortal.

The rest were the Venerables on the sixth floor.

However, not all of them ran out. When half of them ran out, the channel was shattered by the battle between the White Armor Emperor and the Water Immortal.

As for above the sixth floor, there might be one or two spatial cracks that appeared occasionally, but the creatures who could seize the opportunity to go out completely relied on luck. In total, there might be less than ten.

This was because most creatures saw hope of getting out, but they couldn't really run out, so they were rioting, or even became a little crazy now.

At this moment, as an unfamiliar visitor, Han Fei had long been targeted by many creatures.

Although Han Fei had been here before in the appearance of the Fish Dragon King,

However, these creatures didn't know or think that Han Fei and the Fish Dragon King were the same person at this moment, so they charged at him again.

Han Fei grinned. "What stupid creatures. It seems that your long imprisonment has made you lose your sense of danger."

Han Fei extended his hands and held two sledgehammers in his hands.

Han Fei was about to use the Hundred War Divine Hammer, when he found that something was wrong. The Hundred War Divine Hammer was no longer as handy as before.

However, when fighting, he couldn't care less. Even if it was not that handy anymore, Han Fei didn't forget how to use it. Just the basics alone would be enough to defeat these creatures.

Bang! Bang! Bang!

In the water, ripples of light were shaking, and the silver fish was knocked out by Han Fei three times in a row. In an instant, it exploded.

Han Fei shouted, "From now on, wherever I, Han Fei, go, you shall retreat. Otherwise, kill..."

Han Fei was extremely arrogant, ignoring the thoughts of these creatures.

...

The Thunder Prison, the forbidden trial field, the White Shell Royal City.

Han Fei reappeared, his injuries had been fully recovered. Certain electric arcs flashed around him and there was not much joy on his face.

He said with a sullen face, "Come on, this is a powerful soul that has existed for a long time, why is its soul power so small? That's sad!"

After Han Fei swallowed all the ownerless souls, his soul power only increased by about 1,200 points. Now, his soul power totaled 15,788 points.

It was not weak, but not strong either.

At least, in Han Fei's view, this number might not be as powerful as some so-called peerless geniuses.

The old turtle said, "Why are you still complaining? Repairing your soul is not a difficult task. You acted so rashly this time. You should be glad that you came out safely."

His soul was weakened. Although Han Fei was in the Thunder Prison, he didn't deliberately cultivate his body. Instead, he was visualizing the God Scaring Painting.

Now that he had unlocked more of the God Scaring Painting, the power and charm of the God Scaring Stab had to be improved.

In a few days, he would have to leave the forbidden areas and find a way to escape.

Although there were still two forbidden places waiting for him in the White Shell Royal City, the ancient seed that the Water Immortal had transformed into was still on him, and the war on the Yin-Yang World was still urgent.

If he accidentally entered a forbidden secret realm similar to the Demon Subduing Tower, no one would help him. At that time, he might not be able to come out.

...

On this day.

Yu Tianxin reopened the forbidden-level secret realm. His first reaction was to look in the direction of the Demon Subduing Tower.

Seeing that there were no changes in the cave leading to the Demon Subduing Tower, Yu Tianxin was slightly relieved. He heard that the battle of the kings broke out a few days ago and that the Demon Subduing Tower was almost thrown into the Wall of Death.

And none of the creatures guarding the Demon Subduing Tower survived. Thinking about that, Yu Tianxin shook his head slightly. "It seems that this secret realm is useless!"

Buzz!

Behind Yu Tianxin, Changshui Qin suddenly appeared, looking calm.

Changshui Qin asked lightly, "Has the Fish Dragon King come out?"

Yu Tianxin shook her head. "Not yet."

Changshui Qin grunted and looked in the direction of the Demon Subduing Tower. "Unfortunately, not many people can enter. What a pity."

Shua!

While Changshui Qin was exclaiming, in the Lightning Prison, thunder arcs were beating on Han Fei's body, and he walked out of the Thunder Prison looking exhausted.

Seeing Han Fei come out, Yu Tianxin was shocked and a little surprised. "You stayed inside for a whole month?"

Han Fei didn't respond to Yu Tianxin, maintaining a cold posture.

It was Changshui Qin who discovered the problem first. He said, "Your soul seems to be unstable. What happened inside?"

Han Fei pretended to narrow his eyes and then said respectfully, "Among the layers of thunder and lightning, I met a small snake that could control lightning. I almost died at the hand of this snake. Although I escaped by a fluke, my soul was damaged."

When Han Fei spoke, his expression was very ugly, as if he had suffered a great loss.

However, Yu Tianxin said in surprise, "You actually met the Spirit of Thunder Heritage?"

Han Fei tilted his head in confusion and looked at Yu Tianxin. "Huh?"

Yu Tianxin said, "A creature living in the depths of the Thunder Prison, extremely rare. It's a great tonic to temper the body. Of course, that's provided that you can withstand it."

Han Fei frowned. "It can hurt the soul too."

Changshui Qin said indifferently, "The Spirit of Thunder Heritage is pure Yang power, which specializes in restraining souls and other things. However, since you survived, it shows your potential. This time, I can help you get a Soul Crystal and some ownerless souls."

Han Fei was overjoyed. Really?

Han Fei was refreshed. "Thank you, Master."

Changshui Qin said lightly, "Don't thank me yet. You'll definitely receive a lot of attention when you go out this time. Everyone is waiting to see what your ranking will be, including me."

Han Fei chuckled. "I want to see what my ranking will be too."

Changshui Qin nodded slightly. "Go!"

After Han Fei left the forbidden area, Changshui Qin shook her head slightly. "What a pity. He didn't break through to a level-nine demonic heritage."

For Changshui Qin, it didn't matter how much Han Fei's strength had increased or how much his body had become stronger. If Han Fei's demonic heritage improved, that would be something worth his attention.

Unfortunately, Han Fei failed to do so. This made many people a bit disappointed.

In the White Shell Royal City.

In the sky, there were heavenly talents fighting.

This was because two of the top ten of the Genius List had been eliminated.

Therefore, two new people filled in.

However, the strength of the people who filled in couldn't be recognized by everyone at once. Therefore, people kept challenging them.

It wasn't until today that the ninth place was finally confirmed.

The tenth place had already changed hands three times.

At this moment, a Lobster Demon and a Clam Girl were fighting for tenth place.

Below, there were many people watching the battle. Perhaps it was because they were bored, or because this was the Genius List competition of the White Shell Royal City. There were many people watching.

Except for the top three, almost everyone on the Genius List was there.

Of course, the only one missing was the Fish Dragon King, which certainly became the topic of conversation.

Someone asked, "How long has it been since the Fish Dragon King entered? More than a month. He should have died long ago, right?"

Someone shook his head slightly. "I don't think so. If the Fish Dragon King perishes, there should be three empty places on the Genius List. Then they won't be competing for the ninth or tenth place."

Someone sneered. "It doesn't matter whether he can survive or not. Among the top ten geniuses, the one I hate most is Fish Dragon King. His ranking is not that high, but he is always so damn arrogant."

On the other side.

Shrimp Youwei yawned and said, "The Fish Dragon King is still alive. It seems that his breakthrough this time is not small!"

Qing Siling: "If he makes a breakthrough, won't you be doomed?"

Shrimp Youwei said carelessly, "I don't really care. You and Xiaotian are doomed."

As Shrimp Youwei was speaking, a black-headed Half-Merman carrying a black iron rod said, "This time, when the Fish Dragon King comes out, it should be my turn to fight him, right?"

Qing Siling couldn't help laughing. "San Qi, don't underestimate the current Fish Dragon King. In my opinion, you don't seem to have any chance of winning."

This person was the seventh place on the Genius List, whose original body was a big black fish.

Suddenly, there was a commotion in the crowd in the distance.

Someone exclaimed, "Look, the Fish Dragon King is out!"

The moment Han Fei came out, he noticed that some people were fighting. He also noticed that Shrimp Youwei and the others were standing together.

This Heavenly Talent battle would be fought sooner or later. According to the Fish Dragon King's personality, he would definitely fight as soon as he came out.

Therefore, Han Fei took the initiative to provoke him and said from afar, "San Qi, do you dare to fight me?"

### **Chapter 1307: I'm The King of Spear**

While Han Fei shouted, a phantom appeared in Forge the Universe, which was like a curtain, showing the scene above the White Shell Royal City.

Han Fei asked, "Fish Dragon King, is this scene familiar?"

The Fish Dragon King was refreshed, his eyes widened, and he exclaimed, "This is the White Shell Royal City. This is... San Qi?"

Han Fei grinned. "Don't panic. I'll show you how powerful a Heavenly Talent you are today!"

The Fish Dragon King was dumbfounded. What was Han Fei doing?

...

When Han Fei provoked San Qi, in the battlefield above, the lobster soldier flung his spear, which pierced the void and blasted the Clam Girl back with a clang.

The Clam Girl tried to control the lobster soldier with her spiritual threads, but the lobster soldier's long beard broke her technique and cut off a stretch of invisible threads.

Immediately, a turtle shouted, "Master Xu Ye has won. The tenth place on the Genius List has changed hands."

But when the turtle shouted, he had already glanced at Han Fei. Compared to the top ten battles here, the Fish Dragon King who had just come out of the Proving Ground attracted the most attention.

Although some people paid attention to the advancement of Xu Ye, more people exclaimed when they saw the Fish Dragon King.

"What? The Fish Dragon King has come out?"

"Heavens! He passed the forbidden-level trial?"

"Hiss! This battle is going to be interesting. With the personality of the Fish Dragon King, there must be a series of battles."

"I wonder what opportunities he got in the forbidden trial field? Is he confident to beat Master Shrimp Youwei this time?"

Someone guessed, "Probably not. After all, he only went to the forbidden trial field once. No matter how great the opportunity he obtained is, it can't make him improve so quickly, right?"

Hearing Han Fei's words, the black-faced San Qi couldn't have looked more awful. This black-faced San Qi dared to challenge him as soon as he came out? He really didn't take the Fish Dragon King seriously before.

However, since he came out of the secret realm, he heard that the Fish Dragon King actually drew a tie with Shrimp Youwei. This surprised him, and he thought to himself, The strength of the Fish Dragon King has improved so much?

Now, the Fish Dragon King is so arrogant, showing no respect to me! So... do you really think you can beat me just because you've just passed the forbidden-level trial?

"Hmph!"

San Qi exuded a cold vibe. He pointed the big black stick in his hand at Han Fei. "Fish Dragon King, are you trying to impress us? You're too hasty."

Han Fei sneered. "I don't have much time. Since you are all here today, I'll just challenge you here. San Qi, let me ask you, do you dare to fight me or not?"

As a powerhouse, as the seventh most powerful genius on the Genius List, he couldn't refuse this challenge at all.

Therefore, San Qi stepped into the air, and the black iron rod in his hand opened with a bang, turned into a big black umbrella, and spiraled up.

San Qi said, "Fish Dragon King, I know you've got great opportunities, but don't be too arrogant. Otherwise, no one will clean up the mess for you."

"Roar!"

A golden dragon circled around him and then soared into the sky. Han Fei looked even more arrogant. Even in the White Shell Royal City, he didn't restrain himself at all.

In Forge the Universe, the Fish Dragon King was completely dumbfounded. Not only did this b \* stard use his identity, but he also began to challenge San Qi? Damn it... Although he was arrogant, he knew himself well. With his strength, he was still a little weaker than San Qi. Why did Han Fei help him compete for a ranking?

In the outside world, among the Heavenly Talents watching the battle, the corners of Qing Siling's mouth curled up slightly, revealing an extremely beautiful smile. "It seems that the trial this time has improved his strength a lot."

Shrimp Youwei became more serious. "If that's the case, I'd like to see how much stronger he is than a month ago."

As for the bald Zhang Xiaotian, he didn't speak at all. He seemed to be watching a show. He was very curious about which forbidden-level trial area Han Fei had gone to.

After all, Han Fei was the only one to explore the forbidden-level trial field in the past few years. Therefore, his return immediately attracted the attention of most people in the White Shell Royal City.

However, even though Han Fei released his spiritual perception, he still noticed that the number of strong masters who were perceiving him had decreased.

Among them, Han Fei was sure that Hai Tinglei wasn't around. The Venerable-level powerhouses perceiving him weren't as many as when he came to the White Shell City last time.

Han Fei said calmly, "Old Yuan, are the Venerables in the White Shell Royal City decreased by half?"

Han Fei thought to himself, If the Water Immortal killed half of the Venerables in the White Shell Royal City, then I did a great help to Queen Life this time.

At least, he could return the debt he owed.

Otherwise, it wouldn't make sense for Senior Brother to owe Junior Sister a huge debt!

Also, the next time he returned to the Water-Wood World, shouldn't he, the senior brother, give some gifts to his junior sister? The problem was that he didn't have anything good on him.

With this in mind, Han Fei was a little embarrassed. It's really not easy to be a senior brother!

Han Fei wasn't thinking about fighting at all. His eyes were drifting as if he didn't take San Qi seriously at all.

The old turtle said, "I don't think so. Not many Venerables in the White Shell Royal City were killed in the last battle."

Han Fei said in surprise, "How is it possible? I can perceive the perception of a Venerable."

The old turtle immediately sneered. "What's the use of you perceiving the perception of a Venerable? I'm only looking at the secrets of the heavens. Your divination technique is far from good enough. Otherwise, you would find that the fortunes of the White Shell Royal City are still strong. This shows that in the battle of the Demon Subduing Tower, your teacher's final Sacrificing Strike didn't kill many people."

However, the old turtle immediately added, "However, a King's Sacrificing Strike is not so easy to block. If I've guessed right, half of the powerhouses in the White Shell Royal City should be recuperating at this moment, including the King in the White Shell Royal City. Therefore, they just don't have time to pay attention to you."

Han Fei's face changed slightly. Only a few people were injured by the Water Immortal's Life-Risking Strike?

Han Fei quickly came back to his senses and slowly said, "It's a pity. The Demon Subduing Tower must have blocked Teacher's attack. Otherwise, it would have destroyed half of the White Shell Royal City."

The old turtle said, "It's a good thing that no one is paying attention to you. You should have done what you needed to do. When everything calms down, you should find a reason to leave here."

Suddenly, a voice echoed.

"Fish Dragon King, let me see what opportunities you've got! How can you be so arrogant?"

Han Fei was chatting with the old turtle when San Qi interrupted him. This person was holding a big black umbrella, looking very weird.

Han Fei curled his lips and ignored San Qi. Then he looked down at Shrimp Youwei and said, "You're next."

Shrimp Youwei said casually, "Win him first."

Seeing that Han Fei ignored him, San Qi burst into fury. I'm the seventh on the Genius List after all. Why do you treat me like this?

Buzz!

"Cage of the Universe!"

In the sky, a black umbrella descended like a mountain, and the umbrella bones were like pillars, trying to seal the space where Han Fei was.

However, for Han Fei, who had already grasped the wonders of space, he just stomped on the ground with the Fish Dragon Dance, stepped on the void, and then shrank the ground into an inch.

In the eyes of outsiders, Han Fei seemed to draw a semi-circular arc in the air, avoiding the cage.

“So fast.”

Seeing this, the others were slightly shocked. Han Fei’s speed was faster and his understanding of space law became deeper.

At the moment Han Fei flashed out, the red spear in his hand pierced through the void.

Han Fei used the Momentary Time, as well as the Near at Hand Technique.

“It’s a soul attack.”

Before Zhang Xiaotian could say that, he saw San Qi’s hand tremble. Before he had the time to react, he saw a black light fall from the edge of the umbrella like a curtain. This curtain tried to block Han Fei’s attack to protect San Qi.

“Pfft!”

San Qi was sent flying dozens of kilometers away. However, the quality of his big black umbrella was really good. It had abnormal characteristics like Little Fatty and had the power to block mental attacks and physical attacks.

However, no matter how strong this umbrella was, there was a limit. With the increase in Han Fei’s strength after tempering in the Thunder Prison for more than a month, how could San Qi withstand him?

Bang!

Another hole was drilled out of the black curtain.

“God Scaring Stab.”

Buzz!

San Qi’s body stiffened.

Han Fei shrank the ground into an inch and attacked again at close range. Without giving him a chance to react, the Instant Mystic Spear thrust in from the hole again.

“Pfft!”

San Qi’s body was penetrated by Han Fei’s spear. Half of his body exploded and he fell from the sky.

Seeing this scene, the turtle who was responsible for refereeing was dumbfounded.

How long had this battle been going on? They had only collided once, and the whole battle had only lasted less than two seconds, but San Qi had already been defeated?

“Hiss ~”

There was silence and then a buzz.

Someone was shocked. “What kind of method is this? San Qi’s black umbrella was pierced through before he could even resist two spears from the Fish Dragon King?”

Someone was dumbfounded. "What opportunities are there in the forbidden-level trial field?"

Shrimp Youwei and the others looked solemn.

Shrimp Youwei said, "His Near at Hand Technique seems to have reached a higher level."

Zhang Xiaotian nodded. "Yes. Although his time law hasn't improved, I feel that his soul attack is stronger than last time."

Shrimp Youwei said, "Tsk, tsk. Interesting. Qing Siling, if I lose, you two shall guard the top five places!"

The one who was most surprised was none other than the Fish Dragon King himself. When he saw Han Fei domineeringly defeat San Qi in an instant, he felt complicated.

"Is this guy so strong? Why can he even copy my Near at Hand Technique?"

When Han Fei used the God Scaring Stab this time, he found that he could completely make use of his current soul power. Perhaps it was because of the comprehension of the God Scaring Painting, but the God Scaring Stab in its 70% state was even stronger than what he had used before.

However, Han Fei knew very well that he had to find a way to leave the White Shell Royal City.

Therefore, he couldn't keep winning. Otherwise, if he got more and more attention and was nurtured as a core seed, it would be troublesome to leave.

However, this was the personality of the Fish Dragon King. If he didn't show it off or be arrogant, he might expose himself.

Since he had already started acting, he must keep acting.

Han Fei stood proudly in the air, pointing his spear at Shrimp Youwei and Qing Siling, saying, "I, Fish Dragon King, is the king of spear. Today, I will pierce through your undefeated legend with my spear... Shrimp Youwei, come and fight me."

Shrimp Youwei: "..."

In Forge the Universe, the Fish Dragon King: "???"

### **Chapter 1308: It's Over. I Can Never Go Back.**

It seemed that defeating San Qi was just defeating an insignificant opponent to him. Han Fei didn't even take a look at him.

After all, for Han Fei, the so-called Sea Spirit Heavenly Talent couldn't arouse any strong fighting desire from him. Even if he suppressed his realm, it felt like a dimensional reduction strike.

Han Fei's arrogant words made the eyelids of many Venerables droop. They had no idea how this b\*stard could grow so fast and become so strong.

F\*ck, do you have any sense of shame at all? You're the king of spear? How can you say that?

Countless people were speechless and thought to themselves. Perhaps, the Fish Dragon King has become stronger, but his conceited personality is even worse than before.

Even the real Fish Dragon King felt a bit disgusted. Am I like this? Although I, the Fish Dragon King, am a little bit arrogant, I'm not that arrogant!

The Fish Dragon King roared, "Han Fei, you shameless b\*stard, you are fake!"

Han Fei's voice echoed, "Shut up. If you keep yelling, I'll kill you. Now, the entire White Shell Royal City knows that the Fish Dragon King got great luck in the Thousand Mountain Ancient Realm. To tell you the truth, I just helped you explore the forbidden-level trial field. You should be happy."

"Huh?"

The Fish Dragon King froze for a moment. A forbidden-level trial field? Are you f\*cking kidding me? Am I strong enough to go to a forbidden-level trial field?

In the outside world.

Someone scoffed at Han Fei's words. "This guy is too good at pretending. I really hope he dies in the forbidden-level trial field."

Someone said helplessly, "Confidence comes from strength. He must be confident in his strength. Otherwise, why would he dare to say such a thing?"

Shrimp Youwei flew in the air and chuckled. "It seems that you've gained a lot from this trial."

Han Fei grinned, showing his sharp teeth. "I used to be a hidden dragon in the Abyss, but now I've risen to prominence. It's time for my ranking to rise."

Chi la!

Before the turtle shouted "Start", the two of them suddenly attacked almost at the same time. Shrimp Youwei shot out six spears and locked onto Han Fei.

"Hiss ~"

Many people trembled at the unexpected attack of Shrimp Youwei. They thought to themselves, The strength of Shrimp Youwei seems to be stronger than what he showed a few days ago.

Someone hurriedly said, "Could it be that Master Shrimp Youwei has made a breakthrough?"

Someone denied, "Of course not. Last time, Master Shrimp Youwei was ambushed. This time, he became vigilant, so the start of the battle is different."

At the moment when the six spears appeared, Han Fei's figure almost turned into light and shadow. He activated the 64-Dimensional Fish Dragon Dance and slipped through the gap between the spears. He shook the spear in his hand and twisted it into a circle.

Boom ~

The red spear shook, and Han Fei dodged all the spears and blocked the four spears with one spear.

Han Fei took a step forward and extended two fingers as a spear. With a flash of fire, time was frozen and the ground shrank to an inch.

As if he had expected Han Fei to attack in such a way, Shrimp Youwei dodged in advance. When he dodged, two shrimp spines stabbed at Han Fei from his waist.

Ding!

“Pfft!”

The two immediately separated.

The whole process looked like Shrimp Youwei attacked. Han Fei’s body shook, and then Han Fei appeared in front of Shrimp Youwei and attacked him.

It looked extremely simple.

However, in the eyes of the discerning people, they all looked solemn. This fighting feeling seemed to have reached the point of being ethereal.

The two of them retreated as soon as they collided. Shrimp Youwei touched his neck where there was a red mark. Han Fei, on the other hand, was holding a half spear, blocking his daggers.

Everything happened in silence.

Shrimp Youwei narrowed his eyes and looked at Han Fei for a long time. “Fish Dragon King, you surprised me. I didn’t expect you to be so careful. Fine, you win this battle.”

After that, Shrimp Youwei fell directly, which stunned many people.

Stunned for a while, the turtle shouted, “In this battle, Master Fish Dragon King challenged Master Shrimp and won.”

“Huh?”

“Hiss!”

“Seriously?”

“That’s it?”

Many people were still dumbfounded. What the f\*ck was going on? The two of them only touched once and didn’t seem to be hurt at all. How could the winner have already been decided?

In Forge the Universe, the Fish Dragon King, who was watching the fight like watching a movie, was dumbfounded. This Han Fei was so terrifyingly strong! He defeated Shrimp Youwei so easily!

Wait, what else did Han Fei want to do? Did he want to continue to fight? Defeat Qing Siling and Zhang Xiaotian?

The Fish Dragon King’s eyes widened. F\*ck, even if Han Fei let me go in the future, how can I return to the White Shell Royal City? I couldn’t even enter the top five when my strength was at its peak! Wouldn’t I be exposed the moment I show up?

Also, why did Han Fei show him what happened outside? What was his purpose?

While the Fish Dragon King was deep in thought, a heated discussion had already begun outside.

A Dao Seeking creature said, "The top ten of the Genius List will definitely not fight a life-and-death battle. However, in that instant just now, the two of them were competing in detail. Master King Fish Dragon is slightly better. Don't underestimate these little details. If in a real battle, it might kill you."

Qing Siling was no longer smiling. She said casually, "Interesting. He's trying to defeat us one by one!"

Zhang Xiaotian said, "It's very powerful. Be careful."

In the distance, Changshui Qin and Yu Tianxin were looking at the battlefield.

Yu Tianxin was a little surprised. "His movement technique has become better, his strength has increased, and his comprehension of the space law has deepened. Although his soul is damaged, his control of the soul seems to have improved."

Yu Tianxin couldn't help frowning. F\*ck, this was something he could get from the Thunder Prison!

Yu Tianxin couldn't help but ask, "Has he secretly been to other forbidden places during this month? For example, the Well of Abyss, Godfiend Sea... Or, the Demon Subduing Tower?"

Changshui Qin was silent for a while and shook his head slightly. "I don't think so. First of all, he can't go to the Demon Subduing Tower or the Godfiend Sea. You didn't give him a space talisman. If he goes in, how can he come out? Besides, with such a big thing happening to the Demon Subduing Tower, the space channel must be full of danger. If he enters it rashly, he will die. As for the Godfiend Sea, that place is more dangerous. But if he survives, his strength may rise sharply. However, I don't think the Fish Dragon King has this strength. As for the Well of Abyss, it doesn't matter if he goes there or not... Perhaps this is just the opportunity he once got. This time, he consolidated and absorbed it."

Yu Tianxin nodded slightly. His judgment was the same. No matter how strong the Fish Dragon King was, there should be a limit.

At this moment, Han Fei looked at Qing Siling and sneered. "Chatterbox, wanna fight?"

Qing Siling was talkative indeed.

At this moment, being called a chatterbox by Han Fei, she was slightly angry.

She snorted. "Fish Dragon King, are you really not giving yourself some face?"

Han Fei grinned. "I earned my honor by myself. You guys used to think that I wasn't strong enough to be ranked tenth on the Genius List, but now that I've surpassed the top five. Let me ask you, do you feel ashamed now?"

Han Fei knew that this woman was definitely not weak. But no matter how strong she was, it was relative. For the current him, no matter how strong she was, she was not strong enough.

If he couldn't beat these people, it meant that he was too useless. After experiencing so many twists and turns, he couldn't even compare to an ordinary Heavenly Talent.

At least, Qing Siling wasn't in his plan. He needed to raise the prestige of the Fish Dragon King to the highest level before it fell. Only then could he find a reason to leave.

Therefore, from the beginning, Han Fei's goal was that Zhang Xiaotian, the little bald who seemed to be aloof from worldly affairs.

Han Fei pointed his spear at Qing Siling. "My time is limited. You either fight or get out of the way."

Qing Siling chuckled with a fake smile. "You want to fight Xiaotian? Well... Let me tell you, just because you explored the forbidden-level Proving Ground once doesn't mean you're invincible."

Buzz!

As if stepping on layers of ice, Qing Siling walked in the air. As her hands moved, all Han Fei saw was threads.

This kind of thread left a deep impression on Han Fei. It was a bit like the light line of the woman who once intercepted him in the Ideal Palace.

But it wasn't just the lines. These lines were arranged in a certain array, causing the scene in front of Han Fei to change. More importantly, Han Fei couldn't use the Yin-Yang Divine Eyes at this moment.

However, without the Yin-Yang Divine Eyes, it didn't mean that Han Fei couldn't do anything.

Roar!

A dragon roar echoed, and the terrifying power of the soul swept dozens of kilometers around. This was exactly what the real dragon roar was like. Han Fei had once heard it.

In order to match the dragon roar, Han Fei even created a dragon shadow.

"Pfft!"

Qing Siling immediately vomited blood and said in shock, "Why is the coverage so large? What kind of attack is this?"

Han Fei shouted, "I, the Dragon King, now inform you of the awakening of my Dragon King bloodline. From now on, in the White Shell Royal City, I, the Fish Dragon King, will be a new legend."

In Forge the Universe, the real Fish Dragon King gaped in shock. After a long time, he finally said with a shivering voice, "It's over. I can never go back to the White Shell Royal City."

### **Chapter 1309: Sweep the Genius List**

Han Fei had fully demonstrated the usage of the Hundred Beast Soul Subduing Roar.

This technique was meant to simulate the roars of a hundred beasts. Anyone who heard it would think that was the real sound of the animal and wouldn't find out that Han Fei was cheating. After all, the beasts in the sea would cry too.

Qing Siling didn't expect that Han Fei's soul attack could attack indiscriminately.

Therefore, one wrong move and she was hit.

However, this woman wasn't simple. She vomited a mouthful of blood, and her eyes turned white. She also launched a mental attack at Han Fei's mind.

However, although Han Fei's soul power was almost halved, his soul was more than several times stronger than others in the first place. Therefore, he just felt a pain in the head and then shattered the attack.

However, as soon as he shattered the impact, Han Fei discovered that the sea before his eyes had become a sea of threads. As far as his eyes could see, there were all the threads.

Then, Han Fei saw that among the threads in all directions, there were hundreds of big crabs, sea spiders, sea silkworms, starfish, and worms rushing at him.

When he saw these things, the corner of Han Fei's mouth twitched. I hate bugs the most! Why did you get so many fake bugs to disgust me?

"Pfft!"

Han Fei casually struck out, only to feel that the resistance was very strong, and there seemed to be threads entwining his arm. In addition, there was a pile of wriggling worms that were bursting.

However, at the moment when those worms exploded, Han Fei's pupils were suddenly constricted. Were these worms actually souls? Or undead creatures?

Han Fei immediately thought of Li Luoluo.

Back then, when he had already fled the Thousand Star City, Li Luoluo hadn't come out of the Ideal Palace.

The method of Qing Siling was quite similar to Li Luoluo's. Li Luoluo was also good at using illusions and could summon a large number of colorful and strange insects.

Now it seemed that Li Luoluo was also using her soul power to control insects. However, what Li Luoluo controlled was corporeal bugs, while Qing Siling controlled illusory and nonexistent creatures.

From all sides, many people looked at the arena that was almost covered in white above the White Shell Royal City. The dense threads made many people's scalps tingle.

No matter which race they were from, what they were afraid of most was always the Heavenly Talents with abnormally powerful soul power who were proficient in various illusions and bewildering techniques.

The corner of someone's mouth twitched. "Although we rarely see Master Qing Siling attack, it's extremely shocking every time we see it. It seems that those who go against Qing Siling will end up as her puppets."

Someone said with some fear, "It's not the worst to be a puppet. At least they still have bodies. I'm told that the souls of the people or creatures who were killed by Master Qing Siling will never be freed."

Watching this scene, Shrimp Youwei asked casually, "I wonder how Fish Dragon King will fight back."

Zhang Xiaotian said lightly, "Destroy the illusions. The key is to find Qing Siling."

Suddenly, in the sky, a red spear shadow, like a sword that could cut the sky, left a red mark in a radius of tens of kilometers.

The scene was like a huge cloud being cut in half by a glowing red line. It was cut cleanly as if it had broken out of its cocoon.

“Hmph!”

Han Fei snorted and slashed out with the Monkey King’s Three Thousand Stick Technique. Therefore, after the red crack, the thread space that looked like a huge white cocoon was instantly cut into pieces.

Han Fei grinned. “This is my Spear Dao. Qing Siling, take it.”

Han Fei struck more than 200 times in space. At first, the spear seemed to miss its target. However, there were only more than 30 spears. Fire flickered in the void as two whips collided with the spear shadow.

Qing Siling’s face changed greatly. How did the Fish Dragon King see her through?

Besides, what kind of spear technique was the Fish Dragon King using? One wave after another stacked up to 200 waves. The power at this moment had completely exceeded her resistance limit.

Crack!

A long whip was shattered.

The figure of Qing Siling appeared. At the moment she appeared, she reached out to the void and seemed to grasp a thread. However, when she was about to use the force, Han Fei had already stepped onto her escape route.

Bang!

“Pfft!”

Han Fei held the spear in his hand and swung it at the enemy, and the latter was whipped out of the battlefield, vomiting blood.

In Forge the Universe, the Fish Dragon King, who was watching the whole battle, gaped. The more unbelievable Han Fei’s battle record was, the harder it would be for him to go back. Otherwise, he would definitely be seen through. After all, everyone in the Royal City had seen it.

If he came back, there would definitely be many Heavenly Talents who wanted to spar with him. Could he refuse this sparring? Wouldn’t he expose himself?

Then what could he say? Say that someone impersonated him?

Once it was found out that he was impersonated by Han Fei and the latter stayed in the White Shell Royal City for so long, who knew what Han Fei had done? Who knew what his relationship with Han Fei was? No matter what the reason was, his superiors wouldn’t let him go.

No matter how stupid the Fish Dragon King was, he knew that Han Fei was telling him to forget about the White Shell Royal City. He couldn't go back in this life. If he submitted to him in the future, he might live.

After such a long time of imprisonment, the Fish Dragon King was even a little desperate. At this moment, looking at Han Fei who was fighting with his face, he was even a little fascinated.

The Fish Dragon King thought to himself, He's really strong!

Outside, the others were all shocked.

Someone exclaimed, "How is it possible? Master Qing Siling was defeated?"

"He's so strong. What exactly is the so-called bloodline awakening of the Fish Dragon King? He went from the tenth place of the Genius List to the fifth? It's unbelievable!"

Many Dao Seeking demons were tempted, and some of them had already stood in front of the Fish Dragon King's residence. From the looks of it, the rise of the Fish Dragon King was unstoppable. Besides, this person liked to be flattered. If they flattered him, he would definitely help them in the future.

The turtle who served as the referee swallowed and slightly shrank his neck. "In this battle, Master King Fish Dragon challenged Master Qing Siling, and Master King Fish Dragon won."

In Han Fei's heart, the old turtle said, "What if that little baldy is not as strong as you think? If you win against this baldy, you will be in first place on the Genius List. Then it will be difficult for you to escape."

Han Fei responded, "I can't be wrong. The Fish Dragon King once fought with this person, but he was stopped by Zhang Xiaotian with one hand and didn't even have a chance to fight back. No matter in which aspect, this person is extremely strong. Although I seem to be very strong now, my strength is only equal to that of Shrimp Youwei and Qing Siling and the difference is not big."

The old turtle said, "I'm just reminding you to be careful."

Han Fei stood proudly in the air and smiled coldly. "Since the battle is over, I intend to cultivate in seclusion and fight in the forbidden trial fields again. Zhang Xiaotian, let's fight, shall we?"

Zhang Xiaotian scratched his head. "Okay!"

Hua!

The audience was in an uproar.

Although Zhang Xiaotian didn't refuse anyone, it was very meaningful that the Fish Dragon King challenged him this time. Zhang Xiaotian didn't refuse anyone. Anyone in any realm or ranking could challenge him, provided that he was in the Royal City.

Many people challenged Zhang Xiaotian just to feel his strength.

But today, the Fish Dragon King was different.

He fought his way up from tenth place to the fourth, and even killed two people. This strength was enough to make the Fish Dragon King receive enough attention.

Zhang Xiaotian reached out and tore, and a void rift appeared. In the next second, Han Fei saw that the void rift a hundred meters away was torn open, and Zhang Xiaotian appeared.

Han Fei's pupils were constricted when he saw this. A peak-level Sea Spirit could easily tear the void? This strength could be completely measured with the Dao Seeking realm.

Zhang Xiaotian glanced at Han Fei casually. "You've become a lot stronger. Come on!"

Han Fei pretended to be angry. "Last time, I was defeated by you, but this time, I'll fight with all my strength."

Buzz!

After that, Han Fei really didn't hold back. He took a step forward with the Near at Hand Technique and launched a God Scaring Stab.

Shua!

Zhang Xiaotian reached out and grabbed, tearing open several void cracks. Han Fei frowned and subconsciously tried to use the Star Teleportation Technique and Flash.

However, he held himself back. He was now the Fish Dragon King and had limited means. He couldn't use those unconventional methods.

"Roar!"

The dragon roared again, and Han Fei launched two soul attacks at Zhang Xiaotian. However, he didn't have the time to react with the Near at Hand Technique, and his battle suit was torn apart by the void cracks.

Han Fei's heart did a flip, and blood flowed out of his body. It was naturally not golden blood, but normal blood that Han Fei had already prepared.

And above Zhang Xiaotian's head, a big eye appeared. As the eye shone, with two bangs, a terrifying soul impact shook in all directions, easily breaking through Han Fei's two soul attacks.

Below, many people were relieved.

Someone laughed. "I knew it. The Fish Dragon King was definitely not a match for Lord Zhang Xiaotian."

Someone chuckled. "Of course. Who on the Genius List can confront Lord Zhang Xiaotian head-on?"

A great demon at the Dao Seeking realm sighed. "Lord Zhang Xiaotian is too strong. How can such a strong master not need a follower? It's a pity."

A Venerable shook his head slightly. "The Fish Dragon King seems to have become much stronger, but in fact, it's still not enough. His strength is only at the same level as Shrimp Youwei and Qing Siling."

Zhang Xiaotian nodded slightly. "Your soul power has become much stronger. Both of your techniques are very strong. Your speed has increased several times, and your understanding of space has deepened. Now, I believe that your bloodline has awakened again. Otherwise, you wouldn't have become so strong."

Han Fei pretended to be furious, as if he didn't believe the result at all. He shouted, "Let's fight again!"

### **Chapter 1310: Nine Bloody Spears**

Han Fei pretended to be furious, and Zhang Xiaotian looked at Han Fei calmly with a smile, as if he were waiting for Han Fei to continue.

Zhang Xiaotian's strength was exactly what Han Fei wanted. This time, if he lost, there were two benefits:

Firstly, he wouldn't take Zhang Xiaotian's place. At this moment, even if he was in the eye of the storm, as long as he wasn't the strongest, he wouldn't be targeted by others all the time, just like Qing Siling and the others.

Secondly, he had to use this as an excuse to show that he had comprehended many things, but his experience was still not enough. He needed to go out to gain experience. This way, it would be easier for him to escape.

Therefore, the stronger Zhang Xiaotian was, the more difficult this battle would be, the more in line with Han Fei's plan.

Han Fei went to battle again. He only needed to use three hundred sticks of the Monkey King's Three Thousand Sticks in case he accidentally won.

According to Zhang Xiaotian's strength, his Monkey King's Three Thousand Sticks probably couldn't hit him.

Sure enough, even if Han Fei used the Near at Hand Technique, with the Monkey King's Three Thousand Stick and the God Scaring Stab, he could only dogfight Zhang Xiaotian.

Bang! Bang! Bang!

Everybody below saw the explosions in the arena that were caused by the collisions of mental attacks.

However, unlike the previous times, Han Fei could only defend against Zhang Xiaotian's mental attacks.

Although Han Fei didn't use his strongest soul attack, after a round of fighting, Han Fei clearly discovered that even if he used all his strength, his soul was still a little weaker than that of Zhang Xiaotian.

This made Han Fei secretly shocked. If he guessed right, Zhang Xiaotian's soul strength was comparable to his own.

"This person is extraordinary."

Han Fei discovered that among the billions of creatures, there were always a few extremely talented ones. If this Zhang Xiaotian was at the same level as him, his soul strength would probably be comparable to half of the strength he had before he split his soul. It might even be higher.

At this moment, a big eye was staring at Han Fei in midair, which made Han Fei a little scared. This thing looked like the Heavenly Dao Dharma Eye. Fortunately, this wasn't the real Heavenly Dao Dharma Eye. Otherwise, how could Han Fei escape?

The old turtle said, "Pupil Spell is one of the most mysterious techniques in the world. This person can see most of your movements with his Pupil Spell. If my guess is correct, he can even see how you operate the demonic Qi."

Han Fei thought to himself, My Yin-Yang Divine Eyes can do that too. However, he still replied, "Anyway, he can't tell that I am a human. I am now a pure sea demon."

Zhang Xiaotian really couldn't tell that Han Fei was a human, but he vaguely felt that there seemed to be something wrong with Han Fei's Qi and blood. His Qi and blood were too powerful, but at this moment, his nose and mouth were bleeding, but he didn't feel that his Qi and blood were vigorous at all.

To confirm his guess, Zhang Xiaotian suddenly shouted in a low voice, "Fish Dragon King, take my nine spears."

Han Fei suddenly remembered he had heard of the nine spears.

Zhang Xiaotian extended his finger, and a blood-red spear appeared in the air. Seeing this spear, Han Fei suddenly remembered that Zhang Xiaotian seemed to have nine spears. However, no one of the same level as him could make him use more than five spears. In fact, there were very few people who could force him to use all the nine spears.

Han Fei's heart sank. It seemed that his acting had really worked.

However, all the onlookers exclaimed in shock.

Someone exclaimed, "Nine Bloody Spears, isn't this Lord Zhang Xiaotian's ultimate skill?"

Someone was stunned. "Is the Fish Dragon King really so strong now? Zhang Xiaotian was forced to use the Nine Bloody Spears?"

Many Venerables scanned him with their senses, hoping to see how Han Fei would deal with it.

"Moment!"

Han Fei twisted his body and secretly increased his strength by ten percent, allowing his pure strength to reach nearly 70 waves. Under normal circumstances, such a terrifying strength was already the limit of a peak-level Sea Spirit.

Even when Han Fei was at his peak, the strongest power of him in the law enforcer realm was only 72 waves.

Therefore, this blow could not only show his powerful potential, but was also not weak.

At least, Han Fei was sure that his spear was definitely not something Zhang Xiaotian could break with a single spear. Otherwise, wouldn't this person's talent be stronger than his?

"Roar!"

Han Fei extended his hand, and with a faint dragon roar, the surrounding seawater trembled, the spear burst out of the water, the space shattered, and cracks appeared.

The corner of Zhang Xiaotian's mouth twitched, and two more red lights on both sides of his body condensed into two bloody spears, which shot out.

Han Fei frowned slightly. "He broke my attack with only three spears. This person is more talented than Yi Yuchen."

Bang! Bang! Bang!

In the eyes of outsiders, Han Fei's spear shattered two void cracks. When the third blood-colored crack appeared, a huge hole appeared, and the power of both parties was annihilated.

Han Fei pretended to pant hard, but he didn't give up and condensed another spear. This spear was a bit like the Draw. With the spear as a knife, Han Fei slashed out with the spear light instead of the spear.

Seeing this blow, Zhang Xiaotian was a little surprised, as if he was surprised that Han Fei could launch such a blow in such a short time.

Not only Zhang Xiaotian, but Shrimp Youwei and Qing Siling also frowned. How many spears could the Fish Dragon King block? How dare he take the initiative to attack?

Swish!

One of Zhang Xiaotian's hands turned into a huge tentacle. The tentacle was stretched straight, and he threw out another spear.

"Chi la ~"

In the eyes of everyone, Zhang Xiaotian's spear was slowly torn apart by the power of Han Fei's spear.

"Huh?"

Zhang Xiaotian was a little surprised. He looked at Han Fei's spear light that was holding his blood spear and said lightly, "There seems to be an extremely powerful law-breaking power in your spear light. Have you comprehended a new power?"

Han Fei's heart trembled. His attacks had always been augmented by invincible will. Therefore, he was used to using the breaking armor technique.

However, Zhang Xiaotian was different. He was indeed a peerless genius. When they fought in person and their strength collided, he felt the difference.

When Han Fei was still in the Blue Sea Town and used the Million Knife Art, he would give his opponent this feeling.

Han Fei's face turned cold. "Humph! The bloodline of the Dragon King is domineering in the first place. I've only touched the surface. One day, I will dig out all my potential."

Han Fei didn't care. No matter what problem he had, he just needed to push it to the Dragon King bloodline.

Sure enough, Zhang Xiaotian chuckled and pushed with one hand, blocking the terrifying impact. He looked at the domineering spear beam that had broken through his fourth spear, and his glabella suddenly opened. The red light dazzled as another blood-colored spear shot out.

Someone exclaimed, "It's the fifth spear! It's already the fifth spear!"

Someone was excited. "This Fish Dragon King actually forced Master Zhang Xiaotian to use the fifth spear. It's really terrifying."

However, this time it was Han Fei's turn to be shocked, because he discovered that the other party's blow, in an instant, gathered energy from all directions. In an instant, the power of this spear surpassed his spear beam.

With a crack, the spear beam shattered.

Although he instinctively wanted to attack again, the old turtle said, "That's enough. If you attack again, it will exceed the limits of the Fish Dragon King. No matter how monstrous he is, he can't grow so much in only half a year."

Han Fei's heart trembled. He really wanted to continue to try because... Han Fei discovered that Zhang Xiaotian was very likely a top genius at the same level as him.

The power of this spear was comparable to the Sacrificing Punch!

He had to use the full strength of a peak-level law enforcer to block this spear.

But this was only the fifth spear!

The sixth spear, the seventh spear... There were still four spears, which made Han Fei want to use his real strength to fight Zhang Xiaotian.

However, he had more important things to do!

Han Fei immediately put on a horrified look. He roared and stepped back while he performed the Near at Hand Technique.

However, the opponent's spear was extremely fast. Even if Han Fei retreated, the spear in his hand didn't stop. The Monkey King's Three Thousand Sticks smashed down a hundred times in an instant.

In the eyes of others, every time Han Fei shot, blood oozed out of his arms, hands, and mouth.

"Huff!"

Someone let out a long sigh of relief. "Zhang Xiaotian is still the invincible Zhang Xiaotian. The Fish Dragon King is already so strong, but he was forced to this point by a spear."

Crack! Crack!

Han Fei's skin was full of cracks, and the battle suit from his wrist to his shoulder was shattered. His arms were full of blood marks.

"Pfft!"

Han Fei suddenly vomited a mouthful of blood.

He rolled hundreds of times in the seawater before he finally took the blow with trembling hands. However, he didn't look like he could fight anymore.

"Cough, cough!"

Han Fei's expression was solemn, and his voice trembled. "You, your strength has long reached the Dao Seeking realm."

Zhang Xiaotian didn't deny it. He put his hands down and looked at Han Fei quietly, still feeling that something was wrong. For some reason, he felt that the Fish Dragon King's Qi and blood were a bit strange.

However, he couldn't find what was wrong. Under the watch of his Heavenly Eyes, this Fish Dragon King shouldn't be able to hide anything. Could it be that he felt it wrong?

Zhang Xiaotian chuckled and said, "You're the fourth person who can take my fifth spear."

Han Fei frowned and said in disbelief, "That's impossible. Why didn't I know that?"

Zhang Xiaotian shrugged slightly. "Make a guess."

When Zhang Xiaotian said this, many people were puzzled.

Someone was puzzled. "The Fish Dragon King is the fourth, but why do I feel he's the first?"

Someone scratched his head. "That's impossible! No matter in the past or the present, no one seems to have taken Zhang Xiaotian's fifth spear, right?"

Suddenly, someone was excited. "Could it be..."

Someone was puzzled. "Who?"

The man slowly said, "The top three on the Genius List..."

Everyone : "..."

The turtle's voice trembled. "Master King Fish Dragon challenged Lord Zhang Xiaotian.. Lord Zhang Xiaotian won."
