

GOF 1331

Chapter 1331: A Strong Return

Han Fei saw that the tomb was closing, and the next moment, the tomb appeared a thousand meters away from him.

Then, it disappeared...

Han Fei suddenly raised his head, only to see a huge hand pressing down, and green vines stabbing at him.

The White Armor Emperor and Queen Life took action at the same time, forcibly breaking the rules here. However, the two of them saw Han Fei looking at the sky with a dazed look.

Queen Life: "Stop."

The White Armor Emperor roared, "Who is interfering with the rules of this place?"

As he spoke, a wisp of power seemed to flow out of the White Armor Emperor and sweep across the grassland.

Bang!

A petal suddenly appeared and protected Han Fei.

On the other side, a red light shone, and Tang Yue, who was still looking for the Fish Dragon King, was protected by the red light.

Immediately afterward, a terrifying power swept across thousands of kilometers of the grassland in an instant. This grassland was burned in an instant, and even the ground was full of ravines.

Han Fei could clearly perceive that a large number of Dead Spirit Grass was withering.

Queen Life shouted coldly, "White Armor Emperor, you are a king. Don't be shameless."

In the void, a voice echoed, "White Armor Emperor, are you bullying our Blood Sea Divine Wood City?"

The White Armor Emperor snorted. "There's a certain power recovering on this island. I don't believe you didn't see it. It's... the power of a king."

...

Han Fei's heart chilled. A king wanted to kill me? That's too much. I'm only an Explorer and not even a Venerable. How could you, a king, attack me?

Fortunately, Queen Life saved him.

But now he had Queen Life protecting him. What about in the future? If he really met a king-level powerhouse in the future, how could he escape from the other party?

Han Fei frowned, and the power around him gradually disappeared. What was left was not grassland at all, but scorched earth.

The old turtle said, "Huh! That tomb seems to have left?"

Han Fei was stunned. "Where can he go?"

The old turtle suddenly said, "Who knows? This time, you didn't move, but the heavenly secrets covered you up, so it attracted the attention of the outside world. However, I didn't expect the king to personally test you. I think this desolate tomb must have shown a trace of power, or the king wouldn't have taken action in person."

Han Fei: "..."

After a long silence, Han Fei said leisurely, "Old Yuan! Do you think it's I who woke him up?"

The old turtle roared, "I've seen shameless people, but I've never seen anyone as shameless as you. A strong master of that level may be a bit weaker than me, but why would he wake up just because of a little bit of food given by you? He must already be waking up when this island was born."

Han Fei scratched his head. "Anyway, I think being a chef is good. It can save my life at critical moments. I really want to walk the Great Dao of cooking!"

The old turtle: "..."

Shua! Shua!

When this grassland was burnt up, Tang Yue had chased a kilometer away. Without the spatial law of the grassland blocking her, she immediately found this place.

However, when Tang Yue saw Han Fei standing alone on the scorched land of the grassland, her heart trembled and she immediately fled.

"Hehe! Actually, you should listen to the Fish Dragon King..."

Shua!

Han Fei's figure disappeared with a swish. His speed was half a point faster than the fake Han Fei showed, but the difference was not great.

It seemed that the weird disappearance of the grassland made Han Fei more free.

Tang Yue was horrified. Seeing that Han Fei was chasing her without hesitation, she immediately roared and activated her secret method. Red mist spurted out of her body, and the power of her blood and energy soared.

A flash of white light cut the void with a swish. The other party's saber turned incorporeal, trying to cut Han Fei's soul.

Han Fei sneered. "Kill me? Are you qualified?"

"Sacrificing Punch."

A blazing fist mark and a red light broke through the air.

Han Fei flashed in the air with swishes. In his hand, a long fishing pole appeared out of nowhere.

Han Fei threw the hook like a sharp arrow, and Tang Yue's long knife shook, and thousands of knife shadows left her body.

But the fishing hook suddenly broke through the air and appeared dozens of meters in front of her. On the Water-Wood World's side, very few people used fishing hooks to fight, and even fewer people fished.

Therefore, Tang Yue didn't even recognize the fishing rod in Han Fei's hand, so it was not easy for him to deal with it.

In fact, Han Fei had already activated the Void Lines, almost sealing the surrounding space. The fishhook was just a visible illusion.

When the Void Lines suddenly retracted, Tang Yue was shocked.

"Void Spell."

A circle of tadpole-like runes appeared, and Han Fei found that Tang Yue's figure was actually disappearing.

In the blink of an eye, the Void Lines had reached its fastest speed, but only caught two pieces of Tang Yue's soul. However, Tang Yue shattered her soul in an instant. In the next second, her figure disappeared from this space.

Han Fei could tell that Tang Yue had entered the void. When she reappeared, she was already ten thousand feet high in the sky, dripping with blood. Her bones were exposed in many part of her body.

Han Fei looked up. It seemed that she had given up the trial.

"Smart woman."

Tang Yue knew that if she escaped into the void, even if she survived, her strength would be greatly reduced. In the face of the turbulent void here, it was already not bad that she could survive. If she didn't take this opportunity to fly ten thousand feet high and quit the trial, she might be easily caught up by Han Fei.

Han Fei seemed to be very angry.

Yang Ruoyun snatched treasure from him, and then Tang Yue escaped from her hands.

Instantly, Han Fei looked up. "Blood Sea Divine Wood City, I'll remember you."

Han Fei didn't really care when Tang Yue escaped.

Originally, he just wanted to snatch Tang Yue's Sun-Moon Shell. However, this woman ran away so quickly that she even hurt a portion of her soul, making it impossible for him to steal a bite of her soul.

However, Han Fei didn't panic. Now that he had become himself again, he had many more methods to use.

“Fuse.”

Han Fei finally had no scruples. Without perceiving, he immediately smelled the breath of two Blood Demons, a Half-Merman, and an Insect.

Unsurprisingly, they saw that astronomical phenomenon and were attracted here.

Without hesitation, Han Fei chose the people from the Blood Sea Divine Wood City.

In the eyes of outsiders, Han Fei had failed twice because of the people from the Blood Sea Divine Wood City.

At this moment, when Yun Chu saw Han Fei’s movement, her face instantly turned cold. Yang Ruoyun’s successful sneak attack on Han Fei and Tang Yue’s lucky escape didn’t mean that Han Fei was not strong.

If Han Fei wasn’t strong, how did the Fish Dragon King die? If Han Fei wasn’t strong, how could Tang Yue escape into the void at the risk of being minced?

As early as when Han Fei killed the Fish Dragon King, Changshui Qin and Yun Chu felt that it was a wrong decision to let Han Fei participate in this trial.

...

If the Blood Sea Divine Wood City had a Genius List, Yang Qing’s ranking should be in the top twenty. She was extremely proficient in curse techniques.

Especially in terms of offense and defense, she was very good at the two aspects.

At this moment, Yang Qing looked at the scorched ground. She didn’t know what had happened here.

“Has the opportunity been taken away?”

Shua!

Suddenly, an extremely cold knife light appeared in the sky.

“Door.”

Swish! Swish! Swish!

At that moment, Yang Qing didn’t choose to escape.

The terrifying knife light was too terrifying. Her first thought was to shake her arms, revealing the silver bracelet on her wrist.

Nine yellow circles dropped to her head.

Clank ~

Ka ka ka ~

Under Yang Qing’s horrified gaze, five layers of her runes were broken in an instant.

Shua!

Han Fei, like a phantom, appeared out of nowhere, with billowing spiritual energy on his shoulder, ramming at him.

Bang!

Yang Qing was sent flying, and two layers of her runes were cracked.

A large ice sword suddenly appeared in Han Fei's hands.

"Draw!"

It was too fast. Under such circumstances, Yang Qing could only make two reactions. The first was that the necklace on her neck burst out an armor of runes, blocking in front of her. While holding the golden hairpin on her head, the runes flashed and stabbed at Han Fei as if trying to push him back...

As far as Yang Qing knew, as long as he could retreat, she could take the chance to escape with the curse technique.

However, at this moment, Yang Qing saw that Han Fei's lips curled.

Clank ~

A Vajra phantom stood proudly in front of her. The Violent Strike formed by the runes in her hand was held by the Vajra and then dispersed from her side. No runes could break the Vajra phantom.

At that moment, Yang Qing had no chance to escape. Han Fei pulled his sword up, and cracking sounds were heard continuously.

Han Fei didn't conceal his strength at all. Yang Qing was only at the peak of the Dao Seeking realm and hadn't transcended the tribulation. How could she withstand Han Fei's blow?

With a swish, Yang Qing was cut in half. The battle ended within a second.

In the outside world.

The Insect King smiled and thought to himself, Han Fei has returned.

Chapter 1332: Dragon Essence Energy

The Blood Demons were all Millennium Snappers.

At this moment, Han Fei hooked Yang Qing with the Void Lines and sucked her soul. However, there weren't even a hundred points, only dozens.

This made Han Fei sigh. Sure enough, he still had to rob the strong.

Yang Qing was slaughtered in an instant, which stunned Yun Chu and Changshui Qin. It was too fast. Han Fei struck like lightning and didn't even give Yang Qing a chance to react.

The battle ended in an instant. He seemed to be stronger than when he fought the Fish Dragon King.

This also fully demonstrated that the Fish Dragon King couldn't be much better than Yang Qing without the Near at Hand Technique, just like how Tang Yue could only escape when Han Fei crushed her.

After thirty seconds, after Han Fei killed another Half-Merman, he didn't immediately attack the people from the White Shell Royal City.

Just now, the figure in the deserted tomb said, There is Dragon Essence Energy on this island. Take it. It will benefit you.

Han Fei didn't know what level that man was at. However, he had never heard of any dragon race. So far, he had only seen the soul body of an azure dragon once.

However, the man had undoubtedly given Han Fei a message. He was not the only one on this island. There should also be dead dragons.

Otherwise, if that thing was alive, wouldn't it be like asking him to court death?

Therefore, that person must have told him this information for the sake of the fact that he was a human too. This was an opportunity unique to him, which others didn't have.

Han Fei stood outside the grassland, closed his eyes, and perceived carefully.

For a moment, he discovered that there were as many as five people nearby. Among them, there were at least two Blood Demons.

But apart from these people, Han Fei also perceived seven or eight special places on this island.

For example, there seemed to be a huge amount of energy on his left side.

For example, in front of him, there was abundant spiritual energy. However, he felt that there seemed to be a sweet aura, like there seemed to be a special spiritual fruit in the direction of the orchard.

Also, Han Fei felt that there was great danger ahead on the left. Besides, the water was thick there, which must be the big river on this island.

Han Fei felt that there were still countless treasures on this island. If he could get all of them, he would definitely make a fortune.

If he were to explore the island alone, Han Fei felt that he would definitely investigate them one by one.

However, the current conditions didn't allow it.

He had already returned and appeared quite strong. He might not leave early, but if he kept slaughtering others, Queen Life might be threatened by the other two kings.

Besides, two days had passed since the trial. Treasure hunting required time! Treasures wouldn't just fall on the ground and let others pick them up.

Therefore, Han Fei quickly had an idea in his heart: Find the Dragon Essence Energy first! If there is enough time, let others dig up the opportunities first. When they dug up all the opportunities, he would go hunt them. How convenient!

However, Han Fei had only felt the power of dragons, so he didn't know what Dragon Essence Energy was.

Han Fei couldn't help but ask, "Old Yuan, do you know what Dragon Essence Energy is?"

The old turtle replied, "I don't know. I've never had any contact with the dragon race! In my era, the dragons barely showed up."

Even the old turtle didn't know about the dragon race, so how could Queen Life know?

Queen Life should have become a king after the Age of Doom. She probably didn't know what happened even earlier.

At this moment, Queen Life was in the Sea Quelling Painting getting in touch with Bai Suzhen and her family. Han Fei asked, and as he expected, Queen Life didn't know anything about it. She had never seen the so-called dragon race either.

Han Fei wanted to recognize where there were any traces of dragons on this island.

He couldn't feel this power brand at all, and his mind was blank.

After a while, Han Fei chose three places.

The first was the huge river. The river took up one-third of the length of this island, about 6,000 kilometers long, and its width varied from hundreds to thousands of kilometers.

Such a huge area could be said to be the most dangerous place on this island. There could be hidden dangers everywhere. The Dragon Essence might be somewhere there. Because of the danger, it was not easy for ordinary people to find it.

The second place was a place full of death aura. It gave people a creepy feeling. There should be undead creatures living there. Han Fei could sense it through Little White. Just like in this grassland, there were also hidden tombs with secrets.

The last one was actually just Han Fei's thoughts. Because Little Black and Little White had fused, Han Fei vaguely sensed that there seemed to be some power in the east that attracted him, but he couldn't be sure what it was.

Two hours passed.

Han Fei stood by the river. He had canceled the fusion and summoned Little White.

Little White said, "Dad, there are so many dangers here."

Han Fei smiled. "Girl, can you feel any particularly advanced power here?"

Little White said, "No."

The old turtle said, "It shouldn't be here. Think about it... This big river is like a sea, and there must be thousands of creatures living here. If the Dragon Essence Energy was here, wouldn't it have been absorbed by other creatures after so many years?"

Han Fei's heart did a flip. "Do you mean that it's a place where people are rare?"

The old turtle said, "If it were me, at least no creatures would be allowed to see my tomb."

Han Fei thought to himself, That makes sense! So, he abandoned the river, spent a full five hours crossing a swamp, and came to a canyon full of death aura.

In the outside world.

The Insect King was a little puzzled. Han Fei, what are you looking for?

From the grassland just now to here.

Han Fei did nothing except kill two Heavenly Talents from the Blood Sea Divine Wood City. This was a once-in-a-lifetime opportunity.

If it weren't for the fact that the White Armor Emperor was seriously injured and that the king from the Blood Sea Divine Wood City never went out, Queen Life probably wouldn't have been able to let Han Fei join the trial.

In addition to trying to help Han Fei leave the White Shell Royal City, everyone certainly hoped that Han Fei could sweep the geniuses of the two royal cities.

As long as these people didn't die, they could probably become Venerables in the future.

At the very least, they would become Half-Venerables.

If a batch of them were killed, it could be said that the true Heavenly Talents of this generation in the two royal cities were killed, causing a gap in their supply of strong masters.

However, Han Fei didn't care about those people at all. Instead, he seemed to be looking for something. When he reached the river, he left without even exploring it and went to the canyon full of undead creatures.

The Worm King felt that Han Fei must have discovered some secret, so he had lost interest in killing the geniuses of the two royal cities. And this time, he was looking for that secret.

The insect king could see it, so could others.

Changshui Qin frowned and secretly looked at where Zhang Xiaotian was. It was a mountain in the east where strange beasts were rampant. Zhang Xiaotian had fought a bloody battle all the way and killed more than a hundred enemies.

As early as when this island was explored for the first time, Changshui Qin led the exploration. At that time, several secret powers quickly dissipated. One of them seemed to be shrouded by a colorful glow, which seemed to be the symbol of a spiritual treasure of the world.

However, the spiritual treasure seemed to have intelligence and knew that a powerhouse had arrived, so it immediately vanished without a trace. No matter how Changshui Qin searched, it was to no avail.

Therefore, Changshui Qin secretly gave this opportunity to Zhang Xiaotian.

At that time, he had thought about the Fish Dragon King, but compared to Zhang Xiaotian, the latter was not steady enough. His talent was not as good as Zhang Xiaotian's, and his temper was much worse.

Compared to Zhang Xiaotian, the Fish Dragon King was much more reliable and tough. Therefore, Changshui Qin naturally bet on Zhang Xiaotian.

At this moment, Han Fei's search made Changshui Qin a little worried. The resources on this island were rich enough, but Han Fei didn't even look at it. What was he looking for?

...

Death Canyon.

As soon as Han Fei arrived here, he immediately felt that something was wrong. This was because corpses and bones were everywhere. In the canyon, even the wind seemed to be wailing. The flickering blue and red flames were much more terrifying than the ghost flames.

As soon as Han Fei landed, he felt the ground was shaking, and the bones were recombining.

This scene reminded Han Fei of the Bone Yard.

However, unlike the Bone Yard, Han Fei saw that many crystal-clear corpses stood up.

Shua!

With a flash of white light, Han Fei held the golden light in his hand and punched horizontally.

With a loud bang, a skeleton was sent flying by Han Fei. However, the crystal-clear skeleton didn't break at all.

Han Fei said, "What kind of bone is this? Why is it so hard?"

The old turtle said, "It means that he was very strong before he died."

Han Fei pointed at the thousands of corpses before him and asked, "Do you mean that they were all very strong when they were alive?"

The old turtle: "Yes."

Han Fei said, "My head hurts. It seems that I can only fight my way through."

"Roar!"

Bang! Bang! Bang!

Han Fei roared and rushed out.

However, deep in the canyon, there was a long-haired woman with fair skin, holding a small circular object in her hand, looking in Han Fei's direction.

The woman's eyes were glassy. Watching Han Fei rush forward like a barbarian, she seemed a little unhappy and slightly wrinkled her nose.

She flicked her finger, and four skeletons with faint golden light slowly got up from a pile of bones and tottered towards Han Fei.

After doing this, the woman glanced at the midair with her glassy eyes and slowly said, "Death Restricted Area, no living person shall enter."

Chapter 1333: Death Valley

This canyon had long been discovered.

However, why did this long-haired woman appear? The main reason was that there was an abyssal cave in the Death Canyon. Even Venerables couldn't see it through. The White Armor Emperor had once said that this place might lead to the Wall of Death.

So no one wanted to go there.

Therefore, if someone chose this Death Canyon, Changshui Qin and the others would definitely tell them. If they didn't choose it, when they really came to this place, they would also feel that this place was extremely difficult and would retreat sensibly.

However, was Han Fei the kind of person who would retreat?

In terms of physique, Han Fei was already one of the top few groups in the Water-Wood World and Yin-Yang World. In these two waters, Han Fei could basically explore most of the dangerous forbidden areas.

Of course, there were very few particularly dangerous places. Han Fei wasn't stupid and wouldn't recklessly explore them.

At this moment, Han Fei's fists were like stars, shining with golden light in the canyon. The Invincible Fist simply ignored these swift and terrifying skeletons.

Although there were big skeleton hands extending out from time to time under his feet like fatal hands from hell, there were two arrays rising from Han Fei's body at all times, and the Soul Controlling Array and Coiled Turtle Array never stopped.

In addition, there were also Infinity Water knives flying like locusts.

Therefore, there was not even a single skeleton that could really shake Han Fei.

Just when Han Fei felt that he could rush to the depths of the canyon quickly, he heard clanking sounds erupt.

This sound was slightly different from the previous collisions, clearer, as if the Infinity Water had encountered an opponent of equal strength.

Among the bones, Han Fei quickly found a few extraordinary skeletons.

When Han Fei saw the skeletons, he was shocked. Four pale golden skeletons? What did they mean?

Before Han Fei asked, the old turtle said, "Half-Golden Body. These four people were four Venerables when they were alive and had already condensed a half-golden body. Even after such a long time, their golden bodies still have a luster, indicating that they were at least advanced Venerables when they were alive."

“Hiss!”

Han Fei couldn't help but ask, “How can it be? Is the Wall of Death really so terrifying. How can there be so many dead Venerables on a single island? And there are even kings hidden inside?”

The old turtle said, “There might not be a king hiding in this place, but there must be Venerable-level creatures. These four skeletons aren't important. I have a feeling that there are other creatures watching this place.”

Han Fei's heart did a flip. Not only the old turtle, but he also had this feeling.

From the moment he stepped into this Death Canyon, he felt a chill down his spine as if he had been targeted.

Han Fei immediately thought of the dragon soul he had seen in the Ideal Palace. He couldn't help but ask, “Could it be that there's still a trace of dragon soul left?”

The old turtle said, “I've never seen a dragon before, so I don't know. However, the thing that's peeping at us should be in the depths of the canyon. However... there seems to be a seal there that blocked our perception. We should be able to see it if we can defeat these four people.”

Han Fei rolled his eyes. “As you said, these are four Venerables.”

The old turtle said, “After all these years, their golden bodies have retrograded. You also have a half-golden body. Why should you be afraid?”

“Roar!!!”

Under the charge of the Infinity Water, four pale golden skeletons rushed up at a faster speed.

Shua!

Holding Snowmourne, Han Fei smashed it at them, trying to kill one of them first.

However, one of the skeletons clenched his fists and stomped, pushing out together.

Clang!

A terrifying sword Qi swept within a kilometer.

Hundreds of skeletons rolled on the ground because of this sword Qi. A few skeletons were even shattered.

Of course, the four golden skeletons were fine.

Seeing this scene, Han Fei was shocked. Is this the power of the golden body? His full-strength blow was blocked by the golden body.

The old turtle said, “Look at your own physique. Their bones are no weaker than yours. Do you think you can kill yourself?”

Han Fei said, “I'm stronger than them. My body is still there. Not only my golden body, but my body is also indestructible.”

Bang! Bang! Bang!

Han Fei recalled Snowmourn and instantly collided with the four golden skeletons.

At that moment, Han Fei's figure flashed. He activated the Heavenly Void Divine Movement, which was enough to reach the speed of one against four. With the Devil Change, his strength doubled, and his combat power was already higher than these golden bodies.

“砰砰...”

Boom!

The battle was rather fierce. In a few seconds, there were thousands of fist marks blasted out. Han Fei's fists punched out horizontally and ferociously, knocking the four golden bodies back.

Bang!

Han Fei punched the head of one of the skeletons again, sending it flying nearly 100 meters away, leaving a big pit among the skeletons.

At the same time, several fist marks hit Han Fei.

Although Han Fei had learned close-quarter combat skills from Ren Tianfei and also had the 108 Desolate God Body, he could only barely withstand this terrifying force.

However, compared to the various strange combat skills, Han Fei preferred the pleasure of fists hitting flesh.

He clenched a fist and kicked it away.

One of them punched Han Fei in the chest, and Han Fei collided with his head. With a clang, the skeleton was still sent flying.

In the outside world.

As for the Venerables on the surface, except for the Insect King, Yun Chu and Changshui Qin had never stopped frowning. What kind of freakish physique did Han Fei have?

Everyone who had entered the Venerable realm knew that once one became a Venerable, there would be a huge difference. Whether it was the body or the soul, they would be several times stronger than those in the Dao Seeking realm. Especially in physique, once one became a Venerable, their spiritual energy or demonic energy would be completely liquefied and change qualitatively, and their physique would be greatly improved.

Furthermore, some top Heavenly Talents had already begun to absorb Chaos Energy when they became Venerables. At that time, their physique and comprehensive strength would only be stronger and begin to develop into a golden body.

Therefore, when they saw the four golden bodies, they were actually shocked. To be able to cultivate golden bodies, they must have been top experts in the past.

The Venerables who were hiding in the void were also lost for words. They wondered what kind of body-refining technique Han Fei had practiced that allowed him to fight four golden skeletons without retreating at all.

Death Canyon.

“Roar!”

After fighting for a long time, Han Fei discovered the problem: these golden bodies had a limited frequency of fighting. They also needed a huge amount of energy to support them, or else how could they carry out such a terrifying attack?

Since it was energy, Han Fei opened his mouth and a huge amount of energy gathered in his body.

Without the support of massive energy, these golden skeletons were no different from iron frames.

Bang!

Han Fei used the Sacrificing Punch to blow up a golden skeleton. Of course, those bones were not broken but just shattered.

Bang! Bang! Bang!

In just half an hour, four golden skeletons were shattered by Han Fei one after another.

At that moment, Han Fei found that there were no longer skeletons attacking him. In the canyon, he saw skeletons standing there with faint blue soul fire flapping in their eyes. They seemed to be watching him, but none of them continued to attack him.

Perhaps he knew that the huge-crowd strategy shouldn't be of much use to Han Fei, but the bones still made Han Fei's scalp tingle.

In the depths of the canyon, Han Fei didn't retreat but came to the so-called seal.

Deep in the canyon, it was like a black, translucent energy shield.

However, when Han Fei approached, he saw a pale woman standing inside of the translucent black seal. The woman held a fist-sized porous appliance in one hand and pressed a stone tablet with the other.

The words “Death Valley” were carved on the stele.

When he saw the woman, the corner of Han Fei's mouth twitched slightly. This woman seemed to have flesh and blood on her body, but he could see the bones inside her through the so-called flesh and blood.

Or rather, the woman looked like a skeleton with translucent human skin.

Even from a distance, Han Fei was a little scared. The three words “Death Valley” reminded him of the “Gate of Hell” and looked creepy.

Han Fei frowned and thought to himself, What should I do? The people I met before were all skeletons. Now, are they humans or skeletons? She didn't speak, but she didn't seem simple.

The woman said, "No living person can enter the Death Zone. If you want to go to the Death Valley, you should abandon your mortal body and switch to an undead creature. Do you agree?"

Han Fei shook his head. "I want to live."

The woman looked at Han Fei. "Then go back."

Han Fei thought to himself, Should I fight or not?

Han Fei asked, "Miss, do you know of the dragon race?"

The woman was indifferent to Han Fei's words. "I don't know!"

Han Fei was puzzled. Is it not here? Or is this woman deceiving me?

Logically speaking, if the Dragon Essence Energy wasn't in a place with abundant creatures, it should be in the place where the dragons died.

According to Little White's perception, this was the place on this island that had the most death aura and was the most evil.

Han Fei could even see a big hole appearing in the translucent seal behind the woman. There must be something extraordinary there.

The old turtle said, "This woman doesn't seem to be weak. I feel that she should be in the Venerable realm. However, she seems unable to leave that seal."

"Shit!"

Han Fei was stunned. Didn't it mean that she could kill him with one slap?

However, this woman didn't seem to have any intention of killing him. Han Fei pondered for a long time and decided not to return without getting any information. What if the Dragon Essence Energy was here?

Han Fei said, "Are you sure she can't leave the seal?"

The old turtle said, "If she can, would you still dare to stand here?"

Han Fei was silent for a long time before he suddenly raised his head and said, "Miss, I'm here to seek opportunities. Give me some, or I will lose face."

The woman tilted her head slightly. "What if I don't?"

Han Fei smiled. "Smash your valley and sweep the bones outside your seal."

Blue light glowed in the woman's eyes, but Han Fei didn't take a step back.

In the end, the woman seemed to be thinking about something and casually threw out the strange porous appliance in her hand.

The woman said, "It can protect you from undead creatures.. If you don't retreat, let's fight."

Chapter 1334: Bone Xun

Han Fei didn't expect that the man would simply throw out the thing in her hand!

Originally, Han Fei just wanted to trick the other party. What if the Dragon Essence Energy was behind her? What if she was the creature guarding the Dragon Essence Energy?

If so, this woman would definitely not agree to his request!

Han Fei didn't think that there were any treasures here except for the big pit in the seal.

After taking the ball, Han Fei saw information.

< Name > Death Bone Xun

< Introduction > It's made of a king bone, dead soul flame, extreme yin energy, golden bone powder... It has the magical power to control some undead creatures. Whoever wears it will be surrounded by death energy and can blend into undead creatures. When playing the bone Xun, one can control some undead creatures.

< Quality > Ultra-quality Divine Weapon

< Enchantment > None

< Effect > To control undead creatures.

< Recastable >

< Unrefined >

< Remarks > It cannot control undead creatures of the same level or stronger than the user.

Han Fei was shocked to see it. This thing was refined from a King Bone! But why was it only an ultra-quality Divine weapon?

Look at the Sky Dissecting Finger. One finger can kill a Venerable.

This bone Xun didn't seem to be able to kill Venerables. However, it didn't seem to be bad. Although he hadn't encountered many undead creatures so far, undead creatures definitely occupied an important position in this world. Even the Patriarch Thug had switched to become an undead creature.

Holding the bone Xun, Han Fei was actually not satisfied.

He felt that if the other party could even casually throw out such an ultra-quality Divine weapon to stop him, wouldn't the thing behind her be more important?

Even the old turtle said, "There must be a big secret here. I feel that there is something strange about the seal. However, why didn't the three kings search it by force? This is a little strange."

Han Fei said, "This island is extraordinary in every way. Who knows what the kings are afraid of? I'll ask my junior sister later. However, I still don't want to leave although this girl has given me her treasure! Shall we find a way to kill our way in?"

Buzz!

Suddenly, Han Fei and the woman looked up at the sky at the same time. The tribulation clouds were thick, and someone was going to transcend the tribulation here?

Han Fei's heart did a flip. That place seemed to have a bit of dragon might?

At this time, Han Fei finally felt it!

"Fuse!"

The Yin-Yang Divine Eyes appeared, and Han Fei immediately sensed that a dragon might was appearing in the east. For a moment, Han Fei was shocked! Was the Dragon Essence Energy really not here?

Han Fei quickly looked back.

"F*ck!"

Then he was shocked.

It turned out that under his Yin-Yang Divine Eyes, the woman had completely turned into a skeleton. However, there were countless soul shadows in this skeleton.

Han Fei felt terrible. This woman seemed to have swallowed countless souls. She looked too evil!

The woman looked back at Han Fei. "Leave."

Han Fei smiled awkwardly. "I'm leaving. Bye bye, girl."

Han Fei didn't want to have conflicts with such a weird person. This woman seemed cold. He didn't know why this island appeared.

His current strength was still weak, so he didn't want to deal with undead creatures, which he didn't know should be counted as lives or not...

Swish! Swish! Swish! Swish!

Han Fei quickly left the Death Canyon, turned around, and flew to the east.

Originally, all the trial-takers on the island were consciously gathering towards the west grassland, causing the whole island to lean towards the west.

But as soon as the deserted tomb disappeared, the trial-takers dispersed again. Earlier, because of the weather anomaly, nearly half of the people were attracted.

Now, the tribulation clouds were thick and extended thousands of kilometers. Within ten thousand kilometers, a storm fell with a loud bang.

With such a loud noise, how could the trial-takers on the island not notice it?

For a moment, at least 20 people immediately stopped, turned around, and flew in the direction of the Heavenly Tribulation. They were all top Heavenly Talents, and everyone here had reached the moment of tribulation.

However, some people wanted to wait and improve a little more. The stronger they were now, the stronger they would be in the Dao Seeking realm.

Some people wanted to increase the probability of successfully transcending the tribulation. They felt that it was dangerous to transcend the tribulation, so they had to make sure they could pass it.

However, everyone who transcended the tribulation knew one thing: that was... don't transcend the tribulation while surrounded by wolves. This was because if someone forcibly transcended the tribulation, it would inevitably cause the tribulation to be unstable, and then the danger would inevitably increase by 30%.

At this moment, someone chose to transcend the tribulation during the trial.

In others' eyes, that person must feel that he could safely transcend the tribulation.

Such a treasure trove alone was attractive enough. Then why was that person transcending the tribulation? He probably had to transcend the tribulation.

On this island, what could force a Dao Seeking realm powerhouse to transcend the tribulation was definitely a great opportunity.

Even Han Fei had the same thought. Besides, he was more certain that this great opportunity was definitely related to the Dragon Essence Energy.

Han Fei cursed, "Damn, it turns out to be in the east."

The old turtle said, "The person who transcended the tribulation is not weak. The tribulation clouds cover such a large area, and his talent is comparable to yours."

Han Fei frowned and said, "I know who it is. It's most likely not from the Water-Wood World. The strongest person who came from the Water-Wood World this time was the fake me. Secondly, there's only one person in the White Shell City who can do this. Zhang Xiaotian. Tang Yue from the Blood Sea Divine Wood isn't qualified. Besides, she has already run away from the trial. There can't be many people like Tang Yue. Even if there is, there will at most be one."

Han Fei's eyes narrowed slightly. "Therefore, the most likely one is Zhang Xiaotian, and at most an unknown person from the Blood Sea Divine Wood City. It must be one of the two."

Swish!

Han Fei flew across the void, and void cracks appeared in the sky. Almost every kilometer, there were three, or even seven or eight.

Even Han Fei had to dodge the void cracks that appeared at such a high-frequency.

However, once he dodged, it would take several times more time.

Han Fei roared and the Glaring Vajra appeared, and the invincible will condensed a circle of light on his body. Under his feet, the Coiled Turtle Arrays appeared one after another.

Shua!

Other people were shocked.

Some Venerables felt that Han Fei was crazy. He was speeding up regardless of the consequences.

After Han Fei used the Heavenly Void Divine Movement, his speed had reached an extremely terrifying level. With the help of Devil Change, his speed had already surpassed everyone who came to this trial.

And Han Fei hadn't used the Beast King Technique yet!

It was not that he couldn't use it, but he didn't dare to use it. His speed was already very fast. In one second, hundreds of space cracks swept on his body, and he had already tried his best to dodge them!

However, this was much better than when he came out of the Demon Subduing Tower! Back then, there were really dense spatial cracks. Even though his physique was strong, he still almost couldn't withstand them.

But even so, Han Fei was crossing the void at an incredible speed, which shocked many Venerables.

In the void outside, someone was surprised. "What kind of physique does this kid have? Even the four golden skeletons can't beat him! Or is it because Han Fei has the advantage of physical strength and secret techniques, so he's fearless? Han Fei still failed to shatter the golden skeletons. However, it's a little outrageous to be able to reach such a speed on this island."

At this time, Changshui Qin shouted in a low voice, "Water-Wood World, aren't you going too far? Han Fei's physique has at least reached the peak of the Dao Seeking realm. Isn't it unfair to let such a person enter the trial?"

Han Fei had killed two Heavenly Talents from the Blood Sea Divine Wood City.

Tang Yue was kicked out of the trial and was almost killed by Han Fei. Yun Chu also shouted, "Yes, Han Fei's strength has exceeded the standard of this trial. He should quit this trial."

"Hmph!"

The Insect King snorted. "Are you kidding me? Han Fei is just fast. If his strength is really at the peak of Dao Seeking, can you people from the Blood Sea Divine Wood City snatch his treasure? If he is really so strong, can Tang Yue escape?"

Changshui Qin: "With Han Fei's physique, he is already invincible. This has nothing to do with his strength. Because in this trial, no one can kill him. Insect King, do you think this is fair?"

The Insect King said solemnly, "Our team has ten people less. Why is it unfair? No matter how strong Han Fei is, can he sweep all his enemies at once? It remains to be seen whether he can find the opportunity or not. Could it be that with a strong physique, he can't compete for opportunities?"

The three parties had begun to quarrel, but the kings didn't make a sound, so this debate was meaningless.

On the island.

The range of the Heavenly Tribulation had been greatly reduced.

When Han Fei was halfway through, the first lightning bolt had already struck down. And the distance between the two was about 5,000 kilometers.

Han Fei's face turned cold, and he suddenly gritted his teeth and shouted, "Agility of Wind."

Whoosh!

The Phantom Glass Wings spread out.

Although the Phantom Glass Wings were still useful now, they were no longer as important as before. If Han Fei hadn't obtained the Wind God Pearl back then, it wouldn't make any difference if he had these wings now.

However, the Phantom Glass Wings had two special abilities: Infinite Flash and double speed enhancement.

Swish!

Han Fei's speed increased several times more.

He was no longer flying. In the eyes of others, he was simply courting death. His body was already dripping with blood.

This time, he was really wounded all over, but the golden blood was hidden by him.

Boom!

As Han Fei sprinted desperately, he was still one step slower. After only less than 300 kilometers, the third lightning bolt fell.

However, just when everyone thought that the tribulation clouds were about to pass, there seemed to be a dragon turning over in the sky, and purple lightning appeared again.

Han Fei was shocked. "Zhang Xiaotian? Four Nine King Tribulation?"

Chapter 1335: Fight For the Heavenly Tribulation

Not only Han Fei, but all the other forces were dumbfounded. A few days ago, Han Fei had just passed the Four Nine King Tribulation.

Now, it was happening again!

Could it be that peerless Heavenly Talents suddenly popped up in a short year?

Perhaps not, but the strength of this generation of Heavenly Talents was obvious.

Firstly, it was Han Fei, who had already transcended the Heavenly Tribulation.

Then it was the Fish Dragon King. Although he didn't transcend the Four Nine King Tribulation, he had broken into the forbidden-level trial area of the White Shell Royal City, entered the Thunder Prison, and survived, so he was already ranked as one of the core Heavenly Talents.

Unfortunately, he failed to grow up and died on this island.

Now, another Heavenly Talent from the White Shell Royal City had appeared. Zhang Xiaotian was going to transcend the Four Nine King Tribulation. Even Han Fei didn't expect him to be so strong.

Seeing that the tribulation clouds in the sky turned purple-red, Han Fei frowned. "Old Yuan, with my current strength, it shouldn't be a problem for me to attack the Four Nine King Tribulation clouds, right?"

The old turtle said, "You're much weaker now, and your soul power has almost been cut in half. Even if you can resist it, you'll definitely be seriously injured. However, if you can completely snatch this tribulation, your golden body will probably improve further."

At that moment, Han Fei had no time to think at all. The Four Nine King Tribulation was right there. Should he snatch it or not?

If it were an ordinary person, they wouldn't even dare to take a step closer to such a terrifying heavenly tribulation, much less snatch it.

Three hundred kilometers was already within the range of the Four Nine King Tribulation. Han Fei only hesitated for a moment before rushing in.

However, at the moment he rushed in, Han Fei stomped, and the illusion of mountains and rivers appeared. He stuffed about 10% of the resources in Forge the Universe into the Sun-Moon Shell and threw it into the Sea Quelling Painting.

Han Fei didn't intend to take back the rest of the resources. Last time, all the resources he had were used up after the Four Nine King Tribulation.

This time, although he was no longer who he used to be, the intensity of the Heavenly Tribulation depended on the people within the Heavenly Tribulation's range.

Undoubtedly, if Han Fei, an uninvited guest, was to barge in, he would inevitably draw out most of the power of the heavenly tribulation.

Therefore, at this moment, the purple heavenly tribulation paused, and the black clouds suddenly became heavier. The power around the island instantly poured in.

Boom! Boom! Boom!

Facing Zhang Xiaotian, the Four Nine King Tribulation would come one after another. However, facing Han Fei, in an instant, three purple lightning bolts struck down.

Of course, the power of the purple lightning was not as terrifying as the real fourth one.

However, these three bolts of lightning were actually just to stop Han Fei, so that the heavenly tribulation could quickly absorb the energy between the heavens and earth and gather stronger power.

"Beast King Technique!"

"Roar!"

Han Fei roared, put on a battle suit, stepped on the big Coiled Turtle Array, and held the Embroidery Needle, facing the sky.

Boom! Boom! Boom!

Han Fei's posture looked cool.

However, in an instant, his skin was cut open and his body was full of cracks. Three bolts of lightning blasted Han Fei into the ground, and the Embroidery Needle was sent flying more than a hundred kilometers. His mid-quality Divine Weapon-level battle suit was melted into iron water. What array? What invincible will? What Glaring Vajra? They all disappeared.

However, these efforts were not without merit.

Purple electric arcs flashed on the surface of Han Fei's body, and Han Fei's chest was rising and falling. The absorption technique was madly absorbing the terrifying power of the lightning tribulation, and Han Fei's body expanded to several times its original size.

In Han Fei's body, his bones, flesh, and blood were numb.

Only his meridians could withstand the flow of the power of the heavenly tribulation. It quickly gathered the power in his meridians and then dissipated into his flesh and bones.

"Get lost!"

When Han Fei withstood three purple lightning strikes, Zhang Xiaotian was enraged.

Countless people helped suppress his Four Nine King Tribulation, and he also crazily polished his foundation and suppressed his strength to the limit.

This time, he happened to encounter a great opportunity. He had just absorbed 30% of it and was about to use it to pass the Four Nine King Tribulation! However, when the fourth lightning bolt came, Han Fei came. In an instant, he snatched half of the tribulation's power.

Although Han Fei had snatched the Heavenly Tribulation, to a certain extent, it was also to help him transcend the tribulation. This was because if he couldn't transcend this tribulation, Zhang Xiaotian would definitely be killed. However, would people like Zhang Xiaotian be afraid? This was his chance, okay?

No matter who transcended the heavenly tribulation, as long as he transcended it, he would be filled with the power of the heavens and earth, and his body would undergo thorough changes.

However, the last purple lightning of the Four Nine King Tribulation was the essence of this heavenly tribulation. As a result, Han Fei ate half of it in one bite. How could Zhang Xiaotian bear it?

Zhang Xiaotian's eyes turned red, and nine bloody spears shot out of the void.

After all, it was not an internal battle, and the two were on opposite sides. Zhang Xiaotian naturally wouldn't hold back.

Therefore, he threw out all the nine bloody spears at once. The nine spears locked onto each other. Zhang Xiaotian was going to kill Han Fei once for all while the latter was resisting the heavenly tribulation.

In Han Fei's heart, the old turtle said, "No, this person is strange. Although I admit that this child is talented, he's not strong enough to withstand the Four Nine King Tribulation. In this barren land, it's not

that no one can withstand the Four Nine King Tribulation. However, after all, resources are limited, and defense methods are limited. If you can't do it with resources, how can he do it?"

Han Fei felt that he was at the peak of his combat power. At this moment, he roared and threw out the Sacrificing Punch, and the Embroidery Needle in his hand had been replaced by two sledgehammers.

Bang! Bang! Bang!

As if the stars exploded, the first four of the nine bloody spears were shattered, unable to block the Sacrificing Punch at all.

Boom!

However, when it came to the fifth spear, it was annihilated at the same time as the Sacrificing Punch.

The sixth spear arrived in an instant along with the aftermath of the battle. However, Han Fei had already swung the hammer five or six times, and a giant hammer struck down again.

Bang!

The mid-quality divine-weapon level sledgehammer in Han Fei's hand exploded in an instant, shattering the sixth bloody spear.

Facing the seventh spinning spear, an array appeared on the other sledgehammer in Han Fei's hand. On the surface of Han Fei's body, a Coiled Turtle Array appeared.

Bang!

The seventh spear shattered.

Ding ding ding!

The eighth spear was about to stab into Han Fei's chest. The Infinity Water, like a spiral cone, blocked crazily in front of Han Fei. Only then did Han Fei hold the Embroidery Needle and use the rod as a saber.

Clang... Crack...

The eighth bloody spear still failed.

At this moment, all the people who were watching the battle were shocked. Is this guy still a human being? He had just been struck by lightning, and now he was unleashing such terrifying power.

So was Zhang Xiaotian.

The ninth bloody spear weren't something that creatures below the advanced Dao Seeking realm could resist at all, because they were too strong and sharp.

The ninth bloody spear was like an attack when multiple spears and divine weapons were combined and released their peak strength.

Han Fei's eyes flashed, and he shouted, "Nine Heavens Thunder."

In Han Fei's mind, he activated his Dao Seed and imagined himself holding a lightning spear and attacking with all his strength.

In the next moment, a purple lightning bolt struck down. Han Fei reached out and grabbed, and a purple lightning spear was held in his hand.

The spear struck out, hitting the ninth bloody spear horizontally.

With a boom, the space within 300 kilometers collapsed.

Zhang Xiaotian was shocked. "How is it possible? How can you borrow the power of lightning?"

In the outside world.

Even the White Armor Emperor was shocked. "What kind of method is this? Using a king-level tribulation as a weapon? Mu Wuhua, is Han Fei the reincarnation of the ancient powerhouse from the Water-Wood World?"

Queen Life snorted. "Is it difficult to admit that Han Fei is stronger than you were?"

"Humph, what a joke. How can he be compared to me? I wasn't shaken by the Four Nine King Tribulation at all back then."

That being said, the White Armor Emperor frowned slightly. Han Fei's strength seemed to have exceeded everyone's imagination. Zhang Xiaotian probably wouldn't be able to transcend the heavenly tribulation perfectly.

Rumble!

Han Fei had just held the lightning spear and struck out.

However, as soon as he struck it, an extremely thick bolt of lightning immediately struck down, directly penetrating his and Zhang Xiaotian's bodies.

At that moment, purple lightning flashed between them.

Han Fei vaguely saw that a wisp of soul seemed to be struggling in Zhang Xiaotian's soul.

"Huh?"

Suddenly, the old turtle said, "Not good. This person is the reincarnation of a certain powerhouse."

Han Fei's hair stood on end. He could clearly feel that the lightning that struck him was far more powerful than the lightning that struck Zhang Xiaotian.

Han Fei cursed, "Do you have to talk to me about this right now?"

At that moment, the cracks on Han Fei's body were torn apart, his skin was melting, and his hair was evaporating. Even though he was already using the Swallowing Technique, he still felt that his body was filled with terrifying energy.

Chi la!

In Forge the Universe, a huge amount of spiritual spring evaporated, and thousands of spiritual fruits shattered one after another, turning into billowing spiritual energy and energy, and began to scour Han Fei's body.

On the other side, Zhang Xiaotian was no better than Han Fei.

Zhang Xiaotian took out a turtle shell from somewhere. On the turtle shell, there were countless arrays, with thousands of arrays engraved on it. Although the arrays were shattering crazily, Zhang Xiaotian, unlike Han Fei, seemed to try to pass this lightning bolt safely with the help of them.

Han Fei was enshrouded by the purple lightning, and some of his bones were exposed.

However, this lightning didn't seem to end. From the sky, a terrifying power was still descending.

In such a situation, let alone fighting, the two of them couldn't even move.

In this case, Han Fei simply stopped moving.

The absorption technique was madly absorbing power.

He activated the Indestructible Body. This time, it was no longer his flesh but his bones being tempered. The moment the Indestructible Body was activated, Han Fei felt the most terrifying pain in the world. He felt that his bones were crushed into grains of sand.

The terrifying spiritual energy and energy were polishing the grains of sand, which seemed to be disassembling and calcining his bones. It was extremely painful.

"Damn it... It hurts..."

Chapter 1336: Body Refining Progress

"Ren Tianfei, you son of a b * tch, what kind of bullsh * t technique did you create?"

Han Fei was already cursing in pain.

When he was practicing the first four levels of the Indestructible Body, Han Fei felt fine although it was extremely painful and he wanted to curse countless times. When he was practicing the Indestructible Body, he even wanted to die.

However, he had never felt this painful before. It seemed that his bones were really broken into pieces. The feeling of his bones being squeezed into fine sand bit by bit made Han Fei wonder if he could hold on.

Apart from the physical pain, the soul pain was actually not small at all.

After all, Han Fei had severed half of his soul. Although his strength in this aspect wasn't weak now, he was still not strong enough.

At this moment, the Demon Purification Pot began to spin slightly.

Last time, the Demon Purification Pot took the initiative to replace Han Fei's spiritual heritage.

This time, seeing that Han Fei could barely withstand the power of the Four Nine King Tribulation, the Demon Purification Pot only slightly alleviated the pain in Han Fei's soul.

Compared to the painful Han Fei, Zhang Xiaotian was slightly more comfortable. Of course, this so-called comfort was only relative.

For ordinary people, you were already a Heavenly Talent, so you should be strong.

In fact, the so-called unparalleled Heavenly Talents were just something others said without any substantive meaning. It was just a form of address.

Ordinary people only saw how talented the Heavenly Talents were, but they didn't see how difficult it was for them to grope their ways forward carefully.

Even a reincarnation of a powerhouse like Zhang Xiaotian had prepared countless treasures when dealing with the Four Nine King Tribulation. For example, the turtle shell just now, and the thousands of interlocked arrays. They were not something ordinary people could obtain.

Han Fei could also tell that Zhang Xiaotian had always been a wolf in sheep's clothing.

As for the turtle shell arrays, it was impossible for others to help him carve them. This kind of trump card thing was definitely drawn by him little by little and was kept as a secret to anyone.

Therefore, Zhang Xiaotian was actually a master of arrays. His array skills should be no weaker than his.

If he had enough time to prepare, it wouldn't be easy for him to carve such a turtle shell array.

At this moment, seeing that the turtle shell array was about to be broken, Zhang Xiaotian swallowed the lightning power that dissipated into his body and took out a bottle of pills with difficulty.

Han Fei thought to himself, What's the use of it? When I was on Heavenly Heart Island, I couldn't even resist a bolt of lightning. What did Zhang Xiaotian take out?

Zhang Xiaotian swallowed a red pill in one bite. Immediately afterward, the space he was in was enveloped by flames. The fire walls, like blooming fire lotuses, grew larger and larger, and didn't stop until they were nearly a hundred meters long.

Crack!

The turtle shell suddenly shattered, and the purple lightning struck the flame lotus, which now turned into flaming lotus petals that were withering.

Compared to Zhang Xiaotian who was fully equipped, Han Fei was simply reckless.

What turtle shell? What pills? Han Fei only had his own body.

At this moment, he felt that his bones were cracking inch by inch, and he had gained three times more weight. In his body, half of the resources had been consumed and were attacking his body frantically.

Of course, there were also benefits, which was that Han Fei's Indestructible Golden Body was strengthening bit by bit.

Looking inside, Han Fei found that there were always some white spots in his bones. Those places were being refined. To refine a piece of bone the size of grain of sand from white into pale golden, the

resources required were extremely terrifying, not to mention that Han Fei was going to refine the whole body.

However, when he refined his body this time, he realized that his Indestructible Body was becoming stronger.

For some reason, Han Fei suddenly had an intuitive feeling in his mind. It seemed that he had completed nearly 40% of the Indestructible Golden Body.

Han Fei remembered that he would be able to understand a lot of power after he comprehended the Dao. At this moment, Han Fei already had an intuitive feeling about the strength of his golden body.

It lasted for three minutes before the terrifying lightning finally disappeared.

During this period of time, Han Fei and Zhang Xiaotian performed their best.

Han Fei, who was working on the fifth level of the Indestructible Body, was trembling all over. The tempering of his bones had finished by more than 40%.

In the past, with the so-called Half-Golden Body, only 30% of his body had been transformed into the golden body. This time, he stole a thunder of Zhang Xiaotian's Four Nine King Tribulation, which increased the effect of his golden body by more than 10%. It was really a windfall.

Besides, Han Fei felt that his strength had increased a little bit. However, this improvement was very small, so Han Fei didn't care.

At this moment.

Han Fei felt that his body was still transforming and his bones were still being squeezed.

On Zhang Xiaotian's side, he wasn't any better. However, Zhang Xiaotian was well-prepared! In front of him, hundreds of spiritual fruits swirled and shattered, providing him with energy.

Zhang Xiaotian hadn't opened his eyes yet. Han Fei knew that this was a process of the power in his body rapidly transforming after the tribulation. During this process, this strength was rapidly increasing.

With a thought from Han Fei, the Void Lines appeared and darted at Zhang Xiaotian.

However, the moment the Void Lines appeared, a large number of purple electric sparks in the void crackled and exploded.

Han Fei quickly retracted the Void Lines.

The old turtle said, "What's the rush? The power of thunder hasn't completely dissipated yet. There are at least dozens of seconds before it can disappear."

Han Fei cursed in his heart, No wonder he's so powerful! There's actually a wisp of soul suppressed in his body. It turns out that it's the reincarnation of a powerhouse.

The old turtle said, "A reincarnation body will always be a reincarnation body. This shows that Zhang Xiaotian has a true body. This true body should still be in a dying state. How to nurture a reincarnation

body while still alive is the key. When the time comes, after completely refining the reincarnation body, he can easily live in it and live another life.”

Han Fei was lost for words. “Are all strong masters like this? Reincarnating over and over again. What’s the difference between this and living forever?”

“Of course there’s a difference. Reincarnation body is just a reincarnation body. There are benefits and disadvantages to it. The benefit is to live another life. However, let me tell you, a king can only live another life at most. If he does it again, his origin power won’t be enough to support him to reincarnate again.”

Han Fei said in surprise, “Really?”

The old turtle sneered. “Otherwise, why do you think so many strong masters pursue the realm of longevity? A king is just a king. Although his lifespan is very long, there is still a limit. Of course, there are Venerables who will nurture a reincarnation body for themselves. However, those Venerables are stupid, thinking that reincarnation is enough. Little do they know that once their origin power becomes weak, it will be more difficult for him to become a king again.”

Han Fei thought to himself, In that case, having a reincarnation body is not entirely good. If you reincarnate once, in addition to being able to live another life, but if you don’t complete the path you took in your first life, who says you can do it in your second life?

Suddenly, Zhang Xiaotian slowly opened his eyes.

It had only been two minutes, and Han Fei hadn’t recovered his body yet. He could only keep baptizing himself with spiritual energy.

In eight seconds, Han Fei’s body size was only reduced by one time at most. But even so, Han Fei was still three times as fat as before.

Of course, Han Fei was also digesting it. Not only was he digesting it, but he also threw a Holy Light Technique on himself, hoping that he could quickly recover and reach the peak of his combat power.

Zhang Xiaotian looked at Han Fei coldly. “Human, Han Fei.”

Seeing that Zhang Xiaotian’s face was very dark, Han Fei grinned and said, “Ah! You found out. I saved you once and helped you pass the Four Nine King Tribulation, but you don’t even feel grateful to me? That’s ridiculous!”

Zhang Xiaotian was too lazy to bicker with Han Fei. He simply said, “I’ve passed the Four Nine King Tribulation. Even if you snatched half of the last lightning, it won’t make you invincible.”

Han Fei sneered. “Don’t worry. It’s enough for me to kill you.”

One minute passed.

Zhang Xiaotian recovered first.

After all, the power of the purple heavenly tribulation he endured wasn’t that much, so he recovered first.

Chi la!

The nine bloody spears reappeared, and Zhang Xiaotian didn't intend to hold back at all.

Clank ~

The Infinity Water turned into ten thousand blades and swept across, blocking the nine bloody spears.

Ka ka ka ~

This time, the Infinity Water was defeated by three bloody spears.

Zhang Xiaotian's eyes turned cold. "Unfortunately, you lost. Die!"

"Explode!"

When the nine bloody spears were about to reach Han Fei, the Infinity Water exploded.

Zhang Xiaotian didn't have the time to react at all. The two of them were already very close to each other. As soon as the Infinity Water exploded, three bloody spears were shattered.

Han Fei and Zhang Xiaotian were blown more than a hundred kilometers away.

Take the nine bloody spears again? Han Fei knew that it wouldn't be so easy. Looking at the nine bloody spears that broke through the wave of explosions, a Glaring Vajra appeared behind Han Fei.

"Moo!"

Han Fei knew that the law of the Glaring Vajra couldn't resist the nine bloody spears. However, with a thought, he activated the Dao Seed, and the power of the Glaring Vajra skyrocketed.

It smashed a bloody spear with its palm, but the palm was also shattered.

Next step, the Glaring Vajra used his body as a shield and his severed hand combined as one.

With a clang, the Glaring Vajra was shattered into pieces. In the end, it couldn't resist Zhang Xiaotian's nine bloody spears.

However, at this moment, Han Fei's body had recovered to twice its original size, and the tingling feeling in his bones had quickly subsided.

Seeing that the ninth spear was about to be used, Han Fei extended his hand, took out the Embroidery Needle, and pushed it horizontally with his palm. With a loud clang, Han Fei retreated more than ten kilometers, but managed to resist the so-called ninth bloody spear.

Zhang Xiaotian was shocked. How strong is this Han Fei? Last time, he seemed to have a hard time blocking the ninth bloody spears.

This time, although he hadn't fully consolidated his strength, his strength had doubled, and the ninth bloody spears were still blocked! It was even easier than last time.

Han Fei suddenly raised his head and grinned. "What, do you have any other means?"

Chapter 1337: Reincarnated Old B*stard

For the first time in Zhang Xiaotian's life, his heart stirred.

In the past, he often looked down upon others from a superior perspective. He seemed to be modest but was actually disdainful. The reason why he was ranked fourth on the Genius List was just to motivate the people behind him, so he never took the ranking seriously.

The Fish Dragon King that Han Fei played only caught a little attention from Zhang Xiaotian. That so-called Heavenly Talent still couldn't resist his nine bloody spears.

But now, Han Fei, as a junior Explorer, had blocked his nine bloody spears twice in a row and even with ease without any injuries.

Zhang Xiaotian looked a little solemn. There was a great treasure here. He had just swallowed a strange water here and was forced to transcend the tribulation.

However, the Four Nine King Tribulation came at him. If he hadn't been prepared for the tribulation, the Four Nine King Tribulation wouldn't have been easy to pass. Even if he had prepared so much, if Han Fei hadn't come, he would have been seriously injured by the Four Nine King Tribulation.

Therefore, although Han Fei snatched some of the heavenly tribulations, it also helped Zhang Xiaotian transcend the tribulation successfully.

At this moment, Zhang Xiaotian was shocked. Although he had only heard that a Heavenly Talent from the Water-Wood World had passed the Four Nine King Tribulation, he didn't think much of it at that time. He only thought that Han Fei was lucky or had the help of many Venerables, so he could pass the tribulation.

Now it seemed that his fame was not in vain. If he hadn't succeeded in transcending the tribulation, Han Fei might have been able to crush him.

At this moment, Zhang Xiaotian had just transcended the tribulation and was in dire need of consolidating his cultivation. However, there was obviously a great opportunity in this treasure land. How could he let it go?

Bam! Bam! Bam!

Circular black holes of different sizes suddenly appeared around Zhang Xiaotian. He said, "Han Fei of the Water-Wood World, I'll remember you. But that's it."

Swish! Swish! Swish!

The black holes of various sizes were swirling in midair, smashing directly at Han Fei.

Swish swish swish!

Han Fei flashed several times, only to see that the black holes were following him like shadows. It turned out to be a special technique, and the space-type attack ignored the space itself.

Chi la!

Han Fei waved his hand and threw out more than 20 large Coiled Turtle Array maps. As soon as the array maps were opened, the space spiral exploded with bangs.

To Han Fei's horror, the 20 Great Coiled Turtle Array maps only obliterated eight void spirals.

At this moment, Zhang Xiaotian turned around and ran into the mountains. In the blink of an eye, he had disappeared from Han Fei's vision.

Han Fei snorted. You want to compete with me in speed? OK, I can let you run first.

"Draw!"

He injected spiritual energy into Snowmourne, and Snowmourne burst out with brilliance, like a bright moon, leaving an arc in the air.

After only one attack, he destroyed the remaining five Void Spirals.

"Star Teleportation."

As it concerned the Dragon Essence Energy, the strong master in the deserted tomb told him the information personally. They both belonged to the human race and he had fed him so much food. That person should have no reason to swindle him.

At the moment he crossed the void, all Han Fei could see was void cracks. There were even several rays of light from the void that narrowly flew past him.

Han Fei knew that it was the so-called void turbulence. Once he was involved in it, God knew where he would appear, or if he could still appear.

Han Fei activated his Dao Seed, fantasizing that there would be a void opening in front of him. He shortened the void boundary and appeared directly above the mountain.

Zhang Xiaotian had a bad feeling. Han Fei was indeed ferocious. His Sickle of Nirvana was blocked by him in an instant. He had just run out when the guy was gone.

He knew that Han Fei was fast, but even if he was fast, there should be traces, right?

But now, a ray shot out between Zhang Xiaotian's eyebrows, but he didn't find Han Fei.

Suddenly, Zhang Xiaotian's pupils were constricted. Fifty kilometers in front of him, the void opened, and Han Fei stepped out.

Zhang Xiaotian's eyes almost popped out. He immediately looked back. This place is more than 300 f*cking kilometers away. How the hell did you get here?

Zhang Xiaotian believed that he was talented enough. After he was reincarnated, he tempered his body constantly to achieve his current achievements. Even so, he didn't dare to cross the void at this time. Perhaps he could walk ten kilometers or eight, but it was definitely impossible for him to walk more than 300 kilometers!

Not just Zhang Xiaotian, all the Venerables who saw this scene, including the White Armor Emperor and Queen Life, were stunned. How dare you enter the turbulent space? Aren't you afraid you will be killed?

Han Fei turned his head and sneered. "Do you have any respect for me? You want to leave without my permission?"

"Ten Thousand Swords in One."

Han Fei extended his hand and pointed, and ten kilometers in the sky, water vapor spread, and ten thousand knives flew across the sky.

Swish! Swish! Swish!

When the ten thousand knives became one, Zhang Xiaotian finally revealed his true body. A tentacle extended out, covered with a thick green carapace, trying to attack Han Fei.

However, Han Fei simply stood in Zhang Xiaotian's way and roared, "Beast King Technique, Hundred Beast Soul Subduing Technique."

Han Fei's body suddenly rose, and his body expanded almost twice as much. He opened his mouth and took a breath, and energy entered his body.

Roar!

All kinds of strange sounds filled this roar.

In the next second, hundreds of strange beasts that no one had ever seen or heard before stepped on the void, danced in the air, and their cries went straight to Zhang Xiaotian.

Han Fei faced Zhang Xiaotian and clenched the Sacrificing Punch.

He shouted, "Come on, try using your nine spears again. I'm gonna blow you up today."

"Pfft!"

Zhang Xiaotian vomited a mouthful of blood, seeming to be injured by the Hundred Beast Soul Subduing Roar. However, as a reincarnated powerhouse, Zhang Xiaotian quickly reacted, seeing the Sacrificing Punch erupt, he hurriedly retreated.

For these real strong masters, their life was often at risk, so they were very sensitive to danger.

Seeing that Han Fei was so powerful and his attacks were fierce, he retreated again and again. However, several octopus tentacles stretched out from all directions and struck fiercely.

Boom...

The tentacle was shattered, and Zhang Xiaotian combined his nine spears and stabbed out. With a loud bang, a violent explosion swept more than 50 kilometers around, flattening a mountain under his feet and completely shattering it.

"Puff... Cough, cough..."

Zhang Xiaotian vomited another mouthful of blood, speechless. What kind of monster is this?

Han Fei was also a little surprised. In all these years, there were very few people in the same realm as him who could resist him. Although Zhang Xiaotian didn't dare to fight him head-on, he took his peak-level blow.

Of course, this was just an attack from Han Fei's hand. However, this further showed how terrifying a reincarnation body was.

Of course, Han Fei didn't doubt himself. First of all, it was obvious that Zhang Xiaotian had just transcended the tribulation and was no match for him. Secondly, he had lost half of his soul and his strength was not at the peak. Otherwise, he could easily crush Zhang Xiaotian.

Perhaps knowing that he was no match for him, Zhang Xiaotian still chose to retreat. Although opportunities were important, it was not as important as his life.

Seeing that Zhang Xiaotian was retreating, Han Fei smiled.

"Fuse!"

Zhang Xiaotian was transcending his tribulation here, and the dragon might was everywhere here. Han Fei was sure that if he guessed right, Zhang Xiaotian had already obtained an opportunity.

If he couldn't feel the aura of the opportunity this time, Han Fei would immediately turn back and kill Zhang Xiaotian on the spot. In Han Fei's opinion, since there was such a good thing as the Dragon Essence Energy, it had to be his. Otherwise, he didn't deserve to be called the strongest!

Sure enough, when Little Black and Little White fused and the Yin-Yang Divine Eyes appeared, Han Fei immediately felt a great opportunity. He looked directly at the mountain, in the south direction.

Han Fei stood proudly in the air. Before he moved, he looked around and found that there was a strange power summoning him from the south.

Han Fei certainly couldn't hold it back. Perhaps ordinary people couldn't distinguish the terrain of this mountain, but Little White could.

Although he really wanted to kill Zhang Xiaotian, compared to Zhang Xiaotian, the Dragon Essence Energy was more important.

He was just a reincarnation body that had transcended the Four Nine King Tribulation. In terms of the reincarnation body, Bai Suzhen was no weaker than Zhang Xiaotian. Even when his strength was still at the peak, he didn't defeat Bai Suzhen.

But in terms of a battle to the death, neither of these two people were his opponents. No matter how experienced they were, they could pose no threat to him.

In the outside world.

Outside, Changshui Qin shouted again, "King, Han Fei has exceeded the limit of this trial in combat power. He should quit."

In their opinion, Han Fei was too strong. Han Fei had transcended the Four Nine King Tribulation half a year ago, while Zhang Xiaotian had only passed it less than half a day ago. Changshui Qin and the others certainly didn't want to see such a top Heavenly Talent of their Royal City die.

However, the White Armor Emperor didn't speak.

Not far in front of him, Queen Life said indifferently, "Zhang Xiaotian's strength has clearly exceeded the limit of this trial too, OK? Everyone has their own motives. Since the rules have been set, it's better not to break them. What do you think?"

The White Armor Emperor secretly cursed. Even he underestimated Han Fei's strength. Even Zhang Xiaotian who had been hiding his strength couldn't stop him, which showed how strong Han Fei was.

However, he had been injured before. Several Venerables of the White Shell Royal City died and many were seriously injured. If they started a war at this moment, it would be inappropriate.

Anyway, even if Han Fei really got that chance, so what?

Although he could become stronger with that opportunity, no one could become a king merely with opportunities.

Seeing that the king didn't speak, Changshui Qin reluctantly gave up the request.

On the island.

Han Fei flew forward, but when he was only one mountain away from the strange place, he suddenly saw that all the vegetation on this mountain had withered, and on the huge rock at the top of the bare mountain, there was a headless woman in white clothes looking at him.

This scene was very strange. She had no head but only a broken neck.

However, the woman's next movement almost scared Han Fei out of his pants.

The woman seemed to sense Han Fei.. She stuck her hand into the void and actually grabbed a head, putting it on her neck.

Chapter 1338: The Female Ba's Green Clothes

This phenomenon was very strange. In this mountain range, all the mountains were lush, and occasionally there were wild beasts roaring.

However, the mountain in front of Han Fei was the only one bare among the mountains.

If it was just bare, Han Fei would probably guess that there was some kind of creature or treasure in this mountain that would deprive vitality.

However, when he saw the headless female corpse, he felt terrible.

First of all, this female corpse was too ugly. Female sea demons still looked like women, and even the Inferior Man-Fish looked a bit like humans. But this female corpse's skin was all wrinkled, and she was very thin, so thin that some of her skin was just hanging on her body.

When the headless woman dragged her head out of the void, Han Fei knew that something was wrong. As he expected, the headless woman stepped out and stood in front of him.

In Han Fei's eyes, the information of the headless woman appeared.

< Name > Female Ba

< Introduction > A woman born in certain places extremely hot, born in shocking flames, so she died early as a Ba. The female Ba likes to wear cyan, but wherever she passes, the vegetation withers, so she is hot-tempered. The female Ba is calcined by unusual flames day and night. Her physique is so strong that few creatures in the world can match her.

< Level > 79

< Enforcing law > Withering Fire

< Spiritual Energy > 159,808

< Realm > Sea Demon

< Battle Technique > Green-clothed Fearless

< Unabsorbable >

< Remarks > Once a female Ba reaches a place of lush vegetation, she wants to make cyan clothes.

Han Fei looked at the description on the female Ba with a stunned look. It said that this female Ba was a kind of drought Ba. Wherever she went, there would be a great drought. But why did she like to make clothes?

Fortunately, this female Ba was only level-79, so she was in the peak of Dao-seeking Realm or was a Half-Venerable.

Han Fei looked up and couldn't help but ask, "Didn't they say that some special creatures have been cleared up? Who is this? Aren't they afraid that I'll be slapped to death by these strange creatures?"

Hearing Han Fei's complaint, the Insect King and Queen Life looked at him weirdly. How do you have the cheek to say this? To add you in, we sent ten people less!

Besides, the mountain was bare. Couldn't you tell that the creature had just appeared?

At this moment, Queen Life said, "That's a Half-King. It shouldn't be here."

The White Armor Emperor shouted, "Mu Wuhua, are you going to cheat under my nose? That creature is very strong, but we didn't notice it before. Now that it jumped out, how can Han Fei just retreat?"

Zhang Xiaotian was defeated by Han Fei and was forced to retreat temporarily. At that time, the White Armor Emperor and the others had nothing to say. After all, Zhang Xiaotian was indeed hiding his strength.

But at this moment, when Han Fei encountered a Half-Venerable creature, Queen Life wanted Han Fei to retreat, which the White Armor Emperor certainly wouldn't agree to.

At this moment.

In Han Fei's heart, the old turtle said, "This is a Half-Venerable drought Ba. If I've guessed right, her physique is definitely stronger than yours. I'm afraid you can't beat her."

Han Fei raised his eyebrows. "Stronger than me? How much stronger than me?"

The old turtle said, "The Drought Bas are extremely special creatures. All of them cultivate physique. When they reach a certain realm, they will get some heritage from Hou. At that time, their physiques will be even more terrifying. Under normal circumstances, you can't judge a Drought Bas' physique by normal standards. For example, this female Ba's physique is probably comparable to that of a junior Venerable. And a Half-King Female Ba can fight a king."

The corner of Han Fei's mouth twitched. "So it just means to skip levels to challenge. What's the big deal?"

The old turtle said angrily, "What do you know? It's extremely difficult to cultivate physique, so it's extremely difficult for Drought Bas to cultivate. The fact that there is a Drought Ba here means that there must be a strange fire or a land of drought. Only such a place can nurture creatures like the Female Ba."

Han Fei frowned. "A strange Fire?"

The old turtle said, "Don't covet the strange fire. Let's circumvent this Female Ba first. Don't make an enemy of such a creature."

Han Fei said in his heart, "Old Yuan! What are you talking about? This woman has been staring at me for a long time. You want me to circumvent her? The land of the dragon might is on the short mountain behind her. How can I circumvent her?"

Han Fei thought that if he used the Star Teleportation Technique again, he might be able to circumvent some distance. However, this was a Half-Venerable creature anyway. If this Female Ba wasn't afraid of the void and also entered it, wouldn't he be finished in a minute if she fought him in the void?

Even if he could defeat her, he couldn't fight in the void. He wouldn't do that, but it was possible for this Female Ba to do so.

Therefore, Han Fei set up a Stealth Array, a Concealment Array, and a Breath Concealing Array on himself. He quietly moved to another mountain and hid there, planning to sneak into that mountain.

Han Fei stepped carefully on the bare mountain and looked at the Female Ba every once in a while. When he walked more than 2,000 meters away from her, he heaved a sigh of relief. "Fortunately, this creature's brain seems to be seriously damaged."

But just when Han Fei was about to cross this mountain from the mountainside, he suddenly saw that 100 meters away, the Female Ba was already waiting there.

Han Fei couldn't have felt worse. He waved his hand with an awful look. "Hi!"

Shua!

As soon as Han Fei said so, the Female Ba raised her hand and grabbed at him. The speed was so fast that a flame mark was left in the void.

“Overlord’s Technique!”

Han Fei wanted to take a step back, but for some reason, he wanted to test the strength of the Female Ba’s physique. Since this Female Ba was a body refiner, her strength couldn’t be underestimated.

Bang!

“Pfft!”

Crack!

When the golden fist collided, Han Fei vomited a mouthful of blood. He was hammered halfway up the mountain into another mountain, collapsing a large area.

Han Fei was shocked. What kind of terrifying power was this? Although he attacked a little hastily, he shouldn’t have been blown from one mountain to another!

Han Fei hurriedly cast a Holy Light Technique on himself to repair his bones that had just been dislocated.

But suddenly, in the deep forest on the mountain that he was smashed into, a large number of demon plants suddenly began to burn. Some withered and burned...

Amidst the flames, Han Fei saw that on the other side of the flames, the Female Ba seemed to be searching for something.

Han Fei wondered, What is she looking for? Aren’t we still fighting?

The Female Ba roared and held a special grass in her hand. As the flames on the Female Ba’s body rolled, the green demonic plant was burned by her.

Han Fei seemed to understand what it meant by ‘making cyan clothes’. With her high temperature, which was even comparable to the temperature of magma, how could she make clothes?! An entire mountain is almost burnt up by you. How determined are you?

Han Fei found that the flames on the Female Ba’s body turned dark yellow, a very strange color, but gradually turned into the color of flames.

“Roar!”

The Female Ba was roaring because she had just made clothes for herself, but they were instantly shattered and melted. This made her very angry.

When Han Fei saw this, his heart trembled and he immediately wanted to retreat for the time being, thinking to himself, I’ll make a set of clothes first.

But just as Han Fei was about to leave, he saw that the Female Ba suddenly appeared 100 meters away from him.

Han Fei: “...”

Han Fei said, "Girl, let's talk nicely. We're both civilized people. Look at me, I'm not going anywhere."

Seeing that the Female Ba was not moved, Han Dun immediately told her his plan. Han Fei said, "Do you really want a green dress?"

The Female Ba burst into flames and looked very weird. She stared at Han Fei as if waiting for Han Fei to continue.

Han Fei said, "I'll make clothes for you, and you'll let me go? This exchange is fair."

The female demon nodded, which stunned Han Fei. Why didn't you tell me earlier?! Then I could bring the clothes over!

Clang! Clang! Clang!

Han Fei didn't move but took out the refining platform, the war hammer, and many special crystals.

The old turtle asked, "What are you doing?"

Not only was the old turtle confused, but everyone outside was also dumbfounded. What the f*ck was going on? He stopped exploring the mountain and began to refine weapons?

But the point was, the Female Ba was nodding. Was Han Fei making weapons for the Female Ba?

The insect king thought to himself, What the f*ck are you doing? Do you know that other places are in an uproar?

On this island, many creatures were gathering and rushing over.

There were super big birds hovering in the air, big crocodiles crawling out of the inner river, a large number of beasts, insects, and even large amounts of fruits jumping and rushing towards the mountain.

Except for these creatures, it was impossible for the people of the three forces to not notice the changes here. Therefore, at this moment, almost most of the strong masters of the three forces on the island were rushing here.

Han Fei, on the other hand, quickly raised an azure battle suit and said, "Girl, what do you think? If it's not suitable, I'll modify it for you."

Chapter 1339: Longing for the Emperor's Return

Han Fei didn't know why the Female Ba liked to wear cyan. Maybe it was because the lush vegetation and forest materials might not be enough for her to burn.

Han Fei was already proficient in forging weapons. He believed that the green robe he made was definitely the most fashionable one in the present age, with green light circulating and colorful embellishments.

According to the power emitted by the Female Ba, she shouldn't be able to burn the low-quality Divine weapon in a short time.

Shua!

The Female Ba flashed and appeared in front of Han Fei. Han Fei clearly felt that the Female Ba was not hostile at this moment, so he didn't run at all.

Sure enough, the Female Ba stood in front of Han Fei and took the battle suit in his hands.

However, at the moment when the female demon took the battle suit, Han Fei suddenly stepped back. But he was still a step slower. The Female Ba suddenly hit Han Fei's chest with her palm.

Bang!

Han Fei was smashed into the belly of the mountain, which was mostly broken, and rocks were falling.

"Pfft!"

This time, Han Fei really vomited blood because of the slap. What kind of f*cking power was this? Han Fei believed that he had acquired so many laws, and his strength was already extremely terrifying, but he was still far inferior to this Female Ba in strength.

Although the difference in realm was true, he had the Beast King Technique and his explosive power was extremely terrifying. But even so, he was still knocked out by this Female Ba.

The old turtle said, "Brat, why did you make clothes for this Female Ba? And why did she agree to it?"

Han Fei cursed, "Didn't you see that the spiritual plant in her hand looks like a green dress?"

The old turtle was silent for a long time. "I don't know whether to call you smart or stupid!"

Han Fei said impatiently, "Just say it. That Female Ba is coming again."

The old turtle said, "You've accidentally found a way to make this Female Ba stop. But what this Female Ba wants is not the clothes, but the vitality contained in the spiritual plant. You can even tell that she wants to wear clothes. Can't you see that?"

"Uh..."

Han Fei was lost for words. Shit!

Bang!

The mountain was blasted apart, and the Female Ba stood on a rubble not far away, looking at Han Fei coldly.

Feeling the killing intent, Han Fei immediately shouted, "Girl, wait a moment. I made a mistake just now. Wait a moment. Let me make another one for you."

The low-quality Divine battle suit that Han Fei had just refined was crushed by the female demon's attack.

Sure enough, when the Female Ba heard that Han Fei was going to make her clothes again, she stopped again.

Outside the island, all the onlookers were puzzled. What was Han Fei doing? Why was he making clothes?

Han Fei carried two sledgehammers in his hands.

Clang!

Dozens of materials floated in the air, and Han Fei suddenly struck out.

Han Fei jumped into the air, activated the Hundred War Divine Hammer, and hammered from a mountain to the bald mountain just now. Han Fei looked back, only to be horrified. The entire mountain where he was just now was ablaze now.

The Female Ba didn't stop Han Fei from moving, but her body kept blocking a hundred meters in front of Han Fei.

Just now, the old turtle reminded Han Fei that what she wanted to wear was not green clothes, but the life essence condensed from the vitality of spiritual plants.

At this moment, the battle suit was formed, and Han Fei threw out a drop of Life Spring Water without hesitation. When the Life Spring Water was poured into the materials of the battle suit, the Female Ba had already come 30 meters away from Han Fei. She seemed very excited.

Outside the island, the White Armor Emperor said with an ugly expression, "Mu Wuhua, when did you become so generous? Is the Life Spring Water something a junior can use at will? It seems that you, Water-Wood World, have paid a lot for this battle!"

Queen Life was speechless. Is this the use of my Life Spring Water in Han Fei's hands? To pass the levels?

However, on the surface, Queen Life looked calm. She just smiled and didn't even look at the White Armor Emperor.

No one was blind. At the moment when vitality appeared, at the moment when the Female Ba was moved, they knew that what the Female Ba really wanted was not a battle suit, but vitality.

A drop of Life Spring Water represented a hundred years of life, but this wasn't absolute. It depended on the strength and level of the taker.

Considering the strength of this Female Ba, a hundred-year-old vitality was extremely valuable.

When Han Fei's last hammer fell, he didn't immediately give the clothes to the Female Ba but said seriously, "I can give you the green clothes, but you have to let me pass."

When the Female Ba heard this, she hesitated for a long time, but in the end, she couldn't resist the temptation of vitality and directly moved aside.

Han Fei smiled and threw the green dress to her, before he rushed past her.

The moment Han Fei left, the Female Ba didn't chase him but immediately put on the green dress. However, Han Fei didn't see this scene.

At that moment, flesh and blood grew on the Female Ba's body and began to rapidly grow. The drop of Life Spring Water in her green dress was rapidly consumed.

Of course, what happened next was not Han Fei's business. He didn't know how long the green dress could last.

At this moment, Han Fei finally came to the mountain behind the Female Ba.

Normally, there was nothing on the mountain, but there was a huge crack on the mountain, which was nearly 100 meters deep and dozens of meters wide.

There didn't seem to be anything in this crevice, but the dragon might Han Fei felt at this moment came from the crevice. It was very likely that before Zhang Xiaotian's tribulation, there was nothing unusual here.

Han Fei stood at the entrance, feeling a strong sense of crisis, as if there was some danger waiting for him in this crack.

However, he had already come here and had paid a drop of Life Spring Water, and nearly half of the resources in Forge the Universe had been consumed. Han Fei would never give up so easily.

Therefore, Han Fei only paused at the entrance of the cave for a moment and immediately got into the crack.

As soon as he passed the crevice, Han Fei felt that he had entered a special place. There was a special barrier that completely blocked his perception. It seemed that the entire space had been opened into a small world.

The old turtle said, "Huh! I knew that there was more than one place where the Heavenly Secrets were hidden. The Heavenly Secrets here are also chaotic. Once you enter, the outside world won't know what happened inside. In such an environment, even a king can't peep in."

Han Fei was standing before a cave full of quartz crystals. The crystals were colorful and beautiful.

The cave alone looked extraordinary. It had a radius of more than 50 meters, which was like a snake cave.

At this moment, Han Fei was trembling all over as if there was a dangerous place in this cave.

In fact, through Little White's keen perception, Han Fei found that there was still danger.

Instantly, Han Fei felt tired. There was really one test after another. How f*cking lucky was a person to happen to come here and pick up the Dragon Essence Energy here?

While communicating with the old turtle, Han Fei stepped into the cave. It was a bit different from what he expected. When Han Fei walked out of the cave, he didn't encounter any danger.

After walking for about ten minutes in the cave, Han Fei finally walked to a huge place similar to an underground square. Here, Han Fei finally felt danger.

The place where Han Fei was now was still as intimidating as those just now, and Han Fei felt that the pressure was getting heavier and heavier.

At this moment, Han Fei frowned.

Although the underground space was full of quartz crystals, Han Fei's first gaze was on the two stone statues.

Or rather, the only traces of human activity left here were the two identical stone statues.

It was a weird human-faced creature that looked like a dragon but not a dragon, like a dog but not a dog, and not a kirin.

Before Han Fei asked, the old turtle said, "These are the stone statues of two ancient big Hous. I know of such creatures. Although there aren't many of them, there are some."

"Hou?"

Han Fei couldn't help walking forward, planning to take a closer look. What if the two stone statues were made of special materials?

However, when Han Fei approached one of the statues, information popped up in his eyes.

< Name > Stone Hou

< Introduction > A special creature formed by the power of faith of a real ancient beast. When it was alive, it was a Ba, pulling the carriage for an emperor. Because it followed the emperor all its life, it was extremely proud. The emperor left but didn't return, so the two Hous refused to eat and died, but their power of faith remains, waiting for the emperor to return, so they are also called "Longing for the Emperor's Return".

< Level > 79

< Enforcing law > Withering Fire

< Spiritual Energy > 188,256

< Realm > Dao seeking

< Battle Technique > Devouring vitality, Dragon Roar

< Unabsorbable >

< Remarks > Don't trespass on the emperor's territory, or the Stone Hous will wake up.

Han Fei couldn't have felt more awful when he saw the message. The creatures evolved from Drought Bas!

Also, they turned out to be special beasts that were pulling a carriage for an emperor. According to the information, Han Fei suspected that the so-called emperor was an Azure Dragon.

Crack!

Just as Han Fei finished reading the information, he suddenly heard a crisp crack, which sounded in this underground space.

Han Fei: "..."

Chapter 1340: Ancient Stone Hous

Han Fei was wondering why a stone statue's information could be shown.

At this moment, Han Fei was speechless. The eyes of the two Stone Hous were filled with fiery flames, and the stone statues were full of cracks.

However, just because they were full of cracks didn't mean that something would come out of the stone statues. The cracks on the Stone Hous' bodies seemed to show all its meridians, and flames immediately filled these cracks and covered their entire bodies.

"Roar... Roar..."

The two gigantic Stone Hous roared at the sky and spewed out columns of fire. They had actually come back to life.

It was not that their lives were recovering, but that they sensed the breath of an outsider, so some kind of power made them revive spontaneously.

"Son of a b * tch, are these two Half-Venerables?"

Fortunately, this was a small world and the Heavenly Secrets here were in chaos, so Han Fei wasn't much shocked.

With a thought from him, Yu Wendao appeared.

Han Fei said, "Old turtle, you deal with one Hou with Yu Wendao, and I'll deal with one myself."

The old turtle was lost for words. "Do you think you can resist the power of a Half-Venerable? If I've guessed right, the Roar Dragon was transformed from Ba, so no matter in strength, physique, or combat power, the ancient Great Hous are stronger than that Female Ba!"

Han Fei thought to himself, Do I need you to tell me this? I can already tell that no matter if it's spiritual energy, the power of enforcing law, or combat skills, they are all superior to that Female Ba!

Han Fei gritted his teeth. "Let's fight first. If we can't beat them, I'll turn to my junior sister for help. Also, Zhang Yao has already become a Venerable and can be used by me. However, I want to fight them in person to see if my physique is weaker or stronger than these ancient creatures."

When he was fighting the Female Ba just now, although Han Fei was beaten up, there were too many people watching, so he didn't really use all his strength.

At this moment, no outsider was here. If Han Fei still didn't dare to fight, he would seem too timid. If he needed the help of others even in this situation, how could he survive outside?

"Fuse."

"Devil Change."

"Beast King Technique."

"Sacrificing Punch."

Han Fei's body suddenly expanded. The two Stone Hous were not small, with each about 20 meters long. Han Fei did not fight with his own body, but turned into a big ape.

Buzz!

A fist the size of a water tank burst out a strange red light, and the Sacrificing Punch blasted out at a Stone Hou.

There was a saying that to take your enemy's life while he was sick. Although the Stone Hous hadn't fully recovered, Han Fei couldn't believe that this kind of creature was not hostile! Its whole body was cracked and glowing red, like a vicious dog from hell. And its eyes were so murderous. How could Han Fei give them a chance to attack him?

As soon as the battle started, Han Fei went all out.

On the other side, black fog was spreading, and Yu Wendao had already rushed into the black fog. The old turtle and Yu Wendao tied up one Stone Hou.

Boom! Boom!

A Stone Hou that was more than 20 meters long was punched to roll dozens of times on the ground. Wherever it passed, quartz crystals broke and the ground was crushed into a long ravine.

Han Fei felt lucky that this thing had just been resurrected. Otherwise, he wouldn't have been able to defeat it.

However, Han Fei still did not dare to underestimate it at all. The moment the Stone Hou flew out, he had already caught up with it, holding Snowmourn in his hand, giving the Stone Hou no chance at all.

Sure enough, when a gully several kilometers long appeared in the cave, the Stone Hou rolled and tried to get up.

Seeing this situation, Han Fei was a little stunned. Can you still crawl and jump after my powerful punch?

"Slash!"

Shua!

He activated the Draw Technique on the Stone Hour's neck, which was ablaze, but the neck was not cut off. There was only a big cut with red flames spewing out.

As soon as the flames appeared, they were gathering and entangling Han Fei.

"Withering Fire?"

Perhaps because the time was too short, the Stone Hou failed to use its strength in time, so Han Fei had the time to attack it. However, it was only slightly injured.

Shua!

Han Fei flashed to the other side to avoid the withering fire. At that moment, the Infinity Water slipped into the wound on its neck.

“Explode!”

Boom ~

In the Stone Hou’s body, a shock wave suddenly burst out, and the quartz crystals in all directions were crushed into powder in an instant. This Stone Hou was smoking all over, releasing scorching aftershock and black smoke from its mouth, eyes, and all its pores.

Seeing this scene, Han Fei was dumbfounded. He knew that the cultivators who walked the body refining path were very strong, but he didn’t expect the body refining path to be so strong.

Infinity Water! When it exploded in its body, there were only less than ten damaged areas. Perhaps the Stone Hou had taken those holes as air vents, but at this moment, it let out a cry and jumped up again.

“Collect!”

Han Fei extended one hand and attached all the Void Lines to the Stone Hou.

However, there was no telling if the Stone Hou’s will was too strong or its realm was much higher. Once Han Fei tried to control its body, the Stone Roar’s soul resisted violently.

It struggled so hard that Han Fei’s face was bleeding.

However, compared to their physique, the Stone Hou’s soul was relatively easier to deal with. This was because Han Fei sensed that the remaining energy of the Stone Hou was very little.

The reason why it was difficult to deal with was that this kind of willpower was too strong and firm. Even if all his Void Lines were attached to it, after repeated soul attacks, he still felt it was difficult to control.

While struggling, the Stone Hou opened its mouth that was full of sharp teeth and let out a dragon roar.

“Roar!”

Seeing that the sound wave almost vibrated, Han Fei immediately activated the Hundred Beast Soul Subduing Roar. Otherwise, Han Fei was afraid that his soul would be injured.

“Roar!”

The dragon roar and the Hundred Beast Soul Subduing Roar erupted at the same time, and golden blood spurted out of Han Fei’s seven orifices.

Bam! Bam!

However, in comparison, Han Fei was better. He only vomited blood from his seven orifices, but the Stone Hou’s two burning eyes exploded.

Roar!

Han Fei felt a head bump against his chest, as if a mountain was pressing down on him, making him pause and unable to breathe.

At the same time, a big mouth suddenly bit his chest.

Chi la!

His flesh and blood were torn apart, and Han Fei immediately felt his vitality flowing away. This Stone Hou seemed to be trying to devour his vitality.

Clang!

Han Fei couldn't hold it back anymore. He held two sledgehammers in his hands and launched a pincer attack. After blasting the head of the Stone Hou, the Hundred War Divine Hammer erupted.

Clang! Clang! Clang!

Swish! Swish! Swish!

Han Fei's figure flashed quickly, and the sledgehammer in his hand struck frantically hundreds of times in an instant, hitting the head of the Stone Hou.

In the end, Han Fei didn't know if it was because he had taken the upper hand or if the Stone Hou's strength was declining. Although Han Fei's hand hurt a little, he saw that the Stone Hou's head was sunken and broken.

In an instant, a round of the Hundred War Divine Hammer passed, and the second round began.

Bombarded by Han Fei, the Stone Hou couldn't make a dragon roar at this time, nor could he swallow vitality, so it tried to release the Withering Fire.

However, the Infinity Water was not a decoration. At this moment, the Infinity Water was cutting frantically in its body. Many times, the flames failed to leave the Stone Hou's body and were forcibly extinguished by the Infinity Water.

Compared to the earth-shaking battle on Han Fei's side, Han Fei saw that Yu Wendao was blasted out of the black mist again and again. In the end, when Yu Wendao came out again, his body was a little broken and full of teeth marks.

Han Fei asked, "Old turtle, how is it going? Can you handle it?"

The old turtle said, "Not bad. Although these two Stone Hous are strong, they are not difficult to deal with. Their strength lies in their solid Dao hearts. As long as you can suppress them in all aspects, or your Dao heart is stronger than theirs, it won't be a problem for you to kill them."

Han Fei was briefly stunned. This wasn't the first time the old turtle mentioned the Dao Heart to him. Although the Stone Hou was a Half-Venerable creature, it was still a stone! It was just controlled by a wisp of will. It had the strength of a Half-Venerable but no brains. Therefore, Han Fei could slowly grind it to death.

Not long after the old turtle finished speaking, the black fog dissipated, and Yu Wendao came out of the black fog. In the black fog, there was only a pile of broken stones.

On Han Fei's side, the Hundred War Divine Hammer had come to the eighth round, but the Stone Hou's head had just sunken. Han Fei was a little tired.

Han Fei suddenly issued an order in his heart and activated his Dao Seed, transmitting a fake Great Dao will to this Stone Hou from his mind. "The Emperor has returned."

The Stone Roar's hollow eyes and ferocious expression immediately began to change. Its narrowed ferocious black eyes widened, and the ferocious expression on its face disappeared.

"Now, die..."

Han Fei took the opportunity to hammer down and the Stone Roar shattered.

The ninth round of the Hundred War Divine Hammer finally killed the Stone Hou. Han Fei sat on the ground, wiped the blood at the corner of his mouth, and murmured, "Dao heart?"
