

**Chapter 1311: Untitled**

At the moment Han Fei was defeated, he clearly sensed that many perceptions had moved away from him. The Venerables must have retracted their gazes.

Han Fei secretly smiled. "That's great. This way, I can negotiate with Changshui Qin and find my own path. Then, I can slip away."

The old turtle said, "According to my knowledge of Gui Sanqing's soul, there aren't many battles between the White Shell Royal City and the Blood Sea Divine Wood City just like there aren't many battles between the Cloud Sea Divine Tree and the Blood Sea Divine Wood City. If you want to go out, you can only choose to go to the Cloud Sea Divine Wood."

The old turtle knew what Han Fei meant. Since the Thousand Mountain Ancient Realm when Han Fei consciously helped the Blood Demon, the old turtle had felt that there was something fishy, and Han Fei seemed to want to go to the Blood Sea Divine Wood City.

At this moment, Han Fei said, "It's okay. I just left an uncertain factor in the Blood Sea Divine Wood City. I want to go there again just to steal something."

The old turtle asked, "Pure Yang fire?"

Han Fei didn't say anything.

The layout of the Fiery Sea of the Cloud Sea Divine Tree had existed for countless years. Even if he was Queen Life's senior brother, she might not be able to give him the power of the fiery tree.

Besides, he had to earn opportunities himself.

The price to pay for breaking into the Blood Sea Divine Wood City should be higher than that of the White Shell Royal City. If he had to turn into a woman and sneak in, Han Fei thought that he might not change either. Unless he ate the Red Ball of the Big Red Trunk, he would definitely become a male Millennium Snapper. However, he probably wouldn't be able to get in.

Han Fei said, "Let's get out first. As long as we can get out, anything is possible. After all, I don't need the identity of the Fish Dragon King anymore."

When thousands of gazes were focused on him, Han Fei stood proudly, even though he seemed to be seriously injured.

However, with the arrogant personality of the Fish Dragon King, for the sake of his face and image, he had to pretend that he was fine.

In the eyes of others, although Han Fei had been defeated, he was still glorious. To be able to defeat three people in a row and force Zhang Xiaotian to use the fifth bloody spear was already a great achievement.

When Han Fei returned to his residence under the public gaze, he saw a group of Dao Seeking powerhouses standing there, waiting for him.

Han Fei even saw at least two Half-Venerables at a glance. The rest were all at the peak of the Dao Seeking realm. Only a few advanced Dao Seeking powerhouses stayed here.

However, what surprised Han Fei was not these strong masters, but Yu Cailing and Lan Xue'er, who were standing in the most remote corner, not daring to say a word.

Han Fei was slightly surprised. "When did these two people come?"

Han Fei certainly knew that Yu Cailing and Lan Xue'er were the focus of cultivation of the Ice God Strait. They got into the Royal City by the back door.

However, Han Fei was a little surprised. Newcomers were generally not qualified to enter the White Shell Royal City. Usually, they needed to pass a trial test before they were qualified to become a member of the White Shell Royal City.

This also meant that from now on, the two of them would have to go through a trial every month. During the trial, they could receive welfare resources from the White Shell Royal City, trade in the Royal City, and obtain cultivation techniques, combat skills, secret techniques, weapons, etc.

Provided that they could survive every trial.

Considering the pride of the Fish Dragon King, he should be indifferent to them under normal circumstances. Therefore, Han Fei didn't pay special attention to them.

"Master Dragon King..."

A voice came into Han Fei's mind.

These people were quite straightforward, especially the two Half-Venerables. They cupped their hands at Han Fei. "Master Dragon King, if you are willing, you can leave an opportunity for us. We will follow you until you reach the peak of the Dao Seeking realm or we become Venerables."

They were Half-Venerables anyway, so it was more like a deal. They came to the Fish Dragon King just to leave a trace of karma.

However, as soon as the two of them said this, before those peak-level Dao Seeking demons could speak, Han Fei waved his hand. "I don't need more followers for the time being. Sanqing, send the guests away."

The old turtle thought to himself, Does this b\*stard really think he's a young master? I really want to slap him.

However, he possessed the body of Gui Sanqing, who was originally a follower of the Fish Dragon King. At this moment, he could only obey.

The old turtle flashed in front of them from outside the residence. "Everyone, please! My young master has just passed the forbidden-level trial and had a series of battles. He's exhausted and needs to rest."

"Well..."

The two Half-Venerables immediately frowned. Is this Fish Dragon King so insensible? Is this how you treat your guests?

A great demon at the peak of the Dao Seeking realm saluted and said goodbye. He scolded himself angrily in his heart, I had already known what the Fish Dragon King was like. Why was I so stupid as to come to be humiliated by him?!

Even the two Half-Venerables didn't dare to be angry. No one knew what would happen to the Fish Dragon King in the future. Today, he could fight Zhang Xiaotian to such an extent. It was hard to say if he wouldn't be able to defeat Zhang Xiaotian in the future. If they offended him now, God knew if the Fish Dragon King would take revenge on them.

"Since Master Dragon King doesn't need it, we'll take our leave."

Han Fei was so proud that he didn't even nod. Why would he need such strong masters to be his followers? Then he would have to think about how to kill them.

If it were outside the White Shell Royal City, he would definitely take them all. The problem was that it was not easy to come in or go out of the White Shell Royal City.

In order to come in, one needed to be truly outstanding to be qualified to be recommended. They also needed a Venerable to support them and send them in.

As for going out? If it was so easy, Han Fei wouldn't have challenged Shrimp Youwei. The reason why the Fish Dragon King was sent to the front line last time was that he was in an awkward position with Yu Hong and the others. Changshui Qin wanted to train them and let the three of them fight each other to arouse their fighting spirit.

If Han Fei wanted to go out again, he needed enough reasons. Otherwise, before he became a Venerable, especially a Heavenly Talent like the Fish Dragon King, the number of times he could go out was limited.

Unless some top Heavenly Talent appeared in the Water-Wood World and they needed to go out to fight...

In short, the way the Sea Demon Royal City nurtured talents was to encourage them to fight each other, so as to nurture Venerables.

After these great demons left, Han Fei turned his eyes to Yu Cailing and Lan Xue'er.

Han Fei said casually, "Have you passed the trial?"

Yu Cailing and Lan Xue'er quickly saluted. "Master Dragon King, we've passed this trial by a fluke."

Han Fei slightly nodded, wondering if it was necessary to kill these two people. With Yu Cailing's serious attitude, once she confirmed that human beings were her enemies, she would definitely treat the Water-Wood World as her enemy.

However, Han Fei secretly smiled. Whatever, once he slipped away in the future, these two guys who regarded him as their backer would definitely be taken care of. At that time, he didn't need to do anything.

Han Fei said indifferently, "Sanqing, teach them how to enter my mansion. I'm going to cultivate in seclusion for a few days."

"Yes, Young Master Dragon King."

With that, Han Fei stepped into the residence. After all, he was still dripping with blood.

A moment later.

The old turtle came to Han Fei's training room and leaned against the door frame. "Aren't you going to kill these two little girls?"

At this moment, Han Fei had changed his clothes. He was clean and seemed to have been reborn. He was lying on the hilarious throne of the Fish Dragon, holding a spiritual fruit in his hand, and stuffing it into his mouth.

Han Fei sneered. "Don't worry about it. With the White Shell Royal City's system of nurturing geniuses, they might not survive, especially after I leave."

At this moment, in a certain side hall in the mansion.

Seeing that Turtle Three had left, Yu Cailing and Lan Xue'er heaved a sigh of relief. Then, they looked at each other in shock.

Lan Xue'er said, "Sister Cailing, is this Fish Dragon King so strong? I just heard that Zhang Xiaotian is basically ranked first on the Genius List. The top three are all nominal. The Fish Dragon King is only slightly weaker than Zhang Xiaotian. That doesn't seem right, right?"

Yu Cailing was also a little surprised. "The battle just now was too fast. Although they used the power of a peak-level Sea Spirit, we still can't see how they fought. I just wonder, if the Fish Dragon King is so strong, why was he ambushed in the first place?"

Lan Xue'er immediately held Yu Cailing's hand and said, "Sister Cailing, I think that there might be something wrong with the Fish Dragon King. He wasn't like this in my cave back then. This person... is a little lecherous."

Yu Cailing: "???"

The corner of Yu Cailing's mouth twitched, and she rolled her eyes and said, "He has just come out of the forbidden-level trial field and was so badly injured. How can he still have such thoughts? Do you know that the test we experienced was just the most ordinary test? And what he experienced was the top test. Few people on the Genius List dare to participate in that kind of test. How can such a figure really be enchanted by women?"

Hearing what Yu Cailing said, Yu Cailing thought that it made sense, but she still felt a little strange in her heart. That Fish Dragon King was indeed lecherous back then!

## **Chapter 1312: Pioneering**

The next day, Han Fei was cultivating casually.

He didn't immediately go to the Sea Quelling Painting to find Bai Suzhen and the others, nor did he enter Forge the Universe. He was just eating some spiritual fruits.

The old turtle said, "Come out. Someone brought you something."

Swish ~

Han Fei swished to the door, straightened his face, and put on a proud posture, before he walked out with his head holding high.

At the door.

It was a great demon at the junior Dao Seeking realm who came. He said, "Master Dragon King, as ordered by Venerable Changshui Qin, I've sent you 12 level-three Soul Crystals and a bottle of ownerless souls."

Han Fei hummed and said casually, "Sanqing, take it."

The old turtle said in his heart, "You don't have hands?"

Han Fei scoffed. "Phew, are you getting tough now? It seems that you haven't put down your dignity as an emperor!"

The old turtle: "..."

After teasing the old turtle, Han Fei wanted to ask him if he could make an appointment with Changshui Qin so that he could ask for leave from this guy later.

However, before Han Fei asked, he heard the man say, "Master Dragon King, Venerable Changshui also said that since you made it to the fifth place on the Genius List with your strength, there should still be room for improvement. Therefore, he asked you to prepare for something big to happen in half a month. He asked you to take a good rest, consolidate your strength, and improve your cultivation."

"Huh?"

Han Fei was stunned for a moment. What? I'm leaving. And you're telling me that something important is going to happen?

Han Fei held his head high and said, "Do you know what it is? I've had a lot of epiphanies recently, so I may need to cultivate in seclusion or have other exercises. So, may I ask you what it is first?"

The man said, "I don't know what it is exactly, but it seems that the recent anomalies in the Wall of Death may be related to this."

The old turtle said, "Oh! Was the Wall of Death broken? But it seemed that only half of the Demon Subduing Tower was blasted in."

Han Fei was also a little stunned. F\*ck, my lotus body is still there! It doesn't matter if the Wall of Death is broken, but the Demon Subduing Tower can't! That is my avatar that the Water Immortal created for me with great difficulty! And I even used half of my soul power!

Han Fei nodded slightly. "I see."

After sending the guests back, Han Fei entered the residence again.

Because he controlled the entire residence, he immediately found that Yu Cailing and Lan Xue'er were about to go out. They seemed to know that he came back, so they quickly hid back.

Han Fei was speechless. Am I a monster? Why are you so scared? How did you get into the White Shell Royal City?

However, Han Fei didn't seem to notice it and simply took the old turtle back to his room.

After confirming that Han Fei had returned to his room, Yu Cailing and Lan Xue'er held hands and secretly walked to the door.

Watching this scene, Han Fei couldn't help but touch his nose. After thinking for a long time, he said lightly, "Old Yuan, do you think there is any way to secretly control these two people?"

The old turtle couldn't help but exclaim, "Haven't you always despised my demonic cultivation technique? Why are you asking me this now?"

Han Fei rolled his eyes and said, "When did I say that I'm not interested in demonic cultivation techniques? Besides, is this a demonic cultivation technique? Is it demonic to control a person?"

The old turtle grinned. "As far as I'm concerned, this naturally doesn't count. This is just a very common cultivation technique. As long as you are strong enough, anyone can do this. Just like your soul control technique, strictly speaking, it's even more demonic than my demonic cultivation technique. But you're still using it."

Han Fei thought to himself, When did my Divine Manipulation Technique become a demonic technique? That's bullshit.

Han Fei said impatiently, "Then do you have any?"

The old turtle said, "Yes. However, no matter how good a control method is, the key is to control the human heart. For example, the way you control the Fish Dragon King is very good. Although it works slowly, it's much more brilliant than direct control. Especially when you are strong enough, you will find that the way to directly control the soul can only restrict them but not suppress their true thoughts. The slightest mistake may result in a backlash."

Han Fei curled his lips. "That's good. Tell me about it. I'll use it temporarily. You're already an emperor, but they haven't transcended the tribulation yet. It's definitely useful."

The old turtle nodded. "That's true. If we just control them by force, it'll be easy to deal with them. All you need to do is to take their essence blood and a wisp of soul to seal them. Then, you can send a wisp of soul into their bodies. By doing that, you can kill them with a thought."

Han Fei was stunned for a moment. This familiar road seemed to be the one he used to threaten Master Hexagon.

Han Fei asked in confusion, "Is it that simple?"

The old turtle said, "How difficult do you think it is? If you want to use it randomly, that's the simplest way to use it. Of course, if you don't use it randomly, there are still many other methods. For example, the Great Dao Enchantment Technique, the Soul Eater Technique, the charm technique, and the Great Dao Soul Suppressing Technique, these can all control others. However, there is also a possibility that they will fail or be cracked."

Han Fei thought of something. "Then is there a possibility that the method of me directly taking their essence blood and transmitting a wisp of soul into them will fail?"

The old turtle nodded. "Yes! For example, if a king takes action and directly seals the connection between you and them, then you won't be able to kill them remotely."

Han Fei asked, "What about Venerables? Can they seal the connection?"

The old turtle thought for a moment. "Some Half-Venerables can do that. However, it's usually very difficult for Venerables to do that. You have to know that the great means in this world are common to kings. However, there are extremely high restrictions on those below the king level. This is a difference in life levels that you don't understand yet."

Han Fei curled his lips. "Okay, give it to me! I need to restore my soul power."

The resources that Changshui Qin sent over, the so-called ownerless soul rewards, turned out to be only about a third of the will in Bai Suzhen's body.

After Han Fei swallowed all the ownerless souls, he said in contempt, "This is too little, not enough!"

The old turtle had been leaning against the door frame, cultivating in secret. After all, although this residence was safe, the king could still peep in. Although the king was recuperating, he wouldn't necessarily give up secretly observing the White Shell Royal City.

Therefore, both Han Fei and the old turtle spoke in their hearts. On the surface, they were like a normal pair of master and servant.

Hearing Han Fei's complaint, the old turtle said, "It's not that he didn't give us enough. Think about it. What would it be like if an ordinary Dao Seeking realm obtains so many ownerless souls?"

The corner of Han Fei's mouth twitched slightly. Of course, he would be overjoyed. To be able to increase the soul power by more than 400 points, it was a great improvement for an ordinary person.

With this in mind, Han Fei just shrugged casually. Better than nothing! After all, he wasn't an ordinary Dao Seeking sea demon.

In addition to these ownerless souls, there were also 12 level-three Soul Crystals. Han Fei had used level-two Soul Crystals before. However, soul Crystals had some effects in the early stages but were no longer useful in the late stages.

At this moment, the level-three Soul Crystals didn't surprise Han Fei at all. After all, this was the White Shell Royal City, the holy land in the hearts of sea demons. There should be a peerless treasure house here.

Just in these trial fields alone, many strong masters died every year. Therefore, the White Bei Royal City should not lack things like Soul Crystals. At least, there should be no shortage of level-three ones.

As he expected, the effect of the 12 Soul Crystals was only about the same as the ownerless soul. The two added up only increased the soul power by less than a thousand points, not even as powerful as the wisp of consciousness in Bai Suzhen's mind.

Of course, Han Fei didn't mind at all. No matter how little mosquito meat there was, it was still meat.

These rewards didn't seem to be much, but if they were increased by ten times, he would probably be able to slowly recover the soul power he had lost in a few days.

At this moment, Han Fei looked at his 1,6684 points of soul power and thought to himself, I still have a long way to go! In my current situation, I probably need two or three Venerable-level soul power to barely replenish my soul power.

However, it was too far away for Han Fei to hunt Venerables now.

Seven days passed.

Han Fei had well consolidated his soul power. Although the ownerless souls were eaten quickly, it would take him some time to digest them.

On this day, someone came to deliver the message of Changshui Qin that the location was in the trial ground.

When Han Fei arrived, he found that the top ten of the Genius List, including Zhang Xiaotian, were all present. There were also some people outside the top ten. There were nearly 20 people in total.

Changshui Qin said, "Alright, everyone is already here. Now, let me tell you about your new assessment next month."

Han Fei was surprised. A new test? With so many Heavenly Talents coming at the same time, was it very difficult?

Changshui Qin said, "A few days ago, in the forbidden areas of the White Shell Royal City, something happened to the Demon Subduing Tower. Due to certain special reasons, a seal in the Wall of Death was exposed. An island appeared near the Wall of Death. After I and many Venerables checked and explored it, most of the crises have been eliminated. However, there are still many opportunities for you to explore."

"Hiss!"

Hearing that, everyone perked up. An island from the Wall of Death? This sounded magical. They knew what an island was but had never seen it before.

However, the key was not the island.

The key was that it came out of the Wall of Death!

This made people yearn for it! How many people had peeped at the Wall of Death since ancient times? No one could really get any benefits from it.

Now, they never expected that such an opportunity would fall on them.

Even Han Fei was rather surprised. A place in the Wall of Death had been opened?

Changshui Qin said, "Don't celebrate too early. The people from the Water-Wood World and the Blood Sea Divine Wood City are going with you. This is a three-party exploration too."

As he spoke, Changshui Qin looked at Han Fei as if warning him. "The Fish Dragon King may know that last time when we were in the Thousand Mountain Ancient Realm, the White Shell Royal City didn't gain anything. Or, it was you who got the opportunity, but most people died there. But let me make it clear, this time, everyone must work together.. The opportunity is in your hands! I and the other Venerables will watch the battle in person. My request is that you must not lose..."

### **Chapter 1313: Buy Souls**

Han Fei accurately grasped some words.

Would Changshui Qin and the other Venerables personally watch the battle? This meant that people from the Water-Wood World and the Blood Sea Divine Wood City would also come, and they would also send Venerables to watch the battle in person.

Then what should he do as the Fish Dragon King?

However, on second thought, Han Fei realized that Queen Life already knew that he had snuck into the White Shell Royal City, so she should have a guess about what happened to the Demon Subduing Tower.

After all, Queen Life knew the strength of the Water Immortal very well. There was also a battle of kings here. It was obvious that the Water Immortal had awakened.

Now that the Water-Wood World was involved in this island competition, what would Queen Life think? Would she think he had already escaped or was still in the White Shell Royal City and would participate in this battle? Or would she take him as the Water-Wood World's last resort again?

If it were the second situation, Han Fei would be in trouble. This battle was not easy to fight!

Han Fei was still a little surprised. It was just a battle between the Water Immortal and the White Armor Emperor, and the Demon Subduing Tower didn't really break the Wall of Death. How did an island pop up?

On the stage, Changshui Qin said, "You have three days to prepare. This time, we will only expel or destroy the powerful creatures on the island. However, it is still very dangerous. This is not only a competition for opportunities on the island, but also a competition between the three parties."

Hearing Changshui Qin's words, Han Fei kept an excited and arrogant expression. It seemed that he was very much looking forward to this kind of battle.

When Han Fei returned to the residence, he sat on the bumpy throne and closed his eyes to cultivate.

Of course, Han Fei was not really cultivating, but thinking.

He had to consider the worst.

If Queen Life didn't have any trump cards and thought that he could even save the Water Immortal, and let the whole team's battle depend on him, then he would really be in trouble.

Now, he had just revealed his strength in front of countless people in the White Shell Royal City and almost reached the top. It was difficult for them not to notice him.

In this battle, there would be many people watching him.

If he was exposed in that situation, even if Queen Life tried to save him in person, it wouldn't be good for him. Because once he was exposed, they would associate the matter about the Demon Subduing Tower with him.

Besides, his extraordinary means would be exposed too.

"Three days, only three days."

Han Fei frowned. He needed to think of a perfect plan that could protect himself without hurting his own people under the watch of many Venerables and even kings.

Of course, it would be best if he could escape from the White Shell Royal City within the next three days. However, judging from the current situation, the odds were not high.

For a king or even a Venerable, his speed of escape was too slow. Unless he could escape out of the White Shell Royal City without alerting anyone.

Otherwise, if he was detected, he wouldn't be able to escape.

Even if he hid in Forge the Universe, it was difficult for him to escape.

After all, would a Venerable give him a chance to enter Forge the Universe?

Furthermore, Han Fei actually didn't want to escape. The island that came out of the Wall of Death probably had a lot of opportunities. Otherwise, why would the three parties send out so many top geniuses?

While Han Fei was racking his brain, the old turtle suddenly said, "Theoretically speaking, you're still cultivating on the Cloud Sea Divine Tree."

"Huh?"

Han Fei was about to say something, but then he realized what he meant.

Yes! He was playing the role of the Fish Dragon King, and the name Han Fei had disappeared for more than half a year. Since he transcended the tribulation in the Dark War Port, he had never appeared again.

What would he do if he were Queen Life?

In this kind of battle where almost all the geniuses were deployed, he had already broken through to the Dao Seeking realm, but he was still among the people sent out. This meant that the selection of personnel was approved.

If he speculated based on this, Queen Life probably really wanted the real him to appear on this battlefield. At that time, he could appear openly.

Its purpose was obvious. It was to cheat the sea demons and make it easy for him to escape from the White Shell Royal City.

Han Fei couldn't help sighing. "Do all kings hide their schemes so well? Isn't she afraid that I don't understand what she means?"

The old turtle snorted. "Don't celebrate too early. If that place doesn't have a place to hide and is completely exposed to the vision of all the Venerables and kings, it won't be easy for her to rescue you."

Han Fei grinned. "It doesn't matter. As long as she has a backup plan, I'll have a way out."

Just when Han Fei was relieved, he thought to himself, Are Yu Cailing and Lan Xue'er back?

Han Fei's thoughts immediately changed. It wasn't easy for him to enter the White Shell Royal City. Would he just wave his sleeves without taking away anything?

Han Fei said, "Old Yuan, the king of the White Shell Royal City is already injured. He won't spy on us, will he?"

The old turtle said, "Oh! That king? He doesn't seem to be in the city at this moment."

Han Fei was surprised. "Huh? How do you know that?"

The old turtle said leisurely, "Well, although I haven't recovered my strength and my current strength is less than one billionth of my former strength, I still have my ways. The strong can see the secrets of the heavens, especially what happened to the king. Unless the kings deliberately hid it, it's not difficult to detect. It seems that two days ago, the king's aura disappeared, which means that something very likely happened."

Han Fei nodded. That's good! Without the king, no one can see what happened here.

Han Fei suddenly shouted, "Yu Cailing, Lan Xue'er, come here."

Yu Cailing and Lan Xue'er, who had just gone out to exchange for supplies, looked at each other in panic.

Especially Yu Cailing, the Fish Dragon King had been ignoring them before because he was too occupied to talk to them.

Now, the Fish Dragon King's injuries should have been healed, and the two of them were nominally followers of the Fish Dragon King. Therefore, no matter what the Fish Dragon King did to the two of them, no one would say anything, and even everyone would think it was justified.

Lan Xue'er's eyes widened, she secretly gritted her teeth, and said via voice transmission, "It's over. Does he want to eat two of us at the same time?"

Yu Cailing's heart trembled slightly. Really? She used to be a dazzling Heavenly Talent, but why had she become such a plaything here?

But no matter how the Fish Dragon King treated them, they had to abide by his rules. Therefore, they could only bite the bullet and walk to the Fish Dragon King's room.

Han Fei would've vomited blood if he knew what the two of them were thinking. What are you thinking of? You really think too highly of yourselves!

The old turtle was at the door, expressionlessly welcoming them into the house.

Even though there were array seals around, Han Fei still set up layers of arrays.

This was the first time the two of them had entered the cultivation room of the Fish Dragon King.

They thought to themselves, Isn't this room too simply-decorated? Besides, what the hell is this throne? And what the hell is the dragon on the wall?

However, the two of them didn't dare to show any strange expression but just respectfully said, "Master Dragon King."

"Um!"

Han Fei hummed proudly as if it was only natural that these two people respected him so much.

Han Fei stared at them for more than ten seconds, and when the two of them felt as if they had been skinned, Han Fei said, "I promised to take you to the Royal City, and I promised to take care of you. I won't go back on my word. But..."

Seeing that both of them trembled slightly, Han Fei thought to himself, I haven't even said anything yet. Why are you shivering? Am I so scary?

Han Fei said, "There is no free lunch in this world. Although you two are the most valued talents in the Ice God Strait, since you have received my protection, in a sense, you two are mine."

Buzz!

Yu Cailing and Lan Xue'er shivered again, and Yu Cailing even blushed. She lowered her head and bit her lips, which stunned Han Fei.

What kind of expression is that? Why do you look as if I want something from you?

As if realizing that the meaning behind his words might cause a misunderstanding, Han Fei immediately said coldly, "I won't accept anyone randomly, nor will I take care of anyone easily. Since you have received my protection, you can serve me as your master. From now on, whether in the White Shell Royal City or the Ice God Strait, I am your master."

Yu Cailing and Lan Xue'er raised their heads in surprise. Although we live under your roof, when did we acknowledge you as our master? Although we are not talented, why should we acknowledge you as our master?

Han Fei smiled contemptuously and said mockingly, "Do you think I'm not qualified enough? I'm not afraid to tell you the truth. If it weren't for the fact that I have too many enemies, how can you become my servants with your qualifications? That's wishful thinking. Now, I'll give you this chance, a chance to enter the Dao and become a Venerable. Whether you want it or not depends on you."

As he spoke, two jade slips appeared in Han Fei's hand.

Under the shocked gaze of the two, Han Fei smiled. "Everyone knows that I have a great opportunity, but no one knows how great my opportunity is!"

Han Fei weighed the two techniques in his hand and said, "These are two Great Dao techniques. Although the probability of becoming a king is not high, it is not impossible to become a Venerable or even become a peak-level Venerable in the future."

Lan Xue'er was stunned. Yu Cailing, on the other hand, calmed down and said, "Master Dragon King, our talents are mediocre. What does Master Dragon King like about us? Why did he give us such a precious treasure?"

Han Fei smiled contemptuously. "Everyone has his value. A Venerable is much more valuable than a Heavenly Talent. I know you want to survive the trial in the White Shell Royal City, to rise quickly, and to stand out among the hundred thousand powerhouses. But if you don't pay a price, who will give you this opportunity?"

Yu Cailing couldn't help but raise her head and look at Han Fei. "I wonder what the Dragon King wants us to pay?"

Han Fei smiled and said casually, "Soul."

#### **Chapter 1314: A Worm King Came**

The old turtle, who had been listening to Han Fei's bragging, thought to himself, With such eloquence and such thinking, it would be a pity if he didn't take on the demonic path. How can he demand someone's soul so blatantly?

Looking at Yu Cailing and Lan Xue'er's shocked faces, Han Fei bared his teeth and smiled. "Give me a wisp of your essence blood and a trace of your soul, which means that you have given your lives to me. In the future, if you violate my will, I can kill you with a thought."

Yu Cailing and Lan Xue'er couldn't help looking at each other. This wasn't selling souls at all, but simply selling their lives. In other words, from now on, their lives were no longer in their own hands.

Without giving the two of them a chance to think, Han Fei threw the two jade slips in his hand to them.

These two great techniques were the Demon God Scripture and the Soul Hunting Dao.

In terms of value alone, these two techniques could be said to be unparalleled. For example, the Demon God Scripture was a transformation-type technique, which was close to a Great Dao.

As for the Soul Hunting Dao, it was a Great Dao that lay before their eyes. For many people who couldn't enter the Great Dao in their entire life, it was irresistible.

Of course.

Neither of them was useful to Han Fei now.

The Demon God Scripture was fine, but Han Fei didn't continue to deduce it. Otherwise, its level couldn't be low. It was definitely a Great Dao many times stronger than the Soul Hunting Dao.

However, Han Fei could foresee that he would take charge of the Heavenly Palace in the future after his return. It was impossible for him to stay in places like the Sea Demon Royal City all day long.

Otherwise, did he want to become a sea demon king?

The moment Yu Cailing and Han Fei accepted the jade slips and scanned them with their spiritual perception, their bodies trembled slightly. This was a real Great Dao technique! How could Han Fei just throw out such a precious treasure so casually?

Seeing that the two of them were dumbfounded, Han Fei said, "I've given you my reward. Now, it's your choice."

With a smile, Han Fei looked at the two who were already stunned. "Of course, it's up to you whether to choose it or not. Although I'm conceited, I won't threaten you two. If you don't want to, I have my ways to take away your memories of the moment just now. Just pretend that nothing happened."

"I want it."

Before Yu Cailing could speak, Lan Xue'er had already expressed her attitude.

She thought to herself, The trial in the White Shell Royal City is really difficult! Perhaps I'll die in the trial field. And once I come in, it won't be easy to get out. Therefore, instead of dying, I might as well take a risk.

Now, if I really have this technique, my strength would definitely undergo unimaginable changes.

On one side, she could die at any time and live a dangerous life. On the other side, she could directly obtain a great technique, a great technique that could enter the Dao...

Oh no, two.

With her current friendship with Yu Cailing, they could exchange the two techniques for cultivation. She knew Yu Cailing who was very compassionate. As long as she could persuade Yu Cailing, their strength would soar.

Yu Cailing looked at Lan Xue'er in surprise, only to see that she was winking at her. She knew what Lan Xue'er meant, but she wondered why Han Fei chose them.

Yu Cailing believed that there were still many people who couldn't enter the Dao. Han Fei was completely capable of choosing some stronger powerhouses.

Seeming to see through Yu Cailing's thoughts, Han Fei said leisurely, "Of course, I can use the two techniques to recruit two servants at the peak of the Dao Seeking realm. However, if they've reached the peak of the Dao Seeking realm, their molding ability will be poor. Compared to you, they are much worse. I focus on the future."

Yu Cailing's eyes flickered a few times. She looked at the Demon God Scripture in her hand again, feeling more and more that this technique was extraordinary. The Fish Dragon King was betting that the two of

them could survive to the Venerable realm? Once the two of them really became Venerables, the two great techniques they had now would be worth it.

After all, even if they became Venerables, their lives would be in the hands of the Fish Dragon King. Therefore, this was a long-term investment. This made Yu Cailing realize something was wrong!

This kind of investment didn't make sense to the Fish Dragon King. The Fish Dragon King was the kind of arrogant, impatient, and irritable person.

Plus Lan Xue'er's previous suspicion, as well as the difference of the Fish Dragon King between when he entered the Thousand Mountain Ancient Realm and when he left it.

Yu Cailing's heart did a flip. Is this person really the Fish Dragon King?

However, under such circumstances, Yu Cailing had no chance to choose at all. She even speculated that if she didn't choose it, she might die.

After all, for the strong masters in the White Shell Royal City, she and Lan Xue'er belonged to the Fish Dragon King. It was only natural if the Fish Dragon King killed them.

Besides, the Fish Dragon King never hesitated to kill.

With this in mind, Yu Cailing nodded. "Okay! I agree."

Han Fei finally grinned. "A smart choice. Come on, give me your essence blood and a wisp of your soul."

Since they had decided what to do, they didn't hesitate.

However, the moment they handed over their essence blood, they knew that they had been controlled by others in this life.

However, the two had no choice.

They actually had no choice. To put it nicely, he gave them the right to choose. However, if they didn't choose it, would he really let the two of them stay?

However, the temptation of entering the Dao was indeed very strong. They didn't have the dream of becoming a king. The main reason was that it was too difficult to become a king. No one could become a king even among billions of creatures. Therefore, most people didn't dare to think about it at all.

However, as time went by, as long as they reached the Dao Seeking Realm and had the qualifications to seek the Dao, the probability of them becoming Venerables was naturally countless times higher than becoming kings.

Han Fei collected the essence blood of the two of them, picked up a wisp of soul, and said casually, "Let go of your soul. Don't resist."

Han Fei extended his hand and laid it on the heads of the two of them. Then a wisp of soul secretly entered between their eyebrows.

"Cough, cough!"

Both of them grunted, knowing that Han Fei must have done something to them. However, with their abilities, they couldn't feel anything.

Han Fei subdued the two of them.

At this moment, two milky white crystals appeared in his hand, and he said, "From now on, your lives belong to me. If I want you to live, you live. If I want you to die, you die. So, don't try to betray me. Otherwise, as long as I issue an order in my heart, you two will die and your souls will disappear."

Yu Cailing and Lan Xue'er, who were stunned the whole time, were subdued by Han Fei.

At this moment, Yu Cailing suddenly had a feeling. Either the Fish Dragon King in front of her was fake, or the former Fish Dragon King was pretending. In fact, he was very calculating.

However, no matter what the Fish Dragon King was like, she was powerless to resist it now and could only resign to her fate.

The benefit of resigning to fate was that she would obtain two great techniques. She didn't know if it was a loss or a gain.

Yu Cailing and Lan Xue'er bowed respectfully, and Han Fei said indifferently, "You are still too weak. Even if you transcend the tribulation, you won't be of much use to me. Therefore, I won't use you for the time being. However, don't think that your lives are not mine. Otherwise, bear the consequences."

"Yes, Master Dragon King!"

After they left, the old turtle said, "That's it? What do you need them for?"

Han Fei curled his lips and smiled. "Haha, Old Yuan! You've lived for such a long time. You should know the significance of a chess piece. However, most of the time, it's just a backup. I don't know if it's useful or not for the time being. However, the key is to set it up first."

Judging from the layout of Old Han, Ren Tianfei, Old Bai, and Old Jiang, their plans were all interconnected and deeply arranged.

The Yin-Yang World was like a game of chess. He had just temporarily jumped off the chessboard, but his identity as a chess piece hadn't changed.

He wanted to change from a chess piece to a chess player.

First of all, he had to have the strength to challenge other players. In the Water-Wood World, Queen Life was his junior sister, so here could be his way out.

At least, if there was any problem with the Yin-Yang World, he could still escape to the Water-Wood World and make a comeback.

Three days passed.

Under the lead of Changshui Qin and other six Venerables, Han Fei and the other twenty-odd people passed through the void and arrived outside the so-called island.

Whoosh!

As soon as they appeared, they felt a gust of wind sweeping past. The terrifying wind power was as sharp as knives, making them feel as if they were being stabbed by ten thousand knives.

Fortunately, this wasn't a gale.

Therefore, it didn't have the bone-corroding power. But even so, the power of the wind alone was comparable to the power of the Sea Demon Realm.

Han Fei was familiar with this mist, which was in the maze near the Wall of Death.

Changshui Qin said, "Follow me."

They pressed on for another hundred kilometers, and the wind gradually weakened until their visions became much clearer. Then, they saw a looming black island.

The island was too big for the naked eye to see.

The island looked a little strange. It seemed to be full of spiritual plants and protruding mountains. Most places were shrouded in fog, like a woman in gauze, mysterious and attractive.

Because the visibility was higher, the wind was less powerful.

When Han Fei and the others gradually approached the island, they found that in the distant void, there were also people rushing over.

Who else could it be if not from the Water-Wood World?

However, the leader this time surprised Han Fei. The iron tower-like brawny man with tattoos all over his body had black spurs protruding from his hands, joints, and shoulders. Han Fei's heart did a flip.

Was this... the Insect King?

### **Chapter 1315: Is That Han Fei?**

Han Fei had thought about who the team leader of the Water-Wood World team would be. It should be a Venerable he was familiar with. He just didn't expect it to be the Insect King he had only met once.

When he transcended the tribulation, he hadn't had much contact with the Insect King, nor had he communicated with it.

Therefore, when he saw the Insect King, he was only a little surprised.

Apart from the Insect King, there were no other Venerables following him. Or rather, the other Venerables didn't come out. To the other two parties, not showing up was a kind of implicit protection. If all of them showed up, one of the parties might take the risk and kill all the Venerables of the other two parties. Then it wouldn't be worth it.

Han Fei felt that the insect king was very powerful. He was a very powerful and unique figure in the insect race.

Han Fei glanced at the insect king, but the insect king ignored him and snorted. A terrifying force pressed at Han Fei.

Bang!

An explosion occurred in mid-air, and Changshui Qin chuckled. "Insect King, you are a Half-King anyway. Why are you still arguing with a junior?"

The insect king snorted but didn't speak.

This couldn't even be considered a test. It could only be said that the Insect King did it on purpose.

The old turtle said, "Han Fei, you can't look straight at a king. Do you see anyone else looking straight at the insect king?"

Han Fei couldn't help but wonder, "Isn't the insect king just a title? The current insect king hasn't really become a king?"

The old turtle sneered. "Although he is now a Half-King, he is not just a Half-King. He is very special in the Insect Clan, a super powerhouse who has taken a unique Great Dao. Unlike the Insect Queen, which can produce soldier explosions, this Insect King has very strong combat power. Therefore, he is also the most likely to reach the Sea Creation realm in the Insect. He is only one step away from the King Realm. Therefore, he needs to nurture the King's Aura now."

Han Fei's heart did a flip. "The King's aura needs to be nurtured?"

The old turtle said, "Some people need nutrition, and some people understand it very quickly, so they don't really need nutrition. It varies from person to person, and also from race. As for you... I think if you take the path of a Demon King, you won't need nutrition and can succeed without effort."

"Go away..."

Only then did Han Fei understand that the insect king must be using this method to tell him that on the surface, he couldn't treat Han Fei differently. Since he was staring at him, he had to have some reaction!

Changshui Qin didn't really care. Anyway, the Insect King couldn't really kill the people from the White Shell Royal City in front of him. What was wrong with looking at him a few times? It would be best if he got angry.

Han Fei didn't look at the Insect King anymore, because creatures from the Water-Wood World were coming one after another behind the Insect King.

All of a sudden, Han Fei's pupils were constricted, and he froze for a moment! Who did he see? The guy who looked out of place and was not handsome enough with a kitchen knife at his waist. Wasn't that him?

At this moment, in the minds of Han Fei and the others, Changshui Qin's voice sounded, "Everyone, remember this. The one with a knife on his waist is Han Fei who has passed the Four Nine King Tribulation. This person is extremely fast, good at flashing, stealing vitality, and has an extremely strong physique... In short, when you meet this person, just escape and don't fight him. In order to let this person enter, Water-Wood World sent a total of ten people less."

Han Fei couldn't have felt worse!

Why did another Han Fei pop up in the Water-Wood World? Besides, his appearance, temperament, and Blood-Drinking Knife looked exactly like his.

However, this surprise only lasted for a short while, and Han Fei immediately figured it out. Why was the Insect King here this time? Han Fei on the opposite side probably had something to do with the insect race.

Considering that the insect race could give birth to creatures indefinitely, Han Fei had already figured it out. This Han Fei was probably produced by an Insect Queen with great time and energy.

As for... why did he look like a human?

That should be based on the Insect Queen's own thoughts. Besides, who said that humans were not bugs? From another perspective, weren't human beings also bugs in this world?

In an instant, Han Fei realized the plan of Queen Life. She knew that it might not be easy for him to leave after entering the White Shell City, so she took this opportunity to have some Insect Queen give birth to a creature identical to him.

When the time came, while the Venerable or the King wasn't paying attention, he could revert to his original form. When this fake Han Fei died here, he could openly follow the insect king back. After all, the insect race was very special. They regarded death as a return and really didn't care about life and death.

The insect race had their own comprehension of life and death.

At this moment, even Han Fei was amazed by Queen Life's plan.

If he really had a chance to swap with this fake Han Fei on this mysterious island, he would have a perfect chance to leave the White Shell Royal City.

Even the old turtle didn't speak for a long time.

It said, "Han Fei, you must give the Fish Dragon King a reasonable way to retreat. Otherwise, I won't be able to use Gui Sanqing's body. You have to know that my recovery is only good for you. As long as you give me some time, it won't be a problem for me to become a Venerable again. If you give me a little more time, I may not become a King so quickly, but I'll definitely become a Half-King soon."

Han Fei said, "I know. But let's talk about it when we get to the island. You used to be an emperor. You should know how to avoid the perceptions of Venerables and kings, right..."

The old turtle said, "Heavenly Secrets, as long as the heavenly secrets are messed up, you can swap with him. Since Queen Life has already had an Insect Queen give birth to another you, she must have thought of this. Therefore, on this island, you can definitely find the place where the heavenly secrets are messed up. At that time, you just need to stay there with the Insect Man, find a reason for the Fish Dragon King to retreat successfully, and then swap with the fake Han Fei."

Han Fei was greatly relieved to hear that.

Sure enough, there was a way!

Even if there was no chance on the island, Queen Life would create a chance for him. Therefore, Han Fei was not worried at all at this moment.

Glancing at the remaining people, Han Fei found that among the people who came this time, there were only nine people in total, except for the Insect Man with his appearance.

Only then did Han Fei understand why Changshui Qin said that one Han Fei was equal to ten people. There were only ten people from the Water-Wood World, so they were obviously weaker than the other two parties.

But if the Insect Man was really him, then the Water-Wood World wasn't weak at all.

But the point was that the Insect Man was only a dummy. Even if it was almost identical to Han Fei in all aspects, it was still a fake. A fake one could never become a real one. Besides, even if the new one was strong enough, its realm was still not high enough.

Shua!

A red leaf floated out of the void.

A spatial rift was torn open, and a gorgeous woman walked out of the void in a long gauze dress that reached her feet. Her hair was casually tied into a bun, and her long legs were slender.

Behind this woman, like a f\*cking beauty pageant, beautiful young women came out one after another. They were all Millennium Snappers, namely Blood Demons that could devour souls.

When the last Blood Demon appeared, Han Fei's eyelids slightly shivered again. Yang Ruoyun?

The old turtle said in surprise, "This little girl wasn't killed after going back?"

Han Fei smiled inwardly. "I knew that this woman wouldn't die so easily. She always has a million excuses to whitewash herself."

The old turtle couldn't help saying, "If this little girl is really so tough, doesn't she have many ways to make you not kill her?"

Han Fei said disdainfully, "I'm different. I'm unreasonable."

The old turtle was lost for words. It was the first time in his life that he had heard someone saying this blatantly. So... is it a glory being unreasonable?

This time, it was no longer Xue Qin or Xue Ran who came from the Blood Sea Divine Wood City. If he guessed right, this person's strength was probably at the same level as Changshui Qin or the Insect King.

And Han Fei didn't know their strength, so he could only roughly speculate it. Hai Tinglei was a Half-King, and Changshui Qin was either a Half-King or a peak-level Venerable.

The Insect King, according to the old turtle's evaluation, was also a Half-King.

In the unknown void corners, there should be many Venerables. Perhaps Queen Life and the White Armor Emperor were also secretly watching everything.

Han Fei couldn't help but ask, "Old Yuan, observe the sky and see if there is a king here."

The old turtle said, "A king is watching. You don't need to think to know that. The top geniuses of a city have been gathered, and so many Venerables are watching. Do you think a king will be absent?"

Han Fei's heart did a flip when he heard that. It seemed that he had to play the role of the Fish Dragon King well before he found the place where the Heavenly Secrets were messed up.

Changshui Qin glanced at the beautiful woman who was walking leisurely in the void and said indifferently, "Yun Chu, the Blood Sea Divine Wood City's behavior that only brings benefits won't work this time."

The woman smiled contemptuously. "Let me show you how peerless the geniuses of my Blood Sea Divine Wood City are."

While the Venerables were talking, Han Fei and Yang Ruoyun's eyes met again.

Yang Ruoyun slightly frowned, wondering why she had run into this jerk again. She finally made up for what she did last time and was still ostracized until now, but the Fish Dragon King had popped up again?

Besides, to Yang Ruoyun's surprise, the Fish Dragon King's lips curled.

Was he smiling?

Yang Ruoyun's mood plummeted. She sneered in her heart. "I'm gonna kill you this time."

However, when Yang Ruoyun looked at the Water-Wood World, she almost exploded. Is that... Han Fei?

### **Chapter 1316: Mysterious Island**

Yang Ruoyun never dreamed that she would see Han Fei one day. It wasn't until she came to the Water-Wood World that she learned of the forces in this area and the existence of the Wall of Death and the like.

Logically speaking, Han Fei shouldn't be able to come to the Water-Wood World for the rest of his life.

But how many years had it been? How had Han Fei become a top Heavenly Talent in the Water-Wood World?

Venerable Yun Chu from the Blood Sea Divine Wood City said, "Attention, everyone. The person standing in the front of the Water-Wood World's team is named Han Fei. He has already transcended the Four Nine King Tribulation. Be it speed, strength, physique, or soul strength, he's all very strong. If you encounter him, either form groups or escape. Don't face him alone."

Yang Ruoyun's heart did a flip. Is Han Fei still so strong?

Yang Ruoyun once believed that she had grown extremely fast, and that Han Fei had been thrown far away by her.

However, when he appeared again, he was already a Heavenly Talent who had transcended the Four Nine King Tribulation. He was already an Explorer!

Han Fei glanced at the team of the Blood Sea Divine Wood City and saw her, but he quickly moved his eyes away and looked at the team of the White Shell Royal City.

Wait...

Yang Ruoyun felt that something was wrong. Han Fei didn't know her? Impossible! It had only been a few years. Han Fei's memory couldn't be that bad, could it?

Besides, when Han Fei looked at her just now, his eyes didn't stop at all. He didn't seem to be pretending not to know her. It seemed that he really didn't know her!

Yun Chu seemed to notice Yang Ruoyun's anomaly. She looked at her and asked, "Why are your mental waves so strong?"

Yang Ruoyun quickly came back to herself. "Master Yun Chu, it's all because I saw the Fish Dragon King who almost killed me."

Yun Chu nodded. "Even if you meet the Fish Dragon King alone, don't fight him alone. If I've guessed right, you are no match for him."

Yang Ruoyun responded respectfully, but she began to think, Did I accidentally bring Han Fei to the Water-Wood World? Or did he find a way here?

If it was the first one, it would be fine.

But if it was the second kind, it would involve a big secret, a big secret that connected here to the Yin-Yang World. Once the Blood Sea Divine Tree City and the White Shell Royal City learned the news, they would probably be overjoyed! It was even possible that the two parties would join forces.

Yang Ruoyun made up her mind. Whether Han Fei still knew her or not, this information could be used against him. If she met him on the island, she could use this information to threaten him.

While Yang Ruoyun was thinking, Han Fei, who was in the team of the White Shell Royal City, slightly frowned.

He had been observing! If he guessed right, Yang Ruoyun must've recognized the fake him, or even guessed that something was wrong with him.

Unfortunately, Queen Life didn't know the information, so the fake Han Fei had no reaction to Yang Ruoyun at all.

Han Fei was a bit worried. Yang Ruoyun better not tell the Venerables about his identity now, or it would be exposed that he was from the Yin-Yang World. Then he couldn't tell what the consequence would be.

However, after about ten minutes, Venerable Yun Chu from the Blood Sea Divine Wood City showed no reaction at all. Han Fei was secretly relieved.

When Han Fei was relaxed, Zhang Xiaotian suddenly said via voice transmission, "You seem a little uneasy."

Han Fei replied calmly, "I'm just excited. My hands are itchy to fight the Heavenly Talents of these two sides. Especially Han Fei, I heard that he is invincible among his peers. It's easy for him to fight a hundred enemies alone..."

Changshui Qin tilted her head slightly, wanting to hear what Han Fei was saying.

Zhang Xiaotian said, "I advise you not to act rashly. The Water-Wood World took this person to this exploration at the expense of sending ten less people over. Even Venerables took him so seriously. What are the odds you have to beat him?"

Han Fei pretended that his eyes were blazing, licked the corner of his mouth, and said, "It doesn't matter if I can beat him or not. What matters is whether I dare to fight him or not. I will be careful, but if I really meet this person..."

Changshui Qin suddenly said, "If you really meet him, escape."

Han Fei pretended to be stunned and didn't speak, but accepted it indifferently, as if he wasn't convinced.

Qing Siling said, "You're really proud! It wasn't easy for you to replace me. Don't die in this exploration trial!"

Han Fei glanced at him proudly with a cold smile.

Changshui Qin said, "Since all the three parties are here, let's set off. Although this island came from the Wall of Death, it's in the territory of our White Shell Royal City after all. Let's land first, OK?"

Yun Chu sneered. "Changshui Qin, do you believe what you said yourself?"

The Insect King replied bluntly, "No!"

Changshui Qin grinned and said, "In that case, each of the three parties can choose a place to land. After all, the clouds and mist on this island are quite dangerous. There's no need for us to fight each other to the death."

Yun Chu glanced at the Water-Wood World team and shook her head slightly. "No."

The Insect King snorted and replied, "No."

Changshui Qin shrugged. "Then what do you think?"

The Insect King said, "Everyone chooses their own places. If the places coincide, it's their own choice. Let them compete for it! The three of us must not reveal any information to them... You know, I can hear what you said."

Changshui Qin said, "Then wouldn't you have the advantage because you have the least people?"

The Insect King sneered. "You have more people, but you can explore more places. You're more advantageous."

Yun Chu smiled. "I think the Insect King's suggestion is good. I accept it."

Changshui Qin narrowed his eyes slightly. Could it be that this time, the insect king was really just trying to get people to hunt for treasures?

Changshui Qin nodded. "That's it."

The seal descended and wrapped around Han Fei and the others. Changshui Qin shouted, "Look, this is the map of this island..."

As he spoke, Changshui Qin extended his hand, and an island map drawn with spiritual energy appeared in front of everyone.

Only then did Han Fei get a full view of the island.

Out of his expectation, this island didn't seem to be small at all. It was irregularly circular. Its area was at least 20,000 square kilometers.

On this island, there were mountains, waters, lands covered in mud, demon plants, and sea, as well as places that looked like fruit gardens.

Changshui Qin said, "Choose a place and tell me the location. By the way, I have to remind you that you must not escape into the void on the island. This is an island that has come out of the Wall of Death. The void is unstable and turbulent. Once the void is torn, the consequences are unpredictable. Not only that, there are many cracks in the void above the island. You have to be careful. This is not an ordinary trial ground. It's dangerous."

Han Fei's heart skipped a beat. In this case, wouldn't it be inconvenient for me to use the Heavenly Void Divine Movement? Wouldn't my advantage of speed be gone?

Han Fei quickly scanned the map. Judging from the areas on the map, most of them were dangerous places.

At least, the mountains were definitely dangerous. Others might not know it, but he, who had been in the Grand Myriad Mountains for so long, certainly knew it. Besides, if there were beasts in the mountains, he couldn't take action.

The swamp was a good place to go. That place was hidden, and the creatures he encountered should be mostly unknown to him.

It was hard to say where demonic plants covered. He could spare some of the demonic plants, but not all the demonic plants in the world. After all, there were too many types of demonic plants in this world.

As for the big river on the island, it was obvious that there was horror in the river. Lives usually lived along the river. That was probably the most dangerous place on the island.

As for the orchard...

Han Fei pondered for a moment. Since it looked like an orchard, there should be a lot of spiritual fruits. However, he didn't seem to lack spiritual fruits now. However, his heart was itchy for treasure hunting.

Just as Han Fei was about to choose the orchard, the old turtle suddenly said, "From this map, I can't see the place where the Heavenly Secrets are chaotic. However, the place where the Heavenly Secrets are

chaotic must be an important place on the island. Otherwise, the Heavenly Secrets there wouldn't be chaotic. Therefore, after finding the place where the Heavenly Secrets are chaotic, you'll find the greatest opportunity on the island."

Han Fei frowned. The old turtle's words make sense. He was too hasty just now.

Han Fei said, "Where do you think is a place with chaotic Heavenly Secrets?"

The old turtle said in a humming voice, "I don't know. I can't tell it from this map."

Han Fei was speechless. "If you can't even tell, how can I tell? Old Yuan, you are getting more and more unreliable."

The old turtle snorted. "I'm just reminding you."

Han Fei ignored the old turtle, but he wasn't in a hurry to make up his mind.

Suddenly, Han Fei noticed an inconspicuous place on the painting. It was a dark area with few demonic plants around, but the whole area was red.

Han Fei was briefly stunned. "A volcano?"

In this world, volcanoes couldn't just be called volcanoes. The power of volcanoes wasn't enough to destroy most creatures. Therefore, there were spiritual plants around.

Han Fei immediately said, "Master Changshui, I choose this place."

Seeing the place Han Fei chose, Changshui Qin was slightly stunned. "This place is not simple. Are you going to temper your body?"

Han Fei was relieved to hear that. A place that was not simple was a good place. At least, from the map, this place looked unremarkable.

After a while, everyone chose a place to go, and the seal was removed. The three Venerables seemed to exchange information.

Changshui Qin looked back at everyone. "Remember, in a moment, I will send you to the place you chose. You'll have to solve the following crises yourselves..."

### **Chapter 1317: Struggle to Survive**

Han Fei finally understood. It was like the TV program Survivor! They were thrown to this uninhabited island to see who would be the final winner!

However, what was slightly different was that this island was bigger and more dangerous. However, relative to the strength of Han Fei and the others, the difference wasn't that great.

Han Fei looked at the Water-Wood World team, not at the Insect-Man who looked like him, but was surprised that no acquaintances came this time. For example, Shu Xiaoman wasn't there.

Otherwise, he could find the Insect Man through Shu Xiaoman.

Now that the two sides were very far away, he had to think of a way to find the location of this Insect Man.

Changshui Qin had heard that the Fish Dragon King had suffered a setback from a woman from the Water-Wood World.

Seeing Han Fei glancing around, he couldn't help but say, "Stop looking. This time, there is no woman coming from the Water-Wood World. That Shu Xiaoman shouldn't have come."

Han Fei glanced at them one last time.

When he was about to retract his gaze, his eyes glittered. The knife handle of the Insect Man seemed to be made of the Big Red Trunk!

Han Fei immediately turned his head and looked at the Blood Sea Divine Wood City.

Han Fei thought to himself, It's easy to track the Insect Man via the Big Red Trunk, but people from the Blood Sea Divine Wood City might also take the Big Red Trunk with them.

It was still a little difficult for him to find the Insect Man.

But at least, the Big Red Trunk could work as a lead. With Little White's ability, he could guarantee that the people he met were mostly from the Blood Sea Divine Wood City.

Han Fei still wanted to observe more, but he heard Changshui Qin shout in a low voice, "Okay! I'll send you there. Remember, the time for this treasure hunt is only seven days. When the time is up, you just need to fly 30,000 feet in the air. If you want to evacuate in advance, soar 100,000 feet in the air. It will be taken as giving up."

Seven days?

There were only 50 people in this battle, but it involved the hunting battle of three parties.

In such a high-level competition, unless there was a reason to completely give up in advance, if anyone really withdrew, he would probably never be able to become a strong master in his life.

After all, so many big shots were watching.

Rip!

The space was torn apart.

In an instant, Han Fei and the others saw that in this spatial crack, chaotic void marks were flowing out.

Changshui Qin said, "Did you see that? Don't enter the void randomly in this space. Otherwise, the probability of death is extremely high."

After that, Changshui Qin extended his hand and waved, and Han Fei and the others disappeared.

Han Fei felt that his eyes went dark and then lit up again. There was a force pushing him.

When he opened his eyes again, he felt that the temperature around him had suddenly changed, rising hundreds of degrees. The raging wind had disappeared.

Han Fei knew that he had reached his destination.

“As I expected, this is a Survivor show. I wonder if anyone chose the same destination as me!”

Han Fei immediately scanned around with his perception and found that his perception could spread out for more than 20 kilometers. There seemed to be a force absorbing his perception underground, making it impossible for his perception to continue to spread.

This perception range was not large, and Han Fei could only see a small part of the place. The volcanic land he was in was barren of spiritual plants and creatures.

Han Fei looked around and didn't feel panicked. Being able to perceive more than 20 kilometers was better than being unable to see anything.

Han Fei said, “Old Yuan, my perception is limited. Can you show me the way.”

The old turtle said, “At this moment, this island is under public attention. If I spread my perception out for thousands of kilometers, someone will immediately find that something is wrong with you. Therefore, I can spread my perception out for hundreds of kilometers, but I can't spread it out now.”

Han Fei thought to himself, Oh, I forgot that the kings might be watching the show...

However, Han Fei didn't panic. After all, the Fish Dragon King had a technique to shrink the earth. In terms of speed, he was faster than others.

Han Fei strode and covered a kilometer with each step.

However, as soon as he took this step, three void cracks immediately appeared. He hurriedly dodged with the Fish Dragon Dance and narrowly dodged it.

“Wow! The Near at Hand Technique doesn't work here either?”

In the outside world.

Venerable Yun Chu said, “Hehe! It seems that the Fish Dragon King in the White Shell Royal City doesn't have enough self-awareness!”

Changshui Qin smiled and said, “He's actually not bad. After all, he once killed many Heavenly Talents from the Blood Sea Divine Wood City.”

“Hmph!”

Han Fei seemed to narrowly dodge the attack.

In fact, even if the space crack cut him, he didn't care. The speed was so slow that at most a few blood marks were left on his body.

No!

After one attempt, Han Fei immediately gave up the Near at Hand Technique.

Giving up the Near at Hand Technique, Han Fei chose to fly to the sky until he was thousands of meters high. This should be the first thought of most people. After all, flying tens of thousands of meters high was considered giving up. A mere thousand meters was nothing. Only by flying high could one see far.

At this moment, Han Fei discovered that he was in a barren land. As far as he could see, there were all mountains.

Han Fei flew to one of the mountains and stood on a huge rock. He pricked his ears and began to listen with the help of the wind from the top of the mountain.

Burble ~

After only several minutes, Han Fei was sure that within a thousand kilometers of him, there must be an active volcano.

Looking at the sky, Han Fei flew all the way. Although he didn't increase his speed to the highest, flying a thousand kilometers would only take him a moment.

Han Fei just felt it was a pity that the search for the Water Immortal was over.

Now, he could only explore the new island under the watch of others, which was actually very unfavorable for him.

For example, he couldn't release Fire Seed and the others from the Sea Quelling Painting because the king and the Venerables could see it.

Shua!

Han Fei, who was flying, suddenly saw lightning appear in midair.

Ding!

Han Fei quickly blocked the lightning with his spear. When the two collided, Han Fei saw the real appearance of the lightning.

"Hiss! A thunder leopard?"

Han Fei was stunned for a moment. This island was definitely not a part of the Grand Myriad Mountains. Otherwise, it wouldn't be like this on this island.

This also meant that he had encountered a wild thunder leopard. Regardless of whether the appearance of this thunder panther was related to the Grand Myriad Mountains or not, he had at least seen a beast. This also proved that there were still beasts who survived.

Han Fei couldn't help but wonder what was the situation inside the Wall of Death. How could a random island have a beast-race creature that should have disappeared hundreds of thousands of years ago?

The thunder leopard was extremely fast and could transform into lightning.

However, Han Fei knew this creature too well. Therefore, when the thunder leopard pounced at him again as a bolt of lightning, Han Fei pretended to fight it dozens of times tentatively.

After about ten seconds, looking at the lightning in the sky, Han Fei said to the thunder leopard, "Near At Hand."

However, this time, Han Fei didn't walk out but targeted the thunder leopard. Five void cracks appeared in the void, and the thunder leopard flashed quickly among the void cracks. In the blink of an eye, the distance was extended. Before it could react, the thunder leopard was still struck by two lightning bolts.

"Roar!"

Han Fei roared, and a dragon phantom appeared, rushing straight at the thunder leopard.

The thunder leopard, who had just been lightly injured, were slightly stunned when they heard the Hundred Beast Soul Subduing Roar. This might be the difference between the beast race and other races.

Hearing Han Fei's roar, the others probably thought that it was a kind of inherited power of the Dragon King bloodline in his body.

However, there was another power in Han Fei's roar, which was the roar of beasts!

The thunder leopard even heard a little bit of its own roar. Although it was a very tiny part of it, it heard it, so it was surprised.

Han Fei roared, "How dare you sneak attack me? Whatever you are, die..."

Seeing that he was about to activate the Near at Hand Technique, the thunder leopard disappeared into the sky with a swish. Its figure was like lightning, and in the blink of an eye, it disappeared into the vast void.

Han Fei didn't chase it.

He could use the Near at Hand Technique, but he couldn't use it to travel. Everyone who was watching the show understood that Han Fei couldn't chase the leopard. Once he chased it, there would be endless space cracks awaiting him.

Besides, Han Fei didn't want to chase it.

Otherwise, what could he do if he caught up to it? Kill it?

Han Fei certainly didn't want to.

He had learned techniques from the ancestor of the thunder leopard. Why would he kill his teacher's descendent?

The three Venerables had all seen Han Fei's performance.

Changshui Qin smiled faintly and looked at Yun Chu. "Look, not bad, right?"

Yun Chu didn't speak but looked at her people.

And the insect king's eyes were like an abyss.

He thought to himself, Changshui Qin, you idiot, your Fish Dragon King is already dead. What the heck are you showing off?

However, the insect king didn't care what Han Fei did. It was just that the fake Han Fei had been thrown into the wrong place!

According to the choices of Ning Jing, Wushang Xue, and Queen Life, they placed the Insect Man in the spiritual fruit garden.

After all, although Han Fei hadn't spent much time in the Cloud Sea Divine Tree, his greedy personality was unanimously recognized. Who knew why this guy chose a volcano with nothing?

After knocking away the thunder leopard, Han Fei quickly came to a volcanic crater, which was barren.

Han Fei looked over and saw a lot of diamond crystals on the ground, as well as traces of blackish magma flowing past.

The volcano was about three thousand meters in diameter and its inside was funnel-shaped.

More than 800 meters down, there was a magma lake stirring.

Han Fei couldn't help frowning slightly. In theory, it was a big volcano! However, in this world, it seemed a little small!

Standing at the crater, the temperature was about a thousand degrees celsius.

This temperature had no effect on Han Fei at all. Han Fei scanned with his perception and found that his perception couldn't continue to penetrate any further when it reached less than a kilometer down the lava lake. It was very hot down there!

The old turtle said, "You can try going to the bottom of the lake. When the temperature reaches a certain level, it can burn the void unstable and also have a certain effect of blocking vision."

Han Fei was lost for words. "I'm afraid I'm the first to jump into the magma."

That being said, Han Fei did not stop at all. He leaped into the air and plunged into the magma lake.

### **Chapter 1318: Lava Lake**

Seeing Han Fei jump directly into the magma lake, Changshui Qin was not surprised.

As early as when Han Fei chose the Thunder Prison, Changshui Qin knew that Han Fei chose a body refinement path. It was easy to say tempering one's body with lightning, and many people knew it. However, very few people could really do it.

Now, the power of magma was much weaker than the power of thunder. Changshui Qin felt that if he cultivated in it for a long time, he would definitely be more suitable for the Fish Dragon King.

This must be the reason why the Fish Dragon King chose this place.

In fact, when these Venerables were clearing the island, they had seen this magma lake. Under the magma, there were some special creatures. For some reason, the Venerables didn't attack these creatures.

Therefore, the magma was very dangerous.

Plop!

Most people wouldn't choose this kind of place. Therefore, Han Fei was indeed the only person here. As for the opportunities here, Han Fei would just take them all.

Under normal circumstances, the temperature of the magma lake was only a thousand degrees celsius. However, Han Fei had felt that the temperature was almost a thousand degrees celsius when he was still at the crater.

At this moment, Han Fei plunged into the magma lake and immediately felt that the temperature had soared several times.

However, the temperature in the upper level of the magma lake was not above 3,000 degrees celsius.

Without the old turtle's reminder, Han Fei continued to swim down.

For the current Han Fei, his physique was comparable to that of a Half-Venerable, or even a bit stronger, so he certainly wouldn't be stumped by the temperature in the magma lake.

He went down another few thousand meters, but the temperature remained the same.

According to Han Fei's knowledge structure, 500 to 800 kilometers under the magma, one would reach the soft currents below the surface.

However, in this world, this situation might be much more complicated. It was just a thousand kilometers. Perhaps he was still in the magma. Besides, this was an island. It should have a limit.

Therefore, Han Fei went all the way down. He was almost certain that the space down below the lava lake was still very large.

Han Fei rushed all the way down. After only thirty kilometers, he suddenly paused. Then he twisted his body and raised his spear, and the terrifying force shattered the magma in front of him.

Swish! Swish! Swish!

At this moment, Han Fei saw a special creature whose body was like magma, tail was like a pair of scissors, fins were like flames, and eyes were pure white. With a swish, it split out hundreds of flame arrow-like fine cones and stabbed at Han Fei.

At that moment, information flashed in Han Fei's eyes.

< Name > Fiery Charming Fish

< Introduction > A strange creature in the magma lake, born from an unusual flame. It's good at producing flames and attacking enemies with fire essence. It likes to eat unusual flames and has an impulsive personality. Be careful of it.

< Level > 73

< Quality > Rare

< Contained Spiritual Energy > 7,2260 Points

< Edible Effect > Eating fiery eyes can nurture Fire Pupil Technique, with which there is a chance for one to see through the nature of things.

< Collectable > Fiery Eyes

<Absorbable>

< Remarks > The Fiery Charming Fish are social animals.

Reading the information of the Fiery Charming Fish, Han Fei had brandished the spear in his hand and blocked the hundreds of fiery arrows like a wheel.

“Huh? It can turn into fire?”

Han Fei instantly realized that the strange thing about this creature was that its body could disperse at any time. What kept it alive was actually its soul.

“Roar!”

Han Fei let out a deafening dragon roar, and hundreds of masses of magma around him exploded in an instant, which were split from the Fiery Charming Fish’s bodies and were all blown up by Han Fei’s roar.

“Huff!”

Han Fei was slightly relieved. It seemed that the Fiery Charming Fish was hidden in the magma, so it wasn’t easy to see. It couldn’t be very strong.

At this moment, Han Fei saw a pair of white eyeballs floating in the magma. This should be the fiery eyes. With them, he could cultivate some Fire Pupil Technique, but it was useless to him. After all, he already had the Yin-Yang Divine Eyes that would only be stronger than this so-called Fire Pupil.

However, in any case, this was a Pupil Spell, which was extremely difficult to find. Therefore, these fiery eyes had its value... At least, it could be sold for money.

Han Fei put away the fiery eyes. Although he felt that he seemed to have missed something, he didn’t pay much attention to it and continued to swim down.

When Han Fei continued to explore, a beautiful woman was flying quickly to the magma lake.

Needless to say, they were from the Blood Sea Divine Wood City.

Outside, Yun Chu slightly frowned. The Fish Dragon King was not weak. Otherwise, he wouldn’t have dared to drill into the lava pool directly.

Even if a person was arrogant, he had to have the strength to be arrogant. Therefore, when the Blood Demon appeared here, although Yun Chu wanted to remind her, she didn’t have a chance at all.

At this time, Changshui Qin didn't look too good. Han Fei dived too deep down. Besides, he had just killed a Fiery Charming Fish. Why didn't he wait for a while?

As soon as Han Fei went down ten or twenty kilometers, he found that something was wrong.

Swish! Swish! Swish! Swish! When he scanned with his perception, he suddenly felt a chill down his spine. He saw a sea of flame arrows stabbing at him from more than ten miles away. There must be hundreds of thousands of them.

Han Fei was stunned. F\*ck, what's going on here? I just killed one of you. How deep is the grudge? Why is it so serious?

In particular, the swishing sounds didn't seem to be the sound of breaking through magma, but more like a language, a language exclusive to the Fiery Charming Fish.

This was because when this voice sounded, Han Fei perceived that scattered flame arrows began to spew out in all directions.

Han Fei was stunned and suddenly remembered the note in the Fiery Charming Fish's information: This Fiery Charming Fish were social animals. This was recorded separately.

Han Fei immediately cursed, "F\*ck, why did I miss this information?"

In the blink of an eye, Han Fei quickly descended with his spear. After all, he was just a Half-Merman who had just entered the Dao Seeking realm. Even if he was a peerless genius and could be ranked on the Genius List of the White Shell Royal City, if tens of thousands of creatures of the Dao Seeking realm suddenly appeared to kill him, he couldn't win easily. Otherwise, what would Changshui Qin and the others think?

Therefore, Han Fei didn't choose to fight, but rushed to the bottom of the magma lake.

Even so, they were still entangled in a dogfight. The Fiery Charming Fish, which was almost invisible in magma, would only appear when they launched attacks and turned into arrows.

Therefore, from time to time, hundreds of flame arrows appeared out of thin air, and tens of thousands of arrows bombarded at the same time. Han Fei didn't dare to resist with all his strength, so he was hit by the arrows.

Otherwise, if he blocked all of them, someone would think that he underestimated his strength.

"Roar!"

However, Han Fei still had a way to deal with them. He had killed dozens of Fiery Charming Fish along the way.

When the woman from the Blood Sea Divine Wood City arrived, she didn't notice anything unusual.

She scanned with her perception and found that the depth of her perception dive was limited. She thought for a moment and planned to observe it for a while. If there was no problem, she would explore it step by step.

Han Fei, on the other hand, had already rushed 200 kilometers under the lava lake in the blink of an eye. When he came here, the surrounding temperature began to rise, exceeding 3,000 degrees.

Although it was nothing to cultivators, the temperature here was not low. As far as Han Fei knew, the sun's surface temperature was only 5,000 degrees celsius, and the temperature of the earth's core was only 6,500 degrees celsius. This was just a magma lake, but the temperature in the lake had reached 3,000 degrees celsius. This was already unbelievable.

Bang!

Han Fei heard the sound of magma exploding a hundred kilometers away. It seemed to be the sound of something swimming over.

Instantly, Han Fei raised his spear, demonic energy gathered, and a spear beam bloomed. The Instant Mystic Spear was already prepared.

According to Han Fei's years of combat experience, he should have been targeted by something. Because the time was too short, the other party had already come. Even if he escaped, if he didn't use the Near at Hand Technique and the Star Teleportation Technique, it would be too late.

Therefore, Han Fei chose to fight head-on. As a Heavenly Talent, he certainly had the courage to face any creature head-on.

Changshui Qin frowned slightly, thinking, Is the Fish Dragon King sure that there is treasure below?

Changshui Qin didn't deny this. There was a Strange Fire below, which he didn't clear up. Back then, Changshui Qin thought that only the Blood Demons of the Blood Sea Divine Wood City would break in and compete for the Strange Fire.

Therefore, not everything in the magma lake had been cleaned up. Some creatures could even be said to have been left behind deliberately. In the depths, a wisp of aura had once extended out, but it quickly retracted.

He didn't expect that the first to attack would be the Fish Dragon King.

Of course, the three Venerables didn't take it seriously. This was because not only here, but in fact, there were situations happening everywhere. Several battles had already broken out, and people were fighting fiercely, looking much more interesting than Han Fei's side.

At this moment, the moment Han Fei perceived the black shadow, the spear in his hand had already burst out.

He activated the Near at Hand Technique at the same time, and void cracks appeared. However, the flame swooshed into the void.

"F\*ck! Didn't they say that no one shall enter the void?"

**Chapter 1319: Accidentally Bursting the Volcano**

Han Fei's first thought was to find the place where the Heavenly Secrets were in chaos. Even if he couldn't perceive it, the old turtle could.

He chose this place because he couldn't see the place where the Heavenly Secrets were chaotic from the map and the volcano was filled with scorching flames. If there was a chance, he might as well let Little Black try swallowing them. Even if Little Black disdained that the flames here weren't good enough, Fire Seed could swallow them.

Of course, the premise was that he had a good reason to swallow the essence of fire here.

However, at this moment, before he saw any Strange Fire or the essence of fire, he was already fighting the creatures in the magma lake.

Besides, weren't these creatures too strong? Hadn't they been cleared up?

Although there were creatures at the Dao Seeking realm among the heavenly talents who came to the island this time, at least most of them were peak-level Sea Spirits or Law Enforcers.

There was no telling how the Water-Wood World made the fake Han Fei transcend the tribulation. In fact, there were only a handful of Dao Seeking powerhouses.

But what about now? He had casually explored a lava lake, which turned out to be full of creatures at the Dao Seeking realm.

Behind him, the Fiery Charming Fish that had been chasing him didn't stop chasing him either. And here, unknown creatures were attacking again.

Bang!

The space cracked, and Han Fei flashed a kilometer away. Although there was a space crack, Han Fei didn't care. He stepped aside and dodged it.

As for the attacking creature, its huge body was 100 meters long. Its terrifying power rushed straight to the space where Han Fei was just now.

"Hmph!"

Han Fei thrust out his spear and the magma exploded. All his demonic energy was concentrated on his spear. Even at this moment, Han Fei didn't forget to create a golden dragon shadow for himself.

Boom!

The bottom of the magma lake exploded.

Unfortunately, he had dived 300 kilometers down the lake. Although there was a force impact, in the bubbling magma, the force gradually turned into the power of magma and gradually dissipated.

Even if a trace of power leaked out, it only turned into magma flames on the surface of the magma lake. This was not rare in the magma lake.

Therefore, the Heavenly Talent from the Blood Sea Divine Wood City who had just arrived didn't find anything wrong.

In fact, the bottom of the magma lake had already been overturned. Han Fei blasted off half of the fiery creature's body with his spear and chased it with the Near at Hand Technique again. To put on an act, Han Fei even let a void crack hit him.

At this moment, information appeared in Han Fei's eyes.

< Name > Fiery Python

< Introduction > This is a strange creature in the magma lake. It feeds on exotic flames and swallows the fire poison in the magma lake all year round, so its fire is extremely poisonous. Fiery pythons, short-tempered and aggressive, have a force of more than 300 waves. Don't underestimate them.

< Level > 75

< Quality > Exotic

< Enforcing law > Raging Flame Venomous Teeth

< Contained Spiritual Energy > 131,616 Points

< Edible Effect > Inedible

< Collectible > Fire Skin, Fire Smoke Bone, Fire Eyes, Fire Veins, Fire Teeth

<Absorbable>

The moment he saw this creature, Han Fei felt the Heaven Spirit Detoxifying Insect in his body twitch. Fire poison spurted out of the body of this fiery python. Although Han Fei could dodge it with the Star Teleportation Technique, he could only block it with a demonic energy protective cover.

The python was extremely fast.

Han Fei pointed the tip of his spear and blew up half of its body. However, even though half of its body was broken, the python still whipped Han Fei with its tail.

Han Fei still wanted to step back and avoid it, but a large group of fiery arrows formed by the Fiery Charming Fish behind him charged at him.

"Son of a b \* tch."

Han Fei cursed inwardly and held his spear with both hands. He recalled Zhang Xuanyu's attack on him in the Ideal Palace.

Buzz!

Immediately, the spear spiraled out, and Han Fei shouted in a low voice, "Knock on the Heavenly Gate."

When this spear appeared, there were dozens of exclamations in the void.

In the void, a Venerable from the White Shell Royal City was surprised. "I've never seen the Fish Dragon King use this move. It must be his trump card. Not bad."

Changshui Qin was also taken aback for a moment. "If he had used this move, he might have been able to block Zhang Xiaotian's sixth Bloody Spear a few days ago."

In the distant void, the White Armor Emperor's heart stirred. "Oh! This spear is interesting. We can nurture this kid."

Queen Life rolled her eyes and thought to herself, What the hell is this Han Fei doing? Don't you know how to keep a low profile? How can you still attract so much attention after becoming a sea demon?

This blow seemed to coincide with certain Dao runes.

This meant that although the Fish Dragon King had just transcended the tribulation, he had already gained some insights into the Great Dao. Therefore, although this attack was still a little jerky, it was definitely not weak.

Bang!

Han Fei had no idea what happened outside.

The Fiery Python's body was penetrated by Han Fei's spear again, revealing a big hole in its hundred-meter-long body. Han Fei took a step forward and passed through the hole. He was hit by a void crack, and the other three cut the Fiery Python's body.

Roar!

He didn't know if the Fiery Python had any tingling sensation. It must have, so it just roared.

At this moment, a mental attack blasted into Han Fei's mind. And Han Fei also turned his head to give it a God Scaring Stab.

"Pfft!"

In addition to the God Scaring Stab, there were tens of thousands of flame arrows, which were all soul attacks, and at this moment, all fell on the Fiery Python.

Originally, the level of the Fiery Charming Fish and the Fiery Python was not much different. At this moment, when tens of thousands of soul attacks blasted down, how could the Fiery Python withstand them?

Under such a violent soul impact, this Fiery Python didn't even have the time to run before its brain exploded.

Han Fei reached out and took out a snake gallbladder, before he continued to rush down.

Perhaps the Fiery Charming Fish felt that it was not enough to kill a fiery python, so it continued to chase Han Fei crazily.

Han Fei pretended to be poisoned, stuffed the snake gallbladder into his mouth, and swallowed it.

Han Fei asked while running, "Old Yuan, where are the opportunities here? Are there still a lot of people looking at me?"

The old turtle said, "Judging from the attack you just launched with your spear, many people are watching you now."

Han Fei was stunned. What's wrong with that attack? I didn't use this technique well! This is Zhang Xuanyu's technique.

The old turtle said, "This spear is too powerful. Your understanding is not deep enough now, but this strike is very powerful and contains profound Dao runes."

Han Fei thought to himself, Zhang Xuanyu's strongest combat technique he comprehended in the Ideal Palace turned out to be so powerful! Even an emperor like the old turtle was praising him. If he had known, he would have practiced it more.

Back in the Ideal Palace, Zhang Xuanyu had specifically made him practice the "Knock on the Heavenly Gate" for a whole day.

At that time, Han Fei was thinking about how to dodge the technique. Therefore, he paid special attention to the way Zhang Xuanyu used the technique. In addition, he had a certain understanding of the spear and stick technique and had practiced the comprehensive stick technique, True Interpretation of Stick Technique. Therefore, Han Fei soon comprehended the essence of Knock on the Heavenly Gate.

This time, Han Fei continued to dive.

The Fiery Charming Fish were still chasing him.

Han Fei immediately came up with a plan. Anyway, he shouldn't search for opportunities so blindly. He might as well get rid of these Fiery Charming first. Otherwise, he wouldn't feel at ease being chased by tens of thousands of Fiery Charming Fish.

By the way, Han Fei felt that if there was an opportunity here, it must be in the depths! The more dangerous a place was, the easier it was for opportunities to appear.

However, the only thing Han Fei didn't know was the depth of this lava lake. Logically speaking, it should be more than a thousand kilometers, or even several thousand kilometers. After all, such a large piece of land was very huge.

If this piece of land hadn't come out too quickly, Han Fei wouldn't have rushed all the way down.

Swish! Swish! Swish!

Han Fei dove faster and faster, and there were more and more Fiery Charming Fish behind him, so no other creatures dared to approach him at all.

After all, although Han Fei was scary, a large group of Fiery Charming Fish were even more terrifying.

Also, Han Fei discovered, to his surprise, that the Fiery Charming Fish seemed to be fusing. The arrows that were originally finger-thick became awl-thick, which became faster, larger, and more ferocious.

"Can these things fuse?"

The old turtle said, "They're not fusing but gathering. When a large swarm gathers together, it becomes like this."

Han Fei gritted his teeth and dove down, only to feel that the temperature around him was rising rapidly. When Han Fei dove more than 800 kilometers into the magma lake, he felt that the temperature here had exceeded 4,000 degrees celsius.

When the temperature reached this height, even Han Fei was ablaze.

The change in temperature was not as simple as one or two degrees on the surface. When the temperature exceeded a limit, Han Fei felt that every time the temperature rose a little, the scorching feeling showed a geometrical increase.

The old turtle said, "If the temperature of the magma is higher, your body may not be able to withstand it."

Han Fei looked back. "Why can these Fiery Charming Fish still chase me?"

The old turtle said, "Their strength doesn't come from the body, but from the soul."

Han Fei's heart did a flip. Damn it. If he could kill the Fiery Charming Fish and absorb their souls with the Void Lines, it would be a good place to gain experiences. He really wished he could come again alone!

When Han Fei was about to figure out how to get rid of the Fiery Demon Fish, he suddenly felt that the lava lake became more viscous, as if he was going to reach the bottom.

"Huh? Have I arrived already?"

Pop!

Han Fei saw a large swath of bubble floating at the bottom of the magma lake, looking very strange.

Han Fei's heart did a flip. Could it be that there was an opportunity in the red bubble?

"Pfft!"

He pierced through a bubble with his spear, and with a buzz, the flames on Han Fei's body suddenly soared hundreds of degrees. In an instant, his hair and battle suit were burnt up. The high-temperature gas spurted out, making Han Fei's body numb and he paused.

"Shoot..."

Swish! Swish! Swish!

At this moment, two flame arrows hit him, and Han Fei swept his spear to resist the impact. But when he turned around and saw the dense flame arrows, he felt terrible.

"Huh? There are all these terrifying bubbles underground. Can I burn these Fiery Charming Fish to death if I pierce them?"

At the critical moment, Han Fei thrust his spear down without hesitation. All the demonic energy in his body was concentrated at the tip of the spear.

"Hiss! Is he crazy?"

Someone was watching Han Fei, thinking that he might not be able to escape from the lava lake. After all, when there were so many Fiery Demon Fish that Han Fei couldn't avoid, he had to face them head-on.

But who could have expected that Han Fei would stab his spear into the ground?

Even Changshui Qin was stunned. This guy was really bold.

Bang!

Under the terrifying blast of the explosion, Han Fei didn't know where he had been stabbed. All in all, he felt that his flesh and blood were melting. The terrifying air wave sent him flying.

At that moment, Han Fei had an idea. When the temperature reached a certain level, it was no longer liquid but gas.

For example, at this moment, Han Fei also felt that what hit him was the temperature of airwaves, which was nearly 50% higher than the temperature of magma.

Swish!

The moment Han Fei was sent flying, his flesh and blood were blurred.

At that moment, he activated the Near at Hand Technique and traveled dozens of kilometers with each step. He endured eight void cracks in a row before he escaped. Many people broke into a cold sweat when they saw that.

However, Changshui Qin's eyes lit up. As the saying went, the skilled are bold, which fit Han Fei's situation.

Of course, the consequences of Han Fei's willfulness were equally dire.

As if a ball had been poked through a hole, a massive amount of scorching gas rushed into the lava lake. In an instant, the lava lake began to riot.

Han Fei looked back and smiled. Something was wrong.

Looking at the rising airflow, he was a little dumbfounded.. He seemed to have accidentally stabbed the volcano and caused it to erupt.

### **Chapter 1320: Red Balls**

Xie Ying was one of the top Heavenly Talents at the peak-level of Sea Spirit in the Blood Sea Divine Wood City. Because she was good at assassinations, she was known as one of the three Demonic Stings in the Blood Sea Divine Wood City.

After observing the magma lake for about ten minutes, Xie Ying found that the magma here was particularly irritable, which meant that in this magma, there would be some unusual flames.

For fire cultivators, unusual flames were their favorite kind of power. Because it was a special power between the heavens and earth, its effect in combat was particularly powerful.

"Huh? Why are there no creatures here?"

Xie Ying was a little puzzled.

By logic, others might not know it, but as fire cultivators, they naturally knew that there were many creatures in the undersea magma.

Therefore, when Xie Ying dove nearly a hundred kilometers and found that there was not a single creature here, she immediately became vigilant and felt that her blood was freezing.

Xie Ying's heart trembled. Could it be that she had entered the forbidden area of some powerful creature? Otherwise, why were there no creatures here?

Besides, when she chose to come to this area, Master Yun Chu didn't say that this place was extremely dangerous!

Buzz!

Just as Xie Ying was hesitating whether to continue to dive down or not...

With a bang, there seemed to be a mournful cry from the core of the earth, as if a behemoth was roaring.

Immediately afterward, Xie Ying discovered that the temperature around her began to rise at an incredible speed. In the blink of an eye, it rose hundreds of degrees. Then, she saw Fire Charming Fish darting at her.

"Huh? A riot?"

At first glance, Xie Ying realized that something was wrong. This was a sign of a volcanic riot, but the speed was too fast! In the blink of an eye, the temperature began to rise by several hundred degrees!

"Not good!"

Xie Ying discovered, to her shock, that the temperature of the magma was rising at an unbelievable speed. The magma was surging up too.

In an instant, Xie Ying was about to retreat. However, as soon as she swam up more than 50 kilometers, she found a figure appearing in her perception.

"Who? How can he be faster than me?"

Swish!

The speed of the airwave was the same as the speed of the volcanic eruption. The terrifying energy was squeezing out frantically. Han Fei wanted to escape, but he found the Blood Demon halfway.

Immediately, Han Fei's eyes glittered. He was about to attack a Blood Demon when one sent herself to him.

A God Scaring Stab struck the opponent's soul, and an Instant Mystic Spear was about to penetrate the opponent's body.

Xie Ying reacted extremely fast, and a red pearl appeared in front of her.

With a clang, Han Fei's God Scaring Stab was completely blocked.

"Flame Barrier."

In the next moment, a flame shield seemed to be summoned from the magma.

Crunch!

After all, they were not at the same level of strength.

At this moment, Han Fei didn't adhere to any principle of not bullying those in the lower realms. Therefore, facing a peak-level Sea Spirit with the strength of a junior Dao Seeking realm, he didn't feel any pressure at all.

The flame shield shattered in an instant, unable to block the Instant Mystic Spear at all.

And what made Han Fei a little depressed was that although his comprehension of the God Scaring Stab had deepened, his soul had been greatly weakened after all, and his attack was actually blocked by a peak-level Sea Spirit with a soul treasure.

What surprised Han Fei even more was that countless tadpole-like runes appeared on this woman's body. As soon as the runes were removed, Han Fei clearly saw that the blood demon's vitality had become much stronger.

The old turtle said, "This is a kind of life-burning technique. With vitality and flesh as the price, the user can exert power several times his own in a short period of time."

"Heh!"

Han Fei's eyes turned cold. No matter how strong a peak-level Sea Spirit was, she was still a peak-level Sea Spirit. Only when she reached the Dao Seeking realm could she understand the big gap between the two.

If it were an ordinary person, Xie Ying's sudden outburst might have helped her escape. Unfortunately, she encountered a top genius even stronger than her.

Xie Ying didn't have the will to fight, but Han Fei certainly wouldn't give up. He activated the Near at Hand. In this space, Han Fei did such a dangerous thing, which showed his determination to kill her.

Xie Ying threw out her protective red leaf and detonated it with a bang. At the same time, she shouted, "Don't force me to transcend the tribulation."

Han Fei looked down and his spear spiraled out. He used the Knock on the Heavenly Gate again.

"Pfft!"

The red leaves exploded and the armor was shattered. The tribulation clouds in the sky had already begun to gather. However, Han Fei simply ignored them and thrust his spear out.

At the bottom of the magma lake, the rising scorching gas had already raised the temperature of the magma lake by a lot. Xie Ying and Han Fei were both enshrouded in it.

Han Fei did it on purpose. For him, the current temperature was much cooler than the underground. But it was different for Xie Ying! She was pierced by Han Fei's spear and then burnt by the terrifying temperature. In an instant, nearly half of her body was burnt.

Han Fei stepped in front of her, reached out, grabbed a Sun-Moon Shell, and punched it through.

At the last moment, Han Fei really wanted to stab Xie Ying with the Void Lines to steal a wisp of soul power. However, he was afraid that he would be exposed to the attention of countless people. Therefore, he gave up in the end.

Outside the island, Changshui Qin smiled. "Well! Not bad."

Yun Chu's face was slightly cold. "The Fish Dragon King just seized the initiative. Otherwise, it remains to be seen who will win."

Changshui Qin said, "Um, luck is sometimes a part of strength... The volcano is about to erupt!"

The meaning behind Changshui Qin's words was easy to understand. The eruption of a volcano definitely caused a huge uproar. It was impossible for all Heavenly Talents to not notice it.

Boom... Boom...

Han Fei had already run out and stood proudly in the air near the crater, watching the huge tongue of fire erupt with a bang.

This was the first time Han Fei had seen a volcanic eruption.

Han Fei, however, did not move at all. Even if there were scattered magma fireballs hitting him, he pretended not to see them. But when the fireballs were three meters away from him, they were shattered by the demonic energy on his body.

Han Fei asked, "Old turtle, am I too loud? I haven't found the place where the Heavenly Secrets were messed up, nor any opportunities or treasures. Instead, I attracted the attention of many people. What a loss!"

The old turtle said, "Only in places where the Heavenly Secrets are in chaos can there be true opportunities. If it's not with you, it's with others. When this mountain erupts, although the sound is loud, it can't disturb the Heavenly Secrets. You can try checking out if there were any Strange Fires. If not, you can go elsewhere."

Han Fei said, "I can still wait for other people to come."

Han Fei held the Sun-Moon Shell he had just snatched and scanned it with his perception, only to find a large number of spiritual fruits and spiritual springs. There were some large bones and strange stones in them, which must have been prepared to build some weapons.

Leaving the two treasure maps aside, Han Fei suddenly frowned. Among this batch of resources, there were as many as three Red Balls.

The Red Ball was the product of the Big Red Trunk.

For some creatures, the red ball was a super tonic. For example, mysterious creatures like the Hexagon Starfish wouldn't be controlled by the red ball. And mysterious creatures like Little Black and Little White could also swallow the red ball.

However, all the humans Han Fei had seen who had swallowed the Red Ball had turned into Millennium Snappers anyway.

Han Fei's lips curled slightly. Although he didn't find the place where the Heavenly Secrets were messed up, he got some Red Balls, which was another opportunity.

As for what the Red Balls were used for, of course, it was for the Fish Dragon King to retire.

He didn't kill the Fish Dragon King because he had thought that it would be a pity to kill this Heavenly Talent. It would be great if he could make use of him.

Of course, it was mainly because Han Fei felt that he couldn't enter the Blood Sea Divine Wood City. After all, he really couldn't accept becoming a woman. However, the Fish Dragon King could! Because his life was in his hands.

Han Fei threw the Sun-Moon Shell into Forge the Universe and picked up dozens of spiritual fruits. He crushed them and swallowed them, as if he were trying to recover.

Bang! Bang! Bang!

At this moment, magma spewed out as high as seven or eight kilometers, and the volcanic clouds had already spewed out more than thirty kilometers high. The height of the magma spewed out couldn't be much higher. However, the volcanic clouds were rapidly rising.

Bang!

Half of the mountain exploded, and the ground began to tremble. The rumbling sounds rippled in the air. Han Fei felt that his ears were almost deafened.

In the distance.

In the swamp, in the river, in the mountains, in many places, people suddenly raised their heads and looked in the direction of the volcano eruption.

Zhang Xiaotian exclaimed, "What great strength!"

Feeling the shivering under her feet, Yang Ruoyun frowned. "Why is there such a big noise? Has a treasure been revealed?"

The fake Han Fei scratched his head and rushed to the place where the volcano erupted.

At this moment, at least ten people rushed towards where Han Fei was.

It was not that the remaining people didn't want to go, but that they couldn't. They were already in trouble.

After half an hour, Han Fei suddenly saw a purple-red flame at the crater that had been blown up.

Han Fei frowned. "A strange Fire?"

Han Fei immediately asked, "Can I put this into the Sun-Moon Shell?"

The old turtle said, "The unusual flame is active. Even if you can put it into the Sun-Moon Shell, that space can't withstand its power. You can try to absorb it by yourself."

Han Fei rolled his eyes. Do you think I haven't absorbed the unusual fire? A fish fire burned me for three days and three nights and almost killed me.

"Huff!"

Han Fei took a deep breath and asked, "How are the flames compared to the Blue Sea Ice Sand?"

The old turtle was silent for a while. "Not even comparable."

Han Fei: "..."
